As a steward of the Nation's natural and cultural heritage, the primary responsibility of the NPS is to preserve and protect park resources and values. The NPS actively manages and conducts research on natural resources in the national park system to meet its statutory responsibility to preserve these resources unimpaired for future generations.

The Natural Resource Stewardship program is the principle means through which the NPS evaluates and improves the health of watersheds, landscapes, and marine and coastal resources, sustains biological communities on the lands and waters in parks, and actively endeavors to improve the resiliency of these natural resources and adapt them to the effects of climate change.

The National Park Service (NPS) conducts natural resource stewardship largely at the park level, utilizing park personnel and contractor or cooperative support. To carry out and further this stewardship responsibility, the Service implements programs that encompass a broad range of research, operational, and educational activities. The NPS inventories, evaluates, documents, preserves, protects, monitors, maintains, and interprets the natural resources at 392 park units, 21 trails and 58 wild and scenic rivers. 15.957 HISTORIC PRESERVATION FUND GRANTS TO PROVIDE DISASTER RELIEF TO HISTORIC PROPERTIES DAMAGED BY HURRICANE SANDY

HPF Hurricane Sandy Relief Grant Program

FEDERAL AGENCY:

National Park Service, Department of the Interior

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 (P.L. 113-2)

National Historic Preservation Act, as amended, 16 U.S.C. 470(e) and (h), Establishment of Historic Preservation Fund

National Historic Preservation Act, as amended, 16 U.S.C. 470a(j). Develop and implement a comprehensive preservation education and training program.

OBJECTIVES:

The purpose of this supplemental funding is to provide technical assistance and emergency repairs to historic and archeological resources impacted by Hurricane Sandy. Only hurricane-related damage is eligible for grant assistance. The NPS will rely on the assessment and documentation of the SHPO offices to determine eligibility of storm damaged resources and eligible grant expenditures related to the storm damage.

TYPES OF ASSISTANCE:

Formula Grants; Project Grants

USES AND USE RESTRICTIONS:

Hurricane Sandy HPF relief grants must be used to preserve properties listed in or eligible for listing in the National Register of Historic Places. States may also use the funds for 1) hiring additional term, temporary, or contractor staff to enable the SHPOs to expeditiously conduct the reviews of all Federally funded or sponsored projects required by Section 106 of the National Historic Preservation Act, 2) providing technical assistance to local government officials and to all owners of properties listed in or considered eligible by the State Historic Preservation Officer for listing in the National Register of Historic Places; and 3) architectural/engineering plans and specifications, economic feasibility studies, survey and damage assessments, construction work to stabilize and repair historic and archeological properties, and survey of hurricane-damaged properties.

Applicant Eligibility:

Eligible applicants are State and Tribal Historic Preservation Offices located within areas receiving major disaster declarations from FEMA.

Beneficiary Eligibility:

States and Tribes.

Credentials/Documentation:

Award Procedure:

Using the FEMA major disaster declarations as a starting point for determining the method of apportioning the \$47.5 million, the NPS will divide the appropriation into two groups. Group 1 includes \$38 million and will be apportioned to the four States containing counties that FEMA designated as eligible to receive both Individual and Public Assistance Connecticut, New Jersey, New York, and Rhode Island. The remaining funds will comprise Group 2, and will be awarded to the remaining eight States, the District of Columbia, and any Federally-recognized Indian Tribes located in those States, through an application process and based on need as described in proposals submitted by the States and Tribes to the NPS. In apportioning the \$38 million from Group 1 that will be assigned to CT, NJ, NY, and RI, because State Historic Preservation Offices (SHPO) in those States have not yet completed damage assessments to historic properties, there is no single best method of determining need. Funds will be distributed using a formula that takes into account three evaluation factors, each having equal weight: 1) population of counties eligible for both IA and PA, 2) land area of counties eligible for both IA and PA , and 3) the number of properties listed in the National Register of Historic Places in counties eligible for both IA and PA.

AUTHORIZATION:

Violence Against Women Act, as amended, Public Law 109-162, 42 U.S.C 13925(b)(7)(B).

OBJECTIVES:

The purpose of the Research and Evaluation (R&E) Program is to further develop and make maximum use of the evidence base for approaches to combatting domestic violence, sexual assault, dating violence, and stalking. By generating more knowledge about strategies for serving victims and holding offenders accountable, communities that benefit from VAWA funding will be better equipped to align their work with practices that are known to be effective, and they will be more capable of generating empirical knowledge on the efficacy of new and promising ways of doing things. Because OVW has very limited funds to support research and evaluation, this program prioritizes topics for which a stronger evidence base would help OVW grantees use federal funds most effectively.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

OVW is interested in funding research and evaluation to generate knowledge in the six areas of study listed below:

1. Victims needs. How victimization and its aftermath affect peoples lives, especially people who are marginalized; and what they need to cope, heal, and achieve safety and justice
2. Cultures, disparities, and access. Ways that cultural differences and social inequalities matter in terms of where and to whom people go for help, and whether people are able to access justice and get services that are useful to them
3. Justice. Ways the justice system can effectively pursue and achieve justice in cases involving domestic/dating violence, sexual assault, and stalking; with justice broadly understood to include autonomy for victims, accountability for offenders, procedural fairness for all, and restorative justice
4. Impact. Short- and long-term impact of the justice systems response, victim services, and other VAWA-funded interventions on victim safety and offender accountability
5. Indicators of success. What success looks like and how to measure it for people who work with victims and offenders, for victims pursuing safety and justice, and for offenders being accountable for their violence
6. Prevention. How to prevent violence from happening.

Applicant Eligibility:

Eligible applicants are limited to: States (including territories), units of local government, federally recognized Indian tribal governments as determined by the Secretary of the Interior, nonprofit organizations (including tribal nonprofit organizations), institutions of higher education (including tribal institutions of higher education).

Beneficiary Eligibility:

This program prioritizes research on topics for which a stronger evidence base would help OVW grantees use federal funds most effectively.

Office of Juvenile Justice and Delinquency Prevention, Department of Justice

AUTHORIZATION:

FY15 (OJJDP CBVP) Pub. L. No. 113-235; 128 Stat. 2130, 2195.

OBJECTIVES:

To support and enhance the coordination of existing community-based violence prevention and intervention programs and strategies that are attempting to replicate models and strategies which have been proven to have a positive impact on the reduction of violence in target communities. The Community-Based Violence Prevention Program has three main goals: to change community norms regarding violence; to provide alternatives to violence when gangs and individuals in the community are making risky behavior decisions; and, to increase the perceived risks and costs of involvement in violence among high-risk young people. This Program will work with community-based organizations to develop and implement strategies to reduce and prevent violence, particularly shootings and killings. This will be accomplished by relying on outreach workers, clergy, and other community leaders to intervene in conflicts or potential conflicts and promote alternatives to violence. The Community-Based Violence Prevention Program will also involve law enforcement in its efforts and depends heavily on a strong public education campaign to instill in people the message that shootings and violence are not acceptable. Finally, the model calls for the strengthening of communities so they have the capacity to exercise informal social controls and to respond to issues that affect them, including community violence. These activities are organized into five core components that address both the community and those individuals who are most at risk of involvement in a shooting or killing: community mobilization, outreach, faith leader involvement, police participation and public education.

16.309 LAW ENFORCEMENT ASSISTANCE NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM

(NICS)

FEDERAL AGENCY:

Federal Bureau of Investigation, Department of Justice

AUTHORIZATION:

none.

OBJECTIVES:

To provide a system so that any Federal Firearm Licensee (FFL) could receive an immediate determination by telephone or by other electronic means, on whether receipt of a firearm and/or explosive by a prospective buyer would violate Federal or State laws.

TYPES OF ASSISTANCE:

PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

The NICS Operations Center conducts NICS background checks by analyzing and evaluating criminal history records to determine whether the transfer of a firearm to an individual may violate State or Federal law. The staff at the Operations Center provides technical and operational support to users, provides customer service to FFLs and State Point of Contacts (POCs), processes appeals of denied transactions, and prepares management and statistical reports on the operation of the NICS.

Applicant Eligibility:

All persons purchasing firearms.

Beneficiary Eligibility:

The Federal Firearm Licensees and American public.

Credentials/Documentation:

Initial request for services must be from a licensed and enrolled FFL. For checks performed by the FBI, FFLs may contact the NICS Section by telephone via a toll-free number or, electronically by the NICS E-Check via the Internet.

The FFLs will provide the required descriptive information requested on the Bureau of Alcohol, Tobacco, Firearms and Explosives Form 4473 and each background check is assigned a unique NICS Transaction Number. If a NICS background check results in no matching records, the transfer will be a proceed.

If one or more matching records are found, a NICS Legal Instruments Examiner (Examiner) will review the record(s) to determine if the subject of the record may be identical with the prospective purchaser and to determine if the record contains state and/or federal firearm prohibitive criteria which may prohibit the transfer of the firearm. If it is determined that prohibitive criteria exists, the NICS Examiner will advise the FFL to deny the firearm transaction. If potentially prohibitive criteria exists and more information is required in order to make the determination, the NICS Examiner will advise the FFL to delay the firearm transaction. When a transaction is delayed, the NICS Examiner begins extensive research on the potential prohibitor. The NICS Examiner will contact local, state, and federal law enforcement agencies and courts to resolve questions about an individual who appears to be prohibited from purchasing or possessing a firearm, as well as to request clarification regarding information in a prior record or disposition. When the research is complete, the NICS Examiner calls the FFL and gives a decision on the firearm transaction. Individuals who are denied the purchase of a firearm will be advised by the FFL of the process for appealing the denial decision if he/she believes it is incorrect. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE; PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funding under this program is intended to address the needs of victims of severe forms of human trafficking as defined by the Trafficking Victims Protection Act (TVPA) of 2000. This includes male and female victims of sex and labor trafficking. The Office for Victims of Crime (OVC) awarded its first cooperative agreements to victim service organizations in FY03 to provide a comprehensive array of direct services to pre-certified foreign national victims. Pre-certification refers to the period of time between when trafficking victims are initially identified by law enforcement and officially certified by the Federal government as such.

OVC funds victim service agencies to provide high-quality services to victims of human trafficking as defined by the Trafficking Victims Protection Act of 2000, as amended, and to enhance interagency collaborative and coordination in the provision of services to such victims. Administered jointly by OJPs Bureau of Justice Assistance (BJA) and the OVC, grant funding is made available each year to state and local law enforcement agencies and victim services organizations in support of multidisciplinary, victim-centered task forces dedicated to investigating trafficking crimes and providing culturally competent assistance to victims. These task forces include federal law enforcement agencies, such as the Federal Bureau of Investigation (FBI) and Immigration and Customs Enforcement (ICE), as well as U.S. Attorneys Offices and state and local prosecutors.

OVC also makes annual grant funding available exclusively for direct, comprehensive services tailored to the needs of human trafficking victims. These services include intensive case management, food, clothing, shelter, medical and dental care, mental health treatment, translation and interpretation services, immigration legal assistance, and more. This OVC funding also supports efforts to increase the capacity of communities to respond to victims through the development of interagency partnerships and public outreach and awareness campaigns.

16.321 ANTITERRORISM EMERGENCY RESERVE

FEDERAL AGENCY:

Office for Victims of Crime, Department of Justice

AUTHORIZATION:

42 U.S.C. 10601(d)(5), 42 U.S.C. 10603(b), 42 U.S.C. 10603c.

OBJECTIVES:

Encompasses two programs for victims of terrorism and/or mass violence: (1) Antiterrorism and Emergency Assistance Program (AEAP) and (2) The International Terrorism Victim Expense Reimbursement Program (ITVERP). The AEAP provides assistance and compensation services for victims of domestic terrorism and intentional mass criminal violence and assistance for victims of international terrorism. ITVERP provides reimbursement for victims of acts of international terrorism that occur outside the United States for expenses associated with that victimization.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

AEAP funds are available specifically for services to victims of terrorism and/or intentional mass criminal violence. Funded activities may include compensation, emergency relief, including crisis response efforts, assistance, and ongoing assistance, including during any investigation or prosecution to victims of terrorist acts or mass violence occurring within and outside the United States. Nonmonetary assistance is available for training and technical assistance. ITVERP provides direct reimbursement for out-of-pocket expenses to victims of international terrorism. Claimants may seek reimbursement for expenses incurred for medical, mental health, funeral and burial, property loss, and other miscellaneous costs (including emergency travel, temporary lodging, and telephone costs).

Applicant Eligibility:

AEAP: Criteria will vary depending on the grant. For terrorism or mass violence occurring within or outside the U.S., eligible applicants for funding under VOCA, Title II, 42 U.S.C. 10603b, 1404B, include states, victim service organizations, and public agencies (including federal, State and local governments) and non-governmental organizations that provide assistance to victims of crime. With the exception of ITVERP, OVC does not provide funding directly to individual crime victims. ITVERP: For an applicant to be eligible to receive reimbursement under ITVERP as authorized under VOCA, Title II, 42 U.S.C. 10603c, 1404C, an individual must be a national of the United States or an officer or employee of the U.S. Government, as of the date on which the act of terrorism occurred. In addition, the individual must have suffered direct physical or emotional injury or death as a result of an act of international terrorism occurring on or after October 23, 1983, with respect to which an investigation or prosecution was ongoing after April 24, 1996.

Beneficiary Eligibility:

AEAP: Public and private nonprofit victim assistance agencies; victims of domestic and international terrorism. Eligibility depends on the nature of the grant. ITVERP: The law requires that the individual victim must have suffered direct physical or emotional injury or death as a result of an act of international terrorism occurring on or after October 23, 1983, with respect to which an investigation or prosecution was ongoing or was commenced after April 24, 1996. In the case of a victim who is a minor, incompetent, incapacitated, or is killed, a family member or legally designated representative of the victim may receive expense reimbursement on behalf of the victim. In addition to the victim, claimants may include the following: Spouse of the victim, Parents of the victim, Children of the victim, Siblings of the victim, Legally designated victim representative.

Credentials/Documentation:

All potential applicants shall submit a written proposal along with a budget and budget narrative to the OVC Director for consideration. Proposals submitted by State crime victim compensation program administrators should include the following: (1) a description of the qualifying crime; (2) the projected number of claims to be paid and the projected number of claimants to receive payments; (3) the state's maximum award amount by category, such as medical, mental health, lost wages, funeral, etc.; and (4) a description of the range of expenses covered by the program and the amount of state funding available to cover victim claims. Proposals submitted by State crime victim assistance

administrators, and all other applicants seeking crime victim assistance, should include the following: (1) type of crime and description of the criminal event; (2) identification of the lead law enforcement agency conducting the investigation; (3) estimated number of victims affected by the crime; (4) description of the applicant's role in responding to the victim population since the date of the incident; (5) description of services that this funding will support and how these efforts will complement services already in place or will respond to an unmet need; (6) the amount of funding requested and the time frame for support; and (7) description of outreach and coordination with other public and private entities during the process of preparing the request for assistance. Once approved for applying, an AEAP solicitation, with detailed instructions on applying as well as reporting requirements, will be posted on the OJP electronic Grants Management System (GMS). Applicants, except Federal agencies, must submit through GMS (1) SF-424, Application for Federal Funding and applicable assurances and forms; and (2) Budget and budget narrative including a description of all other federal and nonfederal contributions (cash or in-kind). Applications for the AEAP must be submitted to the OVC Director as soon as practical following a terrorist or mass violence event by the appropriate State or federal official or private victim service and non-governmental organizations. ITVERP: All potential applicants shall submit a written application along with all supporting documentation to OVC for consideration. Claimants may apply for itemized, interim emergency, or supplemental reimbursement. An Itemized application should be used by those eligible claimants who are making a first-time request for reimbursement of out-of-pocket expenses that were paid following an international terrorism event. An Interim Emergency application should be used by eligible claimants seeking funds for an immediate need such as medical treatment, short-term lodging, or emergency transportation. A Supplemental application should be used by eligible claimants whose expenses have changed since they submitted an initial application. The supplemental application is for bills that may have been received late, or for new services that were not originally thought necessary or included in the original application. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. AEAP: Whereas the previously submitted proposal letter, budget, and budget narrative were key factors in determining eligibility for funding, they were submitted prior to the posting of a solicitation. Application materials submitted electronically through GMS in response to either the assistance or compensation solicitation become permanent parts of the award file. Thus, it will be necessary to resubmit the proposal letter, budget, and budget narrative documents as part of the application package. Applications will be accepted following an incident of terrorism or mass violence in accordance with the timetable set forth in the AEAP Guidelines. There are two factors that determine the application submission requirements for the AEAP: (1) the applicant status, i.e., government agency (Federal, State, or local), non-governmental organization, or victim service organization; and (2) the type of support requested, i.e., crisis response, consequence management, criminal justice, victim compensation, technical assistance (nonmonetary assistance). Application requirements are listed below. Application requirements for State crime victim compensation programs - Funding will be made available to State crime victim compensation programs in response to an incident of terrorism or intentional mass criminal violence within the United States in the form of a grant. Requests for funding from State crime victim compensation programs may be made at any time in the aftermath of an incident and should include: (1) Responses to the questions or issues raised in the AEAP Compensation Solicitation ; (2) Proposal letter ; (3) Budget.; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms.. Application requirements for all other recipients of funds -All other applicants seeking Antiterrorism Emergency Reserve support are required to submit: (1) Responses to the questions or issues raised in the AEAP Assistance Solicitation; (2) Proposal letter; (3) Budget; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms. While no direct funding is

available, OVC may provide its own consultants to meet the training and technical assistance needs of applicants. Training and technical assistance may be requested by submitting a letter describing the nature of the problem; the type of expertise or assistance needed; the duration of assistance; and the projected outcomes of the technical assistance or training. See OVC guidelines published in the Federal Register (Vol. 67, No. 21, Thursday, January 31, 2002) for additional information on application requirements for the AEAP. ITVERP: Step 1: Identify the type of application you are applying for by marking the appropriate type at the top of the application form. In addition, a supplemental sheet must be filled out by applicants. Sections B, F and H should be answered by all applicants; section G should be answered by Itemized and Supplemental applicants only. Detailed instructions are included. Step 2: If you believe that you are an eligible victim of a "designated" international terrorism event, please use the following forms and information to prepare your application for reimbursement. Required Documentation: A victim is required to submit documentation that provides proof of identity, citizenship, employment, and damage/injury sustained during the international terrorism event. A victim's family member or representative is required to submit documentation of his/her relationship to the victim plus medical information or a death certificate as appropriate, in addition to the items named above. In all cases, receipts for expenses incurred in the recovery process will be required. If any of the required documents have been destroyed and are unavailable from any other source, you must provide and certify a list of destroyed documents and how each would apply to your ITVERP application.

Award Procedure:

AEAP: Upon receipt and internal review of a complete application, it is the intention of OVC to notify applicants of funding decision within 5 business days or as soon as practicable. The applicant may be notified by telephone, Internet or facsimile. ITVERP: After review of each application, the Director shall determine the eligibility of the victim or representative and the amount, if any, eligible for reimbursement, specifying the reasons for such determination and the findings of fact and conclusions of law supporting it. A copy of the determination shall be mailed to the claimant at his last known address.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

AEAP: It is OVC's intention to make a funding decision within 5 business days of receipt of a complete application or as soon as practicable. ITVERP: It is OVC's intention to review and process payments as soon as practicable. For itemized and supplemental claims, range of approval/disapproval is dependant upon receipt of an official determination of a reasonable indication of an act of international terrorism from the Assistant Attorney General of National Security for a particular event. Processing time is also dependant upon timely response by claimants of any outstanding documents or information required to process claim applications. Claimants may apply for an interim emergency payment, prior to a determination under Section 94.21(a). If the Director determines that such payment is necessary to avoid or mitigate substantial hardship that may result from delaying reimbursement until complete and final consideration of an application, such payment may be made to cover immediate expenses such as those of medical care, funeral and burial, short-term lodging, and emergency transportation.

Appeals:

For both programs, hearing by the Assistant Attorney General, Office of Justice Programs.

Renewals:

AEAP: See OVC guidelines for Antiterrorism and Emergency Assistance Program for Terrorism and Mass Violence Crimes published in the Federal Register, Vol. 67, No. 21, Thursday, January 31, 2002. ITVERP: Not applicable.

ITVERP: Reimbursements are released via the Electronic Transfer System directly into the claimants bank account. See the following for information on how assistance is awarded/released: Please contact program office for more information.

ITVERP: There are no reporting requirements for claimants under ITVERP. Performance measure data, as stipulated in the solicitation, are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. AEAP: All organizations that expend financial assistance of \$500,000 or more in any fiscal year must have a single audit for that year in accordance with OMB Circular No. A-133, as amended, unless the audit condition on the award says otherwise. These audits are due to the cognizant Federal agency not later than 9 months after the end of the grantee's fiscal year. Not applicable to ITVERP.

As provided in recent VOCA amendments, formula grant funds to an eligible State crime victim compensation program is based on 60 percent of the amounts States expended during the fiscal year preceding the year of collections for the Crime Victims Fund, other than amounts awarded for property damage. If the sums available in the Fund for grants under this program are insufficient to provide grants of 60 percent as provided above, grants from the sums available will be made to each eligible crime victim compensation program so that all such programs receive the same percentage of the amounts awarded by such programs during the preceding fiscal year, other than amounts awarded for property damage. A crime victim compensation program is an eligible crime victim compensation program if (1) such program is operated by a State and offers compensation to victims and survivors of victims of criminal violence, including drunk driving and domestic violence for: (A) medical expenses attributable to a physical injury resulting from a compensable crime, including expenses for mental health counseling and care; (B) loss of wages attributable to a physical injury resulting from a compensable crime; and (C) funeral expenses attributable to a death resulting from a compensable crime; (2) such program promotes victim cooperation with the reasonable requests of law enforcement authorities; (3) such State, possession or territory certifies that grants received under this program will not be used to supplant funds otherwise available to provide crime victim compensation; (4) such program, as to compensable crimes occurring within the State, possession or territory, makes compensation awards to victims who are nonresidents of the State, possession or territory on the basis of the same criteria used to make awards to victims who are residents of the State, possession or territory; (5) such program provides compensation to victims of Federal crimes occurring within the State on the same basis that such program provides compensation to victims of State crimes; (6) such program does not, except pursuant to rules issued by the program to prevent unjust enrichment of the offender, deny compensation to any victim because of that victim's familial relationship to the offender, or because of the sharing of a residence by the victim and the offender; (7) such program does not provide compensation to any person who has been convicted of an offense under Federal law with respect to any time period during which the person is delinquent in paying a fine, other monetary penalty, or restitution imposed for the offense; and (8) such program provides such other information and assurances related to the purposes of this section as the Director may reasonably require. Section 1403(c), any amount of crime victim compensation that the applicant receives through a crime victim compensation program under this section shall not be included in the income of the applicant until the total amount of assistance that the applicant receives from all such programs is sufficient to fully compensate the applicant for losses suffered as a result of the crime. As used in this section; (1) the term "property damage" does not include damage to prosthetic devices, eyeglasses or other corrective lenses, or dental devices; (2) the term "medical expenses" includes, to the extent provided under the eligible crime victim compensation program,

expenses for eyeglasses and other corrective lenses, for dental services and devices and prosthetic devices, and for services rendered in accordance with a method of healing recognized by the law of the State; (3) the term "compensable crime" means a crime the victims of which are eligible for compensation under the eligible crime victim compensation program, and includes crimes involving driving while intoxicated and domestic violence; and (4) the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, and any other possession or territory of the United States.

Applicant Eligibility:

16.606 STATE CRIMINAL ALIEN ASSISTANCE PROGRAM (SCAAP)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Omnibus Appropriations Act, Public Law 106-113, Division B, Section 1000(a); and an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

The State Criminal Alien Assistance Program (SCAAP) is a payment program designed to provide federal assistance to states and localities that incur costs for incarcerating undocumented criminal aliens who are being held as a result of state and/or local convictions. The Bureau of Justice Assistance (BJA) administers this program in conjunction with the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services branches.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Department of Justice Reauthorization Act of 2005 (Public Law 109-162, Title XI) included the following requirement regarding the use of SCAAP funds: "Amounts appropriated pursuant to the authorization of appropriations in paragraph (5) that are distributed to a State or political subdivision of a State, including a municipality, may be used only for correctional purposes." All funds must be used for correctional purposes only. To be eligible for reporting, inmates must have been convicted of a felony or second misdemeanor for violations of state or local law, and housed in the applicant's state or local correctional facility for 4 or more consecutive days during the reporting period. Once a person meets these criteria, all pre-trial and post-conviction time served may be included in the application. Salary information reported in the SCAAP application must reflect the total salaries and wages paid to full and part-time correctional officers and others who meet the SCAAP definition. See the SCAAP Guidelines at <http://www.ojp.usdoj.gov/BJA/>. Funds may be used only for correctional purposes. BJA may further define the eligible uses of funds. For further information, see <http://www.ojp.usdoj.gov/BJA/grant/scaap.html>.

Applicant Eligibility:

Eligible applicants include States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions exercising authority with respect to the incarceration of an undocumented criminal alien. This covers state prison facilities (including those housing juveniles convicted as adults of felony offenses or two or more misdemeanors) and local jails, whether operated by counties or cities. Applicants are generally States and units of local government. Note: Only one application is accepted from each separate political division (i.e., State, county, city).

Beneficiary Eligibility:

States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions.

Credentials/Documentation:

Applicants who are seeking funding must complete an electronic application form via the Office of Justice Programs Grants Management System (GMS). Inmate data, including the proper inmate identifiers, will either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of the applicants inmate databases. The authorized official certifies compliance with all SCAAP requirements, including that the applicant has been authorized by the Chief Executive Officer of the applicable unit of government; the inmate identifiers required have been submitted to BJA in the proper format(s) for Immigration and Customs Enforcement (ICE) verification within the prescribed deadlines; all inmates counted by the applicant have been convicted of either a felony or

two misdemeanor offenses under the applicant's law; and, only salary costs for corrections officers were included in the Total Salary Costs. By certifying on-line, the authorizing signing official is also assuring that all federal certifications and assurances are being met. The certification and assurance forms (Assurances, OJP Form 4000/3 and Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements, OJP Form 4061/6) are provided on-line to allow applicants to review and accept them electronically. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. SCAAP applications are administered via the Office of Justice Programs Internet-based Grants Management System. Inmate data, including the proper inmate identifiers, may either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of their inmate databases. Awards are announced after the ICE inmate verification process is done. Technical assistance is available to applicants for preparation of the on-line application process by calling the OJP Grants Management System Hotline at 1-888-549-9901.

Award Procedure:

The final payment process requires that all applications and all data be fully processed and verified before any payments are made. Inmate data will be verified by the ICE, who will attempt to match the inmate data records provided to records in its databases to obtain the maximum number of confirmed matches. These matches are expected to include three categories: 1) those positively identified (matched) as qualifying undocumented criminal aliens; 2) those unknowns and 3) those positively identified as non- criminal aliens. Applicants will be given credit for a percentage of inmates whose eligibility cannot be determined through positive identification or "match," but have valid foreign countries of birth. Payments will be based on the days of incarceration for the verified number of aliens incarcerated by each applicant. Payments are granted by the Director of the Bureau of Justice Assistance, Office of Justice Programs, Department of Justice. The payment must be accepted on-line and the acceptance will effect a simultaneous assurance of compliance with conditions. Acceptance of the payment on-line initiates the automatic electronic transfer of funds from OJP to the recipient.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Contact BJA.

Appeals:

Not Applicable.

Renewals:

Applications may be submitted annually, subject to availability of funding.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

SCAAP awards are usually obligated and announced by the end of September and released for drawdown by mid-October. There are no restrictions placed on the time permitted to spend the money awarded because SCAAP funds are considered no year funds. Beginning with FY 2007 SCAAP awards, SCAAP funds must be used for correctional purposes only. Jurisdictions receiving SCAAP awards will be asked to report the projected use of these funds at the

time the award is accepted. See the following for information on how assistance is awarded/released: SCAAP payments are calculated simultaneously, with applicants receiving a prorated payment based on the appropriation; costs submitted, and inmates as determined by DHS. All SCAAP payments are made electronically to the applicant's bank account of record identified during the application process. All SCAAP payments must go to the jurisdiction's general fund. Please use the jurisdiction's EIN (tax identification) and vendor number when applying for SCAAP funds.

Once SCAAP data has been validated and analyzed, applicants will receive e-mail notification that awards are ready for online acceptance and drawdown. Formal acceptance of an award via GMS is necessary for the electronic transfer of funds into the applicants bank account of record. Applicants have 45 calendar days to accept awards through GMS once notice is provided. SCAAP payments must go to the jurisdictions general fund.

Reports:

No reports are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Financial records, supporting documents, statistical records, a copy of the inmate records submission, and all other records pertinent to a grant shall be retained for a period of at least three (3) years following the closeout of the grant.

16.607 BULLETPROOF VEST PARTNERSHIP PROGRAM

(BVP)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Bulletproof Vest Partnership Grant Act of 1998, Public Law 105-181, June 16, 1998, as amended.

OBJECTIVES:

To protect the lives of law enforcement officers by helping State, local, and tribal law enforcement agencies provide officers with armored vests.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The program pays up to 50 percent of the total cost of each vest order. Total cost includes the cost of the vests, vest carriers, attachments, inserts, and covers considered integral or essential for its proper care, use, and wearability, shipping, handling, fitting charges, and applicable taxes. The total invoiced price, after all vendor and prompt payment discounts have been deducted, is what the Bureau of Justice Assistance (BJA) uses to determine the Federal match. This program only allows the purchase of body armor that has been tested and found to comply with applicable ballistic and stab standards promulgated by the National Institute of Justice's (NIJ) Standard 0101.06 Ballistic Resistance of Police Body Armor. In FY 2001, stab-resistant body armor was also included in the program as an allowable purchase.

Applicant Eligibility:

Only chief executives of jurisdictions (or their designees) may apply for funds. Jurisdictions are defined as general purpose units of local government (e.g., cities, towns, townships, boroughs, counties, etc.), Federally-recognized Indian tribes, the 50 State governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The chief executive of the jurisdiction registers on-line, submits the jurisdiction application, and requests payment for completed vest orders.

Beneficiary Eligibility:

Only law enforcement officers may receive vests through this program. According to the Act, "law enforcement officer" means any officer, agent, or employee of a State, unit of local government, or an Indian tribe authorized by law or by a government agency to engage in or supervise the prevention, detection, or investigation of any violation of criminal law, or authorized by law to supervise sentenced criminal offenders. Eligible officers may be full-time, part-time, paid or volunteer.

Credentials/Documentation:

Eligible jurisdictions must be general purpose units of local government, Federally-recognized Indian tribes, the 50 state governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The validity of the on-line registration process is verified through independent reviews which may include certification by the banking institutions serving the jurisdiction, the U.S. Census Bureau, and agencies within the U.S. Department of Justice. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

This is an Internet-based program. The jurisdiction is required to complete and submit an on-line registration form, providing information about the jurisdiction's chief executive officer, program contact person, and electronic banking information. The registration process is handled through the program's web site <http://ojp.gov/bvpbasi/home.html>. Only those jurisdictions with

approved registrations are permitted to make application. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The jurisdiction submits the application to BJA via the Internet web site <http://vests.ojp.gov>. On-line instructions guide the jurisdiction through the application process. Law enforcement agencies or agencies with law enforcement functions which meet the Act's definition, will assist in completing the jurisdiction's on-line application by indicating the types, numbers, and costs of vests they intend to order. Only those jurisdictions that complete and submit applications will be eligible for matching funds from BJA.

Award Procedure:

Applications received by BJA are reviewed for completeness, accuracy, and compliance with all program requirements. Each application is then checked against the availability of funds to cover up to 50 percent of the application's total cost, in keeping with established criteria for program fund allocation. When all checks are complete and the application approved, the jurisdiction is notified through e-mail that the necessary funds have been obligated.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

A minimum of 15 working days may be required for complete registration validation, although jurisdictions and law enforcement agencies will have immediate access to certain program components during this validation process.

A minimum of 60 working days may be required after the program closes for approval of the jurisdiction's application for funding. A minimum of 25 working days may be required for the electronic transfer of funds from the U.S. Treasury to the jurisdiction's bank account, once the request for funds has been received, reviewed, and approved by the Office of Justice Programs.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Percent: 50%. The program requires that each applicant jurisdiction be responsible for providing at least 50 percent of the cost of each vest purchased. Tribal governments may use Federal funds to provide this match; all other jurisdictions must use nonfederal match funds. Nonfederal fund sources include State and/or local jurisdiction revenues, private or personal funds, and contributions from insurance or workman's compensation consortiums. Asset forfeiture funds may also be used to meet the jurisdiction's matching requirement. Beginning in FY 2002, changes (Bulletproof Vest Partnership Act of 2000; Public Law 106-517) gives preference to small jurisdictions (those populations below 100,000) guaranteeing them the full 50 percent match payment before payments are calculated and approved for larger jurisdictions.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Jurisdictions with approved applications must request the federal match no later than August 31st of the second federal fiscal year following the end of the federal fiscal year in which their application was approved. In other words, the jurisdiction has two years beyond the year of their application to request payments for vests contained in that application. Payments of the federal match will be made whenever the jurisdiction indicates that at least part of the approved vest order was received and invoiced. See the following for information on how assistance is awarded/released: Funds will be available approximately three to four months after the application deadline. Applicants will be notified, via email, when the award is made and the funds are available. Please see the main BVP web site for more details: <http://ojp.gov/bvpbasi/home.html>.

Reports:

No reports are required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Payments and transactions are subject to audits by the General Accounting Office, Department of Justice's Office of the Inspector General, state or local government auditors, and auditors from independent public accounting firms. Jurisdictions must follow their local procurement policies and procedures, including maintenance of reliable and accurate accounting systems, record keeping, and systems of internal control.

Records:

In accordance with the requirement set forth in 2 CFR 200, Subpart F, grantees must maintain all financial records, supporting documents, statistical records, and all other records pertinent to the award for at least 3 years following the close of the most recent audit.

JAG funds support all components of the criminal justice system from multijurisdictional drug and gang task forces to crime prevention and domestic violence programs, courts, corrections, treatment, and justice information sharing initiatives. JAG funded projects may address crime through the provision of services directly to individuals and/or communities and by improving the effectiveness and efficiency of criminal justice systems, processes, and procedures.

The Smart Policing Initiative (SPI), which falls under the JAG Program, seeks to build upon analysis-driven, evidence-based policing by providing resources to state, local, and tribal law enforcement agencies to develop effective and innovative responses to crime within their jurisdictions. Participant jurisdictions test promising practices and implement evidence-based interventions to improve the effectiveness and efficiency of police agencies processes and procedures and establish sustainable partnerships with researchers to evaluate their effectiveness. Through SPI, training and technical assistance is provided to enable police agencies to identify and define their most pressing crime problems and institute lasting cultural and organizational changes that foster reliance on and effective use of evidence-based practices, data, and technology to address those problems.

Formula and Matching Requirements:

Statutory Formula: Title I, Chapter Subchapter V, Part A, Subpart 42 USC 3756. Statutory Formula: Once each fiscal years overall JAG Program funding level is determined, BJA partners with the Bureau of Justice Statistics (BJS) to begin a four-step grant award calculation process which consists of:

1. Computing an initial JAG allocation for each state and territory, based on their share of violent crime and population (weighted equally).
2. Reviewing the initial JAG allocation amount to determine if the state or territory allocation is less than the minimum (de minimus) award amount defined in the JAG legislation (0.25 percent of the total). If this is the case, the state or territory is funded at the minimum level, and the funds required for this are deducted from the overall pool of JAG funds. Each of the remaining states receives the minimum award plus an additional amount based on their share of violent crime and population.

3. Dividing each states final award amount (except for the territories and District of Columbia) between state and local governments at a rate of 60 and 40 percent, respectively.

4. Determining local unit of government award allocations, which are based on their proportion of the states three-year violent crime average. If a local eligible award amount is less than \$10,000, the funds are returned to the state to be awarded to these local units of government through the state agency. If the eligible award amount is \$10,000 or more, then the local government is eligible to apply for a JAG award directly from BJA.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

16.740 STATEWIDE AUTOMATED VICTIM INFORMATION NOTIFICATION (SAVIN) PROGRAM (SAVIN)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Pub. L. 110-5, emb. secs. 101-104; Pub. L. No. 109-108, 119 Stat. 2290, 2299; 28 U.S.C. 530C(a)(1); and, an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

The SAVIN Program, administered by the Bureau of Justice Assistance (BJA), helps protect victims and survivors of crime from further victimization and ensures their rights are secured by providing registered individuals with timely and accurate information about any important dates and developments relating to the criminal proceedings at issue in their case (e.g., trial dates, times, or changes; probation hearings; inmate relocation; and offender release). This program allows victims and survivors to discretely receive information that can help them make informed decisions about their level of participation in the legal process. Effective SAVIN programs require broad multiagency support, increased victim safety, compliance with legislative requirements, and minimization of costs associated with keeping registered participants informed throughout the criminal justice process. SAVIN programs provide a single point of shared services for victims located anywhere in a state to learn about the status of their offenders case.

Key SAVIN components include:

Governance: An authorized statewide agency to oversee the planning and implementation of the SAVIN program. The administering agency should establish a governance process that includes representatives of criminal justice and law enforcement agencies, technology staff, and victim advocates, including direct participation of a cross-section of victims of crime to guide the development and delivery of SAVIN services. The governance committee or board should meet (in person or via conference call) on a regular basis to discuss help inform the progress of the grant goals and objectives and the overall SAVIN program.

Technology: The use of technology solutions designed to collect, manage, and share critical information to and from victims that provide these services in a timely, confidential, and cost-effective manner.

Program Management: An organizational structure that will execute the program as directed by the established governance process and will enable the state to establish or expand existing notification capabilities based upon measures of the effectiveness of the program by collecting data on victims and survivors served and cost effectiveness. For example, conducting surveys with victims and survivors to ensure that the system is meeting their needs.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Technology improvement programs. SAVIN grantees are required to use the National Information Exchange Model (NIEM) (www.niem.gov), follow associated SAVIN implementation guidelines, and adopt the guidelines as part of their SAVIN program planning. Funds may not be used to supplant State and local funds.

Applicant Eligibility:

Applicants are limited to state-approved agencies that are authorized to manage the SAVIN program. State-approved agencies must be authorized either through state legislation or identified through the Governors office to manage the planning and implementation of a SAVIN program. Federally recognized Indian tribes (as determined by the Secretary of the Interior) are also eligible to receive grant funding for the planning and implementation of an automated victim notification program.

In order to apply for SAVIN program funding, eligible applicant agencies must include the state legislation designating authority to manage the SAVIN program for their state. If there is no authorizing state legislation, a letter from the Governor must be attached as part of the application. The letter must designate the applicant as the approved SAVIN program manager on behalf of the state.

States, Territories and Tribal governments.

16.746 CAPITAL CASE LITIGATION INITIATIVE (CCLI)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

42 U.S.C. Section 14163 and 14163a.

OBJECTIVES:

Capital Case Litigation Initiative (CCLI) - In an effort to improve the quality of legal representation and to ensure reliable jury verdicts in state capital cases, the CCLI seeks to improve the quality and effectiveness of representation in death penalty cases through training for both the prosecutors who represent the public and the defense attorneys who represent indigent defendants in state capital cases. Wrongful Conviction Review Program - The objective of the Wrongful Conviction Review Program is to provide high quality and efficient representation for defendants in post-conviction claims of innocence. Post-conviction innocence claims are likely to include complex challenges to the reliability or accuracy of evidence presented at trial that fall mainly into three categories: 1) eyewitness identification evidence; 2) confession evidence; and 3) forensic evidence. In some cases, post-conviction DNA testing alone can establish innocence, but the majority of cases will rely on other forms of evidence, and many will involve DNA testing together with additional sources of proof and/or expert testimony, which may be extremely costly.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Capital Case Litigation Initiative (CCLI): Funds are given to States that currently enforce their death penalty statutes or to a national organization capable of providing training and technical assistance. CCLI funds may not be used to fund, either directly or indirectly, representation in, or prosecution of, specific capital cases. Wrongful Conviction Review Program: Funds are awarded to institutions of higher education, non-profit organizations with missions dedicated (in whole or in part) to exonerating the innocent, to state or local public defender offices, to public and nonprofit organizations that have experience and expertise in providing representation to wrongfully convicted defendants in post-conviction claims of innocence cases, as well as providing training and technical assistance on the subject. Funds may not be used to supplant State and local funds.

Applicant Eligibility:

Capital Case Litigation Initiative: Applicants are limited to state agencies in states that authorize capital punishment and that conduct, or will conduct prosecutions in which capital punishment is sought. For the state agency to be eligible, its state must have an effective system for providing competent legal representation for indigent defendants in capital cases. An effective system is defined in 42 U.S.C. 14163(e) as a system that invests the responsibility for appointing qualified attorneys to represent indigent defendants in capital cases either: (A) In a public defender program that relies on staff attorneys, members of the private bar, or both, to provide representation in capital cases; (B) In an entity established by statute or by the highest state court with jurisdiction in criminal cases, which is composed of individuals with demonstrated knowledge and expertise in capital cases, except for individuals employed as prosecutors; or (C) Pursuant to a statutory procedure enacted before the date of the enactment of the CCLI Act [October 30, 2002] under which the trial judge is required to appoint qualified attorneys from a roster maintained by a state or regional selection committee or similar entity. Wrongful Conviction Review Program - Eligible applicants are limited to institutions of higher education, non-profit organizations with missions dedicated (in whole or in part) to exonerating the innocent, to state or local public defender offices, as well as to public and nonprofit organizations that have experience and expertise in providing representation to wrongfully convicted defendants in post-conviction

claims of innocence cases.

Beneficiary Eligibility:

Capital Case Litigation Initiative: Defense counsel, prosecutors and judges in the States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, America Samoa, Guam, and the Northern Mariana Islands that currently enforce their death penalty statutes. Wrongful Conviction Review Program: State or local government public defenders and non-profit organizations dedicated to exonerating the innocent.

Credentials/Documentation:

The applicant must submit a completed Application for Federal Assistance (Standard Form 424), including signed assurances that it will comply with statutory and administrative requirements. By certifying on-line, the authorizing signing official is also assuring that all Federal certifications and assurances are being met. The certification and assurance forms (Assurances, OJP Form 4000/3 and Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements, OJP Form 4061/6) are provided on-line to allow applicants to review and accept them electronically.

Regarding the question below relating to the applicability of 2 CFR 200, Subpart E - Cost Principles: The cost principles are generally applicable, except with respect to for-profit entities or to organizations listed at Appendix VIII to 2 CFR Part 200. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

No formal preapplication coordination is required. While informal preapplication coordination is not required, it is encouraged that applicants coordinate with any facilities for which they have responsibility to detain or incarcerate undocumented criminal aliens.

The application of E.O. 12372 is contingent upon whether the state has designated an entity to coordinate and review proposed federal financial assistance. See list of states that require this at: https://www.whitehouse.gov/omb/grants_spoc. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

The cost principles are generally applicable, except with respect to for-profit entities or to organizations listed at Appendix VIII to 2 CFR Part 200.

Audit requirements are dependent upon the amount of the award and whether the grantee is a for-profit or non-profit entity.

Award Procedure:

All applications will be peer reviewed. The BJA Director will then make award recommendations to OJP's Assistant Attorney General, who will make a final determination. Upon approval by OJP's Assistant Attorney General, successful applicants are notified via the Grants Management System. 16.754 HAROLD ROGERS PRESCRIPTION DRUG MONITORING PROGRAM

(PDMP)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

An act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

To enhance the capacity of regulatory and law enforcement agencies to collect and analyze controlled substance prescription data through a centralized database administered by an authorized state agency and federally recognized Indian tribal governments.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The Harold Rogers Prescription Drug Monitoring Program (PDMP) allows for states discretion as they plan, implement, or enhance a PDMP to accommodate local decision-making based on state laws and preferences, while encouraging the replication of promising practices.

In FY 2012, the program expanded to provide funding to federally recognized Indian tribal governments for the specific purpose of enabling tribal health care providers to provide data to and access data contained within state PDMPs. In FY 2013, the program expanded again to enable applications for data-driven, multidisciplinary approaches to reducing prescription drug abuse, encouraging greater utilization of the PDMPs and their data. In FY 2015 the program added a fourth funding category to promote practitioner and researcher partnerships and contribute to the larger body of knowledge on PDMP best practices.

Grant funds under this program can be used to:

- Build a state-level data collection and analysis system to enhance the capacity of regulatory and law enforcement agencies and public health officials for future prevention efforts.

- Enhance existing programs abilities to analyze and use collected data to identify drug abuse trends, identify and address sources of diversion, and increase the number of users of the PDMP.

- Promote the use of data from the PDMP and other sources to measure drug abuse trends, identify and address sources of diversion, and better inform decision making by prescribers and dispensers.

- Facilitate and participate in national evaluation efforts to assess efficiency and effectiveness of potential best practices.

- Encourage and implement the exchange of information under the PMIX Architecture among states to prevent cross-border diversion.

- Contribute to state level opioid abuse prevention plans and determine methodologies to encourage replication of strategies that are proven to be effective.

- Assess the efficiency and effectiveness of state-level programs to make improvements and encourage additional states to implement programs.

- Enhance collaborations with law enforcement, prosecutors, treatment professionals, the medical community, pharmacies, and regulatory boards to establish a comprehensive PDMP strategy.

- Enable federally recognized Indian tribal governments to establish the policy, legal, and technological infrastructure to share PDMP data from health care facilities with the appropriate state PDMP.

- Establish multidisciplinary action groups consisting of county, state, and federal criminal justice professionals; state and local health authorities; and treatment providers to determine best practices for sharing data, regulatory schemes, deconfliction strategies, intelligence gathering, targeted regulatory and enforcement activity, and prioritization of treatment and prevention efforts for at-risk individuals and communities.

Applicant Eligibility:

None.

Beneficiary Eligibility:

Category 1: Implementation and Enhancement: Applicants are limited to state governments that have a pending or enacted enabling statute or regulation requiring the submission of controlled substance prescription data to an authorized state agency.

Category 2: Tribal PDMP Data Sharing Grants: Applicants are limited to federally recognized tribal governments as defined under the Indian

Self Determination Act, 25 U.S.C. 450b(e).

Category 3: Data-Driven Multidisciplinary Approaches to Reducing Rx Abuse Grants: Applicants are limited to state agencies (health departments, law enforcement authorities, etc.) and units of county government located in states with existing and operational prescription drug monitoring programs.

Credentials/Documentation:

The applicant must submit a completed Application for Federal Assistance (Standard Form 424), including signed assurances that it will comply with statutory and administrative requirements. Second Chance Act Pay for Success Pub. L. No. 110-199; and an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

There are currently over 2.2 million individuals serving time in federal and state prisons, and millions of people cycle through local jails every year. Of those in state and federal prison, approximately 95 percent will be released and return to communities across the nation. A majority of these individuals have needs that, if unaddressed in prison, during the reentry process, and after release, will negatively impact their ability to live productive, pro-social, crime-free lives in the community. These needs include housing and employment challenges, relationship and family issues, and substance abuse and mental health problems.

The Second Chance Act of 2007 (Pub. L. 110-199) helps to address these significant challenges by providing comprehensive responses to the significant number of incarcerated adults who are returning to communities from prison, jail, and juvenile residential facilities. Programs funded under the Second Chance Act help to promote public safety by ensuring that the transition individuals make from prison and jail to the community is successful.

Please see the BJA website at <https://www.bja.gov/> for more information on Second Chance Act programs.

16.813 NICS ACT RECORD IMPROVEMENT PROGRAM

(NARIP)

FEDERAL AGENCY:

Bureau of Justice Statistics, Department of Justice

AUTHORIZATION:

42 U.S.C. 3732 and the NICS Improvement Amends Act Public Law 110-180, Public Law 110-180, 42 U.S.C 3732.

OBJECTIVES:

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 (the Brady Act) (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Acts record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Act outlines the allowable uses of grant funds:

Grants to States:

Section 103 of the NICS Improvement Act, regarding implementation assistance to the states, provides that the grants "shall be used by the States and Indian tribal governments, in conjunction with units of local government and State and local courts, to establish or upgrade information and identification technologies for firearms eligibility determinations." In accordance with the Act, a grant to a state, territory or Indian tribes may only be used to:

Create electronic systems, which provide accurate and up-to-date information which is directly related to checks under the NICS, including court disposition and corrections records;

Assist states in establishing or enhancing their own capacities to perform NICS background checks;

Supply accurate and timely information to the Attorney General concerning final dispositions of criminal records to databases accessed by NICS;

Supply accurate and timely information to the Attorney General concerning the identity of persons who have a federally prohibiting mental health adjudication or commitment;

Supply accurate and timely court orders and records of misdemeanor crimes of domestic violence for inclusion in federal and state law enforcement databases used to conduct NICS background checks;

Collect and analyze data needed to demonstrate levels of state compliance with the Act; and

Maintain the required relief from disabilities program in accordance with the Act however, not less than 3 percent and no more than 10 percent of each grant shall be used for this purpose.

State Court Grants

Section 301 of the Act provides that grants shall be made to each state and territory, consistent with the states plans for the integration, automation, and accessibility of criminal history records, for use by the court systems to improve automation and transmittal to federal and state repositories of: (1) criminal history dispositions; (2) records relevant to determining whether a person has been convicted of a misdemeanor crime of domestic violence or a prohibiting domestic violence protection order; and (3) prohibiting mental adjudications and commitments. Further, the law provides that the amounts granted shall be used by the state court system only to:

Carry out, as necessary, assessments of the capabilities of state courts to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories; and

Implement policies, systems, procedures to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories.

Applicant Eligibility:

Applications must be submitted by (a) the agency designated by the Governor to administer the National Criminal History Improvement Program (NCHIP); (b) the state or territory central administrative office or similar entity designated by statute or regulation to administer federal grant funds on behalf of the jurisdiction's court system; or (c) a federally recognized Indian tribal government.

Beneficiary Eligibility:

In accordance with the NICS Improvement Amendments Act (see 18 U.S.C. 922 note), there are two specific conditions that each state must satisfy before being eligible to receive grants:

1. First, each State shall provide the Attorney General with a reasonable estimate, as calculated by a method determined by the Attorney General of the number of the records subject to the NIAA completeness requirements. (Id.)
2. Second, to be eligible for a grant under this [program], a State shall certify, to the satisfaction of the Attorney General, that the State has implemented a relief from disabilities program. (Id.)

For the purpose of this solicitation, a relief from disabilities program is a program that permits persons who have been adjudicated a mental defective or committed to a mental institution to obtain relief from the firearms disabilities imposed by law as a result of such adjudication or commitment. This relief must be based on a finding, in accordance with principles of due process, by a state court, board, commission, or other lawful authority, that the circumstances of the disability and the persons record and reputation are such that the person will not be likely to act in a manner dangerous to the public safety and that the granting of relief would not be contrary to the public interest. The certification form is available on the ATF website at www.atf.gov/forms/download/atf-f-3210-12.pdf. For further information, please visit NICS Improvement Act Questions and Answers on the BJS website.

Further, applications submitted on behalf of state court systems must specifically assure that: (1) the court system has the capability to contribute and will transmit pertinent information to the NICS established under section 103(b) of the Brady Handgun Violence Prevention Act (18 U.S.C. 922 note), and (2) that it will coordinate the programs proposed for NARIP funding with other federally funded information technology programs, including directly funded local programs.

Credentials/Documentation:

The applicant must furnish all documentation required by the program solicitation, along with the application for an award, including; a detailed budget, a budget narrative, and a program narrative describing how funds would be utilized. Applicants must also furnish a NICS Record Improvement Plan as part of the application which reflects (a) the formation of a NICS Record Improvement Task Force, an assessment of the quality and availability of qualifying NICS records in the State, obstacles preventing full and complete transmission to the NICS of the available records, and strategies planned to address such challenges and achieve completeness goals.

Every year, millions of children and adolescents in the United States are victimized and exposed to violence in their homes, schools, and neighborhoods. The Program supports prevention, intervention, treatment, and community organizing strategies to implement a comprehensive continuum of care for children and teens, from birth through age 17, which have been exposed to violence. The ultimate goals of the Children Exposed to Violence Program is to reduce the severity of violence, reduce the frequency of violence, reduce the short- and long-term traumatic impact of violence, increase community safety and accountability, improve the response to children exposed to violence, improve the safety and well-being of children, and create a national dialogue on the issue of children exposed to violence.

An act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

This program offers assistance to States, units of local government (including federally recognized Indian tribal governments as determined by the Secretary of the Interior), and public institutions of higher education (including tribal institutions of higher education), to help defray the costs associated with postconviction DNA testing of cases of violent felony offenses where actual innocence might be demonstrated. This supports the DOJ mission to ensure fair and impartial administration of justice for all Americans. While successful exonerations to correct injustice are notable program outcomes, the careful review, consideration and closing of cases subjected to postconviction DNA testing that do not ultimately demonstrate innocence also work to advance the public interest that justice has been fairly applied. Funding may be used to review postconviction cases of violent felony offenses (as defined by State law), and to locate and analyze biological evidence samples associated with these cases. Where a strong justification is provided, a small percentage of Federal award funds may be used for permissible case identification activities.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds may be used to acquire laboratory supplies for DNA analysis of biological evidence; pay overtime for people directly engaged in case review, location of evidence, or DNA analysis of biological evidence; to hire consultants and/or temporary contract staff to conduct case reviews, locate evidence, or conduct DNA analysis of biological evidence; for contracts with accredited fee-for-service vendors to conduct DNA analysis of biological evidence; to upgrade, replace, lease, or purchase computer hardware or software that will be used exclusively for case review, location of evidence, or DNA analysis of biological evidence; for salaries and benefits of additional full- or part-time employees to the extent such employees are directly engaged in case review, location of evidence, or DNA analysis of biological evidence; and, in limited cases, for case identification activities. Funds may not be used for salaries and benefits for victim advocacy services; laboratory equipment; construction; renovation; costs for postconviction relief litigation, after DNA testing of biological evidence has been completed; or outreach and initial screening activities not included in case identification,(as this term is defined in the program announcement).

Applicant Eligibility:

Eligible applicants are States, units of local government (including tribal governments), and public institutions of higher education (including tribal institutions of higher education). For the purposes of agency program

announcements, the term State includes the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands.

Beneficiary Eligibility:

Ensures the availability of fair and impartial administration of justice to Americans who may have been unjustly convicted.

Credentials/Documentation:

If an award is made, prior to receiving award funds an applicant must submit an express certification from the chief legal officer of the State (typically the Attorney General) that the State:

i. Provides postconviction DNA testing of specified biological evidence under a State statute, or under State rules, regulations, or practices, to persons convicted after trial and under a sentence of imprisonment or death for a State offense of murder or forcible rape, in a manner intended to ensure a reasonable process for resolving claims of actual innocence.

ii. Preserves biological evidence secured in relation to the investigation or prosecution of a State offense of murder or forcible rape, under a State statute, local ordinances, or State or local rules, regulations, or practices, in a manner intended to ensure that reasonable measures are taken by all jurisdictions within the State to preserve such evidence.

Any certification that is submitted must be personally executed by the chief legal officer of the State after a determination that the certification may properly be made. See also Appendix I, which includes a template for the certification. While it may be submitted with the application package, submission of this certification is not required at the time of application. If an award is made, access to award funds will be withheld until this certification is received and approved by NIJ.

Applicants proposing postconviction DNA testing projects involving cases outside of the applicants State are to provide (prior to receiving award funds) the express certification described above executed by the chief legal officer of the appropriate State for each State for which postconviction cases are sought to be funded in response to the program announcement.

Regarding the question below relating to the applicability of 2 CFR 200, Subpart E Cost Principles: The cost principles are generally applicable, except with respect to for-profit entities or to organizations listed at Appendix VIII to 2 CFR Part 200. 2 CFR 200, Subpart E - Cost Principles applies to this program.

To establish eligibility, the certification must be received by the National Institute of Justice (NIJ) no later than the application deadline as an attachment to the application. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Award Procedure:

NIJ may use internal peer reviewers (DOJ employees), external peer reviewers, or a combination, to assess applications meeting basic minimum requirements on technical merit using the solicitations selection criteria. Peer reviewers ratings and any resulting recommendations are advisory only, although their views are considered carefully. Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General (Office of Justice Programs), who may consider factors including, but not limited to, underserved populations, geographic diversity, strategic priorities, past performance under prior NIJ and OJP awards, and available funding when making awards.

16.825 SMART PROSECUTION INITIATIVE

Smart Prosecution

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Pub. L. No. 113-76, 128 Stat. 5, 61; and, an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

The Smart Prosecution Initiative builds off of the lessons learned from BJAs other SMART Suite programs and seeks to pair action researchers with prosecutor offices to develop solutions such as hot spot strategies, sophisticated crime analysis, offender-based policies, and risk and needs assessment that create prosecution strategies in an effort to break down information silos, advance communities, improve public trust and confidence in the justice system, and increase public safety.

As prosecutors implement innovative, best practices or evidenced-based approaches to address the goals listed below, there is a need to evaluate their efforts. The Smart Prosecution Initiative seeks to encourage exploration of new solutions to public safety concerns, as well as internal operations and organizational structure, while employing research partners at the problem definition stage through assessment of strategies and solutions. Some creative solutions developed by prosecutors around the country include changing how their organizations prioritize cases, using zone/geographic prosecution, using crime analysis tools to reduce gun violence, nuisance abatement, crime prevention through environmental design, drug-free and prostitute-free zones, restorative justice, community courts, truancy abatement, diversion programs, crime analysis, and cyber-crime strategies to improve public safety. Prosecutors are becoming partnership builders who bring the police, the community, and other criminal justice and local agencies together to find ways they can work together to solve problems in their jurisdictions.

The goal of Smart Prosecution is to develop a body of knowledge about

data-driven strategies innovative, best practice, or evidenced-based as they are implemented by prosecutors. BJA sought applications from state, local, or tribal prosecutor agencies interested in testing data-driven approaches that address one or more of the following three goals:

- Promoting fair, impartial, and expeditious pursuit of justice;
- Ensuring safe communities; and
- Promoting integrity in the prosecution profession and effective coordination in the criminal justice system.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funding is for site-based awards and training and technical assistance (TTA). Funds may be used to test data-driven strategies innovative, best practice, or evidenced-based as they are implemented by prosecutors. Smart Prosecution applicants will identify a problem to be addressed and enlist a local research partner to help assess the effectiveness of their Smart Prosecution Effort.

Applicant Eligibility:

Site-based-- Eligible applicants are limited to state, local, and tribal prosecutor agencies or a government agency acting as fiscal agent for the applicant.

16.827 JUSTICE REINVESTMENT INITIATIVE

JRI

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

An act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

The Justice Reinvestment Initiative employs a data-driven approach to improve public safety, reduce corrections and related criminal justice spending, and reinvest savings in strategies that can decrease crime and strengthen neighborhoods. JRI provides technical assistance and competitive financial support to states, counties, cities, and tribal authorities that are either currently engaged in justice reinvestment or are well positioned to undertake such work.

JRI technical assistance supports states justice system stakeholders and policy leaders as they devise and implement data-driven approaches to criminal justice reform. Under the JRI model, a governmental working group with bipartisan and inter-branch representation analyzes the correctional population and its costs, develops cost-effective policy options, and implements reforms to manage correctional populations while enhancing public safety. JRI jurisdictions reinvest these cost savings into high-performing initiatives that make communities safer. In addition to reducing prison populations, justice reinvestment encourages states to embrace a culture of greater collaboration, data-driven decision-making, and increased use of evidence-based practices.

States may also compete for direct funding through the Justice Reinvestment Initiative: Maximizing State Reforms program which is designed to cement or amplify the goals of states justice reinvestment reform efforts, deepening their investment in and commitment to and use of data-driven decision-making and evidence-based practices and programs. The objectives of the Maximizing State Reforms program are the following:

Increase corrections costs saved or avoided by reducing unnecessary confinement.

Increase reinvestment in evidence-based practices that reduce recidivism.

Support justice reinvestment reform efforts by promoting and increasing collaboration among agencies and officials who work in criminal justice, including state and local policymakers, law enforcement, prosecution, defense, pretrial, courts, probation, treatment, corrections, reentry, and parole.

Enhance the translation of evidence into practice by supporting the use of data analysis results to inform policy decisions.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Engagement of stakeholders across branches of government, political parties, and key special interest groups such as victim advocates, prosecutors, etc.

Analysis of data to identify criminal justice population and cost drivers.

Development of policy framework that leads to enacted JRI legislation at the state level.

Implementation of JRI legislation through high-performing programs and strategies to reduce incarceration costs and increase public safety.

Measurement of implementation of JRI strategy and reinvestment.

Other technical assistance to support evidence-based strategies to improve public safety consistent with JRI principles.

Applicant Eligibility:

None.

Beneficiary Eligibility:

Range of Approval/Disapproval Time:

There are no appeal rights for rejection of a discretionary application, but for discretionary awards, please see 28 CFR Part 18.

Renewals:

From 90 to 120 days. Yes, a grant can be supplemented or granted a no-cost extension, subject to BJA policy and contingent upon available appropriation.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. If a state has measured and reinvested savings (either projected or actual costs saved or avoided) into evidence-based strategies to reduce recidivism and make communities safer (see Selection Criteria outlined in the Solicitation for specifics), this solicitation does not require a match. If such a state proposes a voluntary match amount, however, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

If a state has not measured and reinvested savings (see Selection Criteria outlined in the Solicitation for specifics), a match is required, and the following requirements apply:

The amount of the match must equal the amount of federal funds being sought.

Match funds are subject to the same regulations and restrictions as the federal funds for this program.

Applicants must identify the source of the non-federal funds and how they will use the funds. If a successful applicants proposed match exceeds the required match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

Applicants may satisfy this match requirement with cash, in-kind services, or a combination of the two.

Match funds must be used for one or more of the states reinvestment strategies identified in the justice reinvestment process. For example, match

funding can be used to expand or improve community-based treatment only if the JRI legislation or task force identified community-based treatment as a reinvestment priority. As another example, match funding could be used for skills-based trainings for probation officers if the states reinvestment strategies included more effective community supervision.

Applicants must identify the target(s) of the reinvestment match with specificity, including, if applicable, names of agencies, service providers, or staff positions to be funded; a description of the kind of service to be provided or functions to be performed; what period of time will be covered; and amounts of funding. Applicants must document these commitments by including relevant attachments to the application. Example: For a federal award amount of \$1,750,000, the required reinvestment match is \$1,750,000.

MOE requirements are not applicable to this program.

16.922 EQUITABLE SHARING PROGRAM

FEDERAL AGENCY:

Criminal Division, Department of Justice

AUTHORIZATION:

The Controlled Substances Act, 21 U.S.C 881(e); Civil Asset Forfeiture Reform Act (CAFRA), 18 U.S.C 981(e)(2).

OBJECTIVES:

The Department of Justice Asset Forfeiture Program is a nationwide law enforcement initiative that removes the tools of crime from criminal organizations, deters crime and deprives wrongdoers of their criminal proceeds, and recovers property that may be used to compensate victims. Equitable sharing further enhances the law enforcement mission by fostering cooperation among federal, state, and local law enforcement agencies. Federal law authorizes the Attorney General to share federally forfeited property with participating state and local law enforcement agencies. The exercise of this authority is discretionary and limited by statute. The Attorney General is not required to share property in any case.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Comprehensive Crime Control Act of 1984 authorized federal officials to implement a national asset forfeiture program. One ancillary benefit of asset forfeiture is the authorization to share federal forfeiture proceeds with cooperating state and local law enforcement agencies, which provides agencies with valuable additional resources without burdening tax payer dollars. The Guide to Equitable Sharing for State and Local Law Enforcement Agencies (Guide) outlines the policies and procedures governing the receipt, use, maintenance and reporting of forfeited funds received through the Department of Justice Equitable Sharing Program (Program). The Guide is supplemented with the National Code of Professional Conduct for Asset Forfeiture and all Program participants must ensure compliance with the Code. Except as noted in the Guide, equitably shared funds must be used by law enforcement agencies for law enforcement purposes only. Permitted expenditures listed in the Guide are pre-approved uses of shared funds and property, subject to policies and statutes governing the use of public funds. The fact that shared property was forfeited as a result of a particular federal violation does not limit its use.

Applicant Eligibility:

A state or local law enforcement agency meeting eligibility requirements set forth in the Guide and that directly participates in an investigation or prosecution resulting in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture. For purposes of equitable sharing, the Department of Justice defines a law enforcement agency as a state or local government organization authorized to engage in, as its primary function, the investigation and apprehension, or the prosecution of individuals suspected or convicted of offenses against the criminal laws of the United States or of any state, county, municipality, or territory of the United States. A state National Guard generally does not meet the law enforcement agency criteria for

participation in the Program because its primary mission is a military or other non-law enforcement purpose. However, a National Guard Counterdrug unit may qualify for sharing if: (1) It is a distinct unit of a state National Guard that has counterdrug activities as its primary mission and receives funding solely for this purpose; or (2) It is a military police or similar state National Guard unit that provides support to federal law enforcement agencies in counterdrug activities.

Beneficiary Eligibility:

A state or local law enforcement agency meeting eligibility requirements set forth in the Guide and that directly participates in an investigation or prosecution that results in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture.

Credentials/Documentation:

The federal deciding authority must approve all sharing requests and recommendations, including sharing percentages negotiated in a task force or other agreement, before sharing occurs. Sharing will only be awarded to agencies that are compliant Program participants in good standing with the policies set forth in the Guide. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. After the seizure or forfeiture of an identified asset, a participating state or local agency meeting all requirements set forth in the Guide may request a share of the property by submitting a Form DAG-71, Equitable Sharing Request Form, to the federal seizing agency. A separate Form DAG-71 must be completed for each asset to be shared.

Award Procedure:

Federal law authorizes the Attorney General to share federally forfeited property with participating state and local law enforcement agencies. The exercise of this authority is discretionary and limited by statute. The Attorney General is not required to share property in any case. No sharing request or recommendation is final until approved by the federal deciding authority. The equitable sharing deciding authority levels are specified in the Guide.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. The DAG-71 form must be submitted within 60 days of seizure of the asset. Late submissions will be accepted and reviewed on a case by case basis.

Sharing determinations are generally made 120 to 180 days after forfeiture. However, longer periods may be required in complex cases.

Appeals:

The exercise of this authority is discretionary and limited by statute. It is not subject to appeal or court review.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. This program has no matching requirements. Equitable sharing funds are eligible to cover the costs associated with paying a state or local law enforcement agency's matching contribution or share in a grant program, provided that the grant permits use of other federal funds to cover the match and the grant funds are used for a permissible law enforcement purpose in accordance with the Guide. Equitable sharing awards have non-supplanting requirements. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Not Applicable. See the following for information on how assistance is awarded/released: Funds are disbursed to participating agencies upon approval of individual asset sharing decisions.

Reports:

To ensure effective management, promote public confidence in the integrity of the Program, and protect the Program against potential waste, fraud, and abuse, participating agencies must follow reporting requirements in order to receive any distribution of money or property through the Program. To maintain compliance, a state or local law enforcement agency must annually submit to the Department of Justice Asset Forfeiture and Money Laundering Section (AFMLS) a signed Equitable Sharing Agreement and Certification form within 60 days after the end of the agency's fiscal year, regardless of whether funds were received or maintained during the fiscal year. The form must be signed by the heads of both the law enforcement agency and the governing body. By signing the forms Affidavit, the signatories agree to be bound by the policies that govern the Program, including but not limited to supplantation, the use, maintenance, and reporting of funds. Please see description under "Program Report". Please see description under "Program Report". Please see description under "Program Report". Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance in excess of the applicable threshold in Federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than the applicable threshold in a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Financial records, supporting documents, and all other records pertinent to equitable sharing shall be retained for a period of 5 years following the conclusion of Federal assistance.

17.201 REGISTERED APPRENTICESHIP

Fitzgerald Act

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

National Apprenticeship Act of 1937 (Fitzgerald Act);

Unless otherwise stipulated, recipients are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Final Rule on December 26, 2013 and found at 2 CFR Part 200 along with the

OMB approved exceptions for DOL at 2 CFR Part 2900 published on December 19, 2014 in the Federal Register., Title 29, Part 29, Public Law 075-75-308, 29 U.S.C 1-4.

OBJECTIVES:

To promote, engage, and assist industry in the development, expansion, and improvement of Registered Apprenticeship. This program is designed to: provide skilled workers required by U.S. employers, ensure equal employment opportunities, and ensure the quality of all new and existing Registered Apprenticeship programs.

TYPES OF ASSISTANCE:

Advisory Services and Counseling; Project Grants (for specified projects); Training

USES AND USE RESTRICTIONS:

The Registered Apprenticeship system has been utilized to meet the needs of America's skilled workforce for more than 75 years. It is a unique, flexible training system that combines job-related-technical instruction with structured on-the-job learning experiences. Registered Apprenticeship is a leader in preparing American workers to compete in a global 21st Century economy because the system keeps pace with advancing technologies and innovations in training and human resource development. Under the Office of Apprenticeship (OA), apprenticeship training programs and apprentices are registered in 25 States. OA also provides technical assistance and works closely with State Apprenticeship Agencies (SAAs) in the remaining 25 States, the District of Columbia, Guam, and two territories that register programs and apprentices in accordance with Federal standards. OA provides information on existing and recommended standards of training in Registered Apprenticeship. The wage rates of apprentices in registered programs (Federal and State) are exempt from the prevailing wage requirements of the Davis-Bacon Act and the Service Contract Act.

Registered programs are driven directly by the demands of the labor market. The training is industry-recognized, voluntarily sponsored by an individual business or an employer association, and may be partnered with a labor organization through a collective bargaining agreement. OA brings these entities together, as appropriate, to formulate Registered Apprenticeship training programs which meet the federal standards. There are no grant funds available to employers for construction of training facilities, curricula development, and apprentices' subsidies. Apprentices start working from day one with incremental wage increases as they become more proficient on the job. Apprenticeships range from one to six years

The "Earn and Learn" training model of Registered Apprenticeship provides an assigned mentor for the on-the-job learning. The related instruction, technical training, or other certified training is provided by training centers, technical schools, community colleges and/or institutions employing distance and computer-based learning approaches. The goal is to provide workers with advanced skill sets that meet the specific needs of employers. Upon completion of a Registered Apprenticeship program, participants receive an industry issued, nationally-recognized credential that certifies occupational proficiency, is portable, and can provide a pathway to the middle class. In many cases, these programs provide apprentices with the opportunity to simultaneously obtain secondary and post-secondary degrees. Registered Apprenticeship is highly active in traditional industries such as construction and manufacturing but it is also instrumental in training and development in high-growth industries such as advanced manufacturing, energy, health care, homeland security, information technology, telecommunications, and more. The Registered Apprenticeship system provides the opportunity for workers seeking high-skilled, high-paying jobs and for employers seeking to build a quality workforce. In this regard, the Registered Apprenticeship system meets the needs of both workers and employers.

Applicant Eligibility:

Employers, unions, and other workforce intermediaries can be eligible to start and maintain Registered Apprenticeship programs. The vast majority of programs are not funded by Federal grant funds. The OA and SAAs provide technical assistance.

OA also administers two grant programs, as follows:

I. Women in Apprenticeship and Non-Traditional Occupations (WANTO) grants fund innovative projects to community-based organizations (CBOs) that are designed to improve women's participation in Registered Apprenticeship programs for nontraditional occupations in a broad range of industries. WANTO grants were awarded for Program Year (PY) 2015 and PY 2016 to three CBOs to establish regional/multi-state Technical Resource Centers to assist Registered Apprenticeship program sponsors to improve the recruitment, hiring, training, employment, and retention of women in apprenticeships. PY 2013 and PY 2014 funds were similarly awarded to three CBOs for the same purposes. Future funding was not requested for PY 2017. These grants are jointly administered by the Department of Labor's Women's Bureau and the Employment and Training Administration. See http://www.doleta.gov/grants/grants_awarded.cfm.

II. ApprenticeshipUSA State Accelerator Grants/State Expansion Grants Registered Apprenticeship has made available \$60 million in grants to help state governments integrate apprenticeship into their education and workforce systems; engage industry and other partners at scale to expand apprenticeship to new sectors and new populations; support state capacity to conduct outreach and work with employers to start new programs; provide support to promote greater inclusion and diversity in apprenticeship, and implement state innovations, incentives and system reforms. By investing in state strategies for growing Registered Apprenticeship opportunities, these funds will help strengthen the foundation for the rapid and sustained expansion of quality apprenticeship nationwide. These grants are covered under CFDA 17.285.

Beneficiary Eligibility:

Registered Apprenticeship program sponsors identify the minimum qualifications to apply into their apprenticeship programs. Individuals applying for acceptance into an apprenticeship program must be at least 16 years old. To be an apprentice in a hazardous occupation, the individual must usually be 18 years. Program sponsors may also identify additional minimum qualifications and credentials to apply, e.g., education, ability to physically perform the essential functions of the occupation, ability to complete the related technical instruction, proof of age.

Along with the completed application form, each prospective apprentice may be required by the program sponsor to submit a transcript of school subjects and grades, proof of age, an honorable military discharge (if applicable), and a high-school diploma or equivalence certificate (if applicable). References from all previous employers may be required.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For Program Registration: Prospective program sponsors must meet with an OA or SAA field representative, as appropriate, for technical assistance to develop a set of apprenticeship training program standards. These include the age and educational background of apprentices, and a schedule of the work processes and related technical instruction subjects to be covered during the training program. The program will be registered if it meets Federal requirements covering (a) the apprenticeability of the occupation(s) and (b) the suitability of the training standards for providing apprentices with sufficient knowledge to become skilled workers.

For Grants: Funding Opportunity Announcements (FOAs) are published in the Federal Register and announced on the Employment and Training Administration's (ETA's) Internet website at <http://www.doleta.gov>. Projects are awarded on a competitive basis. To compete for a grant, organizations develop a proposal and budget that demonstrate how the organization will provide services to a targeted population. The FOA provides all of the

necessary information for applying for federal assistance.

Generally, the procedure is as follows: A technical review panel will carefully evaluate applications against the selection criteria. These criteria are based on the policy goals, priorities, and emphases set forth in the Funding Opportunity Announcement (FOA) for grant awards. The ranked scores (which may include the mathematical normalization of review panels) will serve as the primary basis for selection of applications for funding, in conjunction with other factors such as geographic balance, the availability of funds, and which proposals are most advantageous to the government. Award Notices are posted on the Employment and Training Administration (ETA) Grants Awarded Page at http://www.doleta.gov/grants/grants_awarded.cfm. If an application is rejected, a letter is sent to the applicant as notification that they were not selected as a recipient of the grant.

17.207 EMPLOYMENT SERVICE/WAGNER-PEYSER FUNDED ACTIVITIES

Wagner- Peyser Act of 1933.

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

Workforce Innovation and Opportunity Act (WIOA) of 2014.

, Public Law 113-128.

OBJECTIVES:

The Employment Service (ES) program brings together individuals looking for employment and employers looking for job seekers. It does this by providing a variety of services, which are available to all individuals. The program provides Job seekers with career services, including labor exchange services, job search assistance, workforce information, referrals to employment, and other assistance. Employers can use the ES to post job orders and obtain qualified applicants.

TYPES OF ASSISTANCE:

FORMULA GRANTS; Project Grants

USES AND USE RESTRICTIONS:

FORMULA GRANTS:

Wagner-Peyser Employment Services Grants: The Wagner-Peyser Act of 1933 established a nationwide system of public employment offices collectively known as the Employment Service (ES). The Workforce Innovation and Opportunity Act (WIOA), amended Wagner-Peyser, making the Employment Service part of the American Job Center (AJC) Network, also known as the One-Stop Career Center delivery system. AJCs provide an integrated array of high-quality services which allow workers, job seekers, and businesses to access services under one roof, with many services also offered through self-service electronic access, both at the Centers and remotely on the Internet. These services provide universal access to all including persons with barriers to employment.

For Wagner-Peyser Employment Services Grants to States, funds must be used for career services, including labor exchange activities and the provision of

labor market information. Training is not an allowable activity. Services available include assessments of career interests, career guidance when appropriate, job search workshops, and referral to jobs or training as appropriate. Services offered to employers in addition to referral of job seekers to job openings, include matching job requirements with applicants' experience, skills and other attributes; helping with special recruitment needs; assisting employers with hard-to-fill job orders; assisting with job restructuring; and helping employers assist laid-off workers. Under WIOA, the ES has increased its reemployment services to Unemployment Insurance (UI) claimants.

Under Wagner-Peyser Act Section 7(b), 10 percent of the total sums allotted to each state workforce agency (SWA) are reserved for use by the Governor to provide performance incentives, services for individuals with special needs, and for the extra costs of exemplary models for enhancing state workforce staff with professional development and career advancement opportunities.

Labor Market Information Grants to States: These fund the provision of state and local workforce information to job seekers, employers, and educators, job trainers, economic developers and others. Such information includes job opportunities, employment projections, workforce trends, career guidance, wage rates, and other data and information.

The amended Wagner-Peyser Act under WIOA has enhanced collaboration among employment and training programs by States mandating co-location of ES offices with the one-stop offices. WIOA aligns the service delivery, planning and performance data within the one-stop delivery system. For Wagner-Peyser Employment Services Grants to states, the funds must be used for career services, including labor exchange activities, labor market, for workforce information purposes. Training is not an allowable activity.

Applicant Eligibility:

For Wagner-Peyser Employment Service grants and Labor Market Information grants, eligible applicants include all 50 States, the District of Columbia, Virgin Islands, Puerto Rico, and Guam.

Beneficiary Eligibility:

The system affords universal access to all job seekers. In addition, services are available to employers seeking to hire workers. Priority of service is given to veterans and other covered persons. The Planning Guidance provides detailed instruction on what must be included in the State Plan. The Unified Planning Guidance provides a framework for collaboration across programs and integration of services, including WIOA Title I programs and Wagner-Peyser Activities, and WIOA Titles II and IV programs overseen by the Department of Education. The Combined Plan includes these programs as well as other non-DOL programs. The plan is submitted to the Federal Coordinator for Plan Review and Approval (currently Heather Fleck), Division of WIOA Adult Services and Workforce System, Office of Workforce Investment, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW, Room S-4209, Washington, DC 20210.

Federal unemployment insurance tax collections are used to finance expenses deemed necessary for proper and efficient administration of the state unemployment insurance laws; to reimburse state funds for one-half the costs of extended benefits paid under the provisions of state laws which conform to the provisions of the Social Security Act and the Federal Unemployment Tax Act; and to make repayable advances to states when needed to pay benefit costs. Funds used for benefit payments may not be used for any program administration costs nor for training, job search, and job relocation payments. Disaster Unemployment Assistance (DUA) is paid out of funds provided by the Federal Emergency Management Agency (FEMA). This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Annual grants for base operation of programs are based on workload projections pursuant to economic assumptions and nationally developed workload estimates. Additional quarterly funding is based on actual workloads. Financing of administrative costs is accomplished through letter of credit draw downs needed to meet immediate cash requirements. Method of awarding/releasing assistance: by letter of credit.

Weekly, monthly, quarterly and yearly statistical reports of unemployment insurance workloads are required. Cash reports include the following transactions: Federal cash receipts/disbursements; Federal expenditures and un-obligated balance; recipient share of obligations and expenditures; program income. Additional expenditure data required includes other federal funds expended and real property proceeds expended. The comprehensive performance management system requires that a State Quality Service Plan (SQSP) be submitted as part of the application. Where performance is below the established minimum criteria, a corrective action plan (CAP) is required as part of the SQSP. The CAP identifies state activities and planning targets for performance improvement activities. Separate quarterly financial status reports are required for grants used for administration of each type of program. Data and progress towards performance targets are reviewed by the regional and national office staff. The SQSP and CAPs are reviewed quarterly by regional office staff.

National office staff provides guidance on the time frame for data submission and corrections to data reports. The state determines the time period to maintain tax records; however, the IRS recommends 4 years after the date tax is due or is paid, whichever is later. The recommendation for performance records is 3 years.

**17.245 TRADE ADJUSTMENT ASSISTANCE
FEDERAL AGENCY:**

Employment Training Administration, Department of Labor

AUTHORIZATION:

The Trade Adjustment Assistance Reauthorization Act of 2015 (TAARA 2015), title IV of the Trade Preferences Extension Act of 2015 (Public Law 114-27), was signed into law by President Barack Obama on June 29, 2015.

Unless otherwise stipulated, recipients are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Final Rule on December 26, 2013 and found at 2 CFR Part 200 along with the OMB approved exceptions for DOL at 2 CFR Part 2900 published on December 19, 2014 in the Federal Register., Public Law 114-27.

OBJECTIVES:

The Trade Adjustment Assistance (TAA) for Workers Program is a federal entitlement program that assists workers impacted by foreign trade. Through the provision of a number of employment-related benefits and services, the TAA Program provides trade-affected workers with opportunities to obtain the support, resources, skills, and credentials they need to return to the workforce in a good job in an in-demand industry. The program services include training, employment and case management services, job search allowances, relocation allowances, wage supplements for workers aged 50 and older, and Trade Readjustment Allowances (TRA).

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

State Workforce Agencies (SWAs) serve as agents of the United States and administer the worker adjustment assistance benefit provisions of the Trade Act. SWAs, through their American Job Centers (AJC), formerly known as One-Stop Career Centers or by a different name, and other local offices, provide assessments, employment counseling, and job placement services; job search and relocation assistance; and training.

The weekly subsistence payments and wage supplements of TRA and A/RTAA are administered under the Unemployment Insurance program (see CFDA 17.225). State unemployment compensation and extended benefits must be exhausted before TRA is paid to eligible claimants. Trade impacted workers are eligible to receive job search and relocation allowances in addition to the costs of training. They may be paid subsistence and transportation allowances to attend approved training outside the normal commuting distance of a worker's regular place of residence.

Applicant Eligibility:

a. Applicant Eligibility (081):

Currently, ETA administers three separate TAA programs (2002 Program, 2009 Program, and 2011/2015 Program) and six distinct participant cohorts resulting from the enactment of the Trade Adjustment Assistance Reform Act of 2002 (TAARA); Trade and Globalization Adjustment Assistance Act of 2009 (TGAAA); the Trade Adjustment Assistance Extension Act of 2011 (TAAEA); and the Trade Adjustment Assistance Reauthorization Act of 2015 (TAARA 2015), which restores group eligibility criteria and program benefits to the TAAEA level. Effective Dates of Amendments: Applies to petitions filed on or after June 29, 2015

The TAARA 2015 maintains the expansions to the program made by the TAAEA, which were not operational under the TAAEA sunset provisions (the Reversion 2014 Program), and provide TAA coverage to more workers and firms, including workers and firms in the service sector; made benefits available to workers whose jobs have been off-shored to any country (as opposed to covering a more limited set of shifts in production), improved workers training options, and increased the affordability of health insurance coverage (the Health Coverage Tax Credit). TAARA 2015 maintains the TAAEA's expansion in the scope of the program to better assist adversely affected workers in finding new employment. It reauthorizes funding for employment and case management services, and encourages the type of long-term training necessary for jobs in the 21st century economy through an extension of income support, and access to training for adversely affected incumbent workers.

b. Applicant Eligibility (081)

Under TARRA 2015, the more expansive TAAEA Group Eligibility requirements, including petition investigation criteria, apply to petitions filed on or after June 29, 2015, and retroactively apply to all petitions filed between January 1, 2014, and June 29, 2015.

Beneficiary Eligibility:

For a worker to be eligible to apply for TAA, the worker must be part of a group of workers that are the subject of a petition filed with the Department. Three workers of a company, a company official, a union or other duly authorized representative, or an AJC operator or partner may file that petition with the Department. In response to the filing, the Department initiates an investigation to determine whether foreign trade was an important cause of the workers job loss or threat of job loss. If the Department determines that the workers meet the statutory criteria for group certification of eligibility for the workers in the group to apply for TAA, the Department grants the petition and issues a certification.

Once covered by a certification, individual workers apply for benefits and services through the AJCs. Most benefits and services have specific individual eligibility criteria that must be met, such as previous work history, unemployment insurance eligibility, and individual skill levels.

The TAA program currently offers the following benefits and services to eligible individuals: training, weekly income support in the form of TRA,

out-of-area job search and relocation allowances, case management and employment services, and wage supplement for qualified older workers through RTAA.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110.

To apply for TAA under the Trade Act of 1974, as amended, a "Petition for Trade Adjustment Assistance" must be filed directly with the Office of Trade Adjustment Assistance at the address listed below and with the State official or organization designated by the Governor of the State in which the workers' firm or subdivision is located. OTAA and State contact information, as well as petition forms in English and Spanish, are available through the State Workforce Agencies or from the Office of Trade Adjustment Assistance listed below. The petition forms may also be downloaded from the TAA web-site, or filed online, at: <http://www.doleta.gov/tradeact>.

Individual workers covered by the certification can apply to the local office of their State Workforce Agency for individual determinations of eligibility to receive benefits and services.

For TAA certifications of petitions filed between May 18, 2009 and February 15, 2011, the maximum number of weeks of State unemployment compensation, extended benefits and trade readjustment allowances cannot exceed 52 weeks except that up to 78 additional weeks may be paid to workers while participating in approved training and an additional 26 weeks for workers whose approved training program includes pre-requisite and/or remedial education. Participation in RTAA allows older workers to accept reemployment at a lower wage and receive a wage subsidy instead of benefits under the regular TAA program. The RTAA allows for payments of 50 percent of the wage difference between old employment and new employment, not to exceed \$12,000 for up to two years. The individual must earn not more than \$55,000 a year in wages in reemployment, and must not return to employment from which the worker was separated. Base formula funding grants for training services are provided to States at the beginning of the year; additional funds may be requested by States based on additional needs above the base funding provided.

For TAA certifications of petitions filed before May 18, 2009, and after February 12, 2011 through October 21, 2011, the maximum number of weeks of State unemployment compensation, extended benefits and trade readjustment allowances cannot exceed 52 weeks except that up to 52 additional weeks may be paid to workers while participating in approved training and an additional 26 weeks for workers whose approved training program includes remedial education. The individual must earn not more than \$50,000 a year in wages in reemployment, and must not return to employment from which the worker was separated. Base formula funding grants for training services are provided to States at the beginning of the year; additional funds may be requested by States based on additional needs above the base funding provided.

For TAA certifications of petitions filed between October 21, 2011 and through December 31, 2013, the maximum number of weeks of State unemployment compensation, extended benefits and trade readjustment allowances cannot exceed 52 weeks except that up to 65 additional weeks may be paid to workers while participating in approved training and an additional 13 weeks for workers who are pursuing a degree or industry recognized credential, continue to make satisfactory progress and meeting the training benchmarks, and will complete the training within the period of eligibility. Participation in RTAA allows older workers to accept reemployment at a lower wage and receive a wage subsidy instead of benefits under the regular TAA program. 17.258 WIA/WIOA ADULT PROGRAM

Workforce Innovation and Opportunity Act (WIOA)

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

Workforce Innovation and Opportunity Act (WIOA) of 2014

The Workforce Innovation and Opportunity Act (WIOA) was signed into law on July 22, 2014. It supersedes the Workforce Investment Act of 1998, and amends the Wagner-Peyser Act and the Rehabilitation Act of 1973. This regulation has been submitted to the Office of the Federal Register (OFR) for publication, and is currently pending publication in the Federal Register. Only the version published in the Federal Register is the official regulation., Public Law 113-128.

OBJECTIVES:

The Adult Program is one of the six core programs authorized by Title I of the Workforce Innovation and Opportunity Act (WIOA). The program serves individuals and helps employers meet their workforce needs. It enables workers to obtain good jobs by providing them with job search assistance and training opportunities. Under WIOA, the Adult Program will ensure that the unemployed and other job seekers have access to high-quality workforce services, and that priority for services will be given to those who are public assistance recipients, low-income individuals, and/or basic skills deficient. In addition, the program will provide individuals with disabilities access to high quality workforce services, and better prepare them for competitive, integrated employment. Performance program measures include entry into unsubsidized employment, earnings, skills and credentials attainment. The employment goals are measured by using the Unemployment Insurance Wage Records Information System whenever possible.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

WIOA specifies that most services for adults will be provided through the American Job Center Network, also known as one-stop career centers or workforce centers. It authorizes that funds be used to provide career services, which are classified into two categories: basic and individualized services. Basic services are available to all job seekers and include labor exchange services, labor market information, job listings, and information on partner programs. Individualized services include training and supportive services, such as child care and needs-related payments. These are made available to individuals after an interview, assessment or evaluation determines that the individual requires training to obtain employment. These training services will be linked to job opportunities in their communities, including occupational training, work-based training and basic skills training. To promote customer choice and involvement in career decisions, some participants use an "Individual Training Account (ITA)" to select an appropriate training program from an eligible training provider. Consistent with the allowable activities in the statute.

Applicant Eligibility:

Under WIOA, the entities eligible to receive funding from the Department are the 50 States, Puerto Rico, the District of Columbia and the outlying areas. Funds are allotted based on a statutory formula. The states in turn allocate funds to local workforce development boards which are responsible for operating American Job Centers (approximately 2,500 nationwide).

Beneficiary Eligibility:

All adults 18 years of age and older are eligible to receive career services. Several populations receive priority, with States and local areas being responsible for establishing procedures for applying the priority requirements. Priority of service is given to veterans and other covered persons. Priority for career and training services must be given to public assistance recipients, other

low income populations, and low-skilled individuals.

Credentials/Documentation:

Formula-funded programs must submit a Governor/Secretary Agreement and a State Plan. States also sign a grant document agreeing to comply with the Act and regulations. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Governor must submit a single WIOA Unified or Combined State Plan in accordance with planning guidance issued through the Federal Register. The planning guidance provides detailed instruction on what must be included in the State Plan, and provides a framework for collaboration across programs and integration of services, including the WIOA Title I programs, Title III Wagner-Peyser Activities, and WIOA Titles II and IV programs housed with the Department of Education. The Combined State Plan includes the six "core" programs of the Unified Plan as well as other workforce development programs administered by the Department of Labor, the Department of Education, Health and Human Services, the Department of Agriculture, and the Department of Housing and Urban Development. States submit the Unified or Combined State Plan to the Federal Coordinator for Plan Review and Approval (currently Heather Fleck), Division of WIOA Adult Services and Workforce System, Office of Workforce Investment, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW, Room S-4209, Washington, DC 20210.

Award Procedure:

Those portions of the State Plan over which the Assistant Secretary for Employment and Training exercises authority are reviewed and approved by the Employment and Training Administration. Formula funds are awarded to the states based on a statutory formula provided in the authorizing legislation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. State plans will be reviewed in accordance with 20 CFR 661.220(e), which provides that the Secretary must approve all state plans within 90 days of their submission, unless the Secretary determines in writing that: (1) the State Plan is inconsistent with the provisions of Title I of WIOA or the WIOA regulations, including 29 CFR Part 37; or (2) the portion of the State Plan impacting the Wagner-Peyser Act plan does not satisfy the criteria for approval in Section 8(d) of the Wagner-Peyser Act or the Wagner-Peyser Act regulations at 20 CFR Part 652.

TYPES OF ASSISTANCE:

USES AND USE RESTRICTIONS:

Title I of the Act authorizes the Workforce Innovation and Opportunity Act System and establishes state workforce development boards with oversight responsibility by the governors for local workforce development boards; and establishes the process by which eligible providers of training and youth activities are identified. The Act authorizes the use of funds for youth employment and training activities that will provide eligible youth assistance in achieving careers and academic and employment success; ensures ongoing mentoring opportunities; provides opportunities for training; provides continued supportive services; and provides opportunities for leadership, youth development, financial literacy, entrepreneurship, and community service. Funds must be used in accordance with the rules and regulations. Section 129(C)(4)(A) increases the minimum Out-of-School Youth expenditure rate for youth formula funded programs to 75 percent. (4) An offender;

(5) A homeless individual aged 16 to 24 who meets the criteria defined in sec. 41403(6) of the Violence Against Women Act of 1994 (42 U.S.C.

(7) An individual who is pregnant or parenting;

(8) An individual with a disability; or

(b) Not younger than age 14 or (unless an individual with a disability who is attending school under State law) older than age 21 at time of enrollment. TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

States have great flexibility in using these funds and are not limited to conducting only one type of innovative program. However, the use of grant funds must be consistent with WIA Section 503, including the requirement that they be used for innovative programs which further the purposes of WIA Titles I and II, AEFLA and/or the Perkins Act. In addition, grantees must comply with the requirements of whichever program the innovation affects. For example, if the incentive funds will be used for innovations in the delivery of youth activities under WIA Title I, the program must be consistent with WIA Title I provisions applicable to youth activities and the WIA regulations at 20 CFR part 664. States must submit a plan describing the innovative activities to be funded with this grant. States are expected to use funds for services and activities: (1) beyond those provided with regular funds from the three programs, particularly those authorized by one of these programs and another program; (2) which serve the needs of populations intended to be served by one or more of these programs; and (3) targeted to improving the performance of State systems of employment, training, and education. In addition, States are encouraged to plan activities that promote cooperation and collaboration among the agencies administering WIA Title I, AEFLA, and Perkins Act programs. States may only use funds in accordance with WIA, AEFLA, or Perkins Law III/IV. Program Year (PY) 2013 was the last year of incentive grants as WIOA does not authorize these grants.

Beneficiary Eligibility:

Regulations at 20 CFR 666.210 authorize the state to use its incentive grant award to carry out an innovative program consistent with the requirements of any one or more of the programs within Title IB or Title II of WIA or the Perkins Act. See Training and Employment Guidance Letter (TEGL) 20-01, Change 13 for additional information (http://wdr.doleta.gov/directives/attach/TEGL/TEGL%2020-01,Change%2013_Acc.pdf).

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

There is currently only one type of HCTC DWG: infrastructure. Infrastructure DWG funds can be used to help states establish the systems and procedures needed to make healthcare benefits available for eligible individuals. States may request HCTC Infrastructure DWG funds to cover administrative costs for activities related to the transmittal of records of eligible TAA and ATAA/RTAA recipients to the IRS via the Unemployment Insurance (UI) Interstate Connection Network (ICON). Upon receipt of the state workforce agency (SWAs) information, the IRS determines whether the eligible TAA and ATAA/RTAA recipients are also eligible for HCTC. NEG's funds are discretionary. States may apply for HCTC Infrastructure funds on a rolling basis. The awards will be available from October 1, 2016, through September 30, 2019. The grant period of performance will be from award (no earlier than) October 1, 2016, through December 31, 2019. States may apply for funds up to \$500,000, and if additional funds are required, states may submit a justification for consideration. States may apply for HCTC Infrastructure Dislocated Worker Grants (HCTC Infrastructure DWGs) to cover administrative costs, notifying workers, public education about the benefit, staff training, and outreach activities related to the reinstatement of the advance credit option of HCTC. NDWGs funds are discretionary.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications submitted requesting funding for administrative costs in response to this UIPL must contain four separate and distinct parts: (1) SF-424 Application for Federal Assistance; (2) SF-424A Budget Information Form; (3) Budget Narrative; and (4) Project Narrative. It is each states responsibility to ensure that the funding amount requested is consistent across all parts and sub-parts of the application.

A. SF-424, Application for Federal Assistance

A state must complete the SF-424, Application for Federal Assistance OMB Control No. 4040-0004

An SF-424 electronically submitted through grants.gov constitutes the official signed document. Item #11 must include the Catalog of Federal Domestic Assistance Number, (include HCTC Number here). Upon confirmation of an award, the individual signing the SF-424 on behalf of the applicant is considered the Authorized Representative of the applicant. As stated in block

21 of the SF-424 form, the signature of the Authorized Representative on the SF-424 certifies that the organization is in compliance with the Assurances and Certifications form SF-424B (available at <http://apply07.grants.gov/apply/forms/sample/SF424B-V1.1.pdf>). You do not need to submit the SF-424B with the application.

B. Project Budget

A state must complete the SF-424A Budget Information Form OMB Control No. 4040-0006.

C. Budget Narrative

The budget narrative must provide a description of costs associated with each line item on the SF-424A, demonstrating how grant funds will be used. It must also include a description of leveraged resources provided (as applicable) to support grant activities.

Note that the SF-424, SF-424A, and budget narrative must include the entire Federal grant amount requested (not just for one year). Do not show leveraged resources on the SF-424 and SF-424A. A state should describe leveraged resources in the budget narrative. The requested Federal grant amount listed on the SF-424, SF-424A, and budget narrative must be the same. The funding amount included on the SF-424 will be considered the official funding amount requested if any inconsistencies are found.

D. Project Narrative

The Project Narrative must demonstrate the states capability to implement the grant project in accordance with the provisions of this announcement. It must provide a comprehensive framework and description of all aspects of the proposed project. It must be succinct, self-explanatory, and well-organized so that reviewers can understand the proposed project. Examples of activities for which funding may be requested include (but are not limited to): 1) outreach to notify eligible individuals regarding the availability of the advance credit option of HCTC; 2) process improvements to ensure eligible TAA and ATAA/RTAA recipients are correctly identified; 3) development/implementation of information technology systems related to the requirements this advisory; and 4) HCTC staff training.

E. Reporting

Each grant recipient is required to submit a ETA 9130, Quarterly Financial Status Report (OMB Control Number 1205-0461) until such time as all funds has been expended or the grant period has expired. Quarterly reports are due 45 days after the end of each calendar year quarter. On the final Financial Status Report, grant recipient must include any sub-award amounts so that applicable final indirect costs may be calculated. The ETA 9130 report must be submitted using the Departments Online Electronic Reporting System. Specific instructions on how to use that system will be provided after award

17.278 WIA/WIOA DISLOCATED WORKER FORMULA GRANTS

Workforce Innovation and Opportunity Act (WIOA) Dislocated Worker Program

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

Workforce Innovation and Opportunity Act (WIOA) of 2014

The Workforce Innovation and Opportunity Act (WIOA) was signed into law on July 22, 2014. It supersedes the Workforce Investment Act of 1998, and amends the Wagner-Peyser Act and the Rehabilitation Act of 1973. This regulation has been submitted to the Office of the Federal Register (OFR) for publication, and is currently pending publication in the Federal Register. Only the version published in the Federal Register is the official regulation., Public Law 113-128.

OBJECTIVES:

The purpose of the WIOA Dislocated Worker program is to help dislocated workers become reemployed. It provides them with job search assistance, career services, and/or training that builds their skills to meet labor market needs. Dislocated Worker services are targeted for workers who are unemployed and have lost a job through no fault of their own, or who have exhausted their Unemployment Compensation. The program measures success by participants' entry and retention of unsubsidized employment, and their median earnings.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

WIOA specifies that most services for adult and dislocated workers will be provided through the American Job Center (AJC) Network, also known as the one-stop career center system. It authorizes that funds be used to provide career services, which are classified into two categories: basic and individualized services. While some job seekers may only need self-service or other basic

career services such as labor exchange services, others may need more comprehensive services, such as individualized services, which include career planning, and developing an individual employment plan outlining needs and goals of the job seeker. Participants will also receive training services linked to job opportunities in their communities. To promote customer choice and involvement in career decisions, participants use an "Individual Training Account" (ITA) to select an appropriate training program from an eligible training provider list (ETPL). WIOA also authorizes the provision of supportive services (e.g. transportation and child care assistance) to enable an individual to participate in the program. Funds must be used in accordance with the statute and regulations.

Applicant Eligibility:

Under WIOA, the entities eligible to receive formula-based funding from the Department are the 50 states, Puerto Rico, the District of Columbia and the outlying areas. Funds are allotted based on a statutory formula and states, in turn, allocate funds to local workforce development boards (approximately 600), which are responsible for operating American Job Centers (approximately 2,500 nationwide).

Beneficiary Eligibility:

Individuals eligible for assistance through the Act are workers who have lost their jobs, including those dislocated as a result of plant closings or mass layoffs, and are unlikely to return to their previous industry or occupation; formerly self-employed individuals; and displaced homemakers who depend on income of another family member, but are no longer supported by that income. Priority of Service is given to veterans and other covered persons.

Credentials/Documentation:

Formula-funded programs are subject to an agreement between the Governor and Secretary and an approved State Plan. States sign a grant document agreeing to comply with the Act and regulations for the formula-allotted program. Cost principles apply to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Governor must submit a single WIOA Unified or Combined State Plan in accordance with planning guidance issued through the Federal Register. The planning guidance provides detailed instruction on what must be included in the State Plan, and provides a framework for collaboration across programs and integration of services, including the WIOA Title I programs and Wagner-Peyser Activities, as well as WIOA Titles II and IV programs housed with the Department of Education. The Combined State Plan includes the six "core" programs of the Unified Plan as well as other workforce development programs administered by the Department of Labor, the Department of Education, Health and Human Services, the Department of Agriculture, and the Department of Housing and Urban Development. States submit the Unified or Combined State Plan to the Federal Coordinator for Plan Review and Approval (currently Heather Fleck), Division of WIOA Adult Services and Workforce System, Office of Workforce Investment, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW, Room S-4209, Washington, DC 20210.

Award Procedure:

Those portions of the State Plan over which the Assistant Secretary for Employment and Training exercises authority are reviewed and approved by the Employment and Training Administration. Formula funds are awarded to the states based on a statutory formula provided in the authorizing legislation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. State plans will be reviewed in accordance with 20 CFR 661.220(e), which provides that the Secretary must approve all state plans within 90 days of their submission, unless the Secretary determines in writing that: (1) the state plan is inconsistent with the provisions of Title I of WIOA or the WIOA regulations, including 29 CFR Part 37; or (2) the portion of the state plan impacting the Wagner-Peyser Act plan does not satisfy the criteria for approval in section 8(d) of the Wagner-Peyser Act or the Wagner-Peyser Act regulations at 20 CFR Part 652.

17.806 VETERAN'S PREFERENCE IN FEDERAL EMPLOYMENT

FEDERAL AGENCY:

Veterans' Employment and Training Service, Department of Labor

AUTHORIZATION:

Veterans Preference Act of 1944, Public Laws 78-359, 93-508, 94-502, 95-520, 95-454, 97-72, 97-306, 98-543, 99-576, 101-237, 102-16, 102-568, 105-339, and 106-117; 109-163; Executive Order 11521, March 26, 1970.

OBJECTIVES:

To provide assistance to preference eligible individuals who believe that their rights under veterans' preference statutes and regulations have been violated. Recognizing their sacrifice, Congress enacted laws to prevent veterans seeking Federal employment from being penalized for their time in military service. Veterans' preference recognizes the economic loss suffered by citizens who have served their country in uniform, restores veterans to a favorable competitive position for Government employment, and acknowledges the larger obligation owed to disabled veterans. Veterans' preference is not so much a reward for being in uniform as it is a way to help make up for the economic loss suffered by those who answered the nation's call to arms. Historically, preference has been reserved by Congress for those who were either disabled or who served in combat areas. Eligible veterans receive many advantages in Federal employment, including preference for initial employment and a higher retention standing in the event of layoffs. However, the veterans' preference laws do not guarantee the veteran a job, nor do they give veterans' preference in internal agency actions such as promotion, transfer, reassignment, and reinstatement. By law, veterans who are disabled or who served on active duty in the Armed Forces during certain specified time periods or in military campaigns are entitled to preference over others in hiring from competitive lists of eligibles and also in retention during reductions-in-force. Preference applies in hiring for virtually all Federal jobs, whether in the competitive or excepted service. In addition to receiving preference in competitive appointments, veterans may be considered for special noncompetitive appointments for which only they are eligible.

TYPES OF ASSISTANCE:

FEDERAL EMPLOYMENT

USES AND USE RESTRICTIONS:

To assist persons who perform service in the uniformed services to secure Federal employment and to ensure a higher retention standing in the event of a reduction-in-force. To provide information and assistance to veterans, employers, labor organizations, and other elements of the community concerned with veterans' preference in Federal employment and retention. The Department of Labor - Veterans' Employment and Training Service investigates complaints with the goal of voluntary resolution of veterans' preference problems. Unresolved complaints can be pursued by the complainant veteran to the Merit Systems Protection Board.

Applicant Eligibility:

(1) Five-point preference is given to those honorably separated veterans (this means an honorable or general discharge) who served on active duty (not active duty for training) in the Armed Forces: During any war (this means a war declared by Congress, the last of which was World War II); during the period April 28, 1952, through July 1, 1955; for more than 180 consecutive days, any part of which occurred after January 31, 1955, and before October 15, 1976; during the Gulf War period beginning August 2, 1990, and ending January 2, 1992; for more than 180 consecutive days, any part of which occurred during the period beginning on September 11, 2001, and ending on the date prescribed by Presidential proclamation or by law as the last date of Operation Iraqi Freedom; or in a campaign or expedition for which a campaign medal has been authorized, such as El Salvador, Lebanon, Granada, Panama, Southwest Asia, Somalia, and Haiti. Medal holders and Gulf War veterans who originally enlisted after September 7, 1980, or entered on active duty on or after October 14, 1982, without having previously completed 24 months of continuous active duty, must have served continuously for 24 months or the full period called or ordered to active duty. Effective on October 1, 1980, military retirees at or above the rank of major or equivalent, are not entitled to preference unless they qualify as disabled veterans. Ten-point preference is given to those honorably separated veterans who: (1) Qualify as disabled veterans because they have served on active duty in the Armed Forces at any time and have a present service-connected disability or are receiving compensation, disability retirement benefits, or pension from the military or the Department of Veterans Affairs; or (2) are Purple Heart recipients; the spouse of a veteran unable to work because of a service-connected disability; the unmarried widow of certain deceased veterans; and the mother of a veteran who died in service or who is permanently and totally disabled. When applying for Federal jobs, eligible veterans should claim preference on their application or resume. Applicants claiming 10-point preference must complete form SF- 15, Application for 10-Point Veteran Preference. Veterans who are still in the service may be granted 5 points tentative preference on the basis of information contained in their applications, but they must produce a DD Form 214 prior to appointment to document entitlement to preference. Note: Reservists who are retired from the Reserves but are not receiving retired pay are not considered "retired military" for purposes of veterans' preference. (2) Veterans who have been separated from the armed forces under honorable conditions shortly before completion of 3 years, or completion of 3 years or more of active duty military service are eligible to compete for vacant Federal positions for which the agency making the announcement will accept applications from individuals outside its own workforce under merit promotion procedures. This does not make them preference eligible, but allows access to certain Federal job openings for which they would otherwise not be entitled to apply. (3) Public Law 94-502 authorizes Federal agencies to provide unpaid training or work experience, as a part of the Department of Veterans Affairs vocational rehabilitation for a disabled veteran. Such training may be designed to provide noncompetitive appointment.

Beneficiary Eligibility:

Non-disabled veterans, disabled veterans and certain wives or husbands, widows, widowers, and mothers of veterans.

Credentials/Documentation:

For veterans' preference, general proof of honorable separation such as discharge certificate or DD Form 214. In addition, for 10-point preference, a letter from the Department of Veterans Affairs or military department certifying existence of service-connected disability. When the 10-point preference is based on the award of a Purple Heart, official documentation of the award is sufficient. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

None. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Application forms are available from Service Centers of the Office of Personnel Management and from Federal agency personnel offices. Veterans eligible for noncompetitive appointment should make personal contact

with the Federal agency where they would like to be considered for employment. Veterans who believe that they have not been properly accorded their rights have several different avenues of complaint, depending upon the nature of the complaint and the individual's veteran status: The Veterans Employment Opportunities Act of 1998 allows preference and other eligibles to file a complaint with the Department of Labor's Veterans' Employment and Training Service (VETS) when the person believes an agency has violated his or her rights under any statute or regulation relating to veterans' preference. Eligible veterans seeking employment who believe that an agency has not properly accorded them their veterans' preference, or failed to provide special placement consideration noted above, may file a complaint with the local Department of Labor VETS representative (located at State employment service offices). To be eligible to file a complaint a veteran must: Have served on active duty for more than 180 days and have other than a dishonorable discharge; have a service-connected disability; or served on active duty during a period of war, or received a campaign badge or expeditionary medal (e.g., the Southwest Asia Service Medal). The Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) prohibits discrimination in employment, retention, promotion, or any benefit of employment on the basis of a person's service in the uniformed services. Complaints under this law should also be filed with the local Department of Labor VETS representative (located at State employment service offices). Since a willful violation of a provision of law or regulation pertaining to veterans' preference is a Prohibited Personnel Practice, a preference eligible who believes his or her veterans' preference rights have been violated may file a complaint with the local department of Labor VETS representative, as noted above. A disabled veteran who believes he or she has been discriminated against in employment because of his or her disability may file a handicapped discrimination complaint with the offending agency under regulations administered by the Equal Employment Opportunity Commission.

Award Procedure:

None.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Under Public Law 95-454, retired members of the armed forces will no longer be considered preference eligible as of October 1, 1980, unless they are disabled veterans or retired below the rank of Major or the equivalent. Under Public Law 97-306, enacted October 14, 1982, a 2-year minimum active duty service condition for those entering military service after September 7, 1980, or the full period for which called or ordered to active duty, must be met, unless they are disabled veterans.

19.009 ACADEMIC EXCHANGE PROGRAMS - UNDERGRADUATE PROGRAMS

Undergraduate programs include the Global Undergraduate Exchange Program (UGRAD); Study of the U.S. Institutes for Student Leaders; Community College Initiative Program (CCIP); and the Critical Language Scholarship (CLS) Program and Capacity-Building Program for U.S. Undergraduate Study Abroad.

FEDERAL AGENCY:

Bureau of Educational and Cultural Affairs, Department of State

AUTHORIZATION:

The Fulbright-Hays Act of 1961, as amended, Public Law 87-256, 22 U.S.C 2451.

OBJECTIVES:

As authorized by the Fulbright-Hays Act, the Bureau of Educational and Cultural Affairs (ECA) seeks to increase mutual understanding between the people of the United States and the people of other countries by means of educational and cultural exchange programs, including the exchange of scholars, researchers, professionals, students, and educators. ECA programs foster engagement and encourage dialogue with citizens around the world. Educational and cultural engagement is premised on the knowledge that mutual understanding, the development of future leaders, and the benefits of education programs influence societies and affect official decision-making almost everywhere in the world today. ECA programs inform, engage, and influence participants across strategic sectors of society including young people, women, teachers, scholars, journalists, and other professionals increasing the number of foreign individuals who have first-hand experience with Americans and with the values of freedom, representative government, rule of law, economic choice, and individual dignity, while building international knowledge and capacity among Americans. The purpose of Undergraduate Programs is to provide targeted support for American students to pursue intensive language study abroad and for foreign students to gain a better understanding of the United States, while developing new generations of world leaders.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funding is provided to non-profit organizations, colleges, and universities to support their work in designing and administering programs as well as coordinating program logistics. Funding supports publicity and recruitment, screening of applications, communication with participants, payment of participant costs, and the provision of enrichment activities. The Global Undergraduate Exchange Program provides one semester scholarships to outstanding undergraduate students from underrepresented sectors in Central Asia, East Asia and the Pacific, Europe, Eurasia, the Near East, South Asia, Sub-Saharan Africa, and the Western Hemisphere for non-degree full-time study combined with community service, professional development, and cultural enrichment.

The Study of the U.S. Institutes for Student Leaders are five- to six-week academic programs focusing on topics in U.S. studies for groups of foreign undergraduates. Hosted by universities, colleges, and NGOs throughout the United States, the Institutes include an intensive academic residency, an educational study tour, leadership development, community service activities, and opportunities for participants to engage with American peers. The Institutes aim to increase the undergraduates understanding of U.S. history, government, culture, society, and institutions with the overall goal of increasing mutual understanding between the people of the United States and the people of

other countries. This model includes the Young Southeast Asian Leaders (YSEALI) Academic Fellowship, which aims to build the leadership capacity of youth in Asia, to strengthen ties between the United States and Asia, and to nurture an ASEAN identity. YSEALI Academic Fellows take part in five-week programs in the themes of Civic Engagement, Environmental Issues, and Social Entrepreneurship and Economic Development. The Mandela Washington Fellowship for Young African Leaders also follows the SUSI model but targets young professionals from throughout Sub-Saharan Africa. The Mandela Washington Fellowship is the flagship program of President Obamas Young African Leaders Initiative. The Fellowship aims to empower young people through academic coursework, leadership training, and networking. Fellows take part in a six-week intensive academic and leadership program focused in one of three tracks: business and entrepreneurship, civic leadership, or public management followed by a three-day Presidential Summit. Some fellows also take part in six-week professional development experiences at a U.S. workplace.

The Community College Initiative Program (CCIP) provides participants from underserved and underrepresented groups with a one-year non-degree academic program at a U.S. community college in the fields of agriculture; applied engineering; business management and administration; early childhood education; information technology; media; public safety; and tourism and hospitality management. Participants increase their employment-related skills and knowledge of English, increase their ability to contribute to the economic development of their countries, and promote mutual understanding. Please refer to the Grants.gov or the GrantSolutions.gov announcement for further information.

The Critical Language Scholarship (CLS) Program provides fully-funded, group-based intensive language instruction and structured cultural enrichment experiences to U.S. undergraduate and graduate students through overseas summer institutes. CLS Program languages include Arabic, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu, with institutes held in countries where the target languages are spoken. The CLS Program includes twenty hours a week of formal language instruction for 8-10 weeks (equivalent to one full year of language study). Students also participate in activities that are specifically designed and organized to increase language acquisition and cultural knowledge. CLS students engage with the local host community by living with host families, meeting weekly with local language partners and engaging in volunteer activities while using the host language. The CLS program plays a critical role in preparing U.S. students for the 21st century's globalized workforce and increasing American competitiveness.

The Capacity Building Program for U.S. Undergraduate Study Abroad provides awards to U.S. colleges and universities to expand and diversify their study abroad programs. The program provides support to approximately 18 U.S. higher educational institutions to expand study abroad opportunities for students who have been traditionally underrepresented in study abroad and/or develop programs of study for students to destinations, and/or in disciplines, that have been traditionally underrepresented in study abroad. The goal is to increase the number of students who have the knowledge and skills they need to compete in the global economy and to help address global challenges as well as to develop sustainable study abroad programs that can benefit future cohorts of students.

ECA programs inform, engage, and influence participants across strategic sectors of society including young people, women, teachers, scholars, journalists, and other professionals increasing the number of foreign individuals who have first-hand experience with Americans and with the values of freedom, representative government, rule of law, economic choice, and individual dignity, while building international knowledge and capacity among Americans. The Humphrey Program brings young and mid-career professionals from designated countries to the United States for a year of non-degree graduate-level study, leadership development, and professional collaboration with U.S. counterparts.

TYPES OF ASSISTANCE:

The Program offers Fellows opportunities for leadership development and professional engagement with Americans and their counterparts from many nations. Up to eighteen major universities in the United States serve as host campuses for Humphrey Fellows. 19.452 INTERNATIONAL EXCHANGE ALUMNI PROGRAMS

International Exchange Alumni Programs include International Exchange Alumni Enrichment Seminars.

FEDERAL AGENCY:

Bureau of Educational and Cultural Affairs, Department of State

AUTHORIZATION:

The Fulbright-Hays Act of 1961, as amended., Title 87, Part 256.

OBJECTIVES:

As authorized by the Fulbright-Hays Act, the Bureau of Educational and Cultural Affairs (ECA) seeks to increase mutual understanding between the people of the United States and the people of other countries by means of educational and cultural exchange programs, including the exchange of scholars, researchers, professionals, students, and educators. ECA programs foster engagement and encourage dialogue with citizens around the world. Educational and cultural engagement is premised on the knowledge that mutual understanding, the development of future leaders, and the benefits of education programs influence societies and affect official decision-making almost everywhere in the world today. ECA programs inform, engage, and influence participants across strategic sectors of society including young people, women, teachers, scholars, journalists, and other professionals increasing the number of foreign individuals who have first-hand experience with Americans and with the values of freedom, representative government, rule of law,

economic choice, and individual dignity, while building international knowledge and capacity among Americans.

The purpose of International Exchange Alumni Programs is to advance U.S. foreign policy by building and maintaining relationships with current and future leaders who have participated in international exchanges. Alumni engagement is an integral component of the U.S. Department of States public diplomacy that generates maximum return on the U.S. governments investment in exchange programs. Alumni programs aim to unite alumni communities around the globe and foster post-exchange opportunities through follow-on activities, virtual engagement, funding opportunities and resources, and regional programs.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

With approximately 1,000,000 alumni worldwide, EC is committed to providing resources to sustain engagement with and harness the energy, enthusiasm, and expertise of these current and emerging leaders. Working closely with Department of State regional bureaus and U.S. embassies worldwide, ECA supports alumni programs that are strategic, responsive to U.S. embassy priorities, and designed to reinforce U.S. foreign policy objectives. To best address those objectives, ECA focuses alumni programs on policy priority topics relating to civic engagement, social inclusion, education diplomacy, English language learning, environmental security, entrepreneurship, conflict resolution, and good governance.

In addition to providing expertise, training, and support for on-the-ground alumni activities led by U.S. embassies and consulates around the world, ECA maintains a robust, targeted virtual engagement system. One of the key ways the office currently unites and engages the alumni community virtually is through the International Exchange Alumni website (alumni.state.gov), an exclusive, password-protected on line global community, which serves as the Department of States official website for U.S. government-sponsored exchange alumni. The site offers alumni a place to network and connect with other alumni, share news, and access resources such as grants and research databases.

Funding provided to a non-profit organization supports regional or sub-regional enrichment seminars for exchange alumni, which focus on thematic topics that support U.S. foreign policy priorities and foster a sense of shared identity, networking, and dialogue among participating alumni.

Authorizing legislation refers to an airport as any area of land or water used or intended to be used for the landing or taking off of aircraft and includes, within the five categories of airports listed below, special types of facilities such as seaplane bases and heliports. The statute further defines airports by categories which include commercial service, primary, cargo service, reliever, and general aviation airports. They are defined as follows: Commercial Service Airports are publicly owned airports that have at least 2,500 passengers boarding each year and receive scheduled passenger service. Passenger boarding refer to revenue passenger boarding on an aircraft in service in air commerce. The definition also includes passengers who continue on an aircraft in international flight that stops at an airport in any of the 50 states for a non-traffic purpose. Passenger boardings at airports that receive scheduled passenger service are also referred to as Enplanements. Non-primary Commercial Service Airports are Commercial Service Airports that have at least 2,500 and no more than 10,000 passenger boardings each year. Primary Airports are Commercial Service Airports that have more than 10,000 passenger boardings each year. These airports are further categorized as Hub Airports, based on the level of passenger boardings. Hub categories for Primary Airports are defined as a percentage of total passenger boardings in the most current calendar year ending before the start of the current fiscal year. The definition and formulae used for designating Primary Airports by Hub Type and percentage of annual passenger boardings are: Large 1 percent or more; Medium - at least 0.25 percent, but less than 1 percent; Small - at least 0.05 percent, but less than 0.25 percent; and Non hub - more than 10,000, but less than 0.05 percent. Cargo Service Airports are airports that, in addition to any other air transportation services that may be available, are served by aircraft providing air transportation of only cargo with a total annual landed weight of more than 100 million pounds. Reliever airports are airports designated by the FAA to relieve congestion at a Commercial Service Airports and to provide more general aviation access to the overall community. The remaining airports, are referred to as general aviation (GA) Airports and are defined as a public airport that is not a commercial service airport. General aviation airports comprise the largest single group of airports in the U.S. airport system. Eligible work at airports consists of: (1) airport master plans; (2) airport noise compatibility plans; (3) land acquisition; (4) site preparation; (5) construction, alteration, and rehabilitation of runways, taxiways, aprons, and certain roads within airport boundaries; (6) construction and installation of airfield lighting, navigational aids, and certain offsite work; (7) safety equipment required for certification of airport facility; (8) security equipment required of the sponsor by the Secretary of Transportation by rule or regulation for the safety and security of persons and property on the airport; (9) snow-removal equipment; (10) terminal development; (11) aviation-related weather reporting equipment; (12) equipment to measure runway surface friction; (13) burn area training structures and land for that purpose, on or off airport; (14) agency-approved noise compatibility projects; (15) relocation of air traffic control towers and

navigational aids (including radar) if they impede other projects funded under AIP; (16) land, paving, drainage, aircraft deicing equipment and structures for centralized deicing areas; and (17) projects to comply with the Americans with Disabilities Act of 1990, Clean Air Act, and Federal Water Pollution Control. Under limited criteria construction of hangars and automobile parking are eligible. Grants for hangars and parking facilities are available on a limited basis. Grants may not be, made for buildings not related to the safety of persons on the airport, decorative landscaping or artwork, or routine maintenance and repair. Technical advisory services are also provided. Formula funds are available to primary commercial service airports and to cargo service airports. Discretionary funds may be used at any eligible facility and allocation is based on established criteria. The percentage of fund varies each fiscal year.

20.109 AIR TRANSPORTATION CENTERS OF EXCELLENCE

(FAA Centers of Excellence)

FEDERAL AGENCY:

Federal Aviation Administration (FAA), Department of Transportation

AUTHORIZATION:

Federal Aviation Administration Research, Engineering and Development Authorization Act of 1990, Public Law 101-508, 49 U.S.C.C.

OBJECTIVES:

Conduct long term research in critical and specific areas of aviation related technology. Responsibilities of Centers may include, but are not limited to: the conduct of research concerning catastrophic failure of aircraft; airspace and airport planning and design; airport capacity enhancement techniques; human performance in the air transportation environment; aviation safety and security; the supply of trained air transportation personnel including pilots and mechanics; and other aviation issues pertinent to developing and maintaining a safe and efficient air transportation system, and the interpretation, publication, and dissemination of the results of such research.

TYPES OF ASSISTANCE:

PROJECT GRANTS; PROVISION OF SPECIALIZED SERVICES; USE OF PROPERTY, FACILITIES, OR EQUIPMENT

USES AND USE RESTRICTIONS:

Centers of Excellence are established for long term mission-critical research in specific technology areas. Funding may be used for the establishment and operation of the Centers of Excellence and the related training, education and research projects. The FAA determines a need for a Center of Excellence in a specific area of technology and publishes in Grants.gov a Notice of Intent to Establish a COE and a Notice of Availability of a Draft Solicitation. In response to the Final Solicitation, each applicant submits a proposal with a description of their institutional capabilities, available faculty, facilities and equipment, and additional information as required in the Solicitation. Researchers at each COE are expected to maintain a close working relationship with the FAA COE Program Office and relevant FAA program offices and others having responsibility in areas related to their research projects. Centers conduct semi-annual reviews, and a major symposium at the conclusion of each cooperative agreement and research phase. This activity satisfies Congressional requirements to disseminate research results to a broad audience.

CONGRESSIONAL RESTRICTIONS: (1) Matching Funds - The Federal share of the grant awarded shall be 50 percent of the cost to establish and operate and conduct related research within the Center of Excellence and related research activities. (2) Maintenance of Effort - Each recipient will maintain its aggregate expenditures from all other sources for establishing and operating the Center and related research activities at or above the average level of such expenditures in its 2 fiscal years preceding November 5, 1990. (3) Locations of centers and distribution of funds shall be geographically equitable. (4) Contract tasks may be awarded following the competitive process and may include negotiable cost share. (5) Funds are awarded to universities. Industry and other affiliates must align with academic institutions who may then sub-contract to others as appropriate. Centers of Excellence are established to conduct aviation related research, education, training, information dissemination and technology transfer. Unless otherwise directed by Congress, FAA COEs are awarded discretionary R&D, Operations, AIP, and F&E funds for the appropriate purpose. These funds are made available by sponsoring organizations and are awarded to establish, operate and conduct research, related activities and support general COE initiatives.

Applicant Eligibility:

FAA COE applicants are limited to colleges and universities with the financial resources to meet statutory requirements for matching Federal funds and maintenance of effort. Academic institutions may partner with industry affiliates, other public and private entities, government laboratories and other interested parties. Applicants must satisfy the Congressionally mandated selection criteria as stated in an open Final Solicitation.

Beneficiary Eligibility:

Recipients are limited to colleges and universities with the financial resources to meet statutory requirements for matching Federal grants and maintenance of effort. In conducting research, a Center of Excellence may contract with nonprofit research organizations and other appropriate persons.

Credentials/Documentation:

Required documentation is outlined in each solicitation package. After the Draft Solicitation is published, copies of the Solicitation are available prior to a Public Meeting and are provided by the FAA Centers of Excellence Program Office, FAA Technical Center, Atlantic City International Airport, NJ 08405. To establish a Center of Excellence, the FAA COE Program Office conducts a competitive process to include a: public announcement, publication of a Draft and a Final Solicitation, period of public comment, management/fiscal review, and a technical evaluation. Public Law 101-508 established the following equally weighted selection criteria: (1) The extent to which the needs of the State in which the applicant is located are representative of the needs of the region for improved air transportation services and facilities. (2) The demonstrated research and extension resources available to the applicant for carrying out this program. (3) The capability of the applicant to provide leadership in making national and regional contributions to the solution of both long- range and immediate air transportation problems. (4) The extent to which the applicant has an established air transportation program. (5) The demonstrated ability of the applicant to disseminate results of air transportation research and educational programs through a State-wide or region-wide continuing education program. (6) The projects which the applicant proposes to carry out under the grant. Each proposal must include the following: (a) description of current research projects being conducted in the specific research

area, (b) a schedule of anticipated costs to establish and operate the Center of Excellence, (c) a plan for meeting the 50 percent nonfederal contribution toward the matching requirements, (d) a statement showing aggregate expenditures from all other sources for aviation research in its 2 fiscal years preceding November 5, 1990, (e) all data sufficient for the evaluation team to determine the extent to which the applicant is able to satisfy the six selection criteria outlined.

Each proposal must contain a: 1. completed Application for Federal Assistance (SF-424 Research and Related); 2. table of contents; 3. technical statement addressing the problems inherent in the specific technical area(s) and probable solutions; 4. summary of results from FAA funding in the past five years; 5. biographical sketch for all senior personnel and a list of their principal accomplishments and publications during the past five years; 6. proposed budget for the initial three years including the anticipated costs of managing a new Center of Excellence, and a management plan; 7. listing of all current and pending support on all research awards from all sources; 8. listing of all available facilities and major items of equipment to be available to conduct research, and that which is necessary to acquire. 9. a cover letter and letters of support from various industry representatives, state and local officials, etc. Other required forms are to be included such as Disclosure of Lobbying Activities Form SF-LLL and certification of Compliance with the Civil Rights Act. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

FAA holds a public information meeting prior to submission of proposals. During the period of public comment and thereafter, questions may be submitted to the FAA Centers of Excellence Program Office, ANG-A12, FAA Technical Center, Atlantic City International Airport, NJ 08405. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Colleges and universities may apply after the FAA has published a Notice of Availability of Solicitation for a Center of Excellence in a specific research area on the Grants.gov website. Solicitation and application packages are available from the FAA Centers of Excellence Program Office, FAA Technical Center, Atlantic City International Airport, NJ 08405.

Award Procedure:

The FAA Administrator is the selecting official for each Air Transportation Center of Excellence. The FAA Centers of Excellence Program Director issues solicitations, receives all proposals, convenes evaluation teams to evaluate eligible institutions for Centers of Excellence awards. Applicants should be prepared to host an onsite inspection of existing research facilities when being considered for a Center of Excellence designation. Grant award authority has been delegated by the FAA Senior Procurement Executive to the FAA COE Grants Officer and Program Director, ANG-E, located at the William J. Hughes Technical Center, Atlantic City International Airport, NJ 08405. Awards are made to COE members throughout the term of the Center. No further announcements are issued.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From the closing date for applications, the FAA requires at least 6 months for evaluation and selection procedures.

Appeals:

Formal protests are not an option; however, those submitting a proposal may request a debriefing.

Renewals:

Grants: Multi-year grants and cooperative agreements are available; extensions

are possible. No-cost extensions are available upon request.

Centers of Excellence designation: Centers are evaluated during the last year of each research Phase. Cooperative agreements are renewed upon successful completion of each previous Phase throughout the 10-year term.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Percent: 50%. This program has no statutory formula. Matching Funds Requirements - The Federal share shall be 50 percent of the costs of establishing and operating the Center of Excellence and related research activities. Maintenance of Effort - Each recipient will maintain its aggregate expenditures from all other sources for establishing and operating the Center and related research activities at or above the average level of such expenditures in its 2 fiscal years preceding November 1990. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The FAA intends to support a Center of Excellence in two (2) five-year increments over a period of 10 years. Each Center undergoes a reassessment within the final year of each cooperative agreement Phase. Research is reviewed semi-annually. Budgets and research projects are defined, evaluated and negotiated yearly. As a consequence of changing needs, or diminished requirements, the agency reserves the right not to renew support for a Center of Excellence at any time. Funds from program offices and additional appropriations may increase at any time providing the institution can demonstrate matching contributions are available. See the following for information on how assistance is awarded/released: Centers of Excellence are established following the execution of a cooperative agreement between the FAA and each core member university. Thereafter, funds are awarded via grants as amendments to the agreements. Following the FAA or DOT announcement of the selected team, the FAA COE Program Director negotiates a cooperative agreement with each university core member. Grant awards are issued as amendments to the initial cooperative agreement(s) following submission of technical proposals and individual evaluations.

Reports:

Technical reports are provided to the sponsoring organization. COE Program status and fiscal reports are required on a quarterly basis. Technical and Financial reporting requirements are specified in 2 CFR 200, Subpart D Post-Federal Award Requirements. Semi-annual matching reports are required as well as an annual review of the research completed and in progress at each Center of Excellence. The annual technical review focuses on the relevance, merit and direction of research efforts in the designated area, and negotiation of projects and budget for the next year. A major technical conference is required by the end of each cooperative agreement period as part of close-out activities and serves to highlight research results and discuss plans for the next five-year phase. A major technical symposium is designed to satisfy legislative requirements to highlight COE outcomes and disseminate information and is conducted prior to the final 10-year period of performance. No cash reports are required. Technical progress reports are required on a quarterly basis throughout the period of performance. These include the following:

- * Description of project.
- * Investigation Team: the team that will perform the research, including the Principal Investigator and all academic, government, and industry partners
- * Objective of the research
- * General description of approach to research
- * Expected benefits
- * Funding
 1. Project funding, identifying proposed FAA contributions, proposed contributions from other agencies or organizations, and COE matching funds
 2. Project in-kind contributions, identifying contributions of cash versus in-kind contributions
 3. Project spending profile, outlining expenditures anticipated over time.Universities may use their most current approved indirect cost rate at the time of submission.
- * Schedule: including milestones
- * The Universities will utilize the standardized tracking and reporting system, the FAA COE e-grants system, to the greatest extent possible to satisfy these requirements.

A progress report is also provided during the annual technical review which focuses on the relevance, merit and direction of research efforts in the designated area, and discussion regarding future projects and budgets for the next year. The required final symposium is part of the COE close-out activities and serves to highlight research results over the entire period of performance. The symposium is also designed to satisfy legislative requirements to disseminate information. The standard form is submitted and the process is followed as described in the Financial Reporting Requirements section, 2 CFR 200, Subpart D Post-Federal Award Requirements. A technical monitor is assigned by the sponsoring organization to oversee each task, to monitor performance, receive technical reports, and approve invoices. A major meeting to present research results for a broad audience of peers is conducted during the fifth year; additionally, a major symposium is required by the end of the 10-year period as part of close-out activities and serves to highlight research results. The symposium is designed to satisfy legislative requirements to disseminate information.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Single Audit Act assigns responsibility to either the Department of Health and Human Services or the Department of Defense for most institutions. The FAA calls for an audit of each Center every five years as a part of close-out activities, and reserves the right to conduct individual audits annually, and as needed, within the constraints of applicable laws and regulations. A final formal audit is conducted during the 10th year of operation prior to close out of the COE.

20.205 HIGHWAY PLANNING AND CONSTRUCTION

(Federal-Aid Highway Program, Federal Lands Highway Program).

FEDERAL AGENCY:

Federal Highway Administration (FHWA), Department of Transportation

AUTHORIZATION:

Fixing Americas Surface Transportation Act (FAST Act), 23 U.S.C 104.

OBJECTIVES:

Federal-aid Highway Program: To help State departments of transportation (State DOT) to plan, construct, and preserve the National Highway System (NHS), an integrated, interconnected transportation system important to interstate commerce and travel; for transportation improvements to Federal-aid highways and to bridges on all public roads; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges and to preserve bridges that are still in good condition; and to provide for other special purposes. This program also provides for the improvement of roads in the District of Columbia, Puerto Rico, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands and the U.S. Virgin Islands. The Federal Lands Highway Program: The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges that are on or provide access to federally owned lands. The Federal Lands Highway organization also provides training, technology deployment, and engineering services to other customers. The FAST Act established a new program called the National Highway Freight Program (NHFP). The NHFP program provides funding for States to invest in infrastructure and operational improvements that reduce congestion, improve safety and productivity, and strengthen the contribution of the National Highway Freight Network (NHFN).

TYPES OF ASSISTANCE:

FORMULA GRANTS; PROJECT GRANTS

USES AND USE RESTRICTIONS:

Most Federal-aid highway funds are apportioned to the States by statutory formulas. They are generally restricted to public roads that are not functionally classified as rural minor collectors or local roads. Planning and research activities, bridges, bicycle and pedestrian paths, safety improvements on any public road, non-motorized transportation, the FLTP, and public transportation improvement are some exceptions to the highway functional classification restriction. Federal-aid highway funds may be used for environmental studies, engineering and design services, right-of-way acquisition and relocation assistance, and construction for capital improvement projects classified as new construction, reconstruction, restoration, rehabilitation, resurfacing and preservation, or for functional, geometric, or safety reasons. Funds may also be used for planning; research, development, and technology transfer; intelligent transportation systems projects; roadside beautification; wetland and natural habitat mitigation; traffic management and control improvements; improvements necessary to accommodate other transportation modes; development and implementation of performance and asset management systems; billboard removal; construction of bicycle facilities and pedestrian walkways; fringe and corridor parking; car pool and van pool projects; transportation alternatives and enhancements such as scenic and historic highway improvements; and recreational trails. Funds generally cannot be used for routine highway operational activities, such as police patrols, mowing, snow plowing, litter control, or maintenance, unless it is preventative maintenance. Funding from the National Highway Performance Program (NHPP) is generally limited to projects on the NHS, which includes the Eisenhower Interstate System. Surface Transportation Block Grant Program (STBG) funds may be used on any Federal-aid highway or for bridges on any public road. Congestion Mitigation and Air Quality Improvement (CMAQ) Program funds are limited to projects and programs that reduce transportation related emissions air quality non-attainment and maintenance areas for ozone, carbon monoxide, and particulate matter, though provision is made for States without air quality issues. Eligibility criteria for the programs differ, so program guidance should be consulted. Federal-aid highway projects in metropolitan areas must be based on a transportation planning process carried out by a Metropolitan Planning Organization (MPO) in cooperation with the State, local officials, and transit operators. The projects must be included in the metropolitan transportation plan (MTP) and the transportation improvement program (TIP). Projects in non-metropolitan areas of a State must be consistent with a statewide transportation plan. Projects in both metropolitan and non-metropolitan areas must also be included in a fiscally constrained Statewide Transportation Improvement Program (STIP) developed as part of the required statewide transportation planning process. The FHWA and the Federal Transit Administration (FTA) must approve the STIP jointly. Projects under the FLTP are also subject to metropolitan and statewide planning requirements.

Funding from the NHFP is generally limited to projects that contribute to the efficient movement of freight on the National Highway Freight Network (NHFN), and are consistent with metropolitan and statewide transportation planning requirements. Beginning December 4, 2017, there are additional planning requirements related to the NHFP in that a State may not obligate NHFP funds apportioned to the State unless the State has developed a State Freight Plan (SFP). The NHFP strategically directs resources and policies to present solutions and strategies to address the infrastructure, institutional, and financial bottlenecks that hinder the safe and efficient movement of goods. NHFP funds may be obligated for one or more of the following: development phase activities including planning, feasibility analysis, revenue forecasting, environmental review, preliminary engineering and design work, and other preconstruction activities. construction, reconstruction, rehabilitation, acquisition of real property (including land relating to the project and improvements to land), construction contingencies, acquisition of equipment, and operational improvements directly relating to improving system performance, intelligent transportation systems and other technology to improve the flow of freight, including intelligent freight transportation systems, efforts to reduce the environmental impacts of freight movement, environmental and community mitigation for freight movement, railway-highway grade separation, geometric improvements to interchanges and ramps, truck-only lanes climbing and runaway truck lanes, adding or widening

of shoulders, truck parking facilities. real-time traffic, truck parking, roadway condition, and multimodal transportation information systems, electronic screening and credentialing systems for vehicles, including weigh-in-motion truck inspection technologies traffic signal optimization, including synchronized and adaptive signals, work zone management and information systems, highway ramp metering, electronic cargo and border security technologies that improve truck freight movement intelligent transportation systems that would increase truck freight efficiencies inside the boundaries of intermodal facilities, additional road capacity to address highway freight bottlenecks, physical separation of passenger vehicles from commercial motor freight, enhancement of the resiliency of critical highway infrastructure, including highway infrastructure that supports national energy security, to improve the flow of freight, a highway or bridge project to improve the flow of freight on the NHFN . In addition, a State may use up to 10% of the total fiscal year State apportionment under NHFP for freight intermodal or freight rail projects; including projects within the boundaries of public or private freight rail or water facilities (including ports), and that provide surface transportation infrastructure necessary to facilitate direct intermodal interchange, transfer, and access into or out of the facility. Program requirements and restrictions are contained in Title 23 United States Code. There are discretionary funds remaining from previous authorizations, which may remain available until expended.

Applicant Eligibility:

By law, the Federal-aid highway program is a federally assisted State administered program that requires each State to have a suitably equipped and organized transportation department. Therefore, most projects are administered by or through State transportation departments (State DOTs). Projects to be funded under the Federal-aid highway program are generally selected by State DOTs or MPOs, in cooperation with appropriate local officials, as specified in 23 U.S.C. and implementing regulations. Territorial highway projects are funded in the similar manner as other Federal aid highway projects, with the territorial transportation agency functioning in a manner similar to a State transportation department. Most FLTP projects are administered by the FHWA Office of Federal Lands Highway and its Divisions or by the various FLMA's.

Beneficiary Eligibility:

State transportation departments, and in some instances, Federal agencies, other State agencies, local agencies, and private, community-based organizations.

Credentials/Documentation:

Eligible activities and allowable costs will be determined in accordance with Title 23 and the OMB cost principles applicable to the recipient/sub-recipient. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Environmental investigation, reviews, and consultations are required for most projects under this program and must comply with the National Environmental Policy Act of 1969, although the level of review varies with the project. Concerning Executive Order 12372 -- Projects under the FLHP have similar requirements; however, an interested applicant would need to contact the designated FLMA or the local FLH Division for more information. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The FHWA has a Stewardship and Oversight Agreement with each State that details the extent to which the State assumes the responsibilities of the FHWA for projects in that State. States may assume the responsibilities of the FHWA for oversight of design and construction for projects that are on the NHS, including the Interstate System, unless the State or the FHWA determines that such assumption is not appropriate. For projects that are not on the NHS, the State shall assume the responsibilities of the FHWA for oversight of design and construction, unless the State determines that such assumption is not appropriate. The State DOT may be required to submit statements of work and

plans, specifications, and estimates for certain projects to their respective FHWA division office for approval.

Award Procedure:

The State DOTs generally decide which projects will be developed within funding categories and levels. The FHWA division office, located in each State, approves and executes a project agreement for each project before work can commence. There are several categories where funding is allocated at the discretion of the Secretary of Transportation and administered by the FHWA. When such funding is available, FHWA will solicit applications for candidate projects from the States. Projects administered by the FHWA Office of Federal Lands Highways or the FLMAs are subject to procurement processes identified in the Federal Acquisition Regulations. Project awards are subject to the availability of funds.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 1 day to 5 months.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 23, Part 101. Federal-aid highway funds are generally apportioned to the States by statutory formulas.

Matching Requirements: Percent: 20%. Typically, 80% of costs are federally funded with a 20% matching requirement. See 23 USC 120. Exceptions apply; contact FHWA for specific information.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Federal-aid highway funds generally become available at the beginning of the fiscal year for which they are authorized and must be obligated within 3 years after the close of that fiscal year. However, some categories of funds are available until expended. See the following for information on how assistance is awarded/released: For formula funds, FHWA issues a notice of apportionment on October 1 of each fiscal year based on the authorizing legislation and appropriations act (or continuing resolution) for the applicable year. Contract authority.

Reports:

No program reports are required. No cash reports are required. No progress reports are required. SF-425. The FHWA division office in each State is responsible for the stewardship of Federalaid highway funds in that State. They accomplish this using a variety of techniques ranging from program, process, and compliance reviews to involvement in individual Federal-aid projects. State DOTs have assumed oversight responsibilities for most Federal-aid highway projects. The FHWA division office will retain project approval actions that are either required by Law or based on a risk approach. The FHWA division office also may retain additional project approval action or get involved in some projects that have been designated Projects of Division Interest based on a risk approach. Certain non-construction activities, such as transportation planning, require periodic progress reports. Similar procedures apply to the FLMAs and FLTP projects with the FHWA Office of Federal Lands Highways providing the mandatory stewardship and oversight. Value engineering (VE) is required for Federal-aid projects on the National Highway System (NHS) with a cost of \$50 million or more; Federal-aid bridge projects on the NHS with a cost of \$40 million or more; and Federal-aid major projects on or off the NHS. Although VE is not required on design-build projects, FHWA does encourage that agencies perform a VE analysis. The FHWA Division Office may require VE reviews on projects below the minimum threshold if the project may benefit from the review. For more information visit: <http://www.fhwa.dot.gov/ve/>.

Project sponsors must submit annual financial plans and project management plans to FHWA for all major projects. A major project is defined as any project receiving Federal financial assistance for construction, with an estimated total

cost of \$500,000,000 or more. In addition, project sponsors must prepare annual financial plans for all projects with an estimated total cost of \$100,000,000 or more that are not designated as major projects. These annual financial plans must be submitted upon request by FHWA Division Offices.

The FAST Act requires FHWA to establish national performance measures and standards for safety, infrastructure condition, congestion reduction, system reliability, and freight movement. State DOTs and MPOs will set individual performance targets and must make significant progress toward achieving targets established for the National Highway Performance Program and Highway Safety Improvement Program. State DOTs will be required to periodically report to FHWA on their progress toward the achievement of their targets. FHWA will use these progress reports and performance data to determine if the State DOT has made significant progress toward the achievement of their targets as well as meeting national standards. A series of rulemakings are currently underway to implement these requirements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Project records and documents must be retained by the State or other governmental recipients/ sub-recipients as specified in 2 CFR 200.333. For the Federal Lands Highway Program, the Federal Lands Highway Divisions maintain the project records.

FEDERAL AGENCY:

Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation

AUTHORIZATION:

FAST Act, Pub. L. No. 114-94, 5101(a) and 5101(c) (2015), 49 U.S.C. 31102(a)-(k), 31104 (2016), as amended. See 49 CFR part 350, as amended. OBJECTIVES:

The Motor Carrier Safety Assistance Program (MCSAP) is a Federal formula grant program that provides financial assistance to States to reduce the number and severity of accidents and hazardous materials incidents involving commercial motor vehicles (CMV). The goal of the MCSAP is to reduce CMV-involved accidents, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. Investing grant monies in appropriate safety programs will increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices will be detected and corrected before they become contributing factors to accidents.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

The primary MCSAP activities eligible for reimbursement include the National Program Elements currently outlined in 49 CFR 350.109:

1. Driver and Vehicle Inspections;
2. Traffic Enforcement;
3. Compliance Reviews, Carrier Interventions, Investigations, and New Entrant Safety Audits;
4. Public Education and Awareness;
5. Data Collection

Part 350 is currently being revised to include changes required by the FAST Act. Additional elements will include:

1. New entrant safety audits,
2. Border enforcement activities;
3. Data Quality;
4. PRISM;

Detection of and enforcement actions taken as a result of criminal activity; including trafficking of human beings, in a CMV or by any occupant, including the operator, of the CMV.

For documented enforcement of State traffic laws and regulations designed to promote the safe operation of CMVs. This includes documented enforcement of such laws and regulations relating to non-CMV's when necessary to promote the safe operation of CMVs, if (1) the number of motor carrier safety activities (including roadside safety inspections) conducted in the State is maintained at a level at least equal to the average level of such activities conducted in the State in fiscal years 2004 and 2005; and (2) A State may not use more than 10% of the amount of MCSAP Basic funds the State receives for enforcement activities

relating to non-CMV's necessary to promote the safe operation of CMVs unless the FMCSA Administrator determines that a higher percentage will result in significant increases in CMV safety.

Applicant Eligibility:

All States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, American Samoa, Guam, and the U.S. Virgin Islands, are eligible for MCSAP. The MCSAP grants are provided annually to the States MCSAP lead agency. From 30 to 60 days. The FMCSA will notify the State, in writing, within 30 days of receipt of the Commercial Vehicle Safety Plan (CVSP) whether: (1) the plan is approved; (2) Approval of the plan is withheld because the CVSP does not meet the requirements, or is not adequate to ensure effective enforcement of the FMCSRs and HMRs or compatible State laws and regulations, (a) If approval is withheld, the State will have 30 days from the date of the notice to modify and resubmit the plan, or (b) disapproval of a resubmitted plan is final.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2015: Current and previous fiscal year funded entities and projects are made available at USASpending.gov. In general, funded projects include targeted enforcement patrols in urban and high crash risk locations as well as educational programs that improve CMV safety and compliance with applicable regulations. CRITERIA FOR SELECTING PROPOSALS:

In accordance with 49 U.S.C. 31102(i) and grant/financial management requirements in 2 CFR part 200, each CVSP receives a fair, equitable and objective review prior to award approval. This review ensures that applicable statutory and regulatory requirements will be met and allowable CVSP projects and activities will succeed. The CVSP review process generally consists of a review in the following areas: 1) Application Review. The FMCSA reviews the CVSP and all supplemental attachments (e.g., forms and certifications) for completeness and to ensure that the MCSAP lead agency meets the basic eligibility requirements defined in the solicitation (notice of funding availability); 2) Programmatic Review. The FMCSA reviews the CVSP to make sure that the information presented is reasonable and understandable and the activities proposed in the application are measurable, achievable, and consistent with program or legislative requirements. The FMCSA evaluates the CVSP against the performance-based information required in accordance with 49 CFR 350.213.; 3) Financial Review. The FMCSA evaluates the fiscal integrity and financial capability of a MCSAP lead agency, and reviews the CVSP details, including the budget and budget narrative, and any other documentation to examine costs for proposed project/program activities to determine if they appear reasonable, necessary, eligible and allowable for award. Note that approval of the CVSP is not a final approval of costs as defined in accordance with 2 CFR part 200 Subpart E (Cost Principles); and 4) Suitability Review in accordance with 2 CFR 200.205 is discussed in more detail in Chapter 7.3.

For FHWA's administrative, research, technical assistance, and training expenses, FHWA may enter into contracts with for-profit organizations or contracts, partnerships, or cooperative agreements with other government agencies, institutions of higher learning, or nonprofit organizations to perform these tasks. Contracts are announced through www.fbo.gov. Cooperative agreements are announced through www.grants.gov.

Award Procedure:

For funds available to the States: The State agency or agencies designated by the Governors decide which projects will be developed within funding levels, but the FHWA division office located in each State makes the final decision on the eligibility of specific projects for funding.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

20.224 FEDERAL LANDS ACCESS PROGRAM

Access Program or FLAP

FEDERAL AGENCY:

Federal Highway Administration (FHWA), Department of Transportation

AUTHORIZATION:

Fixing Americas Surface Transportation Act (FAST), Public Law 114-94, 23 U.S.C 204; Section 1119 of the Moving Ahead for Progress in the 21st Century Act (MAP-21) , Public Law 112-141, 23 U.S.C 204.

OBJECTIVES:

The goal of the Federal Lands Access Program is to improve transportation facilities that provide access to, are adjacent to, or are located within Federal lands. The Access Program supplements State and local resources for public roads, transit systems, and other transportation facilities, with an emphasis on high-use recreation sites and economic generators. The program is designed to provide flexibility for a wide range of transportation projects in the 50 States, the District of Columbia, and Puerto Rico. A Programming Decisions Committee (PDC) within each State will make programming decisions and should develop a multi-year program of projects.

TYPES OF ASSISTANCE:

Formula Grants; Project Grants

USES AND USE RESTRICTIONS:

Funds made available under the Access Program shall be used to pay the cost of:

- A. transportation planning, research, engineering, preventive maintenance, rehabilitation, restoration, construction, and reconstruction of Federal Lands Access Transportation Facilities located on or adjacent to, or that provide access to, Federal land, and
 - i. adjacent vehicular parking areas;
 - ii. acquisition of necessary scenic easements and scenic or historic sites;
 - iii. provisions for pedestrians and bicycles;
 - iv. environmental mitigation in or adjacent to Federal land to improve public safety and reduce vehicle-caused wildlife mortality while maintaining habitat connectivity;
 - v. construction and reconstruction of roadside rest areas, including sanitary and water facilities; and
 - vi. other appropriate public road facilities, as determined by the Secretary;

B. operation and maintenance of transit facilities; and

C. any transportation project eligible for assistance under title 23 that is within or adjacent to, or that provides access to, Federal land.

In regard to (B) above, "operation and maintenance of transit facilities" includes the operation of all components of a transit system, including vehicles.

The eligibility under (C) above includes transit capital projects eligible under Chapter 53 of title 49, United States Code, that are also eligible under title 23 and that are within or adjacent to, or that provides access to, Federal lands open to the public. By law, these funds are to be used on publicly owned or maintained transportation facilities open to the public.

Applicant Eligibility:

Only the owner of the affected transportation asset or assets may submit an application.

Beneficiary Eligibility:

State transportation departments, other State agencies, local agencies, and Federal agencies.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

- The State Department of Transportation; and
- An appropriate political subdivision of the State.

The representative for local governments should be from an organization or entity that is suited to represent the local entities responsible for building, operating, or maintaining transportation facilities that are located on, are adjacent to, or provide access to Federal lands. The local representative should work cooperatively with representatives of local public transportation providers that provide access to or within Federal recreation areas within the State.

Depending on State law, such entities could include the Association of County Engineers or Officials in many States. In States with only one or two Federal facilities, the local interests may best be represented by the Metropolitan or Regional Transportation Planning Organization, whose jurisdiction includes the Federal area. In other States where the predominant Federal facility is adjacent to a gateway community, the municipality or other local entity may be the appropriate representative. Regardless, the local representative should represent local interests for access to Federal lands statewide. The local representative may not be affiliated with or work for the Executive Branch of the Federal or State government. The FHWA will work with the State DOT to identify an appropriate local representative.

The PDC in each State should develop Standard Operating Procedures (SOP) that may be part of a Statewide Program Agreement.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2015: Snug Harbor Road Paving and Bike Trail, AK
The proposed project is located near the community of Cooper Landing in the Kenai Peninsula Borough. It provides access to recreational opportunities on the Chugach National Forest, as well as local access for the community. Although the first mile of Snug Harbor Road is currently paved, the remaining portion has an aggregate surface which has created dust problems and safety concerns for pedestrians and bicyclists. Still within the planning stages, this project will pave the remaining stretch of the road to reduce road roughness, dust, and sediment runoff. To increase safety, a proposed bicycle facility will separate bicycles and pedestrians from vehicular traffic. This will include a separated bike path along the first stretch of the road followed by 5-foot paved bike lanes along both sides of the road in the last stretch.

Guanella Pass Road, CO
Park County Road 62 (Guanella Pass Road) starts in Grant, CO, intersecting U.S. Highway 285 and heads north over Guanella Pass and into Georgetown, CO, near Interstate 70. Guanella Pass Road is one of the premier high mountain roadways close to Denver. The project consists of major grading, retaining walls, drainage improvements, and placement of aggregate base and hot asphalt concrete paving of 6.4 miles of Guanella Pass Road. The focus of the project is improving the condition of the roadway while minimizing overall environmental impacts associated with poor drainage, raveled aggregate surfacing and wash boarding. This project, additionally, was successful in utilizing the State of Colorado toll credits as FLAP match, becoming the first State to utilize this innovative financing option. This project reflects the successful and longstanding partnership between FHWA, USFS, Park County, and the State of Colorado.

The City of Crystal River Florida of Citrus County, project for Three Sisters Spring Site, FL This project will construct a 44-foot wide entranceway to Three Sister Spring site at the Crystal River National Wildlife Refuge (NWR). The roadway cross section will have two lanes heading out of the refuge and one lane heading into the refuge with an 8-foot median in the middle. A 5-foot

by 7 foot precast box culvert with concrete end walls, curbs and gutters, and a sidewalk for the entranceway. Native species will be planted for landscaping and the roadway will be sloped toward a bios wale.

The Crystal River NWR was established specifically to protect the endangered West Indian Manatee, for a population of nearly 600 manatees as this is there primary habitat and safe haven during winter months. The refuge attracts 100,000 visitors annually to see and swim with manatees, and manatee viewing opportunities are predominantly only available from the water. Other recreational opportunities are sport fishing, snorkeling, motorized and non motorized boating, wildlife observation and nature photography.
