**Subject:** Re: public COMMENT on federal register

why are presidential permits bein gissued so that profiteers can generate more energy than the usa needs so that some richwhite speculators can then sell it to mexico or canada. why do we pollute the usa with excess energy we dont need or want and then allow some hipsters to make big money taking it out of this country. we get the pollution from making the energyand mexico and canada gets clean energy because they are not making it, just buying it. HOW THE HELL DID THIS SCHEME COME UP. WHY NOT STOP THIS AND ISSUE PRESIDENTIAL PERMITS THAT ALLOW JUST WHAT WE NEED. WHY EXCESS FOR SPECIAL BUSINESSES THAT ARE NOT HELPING AMERICA AT ALL, JUST HELPING THEMSLEVES AND MAKING POLLUTION FOR US. THIS IS A SCAM AND SCHEME. I THINK IT NEEDS A NEW LOOK FOR THE BENEFIT SOF ALL 325 MILLION AMERICANS. THIS COMMETN IS FOR THE PUBLIC RECORD. PLEASE RECEIPT. JEANPUBLKIEE JEANPUBLIC1@YAHOO.COM

DEPARTMENT OF ENERGY

[OE Docket No. EA-433]

Application To Export Electric Energy; Soc[yicy]Volta Inc.

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

-----

SUMMARY: Soc[yicy]Volta Inc. (Soc[yicy]Volta or Applicant) has applied for authority to transmit electric energy from the United States to Canada pursuant to section 202(e) of the Federal Power Act.

DATES: Comments, protests, or motions to intervene must be submitted on or before December 28, 2016.

ADDRESSES: Comments, protests, motions to intervene, or requests for more information should be addressed to: Office of Electricity Delivery and Energy Reliability, Mail Code: OE-20, U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585-0350. Because of

delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail to [Electricity.Exports@hq.doe.gov](mailto:Electricity.Exports@hq.doe.gov), or by facsimile to 202-586-8008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b), 7172(f)) and require authorization under section 202(e) of the Federal Power Act (16 U.S.C. Sec. 824a(e)).

On November 10, 2016, DOE received an application from Soc[yicy]Volta for authority to transmit electric energy from the United States to Canada as a power marketer for five years using existing international transmission facilities. Soc[yicy]Volta has applied for market-based rate authority from the Federal Energy Regulatory Commission (FERC) to engage in the sale and purchase of electric energy to and from Independent System Operators and Regional Transmission Organizations.

In its application, Soc[yicy]Volta states that it does not own or operate any electric generation or transmission facilities, and it does not have a franchised service area. The electric energy that Soc[yicy]Volta proposes to export to Canada would be surplus energy purchased from third parties such as electric utilities and Federal power marketing agencies pursuant to voluntary agreements. The existing international transmission facilities to be utilized by Soc[yicy]Volta have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to be heard in this proceeding should file a comment or protest to the application at the address provided above. Protests should be filed in accordance with Rule 211 of the Federal Energy Regulatory Commission's (FERC) Rules of Practice and Procedures (18 CFR 385.211). Any person desiring to become a party to these proceedings should file a motion to intervene at the above address in accordance with FERC Rule 214 (18 CFR 385.214). Five copies of such comments, protests, or motions to intervene should be sent to the address provided above on or before the date listed above.

Comments and other filings concerning Soc[yicy]Volta's application to export electric energy to Canada should be clearly marked with OE Docket No. EA-433. An additional copy is to be provided directly to Ruta Kalvaitis Sku[ccaron]as, Pierce Atwood LLC, 1875 K. St., Suite 700, Washington, DC 20006.

A final decision will be made on this application after the environmental impacts have been evaluated pursuant to DOE's National Environmental Policy Act Implementing Procedures (10 CFR part 1021) and after a determination is made by DOE that the proposed action will not have an adverse impact on the sufficiency of supply or reliability of the U.S. electric power supply system.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/node/11845>, or by emailing Angela Troy at [Angela.Troy@hq.doe.gov](mailto:Angela.Troy@hq.doe.gov).

Issued in Washington, DC, on November 21, 2016.  
Christopher Lawrence,  
Electricity Policy Analyst, Office of Electricity Delivery and Energy Reliability.
