NOTICE OF TECHNICAL CONFERENCE

(December 4, 2015)

By order dated November 24, 2015,¹ the Commission directed Commission staff to conduct a technical conference in the above-referenced proceedings. The technical conference is scheduled for January 12, 2016, at the Commission's headquarters at 888 First Street, NE, Washington, DC 20426 between 10:00am and 4:00pm (Eastern Time).

In the November 2015 Order, the Commission found that the assignment of cost allocation for the projects in the filings and complaints listed in the caption using PJM's solution-based distribution factor (DFAX) cost allocation method had not been shown to be just and reasonable and may be unjust, unreasonable, or unduly discriminatory or preferential. The Commission directed its staff to establish a technical conference to explore both whether there is a definable category of reliability projects within PJM for which the

solution-based DFAX cost allocation method may not be just and reasonable, such as projects addressing reliability violations that are not related to flow on the planned transmission facility, and whether an alternative just and reasonable *ex ante* cost allocation method could be established for any such category of projects.

Parties wishing to speak or make presentations regarding the two issues discussed above must submit their requests on or before December 18, 2015 to <https://www.ferc.gov/whats-new/registration/01-12-16-speaker-form.asp>. Parties with similar interests are encouraged to agree on a single representative for their interests. Speakers and presentations will be selected so that relevant interests are represented and to accommodate time constraints. An agenda with the list of selected speakers and presentations will be available prior to the event on the web calendar on the Commission's website, www.ferc.gov.

Pre-technical conference comments (with a ten page limit) on these issues should be filed in all the dockets listed above no later than January 6, 2016. A schedule for post-technical conference comments will be established at the technical conference.

The technical conference is open to the public. The Chairman and Commissioners may attend and participate in the technical conference.

Pre-registration through the Commission's website <https://www.ferc.gov/whats-new/registration/01-12-16-form.asp> is encouraged by December 18, 2015, to help ensure sufficient seating is available.

This conference will also be transcribed. Interested persons may obtain a copy of the transcript for a fee by contacting Ace-Federal Reporters, Inc. at (202) 347-3700.

In addition, there will be a free audio cast of the conference.
