Oklahoma: Incorporation by Reference of Approved State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Solid Waste Disposal Act, as amended, commonly referred to as the Resource Conservation and Recovery Act (RCRA), allows the Environmental Protection Agency (EPA) to authorize States to operate their hazardous waste management programs in lieu of the Federal program. The EPA uses the regulations entitled “Approved State Hazardous Waste Management Programs” to provide notice of the authorization status of State programs and to incorporate by reference those

provisions of the State statutes and regulations that will be subject to the EPA’s inspection and enforcement. The rule codifies in the regulations the prior approval of Oklahoma’s hazardous waste management program and incorporates by reference authorized provisions of the State’s statutes and regulations.

DATES: This regulation is effective December 27, 2016, unless the EPA receives adverse written comment on this regulation by the close of business November 25, 2016. If the EPA receives such comments, it will publish a timely withdrawal of this direct final rule in the **Federal Register** informing the public that this rule will not take effect. The Director of the Federal Register approves this incorporation by reference as of December 27, 2016 in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

SUPPLEMENTARY INFORMATION:

A. What is codification?

Codification is the process of placing a State’s statutes and regulations that comprise the State’s authorized hazardous waste management program into the Code of Federal Regulations (CFR). Section 3006(b) of RCRA, as amended, allows the Environmental Protection Agency (EPA) to authorize State hazardous waste management programs to operate in lieu of the Federal hazardous waste management regulatory program. The EPA codifies its authorization of State programs in 40 CFR part 272 and incorporates by reference State statutes and regulations that the EPA will enforce under sections 3007 and 3008 of RCRA and any other applicable statutory provisions.

The incorporation by reference of State authorized programs in the CFR should substantially enhance the public’s ability to discern the current status of the authorized State program and State requirements that can be Federally enforced. This effort provides clear notice to the public of the scope of the authorized program in each State.

B. What is the history of the authorization and codification of Oklahoma’s hazardous waste management program?

Oklahoma initially received Final authorization effective January 10, 1985, (49 FR 50362) to implement its Base Hazardous Waste Management program.

Subsequently, the EPA approved additional program revision applications effective on June 18, 1990 (55 FR 14280), November 27, 1990 (55 FR 39274), June 3, 1991 (56 FR 13411), November 19, 1991 (56 FR 47675), November 29, 1993 (58 FR 50854), December 21, 1994 (59 FR 51116), April 27, 1995 (60 FR 2699), March 14, 1997 (62 FR 12100), July 14, 1998 (63 FR 23673), November 23, 1998 (63 FR 50528), February 8, 1999 (63 FR 67800), March 30, 2000 (65 FR 16528), July 10, 2000 (65 FR 29981) March 5, 2001 (66 FR 28), June 9, 2003 (68 FR 17308), April 6, 2009 (74 FR 5994), May 6, 2011 (76 FR 18927), May 14, 2012 (77 FR 15273), July 29, 2013 (78 FR 32161), and October 28, 2014 (79 FR 51497). The EPA first incorporated by reference Oklahoma's hazardous waste program effective December 13, 1993 (58 FR 52679), and updated the incorporation by reference effective July 14, 1998 (63 FR 23673), October 25, 1999 (64 FR 46567), October 27, 2003 (68 FR 51488), August 27, 2010 (75 FR 36546), July 16, 2012 (77 FR 29231), October 9, 2012 (77 FR 46964), July 29, 2013 (78 FR 32161), and September 2, 2014 (79 FR 37226). In this document, the EPA is revising Subpart LL of 40 CFR part 272 to include the recent authorization revision actions effective October 28, 2014 (79 FR 51497).

C. What codification decisions have we made in this rule?

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Oklahoma rules described in the amendments to 40 CFR part 272 set forth below. The EPA has made, and will continue to make, these documents available electronically through <http://www.regulations.gov> and in hard copy at the appropriate EPA office (see the **ADDRESSES** section of this preamble for more information).

The purpose of this **Federal Register** document is to codify Oklahoma's base hazardous waste management program and its revisions to that program. The EPA provided notices and opportunity for comments on the Agency's decisions to authorize the Oklahoma program, and the EPA is not reopening the decisions, nor requesting comments, on the Oklahoma authorizations as published in the **Federal Register** notices specified in Section B of this document.

This document incorporates by reference Oklahoma's hazardous waste statutes and regulations and clarifies which of these provisions are included

in the authorized and Federally enforceable program. By codifying Oklahoma's authorized program and by amending the Code of Federal Regulations, the public will be more easily able to discern the status of Federally approved requirements of the Oklahoma hazardous waste management program.

The EPA is incorporating by reference the Oklahoma authorized hazardous waste program in subpart LL of 40 CFR part 272. Section 272.1851 incorporates by reference Oklahoma's authorized hazardous waste statutes and regulations. Section 272.1851 also references the statutory provisions (including procedural and enforcement provisions) which provide the legal basis for the State's implementation of the hazardous waste management program, the Memorandum of Agreement, the Attorney General's Statements and the Program Description, which are approved as part of the hazardous waste management program under Subtitle C of RCRA.

D. What is the effect of Oklahoma's codification on enforcement?

The EPA retains its authority under statutory provisions, including but not limited to, RCRA sections 3007, 3008, 3013 and 7003, and other applicable statutory and regulatory provisions to undertake inspections and enforcement actions and to issue orders in authorized States. With respect to these actions, the EPA will rely on Federal sanctions, Federal inspection authorities, and Federal procedures rather than any authorized State analogues to these provisions. Therefore, the EPA is not incorporating by reference such particular, approved Oklahoma procedural and enforcement authorities. Section 272.1851(c)(2) of 40 CFR lists the statutory provisions which provide the legal basis for the State's implementation of the hazardous waste management program, as well as those procedural and enforcement authorities that are part of the State's approved program, but these are not incorporated by reference.

E. What State provisions are not part of the codification?

The public needs to be aware that some provisions of Oklahoma's hazardous waste management program are not part of the Federally authorized State program.

These provisions include:

(1) Provisions that are not part of the RCRA subtitle C program because they are "broader in scope" than RCRA subtitle C (see 40 CFR 271.1(i));

(2) Federal rules for which Oklahoma is not authorized, but which have been incorporated into the State regulations because of the way the State adopted Federal regulations by reference;

(3) A Federal program which has since been withdrawn by the U.S. EPA; and

(4) Federal rules for which Oklahoma is authorized but which were vacated by the U.S. Court of Appeals for the District of Columbia Circuit (D.C. Cir. No. 98-1379 and 08-1144, June 27, 2014).

State provisions that are "broader in scope" than the Federal program are not part of the RCRA authorized program and the EPA will not enforce them. Therefore, they are not incorporated by reference in 40 CFR part 272. For reference and clarity, 40 CFR 272.1851(c)(3) lists the Oklahoma regulatory provisions which are "broader in scope" than the Federal program and which are not part of the authorized program being incorporated by reference. "Broader in scope" provisions cannot be enforced by the EPA; the State, however, may enforce such provisions under State law.

Oklahoma has adopted but is not authorized for the Federal rules published in the **Federal Register** on October 5, 1990 (55 FR 40834); February 1, 1991 (56 FR 3978); February 13, 1991 (56 FR 5910); April 2, 1991 (56 FR 13406); May 1, 1991 (56 FR 19951); December 23, 1991 (56 FR 66365); June 29, 1995 (60 FR 33912), May 26, 1998 (63 FR 28556), June 14, 2005 (70 FR 34538), August 1, 2005 (70 FR 44150); and December 19, 2008 (73 FR 77954). Therefore, these Federal amendments included in Oklahoma's adoption by reference at 252:205-3-2(b) through 252:205-3-2(m) of the Oklahoma Administrative Code, are not part of the State's authorized program and are not part of the incorporation by reference addressed by this **Federal Register** document.

Oklahoma adopted and was authorized for the following Federal Performance Track program, which has since been terminated by the U.S. EPA: published in the **Federal Register** on April 22, 2004 (69 FR 21737), as amended October 25, 2004 (69 FR 62217), and the April 4, 2006 (71 FR 16862) Burden Reduction Initiative amendments to the following provisions regarding Performance Track: 40 CFR 260.10, 264.15, 264.174, 264.195, 264.1101, 265.15, 265.174, 265.195, 265.201, 265.1101, 270.42(l) and Item O.1 of Appendix I to 270.42.

Oklahoma has adopted and was authorized for the following Federal rules which have since been vacated by the U.S. Court of Appeals for the District

of Columbia Circuit (D.C. Cir. No. 98–1379 and 08–1144, respectively; June 27, 2014): (1) The Comparable Fuels Exclusion Rule published in the **Federal Register** on June 19, 1998 (63 FR 33782), as amended on June 15, 2010 (75 FR 33712); and (2) the Gasification Exclusion Rule published on January 2, 2008 (73 FR 57).

With respect to any requirement pursuant to the Hazardous and Solid Waste Amendments of 1984 (HSWA) for which the State has not yet been authorized, the EPA will continue to enforce the Federal HSWA standards until the State is authorized for these provisions.

F. What will be the effect of Federal HSWA requirements on the codification?

The EPA is not amending 40 CFR part 272 to include HSWA requirements and prohibitions that are implemented by the EPA. Section 3006(g) of RCRA provides that any HSWA requirement or prohibition (including implementing regulations) takes effect in authorized and not authorized States at the same time. A HSWA requirement or prohibition supersedes any less stringent or inconsistent State provision which may have been previously authorized by the EPA (50 FR 28702, July 15, 1985). The EPA has the authority to implement HSWA requirements in all States, including authorized States, until the States become authorized for such requirement or prohibition. Authorized States are required to revise their programs to adopt the HSWA requirements and prohibitions, and then to seek authorization for those revisions pursuant to 40 CFR part 271.

Instead of amending the 40 CFR part 272 every time a new HSWA provision takes effect under the authority of RCRA section 3006(g), the EPA will wait until the State receives authorization for its analog to the new HSWA provision before amending the State's 40 CFR part 272 incorporation by reference. Until then, persons wanting to know whether a HSWA requirement or prohibition is in effect should refer to 40 CFR 271.1(j), as amended, which lists each such provision.

Some existing State requirements may be similar to the HSWA requirement implemented by the EPA. However, until the EPA authorizes those State requirements, the EPA can only enforce the HSWA requirements and not the State analogs. The EPA will not codify those State requirements until the State receives authorization for those requirements.

G. Statutory and Executive Order Reviews

The Office of Management and Budget (OMB) has exempted this action from the requirements of Executive Order 12866 (58 FR 51735, October 4, 1993), and therefore this action is not subject to review by OMB. This rule incorporates by reference Oklahoma's authorized hazardous waste management regulations and imposes no additional requirements beyond those imposed by State law. Accordingly, I certify that this action will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). Because this rule merely incorporates by reference certain existing State hazardous waste management program requirements which the EPA already approved under 40 CFR part 271, and with which regulated entities must already comply, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999), because it merely incorporates by reference existing authorized State hazardous waste management program requirements without altering the relationship or the distribution of power and responsibilities established by RCRA. This action also does not have Tribal implications within the meaning of Executive Order 13175 (65 FR 67249, November 6, 2000).

This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant and it does not make decisions based on environmental health or safety risks. This rule is not subject to Executive Order 13211, “Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use” (66 FR 28355, May 22, 2001), because it is not a significant regulatory action under Executive Order 12866.

The requirements being codified are the result of Oklahoma's voluntary participation in the EPA's State program authorization process under RCRA Subtitle C. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement

Act of 1995 (15 U.S.C. 272 note) do not apply. As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, the EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct. The EPA has complied with Executive Order 12630 (53 FR 8859, March 15, 1988) by examining the takings implications of the rule in accordance with the “Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings” issued under the executive order. This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this document and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

The EPA will not enforce the non-HSWA Federal rules although they may be enforceable under State law. For those Federal rules that contain both HSWA and non-HSWA requirements, the EPA will enforce only the HSWA portions of the rules.

AGENCY FOR INTERNATIONAL DEVELOPMENT

48 CFR Part 752

RIN 0412-AA81

Requirement for Nondiscrimination Against End-Users of Supplies or Services (“Beneficiaries”) Under USAID-Funded Contracts

AGENCY: U.S. Agency for International Development.

ACTION: Final rule.

SUMMARY: The Foreign Assistance Act of 1961, as amended (FAA), authorizes the U.S. Agency for International Development (USAID) to provide foreign assistance in the form of development and humanitarian assistance that reflect American ideals. To help emphasize USAID’s intent and expectation of non-discrimination of beneficiaries in USAID-funded activities, USAID is issuing a final rule to amend its Agency for International Development Acquisition Regulation (AIDAR) to include a new clause entitled “Nondiscrimination against End-Users of Supplies or Services.” This clause expressly states that USAID-funded contractors must not discriminate among end-users of supplies or services (referred to in this rule as beneficiaries and potential beneficiaries) in any way that is contrary to the scope of the activity as defined in the statements of work (SOWs).

DATES: *Effective:* October 25, 2016.

SUPPLEMENTARY INFORMATION:

I. Background

USAID published a proposed rule in the **Federal Register** at 81 FR 56572 on August 22, 2016 to amend its Agency for International Development Acquisition Regulation (AIDAR) to include a new clause entitled “Nondiscrimination against End-Users of Supplies or Services.”

USAID seeks to improve the lives of people around the world by being inclusive in its development and humanitarian assistance efforts. In so doing, USAID recognizes that every person is instrumental in the transformation of their own societies, with the end result that each and every person is recognized and equally valued without regard to artificial and discriminatory distinctions. The inclusion, protection, and empowerment of all persons is critical

because drawing on the full contributions of the entire population leads to more effective, comprehensive, and sustainable development results.

Nondiscrimination is the basic foundation of USAID’s inclusive development approach; as such, all USAID programs seek to ensure access for all potential beneficiaries within the scope of the contract without discrimination. Contractors must adhere to this by implementing the activities as outlined in the contract SOWs. Nondiscrimination is a critical foundation for protecting and promoting the human rights of all persons. In addition, nondiscrimination ensures equitable access to USAID programs. Effective nondiscrimination practices support USAID’s principles of inclusion and equal access and help to ensure that USAID programs empower and effectively reach women and girls; marginalized ethnic and religious populations; indigenous peoples; internally displaced persons; persons with disabilities; youth and the elderly; lesbian, gay, bisexual, transgender, and intersex individuals; and other socially marginalized individuals and peoples unique to the country or regional context.

In recent years, the Government has made multiple pronouncements of policy in many areas reflecting its emphasis on equity, fairness, and human dignity—effective nondiscrimination is a means toward achieving all of these. For example, in 2011, the White House issued E.O. 13563, “Improving Regulation and Regulatory Review,” to update all agencies on factors to consider when issuing rules; in addition to quantitative factors, it advised that the qualitative values of equity, fairness, and human dignity are important considerations. Additionally, a 2011 Presidential Memorandum, “International Initiatives to Advance the Human Rights of Lesbian, Gay, Bisexual, and Transgender Persons,” directs all agencies engaged abroad to advance nondiscrimination. This rule addressing discrimination in the provision of supplies or services is consistent with the values that animate the above.

II. Discussion

This rulemaking revises (48 CFR) AIDAR to add a new clause at 752.7038 entitled “Nondiscrimination against End-Users of Supplies or Services.” The clause, applicable to all solicitations, contracts, and subcontracts at any tier, prohibits contractors and subcontractors from discriminating against beneficiaries or potential beneficiaries (*i.e.*, those individuals intended to
