PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 2010, USMMA received its highest ever national rankings in the widely read US News and World Report Best Colleges 2011 rankings published in August 2010. The Academy was rated as the 3rd best undergraduate program in the North Region in addition to being the 3rd highest in graduation and retention rates. USMMA's engineering program was rated 21st nationally among undergraduate engineering colleges. This is an excellent testimonial to the passion and dedication of academy faculty, staff and administrators who went the extra mile to meet the institutional mission and deliver a high quality education despite challenging operating conditions. In 2010, USMMA completed renovations of Murphy Hall, its largest student dormitory. This facility was brought on-line in May, and represented a major milestone as the barracks complex passed the half-way point of its renovation and rehabilitation plan. Currently, approximately 600 of 800 midshipmen in residence occupy renovated facilities, which are equipped with geo-thermal heating and air conditioning, and numerous other quality of life improvements. The remaining dormitories, Rogers and Cleveland Halls, are slated for refurbishment in FY2013, following renovation of the galley in the student dining facility, Delano Hall.

In March 2010, the USMMA Capital Improvement Advisory Panel issued its final report to the Secretary of Transportation. This blue ribbon panel, chaired by former Deputy Secretary of Transportation VADM Thomas Barrett, spent ten months closely examining the Academy's facility needs in the context of a 21st Century federal service academy, and developed a series of recommendations for the Secretary to support his case for increased resources for the Academy. The Panel's report now serves as an effective roadmap for the Academy as it establishes its capital improvement strategy. In August, 2010, the USMMA welcomed Rear Admiral Philip H. Greene, Jr., USMS as its eleventh Superintendent. Secretary of Transportation, the Honorable Ray LaHood, along with dozens of government, military, and industry leaders, was on hand for his official installation ceremony, which was held at the Academy in September. Greene is the third U.S. Merchant Marine Academy graduate to be named Superintendent. He joins RADM Thomas A. King 42 (1980-1987) and RADM Paul L. Krinsky 50 (1987-1993) as the only Kings Point graduates to oversee the institution.

Greene retired from the U.S. Navy after a distinguished, 32 year career, where he commanded two ships and a destroyer squadron. His last assignment was Director, Navy Irregular Warfare Office, where he led the Navy's effort to develop new plans and strategies to combat the emerging dynamic styles of warfare. He also served as Commander, Combined Joint Task Force-Horn of Africa where he led operations to build regional security capacity and counter extremism in the Horn/East Africa. Fiscal Year 2011: In FY 2011, USMMA graduated 206 new licensed merchant marine officers in the Class of 2011, and welcomed 292 new Midshipmen in the Class of 2015. USMMA continued its capital repair and modernization efforts, including work on Mallory Pier (the primary berthing location for its training vessels), initial work on refurbishment of the commercial kitchen servicing Delano Hall (the midshipman dining facility), and replacement of the surface of Tomb Field (the primary parade ground and athletic field). The USMMA successfully completed a USCG/MARAD audit of its merchant marine officer licensing programs, and was described as having a model program of performance assessment. Additional areas of focus have included major program review of overhaul of its internal controls systems and business practices; completion of its annual Sexual Harassment and Sexual Harassment report; and other program and policy changes to address recommendations included in the FY 2009 GAO audit report. Fiscal Year 2012: In FY 2012, USMMA intends to graduate approximately 225 new licensed merchant marine officers in the Class of 2012, and welcome 289 new Midshipmen in the Class of 2016; meet milestones for completion of renovations to Delano Hall, and commence renovation of Cleveland Hall (the fifth of six student dormitories/barrack undergoing renovation; Initiate architecture and engineering studies to support future renovations of academic buildings and other facilities; continue to follow-up

implementation of management and process improvements responding to GAO recommendations; continue to effect wholesale review and revision of orders, guidance, and directives; and, continue implementation of A-123 internal controls protocols.

20.808 CAPITAL CONSTRUCTION FUND

(CCF)

FEDERAL AGENCY:

Maritime Administration (MARAD), Department of Transportation

AUTHORIZATION:

Merchant Marine Act of 1936, Section 607, Public Law 91-469, 1018 Stat. , 46 U.S.C 53501 - 53517.

OBJECTIVES:

To provide for replacement vessels, additional vessels or reconstructed vessels, built and documented under the laws of the United States for operation in the United States foreign, Great Lakes, Marine Highways or noncontiguous domestic trades.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The capital construction fund program is a program created to help rejuvenate the American Merchant Marine. The assistance provided is not through payment of appropriated funds, but rather allows the fund holder to defer a portion of tax monies that would otherwise be paid to the U.S. Government during the tax year. The extension of tax deferral privileges encourages the accomplishment of the program objective by allowing the fund holder to accumulate and use otherwise taxable earnings for the purposes of acquiring, constructing or reconstructing vessels built and documented in the United States and operated in the United States foreign, Great Lakes or noncontiguous domestic trade and in the fisheries.

Applicant Eligibility:

An applicant must be a U.S. citizen, own or lease one or more eligible vessels, have a program for the acquisition, construction or reconstruction of a qualified vessel and demonstrate the financial capabilities to accomplish the program.

Beneficiary Eligibility:

None.

20.812 CONSTRUCTION RESERVE FUND

(CRF)

FEDERAL AGENCY:

Maritime Administration (MARAD), Department of Transportation

AUTHORIZATION:

Merchant Marine Act of 1936, Section 511, Public Law 74-835, 46 U.S.C 1161.

OBJECTIVES:

To promote the construction, reconstruction, reconditioning, or acquisition of merchant vessels built and documented under the laws of the United States for purposes of national defense and the development of U.S. commerce.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The Construction Reserve Fund (CRF), authorized under Section 511 of the Act, is a financial assistance program which provides tax deferral benefits to U.S. flag operators. The CRF permits the fundholder to deposit gains attributable to the sale of or indemnification for loss of vessels and to defer tax on such gains provided the gains are to be reinvested in vessels. Also the CRF allows the accumulation of earnings from operations of vessels documented in

the U.S., or the earnings from the investment of the Fund. The ability to accumulate funds and the tax deferral provision have enabled fundholders to construct or reconstruct in the United States and documented under the laws of the United States larger, better-equipped vessels, reduce mortgage debt on the vessels and construct a greater number of vessels than would be possible without the program.

Applicant Eligibility:

A Construction Reserve Fund (CRF) may be established by any citizen of the United States who owns, in whole or in part, a vessel or vessels operating in the foreign or domestic commerce of the U.S., or in the fisheries. Additionally, any citizen who is operating such vessel or vessels owned by another individual may establish a CRF.

Beneficiary Eligibility:

Any citizen of the United States who owns, in whole or in part, a vessel or vessels operating in the foreign or domestic commerce of the U.S. or in the fisheries. Additionally, any citizen who is operating such vessel or vessels owned by another individual.

To award grants for capital improvements and related infrastructure improvements at qualified shipyards that will facilitate the efficiency, cost effectiveness, and quality of domestic ship construction for commercial and Federal Government use.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

For capital and related infrastructure improvements. Cannot be used for physical facility construction or land acquisition unless specifically approved by Administrator as consistent with capital and infrastructure improvements. Federal funds cannot exceed 75 percent of project cost unless (1) cost is less than \$26,075, or (2) determination is made that project merits support and requires additional assistance. Cannot be used for physical facility construction or land acquisition unless specifically approved by the Administrator as consistent with capital infrastructure improvements. Federal funds cannot exceed 75 percent of project costs unless a determination is made that project merits support and requires additional assistance.

Applicant Eligibility:

Either a shipyard or a State or local government on behalf of a shipyard can apply. The shipyard must be one in a single geographical location, located in or near a maritime community, that (1) is a small business concern within the meaning of section 3 of the Small Business Act (15 U.S.C. 632); and (2) does not have more than 600 production employees. Other factors taken into account when grants are awarded will be (a) the economic circumstances and conditions of the maritime community near to which a shipyard is located; and (B) the local, State and regional economy in which such community is located.

Beneficiary Eligibility:

Shipyard.

Credentials/Documentation:

As required by application. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. SF-424 application form must be filed with the Maritime Administration. There are specific agency instructions for additional information which should be provided as an addendum to Form SF-424. These instructions were published in the Federal Register on January 10, 2008, in Vol.73, No. 7, pp.1912-1913. Applicants can go to www.grants.gov to apply.

Award Procedure:

Awards will be made by the Maritime Administrator in such amounts and under such conditions as he determines.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 120 to 180 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Percent: 25.%. Public Law 110-417 provides that no more than 75 percent of a project's cost may be paid from Federal Funds. This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

To be individually determined based on project. Method of awarding/releasing assistance: quarterly.

Reports:

No program reports are required. SF-425 is required. There will be Progress Reports, Annual Reports, and/or Status Reports depending on the nature of the project and the period of time it is expected to take. No expenditure reports are required. Monitoring is based done by the audit requirements. Grants over \$500,000 have mandatory audits.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Recipient is required to retain intact, for 3 years following submission of the final expenditure report, pending resolution of audit findings, all project contract documents, financial records and supporting documents.

Account Identification:

69-1770-0-1-021.

Obligations:

(Project Grants) FY 10 \$14,702,045; FY 11 est \$9,800,000; and FY 12 Estimate Not Available

Range and Average of Financial Assistance:

Awards can be in any amount up to \$10,000,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Successfully completed 42 of 102 funded projects. The

20.816 AMERICAS MARINE HIGHWAY GRANTS

Marine Highway Program

FEDERAL AGENCY:

Maritime Administration (MARAD), Department of Transportation

AUTHORIZATION:

2010 National Defense Authorization Act (Section 3515), Public Law 111-84, 46 U.S.C 55601 (g).

OBJECTIVES:

Mitigate landside congestion and receive public benefit and external cost savings by awarding Marine Highway grants to qualified applicants to implement projects or components of a designated Marine Highway project.

This meets the objectives of the National Defense Authorization Act of FY 2010 (111th Congress, Public Law 111-84), which amends the Energy Independence and Security Act of 2007 (110th Congress, Public Law 110-140).

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The assistance will be used to provide waterborne alternative to available landside transportation services using documented vessels and provide transportation services for passengers or freight (or both) that may reduce congestion on landside infrastructure, realize public benefit and/or reduce external costs using documented vessels. Components of projects that are eligible for grant funding include, but are not limited to the following:
Port and terminal infrastructure (wharves, docks, terminals, paving, etc.)
Cargo, passenger and/or vessel handling equipment
Efficiency or capacity improvements in ports, terminals, aboard vessels, intermodal connectors, etc.
Investments that improve environmental sustainability; and
New or used vessel purchase or vessel modifications., 100 percent are discretionary funds.

Applicant Eligibility:

Grant applicants must be public agencies at the state, regional or local level including, but not limited to, Metropolitan Planning Organizations, State governments (including State Departments of Transportation) and port authorities. They must also have had their projects for which they are requesting funds be designated as Marine Highway Projects under Americas Marine Highway Program (110th Congress, Public Law 110-140). In order to receive a grant under this program, applicants must submit an application to the Secretary and demonstrate that the project is financially viable, the funds will be spent efficiently and effectively, and that a market exists for the services of the proposed project as evidenced by contracts or written statements of intent from potential customers. An applicant shall provide at least 20 percent of the project costs from non-Federal sources. In awarding grants under the program, the Secretary shall give a preference to those projects or components that present the most financially viable transportation services and require the lowest percentage Federal share of the costs." Eligible applicants include those entities defined within OMB A-87, excluding Federal agencies due to matching-fund regulatory requirements. Sponsored organizations may apply if an MOU/MOA exists with a public agency defined by OMB A-87.

Beneficiary Eligibility:

Eligible beneficiaries include those entities defined in OMB A-102 and Circular A-122.

Credentials/Documentation:

The following documentation is required:

1. First page of application:

- A. Marine Highway Project name (as stated in the Departments Letter of Designation)
- B. Primary point of contact for applicant
- C. Amount of dollars of Grant Funds the applicant is seeking, sources and share of other matching funds.
- D. Summary of what the grant funding will be used for
- E. Project parties
- F. Recipients of Marine Highway grants and their first-tier sub-awardees will be required to have a DUNS number (<http://www.dnb.com>) and a current registration in the Central Contractor Registration (<http://www.ccr.gov>). While these items do not need to be provided as part of the application, a Marine Highway Grant will not be awarded if a recipient or first-tier sub-awardee does not have these items.

2. Contact Information: An application should include the name, phone number, e-mail address and organization address of the primary point of contact for the applicant. The Department will use this information to inform parties of the Departments decision regarding selection of grantees, as well as to contact parties in the event that the Department needs additional information about the application.

3. Grant Funds and Sources and Uses of Project Funds: An application should include information about the amount of grant funding requested, sources and

uses of all project funds, total project costs, percentage of project costs that would be paid for with Marine Highway Grant funds and the identity and percentage shares of all parties providing funds for the project (including Federal funds provided under other programs).

4. Selection Criteria: In general, applications will be evaluated based on the information provided in the original application for designation as a Marine Highway Project as set forth in the (final rule). However, as addressed in section (IV) Selection Criteria of this notice, applicants may provide additional information. This information should be provided in the order it was solicited in the (final rule).

5. National Environmental Policy Act Requirement: An application must detail whether the project will significantly impact the natural, social and/or economic environment. If the NEPA process is completed, an applicant must indicate the date of, and provide a Web site link or other reference to, the final Categorical Exclusion, Finding of No Significant Impact or Record of Decision. If the NEPA process is underway but not complete, the application must detail where the project is in the process, indicate the anticipated date of completion and provide a website link or other reference to copies of any NEPA documents prepared.

6. Environmentally Related Federal, State and Local Actions: An application must indicate whether the proposed project is likely to require actions by other agencies (e.g., permits), indicate the status of such actions and provide a website link or other reference to materials submitted to the other agencies, and/or demonstrate compliance with other Federal, State and local regulations as applicable.

7. Certification Requirements: In order for an application to be considered for a grant award, the Chief Executive Officer of the applicant is required to certify, in writing, to the following:

A. That, except as noted in this grant application, nothing has changed from the original application for formal designation as a Marine Highway Project.

B. The project sponsor will administer the project and any funds received will be spent efficiently and effectively.

C. Applicants will provide information, data and reports as required by the grantor. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

As stated in the Notice of Funding Availability, The 2010 National Defense Authorization Act directs the Secretary of Transportation to establish and implement a short sea transportation grant program to implement projects or components of projects designated as a Marine Highway Project. The Final Rule for Americas Marine Highway Program (46 CFR Part 393) provides the criteria to submit an application to become a designated Marine Highway Project. From the Notice of Funding Availability, Requirements of the National Environmental Policy Act (NEPA) may apply. Applicants should consult 40 CFR Section 1500 if there are any questions regarding NEPA requirements. An application must detail whether the project will significantly impact the natural, social and/or economic environment. If the NEPA process is completed, an applicant must indicate the date of, and provide a Web site link or other reference to, the final Categorical Exclusion, Finding of No Significant Impact or Record of Decision. If the NEPA process is underway but not complete, the application must detail where the project is in the process, indicate the anticipated date of completion and provide a website link or other reference to copies of any NEPA documents prepared. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. See guidance provided herein throughout.

Award Procedure:

All applicable Federal laws, rules and regulations will apply to projects that receive Marine Highway Grants. How soon after award a project is expected to expend Grant Funds and start construction, acquisition or procurement will be considered on a case-by case basis and will be specified in the project-specific

grant agreement. The Department reserves the right to revoke any award of Marine Highway Grant funds and to award such funds to another project to the extent that such funds are not timely expended and in accordance with the project schedule. The Department's ability to obligate funds for Marine Highway Grants expires on September 30, 2010.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 15 to 30 days. Contingent on publication date. The end date is 3 weeks following publication.

Appeals:

Not Applicable.

Renewals:

The Department's ability to obligate funds for Marine Highway Grants under the National Defense Authorization Act of FY 2010 expires on September 30, 2010.

Formula and Matching Requirements:

Statutory Formula: Public Law 111-84.

Matching Requirements: Percent: 50%. ?* Applicants are required to provide at least 50 percent of the project costs from non-Federal sources.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Applicants shall demonstrate to the satisfaction of the Secretary that the funds received will be spent efficiently and effectively. How soon after award a project is expected to expend Grant Funds and start construction, acquisition, or procurement will be considered on a case-by case basis and will be specified in the project-specific grant agreement. See the following for information on how assistance is awarded/released: Grants are expended upon invoicing .

Reports:

According to the Notice of Funding Availability, Applicants will provide information, data, and reports as required by the grantor. The grantee shall submit an electronic copy of the SF- 270 form, no more frequently than monthly for Advance or Reimbursement, and the SF-425 Federal Financial Report which replaces the SF-269 and the SF-272. Quarterly Project Reports are due to the Government beginning on the first day of the first full quarter following execution of the grant agreement. (SF-425). Monthly per SF-425.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. In the section of the grant agreement cited Other Reports in accordance with the purposes of the Recovery Act, the grantee may be required to submit additional information in responses to requests from DOT, OMB, the Congressional Budget Office, the Government Accountability Office of the DOT inspector General. The Government will inform grantees if and when such additional reports are required.

Records:

Records must be maintained as outlined in the Federal Acquisition Regulations and OMB A -136 (Financial Reporting Requirements).

Account Identification:

69-1750-0-1-403 - Operations and Training Account.

Obligations:

(Project Grants) FY 10 \$7,000,000; FY 11 est \$0; and FY 12 Estimate Not Available

Range and Average of Financial Assistance:

Grants can be up to \$7 million.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Grant funds were awarded for three projects and three cooperative agreements were awarded for Corridor studies as described below in Section 170. Fiscal Year 2011: The three studies are underway and will be completed by FY 2011. The grants are underway, with equipment being purchased in the third quarter of FY2011 we began tracking new containerized freight moving on M-64. We expect a second new marine highway service to be operational by the fourth quarter of FY 2011. Fiscal Year 2012: By FY 2012 all three Corridor studies will be completed, with reports published and all three grant projects will be completed. One new Marine Highway service will be operational and two others will have expanded as a direct result of this program. Each grant has performance measure reporting requirements built into them, allowing us to measure the results of each grant for three years after the projects have been completed. We will measure ton-miles removed from each of three congested highway corridors.

REGULATIONS, GUIDELINES, AND LITERATURE:

Existing literature includes MARAD 2010-0035 (April 9, 2010). In addition, the Maritime Administration solicited a call for projects on April 15, 2010 (Federal Register, Vol. 75, No. 68; p. 18095).

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Three projects and three studies were funded and are underway:

1. Tenn-Tom Waterway Pilot is establishing a new barge service along the Tenn-Tombigbee waterway between Mobile, AL and Itawamba, MS. This will serve freight needs of manufacturing firms in the NE region of MS and will link intermodally with container services at the Port of Mobile, providing relief along the I-65 freight corridor. The grant will convert nine barges to handle containerized freight and will purchase container handling equipment at the Port of Itawamba.
2. James River Container Expansion project is expanding the marine highway service that parallels congested highway I-64 between the ports of Norfolk and Richmond in Virginia. The grant will buy two barges which will allow for increased service frequency and capacity growth.
3. Cross Gulf Container Expansion project will expand marine highway services in the Gulf of Mexico, between Texas and Florida. The grant will enhance productivity in the ports through the purchase of handling equipment and may provide infrastructure improvements needed to facilitate the service.
4. The West Coast M5 Corridor Study, East Coast M95 Study and Inland Rivers M55 Study are each examining the potential for Marine Highway services that can provide relief to these congested freight corridors. Additionally, during the course of each study, data will be collected that is necessary to conduct the Americas Marine Highway programmatic NEPA initiative. Fiscal Year 2011: The projects and studies funded during FY 2010 are underway in FY 2011 and will be completed in FY 2012. No projects were funded in FY 2011. Fiscal Year 2012: Funding is not anticipated for FY2012.

CRITERIA FOR SELECTING PROPOSALS:

Three criteria will be considered in the evaluation process, which were established in the final rule. This information will have been provided by applicants during the project designation process. No additional applicant input is required to address these criteria. These criteria establish the degree to which projects are expected to:

1. Reduce external cost and provide public benefit,
2. Offer a lower-cost alternative to increasing land-based capacity in the

Corridor, and

3. Demonstrate the likelihood of becoming self-supporting in a specified and reasonable timeframe.

Applicants may, however opt to provide additional information specific to the above criteria if they desire. In evaluating this option, applicants should consider paragraph (g)(2)(B) of section 3515 of the National Defense Authorization Act of 2010, which requires that, in order to receive a grant under the program, the following factors will be taken into consideration:

1. Applicants shall demonstrate to the satisfaction of the Secretary that the funds received will be spent efficiently and effectively,
2. Applicants shall demonstrate to the satisfaction of the Secretary that a market exists for the services of the proposed project as evidenced by contracts or written statements of intent from potential customers,
3. An applicant shall provide at least 50 percent costs from non-Federal sources, and,
4. In awarding grants under the program, the Secretary shall give preference to those projects or components that present the most financially viable transportation services and require the lowest percentage Federal share of the costs.

While the criteria above were generally addressed in the original Marine Highway Project application requirements (Section 393.4(e)1(G); Proposed Project Timeline; and (F)(ii) and (i); Business Planning, respectively), these more specific requirements may warrant submission of additional information in response to this Notice of Funding Availability. It is important that this information is available to the Department during the grant evaluation process.

20.930 PAYMENTS FOR SMALL COMMUNITY AIR SERVICE DEVELOPMENT

Small Community Program or SCASDP Payments for Small Community Air Service Development

FEDERAL AGENCY:

Office of the Secretary (OST) Administration Secretariate, Department of Transportation

AUTHORIZATION:

Public Law 106-181; Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (AIR-21), Public Law 106-181, 49 U.S.C 41743.

OBJECTIVES:

To help smaller communities enhance their air service and increase access to the national transportation system.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants for specified use, provided on a reimbursable basis. Grant funds can be used to cover a variety of expenses depending on the approved project. For example, funds can be expended for marketing, advertising or promotional activities, new studies designed to measure air service deficiencies, or to measure traffic loss or diversion to other communities; employment or use of consulting firms, universities, public relations firms, and new, dedicated air service development staff on a long term basis. In addition, grant funds may also be used for financial incentives, including subsidy or revenue guarantees to cover the air carrier's prospective operating loss, or to ground service providers in providing access to air transportation services.

Applicant Eligibility:

1. As of calendar year 1997, the airport serving the community was not larger than a small hub airport, and it has insufficient air carrier service or unreasonably high air fares,
2. The airport serving the community presents characteristics, such as geographic diversity or unique circumstances that demonstrate the need for, and feasibility of, grant assistance from the Small Community Program;
3. An applicant may not receive an additional grant to support the same project from a previous grant;
4. An applicant may not receive an additional grant, prior to the completion of its previous grant;
5. No more than 4 communities or consortia of communities, or a combination thereof, from the same State may be selected to participate in the program in any fiscal year; and
6. No more than 40 communities or consortia of communities, or a combination thereof, may be selected to participate in the program in each year for which the funds are appropriated.

In addition to the statute, the Department applies the following eligibility conditions:

Communities without existing air service. Communities that do not currently have commercial air service are also eligible, but air service providers must have met or be able to meet in a reasonable period all Departmental requirements for air service certification, including safety and economic authorities.

Essential Air Service communities. Small communities that meet the basic criteria and currently receive subsidized air service under the Essential Air Service (EAS) program are eligible to apply for funds under the Small Community Program. However, grant awards to EAS-subsidized communities are limited to marketing or promotion projects that support existing or newly subsidized EAS. Grant funds will not be authorized for EAS-subsidized communities to support any new competing air service. Furthermore, no funds will be authorized to support additional flights by EAS carriers or changes to those carriers existing schedules. These restrictions are necessary to avoid conflicts with the EAS program.

Consortium applications. The statute permits individual communities and consortia of communities to apply for grant awards under this program. In

some instances in the past, several communities in a State have filed a single application as a consortium, but in effect the application was a collection of individual community requests involving different projects. This is not a consortium. An application from a consortium of communities must be one that seeks to facilitate the efforts of the communities working together toward a joint grant project. In other words, the application must set forth one grant project, with one joint objective, and establish one entity to ensure that the joint objective is accomplished according to the terms of a grant agreement. For example, several communities surrounding an airport may apply together to improve air services at that airport, with a joint objective of securing new or additional service to that airport. Or, surrounding airports may apply together in support of a regional plan to lower fares or reverse a decline in traffic.

Prior grant recipients. Communities or members of a consortia that were awarded grants in previous years and want to apply for a grant this year should be aware that they are precluded from seeking new funds for projects for which they have already received an award under the Small Community Program.

To provide to small communities access to the National transportation system.

Beneficiary Eligibility:

Not Applicable.

Credentials/Documentation:

Communities must apply for the grant program by submitting a project proposal with required data to justify its proposal in accordance with the Department-issued Request for Proposals. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. A request for proposals (RFP) soliciting applications from eligible communities is issued each year. The RFP can be accessed on the internet through <http://www.grants.gov>. Additionally, the solicitation is published in the Federal Register and served on the Council of Mayors, the National League of Cities, the National Governors Association, the National Association of State Aviation Officials, the Association of County Executives, the American Association of Airport Executives (AAAE), and the Airports Council International-North America (ACI).

Award Procedure:

Applications will be evaluated according to factors established in the RFP and under the guidance of the Vision 100-Century in Aviation Reauthorization Act, Public Law 108-176.

Deadlines:

Jul 01, 2011 to Aug 02, 2011: Deadlines vary from year to year depending on the timing of the release of the Request for Proposal. The deadline for filing of proposals is established and specified for each fiscal year in the RFP and can vary from year to year.

Range of Approval/Disapproval Time:

Can vary from year to year. However, the target is to awards grants within 120 days from the established application deadline.

Appeals:

Not Applicable.

Renewals:

Application procedures are repeated each year. However, grant recipients are precluded by statute from seeking additional grants in support of the same project. A community can only have one Small Community Program grant at any time. 49 U.S.C. Section 41743(c)(4).

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The period of time for awards will vary with the complexity of the project. Minimum grant duration is one year. The statute limits use of grant funds for air carrier subsidy to a maximum period of three years. The same limitation applies to other forms of ongoing support for air carrier programs. Financial assistance is provided on a reimbursable basis; cash advances will not be made. Funds obligated remain available until expended. Method of awarding/releasing assistance: quarterly.

Reports:

Quarterly progress reports, and a final report is required. Cash reports are not applicable. Grantees are required to submit quarterly progress and a final report. SF-425. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. SCASDP also is subject to the A-123 review process.

Records:

The grant recipient is expected to retain all documents relevant to the grant award for a period of 3 years from completion of all projects undertaken pursuant to the Grant Agreement and receipt of final reimbursement from the Treasury.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Examples include revenue guarantees, marketing, and studies. Fiscal Year 2011: Request for Proposals are due August 2, 2011 by 5PM EDT. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Priority factors considered. The law directs the Department to give priority consideration to those communities or consortia where:

- air fares are higher than the national average air fares for all communities;
- the community or consortium will provide a portion of the cost of the activity from local sources other than airport revenue sources;
- the community or consortium has established or will establish a public-private partnership to facilitate air carrier service to the public;

- the assistance will provide material benefits to a broad segment of the traveling public, including business, educational institutions, and other enterprises, whose access to the national air transportation system is limited; and
- the assistance will be used in a timely manner.

Additional factors considered. Applications will be evaluated against the priority considerations listed above. Our experience has been that more applications are received than can be funded under the Small Community Program. Consequently, consistent with the criteria stated above, the selection process will take into consideration such additional factors as:

- the geographic location of each applicant, including the communities proximity to larger centers of air service and low-fare service alternatives;
- the proposed federal grant amount requested compared with the local share offered;
- whether the applicant community has previously received a grant award under this program and, if so, whether its application includes an explanation of how the communitys proposed project differs from its previously funded project;
- the communitys demonstrated commitment to and participation in the proposed grant project;
- the extent to which the applicants proposed solution(s) to solving the problem(s) is new or innovative;
- the population and business activity as well as the relative size of each applicant community;
- the communitys existing level of air service and whether that service has been increasing or decreasing;
- whether the communitys proposal, if successfully implemented, could serve as a working model for other communities;
- the grant amount requested compared with total funds available for all communities;
- whether the community has a viable plan to use the funds in a timely manner;
- the uniqueness of an applicants claimed problems and whether the proposed project clearly addresses the applicants claimed problems; and
- whether the communitys proximity to an existing or prior grant recipient could adversely affect either its proposal or the project undertaken by the other recipient.

Full community participation is a key goal of this program as demonstrated by the statutes focus on local contributions and active participation in the project. Therefore, applications that demonstrate broad community support will be more attractive. For example, communities providing proportionately higher levels of cash contributions from other than airport revenues will have more attractive proposals. Communities that provide multiple levels of contributions (state, local, airport, cash and in-kind contributions) also will have more attractive proposals. Similarly, communities that demonstrate participation in the development and execution of the proposed air service project will enhance the attractiveness of their proposals.

Established by statute and annual Department order soliciting grant proposals.

20.931 TRANSPORTATION PLANNING, RESEARCH AND EDUCATION

Innovative and Advanced Transportation Research

FEDERAL AGENCY:

Research and Innovative Technology Administration, Department of Transportation

AUTHORIZATION:

Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) of 2005.

OBJECTIVES:

To provide funds to conduct research and development on innovative transportation systems and related applied technologies.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The grants may be used for innovative technology based projects directed towards application to national transportation infrastructure development and construction in planning, design and operations.

Applicant Eligibility:

These grants are mandated by Congress in DOT's Annual Appropriation Legislation. Therefore, only those organizations specifically identified in the appropriation legislation can apply.

Beneficiary Eligibility:

Public Non-Profit Institutions/Organizations; Sponsored Organizations; State; Local; Other Public Institutions; Federal Recognized Indian Tribal Government; US Territory or Possession; Private Non-Profit Institutions/Organizations; Quasi-Public Non-Profit Institutions/Organizations; Native American Organizations.

Credentials/Documentation:

Proposals with statement of work and estimated budget. Costs will be determined in accordance with relevant OMB circulars (i.e. Circular Nos. A-87 for State and Local Governments, A-21 for Educational Institutions and A-122 for Non-Profit and For-Profit Organizations). OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The application shall be submitted to the grantee via grants.gov. Grantees will be required to complete the suite of SF 424 forms and the appropriate representations and certifications.

Award Procedure:

The award procedure typically requires two-step process White Papers and Full Technical and Cost Proposals.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The deadlines, if any, shall be established in each grant application package.

Appeals:

Not Applicable.

Renewals:

Renewals and/or extension may be available. Requests must be submitted to the Acquisition Services office for approval.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.
Matching Requirements: Percent: 50%. Fifty (50) percent non-Federal matching requirements per SAFETEA-LU legislation language.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The typical length of the cooperative agreements is 2.5 years and expenditures are reimbursed on a quarterly basis. See the following for information on how assistance is awarded/released: Funds are reimbursed.

Reports:

20.932 SURFACE TRANSPORTATION _ DISCRETIONARY GRANTS FOR CAPITAL INVESTMENT.

TIGER Grants (Transportation Investment Generating Economic Recovery).

FEDERAL AGENCY:

Office of the Secretary (OST) Administration Secretariate, Department of Transportation

AUTHORIZATION:

The American Recovery and Reinvestment Act of 2009 (Recovery Act), Title XII Transportation and Housing and Urban Development, and Related Agencies, Department of Transportation, Office of the Secretary, Supplemental Discretionary Grants for a National Surface Transportation System., Public Law 111-5, 123 Stat. 115.

OBJECTIVES:

The purposes of the Recovery Act include, among other things: (i) to preserve and create jobs and promote economic recovery and (ii) to invest in transportation infrastructure that will provide long-term economic benefits. The Act requires that grants be provided for surface transportation projects that will have a significant impact on the Nation, a metropolitan area, or a region.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Under this program, \$1,500,000,000 is available through September 30, 2011, for the Department to make grants on a competitive basis for projects that will have a significant impact on the Nation, a metropolitan area, or a region. Projects eligible for funding provided under this program include, but are not limited to, highway or bridge projects eligible under title 23, United States Code, including interstate rehabilitation, improvements to the rural collector road system, the reconstruction of overpasses and interchanges, bridge replacements, seismic retrofit projects for bridges, and road realignments; public transportation projects eligible under chapter 53 of title 49, United States Code, including investments in projects participating in the New Starts or Small Starts programs that will expedite the completion of those projects and their entry into revenue service; passenger and freight rail transportation projects; and port infrastructure investments, including projects that connect ports to other modes of transportation and improve the efficiency of freight movement. The Department may also use an amount not to exceed \$200,000,000 for the purpose of paying the subsidy and administrative costs of projects eligible for federal credit assistance under chapter 6 of title 23, United States Code, if the Department finds that such use of the funds would advance the purposes of this program. In distributing funds available under this program, the Department must take measures to ensure an equitable geographic distribution of funds and an appropriate balance in addressing the needs of urban and rural communities. Grants provided under this program shall generally be not less than \$20,000,000 and not greater than \$300,000,000, however, the Department may waive the \$20,000,000 minimum grant size for the purpose of funding significant projects in smaller cities, regions, or States. Not more than 20 percent of the funds made available under this program will be awarded to projects in a single State. The Federal share of the costs for which an expenditure is made under this program may be up to 100 percent, however, the Department will give priority to projects that require a contribution of Federal funds in order to complete an overall financing package, and to projects that are

expected to be completed by February 17, 2012. Projects conducted using funds provided under this program must comply with the requirements of subchapter IV of chapter 31 of title 40, United States Code. Not more than 20 percent of the funds made available under this program will be awarded to projects in a single State. Not more than 20 percent of the funds made available under this program will be awarded to projects in a single State. The Federal share of the costs for which an expenditure is made under this program may be up to 100 percent, however, the Department will give priority to projects that require a contribution of Federal funds in order to complete an overall financing package, and to projects that are expected to be completed by February 17, 2012.

Applicant Eligibility:

The Federal share of the costs for which an expenditure is made under this program may be up to 100 percent, however, the Department will give priority to projects that require a contribution of Federal funds in order to complete an overall financing package, and to projects that are expected to be completed by February 17, 2012.

Beneficiary Eligibility:

The ultimate benefits of this program may be received by, among others, State or local governments, transit agencies, builders/contractors/developers, major metropolises, and other urban, suburban, or rural areas.

Credentials/Documentation:

Recipients and their first-tier sub-awardees will be required to have a DUNS number (www.dnb.com) and a current registration in the Central Contractor Registration (www.ccr.gov). Recipients of Recovery Act funds must have systems and internal controls that allow them to separately track and report Recovery Act funds even if the funds are being used to fund an existing project/activity. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Complete applications for TIGER Discretionary Grants must be submitted by September 15, 2009 (the Application Deadline). While applicants are encouraged to submit applications in advance of the Application Deadline, applications will not be evaluated, and awards will not be made, until after the Application Deadline. Due to the need to expedite the grant award process to meet the requirements and purposes of the Recovery Act (as defined below), the Department will evaluate all applications and announce the projects that have been selected to receive Grant Funds (as defined below) as soon as possible after the Application Deadline, but no later than February 17, 2010. In addition, in the event that this solicitation does not result in the award and obligation of all available funds, the Department may decide to publish an additional solicitation.

Award Procedure:

TIGER Discretionary Grants will be awarded to projects with a demonstrated or potential ability to: (i) Deliver programmatic results; (ii) achieve economic stimulus by optimizing economic activity and the number of jobs created or saved in relation to the Federal dollars obligated; (iii) achieve long-term public benefits by, for example, investing in technological advances in science and health to increase economic efficiency and improve quality of life; investing in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; fostering energy independence; or improving educational quality; and (iv) satisfy the Recovery Acts transparency and accountability objectives..

Deadlines:

Sep 15, 2009 to Sep 30, 2011

Range of Approval/Disapproval Time:

From 30 to 60 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. This program has no statutory formula. Not more than 20 percent of the funds made available under this program will be awarded to projects in a single State. The Federal share of the costs for which an expenditure is made under this program may be up to 100 percent, however, the Department will give priority to projects that require a contribution of Federal funds in order to complete an overall financing package.

While this program does not require a State match, the Maintenance of Effort provisions of section 1201 of the Act apply to projects that receive funding under this program to the extent that a State planned to expend State funds on such a project as of February 17, 2009. Specifically, section 1201(a) requires that for amounts distributed to a State or State agency from an appropriation in the Act for a covered program (including this program), the Governor of the State shall certify to the Secretary of Transportation that the State will maintain its effort with regard to State funding for the types of projects funded by the appropriation. As part of this certification, the Governor was required to submit a statement identifying the amount of funds the State planned to expend from State sources as of February 17, 2009, during the period beginning on February 17, 2009, through September 30, 2010, for the types of projects funded by the appropriation.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Funds available under this program are available through September 30, 2011. The Department will give priority to projects that are expected to be completed by February 17, 2012. Method of awarding/releasing assistance: by letter of credit.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Projects were funded in large cities as well as rural and tribal communities across the country and were selected based on merit. Selected projects represent some of the most innovative projects as well as multi-modal, multi-jurisdictional projects that are often overlooked by the existing funding system. The winning TIGER projects highlighted the diversity of transportation needs throughout the United States from grand Moynihan Station in New York City, which will carry millions of train and subway riders each year to the most beautiful drive in America Wyoming's Beartooth Highway the gateway to Yellowstone National Park. They ranged from major billion dollar freight rail corridors in the Midwest and South, to bridge repairs in Oklahoma and South Carolina to port projects in Maine and Hawaii.

A complete list of projects funded under this program can be found on the Department of Transportation's American Recovery and Reinvestment Act (ARRA) website (www.dot.gov/recovery/ost/). Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

TIGER Discretionary Grants will be awarded based on the selection criteria as outlined below. There are two categories of selection criteria, Primary Selection Criteria and Secondary election Criteria. The Primary Selection Criteria include (1) Long-Term Outcomes and (2) Jobs Creation & Economic Stimulus. The Secondary Selection Criteria include (1) Innovation and (2) Partnership. The Primary election Criteria are intended to capture the primary objectives of the TIGER Discretionary Grants provision of the Recovery Act, which include near-term economic recovery and job creation, maximization of long-term economic benefits and impacts on the Nation, a region, or a metropolitan area, and assistance for those most affected by the current economic downturn. The Secondary Selection Criteria are intended to capture the benefits of new and/or innovative approaches to achieving programmatic objectives.

TIGER Discretionary Grants

FEDERAL AGENCY:

Office of the Secretary (OST) Administration Secretariate, Department of Transportation

AUTHORIZATION:

Full-Year Continuing Appropriations, 2011 (Div. B of the Department of Defense).

OBJECTIVES:

The grants for National Infrastructure Investments in the FY 2011 Continuing Appropriations Act are for capital investments in surface transportation infrastructure grants to be awarded to a State, local, or Tribal governments, including U.S. territories, tribal governments, transit agencies, port authorities, metropolitan planning organizations (MPOs), other political subdivisions of State or local governments, and multi-State or multijurisdictional groups applying through a single lead applicant on a competitive basis for surface transportation projects (including, but not limited to: (1) Highway or bridge projects eligible under title 23, United States Code; (2) public transportation projects eligible under chapter 53 of title 49, United States Code; (3) passenger

and freight rail transportation projects; and (4) port infrastructure investments) that will have a significant impact on the Nation, a metropolitan area, or a region.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Under the FY 2011 Continuing Appropriations Act TIGER Discretionary Grants, \$526,944,000 is available through September 30, 2013, for the Department to make grants on a competitive basis for projects that will have a significant impact on the Nation, a metropolitan area, or a region. Projects eligible for funding provided under this program include, but are not limited to, highway or bridge projects eligible under title 23, United States Code, including interstate rehabilitation, improvements to the rural collector road system, the reconstruction of overpasses and interchanges, bridge replacements, seismic retrofit projects for bridges, and road realignments; public transportation projects eligible under chapter 53 of title 49, United States Code, including investments in projects participating in the New Starts or Small Starts programs that will expedite the completion of those projects and their entry into revenue service; passenger and freight rail transportation projects; and port infrastructure investments, including projects that connect ports to other modes of transportation and improve the efficiency of freight movement. The Department may also use an amount not to exceed \$150,000,000 for the purpose of paying the subsidy and administrative costs of projects eligible for federal credit assistance under chapter 6 of title 23, United States Code, if the Department finds that such use of the funds would advance the purposes of this program. In distributing funds available under this program, the Department must take measures to ensure an equitable geographic distribution of funds and an appropriate balance in addressing the needs of urban and rural communities. Grants provided under this program shall generally be not less than \$10,000,000 and not greater than \$200,000,000, however, projects located in rural areas, the minimum grant size shall be \$1,000,000. The Federal share of the costs for which an expenditure is made under this program may be up to 80 percent, however, the Department may increase the Federal share of costs above 80 percent for projects located in rural areas. The Department will give priority to projects that require a contribution of Federal funds in order to complete an overall financing package. The Department has developed selection criteria and requirements for this program. Information about selection criteria and requirements is available in the Departments Notice of Funding Availability that has been published the Federal Register (available at http://www.dot.gov/docs/FY11_TIGER_NOFA.pdf and <http://www.gpo.gov/fdsys/pkg/FR-2011-08-12/pdf/2011-20577.pdf>). Grants provided under this program shall generally be not less than \$10,000,000 and not greater than \$200,000,000, however, projects located in rural areas, the minimum grant size shall be \$1,000,000. The Federal share of the costs for which an expenditure is made under this program may be up to 80 percent, however, the Department may increase the Federal share of costs above 80 percent for projects located in rural areas. 100% of the funding is discretionary. These are TIFIA loans and Title 23 loans.

Applicant Eligibility:

State, local, and tribal governments, including U.S. territories, tribal governments, transit agencies, port authorities, metropolitan planning organizations (MPOs), other political subdivisions of State or local governments, and multi-State or multi-jurisdictional groups applying through a single lead applicant (for multi-jurisdictional groups, each member of the group, including the lead applicant, must be an otherwise eligible applicant as defined in this paragraph).

Beneficiary Eligibility:

The ultimate benefits of this program may be received by, among others, States or local governments, transit agencies, builders/contractors/developers, major metropolitanises, and other urban, suburban, or rural areas.

Credentials/Documentation:

Recipients and their first-tier sub-awardees will be required to have a DUNS number (www.dnb.com) and a current registration in the Central Contractor Registration (www.ccr.gov) submitted as part of the submitted application. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The application cycle for TIGER Discretionary Grants has two stages:

Pre-Application: In Stage 1, applicants must submit a pre-application form to the DOT. This step qualifies applicants to submit an application in Stage 2. No application submitted during Stage 2 that does not correlate with a properly completed Stage 1 pre-application will be considered. Pre-applications must be submitted by October 3, 2011, at 5:00 p.m. EDT through the www.dot.gov/TIGER website. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The application cycle for TIGER Discretionary Grants has two stages:

Pre-Application: In Stage 1, applicants must submit a pre-application form to the DOT. This step qualifies applicants to submit an application in Stage 2. No application submitted during Stage 2 that does not correlate with a properly completed Stage 1 pre-application will be considered.

Application: In Stage 2, applicants must submit a complete application package through Grants.gov. If an applicant is seeking a TIGER TIFIA payment, applicants must submit electronically a TIFIA letter of interest to the TIFIA office at TIFIAcredit@dot.gov. TIFIA letters of interest must comply with all of the programs standard requirements (the TIFIA program guide can be downloaded from <http://tifia.fhwa.dot.gov/>).

Pre-applications must be submitted to DOT by the Pre-Application Deadline, which is October 3, 2011, at 5:00 p.m. EST. Final applications must be submitted through Grants.gov by the Application Deadline, which is October 31, 2011, at 5:00 p.m. EST. The Grants.gov Apply function will open on October 5, 2011, allowing applicants to submit applications. While applicants are encouraged to submit pre-applications in advance of the Pre-Application Deadline, pre-applications will not be reviewed until after the Pre-Application Deadline. Similarly, while applicants are encouraged to submit applications in advance of the Application Deadline, applications will not be evaluated, and selections for awards will not be made, until after the Application Deadline.

Pre-applications (stage 1) must be submitted to the DOT. The pre-application form will be available on the DOT website at www.dot.gov/TIGER on or before September 9, 2011, together with instructions for submitting the pre-application form electronically to DOT.

Applications (Stage 2) must be submitted through Grants.gov. To apply for funding through Grants.gov, applicants must be properly registered. Complete instructions on how to register and submit applications can be found at www.grants.gov. Please be aware that the registration process usually takes 2-4 weeks and must be completed before an application can be submitted. If interested parties experience difficulties at any point during the registration or application process, please call the Grants.gov Customer Support Hotline at 1-800-518-4726, Monday-Friday from 7:00 a.m. to 9:00 p.m. EST. Additional information on applying through Grants.gov is available in Appendix B, attached hereto.

To help ensure that applicants submit only those applications that are most likely to align well with the departments selection criteria, each applicant may submit no more than three applications for consideration under the TIGER Discretionary Grant Program. While applications may include requests to fund more than one project, applicants should not bundle together unrelated projects in the same application for purposes of avoiding the three application limit that applies to each applicant. Please note that the three application limit applies only to applications where the applicant is the lead applicant, and there is no limit on applications for which an applicant can be listed as a partnering agency. Also, DOT will not count any application for a multistate project against the three application limit to the extent multiple states are partnering to submit the application.

Award Procedure:

DOT will award TIGER Discretionary Grants to projects that are well-aligned with one or more of the selection criteria and that satisfy the statutory distributional requirements while remaining as consistent as possible with the competitive ratings.

Deadlines:

Oct 05, 2011 to Oct 31, 2011 Pre-applications must be submitted by October 3, 2011, at 5:00 p.m. EDT (the Pre-Application Deadline). Final applications must be submitted through Grants.gov by October 31, 2011, at 5:00 p.m. EDT (the Application Deadline). The DOT pre-application system will open on or before September 9, 2011, to allow prospective applicants to submit pre-applications. Subsequently, the Grants.gov Apply function will open on October 5, 2011, allowing applicants to submit applications. While applicants are encouraged to submit pre-applications in advance of the Pre-Application Deadline, pre-applications will not be reviewed until after the pre-application deadline. Similarly, while applicants are encouraged to submit applications in advance of the Application Deadline, applications will not be evaluated, and awards will not be made, until after the Application Deadline. The funding for this program will remain available through September 30, 2013.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 20.%. This program has matching requirements. The Federal share of the costs for which an expenditure is made under this program may be up to 80 percent, however, the Department may increase the Federal share of costs above 80 percent for projects located in rural areas. The Department will give priority to projects for which Federal funding is required to complete an overall financing package and projects can increase their competitiveness by demonstrating significant non-Federal contributions. Additionally, not more than 25 percent of the funds made available under this program (or \$131.736 million) will be awarded to projects in a single State. This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Funds available under this program are available for obligation through September 30, 2013. See the following for information on how assistance is awarded/released: Reimbursement.

Reports:

Quarterly progress reports, annual budget reports, and performance measurement reports are due in accordance with the terms and conditions of the grant agreement. No cash reports are required. Quarterly reports are required. SF-425. Grantees will provide information on the performance outcomes of the capital investments they make with TIGER funds.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Grantees will be required to keep all project accounts and records that fully disclose the amount and disposition by the Grantee of the proceeds of the grant, the total cost of the project in connection with which the grant is given or used, and the amount or nature of that portion of the cost of the project supplied by other sources, and such other financial records pertinent to the project. The accounts and records shall be kept in accordance with an accounting system that will facilitate an effective audit in accordance with the Single Audit Act of 1984, as amended (31 U.S.C. 7501-7507).

Account Identification:

Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

TIGER Discretionary Grants will be awarded based on the selection criteria as outlined below. TIGER Discretionary Grants will be awarded based on the following selection criteria. There are two categories of selection criteria, Primary Selection Criteria and Secondary Selection Criteria. The Primary Selection Criteria include (1) Long-Term Outcomes and (2) Jobs Creation & Near-Term Economic Activity. The Secondary Selection Criteria include (1) Innovation and (2) Partnership. The Primary Selection Criteria are intended to capture the primary objective of the TIGER II provisions of the FY 2011 Continuing Appropriations Act, which is to provide capital investments in surface transportation projects that will have a significant impact on the Nation, a metropolitan area, or a region. The Secondary Selection Criteria are intended to capture the benefits of new and/or innovative approaches to achieving the programmatic objective. Information about selection criteria and requirements is available in the Departments Notice of Funding Availability that has been published the Federal Register (available at http://www.dot.gov/docs/FY11_TIGER_NOFA.pdf and <http://www.gpo.gov/fdsys/pkg/FR-2011-08-12/pdf/2011-20577.pdf>).

1. Primary Selection Criteria:

(a) Long-Term Outcomes

DOT will give priority to projects that have a significant impact on desirable long-term outcomes for the Nation, a metropolitan area, or a region.

Applications that do not demonstrate a likelihood of significant long-term benefits in this criterion will not proceed in the evaluation process. The following types of long-term outcomes will be given priority:

- (i) State of Good Repair: Improving the condition of existing transportation facilities and systems, with particular emphasis on projects that minimize life-cycle costs.
- (ii) Economic Competitiveness: Contributing to the economic competitiveness of the United States over the medium- to long-term.
- (iii) Livability: Fostering livable communities through place-based policies and investments that increase transportation choices and access to transportation services for people in communities across the United States.
- (iv) Environmental Sustainability: Improving energy efficiency, reducing dependence on oil, reducing greenhouse gas emissions and benefitting the environment.
- (v) Safety: Improving the safety of U.S. transportation facilities and systems.

(b) Job Creation & Near-Term Economic Activity

While the TIGER Discretionary Grant program is not a Recovery Act program, job creation and near-term economic activity remain a top priority of this Administration; therefore, DOT will give priority (as it did for the TIGER and TIGER II Discretionary Grant programs) to projects that are expected to quickly create and preserve jobs and promote rapid increases in economic activity, particularly jobs and activity that benefit economically distressed areas as defined by section 301 of the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. 3161) (Economically Distressed Areas) .

2. Secondary Selection Criteria

(a) Innovation

DOT will give priority to projects that use innovative strategies to pursue the long-term outcomes outlined above.

(b) Partnership

DOT will give priority to projects that demonstrate strong collaboration among a broad range of participants and/or integration of transportation with other public service efforts.

21.008 LOW INCOME TAXPAYER CLINICS

FEDERAL AGENCY:

Internal Revenue Service (IRS), Department of the Treasury

AUTHORIZATION:

Internal Revenue Code, as amended, 26 U.S.C 7526.

OBJECTIVES:

To provide matching grants to organizations providing: (1) Representation of low income taxpayers in controversies with the Internal Revenue Service (IRS), or (2) programs to inform individuals for whom English is a second language about their taxpayer rights and responsibilities.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Awards under this program are issued to provide financial assistance that enhances the awardees' ability to represent low income taxpayers in controversies with the Internal Revenue Service (IRS) or inform individuals for whom English is a second language of their taxpayer rights and responsibilities. Each awardee is required to enter into an assistance agreement that requires the awardee to comply with program goals and abide by other terms and conditions pertinent to assistance received under this program.

Applicant Eligibility:

Qualifying organizations that represent low income taxpayers involved in controversies with the IRS and organizations that provide education and outreach on the taxpayer rights and responsibilities of U.S. taxpayers to individuals who speak English as a second language. IRC Section 7526 requires clinics to provide services for free or for no more than a nominal fee. The term "clinic" includes, but is not limited to, a clinical program at an accredited law, business, or accounting school in which students represent low income taxpayers in controversies with the IRS, and an organization described in IRC Section 501(c) and exempt from tax under IRC Section 501(a) that either directly represents taxpayers or refers taxpayers to qualified representatives.

Beneficiary Eligibility:

Low-income taxpayers with incomes which do not exceed 250 percent of the Federal Poverty Guidelines published annually by the Department of Health and Human Services, or taxpayers for whom English is a second language.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Organizations that are Emerging Native CDFIs or Sponsoring Entities may only apply for TA awards.

Beneficiary Eligibility:

Targeted Populations as defined in 12 CFR 1805.

Credentials/Documentation:

An organization wishing to apply for FA only or a combination of FA and TA awards through the NACA Program must be either a certified Native CDFI or be able to be certified by the Fund at the time of application. Organizations that are Emerging Native CDFIs or Sponsoring Entities may only apply for TA awards. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Pursuant to 12 C.F.R. 1815. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. Each applicant must complete a NI Program application which includes a Comprehensive Business Plan.

Award Procedure:

The CDFI Fund reviews applications and makes awards based on an established awards review process, set forth in the Notice of Funds Availability (NOFA) and application materials.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The NOFA published in the Federal Register, announces the deadlines for submission of applications. Application deadlines are from 60 to 90 days subsequent to the NOFA publication date. Award approval/disapproval determinations may be made within 180 days after the application deadline.

Appeals:

None.

Renewals:

None.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

This program has no matching requirements. The American Reinvestment and Recovery Act of 2009 waived the requirement that the CDFI Fund make awards to applicants in a "like form" to the matching funds secured by the awardee; thus, FY 2009, 2010 and 2011 NI Program awards are not required to be matched by non-Federal sources. The Recovery Act also waived the 3-year, \$5million cap on awards for FY 2009, 2010 and 2011. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Awardees must use all funds within three years. Method of awarding/releasing assistance: lump sum.

Reports:

Program Reports provide the explanation of noncompliance with a statement addressing the failure to achieve program goals. No cash reports are required. Progress Reports cover the following areas: Institutional Performance Reporting; Transactional Performance Reporting; and the utilization of the award funds for Financial and/or Technical assistance. Expenditure Reports are included in the SF-425-Expenditure of Financial Assistance Report. Performance Monitoring is accomplished with the financial review of Audited Financial Statements and the OMB Circular A-133 Single Audit findings.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Award recipients must maintain records to substantiate total costs incurred and to assure that all performance measures are met. Records must be retained in accordance with the provisions of OMB Circular No. A-110 and the terms of the assistance agreement.

Account Identification:

FY 2011 Range Technical Assistance Awards - \$25,000 - \$150,000;

FY 2011 Average Technical Assistance Awards were \$130,000 and capped at \$150,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 2010, the NACA Program received 61 applications requesting a total of \$23.7 million. The CDFI Fund awarded 45 organizations a total of \$10.3 million for both FA and TA funding in FY 2010. In FY 2010 the Native Initiatives registered a 26 percent increase in the total assets of Native CDFIs. Fiscal Year 2011: In FY 2011, the total assets measure is being replaced by two new measures on the number and amount of loans originated by NACA Program awardees. These two new measures will be baselined in FY 2011. In addition, in FY 2011 the FTE job creation/maintenance measures and the two administrative cycle time measures will be consolidated into CDFI Fund-wide measures reflecting the outcomes of all programs. - (1) The Department of Health and Human Services (HHS) determines that the taxpayers project is a qualifying therapeutic discovery project;
- (2) HHS determines that the taxpayers project shows reasonable potential (a) to result in new therapies (i) to treat areas of unmet medical need, or (ii) to prevent, detect, or treat chronic or acute diseases and conditions, (b) to reduce long-term health care costs in the United States, or (c) to significantly advance the goal of curing cancer within the 30 year period beginning on May 21, 2010; and
- (3) The Internal Revenue Service determines that the taxpayers project is among those projects that have the greatest potential (a) to create and sustain (directly or indirectly) high quality, high-paying jobs in the United States, and (b) to advance United States competitiveness in the fields of life, biological, and medical sciences. The Internal Revenue Service will determine whether to certify all or a portion of a taxpayers qualified investment eligible for the therapeutic discovery project grant after the Department of Health and Human Services has completed its review of all application submitted by eligible taxpayers.

21.020 COMMUNITY DEVELOPMENT FINANCIAL INSTITUTIONS PROGRAM

(CDFI)

FEDERAL AGENCY:

Community Development Financial Institutions Fund, Department of the Treasury

AUTHORIZATION:

Riegle Community Development and Regulatory Improvement Act of 1994, 12 U.S.C 4701 et.seq.

OBJECTIVES:

To promote economic revitalization and community development through

investment in and assistance to Community Development Financial Institutions (CDFIs).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Financial Assistance (FA) awards enhance the awardee's ability to make loans and investments and to provide financial services that promote economic revitalization and community development. Each awardee enters into an assistance agreement that requires it to achieve performance goals and abide by other terms and conditions. Technical Assistance (TA) awards build the awardee's internal capacity. No awards may be issued to Federal Government agencies, departments or instrumentalities, State governments local governments or any agency or instrumentality thereof. Under Section 1512 of OMB Recovery Act guidance, each awardee is required to report specific data elements (including job creation information) 10 days after the end of each calendar quarter.

Applicant Eligibility:

Private nonprofit institutions/organizations, other private institutions/organizations, profit organizations. Only certified CDFIs are eligible to apply for Financial Assistance awards; entities seeking to become certified CDFIs may apply for Technical Assistance awards.

Beneficiary Eligibility:

Investment Areas and Targeted Populations, as defined in 12 CFR 1805.

Credentials/Documentation:

FA applicants must be certified CDFIs. TA applicants must provide proposed plans to become certified CDFIs. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Pursuant to 12 CFR 1815. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. Each applicant must complete a CDFI Program Application which includes a Comprehensive Business Plan.

Award Procedure:

The CDFI Fund reviews applications and makes awards based on an established awards review process, set forth in the Notice of Funds Availability (NOFA) and application materials.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The NOFA, published in the Federal Register, announces the deadlines for submission of applications. Application deadlines are from 60 to 90 days subsequent to the NOFA publication date. Award approval/disapproval determinations may be made within 180 days after the application deadline.

Appeals:

None.

Renewals:

None.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: The American Reinvestment and Recovery Act of 2009 waived the requirement that the CDFI Fund make awards to applicants in a "like form" to the matching funds secured by the awardee; thus, FY 2009, 2010 and 2011 CDFI Program awards are not required to be matched by non-Federal sources. The Recovery Act also waived the 3-year, \$5 million cap on awards for FY 2009, 2010 and 2011. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Awardees must use all funds within three years. Method of awarding/releasing

assistance: lump sum.

Reports:

Program Reports provide the explanation of noncompliance with a statement addressing the failure to achieve program goals. No cash reports are required. Progress Reports cover the following areas: Institutional Performance Reporting; Transactional Performance Reporting; and the utilization of the award funds for Financial and/or Technical assistance. Expenditure Reports are included in the SF-425 - Expenditure of Financial Assistance. Performance Monitoring is accomplished with the financial review of Audited Financial Statements and the OMB Circular A-133 Single Audit findings.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

FY 2011 Range of Technical Assistance Awards \$13,000 - \$100,000;

FY 2011 Average Technical Assistance Awards were \$85,106 and capped at \$100,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 2010, CDFIs reported leveraging private investment in the prior year of over \$1.9 billion (based on reporting from program year 2009 results), more than triple the target of \$600 million; this success was largely due to increased CDFI Program funding which was met by private sector commitments despite the effects of the financial crisis. Fiscal Year 2011: In FY 2011, the leveraged private investment measure is being replaced by two new measures on the number and amount of loans originated by CDFI awardees. These two new measures will be baselined in FY 2011. In addition, in FY 2011 the FTE job creation/maintenance measures and the two administrative cycle time measures will be consolidated into CDFI Fund-wide measures reflecting the outcomes of all programs. APPALACHIAN REGIONAL COMMISSION

23.001 APPALACHIAN REGIONAL DEVELOPMENT (SEE INDIVIDUAL APPALACHIAN PROGRAMS)

(Appalachian Program)

FEDERAL AGENCY:

Appalachian Regional Commission

AUTHORIZATION:

Appalachian Regional Development Act of 1965, Public Law 89-4, as amended, 40 U.S.C. 14101-14704.

OBJECTIVES:

To help the regional economy become more competitive by putting in place the building blocks for self-sustaining economic development, while continuing to provide special assistance to the Region's most distressed counties and areas. This program focuses on activities which support ARC's mission to be a strategic partner and advocate for sustainable community and economic development. Activities funded must advance ARC's strategic plan. Specific program goals are: (1) Increase job opportunities and per capita income in Appalachia to reach parity with the nation; (2) Strengthen the capacity of the people of Appalachia to compete in the global economy; (3) Develop and improve Appalachia's infrastructure to make the Region economically competitive; and (4) Build the Appalachian Development Highway System to reduce Appalachia's isolation. Specific objectives were developed for each goal. Grants are made either directly by the Commission or grants may supplement other Federal grants.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Appalachian funds enable the States and local areas to develop networks of facilities and services. Individual programs following this description illustrate the types of investments that can be made. In considering programs and projects to be given assistance under this Act, and in establishing a priority ranking of the requests for assistance presented to the Commission (ARC), the ARC follows procedures insuring consideration of the following factors: (1) The relationship of the project or class of projects to overall regional development and the reduction of economic distress; (2) the population and area to be served including the relative per capita income and the unemployment rates in the area; (3) the relative financial resources available to the State or political subdivision or instrumentalities thereof which seek to undertake the project; (4) the importance of the project or class of projects in relation to other activities which may compete for the same funds; (5) the prospects that the project for which assistance is sought will improve the opportunities for sustained employment, income growth, or socioeconomic development of the area; and (6) the degree and manner of private sector involvement. No financial assistance can be used

to assist establishments relocating from one area to another. Each State is required to file a State Appalachian development plan, appraising prospects for development in its Appalachian area and relating to them a strategic program for which Appalachian funding is requested in that year. Once an application is submitted for the individual projects and given final approval, the grant is administered either by the basic Federal agency involved in that type of program or directly by the ARC. The counties (including any political subdivision located within such area) in which investment under the Appalachian Act (40 U.S.C. 14102) can be made are: in Alabama, the counties of Bibb, Blount, Calhoun, Chambers, Cherokee, Chilton, Clay, Cleburne, Colbert, Coosa, Cullman, DeKalb, Elmore, Etowah, Fayette, Franklin, Hale, Jackson, Jefferson, Lamar, Lauderdale, Lawrence, Limestone, Macon, Madison, Marion, Marshall, Morgan, Pickens, Randolph, Saint Clair, Shelby, Talladega, Tallapoosa, Tuscaloosa, Walker, and Winston; in Georgia, the counties of Banks, Barrow, Bartow, Carroll, Catoosa, Chattooga, Cherokee, Dade, Dawson, Douglas, Elbert, Fannin, Floyd, Forsyth, Franklin, Gilmer, Gordon, Gwinnet, Habersham, Hall, Haralson, Hart, Heard, Jackson, Lumpkin, Madison, Murray, Paulding, Pickens, Polk, Rabun, Stephens, Towns, Union, Walker, White, and Whitfield; in Kentucky, the counties of Adair, Bath, Bell, Boyd, Breathitt, Carter, Casey, Clark, Clay, Clinton, Cumberland, Edmonson, Elliott, Estill, Fleming, Floyd, Garrard, Green, Greenup, Harlan, Hart, Jackson, Johnson, Knott, Knox, Laurel, Lawrence, Lee, Leslie, Letcher, Lewis, Lincoln, McCreary, Madison, Magoffin, Martin, Menifee, Metcalfe, Monroe, Montgomery, Morgan, Nicholas, Owsley, Perry, Pike, Powell, Pulaski, Robertson, Rockcastle, Rowan, Russell, Wayne, Whitley, and Wolfe; in Maryland, the counties of Allegany, Garrett, and Washington; in Mississippi, the counties of Alcorn, Benton, Calhoun, Chickasaw, Choctaw, Clay, Itawamba, Kemper, Lee, Lowndes, Marshall, Montgomery, Monroe, Noxubee, Oktibbeha, Panola, Pontotoc, Prentiss, Tippah, Tishomingo, Union, Webster, Winston, and Yalobusha; in New York, the counties of Allegany, Broome, Cattaraugus, Chautauq, Chemung, Chenango, Cortland, Delaware, Otsego, Schoharie, Schuyler, Steuben, Tioga, and Tompkins; in North Carolina, the counties of Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Cherokee, Clay, Davie, Forsyth, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Madison, Mitchell, Polk, Rutherford, Stokes, Surry, Swain, Transylvania, Watauga, Wilkes, Yadkin, and Yancey; in Ohio, the counties of Adams, Ashtabula, Athens, Belmont, Brown, Carroll, Clermont, Columbiana, Coshocton, Gallia, Guernsey, Harrison, Highland, Hocking, Holmes, Jackson, Jefferson, Lawrence, Mahoning, Meigs, Monroe, Morgan, Muskingum, Noble, Perry, Pike, Ross, Scioto, Trumbull, Tuscarawas, Vinton, and Washington; in Pennsylvania, the counties of Allegheny, Armstrong, Beaver, Bedford, Blair, Bradford, Butler, Cambria, Cameron, Carbon, Centre, Clarion, Clearfield, Clinton, Columbia, Crawford, Elk, Erie, Fayette, Forest, Fulton, Greene, Huntingdon, Indiana, Jefferson, Juniata, Lackawanna, Lawrence, Luzerne, Lycoming, McKean, Mercer, Mifflin, Monroe, Montour, Northumberland, Perry, Pike, Potter, Schuylkill, Snyder, Somerset, Sullivan, Susquehanna, Tioga, Union, Venango, Warren, Washington, Wayne, Westmoreland, and Wyoming; in South Carolina, the counties of Anderson, Cherokee, Greenville, Oconee, Pickens, and Spartanburg; in Tennessee, the counties of Anderson, Bledsoe, Blount, Bradley, Campbell, Cannon, Carter, Claiborne, Clay, Cocke, Coffee, Cumberland, De Kalb, Fentress, Franklin, Grainger, Greene, Grundy, Hamblen, Hamilton, Hancock, Hawkins, Jackson, Jefferson, Johnson, Knox, Lawrence, Lewis, Loudon, McMinn, Macon, Marion, Meigs, Monroe, Morgan, Overton, Pickett, Polk, Putman, Rhea, Roane, Scott, Sequatchie, Sevier, Smith, Sullivan, Unicoi, Union, Van Buren, Warren, Washington, and White; in Virginia, the counties of Alleghany, Bath, Bland, Botetourt, Buchanan, Carroll, Craig, Dickenson, Floyd, Giles, Grayson, Henry, Highland, Lee, Montgomery, Patrick, Pulaski, Rockbridge, Russell, Scott, Smyth, Tazewell, Washington, Wise, and Wythe; all the counties of West Virginia.

Applicant Eligibility:

States, and through the States, public bodies and private nonprofit organizations. All proposed projects must meet the requirements of the State Appalachian plan and the annual State strategy statement, both of which must be approved annually by the Commission.

Beneficiary Eligibility:

General public.

Credentials/Documentation:

(See individual Appalachian program descriptions.). OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The following describes the general nature and Administration of Appalachian Regional Development Program. The Appalachian Regional Development program is a joint Federal-State partnership for the development of the Appalachian region. Responsibility for the development of plans and programs authorized under the Act is vested in the ARC, composed of the 13 State Governors (who may appoint alternates) and a Federal Co-Chairman. General policies and procedures, and the allocation of Appalachian funds among the various programs and States are established by the ARC. Application for assistance may only be made through a State member of the ARC. The State Alternate's Offices are the coordinators for the Governors for Appalachian investments. Preapplication conferences can determine within a few weeks if the project conforms to the State Appalachian Development Plan. The appropriate local development district director should be the first contact. The State Alternate's Offices will provide guidance on specific problems and technical assistance in the preparation of applications. (See individual Appalachian program descriptions.)

Only infrastructure projects require an environmental review. Please see 40 U.S.C. 14507. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applications for individual projects must be submitted through and with the approval of the State Alternate to the Appalachian Regional Commission (listed in the appendix). (See individual Appalachian program description.)

Award Procedure:

Upon receipt of project applications approved by the State, the Federal Co-Chairman determines that the project satisfies all requirements for assistance under the Act and approves the application. If a basic Federal agency will administer the project, it is then notified and will disburse funds when appropriate. The ARC notifies Congressional offices and the office of the Governor of grant awards. (See individual Appalachian program descriptions.).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

(See individual Appalachian program descriptions.).

Appeals:

There are no appeal procedures as such, project review allows for full and free interchange with applicants.

Renewals:

Generally renewals are not applicable except for administrative expenses, including technical services, of local development districts (23.009).

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: For the Area Development program, grants are generally limited to 50% of project costs. For projects in counties designated as At Risk, this limit can be raised to 70% and in economically Distressed counties, it can be raised to 80%. For projects in counties designated as Competitive (those approaching national economic norms), funding is usually limited to 30% of project costs. Funding is usually not available for projects located in counties that have attained or exceeded national economic norms. For the Appalachian Development Highway System, funding for work is allowed at 80%, wherever the project is located. Administrative grants to Local Development Districts are generally funded at 50%. These grants may be increased to 75% upon request by a state in Districts where distressed counties are located. See the ARC Code for additional information. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

See individual Programs. See the following for information on how assistance is awarded/released: See individual Programs.

Reports:

No reports are required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Audits are required by the basic Federal agency and the Commission.

23.002 APPALACHIAN AREA DEVELOPMENT

(Supplemental and Direct Grants)

FEDERAL AGENCY:

Appalachian Regional Commission

AUTHORIZATION:

Appalachian Regional Development Act of 1965, Public Law 89-4, as amended, 40 U.S.C. 14101-14704.

OBJECTIVES:

To help the regional economy become more competitive by putting in place the building blocks for self-sustaining economic development, while continuing to provide special assistance to the Region's most distressed counties and areas. This program focuses on activities which support ARC's mission to be a strategic partner and advocate for sustainable community and economic development. Activities funded must advance ARC's strategic plan. Specific program goals are: (1) Increase job opportunities and per capita income in Appalachia to reach parity with the nation; (2) Strengthen the capacity of the

people of Appalachia to compete in the global economy; (3) Develop and improve Appalachia's infrastructure to make the Region economically competitive; and (4) Build the Appalachian Development Highway System to reduce Appalachia's isolation. Specific objectives were developed for each goal. Grants are made either directly by the Commission or grants may supplement other Federal grants.

TYPES OF ASSISTANCE:**PROJECT GRANTS****USES AND USE RESTRICTIONS:**

The grants may be used for providing supplemental funds under Federal grant-in-aid programs. To be eligible for special basic grants, projects must be of high priority in the State's Appalachian development plan and be either of critical importance to a phased investment and development program for a multicounty area, or of unusual economic benefit to such area. Refer to "General Provisions for Area Development Program" of the Appalachian Regional Commission Code and ARC Project Guidelines for additional use restrictions. Also, please see www.arc.gov. The Appalachian Regional Commission awards grants and contracts from funds appropriated to the Commission annually by Congress. At least half of ARC's Area Development grant funding is directed to projects that benefit counties and areas in the Appalachian Region designated by ARC as economically distressed. Most program grants originate at the state level. Potential applicants should contact their state ARC program manager to request a preapplication package.

Applicant Eligibility:

States, their subdivisions and instrumentalities and private nonprofit agencies.

Beneficiary Eligibility:

General public.

Credentials/Documentation:

Any finding, report, certification, or documentation required to be submitted to the head of the department, agency, or instrumentality of the Federal Government responsible for the administration of the basic Federal grant-in-aid program shall be accepted by the Federal Co-chairman with respect to a supplemental grant for any project under such program. Projects must conform to the ARC Code, the ARD Act, the State Appalachian Plan and annual State Strategy Statement. The Appalachian State Development Plan and the annual State Strategy Statement must be submitted by the Governors and approved by the Commission. Costs will be determined in accordance with OMB Circular applicable to the grantee. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The State Alternate's Office is the coordinator for Appalachian investments. Preapplication conferences with the Appalachian local district director or the State Alternate's Office can determine within a few weeks if the project can be related to the State Appalachian development plan. The State Alternate's Office will provide guidance on specific problems and technical assistance in preparation of applications. An environmental impact statement may be required for this program, depending on the basic Federal grant-in-aid program being assisted. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program.

Only infrastructure projects require an environmental review. Please see 40 U.S.C. 14507. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applications must be submitted and approved by the State member of the ARC. All proposed projects must conform to the State Strategy Statement submitted annually. Guidelines and forms for funding Appalachian development projects are available from the local development district director and the State Alternate's Office. A letter of transmittal signed by the State member and an executed ARC Form 1 may be required with the submission (contact individual State Offices as appropriate).

Award Procedure:

Upon determination that the State approved project is eligible within a Commission approved Appalachian State Development Plan and Strategy

Statement, the Federal Co-Chairman determines that the project satisfies all Federal requirements. If a basic Federal agency will administer the project it is then notified and will disburse the grant funds when appropriate. The ARC notifies Congressional Offices and the Office of the Governor of grant awards.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 30 to 60 days after the receipt of the application at the Commission.

Appeals:

None.

Renewals:

None.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Generally grants are limited to 50% of project costs. For projects in counties designated as At Risk, this limit can be raised to 70%, and in economically distressed counties, it can be raised to 80%. For projects in counties designated as competitive (those that are approaching national economic norms), funding is usually limited to 30% of project costs. Funding is usually not available for projects located in counties that have attained or exceeded national economic norms. If otherwise eligible for funding, projects involving construction assistance for housing under the Appalachian Regional Development Act (ARDA) (40 U.S.C. 14503) cannot exceed 10% of total project costs regardless of location. The ARC Code and "Appalachian Regional Commission Project Guidelines" furnish details. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is provided until completion; funds are transferred to the basic Federal agency and disbursed as appropriate. ARC reserves the right to withdraw grants for projects not under contract within 18 months of approval. See the following for information on how assistance is awarded/released: Generally, most funds are awarded on a quarterly basis. Grant monies are released in a timely fashion through coordination with the applicant.

Reports:

No program reports are required. No cash reports are required. Grantees of non-construction projects submit quarterly reports outlining progress throughout the award period. Grantees of non-construction projects submit quarterly expenditure reports along with their progress reports. Grantees of non-construction assess performance in their final closing report. Performance is measured against estimated projections in the initial application.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Records as required by the basic Federal agency. Under the total audit concept, audits will be made on an organization-wide basis (rather than grant-by-grant) under GAO guidelines, Standards for Audit of Governmental Organizations, Programs, Activities and Functions, and for programs covered by A-102, Attachment P.

Fiscal Year 2010: No Current Data Available Fiscal Year 2011: ARC held a Grant Competition for Community-Based Substance Abuse Initiatives in FY2011. The winners include 30 grassroots community groups that will receive training, technical assistance, and \$5,000 grants for expanded efforts to combat substance abuse in their local communities.

An ARC-funded study conducted by the National Opinion Research Center in 2008 showed that the Appalachian Region suffers from disproportionately high rates of substance use and abuse, including increasing abuse of prescription painkillers. To address this issue, ARC launched the Competition for Community-Based Substance Abuse Initiatives, targeted at local substance abuse coalitions. Sixty community coalitions from across the Region submitted applications. A panel of experts then chose 30 groups for participation in the program.

Representatives from each group will attend a training conference to share information on, and design local projects to address, community substance abuse issues. Each group will finalize a project work plan at the conference's conclusion and will then have nine months to complete project activities. Fiscal Year 2012: No Current Data Available

23.003 APPALACHIAN DEVELOPMENT HIGHWAY SYSTEM

(Appalachian Corridors)

FEDERAL AGENCY:

Appalachian Regional Commission

AUTHORIZATION:

Appalachian Regional Development Act of 1965, Section 201, Public Law 89-4, as amended, 40 U.S.C. 14501.

OBJECTIVES:

To provide a highway system which, in conjunction with other federally-aided highways, will open up areas with development potential within Appalachia where commerce and communication have been inhibited by lack of adequate access.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The grants may be used for preliminary engineering, right-of-way, and construction of highways meeting the objectives stated above. Total highway construction may not exceed 3,090 miles for the 13-State system. The highways must be accepted and maintained as a Federal-aid highway. Refer to general use restrictions stated in the Appalachian Regional Development program (23.001).

Applicant Eligibility:

State governments only are eligible for development highways within their Appalachian portions.

Beneficiary Eligibility:

General public.

Credentials/Documentation:

Segments must be approved by the ARC and projects must be processed in accordance with State Highway department and Federal Highway Administration procedures. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. The State highway department coordinates with the Federal Highway Administration, Department of Transportation (DOT), as in the case of federally aided highway construction. The District Director or State Alternate's Office will provide guidance on specific problems and technical assistance in the preparation of applications. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The ARC has established a corridor system. The Appalachian State office designated by the State Member submits an application for construction within this system to the Commission for consideration. ARC must concur in detailed highway locations and construction centerlines. Upon such approval, State highway departments may submit plans to implement projects to the State-level office of Federal Highway Administration.

Award Procedure:

Upon determination that the State approved project is eligible within a Commission approved Appalachian Highway Plan, the Federal Co-chairman notifies FHWA of centerline approval after determining that the project satisfies all Federal requirements. The Department of Transportation is then notified, administers the grants and disburses the funds.

Matching Requirements: Funding for work on the Appalachian Development Highway System is allowed at 80%, wherever the project is located. Please see the ARC Code for more details.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Assistance is provided as required. See the following for information on how assistance is awarded/released: Funds are distributed by formula based on the current "cost to complete" report estimate.

Reports:

Grantees are required to submit data in preparation for an annual status report.

Grantees are required to reconcile obligations against progress. Grantees are required to detailed construction status reports. Grantees are required to reconcile obligations against progress. Performance is measured and reported each year in accordance with the goals and strategies of ARC's Strategic Plan 2005-2010.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Appalachian Regional Commission

AUTHORIZATION:

Appalachian Regional Development Act of 1965, Section 302, Public Law

89-4, as amended, 40 U.S.C. 14321.

OBJECTIVES:

To provide planning and development resources in multicounty areas; to help develop the technical competence essential to sound development assistance; and to meet the objectives stated under the program entitled Appalachian Regional Development (23.001).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

For administrative expenses, including technical services of certified local development districts; in addition to the uses and use restrictions detailed in the Appalachian Regional Development Program (23.001), the local development district may use grant funds for the purchase of real estate and vehicles; and for space improvement and construction only with the express approval of ARC. Funds may be used only in the performance of grantees program and in accordance with the budget, and amendments thereto, as approved by the Commission. See restrictions listed under the Appalachian Regional Development Program (23.001). For administrative expenses, including technical services of certified local development districts.

Applicant Eligibility:

Multicounty organizations certified by the State.

Beneficiary Eligibility:

Multicounty organizations.

Credentials/Documentation:

Certificate by the Governor. State Appalachian Plan and Strategy Statement must describe the procedures for the participation of local development districts in the Appalachian development planning process. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The State Alternate's Office is the coordinator for the Governor for Appalachian investments. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Applications approved by the State Member of ARC and the Federal Co-Chair. All proposed projects must meet the requirements of the State Appalachian Plan and Strategy Statement. Strategy statements are submitted to the Commission for approval annually prior to the Fall Commission meeting. A letter of transmittal signed by the State Member and Standard Form 424 are required.

Award Procedure:

Upon determination that the State approved project is eligible within a Commission approved Appalachian State Development Plan and Strategy Statement, the Federal Co-chairman determines that the project satisfies all Federal requirements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Usually within 45 days after the receipt of the application at the Commission.

Appalachian Regional Development Act of 1965, Section 302, Public Law 89-4, as amended; 40 U.S.C. 14321.

OBJECTIVES:

To expand the knowledge of the region to the fullest extent possible by means of research (including investigations, studies, technical assistance and demonstration projects) in order to assist the Commission in accomplishing the objectives of the Act, and implementation of the ARC strategic plan.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

To research the feasibility of plans and programs for concerted economic and community development. Priority will be given to research and technical assistance related to job creation projects. Project activities can include investigations, research, studies, evaluations, and assessments of needs, potentials, or attainments of the people of the region. All developments resulting from such research must be made freely available to the general public. Existing research by other agencies is to be utilized as much as possible. Research projects are subject to the uses and use restrictions described under the Appalachian Regional Development program (23.001). The purpose of these funds are to research or demonstrate the feasibility of plans and programs for concerted economic and community development.

Applicant Eligibility:

Qualified candidates with subject matter experience who respond to Commission issued requests for proposals that are advertised on the Appalachian Regional Commission website (www.arc.gov).

Beneficiary Eligibility:

States and local public bodies.

Credentials/Documentation:

Projects must conform to the Appalachian Regional Commission Strategic Plan. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The Appalachian Regional Commission reviews and prioritizes research and evaluation projects necessary to further the goals of the agency's strategic plan. The Executive Director approves individual contractors. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Candidates with subject matter expertise can respond to publicly advertised requests for proposals. Requests for proposals are located on the ARC website: www.arc.gov. The Commission reviews and prioritizes research projects to be completed each year.

Award Procedure:

Upon determination that the approved project is eligible within a Commission approved Appalachian Strategic Plan, the Executive Director determines that the project satisfies all Federal requirements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 15 to 60 days after the receipt of the application at the Commission.

Appeals:

Not Applicable.

Renewals:

Yes, renewals are possible. They are processed in the same manner as the original application.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. No other matching information is available.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Usually 12 months. Assistance is provided as required. See the following for information on how assistance is awarded/released: A schedule for payment is included in the contract proposal. However, ARC retains 10% of funds until the project is completed.

Reports:

General reports are required throughout the research period, as required by the terms of the individual contract. A cost estimate of the project is required upon initiation of the research contract. As the contract progresses, researchers are asked to update ARC on their progress. Drafts are sent to ARC for review. Expenditure updates are required for reimbursement. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. As required by the Commission, in accordance with the Single Audit Act Amendments of 1996, Public Law 104-156.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

30.001 EMPLOYMENT DISCRIMINATION_TITLE VII OF THE CIVIL RIGHTS ACT OF 1964**FEDERAL AGENCY:**

Equal Employment Opportunity Commission

AUTHORIZATION:

Title VII of the Civil Rights Act of 1964 (Public Law 88-352), as amended, 42 U.S.C. section 2000e et seq.

OBJECTIVES:

Title VII prohibits employment discrimination against applicants or employees based on race, color, religion, sex (including pregnancy), and national origin. Title VII also prohibits retaliation against applicants or employees who oppose employment practices that discriminate based on race, color, religion, sex or national origin or for filing a discrimination charge, testifying, or participating in any way in an investigation, proceeding, or litigation under Title VII.

TYPES OF ASSISTANCE:

ADVISORY SERVICES AND COUNSELING; Federal Employment; INVESTIGATION OF COMPLAINTS

USES AND USE RESTRICTIONS:

Individuals are protected from discrimination on the basis of race, color, religion, sex (including pregnancy) and national origin by employers with 15 or more employees, including state and local governments, employment agencies, labor organizations and the federal government. The EEOC Assessment System, available at <https://egov.eeoc.gov/eas/>, enables individuals to determine whether EEOC is the appropriate agency to contact regarding discrimination, harassment or retaliation. Charges of discriminatory employment practices can be filed at the field offices by or on behalf of an individual or group of individuals claiming to be aggrieved. Mediation may be offered to the parties involved. If mediation is not used or is not successful, further investigation may ensue. If after its investigation the Commission does not find reasonable cause, the charging party is issued a right to sue letter. If the Commission determines that there is reasonable cause to believe that discrimination has occurred, it will attempt to resolve the charge informally through conciliation. If conciliation proves to be unsuccessful and the employer is not a state or local government, the Commission may bring a civil action against respondent(s) named in the charge or issue a right to sue letter to the party who filed the charge, giving him or her the right to file a civil action in federal court. If conciliation fails on a charge against a state or local government, EEOC refers the case to the Department of Justice for consideration of litigation or issuance of a right to sue letter.

A federal government applicant or employee who believes that his or her employment rights have been violated under this statute and wants to make a claim against a federal agency must file a complaint with that agency and follow the procedures set forth at 29 C.F.R. part 1614.

Applicant Eligibility:

Any aggrieved individual, or any individual, organization, or agency filing on behalf of an aggrieved individual, who has reason to believe that an unlawful

employment practice within the meaning of Title VII, as amended, has been committed by an employer with 15 or more employees, including a state or local government, an employment agency, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining, including on-the-job training programs.

Any aggrieved individual who believes he or she has been retaliated against for opposing employment practices that discriminate based on race, color, religion, sex (including pregnancy) or national origin or who files a charge of discrimination, testifies, or participates in any way in an investigation, proceeding, or litigation under Title VII.

Beneficiary Eligibility:

Applicants, current employees, or former employees of the named respondent(s) who have been subjected to employment practices based on race, color, religion, sex, or national origin by the named respondent(s), and/or who have been subjected to retaliation for opposing discrimination or participating in a Title VII investigation, proceeding, or litigation.

Credentials/Documentation:

A claim of unlawful employment practice(s) may be made in person, by mail or by fax. An allegation must be in writing, signed, and/or notarized when necessary to meet state or local requirements. Charge forms (EEOC Form 5, Charge of Discrimination) are available to all persons from all field offices of the Commission. Individuals may also consult EEOC's website at <http://www.eeoc.gov/employees/howtofile.cfm> for detailed information about filing a charge.

Complaints against the federal government should be filed at the relevant agency's EEO office. Each agency is required to post information about how to contact the agency's EEO office. Federal government applicants or employees should consult EEOC's website at http://www.eeoc.gov/federal/fed_employees/complaint_overview.cfm for details about filing an employment discrimination complaint against a federal agency. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. A charge may be filed by any aggrieved individual, any individual on behalf of an aggrieved individual, or by any organization, i.e., labor union, association, legal representative, etc., either as an aggrieved entity or on behalf of an aggrieved individual. Charges may be filed in person, by mail or by fax at the nearest field office of the EEOC.

Complaints against the federal government should be filed at the relevant agency's EEO office. Each agency is required to post information about how to contact the agency's EEO office.

Award Procedure:

A charge is sufficient when the Commission receives from the person making the charge a written signed statement that includes an allegation of discrimination, the name(s) of the parties involved, and a request that the EEOC act to protect the applicant or employees rights or otherwise settle a dispute between the applicant or employee and the employer.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Title VII requires that charges be filed within 180 days of the date of the alleged violation, within 300 days if the charge is also covered by a state or local anti-discrimination law, or within 30 days after the receipt of notice of termination of state or local proceedings, whichever is earlier. If the evidence does not establish that discrimination occurred, charging parties will be given written notice of their right to sue. A charging party may file a lawsuit within

90 days after receiving a notice of a right to sue from EEOC, as stated above. Under Title VII, a charging party also can request a notice of right to sue from EEOC 180 days after the charge was first filed with the Commission, and may then bring suit within 90 days after receiving this notice. When a right to sue letter is issued at the request of the charging party, EEOC usually stops its investigation.

Federal employees must generally contact the agency's EEO Counselor within 45 days from the date the discrimination occurred.

30.008 EMPLOYMENT DISCRIMINATION AGE DISCRIMINATION IN EMPLOYMENT**FEDERAL AGENCY:**

Equal Employment Opportunity Commission

AUTHORIZATION:

Age Discrimination in Employment Act of 1967 (Pub. L. 90-202), as amended, 29 U.S.C. section 621 et seq.

OBJECTIVES:

The Age Discrimination in Employment Act (ADEA) prohibits discrimination based on age (40 or older) with respect to any term, condition, or privilege of employment, including hiring, firing, promotion, layoff, compensation, benefits, job assignments, training and harassment. The ADEA also prohibits retaliation against an individual for opposing employment practices that discriminate based on age or for filing an age discrimination charge, testifying, or participating in any way in an investigation, proceeding, or litigation under the ADEA.

TYPES OF ASSISTANCE:

ADVISORY SERVICES AND COUNSELING; Federal Employment; INVESTIGATION OF COMPLAINTS

USES AND USE RESTRICTIONS:

Individuals 40 years of age or older are protected from age discrimination by employers with 20 or more employees, all state and local governments, employment agencies, labor organizations and the federal government. It is unlawful for covered employers to post advertisements indicating any preference, limitation, or specification based on age. Limited exceptions apply: in situations in which age is a bona fide occupational qualification reasonably necessary to the normal operation of the business; in situations in which the differentiation is based on reasonable factors other than age; or if an otherwise prohibited practice is in observance of the terms of a bona fide seniority system or employee benefit plan (except that no such seniority system or employee benefit plan shall excuse the failure to hire, or require or permit the involuntary retirement of any covered individual). Exemptions and exceptions also apply for highly compensated employees, public officials, firefighters and law enforcement officers. The EEOC Assessment System, available at <https://egov.eeoc.gov/eas/>, enables individuals to determine whether EEOC is

the appropriate agency to contact regarding their specific claims of discrimination, harassment or retaliation. If a charge is filed, mediation may be offered to the parties involved. If mediation is not used or is not successful, further investigation may ensue. The Commission will attempt to eliminate any alleged unlawful practice by informal methods of conciliation, conference and persuasion. If conciliation fails, the charging party should be notified that he or she can file a civil action. If the Commission's proceedings with regard to a charge are terminated, the Commission will notify the complainant who shall then have the right to bring a civil action.

A federal government applicant or employee who believes that his or her employment rights have been violated under this statute and wants to make a claim against a federal agency must file a complaint with that agency and follow the procedures set forth at 29 C.F.R. part 1614.

Applicant Eligibility:

Any aggrieved individuals age 40 and over, or any individual, organization, or agency filing on behalf of an aggrieved individual who has reason to believe that a covered employer has committed an unlawful employment practice within the meaning of the ADEA, as amended.

Beneficiary Eligibility:

Applicants, current employees, or former employees of the named respondent(s) who are age 40 or older and who have been subjected to unlawful employment practices based on age by the named respondent(s), and/or who have been subjected to retaliation for opposing age discrimination or participating in an ADEA investigation, proceeding, or litigation.

Credentials/Documentation:

An allegation of unlawful employment practice(s) may be made in person, by mail or by fax. An allegation must be in writing, signed, and notarized when necessary to meet state or local requirements. Charge forms (EEOC Form 5, Charge of Discrimination) are available to all persons from all field offices of the Commission. Individuals may also consult EEOCs website at <http://www.eeoc.gov/employees/howtofile.cfm> for detailed information about filing a charge.

Complaints against the federal government should be filed at the relevant agency's EEO office. Each agency is required to post information about how to contact the agency's EEO office. Federal government applicants or employees should consult EEOCs website at http://www.eeoc.gov/federal/fed_employees/complaint_overview.cfm for details about filing an employment discrimination complaint against a federal agency. Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

The ADEA requires that charges be filed within 180 days of the date of the alleged violation, within 300 days if the charge is also covered by a state anti-discrimination law and a state agency enforcing the law, or within 30 days after the receipt of notice of termination of state proceedings, whichever is earlier. A civil action may be commenced at any time 60 days after a charge has been filed with the EEOC. If the evidence does not establish that discrimination occurred, charging parties will be given written notice of their right to sue. A charging party may file a lawsuit within 90 days after receiving a notice of a right to sue from EEOC, as stated above. If the charging party files an ADEA lawsuit, EEOC usually stops its investigation.

Federal employees must generally contact the agency's EEO Counselor within 45 days from the date the discrimination occurred.

30.010 EMPLOYMENT DISCRIMINATION EQUAL PAY ACT

FEDERAL AGENCY:

Equal Employment Opportunity Commission

AUTHORIZATION:

Equal Pay Act of 1963, (Pub. L. 88-38), as amended, 29 U.S.C. section 206(d).

OBJECTIVES:

The Equal Pay Act (EPA) prohibits sex discrimination in the payment of wages to men and women performing jobs that require substantially equal skill, effort and responsibility, under similar working conditions within the same establishment. The EPA also prohibits retaliation against applicants or employees who oppose compensation practices that discriminate based on sex or who file a discrimination charge, testify, or participate in any way in an investigation, proceeding, or litigation under the EPA.

TYPES OF ASSISTANCE:

ADVISORY SERVICES AND COUNSELING; Federal Employment; INVESTIGATION OF COMPLAINTS

USES AND USE RESTRICTIONS:

Employers engaged in commerce or in the production of goods for commerce (i.e. subject to The Fair Labor Standards Act of 1938, as amended, 29 U.S.C. 201, et seq.), including the federal government, and state and local governments, are prohibited from paying unequal wages to men and women performing jobs that require substantially equal skill, effort and responsibility, under similar working conditions within the same establishment. Labor organizations representing employees of a covered employer are prohibited from causing or attempting to cause employers to violate the Act. Exceptions are permitted only where payment is made pursuant to a seniority system, a merit system, a system that measures earnings by quantity or quality of production, or a differential based on any other factor other than sex. The EEOC Assessment System, available at <https://egov.eeoc.gov/eas/>, enables individuals to determine whether EEOC is the appropriate agency to contact regarding their specific claim of wage discrimination or retaliation. The Commission may investigate allegations of violations of the Act and may initiate and conduct litigation.

A federal government applicant or employee who believes that his or her employment rights have been violated under this statute and wants to make a claim against a federal agency must file a complaint with that agency and follow the procedures set forth at 29 C.F.R. part 1614.

Applicant Eligibility:

Any aggrieved individual, or any individual, organization, or agency filing on behalf of an aggrieved individual, who has reason to believe that a covered employer has committed an unlawful employment practice within the meaning of the EPA. An employee who believes he or she has been retaliated against for opposing compensation practices that discriminate based on sex or who files a discrimination charge, testifies, or participates in any way in an investigation, proceeding, or litigation under the EPA.

Beneficiary Eligibility:

Applicants, current employees, or former employees of the named respondent (s) who have been subjected to unlawful compensation practices based on gender by the named respondent (s), and/or who have been subjected to retaliation for opposing gender-based compensation discrimination or participating in an EPA investigation, proceeding, or litigation.

Credentials/Documentation:

The EPA does not require aggrieved parties to file a charge of discrimination with EEOC before filing a private lawsuit. However, since many EPA claims also raise Title VII sex discrimination issues, it may be advisable to file a charge of discrimination under both laws within the appropriate time limit (see Deadlines 095). An allegation of unlawful employment practice(s) may be made in person, by mail or by fax. An allegation must be in writing, signed, and/or notarized when necessary to meet state or local requirements. Charge forms (EEOC Form 5, Charge of Discrimination) are available to all persons from all field offices of the Commission. Individuals may also consult EEOCs website at <http://www.eeoc.gov/employees/howtofile.cfm> for detailed information about filing a charge.

Complaints against the Federal government should be filed at the relevant agencies EEO office. Each agency is required to post information about how to contact the agencies EEO office. Federal government applicants or employees should consult EEOCs website at http://www.eeoc.gov/federal/fed_employees/complaint_overview.cfm for details about filing an employment discrimination complaint against a federal agency. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. The EPA does not require aggrieved parties to file a charge of discrimination with EEOC before filing a private lawsuit. However, since many EPA claims also raise Title VII sex discrimination issues, it may be advisable to file a charge of discrimination under both laws within the appropriate time limit (see range of approval/disapproval times). A charge may be filed by any aggrieved individual, any individual on behalf of an aggrieved individual, or by any organization, i.e., labor union, association, legal representative, etc., either as an aggrieved entity or on behalf of an aggrieved individual. Charges may be filed in person, by mail or by fax at the nearest EEOC field office.

Complaints against the federal government should be filed at the relevant agencies EEO office. Each agency is required to post information about how to contact the agencies EEO office.

Award Procedure:

A charge is sufficient when the Commission receives from the person making the charge a written signed statement that includes an allegation of discrimination, the name(s) of the parties involved, and a request that the EEOC act to protect the applicant or employees rights or otherwise settle a dispute between the applicant or employee and the employer.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

The EPA does not require aggrieved parties to file a charge of discrimination with EEOC before filing a private lawsuit. The time limit for filing an EPA charge with the EEOC and the time limit for going to court are the same: within two years of the alleged unlawful compensation practice or in the case of a willful violation, within three years. However, since many EPA claims also raise Title VII sex discrimination issues, it may be advisable to file a charge of discrimination under both laws within the appropriate time limit. (Title VII requires that charges be filed within 180 days of the date of the alleged violation, within 300 days if the charge is also covered by a state or local anti-discrimination law, or within 30 days after the receipt of notice of termination of state or local proceedings, whichever is earlier.) A charging party may file a lawsuit within 90 days after receiving a notice of a right to sue from EEOC, as stated above. Under Title VII, a charging party also can request a notice of right to sue from EEOC 180 days after the charge was first filed with the Commission, and may then bring suit within 90 days after receiving this notice. When a right to sue letter is issued at the request of the charging party, EEOC usually stops its investigation.

Federal employees must generally contact the agency's EEO Counselor within 45 days from the date the discrimination occurred.

**30.011 EMPLOYMENT DISCRIMINATION_TITLE I OF THE AMERICANS WITH DISABILITIES ACT
FEDERAL AGENCY:**

Equal Employment Opportunity Commission

AUTHORIZATION:

Americans with Disabilities Act, Title I & V, as amended Public Law 101-336, Public Law 110-325 42, U.S.C. 12101-12117; 12201-12213d; Section 501 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 791-794a.

OBJECTIVES:

The Americans with Disabilities Act (ADA) prohibits employment discrimination against applicants or employees based on disability. The ADA also prohibits retaliation against an individual for opposing employment practices that discriminate based on disability or for filing a discrimination charge, testifying, or participating in any way in an investigation, proceeding, or litigation under the ADA. The Rehabilitation Act provides federal employees with the same protections.

TYPES OF ASSISTANCE:

ADVISORY SERVICES AND COUNSELING; Federal Employment; INVESTIGATION OF COMPLAINTS

USES AND USE RESTRICTIONS:

Individuals are protected from discrimination on the basis of disability by employers with 15 or more employees, including state and local governments, employment agencies, and labor organizations. Federal employees and applicants are covered under section 501 of the Rehabilitation Act of 1973, which applies the same standards as the ADA. The EEOC Assessment System, available at <https://egov.eeoc.gov/eas/>, enables individuals to determine whether EEOC is the appropriate agency to contact regarding their specific

claims of discrimination, harassment or retaliation. Charges of discriminatory employment practices can be filed by or on behalf of an individual or group of individuals claiming to be aggrieved. Mediation may be offered to the parties involved. If mediation is not used or is not successful, further investigation may ensue. If after its investigation, the Commission does not find reasonable cause, the charging party is issued a right to sue letter. If the Commission determines that there is reasonable cause to believe that discrimination has occurred, it will attempt to resolve the charge informally through conciliation. If conciliation proves to be unsuccessful and the employer is not a state or local government, the Commission may bring a civil action against respondent(s) named in the charge or issue a right to sue letter to the party who filed the charge, giving him or her the right to file a civil action in federal court. If conciliation fails on a charge against a state or local government, EEOC refers the case to the Department of Justice for consideration of litigation or issuance of a right to sue letter.

A federal employment applicant or employee who believes that his or her employment rights have been violated.

Applicant Eligibility:

Any aggrieved individual, or any individual, or any organization, or agency filing on behalf of an aggrieved individual, who has reason to believe that an unlawful employment practice within the meaning of Title I of the ADA has been committed by an employer with 15 or more employees, including state or local governments, an employment agency, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining, including on-the-job training programs. Any aggrieved individual who believes he or she has been retaliated against for opposing employment practices that discriminate based disability or who files an ADA charge, testifies, or participates in any way in an investigation, proceeding, or litigation under the ADA. Federal employees are protected from disability discrimination under section 501 of the Rehabilitation Act.

Beneficiary Eligibility:

Applicants, for employment, current employees, and former employees of the named respondent(s) in a charge who have been subjected to unlawful employment practices based on disability by the named respondent (s), and/or who have been subjected to retaliation for opposing disability discrimination or participation in an ADA or Rehabilitation Act investigation, proceeding, or litigation.

Credentials/Documentation:

A claim of unlawful employment practice(s) may be made in person, by mail or by fax. An allegation must be in writing, signed, and/or notarized when necessary to meet State or local requirements. Charge forms (EEOC Form 5, Charge of Discrimination) are available to all persons from all field offices of the Commission. 30.013 EMPLOYMENT DISCRIMINATION-TITLE II OF THE GENETIC INFORMATION NONDISCRIMINATION ACT OF 2008

GINA Title II

FEDERAL AGENCY:

Equal Employment Opportunity Commission

AUTHORIZATION:

The Genetic Information Nondiscrimination Act of 2008, Title II, Public Law 110-233, 42 U.S.C 2000ff.

OBJECTIVES:

Title II of GINA prohibits the use of genetic information in making employment decisions, restricts employers and other entities covered by Title II (employment agencies, labor organizations and joint labor-management training and apprenticeship programs) from requesting, requiring or purchasing genetic information, and strictly limits the disclosure of genetic information. Title II of GINA also prohibits retaliation against applicants or employees for filing a charge of discrimination, participating in a discrimination proceeding (such as a discrimination investigation or lawsuit), or otherwise opposing discrimination. Genetic information includes information about an individual's genetic tests and the genetic tests of an individual's family members, as well as information about the manifestation of a disease or disorder in an individual's family members (i.e. family medical history). Genetic information also includes an individual's request for, or receipt of, genetic services, or the participation in clinical research that includes genetic services by the individual or a family member of the individual, and the genetic information of a fetus carried by an individual or by a pregnant woman who is a family member of the individual and the genetic information of any embryo legally held by the individual or family member using an assisted reproductive technology.

TYPES OF ASSISTANCE:

Advisory Services and Counseling; Federal Employment; Investigation of Complaints

USES AND USE RESTRICTIONS:

Individuals are protected from discrimination on the basis of genetic information by employers with 15 or more employees, federal agencies, employment agencies, labor organizations, and joint labor-management training and apprenticeship programs. The EEOC has an assessment tool, available at <https://egov.eeoc.gov/eas/>, to enable individuals to determine whether EEOC is the appropriate agency to contact regarding discrimination, harassment, or retaliation at the hands of a private sector employer or state or local government. Charges of discriminatory employment practices by a private sector employer or a state or local government can be filed by or on behalf of an individual or group of individuals claiming to be aggrieved. Mediation may be offered to the parties involved. If mediation is not used or is not successful, an

investigation may ensure. If, after its investigation, the Commission determines that there is reasonable cause to believe that discrimination has occurred, it will attempt to resolve the charge informally through conciliation. If conciliation proves to be unsuccessful and the employer is not a state or local government, the Commission may bring a civil action against the respondent(s) named in the charge or issue a right to sue letter to the party who filed the charge, giving him or her the right to file a civil action in federal court. If conciliation fails on a charge against a state or local government, EEOC refers the case to the Department of Justice for consideration of litigation or issuance of a right to sue letter. If the Commission does not find reasonable cause, the charging party is issued a right to sue letter.

A federal government applicant or employee who believes that his or her employment rights have been violated on the basis of genetic information and wants to make a claim against a federal agency must file a complaint with that agency and follow the procedures set forth at 29 C.F.R. part 1614.

Applicant Eligibility:

Any aggrieved individual, or any individual, labor union, association, legal representative, or organization filing on behalf of an aggrieved individual, who has reason to believe that an unlawful employment practice within the meaning of Title II of GINA has been committed by an employer, federal agency, an employment agency, labor organization, or joint labor-management committee controlling apprenticeship or other training or retraining, or on-the-job training programs.

Any aggrieved individual who believes that he or she has been retaliated against for opposing employment practices that discriminate on the basis of genetic information or who files a charge of discrimination, testifies, or participates in any way in an investigation, proceeding, or litigation under Title II of GINA.

Beneficiary Eligibility:

Applicants, current employees, or former employees of the named respondent(s) who have been subjected to employment practices based on genetic information by the named respondent(s), and/or who have been subjected to retaliation for opposing discrimination or participating in a Title II of GINA investigation, proceeding, or litigation.

Credentials/Documentation:

A claim of unlawful employment practice(s) may be made in person, by mail, or by fax. An allegation must be in writing, signed, and or notarized when necessary to meet state or local requirements. Charge forms (EEOC Form 5, Charge of Discrimination) are available to all persons from field offices of the Commission. Individuals may also consult EEOCs website at <http://www.eeoc.gov/employees/howtofile.cfm> for detailed information about filing a charge.

Federal government applicants or employees should consult EEOCs website at http://www.eeoc.gov/federal/fed_employees/complaint_overview.cfm for details about filing an employment discrimination complaint against a federal agency. This program is excluded from coverage under OMB Circular No. A-87.

Charges may be filed in person, by mail, or by fax at the nearest field office of the EEOC.

Complaints against the federal government should be filed at the relevant agencies EEO office. Each agency is required to post information about how to contact the agency's EEO office.

Award Procedure:

A charge is sufficient when the Commission receives from the person making the charge a written signed statement that includes an allegation of discrimination, the name(s) of the parties involved, and a request that the EEOC act to protect the applicant or employees rights or otherwise settle a dispute between the applicant or employee and the employer.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Title II of GINA requires that charges be filed within 180 days of the date of the alleged violation, within 300 days if the charge is also covered by a state or local anti-discrimination law, or within 30 days of receipt of notice of termination of state or local proceedings, whichever is earlier. If the evidence does not establish that discrimination occurred, charging parties will be given written notice of their right to sue. A charging party may file a lawsuit within 90 days after receiving a notice of a right to sue from the EEOC. Under Title II of GINA, a charging party also can request a notice of right to sue from EEOC 180 days after the charge was first filed with the Commission, and may then bring suit within 90 days after receiving this notice. When a right to sue letter is issued at the request of the charging party, EEOC usually stops its investigation.

FEDERAL MARITIME COMMISSION

33.001 SHIPPING DISPUTE RESOLUTION AND INVESTIGATION OF COMPLAINTS

FEDERAL AGENCY:

Federal Maritime Commission

AUTHORIZATION:

Shipping Act of 1984, as amended, 46 U.S.C 40101; Administrative Dispute Resolution Act of 1996, 5 U.S.C 571.

OBJECTIVES:

To provide assistance to those engaged in international ocean shipping, including those making household goods shipments. Assistance may include helping locate missing cargo and helping resolve issues with respect to costs or service. To provide a forum for settling disputes between or among carriers, shippers, and ocean transportation intermediaries through the use of various means of alternative dispute resolution. To provide information to passengers seeking reimbursement of payments when dealing with cruise line issues.

TYPES OF ASSISTANCE:

Resolution of Disputes

USES AND USE RESTRICTIONS:

The Commission considers informal complaints and assists in the development of voluntary settlements. The Commission also may award reparations for financial injury resulting from violations of the Shipping Act of 1984.

Applicant Eligibility:

Any person may seek voluntary dispute resolution, and also may pursue reparations to compensate for financial losses upon proving a violation of the Shipping Act of 1984.

Beneficiary Eligibility:

Anyone/General public.

Credentials/Documentation:

A complaint alleging specific violations of the Shipping Act of 1984 or Commission regulations should be supported by facts sustaining such allegations. For household goods shipments and other cargo issues, submit bills of lading and other contractual documents. For canceled cruises, passengers need to document payments and provide identifying passenger and/or voyage information. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Informal complaints or requests for the mediation or other alternative dispute resolution (ADR) procedures may be submitted to the Commission in an e-mail to complaints@fmc.gov. To the extent available, all complaints other than cruise complaints should include the following information: Bill of lading/dock receipts/arrival notices/invoices; Description of cargo; Origin; Port of origin (may be the same as origin); Destination; Port of destination (may be the same as destination); Date of shipment or sailing; Name of individual(s) filing complaint (if you are representing a complainant, what is your name and your relationship to the complainant); Company name of complainant(s); Contact information for complainant(s) (and/or representative(s)) include telephone, fax, address including zip code, and email; Name of shipping company or party against whom the complaint is being filed; Contact information for that company or party, (including name(s) of responsible individuals, telephone and fax numbers, address including zip code and email); Description of issue and desired solution. Include as much information as you believe we will need when we contact the other party(s) to the complaint. Explain what you would like to see accomplished - getting cargo released, negotiating a monetary solution, etc. Cruise complaints should include the following information: Ticket/passenger invoice; Date of sailing; Length and nature of cruise; Port of origin; Port of destination; Did you purchase transportation from your home to the port of origin from the cruise line? Did you purchase transportation from the port of destination to your home from the cruise line? GENERAL SERVICES ADMINISTRATION

39.002 DISPOSAL OF FEDERAL SURPLUS REAL PROPERTY**FEDERAL AGENCY:**

General Services Administration

AUTHORIZATION:

Executive Order Public Buildings, Property and Works, Public Law 102-517.

OBJECTIVES:

To assist State and local governments, and certain eligible (501(c)(3) tax-exempt status) non-profit organizations with acquiring surplus Federal real property for various public uses that benefit communities.

TYPES OF ASSISTANCE:

Sale, Exchange, or Donation of Property and Goods

USES AND USE RESTRICTIONS:

Based on a determination by GSA of a property's highest and best use, surplus Federal real and related personal property may be conveyed to State and local governments and, in some cases, certain eligible non-profit organizations for various public purposes or uses as allowed by law. These conveyances are called Public Benefit Conveyances (PBC). Under the law, PBCs are completed without monetary consideration or at discounts of up to 100 percent of the fair market value; and, depending on the PBC, the use of the property is restricted for a period of up to 30 years or in perpetuity. Property may be conveyed at a discount of up to 100 percent for Homeless assistance use; if the property is conveyed by deed, it must be used for homeless assistance purposes for 30 years; if it is conveyed by lease or permit the property must be used for a period according to the terms of the lease or permit, which is generally not less than one year. Surplus Federal real property is also conveyed at discounts of up to 100 percent for public park or recreation use (restriction: perpetuity); public health or educational purposes (restriction: 30 years for both); historic monument (restriction:perpetuity); correctional (restriction: perpetuity); law enforcement (restriction: perpetuity); emergency management response use, including fire and rescue services (restriction: perpetuity); self-help housing (restriction: 30 years); port facility use (restriction: perpetuity), wildlife conservation (restriction: perpetuity); public airport (restriction: perpetuity) and public highway use (restriction: none); public airport use (restriction: perpetuity); wildlife conservation (restriction: perpetuity); correctional facility use (restriction: perpetuity), and historic monument use (restriction: perpetuity).

Applicant Eligibility:

State and local government agencies are eligible to apply for surplus real property for park, recreation, correctional facility, law enforcement, historic monument, public airport, health, educational, homeless, self help housing, emergency management and port facilities. Eligibility for property for wildlife conservation use, other than for migratory birds, is limited to the States. Tax-supported and nonprofit medical and educational institutions which have been held exempt from taxation under 501(c)(3) of the Internal Revenue Code are also eligible to apply for property for health, educational and homeless use.

Beneficiary Eligibility:

General public may apply.

Credentials/Documentation:

The applicant must submit an application describing the proposed program of use for the property and evidence of its ability to finance the program. This program is excluded from coverage under OMB Circular No. A-87.

39.003 DONATION OF FEDERAL SURPLUS PERSONAL PROPERTY

(Donation Program)

FEDERAL AGENCY:

General Services Administration

AUTHORIZATION:

Older Americans Act of 1965, 40 U.S.C. 549; Section 213, as amended, Section 502, Public Law 100-77; E.O. 12999, April 17, 1996, Public Law 105-50.

OBJECTIVES:

To donate Federal personal property no longer required for Federal use to public agencies and qualifying nonprofit entities in order to maximize the use of Federal property and reduce the cost of State and local government.

TYPES OF ASSISTANCE:

Sale, Exchange, or Donation of Property and Goods

USES AND USE RESTRICTIONS:

Surplus items are used by State and local public agencies for carrying out or promoting one or more public purposes, such as conservation, parks and recreation, education, public health, public safety, economic development and programs for older individuals; by certain nonprofit, tax-exempt activities for public health or educational purposes, including research for such purposes, and for use in programs for older individuals; or by public airports for airport development, operation or maintenance. Federal restrictions require that, at a minimum, all surplus property be placed into use by the donee within 1 year of acquisition and be used at least for 1 year thereafter. Other restrictions, terms and conditions are imposed by GSA and the agencies determining eligibility (shown under Applicant Eligibility, section below) for items with original acquisition value above \$5,000 and for certain commodities, such as vehicles and aircraft. There are restrictions on use during the period of conditional title. Recipients only acquire full, unrestricted title after an established period of time, 12 months, 18 months, 60 months, or in perpetuity, depending on the individual property.

Applicant Eligibility:

(a) State participation is contingent upon the acceptance by the General Services Administration (GSA) of a State plan of operation as being in conformance with Public Law 107-217. This State plan must establish a State agency which is responsible for the distribution of Federal surplus personal property to eligible recipients within the State on a fair and equitable basis. Eligible donee categories for the distribution of property through the State Agencies for Surplus Property are defined as: (1) Public agencies which include any (i) State or department, agency, or instrumentality thereof; (ii) political subdivision of the State, including any unit of local government or economic development district, or any department, agency or instrumentality thereof; (iii) instrumentality created by compact or other agreement between State or political subdivisions; (iv) multijurisdictional sub-State district established by or pursuant to State law; and (v) Indian tribe, band, group, pueblo, or community located on a State reservation. Eligibility for public agencies is determined by the State Agency for Surplus Property. (2) Nonprofit, tax-exempt activities such as schools, colleges, universities, public libraries, schools for the mentally challenged or physically challenged, educational radio or TV stations, child care centers, museums, medical institutions, hospitals, clinics, health centers, drug abuse treatment centers, providers of assistance to the homeless, providers of assistance to the impoverished and programs for older individuals. (b) Service educational activities as determined by the Deputy Under Secretary of Defense (L/SCI). (c) Public airports. Eligibility is determined by the Federal Aviation Administration.

Beneficiary Eligibility:

State and local public agencies; nonprofit educational or public health institutions or organizations, including providers of assistance to the homeless; nonprofit and public programs for the elderly; educational activities of special interest to the armed services; and public airports.

39.007 SALE OF FEDERAL SURPLUS PERSONAL PROPERTY

(Sales Program)

FEDERAL AGENCY:

General Services Administration

AUTHORIZATION:

Public Law 81-152, 63 Stat. 377, 40 U.S.C. 541 et. seq.

OBJECTIVES:

To sell personal property no longer needed by the Government in an expeditious, economical and efficient manner and to obtain the maximum net return from sales. General Services Administration conducts the sale of personal property for most of the civil agencies; the Department of Defense handles the sale of its own surplus property.

TYPES OF ASSISTANCE:

Sale, Exchange, or Donation of Property and Goods

USES AND USE RESTRICTIONS:

This program provides individuals, business concerns, and other organizations with the opportunity to enter competitive bids for purchase of a wide variety of personal property whenever it is determined surplus to the needs of the Federal Government and available for sale. Included are vehicles, aircraft, hardware, electronic and medical equipment, furniture, office supplies and equipment, exotic gifts and collectables, and many other items. This program has been expanded offering assets available to the general public via online capabilities. GSA Auctions (www.gsauctions.gov) provides the general public with an Internet website to bid electronically on a wide variety of federal personal property. The website allows GSA to offer assets located across the country to any interested buyer, regardless of location. GSA Auctions provides item descriptions and pictures of items available for sale. Successful bidders can also make payments online. Normally, there are no use restrictions on property purchased from the Government. Other laws may restrict those eligible to participate or place conditions on property.

Applicant Eligibility:

Competitive bid sales are open to the general public, however bidders must be at least 18 years of age. Individuals cannot successfully register to bid on items without providing a TIN. A TIN is defined as an individual's Social Security Number (SSN) or business entity's Employer Identification Number (PIN).

Beneficiary Eligibility:

General public.

Credentials/Documentation:

A credit card is required for all registered users in our online community. Credit

card validation assists in the prevention of fraudulent bidding activity and ensures that bidders are prepared to accept responsibility for their bidding activity and all submitted bids are valid. This card number is recorded but will not be automatically charged if a bidder is the successful bidder of an item. For security reasons and to prevent fraudulent bidding activities, all registered bidders are subject to billing address verification. No P.O. Box address will be accepted unless accompanied by a street address. By entering the credit card information, you are attesting you are an authorized user of the card. It is required that the bidder creates and secures their username and password. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Interested individuals may participate in GSA sales of Federal personal property by visiting the GSA Auctions website at www.gsaauctions.gov, or may visit www.surplussales.fss.gov for information on sales not conducted on the internet. Also, information is available at the Federal Asset Sales website at www.govsales.gov.

Award Procedure:

Property is awarded to that responsible bidder whose bid, conforming to the invitation, is most advantageous to the Government, price and other factors considered. For internet sales, the successful bidders will be notified by email and must make payment within 2 business days from the date & time the award email notification was sent. Bid results from other sale types may be furnished by U.S. mail notification, via telephone, fax, or at www.surplussales.fss.gov. It is the bidder's responsibility to follow-up on the status of his/her bid and to ensure that his/her email address and all registration data are kept accurate and up-to-date.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

It is the policy of GSA Auctions to monitor bids and other activity to ensure the proper use of our site. The Government reserves the right to reject any and all bids. Bids can be rejected for any reason, especially those containing inaccurate, incomplete or unverifiable information, or information which is deemed to have been given in bad faith. Indebted bidders will be ineligible for contract awards. Bidders will not be able to bid on items specified on GSA Auctions until all debts have been cleared, and will not be awarded items when participating in other methods of sale, such as sealed bid or fixed price.

Appeals:

Disputes, claims and/or refunds request are not a frequent issues at GSA. Contracts resulting from the sale of any offer, and particularly GSA Auctions are subject to the Contract Disputes Act of 1978 (41 U.S.C. 601-613). A claim or request for refund must be substantiated in writing to the Contracting Officer for issues regarding mis-described property, missing property and voluntary defaults.

Renewals:

If at any time, a participant's information changes, it is their responsibility to update the appropriate information with GSA and in GSA Auctions.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

FEDERAL COUNCIL ON THE ARTS AND THE HUMANITIES

45.201 ARTS AND ARTIFACTS INDEMNITY

FEDERAL AGENCY:

Federal Council on the Arts and the Humanities

AUTHORIZATION:

National Foundation on the Arts and the Humanities Act of 1965, as amended, Public Law 089-209, 20 U.S.C 971 et seq.; Arts and Artifacts Indemnity Act, Public Law 094-158.

OBJECTIVES:

To provide for indemnification against loss or damage for eligible art works, artifacts, and objects (1) when borrowed from abroad for exhibition in the U.S.; (2) when borrowed from the U.S. for exhibition abroad, preferably when there

is an exchange exhibition from a foreign country; (3) when borrowed from the U.S. for exhibition in the U.S. as part of exhibitions from abroad which include foreign-owned objects; and 4) when borrowed from U.S. collections for exhibition in the United States.

TYPES OF ASSISTANCE:

INSURANCE

USES AND USE RESTRICTIONS:

Certificates of Indemnity will be issued for the following items insuring them against loss or damage: (1) works of art, including tapestries, paintings, sculpture, folk art, graphics, and craft arts; (2) manuscripts, rare documents, books, and other printed or published materials; (3) other artifacts or objects; and (4) photographs, motion pictures, or audio and video tape. Items must be of educational, cultural, historical or scientific value; and their exhibition, in the case of international exhibitions, must be certified by the Department of State to be in the national interest. No indemnity agreement for a single exhibition shall exceed \$1.2 billion for international exhibitions, or \$750 million for domestic exhibitions. Deductible amounts are on a sliding scale based on the value of certificate, as follows: \$15,000 deductible for valuations up to \$2 million; \$25,000 deductible for valuations from \$2 million to \$10 million; \$50,000 deductible for valuations from \$10 million to \$125 million; \$100,000 deductible for exhibitions with valuations from \$125 to \$200 million; \$200,000 deductible for valuations of \$200 million to \$300 million; \$300,000 deductible for valuations of \$300 million to \$400 million; \$400,000 for valuations of \$400 million to \$500 million; and \$500,000 for valuations above \$500 million. The total amount of indemnities that can be outstanding at any one time is \$10 billion for international exhibitions and \$5 billion for domestic exhibitions.

Applicant Eligibility:

Federal, State, and local government entities, and nonprofit agencies and institutions may apply.

Beneficiary Eligibility:

Federal, State, and local government entities, and nonprofit agencies and institutions will benefit. Audiences of indemnified exhibitions will also benefit.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Prior to applying, potential applicants are encouraged to consult with the Indemnity Administrator, National Endowment for the Arts, Washington, DC 20506-0001. All applicants must consult the Arts and Artifacts Indemnity Guidelines available at www.arts.gov. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Applicants must obtain guidelines and application instructions from the Arts Endowment's Web site at www.arts.gov, and apply through Grants.gov.

Award Procedure:

The Federal Council on the Arts and the Humanities makes final decisions on all awards based on recommendations from consulting panels of professionals in the field.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The length of time between application and notification is dependent on the scheduling of meetings of the Federal Council on the Arts and the Humanities; approximately 3 months.

NATIONAL ENDOWMENT FOR THE ARTS

45.024 PROMOTION OF THE ARTS GRANTS TO ORGANIZATIONS AND INDIVIDUALS

FEDERAL AGENCY:

National Endowment for the Arts

AUTHORIZATION:

National Foundation on the Arts and the Humanities Act of 1965, as amended, Public Law 089-209, 20 U.S.C 951 et seq.

OBJECTIVES:

To support the creation of art that meets the highest standards of excellence, public engagement with diverse and excellent art, lifelong learning in the arts, the strengthening of communities through the arts, and increased public knowledge and understanding about the contributions of the arts.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The NEA's grants support projects that include: opportunities for artists to create, refine, perform, and exhibit their work; the presentation of artistic works of all cultures and periods; opportunities for arts organizations and artists to expand and diversify their audiences; innovative uses of new models or technology to create work or engage audiences; the preservation of significant works of art and cultural traditions; innovative creative placemaking that contributes to community livability; opportunities for individuals to experience and participate in a wide range of art forms and activities; opportunities to enhance the effectiveness of arts organizations and artists; development, production and national distribution of innovative media projects about the arts and of media projects that can be considered art; standards-based arts education activities for K-12 students; lifelong learning in the arts for individuals of all ages; professional development for artists and arts-related educators; the recognition of artists for their contributions to our nation's artistic heritage; partnerships with other government agencies and foundations to carry out quality projects or initiatives of mutual interest including international cultural exchange; other activities that acquaint foreign artists and cultural officials with the best of American culture; research that analyzes the value and impact of the arts in the United States; and NEA initiatives intended to address special needs or opportunities.

Consult the current funding opportunities, guidelines, or program announcements for the area of interest for complete information (see www.arts.gov). Grant funds must be used for the purposes outlined in the relevant guidelines or program announcement, and in accordance with the National Endowment for the Arts General Terms and Conditions for Grants and Cooperative Agreements. All of the funds under "Promotion of the Arts - Grants to Organizations and Individuals" are discretionary.

Applicant Eligibility:

Tax-exempt organizations meeting the following conditions may apply: (1) No part of any earnings may benefit a private stockholder or individual, and (2) donations to the organization are allowable as charitable deductions under Section 170(c) of the Internal Revenue Code. Examples of eligible organizations are arts institutions, arts service organizations, local arts agencies, official units of state and local governments, federally recognized tribal communities and Indian tribes. Generally, an organization may submit only one application for a single project under one of the category deadlines; must have a three-year history of programming prior to the application deadline; and must have submitted acceptable final reports by the due date for all Arts Endowment grants previously received. Individuals must be U.S. citizens or permanent residents and, according to 20 U.S.C. 954 (c), must demonstrate exceptional talent. Currently, the only individuals eligible to apply directly are published creative writers and translators. Certain master artists who have made extraordinary contributions to the arts in the United States are eligible for honorary fellowships awarded on the basis of nominations. See respective funding opportunities, guidelines, or program announcements for further information.

Beneficiary Eligibility:

Nonprofit organizations, state and local governments, local arts agencies, local education agencies (school districts), federally recognized tribal communities and Indian tribes, literary artists, and master artists. Through activities and services supported, beneficiaries include artists and the general public.

Credentials/Documentation:

Applicants should review relevant funding opportunities, guidelines, or program announcements at www.arts.gov for full requirements.

For individuals, Literature fellowship applicants must be published writers. Nominators of candidates for NEA honorary fellowships for master artists must document the candidate's significant contribution to the applicable art form.

For institutions of higher education, allowable costs will be determined according to OMB Circular No. A-21; for other nonprofit organizations making application, allowable costs will be determined according to OMB Circular No. A-122. For local and state governments: OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Applicants should consult current funding opportunities, guidelines, or program announcements for the funding area under which they intend to apply. Relevant items are available on the Arts Endowment's Web site at www.arts.gov. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants must obtain current Arts Endowment funding opportunities, guidelines, or program announcements (available at www.arts.gov). Applicants must adhere to instructions, and must submit their applications through Grants.gov.

Award Procedure:

Applications generally receive three independent levels of review. First, they are reviewed by independent, national panels of artists and other arts experts. Panel recommendations are forwarded to the National Council on the Arts, which then makes recommendations to the Chairman of the National Endowment for the Arts. The Chairman reviews the Council's recommendations and makes the final decision on all awards.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Range of approval/disapproval time varies by funding category. Dependent on deadline dates and meetings of the National Council on the Arts. Details can be found in the funding opportunities, guidelines, and program announcements available at www.arts.gov.

Appeals:

Information on requests for reconsideration may be obtained from the headquarters office.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Grant awards to organizations generally must be matched at least 1:1. Awards to individuals do not require a match. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The length of time the assistance is available and money awarded can be spent varies according to project or grant category. Most grants have a one-year period of support; some extend longer. See the following for information on how assistance is awarded/released: Grantees must submit a request for payment to cover immediate allowable project expenses. Generally, these requests for payment may be submitted at any time during the period of support.

Reports:

Most grantees must submit a Final Descriptive Report no later than 90 days following the end of the grant period. No reports are required from recipients of NEA honorary fellowships for master artists. No cash reports are required. All organizational grantees must submit a Progress Report at the point that the request for payment exceeds two-thirds of the total grant amount. All organizational grantees are required to submit a Final Federal Financial Report no later than 90 days following the end of the grant period. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. No audits are required for Arts Endowment awardees who are individuals.

Records:

Award-related records must be retained by the grantee for 3 years following submission of the Final Federal Financial Report.

Account Identification:

59-0100-0-1-503.

Obligations:

(Project Grants (Discretionary)) FY 10 \$79,902,879; FY 11 est \$79,937,791; and FY 12 est \$69,280,500 - FY 2010 figures include \$79,630,757 for the NEA's regular grants and \$272,122 in Recovery Act funding. The FY 2011 and 2012 figures above are for regular grants only. The FY 2012 figure is based on the FY 2012 budget request. Each year's regular grant figures include funds for the Challenge America: Reaching Every Community initiative. FY 2010 figures also include funds for American Masterpieces, which was phased out for 2011. FY 2011 and 2012 figures include funds for the Our Town initiative.

Range and Average of Financial Assistance:

Most of the Arts Endowment's regular grants range from \$10,000 to \$100,000. Grants of \$100,000 or more are made only in rare instances, and only for projects that the Arts Endowment determines demonstrate exceptional national or regional significance and impact. In the past few years, well over half of the Agency's grants have been for amounts less than \$25,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: The Arts Endowment received more than 6,000 applications and made more than 2,700 awards in all 50 States and six special jurisdictions for a broad variety of arts projects. (Eight grants were awarded using Recovery Act funds.) Fiscal Year 2011: The Arts Endowment anticipates receiving approximately 6,000 applications and making more than 2,400 awards in all 50 States and six special jurisdictions for a broad variety of arts projects. Fiscal Year 2012: The Arts Endowment anticipates receiving approximately 6,000 applications and making more than 2,000 awards in all 50 States and six special jurisdictions for a broad variety of arts projects (figures based on the FY 2012 budget request).

ADVISORY SERVICES AND COUNSELING; PROJECT GRANTS

USES AND USE RESTRICTIONS:

Partnership Agreements support elements of a state or regional plan addressing state or regional priorities that: 1) enhance opportunities for the creation of art that meets the highest standards of excellence; 2) foster public engagement with excellent art; 3) provide Americans of all ages with arts learning opportunities; 4) incorporate the arts and design into strategies to improve the livability of communities; and 5) increase public knowledge and understanding of the various ways the arts contribute to positive outcomes for individuals and communities. Limited Partnership funds also are available for national services provided by membership organizations of SAAs and RAOs. Partnership Agreement funds must be used to supplement and not to supplant non-Federal funds.

Applicant Eligibility:

Agencies that are officially designated as the state arts agency by its state government in each of the 50 States and six special U.S. jurisdictions, and that meet the NEA eligibility requirements for SAAs as outlined in the Partnership Agreements guidelines on the NEA's Web site; regional arts organizations that represent state arts agencies and that meet the NEA eligibility requirements for RAOs as outlined in the Partnership Agreements guidelines on the NEA's Web site; and organizations providing support services to state and regional arts agencies at a national level.

Beneficiary Eligibility:

The official arts agencies of the 50 states and six U.S. jurisdictions, regional arts organizations, and organizations providing support services to SAAs and RAOs at the national level. Through activities and services supported, beneficiaries include local arts agencies, nonprofit organizations, artists, and the general public.

Credentials/Documentation:

The State Partnership Agreement requires that the agency be legally designated as the official state arts agency and that it meet all NEA eligibility requirements. The Regional Partnership Agreement stipulates that the regional organization must be authorized by three or more state arts agencies to apply for funds on their behalf and that it meet all NEA eligibility requirements. An SAA can belong to only one RAO. OMB Circular No. A-122 applies to this program. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Applicants should consult the Partnership Agreements guidelines (available at www.arts.gov). Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants must obtain current Partnership Agreements

guidelines at www.arts.gov and adhere to instructions. Applications must be submitted through Grants.gov.

Award Procedure:

Applications receive three independent levels of review. First, they are reviewed by an independent, national panel of individuals with expertise in the arts and the state and regional arts agency field. Panel recommendations are forwarded to the National Council on the Arts, which then makes recommendations to the Chairman of the National Endowment for the Arts. The Chairman reviews the Council's recommendations and makes the final decision on all grant awards. Partnership Agreements receive panel review on a three-year cycle -- one-third of the SAAs and RAOs are reviewed each year -- with funding subject to annual recommendation and approval by the Council and the Chairman.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The Partnership Agreements deadline is generally in late September/early October. Applications are generally reviewed by the National Council on the Arts and approved by the NEA Chairman in late March. See the Arts Endowment's Web site at www.arts.gov for specific dates.

Appeals:

Information on requests for reconsideration may be obtained from the headquarters office.

Renewals:

The Arts Endowment uses staggered, multi-year review for Partnership Agreements. Funding is subject to annual review and approval.

Formula and Matching Requirements:

Statutory Formula: Title National Foundation on the Arts and the Humanities Act of 1965, as amended, Part 20 USC 954, Subpart (g), Public Law 089-209. Matching Requirements: Partnership Agreement awards must be matched at least 1:1 with non-federal funds.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Each award is for the full fiscal year or as designated. Partnership Agreement awards support activities scheduled to begin on or after July 1 of the year following the application deadline. See the following for information on how assistance is awarded/released: Generally, requests for payment to cover immediate allowable project expenses may be received at any time during the grant period.

Reports:

For Partnership Agreements, a Final Descriptive Report is due no later than 90 days following the end date of the period of support. No cash reports are required. Progress reports are required for all grants and must be submitted at the time the cumulative amount of grant funds requested exceeds two-thirds of the grant amount. Final Federal Financial Reports are due no later than 90 days following the end date of the period of support. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Grant-related records are to be retained by grantees for three years following submission of the Final Federal Financial Report.

45.129 PROMOTION OF THE HUMANITIES_FEDERAL/STATE PARTNERSHIP

FEDERAL AGENCY:

National Endowment for the Humanities

AUTHORIZATION:

National Foundation on the Arts and the Humanities Act of 1965, as amended, Public Law 89-209, 20 U.S.C. 951 et seq.

OBJECTIVES:

To promote local, statewide, and regional humanities programming through annual grants to humanities councils in each of the 50 States, the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Northern Mariana Islands, Guam, and American Samoa. The 56 councils conduct humanities projects and grant programs for local nonprofit organizations, institutions, and groups, and occasionally for individuals. Under the provisions of 20 U.S.C. 956(f)(8), only

one entity in each State may receive assistance from NEH as the State humanities council.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Grants may be used to fund local, statewide, and regional humanities projects, subject to guidelines determined by each State humanities council.

Applicant Eligibility:

Nonprofit citizen councils in the several States and territories which conform to the requirements of 20 U.S.C. 956(f). If the State matches a certain percentage of the Federal grant and meets other legislated requirements, the Governor may designate the existing Council as a State agency. The resulting agency becomes an eligible applicant.

Beneficiary Eligibility:

State and local governments; sponsored organizations; public and private nonprofit institutions/organizations; other public institutions/organizations; Federally recognized Indian tribal governments; Native American organizations; U.S. Territories; non-government general; minority organizations; other specialized groups; and quasi-public nonprofit institutions which apply directly to the State Humanities Council.

Credentials/Documentation:

Submission of an annual compliance plan and a self-assessment every five years from the council. Compliance requirements are outlined in 20 U.S.C. 956(f). Costs will be determined in accordance with OMB Circular No. A-122 as amended for nonprofit organizations. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. Filing of a compliance plan is required from all councils annually and a self-assessment every five years

Award Procedure:

Compliance plans are reviewed by Federal/State Partnership staff. Self-assessments are reviewed by teams of visiting scholars and other professionals. Awards are made by the Chairman of the National Endowment for the Humanities after recommendation by the National Council on the Humanities.

Deadlines:

Jun 01, 2012 Jun 1 for annual compliance plans. Timetable for submission of self-assessment material is flexible.

Range of Approval/Disapproval Time:

> 180 Days. Variable: Six months.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: As established by the Congressional funding formula, each State council receives \$200,000 of the definite funds appropriated to Federal/State Partnership. Of the remaining funds, 44 percent is divided equally among the States which have a population of 200,000 or more, 22 percent is allocated to each council on the basis of population, and 34 percent is awarded at the discretion of the Chairman of the agency. Total matching of the grant on a one-to-one basis is required. Source: 20 U.S.C. 956 (f)(4). This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Thirty-six months. Funds must be expended during the grant period. Funds are released as required. Method of awarding/releasing assistance: by letter of

credit.

Reports:

Compliance plans are required annually. A cash report is required quarterly. No progress reports are required. An expenditure report is required quarterly and a final expenditure report is due within 90 days after completion or termination of project support by NEH. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. "Audits of Institutions of Higher Education and Other Nonprofit Organizations." have been mandated for the program. In addition, grants are subject to inspection and audits by NEH and other Federal officials.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: 1 The humanities councils in Maryland, California, Washington state, and Illinois launched initiatives that focus on civic discourse and democracy including Practicing Democracy and Searching for Democracy, while the Arizona Humanities Council debuted their Project Civil Discourse focused on fostering civil discourse on difficult, yet important community and national issues.

2 The West Virginia Humanities Council launched their free online encyclopedia, e-WV, providing articles, timelines, photos, maps, and quizzes to web visitors.

3 Many state councils turned their focus to the Sesquicentennial of the Civil War, planning programs, events, and materials that deal with state, regional, and national Civil War events. The Vermont Humanities Council started a weekly e-newsletter, The Civil War Book of Days, detailing what happened during that week 150 years ago; councils such as South Carolina have supported Civil War exhibits; others have held discussions, Speakers Bureau programs, and Chautauqua events all focused on events and people of the Civil War.

4 The councils in Georgia and Illinois partnered with WGBH and the American Experience to bring film screenings and discussion programs about the documentary The Freedom Riders to towns throughout their states. Other councils also held advanced screenings of the film for their constituents.

5 Various state councils provided support to projects focused on Native American themes and issues. Minnesota launched an interactive website called the Bdote Memory Map that explores the Dakota peoples relationship to Minnesota and includes information on the Dakota language as well as places of interest around the Twin Cities area. The Oklahoma Humanities Council provided a grant for a Cherokee Humanities course that explored the tribes beliefs, practices, and behaviors, as well as a grant for an exhibit exploring the Cherokee Female Seminary.

6 The Virginia Foundation for the Humanities continued to use electronic media to initiate discussions through their Backstory with the American History Guys radio call-in show, which features three prominent historians providing perspective on events happening around us every day, and has recently expanded from a monthly to a weekly production schedule. National Endowment for the Humanities

AUTHORIZATION:

National Foundation on the Arts and the Humanities Act of 1965, as amended, Public Law 89-209, 20 U.S.C 951.

OBJECTIVES:

To support educational and cultural institutions and organizations in order to increase their financial stability and to sustain or improve the quality of humanities programs, services, or resources. Normally, institutions requesting an NEH challenge grant must raise three dollars in new donations from nonfederal sources to receive each Federal dollar A special category of challenge grants is designed to help 2-year colleges secure long-term improvements in humanities activities. Two-year colleges, along with Historically Black Colleges and Universities and Tribal Colleges and Universities, are required to raise two times the Federal award in new donations from nonfederal sources.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds may be applied to a variety of institutional needs which an applicant has demonstrated serve both the humanities and the institution's long-term objectives. The major purpose of an NEH Challenge Grant is to help institutions and organizations attain or sustain a high level of quality in

humanities programs or activities by building long-term capital resources. The most common expenditure of grant and matching funds is the creation or augmentation of endowments. Also possible are direct expenditures such as library acquisitions, technological enhancement, construction and renovation, and other costs clearly attributable to improvements in humanities programs and activities. Funds may not be used directly for general operating support or undergraduate scholarships and prizes or for short-term projects or projects eligible for support from other NEH programs.

Applicant Eligibility:

Any public or private U.S. nonprofit institution or organization working wholly or in part within the humanities may apply, including the following: two-year and four-year colleges; universities; museums; historical societies; research libraries; public libraries; advanced study centers; media organizations; university presses; professional societies; or state humanities councils. State and local governments and U.S. Territories are eligible to apply on their own behalf or on behalf of nonprofit institutions, associations or organizations within their jurisdictions. Individuals and public and private elementary and secondary schools or school districts are not eligible to apply.

Beneficiary Eligibility:

All applicant organizations and institutions and all users of their humanities resources, programs, or activities.

Credentials/Documentation:

. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

None required, but preliminary discussion with Endowment staff and the submission of a draft application at least six weeks before the deadline are strongly encouraged. The standard application forms as furnished by the Endowment and required by OMB Circular No. A-102 must be used for this program. This program is excluded from coverage under OMB Circular No. A-102 and E.O. 12372. Environmental impact information is not required for this program. Deadlines:

May 02, 2012: Challenge Grants. May 02, 2012 for all challenge grants, except applications made for a special initiative for two-year colleges, which have a February 1, 2012 deadline. Deadlines are receipt deadlines. Write or call the NEH Office of Challenge Grants.

Range of Approval/Disapproval Time:

> 180 Days. Seven months (approximately 210 days) after the deadline.

Appeals:

None, but applicants may request written reasons for rejection and reapply at the next appropriate deadline with a revised proposal.

Renewals:

> 180 Days. Eligibility to apply for a subsequent award begins in the third year after the close of the previous challenge grant.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: All challenge grant funds are matching funds. Grantees must raise three nonfederal dollars for every federal dollar offered, except that Historically Black Colleges and Universities, Tribal Colleges and Universities, and two-year colleges are required to raise two times the Federal award.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

From one to five years. Funds must be expended during the grant period. Funds expended include funds deposited into an income earning account. See the following for information on how assistance is awarded/released: Federal funds up to the amount offered in any year are released as matching amounts are certified to the Endowment and minimum annual matching requirements are met.

Reports:

Program reports are not applicable. Cash reports are not applicable. Narrative progress reports are required biennially; reports on nonfederal contributions raised and sources of giving are required annually. Final narrative and financial reports are due within 90 days after the grant ending date. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. , Public Law 89-209, 20 U.S.C 951.

OBJECTIVES:

Fellowships and Summer Stipends provide support for scholars to undertake full-time independent research and writing in the humanities. Grants are available for 6-to-12-month fellowships and 2 months of summer study. Awards for Faculty programs support research work conducted by faculty at Historically Black Colleges and Universities, Institutions with High Hispanic Enrollment, and Tribal Colleges and Universities for periods of 2 to 12 months.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Fellowships and Summer Stipends: Projects may contribute to scholarly knowledge or to the general public's understanding of the humanities. The proposed study or research may be completed during the grant period or it may be part of a longer project. Supported applications typically result in publication. The Awards for Faculty program assist faculty members as they engage in advanced research in the humanities. These awards are restricted to faculty members at Historically Black Colleges and Universities, Institutions with High Hispanic Enrollment, and Tribal Colleges and Universities as designated by the White House offices charged with the implementation of Executive Orders 12876, 13230, 13021. Applications for planning institutional curricula, for educational research projects, for the creation or performance of works of art, and that lack humanities content or methodology are not eligible.

Applicant Eligibility:

All applicants must be U.S. citizens, native residents of U.S. jurisdictions, foreign nationals who have been legal residents in the U.S. or its jurisdictions for at least the three years immediately preceding the application deadline. Fellowships: Faculty members at colleges and universities, individuals affiliated with other institutions, independent scholars, and others who work in the humanities are eligible. Applicants need not have advanced degrees, but they must have completed their formal academic training. Active candidates for degrees and persons seeking support for work leading to degrees are not eligible. Summer Stipends: University and college faculty members must be nominated by their academic institutions. Faculty members with terminating appointments, independent scholars, and nonfaculty college and university staff members are exempt from nomination and may apply directly. Awards for Faculty are offered to full-time faculty members at Historically Black Colleges and Universities, Institutions with High Hispanic Enrollment, and Tribal Colleges and Universities as designated by the White House offices charged with the implementation of Executive Orders 12876, 13230, 13021.

Beneficiary Eligibility:

Fellowships and Stipends: College and university faculty and staff, individuals affiliated with institutions other than colleges and universities, and scholars and writers working independently. Awards for Faculty: faculty members at Historically Black Colleges and Universities, Institutions with High Hispanic Enrollment, and Tribal Colleges and Universities.

OBJECTIVES:

To strengthen the intellectual foundations of the humanities through the collaboration of scholars and the support of post-doctoral fellowship programs at independent research institutions.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Collaborative Research and Scholarly Editions and Translations grants support up to three years of research. Awards support direct costs, including salaries, travel, supplies, and appropriate research assistance and consultation. Grants also support fellowships offered through independent research centers and institutions.

Applicant Eligibility:

For Collaborative Research and Scholarly Editions and Translations, institutions of higher education, nonprofit professional associations, scholarly societies, and other nonprofit organizations in the United States may apply, as may eligible individuals (U.S. citizens and foreign nationals who have been living in the United States or its jurisdictions for at least the three years immediately prior to the time of application). For support of fellowship programs, U.S. independent research centers, scholarly societies, and international research organizations with existing fellowship programs may apply. Individual scholar eligibility is the same as described above.

Beneficiary Eligibility:

U.S. citizens and residents, State and local governments, sponsored organizations, public and private nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian tribal governments, Native American organizations, U.S. territories; non-governmental-general; minority organizations, other specialized groups; and quasi-public nonprofit institutions benefit.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-122 for nonprofit organizations and OMB Circular No. A-21 for educational institutions. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Prior to submitting a proposal, applicants are encouraged to contact program staff for advice on preparing the proposal, and for review of draft proposals. These draft reviews are not part of the formal review process and have no bearing on the final outcome of the proposal, but applicants have found them helpful in strengthening their applications. Program staff recommend that draft proposals be submitted no later than six weeks before the deadline. Time restraints may prevent staff from reviewing draft proposals submitted after that date. Draft proposals may be submitted by e-mail attachment to research@neh.gov. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applications to NEH must be submitted via [Grants.gov](http://www.neh.gov/grants/grants.html). NEH application instructions are available online at <http://www.neh.gov/grants/grants.html>.

Range of Approval/Disapproval Time:

> 180 Days. For Collaborative Research, Scholarly Editions and Translations, and fellowship programs offered through independent research centers and international research organizations, approximately seven months. For Fellowships at Digital Humanities Centers, approximately six months.

Appeals:

None, but applicant may reapply with a revised proposal.

Renewals:

Renewal applications are eligible; they are evaluated in competition with new applications.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Cost sharing consists of the cash contributions made to the project by the applicant, third parties and other federal agencies, as well as third party in-kind contributions, such as donated services and goods. Cost sharing includes third party gift money that will be raised to release federal matching funds. Cost sharing is not required. NEH, however, is rarely able to support the full costs of projects approved for funding. Consult the individual program guidelines for more information.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Up to 36 months for Collaborative Research, Scholarly Editions and Translations, and Fellowship Programs at Independent Research Institutions. See the following for information on how assistance is awarded/released: Funds are released as required and must be expended during the grant period.

Reports:

Program reports are not applicable. Cash reports are required quarterly. For Collaborative Research, Scholarly Editions and Translations, and Fellowship Programs at Independent Research Institutions: Progress reports are required at least annually, no more frequently than quarterly. Final progress are due within 90 days after completion or termination of project support by NEH. Final expenditure reports are due within 90 days after completion or termination of project support by NEH. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. In addition, grants are subject to inspection and audits by NEH and other Federal officials.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Collaborative Research: the University of Nebraska received \$220,000 in outright funds to develop an online database and collection of essays on Washington, D.C. during the American Civil War; University of Chicago received \$250,000 for continued archaeological field work at Tell Edfu, a provincial capital in Upper Egypt; the University of California, Berkeley, received \$200,000 in outright funds and \$200,000 in federal matching funds, to support the ongoing research and publication of editions of the works of American author Mark Twain; the University of Georgia received \$90,000 in outright funds for an edition and translation of a corpus of Latin poetry written in response to the 1571 Battle of Lepanto between European forces and the Ottoman Empire; the American Institute of Indian Studies located in New Delhi received \$270,000 in outright funds to support the research of two fellows per year over three years. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

For Collaborative Research, the principal criteria considered by evaluators are: (1) Intellectual significance of the project, including its potential contribution to scholarship in the humanities; the likelihood that it will stimulate new research; its relationship to larger themes in the humanities; and the significance of the material on which the project is based. (2) Pertinence of the research questions being posed, the appropriateness of research methods or conference design; the appropriateness of the technology employed in the project; the feasibility of the work plan; and the appropriateness of the field work to be undertaken, the archival or source materials to be studied, and the research site. (3) Qualifications, expertise, and levels of commitment of the project director and key project staff or contributors. (4) Soundness of the dissemination and access plans, including benefit to the audience identified in the proposal and the strength of the case for employing print, digital format, or a combination of media; and in the case of archaeology projects, the likelihood that the project will produce an interpretive study. All other considerations being equal, preference will be given to projects that provide free, online access to digital materials produced with grant funds. (5) Potential for success, including the likelihood that the work proposed will be completed within the projected time frame; where appropriate, the project's previous record of success; and the reasonableness of the proposed budget in relation to anticipated results.

For Scholarly Editions and Translations, the principal criteria considered by evaluators are: (1) The intellectual significance of the proposed work, including its potential contribution to scholarship in the humanities; the likelihood that it will stimulate new research; its relationship to larger themes or issues in the humanities; and the significance of the material on which the project is based. (2) The appropriateness of the research methods, critical apparatus, and editorial policies; in the case of translation projects, the translation approaches; the appropriateness of selection criteria; the thoroughness and feasibility of the work plan; the quality of the samples, e.g., their content, accuracy; readability, and the clarity and helpfulness of annotation. (3) The qualifications, expertise, and levels of commitment of the project director and key project staff or

contributors. (4) The soundness of the dissemination and access plans, including benefit to the audience identified in the proposal; the strength of the case for producing print volumes, electronic format, or a combination of media; and the appropriateness of the technology to be used. All other considerations being equal, preference will be given to projects that provide free, online access to digital materials produced with grant funds. (5) The potential for success, including the likelihood that the proposed project will be successfully completed within the projected time frame; when appropriate, the edition or translations previous record of success; and the reasonableness of the budget in relation to its likely results.

For Fellowship Programs at Independent Research Institutions, the principal criteria considered by evaluators are: (1) How important to the advancement of the humanities is the fellowship program for which funding is requested? (2) Are fellows likely to pursue their research more successfully because of the research collections, facilities, services, and other resources provided by the applicant institution? In the case of centers with residential programs, does the application provide evidence that the fellows' projects benefit significantly from the location of the center and the intellectual exchange among the fellows? (3) How strong is the institution's previous record in offering fellowships? Have former fellows been productive? Have the scholarly contributions resulting from their FPIRI fellowships been of value to scholars and general audiences in the humanities? (4) Is the fellowship selection process, including the choosing of selection committee members, expert and objective? (5) Does the application make a persuasive case for the amount of NEH support requested for fellowships? (6) How effective is the publicity for the competition for fellowships? (7) How effective is the administration of the fellowship program? Is the institution's research misconduct policy adequate? (8) Are there ways in which the fellowship program could be improved?.

Enduring Question Course Grants support the development of new humanities courses at the undergraduate level that examine fundamental questions of the humanities.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Humanities Initiatives at Historically Black, High Hispanic Enrollment, and Tribal Colleges and Universities provide funds for faculty study programs, institutional planning, and the acquisition of library and advanced technology resources that can assist institutions in enhancing humanities opportunities for their students and their communities, typically through strengthening the capacity of faculty to engage student or community beneficiaries in substantive study of the humanities. Humanities Initiatives awards are restricted to Historically Black, High Hispanic Enrollment, and Tribal Colleges and Universities (as designated by appropriate government agencies) and to faculty members at these institutions. Projects that deal solely with pedagogical theory or that are intended to improve writing, speaking, or thinking skills apart from a focus on specific humanities content are not normally supported. Enduring Questions Course Grants encourage faculty and students at the undergraduate level to grapple with the most fundamental concerns of the humanities, and to join together in deep, sustained programs of study in order to encounter influential thinkers over the centuries and into the present day; these questions include What is the good life? What is dignity? What is good government? What are the limits of scientific understanding? What are the origins of the modern world?.

Applicant Eligibility:

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: No Current Data Available Fiscal Year 2011: Humanities Initiatives:(1) A Historically Black University received a two year project to equip professors in the humanities and sciences with knowledge of narrative theory and practice to benefit students in the health care professions, particularly nursing. (2) A Tribal College received an award to support a three-year project to collect and preserve oral history narratives from elders of the community and to develop curricular resources from this material (3) An Institution with High Hispanic Enrollment enrollment received an award to conduct a two-year project to establish a new interdisciplinary minor in Latino and Latin American studies and design new courses to be included in the minor.

Enduring Questions: (1) A four-year college was awarded a grant to create a new course exploring the question What would an ideal society look like? The course will explore the question through analysis of philosophical works from ancient Greece to the present day that consider how society should be structured based on human nature, followed with a series of utopian and dystopian novels, and ending with a short look at attempts to create utopias in real life. (2) A public university was awarded a grant to fund the development of an undergraduate course on the question, Where does morality come from? The course would investigate five possible answers to the question of where morality originates: from God, from reason, from culture, from self-interest, or from emotion. The course would be divided into five units, each centered on a classic narrative work; and each unit would include shorter texts supporting or critiquing the narrative's central viewpoint. (3) A four-year college was awarded a grant to fund the development of a course exploring the enduring question: Why work? The course presents work as a double-edged sword, framing it as an opportunity for personal satisfaction and social contribution on the one hand and a practical and necessary burden on the other, and explores this question through the use of philosophical texts, and by exploring diverse disciplines including sociology, literature, philosophy and history. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Proposals are read and evaluated on whether the intellectual quality of the project is excellent; whether the project is well designed; and whether the project will have significant results. See the program guidelines for detailed criteria. For Humanities Initiatives at Historically Black Colleges and Universities, Institutions with High Hispanic Enrollment and Tribal Colleges and Universities, projects will be selected for funding on the basis of the quality of planned activities and the potential of these activities to strengthen the humanities capacity of the institution; the ability of the institution to carry out the proposed plan; the qualifications of project leaders and consultants; and the cogency of the plan to evaluate the outcomes of the project. For Enduring Questions, projects will be selected for funding based on their intellectual content, feasibility and impact on the intended academic audience.

45.163 PROMOTION OF THE HUMANITIES PROFESSIONAL DEVELOPMENT

FEDERAL AGENCY:

National Endowment for the Humanities

AUTHORIZATION:

National Foundation on the Arts and the Humanities Act of 1965, as amended, Public Law 89-209, 20 U.S.C 951.

OBJECTIVES:

Seminars and Institutes promote better teaching and research in the humanities through faculty development. Landmarks of American History and Culture promote better teaching of American history and culture through intensive, rigorous faculty and staff development workshops at historical sites, colonial settlements, battlefields, artists' and writers' homes--while enabling the participants to gain experience in conveying the importance of historical places and while enhancing their teaching materials.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants support Summer Seminars and Institutes, Landmarks of American History and Culture Workshops, Picturing America School Collaboration Projects. Awards support direct costs, including salaries, participant stipends, selection costs, travel, and supplies. Projects should engage participants in deepening the knowledge of the subjects they teach and strengthen their capacity to engage students in substantive study of the humanities. Projects that deal solely with pedagogical theory or that are intended to improve writing, speaking, or thinking skills apart from a focus on specific humanities content are not normally supported.

Applicant Eligibility:

Distinguished scholar/teachers in the humanities may apply through a sponsoring institution to direct a seminar or institute for college teachers or school teachers. For Landmarks in American History and Culture, the following

may apply: State and local governments; sponsored organizations; public and private nonprofit institutions/organizations; other public institutions/organizations; Federally recognized Indian tribal governments; Native American organizations; U.S. Territories; non-government-general; minority organizations; other specialized groups; and quasi-public nonprofit institutions.

Beneficiary Eligibility:

For Seminars and Institutes and Landmarks of American History and Culture--primarily K-12 or college teachers, depending on the particular project--as well as their colleagues and students. Credentials/Documentation.

Credentials/Documentation:

For educational institutions, costs will be determined in accordance with OMB Circular No. A-21 and Circular No. A-122 for nonprofit organizations. This program is excluded from coverage under OMB Circular No. A-87. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applications to NEH must be submitted via Grants.gov. Proposal instructions are available on line (<http://www.neh.gov>) or from the headquarters office.

Award Procedure:

Applications are reviewed by subject area specialists, panels of scholars, and other appropriate individuals. Awards are made by the Chairman of the National Endowment for the Humanities after advice from the National Council on the Humanities.

Deadlines:

Mar 01, 2012: To direct a Landmarks of American History Workshop project during the summer of the following year.

Range of Approval/Disapproval Time:

From 120 to 180 days. Approximately 4 to 5 months; 6 weeks for participants in Seminars and Institutes, Landmarks of American History and Culture Workshops, and Picturing America School Collaboration Projects.

Appeals:

None, but director/applicant may request a critique of the proposal and reapply.

Renewals:

Applications for renewal must demonstrate a record of success and the potential to serve new audiences. These applications compete against new applications.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Length and Time Phasing of Assistance: Funds must be expended during the grant period. Funds are released as required. Method of awarding/releasing assistance: by letter of credit.

Reports:

Program reports are not applicable. Cash reports are due quarterly. A final narrative report and a final expenditures report are required within 90 days after completion or termination of the grant period. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: A film production company received a grant for the production of a computer game and an accompanying website about life in a New England mill town in 1906. A research center received a grant for a traveling museum exhibition and a traveling library panel exhibition, public programs, and a website on the history and influence of the King James version of the Bible. Fiscal Year 2011: A film production company received a grant to

produce a documentary film on ancient Maya pottery and the ethics of studying and collecting objects that may have been looted. A museum received a grant for a long-term exhibition and website about American identity and worldview as shaped by its whaling heritage, as well as program activities on board a historic whaling ship.

. An educational foundation received a grant for a multiplatform project on the abolitionists, the determined activists who sought the immediate end of slavery in the decades leading up to the Civil War. Fiscal Year 2012: No current examples available.

CRITERIA FOR SELECTING PROPOSALS:

A successful application will demonstrate national significance or impact, outreach to groups of Americans not often engaged in public humanities projects, collaboration among cultural institutions and organizations as well as other similar or different groups, and use of a broad spectrum of the most effective formats, technologies, and venues for lifelong learning in the humanities. Although every proposal will not be expected to meet all of the criteria outlined above, the Division will give priority to applications that further these objectives. As part of the We the People initiative, the division currently has two special initiatives: Family and Youth Programs in American History and America's Historic Places. See program guidelines for details.

CRITERIA FOR SELECTING PROPOSALS:

The criteria used to determine funding priorities include the (1) intellectual significance of the long-term project, including its potential to enhance research, teaching, and learning in the humanities; the likelihood that it will stimulate new research or approaches to the humanities or use new digital technologies to communicate humanities scholarship to broad audiences; its relationship to larger themes in the humanities; and the significance of the material on which the project is based; (2) the appropriateness of the proposed methods; the appropriateness of the technology employed in the project; the feasibility of the work plan; (3) qualifications, expertise, and levels of commitment of the project director and key project staff or contributors; (4) promise of quality, usefulness to the targeted audience, and/or impact on scholarship of the long-term project; soundness of the dissemination plans, including benefit to the audience identified in the proposal and the strength of the case for employing print, microform, digital format, or a combination of media; (5) quality of the assessment and evaluation of the activities, and the potential contribution of this evaluation to the realization of the long-term goals; and (6) potential for success, including the likelihood that the work proposed will be completed within the projected time frame; where appropriate,

the project's previous record of success; and the reasonableness of the proposed budget in relation to anticipated results.

NATIONAL LABOR RELATIONS BOARD

46.001 LABOR-MANAGEMENT RELATIONS

(NLRB)

FEDERAL AGENCY:

National Labor Relations Board

AUTHORIZATION:

Labor-Management Relations Act of 1947, as amended, Public Law 86-257, 29 U.S.C. 141 et seq.; Public Law 91-375, 39 U.S.C. 1201-1209; Public Law 93-95, 29 U.S.C. 186; Public Law 93-360, 29 U.S.C. 152, 158, 168, 169, 171, 183; Public Law 96-245, 29 U.S.C. 161 (4); Public Law 96-593; Public Law 97-375, 29 U.S.C. 153(c).

OBJECTIVES:

To avoid or substantially minimize industrial strife affecting interstate commerce by providing orderly and peaceful procedures to protect the rights of employers, employees, labor organizations, and the general public, and to prevent unlawful interference with these rights.

TYPES OF ASSISTANCE:

INVESTIGATION OF COMPLAINTS; PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

(1) Determines and implements, through secret-ballot elections, the free democratic choice by employees as to whether they wish to be represented by a union in dealing with their employer and, if so, by which union; and (2) prevents and remedies unlawful acts, called unfair labor practices, by either employers or unions or both. NLRB may seek injunctive relief where a labor dispute results in violence, disruption of employment, or disruption of business relations, potentially in violation of the Labor Management Relations Act. The NLRB does not initiate actions or investigations on its own volition. NLRB processes start only when a covered individual, organization, or employer files an unfair labor practice charge or a petition for an election.

Applicant Eligibility:

Any covered employer, employee, labor organization, or other person who believes a violation of the Labor Management Relations Act has occurred, or who desires the Board to determine whether a labor organization is to be the choice of employees for purposes of representation, may receive information or assistance. The Act limits the term "employee" to exclude: agricultural laborers; domestic workers; individuals employed by spouse or parent; independent contractors; supervisors (as defined by the Act) and individuals employed by an employer subject to the Railway Labor Act or employed by any person who is not an employer as defined by the Act. The United States Government, State governments, political subdivisions of U.S. and State governments, government corporations (except the U.S. Postal Service), Federal Reserve Banks and employers subject to the Railway Labor Act are ineligible employers.

Beneficiary Eligibility:

The covered employer, employee, or the labor organization will benefit.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Charges of unfair labor practices and petitions for determination of representatives are the two principal forms for the purpose of initiating agency action. Such charges and petitions shall be in writing and signed, and shall be sworn to and filed with the Regional Director for the region in which the unfair labor practice allegedly has occurred or in which the proposed or actual bargaining unit exists.

Award Procedure:

Not applicable.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Charges: If the Regional Director refuses to issue an unfair labor practice complaint, an appeal may be filed with the General Counsel in Washington, DC, within 10 days. Petitions: If the Regional Director dismisses the representation petition, an appeal may be filed with the Board in Washington, DC, within 10 days.

Renewals:

Not Applicable.

Formula and Matching Requirements:

NATIONAL SCIENCE FOUNDATION

47.041 ENGINEERING GRANTS

(ENG)

FEDERAL AGENCY:

National Science Foundation

AUTHORIZATION:

National Science Foundation Act of 1950, as amended, Public Law 107-368, 42 U.S.C. 1861 et seq.

OBJECTIVES:

NSF's Directorate for Engineering (ENG) seeks to improve the quality of life and the economic strength of the Nation by fostering innovation, creativity, and excellence in engineering education and research. Specifically, ENG enables the Nation's long-term capacity to perform by: (1) Investing in the creation of new engineering knowledge and the development of human capital within disciplines and at their interfaces; (2) making critical investments to enable an intelligent, agile and adaptable physical infrastructure for engineering education and research; (3) improving the quality and effectiveness of engineering education and research through the integration of and systemic reform of these processes; and (4) enabling knowledge transfer connections among diverse constituencies and communities. Areas of research include: tissue engineering; metabolic pathway engineering; bioinformatics; protein drug processing, fluid flow; combustion; heat transfer; fuel cells; sensors; integrated modeling of the behavior of materials and structures; civil infrastructure; structures and mechanical systems; engineering in geologic materials; reducing risks of natural and technological hazards; enterprise-level integration technologies; innovative design strategies; manufacturing processes and materials; production systems; microelectronic, nanoelectronic, micromagnetic, photonic, and electromechanical devices and their integration into circuits and microsystems; design and analysis of systems and the convergence of control, communications and computation; Engineering Research Groups; Engineering Research Centers; Industry/University Cooperative Research Centers; Engineering Education; Human Resources Development; cross cutting activities and special studies and analyses. Support is also provided for undergraduate student research, graduate research fellowships, research equipment and instrumentation, Small Business Innovation Research (SBIR), and Grant Opportunities for Academic Liaison with Industry (GOALI). ENG also provides support for Foundation-wide programs including the Faculty Early Career Development (CAREER) program and the Integrative Graduate Education and Research Training (IGERT) Program, and Small Business Technology Transfer Program (STTR).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds may be used for paying costs to conduct research, such as salaries and wages, equipment and supplies, travel, publication costs, other direct costs, and indirect costs. This program does not provide support for inventions, product development, marketing, pilot plant efforts, technical assistance, or research requiring security classifications.

Applicant Eligibility:

Public and private colleges and universities; Non-profit, non-academic organizations; for-profit organizations; State and local governments; and

unaffiliated scientists under special circumstances. See the Grant Proposal Guide, Section I.E. for a full description of eligibility requirements. www.nsf.gov/publications/pubsumm.jsp?odskey=gpg.

Beneficiary Eligibility:

See the Grant Proposal Guide, Section I.E. for a full description of eligibility requirements.

Credentials/Documentation:

Proposals must be signed electronically by an official authorized to commit the institution or organization in business and financial affairs and who can commit the organization to certain proposal certifications. Costs will be determined in accordance with OMB Circular Nos. A-21 for colleges and universities, No. A-87 for State and local governments, and A-122 for nonprofit organizations. Applicants for fellowship support must show evidence of ability such as academic records, letters of recommendation, graduate record examination scores, and grade point average. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. By electronic submission via FastLane or Grants.gov of a formal proposal, and, in some programs, a preliminary proposal, describing the planned project and the proposed amount of the grant. For guidelines, see specific funding opportunities and the Grant Proposal Guide. www.nsf.gov/publications/pubsumm.jsp?odskey=gpg

Award Procedure:

NSF staff members review and evaluate all proposals based on a set of criteria established by the National Science Board and, if applicable, solicitation-specific review criteria. In most cases reviews are undertaken with the advice of scientists, engineers, educators, and other appropriate persons who are specialists in the fields covered by the proposals. NSF makes awards on a competitive basis.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. NSF is striving to be able to advise proposers whether their proposals have been recommended or declined for funding within six months. The time interval begins on closing date of an announcement or solicitation, or the date of proposal receipt (whichever is later). The time interval ends when the cognizant NSF Division Director accepts the Program Officer's recommendation.

Appeals:

From 90 to 120 days. The principal investigator may request, in writing, within 90 days of a declination or return, that NSF reconsider its action in declining or returning any proposal or application.

Renewals:

A renewal proposal competes with all other proposals and must be developed fully as though the proposer is applying for the first time. Renewal proposals must be submitted at least 6 months before additional funding is required or consistent with an established deadline, target date or submission window. Principal investigators are encouraged to discuss renewal proposals with the NSF program officer prior to submission.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Mandatory cost sharing will only be required for NSF programs when explicitly authorized by the NSF Director, the National Science Board, or legislation. Inclusion of voluntary, committed

cost sharing is prohibited.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Up to 5 years. Standard or continuing grant, fellowship, or cooperative agreement. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. Annual Project Reports should be submitted at least 90 days prior to the end of the current budget period. Within 90 days following the expiration of the award, a Final Project Report and a Project Outcomes Report for the general public must be submitted. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than \$500,000 a year in Federal awards and commercial organizations are exempt from A-133 audit requirements, except as noted in Circular No. A-133.

Records:

Records, supporting documents, statistical records, and other records pertinent to a grant must be retained by the grantee for a period of 3 years from submission of the Final Project Report. Special record keeping requirements may apply to fellowships.

Account Identification:

49-0100-0-1-251.

Obligations:

(Project Grants) FY 10 \$775,920,000; FY 11 est \$762,710,000; and FY 12 est \$908,300,000 - FY 2010 estimate includes ARRA funding, FY 2011 Obligations estimates are the FY 2010 Enacted/Annualized FY 2011 estimate is based on the FY 2011 enacted level, FY 2012 estimate is based on the FY 2012 Congressional Request.

CRITERIA FOR SELECTING PROPOSALS:

Proposals received by NSF are assigned to the appropriate NSF program where they will be reviewed if they meet NSF proposals preparation requirements. All proposals are carefully reviewed by a scientist, engineer, or educator serving as an NSF Program Officer, and usually by three to ten other persons outside NSF who are experts in the particular fields represented by the proposal. These reviewers are selected by Program Officers charged with the oversight of the review process. Proposers are invited to suggest names of persons they believe are especially well qualified to review the proposal and/or persons they would prefer not review the proposal. These suggestions may serve as one source in the reviewer selection process at the Program Officers discretion. Submission of such names, however, is optional. Care is taken to ensure that reviewers have no conflicts of interest with the proposal.

All NSF proposals are evaluated through use of the two National Science Board (NSB)-approved merit review criteria: intellectual merit and the broader impacts of the proposed effort. In some instances, however, NSF will employ additional criteria as required to highlight the specific objectives of certain programs and activities.

The two NSB-approved merit review criteria are listed below. The criteria include considerations that help define them. These considerations are suggestions and not all will apply to any given proposal. While proposers must address both merit review criteria, reviewers will be asked to address only those considerations that are relevant to the proposals being considered and for which the reviewer is qualified to make judgments. Relevant questions are: (1) What is the intellectual merit of the proposed activity?; (2) How important is the proposed activity to advancing knowledge and understanding within its own field or across different fields?; (3) How well qualified is the proposer (individual or team) to conduct the project? (If appropriate, the reviewer will comment on the quality of the prior work.); (4) To what extent does the proposed activity suggest and explore creative, original, or potentially transformative concepts; (5) How well conceived and organized is the proposed activity?; (6) Is the sufficient access to resources?; (7) What are the broader impacts of the proposed activity?; (8) How well does the activity advance discovery and understanding while promoting teaching, training, and learning?; (9) How well does the proposed activity broaden the participation of underrepresented groups (e.g., gender, ethnicity, disability, geographic, etc.)?; (10) To what extent will it enhance the infrastructure for research and education, such as facilities, instrumentation, networks, and partnerships?; (11) Will the results be disseminated broadly to enhance scientific and technological understanding?, and (12) What may be the benefits of the proposed activity to society?

NSF staff will give careful consideration to the following in making funding decisions:

Integration of Research and Education One of the principal strategies in support of NSF's goals is to foster integration of research and education through the programs, projects, and activities it supports at academic and research institutions. These institutions provide abundant opportunities where individuals may concurrently assume responsibilities as researchers, educators, and students and where all can engage in joint efforts that infuse education with the excitement of discovery and enrich research through the diversity of learning perspectives. Integrating Diversity into NSF Programs, Projects, and Activities Broadening opportunities and enabling the participation of all citizens women and men, underrepresented minorities, and persons with disabilities is essential to health and vitality of science and engineering. NSF is committed to this principle of diversity and deems it central to the programs, projects, and activities it considers and supports.

47.049 MATHEMATICAL AND PHYSICAL SCIENCES

(MPS)

FEDERAL AGENCY:

National Science Foundation

AUTHORIZATION:

National Science Foundation Act of 1950, as amended, Public Law 107-368, 42 U.S.C. 1861 et seq.

OBJECTIVES:

To promote the progress of the mathematical and physical sciences and thereby strengthen the Nation's scientific enterprise; to increase the store of scientific knowledge and enhance understanding of major problems confronting the Nation. Most of the research supported is basic in character. The program includes support of research project grants in the following disciplines: astronomical sciences, chemistry, materials research, mathematical sciences, physics, as well as support for symposia and conferences. Basic research in multidisciplinary areas related to these disciplines is especially encouraged. Support is also provided for state-of-the-art user facilities in astronomy, physics, and many areas of materials science; science and technology centers; institutes; undergraduate student research; faculty enhancement; curriculum development; instrumentation; laboratory improvement; and for research opportunities for women, minority, and disabled scientists and engineers.

TYPES OF ASSISTANCE:

FEDERAL AGENCY:

National Science Foundation

AUTHORIZATION:

National Science Foundation Act of 1950; as amended, Public Law 107-368, 42 U.S.C. 1861 et seq.

OBJECTIVES:

To strengthen and enhance the national scientific enterprise through the expansion of fundamental knowledge and increased understanding of the integrated Earth system through the support of basic research in the atmospheric, earth and ocean sciences. Major objectives include the discovery of new knowledge of the atmosphere from the sun to the Earth's surface over the entire spectrum of physical and chemical phenomena; a better understanding of the physical, chemical, and biological character of the Earth and the processes that govern its evolution; and increased insight into the world's oceans, their composition, structure, behavior, and tectonics. Support is also provided for science and technology centers, undergraduate Student research, facility enhancement, instrumentation, and laboratory equipment; and for research opportunities for women, minority, and disabled scientists and engineers.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grant funds may be used for paying costs necessary to conduct research or studies such as salaries and wages, permanent equipment and supplies, computer services, travel, publication costs, and other direct and indirect costs. Primary responsibility for general supervision of all grant activities rests with the grantee institution; the principal investigator is responsible for the scientific work. Funds may not be used for purposes other than those specified in the proposal.

Applicant Eligibility:

Public and private colleges and universities; Non-profit, non-academic organizations; For-profit organizations; State and Local Governments; and unaffiliated scientists under special circumstances. See the Grant Proposal Guide for a full description of eligibility requirements.

www.nsf.gov/publications/pub_summ.jsp?ods key=gpg.

Beneficiary Eligibility:

See the Grant Proposal Guide, Section I.E. for a full description of eligibility requirements.

Credentials/Documentation:

Proposals must be signed electronically by an official authorized to commit the institution or organization in business and financial affairs and who can commit the organization to certain proposal certifications. Costs will be determined in accordance with OMB Circular Nos. A-21 for colleges and universities, No. A-87 for State and local governments, and A-122 for nonprofit organizations. Applicants for fellowship support must show evidence of ability such as academic records, letters of recommendation, graduate record examination scores, and grade point average. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. By electronic submission via FastLane or Grants.gov of a formal proposal, and, in some programs, a preliminary proposal, describing the planned project and the proposed amount of the grant. For guidelines, see specific funding opportunities and the Grant Proposal Guide. www.nsf.gov/publications/pub_summ.jsp?ods key=gpg

Award Procedure:

NSF staff members review and evaluate all proposals based on a set of criteria established by the National Science Board and, if applicable, solicitation-specific review criteria. In most cases reviews are undertaken with the advice of scientist, engineers, educators, and other appropriate persons who are specialist in the fields covered by the proposals. NSF makes awards on a competitive basis.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. NSF is striving to be able to advise proposers whether their proposals have been recommended or declined for funding within six months. The time interval begins on the closing date of an announcement or solicitation, or the date of proposal receipt (whichever is later). This time interval ends when the cognizant NSF Division Director accepts the Program Officer's recommendation.

Appeals:

From 90 to 120 days. The principal investigator may request, in writing, within 90 days of a declination or return, that NSF reconsider its action in declining or returning any proposal or application.

Renewals:

A renewal proposal competes with all other proposals and must be developed fully as though the proposer is applying for the first time. Renewal proposals must be submitted at least 6 months before additional funding is required or consistent with an established deadline, target date or submission window. Principal investigators are encouraged to discuss renewal proposals with the NSF program officer prior to submission.

Formula and Matching Requirements:

This program has no statutory formula. This program has no matching requirements. Mandatory cost sharing will only be required for NSF programs when explicitly authorized by the NSF Director, the National Science Board, or legislation. Inclusion of voluntary, committed cost sharing is prohibited. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Up to 5 years. Standard or continuing grant, fellowship, or cooperative agreement. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. Annual Progress Report should be submitted at least 90 days prior to the end of the current budget period. Within 90 days following the expiration of the award, a Final Project Report and a Project Outcomes Report for the general public must be submitted. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Records, supporting documents, statistical records, and other records pertinent to a grant must be retained by the grantee for a period of 3 years from submission of the Final Project Report. Special record keeping requirements may apply to fellowships.

Account Identification:

Range and Average of Financial Assistance:

\$1,300 to \$60,000,000; \$159,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In Fiscal Year 2010, 4,819 proposals were received and 1,689 awards were made. Fiscal Year 2011: In Fiscal Year 2011, approximately 4,400 proposals will be received and 1,200 awards made. Fiscal Year 2012: In Fiscal Year 2012, approximately 5,100 proposals will be received and about 1,800 awards will be made.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Proposals received by NSF are assigned to the appropriate NSF program where they will be reviewed if they meet NSF proposals preparation requirements. All proposals are carefully reviewed by a scientist, engineer, or educator serving as an NSF Program Officer, and usually by three to ten other persons outside NSF who are experts in the particular fields represented by the proposal. These reviewers are selected by Program Officers charged with the oversight of the review process. Proposers are invited to suggest names of persons they believe are especially well qualified to review the proposal and/or persons they would prefer not review the proposal. These suggestions may serve as one source in the reviewer selection process at the Program Officers discretion. Submission of such names, however, is optional. Care is taken to ensure that reviewers have no conflicts of interest with the proposal.

All NSF proposals are evaluated through use of the two National Science Board (NSB)-approved merit review criteria: intellectual merit and the broader impacts of the proposed effort. In some instances, however, NSF will employ additional criteria as required to highlight the specific objectives of certain programs and activities.

The two NSB-approved merit review criteria are listed below. The criteria include considerations that help define them. These considerations are suggestions and not all will apply to any given proposal. While proposers must address both merit review criteria, reviewers will be asked to address only those considerations that are relevant to the proposals being considered and for which the reviewer is qualified to make judgments. Relevant questions are: (1) What is the intellectual merit of the proposed activity?; (2) How important is the proposed activity to advancing knowledge and understanding within its own field or across different fields?; (3) How well qualified is the proposer (individual or team) to conduct the project? (If appropriate, the reviewer will comment on the quality of the prior work.); (4) To what extent does the proposed activity suggest and explore creative, original, or potentially transformative concepts?; (5) How well conceived and organized is the proposed activity?; (6) Is the sufficient access to resources?; (7) What are the broader impacts of the proposed activity?; (8) How well does the activity advance discovery and understanding while promoting teaching, training, and learning?; (9) How well does the proposed activity broaden the participation of underrepresented groups (e.g., gender, ethnicity, disability, geographic, etc.)?; (10) To what extent will it enhance the infrastructure for research and education, such as facilities, instrumentation, networks, and partnerships?; (11) Will the results be disseminated broadly to enhance scientific and technological understanding?, and (12) What may be the benefits of the proposed activity to society?

NSF staff will give careful consideration to the following in making funding decisions:

Integration of Research and Education One of the principal strategies in support of NSF's goals is to foster integration of research and education through the programs, projects, and activities it supports at academic and research institutions. These institutions provide abundant opportunities where individuals may concurrently assume responsibilities as researchers, educators, and students and where all can engage in joint efforts that infuse education with the excitement of discovery and enrich research through the diversity of learning perspectives. Integrating Diversity into NSF Programs, Projects, and Activities Broadening opportunities and enabling the participation of all citizens women and men, underrepresented minorities, and persons with disabilities is essential to health and vitality of science and engineering. NSF is committed to this principle of diversity and deems it central to the programs, projects, and activities it considers and supports.

To promote the progress of the biological sciences and thereby strengthen the Nation's scientific enterprise; to increase scientific knowledge and enhance understanding of major problems confronting the Nation. Most of the research supported is basic in character. The program includes support of research project grants in the following disciplines: molecular and cellular biosciences, integrative organismal biology; environmental biology; biological infrastructure; and plant genome research. Support is also provided for the purchase of multi-user scientific equipment and instrument development, and for research workshops, symposia, and conferences. In addition, awards are made to improve the quality of doctoral dissertations in environmental biology and integrative organismal biology; for postdoctoral fellowships in biological informatics and postdoctoral fellowships to minority scientists in all areas of research supported by the biological sciences.

47.075 SOCIAL, BEHAVIORAL, AND ECONOMIC SCIENCES (SBE)

FEDERAL AGENCY:

National Science Foundation

AUTHORIZATION:

National Science Foundation Act of 1950, as amended, Public Law 107-368, 42 U.S.C 1861 et seq.

OBJECTIVES:

To contribute to the scientific strength and welfare of the Nation through the promotion of basic research and education in the social, behavioral and economic sciences and through monitoring and understanding the resources invested in science and engineering in the United States. Supported activities include research and education in the following disciplines: Anthropological and geographic sciences; cognitive, psychological and language sciences; economics, decision risk and management sciences; sociology, political sciences; innovation and organizational change, measurement methods and statistics, law and social science and science and society. Other SBE grants build infrastructure, and develop methods, support science and technology centers, including climate change and science of learning centers, and fund research workshops, symposia, and conferences. Educational activities include awards to improve the quality of doctoral dissertations in the behavioral and social sciences; grants for graduate traineeships and postdoctoral fellowships; and grants to promote K-12 education in the SBE sciences. Support is also provided for junior faculty and mid-career development opportunities, undergraduate student research, and for research opportunities for women, minorities, and the differentially abled. The Directorate also funds science studies; studies of scientists and engineers, R&D funding and expenditures, and

educational attainment in science, mathematics and engineering.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Programs in social, behavioral and economic sciences and in science resources statistics provide funds that may be used for paying costs necessary to conduct research or studies, such as salaries and wages, equipment and supplies, travel, publication costs, and other direct and indirect costs. Primary responsibility for the supervision of grant activities rests with the grantee institution; the project director or principal investigator is responsible for the execution of the research activities, as well as for submitting progress and final reports on research activities. Grants are made on a competitive basis. Funds must be used for purposes specified in the proposal.

Applicant Eligibility:

Public and private colleges and universities; Non-profit, non-academic organizations; For-profit organizations; State and local governments; and unaffiliated scientists under special circumstances. See the Grant Proposal Guide for a full description of eligibility requirements.

www.nsf.gov/publications/pub_summ.jsp?ods_key=pgg.

Beneficiary Eligibility:

See the Grant Proposal Guide, Section I.E. for a full description of eligibility requirements.

Credentials/Documentation:

Proposals must be signed electronically by an official authorized to commit the institution or organization in business and financial affairs and who can commit the organization to certain proposal certifications. Costs will be determined in accordance with OMB Circular Nos. A-21 for colleges and universities, No. A-87 for State and local governments, and A-122 for nonprofit organizations. Applicants for fellowship support must show evidence of ability such as academic records, letters of recommendation, graduate record examination scores, and grade point average. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. By electronic submission via FastLane or Grants.gov of a formal proposal, and in some programs, a preliminary proposal, describing the planned project and the proposed amount of the grant. For guidelines, see specific funding opportunities and the Grant Proposal Guide. www.nsf.gov/publications/pub_summ.jsp?ods_key=pgg.

Award Procedure:

NSF staff members review and evaluate all proposals based on a set of criteria established by the National Science Board and, if applicable, solicitation-specific review criteria. In most cases reviews are undertaken with the advice of scientists, engineers, educators, and other appropriate persons who are specialists in the fields covered by the proposals. NSF makes awards on a competitive basis.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. NSF is striving to be able to advise proposers whether their proposals have been recommended or declined for funding within six months. The time interval begins on the closing date of an announcement or solicitation, or the date of proposal receipt (whichever is later). The time interval ends when the cognizant NSF Division Director accepts the Program Officer's recommendation.

Appeals:

From 90 to 120 days. The principal investigator may request, in writing, within 90 days of a declination or return, that NSF reconsider its action in declining or returning any proposal application.

Renewals:

From 120 to 180 days. A renewal proposal competes with all other proposals and must be developed fully as though the proposer is applying for the first time. Renewal proposals must be submitted at least six months before additional funding is required or consistent with an established deadline, target date or submission window. Principal investigators are encouraged to discuss renewal proposals with the NSF Program Officer prior to submission.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Mandatory cost sharing will only be required for NSF programs when explicitly authorized by the NSF Director, the National Science Board, or legislation. Inclusion of voluntary, committed cost sharing is prohibited.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Up to 5 years. Standard or continuing grant, fellowship, or cooperative agreement. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. Annual Progress Reports should be submitted at least 90 days prior to the end of the current budget period. Within 90 days following the expiration of the award, a Final Project Report and a Project Outcomes Report for the general public must be submitted. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Records, supporting documents, statistical records, and other records pertinent to a grant must be retained by the grantee for a period of 3 years from submission of the Final Project Report. Special record keeping requirements may apply to fellowships.

Account Identification:

Range and Average of Financial Assistance:

\$1,500 to \$6,600,000; \$115,447.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In Fiscal Year 2010, 5,621 proposals were received and 1,259 awards were made. Fiscal Year 2011: In Fiscal Year 2011, approximately 5,000 proposals will be received, and 1,187 awards made. Fiscal Year 2012: In Fiscal Year 2012, approximately 6,242 proposals will be received and about 1,397 awards will be made.

CRITERIA FOR SELECTING PROPOSALS:

Proposals received by NSF are assigned to the appropriate NSF program where they will be reviewed if they meet NSF proposals preparation requirements.

All proposals are carefully reviewed by a scientist, engineer, or educator serving as an NSF Program Officer, and usually by three to ten other persons outside NSF who are experts in the particular fields represented by the proposal. These reviewers are selected by Program Officers charged with the oversight of the review process. Proposers are invited to suggest names of persons they believe are especially well qualified to review the proposal and/or persons they would prefer not review the proposal. These suggestions may serve as one source in the reviewer selection process at the Program Officers discretion. Submission of such names, however, is optional. Care is taken to ensure that reviewers have no conflicts of interest with the proposal.

All NSF proposals are evaluated through use of the two National Science Board (NSB)-approved merit review criteria: intellectual merit and the broader impacts of the proposed effort. In some instances, however, NSF will employ additional criteria as required to highlight the specific objectives of certain programs and activities.

The two NSB-approved merit review criteria are listed below. The criteria include considerations that help define them. These considerations are suggestions and not all will apply to any given proposal. While proposers must address both merit review criteria, reviewers will be asked to address only those considerations that are relevant to the proposals being considered and for which the reviewer is qualified to make judgments. Relevant questions are: (1) What is the intellectual merit of the proposed activity?; (2) How important is the proposed activity to advancing knowledge and understanding within its own field or across different fields?; (3) How well qualified is the proposer (individual or team) to conduct the project? (If appropriate, the reviewer will comment on the quality of the prior work.); (4) To what extent does the proposed activity suggest and explore creative, original, or potentially transformative concepts; (5) How well conceived and organized is the proposed activity?; (6) Is the sufficient access to resources?; (7) What are the broader impacts of the proposed activity?; (8) How well does the activity advance discovery and understanding while promoting teaching, training, and learning?; (9) How well does the proposed activity broaden the participation of underrepresented groups (e.g., gender, ethnicity, disability, geographic, etc.)?; (10) To what extent will it enhance the infrastructure for research and education, such as facilities, instrumentation, networks, and partnerships?; (11) Will the results be disseminated broadly to enhance scientific and technological understanding?; and (12) What may be the benefits of the proposed activity to society?

47.076 EDUCATION AND HUMAN RESOURCES

(EHR)

FEDERAL AGENCY:

National Science Foundation

AUTHORIZATION:

National Science Foundation Act of 1950, as amended, Public Law 107-368, 42 U.S.C 1861 et seq.

OBJECTIVES:

To provide leadership and ensure the vitality of the Nation's science, technology, engineering and mathematics (STEM) education enterprise. The Education and Human Resources (EHR) component of the National Science Foundation sponsors programs that support the development of models and strategies for providing all students with access to high-quality STEM education. The portfolio of EHR programs in STEM education is comprised of efforts spanning pre-K to 12 (with special emphasis on projects that join institutions of higher education with K-12 education units), undergraduate, graduate and post-doctoral levels, as well as informal education and life-long learning. Long-term goals include: Supporting infrastructure (especially broad-based collaborative partnerships) that will enable development of high-quality educational experiences for all students; ensuring that our educational pathways yield an adequately educated and diverse corps of individuals for both the highly technical workplace and the professional STEM community; developing a cadre of professionally educated and well-trained teachers and faculty; and providing the research necessary to inform educational practice. The strength of EHR programming resides in its ability to integrate research and education, combining the expertise of the research and education communities. Its programs include support for STEM workforce development; educational materials, including use of learning technologies, effective in increasing student achievement; research on learning and teaching that informs education practice; strategies for developing deep content knowledge and teaching skills for K-12 teachers; and informal science education. EHR programs are subject to continuous improvements based on program reviews, evaluation, dissemination of best practices, and educational research.

(OPP)

FEDERAL AGENCY:

National Science Foundation

AUTHORIZATION:

National Science Foundation Act of 1950, as amended, Public Law 107-368, 42 U.S.C. 1861 et seq.

OBJECTIVES:

To strengthen and enhance the national scientific enterprise through the expansion of fundamental knowledge and increased understanding of the polar regions. To encourage and support basic research in the Arctic and Antarctic focused on the solid earth, glacial and sea ice, terrestrial ecosystems, the oceans, the atmosphere and beyond. Major objectives include understanding of the natural phenomena and processes in the Antarctic and Arctic regions and their role in global systems. To provide postdoctoral fellowships for the

development and training of new investigators in polar regions research with goals to support innovative research in emerging areas, encourage interdisciplinary research, foster activities that create broader impacts for science and society, and to increase the participation of underrepresented groups. Support is also provided for science and technology centers, undergraduate student research, facility enhancement, instrumentation, laboratory equipment; and for research opportunities for women, minority, and disabled scientists and engineers.

CRITERIA FOR SELECTING PROPOSALS:

Proposals received by NSF are assigned to the appropriate NSF program where they will be reviewed if they meet NSF proposals preparation requirements. All proposals are carefully reviewed by a scientist, engineer, or educator serving as an NSF Program Officer, and usually by three to ten other persons outside NSF who are experts in the particular fields represented by the proposal. These reviewers are selected by Program Officers charged with the oversight of the review process. Proposers are invited to suggest names of persons they believe are especially well qualified to review the proposal and/or persons they would prefer not review the proposal. These suggestions may serve as one source in the reviewer selection process at the Program Officers discretion. Submission of such names, however, is optional. Care is taken to ensure that reviewers have no conflicts of interest with the proposal.

All NSF proposals are evaluated through use of the two National Science Board (NSB)-approved merit review criteria: intellectual merit and the broader impacts of the proposed effort. In some instances, however, NSF will employ additional criteria as required to highlight the specific objectives of certain programs and activities.

The two NSB-approved merit review criteria are listed below. The criteria include considerations that help define them. These considerations are suggestions and not all will apply to any given proposal. While proposers must address both merit review criteria, reviewers will be asked to address only those considerations that are relevant to the proposals being considered and for which the reviewer is qualified to make judgments. Relevant questions are: (1) What is the intellectual merit of the proposed activity?; (2) How important is the proposed activity to advancing knowledge and understanding within its own field or across different fields?; (3) How well qualified is the proposer (individual or team) to conduct the project? (If appropriate, the reviewer will comment on the quality of the prior work.); (4) To what extent does the proposed activity suggest and explore creative, original, or potentially transformative concepts?; (5) How well conceived and organized is the proposed activity?; (6) Is the sufficient access to resources?; (7) What are the broader impacts of the proposed activity?; (8) How well does the activity advance discovery and understanding while promoting teaching, training, and learning?; (9) How well does the proposed activity broaden the participation of underrepresented groups (e.g., gender, ethnicity, disability, geographic, etc.)?; (10) To what extent will it enhance the infrastructure for research and education, such as facilities, instrumentation, networks, and partnerships?; (11) Will the results be disseminated broadly to enhance scientific and technological understanding?, and (12) What may be the benefits of the proposed activity to society?

NSF staff will give careful consideration to the following in making funding

decisions:

Integration of Research and Education One of the principal strategies in support of NSF's goals is to foster integration of research and education through the programs, projects, and activities it supports at academic and research institutions. These institutions provide abundant opportunities where individuals may concurrently assume responsibilities as researchers, educators, and students and where all can engage in joint efforts that infuse education with the excitement of discovery and enrich research through the diversity of learning perspectives. Integrating Diversity into NSF Programs, Projects, and Activities Broadening opportunities and enabling the participation of all citizens—women and men, underrepresented minorities, and persons with disabilities—is essential to health and vitality of science and engineering. NSF is committed to this principle of diversity and deems it central to the programs, projects, and activities it considers and supports.

47.079 INTERNATIONAL SCIENCE AND ENGINEERING (OISE)

(International)

FEDERAL AGENCY:

National Science Foundation

AUTHORIZATION:

National Science Foundation Act of 1950, as amended, Public Law 107-368, 42 U.S.C. 1861 et seq.

OBJECTIVES:

To enable the U.S. research community to maintain its excellence in science, engineering, and leadership within the global scientific community by strengthening international partnerships that foster the advancement of scientific discovery and thereby contribute to the continued scientific strength and welfare of the Nation; to promote research excellence through international collaboration; to develop a diverse, globally engaged U.S. science and engineering workforce by providing U.S. students and junior faculty with international research and education experience. The research supported is basic in character. The program includes support of international research and education projects that are innovative and catalytic. OISE programs are designed to complement and enhance the Foundation's research and education portfolio and to overcome barriers involved in international collaboration. Grants are made in all the disciplinary fields supported by NSF. Support is provided for international collaborative research; research workshops and planning visits; activities that will develop the next generation of U.S. scientists and engineers such as graduate traineeships, postdoctoral fellowships, special opportunities for junior faculty for research support, and dissertation enhancements; and for U.S. Government support to key multilateral organizations to enable U.S. scientists to participate in such global efforts. Support is also provided for undergraduate student international research and education experiences, and for research opportunities for women, minorities, and disabled scientists and engineers.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

International cooperative scientific activities provide funds for U.S. scientists and engineers to carry out studies abroad, to conduct research, to engage in joint research projects with foreign counterpart organizations, and to support international workshops focused on well-defined scientific opportunities in the United States and abroad; travel must be on U.S. flag carriers. In some programs, support is provided by paying costs necessary to conduct research, such as salaries, equipment, supplies, travel, publications, and other direct and indirect costs. Primary responsibility for general supervision of all grant activities rests with the grantee institution; the project director or principal investigator is responsible for the execution of the research activities. Grants are made on a competitive basis. For all programs, funds may not be used for purposes other than those specified in the proposal.

Applicant Eligibility:

Public and private colleges and universities; Non-profit, non-academic organizations; For-profit organizations; State and local governments; and unaffiliated scientists under special circumstances. See the Grant Proposal Guide for a full description of eligibility requirements.

www.nsf.gov/publications/pub_summ.jsp?ods_key=gpg.

Beneficiary Eligibility:

See the Grant Proposal Guide, Section I.E. for a full description of eligibility requirements.

Credentials/Documentation:

Proposals must be signed electronically by an official authorized to commit the institution or organization in business and financial affairs and who can commit the organization to certain proposal certifications. Costs will be determined in accordance with OMB Circular Nos. A-21 for colleges and universities and A-122 for nonprofit organizations. Applicants for fellowship support must show evidence of ability such as academic records, letters of recommendation, graduate record examination scores, and grade point average. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. By electronic submission via FastLane or Grants.gov of a formal proposal, and in some programs, a preliminary proposal, describing the planned project and the proposed amount of the grant. For guidelines, see specific funding opportunities and the Grant Proposal Guide. www.nsf.gov/publications/pub_summ.jsp?ods_key=gpg.

Award Procedure:

NSF staff members review and evaluate all proposals based on a set of criteria established by the National Science Board and, if applicable, solicitation-specific review criteria. In most cases reviews are undertaken with the advice of scientist, engineers, educators and other appropriate persons who are specialist in the fields covered by the proposals. NSF makes awards on a competitive basis.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. NSF is striving to be able to advise proposers whether their proposals have been recommended or declined for funding within six months. The time interval begins on the closing date of an announcement or solicitation, or the date of proposal receipt (whichever is later). The time interval ends when the cognizant NSF Division Director accepts the Program Officer's recommendation.

Appeals:

From 90 to 120 days. The principal investigator may request, in writing, within 90 days of a declination or return, that NSF reconsider its action in declining or returning any proposal application.

Renewals:

From 120 to 180 days. A renewal proposal competes with all other proposals and must be developed fully as though the proposer is applying for the first time. Renewal proposals must be submitted at least six months before additional funding is required or consistent with an established deadline, target date or submission window. Principal investigators are encouraged to discuss renewal proposals with the NSF Program Officer prior to submission.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Mandatory cost sharing will only be required for NSF programs when explicitly authorized by the NSF Director, the National Science Board, or legislation. Inclusion of voluntary, committed cost sharing is prohibited.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Up to 5 years. Standard or continuing grant, fellowship, or cooperative agreement. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. Annual Progress Reports should be submitted at least 90 days prior to the end of the current budget period. Within 90 days following the expiration of the award, a Final Project Report and a Project Outcomes Report for the general public must be submitted. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Records, supporting documents, statistical records, and other records pertinent to a grant must be retained by the grantee for a period of 3 years from submission of the Final Project Report. Special record keeping requirements may apply to fellowships.

Account Identification:

020 (EPSCoR)

FEDERAL AGENCY:

National Science Foundation

AUTHORIZATION:

National Science Foundation Act of 1950, as amended, Public Law 107-368, 42 U.S.C. 1861 et seq.

OBJECTIVES:

As an investment strategy, Co-funding enables members of the research communities within EPSCoR jurisdictions not only to improve their ability to compete for National Science Foundation (NSF) program funds, but also to increase their active participation and visibility as members of the national scientific research and education enterprise. To assist those jurisdictions that has historically received lesser amounts of academic research and development funding. The NSF EPSCoR Office established the Co-funding Initiative in FY 1998 to accelerate the movement of more researchers and institutions from EPSCoR jurisdictions into the mainstream of NSF support, and thereby contribute to the NSF EPSCoR concept of a Trajectory for Sustainable Scientific Success.

The time interval ends when the cognizant NSF Division Director accepts the Program Officer's recommendation.

Appeals:

From 90 to 120 days. The principal investigator may request, in writing, within 90 days of a declination or return, that NSF reconsider its action in declining or returning any proposal application.

Renewals:

From 120 to 180 days. A renewal proposal competes with all other proposals and must be developed fully as though the proposer is applying for the first time. Renewal proposals must be submitted at least six months before additional funding is required or consistent with an established deadline, target date or submission window. Principal investigators are encouraged to discuss renewal proposals with the NSF Program Officer prior to submission.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Mandatory cost sharing will only be required for NSF programs when explicitly authorized by the NSF Director, the National Science Board, or legislation. Inclusion of voluntary, committed cost sharing is prohibited.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Up to 5 years. Standard or continuing grant, fellowship, or cooperative agreement. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. Annual Progress Reports should be submitted at least 90 days prior to the end of the current budget period. Within 90 days following the expiration of the award, a Final Project Report and a Project Outcomes Report for the general public must be submitted. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Records, supporting documents, statistical records, and other records pertinent to a grant must be retained by the grantee for a period of 3 years from submission of the Final Project Report. Special record keeping requirements may apply to fellowships.

CRITERIA FOR SELECTING PROPOSALS:

Proposals received by NSF are assigned to the appropriate NSF program where they will be reviewed if they meet NSF proposals preparation requirements. All proposals are carefully reviewed by a scientist, engineer, or educator serving as an NSF Program Officer, and usually by three to ten other persons outside NSF who are experts in the particular fields represented by the proposal. These reviewers are selected by Program Officers charged with the oversight of the review process. Proposers are invited to suggest names of persons they believe are especially well qualified to review the proposal and/or persons they would prefer not review the proposal. These suggestions may serve as one source in the reviewer selection process at the Program Officers discretion. Submission of such names, however, is optional. Care is taken to ensure that reviewers have no conflicts of interest with the proposal.

All NSF proposals are evaluated through use of the two National Science Board (NSB)-approved merit review criteria: intellectual merit and the broader impacts of the proposed effort. In some instances, however, NSF will employ additional criteria as required to highlight the specific objectives of certain programs and activities.

The two NSB-approved merit review criteria are listed below. The criteria include considerations that help define them. These considerations are suggestions and not all will apply to any given proposal. While proposers must address both merit review criteria, reviewers will be asked to address only those considerations that are relevant to the proposals being considered and for which the reviewer is qualified to make judgments. Relevant questions are: (1) What is the intellectual merit of the proposed activity?; (2) How important is the proposed activity to advancing knowledge and understanding within its own field or across different fields?; (3) How well qualified is the proposer (individual or team) to conduct the project? (If appropriate, the reviewer will comment on the quality of the prior work.); (4) To what extent does the proposed activity suggest and explore creative, original, or potentially transformative concepts; (5) How well conceived and organized is the proposed

activity?; (6) Is the sufficient access to resources?; (7) What are the broader impacts of the proposed activity?; (8) How well does the activity advance discovery and understanding while promoting teaching, training, and learning?; (9) How well does the proposed activity broaden the participation of underrepresented groups (e.g., gender, ethnicity, disability, geographic, etc.)?; (10) To what extent will it enhance the infrastructure for research and education, such as facilities, instrumentation, networks, and partnerships?; (11) Will the results be disseminated broadly to enhance scientific and technological understanding?; and (12) What may be the benefits of the proposed activity to society?

NSF staff will give careful consideration to the following in making funding decisions:

Integration of Research and Education One of the principal strategies in support of NSF's goals is to foster integration of research and education through the programs, projects, and activities it supports at academic and research institutions. These institutions provide abundant opportunities where individuals may concurrently assume responsibilities as researchers, educators, and students and where all can engage in joint efforts that infuse education with the excitement of discovery and enrich research through the diversity of learning perspectives. Integrating Diversity into NSF Programs, Projects, and Activities Broadening opportunities and enabling the participation of all citizens—women and men, underrepresented minorities, and persons with disabilities—is essential to health and vitality of science and engineering. NSF is committed to this principle of diversity and deems it central to the programs, projects, and activities it considers and supports.

RAILROAD RETIREMENT BOARD

57.001 SOCIAL INSURANCE FOR RAILROAD WORKERS

FEDERAL AGENCY:

Railroad Retirement Board

AUTHORIZATION:

Railroad Retirement Act of 1974, Public Law 93-445, 88 Stat. 1305, 45 U.S.C. 231; American Recovery and Reinvestment Act of 2009, Title II, Part A, Section 2006, Public Law 111-005, 45 U.S.C. 352; Railroad Unemployment Insurance Act, Public Law 75-722, 52 Stat. 1094, 45 U.S.C. 351; Social Security Act of 1935, Public Law 74-271, 49 Stat. 620, 42 U.S.C. 7; Worker, Homeownership, and Business Assistance Act of 2009, Public Law 111-92, 45 U.S.C. 352; Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010, Public Law 111-312, 45 U.S.C. 352.

OBJECTIVES:

To pay rail social security level benefits (tier I), benefits based on rail service alone (tier II), vested dual benefits, supplemental annuities, annuities based on total or occupational disability, and sickness and unemployment benefits to railroad workers and, in some cases, their families to assist with expenses of daily living.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS WITH UNRESTRICTED USE

USES AND USE RESTRICTIONS:

Under the provisions of the Railroad Retirement Act and the Railroad Unemployment Insurance Act, benefits are provided for: (1) workers who retire because of age or disability, including supplemental annuities for career railroad employees; (2) eligible spouses and divorced spouses of retired employees; (3) surviving widows, widowers, divorced spouses, children, and dependent parents of deceased employees; (4) unemployed workers; and (5) workers who are sick or injured. In addition, the Railroad Retirement Board participates in the administration of the Medicare program, which covers railroad retirement beneficiaries on the same basis as other eligible persons. The American Recovery and Reinvestment Act also authorized extended unemployment benefits for certain individuals through December 31, 2009, and the Worker, Homeownership, and Business Assistance Act continued the authorization through December 31, 2010. The Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act continued the authorization through December 31, 2011.

Applicant Eligibility:

Under the Railroad Retirement Act, for employee, spouse and survivor benefits the employee must have had 10 or more years of railroad service or, for annuities beginning January 2002 or later, 5 years of railroad service rendered after 1995. For survivors to be eligible for benefits, the employee must also have been insured at death. Under the Railroad Unemployment Insurance Act, an employee must have earned at least \$3,325.00 in calendar years 2009, 2010 and 2011 (counting no more than \$1,330 in calendar years 2009, 2010 and 2011) and, if a new employee, must have worked for a railroad at least 5 months in a calendar (base) year to be a qualified employee in the applicable benefit year.

Beneficiary Eligibility:

Individuals, families, pension recipients.

Credentials/Documentation:

Proof of age must be provided for retirement benefits. For spouse and survivor benefits, proof of marriage and familial relationship is required. Medical evidence is necessary for disability and sickness benefits. Registration is required in order to receive unemployment benefits. Other proofs, such as military service, must also be submitted as required by law. This program is excluded from coverage under OMB Circular No. A-87.

64.030 LIFE INSURANCE FOR VETERANS FACE AMOUNT OF NEW LIFE INSURANCE POLICIES ISSUED

Life Insurance for Veterans Face Amount of New Life Insurance Policies Issued

FEDERAL AGENCY:

Department of Veterans Affairs

AUTHORIZATION:

The Housing and Economic Recovery Act of 2008, Public Law 110-289; The Veterans Benefits Act of 1992, Public Law 102-568; The Mortgage Protection Life Insurance Act of 1971, Public Law 92-95; The Servicemens Indemnity and Insurance Act of 1951, Public Law 82-23, 38 U.S.C 1903-1922.

OBJECTIVES:

To provide life insurance protection for other than dishonorably discharged Veterans who are service-disabled separated from active duty on or after April 25, 1951, and to provide mortgage protection life insurance for Veterans and Servicemembers who have received a grant for specially adapted housing. These programs represent new contingent liabilities of VA and are reported under this CFDA program. VA Insurance also administers four other life insurance programs and supervises four additional programs for the benefit of Servicemembers, Veterans, their families and their beneficiaries. The four administered programs are closed to new issues. The supervised programs are not contingent liabilities of VA, and are therefore not reported under this CFDA.

TYPES OF ASSISTANCE:

Insurance

USES AND USE RESTRICTIONS:

Life insurance settlement is paid upon death of insured. The face amount of the policy, less any indebtedness on the policy, is payable to the designated beneficiary upon the insureds death under a regular life policy, and only to the mortgage holder under Veterans Mortgage Life Insurance coverage.

Applicant Eligibility:

A Veteran discharged under other than dishonorable conditions from active military duty, on or after April 25, 1951, who has been granted a service connection for a new disability, and who, if not for the disability would be otherwise insurable in accordance with the established standards of good health, applies for coverage within 2 years from the date of notice of the VA service-connected rating may be issued Service-Disabled Veterans Insurance. The time period in which to apply is limited to one year from the date of notice of the VA serviceconnected rating if the notice was provided before September 1, 1991. A Veteran insured under Service-Disabled Veterans Insurance who qualifies for waiver of premiums, who is under age 65, and who applies within one year from date of notice from VA that he/she qualifies for waiver of premiums, may be issued Supplemental Service-Disabled Veterans Insurance coverage. A Veteran or Servicemember who has been given a VA grant for specially adapted housing will be sent notice that he/she is automatically insured for mortgage protection unless he/she elects in writing not to be so insured, or fails to respond within 60 days after a final request for information on which premium can be based is mailed to him/her.

Beneficiary Eligibility:

If the Veteran is mentally incompetent, a VA-recognized fiduciary may apply on his/her behalf for Service-Disabled Veterans Insurance. Service Disabled Veterans Insurance may also be granted under certain conditions to mentally incompetent Veterans who were otherwise eligible for such insurance, but due to their incompetency, died without filing an application. Service-Disabled Veterans Insurance is issued by the Philadelphia Regional Office and Insurance Center to any Veterans meeting the requirements listed under Applicant Eligibility above. Veterans Mortgage Life Insurance is automatically issued to all Veterans and Servicemembers receiving a grant for specially adapted housing.

Credentials/Documentation:

A Veteran may apply for Service-Disabled Veterans Insurance by submitting the application on VA Form 29-4364 or VA Form 29-0151. A Veteran may also apply online using the VAs AutoForm application. Veterans and Servicemembers who receive a grant for specially adapted housing are automatically approved for Veterans Mortgage Life Insurance. They must submit the following mortgage documentation for VA to establish premiums for coverage: Settlement Statement; Truth-In-Lending Disclosure Statement; and current mortgage account statement. Failure to provide these documents in a timely manner will result in coverage not being issued. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Upon receipt of VAs notice of eligibility for Service-Disabled Veterans Insurance, a Veteran may apply by submitting the application on VA Form 29-4364. Upon receipt of notice from VA that he/she qualifies for waiver of premiums, an individual insured under Service-Disabled Veterans Insurance may apply for additional supplemental coverage by submitting an application on VA form 29-0190. He/she may be guided by VA Pamphlet 29-9 in selecting the type of policy. The form and pamphlet may be obtained from the nearest VA office (listed in Appendix IV of the Catalog) and submitted to the Philadelphia VA Regional Office and Insurance Center, P.O. Box 7208, Philadelphia, PA 19101. A Veteran or Servicemember eligible for Veterans Mortgage Life Insurance need only submit information and documentation to the Philadelphia VA Regional Office and Insurance Center, P.O. Box 7208, Philadelphia, PA 19101.

Award Procedure:

Individuals will be notified of the acceptance/issuance of their insurance policy by VA or the appropriate designated entity.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Approvals/disapprovals will be issued from 1 to 3 months upon application for Service-Disabled Veterans Insurance after VAs notice of the service-connected rating. Veterans Mortgage Life Insurance is effective immediately upon approval of a specially adapted housing grant.

64.031 LIFE INSURANCE FOR VETERANS - DIRECT PAYMENTS FOR INSURANCE

Life Insurance for Veterans - Direct Payments for Insurance

FEDERAL AGENCY:

Department of Veterans Affairs

AUTHORIZATION:

War Risk Insurance Act, Public Law 65-90, 38 U.S.C 1903-1941; National Service Life Insurance Act, Public Law 76-801; Servicemen's Indemnity and Insurance Act, Public Law 82-23; World War Veterans Act, Public Law 68-242.

OBJECTIVES:

To provide direct insurance payments, including advance payments disbursed as loans, to Veterans and their beneficiaries for claims based on death or other qualifying circumstance. Payments may be authorized for Veterans of World War I, World War II, Korean conflict, Vietnam conflict, Gulf era conflicts and service-disabled Veterans separated from active duty on or after April 25, 1951, and for mortgage protection life insurance for those disabled Veterans who are given a VA grant to secure specially adapted housing under Chapter 21, Title 38, U.S.C.

TYPES OF ASSISTANCE:

Insurance

USES AND USE RESTRICTIONS:

Life insurance settlement is payable upon death of the insured, or the insured may personally surrender a permanent plan policy for cash. The insured may also be granted a loan for up to 94 percent of the cash surrender value of a

permanent plan policy. Interest on United States Government Life Insurance (WWI) policy loans is charged at the rate of 5 percent per annum. Interest is charged at a variable rate, which may change annually, for National Service Life (WWII), Veterans Special Life (Korean conflict), Service-Disabled Veterans (Korean Conflict and Continuing) and Veterans Reopened Insurance policies. The variable rate equals the yield on the Ten-Year Constant Maturities Index for U.S. Treasury securities for the month of June of each year rounded down to the next whole percentage. This loan rate is effective from the first day of October of each year and will not exceed 12 percent or be lower than 5 percent per annum. The face amount of the policy, less any indebtedness on the policy, is payable to the designated beneficiary upon the insured's death under a regular life policy, and only to the mortgage holder under Veterans Mortgage Life Insurance coverage. Other direct payments may include dividend cash option payments or other payments as authorized.

Applicant Eligibility:

Veterans who have purchased one of the named life insurance policies and their beneficiaries. Payment cannot be made if it would cause the insurance proceeds to revert back to a State (in the case where there are no heirs to pay).

Beneficiary Eligibility:

Payment may be made on a claim to a principal beneficiary, a contingent beneficiary, a representative of the estate, a minor or incompetent, or another designee filing for benefits. A beneficiary may assign all or a portion of his or her share of the insurance to a restricted class of the insured's relatives. Payments may also be made to the policyholder for loan or dividend amounts.

Credentials/Documentation:

Dependent on the beneficiary, the following documentation is required for payment of an insurance claim:

For a principal beneficiary, a photocopy of death certificate showing date and cause of death of insured, and Claim Form, VA Form 29-4125, Claim for One Sum Payment.

For a contingent beneficiary, death certificates for the insured and principal beneficiary(ies), and the Claim Form, VA Form 29-4125, Claim for One Sum Payment

For a representative of the Veterans estate, the death certificate(s), copies of letters testamentary, letters of administration, or a court order of distribution along with claims from the entitled parties, and a claim form signed by the executor or administrator of the estate.

For a minor or incompetent, death certificate(s); a claim from the next of kin, personal representative (guardian, custodian, etc.) or logical person to receive payment for the minor or incompetent; letters of guardianship, conservatorship, (if any); and the address of minor or incompetent.

If filing for VMLI benefits, the following documentation is needed: insured's death certificate, and a payoff statement from the Veterans or Servicemembers mortgage lender showing the outstanding mortgage balance owed as of the Veterans or Servicemembers death.

An insured's will can be used as evidence that he or she intended a lump sum payment, regardless of when it was executed. The will does not have to specifically mention the insurance, nor must it be probated.

A letter claiming the proceeds and showing a mailing address for the check may be used instead of a VA Claim Form (29-4125). The claimant should be sure to show the insurance file number and to sign the letter.

An insured can surrender the policy for its cash value by submitting VA Form 29-1546, page 1. An insured can request a loan against the cash value of the policy by submitting VA Form 29-1546, page 2, or by applying online. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

The Department of Veterans Affairs Regional Office and Insurance Center (VAROIC) manages the six insurance programs administered directly by VA (USGLI, NSLI, VSLI, VRI, S-DVI and VMLI). The Insurance Center is responsible for processing loans, and paying death and disability claims. For these programs, all death claims should be mailed or faxed to the Insurance Center in Philadelphia, PA.

Award Procedure:

Direct Insurance payments can be directly deposited into a claimant's account. The claimant must provide their checking or savings deposit account number as well as their social security number. Claimants must also provide the name, address, phone number, and the routing transit number for their financial institution. If the award check is to be mailed to the claimant's bank account, the account number and type of account (checking or savings) must be shown on the claim in addition to the name and address of the bank.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

64.033 VA SUPPORTIVE SERVICES FOR VETERAN FAMILIES PROGRAM

VA Supportive Services for Veteran Families Program

FEDERAL AGENCY:

Department of Veterans Affairs

AUTHORIZATION:

Veterans Mental Health and Other Care Improvements Act of 2008, Public Law 110-387, 38 U.S.C 2044.

OBJECTIVES:

To provide supportive services grants to private non-profit organizations and consumer cooperatives who will coordinate or provide supportive services to very low-income Veteran families who: (i) are residing in permanent housing, (ii) are homeless and scheduled to become residents of permanent housing within a specified time period, or (iii) after exiting permanent housing within a specified time period, are seeking other housing that is responsive to such very low-income Veteran families needs and preferences.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Section 604 of the Veterans Mental Health and Other Care Improvements Act of 2008 (Public Law 110-387) established VAs Supportive Services for Veteran Families (SSVF) Program. The SSVF Program provides grants to private non-profit organizations and consumer cooperatives that will coordinate or provide supportive services to Veterans and their families who have less than 50% area median income and (i) are residing in permanent housing, (ii) are homeless and scheduled to become residents of permanent housing within a specified time period, or (iii) after exiting permanent housing within a specified time period, are seeking other housing that is responsive to such very low-income Veteran families needs and preferences. Grantees are responsible for providing outreach, case management, linkages to VA benefits, and linkages to other public benefits with the supportive services grant funds. Grantees may choose to provide temporary financial assistance on behalf of the Veteran family for certain costs. Limitations on the use of supportive services grant funds, including time and amount limitations, are described in 38 CFR Part 62.

Applicant Eligibility:

Applicants eligible for grants must be either a private non-profit organization or

a consumer cooperative. The SSVF Program defines a private non-profit organization as: 1. An incorporated private institution or foundation that (a) has no part of the net earnings that inure to the benefit of any member, founder, contributor, or individual; (b) has a governing board that is responsible for the operation of the supportive services; and (c) is approved by VA as to financial responsibility; 2. A for-profit limited partnership, the sole general partner of which is an organization that (a) has no part of the net earnings that inure to the benefit of any member, founder, contributor, or individual; (b) has a governing board that is responsible for the operation of the supportive services; and (c) is approved by VA as to financial responsibility; 3. A corporation wholly owned and controlled by an organization that (a) has no part of the net earnings that inure to the benefit of any member, founder, contributor, or individual; (b) has a governing board that is responsible for the operation of the supportive services; and (c) is approved by VA as to financial responsibility; or 4. A tribally designated housing entity (as defined in section 4 of the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4103)). The SSVF Program defines a consumer cooperative as having the meaning given such term in section 202 of the Housing Act of 1959 (12 U.S.C. 1701q).

Beneficiary Eligibility:

Veteran families, meaning families in which the head of household or the spouse of the head of household served in the active military, naval, or air service, and who was discharged or released therefrom under conditions other than dishonorable. Eligible Veteran families must be very-low income, meaning their annual income, as determined in accordance with 24 CFR 5.609, does not exceed 50 percent of the median income for an area or community. Eligible Veteran families must also fall within one of the following categories: (i) residing in permanent housing; (ii) homeless and scheduled to become a resident of permanent housing within 90 days pending the location or development of housing suitable for permanent housing; or (iii) exited permanent housing within the previous 90 days to seek other housing that is responsive to the very low-income Veteran families needs and preferences.

Credentials/Documentation:

Proof of private non-profit organization or consumer cooperative status is required. This program is excluded from coverage under OMB Circular No. A-87. OMB Circular No. A-122 is applicable. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

VA Form 10-0508 is the application. Once per year if funds are available for the program, VA will publish in the Federal Register a notice of fund availability, soliciting applications for the grant program and information on applications for requesting eligibility to receive SSVF grant funds. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. VA Form 10-0508 and any other forms furnished by VA must be used for the program. Applications will only be accepted when received within the timeframe and meeting the requirements described in a notice of fund availability published in the Federal Register. This program is subject to the provisions of OMB Circular No. A-110. This program is excluded from coverage under OMB Circular No. A-102.

Award Procedure:

Formal approval of the award of assistance is made by the Secretary of Veterans Affairs.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. Deadlines for program applications are established in the notices of fund availability.

Appeals:

If an application would have been selected but for a procedural error committed by VA, VA will select that application for potential funding when sufficient

funds become available, if there is no material change in the information that resulted in its selection. A new application will not be required for this purpose.

Renewals:

Subject to the availability of funds, grants may be renewed. Grantees would be required to submit a renewal application within the time frame established in a notice of fund availability.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.
Matching requirements are not applicable to this program.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Length of time limitations are established in the notice of fund availability. Grantees will receive payments electronically through the U.S. Department of Health and Human Services Payment Management System (HHS PMS). Method of awarding/releasing assistance: quarterly.

Reports:

Quarterly and annual financial and performance reports are required. Grantees are required to enter data into a Homeless Management Information System (HMIS) Web-based software application. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. CRITERIA FOR SELECTING PROPOSALS:

As required by 38 CFR 62.23, applications are reviewed, rated, and ranked in priority order. Selection criteria include: (i) background, qualifications, experience, and past performance; (ii) program concept and supportive services plan; (iii) quality assurance and evaluation plan; (iv) financial capability and plan; and (v) area or community linkages and relations. Ranked scores of applicants are the primary basis for selection. However, in accordance with 38 CFR 62.23(d), VA will utilize the following considerations to select applicants for funding:

i. Preference applicants that provide or coordinate the provision of supportive services for very low-income Veteran families transitioning from homelessness to permanent housing; and ii. To the extent practicable, ensure that supportive services grants are equitably distributed across geographic regions, including rural communities and Tribal lands.

64.034 VA ASSISTANCE TO UNITED STATES PARALYMPIC INTEGRATED ADAPTIVE SPORTS PROGRAM

VA Assistance to United States Paralympic Integrated Adaptive Sports Program - VA Office of National Veterans Sports Programs and Special Events

FEDERAL AGENCY:

Department of Veterans Affairs

AUTHORIZATION:

Veterans' Benefits Improvement Act of 2008, Section 701, 702, and 703, Public Law 110-389, 38 U.S.C 521A.

OBJECTIVES:

To promote the lifelong health and to motivate, encourage and sustain participation and competition in adaptive sports from the local level through elite levels among disabled Veterans and members of the Armed Forces through partnerships with VA clinical personnel as well as national and community-based adaptive sports programs.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Sections 701, 702 and 703 of the Veterans Benefits Improvement Act of 2008 (Public law 110-389) established support for the assistance through a congressionally mandated earmark to the United States Olympic Committee, Paralympic Integrated Adaptive Sports Program. The grant program provides funding to private non-profit organizations that support the goal of increasing the participation of disabled Veterans and disabled members of the Armed Forces in sports.

The grantees are responsible for planning, developing, managing and implementing an integrated adaptive sports program for disabled Veterans and disabled members of the Armed Forces. This includes instruction, participation, and competition in adaptive sports; training and technical assistance to program administrators, coaches, recreational therapists, instructors, and other appropriate individuals; and coordination of athletes. It also includes athlete assessments, sport-specific training techniques, program development, and other activities related to the implementation and operation of the program.

Limitations on the use of administrative expenses are described in 38 U.S.C. Part I, Chapter 5, Subchapter II, Section 521A d (4) and (5).

Applicant Eligibility:

The Secretary may award the grants to the United States Paralympics, Inc., and its partners to plan, develop, manage, and implement an integrated adaptive sports program for disabled Veterans and disabled members of the Armed Forces. Partnerships must be developed between the United States Paralympics Inc., and organizations with significant experience in the training and support of disabled athletes and the promotion of disabled sports and local and national levels.

Beneficiary Eligibility:

In accordance with 38 U.S.C. Section 521A, the award will be made to the U.S. Olympic Committee, Paralympic, Inc. In addition, partnership agreements must be developed between Paralympic Inc. and organizations with significant experience in the training and support of disabled athletes. The partnership agreements must be with organizations that are able to recruit, support, equip, encourage, schedule, facilitate, supervise, and implement the participation of disabled Veterans and disabled members of the Armed Forces.

Those eligible to apply include Paralympic Sport Clubs, colleges/ universities, Veterans Service Organizations (VSOs) and community-based organizations. In addition, these organizations must also:

1. Serve disabled Veterans or disabled members of the Armed Forces or both.
2. Provide regular, frequent activity over an extended period of time (weeks or months) - one-time events will not be funded unless the event serves as a launching or focal point for ongoing Paralympic or non-Paralympic sport programming.
3. Be designed for long-term sustainability.
4. Have specific objectives and measurable outcomes for participation, community involvement, publicity, skill progress and/or other factors.

Credentials/Documentation:

Proof of the ability to perform the required assistance is required. Organizations must have significant experience in supporting disabled athletes, including the promotion of disabled sports at local and national levels. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

The VA will publish, in the Federal Register, a notice of fund availability, soliciting applications for the grant program and information on applications for requesting eligibility to receive grant funds. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Forms furnished by VA must be used for the program. Applications will only be accepted when received within the timeframe and meeting the requirements described in a notice of fund availability published in the Federal Register.

Award Procedure:

Formal approval of the award of assistance is made by the Secretary of Veterans Affairs to the U.S. Olympic Committee, Paralympic, Inc. The USOC, Paralympics, Inc. manages the sub-awards program to participating entities, including Paralympic Sport Clubs, colleges/ universities, Veterans Service Organizations (VSOs) and community-based organizations.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

The overarching grant is a congressionally mandated earmark to the United States Olympic Committee, Paralympic Integrated Adaptive Sports Program, and subject to compliance with accompanying guidelines. The USOC manages the sub-grant program in compliance with program directives.

Renewals:

The overarching grant is dependent upon renewal through the authorization process. Subject to the availability of funds, sub-grants may be renewed. Grantees would be required to submit a renewal application within the time

frame established in a notice of fund availability.

Formula and Matching Requirements:

Partnerships are agreements made between the USOC and organizations with significant experience in the training and support of disabled athletes and the promotion of disabled sports at the local and national levels.

ENVIRONMENTAL PROTECTION AGENCY

66.001 AIR POLLUTION CONTROL PROGRAM SUPPORT

FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act of 1990, Section 105, Public Law 101-549.

OBJECTIVES:

The objectives of the 105 program are to assist State, Tribal, Municipal, Intermunicipal, and Interstate agencies in planning, developing, establishing, improving, and maintaining adequate programs for the continuing prevention and control of air pollution and/or in the implementation of national primary and secondary air quality standards.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2011: By nature, much of the work occurring in FY 2010, including the implementation of mobile, area and stationary source pollution controls, will continue into FY 2011. However, several new developments will alter the priorities for the program across the country in FY 2011 - the response to the new national ambient air quality standards (NAAQS) for ozone, lead, fine particulates (PM_{2.5}), nitrogen dioxide (NO₂), and sulfur dioxide (SO₂). Recipients will continue to review air quality reports and take appropriate actions dealing with new violating areas with any of the NAAQS; submit re-designation requests including maintenance plans for areas with clean air quality data as appropriate; work with local area stakeholders to support innovative and local initiatives; continue to implement 8-hr ozone State Implementation Plans (SIPs); and submit any outstanding ozone SIP elements (including prior commitments). Recipients will also prepare recommendations on designations for the revised ozone, NO₂, and SO₂ NAAQS. For PM_{2.5}, recipients will submit any outstanding PM_{2.5} SIP elements as needed and implement PM_{2.5} plans designed to attain the 1997 NAAQS. They will continue SIP planning for attaining the 2006 PM_{2.5} NAAQS standards. Some states will work with local agencies to implement woodstove change-out programs in areas where change-outs could significantly reduce ambient particle concentrations. Areas may also explore feasibility of changing out existing outdoor wood-fired boilers to significantly reduce PM_{2.5} concentrations. Recipients will also work on monitoring and SIP planning to attain the Lead (Pb) NAAQS. As in FY 2010, for ambient monitoring, all state/local primary quality assurance organizations operate monitors and submit NAAQS pollutant data, Photochemical Assessment Monitoring Stations

(PAMS), and quality assurance (QA) data to AQS directly or indirectly through another organization according to schedule in 40 CFR Part 58. Data must also meet quality assurance requirements according to Appendix A to 40 CFR Part 58. These organizations will also submit their required annual (monitoring) network plans by July 1, 2011. They must also certify their 2009 NAAQS pollutant data in AQS and provide supporting documentation by May 1, 2011 (state/local only, unless tribal work plan requirement). Additionally monitoring organizations will report real time ozone and PM_{2.5} data to the AirNOW system for cities required to report the Air Quality Index (AQI) (state/local only). Air quality reporting, including particle pollution forecasting, will be expanded to additional cities. States affected by the NO_x SIP Call will continue to contribute a portion of their grant funds to support a centrally-administered emissions budget and trading program as part of their NO_x State Implementation Plan. For regional haze, States and other stakeholders will continue to work with EPA on issues related to submitted regional haze SIPs and will continue to implement Best Available Retrofit Technology (BART) requirements. As in FY 2010, funds for air toxics purposes are provided to: expand existing air toxics monitoring networks operated by State, Tribal, and local agencies in order to better characterize air toxics risks and assess the effectiveness of control strategies. Recipients will collect data for the annual integrated criteria air pollutant (CAP) and hazardous air pollutant (HAP) emissions inventory; implement delegated or approved section 112, 111(d) and 129 standards, as appropriate, for major sources and area sources; implement delegated residual risk standards; and work with communities to develop and implement local air toxics programs that address outdoor, indoor, and mobile sources with emphasis on areas with potential environmental justice concerns. State and local air pollution control agencies work with EPA to operate the national fine particulate (PM_{2.5}) monitoring network to accurately assess and characterize the nature and extent of fine particulates (PM_{2.5}) across the country. This assessment is necessary to determine the air quality status of an area in relation to the national PM_{2.5} ambient air quality standard. At least three years of quality-assured data are required in order to determine an area's attainment status. The air quality status of an area will determine the nature and complexity of its attainment plan, its associated control strategies, and its implementation schedule. The immediate goals of this multi-year program are: appropriate spatial characterization of PM_{2.5} NAAQS; public reporting of PM_{2.5} in the Air Quality Index; characterization of PM_{2.5} chemical speciation data for long term trends; development and accountability of emission control programs and tracking of regional haze, and limited support of health studies; implementation of NCore CO, SO₂, NO₂/NO_y trace-level monitoring to support characterization of PM precursors; assessment of PM_{2.5} data quality; and procurement and testing of PM_{2.5} filters. Grant funds are used to provide support to eligible state and local air agencies for continued operation of high value federal reference method (FRM) and speciation monitoring sites; additional investments in PM_{2.5} mass and speciation continuous monitoring and associated data management systems for timely reporting of high quality data; and continued investments in precursor gas analyzers, data analyses, and quality assurance activities that will support better understanding of particle formation.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grant funds may be used for costs specifically incurred in the conduct of a State/Local/Tribal Air Pollution Control Program in accordance with the purposes enumerated in the approved application. These include personnel costs, supplies, equipment, training of personnel, travel, and other necessary expenditures during the approved project period. Funds may not be used for construction of facilities, nor for expenses incurred other than during each approved award period. Grant funds may not be used to subsidize the costs of Title V operating permit programs or to supplant otherwise available recipient resources. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://www.epa.gov/geospatial/>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when

on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Municipal, Intermunicipal, State, Federally Recognized Indian Tribe, or Interstate or Intertribal with legal responsibility for appropriate air pollution planning, development, establishment, implementation, and maintenance of Clean Air Act air pollution control activities, including management of grant support for those activities, provided such organization furnishes funds for the current year that are equal to or in excess of its recurrent expenditures for the previous year for its approved section 105 air pollution program. The determination of expenditures is subject to decisions based on provisions of the Clean Air Act and applicable grant regulations. This program is available to each State, territory and possession of the U.S., including the District of Columbia. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Municipalities (local governments), Intermunicipalities, States, Federally Recognized Indian Tribes, and Interstate and Intertribal agencies.

Credentials/Documentation:

The application must supply evidence of legal authority for air pollution control including responsibility for carrying out the implementation plan requirements under 110 of the Clean Air Act; evidence of the availability of nonfederal matching funds; assurance that federal funds do not supplant available recipient funds, evidence that the Governor or his designated State agency has been given the opportunity to comment on the relationship of the program to be funded to the State plan; and a workable program officially adopted for the agency. Principles for determining allowable costs are set forth in applicable Federal management circulars described in the general grant regulations and procedures 40 CFR Part 31 of the Federal Regulations. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Discussion with the applicable EPA Regional Office is advised for air program grant applications. The standard application forms as furnished by the Environmental Protection Agency and required by OMB Circular No. A-102 must be used for this program. Applications are subject to the State's review. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Requests for application forms and completed applications must be submitted to the appropriate EPA Regional Grants Administration Branch. Application must meet the requirements of the grant regulations and will be reviewed to determine merit and relevancy of the proposed project particularly with regard to the most recently available national program and grant guidance. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Procedures for awards are outlined in General Grant Regulations 40 CFR Part 31. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and

criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The Clean Air Act does not prescribe a specific statutory funding formula but does direct that the factors of population, the extent and severity of the air pollution problem, and financial need, be considered in the allocation of available resources by the Agency. The current allocation approach is currently under review for updating by the Agency. EPA is undertaking the review in consultation with eligible recipients. State, Interstate, and Local programs may receive up to 60 % Federal funding for the total approved program costs. The Grantee must contribute a minimum of 40% as well as meet a maintenance of effort (MOE) requirement. The amount of Federal share of grant costs should be determined by reference to the criteria set forth in Section 105 of the Clean Air Act and in 40 CFR 35.145, 40 CFR 35.146, and 40 CFR 147. Not more than 10 % of the funds available shall be granted for air pollution control programs in any one State. Not less than one-half of one % of the funds are to be made available as a minimum to a State (overall) for application. However, award of these levels of funds will be made only if the agencies within the State meet the requirements of the Act and grant regulations. For Indian Tribes establishing eligibility pursuant to Section 35.573, the Regional Administrator may provide financial assistance in an amount up to 95 % of the approved costs of planning, developing, establishing, or improving an air pollution control program, and up to 95 % of the approved costs of maintaining that program. After 2 years from the date of each Tribe's initial grant award, the Regional Administrator will reduce the maximum federal share to 90 %, as long as the Regional Administrator determines that the Tribes meet certain economic indicators that would provide an objective assessment of the tribe's ability to increase its share.

This program has MOE requirements, see funding agency for further details. This program does have a maintenance of effort (MOE) requirement which requires that a recipient's recurring expenditures must meet or exceed the level of the prior year's recurring expenditures.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at time of award. See the following for information on how assistance is awarded/released: Assistance agreements may be fully funded by a lump sum or funded incrementally (quarterly).

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Grant and administrative reporting requirements are also identified in the Grant Regulations Part 30 and Part 32. Programmatic reporting requirements are outlined in Part 31 and in the applicable national program manager annual guidance. Requirements for the evaluation of recipient performance are discussed in 40 CFR 35.115.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular

No.A-102. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Obligations:

(Project Grants) FY 10 \$179,732,000; FY 11 est \$179,372,000; and FY 12 est \$280,752,000

Range and Average of Financial Assistance:

In FY 2011 - From approximately \$71, 471 to \$6,689,317 per recipient; average approximately \$1,545,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 2010, approximately 110 applications were received from State, Local and Tribal agencies to help support their continuing air quality programs were funded. These programs plan and implement measures to improve, protect, monitor and report air quality in their communities. The plans integrate state and local measures with federal measures - including advances in environmental technologies (e.g., cleaner fuels, vehicle and industrial technology), in addressing and reducing air pollution and in meeting National Ambient Air Quality Standards (NAAQS). The NAAQS are regularly reassessed to assure that public health and welfare is being adequately protected. The most recent designations for ozone occurred in 2004 and 82 of the original 126 ozone areas are now meeting that NAAQS based on data collected during 2007-2009. For PM, the Agency designated 86 areas, with a total population of 35.8 million people, as nonattainment for PM10 in 1992 and 45 of those areas remain in nonattainment. In April 2005, EPA designated 39 areas as nonattainment for the 1997 PM2.5 standard based on air quality data collected during 2001-2003 and 18 of those areas are now meeting the NAAQS based on data collected during 2006-2008. As the new standards for ozone, lead, NO2, SO2, and CO take effect, updates on designations and progress in air quality status will be provided. Fiscal Year 2011: No Current Data Available

66.600 Environmental Protection Consolidated Grants for the Insular Areas - Program Support

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Continuing program grants are provided to State, Local and Tribal air pollution control agencies for the purpose of operating programs that plan and implement activities to achieve ambient air quality standards. These programs cover: planning for attainment of updated national air quality standards including fine particulates and ozone; state implementation plan development; ambient monitoring; emission inventories; air and emissions modeling; source permitting; certain compliance and enforcement activities related to mobile and non-Title V stationary and area sources; public outreach and education activities; development and implementation of air quality regulations; implementation of market-based, early action compacts and other innovative air pollution reduction or prevention strategies; technical training; risk and data analyses; information management; and program evaluation, progress reporting and other program operation and maintenance activities.

Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The criteria for awarding air pollution control program assistance grants are provided in the 1990 Clean Air Act, Section 105, and set forth in State and local assistance grant regulations (40 CFR 35). Some of the criteria considered for award include the following: 1) No grant may be awarded unless the program contained in the grant application meets the requirements of Section 35.140 (program purposes and associated regulations) and has been approved by the Regional Administrator. Sections 35.104 and 35.107 describe what an agency needs to do to prepare an adequate application. This usually includes the use of annual program technical and grant guidance from EPA and is generally done in consultation with the EPA Regional Office. 2) No grant may be awarded until the Regional Administrator has consulted with the official designated by the Governor(s) of the State(s) affected by such award pursuant to Section 105(b) of the Clean Air Act. Such consultation should consider the role of the applicant in the enforcement of any applicable implementation plan and confirm that the applicant's program will be generally compatible with the objectives of the applicable implementation plan. 3) The requirements of this Section shall not apply to Indian Tribes that have established eligibility pursuant to Section 35.573 and intertribal agencies made up of such Tribes. 4) No grant may be awarded unless the Regional Administrator has determined that the agency has adequate air pollution control authority and necessary regulations to implement such authority. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.032 STATE INDOOR RADON GRANTS (SIRG)

FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

Indoor Radon Abatement Act, Section 306, 15 U.S.C 2661.

OBJECTIVES:

Title III of the Toxic Substances Control Act (TSCA), the Indoor Radon Abatement Act (IRAA), Section 306, authorizes EPA to assist States and Federally Recognized Indian Tribes to develop and implement programs to assess and mitigate radon-related lung cancer risk.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2011: In FY 2011 the SIRG program will emphasize radon risk reduction through increased action by consumers, home buyers and sellers, homeowners, real estate professionals, radon services professionals, homebuilders, tribes, non-governmental organizations, and Federal, state and local governments. Projects funded by SIRG should have the following results:

- Building homes to include radon-reducing features,
- Reducing radon in existing homes, and
- Building new schools to include radon-reducing features, and reducing radon in existing schools.

To achieve these outcomes and increase results, the SIRG program aims to: (1) improve the effectiveness of state-local/tribal radon programs; (2) focus on high radon potential areas, especially for new home building, building code adoption, and green and healthy homes programs; (3) encourage testing and mitigation within residential property transfers; and (4) encourage SIRG recipients to be strategic in their risk reduction efforts and results reporting, e.g., by institutionalizing risk reduction practices and policies, utilizing best practices, and developing better sources of data and information.

Funding Priority - Fiscal Year 2012: In FY 2012 the SIRG program will continue to emphasize radon risk reduction through increased action by home buyers and sellers, homeowners, real estate professionals, radon services professionals, homebuilders, tribes, non-governmental organizations, and Federal, state and local governments. Projects funded by SIRG should focus on achieving the following outcomes:

- Building homes to include radon-reducing features, especially in high-radon potential areas,
- Reducing the radon level in existing homes to below 4pCi/L, and
- Building new schools to include radon-reducing features, and reducing radon in existing schools to below 4pCi/L.

To achieve these outcomes and increase results, the SIRG program aims to: (1) improve the effectiveness of state-local/tribal radon programs; (2) focus on high radon potential areas, especially for new home building, building code adoption, and green and healthy homes programs; (3) encourage testing and mitigation within residential property transfers; and (4) encourage SIRG recipients to be strategic in their risk reduction efforts and results reporting, e.g., by institutionalizing risk reduction practices and policies, utilizing best practices, and developing better sources of data and information.

TYPES OF ASSISTANCE:**PROJECT GRANTS****USES AND USE RESTRICTIONS:**

The following activities are eligible for funding under SIRG: radon surveys, public information and educational materials, radon control programs, purchase

of radon measurement equipment or devices, purchase and maintenance of analytic equipment, training, program overhead and administration, data storage and management, mitigation demonstrations, and toll-free hotlines. Funding for these eligible activities may be used to develop State radon response programs. States may, at the Governor's direction, provide assistance to local governments for public information and educational materials, radon control programs and training. **RESTRICTIONS:** The statute places the following restrictions on the use of Federal funds: 1) SIRG recipients must perform satisfactorily in the preceding budget period to be eligible to receive additional funding; 2) State expenditures for measurement equipment/devices and mitigation demonstrations cannot exceed 50 percent of the grant amount in a budget period; 3) State expenditures for general overhead and program administration cannot exceed 25 percent in a budget period; and 4) SIRG applicants may use grant funds for financial assistance to persons only to the extent that such assistance is related to approved demonstration projects or the purchase and analysis of radon measurement devices.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible entities include States (including District of Columbia (DC)), Puerto Rico, the Virgin Islands, Guam, the Canal Zone, American Samoa, the Northern Mariana Islands, Federally recognized Indian Tribes and Tribal consortia, or any other U.S. Territory or possession.

Beneficiary Eligibility:

State agencies: local, municipal, district, or area wide governments and organizations; U.S. territories or possessions, Federally Recognized Indian Tribes, colleges, universities, multi-state agencies, nonprofit organizations, low-income individuals, homeowners, and the general public.

Credentials/Documentation:

An applicant's application must: 1) describe the seriousness and extent of radon exposure; 2) identify the lead State agency with primary responsibility for the radon program that will receive the grant, with a description of the lead agency's role and responsibilities, and those of any other State agencies, and any municipal, district or area wide organizations involved in the radon program; 3) submit a work plan describing the activities and programs to be funded; 4) provide a budget specifying the Federal and applicant share of the funding for each work plan element. First time applicants must have a 3-year work plan outlining long range program goals and objectives, the tasks necessary to achieve them, the resource requirements including anticipated SIRG applicant funding levels and the desired Federal funding level. Costs are determined in accordance with OMB Circular A-87, "Cost Principles for State, Local and Tribal Governments." OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Application assistance is available through Regional radon coordinators and their Regional grants specialist counterparts. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description (TSCA 10(a) only), EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Visit www.epa.gov/iaq/whereyoulive.html for state specific information on the state radon programs and how to contact them. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency and the appropriate EPA Regional Office listed in Appendix IV of the Catalog, or through the Grants and Interagency Agreements Management Division, 3903F, Washington, DC 20460. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Each application shall be subjected to administrative evaluation to determine adequacy of application in relation to grant regulations and to technical and program evaluation to determine the merit and relevancy of the project or program. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

About 90 days.

Appeals:

Disputes relating to non-competitive matters will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Renewals of awards will be conducted in accordance with the provisions of Section 306 and the SIRG Guidance (SIRGG).

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: EPA may provide States with up to 60% of allowable costs of approved SIRG Program activities. TSCA Section 306 requires a progressive match for States and Tribes; 25% in the first year; 40% in the second year; and, 50% in the third and subsequent years of participation in the SIRG program. However, in the FY 2006 appropriation, Congress permanently reduced the recipient match requirement from a maximum of 50% to 40% for participants with two or more years in the program.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Awards funded made under TSCA Section 306, are normally for a period of 12-36 months; EPA encourages 36-month (3-year) SIRG project periods. EPA negotiates project periods appropriate to the specific project, and encourages three-year grant periods. However, EPA project periods are limited to a maximum of five years. Grants and cooperative agreements may be fully funded or incrementally (partially) funded. See the following for information on how assistance is awarded/released: Assistance agreements are fully funded by a lump sum.

Reports:

Required reports from grant recipients include: performance reports, no more often than quarterly; Financial Status Reports, (Standard Form 269); Federal Cash Transactions Reports (for grants paid by letter of credit); and if applicable, Request for Advance or Reimbursement (Standard Form 270). To monitor the performance of each grant recipient, the EPA Project Officer and other Agency personnel may conduct mid-year (or more frequent) site visits to inspect program activities first hand.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program

Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must keep financial records, including all documents supporting entries in accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipient grants and cooperative agreement records. Recipients must maintain all records until 3 years from the date of submission of the final expenditure reports. If questions, such as those raised as a result of an audit remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Obligations:

(Project Grants) FY 10 \$8,074,000; FY 11 est \$8,058,000; and FY 12 est \$8,074,000

Range and Average of Financial Assistance:

In FY 2011 Federal funding can range from \$15,000 to a maximum of \$807,400 (10% of the annual appropriation amount) per State/Tribal applicant. The average SIRG award is \$180,000. Minimum awards are \$10,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: The SIRG program awarded approximately 45 assistance agreements totaling \$8,074,000. In calendar year 2010 an estimated 60,000 existing homes were mitigated to reduce high radon levels. In calendar year 2009, approximately 58,800 new homes were built with radon-reducing features. Much of this progress resulted from the work of coalitions and partnerships comprised of local governments, national and local nonprofit organizations, industry, radon advocates and other leaders. The SIRG program continues to stress the importance of achieving and measuring results in: the number of homes, schools, and other buildings mitigated for radon; in the number of new homes built with radon-reducing features. Recipients are required to include the SIRG results measures template in their work plans, and projects with clear risk reduction benefits are to be preferred over projects projected to have lesser risk reducing results. Persons and organizations looking for ways to participate in the national radon risk-reduction effort should visit www.RadonLeaders.org. Fiscal Year 2011: Accomplishments information for FY 2011 will become available in the second quarter of FY 2012. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

EPA regulations that govern State activities under the SIRG Program are contained in the following Parts of 40 CFR: (1) Part 4, "Implementation of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1980"; (2) Part 7, "Nondiscrimination in Programs Receiving Federal Assistance from the Environmental Protection Agency"; (3) Part 29, "Intergovernmental Review of Environmental Protection Agency Programs and Activities"; (4) Part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments"; (5) Part 32, "Debarment and Suspension under EPA Assistance Programs", and (6) Part 35; "State and Local Assistance". Applicable OMB Circulars include (1) Circular A- 87, "Cost Principles for State and Local Governments," and (2) Circular A-102, "Uniform Requirements for Assistance to State and Local

Governments". Other materials applicable to SIRG include: (1) Administrative Guidance for the State Indoor Radon Grants Program under Section 306, Indoor Radon Abatement Act (January 2005); (2) Indoor Radon and Radon Decay Product Measurement Device Protocols (EPA 402-R-92-004); and, 3) Protocols for Radon and Radon Decay Products Measurements in Homes (EPA 420-R-93-003). Visit <http://www.epa.gov/radon/sirgprogram.html> for more information.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: The State and Tribal Indoor Radon Grant (SIRG) program has awarded grants to States and Tribes to: 1) establish effective radon programs among states, territories, and federally recognized Indian tribes; 2) increase the number of homes, schools, and other buildings tested and mitigated from radon; 3) implement radon resistant construction standards in high risk areas; 4) encourage radon testing and disclosure in connection with real estate transfers; and 5) promote environmental justice through programs and outreach efforts directed at low-income and/or culturally-diverse populations. The Agency encourages recipients to partner with other public health and environmental organizations to increase program effectiveness. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The EPA will base its review of SIRG applications on whether they reflect the program's goals and promote integrity in States' use of grant funds. Pursuant to TSCA Section 306(e), if State applications exceed the funds appropriated for award in a fiscal year, EPA will prioritize State activities based on the following criteria: (1) the seriousness and extent of the radon contamination problem to be addressed; (2) the potential for the activity or project to bring about reduction in radon levels; (3) the potential for the development of innovative radon assessment techniques, mitigation measures as approved by the Administrator, or program management approaches which may be of use to other States; (4) the potential for the activity to implement EPA's model radon-resistant building standards; (5) the potential for the development of radon programs in high-risk areas; and (6) the potential for the activity to improve the effectiveness and viability of the State program. EPA may establish additional criteria related to demonstration activities or other aspects of the SIRG program. All other requirements of the SIRG program are applicable to the States and Tribes unless otherwise stated in TSCA 306.

66.033 OZONE TRANSPORT COMMISSION

FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act of 1990, Section 106 and 111, Public Law 101-549, 42 U.S.C 1406.

OBJECTIVES:

To develop or recommend air quality implementation plans for air quality control regions designated pursuant to Section 106 (interstate pollution) or Section 111 (interstate ozone pollution) of the Clean Air Act of 1990.

Funding Priority - Fiscal Year 2011: The Ozone Transport Commission (OTC) will continue to provide a forum for the states within the Ozone Transport Region (New England and Middle Atlantic states) to develop and adopt air

quality implementation plans for reducing ozone pollution pursuant to Section 106 of Section 111 of the Clean Air Act of 1990.

Funding Priority - Fiscal Year 2012: The Ozone Transport Commission (OTC) will continue to provide a forum for the states within the Ozone Transport Region (New England and Middle Atlantic states) to develop and adopt air quality implementation plans for reducing ozone pollution pursuant to Section 106 of Section 111 of the Clean Air Act of 1990.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Assistance funds may be used for costs specifically incurred in the conduct of interstate pollution projects in accordance with the purposes enumerated in the approved application. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

An agency or commission designated by the Governors of the affected States, which is capable of recommending to those Governors' plans for implementation of national primary and secondary ambient air quality standards and which includes representation from the States and the appropriate political subdivisions within the affected air quality control region. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Municipalities, intermunicipalities, States, interstate agencies or commissions, and Federally recognized Indian tribes.

Credentials/Documentation:

The application must supply evidence of legal authority for air pollution control; evidence of the availability of non-federal matching funds, evidence that the Governor or his designated State agency has been given the opportunity to comment on the relationship of the program to be funded to the State plan and a workable program officially adopted for the agency. Principles for determining allowable costs are set forth in applicable Federal management circulars described in the general grant regulations and procedures 40 CFR Part 30 of the Federal Regulations. Costs will be determined in accordance with OMB Circular No. A-87 for State and Local governments. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Discussions or informal meetings with the Headquarters Program Office concerning program preparation are advisable. The standard application forms as furnished by the Federal Agency and required by OMB Circular No. A-102 must be used for this program. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Requests for application forms and completed applications should be submitted to the appropriate EPA Office (See Appendix IV of the Catalog). Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Each application shall be subjected to administrative coordination to determine adequacy in relation to grant regulations, and to technical and program evaluation to determine merit and relevancy of the project. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Applications are due 180 days prior to the beginning of the budget period.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Applicant must reapply.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Upon initial designation by the Governors of the affected States, pursuant to Sections 106 or 111 of the Clean Air Act of 1990, the Administrator is authorized to pay for up to 2 years, and up to 100 percent of the air quality planning program costs of a designated commission or interstate agency. After the initial 2-year period, the Administrator is authorized to make grants to such agency or such commission in amounts up to 3/5 of its air quality management plan costs.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: Assistance agreements are fully funded by a lump sum.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim and final progress reports, and financial and equipment reports.

Reporting requirements are also identified in the Grant Regulations Part 30 and Part 31.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must keep financial records, including all documents supporting entries in accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipient grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of the final expenditure reports. If questions, such as those raised as a result of an audit remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

Obligations:

(Project Grants) FY 10 \$635,000; FY 11 est \$635,000; and FY 12 est \$635,000

Range and Average of Financial Assistance:

There is only one cooperative agreement awarded under this program. The cooperative agreement will range from \$600.00 to \$650,000/fiscal year with an average award of \$635,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: The Ozone Transport Commission was established by the Clean Air Act Amendments of 1990 and provides policy guidance to its member states and the District of Columbia on actions needed to reduce ozone pollution within the ozone transport region. They provide air pollution assessment, technical support and forums through which their member states can harmonize their pollution reduction strategies. This is accomplished through the development of multi-state agreements such as the NOx emissions reductions, the Clean Energy Initiative, education and outreach efforts and similar activities. OTC also participates in national forums such as the Clean Air Act advisory Committee and the Air Quality Management workgroup representing its member states. This CFDA issues one grant annually in response to the Clean Air Act Amendments to establish an Ozone Transport Commission which perform the activities stated herein annually. In FY 2010, a two year grant was awarded for \$1,270,000. Fiscal Year 2011: In addition to providing policy guidance to its member states and the District of Columbia on actions needed to reduce ozone pollution within the ozone transport region, they provide air pollution assessment, technical support and forums through which their member states can harmonize their pollution reduction strategies. OTC has also provided Testimony on EPA proposed Ozone NAAQS reconsideration and on Proposed Clean Air Amendments in 2010. In FY 2010, one grant was awarded for \$1,270,000 for a two year period. Fiscal Year 2012: No Current Data Available

66.034 SURVEYS, STUDIES, RESEARCH, INVESTIGATIONS, DEMONSTRATIONS, AND SPECIAL PURPOSE ACTIVITIES RELATING TO THE CLEAN AIR ACT

FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act of 1963, Section 103, Public Law 95-95, 42 U.S.C 7401; National Environmental Policy Act of 1969, Section 102(2)(F), Public Law 91-190, 42 U.S.C 4332.

OBJECTIVES:

To support surveys, Studies, Research, Investigations, Demonstrations and Special Purpose assistance relating to the causes, effects (including health and welfare effects), extent, prevention, and control of air pollution to include such topics as air quality, acid deposition, climate change, global programs, indoor environments, radiation, mobile source technology and community-driven approaches to transportation and emissions reduction.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2011: (1) Indoor Environments. Activities will support surveys, studies, research, training, outreach, education, investigations or demonstrations performed by organizations that lead to effective outreach strategies to educate key audiences about indoor air pollutants, their associated health risks and encourage effective mitigation and control strategies. Currently, the Program focuses on several critical aspects of indoor air quality that pose significant risks to public health, and in particular, to children and other disproportionately impacted segments of society. Program focus includes, but is not limited to reducing the exposure of children and others with asthma to indoor triggers that worsen their condition, promoting the adoption of operation and maintenance practices in schools, homes and other buildings throughout the nation to reduce the harmful effects of poor indoor air quality on the health of the public, students and staff, promoting voluntary radon testing by homeowners to identify elevated levels and fix them when they are found, as well as working with homebuilders to incorporate radon resistant construction features into new homes, and encouraging adult smokers to protect their children from the adverse health effects of environmental exposure to secondhand smoke by making a conscious decision to smoke outside and keep their homes and cars smokefree.

(2) Radiation. Activities support technical, outreach, and educational projects relating to environmental radiation. Activities also support the national environmental radiation monitoring program. This program prepares for and responds to incidents involving nuclear or radiological material, oversees the safe disposal of radioactive waste, maintains two laboratories that perform radiological sampling and analyses, and provides standards for protecting human health and the environment from radioactive material. Program focus includes, but is not limited to the following activities: performance testing and evaluation, development of analytical procedures, purchasing of radiation laboratory equipment and support and enhancement of radiological laboratory capability and capacity across the nation to reduce the gap in analyzing environmental samples following a significant national radiological incident.

(3) Community-Scale Air Toxics Ambient Monitoring (CSATAM). The

CSATAM Grant Program results in two-year projects designed to assist state, local and tribal communities in identifying and profiling air toxics sources, characterizing the degree and extent of local air toxics problems and tracking progress of air toxics reduction activities in specific local areas without reliance on often uncertain estimates of emissions and air dispersion models. Further, projects typically allow the recipient state, local and tribal air pollution control agencies to establish or enhance hazardous air pollutant monitoring networks, thus providing long term capability to investigate and assess specific local air quality scenarios of concern. The program will continue working with grant recipients that received funding in previous years.

(4) Mobile Sources Technologies. Projects encompass studies and investigations utilizing state-of-the-art experimental techniques in advanced engine development technology, including hydraulic hybrid drive-trains, to optimize fuel economy, reduce exhaust emissions (including PM and NOx) and improve performance. In addition, projects may support studies identifying barriers to technological innovation, analyzing innovative strategies for overcoming these barriers, encouraging the development and adoption of new vehicle and fuel technologies for the control of emissions.

(5) Heavy Duty Truck Fuel Consumption and Emissions Reductions. This program studies and analyzes fuel consumption and emissions reductions associated with the use of innovative technologies for heavy duty diesel trucks. Projects involve truck fleets that operate under varying conditions in order to evaluate the effectiveness of the various technologies.

(6) National Internet-based On-Board Diagnostic (OBD) Information Exchange. This program supports activities that maintain, update and improve the Internet-based information clearinghouse to facilitate accurate and timely exchange of technical information related to on-board diagnostic (OBD) between state inspection/maintenance programs, the automotive industry and the general public.

(7) Integrated Assessment of Transportation-Related Policies on Greenhouse Gases, Land Use Change, and Other Economy-Wide Impacts (Integrated Assessment). This program is designed to improve the public data underlying well-established integrated assessment models used to analyze both climate change impacts and the linkages between renewable fuels and climate change. Additionally, projects are intended to further the public's understanding of the interaction of the economic, energy, and environmental impacts of increased renewable fuel usage in the U.S. transportation sector using a robust modeling framework.

(8) Climate Change. The Climate Change Division (CCD) supports activities relating to improving economic, technical and programmatic understanding of climate change. CCD supports technical, outreach, and education projects regarding climate change impacts, mitigation and adaptation options in order for private and public sectors may more effectively and comprehensively address their climate goals. Additionally, CCD supports projects that break down market barriers that may limit investment in technologies that reduce methane and non-CO2 greenhouse gases; address the technical issues surrounding sequestration and carbon storage; address collection and analyses of economic data relating to climate change; and the Methane to Markets program (M2M) that support climate technology transfer in developing and transition countries. The Methane to Markets Partnership is an international public-private initiative that advances cost effective, near-term methane recovery and use as a clean energy source in four sectors: agriculture, coal mines, landfills, and oil and gas systems. M2M projects reduce greenhouse gas emissions in the near term and provide a number of important environmental and economic co-benefits. Co-benefits include stimulating local economic growth, creating new sources of affordable alternative energy, improving local air and water quality with associated public health benefits and increasing industrial worker safety. CCD also supports the Greenhouse Gas Reporting program will help facilities that participate in voluntary, state-based and federal GHG reporting programs better understand the requirements of voluntary and state GHG reporting programs in comparison to the federal rule; and identify options for how data collected through state and federal reporting requirements may be used to inform state GHG programs and facility-level efforts to identify emissions-reduction opportunities.

(9) Climate Protection Partnerships. EPA funds Global climate Change programs which are voluntary government/industry partnership programs designed to capitalize on the opportunities that consumers, businesses, and organizations have for making sound investments in efficient equipment, policies and practices. The Global Climate Change program will manage a number of efforts to remove barriers in the marketplace and to deploy technology faster in the residential, commercial, and industrial sectors of the economy. Our programs work by overcoming widely acknowledged barriers to energy efficiency: lack of clear, reliable information on technology opportunities; lack of awareness of energy efficient products and services; lack of financing options to turn lifecycle energy savings into initial cost savings for consumers; low incentives to manufacturers for efficiency research and development. In addition, our Global Climate Change programs will provide technical assistance, training, information exchange and other forms of cooperation to enhance the capabilities of governments and other stakeholders to protect human health and the environment regionally and globally.

(10) Lead Airport Monitoring. In accordance with EPA's 'Final Lead Monitoring Rule', state and local air pollution control agencies (grantees) will conduct a one-year period of monitoring to determine whether airports that emit less than 1.0 tpy have the potential to cause the surrounding areas to exceed the lead NAAQS of 0.15 micrograms per cubic meter (g/m³). Information derived from the monitoring effort will inform other state and local jurisdictions across the country on additional air port monitoring and mitigation efforts that may need to be undertaken. Grantees will purchase capital equipment, to establish and implement an ambient air monitoring site for lead emissions at fifteen selected general aviation airports across the country, and to manage associated data management systems, to conduct relevant lead data analyses, and to quality assure and report essential data into a national information system such as the Air Quality System (AQS) data base.

(11) Gulf Coast Community Outreach Study for Communities Impacted by the Deepwater Horizon Oil Spill. Development and implementation of a community outreach study to help inform and empower Gulf Coast communities, focusing on the air quality impacts resulting from the Deepwater Horizon Oil Spill.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved Surveys, Studies, Research, Investigations, Demonstrations and Special Purpose plus allowable indirect costs, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States, local governments, territories, Indian Tribes, and possessions of the U.S., including the District of Columbia, international organizations, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions, which submit applications proposing projects with significant technical merit and relevance to EPA's Office of Air and Radiation's mission. Eligibility for projects awarded or competed exclusively with State and Tribal Assistance Grant (STAG) funds is limited to air pollution control agencies, as defined in section 302(b) of the Clean Air Act that are also eligible to receive grants under section 105 of the Clean Air Act, and/or federally

recognized tribes and inter-tribal consortia, consisting of federally recognized tribe members. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, Indian Tribes, universities and colleges, hospitals, laboratories, and other public and private nonprofit institutions.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and Indian Tribes, OMB Circular No. A-21 for educational institutions, and OMB Circular No. A-122 for nonprofit institutions. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: While there is no statutory or regulatory cost sharing requirement for this program, as a matter of policy the Agency may impose a cost sharing requirement in specific competitions. If the Agency decides to do this, the cost sharing terms will be stated in Section III of the competitive

announcement.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. EPA limits project periods to 5 years. Grants are generally fully funded or on an incremental funding basis. Successful applicants will be notified either via U.S. mail or electronically. Such notification is contingent upon information contained in the resulting solicitation. See the following for information on how assistance is awarded/released: Assistance agreements may be incrementally (quarterly) or fully (lump sum) funded.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations Part 30 and Part 31.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110. No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

(Project Grants) FY 10 \$15,000,000; FY 11 est \$15,000,000; and FY 12 est \$13,810,000

Range and Average of Financial Assistance:

EPA generally award grants ranging in value from \$5,000 to \$750,000 per fiscal year. The average value of each grant is \$150,000 per fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Indoor Environments - Produced effective outreach strategies to educate key audiences about indoor air pollutants and their associated health risks, convincing them to adopt effective mitigation and control strategies.

These outreach strategies focused on several critical aspects of indoor air quality that pose significant risks to public health, and in particular, to children and to other disproportionately impacted segments of society. These include: reducing the exposure of children and others with asthma to indoor triggers that worsen their condition; promoting the adoption of operation and maintenance practices in schools throughout the nation to reduce the harmful effects of poor indoor air quality on the health of students and staff; promoting voluntary radon testing by homeowners to identify elevated levels and fix them when they are found, as well as working with homebuilders to incorporate radon resistant construction features into new homes; and encouraging adult smokers to protect their children from the adverse health effects of environmental exposure to secondhand smoke by making a conscious decision to smoke outside and keep their homes and cars smokefree. Radiation - Assistance provided support and enhancement for radiological laboratory capability and capacity across the nation to reduce the gap in analyzing environmental samples following a significant national radiological incident. Key activities include audits and proficiency testing, provision of radiological instrumentation, supplies, training, and limited facilities upgrades. The USEPA's Methane to Markets Partnership Grants program began in 2006 and provides cooperative agreements to recipients around the globe to build capacity and promote international capture and use of methane. The grants have become an integral and important capacity building instrument of the Methane to Markets Partnership, a public-private partnership (of more than 33 partner governments) that reduces greenhouse gas (GHG) pollution by promoting the cost-effective, near-term recovery and use of methane, a GHG that is more than 20 times more potent than carbon dioxide. Methane capture and use projects supported by the partnership through grants and other means are currently reducing emissions by more than 27.3 million metric tons of carbon dioxide equivalent ~ annually equivalent to the annual emissions from 5 million passenger vehicles. The USEPA's Greenhouse Gas (GHG) Reporting Grants program began in 2010 and has now provided almost \$2 million for 8 grants. The purpose of the projects funded under the Greenhouse Gas Reporting program will help facilities that participate in voluntary, state-based and federal GHG reporting programs better understand the requirements of voluntary and state GHG reporting programs in comparison to the federal rule; and identify options for how data collected through state and federal reporting requirements may be used to inform state GHG programs and facility-level efforts to identify emissions-reduction opportunities. CRITERIA FOR SELECTING PROPOSALS:

EPA selects proposed Surveys, Studies, Research, and Investigations projects for funding based on factors such as relevancy to EPA's mission, technical merit, and the likelihood of success. If EPA issues a solicitation for applications for a particular project or group of projects, the solicitation will identify specific criteria. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.035 COMMUNITY ACTION FOR A RENEWED ENVIRONMENT (CARE) PROGRAM

(CARE)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act, Section 103(b)(3); National Environmental Policy Act, Section 102(2)(F); Marine Protection, Research, and Sanctuaries Act, Section 203; Solid Waste Disposal Act, Section 8001; Toxics Substances Control Act, Section 10, Public Law 106-74; Safe Drinking Water Act, Section 1442(a)&(c)(A); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20(a), Public Law 106-74; Clean Water Act, Section 104(b)(3).

OBJECTIVES:

To support analyses, studies, evaluations, surveys, investigations, conferences, demonstrations and special purpose projects which empower communities to reduce risks from exposures to toxic pollutants in the air, in the water, and on the land through collaborative action at the local level.

Funding Priority - Fiscal Year 2011: The CARE program aims to: (1) Reduce exposures to toxic pollutants through collaborative action at the local level; (2) Help communities gain an understanding of all potential sources of exposure to toxic pollutants; (3) Work with communities to set priorities for risk reduction activities; and, (4) Create self sustaining, community based partnerships that will continue to improve the local environment.

The following program strategies will be used: (1) Provide information and a variety of tools to help communities understand and assess toxic risks; (2) Collaborate with community stakeholder groups to prioritize plans for risk reduction; (3) Mobilize local resources and utilize EPA voluntary programs to implement risk reduction activities; (4) Link EPA programs together to efficiently support communities; (5) Create a positive environment that encourages all members of the community including businesses and colleges and universities to join the collaborative partnership; (6) Facilitate networking among CARE communities to share experiences and lessons learned; and, (7) Build long term community capacity to continue improving the local environment.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Cooperative Agreements are available to support recipients' allowable direct costs related to approved surveys, analyses, studies, evaluations, conferences,

investigations, demonstrations and special purpose projects plus allowable indirect costs, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Local, Public non-profit institution/organizations, Federally Recognized Indian Tribal Government, Native American Organizations, Private nonprofit institution/organization, Quasi-public nonprofit institution/organization, local government, colleges, universities, interstate and intrastate. Proposals to renew or supplement existing projects are eligible to compete. See "Authorization" listed above. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Local, Public non-profit institution/organizations, Federally Recognized Indian Tribal Government, Native American Organizations, Private nonprofit institution/organization, Quasi-public nonprofit institution/organization, local government, colleges, universities, interstate and intrastate.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments, and Indian Tribes, OMB Circular No. A-21 for educational institutions, and OMB Circular No. A-122 for nonprofit institutions. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principal investigators to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. For competitive awards, EPA will review and evaluate applications, proposals and/or submissions in accordance with the terms, conditions, and criteria stated in the announcement of the competitive funding opportunity. Competition will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110

applies to this program. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, Washington, D.C. 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Requests for Proposals or Requests for Applications will specify application procedures. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. Generally, EPA incrementally funds cooperative agreements. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the projects to EPA's priorities, availability of funds, and Agency policy on the cooperative agreement process.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: CERCLA 311(b)(3) requires that "to the maximum extent possible," EPA enter into an appropriate cost sharing arrangement with recipients of grants and cooperative agreements relating to innovative and alternative treatment technologies. EPA may waive the 311(b)(3) cost sharing requirement in appropriate cases. Matching requirements may be established in program guidance or the terms of competitive solicitations. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements and most CARE awards will be for 18 to 36 months. EPA limits project periods to 5 years. Any resulting cooperative agreement awards will normally be awarded on a quarterly basis. Applicants will be notified of an award in accordance with the information specified in any resulting solicitation. See the following for information on how assistance is awarded/released: Assistance agreements will be fully funded by a lump sum or partially funded yearly.

Reports:

EPA includes reporting requirements for cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations (Part 30 and Part 31).

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations (40 CFR Part 31). Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal

Grant Regulations (40 CFR Part 31). Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations (40 CFR Part 31). No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations (40 CFR Part 31).

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (non-profit and universities) or 40 CFR Part 31 (governmental units) are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in cooperative agreements available to personnel authorized to examine EPA recipients cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 10 \$2,192,000; FY 11 est \$1,595,945; and FY 12 est \$1,600,000

Range and Average of Financial Assistance:

There is no minimum amount of assistance. Cooperative agreements awarded based on Level I agreements will range from \$75,000 to \$100,000 with an average Level I award of \$90,000. Level II agreements will range from \$150,000 to \$300,000 with an average Level II award of \$275,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: The CARE program uses two sets of cooperative agreements. In the smaller Level I agreements, the community, working with EPA, creates a collaborative problem solving group made up of the various stakeholders in the community. That group assesses the community's toxic exposure problems and begins to identify potential solutions. In the larger Level II agreements, the community, working with EPA selects and funds projects that reduce risk and improve the environment in the community. CARE communities have implemented a variety of EPA Partnership Programs and reduced citizen's exposure to toxics including lead, diesel emissions, solid waste, indoor air, mercury, drinking water pollutants, waste water contamination, and environmental tobacco smoke. The communities have also reduced emissions of green house gases.

In FY 2010 we received 189 applications and funded 14 projects, including four previously funded Level I projects that successfully completed their project, competed for and received a Level II grant. Fiscal Year 2011: The CARE program uses two sets of cooperative agreements. In the smaller Level I agreements, the community, working with EPA, creates a collaborative problem solving group made up of the various stakeholders in the community. That group assesses the community's toxic exposure problems and begins to identify potential solutions. In the larger Level II agreements, the community, working with EPA selects and funds projects that reduce risk and improve the environment in the community. CARE communities have implemented a variety of EPA Partnership Programs and reduced citizen's exposure to toxics including lead, diesel emissions, solid waste, indoor air, mercury, drinking water pollutants, waste water contamination, and environmental tobacco smoke.

The communities have also reduced emissions of green house gases.

In FY 2011 we received 125 applications and are proposing to fund 10 projects, including three Level I projects graduating to a Level II project. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Environmental Policy and Innovation grants and cooperative agreements are subject to EPA's General Grant Regulations (40 CFR Part 30 and 40 CFR Part 31). Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and Indian Tribes, OMB Circular No. A-21 for educational institutions, OMB Circular No. A-122 for nonprofit institutions and FAR Part 31 for profit makers.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Projects funded under the CARE program include: (1) the development of an assessment of toxins and pollution sources used to educate residents about their impact on local health and the environment; (2) assisting owners of homes with lead-based paint in obtaining remediation funds and development of a neighborhood toxic education program; (3) the study of all potential local sources of toxic risk in order to develop a long-term voluntary toxics management system to reduce the generation of toxic pollutants; (4) the creation of a Community Partnership that is a multi-stakeholder group - that includes industries, communities, small business owners - to conduct a community capacity building program to identify the concerns of the communities and to discuss how to address them; and (5) a collaborative project with community agencies to address the negative environmental and public health impact that small automotive repair and body shops have on their employees and neighbors, while avoiding putting shops out of business by regulatory enforcement. Fiscal Year 2011: Projects funded under the CARE program include: (1) the development of an assessment of toxins and pollution sources used to educate residents about their impact on local health and the environment; (2) assisting owners of homes with lead-based paint in obtaining remediation funds and development of a neighborhood toxic education program; (3) the study of all potential local sources of toxic risk in order to develop a long-term voluntary toxics management system to reduce the generation of toxic pollutants; (4) the creation of a Community Partnership that is a multi-stakeholder group - that includes industries, communities, small business owners - to conduct a community capacity building program to identify the concerns of the communities and to discuss how to address them; and (5) a collaborative project with community agencies to address the negative environmental and public health impact that small automotive repair and body shops have on their employees and neighbors, while avoiding putting shops out of business by regulatory enforcement. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Competitive applications and proposals will be selected in accordance with announced criteria. Non-competitive proposals are judged for (a) technical merit in terms of: (1) strengths and weaknesses of the project; (2) adequacy of overall project design; (3) competency of proposed staff; (4) suitability of applicant's available resources; (5) appropriateness of the proposed project period and budget; and (6) probability that the project will accomplish stated objectives and; for (b) program interest in terms of: (1) the need for the proposed project; and (2) relationship to program objectives. The evaluation

and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.037 INTERNSHIPS, TRAINING AND WORKSHOPS FOR THE OFFICE OF AIR AND RADIATION

FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

National Environmental Policy Act of 1969, Section 102(2)(F), Public Law 91-190, 42 U.S.C 4332; Clean Air Act, Section 103(b)(3), Public Law 42-7403.

OBJECTIVES:

To provide, Internships, Training, Workshops, and Technical Monitoring in support of the Clean Air Act. These activities aim to: (1) support the development of career-oriented personnel qualified to work in occupations involving environmental protection and air pollution abatement and control; (2) provide technical training for State, local, territorial, and Indian Tribal environmental control agencies; (3) enhance the capability of state and local agencies responsible for environmental pollution control or other agencies with similar pollution control responsibilities; (4) provide educational renewal for career oriented personnel to achieve additional knowledge through academic professional training; (5) provide both undergraduate and graduate students in science, engineering, and other relevant fields with education and training opportunities to enhance their understanding of air quality-related topics; and, (6) to increase the quality and number of people into the environmental control field.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2011: This program will continue to provide environmental education training to a wide range of audiences regarding all aspects of air quality; development of workshops and environmental education programs in air quality based on identified needs; provide technical support to ensure quality information is available to support programs; and utilize knowledge developed in training workshops to wider audience.

US-Mexico Border Environmental Education, Outreach and Support Program. Designed for students in elementary, secondary and higher education, as well as others in the community to focus on air quality impacts and environmental justice issues in the US Mexico Border region. The program also includes outreach to local communities on air quality and related environmental justice issues and the development of a website to disseminate the environmental education curriculum.

Tribal Environmental Education, Outreach and Support Program. Provides outreach, training and environmental education to American Indian students, educators and communities on a variety of air quality topics; opportunities to participate and pursue environmental careers, particularly in air quality management.

The American Indian Air Quality Training Program. Provides workshop training, internships and technical support to tribal governments to investigate, develop and establish air quality management programs for lands under their jurisdiction. The Tribal Air Monitoring Support Center is a component of this program and provides a full spectrum of technical support to tribes undertaking air quality monitoring and related activities.

TYPES OF ASSISTANCE:

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Projects include providing comprehensive air quality policy and regulatory analysis consisting of support and national coordination activities to assist tribes in understanding, participating in and responding to US EPA's Office of Air and Radiation (OAR) policy and regulatory activities; providing American Indian students, educators, and communities are properly informed of, and provided with opportunities to participate in, and pursue environmental careers in the field of air quality management; and the American Indian Air Quality Training Program (AIAQTP), which includes workshop training, internships and technical support to tribal governments seeking to investigate, develop and establish air quality management programs for lands under their jurisdiction. Fiscal Year 2011: Projects include providing comprehensive air quality policy and regulatory analysis consisting of support and national coordination activities to assist tribes in understanding, participating in and responding to US EPA's Office of Air and Radiation (OAR) policy and regulatory activities; providing American Indian students, educators, and communities are properly informed of, and provided with opportunities to participate in, and pursue environmental careers in the field of air quality

management; and the American Indian Air Quality Training Program (AIAQTP), which includes workshop training, internships and technical support to tribal governments seeking to investigate, develop and establish air quality management programs for lands under their jurisdiction; US/Mexico Border Environmental Education Program, University of Texas, El Paso's 'Buen Ambiente, Buena Salud' program for a 3-12 environmental education curriculum, and undergraduate and graduate internships focusing on air quality and environmental justice issues in the US Mexico Border region. The program will also include outreach to local communities on air quality and related environmental justice issues and the development of a website to disseminate the environmental education curriculum. CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.038 TRAINING, INVESTIGATIONS, AND SPECIAL PURPOSE ACTIVITIES OF FEDERALLY-RECOGNIZED INDIAN TRIBES CONSISTENT WITH THE CLEAN AIR ACT (CAA), TRIBAL SOVEREIGNTY AND THE PROTECTION AND MANAGEMENT OF AIR QUALITY

(Tribal CAA 103 Project Grants)

FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act of 1963, Section 103, Public Law 95-95, 42 U.S.C 7403.

OBJECTIVES:

To support Federally-recognized Indian Tribes' efforts to understand, assess and characterize air quality; design methods and plans to protect and improve air quality on tribal lands through surveys, studies, research, training, investigations, and special purpose activities. To ensure tribes have appropriate levels of support and opportunity to understand their air quality and take proactive measures to preserve, restore and protect air quality for their reservations and other lands over which they have jurisdiction through tribal program implementation, CAA implementation, radiation protection, mobile source controls, and voluntary programs to address outdoor and indoor air and other concerns. To ensure that all tribes have the tools they need to understand and participate in local, regional and national issues, regulatory and policy developments, and to protect their air quality from activities off the reservation that may affect or impact them. To improve the ability of tribes to understand, define, design and participate in activities that affect their air quality.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority-Fiscal Year 2011: EPA and Tribes, in partnership, will protect public health, the environment, and unique Tribal air resources, consistent with the CAA, its Amendments, and EPA's trust responsibilities. This program will ensure Tribes have appropriate levels of support and opportunity to understand their own air quality and take proactive measures to preserve, restore, and protect air quality for their reservations and other lands over which they have jurisdiction through CAA implementation, radiation protection, mobile source controls, and voluntary programs to address indoor and outdoor air and other concerns. Activities will ensure that all Tribes have the tools they need to understand and participate in local, regional, and national issues and to protect their air quality from changes off reservation that may impact them. Key activities include: (1) Training and Program Development - this area includes technical, administrative, and policy related training conducted in-person, on-line, and/or by any remote technological method supporting the enhancement of skills that contribute to development of tribal air quality management activities; (2) Assessment and Monitoring - activities related to assessment may include short or long term efforts to define, design, understand, and assess in a qualitative or quantitative manner (such as through an emission or source inventory) the impacts of air pollutants to human health, the

environment, and items of cultural importance. Monitoring includes numerous activities that gather data about the state of the environment and measuring the concentrations and potential effects of criteria and/or toxic air pollutants; (3) Developing capacity or a plan for eligibility under the Tribal Authority Rule - developing capacity includes activities that increase the experience and expertise of tribes to understand and assess air quality, including technical, administrative, policy, regulatory, education and outreach, communication skills, training, and building contacts, networks and experience. Capacity includes carrying-out these programs and activities, interacting with the national air program and providing input, guidance, and perspective to efforts to develop policies, regulations, and guidance at the local, regional, and national level including reading, report writing, grant writing and reporting, budgeting, public speaking, developing presentations, preparing comments, editing documents, operating and maintaining equipment, and participating in meetings. Developing a plan for eligibility under the Tribal Authority Rule (TAR) includes report reading and writing, grant writing and reporting, budgeting, public speaking, presentation development, comment preparation, document editing, equipment operation and maintenance, and meeting participation; (4) Delegation or Ongoing Capability Development - This activity includes developing technical, administrative, and management skills, knowledge, and abilities through experience, training, and education to enable activities such as reading and interpreting federal regulations, operating equipment, preparing and presenting technical information and reports, interacting with tribal communities and governments, federal bureaucrats and bureaucracy, providing outreach and education, public speaking, conducting public hearings, collecting and analyzing data, developing plans and innovative approaches to pollution control in a culturally sensitive manner; and (5) Tribal Implementation Plan development - tribes may conduct all aspects of air quality management at an advanced level, including data analysis, analyzing, interpreting and commenting on administrative and regulatory requirements and activities at local, state, regional and national levels, developing advanced technical, policy and planning document preparation, and tribal government representation.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipient's allowable direct costs incident to approved Tribal air resources activities that will protect public health and the environment, plus allowable indirect costs, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Executive Order 12372 does not apply to the program.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to Federally-recognized Indian Tribes and Intertribal Consortia, which submit applications proposing projects with significant technical merit and relevance to EPA's Office of Air and Radiation's mission. Tribal CAA 103 Project Grants have been determined by the Agency as exempt from competition under EPA Order 5700.5A1.

Beneficiary Eligibility:

Federally-recognized Indian Tribes and Intertribal Consortia.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and Indian Tribes. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask

applicants or principle investigators to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreement Management Division, 3903R, Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

EPA will review and evaluate applications, proposals, and/or submissions in accordance with EPA policies/regulations for non competitive assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. Generally, EPA incrementally funds assistance agreements for Training, Investigations, and Special Purpose. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, availability of funds, and Agency policies.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds assistance agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. EPA limits project periods to 5 years. Grants and cooperative agreements are generally fully funded or on an incremental funding basis. Successful applicants will be notified either via U.S. mail or electronically. See the following for information on how assistance is awarded/released: Assistance agreements are fully funded (lump sum) or incrementally (quarterly) funded.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations found at 40 CFR Part 30 or 31, as applicable.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or

OMB Circular No.A-110. No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients are subject to the retention and access requirements for records under 40 CFR Part 31.42. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients' grant and cooperative agreement records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-1810-0-1-304 - Resulting awards are funded using the following accounts: Environmental Program & Management (EPM), Science & Technology (S&T), and State & Tribal Air Grants (STAG).

Obligations:

(Project Grants) FY 10 \$13,300,000; FY 11 est \$13,300,000; and FY 12 est \$0

Range and Average of Financial Assistance:

There is no minimum amount of assistance; the maximum is \$7,750,000. The general range of the amount of assistance is \$25,000 to \$500,000. The average is \$75,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY2010 this program provided 122 tribal governments with funding to develop capacity and conduct approved activities under the CFDA. Funded tribes are developing tribal air quality management programs, increasing environmental protection for areas under their jurisdiction, through development of programs to implement Clean Air Act and other air quality protections for Indian country, and their accomplishments include greatly increased activity and representation of tribal interests in local, regional and national air quality management, a desirable outcome. Tribes also completed a number of activities, including developing Tribal Implementation Plans, completing requests for CAA eligibility for both administrative and programmatic CAA elements. Fifteen specialized tribal training workshops have been conducted training 136 individuals from 98 tribes across the nation. This brings the cumulative total number of tribal students trained by ITEP to almost 4,000. Over 125 individuals and 11 different tribes have requested and received individualized technical support, information or assistance on a variety of air quality management topics. Out of 50 applicants and 26 host requests, eight interns were placed in air quality management offices nationwide, including at tribal government and US EPA Offices to advance their air quality management skills. Fiscal Year 2011: In FY2011 this program continues to award tribal governments with funding to develop capacity and conduct approved activities. Funded tribes are developing tribal air quality management programs, increasing environmental protection for areas under their jurisdiction, and their accomplishments include greatly increased activity and representation of tribal interests in local, regional and national air quality management. Tribes will continue to develop Tribal Implementation Plans and requests for CAA eligibility for both administrative and programmatic CAA elements. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Training, Investigations, and Special Purpose grants and cooperative

agreements are subject to EPA General Grant Regulations 40 CFR Part 31. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and Indian Tribes.

RELATED PROGRAMS:

66.001 Air Pollution Control Program Support; 66.034 Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: One hundred twenty two grants awarded to fund tribal air quality management program development, air quality assessments, air pollution emission inventory development, tribal air quality monitoring for ozone, particulate matter, sulfur dioxide, nitrogen oxides, acid deposition, and mercury; development and implementation of TAS authority under the Tribal Authority Rule and CAA program development and implementation of administrative and programmatic elements of the CAA; smoke management plans (Nez Perce Tribe); Tribal Implementation Plans at St. Regis Mohawk Tribe, Southern Ute, Mashantucket-Pequot Tribal Nation and the Mohegan Tribe; Air Quality Management Program development (Gila River Indian Community); Indoor Air Quality management at the Boise Fort Band of Chippewa; and, the American Indian Air Quality Training Program including the Tribal Air Monitoring Support Center, a partnership between tribes, EPA and Northern Arizona University to provide training and technical support to tribes monitoring air quality and implementing the Clean Air Act and other air quality management projects and programs; and, the Environmental Education Outreach Program at Northern Arizona University, to encourage tribal students to pursue careers in air quality, where they are significantly under-represented. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Applications and proposals are selected for funding based on factors such as relevancy to EPA's mission, technical merit, and the likelihood of success. Tribal CAA 103 Project Grants have been determined exempt from competition under EPA Order 5700.5A1.

66.039 NATIONAL CLEAN DIESEL EMISSIONS REDUCTION PROGRAM

(DERA National Program)

FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

Energy Policy Act of 2005, Title VII, Part G, 42 U.S.C 16131; The Diesel Emissions Reduction Act of 2010, Public Law 111-364.

OBJECTIVES:

Section 792 of Title VII, Subtitle G of the Energy Policy Act of 2005 (EPA Act 2005) authorizes EPA to award grants and low-cost revolving loans to eligible entities to fund the costs of a retrofit technology that significantly reduces emissions through implementation of a certified engine configuration, verified technology, or emerging technology for buses (including school buses), medium heavy-duty or heavy heavy-duty diesel trucks, marine engines, locomotives, or nonroad engines or diesel vehicles or equipment used in construction, handling of cargo (including at port or airport), agriculture, mining, or energy production. In addition, eligible entities may also use funds awarded for programs or projects to reduce long-duration idling using verified technology involving a vehicle or equipment described above, or the creation of

low-cost revolving loan programs to finance diesel emissions reduction projects. The objective of the assistance under this program is to achieve significant reductions in diesel emissions in terms of tons of pollution produced and reductions in diesel emissions exposure, particularly from fleets operating in areas designated by the Administrator as poor air quality areas.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2011: This program aims to work aggressively to reduce the pollution emitted from diesel engines across the country through the implementation of varied control strategies and aggressive involvement of national, state, and local partners. Priority shall be given to projects which: Maximize public health benefits; Are the most cost-effective; Serve areas with the highest population density, that are poor air quality areas (including nonattainment or maintenance of national ambient air quality standards for a criteria pollutant; Federal Class I areas; or areas with toxic air pollutant concerns); Serve areas that receive a disproportionate quantity of air pollution from diesel fleets, including truck stops, ports, rail yards, terminals, and distribution centers or that use a community-based multi-stakeholder collaborative process to reduce toxic emissions; Include a certified engine configuration, verified technology, or emerging technology that has a long expected useful life; Will maximize the useful life of any certified engine configuration, verified technology, or emerging technology used or funded by the eligible entity; Conserve diesel fuel; and Utilize ultra low sulfur diesel fuel (15 parts per million of sulfur content) ahead of EPA's mandate (for nonroad projects).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Assistance agreements are available to support recipient's allowable costs incident to supporting projects to reduce emissions from diesel engines, plus allowable indirect costs, in accordance with established EPA policies and regulations. No grant or loan provided under this section shall be used to fund the costs of emissions reductions that are mandated under Federal, State or local law. Voluntary or elective emission reduction measures shall not be considered "mandated", regardless of whether the reductions are included in the State implementation plan of a State. Distribution of Funds: 1) not less than 50 percent of funds available for a fiscal year under the DERA National Program shall be provided to eligible entities for the benefit of public fleets; 2) not less than 90 percent of funds available for a fiscal year under the DERA National Program shall be provided to eligible entities for projects using a certified engine configuration or a verified technology; 3) not more than 10 percent of funds available for a fiscal year under the DERA National Program shall be provided to eligible entities for the development and commercialization and implementation of emerging technologies.

Recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

A regional, State, local or tribal agency or port authority with jurisdiction over transportation or air quality; and a nonprofit organization or institution that represents or provides pollution reduction or educational services to persons or organizations that own or operate diesel fleets; or has, as its principal purpose, the promotion of transportation or air quality are eligible for assistance under this program. City, county, or municipal agencies, school districts, and metropolitan planning organizations (MPOs) that have jurisdiction over transportation or air quality are all eligible entities under this program to the

extent that they fall within the definition above. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State, Local, Public Nonprofit Institution/Organization, Anyone/General Public.

Credentials/Documentation:

Costs will be determined in accordance with Office of Management and Budget (OMB) Circular A-87, found at 2 CFR 225, for State and local governments and Indian Tribes, OMB Circular No. A-21, found at 2 CFR 220, for educational institutions, and OMB Circular No. A-122, found at 2 CFR 230, for nonprofit institutions. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. By law Section 792 includes application requirements. In addition, EPA requires final applications to be made on Standard Form 424, Application for Federal Assistance. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, Washington, DC 20460. Standard Form 424 is also available for download at EPA's Office of Grants and Debarment (OGD) web site, <http://www.epa.gov/ogd/AppKit/application.htm>, from www.grants.gov, or from EPA Regional Collaborative assistance agreement websites. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA's Office of Air and Radiation and/or the 10 EPA Regions will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days after the request for applications.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Generally, EPA fully funds assistance agreements under this program.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: There is no requirement for a matching contribution from applicants other than for certain projects (engine upgrades, idle reduction technologies, aerodynamic technologies and low rolling resistance tires, engine

repowers, vehicle/equipment replacements, and drayage vehicle replacements). Proposed projects involving engine upgrades, idle reduction technologies, aerodynamic technologies and low rolling resistance tires, engine repowers, vehicle/equipment replacements, and drayage vehicle replacements are subject to funding limitations, which are:

Engine Upgrade - EPA will fund up to 75% of the cost of an eligible engine upgrade.

Idle Reduction Technologies - EPA will fund up to 50% or 100% of the cost of an idle reduction technology, depending on the combination of technologies chosen:

* EPA will fund up to 50% of the cost of an eligible, verified idle reduction technology.

* EPA will fund up to 100% of the cost an eligible, verified idle reduction technology, if that technology is combined on the same vehicle with a new eligible verified exhaust control.

Aerodynamic Technologies and Low Rolling Resistance Tires - EPA will not fund stand-alone aerodynamic technologies or low rolling resistance tires. EPA will fund up to 50% or 100% of the cost of aerodynamic technologies or low rolling resistance tires, depending on the combination of technologies chosen, as described below:

* If aerodynamic technologies or low rolling resistance tires are combined on the same vehicle with an eligible verified exhaust control, up to 100% funding will be provided for the entire package.

* If aerodynamic technologies or low rolling resistance tires are combined on the same vehicle with an idle reduction technology, up to 50% funding will be provided for the entire package.

* If aerodynamic technologies or low rolling resistance tires are combined on the same vehicle with an eligible verified exhaust control AND an Idle Reduction Technology, up to 100% funding will be provided for the entire package.

Engine Repower - EPA will fund up to 75% of the cost of an eligible engine repower.

Vehicle/Equipment Replacement - EPA will fund up to 25% of the cost of a of a newer, cleaner vehicle or piece of equipment powered by a 2010 or newer model year certified diesel engine (except for drayage vehicles; see below).

Drayage Vehicle Replacement - EPA will fund up to 50% of the cost of eligible drayage trucks with a 2007 model year or newer heavy duty engine, or a 2004-2006 model year heavy duty engine and equipped with a diesel particulate filter that produces at least an 85% reduction in particulate matter (or equipped with a catalyst in the case of a CNG engine).

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The assistance agreements funded under the National Clean Diesel Emissions Reduction Program typically have a two-year project period with the possibility for extension up to a five-year project period. FY 2011 is the fourth year of funding for this Program, in addition to the FY 2009 supplemental funding received under the American Recovery and Reinvestment Act (ARRA or Recovery Act). See the following for information on how assistance is awarded/released: Assistance agreements may be fully (lump sum) funded.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim and final progress reports, and financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations 40 CFR Part 30 and 40 CFR Part 31. In addition, Recovery Act assistance agreement reporting for the National Clean Diesel Emission Reduction Program will be performed in accordance with OMB's Agency

guidance for implementing American Recovery and Reinvestment Act of 2009, including posting Recovery Act project progress on Recovery.gov.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110.

In addition, Grantees of Recovery Act assistance agreements are required to submit program reports in accordance with Recovery Act requirements, OMB and Agency guidance. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110.

In addition, Grantees of Recovery Act assistance agreements are required to submit financial reports in accordance with Recovery Act requirements, OMB and Agency guidance. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110.

In addition, Grantees of Recovery Act assistance agreements are required to submit progress reports to recovery.gov and EPA in accordance with Recovery Act requirements, OMB and Agency guidance. No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30 and OMB Circular No.A-102 or OMB Circular No.A-110.

In addition, Grantees of Recovery Act assistance agreements are required to comply with Recovery Act requirements, OMB and Agency guidance.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

In accordance with the American Recovery and Reinvestment Act, OMB guidance and Agency policies; EPA Office of Inspector General, EPA's program and administrative staff are committed to increased auditing and oversight of all Recovery Act assistance agreements to ensure all funds are used appropriately and accounted for.

Records:

Recipients must keep financial records, including all documents supporting entries in accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipient grants and cooperative agreement records. Recipients must maintain all records until 3 years from the date of submission of the final expenditure reports. If questions, such as those raised as a result of an audit remain following the 3-year period, recipients must retain records until the matter is completely resolved.

There is no minimum amount of assistance. Smaller grants typically range from \$100,000 - \$300,000 with an average award of \$125,000. Larger grants

typically range from \$500,000 - \$2 million with an average award of \$650,000.

Recovery Act Funding under the National Clean Diesel Emissions Reduction Program totaled \$205,800,000.

National Clean Diesel Emissions Reduction Program is divided into 3 competitive categories: (1) National Clean Diesel Funding Assistance Program; (2) Clean Diesel Emerging Technologies Program; (3) SmartWay Clean Diesel Finance Program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: For FY 2009/2010, \$84,000,000 was dispersed through approximately eighty-four (84) grants nationwide. For a list of awarded grants, visit www.epa.gov/cleandiesel and click on "Grants and Funding.". Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Diesel Emissions Reduction program assistance agreements are subject to EPA's general grant regulations (40 CFR Part 30 and Part 31, as applicable). In addition, Recovery Act assistance agreements must comply the terms of American Recovery and Reinvestment Act of 2009, as well as OMB's Agency guidance for implementing American Recovery and Reinvestment Act of 2009.

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.040 STATE CLEAN DIESEL GRANT PROGRAM

(DERA State Program)

FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

FY 2008 Interior, Environment and Related Agencies Appropriations Act;

Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009; American Recovery and Reinvestment Act of 2009 (Recovery Act), Title 7; The Energy Policy Act of 2005, Public Law 109-58; The Diesel Emissions Reduction Act of 2010, Public Law 111-364.

OBJECTIVES:

Section 793 of the Energy Policy Act of 2005 authorizes EPA to award assistance agreements to States to develop and implement such grant and low-cost revolving loan programs in the State as are appropriate to meet State needs and goals relating to the reduction of diesel emissions.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2011: To the extent practicable, States receiving assistance under this program shall give priority to projects which: Maximize public health benefits; Are the most cost-effective; Serve areas with the highest population density, that are poor air quality areas (including nonattainment or maintenance of national ambient air quality standards for a criteria pollutant; Federal Class I areas; or areas with toxic air pollutant concerns); Serve areas that receive a disproportionate quantity of air pollution from diesel fleets, including truck stops, ports, rail yards, terminals, and distribution centers or that use a community-based multi-stakeholder collaborative process to reduce toxic emissions; May include a certified engine configuration, verified technology, or emerging technology that has a long expected useful life; Maximize the useful life of any certified engine configuration, verified technology, or emerging technology used or funded by the eligible entity; Conserve diesel fuel; and Utilize ultra low sulfur diesel fuel (15 parts per million of sulfur content) ahead of EPA's mandate (for nonroad projects).

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support the development and implementation of such grant and low-cost revolving loan programs in a State as are appropriate to meet State needs and goals relating to the reduction of diesel emissions. A grant or loan funded by the State using funds from the DERA State Program may be used for projects involving EPA-verified and/or California Air Resources Board (CARB) verified diesel emissions reduction technologies and/or EPA certified engines, or emerging diesel emissions reduction technologies or strategies. Funds received under Subtitle G of the Energy Policy Act (Diesel Emissions Reduction) may not be used to pay a matching share under this program.

Recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is available to the 50 states and the District of Columbia.

Beneficiary Eligibility:

State, Local, Public Nonprofit Institution/Organization, Anyone/General Public.

Credentials/Documentation:

Costs for State governments will be determined in accordance with Office of Management and Budget (OMB) Circular A-87, found at 2 CFR 225. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to this program description, EPA will generally specify the nature of the

pre-application/pre-proposal assistance, if any, that will be available to applicants. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. EPA requires final applications to be made on Standard Form 424, Application for Federal Assistance. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, Washington, DC 20460. Standard Form 424 is also available for download at EPA's Office of Grants and Debarment (OGD) web site, <http://www.epa.gov/ogd/AppKit/application.htm>, from www.grants.gov, or from EPA Regional Collaborative assistance agreement websites. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

EPA's Office of Air and Radiation and/or the 10 EPA Regions will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the Federal Register Notice of Availability of Funds for this program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days after the request for applications.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Permitted. Generally, EPA incrementally funds cooperative agreements. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the projects to EPA's priorities, availability of funds, and Agency policy on the cooperative agreement process.

Formula and Matching Requirements:

Statutory Formula: Title Subtitle G Diesel Emissions Reduction, Section 793(c)(2). This program has a statutory allocation formula (Subtitle G - Diesel Emissions Reduction, Section 793(c)(2)). There is no match requirement for this program. However, there is an incentive match provision (Subtitle G - Diesel Emissions Reduction, Section 793(c)(3)).

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements funded under this program may have up to a seven-year project period. See the following for information on how assistance is awarded/released: Assistance agreements may be incrementally (quarterly) or fully (lump sum) funded.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim and final progress reports, and financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 31. In addition, Recovery Act grant or cooperative agreement reporting for the State Clean Diesel Grant Program will be performed in accordance with OMB's Agency guidance for implementing American Recovery and Reinvestment Act of 2009, including posting Recovery Act project progress on Recovery.gov.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements

stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102.

In addition, Grantees of Recovery Act assistance agreements are required to submit program reports in accordance with Recovery Act requirements, OMB and Agency guidance. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102.

In addition, Grantees of Recovery Act assistance agreements are required to submit financial reports in accordance with Recovery Act requirements, OMB and Agency guidance. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102.

In addition, Grantees of Recovery Act assistance agreements are required to submit progress reports to recovery.gov and EPA in accordance with Recovery Act requirements, OMB and Agency guidance. No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102.

In addition, Grantees of Recovery Act assistance agreements are required to comply with Recovery Act requirements, OMB and Agency guidance.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the American Recovery and Reinvestment Act, OMB guidance and Agency policies; EPA Office of Inspector General, EPA's program and administrative staff are committed to increased auditing and oversight of all Recovery Act assistance agreements to ensure all funds are used appropriately and accounted for.

Records:

Recipients must keep financial records, including all documents supporting entries in accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipient grants and cooperative agreement records. Recipients must maintain all records until 3 years from the date of submission of the final expenditure reports. If questions, such as those raised as a result of an audit remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

Obligations:

(Formula Grants) FY 10 \$18,000,000; FY 11 est \$15,000,000; and FY 12 est \$0

Range and Average of Financial Assistance:

There is no minimum or maximum amount of assistance. The range is estimated from \$300,000 to \$3,000,000 with an average award of \$300,000, depending on the number of States participating. Recovery Act funding for the 50 states and the District of Columbia is totaled at \$88,230,000 or \$1,730,000 each. In FY 2009 and FY 2010 the base funding was \$235,294 per State for each year; the incentive for matching was \$117,647.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 2010, all 50 States and the District of Columbia participated in the program. Each State was awarded a cooperative agreement for clean diesel activities. The majority of States matched the EPA base funds

and received the incentive funds. For a complete list of State Clean Diesel program cooperative agreements, visit www.epa.gov/cleandiesel and click on "State Program.". Fiscal Year 2011: In FY 2011, all 50 States and the District of Columbia participated in the program. Each State was awarded a cooperative agreement for clean diesel activities. The majority of States matched the EPA base funds and received the incentive funds. For a complete list of State Clean Diesel program cooperative agreements, visit www.epa.gov/cleandiesel and click on "State Program.". Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

State Clean Diesel Grant Program grants and cooperative agreements are subject to EPA's general grant regulations (40 CFR Part 31). Guidelines for applying for funds under this program will be published in the Federal Register. In addition, Recovery Act grants and cooperative agreements must comply the terms of American Recovery and Reinvestment Act of 2009, as well as OMB's Agency guidance for implementing American Recovery and Reinvestment Act of 2009.

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for awards under this CFDA description will be described in the Federal Register Notice of Availability of Funds.

66.041 CLIMATE SHOWCASE COMMUNITIES GRANT PROGRAM FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

FY 2009 Appropriations Act, Public Law 111-8; FY 2010 Appropriations Act, Public Law 111-117.

OBJECTIVES:

Public Law 111-8 authorizes EPA to award competitive grants to communities to develop plans and demonstrate and implement projects which reduce greenhouse gas emissions. EPA will implement this grant authority by awarding grants to local and tribal governments for Planning, Demonstrations, and Implementation Projects designed to address climate change by reducing greenhouse gas emissions. Such projects should include a plan for measuring documentable reductions in greenhouse gas emissions and exhibit the capacity for replication. Grant activities should aim to: 1) reduce emissions of greenhouse gases; 2) build capacity within local and tribal agencies to address greenhouse gas emissions within their communities; 3) create meaningful and sustainable programs and management systems to achieve ongoing reductions; 4) link climate change initiatives with broader environmental, economic, and social concerns; 5) build and leverage partnerships across multiple stakeholder groups that facilitate front-end participation by communities impacted by climate change; and 6) create models of success that can be replicated across the nation.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2011: No available funding for 'Climate Showcase Communities Grant Program' in FY 2011.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

EPA will implement this grant authority by awarding grants to local and tribal governments for Planning, Demonstrations, and Implementation Projects designed to address climate change by reducing greenhouse gas emissions. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Local governments - a county, municipality, city, town, township, local public authority (including any public and Indian housing agency) school district, special district, intrastate district, council of governments, any other regional or interstate government entity, or any agency or instrumentality of a local government. Federally recognized Indian tribal governments - the governing body or a governmental agency of any Indian tribe, band, nation, or other organized group or community (including Native villages) certified by the Secretary of the Interior as eligible for the special programs and services provided by him through the Bureau of Indian Affairs. Intertribal Consortia - a partnership between two or more Tribes that is authorized by the governing bodies of those Tribes to apply for and receive assistance under this program. Intertribal Consortia are eligible to receive grants under this program only if the Consortium demonstrates that all members of the Consortium meet the eligibility requirements for the grant and authorize the Consortium to apply for and receive assistance by submitted to EPA documentation of (1) the existence of the partnership between Indian Tribal governments, and (2) Authorization of the Consortium by all its members to apply for and receive the grant(s) for which the Consortium has applied.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Local Governments and Federally-recognized Indian Tribes, Intertribal Consortia, General Public.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87, found in 2CFR 225, for State, Local, and Indian Tribal Governments. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog.

For competitive awards, EPA will review and evaluate applications, proposals and/or submissions in accordance with the terms, conditions, and criteria stated in the announcement of the competitive funding opportunity. Competition will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 are applicable. In addition, EPA requires final applications to be made on Standard Form 424, Application for Federal Assistance. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, Washington, DC 20460. Standard Form 424 is also available for download at EPA's Office of Grants and Debarment (OGD) web site, <http://www.epa.gov/ogd/AppKit/application.htm>, from www.grants.gov, or from EPA Regional Collaborative assistance agreement websites. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA's Office of Air and Radiation, other Headquarters Program Offices, and/or the 10 EPA Regions will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

EPA intends to fully fund projects with the initial award, but reserves the right to incrementally fund projects as appropriate.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The match required for this program is set at 50% with the exception of tribal governments who are exempt from matching requirements. This program does not have a statutory formula, but EPA may allocate 5% of the funds to tribal governments.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The grants and/or cooperative agreements funded under the Climate Showcase Communities Grant Program will have up to a five-year project period. However EPA will negotiate the project period with each applicant based on project requirements. It is anticipated that most Climate Showcase Community awards will be for 24 to 36 months. FY 2009 is the first year of funding for this Program. See the following for information on how assistance is awarded/released: Assistance agreements will be fully funded by a lump sum.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102. No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 40 CFR Part 31 and OMB Circular No.A-102.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

66.042 TEMPORALLY INTEGRATED MONITORING OF ECOSYSTEMS (TIME) AND LONG-TERM MONITORING (LTM) PROGRAM

TIME/LTM

FEDERAL AGENCY:

Office of Air and Radiation, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act, Section 103(b)(3); Clean Water Act, Section 104(b)(3); National Environmental Policy Act, Section 102(2)(F).

OBJECTIVES:

Clean Air Act section 103(b)(3) authorizes EPA to conduct and promote the coordination and acceleration of research, investigations, experiments, demonstrations, surveys, studies relating to the causes, effects (including health and welfare effects), extent, prevention and control of air pollution. Clean Water Act section 104(b)(3) authorizes EPA to award grants to conduct and promote the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys and studies relating to the causes, effects, extent, prevention, reduction and elimination of pollution. EPA will award cooperative agreements to study the ecological response to pollution reduction and emissions control programs. The programs will assist in understanding biogeochemical changes in sulfur, nitrogen, mercury, and carbon in streams and lakes in relation to changing pollutant emissions and deposition, as well as other factors, such as potential climate change (e.g., temperature, precipitation, timing of storm events).

Funding Priority - Fiscal Year 2011: The TIME/LTM programs will support initiatives that demonstrate the potential for tracking and understanding the ecological response to air pollution reduction programs in acid-sensitive regions

of the U.S. Funding will be available for applicants that demonstrate the ability to provide consistent, reliable, quality-assured data from lakes and streams for a variety of surface water chemistry parameters (e.g., pH, sulfate and nitrate concentrations, acid neutralizing capacity, aluminum concentrations, base cations).

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

EPA will implement this grant authority by awarding cooperative agreements to state and local governments, institutions of higher education, and quasi-public and non-profit organizations that demonstrate the capability to perform the sampling, measurement, and parameter characterization of the lakes and streams in this long-term ecological system response program. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States, local governments, territories, Indian Tribes, and possessions of the U.S. (including the District of Columbia); public and private universities and colleges; hospitals; laboratories; public or private nonprofit institutions; intertribal consortia; and individuals. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. An intertribal consortium must meet the definition of eligibility in the Environmental Program Grants for Tribes Final Rule, at 40 CFR 35.504 (66 FR 3782, January 16, 2001) (FRL-6929-5) and be a non-profit organization within the meaning of OMB Circular A-122. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments in acid-sensitive regions of the U.S., institutions of higher education, scientific research community, general public.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 are applicable. In addition, EPA requires final applications to be made on Standard Form 424, Application for Federal Assistance. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency

Agreements Management Division, 3903R, Washington, DC 20460. Standard Form 424 is also available for download at EPA's Office of Grants and Debarment (OGD) web site, <http://www.epa.gov/ogd/AppKit/application.htm>, from www.grants.gov. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. While there is no statutory or regulatory cost sharing requirement for this program, as a matter of policy the Agency may impose a cost sharing requirement in specific competitions. If the Agency decides to do this, the cost sharing terms will be stated in Section III of the competitive announcement.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds assistance agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. EPA limits project periods to 7 years. See the following for information on how assistance is awarded/released: Assistance agreements may be incrementally (quarterly) or fully (lump sum) funded.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations Part 30 and Part 31, as applicable.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30, as applicable. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30, as applicable. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30, as applicable. No expenditure reports are required. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 40 CFR Part 31 or 40 CFR Part 30, as applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients' grants or cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

Obligations:

(Project Grants) FY 10 \$720,000; FY 11 est \$720,000; and FY 12 est \$720,000

Range and Average of Financial Assistance:

There is no minimum amount of assistance. EPA anticipates awards ranging in total value of \$640,000 to \$1,500,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Pursuant to with the President's FY 2010 budget, funds for operation of the TIME/LTM programs were transferred from the Office of Research and Development (ORD) to the Clean Air Markets Division (CAMD) in the Office of Atmospheric Programs (OAP) within the Office of Air and Radiation (OAR). CAMD assumed management responsibility for the two ongoing assistance projects and has funded them through FY 2011. The two cooperators successfully fulfilled their assistance agreement project performance and financial obligations. Approximately 750 lake and stream samples from 108 TIME and LTM sites in NY and NH were collected and analyzed, thus continuing a 30-year dataset for the TIME/LTM sites. The samples provide essential chemical data for assessing and understanding the response of freshwater aquatic ecosystems to OAR and NY and NH emission reduction programs. The data will be included in the 2010 Acid Rain and Related Programs Progress Report to show changes in chemical indicators (e.g. sulfate, nitrate, acid neutralizing capacity) of ecological response to emission reductions achieved by implementation of OAR and state programs. In addition, the TIME/LTM data sets were used by program cooperators and by the broad scientific community in numerous research articles published in 2010. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

TIME/LTM assistance agreements are subject to EPA's General Grant Regulations (40 CFR Part 30 and 40 CFR Part 31, as applicable).

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Projects consisted of monitoring of small headwaters streams in undeveloped watersheds; monitoring of lakes smaller than four hectares with low acid neutralizing capacity levels in acid-sensitive regions; monitoring of lake and stream sulfate and nitrate concentrations in acid-sensitive regions of

the eastern U.S. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

EPA selects proposed TIME/LTM projects for funding based on factors such as relevancy to EPA's mission, technical merit, and the likelihood of success. If EPA issues a solicitation for applications for a particular project or group of projects, the solicitation will identify specific criteria. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.050 POTOMAC HIGHLANDS IMPLEMENTATION GRANTS

FEDERAL AGENCY:

Region 3, Environmental Protection Agency

AUTHORIZATION:

EPA's Fiscal Year 2010 Appropriation Act ("Department of the Interior, Environment, and Related Agencies Appropriation Act, 2010") , Public Law 111-88.

OBJECTIVES:

To protect and restore the resources of the Potomac Highlands through implementation of conservation and restoration work. The Mid-Atlantic Highland's Action Program (HAP) is the foundation for the Potomac Highlands Implementation Grant. The Mid-Atlantic Highlands encompasses 79,000 square miles in the Central Appalachians of Maryland, Pennsylvania, Virginia, and West Virginia. The region hosts some of the most diverse and globally important resources on Earth. It is rich in natural and cultural heritage where the environment plays an important role in the quality of life. After years of resource extraction and lack of regard for natural resources, the Mid-Atlantic Highlands has become an area in need of attention. Congress recognized the uniqueness of the area and the need to perform restoration, conservation and protection projects. In 2002, Congress funded the Mid-Atlantic Highland Action Program (HAP).

HAP uses the best available science including strategic conservation, to improve the natural resources and socio-economic conditions in the Highlands. Strategic conservation aims to build networks and connections between high value ecosystems by protecting intact resources and enhancing or restoring other areas. This strategic approach provides a framework for revitalizing and connecting forested headwaters and lands through river corridors and natural stream channel design, wetlands, working lands, ridge lines, steep slopes, riparian buffers, and flood plains. HAP is working toward achieving the following program goals:

" Highlighting, protecting, and conserving special places that have ecological and cultural importance;

" Highlighting important connections between these special places;

" Revitalizing damaged ecosystems especially in key ecological corridors;

" Empowering citizens and communities to strengthen the linkages among cultural heritage, economic viability and the condition of the environment;

" Enhancing opportunities for the restoration industry in the Highlands, which will enhance lasting employment opportunities for its residents; and

" Leveraging existing resources to support all these goals.

Potomac Highlands Implementation Grant will support the HAP goals within the geographic boundaries as defined above.

Funding Priority - Fiscal Year 2011: Funding priorities include on the ground implementation work that protect high value ecosystems and restore impaired systems.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds are used to support on-the-ground project work relating to protection of ecological resources and services to improve the Potomac Highlands ecosystem. For the purposes of the Potomac Highlands implementation grants, EPA considers the Potomac Highlands to be the Potomac Watershed west of and above the fall line plus the eight counties in the east central portion of West Virginia defined as the WV Potomac Highlands by the WV Department of Commerce. The eight counties are: Mineral, Hampshire, Grant, Tucker, Randolph, Pendleton, Pocahontas, and Hardy.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official Government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Funds are awarded to eligible entities that best meet the selection criteria described in the Request for Proposals.

Applicant Eligibility:

Assistance under this program will be available to State and local governments, as defined in 40 CFR Part 31.3, universities and colleges and other public and private nonprofit organizations. For-profit commercial entities are not eligible. Nonprofit organizations described in Section 501 (c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Assistance under this program will be available to State and local governments, as defined in 40 CFR Part 31.3, universities and colleges and other public and private nonprofit organizations.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants may be requested to demonstrate that they have appropriate background, academic training, experience in the field and necessary equipment to carry out projects. EPA may ask applicants or principal investigators to provide curriculum vitae and relevant publications. OMB Circular Nos. A-21, A-87, and A-122 apply to this program. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. See http://www.whitehouse.gov/omb/grants_spoc/ to find out who your contact is in your state. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Application procedures will be provided in the competitive announcement issued by EPA.

Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Applicants are required to provide a minimum non-federal match of 25 percent of the total cost of the project or projects. Match may be cash or in-kind consistent with the regulation governing match requirements (40 CFR 31.24 or 40 CFR 30.23). This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of the assistance agreement shall be one to two years. However, EPA Region III can negotiate the project period with each applicant based on project requirements. The term of the grant shall be determined at the time of grant award. See the following information on how assistance is awarded/released. See the following for information on how assistance is awarded/released: Awards are released through an electronic funds transfer method.

Reports:

In addition to the general reporting requirements under 40 CFR, EPA includes specific reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require financial, equipment, and invention reports. Reporting requirements are also identified in EPA's grant regulations 40 CFR Parts 30 and 31. Program reports are required. Cash reports are not applicable. Progress reports are required. Expenditure reports are required. Performance monitoring reports are required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (nonprofits and institutions of higher education) or 40 CFR Part 31 (governmental units) are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records which support substantial changes to the grant, available to personnel authorized to examine EPA recipients' grants and cooperative agreement records. Recipient must maintain all records for a period of three (3) years from

the date of submission of final expenditures reports. If questions, such as those raised as a result of audits or litigation remain following the 3-year period, recipients must retain records until the matter is fully resolved.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Fiscal Year 2010: The American Rivers was awarded a Cooperative Agreement to develop the Potomac Highlands Implementation Program. The purpose of this agreement is to fund projects that protect and restore the Potomac Highlands ecosystem, while benefiting its human communities. Eligible projects include protection and restoration of forests, wetlands and streams such as: conservation of un-fragmented forestlands; wetlands protection and restoration; conservation easements; protection of non-impaired streams; protection of headwater streams; aquatic habitat improvements (physical and chemical); habitat management structures; watershed protection and restoration; stream and floodplain barrier removal; riparian corridor/buffer improvements; non-structural best management practices; floodplain restoration and protection; non-traditional reclamation of abandoned mine land; and traditional reclamation of abandoned mine land. CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.110 HEALTHY COMMUNITIES GRANT PROGRAM

(Healthy Communities)

FEDERAL AGENCY:

Region 1, Environmental Protection Agency

AUTHORIZATION:

Toxic Substances Control Act, Section 10; Safe Drinking Water Act, Section 1442(a)&(c); Indian Environmental General Assistance Program Act; Marine Protection, Research, & Sanctuaries Act, Section 203; Clean Air Act, Section 103(b)(3); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Solid Waste Disposal Act, Section 8001; Clean Water Act, Section 104(b)(3).

OBJECTIVES:

The statutory authorities for this program restrict the use of assistance agreements to support the following activities: conducting or promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, and elimination of water pollution. Demonstrations must involve new or experimental technologies, methods, or approaches, and it is encouraged that the results of these projects will be disseminated so that others can benefit from the knowledge gained. A project that is accomplished through the performance of routine, traditional, or established practices, or a project that is simply intended to carry out a task rather than transfer information or advance the state of knowledge, however worthwhile the project might be, is not considered a demonstration project. Implementation projects are not eligible for funding under this program.

Grants are awarded to support projects that meet two criteria: 1) They must be located in and directly benefit one or more Target Investment Areas (Environmental Justice Areas of Potential Concern, Places with High Risks from Toxic Air Pollution, Sensitive Populations, and/or Urban Areas); and 2) They must achieve measurable environmental and public health results in one or more of the Target Program Areas (generally defined in the annual competitive funding announcement). Funds for all projects should support activities to provide education, outreach, or training, in the Target Program Areas. The Regional Office will only accept submissions for projects that affect the States, Tribes, and Territories within the six New England States: Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. Projects that are National in scope are not eligible for funding under this Regional Program.

Funding Priority - Fiscal Year 2011:

Asthma: Projects that increase the number of people with asthma who take actions to reduce their exposure to environmental triggers (improved self-management of asthma). Projects should identify, disseminate and promote the use of existing or innovative education and outreach products and services with proven effectiveness. Projects can target geographic areas and various settings (e.g., communities, schools, homes/housing, etc.) and address indoor air quality issues. Healthy homes approaches should include interventions to reduce environmental triggers such as integrated pest management and reduction of indoor air pollutants (e.g. particulate matter, dust, mold, environmental tobacco smoke, etc. Applicants are encouraged to integrate environmental trigger avoidance into comprehensive asthma management programs, as recommended by the National Asthma Education Prevention Program (NAEPP) <http://www.nhlbi.nih.gov/about/naepp/>. Applicants are further encouraged to integrate comprehensive asthma management programs into holistic "Healthy Homes" approaches to environmental diseases as well as partnerships with managed care organizations and health care payers to incorporate the environmental aspects of asthma into provider referral and reimbursement systems. Additionally, collaboration among stakeholders is encouraged if it provides a means to reduce the burden of asthma on a state or regional level. While it is appropriate to place environmental trigger avoidance into the broader context of medical management in EPA-funded activities, where non-environmental asthma management (e.g., medical management) activities are proposed, applicants must be prepared to document alternative funding sources for such activities.

Capacity Building on Environmental and Public Health Issues: Projects that

organize and sponsor community training events, or other forums that increase citizen involvement in understanding or addressing the causes, effects, extent, reduction, prevention and/or elimination of at least one of the following environmental and public health issues: environmental justice, indoor/ambient air quality, lead, asthma, pesticides, urban rivers/wetlands, chemical risks, recycling, energy conservation, renewable energy, and/or stormwater management; train and educate groups of community stakeholders on methods to identify, reduce, prevent or eliminate exposures to pollution in soil, air or water; train groups, community/neighborhood stakeholders, and/or residents in holistic and comprehensive approaches for promoting pollution prevention efforts in a sustainable manner that improves, protects and/or enhances the ecological health of urban natural resources; integrate environmental justice, green jobs, or green technology to support healthy communities; increase regional, state, tribal, community, and neighborhood access to information, dialogue, collection and use of data (e.g. GIS mapping, risk evaluation, risk mitigation, collecting emissions data, etc.), and/or improve methods of risk characterization; increase collaboration with businesses to improve their environmental performance (including compliance); increase collaboration among residents, businesses, and municipal governments to address community environmental issues (e.g., infrastructure, protecting community assets, etc.), and/or build new or strengthen existing coalitions to address schools, States, or regional programs and at least one or more of the environmental and public health issue(s) previously mentioned are encouraged.

Clean Energy: Projects that promote clean energy, through energy efficiency measures that reduce energy consumption, or through the generation of energy from renewable resources, including solar, wind, biomass, and geothermal sources are priorities for EPA. Priority sectors for energy efficiency and renewables include municipalities, schools, and colleges and universities. Municipal projects should focus on reducing energy consumption within municipal buildings, including offices, schools and wastewater treatment plants. In general, these projects should focus on more efficient use of energy, and water, as well as the potential use of renewable energy to supply electricity or heat to a facility in place of power provided by the local utility.

Healthy Indoor/Outdoor Environments: Projects that focus on reducing and/or preventing childhood lead poisoning, reducing asthma triggers, promoting integrated pest management; reducing childhood exposure to one or more toxins (PCBs, dioxin, mercury, lead, pesticides, etc.), promoting comprehensive healthy homes and other indoor and/or outdoor environments are encouraged. Projects that reduce indoor or ambient air toxics in a city, community or county, including those to create and implement risk management plans, conduct risk screening, build technical training capacity to help reduce community exposure to indoor and/or outdoor air toxics are also encouraged. Projects that promote pollution prevention, source reduction, energy conservation, renewable energy, and/or innovative approaches to stormwater management are also encouraged under this category.

Healthy Schools: Projects that train K-12 school teams to implement EPA's Indoor Air Quality Tools for Schools program (<http://www.epa.gov/iaq/schools/tookit.html>) through state-wide, regional, or local workshops; develop or support a systems approach to improving environmental conditions in schools which would include developing a school district wide IAQ management system analogous to TfS; train K-12 school teams to address asthma triggers, deploy integrated pest management techniques particularly in urban areas and/or tribal schools (www.epa.gov/iaq/schools/asthma); or efforts which combine several project areas described in this grant solicitation are encouraged. For more information on creating healthy school environments, please visit www.epa.gov/schools.

Narragansett Bay Watershed-Based Water Quality Management: Projects that address priorities and recommendations identified in the draft and/or final Narragansett Bay Region Integrated Plan for the Narragansett Bay watershed, including support for water quality improvement and monitoring, watershed planning and management, and planning for coordinated approaches to address the water quality impacts of nutrients, climate change, stormwater management, invasive species, nonpoint source pollution, water efficiency, and environmental management systems.

Pollution Prevention and Recycling: Projects that prevent pollution at the source of production through toxic use reduction and the more efficient use of materials, energy, water, and natural resources; and projects that reduce environmental impacts by promoting recycling, composting, waste minimization, beneficial reuse, market development, and sustainable purchasing practices. Priority sectors for pollution prevention and recycling include K-12 schools, hospitals and healthcare facilities, marinas, and colleges and universities. K-12 schools projects should focus on more efficient use of energy, water, reduction of waste generation and/or natural resources including recycling, composting, and/or chemical management (www.epa.gov/sc3).

Smart Growth: Projects that encourage compact, mixed-use, transit-oriented, pedestrian-friendly development in urban areas. Smart growth can improve air quality by replacing some motor vehicle trips with walking, biking, and other clean forms of transportation, reducing exposure to airborne pollutants and risk of respiratory illnesses. Smart growth also can improve water quality by reducing impervious surfaces and preserving green spaces both of which can reduce exposure to waterborne pollutants. Examples of smart growth projects include development of plans on ways to reduce vehicle miles traveled, public education and outreach on smart growth.

Urban Natural Resources: Projects that train and educate urban community stakeholders on ways to identify, prevent, reduce, and/or eliminate toxic substances and contamination on vacant lots and open/green space; train and educate the general public or other community stakeholders on causes, effects, extent, reduction, prevention and/or elimination of pollution in urban rivers and other urban natural resources; train and educate groups of urban community stakeholders on methods to identify, reduce, prevent or eliminate exposures to pollution in soil, air or water; train groups, community/neighborhood stakeholders, and/or residents in holistic and comprehensive approaches for promoting pollution prevention efforts in a sustainable manner that improves, protects and/or enhances the ecological health of urban natural resources.

Water Quality Monitoring or Analyses: Projects that focus on determining the quality of a particular water body or watershed, identifying water quality problem(s), and/or determining the cause of pollution through water quality monitoring and/or analyses of water bodies. Projects should involve community groups, educational institutions, watershed groups and/or other organizations. Projects can provide and/or support educational opportunities for students, interns or citizens to learn more about the causes, effects, extent, reduction, prevention and elimination of water pollution. Projects focusing on urban and/or environmental justice areas are encouraged.

Other Topics and Issues: On an annual basis, the competitive announcement may identify additional funding priorities.

USES AND USE RESTRICTIONS:

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is available to State, Local, public nonprofit institutions/organizations, private nonprofit institutions/organizations, quasi-public nonprofit institutions/organizations, Federally Recognized Indian Tribal Governments, K-12 schools or school districts; and non-profit organizations (e.g. grassroots and/or community-based organizations). Funding will be considered for a college or university to support a project with

substantial community involvement. Private businesses, federal agencies, and individuals are not eligible to be grant recipients; however, they are encouraged to work in partnership with eligible applicants on projects. Applicants need not be located within the boundaries of the EPA regional office to be eligible to apply for funding but must propose projects that affect the States, Tribes, and Territories within their Region. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State, Local, Federally Recognized Indian Tribal Governments, public nonprofit institutions/organizations, private nonprofit institutions/organizations, quasi-public nonprofit institutions/organizations, anyone/general public.

Credentials/Documentation:

Tribes may be asked to demonstrate that they are federally recognized. Interstate organizations may be asked to provide a citation to the statutory authority, which establishes their status. Intertribal consortia may be asked to provide documentation that they meet the requirements of 40 CFR Part 35.504. Non-profit applicants are not required to have a formal Internal Revenue Service (IRS) non-profit designation, such as 501(c)(3) or 501(c)(4); however they must present their letter of incorporation or other documentation demonstrating their non-profit or not-for-profit status. This requirement does not apply to public agencies or Federally Recognized Indian Tribes. Failure to enclose the letter of incorporation or other documentation demonstrating non-profit or not-for-profit status will render full proposal submissions incomplete and they will not be reviewed. Applicants who have an IRS 501(c)(4) designation are not eligible for grants if they engage in lobbying, no matter what the source of funding for the lobbying activities. For-profit enterprises are not eligible to receive sub-grants from eligible recipients, although they may receive contracts, subject to EPA's regulations on procurement under assistance agreements, 40 CFR 30.40 (for non-governmental recipients) and 40 CFR 31.36 (for governments). OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

For competitive awards, a one page summary format is provided in the competitive announcement. Applicants invited to submit a full proposal are required to submit the SF 424, 424A, 424B, and the pre-award compliance report. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Interested applicants should review information on the Internet at:

<http://www.epa.gov/nc/eco/uep/hcgp.html>. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The Healthy Communities Grant Program has a two step process for evaluating competitive applications which is described in the annual Request for Initial Proposals. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. Application forms are available at <http://www.epa.gov/ogd/AppKit/index.htm> and by mail upon request to the Grants and Interagency Agreements Management Division at (202) 564-5305. Completed applications should be submitted to the Region I Office. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated

in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Applicants will be notified within 60 days of receipt of submission for funding.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

All competitive grant awards should be prepared and submitted as new projects, which will be evaluated based on criteria specified in annual competitive funding announcement. Renewals or extensions of existing projects may be available.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The grant program generally allows a match of up to 5% of the total budget but it is not required. Any exceptions will be identified in the competitive funding announcement. Award recipients can use contributions from entities other than themselves as a match. However, other Federal money cannot be used as the match for this grant program. Matching funds are considered grant funds. They must be used for the reasonable and necessary expenses of carrying out the assistance agreement work plan. Any restrictions on the use of grant funds (e.g., prohibition of land acquisition with grant funds) also apply to the matching funds.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements are normally funded on a 12 (annual) or 24 month basis, at the discretion of the applicant. There is no restriction placed on the time permitted to spend the money awarded as long as the money is spent within the budget and project periods of the award specified in the workplan and the budget worksheet in the SF 424. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. EPA includes reporting requirements for cooperative agreements in the terms and conditions of the agreements. Cooperative agreements require quarterly and final progress and expenditure reports; program evaluations and other reports as detailed by the specific terms and conditions of the agreements. Progress reports are required on a quarterly basis. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result

of audit, related records should be retained until the matter is completely resolved.

Account Identification:

Obligations:

(Project Grants) FY 10 \$285,000; FY 11 Estimate Not Available; and FY 12 Estimate Not Available

Range and Average of Financial Assistance:

\$10,789 to \$35,000/fiscal year; \$27,239/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: All projects funded through the Healthy Communities Program reduce environmental risks, and protect and improve human health and the quality of life to create healthy communities and ecosystems. Specific outputs, services and results vary based on each project and Target Program Area(s) identified. Overall program accomplishments include, but are not limited to: reduction in childhood lead poisoning, increased education and outreach related to environment and public health issues, reduction in asthma emergency room visits, increased water quality data and information on urban rivers and wetlands, and increased number of school teams trained or provided technical assistance. In 2010, 73 initial submissions were received and of those 30 applicants submitted full proposals. Twelve awards were granted in fiscal year 2010. Fiscal Year 2011: It is anticipated that 10-20 awards will be granted in fiscal year 2011. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Grants and cooperative agreements awarded under the Healthy Communities Grant Program are subject to EPA's General Grant Regulations, and Procedures (40 CFR Parts 30 and 40 CFR Parts 31). Costs will be determined on accordance with OMB Circular A-87 for State and Local governments and Indian Tribes, OMB Circular A-21 for educational institutions and OMB Circular A-122 for nonprofit institutions.

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.113 REGION 3 ENVIRONMENTAL PRIORITY PROJECTS

FEDERAL AGENCY:

Region 3, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104; Solid Waste Disposal Act, Section 8001; Safe Drinking Water Act, Section 1442; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Clean Air Act, Section 103; Toxic Substances

Control Act, Section 10.

OBJECTIVES:

Assistance agreements awarded under this program must support, surveys, studies, investigations, training, demonstrations and special purpose assistance associated with air quality, acid deposition, drinking water, water quality, hazardous waste, toxic substances, or pesticides: (a) to identify, develop, and demonstrate necessary pollution control techniques; (b) to prevent, reduce, and eliminate pollution; (c) to evaluate the economic and social consequences of alternative strategies and mechanisms for use by those in economic, social, governmental, and environmental management positions; and (d) to promote collaboration on projects and activities within the states and enable wider and more coordinated state input on national environmental issues. Awards under this program must be performed within the Region III area of Delaware, Maryland, Pennsylvania, Virginia, West Virginia and/or District of Columbia.

Funding Priority - Fiscal Year 2011: The Fiscal Year 2011 priority is to fund a co-sponsor(s) to work with the Environmental Protection Agency (EPA) in support of the 2011-2013 Mid-Atlantic Region Student Environmental Development Program.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Assistance awards in the form of grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved surveys, studies, investigations, training, demonstrations and special purpose assistance, plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to state and local governments and the District of Columbia. Assistance is also available to public and private universities and colleges, hospitals, laboratories, and other public or private nonprofit institutions (Non-profit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply.) For profit organizations are generally not eligible for funding. Some of EPA's statutes may limit assistance to specific types of interested applicants. See "Authorization" listed above. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, public and private universities and colleges, hospitals, laboratories, and other public or private nonprofit institutions within Region III's geographical area.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. Region III representatives may ask applicants or principal investigators to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

EPA, Region 3 awards grants and cooperative agreements supporting surveys, studies, investigations, training, demonstrations and special purpose assistance under this program description in response to an EPA competitive solicitation. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110 must be used for this program. EPA Region 3 requires final applications to be made on Standard Form 424, "Application for Federal Assistance." Requests for application kits must be submitted to the Environmental Protection Agency, Region 3, 1650 Arch Street, Philadelphia, PA 19103, Grants and Audit Management Branch (3PM70) Additional information on the EPA assistance package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. For competitive awards the funding announcement will specify application procedures.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds. EPA can incrementally fund grants and cooperative agreements for surveys, studies, and investigations, training, demonstrations and special purpose assistance. The approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to Region 3 priorities, and the availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants and cooperative agreements are normally funded on a 12-month basis. However, EPA Region III can negotiate the project period with each applicant based on project requirements, consistent with legislative rules and EPA policy. See the following for information on how assistance is awarded/released: Full or partial awards may be made. Awards are released through an electronic funds transfer method.

Reports:

No program reports are required. In addition to the general reporting requirements under 40 CFR, EPA includes specific reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require financial, equipment, and invention reports. Reporting requirements are also identified in EPA's grant regulations 40 CFR Parts 30 and 31. Cash reports are required. Progress reports are required. Expenditure reports are required. Performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (nonprofits and institutions of higher education) or 40 CFR Part 31 (governmental units) are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records which support substantial changes to the grant, available to personnel authorized to examine EPA recipients' grants and cooperative agreement records. Recipient must maintain all records for a period of three (3) years from the date of submission of final expenditures reports. If questions, such as those raised as a result of audits or litigation remain following the 3-year period, recipients must retain records until the matter is fully resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 10 \$15,000; FY 11 est \$105,000; and FY 12 est \$0

Range and Average of Financial Assistance:

One award was made in FY 2010 for \$15,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: One non-competitive award was made for a seminar on evidence recognition, collection and management for state inspectors. The objective was to increase the effectiveness of inspection and enforcement actions in order to reduce the overall environmental impacts caused by improper control of air emissions and toxics, hazardous wastes, and water pollutants. The course objective was achieved in providing theoretical and practical experience training to the staff that was demonstrated by the trainees in the actual inspection and court testimony exercise. Sixty-two people attended the seminar. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Grants and cooperative agreements are subject to EPA general grant regulations (40 CFR Parts 30, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations," and 40 CFR Part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments"). Costs will be determined in accordance with OMB Circular A-87 for State and local governments and Indian Tribes, OMB Circular No. A-21 for educational institutions, OMB Circular No. A-122 for nonprofit institutions, and FAR Part 31 for "for profit" entities.

66.119 WEST COAST ESTUARIES INITIATIVE

FEDERAL AGENCY:

Region 10, Environmental Protection Agency

AUTHORIZATION:

Consolidated Appropriations Act for Fiscal Year 2008, Public Law 110-161.

OBJECTIVES:

The West Coast Estuaries Initiative is a focused effort that evolved from the Environmental Protection Agency's Targeted Watersheds Grants Program. The initiative is designed to promote and support the protection and restoration of high value coastal aquatic resources in geographic areas that are subject to the pressures of population and economic growth through comprehensive watershed protection and management practices at the local level.

The projects receiving assistance will support the EPA's goals for Region 10's coastal watersheds from Alaska to Oregon's southern border. These goals include:

(1) clean and safe water through the protection of water quality and (2) healthy communities and ecosystems through the restoration and protection of ecosystems.

Funding Priority - Fiscal Year 2011: No funds were appropriated for this program for FFY 2011. No new solicitations or awards are expected in FFY 2011.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Local and tribal governments are at various stages of developing and applying effective and robust watershed programs. Some need to improve the scientific understanding of their watersheds. Others understand how their watersheds work and need assistance implementing a plan. Therefore, a wide range of activities will be eligible including, but not limited to, activities that:

(1) Enhance and implement watershed protection and restoration plans, land use and transportation plans, basin plans, storm water controls and/or land development standards to maintain native vegetation and natural hydrology by protecting and restoring wetland, riparian, upland and near shore habitats and ecological processes.

(2) Implement watershed protection by enhancing local planning processes under the state's Coastal Zone Management Program through the development of watershed land use designations, development standards and other regulations or incentive programs that protect and restore coastal watersheds.

(3) Refine and implement watershed land use plans based on watershed models predicting hydrological impacts of alternative future land cover conditions, development scenarios and resulting aquatic resource conditions.

(4) Develop and carry out laws, ordinances and incentive programs to implement watershed programs such as systematic implementation of low impact development in sensitive basins, land acquisition or transfer of

development rights approaches and techniques.

More details on the restrictions for this program will be provided in the request for proposals which will be published on the Region 10 web site.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Certain projects or activities are ineligible for West Coast Estuaries funding. These include activities required or regulated under the CWA. For example, activities for the development of Total Maximum Daily Loads (TMDLs) and required activities under Phase I and II Stormwater permits will not be funded. Activities implementing the non-regulatory component of TMDLs are eligible (e.g., the elements of a watershed plan that address non-point source pollution).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Federally recognized Indian Tribal governments located within or governing territory within the coastal watersheds west of the Cascade Mountain divide of Washington and Oregon, including those watersheds entering the Columbia River below Bonneville Dam, are eligible to apply. Local governments located within or governing territory within the coastal watersheds west of the Cascade Mountain divide of Washington and Oregon, including those watersheds entering the Columbia River below Bonneville Dam, are also eligible to apply. Also eligible to apply are special purpose districts including, but not limited to, irrigation districts, conservation district and water & sewer districts located within the coastal watersheds west of the Cascade Mountain divide of Washington and Oregon, including those watersheds entering the Columbia River below Bonneville Dam. Similar entities in three specific coastal watersheds in Alaska will also be eligible to apply. Those watersheds are the Lower Susitna, Matanuska and Anchorage Borough watersheds.

State agencies, institutions of higher education and nongovernmental entities are not eligible to receive a direct award under this announcement. However, they are encouraged to work as collaborators (subrecipients or subcontractors) with eligible applicants. Federal agencies are ineligible for subaward or subcontract work under this announcement.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Anyone/General Public.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

In accordance with EPA's Assistance Agreement Competition Policy (EPA Order 5700.5A1), EPA staff will not meet with individual applicants to discuss draft proposals, provide informal comments on draft proposals, or provide advice to applicants on how to respond to ranking criteria. Applicants are responsible for the contents of their respective applications and proposals. The EPA will respond to questions from individual applicants regarding threshold eligibility criteria, administrative issues related to the submission of a proposal and requests for clarification about the request for proposals. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be

available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants will be required to submit a formal grant application. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-110 and A-102 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants Administration Division, 1200 Pennsylvania Avenue, N.W., Mail Code 3903R, Washington, DC 20460 or through the EPA Region 10 Grants Administration web site at: <http://yosemite.epa.gov/r10/omp.nsf/webpage/Region+10+Grants+Administrati+on+Unit>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. EPA reserves the right to reject all proposals or applications and make no awards under any RFP issued under this program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The region expects that its review of the applications received will be completed within 120 to 150 days following the deadline for the submission of applications.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Under the Targeted Watershed Grants program, of which this initiative is a component, it is the Agency's policy to require applicants to demonstrate a minimum non-federal match of 25% of the total cost of the project or projects. Match may be cash or in-kind consistent with the regulation governing match requirements (40 C.F.R. 31.24 or 40 C.F.R. 30.23, as applicable). Tribes may be exempt from this match requirement if they are constrained to such an extent that fulfilling the match requirement would impose an undue economic hardship on the Tribe. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of the cooperative agreement will be determined at the time the financial assistance is awarded. See the following for information on how assistance is awarded/released: The assistance would be awarded by a grant or cooperative agreement. Typically, assistance recipients draw cash on a quarterly basis to obtain reimbursement for allowable costs incurred to date.

Reports:

No program reports are required. No cash reports are required. Progress report requirements will be a part of each assistance agreement. A schedule showing

interim milestones and the outputs that will be completed by the end of the project period will also be included. Other specific reporting requirements will be defined in the Assistance Agreement based on the statement of work described in the application. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised by an audit, related records should be retained until the matter is completely resolved.

Account Identification:

Obligations:

(Cooperative Agreements) FY 10 \$0; FY 11 est \$0; and FY 12 est \$0 - Five awards were made under this solicitation in FFY 2009. The awards were for projects in each of Region 10's coastal states and totaled \$2,737,098. Each award is in the form of a cooperative agreement. Descriptions of the projects can be found at this web site:

<http://yosemite.epa.gov/r10/water.nsf/Office+of+Water/WEI08RFP>.

Range and Average of Financial Assistance:

Individual awards are expected to range in size from \$400,000 to \$600,000. If the EPA receives proposals for seven (7) approvable projects, the mean award size would be \$400,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Each of the five funded projects in the region-wide solicitation is under way and is not yet complete. Two of the five projects have produced some interim deliverables as of this writing. These include:

City of Florence: Stormwater Design Manual, Climate Change Report, Aquifer Protection Plan.

PSRC: Pierce County completed development of Local Transfer of Development Rights (TDR) Program, Written Guidance for counties and cities to evaluate TDR program effectiveness, Adoption of rule in Washington Administrative Code (WAC) for standard interlocal TDR agreements, Comprehensive clearinghouse of TDR resources developed.. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

For grants and cooperative agreements with local governments, tribal governments and special purpose districts, the procedures and requirements should be in conformance with 40 CFR Part 31 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments", 40 CFR Part 35 "Environmental Program Grants-State, Interstate and Local Government Agencies", and OMB Circular Nos. A-87 "Cost Principles for State and Local Governments" and A-102 "Grants and Cooperative Agreements for States and Local Governments."

RELATED PROGRAMS:

66.439 Targeted Watersheds Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: No solicitation was held in FFY 2010 because no appropriations were received for the program. Fiscal Year 2011: No appropriation was received for this program for FFY 2011. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be published in the announcement of the competitive funding opportunity (the Request for Proposals or RFP). Projects will be selected based on a competitive process which may include factors such as relevancy to the EPA's mission, technical merit, the geographic diversity represented by the array of possible projects and the likelihood of success. In making the final funding decisions, the Approving Official may also consider national and regional programmatic priorities, the Region 10 strategy and the balance of funds available. The actual selection criteria to be used will be identified in the RFP.

66.120 PUGET SOUND WATERSHED MANAGEMENT ASSISTANCE

FEDERAL AGENCY:

Region 10, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Title III, Section 320, Public Law 106-457, 33 U.S.C 1330; Clean Water Act, Title III, Section 320, Public Law 94-117, 33 U.S.C 1330; Omnibus Appropriations Act, 2009, Public Law 111-8.

OBJECTIVES:

The overall goal of the National Estuary Program is to attain and maintain water quality in designated estuaries that would assure protection of public water supplies and the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife and allows recreational activities in and on the water.

Puget Sound has been designated as an estuary of National Significance under section 320 of the Clean Water Act. The goal of all 28 National Estuary Programs is to attain and maintain water quality in designated estuaries that would assure protection of public water supplies and the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife and allows recreational activities in and on the water.

The goal of the Puget Sound National Estuary Program, i.e., the Puget Sound Partnership, approved Comprehensive Conservation and Management Plan (CCMP) (the 2020 Action Agenda) is to restore and maintain the Puget Sound Estuary's estuarine environment, by 2020, so that it will support balanced indigenous populations of shellfish, fish and wildlife and support the extensive list of recognized uses of Puget Sound.

In the FFY 2009 Omnibus Appropriations Act, Puget Sound restoration funds are provided to develop and implement programs that will help meet the Clean Water Act goal of improved water quality as well as improved air quality and minimization of the adverse impacts of rapid development in the Puget Sound Basin, including activities linked to nonpoint sources or habitat restoration

work. Programs and projects would promote the use of comprehensive watershed protection and management practices at the local level to achieve nonpoint source pollution reduction and protection and restoration of habitat and aquatic resources in watersheds that are subject to the pressures of development and growth.

By 2011, EPA Region 10, working with its key state, tribal and local partners have committed to attaining the following environmental outcomes for the Puget Sound Basin through 2011:

" 1,000 acres of shellfish bed growing areas, currently impacted by degraded or declining water quality, show improved water quality and corresponding lifting of harvest restrictions;

" 200 acres of prioritized contaminated sediments are remediated and upstream source controls are put in place;

" 3,500 acres of tidally or seasonally influenced estuarine wetlands are restored and protected;

In addition, by 2011, we are committed to protecting and improving water quality and minimizing the adverse impacts of rapid development in the Puget Sound Basin. These commitments include protecting the watersheds and waters of Puget Sound by protecting the fundamental watershed processes that provide and create aquatic habitats and by reducing the generation and release of toxic, nutrient and pathogen pollution.

Funding Priority - Fiscal Year 2011: The region does not plan on making any solicitations under this program in FFY 2011.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Local and tribal governments are at various stages of developing and applying effective and robust water quality watershed programs. Some need to improve their scientific understanding of their watersheds. Others understand how their watersheds work and need assistance implementing a watershed plan. Therefore, a wide range of activities will be eligible for funding under this program including, but not limited to activities that: (1) Develop, demonstrate, enhance and implement watershed protection and restoration plans, land use and transportation plans, basin plans, storm water controls and/or land development standards to maintain native vegetation and natural hydrology by protecting and restoring wetland, riparian, upland and near shore habitats and ecological processes. (2) Promote watershed protection by enhancing local planning processes authorized by the state's Coastal Zone Management Program such as the development of watershed land use designations, development of standards and other regulations or of incentive programs that protect and restore coastal watersheds. (3) Refine and implement watershed land use plans based on watershed models that predict the hydrological impacts of alternative future land cover practices and on development scenarios and their projected impacts on aquatic resources. (4) Develop, carry out and study the effectiveness of laws, ordinances and incentive programs to implement watershed programs such as systematic implementation of low-impact development in sensitive basins, land acquisition or transfer of development rights approaches and techniques.

Restrictions: All uses of these funds must be consistent with the goals and objectives of the 2020 Puget Sound Action Agenda. Activities permitted under the Clean Water Act are not eligible for funding under this program. Specifically, required activities under NPDES Phase I and II stormwater permits are not eligible for funding under this program.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when

on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Units of local government, under Washington State law, and federally recognized Indian Tribes located within the greater Puget Sound basin are eligible to apply. Also eligible to apply are special purpose districts, as defined by Washington State law at R.C.W. 36.93.020, including but not limited to, irrigation districts, and water and sewer districts that are located in or govern land and water resources within the greater Puget Sound basin. Conservation districts located in or governing land and water resources within the greater Puget Sound Basin are also eligible to apply for assistance under this program. The greater Puget Sound basin is defined as all watersheds draining to the U.S. waters of Puget Sound, southern Georgia Basin, and the Strait of Juan de Fuca.

Federal and state agencies, institutions of higher learning, watershed planning units formed under RCW 90.82.040 and RCW 90.82.060, local management boards organized under RCW 90.88.030, salmon recovery lead entities organized pursuant to RCW 77.85.050, regional fisheries enhancement groups organized pursuant to RCW 77.95.060, Marine Resource Committees organized pursuant to RCW 36.125 and nongovernmental entities are not eligible to directly receive financial assistance awards under this announcement. Business enterprises and individuals or families will also not be eligible applicants.

However, EPA strongly encourages local and tribal governments to solicit participation from these types of entities as local collaborators. All of these types of entities are eligible to apply for subawards or subcontracts from a successful award recipient.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. The specific types of eligible applicants will be identified in the individual Requests for Proposals.

Beneficiary Eligibility:

The ultimate beneficiary of the assistance offered under this program will be the general public that lives and works in the Puget Sound region.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Applicants will be required to submit application materials as described in the Request For Proposals. The Request For Proposals will also specify the submission methods which generally include an electronic and hard copy submission option. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-110 and A-102 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreement Management Division, 1200 Pennsylvania Avenue, N.W., Mail Code 3903R, Washington, DC 20460 or through the EPA Region 10 Grants Administration web site at: <http://yosemite.epa.gov/r10/omp.nsf/webpage/>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. EPA reserves the right to reject all proposals or applications and make no awards under any RFP issued under this program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The region expects that its review of the applications received in response to competitive solicitations will be completed within 120 to 150 days following the deadline for the submission of applications for each Request for Proposals issued under this program.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: The Puget Sound Watershed Management Assistance program has no statutory formula for allocating the funds. All of the grants will be for implementation projects under the Puget Sound Comprehensive Conservation Management Plan (CCMP) under CWA 320(g)(2) and 320(g)(3)(ii). There is a statutory match of 50% of the total project costs for implementation project grants under CWA 320(g)(3)(ii) and CWA Section 320 allows for an aggregate match.

For the awards to be made under the competitions conducted under this program, the Puget Sound Management Conference, represented by the Puget Sound Partnership, has agreed to provide 67% of the 50% required non federal match for successful project proposals for the 2010-2011 biennium under a cooperative agreement with EPA. Accordingly, in order to meet the match requirement for the competitive solicitations issued under this program, EPA Region 10 will require that all selected recipients provide a match amount that is equal to 33% of the 50% required match. Thus, for each proposal funded under this program, the required 50% match will be met. The match may be cash or in-kind consistent with the regulation governing match requirements (40 C.F.R. 31.24 or 40 C.F.R. 30.23, as applicable). The example below illustrates how this will work.

Match Example:

For an applicant requesting \$600,000 in federal funds under a competition, the total match required would be \$600,000. Under the competition, the applicant will be required to provide a match of \$198,000, or 33% of the required 50% match. The remaining \$402,000 (\$600,000 - \$198,000) of the required 50% match will be met at the aggregate level by the Puget Sound Partnership.

Contact the Puget Sound Partnership office or EPA Regional Office contact identified in this program description for more information. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The assistance will be awarded during Federal Fiscal Year 2010. Funds will be disbursed to assistance recipients in accordance with the terms specified in the assistance agreement. See the following for information on how assistance is awarded/released: Assistance will be disbursed in accordance with the terms specified in the assistance agreement. Typically, assistance recipients draw funds at either monthly or quarterly intervals based on their incurred costs.

Reports:

No program reports are required. No cash reports are required. Progress report requirements will be a part of each assistance agreement. A schedule showing interim milestones and the outputs that will be completed by the end of the project period will also be included. Typical progress reports will discuss the progress that the assistance recipient has made on towards achieving each major goal or objective identified in the approved statement of work. The report would also discuss the progress that has been made towards each interim milestone. Progress reports will also discuss any difficulties or problems that the assistance recipient has encountered and how those problems have been or are being resolved. Other specific reporting requirements will be defined in the Assistance Agreement based on the statement of work described in the application. Expenditure reports will typically be required at the same time intervals as progress reports. The expenditure reports will document expenditures to date, including expenditures of any matching funds, in a manner that allows the user to confirm that matching requirements are being met and that all assistance payments (disbursements to the assistance recipient) are for costs that have been incurred in compliance with applicable cost principles. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised by an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 10 \$19,808,896; FY 11 est \$0; and FY 12 est \$0 - Region 10 awarded funding for 24 projects under the one solicitation that has been conducted to date. The region obligated a total of \$19,808,896 in FFY 2009 and FFY 2010 funds to these projects. All of the awards took the form of Cooperative Agreements with the assistance recipients.

The region does not anticipate conducting additional solicitations in either FFY 2011 or FFY 2012 in this program. We expect that similar projects, in the future, will be funded by the Watershed Restoration Lead Organization (the Washington Department of Ecology) selected under the solicitation completed for Puget Sound Ecosystem Restoration Lead Organizations under CFDA 66.123.

Range and Average of Financial Assistance:

The range for awards in Requests for Proposals issued under this CFDA listing to between \$300,000 and \$1,000,000. The average award would be approximately \$700,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Twenty four projects were funded in FFY 2010. There are too many of them to publish individual progress reports. To see an annotated list of the projects that were funded, see this web site <http://www.epa.gov/pugetsound/funding/index.html#watershed>. Fiscal Year 2011: \$0 for Y 11. Fiscal Year 2012: \$0 for FY 12.

REGULATIONS, GUIDELINES, AND LITERATURE:

For grants and cooperative agreements with local governments, tribal

governments and special purpose districts, the procedures and requirements should be in conformance with 40 CFR Part 31 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments", 40 CFR Part 35 "Environmental Program Grants-State, Interstate and Local Government Agencies", and OMB Circular Nos. A-87 "Cost Principles for State and Local Governments" and A-102 "Grants and Cooperative Agreements for States and Local Governments."

OMB Circular A-87 has been codified as 2 CFR Part 225. EPA's requirements under OMB Circular A-102 are codified at 40 CFR Part 31.

66.121 PUGET SOUND PROTECTION AND RESTORATION: TRIBAL IMPLEMENTATION ASSISTANCE PROGRAM

FEDERAL AGENCY:

Region 10, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Title III, Section 320, Public Law 94-117, 33 U.S.C 1330; Omnibus Appropriations Act, 2009, Public Law 111-8; Clean Water Act, Title III, Section 320, Public Law 106-457, 33 U.S.C 1330.

OBJECTIVES:

Puget Sound has been designated an estuary of National Significance under 320 of the Clean Water Act. The goal of all 28 National Estuary Programs is to attain and maintain water quality in designated estuaries that would assure protection of public water supplies and the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife and allows recreational activities in and on the water.

The goal of the Puget Sound National Estuary Program, i.e., the Puget Sound Partnership, approved Comprehensive Conservation and Management Plan (CCMP) (the 2020 Action Agenda) is to restore and maintain the Puget Sound Estuary's estuarine environment, by 2020, so that it will support balanced indigenous populations of shellfish, fish and wildlife and support the extensive

list of recognized uses of Puget Sound.

In the FFY 2009 Omnibus Appropriations Act, Puget Sound restoration funds are provided to develop and implement programs and projects that will help meet the Clean Water Act goal of improved water quality as well as improved air quality and minimization of the adverse impacts of rapid development in the Puget Sound basin including activities linked to nonpoint sources or habitat restoration projects.

By 2011, EPA Region 10, working with its key state, tribal and local partners, have committed to attaining the following environmental outcomes for the Puget Sound Basin through 2011:

" 1,000 acres of shellfish bed growing areas, currently impacted by degraded or declining water quality, show improved water quality and corresponding lifting of harvest restrictions;

" 200 acres of prioritized contaminated sediments are remediated and upstream source controls are put in place;

" 3,500 acres of tidally or seasonally influenced estuarine wetlands are restored and protected;

The Puget Sound Protection and Restoration: Tribal Implementation Assistance Program is aimed at assisting the Indian Tribes of the greater Puget Sound basin in their efforts to carry out work critically needed for Puget Sound protection and restoration. Work that is critically needed for Puget Sound protection and restoration includes activities identified in, or consistent with, the Puget Sound Action Agenda, which is the EPA approved Comprehensive Conservation and Management Program (CCMP) for the Puget Sound National Estuary under 320 of the Clean Water Act. These activities include, but are not limited to, work called for by established salmon recovery plans in the Puget Sound basin.

EPA has a trust responsibility to Federally recognized Indian Tribes in the region. EPA also recognizes that Federally recognized Indian Tribes in the greater Puget Sound basin have a critical role in the protection and restoration of the ecosystem and its resources. EPA seeks to provide financial assistance to these Tribes to help them finance implementation of priority strategies and actions in or consistent with the approved 320 CCMP for Puget Sound including, but not limited to, projects called for by established salmon recovery plans.

Funding Priority - Fiscal Year 2011: FFY 2011 appropriations for the Puget Sound Tribal Implementation Assistance Program will be used to incrementally fund awards made under the program from the EPA's FFY 2010 appropriation. Some of the funds will be used to incrementally fund individual Puget Sound Tribal Capacity Assistance Cooperative Agreements awarded under the FFY 2010 appropriation. Another portion of the funds will be used to incrementally fund the second "phase" of a Puget Sound Tribal Lead Organization Program being administered by the Northwest Indian Fisheries Commission. Under that program, the Commission administers a program in which it makes subawards to finance Puget Sound Tribal implementation projects. The amounts of funds being made available to each of these programs has not yet been determined by the Agency, as of the time of this writing.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

This assistance may be used by Tribes to implement work that is critically needed for Puget Sound restoration and protection. Such work includes priority actions or strategies in or consistent with the approved 320 CCMP for Puget Sound including, but not limited to, projects called for by established salmon recovery plans, except where the proposed work is inconsistent with applicable Federal law, regulation or published EPA policy.

Additional information on use restrictions, if any, for the Puget Sound Protection and Restoration: Tribal Implementation Assistance Program, will be provided in each request for proposals published on the EPA Region 10 website.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

All federally recognized Indian Tribes located within the greater Puget Sound basin, and any consortium of these eligible Tribes, may apply for funding under the program. The greater Puget Sound basin is defined as all watersheds draining to the U.S. waters of Puget Sound, southern Georgia Basin, and the Strait of Juan de Fuca.

An eligible Intertribal consortium is one that demonstrates that 1) a majority of its members meets the eligibility requirements for this program; 2) all members that meet the eligibility requirements authorize the consortium to apply for and receive the grant; and 3) only members that meet the eligibility requirements will benefit directly from the grant project and the consortium agrees to a grant condition to that effect.

An Intertribal consortium must have adequate documentation of the existence of the partnership and the authorization of the member Tribes to apply for and receive assistance. Documentation that demonstrates the existence of the partnership of Indian Tribal governments may consist of Tribal council resolutions, Intertribal consortia resolutions in conjunction with a Tribal council resolution from each member Tribe, or other written certification from a duly authorized representative of each Tribal government that clearly demonstrates that a partnership of Indian Tribal governments exists. Documentation that demonstrates that member Tribes authorize the consortium to apply for and receive assistance may consist of a Tribal council resolution from each Tribe or other written certification from a duly authorized representative of each Tribal government that clearly demonstrates that the Tribe authorizes the consortium to apply for and receive the grant on behalf of the Tribe. An Intertribal consortium resolution is not adequate documentation of the member Tribes' authorization of the consortium unless it includes a written certification from a duly authorized representative of each Tribal government.

Federal and state agencies, institutions of higher learning, units of local government, special purpose districts, conservation districts, watershed planning units organized pursuant to RCW 90.82.040 and 060, local management boards organized pursuant to RCW 90.88.030, salmon recovery lead entities organized pursuant to RCW 77.85.050, regional fisheries enhancement group organized pursuant to RCW 77.95.060 and nongovernmental entities are not eligible to directly receive financial assistance awards under this announcement. Business enterprises and individuals or families will also not be eligible applicants

However, EPA strongly encourages eligible applicants to solicit participation from these types of entities as local collaborators. All of these types of entities are eligible to apply for subawards or subcontracts from a successful award recipient.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

The beneficiary of this assistance under this program would be the Federally recognized Indian Tribes or the consortia of these Tribes that receive the assistance. Ultimate beneficiaries would include the tribal members and the general public (due to the general public's interest in restoring and protecting

the resources of Puget Sound).

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Applicants will be required to submit application materials as described in the Request For Proposals. The Request For Proposals will also specify the submission methods which generally include an electronic and hard copy submission option. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-110 and A-102 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreement Management Division, 1200 Pennsylvania Avenue, N.W., Mail Code 3903R, Washington, DC 20460 or through the EPA Region 10 Grants Administration web site at: <http://yosemite.epa.gov/r10/omp.nsf/webpage/>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. EPA reserves the right to reject all applications and make no awards under any RFP issued under this program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. The Region expects that its review of the applications received in response to competitive solicitations will be completed within 120 to 150 days following the deadline for the submission of applications for each Request for Proposals issued under this program.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: The Puget Sound Protection and Restoration: Tribal Implementation Assistance program has no statutory formula for allocating the funds. All of the grants will be for implementation projects under the Puget Sound Comprehensive Conservation Management Plan (CCMP) under CWA 320(g)(2) and 320(g)(3)(ii). There is a statutory match of 50% of the total project costs for implementation project grants under CWA 320(g)(3)(ii) and CWA Section 320 allows for an aggregate match.

For the awards to be made under the competitions conducted under this program, the Puget Sound Management Conference, represented by the Puget

Sound Partnership, has agreed to provide all of the required non federal match for successful project proposals for the 2010-2011 biennium under a cooperative agreement with EPA. Accordingly, eligible applicants will not be required to provide any of the required non-federal match.

Contact the Puget Sound Partnership office or EPA Regional Office contact identified in this program description for more information. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The assistance will be awarded during FFY 2010. Funds will be disbursed to assistance recipients in accordance with the terms specified in their respective assistance agreements. See the following for information on how assistance is awarded/released: Assistance will be disbursed in accordance with the terms of each assistance agreement. Typically, assistance recipients draw funds at either monthly or quarterly intervals based on their incurred costs.

Reports:

No program reports are required. No cash reports are required. Progress report requirements will be a part of each assistance agreement. A schedule of interim milestones and the outputs that will be completed by the end of the project period will also be included. Typical progress reports will discuss the progress that has been made on each major task and on each interim milestone identified in the approved statement of work. Progress reports will also discuss any difficulties or problems that have been encountered and how they have been or are being resolved. Other specific reporting requirements will be defined in the assistance agreement based on the statement of work described in the application. Expenditure reports will typically be required at the same time intervals as progress reports. The expenditure reports will document expenditures to date, including expenditures of any matching funds, in a manner that allows the report user to confirm that matching requirements, if any, are being met and that all assistance payments (disbursements to assistance recipients) are for costs that have been incurred in compliance with applicable costs principles. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of 3 years from the date of submission of the final expenditure report. If questions still remain, such as those raised by an audit, related records should be maintained until the matter is completely resolved.

Account Identification:

Obligations:

(Cooperative Agreements) FY 10 \$11,526,324; FY 11 est \$9,480,000; and FY 12 est \$0 - The Region awarded \$5,326,324 in 11 cooperative agreements with Puget Sound Tribes from FFY 2009 funds and FFY 2010 funds. An annotated list of these awards can be found on this web page:

<http://www.epa.gov/pugetsound/funding/index.html#tribal>

The Region also obligated approximately \$3.2 million in FFY 2010 funds to support Tribal implementation efforts under noncompetitive awards authorized by an exemption from competition under the EPA's Grants Competition Policy, granted on March 2, 2010. These awards were made to every Puget Sound Tribe and intertribal organization. They period of the exemption runs through

September 30, 2015.

The region expects incrementally fund each of these awards each year at the same level. Tribes that serve on the Puget Sound Ecosystem Coordination Board received \$200,000 for the first year. Other Puget Sound Tribes and the two small intertribal organizations received \$150,000 for the first year. The Northwest Indian Fisheries Commission received \$600,000 for the first 1.5 years.

Finally, under a separate solicitation, the EPA awarded \$3,000,000 in FFY 2010 funds to the Northwest Indian Fisheries Commission to serve as the Lead Organization for Puget Sound recovery tribal implementation efforts. Most of the funds were devoted to subawards to all Puget Sound Tribes and intertribal organizations for projects that support the implementation of the 2020 Action Agenda for Puget Sound. This Cooperative Agreement is structured to be incrementally funded in the anticipation of adding \$3,000,000 per year subject to the availability of funds in the EPA's annual appropriations.

\$11,526,324 was awarded in a combination of FFY 2009 and FFY 2010 funds. An additional \$9,480,000 is being awarded in FFY 2011 funds under this program to Puget Sound Tribal governments and intertribal organizations. All of the FFY 2011 funds will be incremental add ons to existing cooperative agreements with the recipients. There will be no new solicitations and no new awards. FFY 2012 is unknown.

Range and Average of Financial Assistance:

The range of expected awards is between \$100,000 and \$150,000 with an average of \$125,000. Noncompetitive awards to tribes and intertribal organizations under the exemption from the EPA's Grants Competition Policy granted on March 2, 2010, will be for Cooperative Agreements that the EPA expects to fund incrementally over a five year period that expires at the end of FFY 2015.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: All of the awards under this program were made late in FFY 2010 and early in FFY 2011. As of this writing no interim "deliverables" have been completed. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

For grants and cooperative agreements with tribal governments and intertribal organizations, assistance recipients must comply with 40 C.F.R. Part 31 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments", 40 C.F.R. Part 35 "Environmental Program Grants-State, Interstate and Local Government Agencies", and OMB Circular Nos. A-87 "Cost Principles for State and Local Governments" and A-102 "Grants and Cooperative Agreements for States and Local Governments."

OMB Circular A-87 has been codified as 2 C.F.R. Part 225. EPA's requirements under OMB Circular A-102 are codified at 40 C.F.R. Part 31.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: A full annotated list of the 11 individual projects funded under the initial competitive solicitation can be found at this web site:

<http://www.epa.gov/pugetsound/funding/index.html#tribal>. Fiscal Year 2011: In FFY 2011, the Region completed noncompetitive assistance awards to each of the Puget Sound tribes and each intertribal organization. These capacity assistance cooperative agreements provide base level funding to each recipient to participate in the adaptive management of the 2020 Action Agenda for Puget Sound (the EPA approved Comprehensive Conservation and Management Program for the Puget Sound estuary under 320 of the Clean Water Act). Those assistance agreements were approved for \$150,000 per year through FFY 2015, dependent on the availability of sufficient funds in future appropriations. The four tribes that serve on the Puget Sound Ecosystem Coordination Board, received an additional \$50,000 per year to support their work as Board members.

Additionally the Northwest Indian Fisheries Commission received a similar capacity assistance award to finance its efforts to coordinate the activities of its member tribes in the adaptive management of the implementation of the 2020 Action Agenda and coordinate member tribes input into regular updates to the Action Agenda. Another major element of that award is focused on improving data sharing capabilities of the Commission's information systems (to allow sharing of environmental data among tribes and with state and federal agencies). This award is budgeted at approximately \$400,000 per year, again contingent on the availability of sufficient funds in future appropriations. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be published in the announcement of the competitive funding opportunity (the Request for Proposals or RFP).

66.122 PUGET SOUND ACTION AGENDA OUTREACH, EDUCATION AND STEWARDSHIP SUPPORT PROGRAM

FEDERAL AGENCY:

Region 10, Environmental Protection Agency

AUTHORIZATION:

Omnibus Appropriations Act, 2009, Public Law 111-8; Omnibus Appropriations Act, 2, Public Law 111-88; Clean Water Act, Title 3, Section 320, Public Law 94-117; Clean Water Act, Title 3, Section 320, Public Law 106-457, 33 U.S.C 1330.

OBJECTIVES:

Puget Sound has been designated as an estuary of National Significance under section 320 of the Clean Water Act. The goal of all 28 National Estuary Programs is to attain and maintain water quality in designated estuaries that would assure protection of public water supplies and the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife and allows recreational activities in and on the water.

The goal of the Puget Sound National Estuary Program approved Comprehensive Conservation and Management Plan (CCMP) (the 2020 Action Agenda) is to restore and maintain the Puget Sound Estuary's estuarine environment, by 2020, so that it will support balanced indigenous populations of shellfish, fish and wildlife and support the extensive list of recognized uses of Puget Sound.

In the FFY 2009 Omnibus Appropriations Act, Puget Sound restoration funds are provided to develop and implement programs that will help meet the Clean Water Act goal of improved water quality as well as improved air quality and minimization of the adverse impacts of rapid development in the Puget Sound Basin, including activities linked to nonpoint sources or habitat restoration work. Programs and projects would promote the use of comprehensive watershed protection and management practices at the local level to achieve

nonpoint source pollution reduction and protection and restoration of habitat and aquatic resources in watersheds that are subject to the pressures of development and growth.

In the FFY 2010 Omnibus Appropriations Act, Congress appropriated an additional \$50 million to support the Puget Sound Program.

By 2011, EPA Region 10, working with its key state, tribal and local partners have committed to attaining the following environmental outcomes for the Puget Sound Basin through 2011:

" 1,000 acres of shellfish bed growing areas, currently impacted by degraded or declining water quality, show improved water quality and corresponding lifting of harvest restrictions;

" 200 acres of prioritized contaminated sediments are remediated and upstream source controls are put in place;

" 3,500 acres of tidally or seasonally influenced estuarine wetlands are restored and protected.

In addition, by 2011, the EPA is committed to protecting and improving water quality and minimizing the adverse impacts of rapid development in the Puget Sound Basin. These commitments include protecting the watersheds and waters of Puget Sound by protecting the fundamental watershed processes that provide and create aquatic habitats and by reducing the generation and release of toxic, nutrient and pathogen pollution.

An essential element of a successful estuary conservation and management program is a well-informed citizenry that is willing and able to take individual and community action to protect and enhance the estuary. This program is aimed at building and sustaining coordinated efforts for outreach and education to increase public awareness and encourage individual stewardship to protect both local and basin-wide ecosystems.

Funding Priority - Fiscal Year 2011: The Region made one award using FFY 2010 funds under this program. Funds from the FFY 2010 appropriation were used to fund the first two years of work under this program. The region does not anticipate further funding in FFY 2011. This award was made to the Puget Sound Partnership for an incrementally funded program. Future funding using incremental awards (see below) is dependent on the availability of funds from future appropriations, the performance of the Partnership under this program, and the needs of the CCMP for Puget Sound Estuary at the time.

Funding Priority - Fiscal Year 2012: If funding is available from the Agency's appropriations for FFY 2012, then then the Agency anticipates making an incremental award under this program to the Puget Sound Partnership in FFY 2012, assuming that the Partnership submits a satisfactory work plan for the third year. has performed successfully in the first two years of the program and the CCMP for the Puget Sound Estuary has need for further work under this program.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Puget Sound restoration funds were appropriated by Congress in conjunction with the Clean Water Act for development and implementation of programs that will improve water quality, air quality, and minimize the adverse impacts of rapid development in the Puget Sound Basin, including activities linked to nonpoint sources or habitat restoration work. Any public education, outreach or stewardship project receiving assistance under this program must contribute to or support the general implementation of the 2020 Action Agenda for Puget Sound.

Additional information on use restrictions, if any, for the Puget Sound Action Agenda Education, Outreach, and Stewardship Support Program, will be provided in each Request for Proposals issued under this program.

Assistance agreement awards under this program may involve or relate to

geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official Government business or when performing any work for or on behalf of the Government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible applicants for this program include:

Washington State agencies; public and private institutions of higher education; units of local government in the greater Puget Sound Basin and Nongovernmental organizations specifically including NGOs that are nonprofits within the meaning of 501(c)(3) of the Internal Revenue Code.

Also eligible to apply under this program are all Federally-recognized Indian Tribal governments located within the greater Puget Sound basin, and any consortium, of these eligible Tribes.

An Intertribal consortium must have adequate documentation of the existence of the partnership and the authorization of the member Tribes to apply for and receive assistance. Documentation that demonstrates the existence of the partnership of Indian Tribal governments may consist of Tribal council resolutions, Intertribal consortia resolutions in conjunction with a Tribal council resolution from each member Tribe, or other written certification from a duly authorized representative of each Tribal government that clearly demonstrates that a partnership of Indian Tribal governments exists. Documentation that demonstrates that member Tribes authorize the consortium to apply for and receive assistance may consist of a Tribal council resolution from each Tribe or other written certification from a duly authorized representative of each Tribal government that clearly demonstrates that the Tribe authorizes the consortium to apply for and receive the grant on behalf of the Tribe. An Intertribal consortium resolution is not adequate documentation of the member Tribes authorization of the consortium unless it includes a written certification from a duly authorized representative of each Tribal government.

The greater Puget Sound basin is defined as all watersheds draining into the U.S. waters of Puget Sound, the southern Georgia Basin and the Strait of Juan de Fuca.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

The direct beneficiary will be the entities that receive financial assistance under this program. Due to the fact that the program is designed and intended to assist in the restoration and protection of the Puget Sound estuary, the ultimate beneficiaries will be the residents of the greater Puget Sound region.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as the "Information Contact" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110

applies to this program. Applicants will be required to submit application materials as described in the Request for Proposals that will be issued under this program. The Request for Proposals will also specify the submission methods which generally include an electronic and hard copy submission option. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-110 and A-102 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreement Management Division, 1200 Pennsylvania Avenue, N.W., Mail Code 3903R, Washington, DC 20460 or through the EPA Region 10 Grants Administration web site at: <http://yosemite.epa.gov/r10/omp.nsf/webpage/>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The Region expects that its review of the applications received will be completed within 120 to 150 calendar days following the deadline for the submission of applications for each Request for Proposals issued under this program.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The Puget Sound Action Agenda Education, Outreach and Stewardship program has no statutory formula for allocating the funds. All of the grants will be for implementation projects under the Puget Sound Comprehensive Conservation Management Plan (CCMP) under CWA 320(g)(2) and 320(g)(3)(ii). There is a statutory match of 50% of the total project costs for implementation project grants under CWA 320(g)(3)(ii) and CWA Section 320 allows for an aggregate match.

For the awards to be made under the competitions conducted under this program, the Puget Sound Management Conference, represented by the Puget Sound Partnership, has agreed to provide 67% of the 50% required non federal match for successful project proposals for the 2010-2011 biennium under a cooperative agreement with EPA. Accordingly, in order to meet the match requirement for the competitive solicitations issued under this program, EPA Region 10 will require that the selected recipient provide a match amount that is equal to 33% of the 50% required non federal match. Thus, for each proposal funded under this program, the required 50% non federal match will be met. The match may be cash or in-kind consistent with the regulation governing match requirements (40 C.F.R. 31.24 or 40 C.F.R. 30.23, as applicable). The example below illustrates how this will work.

Match Example:

For an applicant requesting \$2,000,000 in federal funds under the competition, the total match required would be \$2,000,000. Under the competition, the applicant will be required to provide a match of \$660,000, or 33% of the required 50% match. The remaining \$1,340,000 (\$2,000,000 - \$660,000) of the required 50% match will be met at the aggregate level by the Puget Sound

Partnership.

Special Note: The EPA anticipates funding the award made under this program incrementally. Match requirements, and how they will be met, for the out-year increments (FFY 2011 and beyond) will be determined prior to awarding those increments. For a further description of incremental funding, please see the later sections on "Total allocations", "Obligations" and "Range and Average of Financial Assistance."

Contact the EPA Regional Office contact identified in this program description for more information.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The assistance will be awarded during Federal Fiscal Year 2010. Funds will be disbursed to the assistance recipient in accordance with the terms specified in the assistance agreement. See the following for information on how assistance is awarded/released: Assistance will be disbursed in accordance with the terms of the assistance agreement. Typically, assistance recipients draw funds at either monthly or quarterly intervals based on their incurred costs.

Reports:

No program reports are required. No cash reports are required. Progress report requirements will be a part of each assistance agreement. A schedule showing interim milestones and the outputs that will be completed by the end of the project period will also be included. Typical progress reports will discuss the progress that the assistance recipient has made on each major task and interim milestone identified in the approved statement of work. Progress reports will also discuss any difficulties or problems that the assistance recipient has encountered and how they have been or are being resolved. Other specific reporting requirements will be defined in the assistance agreement based on the statement of work described in the application. Expenditure reports will typically be required at the same intervals as progress reports. The expenditure reports will document expenditures to date, including expenditures of any matching funds, in a manner that allows the reader to confirm that matching requirements are being met and that all assistance payments (disbursements to the assistance recipient) are for costs that have been incurred in compliance with applicable cost principles. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until the expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised by an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 10 \$3,000,000; FY 11 est \$1,000,000; and FY 12 est \$1,000,000 - The region obligated \$3,000,000 from FFY 2010 funds for the initial award under this program to the Puget Sound Partnership. FY 2011 estimated obligations are \$1,000,000.

The EPA anticipates obligating an additional \$1,000,000 per year to this program and make awards in incremental funding in Federal Fiscal Years 2012, 2013 and 2014, contingent upon the availability of future appropriations, the

assistance recipient's performance and the needs of the CCMP for Puget Sound.

Range and Average of Financial Assistance:

The EPA expects to make an initial award of \$2,000,000 under this program. The resulting assistance agreement would include the potential for incremental funding of \$1,000,000 per year for up to four additional years beyond the initial funding period. This incremental funding is contingent upon the availability of future appropriations, the assistance recipient's performance and the needs of the CCMP for Puget Sound.

PROGRAM ACCOMPLISHMENTS:

REGULATIONS, GUIDELINES, AND LITERATURE:

For grants and cooperative agreements with state agencies, Tribal governments and intertribal consortia, the recipient must comply with 40 CFR Part 31 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments;" 40 CFR Part 35 "Environmental Program Grants-State, Interstate and Local Government Agencies," and OMB Circular A-87 "Cost Principles for State and Local Governments" and A-102 "Grants and Cooperative Agreements for States and Local Governments." OMB Circular A-87 has been codified at 2 CFR Part 225. EPA's requirements under OMB Circular A-102 are codified at 40 CFR Part 31. For grants and cooperative agreements with institutions of higher education and non-profit organizations, the assistance recipient must comply with 40 CFR Part 30, "Uniform Administrative Requirements for Grants and Cooperative Agreements with Institutions of Higher Education, Hospitals and other Non-Profit Organizations," 40 CFR Part 30 and OMB Circular No. A-110, "Uniform Administrative Requirements for Grants and Other Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations." OMB Circular A-110 is codified at 2 CFR Part 215. For grants and cooperative agreements with institutions of higher education, the assistance recipient must comply with OMB Circular A-21, codified at 2 CFR 220, "Cost Principles for Educational Institutions." For grants and cooperative agreements with non-profit organizations, the assistance recipient must comply with OMB Circular A-122, codified as 2 CFR Part 230, "Cost Principles for Non-Profit Organizations."

OBJECTIVES:

Puget Sound has been designated as an estuary of National Significance under section 320 of the Clean Water Act. The goal of all 28 National Estuary Programs is to attain and maintain water quality in designated estuaries that would assure protection of public water supplies and the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife that allows for recreational activities in and on the water.

The goal of the Puget Sound National Estuary Program approved Comprehensive Conservation and Management Plan (CCMP) (the 2020 Action Agenda) is to restore and maintain the Puget Sound Estuary's estuarine environment, by 2020, so that it will support balanced indigenous populations of shellfish, fish and wildlife and support the extensive list of recognized uses of Puget Sound.

In both the FFY 2009 and FFY 2010 Omnibus Appropriations Acts, Puget Sound restoration funds are provided to develop and implement programs in the Puget Sound basin that will help meet the Clean Water Act goal of protecting and maintaining the physical, chemical, and biological integrity of the basin's waters and to help minimize the adverse impacts of future development and population growth. These programs are likely to address a broad scope of threats and resource protection issues, including activities linked to nonpoint source pollution, habitat, and watershed restoration and protection work.

By 2011, EPA Region 10, working with its key state, tribal and local partners, have committed to attaining the following environmental outcomes for the Puget Sound Basin:

" 1,000 acres of shellfish bed growing areas, currently impacted by degraded or declining water quality, show improved water quality and corresponding lifting of harvest restrictions;

" 200 acres of prioritized contaminated sediments are remediated and upstream source controls are put in place;

" 3,500 acres of tidally or seasonally influenced estuarine wetlands are restored and protected;

In addition, by 2011, we are committed to protecting and improving water quality and minimizing the adverse impacts of rapid development in the Puget Sound Basin. These commitments include protecting the watersheds and waters

of Puget Sound by protecting the fundamental watershed processes that provide and create aquatic habitats and by reducing the generation and release of toxic, nutrient and pathogen pollution.

This program has the following main objectives:

First, a central component of the approved CCMP for Puget Sound is its Biennial Science Workplan which identifies some of the core scientific work that must be completed in order for the Puget Sound Management Conference's implementation efforts to succeed in the recovery and protection of the Sound. A primary objective of this program is to support the technical studies and investigations that are needed to help direct implementation priorities.

Second, by 2012, EPA and the Puget Sound Partnership will need to propose new five year strategic plan outcomes and targets for Puget Sound. The Scientific Studies and Technical Investigations sought through this program will help support identification of specific environmental outcomes and also the development of tracking and evaluation approaches for implementation activities, so that together they will contribute significantly to the restoration and protection of Puget Sound by 2020.

Funding Priority - Fiscal Year 2011: The region held three solicitations in early FFY 2011 that were funded with FFY 2010 funds. The first solicitation was for scientific and technical studies and investigations. Under that solicitation the region selected approximately 16 projects for funding. Several of those projects are being conducted by other Federal agencies under Interagency Agreements. For those projects being performed by other Federal agencies, the region intends to use some of the FFY 2011 appropriation to finance the second year of work in those studies, which would be conducted in FFY 2012.

The region also held a solicitation for agencies to serve as lead organizations for implementing major elements of the approved Comprehensive Conservation and Management Plan (CCMP) to restore the Puget Sound Estuary. Under that solicitation four awards were made to agencies of the State of Washington to serve as lead organizations for different topics. Some of the FFY 2011 appropriation will be used to incrementally fund the second phase of the work for each of those lead organization programs.

Finally, in a separate competitive solicitation, the EPA selected the Puget Sound Partnership to receive a financial assistance award to manage the implementation of the 2020 Action Agenda for Puget Sound (the CCMP). That award funded the first two years of effort for this program. Therefore, no FFY 2011 funds will be committed to this program.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The Puget Sound restoration funds were appropriated by Congress in conjunction with the Clean Water Act for development and implementation of programs that will improve water quality, air quality, and minimize the adverse impacts of rapid development in the Puget Sound Basin, including activities linked to nonpoint sources or habitat restoration projects.

The assistance offered can be used to finance scientific work identified in the Puget Sound Partnership's Biennial Science Work Plan or otherwise needed to effectively implement the Puget Sound Action Agenda. Assistance may be used to finance technical studies and investigations necessary to achieve environmental outputs and/or outcomes identified in the Action Agenda or by either the Puget Sound Partnership or other agencies within the Management Conference with implementation or tracking responsibilities.

Assistance may also be used to manage, monitor, oversee, or participate in the implementation of the 2020 Action Agenda for Puget Sound, including Tribal participation in the implementation and maintenance processes of the CCMP. Such assistance may also include managing and overseeing the implementation of the Agenda's Science Work Plan and any technical studies or investigations undertaken in support of implementation and/or further development of the Action Agenda.

Finally, if requested, the assistance may be used to finance general implementation of the 2020 Action Agenda for Puget Sound. This implementation work could either be funded directly or through a lead implementation entity which could then fund secondary implementation awards and manages progress and outcomes for a particular management issue or geographic area.

Additional information on use restrictions, if any, for this program, will be provided in each request for proposals published on the EPA Region 10 website.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Federal government agencies and Washington state government agencies are eligible to apply under this program.

Public and private institutions of higher education located in the United States are eligible to apply under this program.

Units of local government organized under Washington state law and located within the Greater Puget Sound basin are eligible to apply. Also eligible to apply are special purpose districts, as defined by Washington State law at R.C.W. 36.93.020, including but not limited to, irrigation districts, and water and sewer districts that are located in or govern land and water resources within the greater Puget Sound basin. Conservation districts located in or governing land and water resources within the greater Puget Sound Basin are also eligible to apply for assistance under this program.

Watershed planning units formed under RCW 90.82.040 and RCW 90.82.060, local management boards organized under RCW 90.88.030, salmon recovery lead entities organized pursuant to RCW 77.85.050, regional fisheries enhancement groups organized pursuant to RCW 77.95.060 and Marine Resource Committees organized pursuant to RCW 36.125.010 and RCW 36.125.020 are eligible to apply if they are located within or their jurisdictions include waters and/or lands with the Greater Puget Sound basin.

Intrastate organizations such as associations of cities, counties or conservation districts in the Greater Puget Sound basin are also eligible to apply.

Nonprofit nongovernmental entities are also eligible to apply.

Intrastate organizations such as associations of cities, counties or conservation districts in the Greater Puget Sound basin are also eligible to apply.

Federally recognized Indian Tribes located within the greater Puget Sound basin and any consortium of these eligible tribes.

An Intertribal consortium must have adequate documentation of the existence of the partnership and the authorization of the member Tribes to apply for and receive assistance. Documentation that demonstrates the existence of the partnership of Indian Tribal governments may consist of Tribal council resolutions, Intertribal consortia resolutions in conjunction with a Tribal council resolution from each member Tribe, or other written certification from a duly authorized representative of each Tribal government that clearly demonstrates that a partnership of Indian Tribal governments exists. Documentation that demonstrates that member Tribes authorize the consortium to apply for and receive assistance may consist of a Tribal council resolution from each Tribe or

other written certification from a duly authorized representative of each Tribal government that clearly demonstrates that the Tribe authorizes the consortium to apply for and receive the grant on behalf of the Tribe. An Intertribal consortium resolution is not adequate documentation of the member Tribes authorization of the consortium unless it includes a written certification from a duly authorized representative of each Tribal government.

The greater Puget Sound basin is defined as all watersheds draining to the U.S. waters of Puget Sound, southern Georgia Basin, and the Strait of Juan de Fuca.

- For profit business entities, private individuals and families are not eligible to apply. However, all of these types of entities could partner with an eligible applicant as a subawardee.

- For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

The direct beneficiaries would be the entities receiving the assistance. Due to the fact that the program is designed and intended to assist in the restoration and protection of the Puget Sound estuary, the ultimate beneficiaries will be the residents of the greater Puget Sound region.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. For competitive awards, applicants will be required to submit application materials as described in the Request For Proposals. The Request For Proposals will also specify the submission methods which generally include an electronic and hard copy submission option. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-110 and A-102 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreement Management Division, 1200 Pennsylvania Avenue, N.W., Mail Code 3903R, Washington, DC 20460 or through the EPA Region 10 Grants Administration web site at: <http://yosemite.epa.gov/r10/omp.nsf/webpage/>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The Region expects that its review of the applications received in response to competitive solicitations will be completed within 120 to 150 calendar days following the deadline for the submission of applications for each Request for Proposals issued under this program.

Appeals:

Assistance agreement competition-related disputes will be resolved in

accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Clean Water Act 104(a) and 104(b) have no statutory formula for match; that is, no match is required by the statute. Therefore, for awards under this program to be made under these authorities, the EPA will not require any non-federal match by any successful applicant.

If awards are made for general projects that implement the CCMP or that exercise management and oversight over the implementation of the CCMP, there will be a match requirement pursuant to CWA 320.

For those projects, under CWA 320(g)(2) and 320(g)(3)(ii), there is a statutory match of 50% of the total project costs for implementation project grants under CWA 320(g)(3)(ii). CWA 320 allows for an aggregate match; that is, the match requirement for federal financial assistance for national estuary program projects applies to the estuary's Management Conference as a whole. Thus, any spending of nonfederal funds by the Management Conference within a fiscal year can be used as match for federal financial assistance.

The EPA expects to structure the RFPs issued under this program so that applicants can identify expenditures of nonfederal funds on projects that implement the CCMP by themselves as well as by other Management Conference members as proposed nonfederal match for the financial assistance being requested.

Contact the EPA Regional Office contact identified in this program description for more information.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The assistance will be awarded during FY 2010 and FY 2011. Funds will be disbursed to individual assistance recipients in accordance with the terms specified in the assistance agreement. See the following for information on how assistance is awarded/released: Assistance will be disbursed in accordance with the terms specified in the assistance agreement. Typically, assistance recipients draw funds at either monthly or quarterly intervals based on their incurred costs.

Reports:

No program reports are required. No cash reports are required. Progress report requirements will be a part of each assistance agreement. A schedule of interim milestones and the outputs that will be completed by the end of the project period will also be included. Typical progress reports will discuss the progress that has been made on each major task and on each interim milestone identified in the approved statement of work. Progress reports will also discuss any difficulties or problems that have been encountered and how they have been or are being resolved. Other specific reporting requirements will be defined in the assistance agreement based on the statement of work described in the application. Expenditure reports will typically be required at the same time intervals as progress reports. The expenditure reports will document expenditures to date in a manner that allows the report user to confirm that all assistance payments (disbursements to assistance recipients) are for costs that have been incurred in compliance with applicable costs principles and, for assistance agreements in which a matching contribution is required, the reports will also document expenditures of that matching contribution. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit

conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised by an audit, related records shall be maintained until the matter is completely resolved.

Account Identification:

Obligations:

(Project Grants) FY 10 \$32,000,000; FY 11 est \$21,920,000; and FY 12 Estimate Not Available - EPA awarded approximately \$9.0 million for scientific studies and technical investigations in FFY 2011 from FFY 2010 funds based on one competitive solicitation. The projects are identified on an annotated list at this web page:

<http://www.epa.gov/pugetsound/funding/index.html#science>

The Region also awarded nearly \$4.0 million in FFY 2010 funds to the University of Washington's Puget Sound Institute pursuant to Congressional direction in the FFY 2010 appropriation.

The Region awarded \$6,000,000 in FFY 2010 funds to the Puget Sound Partnership to manage the implementation of the Action Agenda, pursuant to Congressional direction in the EPA's FFY 2010 appropriation.

The region awarded approximately \$3.1 million each in four awards to three state agencies to lead Puget Sound ecosystem recovery efforts. Two of these awards were to the Washington State Department of Ecology to lead efforts for both "Toxics and Nutrients" and Watershed Protection. A third award was to the Washington State Department of Health for pathogen control. The fourth award was to the Washington State Department of Fish and Wildlife for marine and nearshore habitat protection.

The region will be awarding approximately \$5.5 million in incremental funding in FFY 2011 funds to each of these lead organizations in FFY 2011. Additional incremental awards in FFY 2012 are dependent on the appropriations the EPA receives for FFY 2012.

Approximately \$32,000,000 was awarded in FFY 2010 funds under this program. In FFY 2011, approximately \$21,920,000 is being awarded to the four state Puget Sound Lead Organizations. FFY 2012 is unknown.

Range and Average of Financial Assistance:

The EPA expects to make awards for scientific and technical studies in the range of \$200,000 - \$700,000. Awards for implementation assistance and for managing and monitoring the implementation of the CCMP could range from \$200,000 to \$10,000,000 each. Some of these awards may be incrementally funded with appropriations from future fiscal years.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: All of the awards for the assistance under this program were made in FFY 2011. Consequently, there are no accomplishments to report for FFY 2010. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

For grants and cooperative agreements with State agencies, units of local government (including special purpose districts), tribal governments and intertribal organizations, assistance recipients must comply with 40 CFR Part 31 "Uniform Administrative Requirements for Grants and Cooperative

Agreements to State and Local Governments", 40 CFR Part 35 "Environmental Program Grants-State, Interstate and Local Government Agencies", and OMB Circular Nos. A-87 "Cost Principles for State and Local Governments" and A-102 "Grants and Cooperative Agreements for States and Local Governments." OMB Circular A-87 has been codified as 2 CFR Part 225. EPA's requirements under OMB Circular A-102 are codified at 40 CFR Part 31. For grants and cooperative agreements with institutions of higher education and non-profit organizations, the assistance recipient must comply with 40 CFR Part 30, "Uniform Administrative Requirements for Grants and Cooperative Agreements with Institutions of Higher Education, Hospitals and other Non-Profit Organizations," 40 CFR Part 30 and OMB Circular No. A-110, "Uniform Administrative Requirements for Grants and Other Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations." OMB Circular A-110 is codified at 2 CFR Part 215. For grants and cooperative agreements with institutions of higher education, the assistance recipient must comply with OMB Circular A-21, codified at 2 CFR 220, "Cost Principles for Educational Institutions." For grants and cooperative agreements with non-profit organizations, the assistance recipient must comply with OMB Circular A-122, codified as 2 CFR Part 230, "Cost Principles for Non-Profit Organizations." Additionally, any awards made under Clean Water Act Section 104 authorities would be subject to the EPA regulations on Research and Demonstration grants at 40 CFR Part 40.

66.124 COASTAL WETLANDS PLANNING PROTECTION AND RESTORATION ACT

CWPPRA (The Breaux Act)

FEDERAL AGENCY:

Region 6, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 92-500, 33 U.S.C 1254(b)(3).

OBJECTIVES:

To assist the State, local government, college or university in planning and implementing projects that create, protect, restore and enhance wetlands in

coastal Louisiana.

Funding Priority - Fiscal Year 2011: EPA supports projects that protect, restore, and enhance coastal wetlands ecosystems through strategic "natural" reintroduction of river water, barrier island/shoreline restoration and application of innovative technologies such as pipeline deliver of new sediment.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds are to be used to protect, restore and enhance coastal wetlands ecosystems through strategic "natural" reintroduction of river water, barrier island/shoreline restoration and application of innovative technologies such as pipeline delivery of new sediment. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible applicants for assistance include State and local governments, including their universities and colleges.

Beneficiary Eligibility:

State and local governments, including their universities and colleges involved in administering coastal wetlands protection, restoration and/or management programs or programs related to or complement coastal wetlands protection programs.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and OMB Circular No. A-21 for colleges and universities. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination with the appropriate office is encouraged. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Completed applications should be submitted to the appropriate EPA Regional Office contact.

Award Procedure:

Applications are evaluated by the appropriate EPA office and are subject to review for technical merit, soundness of design, and reasonableness of proposed costs. Approved projects are awarded by the Regional Administrator.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grant are usually approved within five months of receipt of a complete application.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: CWPPRA projects require a 15 percent match of the State or local government. Colleges or Universities awarded a grant in support of a CWPPRA project requires a 5% match.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: Assistance disbursement will be determined at the time of award.

Reports:

No program reports are required. The recipient will be required to submit quarterly cash reports to the EPA Project Officer. The recipient will be required to submit quarterly progress reports to the EPA Project Officer. The recipient will be required to submit quarterly expenditure reports to the EPA Project Officer. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. 66.125 LAKE PONTCHARTRAIN BASIN RESTORATION PROGRAM (PRP)

Lake Pontchartrain Restoration Program

FEDERAL AGENCY:

Region 6, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 121; Lake Pontchartrain Basin Restoration Act of 2000.

OBJECTIVES:

The purpose of the program shall be to restore the ecological health of the Basin by developing and funding restoration projects and related scientific and public education projects.

Funding Priority - Fiscal Year 2011: The program will work to restore the ecological health of the Lake Pontchartrain Basin. In FY 2011, EPA will invest \$1,100,000 in the Lake Pontchartrain Basin Program for the following activities:

- o Completing plans and studies as identified in the Lake Pontchartrain Basin Program Comprehensive Management Plan (LPBCMP) which supports the following goals:
- o Planning and design of consolidated wastewater treatment systems which support the Agency's Sustainable Infrastructure goal;
- o Repair and replacement studies to improve existing wastewater systems; and
- o Investigation and design of storm water management systems.
- o Conducting outreach and public education projects that address the goals of the LPBCMP, such as:
- o Improving the management of animal waste lagoons by educating and assisting the agricultural community on lagoon maintenance techniques;
- o Protecting and restoring critical habitats and encouraging sustainable growth by providing information and guidance on habitat protection and green development techniques; and
- o Reducing pollution at its source.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Administrator may make grants (1) for restoration projects and studies recommended by a management conference convened for the basin under section 320, and (2) for public education projects recommended by the management conference.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Matching Requirements: Percent: 5%. Regional policy requires a 5% match.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: Assistance disbursement will be determined at the time of award.

Reports:

Program report information is included in the semi-annual reports submitted to the Region 6 Project Officer. No cash reports are required. The recipient will be required to submit semi-annual progress reports to the EPA Region 6 Project Officer. The recipient will include expenditure reports in the semi-annual reports submitted to the EPA Region 6 Project Officer. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Obligations:

(Cooperative Agreements) FY 10 \$1,122,800; FY 11 est \$1,388,200; and FY 12 est \$955,000

Range and Average of Financial Assistance:

Since the inception of the program in 2002, the funds have ranged from a high of \$4,000,000 to a low of \$950,000 in FY 2008. The award for FY 2010 was \$1,122,800 and the anticipated award for FY 11 is \$1,100,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Activities funded with FY 2010 funds include: monitoring a watershed, providing assistance to communities on sewerage issues, assisting with habitat preservation/access/outreach, assisting with coastal sustainability, protect an interior shoreline marsh area, and drafting design plans and specifications to restore a functional wetland hydrology, while considering the water quality benefits of routing the Galvez outfall storm water outfall through the wetland. Fiscal Year 2011: The Pontchartrain Basin Restoration Program plans to fund 10 projects. Fiscal Year 2012: No Current Data Available

66.120 Puget Sound Watershed Management Assistance ; 66.437 Long Island Sound Program ; 66.456 National Estuary Program; 66.475 Gulf of Mexico Program; 66.481 Lake Champlain Basin Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: The funded projects will focus on the reduction or elimination of sewerage related pollution and provide education and outreach to improve water quality in the Pontchartrain Basin. Projects funded with the \$1,122,800 include water quality monitoring to determine the health of the waters of the watershed; protection of an interior shoreline marsh and maintain and address the problem of migrating oil; and analysis and design of coastal shoreline protection. Fiscal Year 2011: Funds not yet awarded. We anticipate that the funds will be used to restore the ecological health of the Lake Pontchartrain Basin by using the \$1,100,000 in grant funds from EPA in the Lake Pontchartrain Basin Program for the following activities:

- o Completing plans and studies as identified in the Lake Pontchartrain Basin Program Comprehensive Management Plan (LPBCMP) which supports the following goals:
- o Planning and design of consolidated wastewater treatment systems which support the Agency's Sustainable Infrastructure goal;
- o Repair and replacement studies to improve existing wastewater systems; and
- o Investigation and design of storm water management systems.
- o Conducting outreach and public education projects that address the goals of the LPBCMP, such as:
- o Improving the management of animal waste lagoons by educating and assisting the agricultural community on lagoon maintenance techniques;
- o Protecting and restoring critical habitats and encouraging sustainable growth by providing information and guidance on habitat protection and green development techniques; and
- o Reducing pollution at its source. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

PRP projects to be funded are selected through an annual, publicly-vetted process with the selection of project made by the PRP Executive committee and ultimately approved by a internal regional EPA review.

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.126 THE SAN FRANCISCO BAY WATER QUALITY IMPROVEMENT FUND

SF Bay Fund

FEDERAL AGENCY:

Region 9, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 320, 33 U.S.C 1330.

OBJECTIVES:

The goals of the SF Bay Fund are to protect and restore the water quality of the San Francisco Bay and its watersheds through comprehensive watershed management. Funded projects will achieve significant improvement in water quality and attainment of beneficial uses.

Funding Priority - Fiscal Year 2011: Funding priorities for FY11 are the same as previous fiscal year priorities.

-Protecting and restoring habitat including riparian corridors, floodplains, wetlands, and the Bay.

-Reducing polluted run-off from urban development and agriculture.

-Implementing TMDLs and watershed plans to restore impaired waterbodies.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Projects must demonstrate consistency with the San Francisco Estuary Partnership's Comprehensive Conservation and Management Plan (CCMP). Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official Government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible applicants: State, local government agencies, districts, and councils; regional water pollution control agencies and entities; State coastal zone management agencies; and public and private universities and colleges, public or private non-governmental, non-profit institutions are eligible to apply, unless restricted by the authorizing statutes. Non-profit organizations must have documentation of non-profit status from the U.S. Internal Revenue Service or their state of incorporation, except that non-profits organizations as defined in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying as defined in Section 3 of the Lobbying Disclosure Act 1995 or superseding legislation are ineligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

The outcomes from the SF Bay Fund will ultimately benefit the urban resident and business populations of nine county San Francisco Bay Area, as well as the State of California in general.

Credentials/Documentation:

Non-profit organizations must have documentation of non-profit status from the U.S. Internal Revenue Service or their state of incorporation. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days from receipt of final application, through selection and notification, and development and approval of work plan, to award of funds.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The San Francisco Bay language in the EPM account modifies the CWA section 320 requirement of a 50 percent match for implementation projects to a match of no less than 25 percent.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements generally fund projects for 3-4 years with a maximum project period of five years. Funds are issued electronically through automated funds transfer. Method of awarding/releasing assistance: lump sum. See the following for information on how assistance is awarded/released: Funds are issued electronically through automated funds transfer. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. Progress reports are required in accordance with 40 CFR Part 30 and 31. Reporting frequency may be specified in the terms and conditions of the award. No cash reports are required. EPA may include reporting requirements in the terms and conditions of the assistance agreements, which may require quarterly, interim, and final performance reports, and financial, equipment, and inventory reports. Quarterly progress reports are expected to be required for large-scale projects of long duration sought by this grant fund. The Federal Financial Status Reports must be submitted to EPA in accordance with 40 CFR Part 30 and 31, and terms and conditions of the award. Expenditure Reports by the grantee are required to submit for reimbursement. Performance monitoring will be required in the form of grantee reports on outputs and outcomes of their funded projects.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must demonstrate financial management capability, keep financial

records including documentation for entries on accounting and for any changes in grant requirements, and make records available to personnel authorized to examine assistance recipients' records. Recipients must maintain all records for a minimum of three years from the date of submission of the final report and until all questions regarding the assistance agreement, such as those arising from audits, are resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 10 \$7,000,000; FY 11 est \$5,333,000; and FY 12 est \$5,000,000

Range and Average of Financial Assistance:

Projects funded from the SF Bay Fund range from a low of \$500,000 to a high of \$5 mil. The average amount of awards is approximately \$3mil.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: EPA received seven proposals and awarded 3 grants for the following amounts: \$5mil, \$3.6mil, \$1.2mil. The following are the project outputs and outcomes from the 2010 fiscal year:

Project Element 1: Coordinated Wetlands & Watershed Restoration**Accomplishments**

- More than 150 net acres of non-native Spartina were treated in tidal wetlands.

- Consultations with landowners in Alameda, Contra Costa, and Marin counties on creekside erosion.

- Certifications for the Frost Water Conservation BMPs in Napa County. Twenty sites were certified representing 4866.02 acres total.

Project Element 2: Climate Change: Analysis & Monitoring**Accomplishments**

- Completed "Effects of Wetland Restoration on Mercury Bioaccumulation", the waterbird egg component for the Salt Pond Restoration Project.

Project Element 3: Green Infill for Stormwater--Low Impact Development**Accomplishments**

- The San Francisco Newcomb Ave design is at 100%.

- Completed case studies on plastic bags, polystyrene, car pollutants, universal waste, and dental amalgam.

Project Element 4: Estuary 2100 Public Outreach Campaign**Accomplishments**

- Completed the Green Streets tour flyer and packet of outreach materials.

- Results from a green parking lot demonstration project show pollutant uptake.

- Wrote & produced podcasts on green streets-related topics. Fiscal Year 2011: In response to an October 2010 Request for Proposals, EPA received 24 proposals requesting \$24,810,412 for an available \$1.8 million of FY2010 funds. EPA is awarding three new grants under the SFBWQIF totaling \$1.8 million. With these new projects underway, the SFBWQIF will be supporting 31 projects with 40 partners, and leveraging almost \$19 million. The three new projects will collectively restore 130 acres of tidal wetlands in the South Bay, improve water quality in Coyote Creek by addressing trash hotspot sources, and restore almost a mile of the Napa River's eroding riverbank identified in its sediment Total Maximum Daily Load (TMDL) implementation plan. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Recipients must comply with 40 CFR Part 30 for universities and nonprofit organizations and Part 31 for states, tribes, and local governments. The recipient must comply with the applicable cost principles under 2 CFR Part 225 (OMB Circular A-87) for state, tribal and local governments and 2 CFR 220 (OMB Circular A-21) for universities and 2 CFR Part 230 (OMB Circular A-122) for nonprofit organizations.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: The following project types have been funded under the San Francisco Bay Water Quality Improvement Fund (SF Bay Fund).

1) Wetland and Watershed Restoration, including removal of mercury laden sediment from the Guadalupe watershed, identification and removal of other pollutants in impaired waterbodies, restoration of creek banks to reduce stream sedimentation on privately owned lands, focused efforts on invasive plant and animal eradication, and restoration of tidal wetlands.

2) Habitat adaptation planning and implementation based on current state of knowledge on the effects of climate change.

3) Improving water quality in urban stormwater and agricultural runoff through the implementation Low Impact Development (LID) methods, especially on a regional scale. Fiscal Year 2011: South Bay Salt Pond Project- will restore a former salt pond to 130 acres of tidal wetlands in the South Bay

Coyote Creek Trash Reduction Project- will improve water quality in Coyote Creek by addressing trash hotspot sources and illegal dumping with community partners

Napa River Sediment Reduction Project- will restore almost a mile of the Napa River's eroding riverbank at the Rutherford Reach, an identified priority project in the sediment Total Maximum Daily Load (TMDL) implementation plan.
Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.127 SOUTHEASTERN U.S. REGIONAL TARGETED WATERSHED INITIATIVE

FEDERAL AGENCY:

Region 4, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 95-217, 33 U.S.C 1251.

OBJECTIVES:

To support the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the

causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution.

Funding Priority - Fiscal Year 2011: Funding priorities include, but are not limited to training, surveys, studies, investigations, and demonstration projects to support water quality improvement, watershed planning and management, non-point source planning, wetlands protection, coastal and estuarine planning, treatment technologies, water efficiency, and environmental management systems. The nominations selected to receive Southeastern U.S. Regional Targeted Watersheds Initiative funding will be for studies of approaches that go beyond implementing separate, detached activities and will, instead, focus on the effectiveness of an integrated ecosystem-based approach to conservation and restoration throughout a watershed. The selected nominations will include water quality and ecosystem monitoring and evaluation to provide quantitative data to determine the effectiveness of addressing water quality issues at the watershed level. The Initiative will support studies of coalition-based strategies for activities, such as attaining water quality standards, protecting and restoring the natural and beneficial uses of flood plains, and, in general, improving water resources on a watershed level.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs in approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations. The funds will support conducting and promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution. EPA has chosen to declare certain projects or activities ineligible for funding. These include activities required or regulated under the CWA. For example, activities for the development of Total Maximum Daily Loads (TMDLs) and Phase II Stormwater projects will not be funded. Activities implementing the non-regulatory component of TMDLs (e.g., the elements of a watershed plan that address non-point source pollution), however, are eligible. Specific uses and restrictions on funds will be described in detail in the competitive announcements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States, local governments, Indian Tribes; public and private universities and colleges; and public or private nonprofit institutions. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, Indian Tribes, universities and colleges, and other public and private nonprofit institutions.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that

will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Regional review will typically be completed within approximately 120 - 180 days following the deadline for submissions.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Applicants are required to demonstrate a minimum non-federal match of 25 percent of the total cost of the project or projects. Match may be cash or in-kind consistent with the regulation governing match requirements (40 CFR 31.24 or 40 CFR 30.23). Tribes and tribal watershed groups may be exempt from this match requirement if they are constrained to such an extent that fulfilling the match requirement would impose undue economic hardship. This program does not have MOE requirements. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA may negotiate the project period with each applicant based on project requirements. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: Other.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program.

Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (non-profits and universities) or 40 CFR Part 31 (governmental units) are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

66.202 CONGRESSIONALLY MANDATED PROJECTS

(CONGRESSIONAL EARMARKS)

FEDERAL AGENCY:

Office of the Chief Financial Officer, Environmental Protection Agency

AUTHORIZATION:

Executive Order Executive Order 13457 "Protecting American Taxpayers from Government Spending of Wasteful Earmarks".

OBJECTIVES:

To implement special Congressionally directed projects or programs identified in EPA's annual appropriations act, committee reports incorporated by reference into the annual appropriation act, and other statutes mandating that EPA provide financial assistance agreements to designated recipients for projects or programs. These assistance agreements support special projects earmarked by Congress for specific recipients which are not requested by EPA in its annual budget request to Congress. The projects may be associated with: (1) various environmental requirements (e.g., wastewater treatment, drinking water treatment); (2) identifying, developing, and/or demonstrating necessary pollution control technologies and techniques to prevent, reduce, and eliminate pollution; or (3) evaluating the economic and social consequences of alternative environmental pollution strategies, technologies, or mechanisms for use by those in economic, social, governmental, and environmental management positions. Funding priorities are to award these assistance agreements to the designated recipients as quickly as possible within statutory and regulatory requirements.

Funding Priority - Fiscal Year 2011: There are no funding priorities for Fiscal Year 2011 since no appropriated funds were enacted for Congressionally designated projects and programs.

Funding Priority - Fiscal Year 2012: Funding priorities for Fiscal Year 2012 cannot be made until the Fiscal Year 2012 Budget is enacted and the Congressionally designated projects and programs are identified.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support specific projects or programs specified by Congress for designated recipients. Allowable direct and indirect costs are included, in accordance with established EPA policies and requirements for assistance agreements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible applicants are specified in the statute authorizing the earmark. Examples of recipients that may receive assistance under this program include local, state, intrastate, interstate, U.S. territories or possessions, public or nonprofit institutions/organizations, public/private private nonprofit institutions/organizations, quasi-public nonprofit institutions/organizations, institutions of higher education, Federally Recognized Indian Tribal Governments, Native American Organizations, and international organizations.

Beneficiary Eligibility:

Beneficiaries vary with the project Congress has directed EPA to fund. For example, an earmark for a wastewater treatment plant or sewer system would benefit the community in which the project is constructed. An earmark for a training project would benefit the individuals receiving the training under the assistance agreement.

Credentials/Documentation:

EPA may ask principle investigators for earmarked research projects to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to awards under this program description, EPA will generally specify the nature of any pre-application/pre-proposal assistance. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

EPA will evaluate each application to determine (a) the adequacy of the proposed project to meet the specified purpose of the Congressionally mandated project and compliance with other applicable laws. EPA's R&D Office conducts a peer review of all applications by outside experts. EPA will also review the application in relation to EPA's general grant regulations and OMB guidance.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new application which will be reviewed in the same manner as the original application. EPA may incrementally fund grants and cooperative agreements depending on the nature of the project and the terms of the earmark.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has no statutory formula for distribution of Federal funds, therefore, matching requirements are defined in each Appropriations Act or other statute authorizing the earmark. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the assistance agreement shall be determined at time of award. The length and time phasing of the assistance agreement will be determined by the duration of the availability of appropriated funds. See the following for information on how assistance is awarded/released: The terms of the assistance agreement shall be determined at time of award. The length and time phasing of the assistance agreement will be determined by the duration of the availability of appropriated funds.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require annual, quarterly, interim, and/or progress reports, final results reports, expenditure/financial reports, equipment reports, and invention reports. Reporting requirements are also identified in the Grant Regulations – 40

CFR Part 30 and 40 CFR Part 31. EPA assistance agreements may, in the terms and conditions, require annual, quarterly, interim, and/or final program reports. No cash reports are required. EPA assistance agreements may, in the terms and conditions, require annual, quarterly, interim, and/or final progress reports. EPA assistance agreements may, in the terms and conditions, require annual, quarterly, interim, and/or final expenditure/financial reports. Performance monitoring of Congressionally mandated special project or program assistance agreements are required per EPA administrative grant orders.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits, remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Range and Average of Financial Assistance:

FY 2010 - Range: \$25,000 - \$10,000,000; Average: \$867,822

FY 2011 - No range since no appropriated funds were enacted for Congressionally designated projects and programs.

FY 2012 - To be determined.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Congress designated 332 earmark projects in FY 2010. Examples of the accomplishments made by such funding are outlined below:

A \$220,000 grant for sewer collection system upgrades);

A \$500,000 grant for the Lawton Industrial Park Expansion for Water and Sewer Line Extensions, and;

A \$800,000 grant for water and wastewater infrastructure improvements. Fiscal Year 2011: No program accomplishments are planned in Fiscal Year 2011 since no appropriated funds were enacted for Congressionally designated projects and programs. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Congressional mandated earmarks are subject to EPA's General Grant Regulations 40 CFR Part 30 and 40 CFR Part 31. Costs will be determined in accordance with OMB Circular No. A-87 for state and local governments and Indian Tribes, OMB Circular No. A-21 for educational institutions, and OMB Circular No. A-122 for nonprofit institutions.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Congressionally mandated special projects or programs vary greatly. General types of projects that Congress has provided to the EPA to allocate funds for include the following:

- Research studies for sewer overflow improvements and storm-water management systems;

- Funds for ecosystem and environmental policy research;

- Funding assistance for the construction or improvement of drinking water and wastewater facilities;

- Funding assistance to replace water aging water infrastructure;

- Funding for watershed restoration. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Addresses the specific purpose designated by the Congressional earmark in EPA's annual Appropriations Act or other statute. All Congressionally mandated earmarks must meet the following criteria: (a) address the specified

Congressionally directed support or action described in the annual appropriations act or committee report incorporated by reference into the appropriations act or other statutes mandating that EPA provide financial assistance agreements to designated recipients for projects or programs; and (b) have an approved workplan and processed assistance agreement before the appropriated funds expire.

66.203 ENVIRONMENTAL FINANCE CENTER GRANTS

(EFC Grant Program)

FEDERAL AGENCY:

Office of the Chief Financial Officer, Environmental Protection Agency

AUTHORIZATION:

Solid Waste Disposal Act, Section 8001(a); Clean Water Act, Section 104(b)(3); Safe Drinking Water Act, Section 1442(b)(3)&1420; Marine Protection, Research and Sanctuaries Act, Section 203; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Toxics Substances Control Act, Section 10; Clean Air Act, Section 103(b)(3).

OBJECTIVES:

The Environmental Finance Center Grant Program provides funding to support Environmental Finance Centers (EFCs) that provide multi-media environmental finance expertise and outreach to the regulated communities. The EFCs work with state and tribal governments, local governments and the private sector to address the growing costs of environmental protection. The EFCs provide finance-related training, education, and analytical studies to help these regulated parties develop solutions to the difficult "how-to-pay" issues associated with meeting environmental standards.

The EFCs educate state, tribal, and local governments and businesses on lowering environmental costs, increasing environmental investments, improving financial capacity, encouraging full cost pricing, and identifying and evaluating environmental financing options. A central goal of the EFCs is to create sustainable systems. Sustainable systems have the financial, technical, and institutional resources and capabilities to operate in compliance with environmental requirements and in conformance with accepted environmental practices over the long term. EFCs focus on helping these smaller parties find ways to obtain financing for their environmental protection responsibilities.

Funding Priorities - Fiscal Year 2011: providing education, training, technical assistance, and analytic support and outreach to state, tribal and local officials and businesses on: (1) financial management software that help communities (particularly small, rural, disadvantaged, and tribal ones) to develop and maintain sustainable water systems; (2) cleaner/greener business practices and economies that lead to reductions in use and exposure to toxic chemicals, improved energy efficiencies and conservation, and cleaner power sources; (3) the environmental, financial, and land use information needed to ensure that communities can develop and implement long-term source water protection plans and strategies; (4) methods for identifying green infrastructure projects and for developing sound business cases in support of these green approaches; (5) the development and use of rate setting, capital planning, capacity assessment, asset management, and other financial analyses needed for sound environmental utility management; (6) tribal water operator certification requirements; (7) energy efficiency software, tools and information; (8) community-based environmental certification programs and activities integrating planning, sustainability, citizen participation and partnerships, green design, land use and transportation, natural resources, agricultural viability, water quality, finance, health and wellness, waste reduction and management, and many other environmental areas; (9) smart growth and green building practices; (10) climate change impacts and the decision tools and financial strategies required for communities to adapt to climate change; and (11) environmental impacts and strategies for environmentally sustainable transportation-oriented development.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to recipients to support their allowable direct costs incident to approved environmental financial technical

assistance and outreach work plus allowable indirect costs, in accordance with established EPA policies and regulations. EPA provides incremental funding for these grants or cooperative agreements on an annual basis. As part of EPA's substantial involvement, the appropriate EPA regional and/or headquarters office reviews and approves each annual project phase consistent with the scope of work for the grant or cooperative agreement.

As provided in 2 CFR Part 220, recipients of grants or cooperative agreements under this program may not charge fundraising costs to their grants or cooperative agreements. Funding for research under this program does not include research within the purview of EPA's Office of Research and Development. Under this program, EPA does not fund research, training, and technical assistance to facilitate the inventory of brownfields sites, site assessments, remediation of brownfields sites, community involvement, and site preparation. These activities are covered by the EPA grant program established at CFDA 66.814.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodat.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is available to public and private non-profit universities and colleges and to nonprofit organizations. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States, tribes, local governments, businesses and community organizations and the general public are the beneficiaries of this program.

Credentials/Documentation:

Applicants must demonstrate that they meet eligibility requirements. In addition, EPA may request applicants to demonstrate that they have the appropriate background, academic training, experience in the field, and necessary staff and equipment to carry out the project work. The Agency may also ask principal analysts named in applicants' proposals to provide curriculum vitae and other documentation of relevant experience. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. If the applicant does not know who their Single Point of Contact is, the applicant may call the appropriate EPA regional contact listed in the Information Contacts section, or call the EPA Headquarters Grant Policy Information and Training Branch at (202) 564-5325. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits

must be submitted to the U.S. Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, Washington, DC 20460 or to the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, announcements for competitive funding opportunities will specify application procedures. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Annually subject to the budget and project periods specified in the awards.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: This program does not have a regulatory formula or matching requirement. The Agency may, as a matter of policy, require cost sharing when such a requirement is specified in the announcement of the competitive funding opportunity. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. The project period for the grants or cooperative agreements may range up to seven years. EPA will provide incremental funding for the cooperative agreements each fiscal year (on a 12-month basis) over the duration of the grants or cooperative agreements. See the following for information on how assistance is awarded/released: Annual lump sum by electronic funds transfer.

Reports:

A final program or technical report shall be completed within 90 calendar days of the completion of the period of performance for each award. No cash reports are required. Quarterly or semiannual progress reports may be required as determined by EPA after the award. Quarterly or semiannual expenditure reports may be required as determined by EPA after the award. Quarterly or semiannual performance monitoring may be required as determined by EPA after the award.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (nonprofits and universities) apply. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those brought up in an audit, related records must be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 10 \$2,000,000; FY 11 est \$2,000,000; and FY 12 est \$2,000,000

Range and Average of Financial Assistance:

Range: \$100,000 to \$190,000/fiscal year

Average: Approximately \$181,818/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: EPA made competitive Environmental Finance Center (EFC) Grants awards to ten universities in FY 2010. These ten EFCs are innovative, neutral and multi-disciplinary technical assistance and outreach agents that work at the local, state, regional and national levels. They have specialized expertise in finance, information technology transfer, and all environmental media. In FY 2010, they developed numerous successful partnerships and connections with regulated parties, regulators, other technical assistance providers, and non-profit organizations throughout the U.S. and beyond. The EFCs developed and implemented innovative financing/outreach tools and training courses, and implemented numerous successful projects in all ten EPA regions. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

These grants and cooperative agreements are subject to EPA's General Grant regulations (40 CFR Part 30, "Grants and Agreements with Institutions of Higher Education"). Costs for educational institutions will be determined in accordance with 2 CFR Part 220 (OMB Circular No. A-21). Information pertinent to the EFC program can be found at www.epa.gov/efinpage/efcn.htm. Written materials on the program can be obtained by calling the EFC National Coordinator at (202) 564-5001.

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the announcement of the competitive funding opportunity.

66.305 COMPLIANCE ASSISTANCE SUPPORT FOR SERVICES TO THE REGULATED COMMUNITY AND OTHER ASSISTANCE PROVIDERS

(Compliance Assistance Centers)

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act of 1970, Section 103, Public Law 91-604, 42 U.S.C 7403; Resource Conservation and Recovery Act of 1976, Section 8001, Public Law 94-580, 42 U.S.C 6981; Clean Water Act of 1972, Section 104, Public Law 92-500, 33 U.S.C 1254.

OBJECTIVES:

The EPA has sponsored partnerships with industry, academic institutions, environmental groups, and other agencies to launch sector-specific Compliance Assistance Centers. Each Compliance Assistance Center addresses real world issues in language that is used by the regulated entities.

This program's objective is to provide financial assistance to private nonprofit institutions, universities, and public agencies to develop and maintain Compliance Assistance Centers to improve environmental compliance within an identified industrial/government sector or environmental topic.

Funding Priority - Fiscal Year 2011: Funding will support the web-based Compliance Assistance Centers. Through Internet Websites, telephone assistance lines, e-mail discussion groups and more, the Centers will help businesses, local governments, and federal facilities understand federal environmental requirements and save money through pollution prevention techniques. Additionally, the Centers will 1) support and continue to develop the State Resource Locators to provide easy access to state-specific regulations and resources for a variety of topics (e.g., universal waste, stormwater, asbestos.); and 2) develop sector-and/or topic-specific entry pages providing quick access to existing environmental assistance content. The entry pages will serve as portals to relevant information developed by the Centers and other organizations as appropriate (e.g. EPA).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

FY 10 funds will support ongoing Center work, with an emphasis on maintaining, updating and expanding the existing Center Websites. It is expected that common communications channels used by the industry/government will continue to quickly distribute information to the targeted audience. Additionally, funds will support the development of sector-specific entry pages providing quick access to existing environmental assistance content. The sector entry pages will serve as portals to relevant information developed by the Centers and other organizations as appropriate (e.g. EPA). Individual sector entry pages will use navigation structures specific to the sector thereby providing easy access to relevant environmental content. EPA funding must be used only for activities specified in the approved scope of work; discretionary funding will not be provided.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Applicants must be nonprofit organizations as that term is defined in Section

4(6) of the Federal Financial Assistance Management Improvement Act of 1999, Public Law 96-107, 31 U.S.C. 6101 Note. Colleges, universities, and community colleges are eligible to apply. EPA will also accept applications from state, tribal and local governments. However, nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Additionally, for certain funding opportunities under this CFDA, applicants may have to demonstrate how they meet the following factors for threshold eligibility purposes: 1) That they have an indirect cost rate that has been approved or is pending approval by a federal agency or has a cost allocation system that meets the requirements in the applicable OMB Circular; 2) That they have had a previous working relationship(s) with experts and national organizations devoted to the relevant industrial, commercial or governmental sector, or intends to partner with an organization with such expertise; 3) An understanding of the environmental needs of the relevant industrial, commercial or governmental sector through past activities, or intends to partner with an organization with such expertise; 4) That they, or a partnering organization, has familiarity with applicable federal, state and local environmental regulations and experience in developing tools (e.g., training, plain-language guides, fact-sheets, Agency contact locators, etc) to improve the audiences' understanding of their regulatory obligations; 5) previous experience (or intends to partner with an organization with experience) in developing and maintaining web-based services.

Beneficiary Eligibility:

The primary beneficiaries are small businesses, local governments and colleges/universities that are being serviced by the grantees. Other beneficiaries include state, local, general public, and the regulated business community.

Credentials/Documentation:

EPA may request that applicants document their nonprofit status. The Agency may also request that applicants demonstrate they have appropriate background, experience in the field, organizational capacity and necessary equipment to carry out projects. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 60 days from the date of submission of the final proposal.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also

be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. Generally, cooperative agreements will be awarded for a five year project period. EPA will partially fund each budget period and will consider funding the balance of budget requests contingent upon satisfactory progress as certified by the EPA Project Officer, the availability of funds, and EPA priorities.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: EPA's Appropriation Act requires that applicants submitting unsolicited research grant proposals share in the cost of conducting research. The amount of the cost share will be based on the mutuality of interest between the Government and the applicant. Applicants will be advised of other matching requirements, if any, in Requests for Applications or Requests for Initial Proposals. Although EPA may not require matching funds, applicants may be encouraged to provide information regarding resources (cash/in-kind services) that they would commit to manage a Compliance Assistance Center. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA generally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. Incremental funding may be available. EPA generally limits project periods to 5 years. EPA will partially fund each budget period and will consider funding the balance of budget requests contingent upon satisfactory progress as certified by the EPA Project Officer, the availability of funds, and EPA priorities. See the following for information on how assistance is awarded/released: Other.

Reports:

Reporting requirements are identified at 40 CFR Parts 30 and 31. EPA may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements. Program reports are required. No cash reports are required. Progress reports are required. No expenditure reports are required. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (nonprofits and universities) or 40 CFR Part 31 (governmental units) are applicable depending upon the identity of the recipient. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records must be retained until the matter is completely resolved.

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Non-competitive proposals are judged for (a) technical merit in terms of: (1) strengths and weaknesses of the project; (2) adequacy of overall project design; (3) competency of proposed staff; (4) suitability of applicant's available resources; (5) appropriateness of the proposed project period and budget; and (6) probability that the project will accomplish stated objectives; and, for (b) program interest in terms of: (1) the need for the proposed project; and (2) relationship to program objectives.

66.309 SURVEYS, STUDIES, INVESTIGATIONS, TRAINING AND SPECIAL PURPOSE ACTIVITIES RELATING TO ENVIRONMENTAL JUSTICE

(EJSS)

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3); Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), Section 311(c); Solid Waste Disposal Act, Section 8001(a); Toxic Substances Control Act, Section 10(a); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20(a);

Clean Air Act, Section 103(b)(3); Safe Drinking Water Act, Section 1442(c)(3); Marine Protection, Research, and Sanctuaries Act, Section 203.

OBJECTIVES:

The program's mission/objective is to provide funding in support of surveys, studies and investigations, and special purpose assistance programs as they relate to environmental and/or public health issues, with a particular emphasis on environmental justice.

Funding Priority-Fiscal Year 2011: Activities that support surveys, studies and investigations, and special purpose assistance for the award of grants and cooperative agreements that address environmental justice concerns. EPA defines "environmental justice" as the fair treatment and meaningful involvement of all people regardless of race, color, national origin or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. Fair treatment means that no one group of people, including racial, ethnic, or socioeconomic groups, should bear a disproportionate share of the negative environmental consequences resulting from industrial, municipal, and commercial operations or the execution of federal, state, local, and tribal environmental programs and policies. Meaningful involvement means that: (1) potentially affected community residents have an appropriate opportunity to participate in decisions about a proposed activity that will affect their environment and/or health; (2) the public's contribution can influence the regulatory agency's decision; (3) the concerns of all participants involved will be considered in the decision-making process; and (4) the decision-makers seek out and facilitate the involvement of those potentially affected. Assistance agreements may be associated with climate change, green jobs, green development, smartgrowth and green business.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. The recipient cannot use these funds for the following activities under this program: litigation against the Federal government or any other government entity; construction; lobbying; matching funds for other Federal grants; travel for Federal employees; and human health studies (taking blood or other information from humans).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States, territories, Indian Tribes, intertribal consortia, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, and other public or private nonprofit institutions which submit applications proposing projects concerning environmental justice issues with significant technical merit and relevance to EPA's mission. Some of EPA's statutes may limit assistance to specific types of interested applications. See "Authorization" listed above. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States, territories, Indian Tribes, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, and other public or private nonprofit institutions.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and Indian Tribes, OMB Circular No. A-21 for

educational institutions, OMB Circular No. A-122 for nonprofit institutions, and FAR Part 31 for profit makers. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds. Generally, EPA incrementally funds grants and cooperative agreements for surveys, studies, and investigations. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, and availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants and cooperative agreements are normally funded on a 12-month basis (annual). Most of OEJ awarded grants and cooperative agreements have project periods ranging from one year to five years, and generally, grants and cooperative agreements are fully funded at the time of award. See the following for information on how assistance is awarded/released: Other.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require semi-annual, annual and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations Part 30 and Part 31. Program reports are required. No cash reports are required. Progress reports are required. No expenditure reports are required.

Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

66.310 CAPACITY BUILDING GRANTS AND COOPERATIVE AGREEMENTS FOR COMPLIANCE ASSURANCE AND ENFORCEMENT ACTIVITIES IN INDIAN COUNTRY AND OTHER TRIBAL AREAS

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act, Section 103; Clean Water Act, Section 104; Safe Drinking Water Act, Section 1442; Toxic Substances Control Act, Section 10; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Solid Waste Disposal Act, Section 8001; Marine Protection, Research and Sanctuaries Act, Section 203; National Environmental Policy Act, Section 102(2)(F); Indian Environmental General Assistance Program Act.

OBJECTIVES:

Providing financial resources to build and improve the compliance assurance and enforcement capacity of federally-recognized Indian tribes (tribes), inter-tribal consortia, or tribal organizations. Such capacity building efforts may include economic, social science, statistical research, development, studies, surveys, demonstrations, investigations, public education, training, and fellowships to the extent authorized under the federal environmental laws listed above. This Catalog of Federal Domestic Assistance (CFDA) number covers EPA's Environmental Programs and Management (EPM) resources targeted for

compliance assurance and enforcement in Indian country and other tribal areas, including those in Alaska.

Funding Priority - Fiscal Year 2011: In fiscal year 2011, if awards are made, EPA's Office of Enforcement and Compliance Assurance anticipates to improve understanding of environmental obligations and ensure compliance with applicable laws in Indian country through research, demonstration, training, or inspection activities. Potential areas include: ensuring compliance at drinking water systems in Indian country, ensuring compliance with energy extraction activities in Indian country, and other areas related to EPA's Enforcement Goals. Additional information is available at <http://www.epa.gov/compliance/data/planning/initiatives/goals.html>.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The funding is for fixed or known periods associated with specific projects. Project grants can include fellowships, scholarships, research grants, training grants, traineeships, experimental and demonstration grants, evaluation grants, planning grants, technical assistance grants, survey grants, and construction grants. OECA identifies special focus areas each funding cycle (annually). Previous years have included calls for proposals focusing on conducting sanitary surveys at tribal public water systems, compliance assistance to tribal solid waste programs, and innovative enforcement and compliance assurance projects, including performance measurement, data quality, and public access to information. Consistent with existing statutory authority, the funds are used to support compliance assistance, compliance monitoring, and enforcement activities.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Tribal Organizations, Inter-tribal Consortia, Federal, and State Organizations, Colleges and Universities, and non-for-profit organizations; eligible applicants must also have enforcement and compliance assurance responsibilities in Indian country and/or other tribal areas or provide support for enforcement and compliance assurance projects in Indian country and/or other tribal areas. EPA may also limit eligibility for certain competitive funding opportunities under this CFDA to: (1) tribes and intertribal consortia located in the Region where a project is going to be performed; and/or (2) applicants that have access to Indian country or other tribal areas.

Beneficiary Eligibility:

Federally Recognized Indian Tribal Governments; Inter-tribal Consortia and Tribal Organizations; Federal, State, and Multi-jurisdictional State Organizations; colleges and universities; and non-for-profit organizations.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

66.313 INTERNATIONAL COMPLIANCE AND ENFORCEMENT PROJECTS

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, Public Law 92-516, 7 U.S.C 136; Marine Protection, Research and Sanctuaries Act of 1972, Section 203; Clean Water Act, Section 104, Public Law 95-217, 33 U.S.C 1251; Safe Drinking Water Act, Section 1442(a)&(c), Public Law 93-523; National Environmental Policy Act, Section 102(2)(F); Clean Air Act, Section 103, Public Law 95-95, 42 U.S.C 7401; Toxic Substances Control Act, Section 10, Public Law 94-469, 15 U.S.C 2601; Solid Waste Disposal Act, Section 8001.

OBJECTIVES:

The primary purpose of the proposed capacity building projects is to protect human health and the environment while advancing U.S. national interests through international environmental collaboration on environmental compliance and enforcement. This mission is supported by these strategic objectives: 1) Reduce Exposure to Toxic Chemicals; 2) Improve Urban Air Quality; 3) Reduce Hazardous Waste and Improve Waste Management; 4) Limit Global GHG Emissions and Other Climate-Forcing Pollutants; 5) Improve access to Clean Water; and 6) Build Strong Environmental Institutions and Legal Structures. International capacity building plays a key role in protecting human health, communities and the environment by providing technical cooperation to help countries improve environmental compliance and enforcement in order to reduce air pollution, better manage air quality and global climates, manage drinking and surface water quality, and restore the land and mitigate sources of land pollution. OECA will work to transfer appropriate compliance and enforcement tools and techniques to key countries and regions as we collaborate with partners to improve compliance with domestic environmental laws in those countries. In addition, we will continue efforts to strengthen domestic, regional, and global networks on criminal and civil/administrative enforcement, build capacity in developing countries to monitor and enforce compliance with environmental laws, and raise awareness of the role of enforcement in ensuring sustainable development. OECA plays a key role in ensuring trade-related activities support environmental protection, particularly related to effective enforcement of environmental laws. Initiatives relating to environmental trade and investment are carried out bilaterally, multilaterally or in connection with multilateral institutions such as the International Network for Environmental Compliance and Enforcement (INECE) and associated regional networks, INTERPOL's Environmental Crime Program, the World Trade Organization (WTO), World Bank, European Union (EU), and others. Also, OECA will support protection of human health and the ecosystem of North America through the United States participation in the North American Agreement on Environmental Cooperation and through leadership in the Enforcement Working Group of the Commission on Environmental Cooperation (CEC), the Organization for Economic Cooperation and Development (OECD), and other international entities. OECA will provide targeted capacity building support under the environmental cooperation agreements developed parallel to U.S. free trade agreements. Funding Priority - Fiscal Year 2011: EPA expects to continue funding for ongoing activities that advance environmental compliance worldwide. Possible funding priorities include efforts to build capacity for compliance and enforcement in Africa, South America, and other parts of the world, support for international conferences on compliance and enforcement, and specific projects such as preventing the transboundary shipments of hazardous wastes and e-wastes, and addressing compliance and enforcement issues in global climate change schemes, and international studies of best practices to exchange information among enforcement practitioners and policy makers.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Discretionary funds are available for the awards under this program. Grants and cooperative agreements are available to support recipients' allowable direct cost expenditures associated with the approved project plus allocable portions of allowable indirect costs of the institution, in accordance with established EPA policy, 40 CFR parts 30 and 31. Funding awarded for international research under these projects does not include research within the purview of EPA's Office of Research and Development. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following

website: <http://geodata.epa.gov>. The recipient cannot use these funds for the following activities under this program: litigation against the Federal government or any other government entity; construction; lobbying; matching funds for other Federal grants; travel for Federal employees; and human health studies (taking blood or other information from humans). Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States and local governments, territories and possessions, foreign governments, international organizations, Indian Tribes, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions, which submit applications proposing projects with significant technical merit and relevance to EPA's Office of Enforcement and Compliance Assurance's mission. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States and local governments, territories and possessions, foreign governments, international organizations, Indian Tribes, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions.

Credentials/Documentation:

Office of Enforcement and Compliance Assurance (OECA) may require applicants to submit documentation of non-profit status. OECA may request applicants to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. OECA may also ask applicants or principal investigators to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110 must be used for this program. EPA requires final applications to be made on Standard Form 424. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. Under EPA Order No. 5700.5A1, Policy for Competition in Assistance Agreements (9/12/02), Assistance awards to Foreign Governments and to United Nations agencies and similar International Organizations, such as the Organization of American States and Organization for Economic Cooperation and Development (OECD), may be exempted from competition at the discretion of OECA. For competitive awards, Requests for Initial Proposals or Requests for Applications will specify application procedures.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated

in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. For non-competitive awards, OECA will conduct an administrative evaluation to determine the adequacy of the application in relation to grant regulations and a technical and program evaluation to determine the merit and relevance of the project. The Agency will then advise the applicant if funding is being considered. A final work plan will then be negotiated with the applicant.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds. Generally, EPA incrementally funds grants and cooperative agreements. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to OECA's priorities, and availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. EPA limits project periods to 5 years. See the following for information on how assistance is awarded/released: Payments will be on an advance letter of credit or reimbursement basis; recipient must request the initial advance payment on SF 270, Request for Advance or Reimbursement.

Reports:

No program reports are required. No cash reports are required. Reporting requirements are identified at 40 CFR Parts 30 and 31. EPA may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements. Progress reports are required under this program. Expenditure Reports are required under this program. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (non-profits and universities) or 40 CFR Part 31 (governmental units) are applicable depending upon the identity of the recipient. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as

those raised as a result of audit, related records must be retained until the matter is completely resolved.

Account Identification:

Obligations:

(Project Grants) FY 10 \$1,000,000; FY 11 est \$300,000; and FY 12 est \$300,000

Range and Average of Financial Assistance:

Range: \$30,000 - \$2,000,000; Average: FY 2010 est. \$400,000 and FY 2011 est. \$300,000. Annual amounts fluctuate greatly because OECA usually issues a single large grants for multiple years with interim awards for other projects at much lower levels.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Fiscal Year 2010: OECA awarded three grants: The first will support an international conference on environmental compliance and enforcement which will be held in June 2011. The second project is to support an international collaborative network focused on environmental compliance and enforcement. Historic outcomes from previous projects in this category include development of guidance on environmental compliance and enforcement indicators and indicators training throughout Central America, multiple deliveries of the Principles of Enforcement course in the Middle East, and maintenance and development of a website. The final project funded in FY 2010 is to support an international organization's environmental crime program. Fiscal Year 2011: No Current Data Available Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

These grants and cooperative agreements are subject to EPA's General Grant Regulations (40 CFR Part 30 and 40 CFR Part 31). Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and Indian Tribes, OMB Circular No. A-21 for educational institutions, and OMB Circular No. A-122 for nonprofit institutions.

Regional or Local Office:

None. All assistance agreements issued under this CFDA will originate in the Office of Enforcement and Compliance Assurance (OECA) at EPA Headquarters.

66.418 CONSTRUCTION GRANTS FOR WASTEWATER TREATMENT WORKS

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 101(e)&109(b), Public Law 92-500; American Recovery and Reinvestment Act of 2009, Public Law 111-5; Clean Water Act, Section 210-212&215-219, Public Law 92-500; Clean Water Act, Section 208(d)&304(d)(3, Public Law 92-500; Clean Water Act, Section 313,319,320,501, Public Law 92-500; Clean Water Act, Section 502,511,516(b), Public Law 92-500; Clean Water Act, Section 201-205, 207, Public Law 92-500.

OBJECTIVES:

To assist and serve as an incentive in construction of municipal wastewater treatment works which are required to meet State and/or Federal water quality standards and improve the water quality in the waters of the United States. From fiscal year (FY) 2004 onwards, American Samoa, Commonwealth of Northern Mariana Islands, Guam, Virgin Islands, and the District of Columbia may use up to four percent of the funds appropriated under Title VI for administration and closeout of their construction grant program.

Funding Priority - Fiscal Year 2011: Funds will be awarded to assist in construction of municipal wastewater treatment works which are required to meet State and/or Federal water quality standards and improve the water quality in the waters of the United States. Annual funding priorities are determined by the State in which the grantee is located. The project must be given priority by the State water pollution control agency through its project priority system and recommended for funding for approval by the EPA Regional Office. Funds were also made available to American Samoa, Commonwealth of Northern Mariana Islands, Guam, Virgin Islands, and the District of Columbia for construction of municipal wastewater treatment works under the American Recovery and Reinvestment Act (Recovery Act) of 2009. A portion of the Recovery Act funding were targeted toward projects for green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

For construction of municipal wastewater treatment works including privately owned individual treatment systems, if a municipality applies on behalf of a number of such systems. Such works may serve all or portions of individual communities, metropolitan areas, or regions. A project may include, but may not be limited to, treatment of industrial wastes. The grantee must require pretreatment of any industrial wastes which would otherwise be detrimental to efficient operation and maintenance, or the grantee must prevent the entry of such waste into the treatment plant. The grantee must have or initiate an acceptable system of user charges. From FY 2004 onwards, American Samoa, Commonwealth of Northern Mariana Islands, Guam, Virgin Islands, and the District of Columbia may use up to four percent of the funds appropriated under Title VI for administration and closeout of their construction grant program. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Any state, local, intrastate agency, or interstate agency, or Federally-Recognized Indian tribal government, having jurisdiction over waste disposal. At present, new funding for the construction grants program exists only in American Samoa, Commonwealth of Northern Mariana Islands, Guam, Virgin Islands, and the District of Columbia because they are exempt by the U.S. Congress from establishing a State Revolving Fund (SRF). Grants are

awarded to only these territories and the District of Columbia from the SRF funds (Title VI grants), which are awarded as Title II grants. Funding requests for construction of wastewater treatment facilities are now to be made to the SRF representative of the State in which the construction is proposed.

Beneficiary Eligibility:

Anyone/General Public. Anyone to be served by a wastewater treatment works assisted by this program.

Credentials/Documentation:

(1) Certified copy of authorization and assurances from the applicant's governing body. Authorization must be current, and must designate by name and title the individual who will represent the applicant; (2) current description of the project; (3) statement explaining exact nature of local, State, and any other Federal funds which may be used to finance the project; (4) applicant assurance (which is acceptable to the Regional Administrator) that any necessary discharge permit has been or will be obtained in accordance with Section 401, of Public Law 92-500, as amended; (5) conformance with requirements set forth in 40 CFR Part 35; Subpart I. Application may be made for grant assistance for building and erection of the treatment works with an allowance for planning and design costs at the time that the grant for construction is made. Costs will be determined in accordance with OMB Circular No. A-87, "Costs Principles for State, Local, and Indian Tribal Governments." OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

This is an existing program which is winding down as the funding is now being provided under the Clean Water State Revolving Fund Program for construction of wastewater treatment facilities. An environmental assessment is required for this program, which may require the development of an environmental impact statement by EPA. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Applications must be submitted through the State water pollution control agency to the appropriate EPA Regional Office. The standard application forms as furnished by the Federal agency must be used for this program. EPA requires final applications to be made on the Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode 3903R, Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Projects considered for award must be approved by the State water pollution control agency and also certified by such agency as to priority over any other eligible projects. Award is made following such certification and approval by a Regional Office of EPA. Funds authorized by the Congress are allotted to the States in accordance with The Clean Water Act, as amended. Grant awards within individual States are limited by the funds which have been allotted to such States.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Up to 45 days, for EPA Regional Office action after certification by delegated State.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program operates under Section 202 of the Clean Water Act. The Federal grant may be for up to 55 percent for grants awarded after September 30, 1984 or for 75 percent of eligible project costs for grant assistance awarded before October 1, 1984. The States may lower these percentages with the concurrence of the Regional Administrator pursuant to Section 202(a)(1) of the Clean Water Act as amended by Public Law 100-4. For innovative or alternative treatment processes and techniques referred to in section 201(g)(5) the funding shall be 20 per centum greater than the above approved percentage, but in no event greater than 85 per centum of the cost of construction of the project being funded with the grant. The grantee must assure that they will provide funds for all remaining costs. Some States assist grantees in providing all or part of the non-Federal share. American Samoa, Guam, Northern Marianas Islands, and Virgin Islands will receive the funds allocated up to 100 percent of the cost of construction. Recovery Act funds allotted to the District of Columbia, American Samoa, Guam, Northern Mariana Islands, and Virgin Islands have no match requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Any Title VI sums that are allotted as Title II to the District of Columbia, American Samoa, Guam, Northern Mariana Islands, and Virgin Islands will be available for obligation for a period of one year after the close of the fiscal year for which the sums are authorized. The term of the grant shall be determined at the time of grant award. Grant payments are based on work completed, equipment delivered, or sometimes off-site manufacturing or services rendered. Final grant payment is made after construction is completed and satisfactory final inspection and performance evaluation are carried out. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

Annual inspection by the State agency for compliance with permit requirements including a written report concerning operation and maintenance of waste treatment facility, and certification one year after beginning operation that the works are meeting project performance standards. For Recovery Act funds, funding reports must be submitted in a prescribed format within 10 calendar days after the end of each calendar quarter, beginning October 10, 2009. These reports will include data elements as prescribed by Public Law 111-5, Section 1512 and OMB Guidance. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years after project closeout, and if questions still remain, such as those raised in a court appeal, related records should be retained until the matter is completely resolved.

Account Identification:

68-0102-0-1-304; 68-0103-0-1-304.

Obligations:

(Project Grants) FY 10 \$40,915,000; FY 11 est \$29,652,100; and FY 12 est \$30,000,000 - Title II obligations available for construction grants to District of Columbia, American Samoa, Guam, Northern Mariana Islands, and the Virgin Islands are: FY 10 \$40,915,000; FY 11 est. \$29,652,100; and FY 12 est. \$30,000,000. Title II obligations available for Recovery Act funds to District of Columbia, American Samoa, Guam, Northern Mariana Islands, and the Virgin Islands are: FY 10 \$0; FY 11 est. \$0; and FY 12 est. \$0.

Range and Average of Financial Assistance:

CWA Title II grants \$100,000 to \$10,000,000/fiscal year; \$5,000,000/fiscal year. Recovery Act funds - \$100,000 to \$15,000,000/fiscal year; \$7,500,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 2010, 9 grants for \$29.6 million were awarded. Projects funded included new and expanded wastewater treatment plants, infiltration/inflow correction, new interceptors, new collector sewers, and correction of combined sewer overflows (CSO) projects. Fiscal Year 2011: In FY 2011, it is anticipated that 8 grants for \$50.6 million will be awarded. Projects to be funded include new and expanded wastewater treatment plants, infiltration/inflow correction, new interceptors, new collector sewers, and correction of CSO projects. 66.419 WATER POLLUTION CONTROL STATE, INTERSTATE, AND TRIBAL PROGRAM SUPPORT

(106 Grants)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 106, Public Law 95-217, 33 U.S.C 1251.

OBJECTIVES:

To assist States (including territories, the District of Columbia, and Indian Tribes qualified under CWA Section 518(e)), and interstate agencies in establishing and maintaining adequate measures for prevention and control of surface and ground water pollution from both point and nonpoint sources.

Funding Priority - Fiscal Year 2011: States and Tribes will continue to focus on fulfilling their basic responsibilities under the CWA and, based upon a shared understanding with EPA of the environmental progress expected, will identify program activities that will best support attaining targeted environmental improvements. State priority efforts will include: (1) implementing monitoring strategies and the statistically-valid surveys to determine water quality status and trends; (2) fostering a watershed approach, including total maximum daily loads (TMDLs) and watershed plans designed to meet water quality standards; and (3) implementing concentrated animal feeding operations (CAFOs) and storm water permitting programs. States and Tribes will work toward adoption of nutrient criteria for fresh waters, adoption of the 1986 bacteria criteria, and adoption of fish tissue criteria for mercury in their water quality standards. States NPDES Programs will support EPA in: (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations. Water quality programs will also target actions to strengthen permitting and enforcement efforts. States will also conduct source water protection actions to protect both ground water and surface waters used for drinking water. Tribes will continue to conduct watershed assessments and will maintain and improve their capacity to implement water quality programs through monitoring, assessments, planning, and standards development.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Water pollution control grants are intended to provide continuing support for the prevention and abatement of surface and ground water pollution from point and nonpoint sources. Continuing and recurrent water quality management program activities funded include water quality planning and standards; monitoring and assessments; inspections and enforcement; permitting; training; advice and assistance to local agencies; and public information. Funds cannot be used for construction, operation, or maintenance of waste treatment plants, nor can they be used for costs financed by other Federal grants. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible entities include State and interstate water pollution control agencies as defined in the Federal Water Pollution Control Act, and Indian tribes qualified under CWA Section 518(e). Agencies making application for funds must annually submit their pollution-control program to the appropriate EPA Regional Administrator for approval. Requirements of the program are based on Section 106 of the Act, and 40 CFR Parts 31, 35, and 130. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and interstate water pollution control agencies and Indian tribes qualified under Section 518(e) of the Clean Water Act (CWA).

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State, tribal, and local governments. State and interstate agencies and Indian tribes qualified under Section 518(e) of the Clean Water Act must show compliance with 40 CFR 35, Subpart A and Subpart B. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Informal meetings are held between regional office, State, territorial, and Indian tribe applicant agencies concerning program preparation. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. The grant agreement must adequately reflect the priorities identified in the State/EPA Agreement. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The grants application must be submitted to the appropriate EPA Regional Office, Grants Administration Branch (see Appendix IV of the Catalog). The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Applications are reviewed by the appropriate EPA Regional Office and if approved, are signed by the Regional Administrator. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 30 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Clean Water Act, Chapter CFR 35.162.
Matching Requirements: The regulation that implements the formula can be found at CFR 35.162. As stated in the Clean Water Act, appropriated funds are allotted among the State and Interstate Water Pollution Control Agencies on the basis of the extent of the pollution problems in the respective States. The six components in the Section 106 State allotment formula selected to reflect the

extent of the water pollution control problems in the United States are: (1) surface water area; (2) ground water use; (3) water quality impairment; (4) point sources; (5) non-point sources; and (6) population of urbanized areas. The set-aside for Interstate Water Pollution Control Agencies is 2.6 percent of the total State monies appropriated under Section 106. The interstate allotment formula consists of two parts: (1) a funding floor, and (2) a variable portion. To receive a Section 106 Water Pollution Control grant, a State or interstate agency must expend annually for recurrent Section 106 program expenditures an amount of non-federal funds at least equal to expenditures during the fiscal year ending June 30, 1971. A portion of the annual Section 106 appropriation is set-aside for eligible Indian Tribes qualified under CWA Section 518(e), and an allocation formula is used to distribute these funds to the EPA Regions. The Tribal allocation formula consists of both a base portion (which is currently equal to approximately \$65,000 times the total number of Tribes with Treatment in a manner similar to a State [TAS] approval for Section 106 grants in each EPA Region), plus a weighted variable portion. The variable portion is based upon the total tribal water area (50 percent), land area (25 percent), and reservation population (25 percent) in each EPA Region. Tribal work plan costs include the costs of planning, developing, establishing, improving, and maintaining a water pollution control program. The Regional Administrator may provide up to 95 percent of the approved work plan costs for Tribes or intertribal consortia establishing a Section 106 water pollution control program. The Regional Administrator may increase the maximum Federal share if the tribe or intertribal consortium can demonstrate in writing to the satisfaction of the Regional Administrator that fiscal circumstances within the Tribe or within each Tribe that is a member of an intertribal consortium are constrained to such an extent that fulfilling the 5 percent match requirement would impose undue hardship. Since 2005, additional funds have been allocated for the purposes of strengthening State and Territorial water quality monitoring programs. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

One year; payments are approved quarterly and disbursed monthly. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 10 \$229,264,000; FY 11 est \$238,805,000; and FY 12 est \$250,264,000

Range and Average of Financial Assistance:

\$10,000 to \$11,795,500/fiscal year; \$5,000,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In each fiscal year, grants are awarded to encourage and support the conduct of Water Pollution Control programs by the 50 States, 6 Territories, the District of Columbia, 6 Interstate Commissions, and Indian Tribes qualifying under CWA Section 518(e). FY 10 funds were used to continue to support State and Tribes' efforts to fulfill their basic responsibilities under the CWA and identify program activities that best support attaining targeted environmental improvements. Accomplishments included: implementing monitoring strategies and the development of statistically-valid surveys to determine water quality status and trends; fostering a watershed approach including total maximum daily loads (TMDLs) and the development of watershed plans designed to meeting water quality standards; and the implementation of concentrated animal feeding operations (CAFOs) and storm water permitting programs. At a minimum, Regional watershed based strategies give priority to: 1) fostering the development of watershed plans under State nonpoint source programs; 2) assuring that high priority permits are current; 3) tracking permitting for environmental results program integrity follow-up actions; 4) developing TMDLs for impaired waters; and 5) organizing restoration plans on a waterbody basis. Fiscal Year 2011: In each fiscal year, grants are awarded to encourage and support the conduct of Water Pollution Control programs by the 50 States, 6 Territories, the District of Columbia, 6 Interstate Commissions, and Indian Tribes qualifying under CWA Section 518(e). FY 11 funds will be used to continue to support State and Tribes' efforts to fulfill their basic responsibilities under the CWA and identify program activities that best support attaining targeted environmental improvements. States and tribes will continue working on: implementing monitoring strategies and the development of statistically-valid surveys to determine water quality status and trends; fostering a watershed approach including total maximum daily loads (TMDLs) and the development of watershed plans designed to meeting water quality standards; and the implementation of concentrated animal feeding operations (CAFOs) and storm water permitting programs. At a minimum, Regional watershed based strategies give priority to: 1) fostering the development of watershed plans under State nonpoint source programs; 2) assuring that high priority permits are current; 3) tracking permitting for environmental results program integrity follow-up actions; 4) developing TMDLs for impaired waters; and 5) organizing restoration plans on a waterbody basis. RELATED PROGRAMS:

66.454 Water Quality Management Planning; 66.600 Environmental Protection Consolidated Grants for the Insular Areas - Program Support

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Grants are made to States, interstate agencies, and tribes qualified under CWA Section 518(e), for the administration of State and tribal programs for the prevention, reduction, and control of water pollution.

Activities funded include administration of State and tribal water quality planning programs; water quality standards programs; water quality monitoring and assessments; National Pollutant Discharge and Elimination System (NPDES) permitting programs; compliance and enforcement programs, and ground water protection programs. More specifically, adoption and implementation of new comprehensive monitoring strategies, as stated in the March 2003 Elements of a State Water Monitoring and Assessment Guidance, and the development of statistically valid monitoring networks to help target activities and determine water quality status and trends; enhancement of the quality and timeliness of state/tribal water quality standards triennial reviews so that standards are based on sound science and EPA guidance; adoption of nutrient criteria for fresh waters, adoption of the 1986 bacteria criteria, and adoption of fish tissue criteria for mercury into state water quality standards; effective management of the permit program through State participation in (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations; implementation of program enhancements identified in the FY 2004 comprehensive assessment of NPDES program integrity; and State storm water and concentrated animal feeding operations (CAFO) permitting programs, wet weather issues and combined sewer overflows (CSOs). Fiscal Year 2011: Grants are made to States, interstate agencies, and tribes qualified under CWA Section 518(e), for the administration of State and tribal programs for the prevention, reduction, and control of water pollution. Activities funded include administration of State and tribal water quality planning programs; water quality standards programs; water quality monitoring and assessments; National Pollutant Discharge and Elimination System (NPDES) permitting programs; compliance and enforcement programs, and ground water protection programs. More specifically, adoption and implementation of new comprehensive monitoring strategies, as stated in the March 2003 Elements of a State Water Monitoring and Assessment Guidance, and the development of statistically valid monitoring networks to help target activities and determine water quality status and trends; enhancement of the quality and timeliness of state/tribal water quality standards triennial reviews so that standards are based on sound science and EPA guidance; adoption of nutrient criteria for fresh waters, adoption of the 1986 bacteria criteria, and adoption of fish tissue criteria for mercury into state water quality standards; effective management of the permit program through State participation in (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations; implementation of program enhancements identified in the FY 2004 comprehensive assessment of NPDES program integrity; and State storm water and concentrated animal feeding operations (CAFO) permitting programs, wet weather issues and combined sewer overflows (CSOs). Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Section 106 funds are awarded to State, territory, interstate, and Indian tribal agencies in accordance with overall water quality management needs, the requirements of programs covered by these agreements, and EPA Program guidance.

66.424 SURVEYS, STUDIES, INVESTIGATIONS, DEMONSTRATIONS, AND TRAINING GRANTS - SECTION 1442 OF THE SAFE DRINKING WATER ACT

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act, Section 1442, Public Law 104-182; National Environmental Policy Act, Section 102(2)(F).

OBJECTIVES:

(1) To support surveys, studies, investigations, demonstrations, and training associated with source water and drinking water; (2) To develop and expand capabilities of programs to carry out the purposes of the Safe Drinking Water Act (SDWA).

Funding Priority - Fiscal Year 2011: Funding priorities include providing assistance for the following: (1) research on the occurrence of contaminants in

drinking water; (2) source water protection and treatment methods; measures to protect water quality in the distribution system and at the tap; (3) tribal source water protection program support; tribal operator certification program support; (4) tribal capacity development program support; and (5) assistance to tribes in administration of the Drinking Water Infrastructure Grants to identify health effects associated with drinking water contaminants. Funding priorities also include providing assistance for the following training and technical assistance activities: (1) training personnel who manage or operate public water systems; (2) training personnel for occupations involving the public health aspects of providing safe drinking water; (3) training to develop and expand the capabilities of states and municipalities to carry out the SDWA; and (4) technical assistance to enable small public water systems to meet the requirements of SDWA.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The funds will support research, investigations, studies, demonstrations, and training associated with source water and drinking water. Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved scopes of work, plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. Specific uses and restrictions on funds will be described in detail in the competitive announcements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States, local governments, territories, Indian Tribes, and possessions of the U.S. (including the District of Columbia); public and private universities and colleges; hospitals; laboratories; public or private nonprofit institutions; and individuals. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, Indian Tribes, universities and colleges, hospitals, laboratories, and other public and private nonprofit institutions and individuals.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and Indian Tribes, OMB Circular No. A-21 for educational institutions, OMB Circular No. A-122 for nonprofit institutions, and FAR Part 31 for profit makers. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see

Appendix IV of the Catalog. This program is subject to the provisions of OMB Circulars No. A-102 and No. A-110. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at:

http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, announcements for competitive funding opportunities will specify application procedures. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. Generally, EPA incrementally funds grants and cooperative agreements for water surveys, studies, demonstrations, and investigations. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, availability of funds, and Agency policy on the competitive grant process.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA may negotiate the project period with each applicant based on project requirements. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is

required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (non-profits and universities) or 40 CFR Part 31 (governmental units) are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0108-0-1-304; 68-0107-0-1-304.

Obligations:

(Project Grants) FY 10 \$1,282,500; FY 11 est \$1,500,000; and FY 12 est \$1,500,000

Range and Average of Financial Assistance:

\$5,500 to \$562,000/fiscal year; \$256,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Competitions are held throughout the year at Headquarters and in the Regions based on available funds and Agency priorities. Competitive announcements typically include the number of anticipated awards. Five grants were awarded in FY 10 in support of drinking water and source water initiatives associated with developing and expanding capabilities of programs to carry out the purposes of the SDWA. Fiscal Year 2011: Competitions are held throughout the year at Headquarters and in the Regions based on available funds and Agency priorities. Competitive announcements typically include the number of anticipated awards. In FY 11, it is anticipated that additional support for drinking water and source water initiatives will be provided. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Surveys, studies, and investigations grants and cooperative agreements are subject to EPA's General Grant Regulations (40 CFR Part 30 and 40 CFR Part 31). Training grants and cooperative agreements are subject to EPA's Regulations for Training Assistance (40 CFR Part 45).

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.432 STATE PUBLIC WATER SYSTEM SUPERVISION

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act of 1974, Public Law 93-523; Safe Drinking Water Act Amendments of 1996, Public Law 104-182; Safe Drinking Water Act Amendments of 1986; Public Health Service Act; Safe Drinking Water Act of 1974, Public Law 95-190; Safe Drinking Water Act of 1974, Public Law 96-502; Safe Drinking Water Act of 1974, Public Law 96-16.

OBJECTIVES:

The objective of these grants is to provide financial assistance to eligible States and Tribes (those that have Primary Enforcement Responsibility for the Public Water System Supervision Program, or are developing such a program), for the conduct of their Public Water Systems Supervision (PWSS) Program. In cases where a State or a Tribe do not have, or are not developing, a Primary Enforcement Responsibility program, EPA is authorized to use funds that would have otherwise been made available to the State or the Tribe to assist it in direct implementation of the PWSS program. The fundamental goal of the PWSS Program, and the grants, is to ensure that water systems comply with the National Primary Drinking Water Regulations listed in 40 CFR 141 (http://www.access.gpo.gov/nara/cfr/waisidx_02/40cfr141_02.html). States, territories, and Indian Tribes that receive PWSS grants are to use them to ensure that drinking water systems, of all types, and of all sizes: (1) that are currently in compliance with the drinking water regulations, remain in compliance, (2) that are not currently in compliance, achieve compliance, and (3) are preparing to comply with any new drinking water regulation that will be taking effect in FY 06.

Funding Priority - Fiscal Year 2011: The priority for the PWSS grants is to ensure that the population served by community water systems will receive drinking water that meets all applicable health-based drinking water standards. The primary components of a State or Tribal PWSS program are: the adoption of State drinking water regulations as stringent as the Federal regulations; the development and maintenance of an inventory of public water systems throughout the State; the development and maintenance of a database housing compliance information on public water systems; the conduct of sanitary surveys on the public water systems; the review of public water system plans and specifications; the provision of technical assistance to system managers and operators; a program to ensure that the public water systems keep their consumers informed about the quality of the water they are providing; the certification of laboratories that are allowed to perform the analysis of drinking water that will be used to determine compliance with the drinking water regulations; and the conduct of an enforcement program to ensure that the public water systems comply with all of the requirements.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

The funds are to be used to develop and implement a public water system supervision program adequate to enforce the requirements of the Safe Drinking Water Act. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website:
<http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligibility is limited to the governments of the fifty States; the District of Columbia; the Commonwealth of Puerto Rico; the Northern Mariana Islands; the Virgin Islands; Guam; American Samoa; and federally recognized Tribes, that have either assumed primary enforcement responsibility for the PWSS Program or that want to develop a program that will allow them to seek delegation for a PWSS Program. EPA may also use funds allotted for a State or Tribal program, if the State or Tribe does not have, or is not developing, primary enforcement responsibility. Eligibility is also limited to a single agency within each State, Territory, or Tribe - an agency that has been designated by the jurisdiction's Governor or Chief Executive Officer. Primary Enforcement Responsibility for the Public Water System Supervision Program is provided for in 40 CFR 142
(http://www.access.gpo.gov/nara/cfr/waisidx_02/40cfr142_02.html).

Beneficiary Eligibility:

The beneficiaries are the agencies within the fifty States; the District of Columbia; the Commonwealth of Puerto Rico; the Northern Mariana Islands; the Virgin Islands; Guam; American Samoa; and federally recognized Tribes, that have been designated by the jurisdiction's Governor or Chief Executive Officer as being responsible for the supervision of water supplies within the State, Territory, or Tribe.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State, local, and Tribal Governments. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The grant application, including a Program Plan, must be submitted to the appropriate EPA Regional Administrator. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. Additional information on the EPA grant package can be found at:
http://www.epa.gov/ogd/grants/how_to_apply.htm.

Award Procedure:

The grant application and Program Plan are reviewed by the appropriate EPA

Regional Office, and if approved, are signed by the Regional Administrator, who then awards the funds to the recipient.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Maximum of 60 days.

Appeals:

Disputes will be resolved under 40 CFR Parts 30.63 or 40 CFR Part 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Safe Drinking Water Act of 1974, Public Law 93-523. Matching Requirements: State allotments are computed through use of a formula, as prescribed in Public Law 93-523 Section 1443 (a)(3) and (a)(4), 40 CFR 35.172. Funds appropriated each year are allotted on the basis of: (a) State, Territory, or Tribal population (20 percent) as contained in the most currently available (published) U.S. Census Bureau data; (b) State, Territory, or Tribal geographical area (10 percent) as contained in the most currently available (published) U.S. Census Bureau data; (c) the number of active community and non-transient non-community water systems being regulated by the State, Territory, or Tribe that are on record in EPA's data system (56 percent); and (d) the number of active transient non-community water systems being regulated by the State, Territory, or Tribe that are on record in EPA's data system (14 percent). All States, the District of Columbia, and Puerto Rico are eligible for a minimum of \$334,500 (which is equal to 1 percent of the FY 1989 PWSS Program appropriation). The American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands are eligible for a minimum of \$111,500 (which is equal to 1/3 percent of the FY 1989 PWSS Program appropriation). Up to seven percent of the amount appropriated for the PWSS Program is set-aside to support Public Water System Supervision programs on Indian lands (including grants to Tribes) in accordance with EPA Grant Regulations. The formula factors of population and land area are statutory. The other factors, and all of the weightings, are Agency imposed. Federal assistance is limited to 75 percent of total, eligible program costs.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Annual grants. There is no restriction placed upon the time permitted to spend the award. Awards are released through letters of credit or reimbursement. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report or until any audit exceptions have been resolved.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: During FY 10, 49 States, five territories, one Indian Tribe, and the District of Columbia were awarded grant funding under the PWSS Program. The majority of the grant funds were used for State, territorial, or Tribal governmental salaries to allow the governments to: develop and maintain State drinking water regulations; develop and maintain an inventory of public water systems throughout the State; develop and maintain a database housing compliance information on public water systems; conduct sanitary surveys on the public water systems; review public water system plans and specifications to ensure systems meet State design standards; provide technical assistance and training to water system managers and operators to ensure they are knowledgeable of the State requirements and best treatment and operation practices; conduct a program to ensure that the public water systems keep their consumers informed about the quality of the water they are providing; inspect and certify laboratories that are allowed to perform the analysis of drinking water that will be used to determine compliance with the drinking water regulations; and conduct an enforcement program to ensure that the public water systems comply with all of the requirements. States, territories, and Tribes also use the grant funds to upgrade and maintain the data systems that are used to store and track information on public water systems. Fiscal Year 2011: In FY 11, grants will continue to focus on supporting projects to achieve the objective of protecting human health by reducing exposure to contaminants in drinking water, including protecting source waters. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Funding will be awarded to each of the 49 States, five territories, and one Indian Tribe that has primary enforcement responsibility for the PWSS Program. The grants will be used by these governments, primarily for governmental salaries to: develop State drinking water regulations, inventory drinking water systems, manage information on public water systems, ensure public participation regarding drinking water systems, provide technical assistance to public water systems, and enforce drinking water quality standards. Fiscal Year 2011: Funding will be awarded to each of the 49 States, five territories, and one Indian Tribe that has primary enforcement responsibility for the PWSS Program. The grants will be used by these governments, primarily for governmental salaries to: develop State drinking water regulations, inventory drinking water systems, manage information on

public water systems, ensure public participation regarding drinking water systems, provide technical assistance to public water systems, and enforce drinking water quality standards. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

(1) Adequacy of State's annual program plan for the adoption and enforcement of drinking water regulations which are no less stringent than the national primary drinking regulations. (2) Designation of a State agency to receive the grant and be responsible for conducting the public water system supervision program. (3) Compliance with requirements of 40 CFR 30 and 40 CFR 35.

66.433 STATE UNDERGROUND WATER SOURCE PROTECTION

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act Amendments of 1986, Public Law 99-339; Safe Drinking Water Act Amendments of 1996, Public Law 104-182, 42 U.S.C 300; Safe Drinking Water Act of 1974, Public Law 93-523; Safe Drinking Water Act of 1974, Public Law 96-502; Safe Drinking Water Act of 1974, Public Law 96-63.

OBJECTIVES:

To foster development and implementation of underground injection control (UIC) programs under the Safe Drinking Water Act (SDWA). The objective of the grant program is to provide financial assistance, to eligible States and Tribes, for the implementation of their UIC Program. The fundamental goal of the program, and the grants, is to ensure that underground sources of drinking water are protected from endangering injection activities.

Funding Priority - Fiscal Year 2011: The program will fund the major components of State UIC programs which include: the development and maintenance of inventories of injection systems; the development and maintenance of databases housing compliance information on underground injection well activities; the implementation of UIC permitting activities; and the implementation of enforcement programs to ensure that underground sources of drinking water are protected from endangering injection activities.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

The funds are to be used to develop and implement an underground injection control program adequate to enforce the requirements of the Safe Drinking Water Act. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States and Indian Tribes that qualify as Programs that have delegated primary Enforcement Authority pursuant to SDWA amendments of 1986.

Beneficiary Eligibility:

States and Indian Tribes.

Credentials/Documentation:

. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. OMB Circular No. A-87 applies to this program.

Preadaptation Coordination:

Applications are subject to State and area wide clearinghouses review pursuant to procedures in the proposed 40 CFR Part 19. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102,

must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The grant application must be submitted to the appropriate EPA Regional Administrator. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 95-217, 33 U.S.C 1251; National Environmental Policy Act, Section 102(2)(F).

OBJECTIVES:

To support the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution.

Funding Priority - Fiscal Year 2011: Funding priorities include, but are not limited to training, surveys, studies, investigations, and demonstration projects to support water quality improvement, watershed planning and management, nonpoint source planning, wetlands protection, coastal and estuarine planning, treatment technologies, water efficiency, and environmental management systems.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs in approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. The funds will support conducting and promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution. Specific uses and restrictions on funds will be described in detail in the competitive announcements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Applicant Eligibility:

Assistance under this program is generally available to States, local governments, territories, Indian Tribes, and possessions of the U.S. (including

the District of Columbia); public and private universities and colleges; hospitals; laboratories; public or private nonprofit institutions; intertribal consortia; and individuals. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. An intertribal consortium must meet the definition of eligibility in the Environmental Program Grants for Tribes Final Rule, at 40 CFR 35.504 (66 FR 3782, January 16, 2001) (FRL-6929-5) and be a non-profit organization within the meaning of OMB Circular A-122. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, Indian Tribes, universities and colleges, hospitals, laboratories, other public and private nonprofit institutions, and individuals.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principal investigators to provide curriculum vitae and relevant publications. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

EPA awards grants and cooperative agreements supporting surveys, studies, and investigations based on competitive applications submitted in response to EPA solicitations, considering relevance and likelihood of success of proposed projects. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. 66.437 LONG ISLAND SOUND PROGRAM

Long Island Sound Study (LISS)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 119(d).

OBJECTIVES:

To (1) implement the Long Island Sound Study (LISS) Comprehensive

Conservation and Management Plan (CCMP) and (2) assist the states of Connecticut and New York, and other public or nonprofit entities in conducting research, experiments, investigations, training, demonstration, surveys, or studies related to reducing pollution and improving the quality of the environment to sustain living resources in Long Island Sound.

Funding Priority - Fiscal Year 2011: EPA's funding priority is to award grants that support the Long Island Sound Study (LISS) National Estuary Program. Section 119(d) of the Clean Water Act as amended by the Long Island Sound Restoration Act of 2000, P.L. 106-457 authorizes the Administrator to award grants to eligible entities to implement the LISS Comprehensive Conservation and Management Plan (CCMP), with special emphasis on implementation, research and planning, enforcement, and citizen involvement and education projects. The LISS management conference, with participants from state, interstate and regional environmental agencies, local governments and other public or nonprofit private agencies, research institutions and individuals, develops programs to protect and restore Long Island Sound. The LISS program characterizes the problems in the estuary, determines relationships between pollutant loading and impacts on living resources, maintains a comprehensive plan recommending solutions to priority problems, and implements actions addressing priority problem areas. Activities in FY11 will focus on six areas identified in the plan as requiring special attention, including: the impact of hypoxia on aquatic life, effects of toxic contamination, pathogen contamination and floatable debris pollution on the living resources and environment of the Sound, the impact of habitat degradation on the health of living resources, land use and development policies and their effect on the ecology, and scientific research in support of these areas as appropriate.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds may be used to implement elements of the LISS CCMP. Special emphasis shall be given to CCMP implementation projects, research and planning, enforcement, and citizen involvement and education projects. The Administrator may give priority to a distressed community as defined in 33 USC 1269(e)(1). Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website:
<http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State, interstate, and regional water pollution control agencies, and other public or nonprofit private agencies, institutions, and organizations are eligible. Private profit-making entities, and individuals, are not eligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Assistance under this program generally benefits state, interstate, and regional water pollution control agencies and other public or nonprofit private agencies, institutions, and organizations. The general public and Long Island Sound user groups such as swimmers, beach goers, sport and commercial fishermen, boaters, and shellfishes, benefit from the results of the program through cleaner water, restored and protected habitat, and preserved and enhanced ecosystems.

Credentials/Documentation:

Nonprofit private agencies, institutions and organizations may be required to provide documentation of their organizational status upon application. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

The EPA Long Island Sound Office (LISO) issues annual guidance on the form and content of pre-proposals. All pre-proposals or work statements should be consistent with LISO's guidance. Consultation or technical assistance may be available upon request from the LISO to aid applicants in preparing their pre-proposal. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. An environmental impact statement or environmental impact assessment is not required for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The EPA LISO annually releases a request for base program pre-proposals in the Fall. Pre-proposals are due to the LISO generally by early January or as specified in guidance. The LISS management committee reviews pre-proposals in late January to identify areas of concern and to request additional information or clarification on proposals through the LISO. The LISO coordinates review of pre-proposals among the several LISS technical work groups and teams to ensure consistency with program goals and objectives as outlined in the CCMP and other priorities as directed by the management committee. If necessary, applicants are contacted by the LISO to provide the additional information or clarification. The LISO coordinates review of the revised proposals and develops funding recommendations for the management committee's consideration in April. The management committee makes final recommendations on funding pre-proposals at that time, or as otherwise specified. Applicants are advised of the status of their request by the LISO within 30 days of the management committee's final decisions. Successful applicants are required to submit formal grant applications using the standard federal grant application forms. The deadline for submitting applications may vary by EPA Region, but is generally June 1. Applications not received by the deadline are not further considered for funding. Unallocated funds are carried over or otherwise used to further the purposes of this program at the discretion of the management committee. Federal grant application forms may be obtained on the EPA website, <http://www.epa.gov/ogd/AppKit/index.htm> or requested from either the EPA Region I or II grants management office as follows: for Connecticut, EPA Region I, Grants Management Office, 5 Post Office Square, Boston, MA 02109; for New York, EPA Region II, Grants and Contracts Management Branch, 290 Broadway, New York, NY 10007-1866. The standard federal grant application forms as required by OMB Circular No. A-102 must be used for this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. The completed grant application should be submitted to the appropriate EPA Regional grants management office, with a copy to the LISO to assist with processing.

Award Procedure:

Each federal assistance application and final work plan will be evaluated by the LISO to determine the adequacy of the application under LISS priorities and objectives, including technical merit and relevance of the project to the implementation of the CCMP and for consistency with the pre-application proposal. Each federal assistance award application will also be subject to an administrative review by the EPA Region I or II grants management office as appropriate. Funds are awarded by the EPA Region I or II Administrator as appropriate. Grantees will receive a final assistance award package from the appropriate EPA Regional grants management office that must be accepted and signed by an authorized official of the recipient organization and returned to the GMO as specified in the EPA award document. Awards may be made on an advance or reimbursement basis. Awards that are not signed and returned by the deadline specified in the assistance award document may be subject to cancellation. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms,

conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Notification of action on pre-proposals is provided approximately 120 days after deadline for pre-proposal submission. Final grantees are notified of approval approximately 90 days after the submission of the application for federal assistance.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Renewals are subject to approval of EPA.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Federal costs for citizen involvement and education grants shall not exceed 95 percent of the costs of such work; for all other grants and cooperative agreements, federal costs shall not exceed 50 percent of the research, studies, or work. EPA has determined that annual matching requirements for LISS grant awards shall be met in the aggregate for all funds awarded as specified in the approved annual work plan. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements are generally made for a one-year period corresponding to the federal fiscal year, October-September. Awards may be made for longer periods upon justification and with the approval of EPA. Awards may be made by advance or reimbursement at the discretion of EPA. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements require semi-annual and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related

records should be retained until the matter is completely resolved.

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.439 TARGETED WATERSHEDS GRANTS

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Consolidated Appropriations Act 2005, Public Law 108-447; Dept. of Interior, Environmental and Related Agencies Appropriations Act, 2006, Public Law 109-54; Continuing Appropriations Resolution 2007, Public Law 110-5; Consolidated Appropriations Act 2008, Public Law 110-161.

OBJECTIVES:

To support innovative, community-based watershed approaches aimed at preventing, reducing, or eliminating water pollution. The Targeted Watersheds Grant Program provides resources in the form of grants or cooperative agreements to support watershed organizations in their efforts to expand and improve existing water protection measures. In separate competitive announcements funds are awarded to assist watershed partnerships comprised of State, Tribal, local, and interstate agencies, and public or nonprofit organizations in developing, implementing, and demonstrating: 1) on-the-ground projects to improve or maintain water quality; and 2) organizational and technical capacity building projects to prime organizations to be in a position to implement on-the-ground watershed projects.

Funding Priority - Fiscal Year 2011: To build upon the existing activities of watershed organizations to engage communities in capacity building activities to foster an increased connection, understanding, and ownership of their waters.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds are used to support both on-the-ground and educational activities relating to the prevention, reduction, and elimination of water pollution. Funds are awarded to eligible entities that best meet the selection criteria described in the Request for Proposals. Successful candidates will have a thorough knowledge of their watershed, have a watershed management plan in place, propose a

specific project to address identified problems or barriers to water quality, demonstrate broad-based support from a number of public and private entities, and have a demonstrated record of managing watershed project(s). Eligible activities should be able to show tangible outputs and outcomes within a relatively short time period of two to five years. For implementation grants, candidates must also have a specific water quality monitoring and evaluation plan demonstrating measurable environmental outputs and outcomes, and a strong peer and/or public outreach and education component. EPA has chosen to declare certain projects or activities ineligible for funding. These include activities required or regulated under the CWA. For example, activities for the development of Total Maximum Daily Loads (TMDLs) and Phase II Stormwater projects will not be funded. Activities implementing the non-regulatory component of TMDLs (e.g., the elements of a watershed plan that address non-point source pollution), however, are eligible. Specific uses and restrictions on funds will be described in detail in the competitive announcements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States, local governments, public and private nonprofit institutions/organizations, federally recognized Indian tribal governments, U.S. territories or possessions, and interstate agencies are eligible. For-profit commercial entities and all federal agencies are ineligible. Nonprofit organizations described in Section 501 (c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Anyone/General Public.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants will be required to submit a formal grant application. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-110 and A-102 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mail Code 3903R, Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the

Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Regional or Headquarters review will typically be completed within approximately 120 - 150 days following the deadline for submissions.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Applicants are required to demonstrate a minimum non-federal match of 25% of the total cost of the project or projects. Match may be cash or in-kind consistent with the regulation governing match requirements (40 CFR 31.24 or 40 CFR 30.23). Tribes and tribal watershed groups may be exempt from this match requirement if they are constrained to such an extent that fulfilling the match requirement would impose undue economic hardship. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the

final expenditure report. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

Western Estuaries Initiative: FY 10 \$0; FY 11 est. \$283,660; and FY 12 est. \$0. Urban Waters Initiative: FY 11 \$600,000; and FY 12 est. \$0.

Range and Average of Financial Assistance:

National Targeted Watersheds Grant Program: \$400,000 to \$900,000/fiscal year; \$650,000/fiscal year.

Western Estuaries Initiative: \$90,000 to \$280,000/fiscal year; \$185,000/fiscal year.

Urban Waters Initiative: \$600,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: The Targeted Watersheds Grant program builds on the successes of existing partnerships that are ready to implement actions to protect critical watersheds. In the next few years, EPA will see environmental results such as the return of native fish species, clearer lakes, and increased recreational opportunities. EPA issued a competitive announcement in FY 10 to engage communities in capacity building activities to foster an increased connection, understanding, and ownership of their waters. Fiscal Year 2011: In FY 11, 1 award for \$600,000 was made to establish and manage a national-scale, competitive urban watershed subaward program and provide urban watershed technical services to subawardees. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

For grants and agreements with States, local governments and Indian tribal governments, the procedures and requirements should be in conformance with 40 CFR Part 31 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments", 40 CFR Part 35, "Environmental Program Grants-State, Interstate, and Local Governments Agencies" and OMB Circular Nos. A-87 "Cost Principles for State and Local Governments" and A-102, "Grants and Cooperative Agreements for States and Local Governments." For grants and agreements with other entities the procedures should be in conformance with 40 CFR Part 30, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Nonprofit Organizations."

66.440 URBAN WATERS SMALL GRANTS

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 95-217, 33 U.S.C 1251; National Environmental Policy Act, U.S.C 102(2)(F).

OBJECTIVES:

The objective of EPA's Urban Waters Program is to protect and restore America's urban waterways. EPA's funding priority is to achieve the goals and commitments established in the Agency's Urban Waters Strategic Framework (<http://www.epa.gov/urbanwaters/StrategicFramework.pdf>). This program has an emphasis on engaging communities with environmental justice concerns.

The objective of the Urban Waters Small Grants is to fund projects that will foster a comprehensive understanding of local urban water issues, identify and address these issues at the local level, and educate and empower the community. In particular, the Urban Waters Small Grants seek to help restore and protect urban water quality and revitalize adjacent neighborhoods by engaging communities in activities that increase their connection to, understanding of, and stewardship of local urban waterways.

Funding Priority - Fiscal Year 2011: In Fiscal Year (FY) 2011, EPA's funding priority for Urban Waters Small Grants is to fund projects that improve water quality by conducting or promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Implementation projects are not eligible for funding.

Funding Priority - Fiscal Year 2012: In FY 2012, EPA's funding priority for Urban Waters Small Grants is to fund projects that improve water quality by conducting or promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Implementation projects are not eligible for funding.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs in approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. The funds will support conducting and promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution. Specific uses and restrictions on funds will be described in detail in the competitive announcements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official Government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under the Urban Waters Small Grants is generally available to States, local governments, territories, Indian Tribes, and possessions of the U.S. (including the District of Columbia), public and private universities and colleges, public or private nonprofit institutions, intertribal consortia, and interstate agencies. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. An intertribal consortium must meet the definition of eligibility in the Environmental Program Grants for Tribes Final Rule, at 40 CFR 35.504 (66 FR 3782, January 16, 2001) (FRL-6929-5) and be a non-profit organization within the meaning of OMB Circular A-122. The OMB Circular A-122 is available at http://www.whitehouse.gov/omb/circulars_a122_2004/

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Residents of urban areas adversely impacted by water pollution, State and local governments, U.S. territories and possessions, Indian Tribes, other public and private nonprofit institutions, intertribal consortia, and interstate agencies.

Credentials/Documentation:

EPA may request that applicants demonstrate their eligibility. Documentation of nonprofit status may be required. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

EPA awards grants and cooperative agreements supporting surveys, studies, and investigations based on competitive applications submitted in response to EPA solicitations, considering relevance and likelihood of success of proposed projects. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Matching requirements, if any, will be described in the competitive announcement. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

EPA may negotiate the project period with each applicant based on project requirements. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized

representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (non-profits and universities) or 40 CFR Part 31 (governmental units) are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 10 \$0; FY 11 est \$1,800,000; and FY 12 est \$2,000,000 - The actual obligations will not take place until assistance is actually awarded, which is likely to be in FY 2012. Additional funds from the Agency's FY 2012 appropriation may be obligated to this program. The amount of such obligations cannot be determined until the FY 2012 appropriations law has been enacted and signed and the Agency has reviewed its plans in light of the actual appropriation received.

Range and Average of Financial Assistance:

Approximately \$40,000 to \$60,000/fiscal year; \$50,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: This is a new program. Fiscal Year 2011: Competitions are held based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement will include the number of anticipated awards. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Surveys, studies, investigations, demonstrations, and training grants and cooperative agreements are subject to EPA's General Grant Regulations (40 CFR Part 30 and 40 CFR Part 31). Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments and Indian Tribes (codified at 2 CFR Part 225), OMB Circular No. A-21 for educational institutions (codified at 2 CFR Part 220), and OMB Circular No. A-122 for nonprofit institutions (codified at 2 CFR Part 230).

66.454 WATER QUALITY MANAGEMENT PLANNING

(205(j)(2)) or 604(b)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009, Public Law 111-5; Water Quality Act of 1987, Public Law 100-4; Clean Water Act, Section 205(j)&604(b), Public Law 97-117.

OBJECTIVES:

To assist States (including territories and the District of Columbia), Regional Public Comprehensive Planning Organizations (RPCPOs), and Interstate Organizations (IOs) in carrying out water quality management (WQM) planning.

Funding Priority - Fiscal Year 2011: Funds are allotted by State in accordance with Section 604(b) of the Clean Water Act. Grant funds are used to determine the nature and extent of point and non-point source water pollution and to develop water quality management plans. States are encouraged to give priority to watershed restoration planning. EPA is requesting States to emphasize a watershed approach in developing their State workplans. This will complement the Agency's overall watershed effort as stated in the Agency's Strategic Plan. Grant funds to determine the nature and extent of point and non-point source water pollution and to develop water quality management plans were also made available under the American Recovery and Reinvestment Act (Recovery Act) of 2009. EPA encouraged States to use Recovery Act funds to conduct appropriate planning activities with regard to green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Section 604(b) funds are awarded under Section 205(j)(2) to State water quality management agencies to carry out WQM planning. Pursuant to Section 205(j)(3) of the CWA, as amended, States are required to allocate at least 40 percent of funds awarded under 205(j)(2) to eligible RPCPOs and IOs. EPA may approve a State's request to pass through less than 40 percent if, after consultation with its RPCPOs and IOs, the Governor determines that pass through of at least 40 percent will not: (1) result in significant participation by RPCPOs and IOs in WQM planning; and (2) significantly assist in development and implementation of the state's WQM plan. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State Water Quality Management Agencies.

Beneficiary Eligibility:

State Water Quality Management Agencies.

Credentials/Documentation:

Compliance with 40 CFR 31. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. Neither environmental impact statements nor environmental impact assessments are required for activities funded under Section 205(j) and 604(b) since these funds are used for water quality planning and not implementation. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The grant application must be submitted to the appropriate EPA Regional Administrator's Office. This program is excluded from coverage under OMB Circular No. A-110. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm.

Award Procedure:

Grant applications are reviewed by the appropriate EPA Regional Office and, if approved, the funds are awarded by the Regional Administrator.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 45 days.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Clean Water Act. Each fiscal year, the Administrator shall reserve under Section 604(b) of the CWA for each State an amount not to exceed one percent of the amount allotted and available for obligation for Clean Water State Revolving Fund or \$100,000, whichever is greater, for the purposes of making grants to the States to carry out water quality management planning. Under Section 205(j)(3), at least 40 percent of a State's annual award under 205(j)(2) must be allocated to eligible RPCPOs and IOs, unless EPA approves a lesser amount. The program has no matching requirements.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

As determined in accordance with Section 604(c)(1) of the Clean Water Act (CWA). Sums allotted to a State under this section for a fiscal year shall be available for EPA's obligation to the State during the fiscal year for which sums are authorized and during the following fiscal year. Recovery Act funds are available for EPA's obligation to the State until September 30, 2010. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. For Recovery Act funds, funding reports must be submitted in a prescribed format within 10 calendar days after the end of each calendar quarter, beginning October 10, 2009. These reports will include data elements as prescribed by Public Law 111-5, Section 1512 and OMB Guidance. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records kept for 3 years from date of submission of the annual financial status report. If questions remain, records retained until matter is completely resolved.

Range and Average of Financial Assistance:

\$100,000 to \$2,200,000/fiscal year; \$369,321/fiscal year. Recovery Act funds - \$100,000 to \$4,369,100/fiscal year; \$708,786/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Section 604(b) funding provides the financial source for States and territories to pursue water quality planning under Sections 205(j) and 303(e) of the Clean Water Act. This program provides a planning framework to support watershed restoration and protection activities. In FY 10, a total of 56 grants were awarded to States and territories to support water quality planning activities. Outputs included new/updated water quality management plans, new/revised water quality standards, Total Maximum Daily Loads (TMDLs), ambient monitoring data to support water quality assessments, and integrated 304(b)/303(d) reports. Fiscal Year 2011: In FY 11, it is anticipated that 56 State and territorial grants will be awarded to support water quality planning activities. Anticipated outputs include consistency reviews of NPDES Permits, development of Watershed Management plans, river planning projects, and Total Maximum Daily Loads (TMDL) plans. 66.456 NATIONAL ESTUARY PROGRAM

(NEP)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Title 3, Section 320, Public Law 94-117, 33 U.S.C 466; Clean Water Act, Title 3, Section 320, Public Law 106-457, 33 U.S.C 466.

OBJECTIVES:

The National Estuary Program (NEP) goal is to protect and restore the water quality and estuarine resources of estuaries and associated watersheds designated by the EPA Administrator as estuaries of national significance. The NEPs work to implement estuarine ecosystem-based management; for example, each NEP characterizes the priority problems in its estuary and surrounding watershed, develops a Comprehensive Conservation and Management Plan listing and describing actions to address those problems, and identifies partners, including lead entities, to implement the actions. Actions include: protecting and restoring habitat, including wetlands; supporting Total Maximum Daily Load (TMDL) plan implementation; monitoring for and assessing the extent of toxics and pathogen contamination; implementing stormwater management and reducing non-point source pollution impacts; preventing the spread of aquatic invasive species and/or managing their impacts; developing and implementing nutrient reduction strategies; developing and implementing climate change adaptation strategies and tools; and developing and implementing strategies to provide opportunities for residents of urban minority and/or under-served communities to have greater access to urban waters, participate in urban ecosystem restoration, and participate in capacity-building/educational activities.

Funding Priority - Fiscal Year 2011: EPA's funding priority is to award assistance agreements that support the 28 National Estuary Programs (NEPs) efforts to address their estuarine watersheds priority problems identified in each of the 28 long-term management plans known as Comprehensive Conservation and Management Plans (CCMPs). EPA will provide focused support for NEPs to address priority problems identified by NEP management conferences, and document accomplishments and environmental results. NEP efforts address such problems as: (1) impacts of stormwater runoff on estuarine water quality; impacts include excess nutrient loading to water bodies which can result in nutrient over-enrichment and hypoxic conditions, and excess sedimentation; (2) habitat loss/degradation; (3) impacts on water quality and living resources from toxic chemical, heavy metal, and pathogen contamination; (4) need to build the capacity of local public officials and managers in estuarine communities to implement sustainable land use, green infrastructure, and low-impact development best practices; (5) need to build local capacity to control and manage aquatic invasive species impacts on ecosystems, public health, and economic well-being; and (6) need to build Tribal, regional, and local offices capacity to address climate change impacts on estuarine watersheds and promote community resilience; activities that build capacity include vulnerability assessments of communities, and local development and implementation of climate adaptation strategies and programs.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Section 320 authorizes issuance of assistance agreements used to meet Section 320 requirements to develop and implement CCMPs. Annual workplans, which address priority actions in the CCMPs, lay out projects to be undertaken during the fiscal year. They are developed and approved by each management conference. Twenty-eight estuaries have been designated as estuaries of national significance, including: Long Island Sound, Puget Sound, Buzzards Bay, Narragansett Bay, New York-New Jersey Harbor, Delaware Bay, Delaware Inland Bays, Sarasota Bay, Galveston Bay, Santa Monica Bay, Albemarle-Pamlico Sounds, San Francisco Estuary, Casco Bay, Massachusetts Bays, Indian River Lagoon, Tampa Bay, Peconic Bay, San Juan Bay, Coastal Bend Bays, Tillamook Bay, the Barataria-Terrebonne Estuarine Complex, New Hampshire Estuaries, Barnegat Bay, Maryland Coastal Bays, Charlotte Harbor, Mobile Bay, Morro Bay, and Columbia River Estuary. NEPs and their partners carry out such actions as: (1) protecting and restoring habitat; (2) identifying

research needs and conducting research as needed to obtain new data to address priority problems; (3) monitoring estuarine conditions to detect changes in water quality; and (4) providing technical assistance to States and local communities to address impacts from nutrient over-enrichment, stormwater, sedimentation, toxics, pathogens, and aquatic invasive species and to develop climate change adaptation strategies and tools. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance agreements are issued only to those estuaries designated by the Administrator. The Administrator is authorized to make grants to State, interstate, and regional water pollution control agencies and entities; State coastal zone management agencies; interstate agencies; and other public and private nonprofit agencies, institutions, organizations, and individuals (Section 320(g)(1)). Profit making organizations are not eligible for grants. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Anyone/General Public.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments, OMB Circular No. A-21 for educational institutions, and OMB Circular No. A-122 for nonprofit organizations. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication assistance may be obtained from the appropriate EPA Regional Office. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. All work plans should be developed in response to the priority tasks identified in the management conference annual work plan. Work plans should also be developed in response to negotiated schedules for commitments to meet the purpose of a management conference outlined in the Act for the estuary. Each work plan will be considered by the appropriate management conference and the EPA Regional program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. The completed application, including the final proposal approved by the estuary management committee,

should be submitted to the appropriate Regional program office for processing. This program is subject to the provisions of OMB circular No. A-110. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Each application is reviewed by EPA Regional Offices to determine the adequacy of the application under grant regulations and National Estuary Program objectives, including technical merit and relevance of the project. Awards are issued by the EPA Regional Offices after approval by the appropriate Division Director. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 days after deadline for application submission.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Renewals are subject to approval of the individual estuary management organization. Contact the appropriate EPA Regional office for guidance.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Public Law 106-457, which amended Section 320(g) of the Water Quality Act of 1987, limits the amount of grants to 75 percent of the aggregate CCMP development project costs for each estuary program and to 50 percent of the aggregate CCMP implementation project costs for each estuary program, and requires that the nonfederal share be provided from nonfederal sources. The nonfederal share can be contributed by any of the participants in the management conference. Contact the appropriate management conference program office or EPA Regional Office for more information.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements are typically funded on a 12-month basis (yearly). Project period may cover up to 36 months, with continuations possible for certain types of projects. Payments will be on a letter of credit or advance basis. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and inventory reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that

year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of 3 years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

(Project Grants) FY 10 \$20,541,900; FY 11 est \$27,233,000; and FY 12 est \$17,117,000

Range and Average of Financial Assistance:

For FY 10, each of the NEPs received base funding in the amount of \$800,000. For FY 11, each of the NEPs will receive base funding in the amount of \$598,800.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Maintaining high-quality habitat is one way of ensuring the health of the nation's estuaries. Since 2000, the NEPs and their partners have protected and restored over 1.3 million acres of habitat in the 28 NEP estuarine watersheds. The acreage protected and restored by the NEPs and their partners enhances the 28 NEPs capacity to support healthy populations of wildlife and near-coastal and marine organisms, including many commercially-valuable shellfish and finfish. That acreage also enhances the 28 estuarine watersheds capacity to support the economic and ecosystem services and aesthetic qualities provided by estuarine environments and on which coastal populations depend for their livelihoods and well-being. In FY 10, the NEPs and their partners protected and restored over 89,000 acres of estuarine habitat in their estuarine watersheds. Fiscal Year 2011: In FY 11, grants will support the NEPs CCMP implementation by funding NEP efforts that include: protecting and restoring up to 100,000 acres of estuarine habitat; conducting vulnerability assessments and/or implementing climate adaptation strategies in over 50% of NEP study areas and collaborating with other EPA programs and with agencies like the National Oceanographic and Atmospheric Administration to build Tribal, regional, and local coastal community resilience to impacts of climate change on coastal ecosystems, public health, and economies; participating in major federal - non-federal assessments of the causes of coastal wetland loss, results of which will lay a foundation for development of science-based strategies to protect wetlands; building local capacity to reach out to and involve members of urban communities who have typically not been actively engaged in urban water body protection and restoration. CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Grants are awarded to the NEPs that satisfy the requirements outlined in the application procedure section.

66.458 CAPITALIZATION GRANTS FOR CLEAN WATER STATE REVOLVING FUNDS

(CW State Revolving Fund)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009, Public Law 111-5; Water Quality Act of 1987, Section 601-607,205(m), Public Law 100-4; Clean Water Act (CWA), as amended, Public Law 95-217.

OBJECTIVES:

To create State Revolving Funds (SRFs) through a program of capitalization grants to States which will provide a long term source of State financing for construction of wastewater treatment facilities and implementation of other water quality management activities.

Funding Priority - Fiscal Year 2011: Capitalization grants are available to each

State for the purpose of establishing a Clean Water SRF for providing assistance for: (1) construction of publicly owned wastewater treatment works; (2) implementing nonpoint source management activities included in State Plans developed pursuant to Section 319; and (3) developing and implementing an estuary comprehensive conservation and management plan under Section 320. The capitalization grant is deposited in the State's SRF, which is used to provide loans and other types of financial assistance, to local communities and intermunicipal and interstate agencies. Up to 4 percent of the grant amounts may be used by the States for the cost of administering the SRF. States determine priorities for funding within their State in accordance with the CWA. Capitalization grants to each State were also made available under the American Recovery and Reinvestment Act (Recovery Act) of 2009. A portion of the Recovery Act funding were targeted toward green infrastructure, water and energy efficiency, and environmentally innovative projects. Similar to the Recovery Act, a portion of the FY 2011 funding must be targeted toward green infrastructure, water and energy efficiency, and environmentally innovative projects. The program supports the Agency's strategic goal of ensuring Clean and Safe Water.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Capitalization grants are available to each State for the purpose of establishing a Clean Water SRF for providing assistance for: (1) construction of publicly owned wastewater treatment works; (2) implementing nonpoint source management activities included in State Plans developed pursuant to Section 319; and (3) developing and implementing an estuary conservation and management plan under Section 320. The capitalization grant is deposited in the state's SRF, which is used to provide loans and other types of financial assistance, but not grants, to local communities and intermunicipal and interstate agencies. Assistance may be provided to persons for implementing nonpoint source and estuary management activities provided for in State Plans developed under Sections 319 and 320. Up to 4 percent of the grant amounts may be used by the states for the cost of administering the SRF. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States and Puerto Rico are eligible to receive capitalization grants under Title VI. Indian tribes are eligible to receive grants from Title VI for the construction of municipal wastewater facilities. The District of Columbia, territories, possessions of the U.S. are eligible to receive grants from Title VI for the construction of municipal wastewater facilities (see CFDA 66.418).

Beneficiary Eligibility:

For loans and other financial assistance (but not grants) for wastewater treatment facilities: local communities, intermunicipal, State, interstate agencies, and Indian tribes. For nonpoint source management programs and estuary activities in approved State Nonpoint Source Management Programs and Comprehensive Conservation and Management Plans: the public agencies listed above, individuals, and programs.

Credentials/Documentation:

To receive a capitalization grant, a State shall enter into an agreement with the EPA Regional Administrator which shall include, but not be limited to, the 10 specifications set forth in Section 602(b) of the CWA. OMB Circular No. A-87, "Cost Principles Applicable to Grants and Contracts with State and Local Governments" applies to State grantees. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

An applicant (State) should seek preapplication assistance from the appropriate EPA Regional Office. The State is required to prepare and provide for public comment a plan identifying the intended uses of the funds in the SRF (an intended use plan) and how those uses support the goals of the SRF. The plan is to be submitted no later than the application. An environmental impact statement is not required prior to grant award; however, a State environmental review process must be applied to all subsequent state assistance for wastewater facilities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The standard application for EPA non-construction grant assistance (SF424-A and B) is submitted to the appropriate EPA Regional Office. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. The State must certify in its application that it has the legal, managerial, technical, and operational capabilities to administer the SRF program competently and that it will comply with Federal anti-discrimination laws and other applicable Federal statutes. Regulation 40 CFR Part 31 applies to the State. Establishment of the SRF is a prerequisite for a grant award.

Award Procedure:

A grant application is reviewed by the appropriate Regional Office and, if approved, the grant is awarded by the Regional Administrator under a delegation of authority from the Administrator of EPA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approval time averages 45 days.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

For those portions of the State program that do not change from year to year, a subsequent grant application may incorporate by reference relevant portions of the previous year's application which have not changed or an operating agreement approved by the region.

Formula and Matching Requirements:

Statutory Formula: Title Clean Water Act.

Matching Requirements: The Regional Administrator may award capitalization grants from funds appropriated for this purpose. Allotments to the States are determined by a table of decimal fractions ("formula") in Section 205(c)(3) of the CWA. The required State match is 20 percent of the amount of each Federal grant payment. For Recovery Act funds, the required State match of 20 percent of the amount of each Federal grant payment is waived. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Funds are available for EPA's obligation to the State during the fiscal year in which they are allotted and during the following year. Recovery Act funds are available for EPA's obligation to the State until September 30, 2010. The State must agree to enter into binding commitments with recipients to provide financial assistance from the SRF in an amount equal to 120 percent of each quarterly grant payment. The State is also required to agree to expend all funds in the SRF in an expeditious and timely manner. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

Beginning the first fiscal year after receiving payments, the State shall provide an annual report to the Regional Administrator in accordance with the schedule established in the grant agreement (generally not later than 90 days after the end

of the fiscal year in which the payments were received). The annual report shall describe how the State has met the goals and objectives for the preceding fiscal year, as identified in its intended use plan, including identification of loan recipients, loan amounts, and loan terms and similar details on other forms of financial assistance provided from the SRF. For Recovery Act funds, funding reports must be submitted in a prescribed format within 10 calendar days after the end of each calendar quarter, beginning October 10, 2009. These reports will include data elements as prescribed by Public Law 111-5, Section 1512 and OMB Guidance. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. A State must, at a minimum, comply with the provisions of the Single Audit Act Amendments of 1996, and the OMB Circular No. A-133 and Compliance Supplement. States are also encouraged to conduct annual independent audits. State-conducted audits may be performed in conjunction with the Single Audit Act. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

As part of the annual review conducted by the agency to assess the State's performance against activities identified in the intended use plan and annual report, and to determine compliance with the terms of the capitalization grant agreement, the State or loan recipient shall make available to EPA such records as the Regional Administrator reasonably requires to review and determine State compliance with the requirements of the CWA.

Account Identification:

Range and Average of Financial Assistance:

\$6,500,000 to \$147,000,000/fiscal year; \$26,000,000/fiscal year. Recovery Act funds - \$500,000 to \$175,000,000/fiscal year; \$28,000,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Each year, 51 grants are awarded to states and Puerto Rico. The program funds an estimated 10 to 20 percent of the nation's annual wastewater capital projects. The program has provided over \$84 billion in cumulative assistance since 1988. Assistance has included funding to prevent polluted runoff, upgrade wastewater treatment plants from secondary level treatment to advanced (tertiary) treatment to reduce pollutant loads, and improve water quality on a watershed basis. In FY 10, the program provided \$10 billion in assistance. This included \$2.9 billion for secondary treatment to reduce pollutant loads, \$2.0 billion to upgrade wastewater treatment plants from secondary level treatment to advanced (tertiary) treatment, and over \$2.0 billion to prevent polluted runoff. Fiscal Year 2011: Each year, 51 grants are awarded to states and Puerto Rico. Assistance in FY 11 will include funding to prevent polluted runoff, upgrade wastewater treatment plants from secondary level treatment to advanced (tertiary) treatment to reduce pollutant loads, and improve water quality on a watershed basis. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Program guidance was issued January 28, 1988. A State Revolving Fund Management Manual was distributed in November, 1988. Regulations include

40 CFR Part 31 and SRF regulations 40 CFR Part 35, Subpart K which were issued in March 1990.

CRITERIA FOR SELECTING PROPOSALS:

Grants are awarded to States that satisfy the requirements outlined in the application procedure section.

66.460 NONPOINT SOURCE IMPLEMENTATION GRANTS

(319 Program)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Title 3, Section 319(h).

OBJECTIVES:

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Pacific Trust Territories, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs.

Funding Priority - Fiscal Year 2011: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint Source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds are provided to eligible applicants to carry out nonpoint source projects

and programs pursuant to Section 319 of the Clean Water Act as amended by the Water Quality Act of 1987. Requirements under Section 319(h) include: nonfederal matching funds of at least 40 percent of project cost (match is an overall grant requirement; in a few cases, the match requirement for an individual project may be waived. In-kind services may be used as match); maintenance of effort; grants may be used for financial assistance to individual persons in the case of demonstration projects only; annual reporting; and EPA determinations of adequate recipient progress before additional funding. Currently applicable EPA guidelines issued on October 23, 2003, identify the basic process and restrictions for funding. These guidelines are available on the Web at:

<http://www.epa.gov/fedrgstr/EPA-WATER/2003/October/Day-23/w26755.htm>.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible entities include States and qualified Indian Tribes and intertribal consortia who have approved nonpoint source assessment and management plans. To be qualified, Tribes must have treatment in a manner similar to a state (TAS) status for the 319 Program. Grants to States are awarded by formula. The State allotment is awarded to a single agency in each State designated by the chief executive as the lead nonpoint source agency. The lead nonpoint source agency may distribute grant funds to other organizations in accordance with its work program, which is approved by EPA. Eligible Tribes are allocated a base allotment by formula; the remaining Tribal portion of the 319(h) appropriation is competed among qualified Indian Tribes and intertribal consortia. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments; interstate and intrastate agencies; federally recognized Indian tribal governments; intertribal consortia; the following US territory or possessions: the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Pacific Trust Territories, Virgin Islands; public and private nonprofit organizations and institutions. The lead nonpoint source agency may distribute grant funds to other organizations in accordance with a work program which is approved by EPA.

Credentials/Documentation:

The provisions of OMB Circular No. A-87 "Cost Principles for State, Local and Indian Tribal Governments" apply. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination with the appropriate EPA Regional Office, listed in Appendix IV of the Catalog, is recommended. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Grant applications by States must be submitted to the appropriate EPA Regional Office (refer to Appendix IV of the Catalog for a list of Regional Offices). Grant applications by subgrantees within a State (after EPA has made a grant award to the State) must be submitted to the State agency that administers Section 319 grants. The list of State nonpoint source contacts for subgrantees is available on the Web at <http://www.epa.gov/owow/nps/contacts.html>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Grant applications must be submitted by the State to the appropriate EPA Regional Office to determine the overall adequacy of the application to meet the statutory objectives. Funds are awarded to States by formula. Award procedure by States to subgrantees varies by State. The list of State nonpoint source contacts is available on the Web at <http://www.epa.gov/owow/nps/contacts.html>. Eligible Tribes get a base grant; Tribes compete for the rest of the Tribal portion of the total 319(h) appropriation. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

EPA generally awards grants to States within 60 days after the application is submitted.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Clean Water Act.

Matching Requirements: Nonfederal match of at least 40 percent of project or program costs is required except for grants to Indian Tribes, where following demonstration of financial hardship, the nonfederal match may be reduced to as low as 10 percent of project or program costs. States must also meet maintenance of effort requirements contained in statute. EPA awards grants to all eligible States and Tribes which apply for funding based on an allocation formula that the Agency developed. The allocation formula is described in current operational grant guidelines published in a Federal Register notice (68 FR 75776) issued on October 23, 2003. The guidelines can be found at <http://www.epa.gov/fedrgstr/EPA-WATER/2003/October/Day-23/w26755.htm>. This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

As determined in accordance with Section 319 (h). See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require interim and final progress reports, and expenditure/financial, equipment, and invention reports. Progress reports are generally required at least semi-annually. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be kept for three years from date of submission of the annual financial status report. If questions remain, records must be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 10 \$194,178,500; FY 11 est \$175,455,000; and FY 12 est \$164,757,000

Range and Average of Financial Assistance:

States/Territories: \$521,100 to \$10,302,300; \$3,443,900. Indian Tribes: base grants \$30,000 to \$50,000; competitive grants up to \$150,000. Ranges vary year-to-year based on size of appropriation (and also varies depending on number of applicants for grants to Indian Tribes or intertribal consortia).

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Grants are awarded annually to all States and selected Tribes. Grant funds were used by States and Tribes to implement portions of their NPS management programs. In FY 10, 56 grant awards were made to States and Territories. Additional information regarding selected projects is available in Section 319 Success Stories, available online at <http://www.epa.gov/owow/nps/Success319/>. An estimate of load reductions resulting from CWA Section 319(h) funded projects from the time period February 2010 - February 2011 is as follows: nitrogen - 9.7 million pounds; phosphorus - 2.6 million pounds; and sediment - 2.1 million tons. These load reduction totals are mostly from FY 10 grant funded projects. Fiscal Year 2011: Grants are awarded annually to all States and selected Tribes. Grant funds are used by States and Tribes to implement portions of their NPS management programs. Additional information regarding selected projects is available in Section 319 Success Stories, available online at <http://www.epa.gov/owow/nps/Success319/>. Data for FY 11 funded projects is not available at this time. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Current operational grant guidelines are Nonpoint Source Program and Grants Guidelines for States and Territories (Oct. 23, 2003). The guidelines can be found at <http://www.epa.gov/fedrgstr/EPA-WATER/2003/October/Day-23/w26755.htm>.

RELATED PROGRAMS:

66.419 Water Pollution Control State, Interstate, and Tribal Program Support

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Nonpoint Source implementation projects funded include BMP installation for animal wastes, sediment, pesticide and fertilizer control, urban runoff, and a variety of other structural and non-structural practices; watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others. Fiscal Year 2011: Nonpoint Source implementation projects funded include BMP installation for animal wastes, sediment, pesticide and fertilizer control, urban runoff, and a variety of other structural and non-structural practices; watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Funds are awarded to States in accordance with Section 319 (h). For selection processes within individual States, contact the appropriate State NPS coordinators. A list of these coordinators is available at: <http://www.epa.gov/owow/nps/contacts.html>.

66.461 REGIONAL WETLAND PROGRAM DEVELOPMENT GRANTS**FEDERAL AGENCY:**

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 92-500, 33 U.S.C 1254(b)(3).

OBJECTIVES:

To assist State, Tribal, local government (S/T/LG) agencies, and interstate/intertribal entities in building programs which protect, manage, and restore wetlands. The primary focus of the grants is to build state and tribal wetland programs. A secondary focus is to build local (e.g. county or municipal) programs.

Funding Priority - Fiscal Year 2011: Under the Regional Wetland Program Development Grant (WPDG) competition, EPA has identified the following four Core Elements for improving State/Tribe/local governments' (S/T/LGs) ability to protect and restore their wetlands: (1) Monitoring and Assessment; (2) Voluntary Restoration and Protection; (3) Regulatory Approaches Including CWA 401 Certification; and (4) Wetland-Specific Water Quality Standards. EPA will include as an appendix to each Regional Request For Proposals (RFP) a list of actions and activities under each Core Element that will develop or refine a S/T/LG's wetlands program. In addition, EPA has identified two funding Tracks. Track One is for States and Tribes that propose to develop a Wetlands Program Plan (WPP) as described at <http://water.epa.gov/type/wetlands/wpp.cfm> or carrying out projects from an EPA-approved WPPs. Track Two is for states, tribes, local governments, interstate agencies, intertribal consortia, and universities that are agencies of a state that submit proposals that are consistent with the Four Core Elements as described above. Regions may add additional Region specific priorities that are compatible and consistent with the core element(s) and action(s) in the attached Appendix of development and refinement actions.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

These grants are intended to encourage comprehensive wetlands program development by promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Projects build the capacity of States, Tribes, and local governments to effectively protect wetland and riparian resources. Projects funded under this program support the initial development of a wetlands protection, restoration, or management program or support

enhancement/refinement of an existing program. Interstate agency and intertribal consortia projects must be broad in scope and encompass more than one State, Tribe, or local government. The Regional Office will accept submissions only for projects that affect the States, Tribes, and Territories within their Region. Funds cannot be used for implementation of individual mitigation projects, mitigation banks, or in-lieu-fee mitigation programs. Additional uses and restrictions on funds will be described in detail in the competitive announcements. Projects that are national in scope are not eligible for funding under this Regional program but may be eligible for funding under EPA's National Wetland Program Development Grants program (CFDA 66.462). Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States, Tribes, local government agencies, interstate agencies, and intertribal consortia are eligible to apply to the Regions. Past recipients include, but are not limited to, wetland regulatory agencies, water quality agencies (Section 401 water quality certification), planning offices, wild and scenic rivers agencies, departments of transportation, fish and wildlife or natural resources agencies, agriculture departments, forestry agencies, coastal zone management agencies, park and recreation agencies, non-point source or storm water agencies, and city or county and other S/T/LG governmental agencies that conduct wetland-related activities. In order to be eligible for WPDG funds, Tribes must be federally recognized, although "Treatment as a State" status is not a requirement. The term "interstate agency" is defined in CWA Section 502 as "an agency of two or more States established by or pursuant to an agreement or compact approved by the Congress, or any other agency of two or more States, having substantial powers or duties pertaining to the control of pollution as determined and approved by the Administrator." Intertribal consortia that meet the requirements of 40 CFR Part 35.504 are eligible for direct funding. Intertribal consortia projects must be broad in scope and encompass more than one State, Tribe, or local government. Universities that are agencies of State government are eligible to receive funds through these competitions. Universities must include documentation showing that they are chartered as a part of State government in their proposal. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Applicants need not be located within the boundaries of the EPA regional office to be eligible to apply for funding but must propose projects that affect the States, Tribes, and Territories within the Region.

Beneficiary Eligibility:

State, Tribal, and local governments involved in administering wetlands protection, restoration and/or management programs, or programs related to or complement wetlands protection programs.

Credentials/Documentation:

Tribes may be asked to demonstrate that they are Federally recognized. Interstate organizations may be asked to provide a citation to the statutory authority which establishes their status. Intertribal consortia may be asked to provide documentation that they meet the requirements of 40 CFR Part 35.504. Universities must include documentation showing that they are chartered as a part of State government in their proposal. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Each EPA Regional Office will set up its own competitive process for awarding WPDGs. Interested applicants should review information on the WPDG at: <http://www.epa.gov/owow/wetlands/grantguidelines/>. Regarding pre-application/pre-proposal assistance with respect to competitive funding

opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Each EPA Regional Office will establish a process for awarding WPDGs. Regional Offices will accept applications only for projects selected through the competitive process that affect the States, Tribes, and Territories within their Region. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. Applicants can also receive a copy of the current announcement by calling the EPA Regional Coordinator. Application forms are available at <http://www.epa.gov/ogd/AppKit/index.htm> and by mail upon request to the Grants and Interagency Agreements Management Division at (202) 564-5305. Completed applications should be submitted to the appropriate EPA Regional Office. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Grant applications are reviewed by the appropriate EPA Regional Office and, if approved, the grant is awarded by the Regional Administrator. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grants are usually approved within 4 months of receipt of completed application.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The applicant must provide a minimum of 25 percent of the total cost of the work plan to the extent allowed by 40 CFR 31.24, 35.385, and 35.615. To determine if the minimum match is met, EPA will use the following formula: amount (in dollars) of federal funds requested from EPA divided by 3 = minimum match (in dollars) or Total project costs divided by 4 = minimum match (in dollars). For example, if the applicant requests \$75,000 of federal funds or a Total project cost of \$100,000 for the three-year project period, it must be able to provide \$25,000 in matching funds or services. A reduced match may be available for Tribal grantees that place the Wetland Program Development Grant funds in a Performance Partnership Grant. (See regulations at 40 CFR 536(c).) Please contact your EPA Regional contact person listed in Section VII if you have any questions about calculating the match requirement. We encourage States and Tribes to provide a larger share of the project's cost whenever possible (i.e., in excess of the required 25 percent of total project costs). Award recipients can meet the match requirement with in-kind or monetary contributions from entities other than themselves.

However, other Federal money cannot be used as the match for this grant program unless authorized by the statute governing the award of the other Federal funds. Matching funds are considered grant funds. They must be used for the reasonable and necessary expenses of carrying out the assistance agreement work plan. Any restrictions on the use of grant funds (i.e., prohibition of land acquisition with grant funds) also apply to the matching funds.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Cooperative Agreements) FY 10 \$16,236,000; FY 11 est \$15,830,000; and FY 12 est \$14,667,000

Range and Average of Financial Assistance:

\$25,000 to \$500,000/fiscal year; \$253,500/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Each of the ten EPA Regional Offices issues a competitive announcement based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcements include the number of anticipated awards. In FY 10, approximately 7 to 30 proposals were received by each Region under the ten Regional competitive announcements with approximately 3 to 12 cooperative agreements or grants to be awarded under each Regional competitive announcement. No awards were made non-competitively in FY 10. In FY 10, projects were funded to support activities such as: creation of a web portal for online submission of vernal pool certification data and observations of state-listed rare wetlands wildlife by members of the public, academic researchers, and environmental professionals; development of a level 1 landscape scale analysis of wetland condition; development of an oxbow system assessment and protocol; development of Floristic Quality Index approaches for wetlands plant communities in a western state; determine how

reference wetland conditions vary throughout a state based on ecoregions and provide reference condition data; and development of a plan that will help develop a systematic approach to preserving, improving, and ultimately increasing acreage of these areas in a tribal community. Fiscal Year 2011: Each of the ten EPA Regional Offices issues a competitive announcement based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcements include the number of anticipated awards. In FY 11, ten Regional competitive announcements will be issued. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.462 NATIONAL WETLAND PROGRAM DEVELOPMENT GRANTS AND FIVE-STAR RESTORATION TRAINING GRANT

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 92-500, 33 U.S.C 1254(b)(3).

OBJECTIVES:

To assist State, Tribal, local government (S/T/LG) agencies, and interstate/intertribal entities in building programs which protect, manage, and restore wetlands. The primary focus of the grants is to build state and tribal wetland programs. A secondary focus is to build local (e.g. county or municipal) programs.

Funding Priority - Fiscal Year 2011: For the National WPDGs: EPA has identified the following four national priorities for this competition based on the four core elements of a Comprehensive State/Tribal Wetlands Program: 1) Monitoring and Assessment; 2) Voluntary Wetland Restoration and Protection; 3) Regulatory Approaches Including CWA 401 Certification; and 4) Wetland-Specific Water Quality Standards. Further explanation of all of the elements can be found at the following website address: <http://www.epa.gov/owow/wetlands/initiative/estp.html>. The Wetlands Program Development Grants (WPDG) program strives to develop State/Tribal/local government programs that will incorporate each of these elements.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The National WPDGs are intended to encourage comprehensive, national wetlands program development by promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Projects build the capacity of States, Tribes, and local governments programs to effectively protect wetland and riparian resources. Activities must help S/T/LGs develop and refine wetland programs. Projects funded under this program support the initial development of a national wetlands protection, restoration or management program, or support enhancement/refinement of an existing national program. Projects must be broad in scope and include more than one EPA Region or be national in scope and cannot be limited to activities that affect such entities in only one EPA region. For example, projects and tasks can involve advancing science or collecting and making available through publications and other appropriate means, such as training on information about how various wetland programs across the nation protect, manage, and restore their wetland resources and about initiatives to improve S/T/LG wetland programs. Projects that are local or encompass only one EPA Region in scope are not eligible for funding under this program but may be eligible for funding under EPA's Regional Wetland Program Development Grants program (CFDA 66.461). Funds cannot be used for the purchase of land or conservation easements. Funds cannot be used for implementation of individual mitigation projects, mitigation banks, or in-lieu-fee mitigation programs. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. EPA's Five Star Restoration Training Grant is

anticipated to fund one cooperative agreement to an organization to manage the Five Star Restoration Training Grant subaward process that will award subgrants to achieve environmental training through voluntary, community/watershed-based wetland restoration projects. Projects funded under the subgrant process must be limited to activities that conduct or promote the coordination and acceleration of training relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Other activities under section 104(b)(3) will not be considered for funding. Funds cannot be used for the purchase of land or conservation easements. Funds cannot be used for implementation of individual mitigation projects, mitigation banks, or in-lieu-fee mitigation programs. Wetland restoration training projects cannot include wetlands constructed for the purposes of treating wastewater or stormwater only. The assistance agreement award under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Non-profit, non-governmental organizations, Interstate agencies, and Intertribal consortia which are capable of undertaking activities that advance wetland programs on a national basis are eligible to compete in this program. The term "interstate agency" is defined in CWA Section 502 as "an agency of two or more States established by or pursuant to an agreement or compact approved by the Congress, or any other agency of two or more States, having substantial powers or duties pertaining to the control of pollution as determined and approved by the Administrator." Intertribal consortia must meet the requirements of 40 CFR Part 35.504. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State, Tribal, and local governments involved in administering wetlands protection, restoration, and/or management programs or programs related to or complement wetlands protection programs.

Credentials/Documentation:

Non-profit applicants may be asked to provide documentation that they meet the definition of a non-profit organization in OMB Circular A-122. Interstate organizations may be asked to provide a citation to the statutory authority, which establishes their status. Intertribal consortia may be asked to provide documentation that they meet the requirements of 40 CFR Part 35.504. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The standard application forms, as furnished by the Federal agency and required by OMB Circular A-102, must be used for this program. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The EPA Headquarters (HQ) Office will conduct the

competitive process for awarding National Wetland Program Development Grants. Interested applicants should review information on the National Wetland Program Development Grants at:

<http://www.epa.gov/owow/wetlands/grantguidelines/>. Submittal instructions can be found in the competitive announcement. The EPA Headquarters (HQ) Office will conduct the competitive process for awarding the Five-Star Restoration Training Grant. Interested applicants should review information on the Five-Star Restoration Training Grant at:

<http://www.epa.gov/owow/wetlands/grantguidelines/>. Submittal instructions can be found in the competitive announcement. All applicants will be notified by the HQ Office on whether or not the applicant has been selected for funding. The notification is not an authorization to begin performance. The Grant Award document signed by the appropriate grant official in the EPA HQ Office is the authorizing document. Applicants selected for funding must submit a final workplan and grant application forms. Application forms are available at <http://www.epa.gov/ogd/AppKit/index.htm> and by mail upon request to the Grants and Interagency Agreements Management Division at (202) 564-5305. Completed applications should be submitted to HQ. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grants are usually approved within 4 months of receipt of completed application.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The applicant must provide a minimum of 25 percent of the total cost of the workplan to the extent allowed by 40 CFR 31.24, 35.385, and 35.615. To determine if the minimum match is met, EPA will use the following formula: amount (in dollars) of federal funds requested from EPA divided by 3 = minimum match (in dollars) or Total project amount (in dollars) divided by 4 = minimum match (in dollars). For example, if the applicant requests \$75,000 of federal funds or has a total project cost of \$100,000 for a three-year project period, it must be able to provide \$25,000 in matching funds or services. A reduced match may be available for Tribal grantees that place the Wetland Program Development Grant funds in a Performance Partnership Grant. (See regulations at 40 CFR 536(c)). States and Tribes can provide a larger share of the project's cost whenever possible (i.e., in excess of the required 25 percent of total project costs). Award recipients can meet the match requirements with in-kind or monetary contributions from entities other than themselves. However, other Federal money cannot be used as the match for this grant program unless authorized by the statute governing the award of the other Federal funds. Matching funds are considered grant funds. They must be used for the reasonable and necessary expenses of carrying out the assistance agreement workplan. Any restrictions on the use of grant funds (i.e., prohibition of land acquisition with grant funds) also apply to the matching funds. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at time of grant award. See the

following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. All final reports must be accompanied by a 1-2 page summary electronic document on the project. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Obligations:

(Cooperative Agreements) FY 10 \$500,000; FY 11 est \$500,000; and FY 12 est \$2,000,000 - National Wetlands Program Development Grants: FY 10 \$500,000; FY 11 est. \$500,000; and FY 12 est. \$500,000. Five-Star Restoration Training Grant: FY 10 \$0; FY 11 est. \$0; and FY 12 est \$1,500,000.

Range and Average of Financial Assistance:

National Wetlands Program Development Grants: \$25,000 to \$225,000/fiscal year; \$100,000/fiscal year; Five-Star Restoration Training Grant: \$1,500,000 every six years.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 10, 19 proposals were received in response to the National WPDG competitive announcement and 7 proposals were selected for award. Grants have been awarded to: develop a comprehensive approach to wetland program development with state and tribes; advance state and local wetland program capacity to identify restoration and conservation efforts; develop model approaches to the watershed approach which includes wetland compensatory mitigation and restoration; improve wetland restoration permitting success; advance coordination between states, tribes, local governments, and land trusts on stewardship of compensatory mitigation sites, build capacity on the mitigation requirements for ephemeral, intermittent, and perennial streams; and testing and evaluating a study design development to assess the success of compensatory mitigation. Fiscal Year 2011: Headquarters will conduct the FY 12 competitive process for the National WPDGs. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement will include the number of anticipated awards. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.463 WATER QUALITY COOPERATIVE AGREEMENTS

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 92-500, 33 U.S.C 1254(b)(3).

OBJECTIVES:

To assist States, Indian Tribes, interstate agencies, and other public or nonprofit organizations in developing, implementing, and demonstrating innovative approaches relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution through both permitted and non-permitted areas.

Funding Priority - Fiscal Year 2011: Funding priorities include, but are not limited to: watershed approaches for solutions to wet weather activities (i.e., combined sewer overflow, sanitary sewer overflows, storm water discharge, and animal feeding operations); pretreatment and biosolids (sludge) program activities, decentralized systems; and alternative ways to enhance or measure the effectiveness of point source programs. Trading, water efficiency, asset management, and sustainable infrastructure are also areas of consideration. No appropriation authority was provided for FY 2006 or later. However, if unobligated carryover funds are available in FY 2011, projects will be funded in accordance with the funding priorities. Any awards made with carryover funds will be in accordance with the Agency's competition policy.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

These grants are intended to encourage efforts to improve water quality by promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Projects must attain tangible results. EPA may award grants to fund internships for high school students to work at wastewater treatment plants under the Youth and the Environment sub-program in EPA Regions 1, 2, 3, 5, 6, 7, 8, 9 and 10. In the case of Regional competitions, eligible projects may be limited in geographic scope to benefit the citizens of States, Tribes, or Territories within those Regions. Other specific uses of funds will be described in Requests for Proposals for this program. EPA will not award grants to fund ongoing State, Tribal, or local program activities, construction, or to purchase land. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State water pollution control agencies, interstate agencies, Tribes, colleges and universities, individuals, and other public or nonprofit organizations. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Individuals and organizations affected by water pollution, including State Water Pollution Control Agencies, interstate agencies, Tribes, colleges and universities, and other public or nonprofit organizations.

Credentials/Documentation:

Nonprofit applicants may be asked to provide documentation that they meet the definition of a non-profit organization in OMB Circular A-122. Interstate organizations may be asked to provide a citation to the statutory authority which establishes their status. Intertribal consortia must meet the requirements of 40 CFR Part 35.504. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Competition procedures vary by Region and Headquarters Office. EPA will generally publish a Request for Proposals (RFP), evaluate the proposals under the criteria contained in the RFP, and requests that selected applicants submit a full application. RFPs are synopsized at www.grants.gov, and may be posted on Agency websites or in the Federal Register. All competitions will be conducted in accordance with EPA policy for competing assistance agreements. For Headquarters competitions, applicants submit a proposal, and EPA evaluates and scores the proposals and invites selected applicants to submit a formal application. Regional procedures may vary, in accordance with the terms of Regional Request for Proposals. Application forms and completed applications may be requested from and submitted to the appropriate EPA Headquarters or Regional Office. The

standard Federal application forms must be used for this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Regional or Headquarters review will normally be done within approximately 60 days following the deadline for submissions.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the assistance shall be determined at the time of award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Record keeping requirements are specified 40 CFR Parts 30 or 31 as applicable. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

Obligations:

(Project Grants) FY 10 \$26,000; FY 11 est \$1,238,000; and FY 12 est \$0

Range and Average of Financial Assistance:

Projects have historically ranged from \$15,000 to \$270,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Competitions are held based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement will include the number of anticipated awards. In FY 2010, funding was used to continue to conduct hydrological mapping of subwatersheds, conduct a verification study of reported water quality impairments, and develop a nutrient total maximum daily load for a watershed. Fiscal Year 2011: Competitions are held based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement will include the number of anticipated awards. In FY 2011, seven awards were made to for example: provide energy assistance to wastewater treatment plants (e.g., conduct demonstration pilot projects, conduct energy audits, provide technical support) and transfer results; assess the effectiveness of the current regulatory mechanisms designed to protect water quality in a basin; pilot an innovative decision support tools; and create frameworks for watershed-based stormwater permits. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

For grants and agreements with States, local governments, and Indian tribal governments, the procedures and requirements shall be in conformance with 40 CFR Part 31 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," 40 CFR Part 35, "Environmental Program Grants-State, Interstate, and Local Governments Agencies," OMB Circular Nos. A-87 "Cost Principles for State and Local Governments," and A-102 "Grants and Cooperative Agreements for States and Local Governments." For grants and agreements with other entities the procedures shall be in conformance with 40 CFR Part 30, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations," and OMB Circular Nos. A-122 for Non-Profit Organizations and A-21 for Educational Institutions.

66.466 CHESAPEAKE BAY PROGRAM

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 117.

OBJECTIVES:

To expand and strengthen cooperative efforts to restore and protect the Chesapeake Bay. EPA's funding priority is to achieve the goals and commitments established in the Chesapeake 2000 agreement and the final coordinated strategy under Executive Order (EO) 13508. As a means to achieve the goals and commitments, assistance agreements are awarded to: nonprofit organizations, State and local governments, colleges, universities, and interstate agencies. The type of projects that are awarded range from monitoring of bay toxins to environmental education. These projects have helped support the commitments set forth in Executive Council agreements and amendments (The Chesapeake Bay Agreement of 1983 through Chesapeake 2000) and subsequent directives, adoption statements, endorsements and resolutions.

Funding Priority - Fiscal Year 2011: EPA's focus in FY 2011 is to continue to improve the rate of progress in the Chesapeake Bay watershed by meeting the President's expectations as described in Executive Order (EO) 13508, using the Agency's existing statutory authority, implementing the Chesapeake Bay Total Maximum Daily Load (TMDL), developing more rigorous regulations, providing states with the tools necessary for effective regulatory implementation, creating better tools for scientific analysis and accountability, and supporting regulatory compliance and enforcement. EPA will work toward implementing key initiatives under EO 13508, including: implementing the TMDL; developing new regulations for animal feeding operations and stormwater discharges; developing a TMDL tracking and accountability system; deploying technology to integrate discrete Bay data systems and to present the data in an accessible accountability system called ChesapeakeStat; implementing a Bay-specific enforcement and compliance initiative; and moving forward on the Bay's challenges related to toxic contaminants.

A centerpiece of EPA's FY 2011 activities is the implementation of the nation's largest and most complex TMDL for the entire Chesapeake Bay watershed. A TMDL is essentially a plan that defines how much of a particular pollutant may be discharged in to a particular waterbody while allowing the waterbody to meet its water quality standards and designated uses. EPA released the final TMDL in December 2010. Prior to that release, the Bay jurisdictions developed watershed implementation plans (WIPs) that included specific timelines for enhancing programs and implementing actions to reduce pollution, with all measures needed to reach the TMDL pollution load limits in place no later than 2025. In FY 2011 and FY 2012, the Chesapeake Bay jurisdictions will be expected to develop and implement second-generation WIPs that define how the jurisdictions' TMDL allocations will be achieved, in part, through local efforts. EPA expects that by 2017, pollution controls will be in place that should result in approximately 60 percent of the required reductions. To support the TMDL, EPA will develop and initiate a tracking and accountability system to ensure that the Bay jurisdictions are effectively implementing the TMDL.

To support accountability under the TMDL, EPA will expand the Chesapeake Bay Program's water-quality monitoring network to better track TMDL progress. The sampling sites will provide better measurements of nutrient and sediment load changes for major sources of pollution in more localities. EPA will invest in bringing more non-traditional monitoring partners, including watershed organization, permittees, and local governments - into the monitoring network, increasing the data available to assess stream and Bay health and responses to management actions. EPA will use its technical and scientific analysis capabilities to provide implementation support and guidance to the states and thousands of local governments that will be affected by the TMDL.

EPA will assist the jurisdictions in making scientifically informed determinations of the most effective ways to meet their TMDL obligations that will provide individually tailored solutions. EPA also is developing an offset program under the TMDL.

EPA also will continue the development and implementation of new regulations to protect and restore the Chesapeake Bay. EPA will continue work on rulemakings under the Clean Water Act to reduce nitrogen, phosphorus, and sediment pollution in the Bay from concentrated animal feeding operations, stormwater discharges from new and redeveloped properties, new or expanded discharges, and other pollutant discharges as necessary. To ensure that the states are able to meet EPA's expectations under the TMDL and new rulemakings, EPA will continue and in some cases expand its broad range of grant programs. EPA will direct investments toward key local governments and watershed organizations based on their ability to reduce nutrient and sediment loads via key sectors such as development and agriculture in urban and rural areas.

ChesapeakeStat is a key element in the next generation of tools EPA is developing to significantly enhance the accountability of program partners. ChesapeakeStat is a web based, geoenabled tool for performance-based interactive decision making for all Bay partners. The system allows the public to track progress and become informed and engaged in restoring the Bay. A key feature of ChesapeakeStat is the ability to target resources and activities to ensure that taxpayer dollars are used where they will do most good. ChesapeakeStat provides an interface for existing discrete systems and a newly deployed enterprise data engine for the Chesapeake Bay.

Ensuring that the regulated community complies with the appropriate regulations is an essential responsibility for achieving the goals established for the Chesapeake Bay and its watershed. In FY 2011, the Enforcement and Compliance Assurance program will target sources of pollution impairing the Bay. EPA's multi-year, multi-state strategy combines the agency's water, air and waste enforcement authorities to address violations of federal environmental laws resulting in nutrient, sediment and other pollution in the Bay.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

On November 7, 2000, the President signed the Estuaries and Clean Waters Act of 2000, which includes Title II-Chesapeake Bay Restoration. This Act amends Section 117 of the Federal Water Control Act (Clean Water Act) and established new authorities for the Chesapeake Bay Program. These new legal authorities specify the type of work that can be performed with the funds appropriated for the Chesapeake Bay Program, the type of funding vehicles (e.g., assistance agreement) that can be used, and the type of organization eligible to receive funding. The purposes of these amendment authorities are: (1) to expand and strengthen cooperative efforts to restore and protect the Chesapeake Bay; and (2) to achieve the goals established in the Chesapeake Bay Agreement. The term "Chesapeake Bay Agreement" means the formal, voluntary agreements signed by the Chesapeake Executive Council and executed to achieve the goal of restoring and protecting the Chesapeake Bay ecosystem (e.g., the 1987 Chesapeake Bay Agreement, Chesapeake 2000 agreement, various Executive Council directives, etc.).

Assistance Agreements awarded under this program are:

(1) 117(d) Technical Assistance and General Assistance Grants - These grants will be awarded competitively to nonprofit organizations, State and local governments, colleges, universities, and interstate agencies to implement the goals of the Chesapeake Bay Agreements; such as activities to support living resource protection and restoration; vital habitat protection and restoration; water quality protection and restoration; sound land use; and stewardship and community engagement. All applicants applying for grants under Section 117(d) must commit to a cost share ranging from 5 to 50 percent of the total project costs, as determined at the sole discretion of EPA. This determination will be stated in Request for Proposals (RFPs) or Agency policy

(2) 117(e)(1)(A) and 117(d) - Chesapeake Bay Regulatory and Accountability

Grants - As a result of EO 13508, these grants will help each watershed State and the District of Columbia to develop new regulations, design TMDL watershed implementation plans, reissue and enforce permits, and provide technical and compliance assistance to local governments and regulated entities. The grants are to aid the states and DC in implementing and expanding their States' regulatory, accountability and enforcement capabilities, in support of reducing nitrogen, phosphorus and sediment loads delivered to the Bay to meet the water quality goals of the 2000 Chesapeake Bay Agreement. These grants will be awarded non-competitively. State Signatory jurisdictions applying for regulatory and accountability program grants under Section 117(e)(1)(A) must identify 50% cost share of total project costs (equal match/dollar for dollar) as required by statute. Headwater States applying for regulatory and accountability program grants under Section 117(d) must commit to a cost share of 25% of the total project costs.

(3) Section 117(e)(1)(A) - Implementation Grants - The Chesapeake Bay Implementation Grants are authorized under Section 117(e)(1)(A) to Signatory Jurisdictions. Implementation Grants are for the purpose of implementing the management mechanisms established under the Chesapeake Bay Agreement, with particular emphasis on state programs for control and abatement of non-point source nutrient and sediment pollution (including atmospheric deposition as a non-point source). In May 2009, jurisdictions adopted 2-year milestones to accelerate reductions of nutrient pollution. Grants should support implementation of milestones commitments and comparable actions that support nutrient reduction goals. If jurisdictions do not use 117(e)(1)(A) grants for projects consistent with Chesapeake 2000 Agreement goals, EPA may reallocate, condition or withhold funds. These grants can be awarded non-competitively to any signatory jurisdiction that has or signed the Chesapeake Bay Agreement. State Signatory Jurisdictions applying for implementation and monitoring grants under Section 117(e)(1)(A) must identify 50% cost share of total project costs (equal match/dollar for dollar).

(4) Section 117(e)(1)(B) Monitoring Grants - The Monitoring Grants are authorized under Section 117(e)(1)(B) for Signatory Jurisdictions. These grants support the characterization of water and habitat quality and benthic community conditions for the mainstem Chesapeake Bay and tidal tributaries, characterizing nutrient loading to Chesapeake Bay and its tidal tributaries, and provide data analysis support for water quality and living resources status and trends. The work supports the Chesapeake 2000 goal of "Achieving and maintaining the water quality necessary to support the aquatic living resources of the Bay and its tributaries and to protect human health." These grants can be awarded non-competitively to any signatory jurisdiction that has or signed the Chesapeake Bay Agreement. Signatory Jurisdictions applying for monitoring grants under Section 117(e)(1)(B) must identify 50% cost share of total project costs (equal match/dollar for dollar).

(5) Section 117(g)(2) Small Watershed Grants - The Small Watershed Grants Program was established under Section 117(g)(2), which provides that grants can be awarded under Section 117(d) to local governments, nonprofit organizations, and individuals in the Chesapeake Bay region working on a local level to protect and improve watersheds, while building citizen based resource stewardship. The purpose of the grants program is to demonstrate effective techniques and partnership-building to achieve Chesapeake Bay Program objectives at the small watershed scale. The Small Watershed Grants Program has been designed to encourage the sharing of innovative ideas among the many organizations wishing to be involved in watershed protection activities. Applicants applying for small watershed grants under Section (g)(2) must commit to a cost share of 25% of the total project cost.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or-rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal

Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Under section 117(d), funds are available for technical and general assistance grants to nonprofit organizations, State and local governments, colleges, universities, and interstate agencies; under section 117(e)(1)(A) and 117e(1)(B), respectively, funds are available for implementation, regulatory and accountability, and monitoring grants to signatory jurisdictions and headwater states; and under section 117(g)(2), funds are available for technical assistance and assistance grants under the Small Watershed Grants Program to local governments and nonprofit organizations and individuals in the Chesapeake Bay region. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Under section 117(d), funds are available for technical and general assistance grants to nonprofit organizations, State and local governments, colleges, universities, and interstate agencies; under section 117(e)(1)(A) and 117(e)(1)(B), respectively, funds are available for implementation, regulatory and accountability, and monitoring grants to signatory jurisdictions and headwater states; and under Section 117(g)(2), funds are available for technical assistance and assistance grants under the Small Watershed Grants Program to local governments and nonprofit organizations and individuals in the Chesapeake Bay region.

Credentials/Documentation:

Compliance with 40 CFR Parts 30 and 31, and with Program Grant Guidance to matching funds. Costs will be determined in accordance with OMB Circular No. A-87 for State, Local, and Indian Tribal Governments (Relocated to 2 CFR, Part 225), OMB Circular No. A-122 for nonprofit organizations (Relocated to 2 CFR, Part 230), and OMB Circular No. A-21 for educational institutions (Relocated to 2 CFR, Part 220). All OMB circulars apply to this program. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Preapplication assistance is recommended and should be obtained from the EPA Region III Grants Management Office. All proposals or work statements should be consistent with CBPO's Grant Guidance located at <http://www.epa.gov/region3/chesapeake/grants.htm>. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Competitive Request For Proposals (RFPs) for grants/cooperative agreements are announced widely through the internet and Environmental Protection Agency's CBPO RFP e-mail and mailing database. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. RFPs are listed on the following websites: <http://www.grants.gov>; <http://www.epa.gov/region03/chesapeake/grants.htm>; <http://www.epa.gov/region03/grants/grantopp.htm>; and <http://www.chesapeakebay.net/grantsandrfps.aspx?menuitem=14892>.

Issued Chesapeake Bay Program Office (CBPO) Request For Proposals (RFPs) will seek applicant proposals that identify specific outcomes that will further goals of the Chesapeake 2000 Agreement and the Chesapeake Action Plan (CAP). The RFP will include detailed instructions for submission of proposals. Interested parties who would like to receive a copy of issued CBPO RFPs and

be added to the Environmental Protection Agency's CBPO e-mail and/or mailing database should submit their name, address, phone number, and e-mail address to Suzanne Hersh at hersh.suzanne@epa.gov or such requests can be mailed to Suzanne Hersh, Environmental Protection Agency CBPO, 410 Severn Avenue, Suite 112, Annapolis, Maryland 21403. EPA will only accept addresses provided in writing (either by e-mail or letter); no phone calls will be accepted. Requests for application kits must be submitted to the Environmental Protection Agency, Region 3, 1650 Arch Streets, Philadelphia, PA 19103, Grants and Audit Management Branch (3PM70). Additional information on the EPA assistance package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Additional information pertaining to application requirements for EPA's CBPO grants programs can be found in the 2011 CBPO Grant Guidance at: <http://www.epa.gov/region03/chesapeake/grants.htm>.

Interested parties applying for a grant under the Innovative Nutrient and Sediment and Small Watershed Grants Programs should submit their name and address to the National Fish and Wildlife Foundation 1120 Connecticut Avenue, NW, Suite 900, Washington, DC 20026, for purpose of establishing a database to receive RFPs. National Fish and Wildlife Foundation will list the RFP on their website: www.NFWF.org.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 7 months after deadline for application submission.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Renewals are subject to approval of EPA.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Under Section 117 (e)(1)(A) and 117(e)(1)(B), respectively, State agencies applying for implementation and monitoring grants must identify 50 percent cost share of total project costs (equal match/dollar for dollar). All applicants applying for technical and general assistance grants under Section 117 (d), must commit to a cost share ranging from 5 percent to 50 percent as determined at the sole discretion of EPA. This determination will be stated in Request For Proposals or Agency policy. EPA will promptly inform the applicant of the selected cost share requirement. Signatory Jurisdictions applying for regulatory and accountability program grants under Section 117(e)(1)(A) must identify 50% cost share of total project costs (equal match/dollar for dollar) as required by statute. Headwater States applying for regulatory and accountability program grants under Section 117(d) must commit to a cost share of 25% of the total project costs. Applicants applying for Small Watershed Grants Program under Section 117(g)(2) must commit to a cost share of 25 percent of the total project cost. State and local governments receiving assistance under any of the provisions of Section 117 must comply with 40 CFR 31.24 and all other applicants must comply with 40 CFR 30.23. In addition to the cost share requirement, applicants must adhere to the requirement in the Clean Water Act, Section 117 - Administrative Costs. This section requires a 10 percent cap for administrative costs. The cost of salaries and fringe benefits incurred in administering the grant cannot exceed 10 percent of the Federal grant amount.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are normally funded on a 12-month basis. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 10 \$33,345,631; FY 11 est \$35,000,000; and FY 12 est \$44,343,000

Range and Average of Financial Assistance:

\$5,000 to \$13,875,000/fiscal year; \$6,937,500/fiscal year. Ranges vary year to year based on size of appropriation.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 10, CBPO issued three RFPs. Based on the three RFPs issued, CBPO received eight proposals and awarded four awards. FY 10 activities included: communications, outreach, and education activities to support the staffing and operations of the Bay Program Communication Office; implementation of state tributary strategies to reduce nutrients and sediments to improve water quality; continued technical support and outreach to address water quality restoration goals and maintain public awareness of Bay restoration; investigation of the nitrogen reduction efficiency and cost effectiveness of nitrogen reducing septic systems within the mid-Atlantic region; evaluation of the impact of phosphorus species on water quality and plant growth; NPDES data synthesis and field monitoring to better estimate loadings of toxics (metals, organics) to Chesapeake Bay through storm water; and Chesapeake Bay modeling, GIS and data analyses support, water quality data analysis/integration support, and nonpoint and point source data management/analysis.

On November 9, 2009, EPA and the other agencies included in EO 13508 released a draft comprehensive strategy for the protection and restoration of the Chesapeake Bay and its watershed as called for in section 203 of the EO. Also in November 2009, EPA and other agencies released individual reports on specific challenges in the Chesapeake Bay as required under section 202 of the EO. The agencies are engaged in a significant public outreach effort to explain the strategy and reports and to hear directly from members of the public as to

their perspectives on the ideas contained in these documents.

EPA's recommended actions under the EO include:

- Development of watershed implementation plans by the six Bay watershed states and the District of Columbia;
- Requiring the states and District to develop milestones detailing near-term actions and loading reduction targets to evaluate progress toward water quality goals;
- Undertaking new rulemakings to reduce nutrient and sediment loadings to the Chesapeake Bay from concentrated animal feeding operations, stormwater, new or expanding sources of nutrient and/or sediment, and other pollutant sources as EPA deems necessary; and
- Establishing an enhanced partnership with the U.S. Department of Agriculture to accelerate the adoption of conservation practices by agricultural interests in the Bay watershed.

In November 2009, EPA provided the six states in the Chesapeake Bay watershed and the District of Columbia with rigorous expectations for jurisdictions to reduce pollution in streams, rivers and the Bay to meet water quality standards. EPA's expectations fulfill the mandate of the EO, which calls for a new accountability framework that guides federal, state, and local water quality restoration efforts. The expectations also are a component of the Chesapeake Bay TMDL, which will set pollution limits for point sources and nonpoint sources contributing nitrogen, phosphorus and sediment to the Bay and its tidal creeks, rivers, and embayments. EPA expects the six watershed states and D.C. to identify how they will reduce pollutant loads to levels necessary to meet water quality standards. EPA expects detailed schedules for implementing cleanup actions and achieving pollution reductions. Progress will be measured through benchmarks every two years.

On December 29, 2010, EPA established the Chesapeake Bay TMDL, a historic and comprehensive "pollution diet" with rigorous accountability measures to initiate sweeping actions to restore clean water in the Chesapeake Bay and the region's streams, creeks and rivers. The TMDL is required under federal law and responds to consent decrees in Virginia and D.C. dating back to the late 1990s. It is also a keystone commitment of the EO strategy. The TMDL - the largest ever developed by EPA - includes pollution limits to meet water quality standards in the Bay and its tidal rivers. The TMDL is designed to ensure that all pollution control measures to fully restore the Bay and its tidal rivers are in place by 2025, with 60 percent of the actions completed by 2017. The TMDL is supported by rigorous accountability measures to ensure cleanup commitments are met, including short- and long-term benchmarks, a tracking and accounting system for jurisdiction activities, and federal contingency actions that can be employed if necessary to spur progress

On May 12, 2010, EPA and the other agencies included in the EO released a comprehensive strategy for the protection and restoration of the Chesapeake Bay and its watershed, as called for in Section 203 of the EO. The agencies are engaged in a significant public outreach effort to explain the strategy and to hear directly from members of the public about their perspectives on the ideas contained in these documents. Fiscal Year 2011: FY 11 activities will include: communications, outreach, and education activities to support the staffing and operations of the Bay Program Communication Office; implementation of state tributary strategies to reduce nutrients and sediments to improve water quality; continued technical support and outreach to address water quality restoration goals and maintain public awareness of Bay restoration; investigation of the nitrogen reduction efficiency and cost effectiveness of nitrogen reducing septic systems within the mid-Atlantic region; evaluation of the impact of phosphorus species on water quality and plant growth; NPDES data synthesis and field monitoring to better estimate loadings of toxics (metals, organics) to Chesapeake Bay through storm water; and Chesapeake Bay modeling, GIS and data analyses support, water quality data analysis/integration support, nonpoint and point source data management/analysis; and development of new regulations, design of TMDL watershed implementation plans, reissuance and enforcement of permits, and technical and compliance assistance to local

governments and regulated entities to meet the water quality goals of the 2000 Chesapeake Bay Agreement. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.467 WASTEWATER OPERATOR TRAINING GRANT PROGRAM (Wastewater O&M Onsite Technical Assistance Grants)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Federal Water Pollution Control Act, Section 104(g)(1), 33 U.S.C 1251.

OBJECTIVES:

To substantially enhance the proficiency of personnel engaged in the operations and maintenance of treatment works and related activities by financing pilot programs.

Funding Priority - Fiscal Year 2011: No funds are available in FY 2011. If funds become available, the funding priority will primarily be to provide on-site technical assistance to address the unique performance limiting conditions of wastewater treatment plants. Classroom training may also be provided on a limited basis, if cost-effective, to improve the skills of wastewater treatment

plant operators.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Assistance is available to support recipients' allowable direct costs incidental to approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State agencies or the designated organizations of the States, the District of Columbia, Puerto Rico, Virgin Islands, Guam, Northern Marianas, America Samoa, the Trust Territories, and Native American Indian Tribes. Additionally, institutions of higher education and "not for profit institutions" may also apply for funding if acting as a designated organization of the State.

Beneficiary Eligibility:

State, Tribal, and local governments and publicly owned treatment works (POTWs). Activities which contribute to Operation and Maintenance (O&M) improvements at POTWs, including pollution prevention activities, may be funded. Legislative history supports using appropriations for onsite O&M technical assistance to the small sized POTWs of less than 5 million gallons per day (MGD) of wastewater flow, since many of these POTWs are exhibiting performance problems and do not have readily available consultant's technical assistance like those of the larger POTWs.

Credentials/Documentation:

Costs will be determined in accordance with applicable OMB Circular No. A-87, Cost Principles for State and local governments. Non-profit applicants may be asked to provide documentation that they meet the definition of a non-profit organization in OMB Circular A-122. Tribes may be asked to demonstrate that they are Federally recognized. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The standard EPA application assistance forms must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. This program is subject to the provisions of OMB Circular No. A-102 Uniform Administration Requirements for Grant-in-Aid to State and Local Government. Request for application forms and completed applications must be submitted to the applicable Regional or Headquarters Grants Administration office. Applications must meet the requirements of the grant regulations and must be reviewed and approved by the appropriate Regional or Headquarters' waste management program office prior to approval by the Grants office. The review must include an administrative and technical evaluation to determine adequacy, merit, and relevance of the proposal. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

An application is reviewed by the appropriate EPA Regional Office and, if approved, is signed by the Regional Administrator or designated Division Director.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Generally, 90 days after the grant application is received by EPA.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Generally 25 percent in kind service/goods or matching funds is required; however, this provision may be waived in certain cases.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants may be awarded for a project period not to exceed 3 years. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Headquarters receives semi-annual status reports, and an annual data submission of the program's progress for the current fiscal year, from all Regional Offices. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records and other records which substantiate the reasonable and allocable charges must be available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status reports. If questions arise, related records must be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Project Grants) FY 10 \$15,000; FY 11 est \$0; and FY 12 est \$0

Range and Average of Financial Assistance:

For every \$1,000,000 appropriated by the U.S. Congress, a State receives approximately \$30,000/fiscal year to provide funds to onsite technical assistance providers. The range and average of financial assistance provided is: \$12,000 to \$40,000/fiscal year; \$25,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 2010, \$15,000 was used to provide technical assistance to facilities which needed compliance assistance and to provide training to improve the skills of wastewater treatment plant operators. Fiscal Year 2011: Not applicable as no funding will be provided in FY 11. Fiscal Year 2012: No

Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Applicants for technical assistance should review 40 CFR Part 30, the General Grant Regulations and Procedures, and the annual guidance produced by the Headquarters wastewater program office.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Examples of funded projects include diagnostic and energy/water use evaluations at small POTWs and providing technical assistance to achieve compliance. Fiscal Year 2011: Not applicable as no funding will be provided in FY 11. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

On-site wastewater O&M technical applications managed by the Regions are evaluated based on the Headquarters wastewater program office's annual guidance, as well as EPA's grants management-related guidance. Other pilot program proposals, with similar objectives, will be considered by the Regional and Headquarters wastewater program offices based on the merits of the proposal, and prior designation by the applicable State agency(s) to receive these funds. Project objectives and requirements for applicants for other pilot project funding will be negotiated on a case-by-case basis.

66.468 CAPITALIZATION GRANTS FOR DRINKING WATER STATE REVOLVING FUNDS

(Drinking Water State Revolving Fund)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009, Public Law 111-5; Safe Drinking Water Act (SDWA) Amendments of 1996, Section 130, Public Law 104-182.

OBJECTIVES:

Grants are made to States and Puerto Rico to capitalize their Drinking Water State Revolving Funds (DWSRFs) which will provide a long-term source of financing for the costs of drinking water infrastructure. Grants are also made to the District of Columbia, U.S. Territories (Virgin Islands, Mariana Islands American Samoa, and Guam), and Indian Tribes.

Funding Priority - Fiscal Year 2011: The funding priority established by the SDWA are for capitalization grants to each State for infrastructure improvement projects that are needed to achieve or maintain compliance with SDWA requirements, protect public health, and assist systems with economic need. A State may use a portion of the capitalization grant funds for programs that emphasize preventing contamination problems through source water protection and enhancing water system management. States and EPA Regions determine priorities for funding in accordance with SDWA. Capitalization grants to each State were also made available under the American Recovery and Reinvestment Act (Recovery Act) of 2009. A portion of the Recovery Act funding were targeted toward projects for green infrastructure, water or energy efficiency improvements, or other environmentally innovative activities. The program supports the Agency's strategic goal of ensuring clean and safe water.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Capitalization grants are made available to each State and Puerto Rico for the purpose of establishing a DWSRF for providing assistance to drinking water systems for infrastructure improvements. The capitalization grant is deposited in the State's DWSRF, and is used to provide loans and other types of financial assistance to eligible public water systems. A State may elect to use up to 31% of the capitalization grant for other eligible activities, including 4% for administration of the program. States may also elect to transfer up to one-third of the DWSRF capitalization grant to the Clean Water State Revolving Fund (CWSRF) or an equivalent amount from the CWSRF to the DWSRF program. Grants are also made available to Federally Recognized Indian Tribal Governments, U.S Territories, and the District of Columbia. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States, the District of Columbia, U.S. Territories or Possessions (the Commonwealth of Puerto Rico, Virgin Islands, Mariana Islands American Samoa, and Guam), and Federally Recognized Indian Tribal Governments are eligible for grants from the program. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States, U.S. Territories or Possessions (the Commonwealth of Puerto Rico, Virgin Islands, Mariana Islands American Samoa, and Guam), Federally Recognized Indian Tribal Governments, local, and intrastate.

Credentials/Documentation:

To receive a grant, an applicant enters into an agreement with the EPA Regional Administrator which shall include, but are not limited to, the requirements set forth in Section 130 of the SDWA. Recipients must follow OMB Circular No. A-87, "Cost Principles for State, Local and Indian Tribal Governments.". OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

States are required to prepare and provide for public comment on a plan identifying the intended uses (Intended Use Plan, or IUP) of the funds in the DWSRF and how those uses support the goals of the DWSRF. The IUP is to be submitted no later than the application. An environmental impact statement is not required prior to grant award; however, a State environmental review process must be applied to all subsequent State assistance for drinking water systems. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102

must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode 3903R, Washington, DC 20460 or through the appropriate Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Grants for Tribes, U.S. Territories, and the District of Columbia are selected based on funding priorities established by EPA Regional Offices. States must certify that they have the legal authority to receive a capitalization grant and that they have the legal authority to operate the program. States must provide assurance in their applications that they have the legal, managerial, technical and operational capabilities to administer the DWSRF program competently and that they will comply with all applicable Federal cross-cutting authorities and Federal statutes. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

A grant application is reviewed by the appropriate Regional Office, and if approved, the grant is awarded by the Regional Administrator under a delegation of authority from the Administrator of EPA. EPA Headquarters retains the authority to review certain applications or parts thereof. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approval time averages 45 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

For those portions of the applicant's program that do not change from year to year, a subsequent grant application may incorporate by reference relevant portions of the previous year's application which have not changed.

Formula and Matching Requirements:

Statutory Formula: Title Safe Drinking Water Act.
Matching Requirements: The funds available for allotment to State DWSRF programs are those funds appropriated by Congress under the Safe Drinking Water Act (SDWA 1452; 40 CFR 35.3540 and 35.3585). EPA allots funds to each State based on the State's proportional share of total eligible needs reported for the most recent Drinking Water Infrastructure Needs Survey (which is conducted every four years). The minimum proportional share that each State can receive is 1% of total funds available to States. EPA reserves up to 1.5% of the funds available for allotment to the States to provide grants to the U.S. Territories (Virgin Islands, Mariana Islands American Samoa, and Guam). The SDWA also requires the Administrator to reserve 1% of the funds available for allotment to the States to provide grants to the District of Columbia. The SDWA also allows EPA to reserve funds for national set-asides that include: up to 2.0% of the national appropriation for grants to Indian Tribes as well as funding for health effects studies, small system technical assistance, and monitoring of unregulated contaminants. The required State match is 20% of the amount of the capitalization made to the State. States must also provide a match or demonstrate a credit for state funded eligible activities to receive Federal funds for certain program support activities. For Recovery Act funds, the required State match of 20% of the amount of the capitalization grant was waived. For additional information go to <http://www.epa.gov/safewater/dwsrf/allotments/index.html>. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Funds are available for EPA's obligation to the State during the fiscal year in which they are allotted and during the following year. Recovery Act funds were available for EPA's obligation to the State until September 30, 2010. The term of the grant shall be determined at the time of award. States must agree to enter into binding commitments with loan recipients to provide financial assistance from the DWSRF in an amount equal to the sum of Federal assistance, less amounts used by the State for eligible set-aside purposes, and the State match. States are also required to agree to commit and expend all funds in the DWSRF as efficiently as possible, and in a timely manner. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

States shall provide biennial reports to the Regional Administrator in accordance with the schedule established in the grant agreement (generally not later than 90 days after the end of the second fiscal year during which the payments were received). The biennial report shall describe how the State has met the goals and objectives for the preceding two fiscal years as identified in its intended use plans for those periods, including identification of loan recipients, loan amounts, and loan terms and similar details on other forms of financial assistance provided from the DWSRF. For grants to Tribes and U.S. Territories, procedures for accounting, auditing, evaluating, and reviewing any program for activities in whole or in part shall be governed by regulations at 40 CFR Parts 31 and 35, "Environmental Program Grants for Tribes," with reports as required by the specific terms of the agreement. For Recovery Act funds, funding reports must be submitted in a prescribed format within 10 calendar days after the end of each calendar quarter, beginning October 10, 2009. These reports will include data elements as prescribed by Public Law 111-5, Section 1512 and OMB Guidance. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. States must comply with the provisions of the Single Audit Act Amendments of 1996, and the OMB Circular No. A-133 and Compliance Supplement. States are also encouraged to conduct annual independent audits. The audit of the fund to be prepared by the State or an independent auditor must be in accordance with the standards of the Government Accountability Office (known as the Generally Accepted Government Auditing Standards). To the extent that the set-asides are used for project purposes that must be repaid, or are directly related to the DWSRF (e.g., administration) or are revolving funds themselves, they must be part of an audited opinion(s). The audits must provide an auditor's opinion on the DWSRF financial statements, a report on internal controls and a report on compliance with laws and regulations. Those set-aside funds that are not loaned out may be audited in conjunction with audits conducted under the Single Audit Act, as described in OMB Circular No. A-133 and OMB's Compliance Supplement for Single Audits of State and Local Governments.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved. As part of the annual review conducted by the Agency to assess a State's performance against activities identified in the intended use plan and biennial report, and to determine compliance with the terms of the capitalization grant agreement, the

State or assistance recipient shall make available to EPA such records as the Regional Administrator reasonably requires to review and determine State compliance with the requirements of the SDWA.

Account Identification:

Obligations:

(Formula Grants) FY 10 \$1,387,000,000; FY 11 est \$963,070,000; and FY 12 est \$986,000,000 - FY 10 \$1,387,000,000; FY 11 \$963,070,000; and FY 12 est. \$986,000,000. Recovery Act funds - FY 10 \$0; FY 11 est. \$0; and FY 12 est. \$0.

Range and Average of Financial Assistance:

States: \$13,573,000 to \$126,958,000/fiscal year; \$24,105,000/fiscal year. Tribes: \$6,000 to \$2,400,000/fiscal year; \$480,000/fiscal year. Territories: \$2,057,000 to \$13,573,000/fiscal year; \$4,189,000/fiscal year. Recovery Act funds - States: \$19,500,000 to \$160,000,000/fiscal year. Territories: \$500,000 to \$2,100,000/fiscal year. Tribes: \$15,600 to \$3,200,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: All 50 States and Puerto Rico have established and are implementing DWSRF programs through receipt of a capitalization grant. In FY 10, States made 1694 loans to systems for a total of \$3.8 billion to conduct infrastructure improvement projects. Of the total number of loans, 67% of loans went to small water systems that serve 10,000 persons or fewer. States also used funds to prevent drinking water contamination through source water protection and enhanced system management. Fiscal Year 2011: All 50 States and Puerto Rico have established and are implementing DWSRF programs through receipt of a capitalization grant. In FY 11, States, Tribes, and Territories will continue to receive funding to support infrastructure improvement projects. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.469 GREAT LAKES PROGRAM

GLNPO

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104&118, 33 U.S.C 1254; National Environmental Policy Act, Section 102(2)(F); The Department of Defense and Full-Year Continuing Appropriations Act, 2011, Public Law 112-10.

OBJECTIVES:

To restore and maintain the chemical, physical, and biological integrity of the Great Lakes Basin Ecosystem. USEPA leads a consortium of programs, agencies, and public and private institutions in attaining specific objectives and actions that will address the most significant Great Lakes ecosystem problems and efforts in five major focus areas: Toxic Substances and Areas of Concern; Invasive Species; Nearshore Health and Nonpoint Source Pollution; Habitat and Wildlife Protection and Restoration; Accountability, Education, Monitoring, Evaluation, Communication and Partnerships. Funded activities will advance protection and restoration of the Great Lakes ecosystem in support of (i) the Great Lakes Restoration Initiative as described in the Great Lakes Restoration Initiative Action Plan

(http://greatlakesrestoration.us/action/wp-content/uploads/glri_actionplan.pdf), (ii) as applicable: Sub-objective 4.3.3 (Improve the Health of Great Lakes Ecosystems) of EPA's 2006-2011 Strategic Plan or the Great Lakes portion of Objective 2.02 (Protect and Restore Watersheds and Aquatic Ecosystems) of EPA's 2011-2015 Strategic Plan, and/or (iii) the Great Lakes Regional Collaboration Strategy to Protect and Restore the Great Lakes <http://www.gllrc.us/strategy.html>.

Funding Priority - Fiscal Year 2011: The Great Lakes Restoration Initiative, guided by the Great Lakes Regional Collaboration Strategy, is a coordinated effort among EPA and the Great Lakes Federal Interagency Task Force to fund the highest priority activities in order to protect and restore the Great Lakes.

The President in 2009 announced a new Great Lakes Restoration Initiative, committing the federal government to significantly advance Great Lakes protection and restoration pursuant to that work. EPA has since then led the Interagency Task Force in development of a 2010-2014 Great Lakes Restoration Initiative Action Plan (Action Plan). The Action Plan, built upon the foundation of the GLRC Strategy and developed with stakeholder input from meetings throughout the Great Lakes, targets the most significant environmental problems in the Great Lakes ecosystem. The Action Plan is an action driver, articulating the most significant ecosystem problems and efforts to address them in five major focus areas:

(i) Toxic Substances and Areas of Concern, including pollution prevention and cleanup of the most polluted areas in the Great Lakes.

(ii) Invasive Species, including efforts to institute a "zero tolerance policy" toward new invasions.

(iii) Nearshore Health and Nonpoint Source Pollution, including a targeted geographic focus on high priority watersheds and reducing polluted runoff from urban, suburban, and agricultural lands.

(iv) Habitat and Wildlife Protection and Restoration, including bringing wetlands and other habitat back to life, and the first-ever comprehensive assessment of the entire 530,000 acres of Great Lakes coastal wetlands for the purpose of strategically targeting restoration and protection efforts in a science-based manner.

(v) Accountability, Education, Monitoring, Evaluation, Communication and Partnerships, including the implementation of goal- and results-based accountability measures, learning initiatives, outreach and strategic partnerships.

TYPES OF ASSISTANCE:

DISSEMINATION OF TECHNICAL INFORMATION; PROJECT GRANTS; USE OF PROPERTY, FACILITIES, OR EQUIPMENT

USES AND USE RESTRICTIONS:

The statutory authority for awards from 2011/2012 funding is contained in

Public Law 112-10 (the Department of Defense and Full-Year Continuing Appropriations Act, 2011, Pub. L. No. 112-10), including Section 1739 of Title VII which references Environmental Protection Agency, Administrative Provisions in division A of Public Law 111-88, authorizing grants "for planning, research, monitoring, outreach, and implementation for grants to and/or cooperative agreements with governmental entities, nonprofit organizations, institutions, and individuals in furtherance of the Great Lakes Restoration Initiative and the Great Lakes Water Quality Agreement." Great Lakes Restoration Initiative implementation, as described above, includes but is not limited to land use activities, governmental partnerships and informed public participation, technology development, investigations, experiments, training, demonstrations, surveys, and studies to the extent consistent with the Great Lakes Regional Collaboration or the Great Lakes Restoration Initiative Action Plan.

The Statutory Authority to take action to implement the U.S. responsibilities under the Great Lakes Water Quality Agreement, which these awards will support, is contained in Section 118(c) of the Clean Water Act. The principal goal of the Great Lakes Water Quality Agreement is the restoration and maintenance of the chemical, physical, and biological integrity of the Great Lakes Ecosystem. For projects with international aspects the above statutes are supplemented, as appropriate, by the National Environmental Policy Act, Section 102(2)(F).

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved activities plus allowable indirect costs, in accordance with established EPA policies and regulations. Quality System Documentation is required for projects involving measurements or information that describe environmental processes, location, or conditions; ecological or health effects and consequences; or the performance of environmental technology. Section 118 (c)(12) authorizes contaminated sediment remediation in Areas of Concern pursuant to eligible projects under the Great Lakes Legacy Act; however, these will be done through project cooperation agreements, rather than assistance. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Entities eligible to apply for grants include governmental entities, nonprofit organizations, institutions, and individuals. This includes state agencies; any agency or instrumentality of local government; interstate agencies; federally-recognized tribes and tribal organizations; colleges and universities that are subject to 40 CFR Part 30 or 40 CFR Part 31; non-profit organizations as described in Section 501(c)(3) of the Internal Revenue Code; and other public or non-profit private agencies, institutions, and organizations. Non-profit organization, as defined by OMB Circular A-122, located at 2 CFR Part 230, means any corporation, trust, association, cooperative, or other organization which: (1) is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest; (2) is not organized primarily for profit; and (3) uses its net proceeds to maintain, improve, and/or expand its operations. Non-profit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible applicants. "For profit" organizations are not eligible applicants. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Beneficiaries include governmental entities, nonprofit organizations,

institutions, and individuals. This includes state agencies; any agency or instrumentality of local government; interstate agencies; federally-recognized tribes and tribal organizations; colleges and universities that are subject to 40 CFR Part 30 or 40 CFR Part 31; non-profit organizations as described in Section 501(c)(3) of the Internal Revenue Code; and other public or non-profit private agencies, institutions, and organizations. Non-profit organization, as defined by OMB Circular A-122, located at 2 CFR Part 230, means any corporation, trust, association, cooperative, or other organization which: (1) is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest; (2) is not organized primarily for profit; and (3) uses its net proceeds to maintain, improve, and/or expand its operations. Non-profit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible applicants. "For profit" organizations are not eligible applicants. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Credentials/Documentation:

The provisions of OMB Circular No. A-87 "Cost Principles for State, Local and Indian Tribal Governments," OMB Circular No. A-21 "Cost Principles for Educational Institutions," and of OMB Circular No. A-122 "Cost Principles for Nonprofit Organizations" apply. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Preapplication assistance is available. Requests for Initial Proposals and Proposals will be accessible on the Internet from GLNPO's home page (<http://www.epa.gov/glnpo/>) and an announcement will be mailed to organizations which have registered with GLNPO. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. As specified in applicable requests for proposals. Application kits may be requested from USEPA – GLNPO (G-17J), 77 West Jackson Boulevard, Chicago, Illinois 60604-3590. Application Packages should be submitted to the same address. Standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Proposals are evaluated by EPA reviewers to determine the adequacy of the application under Great Lakes objectives, including technical merit, relevance of the project, environmental outcomes, and cost. Administrative review is done by the Regional Assistance Branch. Funds are awarded by the Great Lakes National Program Office or Region 2, 3, or 5, as applicable. Great Lakes Restoration Initiative assistance is approved by the Great Lakes National Program Manager. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 60 days after deadline for application submission.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Contact the Great Lakes National Program Office for information.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Leveraging, including an applicant's match percentage, will be considered as part of the project selection process for grants and cooperative agreements; however, the program does not expect to require any minimum match requirement. Any such requirement will be specified in the individual Request for Proposals. A minimum 35 percent matching requirement will apply to Legacy Act projects (Section 103 of the Great Lakes Legacy Act of 2002).

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally 1-3 years; however, some incremental awards are made up to 5 years. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable.

Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program.

Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 10 \$178,627,380; FY 11 est \$108,000,000; and FY 12 est \$133,000,000 - Grants and Cooperative Agreements - FY 10 \$164,627,380; FY 11 est. \$58,000,000; and FY 12 est. \$60,000,000. Legacy Act (Project Agreements) - FY 10 \$14,000,000; FY 11 est. \$50,000,000; and FY 12 est. \$73,000,000.

Range and Average of Financial Assistance:

Grants and Cooperative Agreements: \$14,906 to \$7,000,000/fiscal year;

approximately \$560,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: While implementation of the Great Lakes Restoration Initiative is in an early stage and, therefore, the ecological impact from these investments is still unfolding, the partnership of agencies and stakeholders is beginning to show early results. For example:

- A temporary barrier was constructed to keep Asian carp from migrating up the Wabash River to Ohio's Maumee River watershed, when the two rivers connect during heavy rainstorms. The Indiana Department of Natural Resources (DNR) completed its work in a matter of months using \$640,000 in funding transferred from the U.S. Fish and Wildlife Service to the Indiana DNR.

- Construction of emergency barriers to keep Asian carp an invasive species that could significantly damage the Great Lakes from reaching the Chicago Area Waterway System via the adjacent Des Plaines River, using \$7.25 million. USFWS used GLRI funding to implement more than 120 on-the-ground projects, such as the Shiawassee River wetlands project in Michigan, which resulted in the conversion of 141 acres of agricultural land to wetlands. The effort was completed with the help of a vigorous partnership including Ducks Unlimited and the Saginaw Bay Watershed Initiative Network.

- Federal, state, tribal and local governments are implementing 17 EPA pollution prevention and reduction grants totaling more than \$8.6 million in GLRI funding. Expected results include a reduction in releases of:

o Mercury by more than 2,500 lbs/year

o Lead by 9,800 lbs/year

o Nutrients by 2.8 million lbs/year

o Pesticides of more than 32,000 lbs/year

o Pharmaceuticals, through collections totaling more than 11 million pills, and E-waste, through collections totaling 8 million pounds.

- The Sustain Our Great Lakes program is a public-private partnership between EPA, USFWS, USFS, NOAA, National Fish and Wildlife Foundation, and the ArcelorMittal steel company. Current projects are restoring more than 100 miles of stream riparian habitats and more than 1,500 acres of wetlands. One project, the Upper Manistee Riparian Corridor Restoration Project in the Lake Michigan basin, is removing 12 dams and improving a stream road crossing along the North Branch of the Manistee River and Flowing Well Creek. The project is expected to result in 14 stream miles restored for fish passage, a natural flow regime for 20 miles of stream, restoration of the native brook trout population, and restoration of native vegetation on 650 acres of wetland and upland habitats.

Descriptions of Great Lakes Restoration Initiative projects are available from: https://restore.glnpo.net/glas_pub/qareports.htm. Fiscal Year 2011: GLNPO holds competitions throughout the year based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement typically includes the number of anticipated awards. In FY 11, GLNPO issued a competitive Request for Applications in the following four areas: Toxic Substances and Areas of Concern; Invasive Species; Nearshore Health and Nonpoint Source Pollution; and Accountability, Education, Monitoring, Evaluation, Communication and Partnerships. GLNPO also issues non-competitive grants to States and Tribes for LaMP and RAP activities. Additional information is available from links at <http://www.epa.gov/grtlakes/fund/glf.html>. CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Proposals are approved by EPA according to technical merit and relevance to the Great Lakes Water Quality Agreement, Section 118 of the Clean Water Act, and the criteria established in the applicable Request for Proposals.

66.471 STATE GRANTS TO REIMBURSE OPERATORS OF SMALL WATER SYSTEMS FOR TRAINING AND CERTIFICATION COSTS

(Operator Certification Expense Reimbursement Grants)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act (SDWA) Amendments of 1996, Section 301, Public Law 104-182.

OBJECTIVES:

This grant program was established as a one-time grant to states and U.S. territories to train and certify small drinking water system operators.

Funding Priority - Fiscal Year 2011: EPA's funding priority has been to provide funds to states to reimburse the costs of training, including an appropriate per diem for unsalaried operators, and certification for persons operating community and nontransient noncommunity public water systems serving 3,300 persons or fewer that are required to undergo training pursuant to EPA's operator certification guidelines. All 50 states, Puerto Rico, the Commonwealth of the Northern Mariana Islands, and Guam have received grant funds. No new funding is available for this program.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Grants may be used by states to reimburse operators of community and nontransient noncommunity water systems serving 3,300 persons or fewer for the costs of training and certification needed to meet EPA guidelines. Unsalared operators may also be reimbursed for per diem costs. States are allowed to use a portion of their grant to administer the program. If a state has reimbursed all such costs, the state may, after notice to the Administrator of EPA, use any remaining funds from the grant for any of the other purposes authorized for Drinking Water State Revolving Fund (DWSRF) capitalization grants under section 1452 of the 1996 SDWA Amendments (CFDA 66.468).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States, Puerto Rico, and U.S. Territories are eligible to receive grants.

Beneficiary Eligibility:

States and U.S. Territories are the primary beneficiaries. States and U.S. Territories use funds awarded to them to provide reimbursement to operators of community and nontransient noncommunity public water systems serving 3,300 persons or fewer that are publicly- or privately-owned. Indian tribes and Alaska Native Villages may be eligible to receive funding through state programs if they are subject to state operator certification program requirements.

Credentials/Documentation:

To receive a grant, a State or territory enters into an agreement with the EPA Regional Administrator which shall include, but not be limited to, the requirements set forth in Section 1419(d) of the 1996 SDWA Amendments. OMB Circular No. A-87, "Cost Principles Applicable to Grants and Contracts with State and Local Governments" applies to state grantees. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

An applicant (State and U.S. territory) should seek preapplication assistance from the appropriate EPA Regional Office as listed in Appendix IV of the Catalog. An environmental impact statement is not required prior to grant award. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The standard application for

EPA non-construction grant assistance (EPA Form SF-424) is submitted to the appropriate Regional Office. The state must receive EPA approval of its operator certification program before it can apply for and receive a grant. The state must provide the assurance in its application that it will comply with all applicable Federal cross-cutting authorities and Federal statutes. EPA grant regulations (40 CFR Part 31) apply to states receiving grants. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

A grant application is reviewed by the appropriate Regional Office, and if approved, the grant is awarded by the Regional Administrator under a delegation of authority (Delegation of Authority 9-68) from the Administrator of EPA. EPA Headquarters retains the authority to review certain applications or parts thereof.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approval time averages 45 days.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 66 FR 19939.

Matching Requirements: The Regional Administrator may award expense reimbursement grants from funds appropriated for this purpose. Allotments to the States and U.S. territories are based on a formula, approved by the Assistant Administrator for Water, that allocates the funds based on several factors, including the number of operators of small systems within a State. The allocation methodology was published in the Federal Register on April 18, 2001 (66 FR 19939). There are no matching requirements on the initial grant award. However, if a state reimburses all eligible costs and chooses to use the remaining funds for purposes eligible under the DWSRF program (CFDA 66.468), it will be required to provide a 20 percent match on the remaining amount. The allotment of funds to the States is determined by a formula that reflects the costs to train and certify operators of system serving 3,300 persons or fewer in each state.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

During the two year reimbursement period, 54 awards were made to states for reimbursement of certification and training cost for drinking water operators of small water systems serving populations of 3,300 or less. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United

States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records and other records which substantiate the reasonable and allocable charges must be available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status reports. If questions arise, related records must be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 10 \$0; FY 11 est \$0; and FY 12 est \$0

Range and Average of Financial Assistance:

\$14,420 to \$9,642,860/fiscal year; \$4,828,640/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: All states, Puerto Rico, the Commonwealth of the Northern Mariana Islands, and Guam have received grant funds for this program to date. In FY 10, awarded funds were used to reimburse operators of community and non-transient non-community water systems serving 3,300 persons or fewer for the costs of certification (initial certification fees, certification renewal fees, exam fees) and training (training course fees and materials). Fiscal Year 2011: In FY 11, awarded funds will be used to reimburse operators of community and non-transient non-community water systems serving 3,300 persons or fewer for the costs of certification (initial certification fees, certification renewal fees, exam fees) and training (training course fees and materials). Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Applicants for assistance should review 40 CFR Part 31, the General Grant Regulations and Procedures and guidance produced by the Headquarters drinking water program office.

66.472 BEACH MONITORING AND NOTIFICATION PROGRAM IMPLEMENTATION GRANTS

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 406; Beaches Environmental Assessment and Coastal

Health Act of 2000, Public Law 106-284.

OBJECTIVES:

To assist Coastal and Great Lakes States and Tribes eligible under Section 518(e) of the Clean Water Act, as amended, in developing and implementing programs for monitoring and notification for coastal recreation waters adjacent to beaches or similar points of access that are used by the public.

Funding Priority - Fiscal Year 2011: EPA's funding priority is to award grants to those applicants whose proposals clearly demonstrate a State's, Tribe's, or local government's ability to monitor recreational waters; notify the public of risks; manage programs; and communicate among environmental and public health agencies and the public.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

These grants are intended to support the development and implementation of recreational water monitoring and notification programs or support enhancement of an existing program. EPA encourages grantees to use implementation grant funds to test various approaches for meeting BEACH Act program requirements. For development grants, programs must clearly demonstrate an increase in a State's, Tribe's, or local government's ability to monitor recreational waters and notify the public of risks; manage programs; and communicate among environmental and public health agencies and the public. To be eligible for implementation grants, programs must also demonstrate that they meet the program performance criteria listed in the National Beach Guidance and Required Performance Criteria for Grants (EPA-823-B-02-004). Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Coastal and Great Lakes States, territories (Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands), and Tribes eligible under Section 518(e) of the Clean Water Act, as amended. The Administrator may make a grant to a local government under this subsection for implementation of a monitoring and notification program only if, after the one-year period beginning on the date of publication of performance criteria under Section 406 (a)(1), the Administrator determines that the State is not implementing a program that meets the requirements of Section 406(a)(1), regardless of whether the State has received a grant under Section 406(a)(1). Interstate agencies and intertribal consortia are not eligible for Beach grants.

Beneficiary Eligibility:

States, U.S. territories, Federally recognized Indian Tribal Governments, environmental and public health agencies, and local governments involved in implementing monitoring and notification programs.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State, Tribal, and local governments. Recipients must show compliance with 40 CFR Part 31. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination with the appropriate EPA Regional Office is encouraged. The standard application forms, as furnished by the Federal agency and required by OMB Circular No. A-102, must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official

designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Requests for application forms should be made to the appropriate EPA Regional Grants Management Office identified in Appendix IV of the Catalog. Completed applications should be sent to the appropriate Regional or Headquarters Contact. All proposals or work statements should be developed in response to the criteria identified in CRITERIA FOR SELECTING PROPOSALS. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Grant applications are reviewed by the appropriate EPA Regional Office, and if approved, are awarded by the Regional Administrator.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grants are usually approved within five months of receipt of complete application.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Renewals are subject to approval by the appropriate EPA Regional or Headquarters Contact. Please contact the appropriate EPA Regional or Headquarters Contact for guidance.

Formula and Matching Requirements:

Statutory Formula: Title Beaches Environmental Assessment and Coastal Health Act of 2000. EPA awards grants to all eligible States and territories who apply for funding based on an allocation formula that the Agency developed for allocating BEACH Act grant funds in 2002. The allocation formula uses three factors: (1) beach season length, (2) beach miles, and (3) beach use. This program has no matching requirements. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Beach grants are normally funded on a 12-month basis (yearly). However, EPA may negotiate the project period, grant continuations, and grant amendments with each applicant based on project requirements. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

Recipients must submit annual performance reports and financial reports as required in 40 CFR 31.40 and 31.41. The annual performance report explains changes to the beach monitoring and notification program during the grant year. It also describes how the grant funds were used to implement the program to meet the performance criteria listed in National Beach Guidance and Required Performance Criteria for Grants (EPA 823-B-02-004). The annual performance report required under 40 CFR 31.40 is due no later than 90 days after the grant year ends. Recipients must also submit annual monitoring and notification reports required by the National Beach Guidance and Required Performance Criteria for Grants (EPA 823-B-02-004). Sections 2.2.3 and 4.3 of the document contain the performance criterion requiring an annual monitoring report, and sections 2.2.8 and 5.4 contain the performance criterion requiring an annual notification report. This document can be found at <http://www.epa.gov/waterscience/beaches/grants/>. These reports, required to be submitted to EPA under CWA section 406(b)(3)(A) and the National Beach Guidance and Required Performance Criteria for Grants, include data collected as part of a monitoring and notification program. As a condition of award of an implementation grant, EPA requires that the monitoring report and the notification report for any beach season be submitted not later than January 31 of the year following the beach season. Program reports are required under this program. Cash reports are required under this program. Progress reports are

required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

Obligations:

(Formula Grants) FY 10 \$10,194,200; FY 11 est \$9,880,000; and FY 12 est \$9,900,000

Range and Average of Financial Assistance:

States and territories: \$ 86,000 to \$531,000/fiscal year; \$280,000/fiscal year. In FY 10, EPA made \$100,000 available to eligible Tribes. In FY 10, there were two eligible Tribes.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 10, EPA awarded grants to all 35 coastal and Great Lakes States and territories and two eligible Tribes that qualified for the BEACH Act Grant program. Program benefits from funding in FY 10 include: development and implementation of recreational water quality monitoring protocol (sampling design, indicator organism); decreasing swimmer exposure by improving communication outreach and education to public on swimming advisories; establishing more efficient and timely management decision process for posting swimming advisories; and constructing databases to provide government and public access to data and information. Fiscal Year 2011: In FY 11, grants will continue to support the development and implementation of recreational water quality monitoring and notification programs or support enhancement of an existing program. RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Development and implementation of beach monitoring programs; development of databases and websites; purchase of lab equipment for water quality monitoring; construction and posting of signs on beaches; and purchase of vehicles for monitoring. Fiscal Year 2011: Development and implementation of beach monitoring programs; development of databases and websites; purchase of lab equipment for water quality monitoring; construction and posting of signs on beaches; and purchase of vehicles for monitoring. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

To be eligible for program implementation grants, applicants must meet program performance criteria outlined in National Beach Guidance and Required Performance Criteria for Grants (EPA-823-B-02-004). The performance criteria set forth implementation grant requirements for monitoring and assessing recreation waters and promptly notifying the public of exceedances of water quality for pathogens. As a condition of receipt of a program Implementation Grant under Section 406(b) of the Clean Water Act, a State or local government program for monitoring and notification under this section shall identify: (1) lists of coastal recreation waters in the State, including coastal recreation waters adjacent to beaches or similar points of access that are used by the public; (2) in the case of a State program for monitoring and notification, the process by which the State may delegate to local governments responsibility for implementing the monitoring and notification program; (3) the frequency and location of monitoring and assessment of coastal recreation waters based on: (a) the periods of recreational use of the waters; (b) the nature and extent of use during certain periods; (c) the proximity of the waters to known point sources and nonpoint sources of pollution; and (d) any effect of storm events on the waters; (4)(a) the methods to be used for detecting levels of pathogens and pathogen indicators that are harmful to human health; and (b) the assessment procedures for identifying short-term increases in pathogens and pathogen indicators that are harmful to human health in coastal recreation waters (including increases in relation to storm events); (5) measures for prompt communication of the occurrence, nature, location, pollutants involved, and extent of any exceeding of, or likelihood of exceeding, applicable water quality standards for pathogens and pathogen indicators to: (a) the Administrator, in such form as the Administrator determines to be appropriate; and (b) a designated official of a local government having jurisdiction over land adjoining the coastal recreation

waters for which the failure to meet applicable standards is identified; (6) measures for the posting of signs at beaches or similar points of access, or functionally equivalent communication measures that are sufficient to give notice to the public that the coastal recreation waters are not meeting or are not expected to meet applicable water quality standards for pathogens and pathogen indicators; and (7) measures that inform the public of the potential risks associated with water contact activities in the coastal recreation waters that do not meet applicable water quality standards.

66.473 DIRECT IMPLEMENTATION TRIBAL COOPERATIVE AGREEMENTS

(DITCA)

FEDERAL AGENCY:

Office of International and Tribal Affairs, Environmental Protection Agency

AUTHORIZATION:

Consolidated Appropriations Act, 2006, Public Law 109-54.

OBJECTIVES:

Direct Implementation Tribal Cooperative Agreements (DITCAs) enable EPA to award cooperative agreements to federally recognized Indian tribes and eligible intertribal consortia to help carry out the Agency's function to implement directly, Federal environmental programs required or authorized by law in the absence of an acceptable tribal program, notwithstanding the Federal Grant and Cooperative Agreement Act. DITCAs are an increasingly important avenue for EPA and the tribes to realize meaningful environmental protection in Indian Country. DITCAs enable EPA to partner with tribes help fulfill EPA's direct implementation authorities, yield environmental results, and assist the Agency in meeting its Strategic Plan goals and targets. DITCAs also provide tribes with the flexibility and opportunity by allowing tribes, through a workplan with EPA and under federal authority, to choose aspects of a program that address their tribal environmental needs and priorities, to determine the scope and pace of tribal involvement, and to build tribal capacity to implement environmental programs.

Funding Priority - Fiscal Year 2011: The program provides another avenue for tribes and EPA to partner in implementing meaningful environmental protection in Indian Country. DITCAs provide tribes with the flexibility and opportunity to develop staff capacity to manage environmental programs, to address specific tribal environmental needs and priorities that are within EPA's authority for direct implementation, and to determine the scope and pace of tribal involvement. EPA retains final decision-making authority and ultimate responsibility for the environmental programs including all regulatory activities. EPA may award DITCAs to fund activities for environmental programs that meet either one of the following criteria: 1) federal programs under environmental laws that clearly require EPA to directly implement in the Tribal context; or 2) federal programs under environmental laws that in the state context EPA is required to directly implement in the absence of an acceptable state program. Because DITCAs can address a wide range of activities, and the need for implementation of these activities in Indian Country is great, the funding priority is for any eligible activity that addresses a tribal environmental need or priority, and yields meaningful environmental results for the tribe and the Agency.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

DITCAs assist Tribes in helping EPA directly implement Federal environmental programs required or authorized by law in the absence of an acceptable Tribal program, and may only be awarded to Tribes to assist the Administrator in directly implementing Federal environmental programs for Indian Tribes required or authorized by law. EPA may award DITCAs to fund activities for environmental programs that meet either one of the following criteria: 1) federal programs under environmental laws that clearly require EPA to directly implement in the Tribal context; or 2) federal programs under environmental laws that in the state context EPA is required to directly implement in the absence of an acceptable state program. There are several limitations on DITCA awards. Among them are: (1) The statutory authority for DITCA is found in appropriations acts. In the event the appropriation authority

is extended by continuing resolution(s), the DITCA authority will also be extended. (2) The project period of the DITCA may extend beyond the period of the appropriations act under which it was created, but all funds must be awarded prior to the expiration of the appropriations act authorizing the DITCA. (3) DITCA funded personnel may not perform inherently Federal functions. (4) EPA personnel can provide assistance to DITCA representatives based on the written DITCA work plan which may include daily direction. EPA cannot treat DITCA representatives as EPA employees by participating in hiring, disciplining, or firing decisions. (5) DITCA funded personnel cannot operate vehicles which are either owned or leased by the Federal government. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

DITCAs may be awarded to: (1) Federally Recognized Indian Tribal Government, and (2) intertribal consortia consistent with applicable provisions. In order for an intertribal consortium to be eligible to receive cooperative agreements under this authority, an intertribal consortium should be consistent with the provisions in 40 C.F.R. Part 35. See Notice of Guidance Issuance: Direct Implementation Tribal Cooperative Agreements (DITCAs) Guidance, 70 Fed. Reg 1440 (2005).

Beneficiary Eligibility:

Federally Recognized Indian Tribal Government and intertribal consortia consistent with applicable provisions.

Credentials/Documentation:

The provisions of OMB Circular No. A-87 "Cost Principles for State, Local and Indian Tribal Governments" apply. In order for intertribal consortium to be eligible to receive cooperative agreements under this authority, an intertribal consortium should be consistent with the provisions in 40 CFR Part 35. For additional information see also the Notice of Guidance Issuance, 70 Fed. Reg. 1440 (2005). OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. EPA will work with Tribes and Intertribal Consortia to develop work plans consistent with program guidance and any regulations that govern the implementation of the relevant Federal environmental program. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The preapplication must be submitted to EPA for review. Successful applicants will be contacted by EPA and will be required to submit "Application for Federal Assistance," SF 424; "Budget Information: Non-Construction Programs," SF 424A, "Assurances-Non-Construction Programs, Certification Regarding Debarment, Suspension and Other Responsibility Matters," SF 424B; "Certification Regarding Lobbying;" "Pre-Award Compliance Review," EPA 4700-4; and other required forms to complete the application process. Eligible applicants should contact the appropriate Regional Office Contact identified in Appendix IV of the Catalog of information regarding preapplications. The forms are available at: <http://www.epa.gov/ogd/AppKit/application.htm>. Completed applications should be submitted to the appropriate Regional Office Contact identified in Appendix IV of the Catalog. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

EPA will review each application to determine the adequacy of the application

in relation to EPA's grant regulations (40 CFR Part 31) and applicable program regulations and guidance. If the application is approved, EPA will award a cooperative agreement up to the reasonable and necessary cost of the approved work plan.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Applications are generally approved and cooperative agreements awarded within 60 to 120 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally awards cooperative agreements for periods of 12 to 36 months. The term of the grant shall be determined at the time of award. See the following for information on how assistance is awarded/released: Other. The method of fund disbursement will be determined at the time of award.

Reports:

EPA and Tribes will negotiate the frequency and content of performance and financial status reports. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 35, "Environmental Program Grants for Tribes." Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual Financial Status Report (SF-269). If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

66.474 WATER PROTECTION GRANTS TO THE STATES

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Consolidated Appropriations Resolution of 2003, Public Law 108-7; Consolidated Appropriations Resolution of 2004, Public Law 108-199; Department of Defense and Emergency Supplemental Appropriations for Recovery from and Response to Terrorist Attacks on the United States Act, 2002, Public Law 107-117; Safe Drinking Water Act, Section 1442.

OBJECTIVES:

The objective of this grant program is to assist States, Territories, and possessions of the United States with critical water infrastructure protection.

Funding Priority - Fiscal Year 2011: EPA's funding priority is to provide grant assistance to the States, Territories, and possessions of the United States to support technical assistance, training, and communication activities on critical

water infrastructure protection efforts that include work with drinking water systems as well as with Federal, State, and local agencies. States, Territories, and possessions of the United States will be able to continue their efforts to coordinate critical water infrastructure protection activities with other homeland security responsibilities. Grant awards support Goal 2, "Clean and Safe Water," of EPA's 2006-2011 Strategic Plan. Specifically, awards will enhance public health protection by securing critical infrastructure through support for counter-terrorism preparedness; communicating vision, mission, and goals of the sector specific plan and the key features of an active and effective security program; helping to ensure security best practices for small systems; promoting outreach and education at small systems; promoting mutual aid compacts development; supporting the development of system redundancy, a national laboratory system and disaster mitigation plans; and developing and overseeing emergency response and recovery plans, including those related to pandemic flu concerns. No new appropriations are available for this program in FY 2011.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funded activities include providing: (1) technical assistance, training, or distribution of tools that would lead to satisfactory vulnerability assessments of drinking water systems; (2) technical assistance, training, or distribution of tools that would lead to drinking water systems creating, amending or updating emergency response plans to meet new requirements or security threats; (3) assistance to improve communications with or between drinking water systems and other agencies or organizations involved with security or emergency response; and (4) other activities focusing on training to enhance security and improving the readiness of individuals and groups involved in first response at drinking water systems. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is available to States, Tribes, Territories, and possessions of the United States.

Beneficiary Eligibility:

Water programs of States, Territories, and possessions of the United States.

Credentials/Documentation:

. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Pre-application assistance is recommended and should be obtained from the Grants Management Office of the pertinent EPA Regional Office listed in Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The standard application forms, furnished by EPA and required by OMB Circular No. A-102, must be used for this program. Requests for application kits may be directed to the Grants Management Office of the applicable EPA Regional Office listed in Appendix IV of the Catalog. Kits may also be obtained online at <http://www.epa.gov/ogd/AppKit/application.htm>. The completed application, including the final proposal, should be submitted to the appropriate EPA

Regional Grants Management Office. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Application is reviewed by the appropriate EPA Regional Office and, if approved, is signed by the Regional Administrator or designated Division Director.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 30 to 90 days.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title PWSS formula. As was the case in FY 02 through FY 08, for FY 09 a modification of the basic PWSS formula was chosen to allocate the funds, with each State, the District of Columbia, and Puerto Rico receiving a minimum of \$50,000 and each Territory at least \$16,700.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The project/budget period on these grants may exceed one year. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

Obligations:

(Formula Grants) FY 10 \$1,776,037; FY 11 est \$0; and FY 12 est \$0

Range and Average of Financial Assistance:

Funds are awarded by each Regional Office. The range of financial assistance available to States varies according to program and fiscal year. Contact the Grants Management Office of the pertinent EPA Regional Office, listed in Appendix IV of the Catalog, to determine the amount for which applicants are eligible. The range and average of financial assistance provided is: FY 09 - \$16,700 to \$380,300/fiscal year; \$198,500/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 10, States and Territories continued to develop materials (i.e., documents, training manuals, etc.) focused on improving security and emergency response, ensuring the quality of drinking water vulnerability assessments, and associated security enhancements. Additionally, States and Territories conducted a number of trainings, workshops, and/or conferences to improve infrastructure protection, increase preparedness, promote mutual aid compacts and/or provide information to drinking water utilities. Significant action has been accomplished in helping to support and establish mutual aid compacts, including providing technical support and training exercises related to these agreements. Outcomes included changed management and operation of drinking water utilities based on training and current vulnerability assessments of the utilities; and establishment and improvement of emergency response coordination and communications. Fiscal Year 2011: In FY 11, States and Territories continued to support security activities to achieve the overall outcome of improving critical water infrastructure protection with an emphasis on smaller systems, mutual aid compacts between systems and States, and better understanding and application of an active and effective security system. During this period, the States and Territories continued to use prior allocated funding to achieve these goals, as no new funding was available. Fiscal Year 2012: No Current Data Available

66.475 GULF OF MEXICO PROGRAM

(Gulf of Mexico Alliance Regional Partnership Projects)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), 33 U.S.C 1254.

OBJECTIVES:

(1) To assist States, Indian Tribes, interstate agencies, and other public or nonprofit organizations in developing, implementing, and demonstrating innovative approaches relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution; and (2) To expand and strengthen cooperative efforts to restore and protect the health and productivity of the Gulf of Mexico in ways consistent with the economic well-being of the region.

Funding Priority - Fiscal Year 2011: Projects that will deliver significant results to achieve the environmental outcomes of improved health of the Gulf of Mexico by addressing water quality with an emphasis on the following: healthy beaches and shellfish beds; habitat conservation and restoration; increased awareness/stewardship of the Gulf of Mexico; ecosystems integration and assessment; reduced nutrient inputs to sustain productive Gulf aquatic ecosystems; and coastal community resilience. Projects must actively involve stakeholders and focus on short-term support and implementation of the actions and activities in the Gulf of Mexico Alliance Governors' Action Plan II for Healthy and Resilient Coasts and the Gulf Coast Ecosystem Restoration Strategy.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Section 104 (b)(3) of the Clean Water Act, 33 U.S.C. Section 1254 (b)(3) authorizes the awarding of assistance for programs established under the Clean Water Act. Assistance will be targeted to States, Tribes, interstate agencies, and other public or nonprofit organizations that commit to specific activities. Eligible activities should be of a relatively short time frame (6 months to 3 years) and all projects should achieve and demonstrate results. Assistance agreements are available to support recipients' allowable direct costs incident to approved surveys, studies, investigations, research, and demonstrations plus allowable indirect costs, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies

that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Funds are available to State and local governments, interstate agencies, Tribes, colleges and universities, and other public or nonprofit organizations. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, interstate agencies, Tribes, colleges and universities, and other public or nonprofit organizations.

Credentials/Documentation:

Compliance with 40 CFR Parts 30 and 31 and with Program Funding Guidance. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments, OMB Circular No. A-122 for nonprofit organizations, and OMB No. A-21 for educational institutions. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants should follow the proposal format and instructions provided in the Funding Announcement. The proposal should be transmitted electronically to the email address and by the date and time published in the Funding Announcement. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90-180 days following the application deadline as addressed in the competitive funding announcement.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

\$36,000 to \$400,000/fiscal year; \$149,460/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 10, 91 proposals were received in response to a competition to support projects to accomplish short-term actions toward implementation of the Gulf of Mexico Alliance Governors' Action Plan for Healthy and Resilient Coasts and 11 assistance agreements were awarded. Accomplishments include: dissemination and evaluation of a Coastal Community Resilience Index; development of a StormSmart Coast Network and creation of a Homeowner's Handbook to prepare for natural hazards; support to further the knowledge of living marine resources status in the Gulf of Mexico and coastal observing systems; building cultural competency in experiential environmental education; providing enhanced public awareness and understanding of the Gulf Alliance priority issues through exhibitry; assessment and prioritization of Gulf ecosystems affected by alterations in freshwater inflow; development of a pilot nutrient criteria for an estuary in the Western Gulf of Mexico; sources, fate, transport and effects of nutrients on downstream ecological processes in the Galveston Bay estuary; binational training workshops on harmful algal blooms in support of HABSOS; achieving Gulf-wide data comparability through round robins; and assessment of mercury risks and selenium. Fiscal Year 2011: In FY 11, it is anticipated that 100 proposals will be received in response to a competition to continue support for projects to accomplish implementation of the Gulf of Mexico Alliance

Governors' Action Plan II and the Gulf Coast Ecosystem Restoration Strategy. It is estimated that approximately 10-50 assistance agreements will be awarded. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

For assistance agreements with States, local governments, and Indian tribal governments, the procedures and requirements should be in conformance with 40 CFR Part 31 "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," and OMB Circular Nos. A-87 "Cost Principles for State and Local Governments" and A-102, "Grants and Cooperative Agreements for States and Local Governments." For assistance agreements with other entities the procedures should be in conformance with 40 CFR Part 30, "Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations."

66.478 WATER SECURITY TRAINING AND TECHNICAL ASSISTANCE AND WATER SECURITY INITIATIVE CONTAMINATION WARNING SYSTEM PILOTS

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

The Public Health Security and Bioterrorism Preparedness and Response Act of 2002, Title 4, Public Law 107-188; Safe Drinking Water Act, Section 1433&1434; Department of Defense and Emergency Supplemental Appropriations for Recovery from and Response to Terrorist Attacks on the United States Act of 2002, Public Law 107-117.

OBJECTIVES:

The objective of these grant programs are (1) for financial assistance that is awarded under SDWA Section 1433, to improve water infrastructure security through both training and technical assistance for water utilities and (2) for cooperative agreements that are awarded under SDWA Section 1434, to address the risk of intentional contamination of drinking water distribution systems.

Funding Priority - Fiscal Year 2011: For Section 1433 financial assistance, no funding is anticipated for Fiscal Year 2011. If funds become available, EPA's funding priority is to provide assistance to eligible non-profit organizations that provide training, technical support or other assistance to water utilities. Specifically, EPA is seeking to utilize the ability of non-profit organizations to provide water security technical support and training. For Section 1434 cooperative agreements, no funding is anticipated for Fiscal Year 2011. If funds become available, EPA's funding priority is to provide assistance to community water systems for drinking water contamination warning system pilot projects. Financial assistance awarded under both of these programs support Goal 2, Clean and Safe Water, of EPA's 2006 - 2011 Strategic Plan. Specifically, awards will enhance public health protection by securing critical infrastructure through support for counter-terrorism preparedness.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funded activities for financial assistance awarded under Section 1433 of the SDWA include: (1) training to gain competence and expertise in the process of developing or completing vulnerability assessments; (2) training to gain competence and expertise in the process of developing, amending, or updating emergency response plans; (3) training to gain competence and expertise in various security enhancements; and (4) providing competent training and technical assistance in the aforementioned areas to help states, tribes, and local authorities in their water infrastructure security efforts. Funded activities for cooperative agreements awarded under Section 1434 of the SDWA may include: (1) demonstration of contamination and warning system monitoring and surveillance components; (2) contamination warning system consequence management plan; and (3) evaluation and transfer of results. Specific uses and restrictions on funds will be described in detail in the competitive announcements for each program. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Financial assistance awarded under Section 1433 of the SDWA is available to public non-profit institutions/organizations and private non-profit institutions/organizations, capable of providing training, technical support and/or assistance to drinking water systems. Cooperative agreements awarded under Section 1434 of the SDWA will be limited to local governments or institutions (either public or private nonprofit organizations) that operate community water systems (as defined in 40 C.F.R. 141.2). Note that 501(c)(4) non-profit organizations that lobby are not eligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

For financial assistance awarded under both Sections 1433 and 1434 of the SDWA, the beneficiaries are the drinking water systems, the water programs of the State or Tribe, and the public which will benefit from these programs through safer and more secure drinking water.

Credentials/Documentation:

EPA may request that applicants demonstrate their eligibility. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Section 1434 cooperative agreements are a new grant program that has not been included in the agency's list of programs subject to Intergovernmental review. However, EPA recommends that applicants for these cooperative agreements should consult the office or official designated as the single point of contact in its State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. This program also does not require an environmental impact statement or assessment. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Applicants must submit an "Application for Federal Assistance," SF 424, "Budget Information: Non-Construction Programs," SF 424A, "Assurances: Non-Construction Programs," SF 424B, "Certification Regarding Debarment, Suspension and Other Responsibility Matters," "Certification Regarding Lobbying," "Pre-Award Compliance Review Report," EPA 4700-4, and other required forms to complete the application process. Application kits should be requested from the U.S. Environmental Protection Agency, Grants and Interagency Agreements Management Division, Mail Code 3903R, 1200 Pennsylvania Avenue, N.W., Washington, DC 20460 or the appropriate EPA Regional Office identified in Appendix IV of the Catalog. Detailed information and assistance, including an application kit, required forms, and a check list, may also be found at <http://www.epa.gov/ogd/AppKit/index.htm>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. Applications should be submitted in accordance with the procedures stated in the competitive announcement.

Award Procedure:

Applications are reviewed by EPA, where subsequent grant awards are made to successful applicants. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 30 to 90 days after deadline for application submittal.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Any continuation of funding will be described in the terms of the assistance agreement.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Matching requirements, if any, will be described in the competitive announcement.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304; 68-0107-0-1-304 - For financial assistance awarded under Section 1433 of the SDWA, 68-0107-0-1-304 and 68-0108-0-304; S&T and EPM. For cooperative agreements awarded under Section 1434 of the SDWA, 68-0107-0-1-304; S&T.

Obligations:

(Cooperative Agreements) FY 10 \$7,484,803; FY 11 est \$0; and FY 12 est \$0 - For financial assistance awarded under Section 1433 of the SDWA, FY 10 \$0; FY 11 est. \$0; and FY 12 est. \$0. For cooperative agreements awarded under Section 1434 of the SDWA, FY 10 \$7,484,803; FY 11 est. \$0; and FY 12 est. \$0.

Range and Average of Financial Assistance:

For financial assistance awarded under Section 1433 of the SDWA, no funding was provided in FY 10 and none is anticipated for FY 11. For cooperative agreements awarded under Section 1434 of the SDWA, funding provided in FY

10 ranged from \$3,734,803 to \$3,750,000, with an average of \$3,742,402. No funding is anticipated for FY 11.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Competitions are held at Headquarters and in the Regions based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement will include the number of anticipated awards. In FY 10, for Section 1433 awards, no competitive announcements were issued and no new awards were made. For Section 1434 awards, this was a financial assistance pilot program. In FY 07, EPA issued a competitive announcement to award up to four cooperative agreements to support drinking water contamination warning system demonstration pilots. These pilots are part of the Agency's Water Security Initiative, which seeks to develop a warning system that achieves timely detection of and appropriate response to drinking water contamination incidents. The pilots include specified monitoring and surveillance components, a consequence management plan, and an evaluation plan. The anticipated outcome is that these pilots will generate information that allows community water systems nationally to practice effective techniques to detect and respond to possible contamination events. Drinking water consumers will experience a reduction in risk associated with drinking water contamination and improved water quality. Fiscal Year 2011: Competitions are held at Headquarters and in the Regions based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement will include the number of anticipated awards. Currently for FY 11, EPA has no funds available; however, should funding become available, projects that will improve the security of drinking water systems will be the focus of the awards. Fiscal Year 2012: No Current Data Available

66.474 Water Protection Grants to the States

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: In FY 10, no funding is anticipated for projects to be awarded under Section 1433 of the SDWA. For cooperative agreements awarded under Section 1434 of the SDWA, activities continue to be conducted under four contamination warning system demonstration pilots (i.e., designing, installing, and operating) that include monitoring and surveillance components of the Water Security design, a consequence management plan, and an evaluation plan. Fiscal Year 2011: In FY 11, no funding is anticipated for projects to be awarded under Section 1433 of the SDWA. For cooperative agreements awarded under Section 1434 of the SDWA, activities continue to be conducted under four contamination warning system demonstration pilots (i.e., designing, installing, and operating) that include monitoring and surveillance components of the Water Security design, a consequence management plan, and an evaluation plan. CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.479 WETLAND PROGRAM GRANTS - STATE/TRIBAL ENVIRONMENTAL OUTCOME WETLAND DEMONSTRATION

PROGRAM

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 92-500, 33 U.S.C 1254(b)(3).

OBJECTIVES:

To assist State and Tribal government agencies protect, manage, and restore wetlands.

Funding Priority - Fiscal Year 2011: This one-time pilot program, funded in FY 05 through FY 07, provided grants for states and tribes to implement regulatory and nonregulatory activities to assess whether financial assistance for wetland program implementation yields positive environmental outcomes. Grantees annually report the programmatic and environmental outcomes resulting from their grants. This program represents a one-time pilot effort; EPA does not plan on funding any new projects.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

State/Tribal Environmental Outcome Wetland Demonstration Grants provide eligible applicants an opportunity to conduct projects that promote the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. This pilot program will demonstrate that supporting the implementation of State and Tribal wetland programs will have positive environmental results and will support the no net loss/net gain of wetland acreage goal and support increased involvement of State and Tribal protection of vulnerable waters. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States and Tribal wetland agencies are eligible for the State/Tribal Environmental Outcome Wetland Demonstration Program competition pilot. Local agencies and non-for-profits are not eligible for participation. Tribes must be federally recognized, although "Treatment as a State" status is not a requirement. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and tribal governments involved in administering wetlands protection, restoration, and/or management programs or programs related to or complementing wetlands protection programs.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State, Tribal, and local governments. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372,

"Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Information is available on the EPA website at: <http://www.epa.gov/owow/wetlands/grantpilot/>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

The EPA Headquarters (HQ) Office established criteria against which State and Tribal wetland programs were evaluated and ranked. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grants are usually approved within 120 days of receipt of completed application.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: State and Tribal government agencies must provide a minimum of 25 percent of each award's total project costs in accordance with 40 CFR 31.24, 35.385, and 35.615. We encourage States and Tribes to provide a larger share of the project's cost whenever possible (i.e., in excess of the required 25 percent of total project costs). 40 CFR 35.536(c) (the Environmental Program Grants for Tribes Regulation), States that "the required cost share shall be five percent of the allowable cost of the work plan budget for that program" if the Tribal applicant puts the funds into a PPG. Tribal applicants can submit budgets with a 5 percent match if the Tribe is going to put the funds into a PPG. The following term and condition will be included in the assistance agreement awarded to the Tribe: If the Wetlands Program Grant Funds are not or could not be included in a PPG, then the Tribe must provide a 25 percent match. The match requirement can be met with contributions from entities other than the award recipient. Other Federal money cannot be used as the match for this grant program unless authorized by the statute governing the award of the other Federal funds. However, Indian tribes can use funds provided under the Indian Self-Determination and Education Act (25 USC 450 et seq.) to provide the required matching funds to the extent authorized by that Act and implementing regulations. Matching funds are considered grant funds. They may be used for the reasonable and necessary expenses of carrying out the work plan. Any restrictions on the use of grant funds (i.e., prohibition of land acquisition with grant funds) also apply to the use of matching funds.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly,

interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Project Grants) FY 10 \$0; FY 11 est \$0; and FY 12 est \$0

Range and Average of Financial Assistance:

\$200,000 to \$300,000/fiscal year; \$250,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Funding is for projects designed to investigate and demonstrate whether wetland program implementation results in positive environmental and programmatic outcomes. This is a one-time pilot grant program. In FY 05, EPA received 51 proposals in response to the competitive announcement released November 5, 2004. EPA awarded 26 one-time pilot grants to 22 states and one tribe. Projects include: activities to track no net loss of wetland acres in the 404 regulatory program and net gain in wetland acres and functions; monitoring and assessment; compliance inspections and enforcement of state regulatory programs; state permit reviews; inventory and mapping of wetland resources; compensatory mitigation; and development of rules, policies, and procedures to restore and protect vulnerable wetlands. At the end of each year of funding, projects report the outcomes resulting from activities funded by the pilot grants. To date, pilot grant recipients have submitted approximately thirty-eight annual reports and the final report in FY 10. The following represents a sample of results reported to date; these numbers will increase when the pilot projects are complete: -Restoration: three grantees have restored over 190 wetland acres and 1,542 stream feet;- Inventory and Mapping: eight grantees have inventoried or mapped over 7.0 million acres of wetland resources and surrounding lands;-Data Systems: Because of updated and reconfigured data tracking systems, 44 more programs, agencies, and organizations in 9 states are using wetland data systems;- Monitoring and Assessment: five grantees have monitored and/or assessed over 730,000 wetland acres; and-Regulation: eight grantees have adopted and implemented three new rules and 12 policies or procedures to better protect wetlands resources through state programs. Fiscal Year 2011: Funding is for projects designed to investigate and demonstrate whether wetland program implementation results in positive environmental and programmatic outcomes. This is a one-time pilot grant program. Projects include: activities to track no net loss of wetland acres in the 404 regulatory program and net gain in wetland acres and functions; monitoring and assessment; compliance inspections and enforcement of state regulatory programs; state permit reviews; inventory and mapping of wetland resources; compensatory mitigation; and development of

rules, policies, and procedures to restore and protect vulnerable wetlands. At the end of each year of funding, projects report the outcomes resulting from activities funded by the pilot grants. Fiscal Year 2012: No Current Data Available

Funding under this pilot program will be provided to the States and Tribes that rank the highest.

66.480 ASSESSMENT AND WATERSHED PROTECTION PROGRAM GRANTS

(AWPPG)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3).

OBJECTIVES:

To support the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution. The two main goals of the Assessment and Watershed Protection Program Grants (AWPPGs) include supporting a watershed approach to better address water quality problems in the U.S. and building the capacity of all levels of government to develop and implement effective, comprehensive programs for watershed protection, restoration, and management.

Fiscal Year 2011: Funding under this program area may include:

Watershed/Total Maximum Daily Load (TMDL) Program - (1) Assessment and TMDL Workshops; (2) Impaired Waters Recovery and Results Analysis; (3) Tools and Products Training for the Watershed Approach; and (4) Tools, Incentives and Trainings that Foster Financing of Water Quality, Habitat Restoration/Protection on a Watershed Scale. Nonpoint Source Program - (1) National Conference and Outreach Program to Promote Clean Lakes.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs incidental to approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. Specific uses and restrictions on funds will be described in detail in the competitive announcements.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is available to States and local governments, Federally recognized Indian Tribes, territories and possessions of the U.S. (including the District of Columbia), interstate associations or intertribal consortia, public or private nonprofit, nongovernmental institutions, and individuals. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States and local governments, Federally recognized Indian Tribes, territories and possessions of the U.S. (including the District of Columbia), interstate associations or intertribal consortia, public or private nonprofit, nongovernmental institutions, and individuals.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. Costs will be determined in accordance with OMB Circular no. A-21 for educational institutions, OMB Circular Nos. A-122 for nonprofit organizations, and A-87 for State and local governments. OMB

Circular No. A-87 applies to this program.

Preapplication Coordination:

EPA awards grants and cooperative agreements supporting research, investigations, experiments, training, demonstrations, surveys, and studies and based on competitive applications submitted in response to EPA solicitations. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard application forms, as furnished by the Federal agency and required by OMB Circular Nos. A-102 and A-110, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), 1200 Pennsylvania Ave., NW, Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. The Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. Generally, EPA incrementally funds grants and cooperative agreements for water surveys, studies, demonstrations, and investigations. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, availability of funds, and Agency policy on the competitive grant process.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (nonprofits and universities) or 40 CFR Part 31 (governmental units) are applicable. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients' grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

66.481 LAKE CHAMPLAIN BASIN PROGRAM

(Lake Champlain Program)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act , Section 120, Public Law 107-303.

OBJECTIVES:

To implement the Lake Champlain Basin Management Plan Opportunities for Action: An Evolving Plan for the Future of the Lake Champlain Basin, and to assist the states of New York and Vermont in protecting and preserving the Lake Champlain ecosystem.

Funding Priority - Fiscal Year 2011: Efforts in Lake Champlain will continue to support the successful interstate, interagency, and international partnership undertaking the implementation of "Opportunities for Action," a plan designed to address various threats to the Lake's water quality, including phosphorus loadings, invasive species, and toxic substances. Grants under this program shall be made for assisting research, surveys, studies, modeling, technical, field, restoration, education, outreach, and other supporting work necessary for the development and implementation of the Lake Champlain Basin Management Plan. Funding priorities include phosphorus control and environmental education and outreach.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

As described in Section 120 of the CWA, funds may be used to implement elements of the Lake Champlain Basin Management Plan, Opportunities for Action. Projects outside of the Lake Champlain Basin are not eligible for funding under this program. Grant awards must be made in consultation with the Lake Champlain Basin Program Steering Committee, and must support activities consistent with the goals of Opportunities for Action. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State, interstate, and regional water pollution control agencies, and public or nonprofit agencies, institutions, and organizations are eligible to receive grants from EPA through this program. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Assistance under this program generally benefits State environmental, health, and agriculture agencies; interstate water pollution control agencies; public nonprofit institutions and organizations; sponsored organizations; Federal agencies; local agencies; intrastate agencies; public and private nonprofit institutions and organizations; private organizations; small businesses; and quasi-public nonprofit institutions.

Credentials/Documentation:

Nonprofit private agencies, institutions, and organizations may be required to provide documentation of their organizational status upon application. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. A pre-application form is not required. Informal pre-application discussions or conferences with the Lake Champlain Basin Program Steering Committee, and EPA Regions 1 and 2 are required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The Lake Champlain Basin Program Steering Committee, in conjunction with EPA Regions 1 and 2, develops the annual budget and task list. This budget and task list is then divided between the States of Vermont and New York and the New England Interstate Water Pollution Control Commission. From this information, these three organizations then prepare grant applications and workplans for submittal to EPA Region 2 or Region 1. The standards application forms, as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110, must be used for this program. EPA requires final applications to be made on Standard Form 424. Application kits should be requested from the Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), 1200 Pennsylvania Avenue, N. W., Washington, DC 20460 or the appropriate EPA Regional Office identified in "Regional or Local Office" section for information contacts. Detailed information and assistance, including and application kit, required forms, and a checklist may also be found on the web (<http://www.epa.gov/ogd/AppKit/application.htm>). Applications must be submitted to the appropriate EPA Regional Office identified in "Regional or Local Office" section for information contacts. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Each federal assistance application and final work plan will be evaluated by EPA Region 1 or Region 2 to determine the adequacy of the application under the established EPA grants program requirements and guidelines, including, but not limited to, the requirements set forth in 40 CFR Parts 30 and 31. Technical merit and the relevance of the project to the priorities and objectives established in Opportunities for Action will also be considered. Each application will also be subject to an administrative review by the EPA Region 1 or 2 grants management office as appropriate to determine whether all administrative requirements have been met. The workplan is submitted to the EPA Region 1 and 2 Regional Administrators for approval prior to the award of any assistance agreement. Once a Regional Office approves the annual workplan, funds are awarded by the EPA Region 1 or 2 Regional Administrator as appropriate. Grantees will receive an award package from the appropriate EPA Regional grants management office that must be accepted and signed by an authorized official of the recipient organization and returned to the grants management office within 30 days. Awards may be made on an advance or reimbursement basis. Awards that are not signed and returned by the deadline may be subject to cancellation. For competitive awards, EPA will review and evaluate

applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Notification of action on proposals varies depending on the timing of funds release to the EPA Regional Offices from Headquarters. Interval from submission to notification may vary from two months to eight months.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

No cost extensions and amendments may be available subject to the approval of EPA. Approval of subsequent funding is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, and availability of funds, and the Agency policy on the competitive grant process.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: This program has a statutory matching requirement; see CWA section 120 (f)(3). For all assistance (grants and cooperative agreements) made under this program, federal costs shall not exceed 75 percent of the total cost of the agreement. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements are generally made for a multi-year period at the discretion of EPA. Start dates for assistance agreements are variable and are established at the discretion of EPA. Generally however, it is intended that start dates closely follow award dates of the assistance agreement. Awards are fully funded, recipients draw down funding as cost are incurred, typically monthly. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations at 40 CFR Part 30 and 40 CFR Part 31, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be

maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those that arose as a result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

Obligations:

(Project Grants) FY 10 \$3,970,000; FY 11 est \$2,990,000; and FY 12 est \$1,399,000

Range and Average of Financial Assistance:

\$35,000 to \$2,712,841/fiscal year; \$637,000/fiscal year.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Since 1991, EPA's funding of the Lake Champlain Basin Program has led protection and restoration of the Lake Champlain basin through coordination with federal, provincial, state, and municipal agencies and local citizens. The main program goals, as laid out in the Lake Champlain Management Plan Opportunities for Action, are as follows: reducing phosphorus inputs to Lake Champlain; decreasing toxic contamination; minimizing the risks to humans from water-related health hazards; and controlling the introduction, spread, and impact of nonnative nuisance species. EPA works with the Lake Champlain Basin Program Steering Committee to determine funding priorities and distributes funds accordingly. The following three entities typically receive funding on an annual basis: New England Interstate Water Pollution Control Commission (NEIWPCC), Vermont Department of Environmental Conservation, and the New York Department of Environmental Conservation. They may choose to compete all or part of the funds. Competitive announcements typically include the number of anticipated awards.

In FY 10, funds were used to support protection and restoration of the Lake Champlain Basin. Specific examples of accomplishments include: revision of the Lake Champlain Management Plan, "Opportunities for Action"; conducting water quality monitoring programs with the collection of at least 3,500 water chemistry samples; a boat inspection and education program to reduce the spread of invasive species; removal of thousands of pounds of invasive water chestnuts; and other tasks. Fiscal Year 2011: In FY 11, expected accomplishments include: further removal of invasive water chestnuts; conducting water quality monitoring programs; continued development of an adaptive management system; studies on internal recycling of phosphorus from lake sediments; synoptic monitoring for mercury and PCBs in fish tissue; and examining the impact of shoreline development on the littoral habitat. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Lake Champlain program grants and cooperative agreements are subject to EPA's general grant regulations, 40 CFR Part 30 or 40 CFR Part 31. All assistance agreements must support the goals and objectives of the Lake Champlain Management Plan, Opportunities for Action. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Grants and cooperative agreements awarded to states, interstate agencies, universities, and nonprofit organizations are for implementation of the Lake Champlain Management Plan. Grants awarded to States of Vermont and New York and NEIWPC generally cover multiple tasks and projects per grant. Examples of work carried out by these grants include: (1) funding for the overall program coordination, and the full-time New York and Vermont Lake Champlain Basin Program coordinators employed by their respective states; (2) annual lake and tributary monitoring for phosphorus and other parameters by professional limnologists; (3) phosphorus reduction: research on phosphorus carried downstream by eroding stream banks, research on policy options for further phosphorus reduction from point and nonpoint sources, tracking implementation of best management practices on farms, geomorphic studies, and riparian restoration work; (4) removal of invasive species such as water chestnuts; (5) toxins: monitoring for cyanobacteria (blue green algae) blooms and their associated toxins in Lake Champlain. Fiscal Year 2011: Grants and cooperative agreements awarded to states, interstate agencies, universities, and nonprofit organizations are for implementation of the Lake Champlain Management Plan. Grants awarded to States of Vermont and New York and NEIWPC generally cover multiple tasks and projects per grant. Examples of work carried out by these grants include: (1) funding for the overall program coordination, and the full-time New York and Vermont Lake Champlain Basin Program coordinators employed by their respective states; continued development of an adaptive management system; (2) annual lake and tributary monitoring for phosphorus and other parameters by professional limnologists; (3) phosphorus reduction: research on phosphorus carried downstream by eroding stream banks, research on policy options for further phosphorus reduction from point and nonpoint sources, tracking implementation of best management practices on farms, geomorphic studies, and riparian restoration work; studies on internal recycling of phosphorus from lake sediments; (4) removal of invasive species such as water chestnuts; (5) toxins: synoptic monitoring for mercury and PCBs in fish tissue; and (6) examining the impact of shoreline development on the littoral habitat. CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. The Steering Committee recommends projects to EPA for funding based on the technical merit of the proposal and its relevance to the Lake Champlain Basin Management Plan. EPA approves applications after Steering Committee recommendation based on the technical merit of the application and its relevance to the Lake Champlain Basin Management Plan.

66.508 SENIOR ENVIRONMENTAL EMPLOYMENT PROGRAM (SEE)

FEDERAL AGENCY:

Office of Administration and Resources Management, Environmental Protection Agency

AUTHORIZATION:

Environmental Programs Assistance Act of 1984, Public Law 98-313, 42 U.S.C 4368a.

OBJECTIVES:

To use the talents of Americans 55 years of age or older to provide technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control to achieve the Agency's goals of Clean Air; Clean and Safe Water; Land Preservation and Restoration; Healthy Communities and Ecosystems; and Compliance and Environmental Stewardship.

Funding Priority - Fiscal Year 2011: The Environmental Programs Assistance Act of 1984 (Pub. L. 98-313) authorized the Administrator of the EPA "to make grants to, or enter into cooperative agreements with private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older

Americans Act of 1965." These cooperative agreements are to utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control." "Technical assistance" may include any activity performed for the EPA in support of its projects ranging from inspections of schools for asbestos, to support for a Headquarters staff office. This allows for the coverage of all types of SEE program positions from professional to clerical. Annual funding priorities are not established at the SEE program level. Rather, Senior Resource Officials from the participating 65 program offices establish priorities requiring SEE program support.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The SEE Act states that only nonprofit organizations which are designated by the Secretary of Labor under Title V of the Older Americans Act can participate. These cooperative agreements are to utilize the talents of older Americans in temporary full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control."

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965.

Beneficiary Eligibility:

Federal, State, and local environmental agencies and individuals 55 years old or older.

Credentials/Documentation:

The Environmental Programs Assistance Act of 1984 requires a certification by the Federal, State, or local agency that is to receive the SEE workers that the grant/cooperative agreement will not displace any Federal or State workers, prevent the rehiring of any laid-off Federal/State workers, or affect existing service contracts. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. Requests for application forms must be submitted to: Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), Washington, DC 20460. Completed applications must be sent to the same address, and a copy of the completed application should also be sent to: Susan Street, Manager, SEE Program, Environmental Protection Agency, Office of Administration and Resources Management, Office of Human Resources, Program Management and Communications Staff (3600-M), Washington, DC 20460. This program is subject to the provisions of OMB Circular No. A-110. This program is excluded from coverage under OMB Circular No. A-102. Basic steps of the application procedure are outlined in the application package containing the application forms.

Award Procedure:

Each application shall be subjected to administrative evaluation to determine adequacy of application in relation to assistance regulations, and to program objectives.

Fiscal Year 2011: Provide funding to eligible Grantee organizations to provide senior citizens who conduct national non-agricultural pesticide surveys, provide technical assistance to tribes, provide review and monitoring support for the Import Car Program, monitor the anti-fuel switching program, conduct research, and work on other general administrative and clerical tasks. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Proposals must demonstrate that the Organizations have the capability of operating nationwide; can manage the program within the prescribed administrative funding limits; and can provide a quality fringe benefit package to enrollees under the proposal (including health insurance).

66.509 SCIENCE TO ACHIEVE RESULTS (STAR) RESEARCH PROGRAM

FEDERAL AGENCY:

Office of Research and Development, Environmental Protection Agency

AUTHORIZATION:

Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136r; Toxic Substances Control Act, Section 10, 15 U.S.C 2609; Clean Air Act, Section 103, 42 U.S.C 7403; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981; National Environmental Policy Act of 1969, Section 102(2F); Safe Drinking Water Act, Section 1442, 42 U.S.C 300j-1; Clean Water Act, Section 104, 33 U.S.C 1254.

OBJECTIVES:

To (1) support research to determine the environmental and human health effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides; (2) identify, develop, and demonstrate effective pollution control techniques; and (3) support research to explore and develop strategies and mechanisms for those in the social, governmental, and environmental arenas to use in environmental management decisions.

Funding Priority - Fiscal Year 2011: The STAR Program will fund the highest quality academic research in the following priority areas:

(1) Air Quality: Linking Composition and Sources of Coarse Particulate Matter to Health Effects; Dynamic Air Quality Management; Extreme Event Impacts on Air Quality and Water Quality with a Changing Global Climate; Developing the Next Generation of Air Quality Measurement Technology.

(2) Human Health: Environmental Factors in the School Environment Influencing Children's Health and Performance; Tribal Environmental Health Science; Children's Environmental Health and Disease Prevention Research

Centers: Formative Centers-Understanding Environmental Factors to Improve Children's Health in Child Care Environments.

(3) Endocrine Disruptors/Biotechnology/Computational Toxicology: Innovative Treatment Designs and Technology Approaches for Mitigating EDCs and Other Chemical Contaminants from Drinking Water and Wastewater Treatment Systems; Developing High-Throughput Assays for Predictive Modeling of Reproductive and Developmental Toxicity Modulated Through the Endocrine System or Pertinent Pathways in Humans and Species Relevant to Ecological Risk Assessment; Center for Sustainable Molecular Design.

(4) Nanotechnology: Center for Life Cycle Chemical Safety.

(5) Ecosystem Protection/Water Quality: Sustainable Chesapeake: A Collaborative Approach to Urban Stormwater Management; Environmental Impact and Mitigation of Oil Spills.

In addition to the solicitations identified above, other solicitations may be announced in the coming year. Please check the NCER website: <http://www.epa.gov/ncer> for an updated listing of all solicitations.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The National Center for Environmental Research (NCER) generally does not accept unsolicited proposals for the STAR program. All STAR awards are made in response to competitive requests for applications (RFAs) or requests for initial proposals (RFIPs). Funds awarded via grants/cooperative agreements are available for allowable direct cost expenditures incident to the performance of research plus allocable portions of allowable indirect costs of the institutions, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Some solicitations issued under this CFDA may allow for the submittal of Multiple Investigator applications. The applicability of Multiple Investigator applications will be described in the solicitations. For further information, please see the EPA Implementation Plan for Policy on Multiple Principal Investigators (<http://rbm.nih.gov/toolkit.htm>).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Public nonprofit institutions/organizations (includes public institutions of higher education and hospitals) and private nonprofit institutions/organizations (includes private institutions of higher education and hospitals) located in the U.S., state and local governments, Federally Recognized Indian Tribal Governments, and U.S. territories or possessions are eligible to apply. Profit-making firms are not eligible to receive assistance agreements from the EPA under this program.

Eligible nonprofit organizations include any organizations that meet the definition of nonprofit in OMB Circular A-122, located at 2 CFR Part 230. However, nonprofit organizations described in Section 501(c) (4) of the Internal Revenue Code that lobby are not eligible to apply.

National laboratories funded by Federal Agencies (Federally-Funded Research and Development Centers, "FFRDCs") may not apply. FFRDC employees may cooperate or collaborate with eligible applicants within the limits imposed by applicable legislation and regulations. They may participate in planning, conducting, and analyzing the research directed by the applicant, but may not direct projects on behalf of the applicant organization. The institution, organization, or governance receiving the award may provide funds through its assistance agreement from the EPA to an FFRDC for research personnel, supplies, equipment, and other expenses directly related to the research. However, salaries for permanent FFRDC employees may not be provided through this mechanism.

Federal Agencies may not apply. Federal employees are not eligible to serve in a principal leadership role on an assistance agreement, and may not receive salaries or augment their Agency's appropriations in other ways through awards made under this program.

The applicant institution may enter into an agreement with a Federal Agency to purchase or utilize unique supplies or services unavailable in the private sector to the extent authorized by law. Examples are purchase of satellite data, census data tapes, chemical reference standards, analyses, or use of instrumentation or other facilities not available elsewhere. A written justification for federal involvement must be included in the application. In addition, an appropriate form of assurance that documents the commitment, such as a letter of intent from the Federal Agency involved, should be included.

Some solicitations issued under this CFDA may propose early career projects which support investigators with outstanding promise at the Assistant Professor or equivalent level. Principal investigators from applicant institutions applying for the early career portion of the applicable solicitation must meet the following eligibility requirements:

* Hold a doctoral degree in a field of science or engineering by the closing date of the RFA;

* Be untenured at the closing date of the RFA;

* By the award date, be employed in a tenure-track position (or tenure-track-equivalent position) as an assistant professor (or equivalent title) at an institution in the U.S., its territories, or possessions. Note: For a position to be considered a tenure-track-equivalent position, it must meet all of the following requirements: (1) the employing department or organization does not offer tenure; (2) the appointment is a continuing appointment; (3) the appointment has substantial educational responsibilities; and (4) the proposed project relates to the employee's career goals and job responsibilities as well as to the goals of the department/organization.

Senior researchers may collaborate in a supporting role for early career projects. Early career applications should not propose significant resources for senior researchers and may not list senior researchers as co-PIs. Applicants will be asked to verify their early career status.

See RFAs at: <http://www.epa.gov/ncer> for additional information pertaining to eligibility requirements.

Beneficiary Eligibility:

Public nonprofit institutions/organizations and private nonprofit institutions/organizations located in the U.S.; state and local governments; Federally Recognized Indian Tribal Governments; U.S. territories or possessions; Anyone/General Public, Education Professional, Student/Trainee, Graduate Student, Scientists/Researchers.

Credentials/Documentation:

The EPA may request that applicants demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out the research. EPA may ask applicants to provide curriculum vitae and relevant publications. EPA may also ask the lead principal investigator/contact principal investigator for information documenting past performance. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When applicable, an environmental impact assessment is made by the Office of Research and Development as required by the National Environmental Protection Act. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-102 and No. A-110 must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Competitive RFAs or RFIPs for grants/cooperative agreements are announced widely through the Internet, university and scientific organizations, among other mechanisms. Applicants must propose EPA mission relevant research based on excellent science as determined through peer review by experts drawn from the national and international scientific community. Other more specialized scientific areas may be solicited via joint RFAs with other Federal agencies. The STAR program may fund research centers that focus on long-term, multi-disciplinary research. This program is subject to the provisions of OMB Circulars No. A-102 and No. A-110. Specific details on the application process are described in the solicitations which are located at: <http://www.epa.gov/ncer>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Customarily, applicants are notified of award decisions within six months of the close of the RFA. After being recommended for award, applicants will be required to submit additional certifications and an electronic version of the revised project abstract, and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, past performance documentation, and/or make appropriate proposal revisions. EPA Project Officers will contact the Lead Principal Investigator/Contact Principal Investigator to obtain these materials. The official notification of an award will be made by the Agency's Grants and Interagency Agreement Management Division. Before or after award, certain applicants will be expected to provide additional quality assurance documentation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are normally funded for a minimum of 2 years. Total approved project period may not exceed 5 years. Grants are generally fully funded or incrementally funded (on an annual basis). See the following for information on how assistance is awarded/released: Assistance is either fully funded (lump sum) or incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. A grant recipient must agree to provide annual progress reports, with associated summaries for posting on NCER's web site, and a final report with an executive summary for web posting. A grant recipient must agree to provide copies of any peer reviewed journal article(s) resulting from the research during the project period. The recipient also agrees to provide expenditure and invention reports as appropriate. Progress Reports are required under this program. A discussion of expenditures is required in progress reports under this program. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 (nonprofits and universities) or 40 CFR Part 31 (governmental units) are applicable depending upon the identity of the recipient. Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

(Project Grants) FY 10 \$46,405,000; FY 11 est \$66,200,000; and FY 12 est \$70,800,000

Range and Average of Financial Assistance:

New awards range from \$250,000 to \$8,000,000 total per grant and average \$500,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Applications received for the STAR Program - FY 10: 194. New awards for the STAR Program - FY 10: 36. Abstracts of current grant awards, and annual interim and final summary results of the research are available on the homepage: <http://www.epa.gov/ncer>. Fiscal Year 2011: Applications received for the STAR Program - FY 11 est.: 290. New awards for the STAR Program - FY 11 est.: 38. Abstracts of current grant awards, and annual interim and final summary results of the research are available on the homepage: <http://www.epa.gov/ncer>. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

General Grant Regulations and Procedures, Environmental Protection Agency (40 CFR Part 30 and 40 CFR Part 31); Research and Demonstration Grant Regulations, Environmental Protection Agency (40 CFR Part 40). Costs will be determined in accordance with OMB Circular No. A-87 (relocated to 2 CFR Part 225) for State and local governments, OMB Circular No. A-21 (relocated to 2 CFR Part 220) for educational institutions, and OMB Circular No. A-122 (relocated to 2 CFR Part 230) for nonprofit organizations.

RELATED PROGRAMS:

66.511 Office of Research and Development Consolidated Research/Training/Fellowships

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: 1. Understand how aquifer properties are related to the susceptibility of the aquifer to degradation from carbon dioxide in addition to developing a tool that can be used to assess the risk associated with carbon dioxide leakage into potential sources of drinking water due to geologic sequestration of carbon dioxide.

2. Determine what conditions would facilitate carbon dioxide dissolved in brine from geologic sequestration to come out of solution and adversely affect underground sources of drinking water.

3. Evaluate linkages between climate, pollen and respirable allergen occurrence, and respiratory health impacts.

4. Conduct lab and in situ research to understand how carbon dioxide from geologic sequestration may interact with microbial communities and heavy metals in an aquifer and if these interactions will adversely affect underground sources of drinking water.

5. Develop and enhance numerical and analytical models that possess a range of complexity and can complement one another in order to create a hierarchical modeling framework for assessing risks associated with geologic sequestration (GS) of carbon dioxide. Fiscal Year 2011: 1. Examine the link between specific immune indicators and ambient air pollution exposure to characterize the relationship between immune indicators and health outcomes of asthma.

2. Characterize the transformation and fate of engineered nanoparticles and any resultant by-products during biological wastewater treatment and incineration.

3. Compile and curate a database of information on biological and chemical information related to hepatotoxicity; develop predictive models based on this information; and make freely available both models and data on a web portal.

4. Extend development of an accurate indicator of methylmercury (MeHg) risk in order to provide a critical link between mercury exposure and the biological effects of fish consumption.

5. Elucidate the relative spatial distributions of key psychosocial stressors and air pollution exposures in NYC and examine the synergistic effects of community stressors and traffic-related pollution on childhood asthma exacerbation. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. See the web page (<http://www.epa.gov/ncer>) for additional information on the evaluative criteria for the RFAs.

66.510 SURVEYS, STUDIES, INVESTIGATIONS AND SPECIAL PURPOSE GRANTS WITHIN THE OFFICE OF RESEARCH AND DEVELOPMENT**FEDERAL AGENCY:**

Office of Research and Development, Environmental Protection Agency

AUTHORIZATION:

Resource Conservation and Recovery Act of 1976, Public Law 94-580, 42 U.S.C 6981; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 92-516, 7 U.S.C 136r&136u; Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Section 311; National Environmental Policy Act of 1969, Section 102(2)(F); Clean Air Act, Section 103, Public Law 95-95, 42 U.S.C 7401; Toxic Substances Control Act, Section 10, Public Law 94-469, 15 U.S.C 2601; Safe Drinking Water Act, Section 1442, 93 U.S.C 523; Marine Protection, Research, and Sanctuaries Act, Section 203; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981; Clean Water Act, Section 104, Public Law 95-217, 33 U.S.C 1251; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 94-140, 7 U.S.C 136; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 95-396, 7 U.S.C 136.

OBJECTIVES:

To (1) support surveys, studies and investigations and special purpose assistance to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides (2) identify, develop, and demonstrate effective pollution control techniques; and (3) fund innovative regional projects that address a stated problem or opportunity relating to sustainability and use science to inform design, planning and decision-making at the local, state and industrial levels.

Funding Priority - Fiscal Year 2011: FY 2011 priorities include conducting air pollutants research, improving the science behind risk assessment, water quality research, drinking water research, research to improve human health and the environment, and research related to Homeland Security. Surveys, studies, and investigations to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, endocrine disrupting chemicals, and pesticides will also be funded under this category. Additionally, this funding priority provides support for conferences relating to the areas above.

TYPES OF ASSISTANCE:**PROJECT GRANTS****USES AND USE RESTRICTIONS:**

Funds awarded via grants/cooperative agreements are available for allowable direct cost expenditures incident to performance plus allocable portions of allowable indirect costs of the institutions, in accordance with the established policies of EPA. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. These programs are available to each State, territory and possession, and Tribal nation of the U.S., including the District of Columbia, for public and private State universities and colleges, hospitals, laboratories, State and local government departments, other public or private nonprofit institutions, and in some cases, individuals or foreign entities who have demonstrated unusually high scientific ability.

Beneficiary Eligibility:

Public nonprofit institutions/organizations and private nonprofit institutions/organizations; state and local governments; Federally Recognized Indian Tribal Governments; U.S. territories or possessions; anyone/general public; education professionals; students/trainees; graduate students; scientists/researchers; hospitals; foreign entities; and individuals.

Credentials/Documentation:

The Agency may request that applicants demonstrate they have appropriate background, academic training experience in the field, and the necessary equipment to carry out the research. EPA may ask applicants or principal investigators to provide curriculum vitae and relevant publications. EPA may ask principal investigators for information documenting past performance. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments, OMB Circular No. A-21 for educational institutions, and OMB Circular No. A-122 for nonprofit organizations. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When applicable, an environmental impact assessment is made by the Office of Research and Development as required by the National Environmental Protection Act. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-102 and No. A-110 must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Competitive RFAs (requests for applications) for grants in these areas are announced widely through the Internet, university and scientific organizations, among other mechanisms. Although the programs identified are the formal assistance programs that ORD funds, there are periodic RFAs disseminated on other topics that are not part of the formal program. These new programs are also part of 66.510 but cannot be presently identified. Funds may be available to support activities including but not limited to experiments, surveys, studies, investigations, public education programs, and monitoring where authorized by specific statutes, in both science and engineering disciplines. Please check the Federal Register or the EPA/ORD website <http://www.epa.gov/ord/html/grantopportunity.htm> for an updated listing of these programs. Completed applications must be submitted to the appropriate Grants Management Office at the Environmental Protection Agency or as shown in the specific RFAs, which are accessible through the EPA/ORD website at <http://www.epa.gov/ord/html/grantopportunity.htm>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Customarily, applicants are notified about award decisions within six months of the solicitation deadline. After being recommended for award, applicants will be required to submit additional certifications and an electronic version of the revised project abstract, and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, past performance documentation, and/or make appropriate revisions. EPA Project Officers will contact Principal Investigators to obtain these materials. The official notification of an award will be made by the Agency's Grants and Interagency Agreements Management Division. Before or after award, certain applicants will be expected to provide additional quality assurance documentation.

RELATED PROGRAMS:

66.509 Science To Achieve Results (STAR) Research Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: 1) To investigate methods to manage large floodplain rivers in ways that achieve multiple, sustained benefits by restoring hydrogeomorphic river channel processes in carefully selected locations. 2) This assistance agreement will support a meeting to foster collaborative research among researchers in different States on the effects of ozone on plants, and to find ways to reach out to the public to inform them of the results of this research. 3) This project, through distribution of Pollution Prevention and linked life cycle cost accounting tools, will enable small and medium size businesses located in greater New England to reduce their emission of toxic substances, which will in turn lead to reduced environmental health risks. 4) The goals of this project are to develop and apply a methodology for benchmarking curricula in sustainability engineering and to identify individuals active in sustainability engineering education. The information collected in this project will be available as a resource for faculty at institutions of higher education to enhance the engineering curricula with lessons focused on the environmental impacts associated with the design of products, processes, or systems. 5) This grant studies environmental sustainability issues concerning the need to balance the use of water to meet both human and environmental demands. Funding will support a decision support system (DDS) that will integrate scientific models of ecological water flow needs, water demand management, and water supply planning into a decision-oriented optimization framework that promotes preventive approaches. Fiscal Year 2011: 1) This assistance agreement will support a workshop on the subject of bioaccumulation assessment for environmental contaminants that accumulate in humans and animals, fostering an exchange of methods, models, and data and providing an opportunity to discuss the current status of the science and how to move science into the regulatory framework of various governmental institutions. 2) This cooperative agreement will place recent graduates of Association of Schools of Public Health member accredited schools in EPA for one or two year fellowships, allowing fellows to gain practice-based training experiences and perform activities under the mentorship of EPA experts in the field of environmental health. 3) This assistance agreement will support a symposium on the chemistry of drinking water treatment, providing an opportunity for researchers, waste and wastewater utility officials, government representatives, engineering consultants, and suppliers of technologies to the industry to share knowledge on the transportation of microorganisms, natural and engineered nanoparticles and the role of surface inactivation among other topics. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA

description will be described in the competitive announcement.

66.511 OFFICE OF RESEARCH AND DEVELOPMENT CONSOLIDATED RESEARCH/TRAINING/FELLOWSHIPS FEDERAL AGENCY:

Office of Research and Development, Environmental Protection Agency

AUTHORIZATION:

Marine Protection, Research, and Sanctuaries Act, Section 203; Clean Air Act, Section 103&104, Public Law 95-95, 42 U.S.C 7401; National Environmental Policy Act of 1969, Section 102(2)(F); Solid Waste Disposal Act, Section 8001; Safe Drinking Water Act, Section 1442, Public Law 93-523; Resource Conservation and Recovery Act of 1976, Public Law 94-580, 42 U.S.C 6901; Clean Water Act, Section 104, Public Law 95-217, 33 U.S.C 1251; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 92-516, 7 U.S.C 136r&136u; Toxic Substances Control Act, Section 10, Public Law 94-469, 15 U.S.C 2601; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, Section 311, Public Law 95-510; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, Public Law 99-499; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 94-140, 7 U.S.C 136, as amended by Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 95-396, 7 U.S.C 136.

OBJECTIVES:

The Office of Research and Development (ORD) supports research and development to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides; (2) identify, develop, and demonstrate effective pollution control techniques; (3) perform risk assessments to characterize the potential adverse health effects of human exposures to environmental hazards; and (4) the facilitation of training and fellowships in these areas. Investigator initiated grants/ cooperative agreements may be funded in broad areas such as environmental chemistry and physics, environmental engineering, and health and ecological effects of pollution. The ORD conducts leading-edge research to provide a solid underpinning of science and technology for the Agency. Applied research builds our understanding of how to protect and enhance the relationship between humans and the ecosystems of earth. ORD conducts a comprehensive research program to protect air, water, land, and human health and ecosystems, to improve environmental compliance and stewardship, and to conduct and promote coordination and acceleration of training for individuals relating the protection and enhancement of the relationship between humans and the ecosystems of earth as well as to improve environmental compliance and stewardship.

Funding Priority - Fiscal Year 2011: ORD's research supports EPA's five strategic goals. Brief descriptions of this research are as follows: (1) Clean air research investigates risks associated with exposure to hazardous air pollutants (HAPs) and criteria pollutants, such as particulate matter (PM). Our goal is to work with other Federal and state agencies, major universities and institutions, and the private sector to develop a better understanding of the causes and effects of air pollution, and provide the scientific underpinnings to improve air quality in the U.S. (2) ORD provides the science needed to ensure drinking water is safe and to restore and maintain oceans, watersheds, and aquatic ecosystems to protect human health, support economic and recreational activities, and provide healthy habitats for fish, plants, and wildlife. Our water research program provides the science needed for effectively implementing the Safe Drinking Water Act (SDWA) and Amendments and the Clean Water Act (CWA). (3) Preserving land quality and remediating contaminated land is another of ORD's major goals. Left uncontrolled, hazardous and non-hazardous wastes on land can migrate to the air, ground water, and surface water, contaminating drinking water supplies, and threatening healthy ecosystems in urban, rural, and suburban areas. Efforts to preserve and restore land are supported through contaminated sediments and groundwater research. (4) ORD also continues to better understand environmental risks and develop tools and management options for improving environmental conditions. To promote healthy communities and ecosystems, ORD brings together a variety of programs, including human health research, endocrine disrupters research, computational toxicology research, global change research, pesticides and toxic substances research, and research on homeland security, as well as promoting

and facilitating training in these areas to stimulate interest among students in careers involving environmental research and to provide hands-on experience. (5) Finally, ORD has developed and evaluated tools and technologies to monitor, prevent, control, and clean up pollution throughout its history. Since the Pollution Prevention Act of 1990, the Agency has increasingly focused on preventative and sustainable approaches to health and environmental problems. ORD's domestic assistance efforts in this area support research specifically designed to address the issue of advancing sustainability goals of EPA's Science and Technology for Sustainability (STS) program.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds awarded via grants/cooperative agreements are available for allowable direct cost expenditures incident to performance of research plus allocable portions of allowable indirect costs of the institutions, in accordance with the established policies of EPA. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. These programs are available to each State, territory and possession, and Tribal nation of the U.S., including the District of Columbia, for public and private State universities and colleges, hospitals, laboratories, State and local government departments, other public or private nonprofit institutions, and in some cases, individuals or foreign entities who have demonstrated unusually high scientific ability.

Beneficiary Eligibility:

Public nonprofit institutions/organizations and private nonprofit institutions/organizations; state and local governments; Federally Recognized Indian Tribal Governments; U.S. territories or possessions; anyone/general public; education professionals; students/trainees; graduate students; scientists/researchers; hospitals; foreign entities; and individuals.

Credentials/Documentation:

The EPA may request that applicants demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out the research. EPA may ask applicants to provide curriculum vitae and relevant publications. EPA may also ask the lead principal investigator/contact principal investigator for information documenting past performance. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When applicable, an environmental impact assessment is made by the Office of Research and Development as required by the National Environmental Protection Act. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-102 and No. A-110 must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or

her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Competitive RFAs (requests for applications) for grants in these areas are announced widely through the Internet, university and scientific organizations, among other mechanisms. Although the programs identified are the formal assistance programs that ORD funds, there are periodic RFAs disseminated on other topics that are not part of the formal program. These new programs are also part of 66.511 but cannot be presently identified. Funds may be available to support activities including but not limited to experiments, surveys, studies, investigations, public education programs, and monitoring where authorized by specific statutes, in both science and engineering disciplines. Please check the Federal Register or the EPA/ORD website <http://www.epa.gov/ord/htm/grantopportunity.htm> for an updated listing of these programs. Completed applications must be submitted to the appropriate Grants Management Office at the Environmental Protection Agency or as shown in the specific RFAs, which are accessible through the EPA/ORD website at <http://www.epa.gov/ord/htm/grantopportunity.htm>. Please refer to Appendix IV for the complete mailing address(es) for the Grants Management Office(s). Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Customarily, applicants are notified about award decisions within six months of the solicitation deadline. After being recommended for award, applicants will be required to submit additional certifications and an electronic version of the revised project abstract, and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, past performance documentation, and/or make appropriate revisions. EPA Project Officers will contact Principal Investigators to obtain these materials. The official notification of an award will be made by the Agency's Grants and Interagency Agreements Management Division. Before or after award, certain applicants will be expected to provide additional quality assurance documentation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants/cooperative agreements are normally funded on a 12-month basis (annual). Total approved project period may not exceed 5 years. See the following for information on how assistance is awarded/released: Assistance is either fully funded (lump sum) or incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations, 40 CFR Parts 30 and 31. A discussion of expenditures is required in progress reports under this program. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

RELATED PROGRAMS:

66.510 Surveys, Studies, Investigations and Special Purpose Grants within the Office of Research and Development

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: 1) To improve understanding of the relationship between complex mixtures of environmental air pollutants and human health through the creation and analysis of a database developed by conducting identically designed laboratory studies of a small number of highly complex atmospheres having overlapping, but different, compositions. 2) To address critical questions concerning health risks, toxic metal transformations and pathways, sampling and measurement of toxic metal emissions, predictive modeling, and related toxic metal control technologies. 3) To conduct research and development on hazardous substance waste minimization alternative treatment technologies, and techniques to enhance applications of technologies and technology transfer. 4) This research will (1) evaluate the efficacy of alternative management strategies for the control of insects, nematodes, and weeds that reduce the use of pesticides; (2) characterize the environmental fate of nitrogen and synthetic pesticides using current and alternative pest management strategies; and (3) develop decision aid models that allow utilization of precise control strategies for weeds, insects and diseases that are environmentally safe. 5) To develop a predictive map of ground level ozone concentrations in the Washington/Baltimore non-attainment area by incorporating landscape characteristics and other remote sensing data into existing predictive models for ozone impacted urban areas. 6) To provide the scientific information, understanding, analyses and methods and protocols needed by states and local governments and various regulatory and management agencies to effectively protect the aquatic and terrestrial environment, the EPA seeks to establish a long term Training Cooperative Partnership with a leading research and teaching institution capable of managing an environmental training program. The purpose of this agreement is to stimulate interest among students in careers involving environmental research and to provide hands-on experience. Fiscal Year 2011: 1) This assistance agreement will contribute to the protection of human health and the environment by linking together existing institutions and personnel to work on shared goals, including sound environmental management, improved human health risk reduction of environmental hazards, pollution prevention, and sustainable economic development. 2) To develop relationships between measures of ecological condition to the delivery of ecosystem services by freshwater systems (e.g., flowing waters, wetlands, and lakes) that can be used in conjunction with surveys of ecological condition. Methods for using indicators of and data on wetland condition to quantify the services provided by freshwater systems are vital if land managers, especially the States and Tribes, are to ensure continued benefit from those services. 3) To produce, evaluate, and summarize the cost, performance, and long-term reliability of coupling energy and water conservation technologies, modeling capabilities, and decision-support tools to reduce and optimize energy consumption in the treatment, conveyance, and use of water while utilizing water in the most efficient manner possible and in turn, increasing water supplies by virtue of reusing wastewater, stormwater, and preventing excess runoff. 4) To provide training opportunities for undergraduates, graduates and postdoctoral fellows on-site at EPA's Research Triangle Park and/or Chapel Hill, North Carolina facilities. Trainees will learn how to better determine toxicological hazards, define dose-response relationships, and estimate human exposure characteristics. 5) To produce, evaluate, and summarize performance, cost, and value data and information about innovative technologies (i.e., systems, devices, procedures) that will assist the user community to reduce the cost and improve the effectiveness of design, operation, maintenance, rehabilitation, and replacement of aging/failing wastewater/stormwater/drinking water conveyance and treatment infrastructure. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.513 GREATER RESEARCH OPPORTUNITIES (GRO) FELLOWSHIPS FOR UNDERGRADUATE ENVIRONMENTAL STUDY FEDERAL AGENCY:

Office of Research and Development, Environmental Protection Agency

AUTHORIZATION:

National Environmental Policy Act of 1969, Section 102(2)(F); Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981; Clean Water Act, Section 104, 33 U.S.C 1254; Clean Air Act, Section 103, 42 U.S.C 7403; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136r; Safe Drinking Water Act, Section 1442, 42 U.S.C 300j-1; Toxic Substances Control Act, Section 10, 15 U.S.C 2609.

OBJECTIVES:

The National Center for Environmental Research (NCER) offers undergraduate fellowships to students in environmentally related fields of study. This program is intended to strengthen the environmental research capacity of institutions of higher education that receive limited funding to build such capacity.

Funding Priority - Fiscal Year 2011: The Greater Research Opportunities Fellowship Program will support undergraduate fellowships in the following areas: Natural and Life Sciences (includes pollution prevention and/or control related study in Biology, Ecology, Microbiology, Molecular Sciences, etc.); Environmental Sciences and Interdisciplinary Programs (includes pollution prevention and/or control related study in Environmental Studies, Urban Sustainability and Land Use Planning, Environmental Health, Environmental Policy, Environmental Education, Native/Tribal Environmental Science, etc.); Engineering (includes pollution prevention and/or control related study in Environmental Engineering, Waste Management, Green Building Engineering, Biotechnology, etc.); Social Sciences (includes pollution prevention and/or control related study in Economics, Political Science, International Environmental Studies, Anthropology, Sociology, Psychology, Environmental Justice, Communication & Culture, etc.); Physical Sciences and Earth Sciences (includes pollution prevention and/or control related study in Atmospheric Sciences, Chemistry, Geology, Geography, Soil Science, Biogeochemistry, Water Quality, etc.); Mathematics and Computer Science (includes pollution prevention and/or control related study in Environmental Information Science, Mathematics and Statistics, Bioinformatics, etc.).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Fellowship awards are made in response to a competitive solicitation. Funds are to provide resources to allow for fellowships related to environmental issues. No matching funds are required. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Applicants must attend a fully accredited U.S. college or university (located in the U.S. or its territories) for the fellowship period. Individuals must be citizens of the U.S. or its territories or possessions, or be lawfully admitted to the U.S. for permanent residence. Resident aliens must include their green card number in their application. You must have your green card at the time of application to be eligible for this Fellowship opportunity. EPA may verify this number with the U.S. Citizenship and Immigration Service of the Department of Homeland Security.

The GRO Undergraduate Fellowship is intended for students entering their last two years of full time study before obtaining their first bachelor's degree.

Students who have already earned one bachelor's degree and are pursuing additional degrees are not eligible. The fellowship tenure is for 2 full academic years (9 months each) with a required paid summer internship after their first year. Thus, only students who will be entering their last two years of college will be considered eligible.

In order to receive the fellowship, the student must attend a fully accredited four year U.S. institution of higher education. This school must be among those that are not highly funded for research and development capacity. For the purposes of this solicitation, EPA considers ineligible those institutions receiving more than \$35 million in annual federal research and development funding. Institutions who exceed this threshold can be identified in the National Science Foundation's publication "Federal Science and Engineering Support to Universities, Colleges, and Nonprofit Institutions: FY 2007," Table 12 column 2. These data can be found at: <http://www.nsf.gov/statistics/nsf09315/pdf/tab12.pdf>.

Applicants attending eligible institutions with substantial minority enrollment are particularly encouraged to apply. Examples of such schools are those that the U.S. Department of Education lists as "Accredited Postsecondary Minority Institutions" consistent with Executive Orders 13125 (Increasing Participation of Asian Americans and Pacific Islanders in Federal Programs), 13230 (President's Advisory Commission on Educational Excellence for Hispanic Americans), 13256 (White House Initiative on Historically Black Colleges and Universities), and 13270 (Executive Order on Tribal Colleges and Universities), which seek to advance the development of the Nation's full human potential, advance equal opportunity in higher education, strengthen the capacity of these institutions to provide the highest quality education, and increase opportunities for these institutions to participate in and benefit from Federal programs. Note however, that not all of these schools receive \$35 million or less annually in Federal Research and Development expenditures. For specific information regarding Federal funding to minority-serving institutions, see "Federal S&E Obligations to Three Types of Minority-Serving Institutions Decline in FY 2007," <http://www.nsf.gov/statistics/infbrief/nsf09319/nsf09319.pdf>.

Students attending two-year institutions, community colleges, and not in attendance at an institution of higher education may be eligible to apply. However, in order to receive the fellowship, students attending two-year institutions, community colleges, or not in attendance at the time of application will need to show evidence of having received their Associate's degree, will need to demonstrate that they only have two years left of undergraduate studies for completion of the Bachelor's degree, and will need to demonstrate that they have been accepted to attend an accredited eligible four year institution. This requirement is considered satisfied if the student is transferring to a four-year institution which has an Articulation Agreement with the two-year institution, thus meaning that all credits will transfer towards requirements for the Bachelor's degree. An Articulation Agreement is a signed contract between a community or technical college and a four-year college or university that guarantees that a student who earns an associate degree at a participating two-year institution can transfer all of the general education core credits to the four-year institution toward the completion of baccalaureate degree requirements. More information can usually be obtained directly from the institution's Registrar. Alternately, a student with an Associate's degree may provide a letter from the Registrar of the accredited four-year institution verifying that upon matriculation, the student will only have two remaining years of undergraduate study to complete the first Bachelor's degree.

Students must be pursuing a bachelor's degree in an environmentally related field. Students must have two (2) years remaining from the start of the Fall semester (Fall 2012) before receiving their initial bachelor's degree. Students must have at least a "B" average overall.

Acceptance of this fellowship does not necessarily preclude acceptance of another scholarship, fellowship, traineeship, or grant aid. However, this fellowship does preclude receiving other federal fellowships.

The exact term (start and end dates) of the undergraduate fellowship is negotiated with the student and covers a period of nine months for each fellowship year. Students seeking a bachelor's degree may be supported for a

maximum of two years.

Employees of the U.S. government must be able to prove separation from Federal service before accepting this fellowship.

EPA recognizes the need for scientists and engineers from diverse cultural backgrounds. Broadening opportunities for, and enabling participation of all individuals, including women, men, minorities and persons with disabilities, are essential to the health and vitality of science and in particular, the environmental research and development enterprise. For this reason, EPA strongly encourages women, minorities, and persons with disabilities to apply.

Beneficiary Eligibility:

Individual/Family; Student/Trainee.

Credentials/Documentation:

EPA may request that fellows document their affiliation with an eligible institution. The EPA may also request that applicants demonstrate they have appropriate background, academic training, and experience in the field to carry out the fellowship. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. NCER invites applications for undergraduate fellowships in academic disciplines including engineering, environmental science, and physical science. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. For regular mail, completed paper applications must be submitted to the following address: U.S. Environmental Protection Agency, Peer Review Division (8725P); Funding Opportunity Number: (include appropriate number as shown in the solicitation), 1200 Pennsylvania Avenue, NW, Washington, DC 20460. For express mail and couriers, completed paper applications must be submitted to the following address: U.S. Environmental Protection Agency, Peer Review Division (8725P), Funding Opportunity Number: (include appropriate number as shown in the solicitation); 2777 Crystal Drive (One Potomac Yards), 6th Floor South Building, Arlington, VA 22202. Specific details on the application process are described in the solicitations which are located at: <http://www.epa.gov/ncer>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 210 days from the close of the solicitation.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of the fellowship is negotiated with the student and covers a period of nine months for each fellowship year. Students seeking a bachelor's degree may be supported for a maximum of two years. If selected to receive a fellowship, the fellow will be contacted no later than seven months after the close of the solicitation and should subsequently receive official notification of award by no later than 9 months after the close of the solicitation for the fall term. Please note that this schedule may be changed without notification due to factors that were not anticipated at the time of announcement. The official notification of an award will be made by the EPA's Grants and Interagency Agreement Management Division. See the following for information on how assistance is awarded/released: Assistance is incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. No progress reports are required. No expenditure reports are required. EPA includes reporting requirements for fellowships in the terms and conditions of the agreements. Reporting requirements are also identified in the fellowship regulations, 40 CFR Part 46. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 46 are applicable. All records related to a fellowship agreement must be maintained for three years after the completion date inserted on the "Completion of Studies Notice" (EPA Form 5770-9). EPA, the Inspector General, Comptroller General of the United States, or any of their duly authorized representatives, has the right of timely and unrestricted access to documents, papers, or other records related to a fellowship, in order to make audits, examinations, excerpts, transcripts and copies of such documents. The rights of access in this paragraph are not limited to the required retention period, but shall last as long as records are retained.

66.514 SCIENCE TO ACHIEVE RESULTS (STAR) FELLOWSHIP PROGRAM

FEDERAL AGENCY:

Office of Research and Development, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act, Section 1442, 42 U.S.C 300j-1; Toxic Substances Control Act, Section 10, 15 U.S.C 2609; Clean Water Act, Section 104, 33 U.S.C 1254; Clean Air Act, Section 103, 42 U.S.C 7403; National Environmental Policy Act of 1969, Section 102(2)(F); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981.

OBJECTIVES:

The National Center for Environmental Research (NCER), as part of its Science to Achieve Results (STAR) program, offers graduate fellowships for master's and doctoral level students in environmentally related fields of study. The purpose of the fellowship program is to encourage promising students to obtain advanced degrees and pursue careers in environmentally related fields. This goal is consistent with the mission of EPA, which is to provide leadership in the nation's environmental science, research, education, assessment, restoration, and preservation efforts. This program will benefit both the public and private sectors which will need a steady stream of well-trained environmental specialists if society is to meet the environmental challenges of the future. These fellowships are intended to help defray costs associated with advanced environmentally-oriented study leading to a master's or doctoral degree.

Funding Priority - Fiscal Year 2011: The STAR Fellowship Program will support graduate fellowships in the following areas: Emerging Environmental Approaches & Challenges: Innovative Investigations for Oil Spill Impacts; Emerging Environmental Approaches & Challenges: Social Sciences; Emerging Environmental Approaches & Challenges: Information Science; Tribes and American Indian/Alaska Native/Pacific Islander Communities; Nanotechnology; Science & Technology for Sustainability: Environmental Entrepreneurship; Science & Technology for Sustainability: Green Engineering/Building/Chemical Products & Processes/Materials Development; Science & Technology for Sustainability: Green Energy/Natural Resources Production & Use; Global Change; Clean Air; Drinking Water; Water Quality: Hydrogeology and Surface Water; Water Quality: Coastal and Estuarine Processes; Human Health: Public Health; Human Health: Risk Assessment and Risk Management; Ecosystem Services: Aquatic Systems Ecology; Ecosystem Services: Terrestrial Systems Soil and Plant Ecology; Ecosystem Services: Terrestrial Systems Animal Ecology; Pesticides and Toxic Substances; Land Protection. All projects must describe the relationship of these topic areas to the statutorily required purpose of pollution prevention and/or control.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

All STAR fellowship awards are made in response to a competitive solicitation. Funds are to provide resources to allow for fellowships related to environmental issues. No matching funds are required. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 200.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Applicants must attend a fully accredited U.S. college or university (located in the U.S. or its territories). Individuals must be citizens of the U.S. or its territories or possessions, or be lawfully admitted to the U.S. for permanent residence. Resident aliens must include their green card number in their application. Resident alien applicants must have their green card at the time of application to be eligible for this Fellowship opportunity. EPA may verify this number with the U.S. Citizenship and Immigration Service of the Department of Homeland Security.

Applicants do not need to be enrolled in or formally accepted into a full time graduate program at the time they apply for a fellowship, but proof of enrollment or acceptance must be produced prior to the award of the fellowship. Applicants must be pursuing a master's or doctoral degree in an environmental field of specialization at a fully accredited U.S. college or university (based in the U.S. or its territories).

Applicants who are in a graduate program at the time of application and meet either of the following two criteria as of the solicitation closing date ARE NOT eligible to receive a fellowship: 1) have completed more than one year in their current master's program; or 2) have completed more than four years in their current doctoral program. However, applicants enrolled in a master's program who intend to pursue a doctoral degree beginning in the fall of 2012 may apply for a doctoral fellowship.

This fellowship does preclude receiving other federal fellowships

simultaneously. However, acceptance of this fellowship does not necessarily preclude acceptance of another private, state, regional, local, or non-profit scholarship, fellowship, traineeship, or grant aid.

Employees of the U.S. government may apply, but must be able to prove separation from Federal service before accepting this fellowship.

EPA recognizes the need for scientists and engineers from diverse cultural backgrounds. Broadening opportunities for, and enabling participation of all individuals, including women, men, minorities and persons with disabilities, are essential to the health and vitality of science and in particular, the environmental research and development enterprise. For this reason, EPA strongly encourages women, minorities, and persons with disabilities to apply.

Beneficiary Eligibility:

Individual/Family; Student/Trainee and Graduate Student.

Credentials/Documentation:

EPA may request that fellows document their affiliation with an eligible institution. The EPA may also request that applicants demonstrate they have appropriate background, academic training, and experience in the field to carry out the fellowship. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. NCER invites applications for graduate fellowships in academic disciplines relating to environmental research including engineering, public health, and ecological sciences. An application provides the information needed for the review of its merit. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. For regular mail, completed paper applications must be submitted to the following address: U.S. Environmental Protection Agency, Peer Review Division (8725P); Funding Opportunity Number: (include appropriate number as shown in the solicitation), 1200 Pennsylvania Avenue, NW, Washington, DC 20460. For express mail and couriers, completed paper applications must be submitted to the following address: U.S. Environmental Protection Agency, Peer Review Division (8725P), Funding Opportunity Number: (include appropriate number as shown in the solicitation); 2777 Crystal Drive (One Potomac Yards), 6th Floor South Building, Arlington, VA 22202. Specific details on the application process are described in the solicitations which are located at: <http://www.epa.gov/ncer>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 210 days from the close of the solicitation.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of a graduate fellowship is negotiated with students and customarily covers a period of 9 to 12 months for each fellowship year. Students seeking a master's degree may be supported for a maximum of two years. Students seeking doctoral degrees may receive support for a maximum of three years, available over a period of four years. If selected to receive a fellowship, the fellow will be contacted no later than seven months after the close of the solicitation and should subsequently receive official notification of award by no later than 9 months after the close of the solicitation for the fall term. Please note that this schedule may be changed without notification due to factors that were not anticipated at the time of announcement. The official notification of an award will be made by the EPA's Grants and Interagency Agreement Management Division. See the following for information on how assistance is awarded/released: Assistance is incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. No progress reports are required. No expenditure reports are required. EPA includes reporting requirements for fellowships in the terms and conditions of the agreements. Reporting requirements are also identified in the fellowship regulations, 40 CFR Part 46. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 46 are applicable. All records related to a fellowship agreement must be maintained for three years after the completion date inserted on the "Completion of Studies Notice" (EPA Form 5770-9). EPA, the Inspector General, Comptroller General of the United States, or any of their duly authorized representatives, has the right of timely and unrestricted access to documents, papers, or other records related to a fellowship, in order to make audits, examinations, excerpts, transcripts and copies of such documents. The rights of access in this paragraph are not limited to the required retention period, but shall last as long as records are retained.

66.513 Greater Research Opportunities (GRO) Fellowships For Undergraduate/Graduate Environmental Study

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: 1. Elucidate the functional dynamics of plant communities and ecosystems in response to climate change in the geologic past.

2. Elucidate the chemical species, sources, and atmospheric processes that affect oxidant production in the lungs from ambient particulate matter (PM).

3. Optimize natural processes to develop simple, sustainable, and inexpensive water disinfection processes that could be used in both the developed and developing worlds.

4. Identify whether mixtures of phthalates contribute to the development of asthma or allergy or affect lung function and inflammation in school aged children.

5. Investigate the social implications of flame retardant chemicals that are used in consumer products and may harm human health and the environment. Fiscal Year 2011: Information for FY 2011 is not yet available. Fiscal Year 2012: No Current Data Available

66.516 P3 AWARD: NATIONAL STUDENT DESIGN COMPETITION FOR SUSTAINABILITY

FEDERAL AGENCY:

Office of Research and Development, Environmental Protection Agency

AUTHORIZATION:

National Environmental Policy Act of 1969, Section 102(2)(F); Toxic Substances Control Act, Section 10, 15 U.S.C 2609; Clean Air Act, Section 103, 42 U.S.C 7403; Clean Water Act, Section 104, 33 U.S.C 1254; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136; Safe Drinking Water Act, Section 1442, 42 U.S.C 300j-1; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981.

OBJECTIVES:

EPA offers this competition to respond to the technical needs of the developed and developing world in moving towards the goal of sustainability. P3 highlights people, prosperity, and the planet - the three pillars of sustainability - as the next step beyond P2 or pollution prevention. The P3 Award program is a partnership between the public and private sectors to progress toward sustainability by achieving the mutual goals of economic prosperity, protection of the natural systems of the planet, and providing a higher quality of life for its people.

Funding Priority - Fiscal Year 2011: The United States Environmental Protection Agency (EPA) invites submissions to the P3 Award: A National

Student Design Competition for Sustainability. The P3 competition will provide grants to teams of college students to research, develop, and design solutions to challenges to sustainability.

The P3 Award Program is composed of two phases that award grants on a competitive basis. The first phase of the P3 Award Program is a competition for one-year grants of up to \$15,000 to test scientific hypotheses and principles by developing scientific or engineering designs that will promote sustainable development. Challenges from a wide range of categories will be considered. These include: Energy (e.g., reduction in air and water emissions through innovative strategies for energy production and energy distribution; energy conservation; inherently benign energy through green chemistry, green engineering, development of alternative energy sources); Built Environment (e.g., green building designs, transportation and mobility strategies, or smart growth approaches that result in environmental benefits such as air emission reductions or water quality improvements); Materials and Chemicals (e.g., materials conservation; renewable feedstocks; materials and chemicals that are inherently benign and energy-, water- and material efficient through their full life-cycles; recovery and reuse of materials through product, process, or system design; biomimicry that contributes to pollution prevention); Water (e.g., research relating to causes, effects, extent, prevention, reduction and elimination of water pollution; research on the structure and function of freshwater ecosystems for the maintenance of the chemical, physical and biological integrity of the systems; or research to ensure provision of a dependable safe supply of drinking water, including methods to treat raw water for drinking, improvements in water purification and distribution, and protection of underground water sources of public water systems); Agriculture (e.g., reduction or elimination of pesticides, minimizing fertilizer and nutrient runoff, productive use of agricultural wastes. Projects focused solely on food supply are not allowable.)

In the spring following Phase I grant awards, Phase I grantees are required to present their designs at the annual National Sustainable Design Expo on the National Mall in Washington, DC where they will have an opportunity to compete for Phase II grant awards of up to \$90,000. The Phase II grant awards are to support the demonstration and further development of the sustainability designs created in the first phase of the program. The competitors for the P3 Phase II grants will be limited to those selected to receive support as a result of the Phase I competition. Additional instructions for the Phase II proposals, which will be due approximately 8 months after the Phase I grants are awarded, will be distributed to Phase I recipients following award of the Phase I grants. Those projects identified for receipt of a Phase II grant are also recognized as "P3 Award".

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Awards are made in response to an announced competitive request for applications (RFA). Funds awarded via grant agreements are available for allowable direct cost expenditures incident to the performance of research plus allocable portions of allowable indirect costs of the institutions, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition

Policy.

Public nonprofit institutions/organizations (limited to degree-granting public institutions of higher education) and private nonprofit institutions/organizations (limited to degree-granting private institutions of higher education) located in the U.S. are eligible to apply to be the recipient of a grant to support teams of undergraduate and/or graduate students. Profit-making firms are not eligible to receive assistance agreements from the EPA under this program. The students on the teams supported by the institution receiving the grant must be enrolled in the college, university, or post-secondary educational institution they will be representing at the time the proposal is submitted. Institutions are allowed to submit more than one application where each application represents a unique design concept and student team. For the purposes of grant administration, the team's faculty advisor will be designated the Principal Investigator throughout the P3 grant award and competition process. In addition to the Principal Investigator, each team selected for award will also be asked to provide contact information for a student lead.

Eligible nonprofit organizations include research institutes, corporations, or foundations that are part of a U.S. institution of higher education. However, nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that lobby are not eligible to apply.

National laboratories funded by Federal Agencies (Federally-Funded Research and Development Centers, "FFRDCs") may not apply. FFRDC employees may cooperate or collaborate with eligible applicants within the limits imposed by applicable legislation and regulations. They may participate in planning, conducting, and analyzing the research directed by the applicant, but may not direct projects on behalf of the applicant organization. The institution, organization, or governance receiving the award may provide funds through its assistance agreement from the EPA to an FFRDC for, supplies, equipment, and other expenses directly related to the research. However, salaries for permanent FFRDC employees may not be provided through this mechanism.

Federal Agencies may not apply. Federal employees are not eligible to serve in a principal leadership role on an assistance agreement, and may not receive salaries or augment their Agency's appropriations in other ways through awards made under this program.

The applicant institution may enter into an agreement with a Federal Agency to purchase or utilize unique supplies or services unavailable in the private sector. Examples are purchase of satellite data, census data tapes, chemical reference standards, analyses, or use of instrumentation or other facilities not available elsewhere. A written justification for federal involvement must be included in the application. In addition, an appropriate form of assurance that documents the commitment, such as a letter of intent from the Federal Agency involved, should be included.

Collaboration with colleges and universities outside the United States is permitted, but only U.S. institutions will be eligible for awards. Up to 40% of the total grant may be sub-awarded to another educational institution (domestic or foreign) as described in instructions for submitting to this RFA. If foreign work will be performed, in the process of funding the grant, EPA's Office of Research and Development is required to obtain clearance from EPA's Office of International and Tribal Affairs and the U.S. Department of State before any funded foreign work or travel is performed.

See RFA at: <http://www.epa.gov/ncer/p3/> for additional information pertaining to eligibility requirements.

Beneficiary Eligibility:

Public Nonprofit Institutions/Organizations, Private Nonprofit Institutions/Organizations, Anyone/General Public, Education Professional, Student/Trainee, Graduate Student, Scientists/Researchers.

Credentials/Documentation:

EPA may request that students document their affiliation with an eligible institution. The EPA may also request that applicants demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out the research. EPA may ask principal

investigators for information documenting past performance. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When applicable, an environmental impact assessment is made by the Office of Research and Development as required by the National Environmental Protection Act. The standard application forms as furnished by the EPA and required by OMB Circular No. A-110 must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. This program is subject to the provisions of OMB Circular No. A-110. Specific details on the application process is described in the solicitation which is located at: <http://es.epa.gov/ncer/p3/>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Customarily, applicants are notified of award decisions within six months of the close of the RFA. After being recommended for award, applicants will be required to submit additional certifications and an electronic version of the revised project abstract, and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, past performance documentation, and/or make appropriate proposal revisions. EPA Project Officers will contact Principal Investigators to obtain these materials. The official notification of an award will be made by the Agency's Grants and Interagency Agreement Management Division.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

P3 Awards will be fully funded. Project period for Phase I will normally not exceed 1 year. Project period for Phase II will normally not exceed 2 years. See the following for information on how assistance is awarded/released:
Assistance is fully funded (lump sum).

Reports:

No program reports are required. No cash reports are required. Phase I Report,

Phase II report, and invention reports as appropriate. Phase II awards require progress reports. No expenditure reports are required. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 30 are applicable. Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: 1. Define the economic value and carbon tradeoff for forest management practices and determine the relationships between forest management policies and carbon sequestration.

2. Develop a low cost method and device to provide safe drinking water from naturally occurring atmospheric moisture found in the most arid regions of the world.

3. The purpose of the project is to produce biofuel more efficiently. The project will focus on the development of a novel bioreactor design to achieve two goals: a) increase algal growth and lipid accumulation; and b) sequester anthropogenic CO2 emissions to reduce greenhouse effect.

4. Demonstrate a slow sand filtration system to purify drinking water in Socorro, Guatemala.

5. Develop and optimize viable anaerobic digester technology for dairy farms with 50 or fewer cows in cold climates to produce biogas fuel. Fiscal Year 2011: Information for FY 2011 is not yet available. Fiscal Year 2012: No Current Data Available

66.517 REGIONAL APPLIED RESEARCH EFFORTS (RARE)

FEDERAL AGENCY:

Office of Research and Development, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act, Section 103&104, Public Law 95-95, 42 U.S.C 7401; Solid Waste Disposal Act, Section 8001; Clean Water Act, Section 104, Public Law 95-217, 33 U.S.C 1251; National Environmental Policy Act of 1969, Section 102(2)(F); Safe Drinking Water Act, Section 1442, Public Law 93-523; Marine Protection, Research, and Sanctuaries Act, Section 203; Resource Conservation and Recovery Act of 1976, Public Law 94-580, 42 U.S.C 6981; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Section 311, Public Law 95-510; Toxic Substances Control Act, Section 10, Public Law 94-469, 15 U.S.C 2601; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20&23, Public Law 92-516, 7 U.S.C 136r&136u; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Section 311, Public Law 99-499; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 94-140, 7 U.S.C 136; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 95-396, 7 U.S.C 136.

OBJECTIVES:

To (1) support surveys, studies and investigations and special purpose assistance to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides; (2) identify, develop, and demonstrate effective pollution control techniques; and (3) fund innovative regional projects that address a stated problem or opportunity relating to sustainability and use science to inform design, planning and decision-making at the local, state and industrial levels.

Funding Priority - Fiscal Year 2011: FY 2011 Priorities include conducting high priority air pollutants research, ecological risk assessment, water quality, watersheds and drinking water research, research to improve human health (including children's) risk assessment, pollution prevention and new technologies/Economic and Social Science research. Support surveys, studies and investigations and special purpose assistance actions to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides; and identify, develop, and demonstrate effective pollution control techniques will all be funded under this category.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds awarded via grants/cooperative agreements are available for allowable

direct cost expenditures incident to the performance of research plus allocable portions of allowable indirect costs of the institutions, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

These programs are available to each State, territory and possession, and Tribal nation of the U.S., including the District of Columbia, for public and private State universities and colleges, hospitals, laboratories, State and local government departments, other public or private nonprofit institutions, and in some cases, individuals who have demonstrated unusually high scientific ability.

Beneficiary Eligibility:

Public nonprofit institutions/organizations and private nonprofit institutions/organizations; state and local governments; Federally Recognized Indian Tribal Governments; U.S. territories or possessions; Scientists/Researchers, Hospitals, and Individuals.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When, applicable, an environmental impact assessment is made by the Office of Research and Development as required by the National Environmental Protection Act. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-102 and No. A-110 must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Funds may be available to support activities including but not limited to experiments, surveys, studies, investigations, public education programs, and monitoring where authorized by specific statutes, in both science and engineering disciplines. Please check the Federal Register or the EPA/ORD website <http://www.epa.gov/ord/html/grantopportunity.htm> for an updated listing of these programs. Completed applications must be submitted to the appropriate laboratory, center or office within ORD specified in the announcement. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

The official notification of an award will be made by the Agency's Grants and Interagency Agreements Management Division. Customarily, applicants are notified about award decisions within six months of the solicitation deadline. After being recommended for award, applicants will be required to submit additional certifications and an electronic version of the revised project abstract, and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, past performance documentation, and/or make appropriate revisions. EPA Project Officers will contact Principal Investigators to obtain these materials. The official notification of an award will be made by the Agency's Grants and Interagency Agreements Management Division. Before or after award, certain applicants will be expected to provide

additional quality assurance documentation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Renewals and extensions are available under the discretion of the appropriate Regional Science Liaison (RSL) to ORD.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are normally funded on a 12-month basis (annual). Total approved project period may not exceed 2 years. See the following for information on how assistance is awarded/released: Assistance is either fully funded (lump sum) or incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and inventory reports. Reporting requirements are also identified in the Grant Regulations, 40 CFR Parts 30 and 31. Progress reports are required under this program. A discussion of expenditures is required in progress reports under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

66.518 STATE SENIOR ENVIRONMENTAL EMPLOYMENT PROGRAM

(SEE)

FEDERAL AGENCY:

Office of Administration and Resources Management, Environmental Protection Agency

AUTHORIZATION:

Environmental Programs Assistance Act of 1984, Public Law 98-313, 42 U.S.C 4368a.

OBJECTIVES:

To use the talents of Americans 55 years of age or older to provide technical assistance to State environmental agencies for projects of pollution prevention, abatement, and control to achieve the Agency's goals of Clean Air; Clean and Safe Water; Land Preservation and Restoration; Healthy Communities and Ecosystems; and Compliance and Environmental Stewardship.

Funding Priority - Fiscal Year 2011: The Environmental Programs Assistance Act of 1984 (Pub. L. 98-313) authorized the Administrator of the EPA "to make grants to, or enter into cooperative agreements with private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965." These cooperative agreements are to utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control." "Technical assistance" may include any activity performed for the State in support of its projects ranging from inspections of large capacity cesspools, to support for a State Environmental staff office. This allows for coverage of all types of SEE program positions from professional to clerical.

Funding Priority - Fiscal Year 2012: The Environmental Programs Assistance Act of 1984 (Pub. L. 98-313) authorized the Administrator of the EPA "to make grants to, or enter into cooperative agreements with private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965." These cooperative agreements are to utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control." "Technical assistance" may include any activity performed for the State in support of its projects ranging from inspections of large capacity cesspools, to support for a State Environmental staff office. This allows for coverage of all types of SEE program positions from professional to clerical.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The SEE Act states that only nonprofit organizations which are designated by the Secretary of Labor under Title V of the Older Americans Act can participate. These cooperative agreements are to utilize the talents of older Americans in temporary full time or part time positions "providing technical assistance to Federal, State and local environmental agencies for projects of pollution prevention, abatement, and control."

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965.

Beneficiary Eligibility:

State environmental agencies and individuals 55 years old or older.

Credentials/Documentation:

The Environmental Programs Assistance Act of 1984 requires a certification by the Federal, State, or local agency that is to receive the SEE workers that the grant/cooperative agreement will not displace any Federal or State workers, prevent the rehiring of any laid-off Federal/State workers, or affect existing service contracts. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. Requests for application forms must be submitted to: Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), Washington, DC 20460. Completed applications must be sent to the same address, and a copy of the completed application should also be sent to: Susan Street, Manager, SEE Program, Office of Human Resources, Program Management and Communications Staff (3600M), Washington, DC 20460. This program is subject to the provisions of OMB Circular No. A-110. This program is excluded from coverage under OMB Circular No. A-102. Basic steps of the application process are outlined in the application package.

66.600 ENVIRONMENTAL PROTECTION CONSOLIDATED GRANTS FOR THE INSULAR AREAS - PROGRAM SUPPORT

(Consolidated Program Support Grants)

FEDERAL AGENCY:

Region 9, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act, Section 1443(a)&1443(b); Solid Waste Disposal Act, 42 U.S.C 6908; Federal Insecticide, Fungicide, and Rodenticide Act, Section 23(a)(1)&(a)(2); Omnibus Territories Act , 48 U.S.C 1469; National Environmental Policy Act, Section 102(2)(F); Clean Water Act, Section 104(b)(3)&106; Toxic Substances Control Act, Section 28(a).404(g); Pollution Prevention Act, Section 6605; Clean Water Act, Section 205(g)&205(j)2; Clean Water Act, Section 319(h); Toxic Substances Control Act, Section 306.

OBJECTIVES:

The consolidated program support grant is an alternative assistance delivery mechanism which allows an Insular Territory responsible for continuing pollution control programs to develop an integrated approach to pollution control. An agency eligible for assistance for two or more pollution control programs may consolidate its assistance requests into a single application and receive a single consolidated award in an effort to reduce administrative and application costs. The consolidated grants program does not represent funding in addition to grants provided under individual authorities, but merely represents the amount of consolidation taking place within the Agency's total grant appropriations.

Funding Priority - Fiscal Year 2011: To provide technical, managerial and financial support in relation to our consolidated environmental program and Drinking Water and Clean Water grants for the protection of public health and welfare in the Territories of Guam, American Samoa, and the Virgin Islands, and the Commonwealth of the Northern Mariana Islands (hereinafter referred to as "Insular Areas"). Funding priorities for the fiscal year include: 1) Clean and Safe Water: (a) Safe Drinking Water - To provide on-site technical assistance, training, and funding towards building capacity at water utilities and environmental protection agencies, and addressing funding shortages for drinking water infrastructure improvements. We will work with DOI's Office of

Insular Affairs and other federal agencies to explore ways of addressing the growing gap between available federal funding and the capital needs for sound infrastructure (b) Clean Water - To provide on-site technical assistance, training, funding, capacity building to utilities and environmental agencies for construction of wastewater treatment facilities; to assist government agencies in the development of surveillance, monitoring, and enforcement programs for streams, lakes, marine water, marine sediment, and coral reef protection through our comprehensive Watershed Management program that protects human health and the environment. 2) Preserve Land: To provide on-site technical assistance, training, and information exchange with other governments and international agencies to establish a regional recycling program that would reduce waste and the need for landfill area and eliminate possible incineration; to continue to inspections and establish training to prevent petroleum releases by working with environmental agencies, utilities, and Department of Defense by instituting comprehensive training, inspection, and on scene coordination concerning emergency responses. 3) Health Communities and Ecosystems: Reduce chemical and biological risks - To provide on-site technical assistance, training, capacity building, funding to eliminate the exposure to hazardous and nonhazardous chemicals, toxic waste, and pesticides for the protection of public health and the environment. Assist government with the removal and remediation of toxic and pesticide wastes; eliminate the illegal importation and improper use of pesticides; promote sustainable development; provide an information exchange and partnership for the utilization of international treaties regarding the transport and disposal of hazardous materials and waste. 4) Compliance and Environmental Stewardship: To provide on-site technical assistance, training, capacity building, and funding to continue to establish and develop key partnerships with territorial government agencies and federal agencies for enforcement issues concerning land based pollution, illegal toxic releases, and protection of the marine environment. As a result of EPA's continuing leadership and on-site assistance, the territorial governments look to EPA as a leader for all issues concerning environmental management and protection.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are awarded to Insular Area agencies under the above referenced authorities to provide technical and managerial support in relation to continuing environmental program grants that serve to protect the public health and welfare of the Insular Areas.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

The Territories of Guam, American Samoa, and the Virgin Islands, and the Commonwealth of the Northern Mariana Islands are eligible to receive and administer funds for more than one environmental program. For certain competitive funding opportunities under this description, the Agency may limit eligibility to a particular subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

The Territories of Guam, American Samoa, the Virgin Islands, and the

Commonwealth of the Northern Mariana Islands.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication communications should be directed to the appropriate EPA Regional office. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 and 40 CFR 31.10 must be used for this program. An applicant should consult the Regional office or official designated as the single point of contact for their Insular Area for more information on the process the Insular Area needs to follow when applying for assistance.

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. U.S. Insular area agencies will be notified to submit grant application packages identifying required forms including a work plan. The application package should be submitted to the appropriate EPA Regional Office. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

U.S. Insular area agencies will be notified of Federal assistance awards through the appropriate EPA Regional Office. For competitive awards, EPA will review and evaluate applications, proposals and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 days.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Matching requirements may be waived by the Agency pursuant to the Omnibus Territories Act. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is usually awarded for a 1-year or longer period. The Automated Standard Application for Payments (ASAP) is the preferred payment method. See the following for information on how assistance is awarded/released: Assistance is awarded as fiscal year program funds become available. Typically 2-3 awards/amendments are made per year.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly and final performance reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments - 40 CFR Part 31. Additionally, progress reporting by the Insular Area agency and performance monitoring by EPA will be the minimum

necessary for sound program management. Reporting requirements may vary with each Insular Area agency depending upon the specific agency's demonstrated management abilities. A financial status report is required within 90 days of the end of the budget period. Program Reports are required. Cash Reports are required. Progress Reports are required. Expenditure Reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

All records including documents to support entries on accounting records and to substantiate charges to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status report. If any litigation, claim or audit is started before the end of the 3-year period, the records must be retained until the litigations, claims or audit findings have been resolved.

Account Identification:

Obligations:

(Cooperative Agreements) FY 10 \$43,100,000; FY 11 est \$44,000,000; and FY 12 est \$29,500,000

Range and Average of Financial Assistance:

In general, financial assistance has increased annually depending on program funding that is consolidated into the grant. Financial assistance has generally ranged from \$2,000,000 to \$4,000,000/territory/fiscal year for environmental program assistance. The total estimated average is \$8,500,000/fiscal year.

For FY10 and beyond, territorial Drinking Water and Clean Water SRF grant funds are being consolidated into grants for the territories of Guam, CNMI and American Samoa. For FY10 and 11, SRF financial assistance for the territories of Guam, CNMI and American Samoa has ranged from \$10M - \$14M annually per territory.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: Island environmental agencies have significantly bolstered water, air, RCRA, superfund, and pesticides programs through the consolidated grants. The grants have allowed island governments to focus on environmental results without being overly burdened by administering multiple smaller grants. CRITERIA FOR SELECTING PROPOSALS:

Applications may be approved if: (1) funds are available; (2) if the application satisfies the requirements of 40 CFR Parts 31 and 35 and applicable statutes; and (3) if the proposed work program is feasible and compatible with the program priorities in EPA annual guidance. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.604 ENVIRONMENTAL JUSTICE SMALL GRANT PROGRAM (EJSG)

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act, Section 1442(c)(3); Clean Water Act, Section 104(b)(3); Clean Air Act, Section 103(b)(3); Solid Waste Disposal Act, Section 8001(a); Marine Protection, Research, and Sanctuaries Act, Section 203; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20(a); Toxic Substances Control Act, Section 10(a); Comprehensive Environmental Response, Compensation and Liability Act, Section 311(c).

OBJECTIVES:

The primary purpose of proposed projects should be to develop a comprehensive understanding of environmental and public health issues, identify ways to address these issues at the local level, and educate and empower the community. The long-term goals of the program are to help build the capacity of the affected community and create self-sustaining, community-based partnerships that will continue to improve local environments in the future.

Funding Priority - Fiscal Year 2011: An estimated \$1,000,000 will be used to support non-profit organizations with activities that address environmental justice concerns, including but not limited to: (1) reducing asthma attacks; (2) reducing exposure to air toxics; (3) increasing compliance with regulations; (4) reducing the incidence of elevated blood lead levels; (5) creating green jobs; (6) and promoting energy efficiencies.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved surveys, studies, and investigations plus allowable direct costs in accordance with established EPA policies and procedures. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. The recipient cannot use these funds for the following activities under this program: litigation against the Federal government or any other government entity; construction; lobbying; matching funds for other Federal grants; travel for Federal employees; and human health studies (taking

blood or other information from humans).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. An eligible applicant MUST BE: an incorporated non-profit organization; OR a Native American tribal government (Federally recognized) (AND) located within the same state, territory, commonwealth, or tribe that the proposed project will be located. In addition, an eligible applicant must be able to demonstrate that it has worked directly with the affected community. An "affected community" for the purposes of this assistance agreement program, is a community that is disproportionately impacted by environmental harms and risks and has a local environmental and public health issue that is identified in the proposal. The following entities are INELIGIBLE: colleges and universities; hospitals; state and local governments; quasi-governmental entities (e.g., water districts, utilities)*; and national non-profit organizations that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995.

*Generally, a quasi-governmental entity is one that: (1) has a close association with the government agency, but is not considered a part of the government agency; (2) was created by the government agency, but is exempt from certain legal and administrative requirements imposed on government agencies; or (3) was not created by the government agency but performs a public purpose and is significantly supported financially by the government agency.

Beneficiary Eligibility:

Non-Profit organizations and local government organizations as described in 081 above.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-122 for non-profit organizations and OMB Circular A-102 for local governments. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110 must be used for this program. EPA requires final applications to be made on Standard Form 424. Application kits should be requested from and submitted to the U.S. Environmental Protection Agency, Office of Environmental Justice, Mail Code 2201A, 1200 Pennsylvania Avenue, N.W., Washington, DC 20460 or the appropriate EPA Regional Office identified under Information Contacts.

Detailed information and assistance including an application may also be found at <http://www.epa.gov/compliance/environmentaljustice/grants/index.html>. For grant awards, Requests for Applications will specify application procedures. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

About 150 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The project grant will be awarded for a 1 year project period. Activities must be completed within the timeframe of the project's budget period and all grants will be fully funded at the time of award. See the following for information on how assistance is awarded/released: Other.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require interim and final progress reports and financial reports. Reporting requirements are also identified in the Grant Regulations Part 30 and Part 31. Program reports are required. No cash reports are required. Progress reports are required. No expenditure reports are required. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each assistance agreement must be kept available to personnel authorized to examine EPA assistance accounts. All records must be maintained until the expiration of three years from the date of submission of the Financial Status Report. If questions still remain, such as those raised as the result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 10 \$1,900,000; FY 11 est \$1,000,000; and FY 12 est \$1,000,000

Range and Average of Financial Assistance:

\$20,000 to \$50,000/fiscal year; average \$25,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: In FY 2010, 200 applications were received and 98 awards were granted under the basic EJ small grant solicitation.

Under a separate solicitation in response to the oil spill disaster in the Gulf of Mexico, 23 applications were received and 10 awards were granted. Fiscal Year 2011: In FY 2011, 216 applications were received and we anticipate up to 40 awards will be made. Fiscal Year 2012: No Current Data Available

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: Types of projects funded by the program include: (1) Protecting the health and well being of workers in small automotive repair shops and the neighborhoods in which they are located by preventing air

pollution, promoting green job growth, and connecting workers with education and health care resources - a skills training program leading to certification on repair and maintenance of hybrid vehicles; (2) Investigate the effectiveness of low-cost remediation methods for lead soil contamination. The project will involve the implementation of low-cost remediation techniques, soil science research, and GIS data mapping. Participants in lead safe landscaping program will partner with researchers from institutions of higher education to learn scientific methods and implement activities and produce written materials to aid residents and community based organizations in implementing techniques based on research findings; and (3) Measuring and mapping local air pollutants for sulfur dioxide (SO₂), nitrogen dioxide (NO₂) and carbon monoxide (CO) using mobile air monitoring equipment. Also, the project will collaborate with students at the high school and local middle school on a project to test tap water and local waterways for contaminants such as lead, mercury, pesticides, bacteria and nitrates. The recipient will incorporate local climate change adaptation into the project discussion to help residents understand the relationship of their environment and the implication of a changing global climate on the natural resources (such as air and water). 66.605 PERFORMANCE PARTNERSHIP GRANTS

(PPGs)

FEDERAL AGENCY:

Office of the Administrator, Environmental Protection Agency

AUTHORIZATION:

Departments of Veterans Affairs, Housing and Urban Development, and Independent Agencies Appropriations Act of 1998, Public Law 105-65; Omnibus Consolidated Rescissions and Appropriations Act of 1996, Public Law 104-134.

OBJECTIVES:

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 20 eligible STAG program grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Year 2011: Many state environmental agencies are experiencing severe budget cuts and will be challenged to maintain core programs. In this climate, EPA's regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

TYPES OF ASSISTANCE:

FORMULA GRANTS; PROJECT GRANTS

USES AND USE RESTRICTIONS:

PPGs are a type of modified block grant, where recipients may combine funds

from categorical grants to accomplish their joint and several purposes, so long as recipients meet program requirements for each categorical grant combined into the PPG. The 20 categorical grants eligible for PPGs are a mixture of continuing program grants and competitive project grants. Eligible recipients can combine two or more of the following 20 categorical grants programs identified in EPA's State and Tribal Assistance Grants (STAG) appropriation into a PPG: (1) Air Pollution Control (Clean Air Act [CAA] Section 105); (2) Water Pollution Control (Clean Water Act [CWA] Section 106); (3) Nonpoint Source Management (CWA Section 319); (4) Water Quality Cooperative Agreements (CWA Section 104(b)(3)); (5) Wetlands Program Development (CWA Section 104(b)(3)); (6) Public Water System Supervision (Safe Drinking Water Act [SDWA] Sections 1443(a) and 1451(a)(3)); (7) Underground Water Source Protection (SDWA Section 1443(b)); (8) Hazardous Waste Management (Solid Waste Disposal Act, Section 3011(a)); (9) Underground Storage Tank (Solid Waste Disposal Act, Section 2007(f)(2)); (10) Radon Assessment and Mitigation (Toxic Substances Control Act [TSCA] Section 306); (11) Lead-based Paint Activities (TSCA Section 404(g)); (12) Toxic Substances Compliance Monitoring (TSCA Section 28); (13) Pollution Prevention Incentives for States (Pollution Prevention Act [PPA] Section 6605); (14) Pesticide Cooperative Enforcement (Federal Insecticide, Fungicide, and Rodenticide Act [FIFRA] Section 23(a)(1)); (15) Pesticides Program Implementation (FIFRA Section 23(a)(1)); (16) Pesticide Applicator Certification and Training (FIFRA Section 23 (a)(2)); (17) Environmental Information Network Exchange Grants (Consolidated Appropriations Resolution for the Departments of Veterans Affairs, Housing and Urban Development, and Independent Agencies of 2003, Public Law 108-7; Consolidated Appropriations Act of 2004, Public Law 108-199); (18) Brownfields State and Tribal Response Program Grants (Comprehensive Environmental Response, Compensation, and Liability Act of 1980 [CERCLA], Section 128(a), as amended; Public Law 107-118; Small Business Liability Relief and Brownfields Revitalization Act); (19) Capacity Building Grants and Cooperative Agreements for States and Tribes (CWA, Section 104; FIFRA, Section 20; CAA, Section 103; Solid Waste Disposal Act, Section 8001; SDWA, Section 1442; TSCA, Section 10; Marine Protection, Research and Sanctuaries Act, Section 203; CERCLA, Section 311; National Environmental Policy Act [NEPA], Section 102(2)(F) [for international awards]; and (20) General Assistance Grants to Indian Tribes (Indian Environmental General Assistance Program Act of 1992) – only eligible Tribes can propose to include these funds in a PPG application. Recipients may use PPGs to fund activities that are within the cumulative eligibilities of the 20 categorical grants programs listed above for which they are eligible.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

All States, interstate agencies, U.S. territories, and federally recognized Indian Tribes eligible to receive more than one of the 20 categorical grants programs referred to in "Uses and Use Restrictions" above are eligible to apply for PPGs. Any duly authorized State or tribal entity that currently receives or is eligible to receive EPA categorical program grants may request a PPG for the funds it administers. This may include agencies other than environmental agencies (for example, agricultural and health agencies), where authorized by state or tribal law. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States, U.S. territories, federally recognized Indian tribal governments, and

interstate agencies.

Credentials/Documentation:

All recipients are agencies of state, local, tribal, or territorial governments. All documentation requirements for recipients are presented at 40 CFR Part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," and 40 CFR Part 35, "State and Local Assistance." OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Applicants interested in pursuing PPGs should coordinate with their appropriate EPA regional office to develop a PPG through joint negotiations. (See Appendix IV of the Catalog.) Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. Requests for applications should be made to the appropriate EPA regional grants management office. Applicants will negotiate the content of their PPG with their EPA regional office and submit an application for the PPG based on these negotiations. Applicants for PPGs must submit an "Application for Federal Assistance: State and Local Non-Construction Programs." (Standard Form 424), including the required supporting documents. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Grant applications are reviewed by the appropriate EPA regional office, and if approved, awarded by the Regional Administrator. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. After the applicant is chosen for the competitive award, the applicant will work with the EPA regional office to add those competitive grant funds to the PPG if requested by the state. The workplan and supporting documentation that were the basis of the competitive award also will be added to the PPG.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 60 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Major portions of the PPGs are by statutory formula. The allocation for a PPG consists of the cumulative allocations for the categorical grants included in the PPG. Recipients should calculate a single, composite minimum cost share (based on the match or maintenance of effort

requirements of the categorical grants included in the PPG) for each of their PPGs. To calculate the minimum cost share for a PPG, start with the amount of federal dollars from each program (source of funds) going into the PPG. The minimum required cost share for each portion is determined by identifying the cost share requirements of the relevant categorical grant program. The minimum recipient cost share for the PPG is the sum of the minimum cost shares of the contributed categorical grants. Tribal governments and intertribal consortia may be eligible for match requirement waivers based on demonstrated hardship. Such waiver eligibility will be determined by the Regional Administrator and will be based on socio-economic criteria. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the PPG shall be determined during pre-application negotiations and at the time of the award. Applicants may choose to submit either annual or multi-year work plans and project periods. Budget periods will be for 12 months with the applicant having the flexibility to select, in consultation with the Regional Administrator, the specific start and end date for the budget period. Grant awards are made after review and approval of the application. Grantees are reimbursed for actual expenses based on submissions in financial status reports. See the following for information on how assistance is awarded/released: Annually.

Reports:

Applicants must provide reports and conduct joint evaluations in accordance with 40 CFR Part 31 and 40 CFR Part 35, Subparts A and B. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs (see section [70] for a list). Cash reports may be required. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs. Progress reports may be required. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs. Expenditure reports may be required. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs. Performance monitoring may be required. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status report. If questions remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 10 \$396,400,000; FY 11 est \$395,000,000; and FY 12 est \$400,000,000 - NOTE: See General Objectives, section [50], for a description of PPGs. The amounts cited above are inclusive of, not in addition to, obligations reported under individual STAG program grants eligible for inclusion in PPGs.

Range and Average of Financial Assistance:

There is no low-end limit for PPG awards, which may be as small as combining two programs and thousands of dollars to Tribes, or as large as combining up to 19 categorical grants to States. PPGs totals for larger States can exceed \$10

million. In FY 2010, state PPGs generally contained six or seven categorical grants, with award amounts averaging around \$5 million.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: PPGs have allowed States to take advantage of administrative and program efficiencies and innovations to achieve greater environmental and program results. States and Tribes have used PPGs to address critical emergencies and unplanned events. They have used PPG flexibility to overcome periodic budget needs or high program demands in specific programs. States and Tribes have used PPGs to implement multi-program initiatives and innovations that impact many environmental programs. They also have taken advantage of streamlined administrative procedures to make grant processes more efficient. PPGs have allowed Tribes to develop and implement environmental programs in situations where it would have been more difficult using categorical grants. Nearly all PPG applicants receive a grant, since they generally fund ongoing environmental programs. The total number of PPGs in effect thus far in FY 2010 is 170, including 39 to state environmental agencies; 26 to state agricultural agencies; and 105 to tribal agencies. Fiscal Year 2011: PPGs have allowed States to take advantage of administrative and program efficiencies and innovations to achieve greater environmental and program results. States and Tribes have used PPGs to address critical emergencies and unplanned events (for example, responses to recent tornadoes and Mississippi River flooding), and have used PPG flexibility to overcome periodic budget needs or high program demands in specific programs. States and Tribes have used PPGs to implement multi-program initiatives and innovations that impact many environmental programs. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: (1) Performance Partnership Grants combine funds from up to 20 categorical grant programs to implement major operating environmental programs for clean air, clean water, drinking water, hazardous waste, and others; (2) Grants tap funding from media programs combined in the PPG to fund pollution prevention activities; 3) Grantee negotiates with the regional office to use unexpended prior year funds for special projects to meet state priorities. Fiscal Year 2011: (1) Performance Partnership Grants combine funds from up to 20 categorical grant programs to implement major operating environmental programs for clean air, clean water, drinking water, hazardous waste, and others; (2) Grants tap funding from media programs combined in the PPG to fund pollution prevention activities; 3) Grantee negotiates with the regional office to use unexpended prior year funds for special projects to meet state priorities. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Applicants must meet selection criteria for the categorical grants to be combined in the PPG. The evaluation and selection criteria for competitive

awards under this CFDA description will be described in the competitive announcement.

66.608 ENVIRONMENTAL INFORMATION EXCHANGE NETWORK GRANT PROGRAM AND RELATED ASSISTANCE

Exchange Network Grants Program

FEDERAL AGENCY:

Office of Environmental Information, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act, Section 103; Toxic Substances Control Act, Section 10; Safe Drinking Water Act, Section 1442; National Environmental Policy Act, Section 102(2)(F); Comprehensive Environmental Response, Compensation, and Liability Act, Section 104; Marine Protection, Research and Sanctuaries Act, Section 203; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Clean Water Act, Section 104(b)(3); Solid Waste Disposal Act, Section 8001.

OBJECTIVES:

EPA, states, territories, and tribes are working together to develop the National Environmental Information Exchange Network, a secure, Internet- and standards-based way to support electronic data reporting, sharing, and integration of both regulatory and non-regulatory environmental data. States, tribes and territories exchanging data with each other or with EPA, should make the Exchange Network and the Agency's connection to it, the Central Data Exchange (CDX), the standard way they exchange data and should phase out any legacy methods they have been using. More information on the Exchange Network is available at www.exchangenetwork.net. The Exchange Network Grant Program provides funding to states, territories, tribes, and inter-tribal consortia to develop the information technology and information management capabilities they need to actively participate in the Exchange Network. This program supports the exchange of data; mentoring, planning and training activities; and collaborative work within the Exchange Network. This grant program may also be used to fund the standardization, exchange and integration of geospatial information to address environmental, natural resource, and human-health challenges.

Funding Priority - Fiscal Year 2011: Projects supported by the FY 2011 Exchange Network Grant Program, which are funded through EPA's STAG account, must address at least one priority activity from one of the following tiers: tier 1 -- activities to expand data exchanges and data availability through National or regulatory systems prioritized by the Exchange Network Governance; completion of sustained flows for the Underground Injection Control Database (UIC), Air Quality System (AQS), Resource Conservation and Recovery Act Information System (RCRAInfo) and the Safe Drinking Water Information System (SDWIS) Exchange; drinking water data exchange applications that go beyond the traditional SDWIS data exchange to include compliance monitoring data (i.e. - parametric data, sample schedules and other data) must be written for multiple state/tribe participation and include activities that will enable all participating partners to share SDWA compliance monitoring data with EPA; tier 2 -- activities to expand data exchanges and data availability to Exchange Network partners; completion of sustained flows for national and priority system data exchanges, beyond those noted above and as identified in section II of Appendix A, by the end of the project's period; expansion of national and priority system data exchanges and/or exchanges, already deployed by the applicant, such as Large Aquatic Ecosystems (LAEs), to other network partners through collaborative re-use of existing tools and services; EN data access to allow EN partners and the public to integrate, link, and analyze information from sources across the Network; implement climate change/greenhouse gas emissions data exchange; and implement a Cross-Media Electronic Reporting Rule (CROMERR) system upgrade meeting all of the following criteria: previously submitted in a CROMERR application to EPA; proposed re-use of an existing, approved CROMERR solution; and will require no more than \$100,000 of the Exchange Network Grant project funding; tier 3 -- activities to expand innovative flow of environmental information; innovative projects in support of sustained non-regulatory data flows, such as emergency response data, nationally significant geospatial data sets developed under OMB circular A-16 (Coordination of Geographic Information and Related Spatial Data Activities), substance registry services flows, open dump data exchanges, surface coal mining data integration and reporting, and water quality laboratory

data reporting, that demonstrate potential applicability to multiple EN partners; geospatially enable existing national and priority system data exchanges and develop data dictionaries for state and tribal systems and load them into the EPA's Data Registry for cross-walking with existing EN data standards; establishment of new, Node 2.0-compliant nodes or node-clients; and develop or integrate Open Geospatial Consortium (OGC) standards-based software for node installations and across the network to publish data flows in formats that may include WMS, WFS, SOS, and AtomPub.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funding is available for direct costs associated with carrying out grant-supported projects and for allocations of allowable indirect costs, in accordance with established EPA policies. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible applicants for the Exchange Network Grant Program include states, the District of Columbia, U.S. territories (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands), federally recognized Indian tribes, and intertribal consortia of federally recognized tribes. An intertribal consortium is eligible to apply for assistance from the Exchange Network Grant Program by meeting the following criteria: a) the majority of the consortium members are federally recognized Indian tribes; b) all consortium federally recognized tribal members have authorized the consortium to apply for and receive assistance (if awarded) from the Exchange Network Grant Program; and c) the intertribal consortium has adequate accounting controls to manage awarded funds while ensuring that only federally recognized tribal members will benefit directly from the award. Regional air pollution control districts may apply for assistance if they are legally considered to be agencies or instrumentalities of the state under applicable state laws. The following entities are not eligible to apply for funding from the competitive Exchange Network Grant Program: state/territorial/tribal universities; city, town, county, or regional governments; nonprofit organizations, including organizations that represent the interests of co-regulators/co-implementors in executing environmental programs. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. In addition to issuing competitive awards to states/territories/tribes and intertribal consortia, EPA may use a portion of the Exchange Network Grant Program funds to issue one or more non-competitive awards for associated program support to a co-regulator/co-implementor organization. A co-regulator/co-implementor organization is one that represents the interests of governmental units (for example, state or regional governments) in executing a national or regional environmental program. The membership of such a national or regional organization is composed of officials of the co-regulator or co-implementor entities (for example, state environmental commissioners). Eligible applicants for non-competitive awards that relate to the Exchange Network and are funded through EPA's EPM account include non-profit organizations that are co-regulator/co-implementor organizations.

Beneficiary Eligibility:

Federal, state, territory, city, town, county, and regional governments; federally recognized Indian tribes and intertribal consortia of federally recognized tribes; public institutions and industries subject to EPA regulatory reporting requirements; and the public.

Credentials/Documentation:

Costs will be evaluated in accordance with OMB Circular No. A-87, "Cost Principles for State, Local, and Indian Tribal Governments," or OMB Circular No. A-122, "Cost Principles for Non-Profit Organizations," as appropriate. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Please contact Marla Sheppard ((202) 564-5954) for questions involving Intergovernmental Review. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Per the FY 2011 Solicitation Notice for the Exchange Network Grant Program, applicants must submit application packages to EPA by November 5, 2010. EPA will accept project proposals for National Environmental Information Exchange Network grants in one of two ways: 1) hard copy through the U.S. Postal Service or an overnight mail or courier delivery service, including one original and two copies; or 2) a proposal submitted electronically through the grants.gov website. EPA will not review or fund any applications that are received from ineligible applicants. The application package included the following materials: 1. Cover letter that outlines the following information: A. Recipient information; B. Project title; C. Type of vehicle requested (grant/cooperative agreement/ Performance Partnership Grant); D. Proposed amount of grant (broken down into direct funding and in-kind assistance if relevant); E. Partners on the grant (if applicable); F. Brief project summary including a statement of project goal(s); G. contact information for the project lead; and H. Signature of executive level Authorized Organizational Representative (AOR). 2. SF-424 (can be obtained from <http://www.epa.gov/ogd/AppKit/application.htm>) 3. Project narrative including goals, outputs with dates, outcomes, and environmental results: applicants must limit the project narrative to 10 single spaced pages. The ten-page limit does not include the Exchange Network Implementation plan described in section III-B of the Solicitation Notice. EPA will not review pages beyond the first ten pages of the project narrative. The narrative must address each of the Evaluation Criteria (Section V-A) of the Solicitation Notice. The narrative should describe the major goal or goals, outputs and outcomes, and environmental results of the two-year project. A goal should reflect the purpose of the project. For instance, a proposal including both a Underground Injection Control (UIC) flow and a Water Quality Exchange (WQX) flow would have two goals. Each goal should have scheduled outputs (major work products) that lead to its implementation. Each goal and some outputs will have outcomes. An outcome is the effect or consequence of the project goal or of its major outputs. Each goal should have an environmental result. The schedule of outputs should be detailed enough to demonstrate an applicant's ability to track progress toward each goal. Applicants can find a sample narrative with goals, outputs and outcomes in Appendix D of the Solicitation Notice. 4. Programmatic Resources and Personnel: Briefly describe the programmatic resources and personnel involved in the project for the recipient and any participating partner. Highlight any expertise or past experiences that may be particularly helpful in carrying out the project. Include biographical sketches or resumes of the lead and any partner Project Manager(s). 5. Formal Project Partners Roles and Responsibilities and Distribution of Funds: If the proposed project involves formal project partners who will actively participate in implementing the project, provide a description of the roles and responsibilities of each partner in carrying out each of the project goals. Describe how the recipient would coordinate work among the partners using methods such as regular teleconferences, meetings, or written status reports. If the recipient plans to distribute funding to other partners, describe the method for doing so. Exchange Network grant projects that include one or more formal partners can have budgets up to \$350,000. Partnerships formed from within a single state, territorial, or tribal government (e.g., a "partnership" limited to the Environment and Public Health Departments within a state) are not eligible partnership and are limited to the \$200,000 maximum funding for a single-jurisdiction grant. 6. Detailed Itemized Budget: Applicants should describe both the total project

budget and the costs associated with each major goal in a detailed itemized budget. The goal-specific budget information is important, because EPA may wish to consider partially funding some projects (i.e., funding only some goals for a project but not others). The budget must include any relevant item including A. Personnel List all staff positions by title. Give the annual salary of each person, the percentage of their time devoted to the project, the amount of each person's salary funded by the grant and the total personnel cost for the budget period. B. Fringe Benefits Identify the fringe benefit rate and total amount. C. Travel Specify the mileage, per diem, estimated number of in state and out of state trips other costs for each type of travel. EPA suggests that applicants include funds for travel to national, regional and area Exchange Network conferences. D. Equipment Identify each item of equipment to be purchased which has an estimated acquisition cost of \$5,000 or more per unit and a useful lifetime of more than one year. List the quantity and unit cost per item. Items with a unit cost of less than \$5,000 are supplies. E. Supplies Supplies include all tangible personal property other than "equipment." The detailed budget should identify categories of supplies (such as laboratory supplies or office supplies). List the quantity and unit cost per item. F. Contractual Identify each proposed contract and specify its purpose and estimated cost. Applicants who request in-kind services should list them here. G. Other List each item in sufficient detail for U.S. EPA to determine whether the costs are reasonable or allowable. List any item, such as training, not covered elsewhere here. H. Indirect Charges If indirect charges are included in the budget, include the approved indirect cost rate with a copy of the Indirect Cost Rate Agreement, a description of the base used to calculate indirect costs and total cost of the base, and the total indirect charges requested. Before an applicant can incur any costs under the indirect cost category, the Indirect Cost Rate Agreement must be approved and current. If you do not have a current rate, you may submit a copy of the submitted application to the cognizant fiduciary agency. Management Fees When formulating budgets for proposals/applications, applicants must not include management fees or similar charges in excess of the direct costs and indirect costs at the rate approved by the applicants cognizant audit agency, or at the rate provided for by the terms of the agreement negotiated with EPA. The term "management fees or similar charges" refers to expenses added to the direct costs in order to accumulate and reserve funds for ongoing business expenses, unforeseen liabilities, or for other similar costs that are not allowable under EPA assistance agreements. Management fees or similar charges may not be used to improve or expand the project funded under this agreement, except to the extent authorized as a direct cost of carrying out the scope of work. 7. Network Implementation Plan. All state applicants must submit a document of two to three pages explaining how the applicant plans to fully implement the Exchange Network for all regulatory and national system flows as described in Section III-B. 8. Additional information for inter-tribal consortium: An inter-tribal consortium applying for an FY 2011 Exchange Network Grant must include documentation that shows: A. a formal partnership exists among the Indian tribal governments that are members of the inter-tribal consortium, and the majority of the members are federally recognized Indian tribes; and B. the consortium's federally recognized tribal members have authorized the consortium to apply for and receive assistance from the Exchange Network Grant Program. EPA will notify applicants of its selection decisions in or around March 2011. At the time, the Agency will request additional documentation, including other official forms, from successful applicants. The notification letters will include further instructions to those applicants for submittal of additional or updated documents. Required forms in PDF format can be obtained at <http://www.epa.gov/ogd/AppKit/application.htm>. EPA plans to award all grants by July 2011. If the proposal is funded, the recipients would be required to submit a separate, tailored Quality Assurance Project Plan based on guidance in the applicable solicitation notice. EPA plans to post the solicitation notice for the FY 2012 Exchange Network Grant Program on the Web site in July 2011 (<http://www.epa.gov/exchangenetwork/grants>). Please see the solicitation notice for complete application instructions.

Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated

in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

EPA will evaluate the project proposal based the evaluation criteria in section V-A of the 2010 Solicitation Notice. Please note that in evaluating applicants under this criteria, the Agency will consider the information provided by the applicant and may also consider relevant information from other sources including agency files and prior/current grantors (e.g., to verify and/or supplement the information supplied by the applicant). In making the final funding decisions from among the most highly scored proposals, the EPA selection official may also consider one or more of the following factors: A. EPA programs' ability and/or readiness to support proposed project activities; B. geographic distribution of funding; C. prioritization of data exchange and priority activities over other assistance activities; D. ensuring participation in the Exchange Network by federally recognized Indian tribes and inter-tribal consortia; and E. EPA's capacity to provide any requested in-kind services.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Applicants whose applications are denied for funding will be notified approximately five months after the application deadline. Applicants whose applications are recommended for funding will be notified, initially to request additional documentation to finalize the application, and, later, when the assistance agreements are issued and mailed by EPA's Grants and Interagency Agreements Management Division, which is expected to be approximately eight to nine months after the application deadline.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance will be provided through grants and cooperative agreements. EPA may provide support in the form of direct funding and/or in-kind assistance, in lieu of direct funding. EPA plans to issue awards for applications that are recommended for funding approximately seven months after the application deadline. The standard period of performance for projects funded by the Exchange Network Grant Program is two years. EPA may consider requests from award recipients for project/budget period extensions; and if deemed appropriate by EPA, the Grants and Interagency Agreements Management Division may issue amendments extending the project/budget periods. See the following for information on how assistance is awarded/released: Assistance will be provided through lump sum allocations which grantees can draw down upon through programmatic invoices.

Reports:

Award recipients must submit semi-annual progress reports and a final project report that covers the entire project period. The semi-annual progress reports must be submitted within one month of the end of each semi-annual reporting period. The reporting periods are from October through March and April through September of each fiscal year. Award recipients must submit the final project report and a final Financial Status Report (Standard Form 269) to EPA within 90 days after the end of the project/budget period. Program reports are required. Cash reports are required. Progress reports are required. Expenditure reports are required. Performance monitoring is required.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June

27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all accounting records that substantiate the charges to each grant, must be maintained and accessible to personnel authorized to examine EPA grant accounts. If certain financial records are part of an audit investigation, then they must be retained until the matter under investigation has been completely resolved. Award recipients must retain complete records documenting their projects for a period of seven years after the close-out of the agreement. Such records include, but are not limited to, financial records, technical reports, periodic performance progress reports, project management files, correspondence with other project partners, and correspondence with EPA. Final products and deliverables that result from the project are considered to be permanent records and should be retained indefinitely.

Account Identification:

68-0103-0-1-304; 68-0108-0-1-304.

Obligations:

(Project Grants) FY 10 \$11,000,000; FY 11 est \$10,140,000; and FY 12 est \$10,500,000 - STAG Account: FY 2010 \$10,000,000; FY 2011 \$9,980,000; and FY 2012 est \$10,000,000. EPM Account FY 2010 \$1,000,000; FY 2011 \$160,000; and FY 2012 est \$500,000. EPA will set aside approximately ten percent of appropriated funding for tribal assistance agreements to further facilitate expanded tribal participation in the Exchange Network.

Range and Average of Financial Assistance:

STAG Account: Award amounts will range from \$50,000 to \$350,000 for the entire two-year project period. The average award amount will be \$200,000 for the entire two-year project period. EPM Account: The average award amount will be \$200,000 for the entire two-year project period.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2010: FY 2011 is the tenth year of the Exchange Network Grant Program. From FY 2002 to FY 2010, EPA has provided approximately \$154 million for state, tribal, and territorial awards and associated program support through the grant program. In a relatively short period, the Exchange Network has become a reality. As of March 2011, all 50 states, 87 tribes and five territories have participated in developing the Exchange Network at some level. Fifty states and nine tribes, and one territory have established their Exchange Network Node and have exchanged data with another partner. For detailed information on state, territorial, and tribal activities, please see the grant activities that are described at

<http://www.epa.gov/exchangenetwork/grants/index.html>. For information on the progress of the data exchanges, please see <http://www.exchangenetwork.net>. EPA and its partners are currently using or planning to use the Exchange Network to exchange a broad range of data, including, but not limited to the following: Beaches (beaches water quality and closure data), Air Quality System (AQS), electronic Discharge Monitoring Reports (e-DMR), Emissions Inventory System (EIS), Facility Registry System (FRS), Integrated Compliance Information System/National Pollutant Discharge Elimination System (ICIS-NPDES), Resource Conservation and Recovery Act Information System (RCRA Info), Safe Drinking Water Information System (SDWIS), Toxics Release Inventory System (TRIS), Underground Injection Control (UIC), and Water Quality Exchange (WQX). Fiscal Year 2011: Information for FY 2011 is not yet available. Fiscal Year 2012: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

The Exchange Network Grant Program assistance agreements issued to state, territorial, and tribal governments are governed by EPA's regulations at 40 CFR Part 31, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." The assistance agreements issued to nonprofit organizations (i.e., co-regulator/co-implementor

organizations) for associated program support for the Exchange Network Grant Program or other Exchange Network activities are governed by EPA's regulations at 40 CFR Part 30, "Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations." General information and guidance documents regarding the Exchange Network are available at <http://www.epa.gov/exchangenetwork>. Information about the Exchange Network Grant Program and previously funded activities is available at <http://www.epa.gov/exchangenetwork/grants>.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2010: A state environmental agency will move the tracking and submission of former STORET (repository for water quality, biological, and physical data) data into an improved internal data-management system, format the data for a Water Quality Exchange (WQX), and submit it to EPA via the Central Data Exchange (CDX). The grantee will geospatially reflect the regulated entities and other points of environmental interest stored in their various divisional databases in a searchable Facility Profiler system. The grantee will create a public portal to allow data providers such as contract Lab, State Lab, volunteer monitoring, and universities to upload water quality monitoring data to the state agency. The grantee will also implement a WQX data flow to flow WQX data from the internal database to EPA's STORET system and create a WQX database to manage projects, test plans, monitor results, and perform water quality assessments. This project will protect the environment by improving information availability and reducing burden and costs associated with data management and reporting from outside data partners. The proposed project will help to monitor our nation's waters as they are monitored by state, federal, and local agencies, universities, dischargers, and volunteers. Water quality data is used to characterize waters, identify trends over time, identify emerging problems, determine whether pollution control programs are working, help direct pollution control efforts to where they are most needed, and respond to emergencies such as floods and spills. Fiscal Year 2011: Information for FY 2011 is not yet available. Fiscal Year 2012: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:
