

Migratory Bird Joint Ventures

CONSERVING BIRDS AND THEIR HABITATS THROUGHOUT NORTH AMERICA

A Shared Vision

Joint Ventures work together to build a healthy world for birds, other wildlife, and people.

Migratory Bird Joint Ventures Provide...

- ◆ **a landscape-scale record of success** - First established by the North American Waterfowl Management Plan in 1986, twenty-four Joint Ventures in the U.S., Canada, and Mexico address the needs of all North American birds.
- ◆ **non-partisan solutions** - Joint Venture partnerships work across political boundaries to find answers to complex conservation issues.
- ◆ **economic vitality for local communities** - Our projects support jobs in tourism, construction, technology, restoration, forest products, and more.
- ◆ **connections between people and nature** - We engage people in conservation and create spaces that provide recreational opportunities, support healthy lifestyles, and link people with the outdoors.
- ◆ **healthy communities** - Our projects contribute to clean and sustainable municipal water supplies; flood prevention; stormwater management; pollution control; carbon sequestration; and sustainable agriculture.

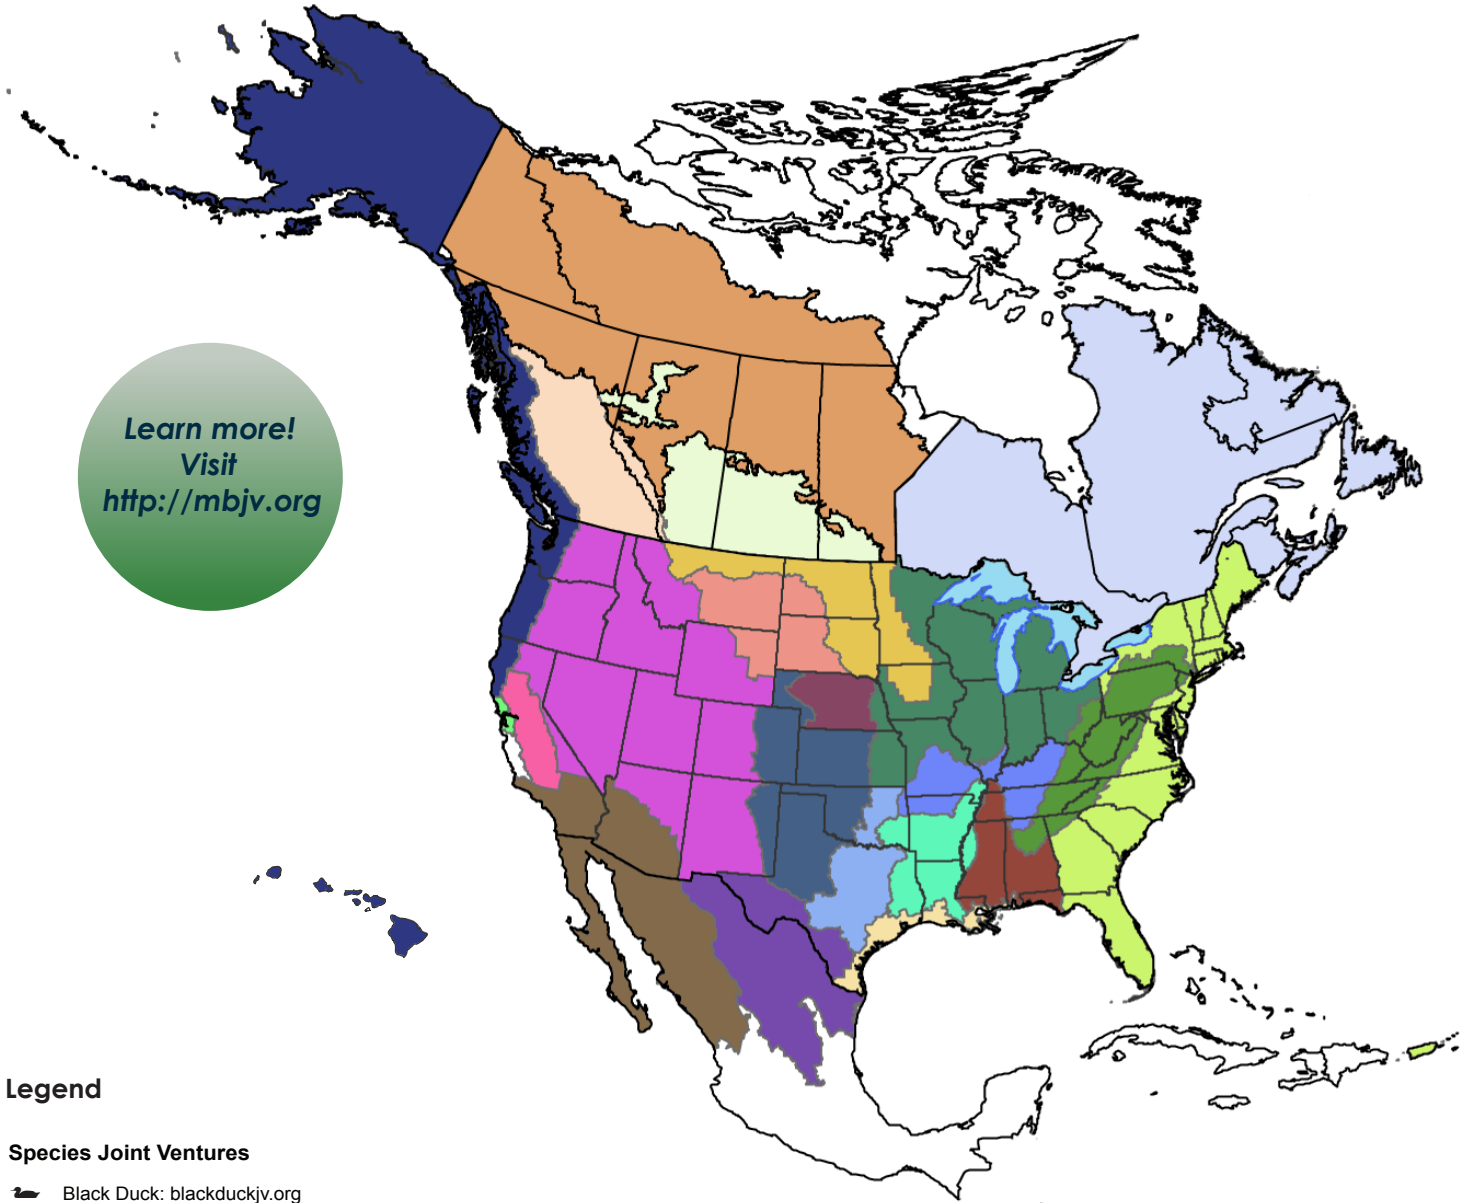

Cost-effective Conservation

Over the course of our history, Joint Ventures have worked with over **5,700 partners to help enhance, conserve, restore, and protect nearly 24 million acres** of essential habitat across North America. We have **leveraged every dollar of federally appropriated funds at a**
