### NOTICE OF CONSTRUCTION ACTIVITY USE CAUTION WHEN TRANSITING

**NEWT GRAHAM L&D No. 18, NM 421.6**

**McCLELLAN-KERR ARKANSAS RIVER  
NAVIGATION SYSTEM, OKLAHOMA**

Mariners are advised to use extreme caution 30 March through 30 June 2015 when transiting Newt Graham L&D No. 18. Construction crews will be present in the upstream approach channel setting dolphins, building a protection cell, and repairing the upstream guide wall.

This is a general notification of ongoing construction work. Down bound doubles may experience difficulties fitting light boat around their 2nd cut. Barges secured to the long wall will need to be tied further upstream than normal. All vessels will need to slow and nose straight into the approach next to the long wall.

Intermittent closures, lasting a few hours at a time may occur as crews work the site.

Waterway users are asked to check with Newt Graham L&D 18 for the latest information concerning these events at 918-543-2216 ext 1. Questions or requests for additional information concerning this notice should be directed to Mr. Kenneth Todd; Navigation Operations Manager: 918-687-4501 ext 2 or Mr. Vic Heister; Navigation Field Engineer: 918-669-7244.

A handwritten signature in black ink, appearing to read 'Earl Groves'.

Earl Groves  
Chief, Operations Division
