

discussed on page 66601 of the December 24, 1991, **Federal Register**, 40 CFR Part 300 which states sites should not be retained on the NPL which are otherwise eligible to be deleted simply because they haven't had a five year review. Of course, state-funded O&M and EPA-funded five-year reviews will continue in the future, but site deletion should proceed since applicable deletion criteria have been satisfied.

EPA, with concurrence of the State of Texas, has determined all appropriate Fund-financed responses under CERCLA at the Crystal City Airport Superfund site have been completed, and no further cleanup by responsible parties is appropriate. Moreover, EPA and the State of Texas have determined remedial actions conducted at the site to date are protective of public health, welfare, and the environment.

Dated: November 1, 1994.

Approved By:

Allyn Davis,

Regional Administrator.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

50 CFR Part 17

RIN 1018-

Endangered and Threatened Wildlife and Plants; Reopening of Comment Period on the 90-day Finding for the Petition to List the Queen Charlotte Goshawk as Endangered

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Status Review; Reopening of Comment Period.

SUMMARY: The U.S. Fish and Wildlife Service (Service) provides notice that the comment period on the proposal is reopened. The Queen Charlotte goshawk (*Accipiter gentilis laingi*) is found in forested areas of British Columbia and southeast Alaska. All interested parties are invited to submit comments regarding this species' status.

DATES: The comment period, which originally closed November 25, 1994, now closes February 9, 1995.

ADDRESSES: Data, information, comments or questions concerning the status of the petitioned species described below should be submitted to the Field Supervisor, U.S. Fish and Wildlife Service, Ecological Services, 3000 Vintage Blvd., Suite 201, Juneau, Alaska 99801. The petition, findings, and supporting data are available for public inspection, by appointment, during normal business hours at the above address.

FOR FURTHER INFORMATION CONTACT: John Lindell, Endangered Species Biologist (see ADDRESSES above) (907)/586-7240).

SUPPLEMENTARY INFORMATION:

Background

The Queen Charlotte goshawk occurs from Vancouver Island British Columbia, Canada, northward through insular British Columbia, insular and adjacent mainland Alaska west of the coastal mountain range, to the northern portions of the Alexander Archipelago, in southeast Alaska. The subspecies may be endangered by past and planned removal and fragmentation of mature forest habitat by clearcut logging.

The comment period for the status review originally closed on November

25, 1994. Since that date many parties have expressed interest in submitting substantive comments. In order to accommodate these parties, the Service is extending the comment period until February 9, 1995. Written comments may be submitted to the Service office in the **ADDRESSES** section.

Author

The primary author of this notice is John Lindell, U.S. Fish and Wildlife Service, Ecological Services Field Office, Juneau, Alaska 99801.

Authority

The authority of this action is the Endangered Species Act of 1973 (16 U.S.C. 1531 *et seq.*).

Dated: December 23, 1994.

David B. Allen,

Regional Director, Region 7, Fish and Wildlife Service.
