Dr. Robin Staffin
Associate Director
Office of High Energy Physics
Office of Science
Department of Energy

Dr. Michael Turner
Assistant Director
Mathematical and Physical Sciences
National Science Foundation

Dear Michael and Robin:

At the HEPAP meeting on March 4, 2006, the Subpanel on the Linear Collider and the Large Hadron Collider presented its report "Discovering the Quantum Universe". This report, which describes in non-technical language the important synergy between the LHC and a TeV-scale electron-positron linear collider, was enthusiastically and unanimously approved by HEPAP. I am officially transmitting the report to you.

Sincerely,

Melvyn J. Shochet
HEPAP Chair
