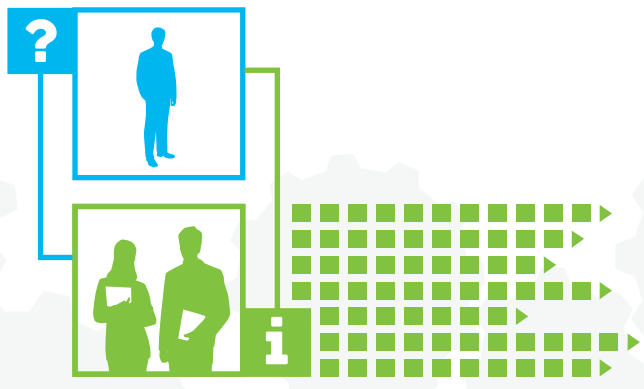
SOLAR TECHNICAL ASSISTANCE TEAM (STAT)

Providing unbiased information on solar policies and issues for state and local government decision makers.

STAT request process

1. Government official asks a question



2. STAT answers the question and shares knowledge at the local and state level through presentations, webinars, and whitepapers

3. Knowledge sharing results in development of solar market in communities across the United States

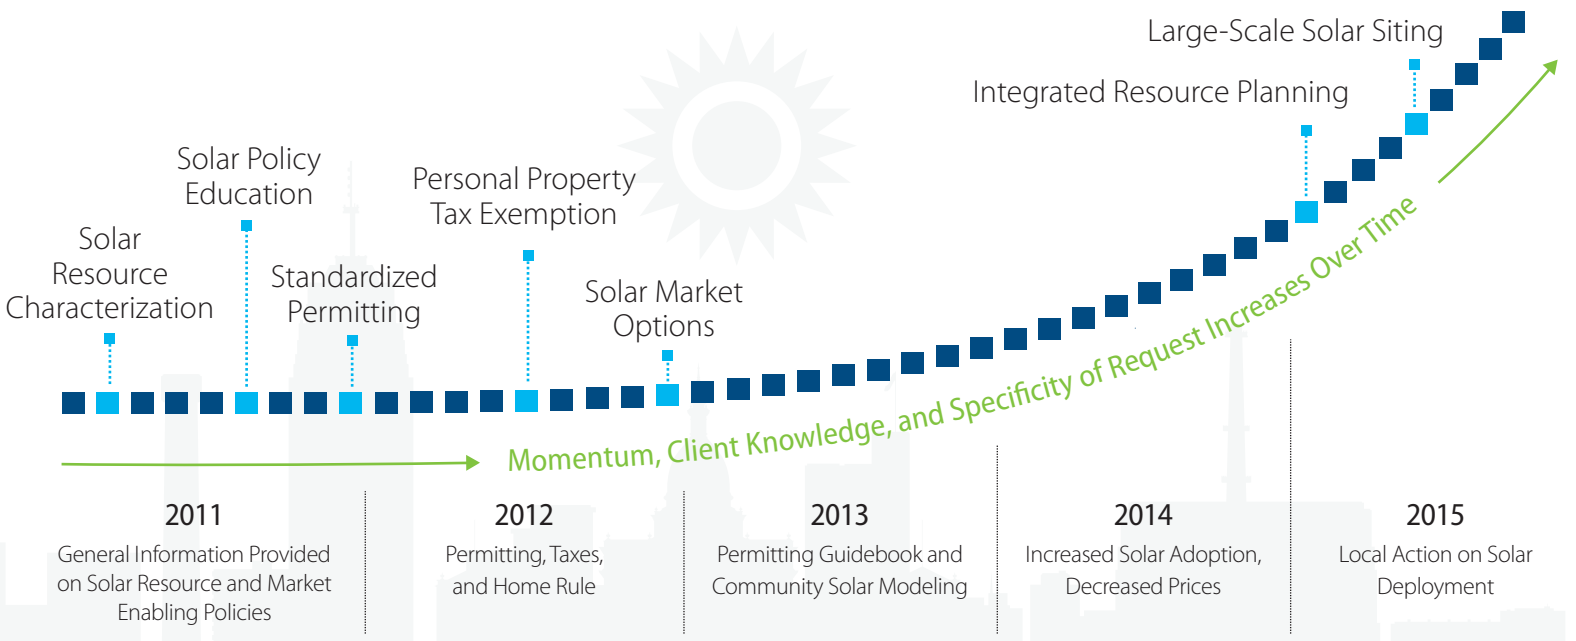
PATH TO SUCCESS

STAT Support of Michigan's Progress



INFORMATION CONNECTION

- **Replication**

  Illustrates how a TA request in one state may be used in another state. A request may be referenced many times to help other states answer similar questions.

- **Peer-to-peer**

  Connects communities with similar challenges to leverage lessons learned.

- **Feedback loops**

  Provide useful information that can be used to assist research and inform DOE about current and future needs.
