Registration with Central Contractor Registry (CCR) is required - The CCR is the central government repository for organizations working with the Federal government. If your organization is not already registered, identify the primary contact who should register your organization. When your organization registers with CCR, it will be required to designate an e-Business Point of Contact (e-Business POC). The e-Business POC authorizes individuals to submit grant applications on behalf of the organization and creates a special password called a Marketing Partner ID Number (M-PIN) to verify individuals authorized to submit grant applications for the organization. Visit the CCR Web site at <http://www.ccr.gov> to begin this process. It may take several days to collect the information needed for your organizations registration. The CCR Assistance Center can be reached at 888-227-2423. This information collection is approved under OMB Control No. 0524-0039, NIFA Application Kit for Research and Extension Programs.

A Data Universal Number System (DUNS) number must be obtained - A DUNS number is a unique number that identifies an organization. It has been adopted by the Federal government to help track how Federal grant money is distributed. If your organization does not have a DUNS number, call the special Dun and Bradstreet hotline at (1-866) 705-5711 to receive one free of charge. You will receive a DUNS number within several days of your request. Please note, individual proprietorships (i.e. farmers, ranchers) can request and receive a DUNS number, but must register with Grants.gov as an organization, not as an individual. Registration with Central Contractor Registry (CCR) is required - The CCR is the central government repository for organizations working with the Federal government. If your organization is not already registered, identify the primary contact who should register your organization. When your organization registers with CCR, it will be required to designate an e-Business

Point of Contact (e-Business POC). The e-Business POC authorizes individuals to submit grant applications on behalf of the organization and creates a special password called a Marketing Partner ID Number (M-PIN) to verify individuals authorized to submit grant applications for the organization. Visit the CCR Web site at <http://www.ccr.gov> to begin this process. It may take several days to collect the information needed for your organizations registration. The CCR Assistance Center can be reached at (888) 227-2423. This information collection is approved under OMB Control No. 0524-0039, NIFA Application Kit for Research and Extension Programs. Applicants must furnish the information required in the request for applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following: Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information.. OMB Circular No. A-87 applies to this program.

Credentials/Documentation:

A Data Universal Number System (DUNS) number must be obtained - A DUNS number is a unique number that identifies an organization. It has been adopted by the Federal government to help track how Federal grant money is distributed. If your organization does not have a DUNS number, call the special Dun & Bradstreet hotline at 1-866-705-5711 to receive one free of charge. You will receive a DUNS number within several days of your request. Please note, individual proprietorships (i.e. farmers, ranchers) can request and receive a DUNS number, but must register with Grants.gov as an organization, not as an individual.

Registration with Central Contractor Registry (CCR) is required - The CCR is the central government repository for organizations working with the Federal government. If your organization is not already registered, identify the primary contact who should register your organization. When your organization registers with CCR, it will be required to designate an e-Business Point of Contact (e-Business POC). The e-Business POC authorizes individuals to submit grant applications on behalf of the organization and creates a special password called a Marketing Partner ID Number (M-PIN) to verify individuals authorized to submit grant applications for the organization. Visit the CCR Web site at <http://www.ccr.gov> to begin this process. It may take several days to collect the information needed for your organizations registration. The CCR Assistance Center can be reached at 888-227-2423. This information collection is approved under OMB Control No. 0524-0039, NIFA Application Kit for Research and Extension Programs.

Applicants must furnish the information required in the request for applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following:

Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). Section 514/516 funds are divided between off-farm housing and on-farm housing. The off-farm program provides loans and grants to organizations that assist farm workers at off-farm locations with no restrictions that workers be employed on a particular farm. Under new regulations effective June 1999, preapplications for the off-farm program funds must be submitted in response to a Notice of Funding Availability (NOFA) published in the Federal Register every year. RHS scores the preapplications, using a ranking process to determine which applicants will be invited to submit formal applications. The on-farm program makes loans to eligible farmers (or a group of farmers) to provide Housing, usually for their own laborers. Preapplications for on-farm units, or for repair And rehabilitation of existing off-farm units, may be submitted at any time are processed on a first-come, first-served basis.

Length and Time Phasing of Assistance:

Loans are usually made for 33 years at 1 percent interest. Grants may cover up to 90 percent of development cost. The balance may be (and usually is) a Section 514 loan. RHS rental assistance (RA) subsidy can be used to limit tenant payments to 30 percent of their income. 10.415 RURAL RENTAL HOUSING LOANS

FEDERAL AGENCY:

Rural Development, Department of Agriculture

AUTHORIZATION:

Housing Act of 1949, as amended, Section 515 and 521, Public Law 102-550, 42 U.S.C. 1485, 1490a.

OBJECTIVES:

To provide economically designed and constructed rental and cooperative housing and related facilities suited for rural residents.

TYPES OF ASSISTANCE:

DIRECT LOANS; PROJECT GRANTS

USES AND USE RESTRICTIONS:

Loans can be used to construct, or to purchase and substantially rehabilitate rental or cooperative housing or to develop manufactured housing projects. Housing as a general rule will consist of multi-units with two or more family units and any appropriately related facilities. Funds may also be used to provide approved recreational and service facilities appropriate for use in connection with the housing and to buy and improve the land on which the buildings are to be located. Loans may not be made for nursing, special care, or institutional-type homes. Grants are in the form of rental assistance for some units within the underwritten property. The term for an initial Section 515 loan is 30 years with a 50-year amortization period. However, the term for subsequent loans and loans for special types of properties, such as manufactured housing, may be made for a shorter term based on the projects expected useful life. Each loan is made at a note rate established by the Agency as prescribed in RD Instruction 440.1. Borrowers approved for initial and/or subsequent loans receive interest credit, which reduces the effective interest rate for the Agency's financing, thereby lowering the property's rents. In return for this below-market rate financing, the borrower agrees to lease the projects rental units to income-eligible households at rents approved by the Agency. Borrowers operate on a nonprofit or limited-profit basis.

Applicant Eligibility:

Applicants may be individuals, cooperatives, nonprofit organizations, State or local public agencies, profit corporations, trusts, partnerships, limited partnerships, and be unable to finance the housing either with their own resources or with credit obtained from private sources. However, applicants must be able to assume the obligations of the loan, furnish adequate security, and have sufficient income for repayment. They must also have the ability and intention of maintaining and operating the housing for purposes for which the loan is made. Loans may be made in communities up to 10,000 people in MSA

areas and some communities up to 20,000 population in non- MSA areas. Applicants in towns of 10,000 to 20,000 should check with their local Rural Development office to determine if the agency can serve them. A grant will not exceed 70 percent of the total fiscal year funds that a qualifying State requires to operate and administer its mediation program, or \$500,000, whichever is less. Eligible costs are limited to those that are reasonable and necessary to carry out the mission of the State's mediation program and may include activities related to the intake and scheduling of cases, the provision of background and selected information regarding the mediation process, financial advisory and counseling services, and the mediation session.

Have a mediation program which has been certified by the Administrator of FSA, and for which certification has not been withdrawn; provide evidence to justify the estimated costs of operating and administering the State's mediation program. The Governor of a State or head of an entity designated by the Governor of a State must make a written request to FSA on or before August 1 of each year to receive a matching grant during the fiscal year commencing on October 1, of that same year. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. To be certified as a qualifying State, the mediation program of the State must mediate issues involving agricultural loans (regardless of whether the loans are made or guaranteed by the Secretary of Agriculture or made by third party); and may

4. OTHER EXTENSION ACTIVITIES:

(a) Renewable Resources Extension Act (FORMULA)

The Renewable Resources Extension Act of 1978 (P.L. 95-306, 92 Stat. 349, 16 U.S.C. 1671 et seq.) provides for an expanded and comprehensive extension program for forest and rangeland renewable resources. The majority of the appropriated funds are distributed to eligible institutions based on a formula that considers the geographic extent, ecosystem productivity, economic contribution, and population for each state.

Since FY 2002, a small amount of these funds have been used to fund National Focus Fund Projects which have served to expand comprehensive extension programs for forest and rangeland renewable resources on a national, regional, or multi-institutional scale through better program coordination, innovative technologies, and extension models that can be easily duplicated.

(b) Rural Health and Safety

The authority for this program is under Section 502 (i) of Title V of the Rural Development Act of 1972, as amended (7 U.S.C. 2662). The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I. The Rural Health and Safety Education Competitive Program addresses the Individual and Family Health Education component of the authorization.

(c) Extension Services at the 1994 Institutions

This program is authorized under Section 534(b) of the Equity in Educational Land-Grant Status Act of 1994 (7 U.S.C. 201 note), as amended by the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) (7 U.S.C. 7601). This section amends Section 3 of the Act of May 8, 1914 (Smith-Lever Act) (7 U.S.C. 341 et seq.), as amended. Under this authority, appropriated funds are to be awarded to the 1994 Land-Grant Institutions (hereinafter referred to as 1994 institutions) for Extension work and funds are to be distributed on the basis of a competitive application process.

(d) Grants to Youth Serving Institutions

Title IV of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7630) authorized the Secretary of Agriculture to make grants to the Girl Scouts of the United States of America (GSUSA), the Boy Scouts of America (BSA), the National 4-H Council (4-H Council), and the National FFA Organization (FFA). Section 7309 of the Food, Conservation, and Energy Act (FCEA) of 2008 reauthorized 7 U.S.C. 7630, which was also amended to provide additional flexibility in content delivery to each organization receiving funds and to allow recipients to redistribute all or part of the funds to individual

councils or local chapters without further need of approval from the Secretary. In FY 2009, Terms and Conditions of these awards should facilitate the redistribution without further need of approval. The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I for grants to youth organizations pursuant to 7 U.S.C. 7630.

(e) Food Animal Residue Avoidance Database Program (FARAD)

Title VI Section 604 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7642) states that -The Secretary of Agriculture shall continue operation of the Food Animal Residue Avoidance Database program (referred to in this section as the FARAD program) through contracts, grants, or cooperative agreements with appropriate colleges or universities.

L. 110-246) grants will be awarded under the Facilities Grants Program to the 1890 land-grant institutions, including Tuskegee University and West Virginia State University. The Omnibus Appropriations Act, 2009 appropriates funds under Division A, Title I, 7 U.S.C 341-349.

OBJECTIVES:

GENERAL: [As reflected in Part I.B. of the Request for Applications (RFA) or Formula Grant Opportunity (FGO)]

1. 3b & c Formula Funds

a) Cooperative Extension Programs at 1862 Land-Grant Institutions (aka 3b & c Formula Funds) (FORMULA)

These funds are used by institutions eligible to receive funds under the Act of Congress approved July second, eighteen hundred and sixty-two, entitled An Act donating public lands to the several States and Territories which may provide colleges for the benefit of agriculture and the mechanic arts (Twelfth Statutes at Large, page five hundred and three) (1862 Land-grant Institutions), for the development of practical applications of research knowledge and giving of instruction and practical demonstrations of existing or improved practices or technologies in agriculture, uses of solar energy with respect to agriculture, home economics, and rural energy, and subjects relating thereto to persons not attending or resident in 1862 Land-grant Institutions in the several communities, and imparting information on those subjects through demonstrations, publications, and otherwise and for the necessary printing and distribution of information in connection with the subjects.

The purpose of this funding is to conduct agricultural extension work.

(b) Cooperative Extension Programs at 1862 Land-Grant Institutions (Special Needs) aka ESPN Special Needs (FORMULA)

The purpose of this funding is to increase the level of agricultural extension work. These funds are used to support extension activities identified in the eligible institutions approved 5-Year Plan of Work. Special Needs funds are allocated to a State Cooperative Extension Service to fulfill a purpose or overcome a condition peculiar to the State, as compared to the country as a whole, or for a purpose not normally a part of the continuing extension program.

(c) Smith-Lever Special Needs Program (aka ESPN Special Needs Projects)

Funds support innovative extension education approaches to addressing risks, hazards and disasters. The Cooperative Extension Service (CES) has an important role in reducing the impact of disasters through extension education. The Extension Special Needs program sponsors targeted projects that enable CES to assist in preparing for, providing an educational response to, and recovering from disasters. Education programming funded by this program will help communities, families and individuals become more self-sustaining by strengthening and increasing their resiliency to disaster. Some types of hazards and disaster related events funded in previous years include uncertainties

caused by losses of economic infrastructure, severe weather or other natural disasters, security breaches, human disease, or high consequence animal diseases and plant pests.

There has been an increase in public awareness regarding the number and severity of disaster type critical incidents involving earthquakes, tsunamis, tornadoes, wildfire, drought, contagious disease, and terrorist events. The National Academy of Sciences Committee on Environment and Natural Resources and the Subcommittee on Disaster Reduction of the National Science and Technology Council have acknowledged the many effective roles that the Cooperative Extension System (CES) has played in disaster preparedness, response and remediation.

Within the states and territories, the CES has repeatedly served as the trusted community organization that has helped to enable families, communities, and businesses to successfully prepare for, respond to and cope with disaster losses and critical incidents. Once a disaster has occurred, the local extension outreach includes: 1) Communicating practical science-based risk information, 2) Developing relevant educational experiences and programs, 3) Working with individuals and communities to open new communication channels, and 4) Mitigating losses and facilitating recovery. Never was this more evident than after hurricanes Katrina, Rita and Wilma in 2005 and during the 2008 Midwestern Summer flooding. During and after these incidents, local Extension agents served as a critical communication node throughout affected urban and rural areas, particularly when traditional communication systems were temporarily overwhelmed or destroyed.

The Extension Special Needs RFA encourages proposals that specifically address one or more of the following six key target areas:

1. Education and Technical assistance through inter-disciplinary and multi-state disaster training programs and demonstration projects for problem solving, especially those which build upon already existing strengths, contribute to or expand the EDEN and/or eXtension educational materials related to disaster preparation, mitigation, response and recovery;

2. Collaboration with Federal, state and local agencies and other disaster relief organizations to support education and service activities that enhance recovery of impacted rural communities, schools, businesses and agricultural-based activities;

3. Long range family, community and regional planning projects that will enhance implementation of programs that serve public needs in preparation for, during and after emergency situations within impacted States and across impacted regions;

4. Communication delivery of key information that meets end-users needs in a timely fashion with consideration of potentially limited communication channels due to disaster situations;

5. Dissemination of credible, science-based information that is reliable and easily accessible even if electronic access is compromised; and

6. Integrated Research and Extension Planning Projects (up to \$15,000) are intended to provide assistance to applicants in bringing together teams for the development of highly competitive grant proposals where extension personnel would apply for large grants (in excess of \$250,000) from other grant programs (e.g., the Agriculture and Food Research Initiative and etc) and lead nationally important disaster prevention, protection and mitigation projects.

Fundable projects should support education and extension activities which:

1. Reduce risk through planning, disaster preparedness and emergency response by improving communication between the public, community leaders, state and Federal agencies;

2. Develop strategies and educational materials and/or programming in the area of emergency planning, infrastructure design and disaster recovery operation;

3. Develop community networks that provide real-time disaster education information; and/or

4. Develop or expand educational materials regarding disaster issues suitable for use and distribution by the Extension Disaster Education Network (EDEN) or the eXtension Community of Practice working with disaster planning.

1. SMITH-LEVER 3(b) & (c):

(a) Cooperative Extension Programs at 1862 Land-Grant Institutions (aka 3b & c Formula Funds) (FORMULA)

Sections 3(b) and 3(c) of the Smith-Lever Act provide funding for agricultural extension programs at 1862 Land-grant universities.

These funds are used by institutions eligible to receive funds under the Act of Congress approved July second, eighteen hundred and sixty-two, entitled An Act donating public lands to the several States and Territories which may provide colleges for the benefit of agriculture and the mechanic arts (Twelfth Statutes at Large, page five hundred and three) (1862 Land-grant Institutions), for the development of practical applications of research knowledge and giving of instruction and practical demonstrations of existing or improved practices or technologies in agriculture, uses of solar energy with respect to agriculture, home economics, and rural energy, and subjects relating thereto to persons not attending or resident in 1862 Land-grant Institutions in the several communities, and imparting information on those subjects through demonstrations, publications, and otherwise and for the necessary printing and distribution of information in connection with the subjects.

(b) Cooperative Extension Programs at 1862 Land-Grant Institutions (Special Needs) aka ESPN Special Needs (FORMULA)

These funds are used to support extension activities identified in the eligible institutions approved 5-Year Plan of Work. Special Needs funds are allocated to a State Cooperative Extension Service to fulfill a purpose or overcome a condition peculiar to the State, as compared to the country as a whole, or for a purpose not normally a part of the continuing extension program.

Funds are allocated under this program to a State Cooperative Extension Service to fulfill a purpose or overcome a condition peculiar to the State, as compared to the country as a whole, or for a purpose not normally a part of the continuing extension program.

(c) Smith-Lever Special Needs Program (aka ESPN Special Needs Projects)

There has been an increase in public awareness regarding the number and severity of disaster type critical incidents involving earthquakes, tsunamis, tornadoes, wildfire, drought, contagious disease, and terrorist events. The National Academy of Sciences Committee on Environment and Natural Resources and the Subcommittee on Disaster Reduction of the National Science and Technology Council have acknowledged the many effective roles that the Cooperative Extension System (CES) has played in disaster preparedness, response and remediation.

Within the states and territories, the CES has repeatedly served as the trusted community organization that has helped to enable families, communities, and businesses to successfully prepare for, respond to and cope with disaster losses and critical incidents. Once a disaster has occurred, the local extension outreach includes: 1) Communicating practical science-based risk information, 2) Developing relevant educational experiences and programs, 3) Working with individuals and communities to open new communication channels, and 4) Mitigating losses and facilitating recovery. Never was this more evident than after hurricanes Katrina, Rita and Wilma in 2005 and during the 2008

Midwestern Summer flooding. During and after these incidents, local Extension agents served as a critical communication node throughout affected urban and rural areas, particularly when traditional communication systems were temporarily overwhelmed or destroyed.

The Extension Special Needs RFA encourages proposals that specifically address one or more of the following six key target areas:

1. Education and Technical assistance through inter-disciplinary and multi-state disaster training programs and demonstration projects for problem solving, especially those which build upon already existing strengths, contribute to or expand the EDEN and/or eXtension educational materials related to disaster preparation, mitigation, response and recovery;
2. Collaboration with Federal, state and local agencies and other disaster relief organizations to support education and service activities that enhance recovery of impacted rural communities, schools, businesses and agricultural-based activities;
3. Long range family, community and regional planning projects that will enhance implementation of programs that serve public needs in preparation for, during and after emergency situations within impacted States and across impacted regions;
4. Communication delivery of key information that meets end-users needs in a timely fashion with consideration of potentially limited communication channels due to disaster situations;
5. Dissemination of credible, science-based information that is reliable and easily accessible even if electronic access is compromised; and
6. Integrated Research and Extension Planning Projects (up to \$15,000) are intended to provide assistance to applicants in bringing together teams for the development of highly competitive grant proposals where extension personnel would apply for large grants (in excess of \$250,000) from other grant programs (e.g., the Agriculture and Food Research Initiative and etc) and lead nationally important disaster prevention, protection and mitigation projects.

Fundable projects should support education and extension activities which:

1. Reduce risk through planning, disaster preparedness and emergency response by improving communication between the public, community leaders, state and Federal agencies;
2. Develop strategies and educational materials and/or programming in the area of emergency planning, infrastructure design and disaster recovery operation;
3. Develop community networks that provide real-time disaster education information; and/or
4. Develop or expand educational materials regarding disaster issues suitable for use and distribution by the Extension Disaster Education Network (EDEN) or the eXtension Community of Practice working with disaster planning.

(d) CSRS Retirement Contributions Program (aka ERET CSRS Retirement) (FORMULA)

These grants are used to defray the CSRS Retirement costs to the 1862 land-grant institutions for the former Schedule A Appointments who conduct agricultural extension work.

Funds are provided for the retirement costs of the former Schedule A Appointments at the 1862 land-grant institutions. These funds are allocated based on each institutions relative share of the total payments to OPM during the previous year.

The separate allocation of funds for this purpose is being phased out over a 10-year period, beginning in FY 2007. The amount available for this program is reduced each fiscal year by \$1,473,658 and the same amount is added to the funds available for distribution under the Smith-Lever Act, Section 3(b) and (c), statutory formula.

The Schedule A 213.3113 (a) (1) was issued by the U.S. Office of Personnel Management (OPM) for the United States Department of Agriculture (USDA)

to employ individuals in the Cooperative Extension Service (CES) as a joint appointment between USDA and the land grant institution. The official title of Schedule A appointees includes the title Agent (e.g., Agent/Cooperative Extension Director; Agent/Cooperative Extension Educator) as by law only agents with a Schedule A appointment were eligible to participate in the Federal benefit plan(s).

Employment is dependent upon an individuals appointment in the CES at the university. The appointment must be a regular position with at least 50 percent of the staffs time dedicated to extension projects, and the appointee must work and be paid over a 12-month period.

Agents in the Cooperative Extension program are not classified under the General Schedule (GS) classification system or any other Federal pay system. The positions are classified by the employing land grant institution, and the salary is established according to policies and procedures at the institution. The OPM has the authority and responsibility for issuing rules and regulations covering Schedule A appointments and resulting benefits. OPM has delegated to the USDA the responsibility for overseeing and managing Cooperative Extension Schedule A appointments and the accompanying Federal benefits, (e.g., retirement and insurance plans). The Human Resources Division (HRD)/Cooperative Extension Service (CES) Team within Administrative and Financial Management (AFM) of the Agricultural Research Service (ARS) carries out this function for USDA.

Effective January 31, 2003, the authority to grant Schedule A Excepted Appointments to CES employees was terminated. Public Law 107-171, Farm Security and Rural Investment Act of 2002, dated May 13, 2002, Section 7220, terminated the Schedule A appointing authority used by USDA to grant a companion Federal appointment and Federal benefits to state/university employees of the Cooperative Extension Service. The law allowed the CES Federal appointees that were employed on the day before the date of the enactment of the Act, (i.e., May 12, 2002) to: a) continue to accrue Federal creditable service for retirement; and b) participate in the following benefits as long as the employees continued their employment with the Cooperative Extension Service:

- 1) the Federal Employees Health Benefits Program (FEHB);
- 2) the Federal Employees' Group Life Insurance Program (FELGI);
- 3) the Civil Service Retirement System (CSRS);
- 4) the Federal Employee Retirement System (CSRS);
- 5) the Thrift Savings Plan (TSP); and
- 6) the Federal Long Term Care Insurance Program (FLTCIP).

The Federal Office of Workers Compensation Program (OWCP) is the only Federal program that will not continue as it is not a program that the dual appointee was vested in. Claims already on file with the Department of Labor (DOL) Office of Workers Compensation Office will continue to be processed by the DOL. Using a formula based in the prior years injury or illness claims, NIFA will pay these claims on behalf of each institution and charge that institution by reducing its annual retirement allocation by the amount remitted. If the amount of claims paid exceeds the institutions annual retirement allocation, NIFA will bill the institution for any OWCP costs in excess of the annual retirement allocation.

Changes and new features for the current Federal Benefits programs such as FEHB, FELGI, TSP and FLTCIP will be offered to the CES organizations and employees that are eligible to participate in the affected program(s). However, former Federal appointees cannot participate in new Federal benefit programs that were not in effect as of May 12, 2002.

Effective January 31, 2003, CES can no longer grant Schedule A Federal appointments to new employees because they no longer have a Federal appointment authority available to make new Federal appointments. Former CES Schedule A appointees may be reappointed to another CES organization and continue their benefits as long as they do not have a break in service.

(e) FERS Retirement Contributions Program (aka ERET FERS Retirement) (FORMULA)

Federal funds are provided for the retirement costs of the former Schedule A Appointments at the 1862 land-grant institutions. These funds are allocated to the 1862 land-grant institutions with former Schedule A Appointments based on each institutions relative share of the total payments to OPM during the previous year.

The separate allocation of funds for this purpose is being phased out over a 10-year period, beginning in FY 2008. The amount available for this program

is reduced each year by \$376,826 and this same amount is added to the funds available for distribution under the Smith-Lever Act, Section 3(b) and (c), statutory formula.

The Schedule A 213.3113 (a) (1) was issued by the U.S. Office of Personnel Management (OPM) for the United States Department of Agriculture (USDA) to employ individuals in the Cooperative Extension Service (CES) as a joint appointment between USDA and the land-grant institution. The official title of Schedule A appointees includes the title Agent (e.g., Agent/Cooperative Extension Director; Agent/Cooperative Extension Educator) as by law only agents with a Schedule A appointment were eligible to participate in the Federal benefit plan(s).

- 3) The Civil Service Retirement System (CSRS);
- 4) The Federal Employee Retirement System (FERS);

Former CES Schedule A appointees may be reappointed to another CES organization and continue their benefits as long as they do not have a break in service.

(f) District of Columbia Public Postsecondary Education Reorganization Act Program (Cooperative Extension Programs) aka EUDC
These funds are used by the University of the District of Columbia for the

development of practical applications of research knowledge and giving of instruction and practical demonstrations of existing or improved practices or technologies in agriculture, uses of solar energy with respect to agriculture, home economics, and rural energy, and subjects relating thereto to persons not attending the University of the District of Columbia, and imparting information on those subjects through demonstrations, publications, and otherwise and for the necessary printing and distribution of information in connection with the subjects.

Sections 208 of the District of Columbia Public Postsecondary Education Reorganization Act provides, in pertinent part, that In the administration of the Act of August 30, 1890 (7 U.S.C. 321-326, 328) (known as the Second Morrill Act), the University [of the District of Columbia] shall be considered to be a university established for the benefit of agriculture and the mechanic arts in accordance with the provisions of the Act of July 2, 1862 (7 U.S.C. 301-305, 307, 308) (known as the First Morrill Act); and the term "State", is used in the laws and provisions of law listed in the preceding paragraphs of this section shall include the District of Columbia. In the administration of the Act of May 8, 1914 (7 U.S.C. 341-346, 347a-349) (known as the Smith-Lever Act) the University [of the District of Columbia] shall be considered to be a university established for the benefit of agriculture and the mechanic arts in accordance with the provisions of the Act of July 2, 1862 (7 U.S.C. 301- 305, 307,308); and the term "State" as used in such Act of May 8, 1914, shall include the District of Columbia, except that the District of Columbia shall not be eligible to receive any sums appropriated under section 3 of such Act. In lieu of an authorization of appropriations for the District of Columbia under section 3 of such Act of May 8, 1914, there is authorized to be appropriated such sums as may be necessary to provide cooperative agricultural extension work in the District of Columbia under such Act. Any reference in such Act (other than section 3 thereof) to funds appropriated under such Act shall in the case of the District of Columbia be considered a reference to funds appropriated under this subsection.

Therefore, this grant funds the development of practical applications of research knowledge and giving of instruction and practical demonstrations of existing or improved practices or technologies in agriculture, uses of solar energy with respect to agriculture, home economics, and rural energy, and subjects relating thereto to persons not attending the University of the District of Columbia, and imparting information on those subjects through demonstrations, publications, and otherwise and for the necessary printing and distribution of information in connection with the subjects.

Section 7417 of the Food, Conservation, and Energy Act of 2008 (Public Law 110-234) amended section 208 of the District of Columbia Public Postsecondary Education Reorganization Act to eliminate any matching requirement for the extension formula funds provided to the University of the District of Columbia, effective October 1, 2008.

Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.

[for] programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA ... or [for] qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions. It defines non-Federal sources as funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees. Finally, it defines qualifying educational activities as programs that address food and agricultural sciences components of an eligible institution.

7 CFR 3419.6 states that The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977... or for .. qualifying education activities. Please note that while Federal funds must be expended on agricultural extension, the matching funds may be used for agricultural research, agricultural extension, or qualifying educational activities. NIFA may consider and approve matching waivers above the 50 percent level. See Part IV.B.6. for additional information.

4. OTHER EXTENSION ACTIVITIES:

(a) Renewable Resources Extension Act

The majority of the appropriated funds are distributed to eligible institutions based on a formula that considers the geographic extent, ecosystem productivity, economic contribution, and population for each state. Since FY 2002, a small amount of these funds have been used to fund National Focus Fund Projects.

NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria. Section 7132 of the Food, Conservation, and Energy Act amended section 1462 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310), increasing the limit on recovery of indirect costs from 20 percent to 22 percent of total Federal funds provided under the award. Therefore, the recovery of indirect costs on awards made by NIFA under this program area may not exceed the lesser of the institution's official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded.

(b) Rural Health and Safety

The Rural Health and Safety Education Competitive Grants Program provides funds to meet national goals for addressing the health and access needs of rural Americans.

NIFA does not require matching or cost sharing support for this program and matching resources will not be factored into the review process as evaluation criteria.

NIFA has determined that grant funds awarded under this authority may not be used for the renovation or refurbishment of research, education, or extension space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

Section 7132 of the Food, Conservation, and Energy Act amended section 1462 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310), increasing the limit on recovery of indirect costs from 20 percent to 22 percent of total Federal funds provided under the award. Therefore, the recovery of indirect costs on awards made by NIFA under this program area may not exceed the lesser of the institution's official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded.

(c) Extension Services at the 1994 Institutions

Appropriated funds are to be awarded to the 1994 Land-Grant Institutions for Extension work and funds are to be distributed on the basis of a competitive application process.

NIFA does not require matching support for this program, and matching resources will not be factored into the review process as evaluation criteria.

Under the TCEP, the use of grant funds to plan, acquire, or construct a building or facility, or to acquire land, is not allowed. With prior approval, in accordance with the cost principles set forth in OMB Circular No. A-21, grant funds may be used to purchase equipment, or for improvements, alterations, renovations, or repairs to land, buildings, or equipment, deemed necessary to retrofit existing spaces and resources in order to carry out a funded project under this grant.

However, requests to use grant funds for such purposes must demonstrate that such expenditures are incidental to the major purpose for which the grant request is made and no more than twenty-five percent of the project budget may be used to purchase equipment. Any equipment purchased with Federal funds is the property of the grantee or the subgrantee, as appropriate.

Indirect costs are unallowable costs, and no funds will be approved for this purpose. Costs that are a part of the institutions indirect cost pool may not be reclassified as direct costs for the purpose of making them allowable.

(d) Grants to Youth Serving Institutions

Title IV of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7630) authorized the Secretary of Agriculture to make grants to the Girl Scouts of the United States of America (GSUSA), the Boy Scouts of America (BSA), the National 4-H Council (4-H Council), and the National FFA Organization (FFA). Section 7309 of the Food, Conservation, and Energy Act (FCEA) of 2008 reauthorized 7 U.S.C. 7630, which was also amended to provide additional flexibility in content delivery to each organization receiving funds and to allow recipients to redistribute all or part of the funds to individual councils or local chapters without further need of approval from the Secretary. In FY 2009, Terms and Conditions of these awards should facilitate the redistribution without further need of approval. The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I for grants to youth organizations pursuant to 7 U.S.C. 7630.

There are no matching requirements associated with the Rural Youth Development program, and matching resources will not be factored into the review process as evaluation criteria.

NIFA has determined that grant funds awarded under this authority may not be used for the renovation or refurbishment of facility space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

Section 7132 of the Food, Conservation, and Energy Act of 2008, amended the National Agriculture Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310(a)), limiting indirect costs to 22 percent of the total Federal funds provided under each award. Therefore, when preparing budgets, applicants should limit their requests for recovery of indirect costs to the lesser of their institutions official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded. If no rate has been established the applicant may indicate "Nonewill negotiate" and a reasonable dollar amount for indirect costs may be requested, which will be subject to approval by USDA. In the latter case, if a proposal is recommended for funding, an indirect cost rate proposal must be submitted prior to award to support the amount of indirect costs requested. NIFA will request an indirect cost rate proposal and provide instructions, as necessary. An applicant may elect not to charge indirect costs and, instead, use all grant funds for direct costs. If indirect costs are not charged, the phrase "None requested" should be written in this space.

(e) Food Animal Residue Avoidance Database Program (FARAD)

Pursuant to Sec. 604 of the Agricultural research extension and Education Reform Act of 1998 [7 USC 7642(d)], applicants requesting recovery of indirect costs should limit their requests to the lesser of their institutions

official negotiated indirect costs rate or the equivalent of 19 percent of total Federal funds awarded.

(f) Federal Administration (DIRECT APPROPRIATION)

Pertinent details will be provided at a future date.

(g) 1890 Facilities (Section 1447)

In Fiscal Year (FY) 09 NIFA assessed four percent (4%) of the appropriated amount for Federal Administration, distributed sixty percent (60%) of the balance equally, and distributed the remaining forty percent (40%) based on the formula found in Section 1444 of NAREPTA of 1977, as amended (Pub. L. No. 95-113).

Within each institution, the research, teaching and extension programs must each receive at least 20 percent of the annual allocation. The remaining 40 percent may be allocated based on institutional needs for research, teaching, or extension. No more than 60 percent of the total allocation should be directed to research, teaching, or extension. However, if there are unique situations in your institution which warrant a deviation from these guidelines, we will consider requests for reallocation. Such reallocations must be justified by the submission of a situation statement which describes the research, teaching, and extension facilities needs in your institution and how previously available Federal funds were utilized.

NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria.

The obligation and expenditure of funds awarded under these grants are limited to equipment, land, buildings and other related costs which are or will be used in the administration and conduct of approved research, teaching and extension activities. In accordance with NAREPTA Section 1447 (e), funds provided for this program may not be used for the payment of any overhead costs of the eligible institutions. Some funds are Fully Discretionary. Some funds are Mandatory.

Beneficiary Eligibility:

Extension Programs at the State and county level are available to the general public.

Credentials/Documentation:

A Data Universal Number System (DUNS) number must be obtained - A DUNS number is a unique number that identifies an organization. It has been adopted by the Federal government to help track how Federal grant money is distributed. If your organization does not have a DUNS number, call the special Dun & Bradstreet hotline at 1-866-705-5711 to receive one free of charge. You will receive a DUNS number within several days of your request. Please note, individual proprietorships (i.e. farmers, ranchers) can request and receive a DUNS number, but must register with Grants.gov as an organization, not as an

individual.

Registration with Central Contractor Registry (CCR) is required - The CCR is the central government repository for organizations working with the Federal government. If your organization is not already registered, identify the primary contact who should register your organization. When your organization registers with CCR, it will be required to designate an e-Business Point of Contact (e-Business POC). The e-Business POC authorizes individuals to submit grant applications on behalf of the organization and creates a special password called a Marketing Partner ID Number (M-PIN) to verify individuals authorized to submit grant applications for the organization. Visit the CCR Web site at <http://www.ccr.gov> to begin this process. It may take several days to collect the information needed for your organization's registration. The CCR Assistance Center can be reached at 888-227-2423. This information collection is approved under OMB Control No. 0524-0039, NIFA Application Kit for Research and Extension Programs.

Applicants must furnish the information required in the request for applications (RFAs). Successful applicants recommended for funding must furnish the information and assurances requested during the award documentation process. These include, but are not limited to the following:

Organizational Management Information - Specific management information relating to an applicant shall be submitted on a one time basis, with updates on an as needed basis, as part of the responsibility determination prior to the award of a grant identified under this RFA, if such information has not been provided previously under this or another NIFA program. NIFA will provide copies of forms recommended for use in fulfilling these requirements as part of the preaward process. Although an applicant may be eligible based on its status as one of these entities, there are factors which may exclude an applicant from receiving Federal financial and nonfinancial assistance and benefits under this program (e.g., debarment or suspension of an individual involved or a determination that an applicant is not responsible based on submitted organizational management information). This information collection is approved under OMB Circular Control No. 0524-0026, Assurance of Compliance with the Department of Agriculture Regulations Assuring Civil Rights, Compliance and Organization Information.. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

All RFAs are published on the Agency's website and Grants.gov. Applicants must complete the Grants.gov registration process. Please see the following Grants.gov link for more information: http://www.grants.gov/applicants/get_registered.jsp. This program is excluded from coverage under E.O. 12372.

1. SMITH-LEVER 3(b) & (c):

(a) Cooperative Extension Programs at 1862 Land-Grant Institutions (aka 3b & c Formula Funds) (FORMULA)

States are eligible for funds appropriated under this Act according to the following formula: Out of each annual allocation, each State will be entitled to receive a sum of money equal to the sums available from Federal cooperative extension funds for the fiscal year 1962, and subject to the same requirements as to furnishing of equivalent sums by the State, except that amounts heretofore made available to the Secretary for allotment on the basis of special needs shall continue available for use on the same basis. Further, the University of Guam and the University of the Virgin Islands will receive \$100,000 each in addition to the sums appropriated for the several States of the United States and Puerto Rico under the provisions of sections 3(b) and 3(c) of the Smith-Lever Act. Of the remainder so appropriated for each fiscal year 20 per cent will be paid to the several States in equal proportions, 40 per cent will be paid to the several States in the proportion that the rural population of each bears to the total rural population of the several States as determined by the census, and the balance will be paid to the several States in the proportion that the farm population of each bears to the total farm population of the several

States as determined by the census. Any appropriation made under sections 3(b) and 3(c) of the Smith-Lever Act will be allotted in the first and succeeding years on the basis of the decennial census current at the time the appropriation is first made, and as to any increase, on the basis of decennial census current at the time such increase is first appropriated.

Cost Sharing or Matching

Section 3(e)(1) of the Smith-Lever Act (7 U.S.C. 343(e)(1)) states, with regard to institutions in the 50 states, no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes available out of non-Federal funds for cooperative extension work. However, section 3(e)(4) of the Smith-Lever Act (U.S.C. 343(e)(4)) provides that Effective beginning for fiscal year

2003, in lieu of the matching funds requirement of paragraph (1), the insular areas of [American Samoa,] the Commonwealth of Puerto Rico, Guam, [Micronesia, the Northern Marianas Islands,] and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the formula funds distributed by the Secretary to each of the insular areas, respectively, under this section..... The Secretary may waive the matching fund requirement [of 50 percent] for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year.

(b) Cooperative Extension Programs at 1862 Land-Grant Institutions (Special Needs) aka ESPN Special Needs (FORMULA)

Funds will be distributed to the institutions on a quarterly basis. See Appendix A of the Formula Grant Opportunity (FGO) for the specific allocation. Cost Sharing or Matching

1862 Land-grant Institutions in the 50 States must match 100 percent of the Special Needs funds they receive with funds from non-Federal sources such as State or county appropriations. The matching must be in the form of cash. Matching funds must be used for extension activities approved in the eligible institutions 5-Year Plan of Work.

(c) Smith-Lever Special Needs Program (aka ESPN Special Needs Projects) Cost Sharing or Matching

Pursuant to rules and policies governing Section 3(b) & (c) of the Smith-Lever Act, as amended through Public Law 107-293, no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes available out of non-Federal funds for cooperative extension work.

1. To comply with the matching requirements of the Special Needs Program, applicants are required to provide 100 percent matching funds from non-federal sources for all proposed federal funds sought in the application. In-kind and third party contributions are not allowed for the Smith-Lever Special Needs program. Grant awards cannot be issued until ALL required matching has been documented and verified.

2. Matching Alternative. Extension Directors may certify an offset of guaranteed non-Federal funds to your application. The signed certification of offset must be scanned and included as a PDF attachment (see Part IV .B .2 .c .(1) for specific instructions).

3. Matching Exception. Insular Areas: In lieu of the matching funds requirement, the insular areas of the Commonwealth of Puerto Rico, Guam, and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the grants awarded. The Secretary may waive this matching fund requirement for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year. Insular applicants may submit a waiver request as a PDF attachment to the application (see Part IV .B .2 .c .(2) for specific instructions).

For all projects:

Matching: Applications shall include written verification of commitments of matching support from non-federal sources. Written verification means: The sources and the amount of all matching support from outside the applicant organization should be summarized on a separate page and placed in the application as a part of the Budget

Justification attachment (see Field K on the Form SF 424 (R&R) Budget). Include the matching amount, the budget category for the match, and detail how the matching support, from each source, will be used (e.g., salary and position supported). Additionally, all pledge agreements must be included as a PDF attachment in Field K as well.

The value of applicant contributions to the project shall be established in accordance with the applicable cost principles. Applicants should refer to OMB Circulars A-21, Cost Principles for Educational Institutions; A-87, Cost Principles for State, Local, and Tribal Governments; 2 CFR Part 215, Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations (OMB Circular A110); for further guidance and other requirements relating to allowable costs.

(d) CSRS Retirement Contributions Program (aka ERET CSRS Retirement) (FORMULA)

Federal funding is distributed according to an administrative formula described in the Formula Grant Opportunity (FGO). See Appendix A of the FGO for specific allocations.

NIFA CSRS retirement allocations must be used to support CSRS retirement costs for former Schedule A Appointments.

Cost Sharing or Matching

Section 3(e)(1) of the Smith-Lever Act (7 U.S.C. 343(e)(1) states, with regard to institutions in the 50 states, no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes available out of non-Federal funds for cooperative extension work. However, section 3(e)(4) of the Smith-Lever Act (U.S.C. 343(e)(4) provides that Effective beginning for fiscal year 2003, in lieu of the matching funds requirements of paragraph (1), the insular areas of [American Samoa,] the Commonwealth of Puerto Rico, Guam, [Micronesia, the Northern Marianas Islands,] and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the formula funds distributed by the Secretary to each of the insular areas, respectively, under this section. The Secretary may waive the matching fund requirement [of 50 percent] for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year.

(e) FERS Retirement Contributions Program (aka ERET FERS Retirement) (FORMULA)

Federal funds are distributed according to an administrative formula described in the Formula Grant Opportunity (FGO). See Appendix A of the FGO for specific allocations.

Cost Sharing or Matching

Section 3(e)(1) of the Smith-Lever Act (7 U.S.C. 343(e)(1) states, with regard to institutions in the 50 states, no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes available out of non-Federal funds for cooperative extension work. However, section 3(e)(4) of the Smith-Lever Act (U.S.C. 343(e)(4) provides that Effective beginning for fiscal year 2003, in lieu of the matching funds requirements of paragraph (1), the insular areas of [American Samoa,] the Commonwealth of Puerto Rico, Guam, [Micronesia, the Northern Marianas Islands,] and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the formula funds distributed by the Secretary to each of the insular areas, respectively, under this section. The Secretary may waive the matching fund requirement [of 50 percent] for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year.

(f) District of Columbia Public Postsecondary Education Reorganization Act Program (Cooperative Extension Programs) aka EUDC
There is no matching requirement for these funds.

2. Agricultural Extension at 1890 Land-Grant Institutions, Including Tuskegee University and West Virginia State University (Section 1444) (FORMULA)

The 1890 Land-Grant Institutions, including Tuskegee University and West Virginia State University, are eligible for funds appropriated under this Act according to the following formula: Any funds annually appropriated under NARETPA section 1444 up to the amount appropriated for the fiscal year ending September 30, 1978, pursuant to section 3(d) of the Act of May 8, 1914, as amended, for eligible institutions, will be allocated among the eligible institutions in the same proportion as funds appropriated under section 3(d) of the Act of May 8, 1914, as amended, for the fiscal year ending September 30, 1978, are allocated among the eligible institutions. Of the funds in excess of that amount, 20 per cent will be allotted among the eligible institutions in equal proportions; 40 per cent will be allotted among the eligible institutions in the proportion that the rural population of the State in which each eligible institution is located bears to the total rural population of all the States in which eligible institutions are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated; and the balance will be allotted among the eligible institutions in the proportion that the farm population of the State in which each eligible institution is located bears to the total farm population of all the States in which the eligible institutions are located, as determined by the last preceding decennial census current at the time each such additional sum is first appropriated. For purposes of computing the distribution, the allotments to Tuskegee University and Alabama A&M University will be determined as if each institution were in a

separate State.

Cost Sharing or Matching

NARETPA section 1449 (7 U.S.C. 3222d) states that the State shall provide matching funds from non-Federal sources. Such matching funds shall be for an amount equal to not less than ... 100 percent of the formula [grant] funds to be distributed to the eligible institution for fiscal year 2007 and each fiscal year thereafter. ... Notwithstanding [redistributing the funds], the Secretary may waive the matching funds requirement ... above the 50 percent level for any fiscal year for an eligible institution of a State if the Secretary determines that the State will be unlikely to satisfy the matching requirement.

7 CFR 3419.1 defines matching funds as funds from non-Federal sources made available by the State to the eligible institutions ... [for] programs or activities that fall within the purposes of agricultural research and cooperative extension under sections 1444 and 1445 of NARETPA ...or [for] qualifying educational activities. Matching funds means cash contributions and excludes in-kind matching contributions. It defines non-Federal sources as funds made available by the State to the eligible institution either through direct appropriation or under any authority (other than authority to charge tuition and fees paid by students) provided by a State to an eligible institution to raise revenue, such as gift acceptance authority or user fees. Finally, it defines qualifying educational activities as programs that address food and agricultural sciences components of an eligible institution.

7 CFR 3419.6 states that The required matching funds for the formula programs shall be used by an eligible institution for agricultural research and extension activities that have been approved in the plan of work required under sections 1444(d) and 1445(c) of the National Agricultural Research, Extension, and Teaching Policy Act of 1977... or for .. qualifying education activities.

3. SMITH-LEVER 3(d):

(a) Expanded Food and Nutrition (EFNEP) (ENUT Nutrition Education) (FORMULA)

Section 7116 of the Food, Conservation, and Energy Act of 2008 (FCEA) amended Section 1425 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3175) to accomplish the following:

Notwithstanding section 3(d) of the Smith-Lever Act of May 8, 1914 (7 U.S.C. 343(d)) for administration, technical, and other services for coordinating the extension work of the Department and the several States, Territories, and possessions the remainder shall be allocated among the States as follows:

1. 1862 Institutions shall receive a base in an amount equaling their FY 1981 allocation.
2. Four percent (4%) shall be available for administrative expenses.
3. \$100,000 will be distributed to each 1862 and 1890 Land-Grant Institution including the University of the District of Columbia.
4. For fiscal year (FY) 2009 10 percent of funds appropriated for EFNEP in excess of funds appropriated in FY 2007 will be allocated to the 1890 Institutions in an amount that bearing the same ratio to the population living at or below 125 percent of the poverty level (as prescribed by the Office of Management and Budget and as adjusted pursuant to section 673(2) of the Community Services Block Grant Act (42 U.S.C.9902(2))) in the State where the 1890 Institution is located; bears to the total population living at or below 125 percent of the poverty level in all States where 1890 Institutions are located; as determined by the most recent decennial census at the time when the appropriated amount first exceeds levels appropriated for EFNEP in FY 2007. This FY 2009 rate of 10 percent is to increase by 1 percentage point annually until FY 2014 maxing out at 15 percent and remaining at that level for every year thereafter.
5. The remainder will be allocated to each 1862 Land-Grant Institutions in an amount that bears the same ratio to the total amount allocated as the population living at or below 125 percent of the poverty level in the State; bears to the total

population living at or below 125 percent of poverty level in all States; as determined by the most recent decennial census at the time at which each such additional amount is first appropriated.

4. OTHER EXTENSION ACTIVITIES:

(a) Renewable Resources Extension Act

The majority of the appropriated funds are distributed to eligible institutions based on a formula that considers the geographic extent, ecosystem productivity, economic contribution, and population for each state. Since FY 2002, a small amount of these funds have been used to fund National Focus Fund Projects.

NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria. Section 7132 of the Food, Conservation, and Energy Act amended section 1462 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310), increasing the limit on recovery of indirect costs from 20 percent to 22 percent of total Federal funds provided under the award. Therefore, the recovery of indirect costs on awards made by NIFA under this program area may not exceed the lesser of the institution's official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded.

(b) Rural Health and Safety

The Rural Health and Safety Education Competitive Grants Program provides funds to meet national goals for addressing the health and access needs of rural Americans.

NIFA does not require matching or cost sharing support for this program and matching resources will not be factored into the review process as evaluation criteria.

NIFA has determined that grant funds awarded under this authority may not be used for the renovation or refurbishment of research, education, or extension space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

Section 7132 of the Food, Conservation, and Energy Act amended section 1462

of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310), increasing the limit on recovery of indirect costs from 20 percent to 22 percent of total Federal funds provided under the award.

Therefore, the recovery of indirect costs on awards made by NIFA under this program area may not exceed the lesser of the institution's official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded.

(c) Extension Services at the 1994 Institutions

Appropriated funds are to be awarded to the 1994 Land-Grant Institutions for Extension work and funds are to be distributed on the basis of a competitive application process.

NIFA does not require matching support for this program, and matching resources will not be factored into the review process as evaluation criteria.

Under the TCEP, the use of grant funds to plan, acquire, or construct a building or facility, or to acquire land, is not allowed. With prior approval, in accordance with the cost principles set forth in OMB Circular No. A-21, grant funds may be used to purchase equipment, or for improvements, alterations, renovations, or repairs to land, buildings, or equipment, deemed necessary to retrofit existing spaces and resources in order to carry out a funded project under this grant.

However, requests to use grant funds for such purposes must demonstrate that such expenditures are incidental to the major purpose for which the grant request is made and no more than twenty-five percent of the project budget may be used to purchase equipment. Any equipment purchased with Federal funds is the property of the grantee or the subgrantee, as appropriate.

Indirect costs are unallowable costs, and no funds will be approved for this purpose. Costs that are a part of the institutions indirect cost pool may not be reclassified as direct costs for the purpose of making them allowable.

(d) Grants to Youth Serving Institutions

Title IV of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7630) authorized the Secretary of Agriculture to make grants to the Girl Scouts of the United States of America (GSUSA), the Boy Scouts of America (BSA), the National 4-H Council (4-H Council), and the National FFA Organization (FFA). Section 7309 of the Food, Conservation, and Energy Act (FCEA) of 2008 reauthorized 7 U.S.C. 7630, which was also amended to provide additional flexibility in content delivery to each organization receiving funds and to allow recipients to redistribute all or part of the funds to individual councils or local chapters without further need of approval from the Secretary. In FY 2009, Terms and Conditions of these awards should facilitate the redistribution without further need of approval. The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I for grants to youth organizations pursuant to 7 U.S.C. 7630.

There are no matching requirements associated with the Rural Youth Development program, and matching resources will not be factored into the review process as evaluation criteria.

NIFA has determined that grant funds awarded under this authority may not be used for the renovation or refurbishment of facility space; the purchase or installation of fixed equipment in such space; or the planning, repair, rehabilitation, acquisition, or construction of buildings or facilities.

Section 7132 of the Food, Conservation, and Energy Act of 2008, amended the National Agriculture Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3310(a)), limiting indirect costs to 22 percent of the total Federal funds provided under each award. Therefore, when preparing budgets, applicants should limit their requests for recovery of indirect costs to the lesser of their institutions official negotiated indirect cost rate or the equivalent of 22 percent of total Federal funds awarded. If no rate has been established the applicant may indicate "Nonewill negotiate" and a reasonable dollar amount for indirect costs may be requested, which will be subject to approval by USDA. In the latter case, if a proposal is recommended for funding, an indirect cost rate proposal must be submitted prior to award to support the amount of indirect costs requested. NIFA will request an indirect cost rate proposal and provide instructions, as necessary. An applicant may elect not to charge indirect costs and, instead, use all grant funds for direct costs. If indirect costs are not

charged, the phrase "None requested" should be written in this space.

(e) Food Animal Residue Avoidance Database Program (FARAD)
Pursuant to Sec. 604 of the Agricultural research extension and Education Reform Act of 1998 [7 USC 7642(d)], applicants requesting recovery of indirect costs should limit their requests to the lesser of their institutions official negotiated indirect costs rate or the equivalent of 19 percent of total Federal funds awarded.

(f) Federal Administration (DIRECT APPROPRIATION)
Pertinent details will be provided at a future date.

(g) 1890 Facilities (Section 1447)
NIFA assessed four percent (4%) of the appropriated amount for Federal Administration, distributed sixty percent (60%) of the balance equally, and distributed the remaining forty percent (40%) based on the formula found in Section 1444 of NAREPTA of 1977, as amended (Pub. L. No. 95-113).
Within each institution, the research, teaching and extension programs must each receive at least 20 percent of the annual allocation. The remaining 40 percent may be allocated based on institutional needs for research, teaching, or extension. No more than 60 percent of the total allocation should be directed to research, teaching, or extension. However, if there are unique situations in your institution which warrant a deviation from these guidelines, we will consider requests for reallocation. Such reallocations must be justified by the submission of a situation statement which describes the research, teaching, and extension facilities needs in your institution and how previously available Federal funds were utilized.
NIFA does not require matching support for this program and matching resources will not be factored into the review process as evaluation criteria. The obligation and expenditure of funds awarded under these grants are limited to equipment, land, buildings and other related costs which are or will be used in the administration and conduct of approved research, teaching and extension activities. In accordance with NAREPTA Section 1447 (e), funds provided for this program may not be used for the payment of any overhead costs of the eligible institutions.
MOE requirements are not applicable to this program.

10.553 SCHOOL BREAKFAST PROGRAM

School Breakfast Program

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Child Nutrition Act of 1966, as amended, 42 U.S.C. 1773, 1779, Public Laws 104-193, 100-435, 99-661, 97-35. American Recovery and Reinvestment Act of 2009, Public Law 111-5.

OBJECTIVES:

To assist States in providing a nutritious nonprofit breakfast service for school children, through cash grants and food donations.

TYPES OF ASSISTANCE:

Formula Grants (Apportionments)

USES AND USE RESTRICTIONS:

Federally appropriated School Breakfast Program funds are available to reimburse participating public and nonprofit private schools, of high school grade and under and residential child care institutions, for breakfasts, meeting the nutritional requirements prescribed by the Secretary of Agriculture, served to eligible children. The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2011 through June 30, 2012, the rates of reimbursement are 27.0 cents for paid breakfasts, 121.0 cents for each reduced price breakfast, and 151.0 cents for each free breakfast. Schools serving 40 percent or more free and reduced price lunches in the second preceding school year get up to 150.0 cents and 180.0 cents for each breakfast served to children qualifying, respectively, for a reduced price and a free breakfast. All participating schools must agree to serve free and reduced price meals to eligible children, and to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability. School aged children receive one of three benefit levels based on an application used to determine need.

Please refer to Program Regulations (CFR)
Part 210 -- National School Lunch Program
Part 215 -- Special Milk Program
Part 220 -- School Breakfast Program
Part 235 -- State Administrative Expense
Part 245 -- Free and Reduced Price Eligibility.

Applicant Eligibility:

State and U.S. Territory agencies; (except territories subject to the requirements to the Compact of Free Association) public and nonprofit private schools of high school grade and under; public and nonprofit private residential child care institutions, except Job Corps Centers. Schools desiring to participate must agree to operate a nonprofit breakfast program that is available to all children regardless of race, sex, color, National origin, age, or disability.

Beneficiary Eligibility:

All children attending schools where the breakfast program is operating may participate. Breakfast is served free to children who are determined by local educational agencies to have household income levels at or below 130 percent, and at a reduced price to children from households with incomes higher than 130 but at or below 185 percent of the federal poverty line, respectively. Meals served to non-needy children also get cash assistance. Such determinations are made in accordance with income eligibility guidelines prescribed by the Secretary and cross reference household income with household size. The Secretary prescribes these income eligibility guidelines by July 1; the statistical source used in making such revisions is the Federal Income Poverty Guidelines. Children from households certified to receive Supplemental Nutrition Assistance Program (SNAP), the Food Distribution Program on Indian Reservations, Temporary Assistance for Needy Families and some children in Head Start Programs are automatically eligible for free meals. Homeless children, children in certain runaway and homeless youth grant programs, and migrant children are automatically eligible for free meals.

Credentials/Documentation:

Applicant organizations must furnish evidence of nonprofit status. Costs will be determined in accordance with USDA Uniform Federal Assistance Regulations (7 CFR Part 3015 or 3016 and 3019). OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Public schools in all States make application to the State Educational Agency unless the State applies or is approved for a waiver to designate an alternate agency. Appropriate forms may be obtained from this agency. Nonprofit private schools should also apply to the State Educational Agency in most States. In some States, however, the State Educational Agency is prohibited by statute from disbursing Federal funds to nonprofit private schools. In such instances, the application will be referred to the alternate State agency or the appropriate Food and Nutrition Service regional office.

Award Procedure:

When application is approved, schools make agreements with appropriate agency.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Agreements become effective upon approval by the State Agency or FNSRO, where applicable.

Appeals:

None. The State Agency or Food and Nutrition Service regional office, where applicable, is responsible for determining a school's eligibility.

Renewals:

Permanent, amended as necessary.

Formula and Matching Requirements:

Statutory Formula: Federal funds are made available for breakfast assistance in accordance with Section 4 of the Child Nutrition Act on a performance basis by: (1) multiplying the number of paid breakfasts served to eligible children during the fiscal year by a National Average Payment (NAP) prescribed by the Secretary; (2) multiplying the number of breakfasts served free to eligible children by a NAP prescribed by the Secretary for free breakfasts; and, (3) multiplying the number of reduced price breakfasts served to eligible children by a NAP prescribed by the Secretary for reduced-priced breakfasts. The amount of Federal funds given the grantee is the sum of the products obtained from these three computations, plus an additional 6 cents for every breakfast served. Schools with a high percentage of needy may receive additional payments. The statistical factors used in this formula are: (1) The NAP's; (2) the number of paid breakfasts served; and (3) the number of breakfasts served free or at reduced price to eligible children. The NAP's are prescribed by the Secretary and adjusted each July 1, in accordance with the Food Away From Home component of the Consumer Price Index for All Urban Consumers. The source of this adjustment factor is the Bureau of Labor Statistics. The source of the numbers of breakfasts served, including the number served free or at reduced price, is the monthly programmatic reports submitted to Food and Nutrition Service. This program has no maintenance of effort (MOE) requirements.

Matching requirements are not applicable to this program.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

For the period covered by the agreement on a fiscal-year basis. Method of awarding/releasing assistance: by letter of credit.

Reports:

State Agencies, schools and institutions file monthly reports on the number of meals served, by type, to claim for reimbursement. Schools and institutions must submit final meal claims to the State no later than 60 days after claiming month. States must submit final program reports to Food and Nutrition Service no later than 90 days after the claiming month. No cash reports are required. No progress reports are required. States must submit a final fiscal year grant closeout report to the Food and Nutrition Service no later than 120 days after the end of the fiscal year to which they pertain. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Schools must maintain full and accurate records of the breakfast program. Such records shall be retained for a period of 3 years after the end of the fiscal year to which they pertain, except that if audit findings have not been resolved, records shall be retained beyond the 3 year period until audit findings have been resolved.

Formula and Matching Requirements:

Statutory Formula: The funding formula for the general cash for food assistance phase of the program is set forth in Section 4 of the National School Lunch Act, as amended; the formula for special cash assistance is described in Section 11 of the Act. The program is funded on a performance basis. For every lunch served during the applicable fiscal year, the State receives a payment from funds made available under Section 4. In addition, the State receives a payment from Section 11 funds for each lunch served to a child eligible for free or reduced price lunches. The amounts of such per-lunch payments are determined by "National Average Payment" (NAP) factors. The amount due the State under this program is obtained by: (1) multiplying the total number of eligible paid lunches and free and reduced price lunches served during the fiscal year by the Section 4 NAP factor for lunches; (2) multiplying the number of free lunches served by the Section 11 NAP factor for free lunches; (3) multiplying the number of lunches served at reduced price by the Section 11 NAP factor for reduced price lunches; (4) multiplying the total number of lunches served during the fiscal year in school food authorities which served 60 percent or more free or reduced price lunches in the second preceding school year by \$.02; and (5) adding together the four products obtained thereby. The NAP factors are prescribed by the Secretary in accordance with Sections 4 and 11, respectively, of the Act; the numbers of lunches are obtained from programmatic reports submitted to Food and Nutrition Service. In addition, the funding formula for snacks in after school care programs is described in Section 17 A of the Act. Section 11(a)(3) of the Act requires that the NAP factors be adjusted annually, according to changes in the Food Away From Home series of the Consumer Price Index for All Urban Consumers; the source is the Bureau of Labor Statistics. Each State must appropriate from State revenues and use, for program purposes, an amount equal to 30 percent of the Section 4 funds made available to the State in the 1980-81 school year. Also, commodity schools are eligible to receive donated commodities equal in value to the sum of section 6 and section 4 assistance rates, except that up to 5 cents of this amount may be received in cash for processing and handling commodities. In addition, commodity schools are eligible for Section 11 free and reduced price meal reimbursements.

This program has no matching requirements.

The Child Nutrition Amendments of 1986 expanded eligibility in the program to include children in split session kindergarten and pre-kindergarten programs in nonprofit schools and institutions who do not have access to the

Federal meal service program operating in schools the children attend. Disbursement to States is made on the basis of the number of half pints of milk served to non-needy children, using a reimbursement rate specified by law. Milk served free to eligible needy children is reimbursed at the average cost of a half pint of milk. Please refer to Program Regulations (CFR):

They must also reside in the State in which benefits are received.

Credentials/Documentation:

Individuals are certified as meeting an income standard, or as participating in certain other means-tested Federal programs. OBJECTIVES:

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds are made available for disbursement to eligible institutions to reimburse their costs in providing meals and snacks to children and adults enrolled in nonresidential day care, children attending afterschool care programs, and children residing in emergency shelters. Disbursement is made on the basis of the number of breakfasts, lunches, suppers, and snacks served, using annually adjusted reimbursement rates specified by law. The program allows reimbursement for up to two meals and one snack served each day to children through the age of 12, children of migrant workers through the age of 15, and persons with disabilities, in child care centers and day care homes. Adult day care centers receive reimbursement for up to three meals served each day to enrolled adults who are functionally impaired or age 60 and older. The program also provides reimbursement to emergency shelters for up to three meals served each day to residents age 18 and younger. In at-risk afterschool care programs, reimbursement is available for one snack and an additional meal served each day, during the regular school year, to children through the age of 18. All program meals must meet minimum requirements of the United States Department of Agriculture (USDA). Funds are also paid to participating State agencies for administrative expenses related to program staffing and oversight.

Applicant Eligibility:

The State or U.S. Territory agency applies for and signs an agreement to receive Federal funds for disbursement.

Beneficiary Eligibility:

Approved institutions providing nonresidential day care services may participate in the program. Eligible public and nonprofit private organizations may include day care centers, outside-school-hours care centers, settlement houses, family and group day care homes, Head Start programs, and institutions providing day care services to children with disabilities. Private for-profit centers may also participate if at least 25 percent of the children in care (enrolled or licensed capacity, whichever is less) are eligible for free or reduced price school meals or receive benefits under Title XX (of the Social Security Act). Also eligible for participation are nonprofit centers which provide nonresidential adult day care, and private for-profit centers if the center receives compensation under Title XIX (of the Social Security Act) or Title XX, and at least 25 percent of the adults enrolled in the center receive benefits under Title XIX, Title XX, or a combination of both. Emergency shelters which provide shelter and meals to children experiencing homelessness, and at-risk afterschool care programs in low-income areas are also eligible. Any eligible institution may participate in the Child and Adult Care Food Program upon request with State agency approval.

Credentials/Documentation:

The allowability of costs incurred by States in administering the program will be determined in accordance with USDA Uniform Federal Assistance Regulations (7 CFR Parts 3016 and 3019). Applicants that are not public or proprietary institutions must furnish evidence of tax-exempt status under the

Internal Revenue Code of 1986. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process required by the State. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Institutions apply to the responsible State agency. This program is subject to the provisions of USDA Uniform Federal Assistance Regulations (7 CFR Parts 3016 and 3019).

Award Procedure:

When the application is approved, the institution signs an agreement with the administering agency.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

The administering agency must provide a hearing procedure for local institution grievances.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Program funds are provided to the States through letters of credit to reimburse institutions for costs of food service operations, including administrative expenses. Appropriate rates of reimbursement, multiplied by the number of meals served to enrolled participants, represent the basic program payment that an institution receives for each meal served. The assigned rates of reimbursement are adjusted annually on July 1. For child care centers, adult day care centers, emergency shelters, and at-risk afterschool care programs, the annual adjustment reflects changes in the Food Away from Home series of the Consumer Price Index for All Urban Consumers. For day care homes, the adjustment reflects changes in the Food at Home series of the Consumer Price Index for All Urban Consumers. Donated foods or cash in lieu of donated foods are also made available. Program payments to child care or adult day care centers depend on the number and types of meals served to enrolled participants, multiplied by the appropriate rate of reimbursement. Rates for meals served to enrolled children and eligible adults in day care centers are determined by the participants' eligibility for free, reduced price, or paid meals using USDA Income Eligibility Guidelines. All resident children age 18 and younger in eligible emergency shelters receive free meals without application. At-risk afterschool care programs, which must be located in low-income areas, are reimbursed at the free rate for all meals and snacks served to children through age 18. Sponsoring organizations of day care homes are reimbursed at a gradational administrative rate based on the number of homes they operate. The level of reimbursement for meals served to enrolled children in day care homes is determined by economic need based on either the location of the day care home, the income of the day care provider, or the income of an individual child's household. Meals served in day care homes to the provider's own children are reimbursable only if those children are determined eligible for free and reduced price meals, and at least one other nonresident child is participating in the meal service. The reimbursement for food service is passed on by the sponsoring organization to the day care facility. Matching requirements are not applicable to this program. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

For the period covered by the agreement. Method of awarding/releasing assistance: by letter of credit.

Reports:

Institutions file monthly reports on program operations to claim reimbursement for meals served. They must submit final meal claims no later than 60 days after the claiming month. States must then submit final program reports to FNS no later than 90 days after the claiming month. No cash reports are required. No progress reports are required. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Audits may be conducted less frequently under conditions specified in OMB Circular No. A-133. For-profit institutions are subject to audit by their administering State agencies.

Records:

Institutions must maintain full and accurate records of program operations for a period of 3 years after the end of the fiscal year to which they pertain. However, where there are unresolved audit findings, records must be retained until there is satisfactory resolution of all audit issues.

10.576 SENIOR FARMERS MARKET NUTRITION PROGRAM

Senior Farmers Market

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

Farm Security and Rural Investment Act of 2002, Public Law 107-171, 116 Stat. 334; Section 4402, 7 U.S.C. 3007.

OBJECTIVES:

(1) To provide fresh, nutritious, unprepared, locally grown fruits, vegetables, herbs and honey from farmers markets, roadside stands and community supported agriculture programs to low-income seniors, and (2) to increase the

consumption of agricultural commodities by expanding, developing, or aiding in the development and expansion of domestic farmers markets, roadside stands, and community supported agriculture programs.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants are made to State departments such as health, agriculture and aging, United States territories and Federally-recognized Indian tribal governments, or any other agency approved by the chief executive officer of the State. Ninety percent of grant funds may be used to support the costs of the foods that are provided under the SFMNP and ten percent may be used for administrative cost of the program.

Applicant Eligibility:

All States, United States territories and federally recognized Indian tribal governments that desire to receive a SFMNP grant must submit for review and approval, for each fiscal year, a State Plan to the USDA, Food and Nutrition Service (FNS) appropriate Regional Office. New State agencies are selected based on the availability of funds after base grants for currently participating State agencies are funded. Local SFMNP sites are selected by participating State agencies based on concentration of eligible senior participants and access to farmers' markets.

Beneficiary Eligibility:

Persons eligible for the program are low-income seniors, generally defined as individuals who are at least 60 years old and who have household incomes of not more than 185 percent of the federal poverty income guidelines (published each year by the Department of Health and Human Services). Some State agencies accept proof of participation or enrollment in another means-tested program, such as the Commodity Supplemental Food Program (CSFP) or Supplemental Nutrition Assistance Program (SNAP), for SFMNP eligibility.

Credentials/Documentation:

A signed and executed Federal/State Agreement (SF-339) is necessary before funds can be allocated to a participating SFMNP State agency. Farmers or farmers' markets (depending on whether State agencies have agreements with farmers or markets) may apply to be authorized to accept SFMNP coupons under the program. The State agency reviews the applications for completeness and compliance with authorization requirements. The State agency contacts the farmer/farmers' market to inform them of qualification. Individual participants apply for SFMNP benefits at approved SFMNP sites.

Award Procedure:

Funds are awarded by the Department on the basis of funding formulas to State agencies. If the available funds are insufficient to meet the base grant levels for current SFMNP grantees, a pro-rata reduction will be applied to the grant levels awarded to all participating SFMNP State agencies. If additional funds become available for the SFMNP, such funds would first be distributed evenly among the current grantees to make whole their base grants for that fiscal year. Grant payments are made by a letter of credit.

CRITERIA FOR SELECTING PROPOSALS:

Applications that meet the screening requirements will be referred to an appropriate technical review panel. Each panel member will rank the applications assigned to them by score from highest to lowest. Applications are scored based on the defined community's need for the project, a comprehensive project design, organizational capacity for successfully completing the project combined with strong community partnerships, and budget criteria.

The selection official will consider each panel's recommendations; however he or she may consider other USDA or FNS priorities such as geographic, demographic or socioeconomic diversity, and agency priorities in addition to the scores assigned by the technical review panels. The selection official may also determine that, based on their scores, few of the applications are of technical merit. In such a case, FNS may make fewer awards or smaller awards than expected or make no awards. In addition, FNS reserves the option to select one or more lower rated applications in order to achieve a diversity of projects and regional representation.

OBJECTIVES:

To enable Food and Nutrition Service (FNS) to enter into grants and cooperative agreements with States and local governments, universities, hospitals and non-profit organizations to identify, develop and undertake

projects to meet FNS program needs and the food, nutrition, and health of program eligible participants. The grantees and recipients would work cooperatively with FNS to:

- Support researcher-initiated projects that use a common approach to reporting findings to ensure transparency and facilitate a meta-analysis of all projects;
- Coordinate activities among researchers;
- Effectively use technology and digital media to achieve desired outcomes; and
- Advance communication and coordination to improve target behaviors.

The grants and cooperative agreements are to enable FNS to be more responsive to program needs and the food, nutrition and health needs of FNS program participants.

TYPES OF ASSISTANCE:

USES AND USE RESTRICTIONS:

Cooperative Agreement Grants will be made to State and local governments, universities, hospitals, and non-profit organizations for awarding cooperative agreements, and grants to design, develop and evaluate innovative approaches for Food and Nutrition Service (FNS) programs, such as WIC, to meet FNS program needs and to strengthen their impact on the food, nutrition and health of program eligible participants. The grant and cooperative agreement recipient is task with:

- making sub-grants,
- coordinating efforts among sub-grantees,
- evaluating impact of FNS programs, such as WIC, on food, nutrition and health,
- providing a summary and syntheses of these and related efforts, such as meta-analysis on the results,
- composing and coordinating conference on observations and findings, and
- providing FNS with cost neutral approaches to improving FNS programs.

FNS' primary objective for these grants and cooperative agreements is to support interest in exploring better ways to improve and assess Food and Nutrition Service program needs and their impact on the food, nutrition and health of program eligible participants. The grants should enhance knowledge and further research activities by the academic community, FNS and others. See the RFP. The grant and cooperative agreement funds will be provided to recipients (grantees) who will be responsible to spend the funds in accordance with what is set forth in the grant or cooperative agreement, and applicable Federal circulars such as A-110. The source and use of the funds for the grants and cooperative agreements will be tied to a project of interest to one or more of FNS' program areas. FNS has the discretion to select (through competition) what institution will receive the funds and to what research endeavors they will be applied, assuming that research is not specified in the law or other directive.

Applicant Eligibility:

The assistance is to be used to establish grants and cooperative cooperative agreements to identify, develop and undertake projects to meet Food and Nutrition Service (FNS) program needs and the food, nutrition, and health of program eligible participants.

Beneficiary Eligibility:

Cooperative agreements are to be awarded to State and local governments, hospitals, non-profit organizations and accredited colleges/universities offering advanced degrees at the PhD level in biological and social sciences such as sociology, psychology, education, nutrition, public health and economics. This is a requirement for the selected recipient of the grants and cooperative agreements, not the sub-grantees. Cooperative agreement recipients are to award sub-grants to researchers to identify, develop and evaluate interventions and innovative approaches to strengthen the impact of Food and Nutrition Service programs, such as WIC, on the food, nutrition and health of program eligible participants.

10.588 ASSESSMENT OF ALTERNATIVES TO FACE-TO-FACE INTERVIEWS IN SNAP

Assessment of Face-to-Face Interviews

FEDERAL AGENCY:

Food and Nutrition Service, Department of Agriculture

AUTHORIZATION:

The Food Stamp Act of 2008 , Section 17 (a)(1).

OBJECTIVES:

To examine how/if eliminating the client interview for SNAP benefits affects administration of the SNAP program and client outcomes.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Assistance shall be used to defray the cost for the states to implement the

demonstrations and participate in the evaluation of the demonstrations.

Applicant Eligibility:

Allowable use of funds includes, but is not limited to, personnel costs; office and research supplies; travel for data collection; and technology (both hardware and software) necessary for operating the Cooperative Agreement.

Beneficiary Eligibility:

This project will be beneficial to both state and local SNAP offices, as it will inform them of how eliminating the face-to-face interview for SNAP applicants affects the administration of the program. The clients, in turn, will benefit from the project because the findings of the study will be used by the state and local offices to improve their administration of the program.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110.

Award Procedure:

Applicants will submit their response to the RFA through grants.gov. FNS will prescreen all applications to ensure that they contain the required documents and information. If an application does not include all appropriate information, FNS will consider the application to be non-responsive and will eliminate it from further evaluation.

Following the initial screening process, FNS will assemble a panel to review and determine the technical merits of each application based on how it addresses the required application components. The panel will award the grants to applicants whose application best demonstrates the capacity to implement and operate the pilots. Preference will be given to those applications that address all of the criteria completely, explain in detail how the pilot will be designed and implemented, and show capacity and willingness to cooperate fully with the data collection and evaluation. In addition, the applications that best detail a process for collecting the necessary information from clients to verify cases with minimal contact under the no interview model will merit higher scores. Additional points will also be given to states applying for the regular evaluation but have the capacity to conduct more than the minimum suggested QC-like reviews at the pilot site.

The selection official will consider the panels recommendations. The selection official may consider other FNS priorities, such as geographic, demographic, socioeconomic diversity or size of QC sample in addition to the scores assigned by the technical review panel. FNS reserves the option to select one or more lower-rated applications in order to achieve a diversity of projects and regional representation.

10.610 EXPORT GUARANTEE PROGRAM

The GSM-102 Program

FEDERAL AGENCY:

Foreign Agricultural Service, Department of Agriculture

AUTHORIZATION:

Agricultural Trade Act of 1978; OMB 7 CFR 1493, Part A.

OBJECTIVES:

The U.S. Department of Agriculture's (USDA) Export Credit guarantee Program (GSM-102) provides credit guarantees to encourage financing of commercial exports of U.S. agricultural products, while providing competitive credit terms to buyers. By reducing financial risk to lenders, credit guarantees encourage exports to buyers in countries-mainly developing countries- that have sufficient financial strength to have foreign exchange available for scheduled payments. The program guarantees credit extended by the private banking sector in the U.S. (or, less commonly, by the U.S. exporter) to approved foreign banks using dollar-denominated, irrevocable letters of credit for purchases of U.S. food and agricultural products by foreign buyers. USDA's Foreign Agricultural Service (FAS) administers the program on behalf of the Commodity Credit Corporation (CCC), which issues the credit guarantees. GSM 102 covers credit terms of up to three year; maximum terms may vary by country.

TYPES OF ASSISTANCE:

Guaranteed/Insured Loans

USES AND USE RESTRICTIONS:

CCC guarantees payments due from approved foreign banks to exporters or financial institutions in the U.S. However, the financing must be obtained through normal commercial sources. Typically, 98 percent of principals and a portion of interest are covered by a guarantee. Because payment is guaranteed, financial institutions in the U.S. can offer competitive credit terms to the foreign banks, usually with interest rates based on the London Inter Bank Offered Rate (LIBOR). Any follow-up on credit arrangements between the foreign bank and the importer are negotiated separately and are not covered by the CCC guarantee.

Applicant Eligibility:

Export Credit guarantee Program (GSM-102) provides credit guarantees to encourage financing of commercial exports of U.S. agricultural products, while providing competitive credit terms to buyers. By reducing financial risk to lenders, credit guarantees encourage exports to buyers in countries-mainly developing countries- that have sufficient financial strength to have foreign exchange available for scheduled payments. This Program provides guarantees to lenders.

Beneficiary Eligibility:

Exporters or the exporters assignee are the direct beneficiaries and must meet the applicant eligibility requirements. Interested parties, including U.S. exporters, foreign buyers, banks, may request that the CCC establish a GSM-102 program for a country or region. Prior to announcing the availability of guarantees, the CCC evaluates the ability of each country and foreign bank to service CCC guaranteed debt.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from

coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. CCC must qualify exporters for participation before accepting guarantee applications. An exporter must have a business office in the U.S. and must not be debarred or suspended from any U.S. government program. Financial institutions must meet established criteria and be approved by CCC. CCC sets limits and advises each approved foreign bank on the maximum amount CCC will guarantee for that bank. The

Award Procedure:

The CCC-approved foreign bank issues a dollar-denominated, irrevocable letter of credit in favor of the U.S. exporter, ordinarily advised or confirmed by the financial institution in the U.S. agreeing to extend credit to the foreign bank. The U.S. exporter may negotiate an arrangement to be paid as exports occur by assigning to the U.S. financial institution the right to process that may become payable under the CCC's guarantee. Under this arrangement, the exporter would also provide transaction-related documents required by the financial institution, including a copy of the export report, which must also be submitted to CCC.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Please contact the headquarters or regional office for additional approval information.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 7, Chapter 14, Part 1493. CCC will review documents submitted under a claim. If all information and documents are in good order and meet the requirements of the regulations, CCC will pay to the exporter (or the exporter's assignee) the lesser of 1) the guarantee value stated in the payment guarantee, plus eligible interest; 2) the guaranteed percentage, indicated in the payment guarantee, of the exported value as indicated in the Evidence of Export, plus eligible interest.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The payment guarantee applies to a credit period established in the application, and coverage begins either on the date(s) of export or the date when interest begins to accrue, whichever is earlier. Coverage will continue during the credit term specified in the payment guarantee. However, the payment guarantee does not become effective until the date of export. Method of awarding/releasing assistance: by letter of credit.

Reports:

No reports are required.

Audits:

This program is excluded from coverage under OMB Circular No. A-133. Recipients under this program are subject to audit by the Office of the Regional Inspector General, U.S. Department of Agriculture.

Records:

For CCC audit purposes, the U.S. exporter must obtain documentation to show that the commodity arrived in the eligible country, and the exporter or the exporter's assignee must maintain all transaction documents for five years from the date of completion of all payments.

Formula and Matching Requirements:

Statutory Formula: Title I- Secure Payments for States and Counties Containing Federal Land

Each county in an eligible state elected in November and December of 2008 to receive one of the following payments: A share of the state's 25-percent rolling average payment OR a share of the State payment (formula payment). A county in California, Louisiana, Oregon, Texas, Pennsylvania, South Carolina, South Dakota, or Washington that elects the State payment is electing to receive a share of the State transition payment in lieu of the State payment. If no election is made the county shall be considered to have elected the State payment for the remaining 2 years.

25 Percent. A county election to receive a share of the 25 percent payment is effective for 2 years, and a county must again make the election to receive a share of the State payment of the 25 percent payment by August 1, 2010. 25 percent payments must be used for roads or schools in accordance with 16 U.S.C. 500, the State has broad discretion as to how to allocate the payment for roads and schools, including authorizing the county to make the allocation.

State Payment. A county that initially elects to receive a share of the State payment (formula or transition payment as applicable) may not change its election in subsequent years- it will receive its share of that payment for fiscal year (FY) 2008 through FY 2011. A participating county that receives a share of the State payment that is greater than \$100,000 must make an additional election to allocate among titles by September 30 each year:

\$100,000 or less. If the county share of the State payment (or transition payment) is \$100,000 or less, the county may, but is not required to, allocate its share in the same manner as a county with a share that is greater than \$100,000, but less than \$350,000.

\$100,000-- \$350,000. If the county share of the State payment (or transition payment) is more than \$100,000, but less than \$350,000, the county must allocate 15% to 20% of its share to title II, title III or a combination. The total percentage allocated to title II and/or title III must be no less than 15 percent and no greater than 20%

\$350,000 or greater. If the county share of the State payment (or transition payment) is \$350,000 or greater, the county must allocate 15 percent to 20 percent of its share to title II, title III or a combination, except that the allocation for title III projects may not exceed 7 percent. The total percentage allocated to title II and title III combined must be no less than 15 percent and no greater than 20 percent.

By law, a participating county receiving more than \$100,000 must allocate a portion of its payment to title II and/or title III by September 30 each year. For these counties, failure to submit these elections (allocations) by the deadline will result in the county being considered to have elected to return 15 percent of its share to the U.S. Treasury in lieu of allocating 15 to 20 percent for title II and/or title III projects.

Title II- Special Projects on Federal Land (Federal Financial Assistance)

Title II projects are recommended by resource advisory committees and approved by the Secretary or designee such as Forest Supervisor or District Ranger. Title II funds may be used for making additional investments in, and

creating additional employment opportunities through, projects that improve the maintenance of existing infrastructure, implementing stewardship objectives that enhance forest ecosystems, and restoring and improving land health and water quality. Projects shall enjoy broad based support with objectives that may include, but not limited to:

- Road, trail, and infrastructure maintenance or obliteration;
- Soil productivity improvement;
- Improvements in forest ecosystem health;
- Watershed restoration and maintenance;
- Restoration, maintenance and improvement of wildlife and fish habitat;
- Control of noxious and exotic weeds; and
- Re-establishment of native species.

At least 50 percent of all Title II funds must be used for projects that are primarily dedicated to:

- Road maintenance, decommissioning, or obliteration; or
- Restoration of streams and watersheds.

Title II projects recommended by Resource Advisory Committees (RACs) must be within the RACs geographical boundary.

After the issuance of a decision document for the project and the exhaustion of all administrative appeals and judicial review of the project decision, the Secretary and the RAC shall enter into an agreement addressing, at a minimum, the following:

- The schedule for completing the project;
- The total cost of the project, including the level of agency overhead to be assessed against the project;
- For a multiyear project, the estimated cost of the project for each of the fiscal years in which it will be carried out; and
- The remedies for failure of the Secretary to comply with the terms of the agreement.

The Secretary may decide to cover the costs of a portion of an approved project using Federal funds appropriated or otherwise available to the Secretary for the same purposes as the project

As soon as the Secretary and the RAC have reached agreement with regard to a project to be funded, the Secretary shall transfer the proper funds to the Forest Service. The Forest Service shall not begin a project until the project funds are available.

Counties shall notify the Secretary of Agriculture of its allocation of funds to Title II no later than September 30 of each fiscal year. Matching Requirements: Statutory Formula: The annual 25-percent payments to states, is an amount equal to the annual average of 25-percent of all amounts received for the applicable fiscal year and each of the preceding 6 fiscal years from each national forest. The payment is made after the end of the fiscal year to the State or Territory in which the national forest is situated to be expended as the State or Territorial legislature may prescribe for the benefit of public schools and public roads of the counties in which the national forest is situated (16 U.S.C. 500).

Secure Rural Schools Act State payments for fiscal years 2008 through 2011 are calculated using a complex formula with multiple factors, including acres of proclaimed national forest within an eligible county, the average 3 highest 25-percent payments made to each eligible State for each eligible county for the eligibility period 1986 through 1999, and an income adjustment based on the annual per capita personal income for each county. See www.fs.usda.gov/pts Secure Payments / Calculating Payments for a more detailed discussion of the formula used to calculate the State payment.

Matching Requirements: There are no matching requirements for the 25-percent payment to states or for the Secure Rural Schools Act State payment including title II. Acquisition management regulations and procedures applicable to the Forest Service for purchases, contracts, grants and agreements may impose matching requirements on title II projects. MOE requirements are not applicable to this program.

Matching Requirements: Funding for the Cooperative Forest health Protection program is provided to states to help support a base level of professional forest health expertise for non-federal forest managers. Grants for this program are allocated to states using a formula that is based on the number of acres of

non-federal forest land within the states, other factors, and amount of funding available through annual appropriations. The purpose of this funding is to help support a base level of professional forest health expertise through non-federal forest land managers. Applicant matching for cooperative Forest Health Protection programs and projects that treat specific forest health problems on non-federal lands is required and is 50%. In cases where it is mutually agreed upon that an applicant will treat federal lands as part of a cooperative project or program, the Forest Service reimbursement is 100% for the federal portion. However, applicant matching rates may be adjusted in emergency or extraordinary situations. Forest Service cost-share rates for activities involving development of new and improved forest health protection methods and technologies, and the conduct of special projects and evaluations are negotiated on a project-by-project basis with the grantee. Exceptions from the 50% cost-share requirement must be approved by the Deputy Chief for State and Private Forestry. The applicant share of cooperative programs may be in the form of cash, services, or in-kind contributions. **10.681 WOOD EDUCATION AND RESOURCE CENTER (WERC)
(WERC)**

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Public Law 105-277, Div. A, Section 101(e) Title III, Section 343, 112 Stat. 2681-231, 2681-297; Cooperative Forestry Assistance Act of 1978, as amended, 16 USC 2101 et. seq.; Forest and Rangeland Renewable Resources Act of 1978, as amended, 6 USC 1600-1614.

OBJECTIVES:

To provide funds, on a cost-share basis, for projects that focus on enhancing opportunities for sustained forest products production for primary and secondary hardwood industries located in the eastern hardwood forest region. In order to maintain and improve the health and stewardship of our eastern hardwood forests, local wood-using industries need to be vibrant and able to utilize a wide variety of resources from the forest. Priorities include:

Maintain the economic competitiveness of primary and secondary hardwood industries. Examples include:

- 1) Encouraging the adoption of new technology to improve competitiveness and profitability,
 - 2) Bringing information and technology about processing, marketing, and business-related skills as well as urban wood utilization to existing and emerging businesses, and
 - 3) Developing utilization options that improve forest stewardship and health.
- Increase the knowledge and information about how the hardwood industry can contribute to the green building movement. Examples include chain of custody certification for sustainable wood products as well as life cycle analysis for a range of wood products.

Increase the knowledge, information, and promotion of how carbon sequestration by wood products can provide a competitive edge to a sustainable hardwood industry. An example includes developing specific carbon storage factors for a range of wood products.

Develop technology and markets to address urgent issues on a global or domestic scale, including:

- 1) Sanitizing wood packaging materials, firewood, and similar products to eliminate these pathways for the transport of insect and disease pests, and

- 2) Developing markets for and using unexpected increases in the volume of urban and rural wood due to new pest introductions (for example, emerald ash borer) and weather events such as tornadoes and ice storms.

Increase the sustainable use of woody biomass to meet our Nations needs for energy and raw materials. Examples include public/private partnerships for using woody biomass in heating and cooling, process energy, cogeneration, district energy systems, and solid and liquid fuel production. Projects may also develop or maintain local markets and forest industry infrastructure by using woody biomass for both energy and value-added products. Provide key information to address the economic, social and ecological aspects of woody biomass production and use.

Provide key information to address the economic, social and ecological aspects of woody biomass production and use: including sustainable supplies, harvesting techniques, forest management, plantation development, and

environmental implications.

The Architectural Woodwork Institute recently completed a WERC funded project (Award number 08-DG-107) titled, Wood Manufacturing Skill Standards, Evaluations, & Credentials. The primary goal of this three-part project is to improve skills and competencies of woodworkers by having a

unified North American Standard of Tool Skills & Evaluations. This portion of the project focused on developing and publishing a national woodwork manufacturing skill standards and evaluations book and the initial development of a national woodwork skill credential process. Project details can be found at the following web sites: <http://woodworkcareer.org> and <http://skillstandards.wikispaces.com>.

Illinois Conservation Foundation, Springfield, IL, completed a WERC funded project (Award number 07-DG-226) titled, Ash Reclamation Project for Illinois. The primary goal of the project was to develop a successful urban wood/ash utilization initiative in Illinois. Project partners developed an informative web site (www.illinoisurbanwood.org) that includes project accomplishments, informational materials and an interesting Powerpoint presentation that can be viewed at: http://www.illinoisurbanwood.org/documents/BBBcommunitywood_000.pdf.

The Natural Resources Research Institute, University of Minnesota Duluth, recently completed a WERC funded project (Award number 08-DG-100) titled, Heat Treatment of Firewood: Meeting the Phytosanitary Requirements. The primary purpose of this project was to transfer background knowledge and advanced heat treating technology to field application through field heat treatment demonstrations, on-site workshops and web-based training seminars. Project details can be viewed and downloaded by visiting: http://spfnic.fs.fed.us/werc/finalrpts/08-DG-100_2.pdf. The project webinar can be viewed at: <https://umconnect.umn.edu/p89465540/>.

The Hardwood Leaders Forum consisted of two forums held in Charlotte, NC, each with its own goals and objectives for strengthening the U.S. hardwood industry. On August 10-11, 2010, 77 hardwood industry leaders met to identify the most pressing barriers and challenges to achieving that vision. On December 7, 2010, 98 industry leaders, academicians, State and Federal agency representatives, researchers, and trade association executives met to 1) review existing programs that address the industry's highest-priority challenges and 2) begin to look for opportunities to better address these challenges through strengthened and/or new programs. The Hardwood Leaders Forum was sponsored by the Hardwood Publishing Co. Inc., located in Charlotte, NC, and jointly funded by the S.H. Conger Foundation for Hardwood Marketing, Hardwood Publishing Co. Inc., and a grant from the Wood Education and Resource Center (Award number 2010-DG-085). A final report that provides detailed information about the process and findings can be viewed at http://spfnic.fs.fed.us/werc/finalrpts/10-DG-085_2.pdf. Promoting Greater Use of Underutilized Eastern Hardwood Species By Improving Design, Marketing and Manufacturing Phase II (Award number 08-DG-113)
Primary project partner: North Carolina State University, Raleigh, NC
This is the second phase of a previously funded project focused on developing value-added markets for underutilized eastern hardwoods by a series of workshops to wood manufacturers in the central Appalachian focused on gluing, finishing, designing and manufacturing with underutilized hardwood species such as sweetgum and sycamore. Project web site can be viewed at: <http://www.ces.ncsu.edu/nreos/wood/Under%20Utilized%20Species%20Project/index.html>.

(Award number 08-DG-99)
Primary project partner: Allison Tree Service, Madison, WI
This project gathered information on currently available methods and techniques for decay and defect detection in standing trees. A DVD and internet video was developed to present this knowledge in a coherent, user-friendly visual educational format. The video can be viewed at: <http://www.nrri.umn.edu/cartd/forestp/treedecay.htm>.

Primary project partner: National Association of State Foresters, Washington,

DC

The primary goal of this project was to identify ways State Foresters could encourage and support the sustainable use of woody biomass for thermal, electric, and biofuel/bioproductions applications in the United States. This project provides the information for State Foresters, their agencies and partners, to take an informed role in leading discussions on the sustainable use of woody biomass as an energy source. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Raptor Population Index IV Hawk Migration Association of North America

The Hawk Migration Association of North America will complete a permanent system to monitor North American raptors, and provide a means of analyzing and readily accessing those data. Population trends for diurnal raptors were virtually unknown before the Hawk Migration Association of North America put in place a series of programs at 100 sites in North America aimed at indexing long-term trends. The results have led to a significant increase in the conservation of raptors by both government agencies and private organizations. There is broad support in the conservation community for maintaining this program and making data available to partner groups. Past support of this project by NFWF has helped build the database that houses these data and allows for important analyses. The building of this raptor monitoring and reporting program is in its final stages, and is aimed at making the system more efficient and self sustaining through automation of many of the functions that currently are completed by program staff.

The aim of this proposal is to complete an on-line system that is capable of integrating data entered directly by partner groups; providing the capability of original, on-line analysis of data that is tailored for local questions and management issues; and developing new analytical techniques that allow unique groups of species and geographic areas to be examined. The project also aims to expand its current monitoring network to five additional sites.

Project Title: Apache Trout Initiative (AZ)

Applicant: Arizona Game and Fish Department <www.azgfd.gov>

Proposed NFWF Award: \$505,620

Project Area: Little Colorado River and Black and White rivers, Arizona

Objective: Recover and conserve the species by creating larger meta populations of Apache trout and restoring meadow reaches in marginal recovery streams.

Proposal Summary: Apache trout currently occupy 27 streams within its historic range, largely due to recovery efforts. The number of streams is close to reaching the recovery criteria established in the 2007

Draft Apache Trout Recovery Plan. However, in 2007, barrier failure compromised several recovery streams. Additionally, the impacts of drought were apparent, resulting in surveys that revealed the habitat occupied by small populations becoming even more marginal. The change in climate conditions involving prolonged drought and increases in fire and floods make many streams vulnerable to impacts from these events. The outcomes of this initiative will include increasing Apache trout populations through barrier security, metapopulation creation (reconnecting isolated populations), intense monitoring, and habitat restoration. All Apache trout barriers will be evaluated and maintained. The creation of two to three metapopulations will expand and connect isolated recovery streams, making populations less vulnerable to climatic changes, increase population numbers, and help maintain genetic

diversity in populations. Habitat restoration in meadow reaches of marginal recovery streams will increase the amount of suitable habitat for all life stages and allow more connection between isolated pools by maintaining water flows longer into the season, thus increasing population and individual fish size. Improved knowledge of trout numbers, genetic diversity, and life history will enhance the ability of managers to ensure the recovery and sustainability of Apache trout, and result in delisting.

Project Title: Bring Back the Natives - XVIII

Program Objectives:

- The Bring Back the Natives program is designed to restore the health of aquatic systems and their native species in the nations watersheds.
- The program awards 12 to 18 grants each year to individual conservation projects focused on healthy aquatic systems on a watershed scale, resulting in sustaining populations of native species.
- The program is focused on, but not limited to, trout, grayling, chub, sturgeon, and amphibian restoration with specific preferences given to projects that will protect or reestablish migration corridors between breeding populations of a given species.
- Preference is given to aquatic restoration projects near land where the causes of degradation have been addressed.

- The program emphasizes the coordination between private landowners and federal agencies, together with tribes, corporations, and states to restore the health of entire watersheds.

- This year the program will be more closely aligned and coordinated with the National Fish

Habitat Initiative Action Plan, in order to begin implementing NFHAP priorities.

Past Foundation Involvement:

- Since 1991, 297 projects have been awarded a total of \$15.7 million in Foundation funds and leveraged an additional \$32.6 million in non-federal matching contributions.
- Projects funded through the Bring Back the Natives program have restored habitat for a number of listed species; protected and enhanced habitat for small, stable populations of native aquatic organisms; and contributed to keeping several species from being listed.
- The Foundation has been actively involved in the development of the National Fish Habitat

Action Plan and this BBN program will be targeted towards helping support projects that further the goals and implement the action plan, as well as state wildlife action plans. In addition, projects that will support the implementation of the fish keystone initiatives will have the highest priority.

Project Title: New England Cottontail Restoration (ME)

Applicant: Rachel Carson National Wildlife Refuge <www.fws.gov>

Proposed NFWF Award: \$245,946

Project Area: Southeastern Maine

Objective: Hire a coordinator whose function is to work for three years, identify priority areas in which to establish (or strengthen) cottontail populations and enlist private landowners in efforts to restore early successional habitat to benefit New England cottontail and other declining wildlife.

Proposal Summary: This project will allow the U.S. Fish and Wildlife Service to work with the State of Maine, Environmental Defense, Central Maine Power, the American Forest Foundation, USDA and other partners. The grant will principally fund a coordinator who will work with landowners and develop site specific plans to manage habitat, the cost of which will be largely borne by the U.S. Department of Agriculture, but will also fund habitat restoration work on the National Wildlife Refuge.

Project Title: Cabinet-Yaak Grizzly Bear Augmentation (MT)

Applicant: Montana Fish, Wildlife and Parks Foundation

<www.mfwpfoundation.org>

Proposed NFWF Award: \$100,000

Project Area: Northwest Montana; Cabinet-Yaak Mountains

Objective: The principal objective is to catalyze a more rapid recovery of grizzly bears in one of the remaining three areas in the U.S. where grizzly populations still lag goals.

Proposal Summary: This project will have an immediate outcome and measurable benefit to grizzly recovery in the Montana Cabinet-Yaak

Ecosystem. Habitat exists to support 90-120 grizzlies in the ecosystem, but current population is 30-40 and declining in large part because there simply are not enough female bears in the population. Montana Fish, Wildlife, and Parks Foundation has already been working with the U.S. Fish and Wildlife Service to successfully move 5 females into the ecosystem from a larger grizzly population to the east. This funding will allow an additional 5 female bears to be moved into the ecosystem by 2010. By itself, this work will not stabilize this population because it will never be large enough to exist in isolation of other grizzly populations - other projects focused on maintaining and improving wildlife corridors are necessary to connect Cabinet-Yaak with the Northern Continental Divide Ecosystem (Glacial National Park and Bob Jones Wilderness Area) to the east.

Project Title: Swan Valley Grizzly Bear Monitoring (MT)
Applicant: University of Montana <www.forestry.umt.edu>
Proposed NFWF Award: \$89,980

Project Area: Swan Valley, Montana

Objective: Reduce bear-human conflict in an important recovery area for grizzlies and an important area for wildlife movement.

Proposal Summary: The Swan Valley sits at a critical interface between a recovery zone for the grizzly bear and migration/movement corridors to a recovery zone further west. It is an area where almost half of known grizzlies in the area have been died as a result of human causes. Highway 83 is a problematic crossing area for grizzlies and other wildlife that experience high mortality along stretches of this road.

As residential development expands along this highway, its critical to map high use animal areas, and design those stretches of habitat and road to maximize the speed that animals cross the road and minimize use of roadway areas. In addition, because of food attractants (livestock and other), grizzlies spend too much time in high human use areas. This results in problem bears that require translocation or control.

This project will combine radio-telemetry of local bears with an active outreach campaign to residents, using real data to show where changes in sanitation and other changes can reduce bear/human conflict. It will also fund some of the bear-resistant trash containers and electric fencing that has been successful in reducing conflict elsewhere.

Project Title: Native Plant Conservation Initiative XV
The National Fish and Wildlife Foundation will provide a fifteenth year of support for on-the-ground projects that protect and restore native plant and pollinator species and their habitats and for public education projects that promote the importance of native plants and pollinators.

Program Objectives:

- The Native Plant Conservation Initiative (NPCI) supports on-the-ground conservation projects that protect, enhance, and/or restore native plant communities on public and private land.

Projects typically fall into one of three categories and may contain elements of each: protection and restoration, information and education, and inventory and assessment. Recipients are encouraged, when appropriate, to include a pollinator conservation component in their project.

Project Title: Pulling Together Initiative - XIII

Program Objectives:

- The goal of the Pulling Together Initiative (PTI) is to prevent, manage, or eradicate invasive and noxious plants through a coordinated program of public/private partnerships.

- PTI also increases public awareness of the adverse impacts of invasive and noxious plants.

Program Implementation:

- Funding for PTI is provided through a cooperative agreement with the Animal and Plant Health

Inspection Service (APHIS). Additional funding comes from existing Foundation partnerships with the Bureau of Land Management (BLM), U.S. Fish and Wildlife Service (FWS), and U. S.

Forest Service (FS). The review committee for the Pulling Together Initiative includes representatives from BLM, U.S. Geological Survey, FS, APHIS, FWS, and North American

Weed Management Association.

- Proposals are distributed to committee members following the annual

application deadline.

Reviewers are responsible for providing comments and rankings for proposals on which they feel qualified to comment. We anticipate receiving full proposals in December, holding the steering committee meeting in February; and informing applicants of committee decisions in mid-May.

Projects would be initiated in the summer of 2009 and completed within 12-18 months.

- PTI grants are intended to help support the creation of local cooperative Weed Management Area partnerships. Such partnerships bring together local landowners, citizens groups, and weed experts to develop and implement strategies for managing weed infestations on public lands, natural areas, and private working lands.

NPCI is part of the Plant Conservation Alliance, a partnership of ten federal agencies and 200 non governmental organizations that provides a national framework to link resources for and coordinate approaches to native plant conservation.

- Plant conservation is specifically identified as an area for Foundation investment in the

Foundations authorizing legislation. Plant communities, while not as charismatic as other species, are equally if not more important to global conservation science. All species need healthy habitats in order to survive, and in most cases, native mammal and insect species prefer and/or require habitats comprised of native plant species. In addition, because plants are immobile, they are more sensitive to changes in their surrounding environment and cannot adapt as easily as mammals.

Program Implementation:

- Review team members include representatives from FS, FWS and BLM.

Review team members evaluate applications and meet two times a year to recommend projects for funding.

- Typical projects include habitat restoration for rare plants, applied ecological studies that will improve management for native plants, inventories of native floras on public lands, and efforts to work on pollinator conservation. Grants are made only when necessary to reduce the average annual benefited user charges to a reasonable level. Normally, grants are considered only when the debt service portion of the cost to grant eligible users exceeds the following percentages of median household incomes (MHI) for the applicant service area: 0.5 percent when the MHI of the service area is below the poverty line or below 80 percent (whichever is higher) of the State's non-metropolitan household income (NMHI); 1.0 percent when the NMHI of the service area exceeds the 0.5 percent requirement but is not more than 100 percent of the State's NMHI; no RUS grant funds will be used in any project when the MHI of the service area is above the poverty line and more than 100 percent of the State's NMHI. The RUS grant may not exceed 75 percent of the eligible project development cost when the MHI of the service area is below the poverty line or below 80 percent (whichever is higher) of the State's NMHI and the project is necessary to alleviate a health or sanitary problem; 45 percent when the MHI of the service area exceeds the 75 percent requirements, but is not more than 100 percent of the State's NMHI. 10.787 BROADBAND INITIATIVES PROGRAM

Broadband Initiatives Program (BIP)

FEDERAL AGENCY:

Rural Utilities Service, Department of Agriculture

AUTHORIZATION:

The American Recovery and Reinvestment Act of 2009, Public Law 111-5, 123 Stat. 115, 7 U.S.C 901.

OBJECTIVES:

The purpose of the Broadband Initiatives Program (BIP) to make loans and grants for the purpose of facilitating broadband deployment in rural areas.

TYPES OF ASSISTANCE:

Direct Loans; Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Under BIP, RUS awards grants, loans, and loan/grant combinations to facilitate broadband deployment in unserved and underserved rural areas. Additionally, the Recovery Act mandates that priority be given to projects which: (1) give end users a choice of providers; (2) serve the highest proportion of rural residents that lack access to broadband service; (3) are projects of current or former RUS borrowers (Title II borrowers); and (4) are fully funded and ready to start once Recovery Act funding is received. BIP application scoring criteria rewards projects that implement these priorities.

On July 9, 2009, RUS and the National Telecommunications and Information Administration (NTIA) published a joint Notice of Funds Availability (NOFA) in the Federal Register. On January 22, 2010, RUS published a NOFA for a second round of funding. This funding announcement focused on last mile projects, and middle mile projects generally involving current RUS program participants. The Second Round NOFA also announced the opening of a future

window for specific grants for Satellite, Rural Library Broadband, and Technical Assistance. A Request for Proposals (RFP) outlining the requirements for applications for Satellite, Rural Library Broadband, and Technical Assistance Projects was published in the Federal Register on from May 7, 2010. The following terms shall apply to the loans, as well as other terms that are specified in the loan documents:

i. Interest rate. Loans shall bear interest at a rate equal to the cost of borrowing to the Department of Treasury for obligations of comparable maturity. The applicable interest rate will be set at the time of each advance.

ii. Repayment period. Unless the applicant requests a shorter repayment period, broadband loans must be repaid with interest within a period that, rounded to the nearest whole year, is equal to the expected Composite Economic Life of the assets to be financed, as determined by RUS based upon acceptable depreciation rates.

iii. Amortization period. Interest begins accruing on the date of each loan advance and interest payments are due monthly. Upon completion of the buildout, or a date certain that is determined at closing, whichever occurs first, monthly principal payments will be established in an amount that amortizes the outstanding balance over the remaining term of the loan.

iv. Fidelity bonding. Applicants must agree to obtain a fidelity bond for 15 percent of the loan amount. The fidelity bond must be obtained as a condition of loan closing. RUS may reduce the percentage required if it determines that 15 percent is not commensurate with the risk involved.

v. Security. The loan portion of the award must be adequately secured, as determined by RUS.

Applicant Eligibility:

All funds for BIP will be awarded no later than September 30, 2010.

Applicants must conform to the eligibility criteria published in the NOFAs.

Beneficiary Eligibility:

Residents of eligible rural communities and others who may receive service as a result of service provided to a rural area.

Credentials/Documentation:

Applicants must certify that the organization is in compliance, or will comply, with the Department of Agriculture assurances included in the standard application. Applicants must also provide assurances that they will substantially complete funded projects in accordance with project timelines. BIP applicants must commit to the following Nondiscrimination and Interconnection Obligations: i. Adhere to the principles contained in the FCC's Internet Policy Statement (FCC 05151, adopted August 5, 2005); ii. not favor any lawful Internet applications and content over others; iii. display any network management policies in a prominent location on the service providers web page and provide notice to customers of changes to these policies (awardees must describe any business practices or technical mechanisms they employ, other than standard best efforts Internet delivery, to allocate capacity; differentiate among applications, providers, or sources; limit usage; and manage illegal or harmful content); iv. connect to the public Internet directly or indirectly, such that the project is not an entirely private closed network; and v. offer interconnection, where technically feasible without exceeding current or reasonably anticipated capacity limitations, on reasonable rates and terms to be negotiated with requesting parties. This includes both the ability to connect to the public Internet and physical interconnection for the exchange of traffic. Applicants must disclose their proposed interconnection, nondiscrimination, and network management practices with the application. OMB Circular No. A-87 applies to this program. OMB Circular No. A-87 applies to this program.

TYPES OF ASSISTANCE:

Direct Loans; Guaranteed/Insured Loans

USES AND USE RESTRICTIONS:

Direct and guaranteed loans may be used to buy, build, or improve the applicant's permanent residence. New manufactured homes may be financed when they are on a permanent site, purchased from an approved dealer or contractor, and meet certain other requirements. Under very limited circumstances, homes may be re-financed with direct loans. Dwellings financed must be modest, decent, safe, and sanitary. The value of a home financed with a direct loan may not exceed the area limit. The property must be located in an eligible rural area. Assistance is available in the States, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of Northern Mariana's, and the Trust Territories of the Pacific Islands. Direct loans are made at the interest rate specified in RD Instruction 440.1, Exhibit B (available in any Rural Development local office), and are repaid over 33 years or 38 years for applicants whose adjusted annual income does not exceed 60 percent of the area median income, if necessary to show repayment ability. Payment assistance is granted on direct loans to reduce the installment to an "effective interest rate" as low as one percent, depending on adjusted family income. Payment assistance is subject to recapture by the government when the customer no longer resides in the dwelling. There is no funding provided for deferred mortgage authority or loans for deferred mortgage assumptions. Guaranteed loans may be made to refinance either existing RD RHS Guaranteed Housing loans or Section 502 Direct Housing loans. Guaranteed loans are amortized over 30 years. The interest rate is negotiated with the lender.

In addition to meeting the requirements of this program, applicants must also comply with applicable provisions of the American Recovery and Reinvestment Act of 2009 (ARRA) and any related regulations and guidance. 10.861 PUBLIC TELEVISION STATION DIGITAL TRANSITION GRANT PROGRAM

Public Television Station Digital Transition Grant Program

FEDERAL AGENCY:

Rural Development, Department of Agriculture

AUTHORIZATION:

Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2006; Title III, Rural Development Programs; Rural Utilities Service; Distance Learning, Telemedicine, and Broadband Program; Public Law 109-97.

OBJECTIVES:

As part of the nation's transition to digital television, the Federal Communications Commission (FCC) required all television broadcasters to

convert their transmitters to broadcast digital signals by June 12, 2009. The goal of this conversion is a television system that makes more efficient use of the radio spectrum. By decreasing the use of spectrum by television channels, this frees up spectrum to enable the introduction of new wireless telecommunications services such as mobile wireless Internet access. In order to allocate spectrum to new uses, stations had to transition their main transmitter to the new broadcast system and digital no later than June 2009. While stations must broadcast their main transmitter signal in digital, many rural stations have yet to complete a full digital transition of their stations across all equipment. Rural stations often have translators serving small or isolated areas and some of these have not completed the transition to digital. Because the FCC deadline did not apply to translators, they are allowed to continue broadcasting in analog. Some rural stations also have not fully converted their production and studio equipment to digital, which has impaired their ability to provide the same quality local programming that they provided in analog. The digital transition has also created some service gaps where households that received an analog signal are now unable to receive a digital signal. For rural households the digital transition has meant in some cases diminished over-the-air public television service. These rural households are the focus of the Agency's Public Television Station Digital Transition Grant Program.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants may be used to install digital television facilities through purchase or lease (up to three years of lease costs); and for associated engineering and environmental studies. All broadcast facilities acquired under this program must be capable of delivering both digital television (DTV, sometimes called standard definition) and high definition television (HDTV) at both the interim and final channel power authorizations. Grant funds may be used to fund facilities directly connected to the digital transition of the broadcast signal such as: digital transmitters; digital translators; transmitting antennas; new towers or improvements to existing towers necessary for antenna installation; tower ground infrastructure such as land, buildings, fencing, standby power, and where commercial power is unreliable, power generation and conditioning facilities; studio to transmitter/translator communication links; television program production and management equipment; datacasting equipment; and subject to RUS approval, other facilities directly necessary for the digital transition of the broadcast signal. Grants shall not be used: to fund operations or for facilities not owned by the applicant (except for leased facilities as described above); for salaries, wages, and other public television employee benefits; for construction performed or expenditures made prior to the application deadline; or for facilities funded under other grants. Grants shall not be used: to fund operations or for facilities not owned by the applicant (except for leased facilities as described above); for salaries, wages, and other public television employee benefits; for construction performed or expenditures made prior to the application deadline; or for facilities funded under other grants.

Applicant Eligibility:

The applicant must be a public television station that serves a rural area regardless of whether they also serve an urban area. (Rural area means any area of the United States not included within the boundaries of any incorporated or unincorporated city, village, or borough having a population in excess of 20,000 inhabitants.) The applicant must also be required to convert from analog to digital transmission under the rules of the FCC. For the purpose of this grant program, a public television station must be an organization which (1) qualifies for Federal funding under Section 396(k) of the Public Broadcasting Act of 1967, and (2) which is either: (a) under the rules and regulations of the FCC in effect on November 2, 1978, eligible to be licensed as a noncommercial educational broadcast station and which is owned and operated by a public agency or nonprofit private foundation, corporation, or association; or (b) owned and operated by a municipality and which transmits only noncommercial programs for education purposes.

Beneficiary Eligibility:

Anyone who receives the improved digital television signal from a rural public television station or attends an educational institution that uses public television in its curriculum.

Credentials/Documentation:

The applicant must provide evidence demonstrating that it meets the definition of a public television station in section 81, above. The applicant must also provide evidence that the FCC has authorized the initiation of digital broadcasting at each of the Applicant's transmitter and translator sites. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. An applicant must submit an application in accordance with the Program's application guide. In addition to Government-wide requirements, the applicant shall provide a description of the project including: an executive summary, a project cost spreadsheet, broadcast coverage maps, a complete narrative description, and an environmental assessment.

Award Procedure:

All complete applications from eligible applicants that meet the application deadline will be scored in a competitive process to determine which projects are funded. There are three scoring categories. The first is rurality, a measure of the rural character of the applicant's digital television coverage area. Up to 50 points can be earned in this category. The second uses the National School Lunch Program eligibility percentage as a measure of the economic need of the people in the applicant's coverage area. This category earns up to 25 points. Finally, up to 25 points can be awarded based on critical need.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Applications are approved each fiscal year for which funding is made available.

Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that

year, except as noted in Circular No. A-133. The recipient must provide RUS with an audit for each year in which a portion of the grant is expended.

10.922 HEALTHY FORESTS RESERVE PROGRAM (HFRP)

Healthy Forests Reserve Program (HFRP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Healthy Forest Restoration Act of 2003, Title V, Section 501, Public Law 108-148, 117 Stat. 1911, 16 U.S.C 6571-6578, as amended by The Food, Conservation, and Energy Act of 2008, Title VIII, Part Subtitle C, Section 501, Public Law 110-234, 122 Stat. 1294.

OBJECTIVES:

To assist landowners in restoring and enhancing forest ecosystems to: promote the recovery of threatened and endangered species; improve biodiversity; and enhance carbon sequestration.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

HFRP restoration agreements and easements are designed for working Agricultural lands. HFRP is a voluntary program to assist landowners in restoring, enhancing and maintaining forest ecosystems on private lands through easements, contracts and restoration agreements. Easements, contracts, and restoration agreements shall be maintained in accordance with HFRP goals and objectives for the duration of the restoration agreement and easement including the restoration, protection, enhancement, maintenance, and management of habitat for listed species within a forest ecosystem's functions and values. For the duration of its term, the easement shall require, at a minimum, that the landowner, and the landowner's heirs, successors and assigns, shall cooperate in the restoration, protection, enhancement, maintenance, and management of the land in accordance with the easement and with the terms of the HFRP restoration plan. In addition, the easement shall grant to the United States, through the NRCS: a right of access to the easement area; the right to permit compatible uses of the easement area, if such use is consistent with the long-term protection and enhancement of the purposes for which the easement was established; the right to determine compatible uses on the easement area and specify the amount, method, timing, intensity and duration of the compatible use; the rights, title and interest to the easement area as specified in the conservation easement deed; and the right to perform restoration, protection, enhancement, maintenance, and management activities on the easement area. The landowner shall convey title to the easement which is acceptable to the NRCS. The landowner shall warrant that the easement granted to the United States is superior to the rights of all others, except for exceptions to the title which are deemed acceptable by the NRCS.

Applicant Eligibility:

To be eligible to enroll an easement or restoration agreement in the HFRP, a person must: be the landowner of eligible private land for which enrollment is sought; agree to provide such information to the Natural Resources Conservation Service (NRCS) as the Agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes.

Beneficiary Eligibility:

Only landowners.

Credentials/Documentation:

Be the landowner of eligible land for which enrollment is sought; and agree to provide such information to NRCS as the agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Any owner meeting eligibility criteria may submit an application for participation. Applications are accepted in local USDA Service Center Offices during announced enrollment sign-up periods. USDA will establish criteria to evaluate and rank applications for easement and restoration agreement enrollment, criteria will be detailed in the sign-up notice. NRCS will identify through a sign-up notice process the geographic scope and ranking priorities for that particular sign-up. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Applications can be obtained through local USDA Service Center.

Award Procedure:

NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment which is offered by NRCS. The easement payment may or may not equal the fair market value of the interests and rights to be conveyed by the landowner under the easement. By voluntarily participating in the program, a landowner waives any claim to additional compensation based on fair market value.

10.923 EMERGENCY WATERSHED PROTECTION PROGRAM

(Emergency Watershed Protection (EWP) Program)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009, Public Law 111-5, 123 Stat. 117; the Agricultural Credit Act of 1978, Section 403, Public Law 95-334, 33 U.S.C 701B-1; Section 216 of the Flood Control Act of 1950, Section 216, Public Law 81-516, 33 U.S.C 701b; Federal Agriculture Improvement and Reform Act of 1996 , Title III, Part Subtitle H, Section 382, Public Law 104-127, 110 Stat. 1016, 16 U.S.C 2203.

OBJECTIVES:

The objective of the EWP Program is to assist sponsors, landowners, and operators in implementing emergency recovery measures for runoff retardation and erosion prevention to relieve imminent hazards to life and property created by a natural disaster that causes a sudden impairment of a watershed.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

All EWP work must reduce threats to life and property and must be economically, environmentally, and socially defensible and sound from a technical standpoint. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the U.S. Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services. EWP funds have restrictions. EWP cannot solve problems that existed before the disaster or to improve the level of protection above that which existed before a disaster. It cannot fund operation and maintenance work or repair private or public transportation facilities or utilities. The work cannot adversely affect downstream water rights and funds cannot be used to install measures not essential to the reduction of hazards. In addition, funds cannot be used to perform work on measures installed by another federal agency.

Applicant Eligibility:

Public and private landowners are eligible for assistance but must be represented by a project sponsor. Project sponsor means a State government or a State agency or a legal subdivision thereof, local unit of government, or any Native American tribe or tribal organization as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), with a legal interest in or responsibility for the values threatened by a watershed emergency; is capable of obtaining necessary land rights, and permits; and is capable of carrying out any operation and maintenance responsibilities that may be required. Sponsors are also responsible for furnishing the local cost share and for accomplishing the installation of work. Work can be done either through Federal or local contracts. Emergency watershed protection is authorized in the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa.

Beneficiary Eligibility:

None.

Credentials/Documentation:

Sponsors must submit a formal request to the State Conservationist for assistance within 60 days of the natural disaster occurrence, or 60 days from the date when access to the sites becomes available. Requests must include a statement that the sponsors understand their responsibilities and are willing to pay its cost-shared percentage as well as information pertaining to the natural disaster, including the nature, location, and scope of the problems and the assistance needed. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under

E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. Potential sponsors submit formal requests for assistance to the NRCS state conservationist.

Award Procedure:

Project sponsors seeking EWP assistance must apply to the STC in writing within 60 days of the natural disaster occurrence. Project sponsors may use SF 424 Application for Federal Assistance but must ensure that following information is provided: (1) A description of the problems encountered; (2) Assistance needed, including the following: Nature of the problem; Location; Scope of the problem; Commitment by the sponsor to assume the following responsibilities: local cost-share; Land rights; acquisition; Permits; Operations and Maintenance (O and M), A statement indicating that funds have either been exhausted or are insufficient to provide adequate recovery measures from the applicable hazards; A statement identifying any other State or Federal funding received or application submitted. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. Before the release of financial assistance, NRCS will enter into a Cooperative Agreement with a sponsor that specifies the responsibilities of the sponsor under this part, including any required operation and maintenance responsibilities. NRCS will not provide funding for activities undertaken by a sponsor prior to the signing of the agreement between NRCS and the sponsor.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The EWP program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Renewals:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

EWP projects are eligible when it is determined that the current condition of the land or watershed impairment poses a threat to health, life, and property. 10.924 CONSERVATION STEWARDSHIP PROGRAM

Conservation Stewardship Program (CSP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985
, Public Law 106-224, Stat. , 16 U.S.C 3838h, as amended by The Food, Conservation, and Energy Act of 2008
, Title II, Part Subtitle D, Section 2301, Public Law 110-234, 122 Stat. 1040, 16 U.S.C 3838.

OBJECTIVES:

Through CSP, NRCS will provide financial and technical assistance to eligible producers to conserve and enhance soil, water, air, and related natural resources on their land. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest lands, agricultural land under the jurisdiction of an Indian tribe, and other private agricultural land

(including cropped woodland, marshes, and agricultural land used for the production of livestock) on which resource concerns related to agricultural production could be addressed. Participation in the program is voluntary.

CSP encourages land stewards to improve their conservation performance by installing and adopting additional activities, and improving, maintaining, and managing existing activities on agricultural land and nonindustrial private forest land. The NRCS will make CSP available nationwide on a continuous application basis.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CSP is available on Tribal and private agricultural lands, as well as nonindustrial private forest lands in all 50 States, the District of Columbia, and the Caribbean and Pacific Islands Areas. The entire operation must be enrolled and must include all eligible land that will be under the applicant's control for the term of the proposed contract that is operated substantially separate from other operations. Land enrolled in the Conservation Reserve Program (7 CFR part 1410), Wetlands Reserve Program (7 CFR part 1467), Grasslands Reserve Program (7 CFR part 1415), and Conservation Security Program (CFR part 1469) are ineligible for CSP. The 2008 Act limits eligibility to private agricultural land; as such, land that is owned by a Federal, State, or local unit of government, with the exception of agricultural land under the jurisdiction of an Indian Tribe, is ineligible, regardless of the status of the operator. Additionally, a participant may not receive payment for land used for crop production after June 18, 2008, that had not been planted, considered to be planted, or devoted to crop production for at least four of the six years preceding that date, unless the land was: previously enrolled in the Conservation Reserve Program; maintained using long-term rotations, such as hayland in rotation; or incidental to the operation but needed for the efficient management of the operation. An example of land considered incidental to the operation that may be eligible for payment is land that had once been used for buildings and is now being used for crop production to square up a cropland field.

Applicant Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program.

Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe (covered in 508 Subpart F, 508.53 and 1470.6b). As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold (covered in 508 Subpart F, 508.54).

Beneficiary Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program.

Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe (covered in 508 Subpart F, 508.53 and 1470.6b). As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold (covered in 508 Subpart F, 508.54).

Credentials/Documentation:

The participant must have control of the land offered for the length of the contract period. NRCS requires all program payments be made by direct deposit unless the participant requests a waiver as described in 31 CFR Part 208.4, paragraph (a). This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13). An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13).

Award Procedure:

Once applicant and land eligibility are determined, the NRCS field office will assist the producer with completing the CMT resource inventory. CMT will estimate the level of environmental benefit to be achieved by the applicant. The CMT conservation performance scoring will enable NRCS to determine if the stewardship threshold requirement is met, rank applications, and establish payments.

Applicants will be ranked relative to other applicants who face similar resource challenges in State-established ranking pools using conservation performance ranking scores. For approved applicants, NRCS will conduct on-site field verification to substantiate that conservation activity and production system information represented by the applicant was accurate. After the conservation system information is verified, NRCS and the applicant proceed to develop the conservation stewardship plan and contract. Upon approval, the contract will obligate the participant to achieve a higher level of conservation performance by installing additional activities scheduled in their conservation stewardship plan and to maintain the level of existing conservation performance identified at the time of application.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

A participant may obtain administrative review in accordance with 7 CFR parts 11 and 614 for an adverse decision. Participants cannot appeal payment rates, payment limits, and cost-share percentages, eligible conservation practices, or other matters of general applicability. Before a participant can seek judicial review, the participant must exhaust all administrative appeal procedures.

Renewals:

At the end of an initial conservation stewardship contract, NRCS will allow a participant to renew the contract to receive payments for one additional five year period, subject to the availability of funds. To be considered for contract renewal, the participant must be in compliance with the terms of their initial contract as determined by NRCS; add any newly acquired eligible land that is part of the agricultural operation and meets minimum treatment criteria as established and determined by NRCS; meet stewardship thresholds for additional priority resource concerns as determined by NRCS; and agree to adopt conservation activities as determined by NRCS.

Formula and Matching Requirements:

Statutory Formula: Subject to the availability of funds, NRCS will offer participants two potential types of payment. As outlined in 508.90, an annual payment will be made for installing and adopting additional conservation activities, and improving, maintaining, and managing existing activities. A supplemental payment can also be made to a participant receiving annual

payments, who also agrees to adopt a resource-conserving crop rotation. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

NRCS will make payments as soon as practicable after October 1 of each fiscal year for activities carried out in the previous fiscal year. IMPLEMENTING WATER CONSERVATION BEST MANAGEMENT PRACTICES FOR SMALL, UNDERSERVED, ORGANIC, AND SUSTAINABLE AGRICULTURAL PRODUCERS IN NORTHEAST GEORGIA PHASE II

The overall goal of this project is to increase water conservation and water use efficiency on small, underserved, organic and sustainable farms. GSWCC anticipates this project will replace inefficient irrigation systems and better utilize existing water sources. GSWCC plans to hold three informational meetings to inform local producers about federal incentive programs and two field days to increase local awareness, education, and to exhibit of water conservation practices put into effect through BMPs on sustainable farms. GSWCC will also run forty-two promotional news articles, one in each Area 2 county. Through this project, GSWCC plans to reach an additional twenty percent of the small, organic and sustainable producers in the Region II area. Furthermore, this project will implement approximately 55 Best Management Practices (BMPs) within the area.

Sustainability of the Confined and Unconfined Aquifers in the San Luis Valley The Colorado Division of Water Resources is currently working with the Rio Grande Water Conservation District and local irrigators and irrigation companies in formulating Rules and Regulations to allow continued pumping of irrigation wells, while at the same time maintaining sustainable water levels, or pressures, in the groundwater aquifers that underlie the irrigated cropland portion of the San Luis Valley. The objectives to this proposal are as follows:

Reduce pumping on cropland by changing cropping rotations to average less consumptive use and by upgrading existing systems to incorporate river water into irrigation systems

Improve existing sprinkler systems to reduce acreage and improve irrigation efficiency

Improve irrigation management by increasing organic matter and water holding capacity, and reducing the nitrate leaching potential

Improve the efficiency of groundwater recharge with the surface irrigation water rights. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

1. Include high percentages of agricultural land and producers in a region or other appropriate area;
2. Result in high levels of applied agricultural water quality and water conservation activities;
3. Significantly enhance agricultural activity;
4. Allow for monitoring and evaluation by the partner;
5. Assist agricultural producers in meeting a regulatory requirement that reduces the economic scope of the producers operation;
6. Achieve the projects land and water treatment objectives within 5 years or less;
7. Are from States with water quantity concerns where the proposal will:
 - a. Include conservation practices that support the conversion of agricultural land from irrigated farming to dryland farming;
 - b. Leverage Federal funds provided under the program with funds provided by partners;
 - c. Assist producers in States with high priority water quantity concerns, as determined by the agency. The high priority areas are located in the following regions: Eastern Snake Plain Aquifer, Everglades, Ogallala Aquifer, Puget Sound, Red River, Sacramento River Basin, and Upper Mississippi River Basin.
- d. Include other factors and criteria as approved by the agency which help identify those proposals which best achieve the purposes of AWEF.

Technical assistance and conservation payments may be provided to apply needed conservation practices and land use adjustments within a time schedule specified by the conservation CBWP plan of operations. A contract with a participant may apply one or more land management practices or one or more structural practices.

Award Procedure:

NRCS applies the ranking and selection requirements of the particular natural resource program used to implement CBWP (e.g., EQIP, WHIP). NRCS will give special consideration to applicants that address priority natural resource concerns designated. This final calculation will almost always result in a lower amount than would be available under Section 203(b). 14.218 COMMUNITY DEVELOPMENT BLOCK GRANTS/ENTITLEMENT GRANTS

Community Development Block Grant program for Entitlement Communities.

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

OBJECTIVES:

To develop viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low and moderate income.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipient communities may undertake a wide range of community-based activities directed toward neighborhood revitalization, economic development, and community services, facilities, and improvements. Entitlement communities develop their programs and set their funding priorities in conformance with the statutory standards, program regulations, and other federal requirements. Specific activities that can be carried out with Community Development Block Grant (CDBG) funds include acquisition of real property; relocation; clearance and demolition; rehabilitation of residential and nonresidential structures; provision of public facilities and improvements, such as water and sewer facilities (which require reviews by the State single point of contact or a Regional Planning Agency in accordance with Executive Order 12372), streets, and neighborhood centers. Within program limitations, CDBG funds can also pay for public services. Recipients may provide assistance to microenterprises or other for-profit entities when the recipient determines that such assistance is appropriate to carry out an economic development project. Community-based development organizations may carry out neighborhood revitalization, community economic development, or energy conservation activities. Each CDBG eligible activity must meet one of three national objectives: benefit low- and moderate-income persons, aid in the prevention or elimination of slums or blight, or meet other community development needs having a particular urgency that the grantee is unable to finance on its own. Recipients may only carry out eligible activities as listed in

24 CFR 570.201-207 or the statute.

Applicant Eligibility:

Recipients are states; cities in Metropolitan Areas designated by OMB as a central city of the Metropolitan Area; other cities over 50,000 in Metropolitan Areas; and qualified urban counties of at least 200,000 (excluding the population in entitlement cities located within the boundaries of such counties) are eligible to receive CDBG entitlement grants determined by a statutory formula.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD). The recipient must certify that at least 70 percent of the grant funds received during a 1, 2, or 3-year period, that it designates, are expended for activities that will principally benefit low- and moderate-income persons.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Executive Order 12372 is applicable only where a recipient proposes to use funds for the planning or construction (reconstruction or installation) of water or sewer facilities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Recipients submit a 5-year Consolidated Plan, an annual action plan, SF Form 424, and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD Community development programs, including CDBG. The annual action plan must include the local community development objectives and show the proposed use of the funds. If the grantee makes a complete submission within the established deadlines, the Department will make a grant award unless a determination is made by HUD that the grantee's performance is unsatisfactory. HUD will approve the submission generally within 45 days of receipt of the annual action plan and required certifications unless a determination has been made that the grantee has failed to carry out its CDBG program in a timely manner or has failed to conform to the requirements of the statute or other applicable laws. Under such circumstances, HUD may take appropriate actions, including a reduction in the amount of the original formula-allocated grant.

Award Procedure:

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

State CDBG

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and

Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Section 101-122, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5322.

OBJECTIVES:

The primary objective of this program is the development of viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low- and moderate-income. Each activity funded must meet one of the program's National Objectives by: Benefiting low- and moderate-income families; aiding in the prevention or elimination of slums or blight; or meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Thirty percent of funds available for distribution under each annual appropriation for the Community Development Block Grant (CDBG) program is allocated among the States and Puerto Rico (which is considered to be a state for the State CDBG program) for use in areas which are not a metropolitan city or part of an urban county (nonentitlement areas). All States except Hawaii have elected to administer these CDBG funds for areas that do not receive CDBG entitlement grants (14.218). HUD awards the formula grants to these States under the CDBG/State Program. In Hawaii, HUD awards the state's share of these funds to three non-entitlement counties. States must distribute CDBG funds to units of general local government (counties, towns, etc.) in nonentitlement areas. States develop their own programs and funding priorities. Units of general local government then carry out community development activities funded by the State. Eligible activities are directed toward neighborhood revitalization, economic development, or provision of improved community facilities and services. Specific activities that can be carried out with block grant funds include: Acquisition, rehabilitation or construction of certain public works facilities and improvements, such as streets, water and sewer facilities, neighborhood centers, recreation facilities, and other public works; demolition and clearance; rehabilitation of public and private buildings including housing; code enforcement; relocation payments and assistance; economic development; planning activities; certain public services with some restrictions; and administrative expenses. The projected use of funds must be developed to ensure that all activities will meet one of the three national objectives described under "OBJECTIVES". Communities receiving CDBG funds from a state may select subgrantees to carry out approved projects. Such subgrantees may include: Neighborhood-based nonprofit organizations; local development corporations; Small Business Investment Companies; or other nonprofit organizations serving the development needs of nonentitlement areas. Grant recipients may provide assistance to for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out an economic development project. Communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and from making housing allowances or other income maintenance-type payments. Each State may use a limited portion of its grant, subject to a matching requirement, to administer the program. Each State may also use a limited portion of its grant, with no matching requirement, to provide technical assistance to local governments and nonprofit program recipients. At least seventy percent of the funds received must benefit low and moderate income persons.

Applicant Eligibility:

Forty-nine State governments and the Commonwealth of Puerto Rico receive funds from HUD under this program. The state of Hawaii does not participate and HUD allocates the state's share of funds to the three Hawaii non-entitled counties. Funds are allocated to each state based on a statutory formula. States must distribute the funds to units of general local government in nonentitlement areas.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low and moderate income persons. For non-metropolitan areas, low and moderate income is generally

defined as 80 percent of the median income for non-metropolitan areas of the State or of the county, whichever is higher, adjusted for family size. For eligible localities in metropolitan areas, low- and moderate-income is generally defined as 80 percent of the median income for the metropolitan area, adjusted for family size.

Credentials/Documentation:

Grantees must certify that they will comply with program requirements specified in 24 CFR Part 91. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. States must follow the fiscal requirements contained in 24 CFR 570.489. Each state and non-entitled Hawaii county must submit a Consolidated Plan, an annual action plan and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD community development programs, including CDBG. The annual action plan must contain the method by which the State will distribute its CDBG funds.

Award Procedure:

HUD will provide funds after the State or non-entitled Hawaii county submits its Consolidated Plan, annual action plan and Certifications.

Deadlines:

Nov 15, 2010 to Aug 16, 2011 Consolidated Plans may be submitted between November 15 and August 16 of each fiscal year in which the grantee will administer funds.

Range of Approval/Disapproval Time:

HUD will review plan submissions for completeness and consistency with the purposes of the Act, within 45 days of receipt from a grantee.

Appeals:

The procedure is described in regulations (24 CFR Part 570 Subpart I for states and 24 CFR Part 570 Subpart O for non-entitlement counties in Hawaii).

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter V, Part 570, Subpart A, Public Law 93-383.

Matching Requirements: For state administration of the program, after an initial allowance of \$100,000 with no match, states may take an additional allowance of up to 3% of the grant amount but must match such expenditures on a dollar for dollar basis. There is no matching requirement for the non-entitlement counties in Hawaii.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is provided to States and non-entitlement counties in Hawaii on an annual basis. Individual States may impose time limitations on the implementation of grants to recipients. Method of awarding/releasing assistance: by letter of credit.

Reports:

Annual performance report covering all programs included in the Consolidated Plan as prescribed at 24 CFR 91.520. For Hawaii counties, SF-425 Federal Cash Transactions Report is required. Annual Performance and Evaluation Report details the state's performance in completing activities undertaken with each allocation of funds. Disbursement reports are a standard feature of the Integrated Disbursement and Information System used to access the grantee's line of credit. Program performance monitoring is conducted by field office staff.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000

or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Records must demonstrate that the State or non-entitlement county in Hawaii has met the requirements of Title I of the Act.

Local governments receiving formula allocations may distribute all or part of their grants to nonprofit recipients to be used for ESG activities. Only local governments and nonprofit organizations may apply for ESG funds directly from States. The territories receive their allocations based on their population size.

Beneficiary Eligibility:

Homeless families and individuals, and low-income persons in immediate risk of losing their housing due to eviction, foreclosure, or utility shutoffs.

Credentials/Documentation:

States, metropolitan cities, urban counties, and territories that elect to participate in the program must submit (1) an approved Consolidated Plan; and (2) certifications that each grantee will supplement the assistance provided under the program with an equal amount of funds from other sources, except for State grantees under the \$100,000 exemption, (b) ensure that any building using ESG funds will continue as a homeless shelter for specified periods, (c) ensure that assisted rehabilitation is sufficient to make the structure safe and sanitary, (d) provide for a procedure to ensure the confidentiality of victims of domestic violence, and assist homeless individuals in obtaining appropriate supportive services and other available assistance, and (e) meet other generally applicable requirements, such as nondiscrimination and equal opportunity. The annual action plan specifies new projects being funded, along with any revisions in the overall document. Each participating grantee must submit certifications required by HUD.

Award Procedure:

The HUD field office reviews the grantee's Consolidated Plan and, if approved, executes a grant agreement.

Deadlines:

Range of Approval/Disapproval Time:

The Consolidated plan is generally approved in 10 working days or deemed approved by HUD within 45 days of receipt.

Formula and Matching Requirements:

Statutory Formula: Each grantee must certify that it will supplement the assistance provided under the program with an equal amount of funds from other sources, except for State grantees under \$100,000 exemption.
Matching Requirements: After a portion of the ESG appropriation is set aside for the territories, the amount of each grant for formula grantees is determined by the Community Planning Block Grant (CDBG) formula using several objective measures of community need, including poverty, population, housing overcrowding, age of housing and growth lag. Allocations among the territories are based on their populations. If, according to the formula, an eligible government receives less than 05. percent of the yearly appropriation, then that grant is added to the allocation for that State. A State must allocate to its local government or to nonprofit organizations the entire grant, except for the up to five percent used to administer the grant. The administrative funds must be shared with local government grantees in that State. Grantees must match grant funds with an equal amount of funds from other sources including donated material or a building, leasehold value, additional staff salaries, and volunteer time.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Length and Time Phasing of Assistance: Length and Time Phasing of Assistance: Grant awards should be made within 45 days of HUD's receipt and approval of the Consolidated Plan. A State should make available to its recipients all of its grant allocation within 65 days of the date of the grant award by HUD. A State recipient should have its entire grant obligated by 180 days from the date on which the State made the grant available to it, and spent the entire grant within 24 months of this date. For State homeless prevention funds, the State may continue to make available homeless prevention funds within 180 days of grant award. State recipients that are local government agencies and nonprofit organizations then have 30 days to obligate the funds, and up to 24 months to spend them. Each local government grantee should have all of its grant funds obligated by 180 days from its grant award by HUD, and entirely spent within 24 months. Method of awarding/releasing assistance: by letter of credit.
