| Basin | Number of Fields | Total Liquid Reserves (Mbbbls) | Total Gas Reserves (MMcf) | Total BOE Reserves (Mbbbls) |
|---|------------------|--------------------------------|---------------------------|-----------------------------|
| NORTH ALASKA BASIN (onshore portion only) | 23 | 4,033,958 | 6,334,069 | 5,089,636 |

- Northern Alaska Oil and Gas Fields
2004 Onshore Area Gas Reserve Class**
- No 2004 Gas Reserves
 - 0.1 - 10 MMCF
 - 10.1 - 100 MMCF
 - 100.1 - 1,000 MMCF
 - 1,000 - 10,000 MMCF
 - 10,000 - 100,000 MMCF
 - > 100,000 MMCF
 - Boundary of Fields in Offshore
 - Trans Alaska Pipeline System

The mapped oil and gas field boundary outlines were created by the Reserves and Production Division, Office of Oil and Gas, Energy Information Administration pursuant to studies required by Section 604 of the Energy Policy and Conservation Act Amendments of 2000 (P.L. 106-469). The boundaries are not informed by subsurface structural information. The data and methods used in their creation are detailed in a report, "Scientific Inventory of Onshore Federal Lands' Oil and Gas Resources and Reserves and the Extent and Nature of Restrictions to Their Development", prepared by the US Departments of Interior, Agriculture and Energy.

Onshore elevation shaded relief from National Snow & Ice Data Center (NSIDC) which is part of the Cooperative Institute for Research in Environmental Sciences (CIRES) at the University of Colorado at Boulder.
Map created May 2008; projection is UTM-7, NAD-27.
