

US Army Corps of Engineers
St. Louis District

Section 205 of Flood Control Act of 1948 (PL 80-858), as amended by Water Resources Development Act of 1999 (PL 106-53), as amended by WRDA 2007 (PL 110-114), as amended by WRRDA 2014 (PL 113-121)

Project Fact Sheet

Marquand, MO

Feasibility (CAP Section 205)

Location: Marquand, Missouri, is located 100 miles south of St. Louis on State Highway A and about 45 miles west of Cape Girardeau, Missouri.

Description: The city of Marquand, Missouri, is currently experiencing flooding along Whitener Creek and Castor River.

Issues: The project will examine alternatives to reduce flooding along Whitener Creek and Castor River.

Importance: With project and funding, there is potential to reduce flooding impacts to community along Whitener Creek and Castor River.

Risk: Without funding and project, area is at risk of flooding.

Consequence: Without project, city will continue to be at risk of flooding from Whitener Creek and Castor River.

Activities for FY 16: None.

Acquisition Strategy: No contracts scheduled to be awarded in FY 16.

Amount That Could Be Used in FY 17: An amount of \$25,000 could be used to prepare a Federal Interest Determination (FID) Report and submit to MVD for review and approval and an additional \$50,000 could be used to initiate Feasibility Report.

Project Sponsor/Customer: The City of Marquand, Missouri

Congressional Interest: Senate: Blunt & McCaskill (MO)
House: Smith (MO-8)

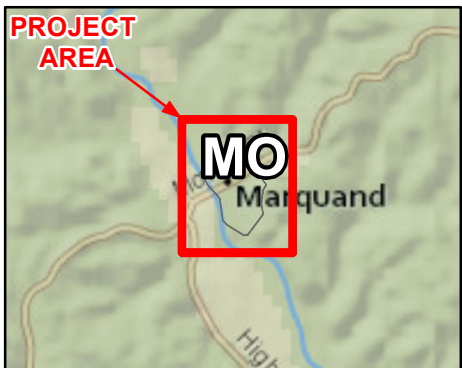

Phase	FY 16 Allocation	FY 17 Budget	FY 17 Total Capability
Feasibility	\$0	\$0	\$75,000
