

TABLE OF CONTENTS

PART A. GRIZZLY BEARS

DESCRIPTION OF THE PROPOSED ACTION SPECIFIC TO GRIZZLY BEARS.....	A-1
Grizzly Bear Conservation Measures In The Proposed Action	A-1
The Forest’s Grizzly Bear Mitigation Plan.....	A-2
STATUS OF THE SPECIES	A-7
Life History	A-8
Current Status and Distribution	A-9
Status of the grizzly bear population in the CYE	A-10
Demographic factors affecting the status of the CYE grizzly bear population	A-14
Habitat factors affecting the CYE grizzly bear population.....	A-17
Status of grizzly bear populations in the YGBE, NCDE and Selkirk Ecosystem	A-22
ENVIRONMENTAL BASELINE.....	A-23
Status Of Grizzly Bears In The Action Area	A-23
Factors Affecting The Species Environmental Baseline In The Action Area	A-26
Habitat management	A-26
Other factors affecting the environmental baseline in the action area.....	A-32
EFFECTS OF THE ACTION.....	A-37
General Potential Effects Of Mining Operations On Grizzly Bears: Factors To Consider	A-38
Displacement.....	A-38
Human-caused grizzly bear mortality risk	A-42
Habitat fragmentation	A-45
Specific Effects Of The Rock Creek Mining Operations On Grizzly Bears	A-45
Displacement.....	A-45
Mitigation plan measures to reduce or avoid displacement.....	A-47
Human-caused grizzly bear mortality risk.....	A-68
Mitigation plan measures to reduce risk of human-caused grizzly bear mortality	A-74
Fragmentation	A-84
Mitigation plan measures to reduce and avoid fragmentation	A-87
Conservation Needs of the Species.....	A-90
Species Response to the Proposed Action	A-95
CUMULATIVE EFFECTS	A-99
CONCLUSION.....	A-101
INCIDENTAL TAKE STATEMENT	A-108
Amount or Extent of Take Anticipated.....	A-109
Effect of the Take.....	A-112

Reasonable and Prudent Measures.....	A-113
Terms and Conditions	A-113
Reporting Requirements	A-115
REINITIATION NOTICE	A-116
REFERENCES	A-117
APPENDICES	A-130

LIST OF FIGURES

Figure A1. Proposed Rock Creek Mine project site (from MDEQ and USDA 2001).....	ix
Figure A2. Cabinet-Yaak grizzly bear recovery zone.....	A-10

LIST OF TABLES

Table A1. The estimated annual implementation schedule for the Revett Silver Company Rock Creek Mine in Sanders County, Montana (from USDA 1998b).....	x
Table A2. The proposed surface disturbance and features associated with the Rock Creek Mine project (from USDA 1998b).....	xi
Table A3. Mitigation acres (from MDEQ and USDA 2001).....	A-5
Table A4. Year-round road closures associated with the Rock Creek Mine Project (from USDA 1998)	A-7
Table A5. Status of the Cabinet-Yaak recovery zone through 2005 in relation to the demographic recovery goals from the grizzly bear recovery plan (from Kasworm et al. in litt. 2006a).....	A-12
Table A6. Known grizzly bear mortalities associated with the Cabinet-Yaak recovery zone, 1982-2005. Shaded rows indicate human-caused mortalities (adapted from from Kasworm et al. 2005).	A-15
Table A7. Habitat Effectiveness in BMUs associated with the proposed Rock Creek Mine, per year. Shaded BMUs provide 70 percent or more habitat effectiveness (from USDA 2002b and USDA 2003).....	A-27

Table A8.	Percent of BMUs with open motorized route density greater than 1 mile per square mile, per year, compared to amended Forest Plan standards (FP). Shading indicates BMUs that currently meet the density of average female home range*, and bolding meets FP standards.(from USDA 2002b and USDA in litt. 2006).....	A-28
Table A9.	Percent of BMUs with total motorized route density exceeding 2 miles per square mile, per year, compared to amended Forest Plan standards (FP). Shading indicates BMUs that currently meet the density of average female home range*, and bolding meets FP standards (from USDA 2002b and USDA in litt. 2006).....	A-29
Table A10.	Percent core area in BMUs associated with the Rock Creek Mine project, per year, compared to amended Forest Plan standards (FP). Shading indicates BMUs that currently meet amount of core in an average female home range*, and bolding meets FP standards (from USDA 2002b and USDA in litt. 2006).....	A-30
Table A11.	Approximate acres of surface feature disturbances, influence zones, Cumulative Effects Model compensation levels and required replacement habitat associated with the proposed Rock Creek Mine (data from BA 1998).	A-52
Table A12.	Percent of BMUs with open motorized route density exceeding 1 mile per square mile (OMRD) and total motorized route density exceeding 2 miles per square mile (TMRD) (data from USDA 2002b; USDA in litt. 2006).	A-60
Table A13.	Percent core area in BMUs (data from USDA 2002b; USDA in litt. 2006a)..	A-62
Table A14.	Categories, numbers and percent of grizzly bear mortalities in the CYE between 1983 and 2005 compared to approximate Rock Creek Mine project mitigation funding allocated to efforts to reduce mortality (budgets and allocations may change).....	A-81
Table A15.	Major issues affecting grizzly bears in the CYE and mitigation plan funding.	A-97
Table A16.	Projected access management and habitat effectiveness conditions with implementation of the proposed Rock Creek Mine ⁵	A-107
