National Priorities Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is “Yes”, do not answer any other national level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	Yes <input type="radio"/> or No <input type="radio"/>
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	Yes <input type="radio"/> or No <input type="radio"/>
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated “impaired water body” (TMDL, 303d listed waterbody, or other State designation)?	Yes <input type="radio"/> or No <input type="radio"/>
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a “non-impaired water body”?	Yes <input type="radio"/> or No <input type="radio"/>
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	Yes <input type="radio"/> or No <input type="radio"/>
Water Conservation – Will the proposed project conserve water by: (select all that apply)	
3. a. Implementing irrigation practices that reduce aquifer overdraft.	Yes <input type="radio"/> or No <input type="radio"/>
3. b. Implementing irrigation practices that reduce on-farm water use?	Yes <input type="radio"/> or No <input type="radio"/>
3. c. Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	Yes <input type="radio"/> or No <input type="radio"/>
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	Yes <input type="radio"/> or No <input type="radio"/>
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	Yes <input type="radio"/> or No <input type="radio"/>
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	Yes <input type="radio"/> or No <input type="radio"/>
4. c. Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	Yes <input type="radio"/> or No <input type="radio"/>
4. d. Implementing practices that increase on-farm carbon sequestration?	Yes <input type="radio"/> or No <input type="radio"/>
Soil Health:– Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil “T”)?	Yes <input type="radio"/> or No <input type="radio"/>
5. b. Increasing organic matter and carbon content, and improving soil tilth and structure?	Yes <input type="radio"/> or No <input type="radio"/>
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	Yes <input type="radio"/> or No <input type="radio"/>
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation	Yes <input type="radio"/> or No <input type="radio"/>

Reserve Program (CRP) or other set-aside program?	
6. c. Implementing practices benefitting honey bee populations or other pollinators?	Yes <input type="radio"/> or No <input type="radio"/>
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	Yes <input type="radio"/> or No <input type="radio"/>
Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	Yes <input type="radio"/> or No <input type="radio"/>
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	Yes <input type="radio"/> or No <input type="radio"/>
Energy Conservation– Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	Yes <input type="radio"/> or No <input type="radio"/>
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	Yes <input type="radio"/> or No <input type="radio"/>
Business Lines – Will the practices to be scheduled in the “EQIP Plan of Operations” result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	Yes <input type="radio"/> or No <input type="radio"/>

State Issues Addressed

Issue Questions	Responses
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering “Yes” to the following question. Answering “Yes” to question 1a will result in the application being awarded the maximum amount of points that can be earned for the state priority category.	
1. a Is the program application for development of a Conservation Activity Plan (CAP) for a TSP prepared Transition to Organic Plan (138)? If answer is “Yes”, do not answer any other state level questions. If answer is “No”, proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
Soil Quality Degradation: Maximum 60 points.	
2. Does the EQIP Schedule of Operations includes implementation of one or more soil quality or enhancing practice(s) that addresses soil tilth, crusting, water infiltration, organic matter, compaction, etc.?	Yes <input type="radio"/> or No <input type="radio"/>
Soil Erosion: Maximum of 60 points	
3. Does the EQIP Schedule of Operations include practices that will result in reduction of erosion?	Yes <input type="radio"/> or No <input type="radio"/>
Water Quality Degradation: Maximum of 70 points.	
4. a Does the EQIP Schedule of operations include implementation of practices for the management of noxious and invasive species ONLY on “non-cropland” acreage?	Yes <input type="radio"/> or No <input type="radio"/>
4. b Does the EQIP Schedule of Operations include implementation of Nutrient management for management of soil fertility, plant nutrients, and soil amendments?	Yes <input type="radio"/> or No <input type="radio"/>
Degraded Habitat : Maximum of 90 points	
5. a Does the EQIP Schedule of Operations include practices that will result in creation of buffer zones that will mitigate offsite contaminates from entering the farm?	Yes <input type="radio"/> or No <input type="radio"/>
5. b Does the EQIP Schedule of Operations include practices with the intent of increasing habitat for pollinators and/or beneficial insects?	Yes <input type="radio"/> or No <input type="radio"/>
5. c Does the EQIP Schedule of Operations include practices that will improve wildlife habitat?	Yes <input type="radio"/> or No <input type="radio"/>
Insufficient Water: Maximum of 50 points.	
6. Does the EQIP Schedule of Operations include practices that will improve the efficiency of an existing irrigation system and/or conserve soil moisture?	Yes <input type="radio"/> or No <input type="radio"/>
Livestock Production Limitation: Maximum of 70 points	
7. a Does the EQIP Schedule of Operations include implementation of practices to improve the management of plant species, livestock, residues, feed, and other identified resource needs?	Yes <input type="radio"/> or No <input type="radio"/>
7. b Does the EQIP Schedule of Operations include implementation of practices that limit and manage domestic livestock access to streams, creeks, and other natural water bodies?	Yes <input type="radio"/> or No <input type="radio"/>

7. c Does the EQIP Schedule of Operations include implementation of practices to assure adequate domestic livestock drinking water sources (not including streams) are available in the treatment unit?	Yes <input type="radio"/> or No <input type="radio"/>
---	---

Local Issues Addressed

Issue Questions	Responses
1. Is the program application for development of a Conservation Activity Plan (CAP) for a TSP prepared Conservation Plan Supporting Organic Transition (138)? If answer is "Yes", do not answer any other local level questions and award 250 points. If answer is "No", proceed with evaluation to address the remaining questions in this section.	Yes <input type="radio"/> or No <input type="radio"/>
2. a. EQIP plan schedule of operations provides for implementation of all funded practices within two years or less. 10 points	Yes <input type="radio"/> or No <input type="radio"/>
2. b. EQIP plan schedule of operations provides for implementation of all funded practices within three years. 5 points	Yes <input type="radio"/> or No <input type="radio"/>
3. Soil Condition: EQIP plan includes implementation of practice 590-Nutrient Management to FOTG planning criteria for management of soil fertility, plant nutrients, and soil amendments. 40 points	Yes <input type="radio"/> or No <input type="radio"/>
4. Soil Erosion: EQIP plan includes practices which will result in measurable reduction of erosion from ALL sources OR participant has already addressed all erosion problems to FOTG planning criteria standards. 40 points	Yes <input type="radio"/> or No <input type="radio"/>
5. Water Quality: EQIP plan includes practices that will result in reduction of non-point source pollution (e.g., nutrients, pesticides, sediment) leaving the treatment unit to FOTG planning criteria standards. 40 points	Yes <input type="radio"/> or No <input type="radio"/>
6. Water Quality: EQIP plan includes practices that will manage excess surface water discharge from the treatment unit to an impaired water body (e.g. EPA 303d list, etc.) to FOTG planning criteria standards. 40 points	Yes <input type="radio"/> or No <input type="radio"/>
7. Plant Condition: EQIP plan includes practices which will result in management of vegetation and surface residues to FOTG planning criteria standards. 40 points	Yes <input type="radio"/> or No <input type="radio"/>
8. Domestic Animals: EQIP plan includes implementation of practices to assure adequate clean off-stream domestic livestock drinking water sources are available in the treatment unit and meets FOTG planning criteria standards. 40 points	Yes <input type="radio"/> or No <input type="radio"/>
