Subject: Re: POLLUTION TO AMERICA, BIG BUCKS TO MORGAN STANLEY TO EXPORT ENERGY

PUBLIC COMMNTN ON FEDERAL REGISTER

THE USA GETS THE POLLUTION FROM MAKING THE ELECTRICITY. THE BUYING CONTRY GETS CLEAN ENERGY. HOW DID THE USA GET INTO THIS DESTRUCTIVE AGENDA. I THINK WE NEED TO DENY MORGAN STANLEY THE RIGHT TO POLLUTE OUR COUNTRY SO THEY CAN MAKE MEXICO GREAT. NOBODY IN AMERICA HAS THE OBLIGATION TO MAKE MEXICO GRET AND WITH ALL THE ENERGY THEY WANT. WE GET THE POLLUTION FROM THIS. THE PEOPLE IN AMERICA DIE FROM THE POLLUTION. MORGAN STANLEY MAKES THE MONEY. THIS PLOT IF DESTRUCTIVE TO AMERICA. DENY THIS PERMIT. THIS COMMENT IS FOR THE PUBLIC RECORD. PLEASE RECEIPT. JEAN PUBLIEE JEANPUBLIC1@YAHOO.COM

DEPARTMENT OF ENERGY

[OE Docket No. EA-184-C]

Application To Export Electric Energy; Morgan Stanley Capital Group Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: Morgan Stanley Capital Group Inc. (Applicant or MSCG) has applied to renew its authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before October 27, 2016.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery

and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to Electricity.Exports@hq.doe.gov, or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. 824a(e)).

On December 7, 2011, DOE issued Order No. EA-184-B to MSCG, which authorized the Applicant to transmit electric energy from the United States to Mexico as a power marketer for a five-year term using existing international transmission facilities. That authority expires on December 7, 2016. On September 14, 2016, MSCG filed an application with DOE for renewal of the export authority contained in Order No. EA-184 for an additional five-year term.

In its application, MSCG states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that MSCG proposes to export to Mexico would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by the Applicant have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning MSCG's application to export electric energy to Mexico should be clearly marked with OE Docket No. EA-184-C. An additional copy is to be provided directly to Edward J. Zabrocki, Morgan Stanley & Co. LLC, 1585 Broadway, 3rd Floor, New York, NY 10036 and Allison E. Speaker, Sutherland Asbill & Brennan LLP, 700 Sixth Street NW., Suite 700, Washington, DC 20001.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at Angela.Troy@hq.doe.gov.

Issued in Washington, DC, on September 21, 2016.

Christopher Lawrence,
Electricity Policy Analyst, Office of Electricity Delivery and Energy Reliability.
