please provide, from the beginning of when data was available, data for the number of nonimmigrant foreign students from the People's Republic of China (PRC), at any given time on each visa type at each university that data is kept for.

Let's use 2011 as an example. You want data on how many students from the PRC were given F, M, and J visas at the beginning of 2011 or at any other points during 2011. You would also like a list of all the educational institutions those visas were assigned through. You would like a spreadsheet of this information for every year since data collection began. Please provide in CSV or XLS or some other common format. The data would have the following characteristics:

Total number of J visas issued in first semester 2011 for Harvard University  
Total number of F visas issued in first semester 2011 Harvard University  
Total number of M visas issued in first semester 2011 Harvard University

Total number of J visas issued in second semester 2011 Harvard University  
Total number of F visas issued in second semester 2011 Harvard University  
Total number of M visas issued in second semester 2011 Harvard University

"Harvard University" is just an example. You would like the data for every institution for which visas were a copy of the A-file pertaining to
