TERMS & CONDITIONS:

THEREFORE, in consideration of the foregoing premises, covenants and agreements contained herein, the Parties agree to be bound as follows:

1. Definitions.

1.1 “Licensed Patents” means Alliance’s United States and foreign patents and patent applications listed in Exhibit A, “Licensed Patents” which, is hereby incorporated into this Agreement by reference. Any United States and foreign patents issuing from the patent applications listed in Exhibit A will be added to Exhibit A upon issuance. Licensed Patents shall also include divisions, continuations (excluding continuations-in-part claiming new subject matter), reissues, re-examinations, substitutes, and extensions of the patents and patent applications as they arise.

1.2 “Licensed Product(s)” means any material, composition, or other product or service, the manufacture, use, import, offer to sell or sale of which would constitute, but for the license granted to Licensee herein, an infringement of a claim of the Licensed Patents (infringement shall include, but is not limited to, direct, contributory, or inducement to infringe).

1.3 “Affiliate” of a Party means any person or entity that, at any time during the term of this Agreement, directly or indirectly controls, is controlled by, or is under common control with such Party, where “control” means ownership of fifty percent (50%) or more of the voting power of the outstanding voting securities (but only as long as such person or entity meets these requirements).

1.4 “Sublicensee” means any non-Affiliate third party to whom Licensee has granted a Sublicense. “Sublicense” means an arms-length agreement in which Licensee, or Alliance, as applicable:

- (a) grants or otherwise transfers any of the rights granted hereunder or other rights that are relevant to designing, developing, testing, making, using, or selling of Licensed Products,
- (b) agrees not to assert the Licensed Patents or agrees not to sue, prevent or seek a legal remedy for the practice of same, and
- (c) is under an obligation to do any of the foregoing, or to forebear from offering or doing any of the foregoing with any other entity, including licenses, option agreements, right of first refusal agreements, standstill agreements, settlement agreements or other agreements.

1.5 "Net Sales" means the gross selling price of Licensed Products as invoiced by Licensee and its Sublicensees to purchasers for Licensed Products sold during a particular accounting period minus actual costs Licensee or its Sublicensees incurred due to returns of Licensed Products, freight, and excise or other taxes (excluding income taxes) imposed on the production, sale, delivery, or use of the Licensed Products. When Licensed Products are used or transferred, but not sold by Licensee or its Sublicensees, Net Sales shall mean the fair market value of the Licensed Products as if they were sold to an unrelated third party in similar quantities.

1.6 “Sublicensing Revenue” means the fair market cash value of any and all consideration received by Licensee from Sublicensees under or otherwise in connection with its Sublicenses, including without limitation license issue fees, option fees and other licensing fees, milestone payments, equity or other payments of any kind whatsoever (but excluding running royalties paid for Net Sales of Licensed Products by Sublicensees or minimum annual royalties), or any other consideration, irrespective of the form of payment.

1.7 “Government” shall mean the United States of America.

1.8 “Field of Use” means the field of use as defined in Exhibit B, “Fields of Use and Financial Considerations.”

1.9 “Patenting Costs” means any past or ongoing costs incurred or to be incurred, including but not limited to government fees and attorneys’ or other legal personnel fees, in the course of preparing, filing, prosecuting and maintaining any of the Licensed Patents, including continuations, re-examinations, reissues and appeals.

2. Grants.

2.1 Subject to Alliance’s rights in the Licensed Patents and the terms and conditions of this Agreement, including the terms as set forth in Exhibit B, “Fields of Use and Financial Considerations”, which is attached to this Agreement and hereby incorporated by reference, Alliance hereby grants to Licensee an exclusive right and license, subject to certain Government rights set forth below in Section 2.2., and subject to the conditions set forth in Section 9.4., to make, have made, use, import or sell, the Licensed Products worldwide, subject to the patent coverage of the Licensed Patents.

2.2 The right and license granted in Section 2.1 is subject to the following Government rights: (a) the Government has a paid-up, royalty-free, worldwide, nontransferable, irrevocable license to practice or have practiced by or on behalf of the Government the inventions covered by the Licensed Patents, and (b) the DOE’s march-in rights as required by the Prime Contract and 35 U.S.C. § 203.

2.3 Licensee agrees that any Licensed Products for use or sale in the United States shall be substantially manufactured in the United States.

2.4 Licensee shall mark all Licensed Products made or sold in the U.S. in accordance with 35 U.S.C. §287(a) and will mark all Licensed Products made or sold in other countries in accordance with laws and regulations then applicable in each such country. Licensee acknowledges that it will be liable to Alliance for infringement damages lost due to improper or defective patent marking.

3. Financial Obligations and Commercialization Plan.

3.1 In consideration of the rights and license granted herein, Licensee agrees to the provisions of Exhibit B, “Fields of Use and Financial Considerations” and Exhibit C,

“Development and Commercialization Plan”, attached to this Agreement and hereby incorporated by reference.

3.2 Licensee and its Sublicensees shall owe no royalties to Alliance on any acquisitions involving Government funds if such sales reflect a discount that is greater than or equal to the amount Licensee would owe to Alliance under this license, because of the Government’s retained license in the Licensed Patents.

3.3 Licensee shall report the Net Sales price paid by the purchaser for acquisitions or use of the Licensed Products involving Government funds under the Records, Reports, and Royalty Payments Section of this Agreement. This report will also include (a) a Government control number (if available); and (b) identification of the Government agency for each sale.

3.4 Upon termination of this Agreement for any reason whatsoever, Licensee shall report and pay to Alliance, within thirty (30) days of such termination, any financial obligations including, but not limited to, fees, payments, royalties, reimbursements, interest, and other forms of consideration, due and owing Alliance.

4. Records, Reports, and Royalty Payments.

4.1 Licensee shall provide Alliance with a written report certified by an officer of Licensee that complies with the requirements of the Notices and Payments Section and Section 3.3 of this Agreement no later than thirty (30) days after the end of each calendar year for the life of this Agreement that identifies the following information for the immediately preceding calendar year: (a) all Net Sales of the Licensed Products made by Licensee in U.S. Dollars itemized by domestic and/or foreign rights that are subject to this Agreement including acquisitions involving Government funds and all export Net Sales, and if none to so indicate; (b) all Net Sales in U.S. Dollars made by Sublicensees, itemized by domestic and/or foreign rights that are subject to this Agreement including acquisitions involving Government funds and all export Net Sales, and if none to so indicate; and (c) amount of each payment due Alliance for upfront fees, minimum annual royalties and continuous royalties based on Net Sales of Licensed Products. Accompanying the annual written report will be the full payment due in U.S. Dollars, for the preceding calendar year, pursuant to the terms of this Agreement.

4.2 Licensee agrees to: (a) keep adequate and sufficiently detailed records to enable Licensee’s financial obligations as required under this Agreement to be readily determined; and (b) within forty-eight (48) hours provide such records for inspection and copying by Alliance’s authorized representatives, with reasonable notice, at any time during Licensee’s regular business hours. In the event an examination of Licensee’s records reveals an underpayment of more than five percent (5%) of the accurate amounts due hereunder, Licensee shall pay all costs incurred by Alliance related to the examination or records in addition to paying the balance due, plus any applicable interest at the rate specified in Section 4.4 hereinbelow.

4.2.1 Licensee agrees that it shall also provide Alliance with any additional records that Alliance reasonably determines are necessary to verify any records that Licensee is required to generate or maintain to fulfill the requirements listed in Exhibits B and C.

4.2.2 Licensee agrees to make any records that it is required to generate or maintain under the terms of this Agreement available for inspection by Alliance’s authorized representatives for three (3) years after the last royalty period to which the records refer.

4.3 If Licensee fails to make any payment to Alliance that may be required under this Agreement within the time period prescribed for such payment, then the unpaid amount shall bear interest at the rate of one and one half percent (1.5%) per month, or other authorized statutory rate, if higher, from the date when the payment was due until payment in full, with interest, is made. Should Licensee have need to delay a payment when due, Alliance will consider Licensee’s needs as presented, in writing to Alliance at the address set forth in Section 12.1, by Licensee and received by Alliance thirty (30) days before the required reporting and payment date. Under such conditions, Alliance may, at its sole discretion, extend the date upon which an annual payment is required.

4.4 Licensee shall make financial payments to the order of Alliance in U.S. dollars in accordance with Exhibit B and Section 4.2 above.

5. Infringement by Third Parties.

5.1. Licensee and Alliance shall promptly give notice in writing to each other of any known actual or potential infringement of the Licensed Patents. In the event any Licensed Patents are infringed by an unlicensed third party, Licensee and Alliance shall have the right to abate or prevent such infringement as follows.

5.1.1 Alliance shall have the primary right, but not the obligation, to take appropriate action in connection with any proceeding or suit to abate or to prevent an infringement. Before commencing any action to abate or to prevent the infringement, Alliance will first consult with the DOE, as required by the Litigation and Claims provision of the Prime Contract between DOE and Alliance, and in the event DOE authorizes Alliance to undertake an infringement suit, Alliance shall further consult with Licensee to determine if Licensee also wishes to enter into such suit. Licensee shall have the right to be represented by counsel at the suit proceedings and to participate therein at its own cost, but shall not have the right to control the suit. Licensee agrees to cooperate with, and give reasonable assistance to, Alliance in abating or preventing an infringement.

5.1.2 The cost and expenses of all suits brought by Alliance under Section 5.1.1 above shall be equally shared by both Parties out of any settlement amount, damages or other monetary awards recovered in favor of Alliance and/or Licensee, if any. As a result, Alliance shall be entitled to receive and retain for its own use and benefit any settlement amount or remaining damages awarded in such suit, less such reasonable costs and expenses associated with such suit. In the event that Licensee refuses to join, cooperate and give reasonable assistance to Alliance, then all settlement amounts, damages or other monetary awards, if any, shall exclusively belong to Alliance.

5.1.3 Under Section 5.1.1 above, if Alliance does not take appropriate action to abate or prevent an infringement within one hundred twenty (120) days after receiving notice, Licensee is empowered, or has the right, with the written authorization of Alliance which will not be unreasonably denied, to file suit in its own name by counsel of its choice to the extent provided by applicable laws, rules and regulations, provided no settlement or consent judgment or other voluntary final disposition of the infringement suit is entered into without the approval of Alliance which will not be unreasonably withheld.

5.1.4 In Alliance authorized infringement suits brought solely by Licensee pursuant to Section 5.1.3 above, Licensee shall not be acting as the agent, or in any way on behalf of, Alliance. In such suits, Alliance, with the consent of the DOE Contracting Officer, shall provide reasonable assistance to Licensee to abate or prevent the infringement.

5.2 In Alliance authorized infringement suits brought solely by Licensee pursuant to 5.1.3 above, all costs and expenses associated therewith shall be the responsibility of Licensee alone, and in such an event, all settlements, damages or other monetary awards shall be deemed as Sublicensing Revenue.

5.3 Alliance and DOE shall have the right to be represented by counsel of its choice in any infringement proceeding or suit taken by Licensee pursuant to Section 5.1.3 above.

5.4 Alliance and the Government shall not be liable for any costs or losses incurred as a result of an action for infringement brought against Licensee and/or its Sublicensees as a result of Licensee's exercise of any right granted under this Section 5, and Licensee shall indemnify and hold Alliance, the Government, their officers, employees and agents harmless against all liability, expenses and costs, including attorneys' fees incurred as a result of any such suit.

6. Representations and Warranties.

6.1 Alliance represents and warrants that Alliance can grant the rights, licenses, and privileges granted by this Agreement.

6.2 Alliance represents and warrants that Alliance has no actual knowledge of any infringement claims filed against Alliance for practicing the Licensed Patents anywhere in the world.

6.3 Except as set forth in this Section 6, Alliance makes **NO REPRESENTATIONS OR WARRANTIES**, express or implied, with regard to infringement of any Licensed Patents.

6.4 Licensee represents and warrants that it shall not export any technical information (or the direct product thereof) furnished to Licensee, either directly or indirectly by Alliance in the grant of a license to the Licensed Patents, from the United States of America, directly or indirectly without first complying with all requirements of the Export Administration Regulations, including the requirement for obtaining any export license, as applicable.

6.5 Licensee warrants that it will not grant any rights inconsistent with the terms, scope and

Fields of Use of this Agreement and that copies of all negotiated and executed Sublicenses shall be provided to Alliance in accordance with Section 2.5.4.

6.6 Licensee agrees to indemnify, defend and hold harmless Alliance, DOE and the Government, its officers, agents and employees from all liability involving the violation of such export regulations, either directly or indirectly, by Licensee or its Sublicensees.

6.7 Licensee acknowledges it may be subject to criminal liability under U.S. laws for Licensee's failure to obtain any required export licenses.

7. Limitations of Warranties, Indemnification and Insurance.

7.1 Neither NREL, Alliance, the DOE, the Government nor persons acting on their behalf will be responsible for any injury to or death of persons, or damage to or destruction of any property, or for any other loss, damage, or injury of any kind whatsoever resulting from Licensee's manufacture, use, importation or sale of the Licensed Patents or Licensed Products, in whatever form furnished hereunder, absent any negligent act or omission on the part of NREL, Alliance, DOE and/or the Government.

7.2 THE PARTIES AGREE THAT NEITHER NREL, ALLIANCE, DOE, THE GOVERNMENT, NOR PERSONS ACTING ON THEIR BEHALF MAKE ANY WARRANTY, EXPRESS OR IMPLIED:

7.2.1 WITH RESPECT TO THE MERCHANTABILITY, ACCURACY, COMPLETENESS, OR USEFULNESS OF ANY LICENSED PATENTS, PATENT APPLICATIONS, ISSUED PATENTS, LICENSED PRODUCTS, OR NREL PROTECTED INFORMATION FURNISHED HEREUNDER;

7.2.2 THAT THE USE OF ANY LICENSED PATENTS, PATENT APPLICATIONS, ISSUED PATENTS, LICENSED PRODUCTS, OR NREL PROTECTED INFORMATION MAY NOT INFRINGE ANY PRIVATELY OWNED RIGHTS;

7.2.3 THAT ANY LICENSED PATENTS, PATENT APPLICATIONS, ISSUED PATENTS, LICENSED PRODUCTS, OR NREL PROTECTED INFORMATION FURNISHED HEREUNDER WILL NOT RESULT IN INJURY OR DAMAGE WHEN USED FOR ANY PURPOSE; OR

7.2.4 THAT ANY LICENSED PATENTS, PATENT APPLICATIONS, ISSUED PATENTS, LICENSED PRODUCTS, OR NREL PROTECTED INFORMATION FURNISHED HEREUNDER WILL ACCOMPLISH THE INTENDED RESULT OR ARE SAFE OR FIT FOR ANY PURPOSE, INCLUDING THE INTENDED OR PARTICULAR PURPOSE;

7.2.5 NREL, DOE, ALLIANCE AND THE GOVERNMENT HEREBY SPECIFICALLY DISCLAIM ANY AND ALL WARRANTIES, EXPRESS OR

IMPLIED, FOR ANY LICENSED PATENTS, PATENT APPLICATIONS, ISSUED PATENTS, NREL PROTECTED INFORMATION, OR LICENSED PRODUCTS MANUFACTURED, USED, OR SOLD BY LICENSEE.

7.2.6 NEITHER NREL, DOE, ALLIANCE NOR THE GOVERNMENT SHALL BE LIABLE FOR LOST PROFITS, LOST SAVINGS, SPECIAL, CONSEQUENTIAL, INCIDENTAL OR OTHER INDIRECT DAMAGES IN ANY EVENT, EVEN IF SUCH PARTY IS MADE AWARE OF THE POSSIBILITY THEREOF.

7.3 Except for any liability resulting from any negligent acts or omission of NREL, the DOE, the Government or Alliance, Licensee shall indemnify and hold harmless NREL, the DOE, the Government and Alliance, and their officers, employees, and agents, for all damages, costs, and expenses, including attorneys' fees, arising from death, personal injury or property damage to third parties occurring as a result of the commercialization and utilization of the Licensed Patents by Licensee, its Affiliates and its Sublicensees, if any, including but not limited to, the making, using, selling, or exporting of Licensed Products by or on behalf of Licensee, its Affiliates, its assignees, or licensees which was derived from the work or activities performed under this Agreement. This indemnification shall include, but not be limited to, indemnification for any product liability resulting from the commercialization and utilization of the Licensed Patents by Licensee and its Sublicensees, if any. The indemnity set forth in this Section 7.3. shall apply only if Licensee shall have been informed as soon as practical by NREL, Alliance and/or the DOE or the Government of the action alleging such claim and shall have been given an opportunity, to the extent afforded by applicable laws, rules, or regulations, to participate in and control its defense, and NREL, Alliance and/or the DOE or the Government shall have provided reasonably available information and reasonable assistance (at Licensee's costs) as requested by Licensee. No settlement for which Licensee shall be responsible shall be made without Licensee's consent unless required by final decree of a court of competent jurisdiction.

7.4 Beginning at the time when any Licensed Products are being distributed or sold (including for the purpose of obtaining regulatory approvals) Licensee shall, at its sole cost and expense, procure and maintain commercial general liability insurance in amounts not less than \$X,000,000 per incident and \$X,000,000 annual aggregate, and Licensee shall have the Government and Alliance, its officers, employees and agents named as additional insureds. Such commercial general liability insurance shall provide (i) product liability coverage; (ii) broad form contractual liability coverage for Licensee's indemnification under this Agreement; and (iii) coverage for litigation costs. The minimum amounts of insurance coverage required shall not be construed to create a limit of Licensee's liability with respect to its indemnification obligations under this Agreement.

7.5 Licensee shall provide Alliance with written evidence of such insurance upon Alliance's written request. Licensee shall provide Alliance with written notice of at least fifteen (15) days before a material change in such insurance.

7.6 Licensee shall maintain such commercial general liability insurance beyond the expiration or termination of this Agreement during (a) the period that any Licensed Products are

practiced or processes covered by this Agreement are being commercially distributed or sold by Licensee or by a Sublicensee, if any, or agent of Licensee; and (b) the five (5) year period immediately after such period described in subsection (a).

8. Reimbursement of Patent Costs and Technical Assistance.

8.1 Alliance is the owner of the Licensed Patents and shall have exclusive responsibility for the preparation, filing, prosecution and maintenance of the Licensed Patents, including choice of patent counsel. However, Alliance shall keep Licensee informed of patent prosecution, will seek Licensee's comments and suggestions prior to taking material actions for the same, and will take all reasonable prosecution actions recommended by Licensee that would expand the scope of the rights sought. Licensee shall cooperate with Alliance to insure that the claims for each Licensed Patent reflects and will reflect, to the extent practicable and to the best of Licensee's knowledge, all items of commercial interest to Licensee that are contemplated to be sold or procedures to be practiced under this Agreement.

8.2 Within ninety (90) days after the Effective Date, Licensee shall reimburse Alliance for Patenting Costs incurred by Alliance prior to the Effective Date in an amount equal to [**Amount in U.S. dollars**].

8.3 Licensee will reimburse Alliance for all Patenting Costs for all Licensed Patents accruing on and after the Effective Date of this Agreement. Invoices for such costs will not exceed actual costs and are due and payable no later than thirty (30) days after receipt of invoices by Licensee.

8.4 If Licensee declines to pay in full any Patenting Costs within the period specified in Paragraph 8.3 which are necessary to the protection of certain rights at issue, Alliance shall have the right to (i) abandon some or all of such rights at Alliance's sole discretion, or (ii) incur those costs at its own expense; in either case, Alliance shall have the right to exclude such rights from the licenses granted hereunder. In such event, Alliance shall be free to license such rights to third parties without further obligation to Licensee.

8.5 Alliance agrees, upon the written request of Licensee, to assist Licensee in obtaining technical assistance from NREL subject to the availability of the required resources and under the appropriate agreements. Licensee shall pay full cost in accordance with the Prime Contract with the Government for the cost of such technical assistance.

9. Term of Agreement and Early Termination.

9.1 Subject to early termination as set forth in this Section and the terms and conditions set forth in Exhibits B and C, this Agreement shall be effective for as long as the Licensed Patents are enforceable.

9.2 Either Party shall have the right to terminate this Agreement with cause and without judicial resolution upon written notice to the other after the non-breaching Party notifies the asserted breaching Party of a breach of any provision of this Agreement and the asserted breach has not been cured by the asserted breaching Party within sixty (60) calendar days from receipt

of such notice (“Cure Period”). If at the end of the Cure Period the asserted breach has not been cured and there remains a dispute or controversy, the Parties may agree to seek to resolve the matter through the use of the procedures set forth in Section 19.1 below. If Alliance is the non-breaching Party under this Section 9.2, then Licensee shall, within thirty (30) calendar days, owe Alliance all payments due, including but not limited to then appropriate Patenting Cost reimbursements, upfront fees, milestone payments and continuous royalties due or the pro rata portion of any minimum annual royalties due at the end of the calendar year of such termination, whichever is greater. Licensee acknowledges and agrees that Alliance shall be entitled to seek any additional remedies available at law to Alliance for Licensee’s breach of this Agreement.

9.3 This Agreement shall terminate automatically upon a final adjudication of invalidity, unenforceability, or the extinguishment of all Licensed Patents, for any reason.

9.4 If Licensee fails to satisfy the requirements of Exhibits B or C then Alliance shall have the right, to exercise at its sole discretion with thirty (30) days written notice to Licensee, to terminate this Agreement in accordance with its early termination requirements.

9.5 Subject to Sublicenses granted, if any, and consistent with the requirements of this Agreement, the Parties agree that Alliance, at its sole discretion, may immediately terminate this Agreement upon any attempted transfer of Licensee's interest in this Agreement, in whole or in part, to any other party except to a wholly owned subsidiary of Licensee or as may be otherwise permitted by the terms of this Agreement.

9.6 Licensee agrees that this Agreement shall automatically terminate if Licensee attempts, in any way, to pledge its rights under this Agreement as collateral to a third party.

9.7 Licensee hereby agrees that in the event Licensee by its own actions or the action of any of its shareholders or creditors (if applicable), files or has filed against it, with an order for relief being entered, a case under the Bankruptcy Code of 1978, as previously or hereafter amended, Alliance shall be entitled to relief from the automatic stay of Section 362 of Title 11 of the U.S. Code, as amended, on or against the exercise of the rights and remedies available to Alliance; and Licensee hereby waives the benefits of such automatic stay and consents and agrees to raise no objection to such relief. Licensee further agrees that Alliance, at its sole discretion, may immediately terminate this Agreement by means of a written notice to Licensee in the event that a creditor or other claimant takes possession of, or a receiver, administrator or similar officer is appointed over any of the assets of Licensee, or in the event that Licensee makes any voluntary arrangement with its creditors or becomes subject to any court or administration order pursuant to any U.S. Bankruptcy proceeding or insolvency law. Licensee will promptly inform Alliance of its intention to file a voluntary petition in bankruptcy or of another's communicated intention to file an involuntary petition in bankruptcy.

9.8 Licensee may terminate this Agreement without cause if Licensee provides Alliance with sixty (60) days prior notice and pays Alliance: (a) all Patenting Cost reimbursement, as applicable, and all upfront fees due at the time of termination; and (b) all accrued continuous royalties due at the end of the accounting period of such termination.

10. Rights of Parties after Termination.

10.1 Neither Party shall be relieved of any obligation or liability under this Agreement arising from any act or omission committed prior to the termination date.

10.2 From and after any termination of this Agreement, Licensee and its Sublicensees, if any, shall have the right to sell only those Licensed Products in Licensee’s inventory at the time of termination, provided that Licensee has satisfied all financial obligations and reporting requirements required by this Agreement. Except as otherwise provided in this Section, Licensee shall not exercise any of the rights granted under this Agreement after it is terminated.

10.3 The rights and remedies granted herein, and any other rights or remedies which the Parties may have, either at law or in equity, are cumulative and not exclusive of others. On any termination, Licensee shall duly account to Alliance and transfer to it all rights to which Alliance may be entitled under this Agreement.

10.4 The following Sections are intended to survive the termination of this Agreement: 2.5 (if applicable), 3, 4, 6, 7, 8, 9, 10, 14, 15, 16, 18, and 19.

11. Force Majeure.

No failure or omission by Alliance or by Licensee in the performance of any obligation under this Agreement shall be deemed a breach of this Agreement or create any liability if the same shall arise from acts of God, acts or omissions of any government or agency thereof, compliance with rules, regulations, or orders of any governmental authority or any office, department, agency, or instrumentality thereof, fire, storm, flood, earthquake, accident, acts of the public enemy or terrorism, war, rebellion, insurrection, riot, sabotage, invasion, quarantine, restriction, transportation embargoes, or failures or delays in transportation. The circumstances surrounding such failure or omission shall be communicated to the affected Party in writing within fifteen (15) business days of such event.

13. Non-Abatement of Royalties.

Alliance and Licensee acknowledge that certain of the Licensed Patents may expire prior to the conclusion of the term of this Agreement. However, Alliance and Licensee agree that the royalty rates provided for in Exhibit B shall be uniform and undiminished for as long as any claim of, or other intellectual property right in, any of the Licensed Patents are enforceable except as otherwise provided in this Agreement.

14. Confidential Information.

14.1 The Parties agree that all information, marked by Licensee as “Proprietary” or Alliance as “NREL Protected Information” and forwarded to one by the other for the purposes of this Agreement (a) are to be received in strict confidence, (b) are to be used only for the purposes of this Agreement, and (c) are not to be disclosed by the recipient Party, its agents or employees without the prior written consent of the other Party, except to the extent that the recipient Party can establish competent written proof that such information:

with an obligation of confidentiality to the disclosing Party;

14.1.6 is required by law or regulation to be disclosed, provided however, that the disclosing Party shall first give the recipient written notice and adequate opportunity to object to such order for disclosure or to request confidential treatment.

15. Waivers.

15.1 The failure of Alliance at any time to enforce any provisions of this Agreement or to exercise any right or remedy shall not be construed to be a waiver of such provisions or of such rights or remedy or the right of Alliance thereafter to enforce each and every provision, right or remedy.

15.2 The waiver of a specific breach hereunder may be effectuated only by a written document, signed by the waiving Party, and delivered to the breaching Party. Such formal waiver shall not constitute a waiver of any other breach.

16. Entire Agreement and Legal Amendments.

16.1 The Parties expressly understand and agree that this instrument contains the entire agreement between the Parties with respect to the subject matter of this Agreement and that all prior representations, warranties, or agreements relating to this subject matter have been merged into this instrument and are thus superseded in totality by this Agreement. This Agreement may be amended only by a written instrument signed by the duly authorized representatives of both of the Parties.

16.2 The Parties agree that if any part, term, or provision of this Agreement shall be found illegal or in conflict with any valid controlling law, the validity of the remaining provisions shall not be affected thereby.

16.3 In the event the legality of any provision of this Agreement is brought into question because of a decision by a court of competent jurisdiction of any country in which this Agreement applies, Alliance, by written notice to Licensee, may revise the provision in question or may delete it entirely so as to comply with the decision of said court.

17. Headings.

The headings for the Sections set forth in this Agreement are strictly for the convenience of the Parties hereto and shall not be used in any way to restrict the meaning or interpretation of the substantive language of this Agreement.

18. Successor Contractor and Assignment.

18.1 Licensee acknowledges and agrees that Alliance may transfer this Agreement and all rights, duties and obligations hereunder, to the DOE or a successor management and operating contractor of NREL as may be required under the Prime Contract with DOE.
