

# Existing and Proposed Boundaries

## JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM

### Cape Romano Unit P15/P15P

This draft map was produced by the U.S. Fish and Wildlife Service to show proposed boundary changes to the John H. Chafee Coastal Barrier Resources System as directed by Section 4 of the Coastal Barrier Resources Reauthorization Act of 2005 (Pub. L. 109-226).

The seaward side of the CBRS unit includes the entire sand-sharing system, including the beach and nearshore area. The sand-sharing system of coastal barriers is normally defined by the 30-ft bathymetric contour. In large coastal embayments and the Great Lakes, the sand-sharing system is defined by the 20-ft bathymetric contour or a line approximately one mile seaward of the shoreline, whichever is nearer the coastal barrier.

For additional information about the CBRA or CBRS, please visit [www.fws.gov/cbra](http://www.fws.gov/cbra).

- Existing System Unit Boundary
- Existing Otherwise Protected Area (OPA) Boundary; OPAs are identified on the map by the letter "P" following the unit number
- Proposed System Unit Boundary
- Proposed Otherwise Protected Area (OPA) Boundary; OPAs are identified on the map by the letter "P" following the unit number
