National Priorities Addressed

Issue Questions	
If the application is for development of a Conservation Activity Plan (CAP), the agency will assign significant ranking priority and conservation benefit by answering "Yes" to the following question. Answering "Yes" to question 1a will result in the application being awarded the maximum amount of points that can be earned for the national priority category.	
1. a. Is the program application to support the development of a Conservation Activity Plan (CAP)? If answer is "Yes", do not answer any other national level questions. If answer is "No", proceed with evaluation to address the remaining questions in this section.	
Water Quality Degradation – Will the proposed project improve water quality by: (select all that apply)	
2. a. Implementing the practices in a Comprehensive Nutrient Management Plan (CNMP)?	Yes O or No O
2. b. Implementing the practices in a Nutrient Management Plan (NMP)?	Yes O or No O
2. c. Reducing impacts from sediment, nutrients, salinity, or pesticides on land adjoining a designated "impaired water body" (TMDL, 303d listed waterbody, or other State designation)?	Yes O or No O
2. d. Reducing the impacts from sediment, nutrients, salinity, or pesticides in a "non-impaired water body"?	
2. e. Implementing practices that improve water quality through animal mortality and carcass management?	
Water Conservation – Will the proposed project conserve water by: (select all that apply)	
3. a. Implementing irrigation practices that reduce aquifer overdraft.	Yes O or No O
3. b. Implementing irrigation practices that reduce on-farm water use?	Yes O or No O
3. c.Implementing practices in an area where the applicant participates in a geographically established or watershed-wide project?	
3. d. Implementing practices that reduce on-farm water use as a result of changing to crops with lower water consumptive use, the rotation of crops, or the modification of cultural operations?	
Air Quality - Will the proposed project improve air quality by: (select all that apply)	
4. a. Meeting on-farm regulatory requirements relating to air quality or proactively avoid the need for regulatory measures?	Yes O or No O
4. b. Implementing practices that reduce on-farm emissions of particulate matter (PM2.5, PM10)?	Yes O or No O
4. c.Implementing practices that reduce on-farm generated greenhouse gases such as carbon dioxide (CO2), methane (CH4), and nitrous oxide (N2O)?	Yes O or No O
4. d. Implementing practices that increase on-farm carbon sequestration?	Yes O or No O
Soil Health:- Will the proposed project improve soil health by: (select all that apply)	
5. a. Reduce erosion to tolerable limits (Soil "T")?	Yes O or No O
5. b.Increasing organic matter and carbon content, and improving soil tilth and structure?	Yes O or No O
Wildlife Habitat – Will the proposed project improve wildlife habitat by: (select all that apply)	
6. a. Implementing practices benefitting threatened and endangered, at-risk, candidate, or species of concern.	Yes O or No O
6. b. Implementing practices that retain wildlife and plant habitat on land exiting the Conservation	Yes O or No O

Reserve Program (CRP) or other set-aside program?	
6. c. Implementing practices benefitting honey bee populations or other pollinators?	
6. d. Implementing land-based practices that improve habitat for aquatic wildlife?	
Plant and Animal Communities: Will the proposed project improve plant and animal communities by: (select all that apply)	
7. a. Implementing practices that result in the management control of noxious or invasive plant species on non-cropland?	Yes O or No O
7. b. Implementing practice in an Integrated Pest Management Plan (IPM)?	Yes O or No O
Energy Conservation—Will the proposed project reduce energy use by: (select all that apply)	
8. a. Reducing on-farm energy consumption?	Yes O or No O
8. b. Implementing practice(s) identified in an approved AgEMP or energy audit, which meet ASABE S612 criteria?	Yes O or No O
Business Lines – Will the practices to be scheduled in the "EQIP Plan of Operations" result in:	
9. a. Enhancement of existing conservation practice(s) or conservation systems already in place at the time the application is received?	Yes O or No O

State Issues Addressed

Issue Questions	
1. Is the program application for development of a Conservation Activity Plan (CAP) for a TSP prepared Conservation Plan? If 'Yes', do not answer any other state level questions. If 'No', proceed with responding to the remaining questions.	
2. Will practices address soil erosion or water quality on cropland fields: 1) with slopes greater than 7%; 2) that are annually tilled; or 3) that are located within 1 mile of surface waters?	
3. Will practices make improvements to grazing lands by: 1) implementing prescribed grazing; 2) improving feed/forage, livestock shelter, livestock water; or 3) addressing invasive species?	
4. Will practices include installation or enhancement of: 1) native forest habitat; or 2) mixed agroforest as detailed in PIA Forestry/Agroforestry Tech Note No. 11?	
5. Will practices address water quality on an AFO that is located: 1) within 300 feet of a surface water resource (e.g., stream, ocean); 2) above an area with sensitive or shallow ground water resources; 3) in a watershed of a 303(d) designated water body impaired for nutrients or pathogens; or 4) in a locally designated (i.e., EPA) impaired watershed?	
6. Will this be the first financially assisted (i.e., EQIP) contract for the applicant if selected for funding?	Yes O or No O
7. In past 2 years, has the applicant had an EQIP/AMA contract with non-performance issues (i.e., CPA-153 issued; practices rescheduled) that were within their control? Answer 'No' if circumstances were beyond client's control (i.e., hardship as approved by NRCS; jobsheet/design not received in a timely manner).	

Local Issues Addressed

Issue Questions	
1. Is the program application for development of a Conservation Activity Plan (CAP) for a TSP prepared Conservation Plan? If 'Yes', do not answer any other local level questions. If 'No', proceed with responding to the remaining questions.	
2. Will practices reduce soil erosion, sedimentation, or non-point source pollution (e.g., nutrients, pesticides) in impaired watersheds?	
3. Will practices improve soil health by adopting at least 2 of the following principles: reducing tillage, increasing soil cover or plant coverage, maintaining live roots, and increasing plant diversity?	
4. Will practices improve habitat for pollinators?	
5. Will practices improve wildlife habitat for "at-risk species" (threatened, endangered, candidate, species of concern)?	
6. Will practices improve native habitat that is adjacent or connected to a native forest reserve, wildlife refuge, or other preserved forest/riparian area (e.g., project area shares a boundary with a forest reserve, wildlife refuge, etc.)?	
7. Will practices result in energy savings?	Yes O or No O
