public comment on federal register 2016 - 26332

I very much oppose polluting America with this electricity generation and then shipping it to Mexico so that the pollution is in the USA but the use of the electricity is in Mexico. I do not think that the USA should allow any electricity generated in America to go out of this country. I am not in favor of this application by Castleton. I think it should be denied. This comment is for the public record. Please receipt. Jean Public
