This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. A group of producers or an association representing a group of producers must first file a petition with USDA's FAS to establish eligibility for assistance. Petitions may be filed by a group of three or more producers or an authorized representative. If a petition is certified, individual producers must file an application at their local FSA field office. Producers who are approved are eligible to receive, at no cost, trade adjustment technical assistance from the CFFM and cash benefits.

The TAA regulation defines articles like or directly competitive as products falling generally under the same number in the Harmonized Tariff Schedule of the United States (HTS). Links to the HTS and a U.S. trade database can be found at <http://www.fas.usda.gov/itp/us-tariff-sch.asp>.

The CFFM will provide information regarding the feasibility of substituting one or more alternative commodities and improve the competitiveness of the production and marketing of the adversely affected commodity.

Award Procedure:

FAS determined the eligibility of producers of raw commodities who have been adversely affected by import competition based on all information and supporting documentation provided. The CFFM will make available to all producers who apply for TAA free technical assistance within 180 days of the petition certification date. The CFFM will contact applicants with the times and dates of scheduled training sessions or online classes. Once an applicant has met all program requirements, they will receive a cash benefit of up to \$4,000 based upon the completion of an Initial Business Plan, and an additional \$8,000 based upon the completion of a Final Business Plan. The Farm Service Agency will make a direct deposit payment to the eligible applicant's checking account. The maximum cash benefit is \$12,000 over a 36-month period. Applicants may receive less if total applications exceed TAA funding levels.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Petition filing to establish eligibility, on the average, will take 40 days from the date that the petition is accepted and published in the Federal Register. The CFFM will make available to all producers who apply for TAA free technical assistance within 180 days of the petition certification date.

Appeals:

Any person may obtain reconsideration and review of determinations made with respect to applications for program benefits by filing an administrative appeal with USDAs Foreign Agricultural Service within 30 days of FAS's denial and, if upheld, within 60 days to the U.S. Court of International Trade.

Renewals:

Initially expected to expire on December 31, 2010, the TAA for Farmers Program was extended until February 12, 2011, through the Omnibus Trade Act on December 29, 2010. However, given the statutory requirement of a 90-day application period, the six-week life of the new appropriation precluded the announcement of a new program. The program officially expired on February 12, 2011, but funding and operations for it remain intact and allow all approved applicants to continue to receive payments and complete their training until September 2013.

On October 12, 2011, Congress passed the Trade Adjustment Assistance Extension Act of 2011. The legislation reauthorized the TAA for Farmers Program through the first quarter of FY 2014. However, neither the House nor Senate bills provided appropriated funding for the program. As a result, no petitions or applications were accepted.

On January 6, 2015, Congress passed the Trade Preferences Extension Act of 2015. The legislation reauthorized the TAA for Farmers Program for FY 2015

through FY 2021. However, no appropriated funding for the TAA for Farmers Program was included in this legislation. As a result, no new petitions or applications have been accepted, to date.

Formula and Matching Requirements:

Statutory Formula: An eligible applicant will receive a monetary cash benefit of up to \$4,000 based upon the completion of an Initial Business Plan and up to an additional \$8,000 based upon the completion of a Long-Term Business Plan. Payment limitations exist for applicants who have received \$65,000 in counter cyclical payments. Monetary cash benefits may be less than \$12,000 if total TAA payments exceed available funds.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Payment is made by direct deposit after determining applicant eligibility, unless otherwise arranged. See the following for information on how assistance is awarded/released: Two separate cash payments are provided to applicants who complete the training requirements.

Reports:

Not later than January 30, 2010, and annually thereafter, the Secretary of Agriculture shall submit to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives a report containing the following information with respect to adjustment assistance provided under this chapter during the preceding fiscal year: (1) A list of the agricultural commodities covered by a certification. (2) The States or regions in which such commodities are produced and the aggregate amount of such commodities produced in each such State or region. (3) The total number of agricultural commodity producers, by congressional district, receiving benefits. (4) The total number of agricultural commodity producers, by congressional district, receiving technical assistance. Cash reports are not applicable. Progress reports are not applicable. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. At all times during regular business hours, authorized representatives of FSA, the United States Department of Agriculture, or the Comptroller General of the United States shall have access to the premises of the producer in order to inspect, examine, and make copies of the books, records, and accounts, and other written data as specified. Audits of certifications of average adjusted gross income may be conducted as necessary to determine compliance with established requirements. As a part of this audit, income tax forms may be requested and if requested, must be supplied. If a producer has submitted information to FSA, including a certification from a certified public accountant or attorney, that relied upon information from a form previously filed with the Internal Revenue Service, such producer shall provide FSA a copy of any amended form filed with the Internal Revenue Service with 30 days of the filing.

Records:

Persons making application for benefits under this program must maintain accurate records and accounts that will document that they meet all eligibility requirements specified herein, as may be requested by FSA. 10.610 EXPORT GUARANTEE PROGRAM

The GSM-102 Program

FEDERAL AGENCY:

Foreign Agricultural Service, Department of Agriculture

AUTHORIZATION:

Agricultural Trade Act of 1978, Executive Order 7 U.S.C. 5602, 5622, 5661, 5662, 5663, 5664, 5676; 15 U.S.C. 714b(d), 714c(f). Executive Order 13175, Title 7, Part 1493, Section A, 15 U.S.C 714; OMB 7 CFR 1493.

OBJECTIVES:

The U.S. Department of Agriculture's (USDA) Export Credit guarantee Program (GSM-102) provides credit guarantees to encourage financing of commercial exports of U.S. agricultural products, while providing competitive credit terms to buyers. By reducing financial risk to lenders, credit guarantees encourage exports to buyers in countries, mainly developing countries that have sufficient financial strength to have foreign exchange available for scheduled payments. The program guarantees credit extended by the private banking sector in the U.S. (or, less commonly, by the U.S. exporter) to approved foreign banks using dollar-denominated, irrevocable letters of credit for purchases of U.S. food and agricultural products by foreign buyers. USDA's Foreign Agricultural Service (FAS) administers the program on behalf of the Commodity Credit Corporation (CCC), which issues the credit guarantees. GSM 102 covers credit terms of up to three years; maximum terms may vary by country.

TYPES OF ASSISTANCE:

Guaranteed/Insured Loans

USES AND USE RESTRICTIONS:

CCC guarantees payments due from approved foreign banks to exporters or financial institutions in the U.S. However, the financing must be obtained through normal commercial sources. Typically, 98 percent of principals and a portion of interest are covered by a guarantee. because payment is guaranteed, financial institutions in the U.S. can offer competitive credit terms to the foreign banks, usually with interest rates based on the London Inter Bank Offered Rate (LIBOR). Any follow-up on credit arrangements between the foreign bank and the importer are negotiated separately and are not covered by

the CCC guarantee.

Applicant Eligibility:

Export Credit guarantee Program (GSM-102) provides credit guarantees to encourage financing of commercial exports of U.S. agricultural products, while providing competitive credit terms to buyers. By reducing financial risk to lenders, credit guarantees encourage exports to buyers in countries, mainly developing countries, that have sufficient financial strength to have foreign exchange available for scheduled payments. This Program provides guarantees to lenders.

Beneficiary Eligibility:

Exporters or the exporters assignee are the direct beneficiaries and must meet the applicant eligibility requirements. Interested parties, including U.S. exporters, foreign buyers, banks, may request that the CCC establish a GSM-102 program for a country or region. Prior to announcing the availability of guarantees, the CCC evaluates the ability of each country and foreign bank to service CCC guaranteed debt.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. CCC must qualify exporters for participation before accepting guarantee applications. An exporter must have a business office in the U.S. and must not be debarred or suspended from any U.S. government program. Financial institutions must meet established criteria and be approved by CCC. CCC sets limits and advises each approved foreign bank on the maximum amount CCC will guarantee for that bank. The

Award Procedure:

The CCC-approved foreign bank issues a dollar-denominated, irrevocable letter of credit in favor of the U.S. exporter, ordinarily advised or confirmed by the financial institution in the U.S. agreeing to extend credit to the foreign bank. The U.S. exporter may negotiate an arrangement to be paid as exports occur by assigning to the U.S. financial institution to the right to process that may become payable under the CCC's guarantee. Under this arrangement, the exporter would also provide transaction-related documents required by the financial institution, including a copy of the export report, which must also be submitted to CCC.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Please contact the headquarters or regional office for addition approval information.

Formula and Matching Requirements:

Statutory Formula: Title 7, Chapter 14, Part 1493. CCC will review documents submitted under a claim. If all information and documents are in good order and meet the requirements of the regulations, CCC will pay to the exporter (or the exporter's assignee) the lesser of 1) the guarantee value stated in the payment guarantee, plus eligible interest; 2) the guaranteed percentage, indicated in the payment guarantee, of the exported value as indicated in the Evidence of Export, plus eligible interest.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The payment guarantee applies to a credit period established in the application, and coverage begins either on the date(s) of export or the date when interest begins to accrue, whichever is earlier. 10.665 SCHOOLS AND ROADS - GRANTS TO STATES

Payments to States

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Secure Rural Schools and Community Self Determination Act of 2000, Division C, Section 601(a), 16. U.S.C. 7101-7153; 16 U.S.C. 500.

OBJECTIVES:

To share receipts from the National Forests and supplemental mandatory

appropriations with States in which the National Forests are situated.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

For Federal fiscal years 2008 through 2011, reauthorized one year for FY 2012, reauthorized one year for FY 2013, and reauthorized for two years in 2015 to provide for payments in FY 2015 and FY 2016. The Secure Rural Schools Act allows counties in which national forests are situated to elect to share in the State payment (based on a formula in the Act) or to share in the state's 25-percent payment (based on the 7-year rolling average of receipts from national forests in the State). The fiscal year 2014 payment was made to states in May 2015. The 25-percent payments to states are to be used for the benefit of public schools and public roads in the counties in which national forests are situated. An eligible county that elects to receive a share of the State payment (based on the formula in the Act) must under some circumstances allocate a portion of that payment for title II special projects on national forests or title III county projects, or both. The portion of the Secure Rural Schools Act State payments not allocated for these purposes are to be used to benefit public schools and public roads in counties in which national forests are situated. The payments to benefit schools and roads are commonly called title I funds. Funds allocated by counties for title II special projects are reserved in a special account in the General Treasury and may be used by the Secretary of Agriculture for projects that improve the maintenance of existing infrastructure, enhance forest ecosystems, and restore and improve land health and water quality on national forests. Funds allocated by counties for title III county projects may be used only to: (1) carry out activities under the Firewise Communities program to provide homeowners in fire sensitive ecosystems education on, and assistance with implementing, techniques in home siting, home construction, and home landscaping that can increase the protection of people and property from wildfires; (2) reimburse the participating county for search and rescue and other emergency services, including firefighting, that are performed on a national forest after the date on which the use was approved, and paid for by the participating county; and (3) develop community wildfire protection plans in coordination with the Forest Service acting on behalf of the Secretary of Agriculture.

Applicant Eligibility:

Title I payments are made to States or territories of the United States to be allocated to counties in which national forests are situated. Title II project funds are reserved in special account in the U.S. Treasury and may be used by the Secretary of Agriculture for the purpose of entering into and implementing cooperative agreements with willing Federal agencies, State and local governments, private and nonprofit entities, and landowners. (16 U.S.C 7122). Title III funds are paid to respective states to be passed-through to participating counties.

Beneficiary Eligibility:

A beneficiary of title II special project funds is a person or entity that receives a grant or enters into a cooperative agreement with the Secretary of Agriculture to carry out a project for protection, restoration, and enhancement of fish and wildlife habitat, and other resource objectives consistent with the purposes of the Secure Rural Schools Act on national forests and on non-national forest land where projects would benefit the resources on national forests. (16 U.S.C. 7122)

A beneficiary of title III funds is a participating county in which a national forest is situated that has elected to allocate a portion of its State payments for title III county projects.

Credentials/Documentation:

OMB circulars apply to title II special projects implemented using Financial Assistance instrument for public benefit projects. OMB circulars are not applicable to projects when implemented using partnership transaction on or adjacent to National Forest System (NFS) Lands. No Credentials or documentation are required for title I or title III payments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Statutory Formula: Statutory Formula: Statutory Formula: Under title I - Secure Payments for States and Counties Containing Federal Land, each county in an eligible state elected to receive one of the following payments: a share of the states 25- percent rolling average payment, or a share of the State payment calculated using the formula in the Secure Rural Schools Act. The payment to the state under the Secure Rural Schools Act is the sum of the county elections in that state. The 25-percent payments to states, is an amount equal to the annual average of 25-percent of amounts received for the applicable fiscal year and each of the preceding 6 fiscal years from each national forest. This amount is used to calculate a county's share of the states 25-percent payment. The sum of shares for counties that elect to receive this payment is paid to the state under the Secure Rural Schools Act. State payments for fiscal years 2008 through 2014 were calculated using a complex formula with multiple factors, including acres of proclaimed national forest within an eligible county, the average 3 highest 25-percent payments made to each eligible State for each eligible county for the eligibility period 1986 through 1999, and the annual per capita personal income for each county. The sum of shares for counties that elect to receive this payment is paid to the state under the Secure Rural Schools Act.

Cooperative Forestry Assistance Act of 1978, 16 U.S.C. 2101, et. seq., as amended by the 1990 Farm Bill, Section 1217 of Title XII of the Food, Agriculture, Conservation and Trade Act of 1990, Public Law 101-624, 104 Stat. 3359, 16 U.S.C. 2103c; later amended by the 1996 Farm Bill, Federal

Agricultural Improvement and Reform Act of 1996; Public Law 104-127; Title III, Conservation; Subtitle G Forestry; Section 374, Optional State Grants for Forest Legacy Program.

OBJECTIVES:

To effectively protect and conserve environmentally important forest areas threatened by conversion to nonforest uses, through conservation easements or fee simple purchase. The Forest Legacy Program (FLP) is a voluntary private land conservation partnership between the Forest Service, participating States, land trusts, private landowners, and others. The Program works with State partners and operates on a willing seller and willing buyer basis and is completely nonregulatory in its approach. No eminent domain authority or adverse condemnation is authorized for this Program.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Landowner participation in the program is voluntary and consists of two components: (1) conveying land or interests in land to achieve land conservation objectives and (2) preparing and periodically updating a Forest Stewardship Management Plan or a multi-resource management plan, when the participation is through conservation easement. State lead agencies must first evaluate and approve projects as Forest Legacy eligible before competing for Forest Service funding.

Applicant Eligibility:

Projects are evaluated and prioritized by State lead agencies, in consultation with the State Forest Stewardship Coordinating Committees. All States and territories participate except North Dakota, the Commonwealth of the Northern Mariana Islands, and Guam.

Beneficiary Eligibility:

State agency, landowners of private forest lands, and land trust organizations.

Credentials/Documentation:

Each State must prepare a State Forest Action Plan (Statewide Assessment and Resource Strategy, including Assessments of Need incorporated by reference) in order to be eligible for program funds. The FS Regional, Area, or Institute Responsible Official must concur with the State's Forest Action Plan. Requirements for an eligible project are: (1) within an approved Forest Legacy Area and fits within the priorities of a State's AON; (2) complies with FLP State and National criteria; (3) a completed grant application; (4) an approved Forest Stewardship Plan or a multi-resource management plan, if applicable; (5) negotiated terms of a conservation easement, if applicable; (6) an approved appraisal, meeting Federal acquisition appraisal standards as outlined in the Uniform Appraisal Standards for Federal Land Acquisitions; and, (7) adequate non-Federal cost share. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required, including negotiation of terms for the conservation easement or acquisition. Applicants should proceed with initial appraisal and Forest Stewardship Plan development, as due diligence is one of several key factors in project evaluation and ranking. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application requirements must comply with the Code of Federal Regulations (7 CFR 3016), Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments. Individual participating States have application duties and procedures.

Award Procedure:

The Forest Service conducts an annual project selection process to arrive at a prioritized national project list for inclusion in the President's budget. The

Forest Service then issues grants to states for the project specific Congressional set-aside designated in the Congressional appropriations bills. The Forest Service then issues grants to states based on the amounts provided in Congressional appropriations and the prioritized national project list.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Funding for the Cooperative Forest health Protection program is provided to states to help support a base level of professional forest health expertise for non-federal forest managers. Grants for this program are allocated to states using a formula that is based on the number of acres of non-federal forest land within the states, other factors, and amount of funding available through annual appropriations.

Applicant matching for cooperative Forest Health Protection programs and projects that treat specific forest health problems on non-federal lands is required and is 50%. In cases where it is mutually agreed upon that an applicant will treat federal lands as part of a cooperative project or program, the Forest Service reimbursement is 100% for the federal portion. However, applicant matching rates may be adjusted in emergency or extraordinary situations. Forest Service cost-share rates for activities involving development of new and improved forest health protection methods and technologies, and the conduct of special projects and evaluations are negotiated on a project-by-project basis with the grantee. Exceptions from the 50% cost-share requirement must be approved by the Deputy Chief for State and Private Forestry. The applicant share of cooperative programs may be in the form of cash, services, or in-kind contributions. If a state elects to consolidate the annual Forest Service financial assistance, in lieu of functional cost sharing mechanisms, the total consolidated payment to any state during any fiscal year may not exceed the total amount of non-federal funds expended to implement its state forest resources program during that year. Treatment funds and activities cannot be a part of the consolidated payment and must stand alone to meet the 50% match requirement (See FSM 3431.22).

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants are typically awarded for one or two years and may be extended on request and with the approval of the program manager. See the following for information on how assistance is awarded/released: Payments made based on authorization and negotiation of provisions with cooperators.

Increase the knowledge and information about how the wood industry can contribute to the green building movement. Examples include chain of custody certification for sustainable wood products as well as life cycle analysis for a range of wood products.

Increase the knowledge, information, and promotion of how carbon sequestration by wood products can provide a competitive edge to a sustainable forest products industry. An example includes developing specific carbon storage factors for a range of wood products.

Develop technology and markets to address urgent issues on a global or domestic scale, including:

- 1) Sanitizing wood packaging materials, firewood, and similar products to eliminate these pathways for the transport of insect and disease pests, and

10.690 LAKE TAHOE EROSION CONTROL GRANT PROGRAM

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Lake Tahoe Restoration Act, Public Law 106-506, as amended by Department of the Interior and Related Agencies Appropriations Act for Fiscal Year 2004, Public Law 108-108.

OBJECTIVES:

To make annual payments to the governing bodies of each of the political subdivisions (including public utilities) located in the Lake Tahoe Basin to be used primarily for erosion control and water quality projects. The goal of the program is to provide federal assistance to address urban stormwater runoff pollution, the primary source of pollutants (fine sediment and nutrients) affecting the clarity of Lake Tahoe. This program addresses urban runoff from public roads and right of ways.

To fund a competitive grant award program for research projects high in technical merit and relevant to land management and regulatory agencies working in the Tahoe Basin. The goal of the program is to promote applied, timely, relevant research that addresses natural resource management needs in the basin. Research funded through this program addresses key management questions, includes input from agencies, produces decision-support tools that are useful and accessible, fosters collaboration and communication, builds on previous research, and ultimately addresses the science needs identified in the Lake Tahoe Environmental Improvement Program. The environmental goals of the Lake Tahoe Environmental Improvement Program are defined using thresholds that were established to protect the natural environment and maintain public health and safety within the basin. The threshold categories are: 1) water quality, 2) wildlife, 3) soil conservation, 4) scenic resources, 5) air quality, 6) recreation, 7) vegetation, 8) noise, and 9) fisheries.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

Only after water quality and soil conservation thresholds have been achieved, funds may be used to address other environmental threshold categories. Payments shall be used only to carry out a project or proposed project that is part of the environmental improvement program adopted by the Tahoe Regional Planning Agency in 1998.

Applicant Eligibility:

Eligible applicants for National Forest System awards includes State Forestry or equivalent agencies, tribes, non-profits, and municipalities in the local governing bodies of political subdivisions in the Lake Tahoe basin.

Eligible applicants for competitive research awards includes State Agricultural

Experiment Stations, universities and colleges, State and local governments, U.S. Territories, nonprofit research institutions or organizations, international organizations, individuals, and for-profit organizations.

Beneficiary Eligibility:

Beneficiary eligibility for National Forest System awards include governing bodies of each of the political subdivisions (including public utilities) located in the Lake Tahoe Basin.

Beneficiary eligibility for competitive research awards include organizations and scientists involved in basic and applied research activities related to forest and rangeland renewable resources.

Credentials/Documentation:

No credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Submission of an annual list of priority projects, along with written proposals for each of the identified priority projects. The USFS has chosen to adopt the State guidelines for the format of these proposals, since they meet all the needs for project narratives for federal grant considerations, with one additional requirement. That additional requirement is clear identification of sources and amounts of proposed match funding.

Implementation of construction projects under awarded grants are not allowed until a signed project decision under NEPA has been made, allowing the use of federal grant funds for implementation. Local Office monitors grant awards to assure compliance of this restriction. Planning, design, and monitoring grants do not require an environmental impact assessment. An environmental impact assessment is required for this program.

For competitive research awards, applicants must adhere to the requirements of the current Request for Proposals as stipulated by the Pacific Southwest Research Station. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Project narratives submitted through the pre-application process are reviewed by an interagency technical advisory committee convened by the Federal grants program managers. Projects are then identified for award, along with instructions for any needed revisions to the project narratives. At that time, eligible applicants submit revised narratives along with standard application forms and assurances to the Local Office, as furnished by the Federal agency.

For competitive research awards, a complete proposal must be submitted following guidelines provided by the Pacific Southwest Research Station. The proposal must explain in detail the work to be undertaken, the qualifications of key personnel involved in the work, other resources such as equipment, facilities, and services available or needed, and a proposed budget for each fiscal year during the life of the proposed grant. A short biographical sketch of the principal investigator and a list of his or her principal publications should be included.

Award Procedure:

National Forest System will send an award letter to grantee, with identification of grant requirements, in letter from Local Office.

Research award proposals must compete for priority, showing technical competence and demonstrating the ability to meet regional needs. Research grants cooperative agreements are made only in support of forestry research and monitoring of the Lake Tahoe Basin. Unsolicited proposals can be awarded for innovative or unique approaches to the proposed project.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. For competitive research grants or cooperative

agreements contact Pacific Southwest Research Station's Tahoe Science Coordinator.

Appeals:

Contact Research Station for guidance regarding competitive research grants or cooperative agreements.

Renewals:

From 60 to 90 days. Extensions can be made for individual grants as long as end dates do not exceed five years post award date.

For competitive research awards requests for continued support will be considered as equal in importance and in competition with pending proposals. Applications submitted for continued support should be identical to a new proposal, except that a resume of progress to date must be added.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: Percent: 50%. For National Forest System awards, notwithstanding section 9(b) of Public Law 106 506, funds hereinafter appropriated under Public Law 106506 shall require matching funds from non-Federal sources on the basis of aggregate contribution to the Environmental Improvement Program, as defined in Public Law 106506, rather than on a project by-project basis, except for those activities provided under section 9(c) of that Act, to which this amendment shall not apply.

For competitive research awards, as authorized by Public Law 106506 section 6(b) and 6(d), the applicant's contribution is negotiated for grants. The proposed budget by fiscal year shows the estimated cost of the complete project from grant funds and value of resources to be contributed by the applicant. Salaries of academic personnel for periods when they receive salary for teaching should not be included for payment from grant funds. The minimum matching contribution for Cooperative Agreements must constitute at least 20-percent of the estimated total cost of the project.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants are awarded for a period not to exceed 5 years. Invoices may be submitted no more frequently than monthly. See the following for information on how assistance is awarded/released: Payments made based on authorization and negotiation of provisions with cooperator.

Reports:

Accomplishment reports are required at least annually, but not more than quarterly as detailed in the applicable OMB Circulars and the grant award. A final accomplishment report, financial expenditures report, and final as-built project design drawings are required within 90 days of project completion.

For competitive research awards, in addition to project-specific reports and products, all funded projects are required to submit quarterly project updates in January, April, July, and October and annual accomplishments reports to comply with the requirements of the Tahoe Science Program. Proposals must account for these reports in the project budgets and timelines. A final progress report showing all tasks complete and a final accomplishments report must be submitted along with the final project report and/or products. The final invoice and the final federal financial report (SF-425) must be submitted within 90 days of the Pacific Southwest Research Station agreement end date. No cash reports are required. No progress reports are required. Financial expenditures reporting is required. SF-425. Performance monitoring is not applicable.

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

CRITERIA FOR SELECTING PROPOSALS:

Grants must address planning, construction, or monitoring of projects identified in the Tahoe Regional Planning Agency environmental improvement program (EIP). Projects submitted from this list are selected based on the annual priority list provided by the eligible local governments, and direction provided in the LTRA: 1) The total amounts appropriated for payments under this subsection shall be allocated by the Secretary of Agriculture based on the relative need for and merits of projects proposed for payment under this section. 2) To the maximum extent practicable, for each fiscal year, the Secretary of Agriculture shall ensure that each political subdivision in the Lake Tahoe basin receives amounts appropriated for payments under this subsection.

The Pacific Southwest Research Station (PSW) will complete an administrative review of all submitted proposals to ensure that proposal specifications as outlined in the Request for Proposals are met. Proposals passing the administrative review will be forwarded to the Tahoe Science Consortium (TSC). The TSC will coordinate technical reviews of the proposals. Proposals passing technical review will be forwarded to Tahoe Basin agency personnel for relevancy reviews. The TSC will coordinate a synthesis of the results from the technical reviews and agency relevancy reviews to create a list of proposals recommended for funding. PSW will review the suite of recommended proposals to finalize funding allocations; proposals recommended for funding are not guaranteed funding due to constraints on funding allocations. Final funding allocations for recommended proposals will be determined by the number of projects recommended for funding and individual project budgets. Some projects may be identified as alternates to receive support should funds become available during the negotiation of awards. PSW reserves the right to

negotiate scopes of work, budget amounts, and deliverables with Principal Investigators based upon feedback from the review process and to comply with Forest Service policies. Projects may be required to modify their proposed indirect cost rates and/or demonstrate cost share contributions. Once the recommendations and funding allocations have been finalized, PSW will forward the package of recommended projects to the Tahoe Regional Executive Committee (TREX) and to the Bureau of Land Management (BLM) for final approval.

10.699 PARTNERSHIP AGREEMENTS

Partnership Agreements

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Cooperative Funds and Deposits Act of December 12, 1975, Public Law 94-148, 16 U.S.C 565a1 a3; Interior and Related Appropriations Act of 1992 (Challenge Cost-Share Authority) , Public Law 102-154; Federal Technology Transfer Act of 1986, Public Law 96-480, 15 U.S.C 3710a; National Agricultural Research, Extension, and Teaching Policy Act of 1977, Public Law 95-113, 7 U.S.C 3318 - 3319a; Wyden Amendment , Public Law 105-277, Sec 323, 16 U.S.C 565a-1; Public Land Corps Healthy Forests Restoration Act of 2005, Public Law 109-154, 16 U.S.C 1701.

OBJECTIVES:

To increase participation by partners in all authorized Forest Service programs and activities.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Partnership agreements and cooperative agreements are entered into in support of the U.S. Forest Service's mission. The U.S. Forest Services mission is to sustain the health, diversity, and productivity of the nations forests and grasslands to meet the needs of present and future generations. The agency manages 193 million acres of public land, provides assistance to state and private landowners, and maintains the largest forestry research organization in the world.

The U.S. Forest Service may approach or be approached by a potential partner to enter into a partnership agreement that results in a joint accomplishment of work benefiting both organizations. The principal purpose of partner agreements is the creation of partnerships in support of projects of mutual interest and mutual benefit to each party. Partnership agreements are considered non-assistance agreements and are not considered grants or cooperative agreements as those terms are used in the Federal Grants and Cooperative Agreements Act, 31 U.S.C. 6301 et seq.

The principal purpose of partner agreements is the creation of partnerships in support of projects of mutual interest and mutual benefit to each party. Mutual interest exists when both parties benefit in the same qualitative way from the objectives of the agreement. If one party independently has an interest in a project that is shared by the other party, and both parties pool resources to obtain the end result of the project, mutual interest exists. Most of authorities requires a mutual interest agreement.

Applicant Eligibility:

The Forest Service partners with non-profits; for-profit; institutions of higher education; federal, state, local, and Native American tribe governments; individuals; foreign governments and organizations.

Beneficiary Eligibility:

The Forest Service has partnership authorities to enter into agreements and cooperative arrangements with willing members of the public, which include but are not limited to, for profit; non-profits; institutions of higher education; federal, state, local, and Native American tribe governments; foreign governments and organizations.

Credentials/Documentation:

The partner must maintain current information in the System for Award Management (SAM) until receipt of final payment. This requires review and update to the information at least annually after the initial registration, and more frequently if required by changes in information. System for Award Management (SAM) means the Federal repository into which an entity must provide information required for the conduct of business as a Cooperative. Additional information about registration procedures may be found at the SAM Internet site (currently at <https://www.sam.gov>).

Also, the partner must immediately inform the U.S. Forest Service if they or any of their principals are presently excluded, debarred, or suspended from

entering into covered transactions with the Federal Government according to the terms of 2 CFR Part 180. Additionally, should the partner or any of their principals receive a transmittal letter or other official Federal notice of debarment or suspension, they shall notify the U.S. Forest Service without undue delay. This applies whether the exclusion, debarment, or suspension is voluntary or involuntary. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

The U.S. Forest Service may approach or be approached by a potential partner to enter into a partnership or cooperative agreement. Any party may initiate discussions to enter into an agreement. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. A partnership agreement is not considered a procurement contract under the Federal Acquisition Regulations (FAR) or a grant as that term is used in the Federal Grants and Cooperative Agreements Act, 31 U.S.C. 6301 et seq. Partnership agreements do not incorporate 2 CFR Part 200 into the terms of the agreement. A partnership agreement is a mutually binding legal relationship between two or more parties creating obligations that are enforceable or otherwise recognizable at law.

Partnership agreements do not require competition as the partner is required to provide a contribution or match to the agreement. Contributions are necessary to meet the intent and requirements of mutual interest mutual benefit partnership as stated in the authorizing authority provided to the U.S. Forest Service by Congress. Contributions from either party may include cash, services, in-kind contributions, donation of equipment, volunteer labor, and so forth.

Award Procedure:

Partnership agreements and their supporting documentation are both negotiated and drafted in collaboration with prospective partners prior to entering into an agreement. Discussions cover at a minimum, the appropriate statutory authority; a description of the project, including methodology and technical specifications; contributions and the responsibilities of the parties; financial plan; the period of performance; monitoring and accomplishments reporting. Regardless of who initiates discussions, all elements of a project are subject to negotiation. Any party may terminate the agreement at any time.

Except for provisions necessary for legal compliance, all elements of a partnership agreement are subject to negotiation and modification. Both parties are expected to negotiate, resolve, and document differences in cost and/or proposed work in writing. Any party may terminate the agreement at any time. None of the parties should perform work outside the scope of the existing instrument or in excess of the funding prior to the execution of a modification.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Modification and extensions of agreements are subject to project requirements and available resources.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: For partnership agreements, the partners contribution should not be less than 20 percent. The partner may satisfy the matching requirement by providing cash, real or personal property, services, and/or in-kind contributions, such as volunteer labor. The only exception to the matching requirement is for agreements that take place primarily outside of National Forest System lands that cite the Wyden Authority. Contributions on

these agreements are negotiable and may require competition.

There is no matching requirement for Forest Service Research & Development's Cost-Reimbursable Agreements.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Partnership Agreements may last up to a maximum of 5 years. See the following for information on how assistance is awarded/released: Payment is generally made on a reimbursement basis. Cash advances are limited to agreements citing P.L. 94-148. Cooperator cash advances are limited to the minimum amount needed to perform anticipated activities or no more than is needed for a 30-day period, whichever is less.

10.701 STEWARDSHIP AGREEMENTS

Stewardship End Result Contracting

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

The Agricultural Act of 2014., Public Law 113-79, 16 U.S.C 8205.

OBJECTIVES:

Stewardship End Result Contracting authorizes use of contracts and agreements to help achieve land management goals while meeting local and rural community needs, including contributing to the sustainability of rural communities and providing a continuing source of local income and employment. It focuses on the end result ecosystem benefits and outcomes, rather than on what's removed from the land.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The general purpose of stewardship contracting is to achieve land management goals for National Forest System lands while meeting local and rural community needs. A stewardship contract or agreement should be used when it is the most effective tool for accomplishing land management objectives.

Stewardship agreements are awarded on a best approach determination that takes into account a technical and cost evaluation. Stewardship agreements typically include the exchange of goods (such as forest products) for services, use of retained receipts, or a combination of both. Use of stewardship agreements requires that mutual interest and mutual benefit between the Forest Service and the partner exist in the same qualitative way. All stewardship projects must comply with the National Environmental Policy Act (NEPA). Stewardship projects must be consistent with plans relevant to the project, including: land and resource management plans; range allotment plans; fire management plans; and facilities master plans. All projects must comply with applicable laws, regulations, and agency direction affecting the project areas, including those addressing wilderness areas, endangered species, clean air and clean water, inventoried roadless areas, minimum road system (36 CFR 212.5(b)/FSM 7710.3), designations for motor vehicle use (36 CFR 212.56), and any other requirements for designated special areas. All contracts and agreements must comply with applicable laws, regulations, and agency direction. All stewardship projects must comply with the National Environmental Policy Act (NEPA). Stewardship projects must be consistent with plans relevant to the project, including: land and resource management plans; range allotment plans; fire management plans; and facilities master plans.

All projects must comply with applicable laws, regulations, and agency direction affecting the project areas, including those addressing wilderness areas, endangered species, clean air and clean water, inventoried roadless areas, minimum road system (36 CFR 212.5(b)/FSM 7710.3), designations for motor vehicle use (36 CFR 212.56), and any other requirements for designated special areas. All contracts and agreements must comply with applicable laws, regulations, and agency direction.

Applicant Eligibility:

The Forest Service may enter into stewardship agreements with any entity that has the ability to either perform the work or contract it out. This can include, state and local governments, Federally recognized tribes and non-profit organizations.

Appropriate Stewardship Activities include (but are not limited to):
Road and trail maintenance or obliteration to restore or maintain water quality;
Soil productivity, habitat for wildlife and fisheries or other resource values;
Setting of prescribed fires to reduce wildfire hazards, improve the composition, structure, condition, and health of forest stands, or to improve wildlife habitat;
Removing vegetation or other activities to promote healthy forest stands, reduce wildfire hazards, or achieve other land management objectives;
Watershed restoration and maintenance;
Restoration and maintenance of wildlife and fish habitat;
Control of noxious and exotic weeds and reestablishment of native plant species.

Beneficiary Eligibility:

Stewardship Agreements should not be used for:
Forest Service overhead costs;
Forest Service salaries for contract/agreement development, preparation, or

administration;
Project planning or environmental analysis;
Construction of administrative facilities or major developed facilities;
Utilization of forage within an allotment that could be authorized through a grazing permit;
Protection, operation, or maintenance of improvements resulting from stewardship projects;
Research;
Preparation and planning of administrative studies;
Land Acquisition.

Credentials/Documentation:

When negotiating Stewardship Agreements, the discussions must cover at a minimum, a description of the project, including methodology and technical specifications; both parties contributions; the responsibilities of the parties; deliverables, reporting requirements; the period of performance; and monitoring. Regardless of who initiates discussions, all elements of a project are subject to negotiation at any time.

The Forest Service will provide the partner, at a minimum, a map of the stewardship project area, a description of work to be accomplished; the desired outcome (end results) and the environmental analysis documents. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. When negotiating Stewardship Agreements, there are a number of resource activities to consider. The Forest Service will provide to the partner the necessary resource information in order to complete the technical proposal and any potential bid packages. The technical proposal will be submitted to the Forest Service for joint review and approval.

If timber will be removed, the Forest Service will provide the timber sale appraisal, end result work statements, and specifications similar to the A section of a timber sale contract, identified as Appendix E in the Stewardship Agreement.

If there is a technical component to the project the Forest Service will describe the desired end results and/or provide specifications to accomplish the work.

Throughout this process, the Forest Service and partner are communicating to work out the details to accomplish the project.

Award Procedure:

Stewardship projects are typically developed in a collaborative process between the Forest Service and stakeholders and approved by a regional forester or forest supervisor prior to execution of a Stewardship Agreement. A stewardship project may include one or many land management activities affecting areas from a few acres in size up to one or more watersheds. Many stewardship projects may be completed by a partner throughout the life of the (master) agreement.

In order to use a stewardship agreement, a few elements must exist: the regional forester must approve the stewardship proposal submitted by the national forest unit; mutual interest and mutual benefit between the Forest Service and the partner exist in the same qualitative way; and both parties are contributing to the project to achieve mutually beneficial results.

Retained receipts generated from stewardship projects can only be used on the same or other stewardship projects. We can use appropriated funds and retained receipts to accomplish stewardship activities with an emphasis on restoration, product removal is not required. Monitoring and support should be an integral part of the collaborative process when deciding which projects to pursue using retained receipts.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Other - Not Specified.

Appeals:

Not Applicable.

Renewals:

Stewardship agreements may be in place for up to 10 years; and may use retained receipts from other stewardship projects to accomplish work.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Percent: 20%. Stewardship agreements are expected to have a 20 percent partner match. However, the Partner is only required to match at least 20 percent of the Total Federal Share column in the Stewardship FP tab of the stewardship agreement financial plan. The partner is not required to match the value of the Forest Product (Goods) for services tab in the financial plan. In the event of a low value of match and a high value of goods for services the Line Officer should carefully consider whether the project is better suited to a competitively awarded stewardship contract instead of a stewardship agreement.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Stewardship agreements may be in place for a period of up to 10 years. See the following for information on how assistance is awarded/released:

Reimbursable payments are the standard, but advance payments are permitted on a case-by-case basis and the Partner must justify the need. Advances are limited to the minimum amount needed or no more than is anticipated for the next 30 days.

Reports:

No program reports are required. No cash reports are required. No progress reports are required. If the partner is requesting reimbursement, the partner should include on the invoice the actual costs incurred, not to exceed the maximum allowed by the pre-determined unit rate based on units completed. If costs come in above the maximum allowable rate, the partner must make up the difference in the amount. The total costs listed on the financial plan crosswalk per service item is the cap for that item and payments are made on a per invoice basis. Reimbursement is not made at an average or annual rate and frequency of billing should be outlined in the terms of the agreement. Program reporting (monitoring) should be submitted by the partner no less than annually and no more than quarterly based on the negotiated terms of the agreement.

Audits:

No audits are required for this program.

Records:

The partner should retain all records for a period of no less than three years from the expiration or termination date of the agreement. Records include books, documents, accounting procedures and practice, and other data, regardless of the type or format.

If any litigation, claim, negotiation, audit, or other action involving the records has been started before the end of the 3-year period, the records must be kept until all issues are resolved, or until the end of the regular 3-year period, whichever is later.

Records for nonexpendable property acquired in whole or in part, with Federal funds shall be retained for 3 years after its final disposition.

Cooperative Fire Protection Agreement

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Reciprocal Fire Protection Act of May 27, 1955, as amended, 42 U.S.C 1856.

OBJECTIVES:

To allow collaborative agreements with fire organizations to improve efficiency by facilitating the coordination and exchange of personnel, equipment, supplies, services, and funds among the parties in sustaining wildland fire management activities, such as prevention, preparedness, communication and education, fuels treatment and hazard mitigation, fire planning, response strategies, tactics and alternatives, suppression and post-fire rehabilitation and restoration.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Cooperative Fire Protection Agreements as authorized by statute allow the Forest Service to enter into non-assistance cooperative agreements with fire organizations to provide wildland fire protection and to perform approved severity activities. Wildland fire protection activities include, but are not limited to: prevention, detection, suppression, training, aviation, wildland fire use, and fuels management. Agreements authorize coordination among fire organizations for these activities, and document the coordination among the parties, ensuring maximum protection of resources.

Applicant Eligibility:

The Forest Service may enter into Cooperative Fire Protection Agreements with a fire organization. The term fire organization means any governmental entity or public or private corporation or association maintaining fire protection facilities within the United States, its Territories and possessions, and any governmental entity or public or private corporation or association which maintains fire protection facilities in any foreign country in the vicinity of any installation of the United States. The Forest Service is charged with the duty of providing fire protection for any property of the United States and is authorized to enter into a reciprocal agreement, with any fire organization maintaining fire protection facilities in the vicinity of such property, for mutual aid in furnishing fire protection for such property and for other property for which such organization normally provides fire protection.

Beneficiary Eligibility:

Forest Service enters into non-assistance cooperative agreements with willing fire organizations for the purpose of cooperation in the performance of wildland fire protection projects and during wildfires, emergencies and/or disasters.

Credentials/Documentation:

Non-assistance cooperative agreements under this CFDA description are neither procurements for the direct benefit or use of the Federal government nor are they Federal assistance instruments (i.e., Grant or Cooperative Agreement) where the primary purpose of the relationship is to accomplish a public purpose of support or stimulation. Non-assistance cooperative agreements under this CFDA do not incorporate by reference Federal financial assistance regulations found in 2 CFR Part 200 section A through F, relating to the Uniform Administrative Requirements and Cost Principles, as implemented by USDA regulations 2 CFR Part 400 and do not incorporate by reference procurement regulations. Cooperative Fire Protection Agreements are exempt from the Federal Grants and Cooperative Agreements Act of 1977 (FGCA) by OMB waiver dated March 4, 1981. Regardless of who initiates discussions, all elements of a project are subject to negotiation. Any party may terminate discussions at any time. Each such agreement shall include a waiver by each party of all claims against every other party for compensation for any loss, damage, personal injury, or death occurring in consequence of the performance of such agreement.

Any such agreement may provide for the reimbursement of any party for all or any part of the cost incurred by such party in furnishing fire protection for or on behalf of any other party. The U.S Forest Service may only provide reimbursable payments to its cooperators. Cash advances are not allowed due to statutory restrictions. Cooperators that seek reimbursement for indirect costs

The maximum term on all loans is 40 years. However, no repayment period will exceed any statutory limitation or the organization's borrowing authority or the useful life of the improvement or facility to be financed. There are currently three interest rates for direct loans: (1) a poverty rate that is 60 percent of the market rate, (2) an intermediate rate that is 80 percent of the market rate, and (3) a market rate. The poverty interest rate will not exceed 5 percent per year. The poverty rate may apply when the loan is required to meet health or sanitary standards and the median household income (MHI) of the service area is below the poverty line or 80 percent of the statewide nonmetropolitan MHI, whichever is greater. The intermediate rate applies when the MHI of the service area is not more than 100 percent of the statewide nonmetropolitan MHI, and the poverty rate does not apply. The market rate applies when neither the poverty rate nor intermediate rate is applicable. The interest rate on guaranteed loans is negotiable between the applicant and the lender.

, Title XII, Part Subtitle D, Public Law 99-198, 16 U.S.C 3830.

OBJECTIVES:

To provide funding to eligible entities to purchase conservation easements to limit conversion to non-agricultural uses of farm and ranch lands that contain prime, unique, or important soils; that contain historical and archaeological resources; or that support the policy of a state or local farmland protection program.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

Funds are provided to purchase conservation easements in partnership with States, Tribes, or local government entities, or eligible nongovernmental organizations (eligible entities). The Federal share for any easement acquisition is limited to a maximum of 50 percent of the appraised fair market value of the conservation easement. A conservation plan is required for highly erodible lands enrolled under an FRPP easement. Conservation easements are perpetual easements. A right of enforcement is incorporated in the conservation easement deed for the protection of the Federal investment. A failure of title would require the eligible entity to reimburse the United States for the Federal share of the easement value.

Applicant Eligibility:

An eligible entity was any local or State agency, county or groups of counties, municipality, town or township, soil and water conservation district, or Indian tribe or tribal organization, that has a farmland protection program that purchases conservation easements for the purpose of protecting agricultural use and related conservation values by limiting conversion to non-agricultural uses

of land, and that has pending offers. This program was available in all 50 States, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Mariana Islands, and the Trust Territories of the Pacific Islands. The program was repealed by the Agricultural Act of 2014 effective February 7, 2014. No new enrollments are authorized after that date.

Beneficiary Eligibility:

Landowners must be in compliance with the Wetland Compliance (WC) and Highly Erodible Land (HEL) provisions of the Farm Bill and met the Adjusted Gross Income (AGI) limitations in the Farm Bill.

Credentials/Documentation:

Entities must prove their eligibility by providing documents indicating their commitment to long-term conservation of agricultural lands through legal devices, such as right-to-farm laws, agricultural districts, zoning, or land use planning; uses of voluntary approaches to protect farmland from conversion to non-agricultural uses; and their capability to acquire, manage, and enforce conservation easements. Programs must have a systematic plan for acquiring conservation easements, have a proven commitment to agricultural land protection, and sufficient funds and staff to monitor and enforce conservation easements. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Entities must submit an application form and supporting data for each parcel to the appropriate State Office of the Natural Resources Conservation Service (NRCS). Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.

Award Procedure:

10.920 GRASSLAND RESERVE PROGRAM (GRP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985 This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date. , Public Law 199-198.

OBJECTIVES:

To assist landowners and operators in restoring and protecting eligible grazing lands, including rangeland, pastureland and certain other lands through rental contracts and easements.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

GRP easements and rental contracts are emphasize support for working grazing lands. Easements and rental contracts (1) permit grazing on the land in a manner that is consistent with maintaining the viability of the native and natural grass, shrub, forest, and wildlife species adapted to the locality; (2) permit haying, mowing, or harvesting for seed production, except during the nesting and brood-rearing seasons for birds in the area that are in significant decline; (3) allow for fire rehabilitation and construction of firebreaks, fences, watering facilities and practices that protect and restore the grasslands functions and values; and (4) prohibit the production of row crops, fruit trees, vineyards, or any other agricultural commodities. Both easements and rental contracts require

that the land is managed to maintain the viability of the plant community as described in the conservation or grazing management plan.

Applicant Eligibility:

GRP is available on privately owned lands. Eligible land includes grassland, land that contains forbs, or shrubs, including rangeland and pasture land; or land that is located in an area that has historically been dominated by grassland, forbs, and shrubs; and has potential to provide habitat for animal or plant populations of significant ecological value. Incidental lands, in conjunction with eligible land, may also be considered for enrollment to allow for the efficient administration of an easement or rental contract.

Beneficiary Eligibility:

Only landowners may submit applications for easements; landowners and others who have general control of the acreage may submit applications for rental contracts. Easements may also be acquired by eligible entities based on a 50 percent cost-share with the Federal government. Eligible entities are defined as units of State, local or Tribal government or nongovernmental organizations that have a charter describing a commitment to conserving ranchland, agricultural land, or grassland for grazing and conservation purposes. All participants are subject to the Adjusted Gross Income Provision set forth in 7 CFR Part 1400.

Credentials/Documentation:

Eligible entities must demonstrate relevant experience and resources to administer a GRP easement. Its charter or mission describes its long term commitment to conserving ranchland, agricultural land, or grassland for grazing and conservation purposes. NRCS evaluates an entities' capacity to acquire, manage and enforce easements; its staffing and the ability of an entity to provide matching funds before entering into a cooperative agreement. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

USDA established criteria to evaluate and rank applications for easement and rental contract enrollment. Ranking criteria emphasized support for high quality grasslands and shrublands; grazing operations; plant and animal biodiversity; and grasslands under threat of conversion to cropping or development. Individual project selection was made by State level USDA officials. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.

For GRP acquisitions made through a Cooperative Agreement, each eligible entity is required to provide, in cash, at least 50 percent of the purchase price of the conservation easement. Purchase price is defined as the appraised fair market value minus any landowner

donation. The landowner donation is not a cash donation, but is merely the reduction in value the landowner will accept as payment for the sale of the conservation easement. Each eligible entity is required to fund its own administrative costs in acquiring easements, such as surveys, appraisals, deed preparation, title searches, and costs incurred in restoring, managing and enforcing the easements.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

HFRP restoration agreements and easements are designed for working Agricultural lands. HFRP is a voluntary program to assist landowners in restoring, enhancing and maintaining forest ecosystems on private lands through easements, contracts and restoration agreements. Easements, contracts, and restoration agreements shall be maintained in accordance with HFRP goals and objectives for the duration of the restoration agreement and easement including the restoration, protection, enhancement, maintenance, and management of habitat for listed species within a forest ecosystem's functions

and values. For the duration of its term, the easement shall require, at a minimum, that the landowner, and the landowner's heirs, successors and assigns, shall cooperate in the restoration, protection, enhancement, maintenance, and management of the land in accordance with the easement and with the terms of the HFRP restoration plan. In addition, the easement shall grant to the United States, through the NRCS: a right of access to the easement area; the right to permit compatible uses of the easement area, if such use is consistent with the long-term protection and enhancement of the purposes for which the easement was established; the right to determine compatible uses on the easement area and specify the amount, method, timing, intensity and duration of the compatible use; the rights, title and interest to the easement area as specified in the conservation easement deed; and the right to perform restoration, protection, enhancement, maintenance, and management activities on the easement area. The landowner shall convey title to the easement which is acceptable to the NRCS. The landowner shall warrant that the easement granted to the United States is superior to the rights of all others, except for exceptions to the title which are deemed acceptable by the NRCS.

Applicant Eligibility:

To be eligible to enroll an easement or restoration agreement in the HFRP, a person must: be the landowner of eligible private land for which enrollment is sought; agree to provide such information to the Natural Resources Conservation Service (NRCS) as the Agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes.

Preapplication Coordination:

Any owner meeting eligibility criteria may submit an application for participation. Applications are accepted in local USDA Service Center Offices during announced enrollment sign-up periods. USDA will establish criteria to evaluate and rank applications for easement and restoration agreement enrollment, criteria will be detailed in the sign-up notice. NRCS will identify through a sign-up notice process the geographic scope and ranking priorities for that particular sign-up. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200 applies only to the program activities implemented through a cooperative agreement.

Award Procedure:

NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment which is offered by NRCS. The easement payment may or may not equal the fair market value of the interests and rights to be conveyed by the landowner under the easement. By voluntarily participating in the program, a landowner waives any claim to additional compensation based on fair market value.

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 September 30) based on funding availability.

Financial assistance for easement acquisition is provided at closing. For restoration agreements, payments are made annually on the agreement anniversary date of USDA approval. For easements, contracts, and restoration agreements, if restoration activities are required, financial assistance for such activities is provided when required practices are established. Technical assistance is available for the length of the easement or restoration agreement. EWP cannot solve problems that existed before the disaster or to improve the level of protection above that which existed before a disaster. It cannot fund operation and maintenance work or repair private or public transportation facilities or utilities. The work cannot adversely affect downstream water rights and funds cannot be used to install measures not essential to the reduction of hazards. Award Procedure:

Project sponsors seeking EWP assistance must apply to the STC in writing within 60 days of the natural disaster occurrence. Project sponsors may use SF 424 Application for Federal Assistance but must ensure that following information is provided: (1) A description of the problems encountered; (2) Assistance needed, including the following: Nature of the problem; Location; Scope of the problem; Commitment by the sponsor to assume the following responsibilities: local cost-share; Land rights; acquisition; Permits; Operations and Maintenance (O and M), A statement indicating that funds have either been exhausted or are insufficient to provide adequate recovery measures from the applicable hazards; A statement identifying any other State or Federal funding received or application submitted. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. Before the release of financial assistance, NRCS will enter into a Cooperative Agreement with a sponsor that specifies the responsibilities of the sponsor under this part, including any required operation and maintenance responsibilities. NRCS will not provide funding for activities undertaken by a sponsor prior to the signing of the agreement between NRCS and the sponsor.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

10.904 Watershed Protection and Flood Prevention

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

EWP projects are eligible when it is determined that the current condition of the land or watershed impairment poses a threat to health, life, and property. Assistance includes EWP practices that provide runoff retardation and soil erosion prevention, safeguard lives and property, and relieve an imminent threat that is a result of a sudden impairment of a watershed due to a natural disaster.

10.924 CONSERVATION STEWARDSHIP PROGRAM

Conservation Stewardship Program (CSP)

FEDERAL AGENCY:

AUTHORIZATION:

Title XII, subtitle D, chapter 2, subchapter B of the Food Security Act of 1985, 16 USC 3838d-3838g, as added by Section 2301 of the Food, Conservation, and Energy Act of 2008, Pub. L. 110-246. Section 2101 of the Agricultural Act of 2014 re-authorized the Stewardship Program and made minor adjustments to its administration.

OBJECTIVES:

Through CSP, NRCS provides financial and technical assistance to eligible producers to conserve and enhance soil, water, air, and related natural resources on their land. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest lands, agricultural land under the jurisdiction of an Indian tribe, and other private agricultural land (including cropped woodland, marshes, and agricultural land used for the production of livestock) on which resource concerns related to agricultural production could be addressed. Participation in the program is voluntary. CSP encourages land stewards to improve their conservation performance by installing and adopting additional activities, and improving, maintaining, and managing existing activities on agricultural land and nonindustrial private forest land. The NRCS will make CSP available nationwide on a continuous application basis.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CSP is available on Tribal and private agricultural lands, as well as nonindustrial private forest lands in all 50 States, the District of Columbia, and the Caribbean and Pacific Islands Areas. The entire operation must be enrolled and must include all eligible land that will be under the applicant's control for the term of the proposed contract that is operated substantially separate from other operations. Land enrolled in the Conservation Reserve Program (7 CFR part 1410), a Wetlands Reserve Easement through the Agricultural Conservation Easement Program, and the Conservation Security Program (CFR part 1469) are ineligible for CSP. Eligibility is limited to private agricultural land; as such, land that is owned by a Federal, State, or local unit of government, with the exception of agricultural land under the jurisdiction of an Indian Tribe, is ineligible, regardless of the status of the operator. Additionally, a participant may not receive payment for land used for crop production after February 7, 2014, that had not been planted, considered to be planted, or devoted to crop production for at least four of the six years preceding that date, unless the land was: previously enrolled in the Conservation Reserve Program; maintained using long-term rotations, such as hayland in rotation; or incidental to the operation but needed for the efficient management of the operation. An example of land considered incidental to the operation that may be eligible for payment is land that had once been used for buildings and is now being used for crop production to square up a cropland field.

Applicant Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe. As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold.

Beneficiary Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the

jurisdiction of an Indian tribe. As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold.

Credentials/Documentation:

The participant must have control of the land offered for the length of the contract period. NRCS requires all program payments be made by direct deposit unless the participant requests a waiver as described in 31 CFR Part 208.4, paragraph (a). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13). An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

Once applicant and land eligibility are determined, the NRCS field office will assist the producer with completing the resource inventory to determine if the stewardship threshold requirement is met, rank applications, and establish payments. Applicants will be ranked relative to other applicants who face similar resource challenges in State-established ranking pools using ranking scores. For approved applicants, NRCS will conduct on-site field verification to substantiate that conservation activity and production system information represented by the applicant was accurate. After the conservation system information is verified, NRCS and the applicant proceed to develop the conservation stewardship plan and contract. Upon approval, the contract will obligate the participant to achieve a higher level of conservation performance by installing additional activities scheduled in their conservation stewardship plan and to maintain the level of existing conservation performance identified at the time of application.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

A participant may obtain administrative review in accordance with 7 CFR parts 11 and 614 for an adverse decision. Participants cannot appeal payment rates, payment limits, and cost-share percentages, eligible conservation practices, or other matters of general applicability. Before a participant can seek judicial review, the participant must exhaust all administrative appeal procedures.

Renewals:

At the end of an initial conservation stewardship contract, NRCS will allow a participant to renew the contract to receive payments for one additional five year period, subject to the availability of funds. To be considered for contract renewal, the participant must be in compliance with the terms of their initial contract as determined by NRCS; add any newly acquired eligible land that is part of the agricultural operation and meets minimum treatment criteria as established and determined by NRCS; meet stewardship thresholds for additional priority resource concerns as determined by NRCS; and agree to adopt conservation activities as determined by NRCS.

Formula and Matching Requirements:

Statutory Formula: Subject to the availability of funds, NRCS will offer participants two potential types of payment. As outlined in 1470.24 (a) , an

annual payment will be made for installing and adopting additional conservation activities, and improving, maintaining, and managing existing activities. A supplemental payment can also be made to a participant receiving annual payments, who also agrees to adopt a resource-conserving crop rotation. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

NRCS will make payments as soon as practicable after October 1 of each fiscal year for activities carried out in the previous fiscal year. CSP payments to a person or legal entity may not exceed \$40,000 in any year and \$200,000 during any 5-year period. Each CSP contract will be limited to \$200,000 over the term of the initial contract period. The above limitations exclude funding arrangements with federally recognized Indian tribes or Alaska Native corporations. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Cash reports are not applicable. The Designated Conservationist will review contract implementation with the participant annually. Annual reviews will be completed early enough in the year to allow for completion of any necessary corrective actions prior to issuance of the annual payment. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Recipients are subject to audit by the Office of Inspector General, USDA.

Records:

As stipulated in 1470.6 (a), the applicant must make available to NRCS upon request appropriate records documenting applied conservation activity and production system information. NRCS will request records when conducting field verification with pre-approved applicants. The designated conservationist does not need to collect, store, or re-calculate the data contained in the applicants records, but instead will examine the field conditions and records to determine whether or not they substantiate the resource inventory information provided by the applicant during the application process.

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

The Food Security Act of 1985. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date. , Public Law 99-198.

OBJECTIVES:

The Chesapeake Bay Watershed Program (CBWP) helps agricultural producers improve water quality and quantity, and restore, enhance, and preserve soil, air, and related resources in the Chesapeake Bay Watershed through the implementation of conservation practices. These conservation practices reduce soil erosion and nutrient levels in ground and surface water; improve, restore, and enhance wildlife habitat; and help address air quality and related natural resource concerns. CBWP encompasses all tributaries, backwaters, and side channels, including their watersheds, draining into the Chesapeake Bay.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Natural Resources Conservation Service (NRCS), an agency of the United States Department of Agriculture, uses CBWP funds to enter into contracts with eligible producers to share the costs of the applicable conservation treatment on agricultural lands in the Chesapeake Bay Watershed. NRCS provides payments for approved conservation practices and systems and land use adjustments within a time schedule specified by the conservation plan. The CBWP contracts may be modified to increase funds provided the increased cost is the result of a valid contract modification within the original contract scope and intent. The modification must follow the rules of the conservation program used to apply the conservation treatment.

Applicant Eligibility:

Only agricultural producers owning or operating within the Chesapeake Bay Watershed are eligible to participate in CBWP. In addition, NRCS applies the eligibility requirements of the particular natural resource program used to implement CBWP (e.g., the Environmental Quality Incentives Program (EQIP) (16 U.S.C. 3839aa et seq.), the Wildlife Habitat Incentives Program (WHIP) (16 U.S.C. 3839bb-1)). Limited resource producers, small-scale producers, beginning farmers and ranchers, socially-disadvantaged producers, and federally recognized Indian tribes are encouraged to apply.

Beneficiary Eligibility:

To be eligible, the agricultural producers must be in compliance with highly erodible land and wetland conservation provisions at 7 CFR part 12, and in compliance with the Adjusted Gross Income (AGI) payment limitations at 7 CFR part 1400.

Credentials/Documentation:

Evidence that applicant has control over land to be entered into contract and submits an acceptable conservation plan for the farm or ranch unit of concern that incorporates needed natural resource conservation practices and provide either a social security number or individual tax identification number of all proposed beneficiaries. Applicants claiming either limited resource producer or beginning farmer classification may be asked to provide documents to justify their claim. This program is excluded from coverage under 2 CFR 200, Subpart

E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.

Program participation is voluntary. The applicant applies to NRCS at the local USDA Service Center on Form NRCS-CPA-1200. Applications may be filed at any time during the year. The participant develops a CBWP plan of operations that identifies what conservation practices they are proposing to implement. Technical assistance and conservation payments may be provided to apply needed conservation practices and land use adjustments within a time schedule specified by the conservation CBWP plan of operations. A contract with a participant may apply one or more land management practices or one or more structural practices.

Award Procedure:

This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.

NRCS applies the ranking and selection requirements of the particular natural resource program used to implement CBWP (e.g., EQIP, WHIP). NRCS will give special consideration to applicants that address priority natural resource concerns designated. Applications will be periodically ranked and selected for funding based on locally developed ranking process. Limited resource producers, socially-disadvantaged producers and beginning farmers and ranchers may be eligible for payments up to 90 percent of the approved practice cost. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The objective of the EWP Program is to assist sponsors, landowners, and operators in implementing emergency recovery measures for runoff retardation and erosion prevention to relieve imminent hazards to life and property created by a natural disaster that causes a sudden impairment of a watershed.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements or Contracts)

USES AND USE RESTRICTIONS:

All EWP work must reduce threats to life and property and must be economically, environmentally, and socially defensible and sound from a technical standpoint. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the U.S. Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services. EWP funds have restrictions. EWP cannot solve problems that existed before the disaster or to improve the level of protection above that which existed before a disaster. It cannot fund operation and maintenance work or repair private or public transportation facilities or utilities. The work cannot adversely affect downstream water rights and funds cannot be used to install measures not essential to the reduction of hazards. In addition, funds cannot be used to perform work on measures installed by another federal agency.

EWP funds from this appropriation can only be spent on damage recovery projects from Hurricane Sandy, with a Stafford Act Designation. (This means that a certain geographical area was declared a major disaster as a result of a Presidential Declaration). 100% discretionary - emergency supplemental funds.

Applicant Eligibility:

For this appropriation, only applicants affected by Hurricane Sandy and only in those areas declared as a major disaster are eligible for assistance through the EWP program. Public and private landowners are eligible for assistance but must be represented by a project sponsor. Project sponsor means a State government or a State agency or a legal subdivision thereof, local unit of government, or any Native American tribe or tribal organization as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), with a legal interest in or responsibility for the values threatened by a watershed emergency; is capable of obtaining necessary land rights, and permits; and is capable of carrying out any operation and maintenance responsibilities that may be required. Sponsors are also responsible for furnishing the local cost share and for accomplishing the installation of work. Work can be done either through Federal or local contracts.

Beneficiary Eligibility:

None.

Credentials/Documentation:

Sponsors must submit a formal request to the State Conservationist for assistance within 60 days of the natural disaster occurrence, or 60 days from the date when access to the sites becomes available. Requests must include a statement that the sponsors understand their responsibilities and are willing to pay its cost-shared percentage as well as information pertaining to the natural disaster, including the nature, location, and scope of the problems and the assistance needed. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact statement is required for this program. An environmental impact assessment is required for

this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Potential sponsors submit formal requests for assistance to the NRCS state conservationist.

Award Procedure:

Project sponsors seeking EWP assistance must apply to the STC in writing within 60 days of the natural disaster occurrence. Project sponsors may use SF 424 Application for Federal Assistance but must ensure that following information is provided: (1) A description of the problems encountered; (2) Assistance needed, including the following: Nature of the problem; Location; Scope of the problem; Commitment by the sponsor to assume the following responsibilities: local cost-share; Land rights; acquisition; Permits; Operations and Maintenance (O and M), A statement indicating that funds have either been exhausted or are insufficient to provide adequate recovery measures from the applicable hazards; A statement identifying any other State or Federal funding received or application submitted. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. Before the release of financial assistance, NRCS will enter into a Cooperative Agreement with a sponsor that specifies the responsibilities of the sponsor under this part, including any required operation and maintenance responsibilities. NRCS will not provide funding for activities undertaken by a sponsor prior to the signing of the agreement between NRCS and the sponsor.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The EWP program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: Percent: 75%. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the US Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Continues until all EWP Program recovery measures are installed or their installation is terminated by mutual agreement. See the following for information on how assistance is awarded/released: Submission of Form 270 for Payment.

Reports:

No program reports are required. Cash reports are not applicable. Progress reports are due every 60 days on projects of 220 days duration. Cash reports are not applicable. Final reports are prepared for each project within 90 days of completion. A benefit and accomplishment report is prepared for the fiscal year based upon final reports. Expenditure reports are not applicable. Performance monitoring is required and conducted by COTR or GR.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000

or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

CRITERIA FOR SELECTING PROPOSALS:

EWP projects are eligible when it is determined that the current condition of the land or watershed impairment poses a threat to life, health and property. Assistance includes EWP practices that provide runoff retardation and soil erosion prevention, safeguard lives and property, and relieve an imminent threat that is a result of a sudden impairment of a watershed due to a natural disaster.

10.928 EMERGENCY WATERSHED PROTECTION PROGRAM - FLOODPLAIN EASEMENTS DISASTER RELIEF APPROPRIATIONS ACT

EWP-FPE Hurricane Sandy

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 , Public Law 113-2, 127 Stat. 4.

OBJECTIVES:

The Emergency Watershed Protection - Floodplain Easement Program (EWP-FPE) provides an alternative measure to traditional EWP recovery where it is determined that acquiring an easement in lieu of recovery measures is the more economical and prudent approach to reducing a threat to life or property (see 7 CFR Part 624). The easement must be restored to the extent practicable to the natural environment and may include both structural and nonstructural practices to restore the flood storage and flow, erosion control, and improve the practical management of the easement. Structures, including buildings, within the floodplain easement must be demolished and removed, or relocated outside the 100-year floodplain or dam breach inundation area.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

NRCS may bear up to 100 percent of costs related to easement acquisition and related acquisition costs. NRCS will determine easement compensation in accordance with applicable regulation and other law. NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment that is offered by NRCS. NRCS reserves the right not to purchase an easement if the easement compensation for a particular easement would be too expensive, as determined by NRCS. NRCS may provide up to 100 percent of the restoration and enhancement costs of the easement. NRCS may enter into an agreement with the landowner or another third party to ensure that identified practices are implemented. NRCS, the landowner, or other designee may implement identified practices. Restoration and enhancement efforts may include both structural and non-structural practices. An easement acquired under this EWP-Floodplain Easement regulations shall provide NRCS with the full authority to restore, protect, manage, maintain, and enhance the functions and values of the floodplain. EWP-FPE funds from this appropriation can only be spent on eligible Floodplain Easement projects that have suffered damage from Hurricane Sandy and are located within a Stafford Act Designation. (This means that a certain geographical area was declared a major disaster as a result of a Presidential Declaration). 100% discretionary funding - emergency supplemental.

Applicant Eligibility:

For this appropriation, only applicants affected by Hurricane Sandy and only in those areas declared as a major disaster are eligible for assistance through the EWP-FPE program.

Pursuant to 7 CFR 624.10(b)(2), NRCS may determine land is eligible under for EWP-FPE if any of the following apply:

- 1) The floodplain lands were damaged by flooding at least once within the previous calendar year or have been subject to flood damage at least twice within the previous 10 years.
- 2) Other lands within the floodplain are eligible, provided the lands would contribute to the restoration of the flood storage and flow, provide for control of erosion, or that would improve the practical management of the floodplain easement.
- 3) Lands would be inundated or adversely impacted as a result of a dam breach.

NRCS may determine that land is ineligible under this section if any of the following apply:

- 1) Implementation of restoration practices would be futile due to onsite or offsite conditions.
- 2) The land is subject to an existing easement or deed restriction that provides sufficient protection or restoration, as determined by the Chief of NRCS, of the floodplains functions and values.
- 3) The purchase of an easement would not meet the purposes of this part.

Beneficiary Eligibility:

Private and non-federal landowners are eligible for EWP-FPE.

To be eligible for FPE, the NRCS will require participating landowners to

- 1) Comply with the terms of the easement.
- 2) Comply with all terms and conditions of any associated agreement.
- 3) Convey title to the easement that is acceptable to NRCS and warrant that the easement is superior to the rights of all others, except for exceptions to the title that are deemed acceptable by NRCS.

For projects that include parcels with residential dwellings or other structures on nonagricultural lands (such as flood mitigation efforts intended to assist families in moving from flood-prone areas as part of EWP recovery efforts), a local sponsor will be identified and serve as the local cooperating entity for these efforts. A sponsor will be a local or State unit of government (city, county, conservation district, watershed conservancy district, or State agency) that has a local presence and staff available to assist in the implementation of the program.

Credentials/Documentation:

The landowner must provide a copy of the vesting deed to the land. If the landowner is an entity, the entity must provide a list of the individuals who comprise the entity, including the percent of ownership for each individual, to the Farm Service Agency (FSA). The entity must provide documents to FSA

and NRCS that show the entity to be legal and valid in the State and which members have the authority to sign contractual documents on behalf of the entity. If funds are being requested for the purchase of easements on lands with residences or other nonagricultural structures, the State Conservationist (STC) must provide confirmation that the acquisition is part of a strategy that will facilitate the restoration of an entire reach of the floodplain. The relatively high cost of these transactions requires a greater level of documentation that the benefits to the floodplain outweigh the costs. In addition, the STC must provide confirmation that the project sponsor will acquire fee title to the easement area. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

NRCS state offices in impacted states will submit an assessment of potential level of interest in areas with eligible lands. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Landowners may only enroll land in the Emergency Watershed Protection for Floodplain Easements (EWP-FPE) Program through a permanent easement. Landowners apply for the EWP-FPE using the Application for Long-Term Contracted Assistance.

Award Procedure:

- 1) States receive applications, gather landowner information, rank applications, conduct preliminary investigations, and determine land and landowner eligibility
- 2) The STC will list all applications received during the announced signup period in rank order, beginning with the highest-ranked easement first.
- 3) States will submit an Easement Request Package to NHQ that includes documentation of land eligibility, landowner eligibility, and evidence of damage related to Hurricane Sandy.
- 4) Easement Request Packages will be reviewed and project selection will be conducted by the Deputy Chief for Programs.
- 5) Selected applications will be notified, either through an intent to continue letter for projects that will be individually appraised or through the issuance of Option Agreement to Purchase for projects with easement compensation determined through the Area-wide Market Analysis and Geographic Area Rate Cap process.
- 6) When the OATP has been signed by the applicant and the STC, the acres are considered enrolled in the program. At this time, the funds are obligated to the landowner as the vendor for the easement purchase cost only. The landowner may choose to assign all or a portion of the easement acquisition payment to the closing agent through a properly executed assignment of payment provided to NRCS along with the signed OATP.
- 7) The effective period of the OATP may not exceed 12 months from the date of the STCs signature. The effective period may be extended when necessary using the Option Agreement to Purchase Amendment. The STC may delegate, in writing, the authority to sign the OATP (and amendments) to the State program manager. No further delegation of this authority is allowed.

- 1) In addition to the above described activities, for EWP-FPE applications on land with residences or other structures, NRCS will enter into a cooperative or project agreement with the project sponsors prior to the commencing of easement acquisition activities. The agreement must specify the reimbursable tasks to be carried out by the sponsor to expedite the easement acquisition process.
- 2) In order to reduce the administrative burden and easement management cost to NRCS, sponsors are required to purchase the fee simple title from the landowner and enroll properties in a strategic manner that increases the likelihood that the floodplain can be reconnected.
- 3) The FPE warranty easement deed is closed before the fee simple interest is conveyed to the sponsor, unless a different order of recordation is desired by NRCS and authorized by the Office of the General Counsel.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The FPE program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP-FPE Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

EWP Floodplain easements are a long-term solution and exist for perpetuity. After initial eligibility and project selection, easement acquisition phase requires 12 to 18 months on average. Following easement acquisition phase, restoration implementation phase requires 1 to 3 years until all practices are installed and vegetative practices are considered established. Continues until all EWP-FPE Program measures are installed (relocation or demolition of structures and/or floodplain restoration practices). Maintenance and monitoring of floodplain easements continues in perpetuity. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Cash reports are not applicable. Easement milestones include enrollment, closing, recording, restoration completion, and monitoring. These milestones are tracked in the National Easement Staging Tool (NEST). NEST reports will be generated quarterly to track milestones. Expenditure reports are not applicable. Landowners are required to comply with the terms of the easement, comply with all terms and conditions of any associated agreement. Convey title to the easement that is acceptable to NRCS and warrant that the easement is superior to the rights of all others, except for exceptions to the title that are deemed acceptable by NRCS.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The count and condition of closed easements is reported annually in the agency's financial statement pursuant to requirements of the Statements of Federal Financial Accounting Standard 29. 2 CFR 200 applies only to the program activities implemented through a Cooperative Agreement.

10.931 AGRICULTURAL CONSERVATION EASEMENT PROGRAM (ACEP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985, Title XII, Part Subtitle D, Section 1237, Public Law 99-198.

OBJECTIVES:

To establish an agricultural conservation easement program for the conservation of eligible land and natural resources through easements or other interests in the land. The Agricultural Conservation Easement Program (ACEP) is comprised of two components Agricultural Land Easements (ALE) and Wetland Reserve Easements (WRE). The ALE component provides funding to eligible entities to purchase conservation easements to protect the agricultural use and future viability, and related conservation values of eligible land by limiting nonagricultural uses of that land; and to protect grazing uses and related conservation values by restoring and conserving eligible land. The WRE component provides funding to eligible landowners to purchase easements to restore, protect, and enhance wetlands on eligible land.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under the ACEP Wetland Reserve Easements (ACEP-WRE) component eligible landowners may offer farmed wetlands, prior converted wetlands, wetlands farmed under natural condition, former or degraded wetlands on lands that have been used or are currently being used for the production of food and fiber, including cropland, rangeland and forest production land, lands substantially altered by flooding, certain riparian areas, along with certain adjacent areas. The goal of ACEP-WRE is to achieve the greatest wetlands functions and values, along with optimum wildlife habitat on every acre enrolled in the program. Enrollment options include permanent easements, 30-year easements, or easements for the maximum duration allowed under State law, and, for acreage owned by Indian Tribes, 30-year contracts. To be eligible for participation, land must be capable of being successfully and cost-effectively restored to wetlands and associated habitats. For easement projects, landowners shall ensure the easement is superior to the rights of all others and shall agree to implement a wetland restoration plan designed to restore and maintain the easement area. Landowners must agree to a permanent retirement of crop acreage bases, allotments, and quotas to the extent that the sum of the crop acreage bases and allotments will not exceed the remaining cropland on the farm.

Participating landowners receive financial assistance for the purchase of the easement and NRCS shall share the cost of carrying out the establishment conservation measures and practices, and the protection of wetland functions and values including necessary maintenance activities to the extent that the Secretary determines that cost-sharing is appropriate and in the public interest. NRCS provides financial and technical assistance to the landowner or a third party as follows:

Permanent easements: Easement duration is in perpetuity; landowners receive up to 100 percent of the cost of the easement. NRCS provides up to 100 percent of the cost for establishment and maintenance of conservation measures and practices.

30-year easements or maximum duration allowed by State law: Easement duration is 30 years or maximum duration allowed by State law; landowners receive the equivalent of 75 percent of the value for a permanent easement and NRCS provides up to 75 percent of the eligible restoration costs.

30-year contracts: Acreage owned by Indian Tribes can be enrolled through

the use of a 30-year contract which shall be equivalent in value to a 30-year easement. NRCS provides up to 75 percent of the eligible restoration costs. States with an approved Exhibit E may enroll easements with reserved grazing rights. The applicable compensation provided to the landowner for these easements will be reduced by 25%.

For both permanent and 30-year easements, ACEP-WRE pays for all the related costs associated with acquiring and recording the easement including recording fees, charges for title abstracts, surveys, appraisal fees, records searches, and title insurance associated with acquiring an easement. These related costs are generally not paid to participants but are provided directly to the vendor performing the service. Therefore, payments appearing on USDA Spending.gov will be reflective of payments to participants and payments to vendors for services associated with restoration and management activities and administrative costs associated with acquiring and recording an easement.

The Agricultural Lands Easements (ALE) component provides funds to protect the agricultural use, including grazing, and related conservation values of eligible land through cost-share assistance to eligible entities for purchasing agricultural land easements.

The Federal share for ACEP-ALE acquisition is limited to a maximum of 50 percent of the appraised fair market value of the agricultural land easement. For ACEP-ALE projects of special significance, as determined by the Chief, NRCS may waive a portion of the eligible entity cash contribution requirement, subject to an increase in the private landowner donation that is equal to the amount of the waiver, if the landowner donation is voluntary and the property is in active agricultural production. The Chief can determine lands as Grasslands of Special Environmental Significance which authorizes a federal share of up to 75 percent of the fair market value of the agricultural land easement. An agricultural land easement plan is required for all ACEP-ALE easements and a Grasslands Management Plan must be included with all lands enrolled as Grasslands of Special Environmental Significance. ACEP Agricultural Land Easements are perpetual easements or maximum duration allowed by State law. A right of enforcement is incorporated in the conservation easement deed for the protection of the Federal investment. A failure of title would require the eligible entity to reimburse the United States for the Federal share of the easement value.

Applicant Eligibility:

For ACEP-ALE an eligible entity that is an Indian Tribe, State government, local government, or a nongovernmental organization which has a farmland or grassland protection program that purchases agricultural land easements for the purpose of protecting agriculture use and related conservation values, including grazing uses and related conservation values, by limiting conversion to nonagricultural uses of the land, and that has pending offers may apply for funds. This program is available in all 50 States, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Mariana Islands, and the Trust Territories of the Pacific Islands. Individual landowners must apply through the local agency or organization that handles the farmland or grassland protection program.

For ACEP-WRE, private landowners, including individual landowners, partnerships, associations, corporations, estates, trusts, and other business or legal entities, and Indian tribes are eligible to apply.

Beneficiary Eligibility:

All landowners applying for ACEP must be in compliance with the Wetland Compliance (WC) and Highly Erodible Land (HEL) provisions of the Farm Bill and, within the exception of FY2014, meet the Adjusted Gross Income (AGI) limitations in the Farm Bill.

For ACEP-ALE, applications are submitted by an eligible entity who will be the participant in the program.

For ACEP-WRE, only private landowners, partnerships, associations, corporations, estates, trusts, other business or legal entities and, Indian tribes may submit applications for easements.

Credentials/Documentation:

ACEP-WRE - Eligible applicants must be in compliance with the highly erodible land and wetland conservation provisions in 7 CFR part 12 and, except for FY 2014, the Adjusted Gross Income provisions in 7 CFR part 1400. They must be the landowner of the eligible land being offered for participation. For easement applications, the applicant must have owned the land for the 24 month period prior to the time the land is determined eligible for enrollment. Under limited circumstances a waiver of the 24 month ownership period may be granted from the Chief of NRCS.

ACEP-ALE - Eligible entities must provide documents indicating: 1) they have the relevant experience and resources to administer an ALE easement; 2) commitment to long-term conservation of agricultural lands, ranchlands or grassland for grazing or related conservation purposes through legal devices, such as right-to-farm laws, agricultural districts, zoning, or land use planning; 3) use of voluntary approaches to protect farmland from conversion to non-agricultural uses; and 4) their capability to acquire, manage, and enforce conservation easements. NRCS evaluates an entities capacity to acquire, manage and enforce easements; its staffing and the ability of an entity to provide matching funds before entering into a cooperative agreement. If the eligible entity is a nongovernmental organization, they must be: 1) organized for, and at all times since, the formation of the organization and has been operated principally for one or more of the conservation purposes specified in clause (j), (ii), (iii), or (iv) of section 170(h)(4)(A) of the Internal Revenue Code of 1986; 2) an organization described in section 501(c)(3) of that Code that is exempt from taxation under 501(a) of that Code; and 3) described (i) In section 509(a)(1) and (2) of that Code, or (ii) Is described in section 509(a)(3) of that Code and is controlled by an organization described in section 509(a)(2) of that Code. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

All ACEP applicants must submit required documentation as evidence of eligibility. The land itself is evaluated and ranked in accordance with eligibility requirements and ranking criteria developed by NRCS. A programmatic environmental analysis is completed. Individual project selection may be made primarily at the State level by responsible NRCS officials. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. ACEP-ALE - Applications are accepted on a continuous basis by the NRCS State Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of enrollment desired by the applicant (i.e. permanent easement, 30-year easement or maximum allowed by State law). Applications and supporting information requirements for the application can be obtained from the State Offices of the (NRCS) and USDA NRCS home page. See www.nrcs.usda.gov. Select Programs from the menu.

ACEP-WRE - Applications are accepted on a continuous basis by the NRCS State or local Field Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of enrollment desired by the applicant.

Award Procedure:

NRCS will rank parcels individually and award funding to the highest-ranked parcels based on ranking criteria established by NRCS in consultation with the State Technical Committee. The ranking factors are developed based on national and state criteria and priorities. NRCS conducts preliminary due diligence activities on the projects tentatively selected for funding and applicants are provided an offer of enrollment. Projects are enrolled in ACEP through agreements signed by NRCS and the eligible entity under ACEP-ALE or the landowner under ACEP-WRE.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Eligible entity or landowner applications may remain on sign-up list for subsequent funding consideration.

Appeals:

Applicants or participants may appeal certain determinations regarding this program in accordance with 7 CFR Part 614 and Parts 11 and 780.

Renewals:

The land offered may be re-offered in a future sign-up unless land or landowner is ineligible.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: ACEP-ALE NRCS may provide up to 50 percent of the fair market value of the agricultural land easement. An eligible entity will share in the cost of purchasing an agricultural land easement in an amount that is at least equivalent to the Federal share. An eligible entity may include as part of its share a charitable donation or qualified conservation contribution (as defined by section 170(h) of the Internal Revenue Code of 1986) from the landowner if the eligible entity contributes its own cash resources in an amount that is at least 50 percent of the amount of the Federal share. NRCS may authorize a waiver to increase the federal share to 75 percent for grasslands of special environmental significance with respective adjustments to the eligible entity contribution. NRCS may also authorize a waiver of the eligible entity cash contribution requirement for projects of special significance. Each eligible entity is required to fund its own administrative costs in acquiring easements, such as appraisals, surveys, title searches, and costs incurred in managing and enforcing the easements.

ACEP-WRE - Matching Requirements: Lump sum payments for easements valued at \$500,000 or less and the Secretary may provide payments in not more than 10 annual payments. Easements valued at more than \$500,000 the Secretary may provide payments in at least 5, but no more than 10 annual payments, except that, if the Secretary determines it would further the purposes of the program, the Secretary may make a lump-sum payment for such an easement. Payments of up to 100 percent of the easement acquisition cost and cost of implementing the Wetland Restoration Plan will be paid for a permanent easement with up to 75 percent of permanent easement amounts being paid for 30-year easements, less-than perpetual easements limited by State law, and 30-year contracts. NRCS pays up to 100 percent of all related acquisition costs for all enrollment types.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

ACEP-ALE - Easements must be closed within 18 months of the end of the fiscal year in which the cooperative agreement is signed. Federal funds must be disbursed within 2 to 5 years after signing the cooperative agreement. Method of awarding/releasing assistance: lump sum. Easement duration is either perpetual, 30-year, or the maximum duration permitted by State law. Financial assistance for easement acquisition is provided at closing.

ACEP-WRE - Cash easement payments will be made in a lump sum amount, or in annual installments beginning at closing. Payments for implementation of restoration practices will be made when a specific practice has been implemented by either the landowner or third party and certified by NRCS. See the following for information on how assistance is awarded/released: Cash easement payments will be made in a lump sum amount, or in annual installments beginning at closing. See the following for information on how assistance is awarded/released: Cash easement payments will be made in a lump sum amount, or in annual installments beginning at closing.

CRITERIA FOR SELECTING PROPOSALS:

ACEP-ALE - Criteria used for selecting applications include: Percent of prime,

unique, and other important farmland in the parcel to be protected; Percent of cropland, rangeland, grassland, historic grassland, pastureland, or nonindustrial private forest land in the parcel to be protected; Ratio of the total acres of land in the parcel to be protected to average farm size in the county; Decrease in the percentage of acreage of farm and ranch land in the county in which the parcel is located; Percent population growth and density in the county; Existence of a farm or ranch succession plan or similar plan established to address farm viability; Proximity of the parcel to other protected land and to other agricultural operations and agricultural infrastructure; Maximizing the protection of contiguous acres devoted to agricultural use; Zoning; Eligible entity's performance; Geographic regions help achieve national, State, and regional conservation goals and objectives; Diversity of natural resources to be protected; Score in the land evaluation and site assessment system or equivalent measure for grassland enrollments; the parcels support of grazing operations; protection of grassland, land that contains forbs, and shrubland at the greatest risk from the threat of conversion to uses other than grazing; and plant and animal biodiversity.

ACEP-WRE - All offers are screened at both the local and State level to determine the acceptability of the application. Offers will be evaluated based on the environmental benefits and government expenditures on restoration and easement purchase and the requirement that wetland and wildlife functions and values benefits be maximized. Criteria for selecting applications include: The conservation benefits of obtaining an easement or other interest in the land; The cost effectiveness of each easement so as to maximize the environmental benefits per dollar expended; Whether the landowner or another person is offering to contribute financially to leverage Federal funds; The extent to which the purposes of this part would be achieved on the land; The productivity of the land; The on-farm and off-farm environmental threats if the land is used for the production of agricultural commodities; Obtaining permanent easements over shorter term easements; and Acquiring easements based on the value of the easement for protecting and enhancing habitat for migratory birds and other wildlife, in consultation with USFWS. NRCS, in consultation with the State Technical Committee, may place higher priority on certain land types or geographic regions of the State where restoration of wetlands may better achieve State and regional goals and objectives. Priority may also be given to land that is currently enrolled in CRP in a contract that is set to expire within one year from the date of application and is farmed wetland and adjoining land that has the highest wetland functions and values and is likely to return to production after the land leaves CRP.

10.933 WETLANDS MITIGATION BANKING PROGRAM

Wetlands Mitigation Banking Program

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

The Wetland Mitigation Banking Program is authorized by section 1222(k) of the Food Security Act of 1985, as amended by section 2609 of the Agricultural Act of 2014 (16 U.S.C. 3822(k).

OBJECTIVES:

The Wetlands Mitigation Banking Program is used to help establish wetland mitigation banks to help producers meet their wetland conservation compliance responsibilities needed to maintain eligibility for many USDA programs administered by the FSA and NRCS, and to maintain eligibility for the Federal crop insurance premium subsidy administered by the Risk Management Agency.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

NRCS will seek applications to establish wetlands mitigation banks for agriculture producers. The intent of the program is for qualified third-party wetlands bankers to operate and manage all aspects of a wetlands mitigation bank, with oversight by NRCS. Specific funding uses and restrictions will be identified in an agreement between NRCS and those selected to receive the funding. Mitigation banks established through this program are for the explicit and sole purpose of assisting agricultural producers with wetland conservation compliance requirements found in 7 CFR Part 12 (wetland conservation compliance is also referred to as Swampbuster compliance). Loss of wetland functions and lost wetland acres of agricultural wetlands associated with an active farming operation may be mitigated through the Wetlands Mitigation Banking Program. The targeted wetlands may be seasonal or occasionally cropped during years of low precipitation. Wetlands that fall under jurisdiction of the Clean Water Act are not eligible for mitigation through this program.

Applicant Eligibility:

Eligible entities that may submit applications include Tribal Nations, State, and local units of government, and nongovernmental organizations (NGOs), including for profit NGOs. NRCS will accept proposals for the development and establishment of mitigation banks submitted under this notice by eligible applicants from all 50 States, the District of Columbia, the Caribbean Area (Puerto Rico and the U.S. Virgin Islands), and the Pacific Islands Area (Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands). Applications will also be accepted from existing banks with established credits that meet the described needs of the program.

Beneficiary Eligibility:

Mitigation banks established through this program are for the explicit and sole purpose of assisting agricultural producers with wetland conservation compliance, also known as Swampbuster compliance.

Credentials/Documentation:

Applications must contain the content, format, and information set forth in the Announcement for Program Funding to receive consideration. Selected applications will enter into individual agreements with NRCS. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

The following items must be obtained prior to entering into an agreement with the Federal Government but do not need to be provided in the proposal. Applicants are encouraged to apply early for their Data Universal Numbering System

(DUNS)/System for Award Management (SAM) number.

Award Procedure:

NRCS will process and evaluate applications using the following process: An interagency technical team, including NRCS staff, will screen applications for completeness and compliance with the announcement for funding. Incomplete and noncompliant applications will be eliminated from competition. NRCS technical staff will evaluate and rank complete applications. The NRCS Chief will make the final award decisions.

Awardees will subsequently work with NRCS to develop a mitigation banking instrument which will provide full details for development, establishment, and operation of a mitigation banking program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The following reporting items are required: A Detailed bank accounting report and progress documenting all debits, credits and transfers that occurred with the bank, a financial report showing all authorized transactions associated with the banking instrument, and a bank monitoring report detailing how the compensatory mitigation project is progressing towards meeting its performance standards. These items are required annually, no later than November 15th. Selected applicants will be required to submit an SF-425, Federal Financial Report, to the NRCS administrative contact, no later than 45 days after the end of each quarter and 90 days after completion of project. 11.481 Educational Partnership Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2015: Nine new awards were funded through the Environmental Literacy Program and NOAAs Broad Agency Announcement. These awards will inform, educate, and inspire educators, students, and the public to use Earth systems science to improve ecosystem stewardship and increase resilience to environmental hazards. Education plays a critical role in achieving NOAAs mission and vision. To make the best social, economic, and environmental decisions, individuals should have the ability to understand scientific processes, consider uncertainty, and reason about the ways human and natural systems interact. These awards support formal and informal education projects that cultivate these skillsets among diverse audiences. Additionally, 7 awards initiated in prior years were provided with their next annual increment of funds. Fiscal Year 2016: We anticipate funding 5 new awards that will help communities build the environmental literacy necessary for resilience to extreme weather events and other environmental hazards. Additionally 6 awards initiated in previous fiscal years will be provided their next increment of funding. Fiscal Year 2017: New funding opportunities have not yet been defined.

CRITERIA FOR SELECTING PROPOSALS:

Applications will undergo an administrative review and a technical merit review based on NOAA standardized evaluation criteria. NOAA standardized selection factors may also be used in making the final selection.

In some cases, funds can be withheld by the grants Officer under a special award condition requiring the recipient to submit additional environmental compliance information sufficient to enable the DOC to make an assessment on any impacts that a project may have on the environment.

1. The National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.). Recipients of Federal assistance are required to identify to the awarding agency any impact an award will have on the quality of the human environment, and assist the agency in complying with the National Environmental Policy Act when the award activities remain subject to federal authority and control. Applicants for assistance may be requested to assist DOC in drafting an environmental assessment or environmental impact statement if DOC determines such documentation is required.
2. The National Historic Preservation Act (NHPA) (16 U.S.C. 470 et seq.). Recipients of Federal funding are required to identify to the awarding agency any effects the award may have on properties included on or eligible for inclusion on the National Register of Historic Places. Recipients may also be requested to assist DOC in consulting with State or Tribal Historic Preservation Officers or other applicable interested parties necessary to identify, assess and resolve adverse effects to historic properties. Until such time as the appropriate NHPA consultations and documentation is complete, funds can be withheld by the Grants Officer under a special award condition requiring the recipient to fully comply with the requirement of the NHPA.
3. Executive Order 11988, May 24, 1977 (Floodplain Management) and Executive Order 11990, May 24, 1977 (Protection of Wetlands). 10. The Safe Drinking Water Act of 1974, as amended (42 U.S.C. 300f-j). This Act precludes Federal assistance for any project that the EPA determines may contaminate a sole-source aquifer so as to threaten public health.

11. The Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. 6901 et seq.). This Act regulates the generation, transportation, treatment, and disposal of hazardous wastes. The Act also provides that recipients of Federal funds give preference in their procurement programs to the purchase of recycled products pursuant to EPA guidelines.

12. The Comprehensive Environmental Response, Compensation, and Liability Act (Superfund) (42 U.S.C. 9601 et seq.) and the Community Environmental Response Facilitation Act (41 U.S.C. 11001 et seq.). Foreign-Trade Zones (FTZ) Act of 1934, 48 Stat. 98-1003, 19 U.S.C. 81a-81u, as amended, Title 19, Part USC, Section 81a-81u, 19 U.S.C 81a-81u.

OBJECTIVES:

The Foreign-Trade Zones (FTZ) program helps to encourage commercial activity and value added at U.S. facilities in competition with foreign alternatives by allowing delayed or reduced duty payments on foreign merchandise, as well as other savings. The FTZ Board, an interagency body chaired by the Secretary of Commerce, was established to license (through grants of authority) and regulate foreign-trade zones. The FTZ Board licenses public or public-type corporations to administer zones on a local level. Private corporations generally operate the zones under agreement with licensees. States and local communities use zones as an element of their economic development efforts.

TYPES OF ASSISTANCE:

PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

FTZs may be used to reduce production, transaction, and logistics-related costs by lowering effective duty rates, allowing special entry procedures, and encouraging activity closer to market. Reducing costs through FTZ use can lead to more competitive U.S. operations, thereby helping to maintain U.S. commercial presence and jobs. The FTZ program is available at facilities designated by the FTZ Board under the sponsorship of local public and public-type corporations.

Applicant Eligibility:

Public and private corporations as defined by the Law, and by appropriate State enabling legislation.

Beneficiary Eligibility:

Each FTZ licensee is required to manage the zone as a public utility, providing access to the FTZ program on a nondiscriminatory basis to companies. Under the supervision of U.S. Customs and Border Protection (CBP), warehouse/distribution activity can be conducted at any designated FTZ location. Specific approval from the FTZ Board is required for production activity.

Credentials/Documentation:

Applications contain: A cover letter and completed application. The application will contain information on the specific proposal, as well as any needed documentation, such as maps of proposed FTZ locations, the legal authority behind the submission of the application and letters from impacted parties. When manufacturing activity is requested, the application must also contain specific information on the activity, including the finished products and imported components involved. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications for zone authority are submitted by eligible applicants and reviewed under the regulations of the FTZ Board. The Board can approve or deny the application, or approve it with restrictions. Applications are processed for the Board by the FTZ Staff/Enforcement and Compliance/International Trade Administration, U.S. Department of Commerce.

Award Procedure:

Upon filing of an application, an analyst on the FTZ Boards staff is appointed to investigate the proposal and make recommendations. As detailed in the FTZ Boards regulations, public comments on requests to the FTZ Board are invited. When the FTZ Board makes a decision, notice of the decision is also published in the Federal Register.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Applications to the FTZ Board are usually acted upon within 4 to 12 months of docketing, depending on the type of authority requested.

Appeals:

A negative decision can be appealed by the submission of a new application to the FTZ Board when warranted by evidence and circumstance.

Renewals:

Applicable when the Board places time constraints on the FTZs. In that event, an application for new authority must be filed.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Not Applicable. See the following for information on how assistance is awarded/released: No funding is awarded or released.

Reports:

11.112 MARKET DEVELOPMENT COOPERATOR PROGRAM

MDCP

FEDERAL AGENCY:

International Trade Administration, Department of Commerce

AUTHORIZATION:

Omnibus Trade and Competitiveness Act of 1988, Public Law 100-418, Title II, Section 2303, 102 Stat. 1342, 15 U.S.C.4723., 15 U.S.C 4723.

OBJECTIVES:

Through the Market Development Cooperator Program (MDCP), the International Trade Administration (ITA) aims to develop, maintain and expand foreign markets for nonagricultural goods and services produced in the United States.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

A Federal Funding Opportunity (FFO) notice describing the program is available at grants.gov, at export.gov/mdcp, or from the contact listed in "Information Contacts" below. The most prominent uses and restrictions are summarized below. 1. Applicants should propose foreign market development activities that result in U.S. firms increasing exports that create or maintain U.S. jobs. 2. The primary beneficiaries of project activity should be small-and medium-sized enterprises. 3. No more than \$300,000 in federal funds is available for each project. 4. The federal funds are to last for the life of the three to five-year project. 5. Applicant match is two to one: for each federal dollar received, applicant must match at least one dollar with cash and another dollar with cash or in-kind contribution.

Applicant Eligibility:

Applicants are found to be eligible in one of three categories. 1. Nonprofit industry organizations (includes small business development centers, World Trade Centers, and 501(c)3 nonprofits such as chambers of commerce, international trade centers, port authorities, economic development organizations, and other business interest groups). 2. Trade associations. 3. State departments of trade and their regional associations. The Statute stipulates that private industry firms or groups of firms may be found eligible in cases where no entity described above represents that industry. However, since the program began operating in 1993, no private firm has been able to demonstrate that an organization in one of the first three categories did not represent its interests.

Beneficiary Eligibility:

U.S. firms that sell non-agricultural goods or services. (While private firms benefit from MDCP project activity, as noted above, they are generally not eligible to apply for MDCP funds.) See trade.gov/mdcp for more information.

Credentials/Documentation:

In order to determine eligibility, applicants should consult www.export.gov/mdcp and request an eligibility determination in writing from the MDCP Director (see "Information Contacts"). The written request should be accompanied by the most current version of all the following documents that apply: articles of incorporation; charter; bylaws; information on types of members and membership fees; Internal Revenue Service acknowledgment of non-profit status; annual report; audited financial statements; and documentation of ties to state trade departments or their regional associations. See trade.gov/mdcp for more information. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Before applying an applicant should get a determination from ITA of its eligibility to be considered to be selected to receive an MDCP award.

MDCP awards are cooperative agreements, not grants. ITA will be substantially involved in helping an MDCP award winner to achieve project objectives. Accordingly, applicants are strongly encouraged to coordinate with the contact identified in this CFDA listing as well as other relevant ITA staff. Directories of ITA staff can be accessed via export.gov/mdcp. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application packages are available at grants.gov and at export.gov/mdcp, which includes an example of a complete MDCP application. Applicants are strongly encouraged

to submit applications via grants.gov. All forms can be downloaded from grants.gov. Completed forms and all other elements of the application are to be uploaded onto grants.gov. The application will be organized into four parts: forms, project, budget, and other.

1. Forms: a. SF-424; b. SF-424A; c. SF-424B; and d. CD-511.

2. Project narrative file (page limit: 20): a. One-page executive summary including target markets, projected exports to result, size of the market, and brief project description. b. Background including market research that makes clear why the project is needed and has a good chance to succeed. c. Description of the project. d. Description of estimate of exports to be generated and other performance measures. e. Description of partnership with ITA envisioned by applicant. f. Credentials of staff to work on the project. g. Evidence of support for the project from U.S. firms interested in participating. h. Description of how applicant proposes to use the ITA emblem to further project goals. i. Draft success agreement outlining benefits to participating firms and their duty to report exports.

3. Budget narrative attachment file (page limit: 20): a. Spreadsheet that breaks down the budget into the categories used on the SF-424A and apportions it over the award period. b. Supporting worksheets and explanations. c. Discussion of financial systems and projections that identify how, when, and from what sources the matching funds will be or have been raised. d. List of financial assistance awards of \$40,000 or more received over the last five years. e. Financial statements. f. Evidence of commitment of cash or in-kind support. g. Any additional evidence of financial responsibility.

4. Other attachment file (page limit: 10): This must not include any documents that should be classified as forms, project narrative, or budget narrative. Most MDCP applications do not include this other attachment because the other three parts of the application encompass all necessary elements.

Every page of the application must be easily legible. Textual documents generated by an applicant should have a one-inch margin on either side and top and bottom, and the typeface should be no smaller than 11-point. Headers and footers can lie outside the margins. Pages that are not easily legible may be ignored by reviewers.

Award Procedure:

A merit review panel of at least three senior ITA officials evaluates each MDCP application based on the following five criteria: potential to strengthen competitiveness; performance measurement; partnership potential with ITA and compatibility with ITA priorities; creativity and institutional capacity; and budget, cash match, and sustainability. Each application can receive up from 16 to 24 points for each of the five categories for a total possible score of 100. Once applications are received, applicants may not revise them. Unsuccessful applicants will be notified within 10 days after award decisions have been announced. Since the program began in 1993, ITA has made, on average, 7 awards per year.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Percent: 65%. Applicants match the federal share two-to-one. The first dollar of match must be cash. The second dollar of match may be cash or in-kind.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Funds may be expended over a project period of at least three years but not to exceed five years from the start of the project period. Funds are available as soon as the approved project period begins. See the following for information on how assistance is awarded/released: Award recipients draw down funds as they incur project costs and request advances or reimbursements.

Reports:

Sixty (60) days after the end of each calendar quarter recipients report exports generated by project activity and project milestones. Thirty (30) days after the end of each calendar quarter recipients submit SF-425. Quarterly "program" reports described above register project progress. 11.300 INVESTMENTS FOR PUBLIC WORKS AND ECONOMIC DEVELOPMENT FACILITIES

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

Public Works grants support the construction or rehabilitation of essential public infrastructure and facilities necessary to generate or retain private sector jobs and investments, attract private sector capital, and promote regional competitiveness, innovation, and entrepreneurship, including investments that expand and upgrade infrastructure to attract new industry, support technology-led development, accelerate new business development, and enhance the ability of regions to capitalize on opportunities presented by free trade.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Characteristic projects include investments in facilities such as water and sewer systems, industrial access roads, business parks, port facilities, rail spurs, skill-training facilities, business incubator facilities, brownfield redevelopment, eco-industrial facilities, and telecommunications and broadband infrastructure improvements necessary for business creation, retention and expansion. To be eligible, a project must be located in or benefit a region that, on the date EDA receives an application for investment assistance, satisfies one or more of the economic distress criteria set forth in 13 C.F.R. 301.3(a). All investments must be consistent with a current EDA- approved Comprehensive Economic Development Strategy (CEDS) or equivalent strategic economic development plan for the region in which the project will be located, and the applicant must have the required local share of funds committed, available, and unencumbered. Applicants must be able to start and complete proposed projects in a timely manner consistent with award terms and conditions. Recipients must award contracts in accordance with proper procurement procedures and ensure that contractors pay Davis-Bacon wage rates. All grants awarded are competitive in nature. EDA does not award formula grants.

Applicant Eligibility:

Pursuant to PWEDA, eligible applicants for and recipients of EDA investment assistance include a State, city, county, or other political subdivision of a State, including a(n): (a) District Organization as defined in 13 CFR 304.2; (b) Indian Tribe or a consortium of Indian Tribes; (c) State, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of such political subdivisions; (d) institution of higher education or a consortium of institutions of higher education; or (e) public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. 3122) and 13 C.F.R. 300.3. Projects eligible for Public Works investment assistance also include those located in regions meeting "Special Need" criteria as defined in 13 C.F.R. 300.3. For-profit, private-sector entities do not qualify for Public Works assistance under PWEDA. Therefore, EDA will not provide investments directly to individuals or for-profit entities. Such requests may be referred to State or local agencies, or to non-profit economic development organizations. As used in this paragraph, 'State' includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

Beneficiary Eligibility:

Beneficiaries of investments made under Public Works are those communities

who satisfy one or more of the economic distress and/or Special Need criteria set forth in 13 C.F.R. 301.3(a) and 13 C.F.R. 300.3 to revitalize, expand, or upgrade their physical infrastructure to attract new industry, encourage business expansion, diversify their local economies, and generate or retain long-term private sector jobs and capital investments.

Credentials/Documentation:

Applicants should refer to the specific requirements of the current Federal Funding Opportunity (FFO) to determine what documents must be submitted at the time of submission. EDA employs a two-phase review process for proposals/applications submitted under this FFO. All submissions under this FFO must proceed through the two-phase review process. Phase I, the Proposal Phase, of EDAs process is designed to provide applicants with an economical and efficient means of determining if their proposed project meets the essential criteria to be considered responsive to this FFO. In Phase I, potential applicants are able to provide EDA with general project information, as detailed in the FFO, to allow EDA to make a Phase I Determination, i.e., whether the proposed project meets the most essential criteria to be considered responsive to this FFO. Proposal packages submitted for Phase I consideration may be presented at any time during the fiscal year. All complete Phase I proposal packages will be reviewed by the respective regional office Proposal Review Committee (PRC), and the applicant will be advised of EDAs Phase I Determination. If the regional office PRC determines that a proposal is responsive to this FFO (Phase I Responsive Determination), EDA will inform the applicant that it may submit a complete application to proceed to Phase II of the process. In Phase II, the Application Phase, an applicant must submit a complete application, as detailed in the FFO, to be considered for funding. If an applicant submits an application in lieu of or concurrent with a proposal package, the regional office PRC must first make a Phase I Determination regarding the applicants submission before moving to Phase II, the Application Phase. In either Phase I or II, EDA may seek information or documentation from the applicant to clarify information presented in the proposal/application. Please refer to the current FFO for more information on EDAs review and selection process. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For information on the application process you may access the applicable federal funding opportunity (FFO) announcement for Public Works investment assistance at www.grants.gov and at www.eda.gov. EDA will review each application for Public Works application in accordance with the evaluation criteria, funding priorities, and selection procedures set forth in the applicable FFO.

Award Procedure:

Staff in the applicable EDA regional office review complete applications for eligibility and compatibility with EDA's mission and funding priorities. Applications deemed eligible and at least minimally consistent with EDA's mission and funding priorities are referred to an Investment Review Committee, which recommends applications for funding to the Regional Director. The Regional Director makes a funding determination as the Grants Officer for the respective region.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Not Applicable.

Renewals:

Applications for renewal or supplementation of additional projects may compete with applications for new awards.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Generally, the amount of the EDA grant may not exceed 50 percent of the total cost of the project. Projects may receive an additional amount that shall not exceed 30 percent, based on the relative needs of the region in which the project will be located, as determined by EDA. In the case of EDA investment assistance to a(n) (i) Indian Tribe, (ii) State (or political subdivision of a State) that the Assistant Secretary determines has exhausted its effective taxing and borrowing capacity, or (iii) non-profit organization that the Assistant Secretary determines has exhausted its effective borrowing capacity, the Assistant Secretary has the discretion to establish a maximum EDA investment rate of up to 100 percent of the total project cost. This program does not have MOE requirements. This program does not have MOE requirements.

Reports:

No program reports are required. No cash reports are required. Project progress and financial reports are required, generally on a quarterly basis, as required by the Special Terms and Conditions governing the award. EDA requires the submission of the SF-425 Federal Financial Report. EDA reviews progress and financial reports for compliance with all award terms and conditions, as well as EDA regulations. EDA reserves the right to conduct site visits on an as-needed basis.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The applicant is reminded that EDA or the Department of Commerce's Office of Inspector General also may conduct an audit of an award at any time.

11.302 ECONOMIC DEVELOPMENT_SUPPORT FOR PLANNING ORGANIZATIONS

Planning Investments and Comprehensive Economic Development Strategies

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

Through the Planning program, EDA provides assistance to eligible recipients to create regional economic development plans in order to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which leverage the unique assets of their respective regions to help create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.

To facilitate CEDS, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts (EDDs) throughout the Nation. These planning organizations are typically recognized by the State in which they reside as multi-jurisdictional councils of governments, regional commissions, or planning and development centers. Partnership Planning grants enable planning organizations to manage and coordinate the development and implementation of CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help organize and assist with the implementation of economic development activities within their areas. The majority of funding under the Planning program is for Partnership Planning grants for Indian Tribes and EDA-designated EDDs.

The Planning program also helps support planning organizations and other eligible recipients, including District Organizations and Indian Tribes, with Short-Term and State Planning efforts in order to stimulate and guide the creation and/or retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. For example, EDA might provide Short-Term Planning funding to a coalition of Tribal and regional organizations to plan a coordinated response to the sudden loss of a major employer in the affected area(s).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

EDA Planning investments support the preparation of CEDS that guide EDAs Public Works and Economic Adjustment Assistance implementation investments, including Revolving Loan Funds. Sound local planning also attracts other Federal, state, and local funds plus private sector investments to implement long term development strategies. In this way, EDAs Planning program plays a foundational role in helping communities develop important strategies that inform future economic development decisions.

Comprehensive, market-based, local and regional planning is an essential component of successful economic development. Effective planning creates a road map for community growth and development with a focused approach towards creating higher-skill, higher-wage jobs. The Planning Program provides a foundation for EDAs infrastructure investments, which are designed to stimulate economic growth in distressed regions. The planning process supports an assessment of the regions economic conditions and the development of a CEDS to guide resource allocation and project development. The key value of this process is that it is locally determined and involves participation from all the diverse interests in the community. Planning activities supported by these Investments must be part of a continuous process involving the active participation of Private Sector Representatives, public officials and private citizens, and include:

- (a) Analyzing local economies;
- (b) Defining economic development goals;
- (c) Determining Project opportunities; and
- (d) Formulating and implementing an economic development program that includes systematic efforts to reduce unemployment and increase incomes. All EDA grants are discretionary grants. EDA does not award any formula grants.

Applicant Eligibility:

Pursuant to PWEDA, eligible applicants for and recipients of EDA investment assistance include a(n): (a) District Organization (as defined in 13 CFR 304.2); (b) Indian Tribe or a consortium of Indian Tribes; (c) State, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions; (d) institution of higher education or a consortium of institutions of higher education; or (e) public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. 3122) and 13 CFR 300.3. As used in this paragraph, State includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau. See 13 CFR 300.3 and 301.2.

Beneficiary Eligibility:

EDA Planning investments provide support to Planning Organizations for the development, implementation, revision, or replacement of a CEDS. They also may provide support for related short-term planning investments and State plans designed to create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the nation's most economically distressed regions.

Credentials/Documentation:

To be considered for EDA assistance, applicants must first submit a complete EDA application package. The applicant must provide a list of its proposed Strategy Committee members. The Committee must represent the main economic interests of the Region and must include Private Sector Representatives as a majority of its membership. The applicant should ensure that the Strategy Committee includes public officials, community leaders, representatives of workforce development boards, institutions of higher education, minority and labor groups, and private individuals. The Strategy Committee representing Indian Tribes or States may vary. Applicants must also submit documentation of matching fund availability. Finally, non-profit applicants will be asked to provide additional documentation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not required, but EDA offers applicants assistance in developing applications through its network of field-based Economic Development Representatives (EDRs). Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For information on the application process you may access the applicable federal funding opportunity (FFO) announcement for Planning investment assistance at www.grants.gov and at www.eda.gov. CRITERIA FOR SELECTING PROPOSALS:

In addition to evaluating applications based on EDA's mission, funding priorities, and the evaluation criteria laid out in the applicable FFO, EDA also considers:

- (2) The qualifications of the applicant to implement the goals and objectives resulting from the CEDS, short-term planning activities or the State plan;

In addition, for continuation awards, funded recipients are evaluated on the basis of the extent of continuing economic distress within the Region, their past performance, and the overall effectiveness of their CEDS.

For Planning Investment awards to a State, EDA will also consider the extent to which the State will integrate and coordinate its CEDS with local and Economic Development District plans.

11.303 ECONOMIC DEVELOPMENT TECHNICAL ASSISTANCE

National Technical Assistance; Local Technical Assistance; University Centers

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

EDA oversees three technical assistance programs (National, Local and University Center) that promote economic development and alleviate unemployment, underemployment, and out-migration in distressed regions. These programs provide grants or cooperative agreements to: (1) invest in institutions of higher education to establish and operate University Centers to support initiatives that are focused on advancing: regional commercialization efforts; entrepreneurship; and a high-skilled regional workforce. provide technical assistance to public and private sector organizations with the goal of enhancing local economic development; (2) support innovative approaches to

stimulate economic development in distressed regions; (3) disseminate information and studies of economic development issues of national significance; and (4) finance feasibility studies and other projects leading to local economic development. These programs aid the long-range economic development of regions with severe unemployment and low per capita income.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Technical assistance is used to provide information, data, resources and toolkits which practitioners and policymakers can utilize when evaluating, shaping and implementing specific projects and programs to promote economic development efforts in their respective economically distressed regions. EDA announces opportunities to compete for funding to support University Centers through its annual Federal Funding Opportunity (FFO) on University Centers, and the intent to support local technical assistance through its annual FFO on planning and local technical assistance. EDA may identify specific training, research or technical assistance projects it will fund under National Technical Assistance, which will be subject to competition. Ordinarily, these projects are specified in a FFO, which will provide the specific requirements, timelines and the appropriate points of contact and addresses. The EDA-supported University Center (UC) sub-program is specifically designed to marshal the resources located within colleges and universities to support job creation and economic growth in regions experiencing economic distress. UCs, which EDA considers long-term partners in economic development, are required to devote the majority of their funding to respond to technical assistance requests originating from organizations located in the economically distressed portions of their service regions. EDA-sponsored University Centers provide strategic technical assistance to regional partners; including, tribal entities, local governments, and public and private sector organizations; conduct economic impact assessments; support cluster development and conduct cluster studies; facilitate regional collaboration; support commercialization and technology transfer efforts; and undertake other activities with the goal of enhancing regional economic development by promoting a favorable business environment to attract private capital investment and higher-skill, higher-wage jobs. EDA University Center competitions are held once every five years in each EDA Region. The project must be consistent with the CEDS of the region in which it is located, if applicable. At least eighty (80) percent of EDA funding under a University Center Economic Development award must be allocated to direct costs of program delivery; unrecovered indirect costs are not chargeable to the award without EDAs express approval. All EDA grants are competitive: EDA does not award formula grants. The Local Technical Assistance (Local TA) sub-program, one of EDAs smallest programs in terms of funding, is an extremely flexible and useful economic development tool. The most common purpose of a Local TA project has been to analyze the feasibility of a potential economic development project, such as an industrial park or a high-technology business incubator, or to support other critical studies necessary for economic development professionals to make informed business decisions, including economic impact assessments. The National Technical Assistance sub-program is designed to provide economic development professionals with access to tools and resources on cutting edge economic development concepts that can inform their decision-making and help support good decision making which will lead to strong, vibrant economic development and regional prosperity. Through this program, EDA provides a wide array of resources, including a cluster mapping tool (<http://clustermapping.us>), a website to identify innovation index of self-selected communities and compare against other geographies (www.statsamerica.org/innovation/), and a resource to help support best practices among venture development organizations (VDOs) (<http://regionalinnovation.org/>). The project must be consistent with the CEDS of the region in which it is located, if applicable. All EDA grants are discretionary. EDA does not award formula grants.

Applicant Eligibility:

Most technical assistance recipients are private or public nonprofit organizations and educational institutions. As defined in 13 C.F.R. 300.3, 'eligible recipients' include a State, city, county, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of such political subdivision, an institution of higher education or a consortium of

institutions of higher education, an Economic Development District organization, a private or public nonprofit organization or association, including a faith-based nonprofit organization, acting in cooperation with officials of a political subdivision of a State, or an Indian Tribe, or a consortium of Indian Tribes. Individuals, companies, corporations, and associations organized for profit are not eligible. As used in this paragraph, 'State' includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau. Program funds cannot be awarded to individuals and for profit organizations.

Beneficiary Eligibility:

Investments are intended to finance projects that would be useful in alleviating or preventing conditions of excessive unemployment or underemployment.

Credentials/Documentation:

To be considered for EDA investment assistance, applicants must first submit a complete EDA application package, as specified by the applicable Federal Funding Opportunity, which generally includes requirements for project narratives, budget narratives, and the resumes of key personnel. Non-profit applicants applying for technical assistance may be asked to provide additional documentation, including documentation of Good Standing in the State in which they operate. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Except for applications that have a national or multi-regional focus, applications are subject to the requirements of E.O. 12372, Intergovernmental Review of Federal Programs and implementing regulations at 13 CFR 302.9.

Award Procedure:

EDA will award investment assistance in accord with the procedures set forth in the applicable announcement of federal funding opportunity (FFO).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For National Technical Assistance and University Center competitions, the deadlines are set forth in the applicable FFO. For Local Technical Assistance, regional offices accept applications on a rolling basis. Approval or disapproval of an application is generally made within 4 months; in many cases, the timeline for award announcement is set forth in the applicable FFO.

Appeals:

Not Applicable.

Renewals:

Each fiscal year, two EDA regional offices will provide a five-year project period for each University Center selected for funding under the requisite competition, with the initial award being made for the first year of the project period. Funding beyond the initial year is dependent upon the availability of funds and satisfactory performance, as determined by EDA and expressed in written notice. The servicing EDA regional office will contact current University Center operators regarding the procedures for applying for continuation funding. National and Local Technical Assistance projects are typically funded for a single project period without any pre-set expectation of renewal. Renewal of an award to increase funding or extend the period of performance is at EDA's sole discretion.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Generally, the amount of the EDA award may not exceed 50 percent of the total cost of the project. Projects may receive an additional amount that shall not exceed 30 percent, based on the relative needs of the region in which the project will be located, as determined by EDA. See section 204(a) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(1). The Assistant Secretary of Commerce for Economic Development has the discretion to establish a maximum EDA investment rate of up to one-hundred (100) percent where the project (i) merits and is not otherwise feasible without an increase to the EDA investment rate; or (ii) will be of no or only incidental benefit to the recipient. See section 204(c)(3) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(4). In-kind contributions, fairly evaluated by EDA, may provide the non-federal share of the total project cost. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally, the University Center Program funds applications on a five-year basis with continuation awards made for each of the three years within a project period. The length of the project period for National and Local Technical Assistance projects varies, but is usually for a period of one to two years. Funds are disbursed as required. See the following for information on how assistance is awarded/released: In accordance with the grant terms and conditions.

Reports:

No program reports are required. No cash reports are required. Project progress and financial reports are required, generally on a quarterly basis, as required by the Special Terms and Conditions governing the award. EDA requires the submission of the SF-425 Federal Financial Report. EDA reviews progress and financial reports for compliance with all award terms and conditions, as well as EDA regulations. EDA reserves the right to conduct site visits on an as-needed basis.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The applicant is reminded that EDA or the Department of Commerce's Office of Inspector General also may conduct an audit of an award at any time.

OBJECTIVES:

To address the needs of distressed communities experiencing adverse economic changes that may occur suddenly or over time, and generally result from industrial or corporate restructuring, new Federal laws or requirements, reduction in defense expenditures, depletion of natural resources, or natural disaster. Economic Adjustment Assistance grants are intended to enhance a distressed community's ability to compete economically by stimulating private investment in targeted areas. Current investment priorities include proposals that focus on (a) Collaborative Regional Innovation, (b) Public/Private Partnerships, (c) National Strategic Priorities, (d) Global Competitiveness, (e) Environmentally-Sustainable Development, (f) Economically Distressed and Underserved Communities. For more information on these investment priorities and current funding opportunities, go to <http://www.eda.gov>.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The Economic Adjustment Assistance Program provides a wide range of technical, planning and public works and infrastructure assistance in regions experiencing adverse economic changes that may occur suddenly or over time. This program is designed to respond flexibly to pressing economic recovery issues and is well suited to help address challenges faced by U.S. communities and regions. To be eligible, a project must be located in or benefit a region that, on the date EDA receives an application for investment assistance, satisfies one or more of the economic distress criteria set forth in 13 C.F.R. 301.3(a). All investments must be consistent with a current EDA- approved Comprehensive Economic Development Strategy (CEDS) or equivalent strategic economic development plan for the region in which the project will be located, and the applicant must have the required local share of funds committed, available, and unencumbered. Applicants must be able to start and complete proposed projects in a timely manner consistent with award terms and conditions. Recipients must award contracts in accordance with proper procurement procedures and ensure that contractors pay Davis-Bacon wage rates. Indirect costs are not allowed on construction projects. All grants awarded are competitive in nature. EDA does not award formula grants.

Applicant Eligibility:

Pursuant to PWEDA, eligible applicants for and recipients of EDA investment assistance include a State, city, county, or other political subdivision of a State, including a(n): (a) District Organization as defined in 13 CFR 304.2; (b) Indian Tribe or a consortium of Indian Tribes; (c) State, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of such political subdivisions; (d) institution of higher education or a consortium of institutions of higher education; or (e) public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. 3122) and 13 CFR 300.3. Projects eligible for Economic Adjustment investment assistance also include those located in regions meeting Special Need criteria as defined in 13 CFR 300.3. For-profit, private sector entities do not qualify for Economic Adjustment assistance under PWEDA. Therefore, EDA will not

provide investments directly to individuals or for-profit entities. Such requests may be referred to State or local agencies, or to non-profit economic development organizations. As used in this paragraph, 'State' includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

Beneficiary Eligibility:

Investments are intended to alleviate long-term deterioration and sudden and severe economic dislocation in distressed communities and regions.

Credentials/Documentation:

Applicants should refer to the specific requirements of the current Federal Funding Opportunity (FFO) to determine what documents must be submitted at the time of submission. EDA employs a two-phase review process for proposals/applications submitted under this FFO. All submissions under this FFO must proceed through the two-phase review process. Phase I, the Proposal Phase, of EDAs process is designed to provide applicants with an economical and efficient means of determining if their proposed project meets the essential criteria to be considered responsive to this FFO. In Phase I, potential applicants are able to provide EDA with general project information, as detailed in the FFO, to allow EDA to make a Phase I Determination, i.e., whether the proposed project meets the most essential criteria to be considered responsive to this FFO. Proposal packages submitted for Phase I consideration may be presented at any time during the fiscal year. All complete Phase I proposal packages will be reviewed by the respective regional office Proposal Review Committee (PRC), and the applicant will be advised of EDAs Phase I Determination. If the regional office PRC determines that a proposal is responsive to this FFO (Phase I Responsive Determination), EDA will inform the applicant that it may submit a complete application to proceed to Phase II of the process. In Phase II, the Application Phase, an applicant must submit a complete application, as detailed in the FFO, to be considered for funding. If an applicant submits an application in lieu of or concurrent with a proposal package, the regional office PRC must first make a Phase I Determination regarding the applicants submission before moving to Phase II, the Application Phase. In either Phase I or II, EDA may seek information or documentation from the applicant to clarify information presented in the proposal/application. Please refer to the current FFO for more information on EDAs review and selection process. 2 CFR 200, Subpart E - Cost Principles applies to this program.

11.313 TRADE ADJUSTMENT ASSISTANCE FOR FIRMS

Trade Adjustment Assistance for Firms

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.), Public Law 114-27.

OBJECTIVES:

The Trade Adjustment Assistance for Firms (TAAF) program helps economically distressed U.S. business in building strategies to increase exports and thereby create jobs. The program provides technical assistance to U.S. businesses that have lost sales and employment due to increased imports of similar goods and services. Technical assistance is provided through a nationwide network of eleven Economic Development Administration (EDA) funded Trade Adjustment Assistance Centers (TAACs).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under Chapters 3 and 5 of Title II of Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.), a firm may apply to the applicable TAAC supported by the Economic Development Administration (EDA) of the Department of Commerce for certification of eligibility to apply for trade adjustment assistance (TAA) related technical assistance. Interested firms that believe they meet the requirements set forth in 13 CFR part 315 may contact EDA or one of

the EDA-funded TAACs. TAACs will assist firms, at no cost, in completing and submitting a petition (Form ED-840P or any successor form) to EDA. Before a firm receives technical assistance under the program, the firm must have an adjustment proposal approved by EDA. Usually the adjustment proposal, which includes an unbiased diagnostic of the firm's strengths, weaknesses, opportunities and threats, is prepared by the TAAC in cooperation with the certified firm. The adjustment proposal also identifies technical assistance tasks, which when implemented, will guide the firm toward economic recovery. The adjustment proposal must also demonstrate that the implementation of the technical assistance tasks has a reasonable chance helping the firm recover. The firm must pay at least 25 percent of the cost of preparing the adjustment proposal. After a firm's adjustment proposal is accepted by EDA, the firm is authorized to apply for technical assistance to implement the recovery strategy. The technical assistance is usually provided by a private consultant, who is jointly hired by the certified firm and the TAAC. The certified firm and the TAAC each typically pay one half of the consultant's fees. Actual provision of TAA will depend on the feasibility of the firm's adjustment proposal, compliance with the requirements of the Trade Act, EDA's regulations and guidelines, and the availability of funds. Organizations representing trade-injured industries are eligible under the Trade Act to apply to EDA for industry-wide assistance.

Applicant Eligibility:

Section 253 of the Trade Act (19 U.S.C. 2343(b)) provides that grants may be awarded to "intermediary organizations (including Trade Adjustment Assistance Centers)" to provide assistance to trade-injured firms. For an industry association or other organizations to be eligible for industry assistance under section 265 of the Trade Act (19 U.S.C. 2355(a)), the applicant must submit evidence demonstrating that the industry faces import competition and includes a substantial number of Trade Act-certified firms or worker groups.

Beneficiary Eligibility:

Only firms certified by EDA on behalf of the Secretary of Commerce are eligible for assistance under the TAAF program. Industries that can demonstrate they have been injured by imports and have a substantial number of Trade Act certified firm or worker groups may also benefit. The principal benefit is cost-shared technical assistance: the TAA program pays up to one-half of the cost of assistance by private-sector consultants and contractors for operational improvements at certified firms.

Credentials/Documentation:

The TAACs act as intermediaries for this program between EDA and the firm. Entities seeking industry-wide assistance must contact EDA staff to discuss their needs, describe the import injury and determine if funding is available for industry-wide projects. 2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The nationwide network of TAACs apply to EDA each year for funding for the coming fiscal year. Industry associations or other organizations seeking industry assistance must submit adjustment proposals to the applicable TAAC center.

Award Procedure:

Awards to TAACs are made based upon submitted applications, previous performance under cooperative agreements with EDA, and the availability of funds. Acceptance of an application or amended application for a cooperative agreement does not ensure funding by EDA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

EDA is statutorily required to review petitions for certification of eligibility

under the program within 40 days of petition acceptance; and has 60 days to make a final determination on an adjustment proposal.

Funds can be used to support research and development on issues related to the forecasting of surface hydrologic conditions. Specific restrictions, other than those mandated for grants, are evaluated on an individual grant or program basis. The program office may support non-competitive awards by direction from legislative language or unsolicited projects that are individually qualified.

Applicant Eligibility:

Eligible applicants are Federally recognized institutions of higher learning, agencies of State or local governments, quasi-public institutions such as water supply or power companies, hydrologic consultants and companies involved in using and developing hydrologic forecasts (either for reducing flood damages or for water management decisions).

Beneficiary Eligibility:

Since the benefits of the overall program are for a reduction in loss of life and damage resulting from flooding and drought, and improved utilization of water supply and water dependent industries, benefits accrue from these projects to: (1) Federal agencies responsible to forecast, assess, manage, disperse, project economic conditions based on projections of water supply for agriculture and industry, and control water resources; (2) interstate commissions to control and allocate surface waters; (3) State agencies responsible for allocating and controlling water resources and for making projections for the use of water for industry and agriculture and for planning and developing infrastructure within the State that is impacted by rivers and lakes; (4) local agencies dependent on water for economic planning, emergency preparedness, and public water supply; (5) all businesses and industries depending all or in part upon surface water supplies or adequate water in lakes for recreation, in rivers to generate power, or in production or dispersion of products or who must take action in order to ameliorate damage during flood situations, (6) wildlife interests at all levels that are dependent upon water management for managing the environment; (7) homeowners or farmers who must plan for proper responses to flooding or inadequate water supply; and (8) academic institutions which are funded for programs dealing with the studies of hydrologic science.

All proposals are subject to the requirements of OMB Circular Nos. A-21 and A-110, as applicable. Standard Form 424 series, certification, and other related forms must accompany formal proposals. Detailed instructions are contained in solicitations. Applications will be submitted through the program manager to the NOAA Grants Management Division for review and approval. The Department of Commerce will review all projects before an award is executed by the NOAA Grants Officer.

Award Procedure:

Awards are made on the basis of proposal evaluations and technical and administrative reviews. Proposal will be submitted to the NOAA Grants Management Division for review and approval. Cooperative activities and

funding amounts are determined through an evaluation conducted in coordination with the Director of the Office of Hydrologic Development by the Senior Scientist of the Hydrology Laboratory, and the technical experts of the Laboratory.

Renewal of an award to increase funding or extend the period of performance is at the sole discretion of the Department of Commerce.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Awards are usually for a 12-month period. In some instances, award periods may extend beyond 12-months. The funding is spent in the award's budget period unless an extension is requested by the principal investigator and approved by NOAA Grants Office. Since many cooperative projects with universities depend upon student labor there are times when unfunded extensions are required. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. Progress reports are not applicable. Expenditure reports are not applicable. Reports are due in accordance with the terms and conditions of the award. The Department's Financial Assistance Standard Terms and Conditions generally require that financial and performance reports be submitted quarterly or semiannually.

National Institute of Standards and Technology (NIST), Department of Commerce

AUTHORIZATION:

Omnibus Trade and Competitiveness Act of 1988, 15 U.S.C 278K; America Competes, Public Law 110-69.

OBJECTIVES:

To establish, maintain, and support manufacturing extension centers and services, the functions of which are to improve the competitiveness of firms accelerating the usage of appropriate manufacturing technology by smaller U.S.

USES AND USE RESTRICTIONS:

Federal funding provided under this program shall be used for the creation and support of manufacturing extension services, or used by the States to plan for and pilot test state-wide extension services. It may also be used to plan for and pilot test services within a multi-state region which has sufficient regional linkages to justify such services. Extension service providers shall be affiliated with a U.S. based nonprofit institution or organization or group thereof. Funds may be used for the purpose of demonstrations, technology deployment, active transfer and dissemination of research findings and extension service expertise to a wide range of companies and enterprises, especially small manufacturers with fewer than 500 employees. Applicants must have and demonstrate competence in areas for which financial assistance is requested. Costs will be determined in accordance with applicable cost principles found in 2 CFR Part 225 for State and local governments, 2 CFR Part 220 for educational institutions, 2 CFR Part 230 for nonprofit organizations, 48 CFR 31 for commercial organizations, and 45 CFR 74, Appendix E for hospitals. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Each notice of funding opportunity specifies applicable pre-application requirements. Notices of funding opportunity typically require the applicants Principal Investigator to submit a pre-application through the Electronic Biomedical Research Application Portal (eBRAP, available at <https://eBRAP.org/>). Pre-applications are screened for military relevance and technical merit against criteria stated in each notice of funding opportunity. Following pre-application screening, the applicants Principal Investigator will be notified regarding whether the applicant is invited to submit a full application. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All applications for assistance under this program must be submitted through the Grants.gov website (available at www.grants.gov). Applicants can find specific application procedures, including necessary forms and instructions for application submission, in each notice of funding opportunity. Notices of funding opportunity are available at Grants.gov by searching CFDA Number 12.420 on the Search Grants tab.

Award Procedure:

All invited applications are evaluated by USAMRMC scientists, other Federal agency representatives, outside scientists with diverse expertise, clinicians, consumers, or combinations thereof, using a two-tier review process. The first tier is a peer review of applications against criteria stated in each notice of funding opportunity to determine technical merit. The second tier is a programmatic review that makes recommendations for funding based on technical merit, military relevance, the specific intent of the funding opportunity, and any other criteria specified in the notice of funding opportunity. The best-scoring applications from the first tier of review are not automatically recommended for funding. Award amount will be negotiated for those applications recommended for funding. Awards depend upon the availability of funding and priorities which USAMRMC determines to exist at the time of award. Only the Grants Officer has the authority to issue awards and obligate funds on behalf of the Federal government.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Pre-applications are normally reviewed within 30 to 60 days from submission deadline or, if no deadline, within 120 days from date of receipt. Full applications are usually reviewed and notifications whether or not applications have been recommended for funding issued within 180 days from submission deadline or, if no deadline, from date of receipt. Awards are normally made within 9-12 months from funding notification.

Appeals:

If an application is not recommended for funding and the Principal Investigator feels that a factual or procedural error was made by the reviewers, (s)he can

submit an inquiry. Each notice of funding opportunity will include instructions for submitting an inquiry and the timeframe for submission.

Renewals:

An award may be extended one time up to 12 months with no additional funds. Additional extensions may be considered. Follow on awards are treated as new awards. Once an award ends, if continued funding is desired, a new application must be submitted under an applicable funding opportunity announcement and competitively reviewed. If selected for funding, a new award will be issued.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The maximum period acceptable for a research project is specified in each notice of funding opportunity. However, the maximum initial period of performance for any award is five years. The length of time for which support is requested should be consistent with the nature and complexity of the proposed research. Depending on the source of funding, some awards will be fully funded at the time of award, while others will be incrementally funded. See the following for information on how assistance is awarded/released: Payments will be made by advance and reimbursement methods.

Reports:

Program reports are not applicable. Quarterly and final or annual and final SF425 Federal Financial Reports are required, as specified in the award. Grants and cooperative agreements require annual and final programmatic reports. At times, quarterly programmatic reports and additional charts may be required. Some grants and cooperative agreements also require regulatory reports related to research with human subjects and research involving animals. Each award will include the applicable reporting requirements. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. For-profit entities are required to comply with 32 CFR part 34.

Records:

Generally, a recipient is required to retain records relating to a particular award for three years from the date of submission of the final financial report. In cases where litigation, claim or an audit is initiated prior to expiration of the three-year period, records must be retained until the action and resolution of any issues associated with it are complete or until the end of the three-year retention period, whichever is latest. 12.610 COMMUNITY ECONOMIC ADJUSTMENT ASSISTANCE FOR COMPATIBLE USE AND JOINT LAND USE STUDIES

FEDERAL AGENCY:

Office of Economic Adjustment, Department of Defense

AUTHORIZATION:

10 U.S.C. 2391.

OBJECTIVES:

Assist State and local governments to mitigate or prevent incompatible civilian land use/activity that is likely to impair the continued operational utility of a Department of Defense (DoD) military installation. Grantees and participating governments are expected to adopt and implement the study recommendations.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Respond to encroachment of the civilian community that is likely to impair the continued operational utility of the military installation through a Compatible Use or Joint Land Use Study. The State and/or local government partners with the military installation to plan and carry out strategies promoting compatible civilian development adjacent to installations, ranges, and military flight corridors. The study includes a strategic plan with specific implementation actions to ensure civilian growth and development are compatible with vital training, testing, and other military missions.

Applicant Eligibility:

Applicants for this assistance are to contact the Office of Economic Adjustment and a Project Manager will be assigned to work with the applicant to determine eligibility for assistance under this program. States, counties, municipalities, other political subdivisions of a State, and special purpose units of a State or local government are eligible for this assistance if the Director, Office of Economic Adjustment determines that the encroachment of the civilian community is likely to impair the continued operational utility of the military installation.

Beneficiary Eligibility:

States and communities, including local property owners, as well as the local military installation.

Credentials/Documentation:

Applicants will be required to provide documentation consistent with the authority under which the assistance is being sought. Applicants must document their intent to work with the Military Department, Federal, State, and local officials, residents, businesses, and landowners to cooperatively participate in the development and implementation of a strategic plan and specific implementation measures to ensure civilian growth and development are compatible with the continued operational utility of the military installation. Applicants also must show evidence that the proposed planning process and implementation measures will prevent further encroachment on the military installation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

When in receipt of a Military Department nomination, the Office of Economic Adjustment Director will notify the Installation Commander that an Office of Economic Adjustment Project Manager will schedule a visit to provide a program overview and confirm the Installation Commanders support to engage the affected local governments and/or State in a Joint Land Use Study. The Project Manager also will validate encroachment of the civilian community that is likely to impair the continued operational utility of the military installation. After confirming installation support for the Joint Land Use Study and validating civilian encroachment, the Project Manager then will proceed to engage the affected local governments and/or State to confirm their interest and support to undertake the study and carry out the study recommendations. Once support from the Installation Commander and affected local governments and/or State is confirmed, the Project Manager will work with the local governments and/or State to craft an effective and responsive program of assistance to ensure civilian growth and development are compatible with the continued operational utility of the military installation.

The Office of Economic Adjustment also may provide community planning assistance to help prevent the siting of energy projects from adversely affecting Department of Defense test, training, and military operations. The Office of Economic Adjustment will consider on a continuing basis, subject to available

appropriations, proposals for grant assistance to support communities, regions, and states to assist in the siting of energy project investments so they do not impair the continued operational utility of a Department of Defense installation. Commercial development of energy projects may affect unique military activities and readiness, especially when located near installations, ranges, or on lands beneath designated military training routes or special use airspace. State and local governments can support effective collaboration, early engagement and dialog between the Department of Defense and energy developers to ensure proposed energy projects may proceed without compromising the military missions. A proposal must respond to the need to ensure proposed energy projects may proceed without compromising Department of Defense test, training, and military operations, to include radar interference from wind turbines; low-level flight obstructions associated with tall structures such as solar power towers and wind turbine projects; electromagnetic interference from high voltage electrical transmission lines; and glint and glare impacts to flight operations associated with solar photovoltaic arrays or power tower projects near military airfields. Details on how to apply can be found in the April 3, 2015, Federal Register Notice.

The Office of Economic Adjustment Project Manager will provide necessary information to assist the State or local government to prepare and submit an application for financial assistance under this program. OBJECTIVES:

Under Section 542(c), HUD provides credit enhancement for mortgages for multifamily housing projects whose loans are underwritten, processed, serviced, and disposed of by Housing Finance Agencies (HFA). 14.218 COMMUNITY DEVELOPMENT BLOCK GRANTS/ENTITLEMENT GRANTS

Community Development Block Grant program for Entitlement Communities.

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Part 24, Section 570, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5321.

OBJECTIVES:

To develop viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low and moderate income.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipient communities may undertake a wide range of community-based activities directed toward neighborhood revitalization, economic development, and community services, facilities, and improvements. Entitlement communities develop their programs and set their funding priorities in conformance with the statutory standards, program regulations, and other federal requirements. Specific activities that can be carried out with Community Development Block Grant (CDBG) funds include acquisition of real property; relocation; clearance and demolition; rehabilitation of residential and nonresidential structures; provision of public facilities and improvements, such as water and sewer facilities (which require reviews by the State single point of contact or a Regional Planning Agency in accordance with Executive Order 12372), streets, and neighborhood centers. Within program limitations, CDBG funds can also pay for public services. Recipients may provide assistance to microenterprises or other for-profit entities when the recipient determines that such assistance is appropriate to carry out an economic development project. Community-based development organizations may carry out neighborhood revitalization, community economic development, or energy conservation activities. Each CDBG eligible activity must meet one of three national objectives: benefit low- and moderate-income persons, aid in the prevention or elimination of slums or blight, or meet other community development needs having a particular urgency that the grantee is unable to finance on its own. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or the statute.

Applicant Eligibility:

Recipients are states; cities in Metropolitan Areas designated by OMB as a central city of the Metropolitan Area; other cities over 50,000 in Metropolitan Areas; and qualified urban counties of at least 200,000 (excluding the population in entitlement cities located within the boundaries of such counties) are eligible to receive CDBG entitlement grants determined by a statutory formula.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD). The recipient must certify that at least 70 percent of the grant funds received during a 1, 2, or 3-year period, that it designates, are expended for activities that will principally benefit low- and moderate-income persons.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable

federal requirements. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Executive Order 12372 is applicable only where a recipient proposes to use funds for the planning or construction (reconstruction or installation) of water or sewer facilities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit a 5-year Consolidated Plan, an annual action plan, SF Form 424, and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD Community development programs, including CDBG. The annual action plan must include the local community development objectives and show the proposed use of the funds. If the grantee makes a complete submission within the established deadlines, the Department will make a grant award unless a determination is made by HUD that the grantee's performance is unsatisfactory. HUD will approve the submission generally within 45 days of receipt of the annual action plan and required certifications unless a determination has been made that the grantee has failed to carry out its CDBG program in a timely manner or has failed to conform to the requirements of the statute or other applicable laws. Under such circumstances, HUD may take appropriate actions, including a reduction in the amount of the original formula-allocated grant.

Award Procedure:

None.

Deadlines:

Nov 15, 2015 to Aug 15, 2016: See below. For formula grants, action plans associated with the Consolidated Plan must be submitted based on the grantee's program year, but no earlier than November 15 or no later than August 15 of the fiscal year for which the funds are allocated.

Range of Approval/Disapproval Time:

From 60 to 90 days. Generally within 45 days.

Appeals:

Administrative appeals process followed if entitlement grant funds are withheld or reduced, or repayment proposed for non-compliance or non-performance.

Renewals:

From 15 to 30 days. Every 3 to 5 years, localities submit a new Consolidated Plan. Each year in between, localities submit an annual action plan and program certifications.

Formula and Matching Requirements:

Statutory Formula: Title 24, Part 570.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Program of assistance is for an annual activities, but activities generally may be continued beyond one year until they are deemed completed. Method of awarding/releasing assistance: by letter of credit.

Through the program management's information system, known as the Inter-Disbursement and Information System (IDIS). Monitoring is "risk-assessment based" with high-risked grantees receiving priority status for monitoring and review.

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

State CDBG

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Section 101-122, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5322.

OBJECTIVES:

The primary objective of this program is the development of viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low- and moderate-income. Each activity funded must meet one of the program's National Objectives by: Benefiting low- and moderate-income families; aiding in the prevention or elimination of slums or blight; or meeting other community development needs having a particular urgency because existing conditions

pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Thirty percent of funds available for distribution under each annual appropriation for the Community Development Block Grant (CDBG) program is allocated among the States and Puerto Rico (which is considered to be a state for the State CDBG program) for use in areas which are not a metropolitan city or part of an urban county (nonentitlement areas). All States except Hawaii have elected to administer these CDBG funds for areas that do not receive CDBG entitlement grants (14.218). HUD awards the formula grants to these States under the CDBG/State Program. In Hawaii, HUD awards the state's share of these funds to the three non-entitlement counties by formula. States must distribute CDBG funds to units of general local government (counties, towns, etc.) in nonentitlement areas. States develop their own programs and funding priorities. Units of general local government then carry out community development activities funded by the State. Eligible activities are directed toward neighborhood revitalization, economic development, or provision of improved community facilities and services. Specific activities that can be carried out with block grant funds include: Acquisition, rehabilitation or construction of certain public works facilities and improvements, such as streets, water and sewer facilities, neighborhood centers, recreation facilities, and other public works; demolition and clearance; rehabilitation of public and private buildings including housing; code enforcement; relocation payments and assistance; economic development; planning activities; certain public services with some restrictions; and administrative expenses. The projected use of funds must be developed to ensure that all activities will meet one of the three national objectives described under "OBJECTIVES". Communities receiving CDBG funds from a state may select subgrantees to carry out approved projects. Such subgrantees may include: Neighborhood-based nonprofit organizations; local development corporations; Small Business Investment Companies; or other nonprofit organizations serving the development needs of nonentitlement areas. Grant recipients may provide assistance to for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out an economic development project. Communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and from making housing allowances or other income maintenance-type payments. Each State may use a limited portion of its grant, subject to a matching requirement, to administer the program. Each State may also use a limited portion of its grant, with no matching requirement, to provide technical assistance to local governments and nonprofit program recipients. At least seventy percent of the funds received must benefit low and moderate income persons.

Applicant Eligibility:

Forty-nine State governments and the Commonwealth of Puerto Rico receive funds from HUD under this program. The state of Hawaii does not participate and HUD allocates the state's share of funds to the three Hawaii non-entitled counties. Funds are allocated to each state based on a statutory formula. States must distribute the funds to units of general local government in nonentitlement areas.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate- income persons. For non-metropolitan areas, low- and moderate- income is generally defined as 80 percent of the median income for non-metropolitan areas of the State or of the county, whichever is higher, adjusted for family size. For eligible localities in metropolitan areas, low- and moderate-income is generally defined as 80 percent of the median income for the metropolitan area, adjusted for family size.

Credentials/Documentation:

Grantees must certify that they will comply with program requirements specified in 24 CFR Part 91. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. An environmental impact assessment is required for this program. This program is excluded from

coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR Part 215 applies as implemented at 24 CFR Part 84 for the non-entitled grants in Hawaii and 24 CFR Part 85 also applies to this program. The State program is excluded from coverage under 24 CFR 85, however, the provisions set-forth in the fiscal requirements contained in 24 CFR 570.489 does apply some of the elements of 2 CFR 215. Each state and non-entitled Hawaii county must submit a Consolidated Plan, an annual action plan and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD community development programs, including CDBG. The annual action plan must contain the method by which the State will distribute its CDBG funds.

Award Procedure:

HUD will provide funds after the State or non-entitled Hawaii county submits its Consolidated Plan, annual action plan and Certifications.

Deadlines:

Nov 15, 2015 to Aug 16, 2016 Consolidated Plans may be submitted between November 15 and August 16 of each fiscal year in which the grantee will administer funds.

Range of Approval/Disapproval Time:

HUD will review plan submissions for completeness and consistency with the purposes of the Act, within 45 days of receipt from a grantee.

Appeals:

The procedure is described in regulations (24 CFR Part 570 Subpart I for states and 24 CFR Part 570 Subpart O for non-entitlement counties in Hawaii).

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter V, Part 570, Subpart A, Public Law 93-383.

Matching Requirements: For state administration of the program, after an initial allowance of \$100,000 with no match, states may take an additional allowance of up to 3% of the grant amount but must match such expenditures on a dollar for dollar basis. There is no matching requirement for the non-entitlement counties in Hawaii.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is provided to States and non-entitlement counties in Hawaii on an annual basis. Individual States may impose time limitations on the implementation of grants to recipients. Method of awarding/releasing assistance: by letter of credit.

Reports:

Annual performance report covering all programs included in the Consolidated Plan as prescribed at 24 CFR 91.520. For Hawaii counties, SF-425 Federal Cash Transactions Report is required. Annual Performance and Evaluation Report details the state's performance in completing activities undertaken with each allocation of funds. Disbursement reports are a standard feature of the Integrated Disbursement and Information System used to access the grantee's line of credit. Program performance monitoring is conducted by field office staff.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Records must demonstrate that the State or non-entitlement county in Hawaii has met the requirements of Title I of the Act.

Range and Average of Financial Assistance:

State grant amounts are determined by formula. Of the 49 grants allocated to states under the State CDBG program in FY 2016, the average (mean) grant amount is \$17,860,874. Grant amounts range from \$2,037,326 to \$60,199,998. These totals do not include Hawaii's allocation awarded to its 3 non-entitled counties. Hawaii's share of the 2016 allocation is \$4,919,194.

If the plan is disapproved, the jurisdiction may revise or resubmit a plan within 45 days after the first notification of disapproval. HUD must respond to approve or disapprove the plan within 30 days of receiving the revisions or resubmission.

Appeals:

Formula allocations may not be appealed. Disapproved plans may be resubmitted in accordance with 24 CFR 91.500.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: The formula for this program is part statutory and part regulatory (see section 414 of the McKinney-Vento Homeless Assistance Act and 24 CFR 576.3). HUD will set aside for allocation to the territories up to 0.2 percent, but not less than 0.1 percent, of the total amount of each appropriation in any fiscal year. The remainder will be allocated to States, metropolitan cities, and urban counties. The percentage allocated to each State, metropolitan city, and urban county will be equal to the percentage of the total amount available under section 106 of the Housing and Community Development Act of 1974 for the prior fiscal year that was allocated to the State, metropolitan city or urban county. If an allocation to a metropolitan city or urban county would be less than 0.05 percent of the total fiscal year appropriation for ESG, the amount is added to the allocation of the State in which the city or county is located. If the recipient or subrecipient is a unit of general purpose local government, its ESG funds cannot be used to replace funds the local government provided for street outreach and emergency shelter services during the immediately preceding 12-month period, unless HUD determines that the unit of general purpose local government is in a severe financial deficit in accordance with 24 CFR 576.101(c).

Matching Requirements: Metropolitan city and urban county recipients must match grant funds with an equal amount of funds from cash or the following in-kind sources: services contributed by volunteers, the donation of materials and buildings, or the value of any lease on a building. States must match all but \$100,000 of their awards, but must pass on the benefit of that \$100,000 exception to their sub-recipients that are least capable of providing matching amounts. Territories are exempt from the match requirement.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Metropolitan cities, urban counties and territories must obligate all funds, except for the amount for administrative costs, within 180 days after HUD signs the grant agreement. States must obligate all funds, except the amount for administrative costs, to subrecipients within 60 days after the date that HUD signs the grant agreement. Each subrecipient that is a unit of general purpose local government must obligate its grant funds within 120 days after the date the State obligates its funds. All grant funds must be expended within 24 months after HUD signs the grant agreement with the recipient. Method of awarding/releasing assistance: by letter of credit.

Reports:

Each recipient must report its program accomplishments for each program year in the Consolidated Annual Performance and Evaluation Report (CAPER). Each recipient's efficient expenditure of grant funds is evaluated through information provided in the program management's information system, known as the Integrated Disbursement and Information System (IDIS). Each recipient must also comply with the reporting requirements under the Federal Funding Accountability and Transparency Act of 2006, (31 U.S.C. 6101 note), which are set forth in appendix A to 2 CFR part 170. Monitoring is "risk-assessment based" with high-risked grantees receiving priority status for monitoring and review. The performance report shall be submitted to HUD within 90 days after the close of the jurisdiction's program year. Recipients draw down ESG funds from the Integrated Disbursement and Information System (IDIS). This is HUD's primary method of capturing financial and expenditure data from the recipients. Progress reports are not applicable. Through the CAPER and IDIS draw down information, recipients provide reports on expenditures. In accordance with 24 CFR Part 85, recipients are required to monitor their subrecipients for compliance with the ESG requirements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Sufficient records must be established and maintained to enable the recipient and HUD to determine whether ESG requirements are being met. All records pertaining to each fiscal year of ESG funds must be retained for the greater of 5 years or the period specified under 24 CFR 576.500(y).

TYPES OF ASSISTANCE:

GUARANTEED/INSURED LOANS

USES AND USE RESTRICTIONS:

For purposes of determining eligibility, the Community Development Block Grant (CDBG) rules and requirements apply. As with the CDBG program, all projects and activities must either principally benefit low- and moderate-income persons, aid in the elimination or prevention of slums and blight, or meet urgent needs of the community. The guaranteed loan funds are subject to restrictions that are imposed under annual appropriations bills. The assistance is also subject to restrictions that preclude the direct or indirect guarantee of tax-exempt financing. The public entity may be the borrower or it may designate a public agency to be the borrower. Furthermore, HUD's FY 2016 appropriations act continues HUD's authority to provide loan guarantees to States borrowing on behalf of local governments in nonentitlement areas.

Beneficiary Eligibility:

The principal beneficiaries are low and moderate income persons.

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. 14.259 COMMUNITY COMPASS TECHNICAL ASSISTANCE AND CAPACITY BUILDING

Community Compass TA

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

This program is authorized under: Consolidated Appropriations Act, 2016

(Public Law 114-113, approved December 18, 2015), the Native American Housing Assistance and Self-Determination Act of 1996 (25 U.S.C. 4111 et seq.), the Negotiated Rulemaking Act (5 U.S.C. 565(c)), Section 6(j)(3) of the United States Housing Act of 1937 (42 U.S.C. 1437d(j)(3)) and Section 17 and 18 of the Annual Contributions Contract (HUD 53012A 7/95), McKinney-Vento Homeless Assistance Act, 42 U.S.C. 11361b and 42 USC 11408, and Multifamily Assisted Housing Reform and Affordability Act (MAHRA) of 1997 (P.L. 105-65), 42 USC 1437f; as amended by H.R. 2684 (Public Law 106-74).

OBJECTIVES:

Community Compass is HUDs integrated technical assistance and capacity building initiative. Community Compass is designed to help HUDs customers navigate complex housing and community development challenges by equipping them with the knowledge, skills, tools, capacity, and systems to implement HUD programs and policies successfully and be more effective stewards of HUD funding. The goal of Community Compass is to empower communities by providing effective technical assistance and capacity building so that successful program implementation is sustained over the long term. Recognizing that HUDs customers often interact with a variety of HUD programs as they deliver housing or community development services, Community Compass brings together technical assistance investments from across HUD program offices, including the offices of Community Planning and Development, Fair Housing and Equal Opportunity, Housing, and Public and Indian Housing. This cross-funding approach allows technical assistance to address the needs of grantees and subgrantees across multiple HUD programs, often within the same engagement, as well as address cross-agency issues.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

All successful applicants must operate within the structure of the demand-response system. Under the demand-response system, HUD identifies technical assistance and capacity building needs and prioritizes them based on Departmental, programmatic and jurisdictional priorities. HUD is solely responsible for determining the entities to be assisted, the location, and the nature of the assistance to be provided.

Successful applicants may be funded to conduct the following eligible activities: Needs Assessment; Direct TA and Capacity Building Engagements; Tools and Products; Self-Directed and Group Learning; Knowledge Management; Data Analysis, Reporting, and Performance Measurement; and NAHASDA Allocation Formula Administration and Negotiated Rulemaking and Consultation. These activities are further described in the Program Notice of Funding Availability. Funds may only be used to assist organizations to improve their ability to manage HUD funds. Funds may not be used to assist individuals or families.

Applicant Eligibility:

Awardees tasked to provide technical assistance to PHAs must have at least 1 staff, subcontractor, or consultant that has at least five years of demonstrated Public Housing programs experience, including agency operations, voucher programs, property management operations, and capital investment programs including capital improvements and various methods of housing development. In addition, awardees tasked to provide technical assistance to PHAs must have at least 1 staff, subcontractor, or consultant that has at least two years of demonstrated finance and underwriting experience as related to RAD conversions.

Funds may only be used to assist organizations to improve their ability to manage HUD funds. Funds may not be used to assist individuals or families.

Beneficiary Eligibility:

Selected providers will be deployed as HUD deems most necessary across the country to assist organizations receiving HUD funds to improve performance and management of HUD funds.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All applicants are required to submit a one-page application summary cover page with the application. The requested funding amount should be based on the number of available staff, the range and quality of their skills and knowledge, and the ability of the applicant to manage these resources to successfully execute multiple TA or capacity building engagements involving several covered programs simultaneously over a three-year period and indicate if the organization is a small business.

Award Procedure:

Applications are reviewed and scored. Applications will be listed in ranked order. The amount awarded to applications ranked within the fundable range will take into consideration the amount of funds available, the final score assigned to the application by HUD reviewers, and HUD's overall technical assistance needs, including establishing a range of subject matter expertise and geographic coverage, as well as an applicants capacity to serve HUD's customers across multiple programs or topics. For prior awardees, HUD may consider information from a Contracting Officer, GTR, GTM, POTAC, and/or other HUD staff as appropriate on past performance, as well as award balances not committed to TA tasks or work plans. These considerations may reduce an applicant's award. There may be insufficient funds available to make an award to every application scoring within the fundable range.

HUD will send written notifications to both successful and unsuccessful applicants. A notification sent to a successful applicant is not an authorization to begin performance. Upon notification that an applicant has been selected for award, HUD will request additional information to be submitted or may work with the applicant to amend information that was already submitted as part of the application.

Deadlines:

May 19, 2016 to Jul 19, 2016 Applications submitted through <http://www.grants.gov> must be received by Grants.gov no later than 11:59:59 pm eastern time on the application deadline date.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Not Applicable.

Initial awards are for a three-year period and do not require continuation or renewal applications.

Annual applications are required for new funding.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.

See the following for information on how assistance is awarded/released: After selection for funding, but prior to award, applicants must submit financial and administrative information to comply with the cooperative agreement provisions. The requirements at 2CFR part 200 govern the selection of applicants and all awards executed pursuant to this NOFA, including commercial/for-profit entities. Prior to award execution, applicants must submit a certification from an Independent Public Accountant or the cognizant government auditor, stating that the applicants financial management system meets prescribed standards for fund control and accountability.

14.269 HURRICANE SANDY COMMUNITY DEVELOPMENT BLOCK GRANT DISASTER RECOVERY GRANTS (CDBG-DR)

Community Development Block Grant Disaster Recovery program for Hurricane Sandy and other qualifying disasters occurring in 2011, 2012 and 2013

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 Public Law 113.2, Public Law 113-2.

OBJECTIVES:

The overall CDBG program objective is to develop viable urban communities, by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate

income. CDBG DR program funds appropriated by P.L. 113-2 are for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declaration due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipients may undertake a wide range of activities directed toward addressing unmet needs of disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization. However, CDBG DR funds may not be used for activities reimbursable by other sources of funds, such as those made available by the Federal Emergency Management Agency, the Army Corps of Engineers, or private insurance. Grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities and develop their own programs and funding priorities as long as programs/activities conform to the statutory standards and program regulations. Some of the specific activities that can be carried out with Community Development Block Grant Disaster recovery (CDBG DR) funds include buying damaged properties in a flood plain and relocating residents to safer areas; relocation payments for people and businesses displaced by the disaster; debris removal not covered by FEMA; rehabilitation of homes and buildings damaged by the disaster; buying, constructing, or rehabilitating public facilities such as streets, neighborhood centers, and water, sewer and drainage systems; code enforcement; homeownership activities such as down payment assistance, interest rate subsidies and loan guarantees for disaster victims; public services (generally limited to no more than 15 percent of the grant); helping businesses retain or create jobs in disaster impacted areas; and planning and administration costs (limited to no more than 20 percent of the grant). Eligible activities must meet at least one of three program national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other urgent community development needs because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available. CDBG Disaster Recovery grants primarily benefit low-income residents in and around communities that have experienced a natural disaster. At least 50 percent of each grantee's CDBG-DR grant award must be used for activities that benefit low- and moderate-income (LMI) persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the population are of low- and moderate-income. Recipients may contract with other local agencies or nonprofit organizations to carry out components of their programs. Grantees must meet the 50 percent LMI expenditure requirement unless a waiver has been requested by the grantee and approved by HUD. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or for which a waiver or alternative requirement has been granted by the Secretary, based upon a determination that good cause exists and that the waiver or alternative requirement is not inconsistent with the overall purposes of Title I of the HCD Act.

Applicant Eligibility:

CDBG Disaster Recovery funds are made available to States and units of general local governments designated by the President of the United States as disaster areas. These communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program (usually these are governments that already receive HOME or Community Development Block Grant allocations). Grantees may use CDBG Disaster Recovery funds for recovery efforts involving housing, economic development, infrastructure and prevention of further damage to affected areas. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers.

Beneficiary Eligibility:

The principal beneficiaries of CDBG DR funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD) in

communities that have experienced a disaster event. At least 50 percent of each grantee's CDBG-DR grant award must be used for activities that benefit low- and moderate-income (LMI) persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the population are of low- and moderate-income. Grantees must meet the 50 percent LMI expenditure requirement unless a waiver has been requested by the grantee and approved by HUD.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. 2 CFR 225, Cost Principles for State, Local, and Indian Tribal Governments (previously OMB Circular A-87) applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

As a condition of making any grant under this appropriation, the Secretary is required to certify in advance that grantees have in place proficient financial controls and procurement processes and have established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit an Action Plan for Disaster Recovery, SF Form 424, and certifications to HUD. In the Action Plan for Disaster Recovery, grantees must describe uses and activities that are authorized under Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) (HCD Act) or allowed by a waiver or alternative requirement published in the federal register notice covering the grant funds and also respond to a disaster-related impact. HUD reviews grantee Action Plans within 45 days of receipt and approves the Plan according to criteria identified in the federal register notice covering the grant funds.

Award Procedure:

P.L. 113-2 provides that funds shall be awarded directly to a State or unit of general local government (UGLG) at the discretion of the Secretary. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, the Department computed direct allocations to eligible grantees totaling \$14,181,892,000 based on the best available data that cover all the eligible affected areas. States and local governments receiving a CDBG DR allocation may carry out programs and/or activities directly or through subrecipients, including local governments, governmental agencies, and non-profit entities. The remaining \$999,108,000 appropriated under P.L. 113-2 will be awarded to eligible grantees based on a competition. These funds will be allocated under a separate CFDA number (14.272).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

After a grantee receives an allocation under a published Federal Register notice, it must submit an initial Action Plan for Disaster Recovery within a time frame specified in the specific applicable Federal Register Notice.

Appeals:

Administrative appeals process followed if grant funds are withheld or reduced, or repayment proposed for non-compliance or non-performance.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter 570. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, HUD computed allocations based on the best available data

that cover all the eligible affected areas. P.L. 113-2 specifies that the CDBG DR funds be used for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster and further specifies that the funds are not to be used for activities reimbursable by other available forces of funds such as FEMA, the Corps of Engineers, or private insurance.

For this allocation, similar to prior CDBG DR allocations, the Department makes a determination of unmet needs by estimating unmet needs related to the main intended uses of the funds, including restoration of housing, economic revitalization, and restoration of infrastructure. These estimated needs are then summed together and an allocation is made among the grantee universe based on their proportional share of unmet needs.

This program has no matching requirements. This program has no matching requirements.

This program does not have MOE requirements. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

To ensure the timely expenditure of funds, section 904(c) under Title IX of P.L. 113-2 that all funds be expended within two years of the date HUD obligates funds to a grantee (funds are obligated to a grantee upon HUD's signing of the grantees CDBG DR grant agreement). Action Plans must demonstrate how funds will be fully expended within two years of obligation. For any funds that the grantee believes will not be expended by the deadline, it must submit a letter to HUD justifying why it is necessary to extend the deadline for a specific portion of funds. Additionally, P.L. 113-2 requires that HUD obligate all funds provided under Chapter 9, Community Development Fund, not later than September 30, 2017. Method of awarding/releasing assistance: by letter of credit.

Reports:

HUD requires grantees to enter information in HUD's Disaster Recovery Grant Reporting (DRGR) system in sufficient detail to permit the Department's review of grantee performance. No cash reports are required. Each grantee must submit a Quarterly Performance Report (QPR) through the DRGR system not later than 30 days following the end of each calendar quarter. Quarterly reports include information on obligations, expenditures, drawdowns, and accomplishments for all grantee activities. HUD reviews these quarterly reports to assess grantee compliance and performance. The Quarterly Performance Report (QPR), submitted by grantees on a quarterly basis through HUD's Disaster Recovery Grant Reporting (DRGR) system includes information on expenditures for all their activities. The Department performs regular performance monitoring of grantees both remotely and through on-site reviews. The Department determines on-site monitoring priorities based on a risk-analysis of the grantees portfolio of activities or known high-risk areas. For all headquarter-held grants under this appropriation, HUD conducts at least two on-site monitoring reviews each year.

The Office of Community Planning and Development's CPD Notice CPD-12-02, Implementing risk Analysis for Monitoring Community Planning and Development Grant Programs describes the Department's risk analysis process. Monitoring exhibits can be found in Chapter 6 of HUD's Community Planning and Development (CPD) Grantee Monitoring Handbook.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The auditee may elect to have a program-specific audit conducted under certain limited circumstances. CDBG DR grantees shall make reviews and audits, including onsite reviews of any subrecipients, designated public agencies, and UGLGs, as may be necessary or appropriate to meet the requirements of 42 U.S.C. 5304(e)(2), as amended, and as modified by the federal notice covering grant funds. Additionally, grantees must have an internal audit function in place for the detection of fraud, waste, and abuse where the responsible audit staff report independently to the chief officer or board of the organization designated to administer the CDBG DR award.

Records:

Grantees must maintain records with regard to eligibility, national objectives, financial management, citizen participation, relocation, other resources, acquisition, housing assistance to dwelling units and households, equal opportunity, environmental impact, labor standards and other requirements set forth in the program regulations. Records shall be retained for a period of three years from closeout of the grant, except as otherwise prescribed in the regulations.

14.272 NATIONAL DISASTER RESILIENCE COMPETITION

Community Development Block Grant P. L. 113-2

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 Public Law 113-2., Public Law 113-2.

OBJECTIVES:

The overall CDBG program objective is to develop viable urban communities, by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate income. The National Resilient Disaster Competition program funds appropriated by P.L. 113-2 are available for resilient recovery projects and necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declared pursuant to the due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The competition will support innovative resilience projects at the local level while encouraging communities to adopt policy changes and activities that plan for the impacts of extreme weather and rebuild affected areas to be better prepared for the future. The competition underscores the ability communities have to not only recover from recent disasters but also rebuild better and stronger for the future. It will allow them to engage local stakeholders, nongovernmental organizations and the philanthropic sector to protect their own communities from the impacts of climate change by enhancing resilient infrastructure, building on sound science, and deploying innovative approaches to investments. These funds will enable eligible communities to access resources that help both recover from the previous disaster and make plans, decisions, and investments that make them more resilient to the next disaster. Recipients may undertake a wide range of activities directed toward disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers. Grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities and develop their own programs and funding priorities as long as programs/activities conform to the statutory standards and program regulations. Some of the specific activities that can be carried out with Community Development Block Grant Disaster recovery (CDBG DR) funds include buying damaged properties in a flood plain and relocating residents to safer areas; relocation payments for people and businesses displaced by the disaster; debris removal not covered by FEMA; rehabilitation of homes and buildings damaged by the disaster; buying, constructing, or rehabilitating public facilities such as streets, neighborhood centers, and water, sewer and drainage systems; code enforcement; homeownership activities such as down payment assistance, interest rate subsidies and loan guarantees for disaster victims; public services (generally limited to no more than 15 percent of the grant); helping businesses retain or create jobs in disaster impacted areas; and planning and administration costs (limited to no more than 20 percent of the grant). Eligible activities must meet at least one of three program national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other urgent community development needs because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available. CDBG Disaster Recovery grants primarily benefit low-income residents in and around communities that have experienced a natural disaster. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low- and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the populous are of low- and moderate-income. HUD can only waive this requirement on a showing of compelling need." Recipients may contract with other local agencies or nonprofit organizations to carry out components of their programs. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or for which a waiver or alternative requirement has been granted by the Secretary, based upon a determination that good cause exists and that the waiver or alternative requirement is not inconsistent with the overall purposes of Title I of the HCD Act.

Applicant Eligibility:

CDBG DR competitive funds are made available to States and units of general local governments designated by the President of the United States as disaster areas. These communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program (usually these are governments that already receive HOME or Community Development Block Grant allocations). Grantees may use CDBG Disaster Recovery funds for recovery efforts involving housing, economic development, infrastructure and prevention of further damage to affected areas. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers.

Beneficiary Eligibility:

The principal beneficiaries of CDBG DR funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD) in communities that have experienced a disaster event. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low- and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the population are of low- and moderate-income. HUD can only waive this requirement on a showing of compelling need."

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

As a condition of making any grant under this appropriation, the Secretary is required to certify in advance that grantees have in place proficient financial controls and procurement processes and have established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit a comprehensive application to be considered for funding, SF Form 424, and certifications to HUD. The Application must meet the criteria of the NOFA and must identify the proposed use(s) of the grantees allocation, including criteria for eligibility, and how the uses address long-term recovery needs. Application for CDBG-RDR waiver and alternative requirement. The requirements for CDBG actions plans, located at 42 U.S.C. 12705(a)(2), 42 U.S.C. 5304(a)(1), 42 U.S.C. 5304(m), 42 U.S.C. 5306(d)(2)(C)(iii), 24 CFR 91.220, and 91.320 are waived for funds provided under the Appropriations Act. Instead, each grantee must submit to HUD an Application for CDBG-RDR. During the course of the grant, HUD will monitor the grantees actions and use of funds for consistency with the application, and meeting the performance and timeliness objectives therein and in this Attachment A. Per the Appropriations Act, and in addition to the requirements at 24 CFR 91.500, the Secretary may disapprove an amendment to an application if it is determined that the amended application does not satisfy all of the required elements identified in this NOFA.

Award Procedure:

See NOFA or contact the headquarters office.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

To ensure the timely expenditure of funds, section 904(c) under Title IX of P.L. 113-2 requires that all funds be expended within two years of the date HUD obligates funds to a grantee (funds are obligated to a grantee upon HUD's

signing of the grantees CDBGDR grant agreement). Action Plans must demonstrate how funds will be fully expended within two years of obligation. For any funds that the grantee believes will not be expended by the deadline, it must submit a letter to HUD justifying why it is necessary to extend the deadline for a specific portion of funds. Additionally, P.L. 113-2 requires that HUD obligate all funds provided under Chapter 9, Community Development Fund, not later than September 30, 2017. However, NDR grantees have requested extensions of the expenditure deadline up until September 30, 2022. Those expenditure extensions will be published in a subsequent expenditure Federal Register notice. Method of awarding/releasing assistance: by letter of credit.

Reports:

HUD requires grantees to enter information in HUD's Disaster Recovery Grant Reporting (DRGR) system in sufficient detail to permit the Department's review of grantee performance on a quarterly basis through a Quarterly Performance Report (QPR). HUD reviews these quarterly reports to assess grantee compliance and performance. Quarterly reports include information on obligation, expenditures, drawdowns, and accomplishments for all grantee activities. Each grantee must submit a QPR through the DRGR system no later than 30 days following the end of each calendar quarter. Cash reports are not applicable. The Quarterly Performance Report (QPR), submitted by grantees on a quarterly basis through HUD's Disaster Recovery Grant Reporting (DRGR) system include information on expenditures for all their activities. The Quarterly Performance Report (QPR), submitted by grantees on a quarterly basis through HUD's Disaster Recovery Grant Reporting (DRGR) system include information on expenditures for all their activities. The Department performs regular performance monitoring of grantees both remotely and through annual on-site reviews. The Department determines on-site monitoring priorities based on a risk-analysis of the grantees portfolio of activities or known high-risk areas. For all Headquarters-held grants under this appropriation, HUD staff will conduct at least one annual on-site monitoring review.

The Office of Community Planning and Development's CPD Notice CPD -12-02, 'Implementing Risk Analyses for Monitoring Community Planning and Development Grant Programs' describes the Department's risk analysis process. Monitoring exhibits can be found in Chapter 6 of HUD's Community Planning and Development (CPD) Grantee Monitoring Handbook.

Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The auditee may elect to have a program-specific audit conducted under certain limited circumstances. Additionally, grantees must have an internal audit function in place for the detection of fraud, waste, and abuse where the responsible audit staff report independently to the chief officer or board of the organization designated to administer the CDBGDR award.

14.311 SINGLE FAMILY PROPERTY DISPOSITION

FEDERAL AGENCY:

Office of Housing-Federal Housing Commissioner, Department of Housing and Urban Development

AUTHORIZATION:

National Housing Act, as amended 12 U.S.C. 1710, Sections 203(b), 203(k), 204, 24 CFR 291.

OBJECTIVES:

To sell the inventory of HUD-acquired properties in a manner that expands home ownership opportunities, strengthens neighborhoods and communities, and ensures a maximum return to the FHA mortgage insurance fund.

TYPES OF ASSISTANCE:

SALE, EXCHANGE, OR DONATION OF PROPERTY OR GOODS

USES AND USE RESTRICTIONS:

The Single Family Property Disposition Program is the marketing and sale of one to four unit properties acquired by HUD after foreclosure of an FHA-insured or Secretary-Held mortgage. Within the general program there are special disposition programs through which a portion of the property inventory is sold. These programs include Good Neighbor Next Door Sales program for law enforcement officers, teachers and firefighters/emergency medical technicians, Discount Sales to Nonprofits and Local Governments program and Dollar HOME Sales to Local Governments program. Information for each of these programs is covered separately. The majority of foreclosed one to four unit properties are sold through the general disposition program. HUD contracts with private companies to manage and market the properties. Properties are listed at HUD's website located at <http://hudhomestore.com/Home/Index.aspx>, where links are provided to the listings for each state. The listings provide the list price of the property, the property address, a brief description of the property and access to a Property Condition Report prepared by the contractor. Complete information explaining the sales process and earnest money requirements is also available. Bids must be submitted electronically by a real estate broker. An earnest money deposit is required with each bid submitted. Special opportunities are available for bidders who intend to occupy purchased properties as their principal residence. Properties not purchased during this Exclusive Listing Period are then available for the general public, including investors, during an Extended Listing Period. FHA financing may be available for purchasing many homes, including the FHA 203(k) program providing a loan to purchase a property and pay for repairs or improvements as permitted by FHA rules. Interested persons should contact their FHA approved lender. Refer to <http://www.hud.gov/ll/code/llplicit.html> for assistance in locating a lender.

Applicant Eligibility:

Local Governments and Nonprofit Organizations: HUD contractors in the specific area should be contacted regarding eligibility requirements. Contact HUD at Toll free: (800) CALL FHA or (800) 225-5342 for a listing of nationwide HUD contractors. You can also visit: http://portal.hud.gov/hudportal/HUD?src=/program_offices/housing/sfh/reo/mm/mminfo for the contact information for the M&M contractors. FHA Insured Financing: Generally, anyone who has a satisfactory credit rating; enough cash to close the loan; sufficient, steady income to make the monthly payments without difficulty; and who will live in the home can be approved for an FHA

insured mortgage. Income is only one of several factors that apply in the lending process. Interested buyers should contact their lender for more information.

14.314 ASSISTED LIVING CONVERSION FOR ELIGIBLE MULTIFAMILY HOUSING PROJECTS

(ALCP)

FEDERAL AGENCY:

Office of Housing-Federal Housing Commissioner, Department of Housing and Urban Development

AUTHORIZATION:

Section 202b of the Housing Act of 1959, as amended by the Section 202 Supportive Housing for the Elderly Act of 2010 (Public Law 111-372), 12 U.S.C 1701q-2.

OBJECTIVES:

To preserve the current elderly housing stock by converting units with a grant into Assisted Living Facilities (ALFs) or Service-Enriched Housing (SEH) for the frail elderly aging in place, as defined in Section 232(B)(6) of the National Housing Act and 202(k). The program is expected to promote aging in place and prevent premature institutionalization of the target population.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Assisted living facilities (ALFs) are designed to accommodate frail elderly persons and people with disabilities who can live independently but need assistance with activities of daily living (that is, assistance with eating, bathing, grooming, dressing and home management activities.) ALFs must provide support services such as personal care, transportation, meals, housekeeping, and laundry. Service-Enriched Housing (SEH) is housing that is designed to accommodate frail elderly persons or elderly persons with service needs who are aging in place. Residents are able to live independently but need assistance with activities of daily living comparable to services typically provided in a licensed assisted living facility, such as healthcare-related services. These supportive services must be available through a licensed or certified third party service provider. Typical funding will cover basic physical conversion of existing project units, as well as related common and services space. The ALCP provides funding for the physical costs of converting some or all of the units of an eligible development into an ALF or SEH, including unit configuration, common and services space and any necessary remodeling, consistent with HUD or the State's statute/regulations (whichever is more stringent). There must be sufficient community space to accommodate a central kitchen or dining facility, lounges, recreation and other multiple-areas available to all residents of the project, or office/staff spaces in the ALF or SEH. Funding for the supportive services must be provided by the owners, either directly or through a third party.

Applicant Eligibility:

Only private nonprofit owners of eligible multifamily assisted housing developments specified in Section 683(2)(B), (C), (D), (E), and (F) (Section 202 projects for the elderly, Rural Housing Section 515 projects receiving Section 8 rental assistance, projects receiving project-based rental assistance under Section 8, projects financed by a below-market interest rate loan or mortgage insured under Section 221(d)(3) of the Housing Act, or housing financed under Section 236 of the National Housing Act) that have been in occupancy for at least five years are eligible for funding. To be eligible, owners must meet the following criteria: (1) Must be in compliance with Loan Agreement, Capital Advance Agreement, Regulatory Agreement, Housing Assistance Payment Contract, Project Rental Assistance Contract, Rent Supplement or LMSA Contract, or any other HUD grant or contract document; (2) Must be in compliance with all fair housing and civil rights laws, statutes, regulations, and executive orders as enumerated in 24 CFR 5.105(a).

Beneficiary Eligibility:

Eligible residents who meet the admissions/discharge requirements as established for assisted living by State and local licensing, or HUD frailty requirements under 24 CFR 891.205 if more stringent. The residents must be able to live independently but may need assistance with activities of daily living

(that is, assistance with eating, bathing, grooming, dressing and home management activities).

Service-Enriched Housing is designed to accommodate elderly persons and people with disabilities with a functional limitation, meaning residents who are unable to perform at least one activity of daily living.

Credentials/Documentation:

Assisted Living Facilities must be licensed and regulated by the State (or if there is no State law providing such licensing and regulation, by the municipality or other subdivision in which the facility is located). For Service-Enriched Housing, supportive services must be available through a licensed or certified third party service provider. For both ALF and SEH, the application must include a firm commitment for the supportive services to be offered at the ALF or SEH as part of the application. The Notice of Funding Availability contains all the necessary information for applicants to apply for the grant. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Applicants applying to convert to an ALF must have contacted the State licensing agency for such a project to determine if the proposed project will meet state licensing requirements. The Supportive Service Plan (SSP) is required for the ALF and SEH, the plan should include services and coordination of the supportive services which will be offered in the ALF or SEH must be developed and submitted to the appropriate State or local organization. Applicants must comply with all applicable statutory requirements and statutory requirements under Section 232(b)(6) prior to application submission. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." At the end of the technical review, all applications will be either rated or technically rejected. If an application meets all program eligibility requirements after completion of the technical review, it will be rated according to the rating selection factors. The number of points that an application receives will depend on the extent to which the application is responsive to the information requested in the selection criteria. The maximum number of points an application may receive under this program is 102.

PBCA Program

FEDERAL AGENCY:

Office of Housing-Federal Housing Commissioner, Department of Housing and Urban Development

United States Housing Act of 1937 , Section 8b1,3b6A.

OBJECTIVES:

The purpose of HUDs PBCA program is to implement the policy of the United States, as established in section 2 of the 1937 Act, of assisting States and their political subdivisions (e.g., PHAs) for aiding lower income families in obtaining a decent place to live and of promoting economically mixed housing, assistance payments may be made with respect to existing housing in accordance with the provisions of the above reference section. The PBCA program furthers these policies by effectuating authority explicitly under

section 8(b)(1) of the 1937 Act for HUD to enter into ACCs with PHAs for the administration of Section 8 HAP contracts. For the project-based subprograms authorized under Section 8, the 1937 Act authorizes HUD to enter into an ACC with a PHA, as defined in section 3(b)(6)(A) of the 1937 Act. The ACC is the contractual mechanism to support the PHAs public purpose in making assistance payments to Section 8 project owners. This program will provide assistance to PHAs for the administration of Project-Based Section 8 program within a State. The objective is to have a contract administrator for all states.

TYPES OF ASSISTANCE:

HUD will accept applications to provide contract administration services for the 42 States, which are listed in Appendix A of the program Notice of Funding Availability (NOFA). State is defined in the ACC as one of the fifty United States, the District of Columbia, the United States Virgin Islands, or the Commonwealth of Puerto Rico. Please note that there have been 11 PHAs selected for PBCAs in a previous competition. HUD has already entered into an ACC with those PHAs. Entities applying to serve as PBCA in more than one State must submit a separate application for each State for which it applies. See program NOFA for more information. HUD may enter into an ACC for the administration of a project-based Section 8 HAP contract with a legal entity that qualifies as a public housing authority as defined under section 3(b)(6)(a) of the Housing Act of 1937.

Beneficiary Eligibility:

Families currently receiving assistance as long as their income does not exceed 80 percent of area median income adjusted for family size.

Credentials/Documentation:

AUTHORIZATION:

Fixing Americas Surface Transportation Act, 2015, Title LXXXI, Section 81001, Public Law 114-94.

OBJECTIVES:

1. Save taxpayer money by installing energy and water conservation retrofits in up to 20,000 units of HUD-assisted multifamily affordable housing.
2. Develop a Pay For Success model for funding and delivering energy and water conservation improvements within HUDs assisted multifamily portfolio that is attractive to Intermediaries and property owners and practical for HUD to administer
3. Evaluate the effectiveness of energy and water conservation retrofits overseen by Intermediaries, especially at keeping utility consumption at lower levels in the years following the installation of these measures.
4. Identify lessons learned and best practices in order to assess the feasibility of scaling up and replicating this approach to achieving energy and water conservation given the characteristics of HUD-assisted multifamily housing, HUDs statutory and regulatory framework, and the resources available to both HUD and property owners to address this problem.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use (Cooperative Agreements)

USES AND USE RESTRICTIONS:

HUD will make performance-based payments to entities serving as Intermediaries under a cooperative agreement executed with the agency. Payments will cover the costs incurred as part of energy and water conservation retrofits overseen by the Intermediaries at HUD-assisted multifamily properties, including but not limited to costs related to: recruitment of properties for participation under the cooperative agreement, development of scopes of work for participating properties, development of architectural/engineering specifications, and purchase and installation of energy and water conservation equipment. Payments may also be applied to capital costs for financing used by the Intermediary.

Applicant Eligibility:

HUD-assisted multifamily properties.

Beneficiary Eligibility:

HUD is the primary beneficiary of this program; energy and water conservation retrofits undertaken by program Intermediaries will result in lower utility costs for the agency once the cooperative agreements have terminated. Secondary beneficiaries are residents of the HUD-assisted multifamily properties receiving retrofits.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Award Procedure:

Entities selected by HUD to serve as Intermediaries under this program will enter into a cooperative agreement with HUD. Once savings from retrofits overseen by an Intermediary materialize, are verified, and are reported to HUD by the Intermediary, HUD will make payments based the amount saved. Payments based on savings will continue throughout the period of performance of the cooperative agreement.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

14.534 STRONG CITIES STRONG COMMUNITIES (SC2) NATIONAL RESOURCE NETWORK

FEDERAL AGENCY:

Office of Policy Development and Research, Department of Housing and Urban Development

AUTHORIZATION:

Consolidated and Further Continuing Appropriations Act, 2012: This program is approved by HUDs authority and administered under the Transformation Initiative (TI) account. , Public Law 112-55.

OBJECTIVES:

The purpose of the SC2 National Resource Network is to help strengthen local communities and spur economic growth. The SC2 Network will provide economically distressed communities with short-term technical assistance in basic operational areas as well as programmatic issues, dictated by local need. In addition, the SC2 Network will aggregate public and private resources to serve a wide range of governments and connect them through a peer-to-peer learning network.

The objectives of the programs are as follows:

Provide communities facing long-term economic challenges with easily

accessible and comprehensive technical assistance that can help retool them for future economic growth;

Build capacity in distressed communities by connecting them with philanthropic organizations, non profits, public and private sector entities to facilitate long-term partnerships and economic investments;

Develop a set of best practices and policy recommendations that can be disseminated and shared across all communities facing similar economic challenges;

Improve the alignment of federal resources as well as strengthen federal and local partnerships.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Eligible costs include: salaries for program staff and technical experts, traveling expenses, expenses related to the eligible activities in the NOFA such as providing operational assessments, developing the clearinghouse and Peer to Peer network, tracking performance metrics, building Local Resource Networks, and evaluating the program. 1) Funding will only be provided to applicants who meet the standards for eligible applicants.

2) Funds will not be used to pay for activities outside the scope of the NOFA.

3) Grant funds awarded under this program may not be used to pay for computer hardware.

4) Honorariums cannot be charged against awards under this program.

5) An organization may not provide assistance to itself.

6) An organization may not provide assistance to another organization with which it contracts or sub-awards funds to carry out activities under this award.

7) No fee or profit may be paid to any recipient or contractor of an award under this NOFA.

8) Contractors providing technical assistance/capacity building services/products are not consultants and thus are not subject to the salary provisions applicable to consultants in the FY2012 General Section. HUD will determine whether the salary rates are reasonable and customary for the skill set provided and the area(s) being served.

Applicant Eligibility:

The grantee of the SC2 Network, will have five categories of eligible activities:

1. Structure Development: Develop the SC2 Network structure that would include a team of expert technical service providers (pro bono or paid) that represent the breadth of relevant expertise needed to address the long-term economic challenges of communities. This responsibility also includes developing a Peer-to-Peer network to share lessons learned and best practices.

2. Engagement: Develop the engagement strategy for how the network will assist economically-distressed cities. This responsibility also includes systematizing how cities are engaged, prioritizing the level of assistance for each city, and matching the level of assistance based on the needs of each city.

3. Capacity building: Increase the capacity of participating governments in the area of intervention, not just to provide a one-time service that they cannot replicate. This responsibility might also include establishing a Local Resource Network (LRN) for communities with potential private and philanthropic resources to sustain local capacity building over a longer term.

4. Evaluation: Carefully document and evaluate interventions to build a series of best practice strategies that can benefit places with similar challenges, and develop forums for sharing this knowledge.

5. Policy Recommendation: Identify for the SC2 Council how federal policy changes could help local governments better achieve their economic development visions, and other policies, systems, and practices that support holistic and sustainable economic development.

In addition to these five categories, the Administrator will also work with the other three components of SC2 (described under I.A.1. SC2 Components), as well as the SC2 Council (described under I.A.2 Executive Order) to meet the broad goals and objectives of the initiative.

Beneficiary Eligibility:

The grantee must also have a demonstrated ability to obtain other community, private sector, and federal resources that can be combined with HUDs program resources to achieve program objectives. In general, an ideal Administrator will have most or all of the following characteristics: Place-based: The selected applicant, buoyed by support of agencies and the philanthropic community, will have experience working in many distressed

communities, and will be able to match these communities to relevant technical experts quickly and efficiently.

Resource-maximizing: The selected applicant will have a national scope and will be well-accustomed to the challenge of distributing scarce resources across communities with distinct needs. The ability to effectively evaluate requests for service will be paramount to using the SC2 Networks resources to their greatest potential.

Nimble, responsive, and service-oriented: The SC2 Network will be designed to provide very timely assistance that can thoroughly understand and adapt to needs on the ground. Therefore, the selected applicant will have, or can quickly pull together a deep team of technical experts, and, when necessary, develop partnerships between experts on issues that require multiple skill sets and excellent customer service skills.

Objective: In some cases, procedures or regulations may be a barrier to local capacity building. The selected applicant will facilitate local partnering and provide honest feedback to HUD and the other SC2 agencies for relieving burdens on local governments, while retaining accountability for results.

Sustainable: The selected Administrator will have the nonprofit management expertise required to make the SC2 Network financially sustainable, and as an outside entity, can attract philanthropic funding and leverage HUDs investment several times over.
