Administration

State Renewable Electricity Profiles 2010

March 2012

This report was prepared by the U.S. Energy Information Administration (EIA), the statistical and analytical agency within the U.S. Department of Energy. By law, EIA's data, analyses, and forecasts are independent of approval by any other officer or employee of the United States Government. The views in this report therefore should not be construed as representing those of the Department of Energy or other Federal agencies.

Contacts

This report was prepared by the staff of the Renewables and Uranium Statistics Team, Office of Electricity, Renewables, and Uranium Statistics. Questions about the preparation and content of this report may be directed to Michele Simmons, Team Leader, Renewables and Uranium Statistics Team, or Lance Harris, at InfoRenewablesData@eia.gov.

Preface

The State Renewable Electricity Profiles 2010 present a summary of current and recent historical data for the renewable electric power industry. Presented are net summer capacity and net generation data for each type of renewable generator, as well as fossil-fired and nuclear power plant types, for the period 2006 through 2010.

The objective of this set of profiles is to provide a concise overview of the renewable electric power industry in each state.

Data in this report are compiled from surveys filed by electric utilities and other electric power producers. It is prepared by the Office of Electricity, Renewables, and Uranium Statistics; Office of Energy Statistics; U.S. Energy Information Administration (EIA); U.S. Department of Energy.

Other	22	17	22	24	28
Total	52,169	54,596	55,051	57,458	61,000

- = No data reported.

Notes: Petroleum includes petroleum liquids, petroleum coke, and waste oil. Natural Gas includes single-fired and dual-fired plants operating on natural gas. Other Gases includes blast furnace gas, propane gas, and other manufactured and waste gases derived from fossil fuels. Renewables include conventional hydro and other renewable technologies. Other includes batteries, chemicals, hydrogen, pitch, purchased steam, sulfur, tires, non-biogenic MSW and miscellaneous technologies. For cofired plants, generation is prorated on the basis of energy source shares. Totals may not equal sum of components due to independent rounding.

Pumped Storage	-	-	-	-	-
Other	-	-	111	110	281
Total	28,244	28,931	29,637	26,713	29,791

- = No data reported.

Notes: Petroleum includes petroleum liquids, petroleum coke, and waste oil. Natural Gas includes single-fired and dual-fired plants operating on natural gas. Other Gases includes blast furnace gas, propane gas, and other manufactured and waste gases derived from fossil fuels. Renewables include conventional hydro and other renewable technologies. Other includes batteries, chemicals, hydrogen, pitch, purchased steam, sulfur, tires, non-biogenic MSW and miscellaneous technologies. For cofired plants, generation is prorated on the basis of energy source shares. Totals may not equal sum of components due to independent rounding.

Other Gases	-	-	-	-	s
Nuclear	12,234	12,910	12,155	12,683	13,281
Renewables	2,944	2,846	3,370	3,734	4,586
Pumped Storage	-	-	-	-	-
Other	110	104	74	65	63
Total	61,640	63,391	63,480	59,959	64,314

s = Value is less than 0.5 of the table metric, but value is included in any associated total.

- = No data reported.

Notes: Petroleum includes petroleum liquids, petroleum coke, and waste oil. Natural Gas includes single-fired and dual-fired plants operating on natural gas. Other Gases includes blast furnace gas, propane gas, and other manufactured and waste gases derived from fossil fuels. Renewables include conventional hydro and other renewable technologies. Other includes batteries, chemicals, hydrogen, pitch, purchased steam, sulfur, tires, non-biogenic MSW and miscellaneous technologies. For cofired plants, generation is prorated on the basis of energy source shares. Totals may not equal sum of components due to independent rounding.

Sources: U.S. Energy Information Administration, Form EIA-923, "Power Plant Operations Report," and predecessor forms.
