

NOAA Executive Order Team
April 18, 2011
In-person Meeting in Silver Spring, Maryland
[Agenda](#)

Email to team in advance of meeting from Team Lead and NOAA Chesapeake Bay Office Director Peyton Robertson:

Chesapeake EO Team NOAA,

I am looking forward to bringing us back together on Monday, April 18, from 10:00 a.m.-12:00 p.m in Silver Spring (SSMC 3 #4527) to discuss our collective efforts for restoring and protecting the Chesapeake Bay. A draft meeting agenda is attached. There are several discussion topics included throughout the morning to gather your input as we prepare for a series of upcoming meetings with OMB, CEQ, and the Chesapeake Executive Order Federal Leadership Committee.

Despite the current fiscal climate, the hard work and collective efforts of the NOAA team are evident in the mid-year progress reporting—my thanks to all for your responsiveness in providing the mid-year updates. During the meeting we will review progress and hear from you on key efforts and challenges.

Highlights: If you would like to highlight an action during the meeting, please let Aileen Smith know so we allow enough time on the final agenda.

R.S.V.P.: To help with logistics, please take a moment to let Aileen know if you are planning to attend the meeting in Silver Spring. We will also make a webinar and conference call line available, but I encourage you to attend in person to foster the cross-NOAA network for this EO.

Thank you again for your time and dedication,
Peyton
