

Joyce E. Williamson is the Director of the Dakota Water Science Center (DWSC) for the U.S. Geological Survey (USGS) and is located in Rapid City, SD. The DWSC conducts basic hydrologic data collection and scientific investigations with North and South Dakota, such as climate modeling, groundwater modeling, and water-quality characterization and modeling. Joyce has served in a number of leadership position within the Center during her career; Information Technology Supervisor, Supervisor of Hydrologic Data, Acting Administrative Officer, Acting Director of the South Dakota Water Science Center, and Acting Director of the Dakota Water Science Center. Joyce has published numerous reports, primarily in the area of water-quality, biological, and streamflow characterization. Joyce earned her B.S and M.S degrees from South Dakota School of Mines and Technology. Joyce was awarded the Dept. of the Interior Meritorious Service Award for her leadership within the Center. Joyce is a Black Hills area native and Joyce and her husband Larry live in the Rapid City area (Piedmont) and have ten adult children.
