To provide direct financial assistance to Eligible Metropolitan Areas (EMAs) and Transitional Grant Areas (TGAs) that have been the most severely affected by the Human Immunodeficiency Virus (HIV) epidemic to enhance access to a comprehensive, effective and cost efficient continuum of high quality, community-based care for low-income individuals and families with HIV and to strengthen strategies to reach minority populations. A comprehensive continuum of care includes the 13 core medical services specified in legislation and appropriate support services that assist people living with HIV/AIDS (PLWH/A) in accessing treatment for HIV/AIDS that is consistent with the Department of Health and Human Service (HHS) Treatment Guidelines. Comprehensive HIV/AIDS care beyond these core medical services may include supportive services that meet the criteria of enabling individuals and families living with HIV/AIDS to access and remain in primary medical care to improve their medical outcomes.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Not less than 75 percent of grant funds remaining after reserving funds for administration and clinical quality management must be used to provide core medical services, unless a waiver request related to this requirement is submitted and approved. Core medical services include: outpatient and ambulatory health services, AIDS Drug Assistance Program, AIDS

pharmaceutical assistance, oral health care, early intervention services, health insurance premium and cost-sharing for low-income individuals, home health care, medical nutritional therapy, hospice services, home and community-based health services as defined under Section 2614 (c), mental health services, substance abuse outpatient care, and medical case management, including treatment adherence services. Support services are for individuals with HIV/AIDS to achieve medical outcomes and may include respite care for persons caring for individuals living with HIV/AIDS, outreach services, medical transportation, linguistic services and referral for health care and support services, and others. A percentage of the grant, determined by the percentage of women, infants, children and youth in the area with HIV/AIDS, will be used to provide health and support services to women, infants, children, and youth with HIV disease, including treatment measures to prevent the perinatal transmission of HIV. No more than 10 percent of amounts received under a grant may be used to fund the recipients grant administration and monitoring activities, program support activities and all activities associated with recipient contract award procedures. In addition, sub-recipient level administrative expenses may not exceed 10 percent of aggregate expenditures (without regard to whether particular entities expend more than 10 percent for such administrative expenses). All indirect costs incurred at the subrecipient level count toward the aggregate 10 percent limit. Recipients may use up to 5 percent of funds or \$3 million, whichever is less, for clinical quality management activities to assess the extent to which HIV health services provided to patients under the grant are consistent with the most recent Department of Health and Human Services guidelines for the treatment of HIV/AIDS. Funds may not be used to make payments for any item or service to the extent that payment has been made, or can reasonably be expected to be made, with respect to that item or service by other public or private insurance programs, or any entity that provides health services on a prepaid basis (except for a program administered by or providing the services to the Indian Health Service). Funds may not be used to purchase or improve land, or to purchase, construct or make permanent improvement to any building except for minor remodeling. Funds may not be used to make cash payments to intended recipients of Ryan White HIV/AIDS Program services.

Eligible health professions and nursing schools apply for funds to provide scholarships to students from disadvantaged and underrepresented racial and ethnic backgrounds who have financial need for scholarships and are enrolled, or accepted for enrollment, as full-time students at the schools. Schools provide student scholarships and disadvantaged student recruitment and retention programs that encourage completion of school and service in primary care and in medically underserved communities. The purpose is to provide entrance into a career as a health professional to help diversify the health workforce and encourage service in primary care and in medically underserved communities.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

SDS funds awarded to schools must be used to award full or partial scholarships to eligible students enrolled in health professions programs on a full-time basis. Scholarships may only be expended for tuition expenses, other reasonable educational expenses, and reasonable living expenses incurred while in attendance for the year. Student scholarship awards shall equal an amount no less than 50% of the students annual tuition costs up to a maximum amount of \$30,000 to cover the cost of attendance. No student can be awarded SDS funds greater than \$30,000 per year. The Secretary is required to make available at least 16 percent of the funds to schools that will provide scholarships only for nursing students. In addition, 25 percent of SDS funding is designated for graduate programs in behavioral and mental health practice. In making awards, geographical regions are also taken into consideration. Schools are required to agree that, in providing scholarships under this program, preference shall be given to students from disadvantaged backgrounds for whom the costs of attending the school would constitute a severe financial hardship. The Secretary may not make a grant to a school unless the school is carrying out a program for recruiting and retaining students from disadvantaged backgrounds and has met the eligibility criteria of demonstrating the success of outcome measures.

Applicant Eligibility:

- 2) At least 20 percent of the total graduates (who were full-time students) of a program during the specified academic year must have been from disadvantaged backgrounds. Faith-based and community-based organizations, Tribes, and tribal organizations are eligible to apply if all other eligibility requirements are met.

93.926 HEALTHY START INITIATIVE

Healthy Start

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Title III, Part D, Section 330H of the Public Health Service Act, (42 U.S.C.254c-8).

OBJECTIVES:

The purpose of this grant program is to improve perinatal health outcomes and reduce racial and ethnic disparities in perinatal health outcomes by using community-based approaches to service delivery, and to facilitate access to comprehensive health and social services for women, infants, and their families. HS grants are provided to communities with rates of infant mortality at least 1 times the U.S. national average and high rates for other adverse perinatal outcomes (e.g., low birthweight, preterm birth, maternal morbidity and mortality) in order to address the needs of high-risk women and their families before, during, and after pregnancy.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The Healthy Start (HS) program aims to reduce disparities in infant mortality and adverse perinatal outcomes by: 1) improving womens health, 2) promoting quality services, 3) strengthening family resilience, 4) achieving collective impact, and 5) increasing accountability through quality improvement, performance monitoring, and evaluation. Healthy Start grantees continue to reduce high infant mortality rates (IMR) by assuring access to culturally competent, family-centered, and comprehensive health and social services to women, infants, and their families through a community-based participatory approach. Additionally, HS grantees foster systems integration, coordination, and collaboration to advance community change and increase collective impact. HS grantees also coordinate and align with State Title V Maternal and Child Health Block Grant programs to promote cooperation, integration, and dissemination of information with statewide systems and with other community services funded under Title V. Funds may not be used to supplant currently funded activities/services.

Applicant Eligibility:

Eligible Project Area

All applicants applying for funding under this grant announcement must identify themselves as serving an urban, rural, or border community project area. A project area is defined as a geographic community in which the proposed services are to be implemented. A project area must represent a reasonable and logical catchment area, but the defined areas do not have to be contiguous. A map of the proposed project area must be included in the application.

Urban Territory, population, and housing units located within an urbanized area (UA) or an urban cluster (UC), which has:

- o a population density of at least 1,000 people per square mile; and
- o surrounding census blocks with an overall density of at least 500 people per square mile.

Rural To determine whether the Census tract or County for your proposed project area is defined as a rural area (RA), visit the webpage Rural Health Grants Eligibility

Analyzer(<http://datawarehouse.hrsa.gov/RuralAdvisor/ruralhealthadvisor.aspx?ruralByAddr=1>) and enter the project area address.

US/Mexico Border - Border communities are those communities located within 62 miles/100 kilometers of the U.S./Mexico border. In order to be considered for Border Community funding, the project area and the target population to be served both have to reside within 62 miles/100 kilometers of the U.S./Mexico border.

Eligible Target Population

The target population is the population that the applicant will serve within their geographic project area and will determine their eligibility. The target population may range from a single racial/ethnic group to the entire project area population. The project area for which the applicant is applying and the proposed target population within that project area must be clearly identified to confirm eligibility.

Eligibility Factors Demonstrating Need

HRSA/MCHB must be able to verify submitted data with the appropriate state/local government agency responsible for vital statistics. Border community applicants that cannot provide this verifiable data may use the other

indicators specified in the second section below. Project data for the eligibility factors for all applicants must be included in the applications transmittal letter and in the needs assessment section of the submitted application. The existing racial/ethnic disparities in these or other perinatal indicators should also be described in the needs assessment section of the application.

Applications that do not provide this information, in the manner described within this Funding Opportunity Announcement (FOA), will be considered ineligible and the application will be returned without review.

An applicants target population within their proposed project area must meet the following verifiable criteria using the smallest statistical level of verifiable data available -- not to be any larger than a combination of counties (e.g. a city project should not report county-level data). HRSA-14-020, Urban and Rural Communities

Using verifiable three-year average data for calendar years 2007 through 2009, the proposed project area for communities which meet the urban or rural community definition must meet the following indicators from the list below.

The 2007-2009 combined three-year infant mortality rate (IMR, infant deaths per 1,000 live births over three years) must be equal to or more than 9.9 deaths per 1,000 live births (1.5 times the national average) AND there must be 20 or more infant deaths over the three years for the targeted population.

If the combined 2007-2009 number of infant deaths are less than (<)20, then to be eligible the following must be met: o The 2007-2009 three-year average low birthweight (LBW) is equal to or more than 12.3% (1.5 times the national average) AND there must be 100 or more LBW births in the targeted population for the three-year period, 2007 to 2009

OR

The 2007-2009 preterm births (PTB) is equal to or more than 18.6% (1.5 times the national average) AND there must be 100 or more PTB births in the targeted population for the period, 2007 to 2009

For Levels 2 and 3, if the combined 2007-2009 IMR is less than 9.9 deaths per 1,000 live births, then to be eligible the following must be met: o The applicant must demonstrate a 20% decrease in IMR in their target population for 2005-2009 (five-year combined average) and discuss how they were a significant contributor to this reduction

AND meet at least one of the following criteria:

The 2007-2009 three-year average low birthweight (LBW) is equal to or more than 12.3% (1.5 times the national average) AND there must be 100 or more LBW births in the targeted population for the three-year period, 2007 to 2009

OR

The 2007-2009 preterm births (PTB) is equal to or more than 18.6% (1.5 times the national average) AND there must be 100 or more PTB births in the targeted population for the period, 2007 to 2009

US/Mexico Border Communities

Using verifiable three-year average data for 2007 through 2009, the proposed target population for project areas which meet the border community definition (i.e., within 62 miles of the U.S./Mexico border) must have at least 1,000 births for the three year period and meet at least three (3) indicators from the list below. If vital statistics are not available from state/local government agencies, border community applicants can use other verifiable data.

- Percentage of women of childbearing age with diabetes is 3.1% or more;
- Percentage of women of childbearing age who are obese is 31.8% or more;
- Percentage of pregnant women entering prenatal care in the first trimester is less than 80%;
- Percentage of births to women who had no prenatal care is greater than 2%;
- Percentage of births to women who smoke is greater than 20%;
- Percentage of children 0-2 years old with a completed schedule of immunization is less than 60%;
- Percentage of children under 18 years of age with family incomes below the Federal Poverty Level exceeded 25% for 2010. If more recent verifiable

poverty data is available, please provide this data and identify year and source; Percent of infants born large for gestational age (LGA) is 9.4 or greater.

The Health Resources and Services Administration (HRSA) has modified its reporting requirements for SPRANS projects, CISS projects, and other grant programs administered by the Maternal and Child Health Bureau (MCHB) to include national performance measures that were developed in accordance with the requirements of the Government Performance and Results Act (GPRA) of 1993 (Public Law 103-62). This Act requires the establishment of measurable goals for Federal programs that can be reported as part of the budgetary process, thus linking funding decisions with performance. Performance measures for States have also been established under the Block Grant provisions of Title V of the Social Security Act, the MCHBs authorizing legislation. Performance measures for other MCHB-funded grant programs have been approved by the Office of Management and Budget and are primarily based on existing or administrative data that projects should easily be able to access or collect.

1. Performance Measures and Program Data

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Native Hawaiian Health Care Improvement Act (42 USC 11701 11714), as amended by P.L. 111-148, Section 10221.

OBJECTIVES:

To raise the health status of Native Hawaiians living in Hawaii to the highest possible level through the provision of comprehensive health promotion and disease prevention services, as well as primary health services, and to provide existing Native Hawaiian health care programs with all resources necessary to effectuate this policy.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Required Native Hawaiian Health Care Systems services under this program include outreach, health promotion, disease prevention, and primary health care services. These services will attempt to integrate traditional health concepts with western medicine so that existing barriers to health care can be removed. It is anticipated that the various components will be integrated into one comprehensive system of care and that the existing health resources of the community will be used to the greatest extent possible. Required Papa Ola Lokahi activities include coordination and updating of a comprehensive Native Hawaiian health care plan, providing training, technical assistance, and coordination for Native Hawaiian health care sites/practitioners statewide, serving as a clearinghouse, and conducting disease prevalence research.

Applicant Eligibility:

Eligible entities include Papa Ola Lokahi and the "Native Hawaiian Health Care Systems." The term Native Hawaiian health care system is defined as an entity: (1) which is organized under the laws of the State of Hawaii; (2) which provides or arranges for health care services through practitioners licensed by the State of Hawaii, where licensure requirements are applicable; (3) which is a public or nonprofit private entity; (4) in which Native Hawaiian health practitioners significantly participate in the planning, management, monitoring, and evaluation of health care services; (5) which is recognized by Papa Ola Lokahi (a consortium of Hawaiian and Native Hawaiian organizations) for the purpose of planning, conducting, or administering programs or portions of programs, authorized by this act for the benefit of Native Hawaiians; and (6) which is certified by Papa Ola Lokahi as having the qualifications and the capacity to provide the services and meet the requirements of this Act for the benefit of Native Hawaiians.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Grants may not be awarded to a Native Hawaiian Health Care System unless the entity agrees that it will make available, directly or through donations to the entity, nonfederal matching funds in an amount not less than \$1 for every \$5 of Federal funds provided. Nonfederal contributions may be in cash or in kind, fairly evaluated, including plant, equipment, or services. Amounts provided by Federal government or services assisted or subsidized to any significant extent by the Federal Government may not be included in determining the amount of such nonfederal contributions. Federal sources may be used as matching funds if received as fees, payments, or reimbursements for the provision of specific services, such as patient care reimbursements received under Medicare or Medicaid. The match requirements may be waived if the Secretary determines, in consultation with Papa Ola Lokahi, that it is not feasible for the entity to comply with the requirement. Grant funds may not be used to pay for (1) inpatient services; (2) cash payments to intended recipients of health services; or (3) purchasing or improving real property (other than minor remodeling of existing improvements to real property) or major medical equipment. The entity may not expend more than 10 percent of amounts received under the grant for administering the grant. Other requirements and limitations are set forth in the Native Hawaiian Health Care Improvement Act (42 USC 11701 - 11714)

There is no matching requirement for Papa Ola Lokahi. MOE requirements are not applicable to this program.

Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation. Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel record for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

93.938 COOPERATIVE AGREEMENTS TO SUPPORT COMPREHENSIVE SCHOOL HEALTH PROGRAMS TO PREVENT THE SPREAD OF HIV AND OTHER IMPORTANT HEALTH PROBLEMS

(SHEPSA)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, 42 U.S.C 241(a) & 243(b).

OBJECTIVES:

To improve the health and well-being of youth and prepare them to be healthy adults.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Cooperative Agreement funds may be used to support personnel, purchase equipment, supplies, services, and travel directly related to the program activities and consistent with the scope of this program. Cooperative agreement funds are used to help schools prevent sexual risk behaviors that result in HIV infection, especially among youth who are at highest risk. For example, cooperative agreement recipients implement and integrate effective policies and educational strategies to reduce risk behaviors that lead to HIV infection among youth; implement strategies to reduce disparities among sub-populations of youth disproportionately affected by HIV infection and other health problems related to sexual risk behaviors; evaluate the implementation and effectiveness of strategies to reduce risks for HIV infection among youth in schools for the purposes of programmatic improvement and long-range planning. CDC believes that the specific scope and content of HIV education programs in schools should be locally determined and should be consistent with parental and community values. CDC supports local decision-making by providing sound scientific information to grantees who work directly with schools, communities, and parents. Funds may be expended for written materials, pictorials, audiovisuals, questionnaires or survey instruments, and educational group sessions related to HIV education for youth, school, and college populations if approved in accordance with the document "Content of AIDS-Related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions in Centers for Disease Control Assistance Programs." Cooperative agreement funds are also used to build state education and state health agency partnership and capacity to implement and coordinate school health programs across agencies and within schools. The expected outcome of this effort is to help schools reduce chronic disease risk factors, including tobacco use, poor nutrition, and physical inactivity. For example, cooperative agreement recipients implement and integrate effective policies, environmental changes, and educational strategies to reduce unhealthy behaviors; leverage resources to avoid duplication at the state and local levels; evaluate school health capacity-building efforts while implementing effective strategies to reduce priority health risks. Funds may not be used to conduct research projects, provide direct delivery of patient care or treatment services, and purchase or disseminate condoms. Although public health may have an assurance role in clinical testing and screening, funds are not to be used to provide clinical testing or screening services. Funds may not be used for purchasing computer equipment, office equipment or furnishing, renting or leasing office space, or to support construction or renovation unless specifically approved.

93.945 ASSISTANCE PROGRAMS FOR CHRONIC DISEASE PREVENTION AND CONTROL

(State Cardiovascular Health Programs (CVH); and Racial and Ethnic Approaches to Community Health (REACH)); State Public Health Approaches to

Improving Arthritis Outcomes, State Nutrition, Physical Activity and Obesity Programs.

State Public Health Actions to Prevent and Control Diabetes, Heart Disease Obesity and Associated Risk Factors and Promote School Health. Using Traditional Foods and Sustainable Ecological Approaches for Health Promotion and Diabetes Prevention in American Indian/Alaska Native Communities.

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act., Title 42, Section 301(a) and 317.

OBJECTIVES:

To work with State health agencies and other public and private nonprofit organizations in planning, developing, integrating, coordinating, or evaluating programs to prevent and control chronic diseases; assist in monitoring the major behavioral risks associated with the 10 leading causes of premature death and disability in the United States including cardiovascular diseases; and, establish new chronic disease prevention programs like Racial and Ethnic Approaches to Community Health (REACH), State Nutrition, Physical Activity and Obesity Programs (NPAO)

DP08-819/DP13-1317: Purpose - The purpose of the program is to 1) support community use of traditional foods and sustainable ecological approaches for diabetes prevention and health promotion in American Indian and Alaska Native communities; and 2) engage communities in identifying and sharing the stories of healthy traditional ways of eating, being active, and communicating health information and support for diabetes prevention and wellness.

CDC-RFA-DP13-1305, State Public Health Actions to Prevent and Control Diabetes, Heart Disease, Obesity and Associated Risk Factors and Promote School Health, supports statewide implementation of cross-cutting approaches to promote health and prevent and control chronic diseases and their risk factors. Four chronic disease prevention programs (Diabetes; Heart Disease and Stroke Prevention; Nutrition, Physical Activity, and Obesity; and School Health) are included in this FOA. State Health Departments are funded under this FOA to address the following goals:

Short/Intermediate Term Goals:

Improve state, community, worksite, school, and early childhood environments to promote and reinforce healthful behaviors across the lifespan related to diabetes, cardiovascular health, physical activity, healthful foods and beverages, obesity, and breastfeeding;

Improve effective delivery and use of quality clinical and other preventive services aimed at preventing and managing diabetes and hypertension; and Increase community-clinical linkages to support prevention, self-management, and control of diabetes, hypertension, and obesity.

Long Term Goals:

Improved prevention and control of hypertension

Improved prevention and control of diabetes

Improved prevention and control of overweight and obesity

The FOA has two components: 1) A basic non-competitive component to support health promotion, epidemiology, and surveillance activities and targeted strategies that will result in measurable impacts to address school health, nutrition and physical activity risk factors, obesity, diabetes, and heart disease and stroke prevention in all 50 states and the District of Columbia. These efforts will be supported by core public health activities such as partnership engagement, workforce development, guidance and support for programmatic efforts, strategic communication, surveillance and epidemiology, and evaluation; and 2) A competitive enhanced component to build on and extend the activities supported with basic funding to achieve even greater reach and impact. Thirty-two states were funded under the enhanced Component to implement evidence and practice-based interventions to improve physical activity and nutrition, reduce obesity, and prevent and control diabetes, heart disease, and stroke with a focus on high blood pressure. The enhanced component includes implementation of evidence-based strategies that are more extensive and wider-reaching than those implemented in the basic component.

States funded for this enhanced component must implement interventions at scale in order to reach large segments of the population in the state (e.g., through school districts, early care and education (ECEs), worksites, and state and local governmental agencies) and in partnership with organizations that may or may not have worked with state departments of health in the past (e.g., large employers, public housing, the education sector, health insurers, and large health systems).

93.946 COOPERATIVE AGREEMENTS TO SUPPORT STATE-BASED SAFE MOTHERHOOD AND INFANT HEALTH INITIATIVE PROGRAMS

Safe Motherhood and Infant Health (Reproductive Health)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act; Safe Motherhood, Section 317K; Prenatal and Postnatal Health, Section 317L, 42 U.S.C 247b-12 and 13.

OBJECTIVES:

To promote optimal and equitable health in women and infants through public health surveillance, research, leadership, and partnership to move science to practice. In carrying out this mission, the Division of Reproductive Health: 1) Enhances the ability of others to identify and address male and female reproductive issues and infant health issues by providing technical assistance, consultation, and training worldwide; 2) supports national and state-based surveillance systems to monitor trends and investigate health issues; 3) conducts epidemiologic, behavioral, demographic and health services research; and 4) works with partners to translate research findings into health care practice, public health policy, and health promotion strategies.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

PRAMS:

The Pregnancy Risk Assessment Monitoring System, is a surveillance project of the Centers for Disease Control and Prevention (CDC) and state health departments. PRAMS collects state-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy.

PRAMS provides data for state health officials to use to improve the health of mothers and infants; allows CDC and the states to monitor changes in maternal and child health indicators (e.g., unintended pregnancy, prenatal care, breastfeeding, smoking, drinking, infant health); and enhances information from birth certificates used to plan and review state maternal and infant health programs. The PRAMS sample is chosen from all women who had a live birth recently, so findings can be applied to the state's entire population of women who have recently delivered a live-born infant. PRAMS not only provides state-specific data but also allows comparisons among participating states because the same data collection methods are used in all states.

SID/SUID (Sudden infant Death/Sudden Unexplained Infant Death):

The SUID Case Registry aims to generate public health surveillance information about SUID at the national, state, and local levels that is more detailed than what is currently available. Instead of creating an entirely new system, the SUID Case Registry enhances the National Center for Child Death Review program and their Case Reporting System.

The SUID Case Registry generates public health surveillance information that can comprehensively describe the circumstances and events surrounding SUID cases. This will allow researchers, medicolegal investigators, and program prevention planners to better understand characteristics associated with SUID, evaluate case investigation practices, and ultimately prevent infant deaths.

Validation of Prenatal Substance Use Screening Tools:

The purpose of this research is to validate and compare the performance of the most promising substance abuse screening tools that are already available in the literature (for example, the 4Ps-plus, the 5Ps, the Substance Use Risk Profile Pregnancy Scale (SURP-P), the CRAFFT, the NIDA Quick Screen) and can be used among pregnant women seeking medical services (e.g. antenatal or delivery care) in clinical settings in the United States.

Medicaid Expansion and Reproductive Health Care for Women: The intent of this FOA is to study the use of medical services and health outcomes among

low-income women of reproductive age (15-44 years), before and after expansion of Medicaid eligibility. This research will require linkage of state Medicaid data with other key maternal and child health datasets including, but not limited to, birth certificates, death certificates, and hospital discharge data.

Perinatal Quality Collaboratives:

This FOA will support states to enhance the capabilities of state-based perinatal quality collaboratives to improve the quality of perinatal care in their states, including but not limited to: reducing early elective deliveries, increasing use and documentation of use of antenatal steroids, increasing breastfeeding rates, and reducing central line-associated blood stream infections in neonates. Module B will continue to support the work of the 3 states that have successfully expanded their Perinatal Quality Collaborative through an existing FOA, CDC-RFA- DP11-1110, that ends September 29, 2014, and will support expansion of PQC projects and formal mentoring and capacity building for Module A awardees.

Maternal and Child Health Capacity Building:

The program promotes and improves the health and well-being of women, children, and families by building capacity at state, local, and tribal levels and to use and apply sound epidemiologic research and scientific information to maternal and child health programs and policies through collaborations with partners.

Special Interest Project (SIP)/Progesterin contraception and HIV risk: Clinical and laboratory follow-up of a cohort of HIV-infected and uninfected women:

The purpose of this SIP is to establish a cohort of HIV-infected and HIV-uninfected women on different types of progesterin-containing contraception to assess differences in women's continuation with a given method and the effects of long-term progesterin use on markers of HIV risk and efficacy of ART. Also the project will support laboratory studies to analyze the effects of progesterin on HIV shedding, inflammatory/immune markers in the genital tract, and the interaction of progesterin with antiretroviral therapy on contraceptive and ART efficacy. Objectives in the topic area of Family Planning and HIV Prevention intend to increase the proportion of pregnancies that are intended; increase the proportion of sexually experienced persons who received reproductive health services; reduce pregnancy rates among adolescent females; and reduce the rate of HIV transmission among adolescents and adults.

Teen Pregnancy Prevention:

The program is supporting public and private entities to fund medically accurate and age appropriate evidence-based or innovative program models to reduce teen pregnancy. The purpose of the program is to reduce teen pregnancy by working directly with publicly funded clinics to increase access to and use of reproductive health services among vulnerable youth. Activities include building the capacity of staff and clinical providers, establishing partnerships with youth-serving systems, and developing communication efforts. The primary target population is 15- to 19-year-olds, the age group among whom the majority of teen births occur; however, since the Society of Adolescent Health and Medicine and the United Nations Family Planning Association define adolescents as 15-24, the target age group may be expanded.

Development and Testing of a Clinic-Based Intervention to Increase Dual Protection against Unintended Pregnancy and STDs among High Risk Female Teens: The purpose of this funding opportunity is to develop and evaluate a clinic-based intervention addressing access to, motivation for, and adherence to dual protection strategies that concurrently protect against unintended pregnancies and sexually transmitted diseases (STDs), including human immunodeficiency virus (HIV) among high risk 15-19 year old females.

Applicant Eligibility:

This single source funding opportunity provides Vermont with the necessary start-costs of the Model and is open to Vermonts Agency for Human Services (Agency). The Agency is uniquely positioned to meet the objectives of this funding opportunity based on its existing knowledge of the Model, its regulatory authority over healthcare in Vermont and its role in administering the Vermont All-payer ACO Model, its existing partnerships and collaborations with Vermont providers, and its resources and ability to deploy the funding immediately.

Knowledge of the Model: the Agency is intimately familiar with the

objectives of the Model. The Agency was a key member of the discussions between Vermont and CMS during the development of the Model; the Agency's Secretary and staff dedicated significant time, energy, and resources over the past year in partnering with CMS to establish the Models financial, health outcomes, and ACO scale targets. This existing familiarity and knowledge of the Model will help the Agency to expediently deploy the upfront investment in the Model offered under this funding opportunity announcement.

Authority and role in administering the Model: The Agency is responsible for ensuring that changes in Vermont's health system improve the conditions and well-being of Vermonters. The Agency has broad Vermont healthcare authority to improve the health of Vermonters and control the rate of growth in healthcare costs. Additionally, the Agency is a signatory to the Vermont All-payer ACO Models State Agreement and will be supporting the State in achieving its obligations under the State Agreement. The Agency can effectively complement this funding opportunity with its existing authority and role in administering the Model to ensure the funding is effectively used in achieving the Models goals.

Existing partnership and collaboration: The Agency is located in Vermont and has existing relationships and a history of collaboration with Vermont providers and community-based resources that would benefit from this funding opportunity. The Agency has also been working with these stakeholders for their input through the development of the Model.

Resources and ability to implement immediately: The Agency has the staff to implement this award immediately to support providers engaging in care coordination and linking beneficiaries to community-based resources.

Beneficiary Eligibility:

CMS is committed to achieving better care for individuals, better health for populations, and reduced expenditures for Medicare, Medicaid, and CHIP. Through the Innovation Center, CMS strives towards these goals by testing innovative payment and service delivery models. CMS believes that states can be critical partners of the federal government and other health care payers to facilitate the design, implementation, and evaluation of community-centered health systems that can deliver significantly improved cost, quality, and population health performance results for all state residents, including Medicare, Medicaid, and CHIP beneficiaries. States have policy and regulatory authorities, as well as ongoing relationships with commercial healthcare payers, health plans, and providers that can accelerate delivery system reform.

CMS has previously partnered with states to accelerate delivery system reform through initiatives such as the State Innovations Model (SIM). SIM provides state-based healthcare transformation efforts with funding to test the ability of states to utilize policy and regulatory levers to accelerate multi-payer health care transformation. Selected states have been working with state-based payers, including Medicaid and commercial payers, and providers to design and implement care delivery and payment reform. States participating in SIM were selected through two rounds of public Funding Opportunity Announcements released on August 23, 2012 (Round 1) and May 22, 2014 (Round 2).

Additionally, CMS has released guidance to SIM state participants in which CMS indicated that in certain instances it will consider state proposals for Medicare's alignment with state multi-payer payment and care delivery models. According to that guidance, CMS indicated that CMS would assess such proposals with consideration of the following principles: 1) patient-centered, 2) accountable for total cost of care, 3) transformative, 4) broad-based, 5) feasible to implement, and 6) feasible to evaluate. Vermont was one state that approached CMS with a desire for Medicare's alignment with the states payment and care delivery model, and Vermont publicly released its proposal on January 25, 2016. CMS reviewed Vermont's proposal and determined that it met the requirements necessary to explore in detail a potential Vermont-specific model.

In October 2016, CMS and the State of Vermont entered into a State Agreement on the Vermont All-payer ACO Model. Under the Model, CMS will test whether health and care delivery for Vermont residents improve and healthcare expenditures for beneficiaries across payers (including Medicare fee-for-service, Vermont Medicaid, Vermont Commercial Plans, and Vermont Self-insured Plans) decrease if a) the aforementioned payers offer Vermont ACOs risk-based arrangements tied to health outcomes and healthcare

expenditures; b) the majority of Vermont providers and/or suppliers enter into such risk-based arrangements; and c) the majority of Vermont residents across payers are aligned to an ACO bound by such arrangements. Start-up funding through a Cooperative Agreement will assist Vermont in achieving the above goals of the Model.

As part of the Model, Vermont providers will participate in a Vermont-specific Medicare ACO initiative (the Vermont Medicare ACO Initiative), and CMS will provide \$9.5M in start-up costs to assist Vermont providers with care coordination and bolster their collaboration with community-based resources. In return, Vermont commits to achieving statewide health outcomes, financial, and ACO scale (percentage of Vermont residents aligned to an ACO) targets both for Medicare and across all significant healthcare payers.

CMS believes that care coordination and collaboration with community-based resources will be necessary in order to achieve the financial, health outcomes, and ACO scale targets required under the Model. The start-up costs of the Model that CMS is providing to Vermont through a Cooperative Agreement will support such care coordination and collaboration with community-based resources, and will better enable Vermont to achieve the Models financial, health outcomes, and ACO scale targets.

Credentials/Documentation:

Employer Identification Number: All applicants must have a valid Employer Identification Number (EIN) assigned by the Internal Revenue Service.

Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS number): All applicants must have a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number in order to apply. The DUNS number is a nine-digit identification number that uniquely identifies business entities. Obtaining a DUNS number is free. To obtain a DUNS number, access the following website: www.dunandbradstreet.com or call 1-866-705-5711. See Section IV, Application and Submission Information, for more information on obtaining a DUNS number.

System for Award Management (SAM)

All applicants must register in the System for Award Management (SAM)* database (<https://www.sam.gov/portal/public/SAM/>) in order to be able to submit an application at <http://www.grants.gov>. In order to register, applicants must provide their DUNS and EIN numbers. Each year, organizations and entities, registered to apply for Federal grants through Grants.gov must renew their registration with SAM. Each year organizations and entities must renew their registration with SAM. Failure to renew SAM registration prior to application submission will prevent an applicant from successfully applying via Grants.gov. Similarly, failure to maintain an active SAM registration during the application review process can prevent CMS from issuing your agency an award under this program. Applicants should begin the SAM registration process as soon as possible after the announcement is posted to ensure that it does not impair your ability to meet required submission deadlines. Applicants must successfully register with SAM prior to submitting an application or registering in the Federal Funding Accountability and Transparency Act Sub-award Reporting System (FSRS) as a prime awardee user; awardees may make sub-awards only to entities that have DUNS numbers.

Organizations must report executive compensation as part of the registration profile at <https://www.sam.gov/portal/public/SAM/> by the end of the month following the month in which this award is made, and annually thereafter (based on the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109-282), as amended by Section 6202 of Public Law 110-252 and implemented by 2 CFR Part 170). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application Materials;

Application materials will be available for download at <http://www.grants.gov>.

Please note that HHS requires applications for all announcements to be submitted electronically through <http://www.grants.gov>. For assistance with <http://www.grants.gov>, contact support@grants.gov or 1-800-518-4726. At Grants.gov, applicants will be able to download a copy of the application packet, complete it off-line, and then upload and submit the application via the Grants.gov website.

Specific instructions for applications submitted via <http://www.grants.gov>:

* You may access the electronic application for this project at <http://www.grants.gov>. You must search the downloadable application page by the CFDA number.

* At the <http://www.grants.gov> website, you will find information about submitting an application electronically through the site, including the hours of operation. HHS strongly recommends that you do not wait until the application due date to begin the application process through <http://www.grants.gov> because of the time needed to complete the required registration steps.

* The applicant must be registered in the System for Award Management (SAM) database in order to be able to submit the application. Applicants are encouraged to register early, and must have their DUNS and EIN/TIN numbers in order to do so.

* **Authorized Organizational Representative:** The Authorized Organizational Representative (AOR) who will officially submit an application on behalf of the organization must register with grants.gov for a username and password. AORs must complete a profile with Grants.gov using their organizations DUNS Number to obtain their username and password at http://grants.gov/applicants/get_registered.jsp. AORs must wait one business day after successful registration in SAM before entering their profiles in Grants.gov. Applicants should complete this process as soon as possible after successful registration in SAM to ensure this step is completed in time to apply before application deadlines.

* When an AOR registers with Grants.gov to submit applications on behalf of an organization, that organizations E-Biz POC will receive an email notification. The email address provided in the profile will be the email used to send the notification from Grants.gov to the E-Biz POC with the AOR copied on the correspondence.

* The E-Biz POC must then login to Grants.gov (using the organizations DUNS number for the username and the special password called M-PIN) and approve the AOR, thereby providing permission to submit applications.

* Any files uploaded or attached to the Grants.Gov application must be PDF file format and must contain a valid file format extension in the filename. Even though Grants.gov allows applicants to attach any file formats as part of their application, CMS restricts this practice and only accepts PDF file formats. Any file submitted as part of the Grants.gov application that is not in a PDF file format, or contains password protection, will not be accepted for processing and will be excluded from the application during the review process. In addition, the use of compressed file formats such as ZIP, RAR, or Adobe Portfolio will not be accepted. The application must be submitted in a file format that can easily be copied and read by reviewers. It is recommended that scanned copies not be submitted through Grants.gov unless the applicant confirms the clarity of the documents. Pages cannot be reduced in size, resulting in multiple pages on a single sheet, to avoid exceeding the page limitation. All documents that do not conform to the above specifications will be excluded from the application materials during the review process.

* After you electronically submit your application, you will receive an acknowledgment from Grants.gov that contains a Grants.gov tracking number. CMS will retrieve your application package from Grants.gov. Please note that applicants may incur a time delay before they receive acknowledgment that the application has been accepted by the Grants.gov system. Applicants should not wait until the application deadline to apply because notification by Grants.gov that the application is incomplete may not be received until close to or after the application deadline, eliminating the

opportunity to correct errors and resubmit the application. Applications submitted after the deadline, as a result of errors on the part of the applicant, will not be accepted.

* After CMS retrieves your application package from Grants.gov, a return receipt will be emailed to the applicant contact. This will be in addition to the validation number provided by Grants.gov.

Applications cannot be accepted through any email address. Full applications can only be accepted through <http://www.grants.gov>. Full applications cannot be received via paper mail, courier, or delivery service.

All grant applications must be submitted electronically and be received through <http://www.grants.gov> by 3:00 pm Eastern Daylight Time on the applicable due date. Applications not successfully submitted to Grants.gov by the due date and time will not be eligible for review. All applications will receive an automatic time stamp upon submission and applicants will receive an email reply acknowledging the applications receipt.

Please be aware of the following:

- 1) Search for the application package in Grants.gov by entering the CFDA number. This number is shown on the cover page of this announcement.
- 2) If you experience technical challenges while submitting your application electronically, please contact Grants.gov Support directly at: www.grants.gov/customer-support or (800) 518-4726. Customer Support is available to address questions 24 hours a day, 7 days a week (except on Federal holidays).
- 3) Upon contacting Grants.gov, obtain a tracking number as proof of contact. The tracking number is helpful if there are technical issues that cannot be resolved.

To be considered timely, applications must be received by the published deadline date. However, a general extension of a published application deadline that affects all State applicants or only those in a defined geographical area may be authorized by circumstances that affect the public at large, such as natural disasters (e.g., floods or hurricanes) or disruptions of electronic (e.g., application receipt services) or other services, such as a prolonged blackout. This statement does not apply to an individual entity having Internet service problems. In order for there to be any consideration there must be an effect on the public at large.

Grants.gov complies with Section 508 of the Rehabilitation Act of 1973. If an individual uses assistive technology and is unable to access any material on the site including forms contained with an application package, they can email the Grants.gov contact center at support@grants.gov or call 1-800-518-4726.

- 4) Strengthen the quality of care through the implementation of standards related to medical care, outreach and education, and compensation counseling; and
- 5) Identify, treat and/or provide referrals for secondary conditions discovered through routine screenings and DOL medical exams. Information from The Centers for Disease Control and Prevention/National Institute of Occupational

Safety and Health (CDC/NIOSH) suggests that many miners experience hearing loss, musculoskeletal disorders, mental health disorders, cardiovascular disease and drug and alcohol abuse.

Under the Black Lung Center of Excellence (BLCE), the objectives are to:

Applicant Eligibility:

This single source funding opportunity provides Pennsylvania with the necessary start-up funding for the Model and is open to Pennsylvanias Department of Health and later the Rural Health Redesign Center.

First, the Pennsylvania Department of Health is uniquely positioned as the initial applicant under this funding opportunity to meet the objectives of this funding opportunity based on its existing knowledge of the Model, its regulatory authority over healthcare in Pennsylvania, and its capacity to administer the Pennsylvania Rural Health Model including operationalizing the Rural Health Redesign Center, and its existing partnerships and collaborations with Pennsylvania providers.

Knowledge of the Model: The Pennsylvania Department of Health is intimately familiar with the objectives of the Model. Pennsylvanias Department of Health was a key member of the discussions between Pennsylvania and CMS during the development of the Model; the Pennsylvanias Secretary of Health and staff dedicated significant time, energy, and resources over the past year in partnering with CMS to establish the Models financial, health outcomes, and rural hospital scale targets. This existing familiarity and knowledge of the Model will help the Pennsylvania Department of Health to expediently deploy the start-up funding offered under this funding opportunity announcement and successfully operationalize the Rural Health Redesign Center.

Authority and role in administering the Model: The Pennsylvania Department of Health is responsible for ensuring that changes in Pennsylvanias health system improve the conditions and well-being of Pennsylvanians. The Pennsylvania Department of Health has broad healthcare authority to administer the payments under the model and to improve the health of Pennsylvanians and control the rate of growth in healthcare costs. Additionally, the Pennsylvania Department of Health is a signatory to the Pennsylvania Rural Health Models State Agreement and will be supporting the State in achieving its obligations under the State Agreement.

Existing partnership and collaboration: The Pennsylvania Department of Health is located in Pennsylvania and has existing relationships and a history of collaboration with Pennsylvania providers, payers, and community-based resources that would benefit from this funding opportunity. Pennsylvanias Department of Health has also been working with these stakeholders for their input and participation throughout the development of the Model.

Second, the Rural Health Redesign Center as the second applicant, will also be uniquely positioned to meet the objectives of this funding opportunity.

Pennsylvanias Department of Health will legislatively create the Rural Health Redesign Center as an independent entity with authority over the implementation of the Pennsylvania Rural Health Model. The RHRC will approve hospital transformation plans, global budgets, exception adjustments and changes to operational and payment mechanisms associated with the Model as defined under the State Agreement. The RHRC will also establish and build strong relationships with Pennsylvania rural hospitals as the rural hospitals implement the Model. The RHRC will continue to strengthen these relationships as it implements the activities required under the Model. Similar to Pennsylvanias Department of Health, the RHRC will be uniquely positioned to support this Model as it will be legislatively created solely to provide implementation support for the Model.

Beneficiary Eligibility:

CMS is committed to achieving better care for individuals, better health for populations, and reduced expenditures for Medicare, Medicaid, and CHIP.

Through the Innovation Center, CMS strives towards these goals by testing innovative payment and service delivery models. CMS believes that states can be critical partners of the federal government and other health care payers to facilitate the design, implementation, and evaluation of community-centered health systems that can deliver significantly improved cost, quality, and population health performance results for all state residents, including Medicare, Medicaid, and CHIP beneficiaries. States have policy and regulatory authorities, as well as ongoing relationships with commercial healthcare payers, health plans, and providers that can accelerate delivery system reform.

CMS has previously partnered with states to accelerate delivery system reform through initiatives such as the State Innovations Model (SIM) program. SIM provides state-based healthcare transformation efforts with funding to test the ability of states to utilize policy and regulatory levers to accelerate multi-payer health care transformation. Selected states have been working with state-based payers, including Medicaid and commercial payers, and providers to design and implement care delivery and payment reform. States participating in SIM were selected through two rounds of public Funding Opportunity Announcements released on August 23, 2012 (Round 1) and May 22, 2014 (Round 2).

Additionally, CMS has released guidance to SIM state participants in which CMS indicated that in certain instances it will consider state proposals for Medicares alignment with state multi-payer payment and care delivery models. According to that guidance, CMS would assess such proposals with consideration of the following principles: 1) patient-centered, 2) accountable for total cost of care, 3) transformative, 4) broad-based, 5) feasible to implement, and 6) feasible to evaluate. Pennsylvania was one state that approached CMS with a desire for Medicares alignment with the states payment and care delivery model, and Pennsylvania submitted its proposal to CMS on May 23, 2016. CMS reviewed Pennsylvanias proposal and determined that it met the requirements necessary to explore in detail a potential Pennsylvania-specific model.

CMS, the Governor of Pennsylvania and Pennsylvanias Department of Health, will enter into a State Agreement on the Pennsylvania Rural Health Model. Under the Model, CMS will test the effect of deliberate care delivery transformation of rural acute care hospitals and critical access hospitals (CAHs) on quality and costs of care. The Model places these hospitals on all-payer, prospective global budgets for inpatient and outpatient services. As part of the State Agreement, Pennsylvania committed to legislatively creating the Rural Health Redesign Center (the RHRC) to operate the Model. This funding opportunity offers \$5M in start-up funding to the Pennsylvania Department of Health to operationalize the RHRC. The RHRC will be the central independent entity operating the Model and supporting hospitals through technical assistance, data analytics, monitoring, and evaluation. This funding opportunity also offers the RHRC (once operationalized by the Pennsylvania Department of Health) to apply for an additional \$10 million to begin implementing activities under the Model. In return, Pennsylvania commits to achieving health outcomes, financial, and Rural Hospital scale (number of Rural Hospitals participating in the Model) targets both for Medicare and across all significant healthcare payers as defined in the State Agreement.

CMS believes that model oversight, global budget administration, data analytics, technical assistance, and quality assurance will be necessary in order to implement the Model and achieve the financial, health outcomes, and rural hospital scale targets required under the Model. First, CMS will provide start-up funding to the Pennsylvania Department of Health for 12 months from the date of award. Then, CMS will provide the Rural Health Redesign Center, through a separate cooperative agreement award, with initial implementation funding for 36 months from the date of award. These cooperative agreement awards will support operationalizing the Rural Health Redesign Center and initial Model implementation efforts, and will better enable Pennsylvania to achieve the Models financial, health outcomes, and rural hospital scale targets as defined under the State Agreement.

Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS number): All applicants must have a Dun and Bradstreet (D&B) Data Universal Numbering System (DUNS) number in order to apply. The DUNS number is a nine-digit identification number that uniquely identifies business entities. Obtaining a DUNS number is free. To obtain a DUNS number, access the following website: www.dunandbradstreet.com or call 1-866-705-5711. See Section IV, Application and Submission Information, for more information on obtaining a DUNS number.

System for Award Management (SAM)

All applicants must register in the System for Award Management (SAM)* database (<https://www.sam.gov/portal/public/SAM/>) in order to be able to submit an application at <http://www.grants.gov>. In order to register, applicants must provide their DUNS and EIN numbers. Each year, organizations and entities, registered to apply for Federal grants through Grants.gov must renew their registration with SAM. Each year organizations and entities must renew their registration with SAM. Failure to renew SAM registration prior to application submission will prevent an applicant from successfully applying via Grants.gov. Similarly, failure to maintain an active SAM registration during the application review process can prevent CMS from issuing your agency an award under this program. Applicants should begin the SAM registration process as soon as possible after the announcement is posted to ensure that it does not impair your ability to meet required submission deadlines. Applicants must successfully register with SAM prior to submitting an application or registering in the Federal Funding Accountability and Transparency Act Sub-award Reporting System (FSRS) as a prime awardee user; awardees may make sub-awards only to entities that have DUNS numbers.

Organizations must report executive compensation as part of the registration profile at <https://www.sam.gov/portal/public/SAM/> by the end of the month following the month in which this award is made, and annually thereafter (based on the reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA) of 2006 (Pub. L. 109-282), as amended by Section 6202 of Public Law 110-252 and implemented by 2 CFR Part 170). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications will be submitted electronically through GrantSolutions in response to the Funding Opportunity Announcement (FOA).

Application Materials:

Application materials will be available for download at <http://www.grants.gov>. Please note that HHS requires applications for all announcements to be submitted electronically through <http://www.grants.gov>. For assistance with <http://www.grants.gov>, contact support@grants.gov or 1-800-518-4726. At Grants.gov, applicants will be able to download a copy of the application packet, complete it off-line, and then upload and submit the application via the Grants.gov website.

Specific instructions for applications submitted via <http://www.grants.gov>:

You may access the electronic application for this project at <http://www.grants.gov>. You must search the downloadable application page by the CFDA number.

At the <http://www.grants.gov> website, you will find information about submitting an application electronically through the site, including the hours of operation. HHS strongly recommends that you do not wait until the application due date to begin the application process through <http://www.grants.gov> because of the time needed to complete the required registration steps.

The applicant must be registered in the System for Award Management (SAM) database in order to be able to submit the application. Applicants are encouraged to register early, and must have their DUNS and EIN/TIN numbers in order to do so.

Authorized Organizational Representative: The Authorized Organizational Representative (AOR) who will officially submit an application on behalf of the organization must register with [grants.gov](http://www.grants.gov) for a username and password. AORs must complete a profile with Grants.gov using their organizations DUNS Number to obtain their username and password at http://grants.gov/applicants/get_registered.jsp. AORs must wait one business day after successful registration in SAM before entering their profiles in Grants.gov. Applicants should complete this process as soon as possible after successful registration in SAM to ensure this step is completed in time to apply before application deadlines.

When an AOR registers with Grants.gov to submit applications on behalf of an organization, that organizations E-Biz POC will receive an email notification. The email address provided in the profile will be the email used to send the notification from Grants.gov to the E-Biz POC with the AOR copied on the correspondence.

The E-Biz POC must then login to Grants.gov (using the organizations DUNS number for the username and the special password called M-PIN) and approve the AOR, thereby providing permission to submit applications.

Any files uploaded or attached to the Grants.gov application must be PDF file format and must contain a valid file format extension in the filename. Even though Grants.gov allows applicants to attach any file formats as part of their application, CMS restricts this practice and only accepts PDF file formats. Any file submitted as part of the Grants.gov application that is not in a PDF file format, or contains password protection, will not be accepted for processing and will be excluded from the application during the review process. In addition, the use of compressed file formats such as ZIP, RAR, or Adobe Portfolio will not be accepted. The application must be submitted in a file format that can easily be copied and read by reviewers. It is recommended that scanned copies not be submitted through Grants.gov unless the applicant confirms the clarity of the documents. Pages cannot be reduced in size, resulting in multiple pages on a single sheet, to avoid exceeding the page limitation. All documents that do not conform to the above specifications will be excluded from the application materials during the review process.

After you electronically submit your application, you will receive an acknowledgement from Grants.gov that contains a Grants.gov tracking number. CMS will retrieve your application package from Grants.gov. Please note that applicants may incur a time delay before they receive acknowledgement that the application has been accepted by the Grants.gov system. Applicants should not wait until the application deadline to apply because notification by Grants.gov that the application is incomplete may not be received until close to or after the application deadline, eliminating the opportunity to correct errors and resubmit the application. Applications submitted after the deadline, as a result of errors on the part of the applicant, will not be accepted.

After CMS retrieves your application package from Grants.gov, a return receipt will be emailed to the applicant contact. This will be in addition to the validation number provided by Grants.gov.

Applications cannot be accepted through any email address. Full applications can only be accepted through <http://www.grants.gov>. Full applications cannot be received via paper mail, courier, or delivery service.

All grant applications must be submitted electronically and be received through <http://www.grants.gov> by 3:00 pm Eastern Daylight Time on the applicable due date. Applications not successfully submitted to Grants.gov by the due date and time will not be eligible for review. All applications will receive an automatic time stamp upon submission and applicants will receive an email reply acknowledging the applications receipt.

Please be aware of the following:

- 1) Search for the application package in Grants.gov by entering the CFDA number. This number is shown on the cover page of this announcement.
- 2) If you experience technical challenges while submitting your application electronically, please contact Grants.gov Support directly at: www.grants.gov/customersupport or (800) 518-4726. Customer Support is available to address questions 24 hours a day, 7 days a week (except on Federal holidays).
- 3) Upon contacting Grants.gov, obtain a tracking number as proof of contact. The tracking number is helpful if there are technical issues that cannot be resolved.

To be considered timely, applications must be received by the published deadline date. However, a general extension of a published application deadline that affects all State applicants or only those in a defined geographical area may be authorized by circumstances that affect the public at large, such as natural disasters (e.g., floods or hurricanes) or disruptions of electronic (e.g., application receipt services) or other services, such as a prolonged blackout. This statement does not apply to an individual entity having internet service problems. In order for there to be any consideration there must be an effect on the public at large.

Grants.gov complies with Section 508 of the Rehabilitation Act of 1973. If an individual uses assistive technology and is unable to access any material on the site including forms contained with an application package, they can email the Grants.gov contact center at support@grants.gov or call 1-800-518-4726.

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

GWEP: Public Health Service Act, Title VII, Section 750 and 753(a), Health Professions Education Partnerships Act of 1998, Public Law 105-392 as amended by the Patient Protection and Affordable Care Act of 2010, Public Law 111-148, and Title VIII, Section 865.; GEC: Public Health Service Act, Title VII, Section 753(a), Health Professions Education Partnerships Act of 1998, Public Law 105-392 as amended by the Patient Protection and Affordable Care Act of 2010, Public Law 111-148.

OBJECTIVES:

GWEP: The purpose of this cooperative agreement program is to establish and operate geriatric education centers that will implement the Geriatric Workforce Enhancement Program (GWEP) to develop a health care workforce that maximizes patient and family engagement and improves health outcomes for older adults by integrating geriatrics with primary care. A GWEP: a) improves the training of health professionals and individuals in geriatrics, including geriatric residencies, traineeships, or fellowships; b) develops and disseminates curricula relating to the treatment of the health problems of elderly individuals; c) supports the training and retraining of faculty to provide instruction in geriatrics; d) supports continuing education of health professionals who provide geriatric care; e) provides students with clinical training in geriatrics in nursing homes, chronic and acute disease hospitals, ambulatory care centers, and senior centers; or f) establishes traineeships for individuals who are preparing for advanced education nursing degrees in geriatric nursing, long-term care, gero-psychiatric nursing or other nursing areas that specialize in the care of the elderly population. Special emphasis is on providing the primary care workforce with the knowledge and skills to care for older adults and on collaborating with community partners to address gaps in health care for older adults through individual, system, community, and population level changes. Interprofessional collaboration is an essential component of all project activities, and medicine must be one of the professions included in all interprofessional activities.

GECs: Grants are awarded to establish or operate Geriatric Education Centers to provide interdisciplinary training of health professions faculty, students, and practitioners in the diagnosis, treatment and prevention of disease, disability, and other health problems of the elderly. Health professionals include allopathic physicians, osteopathic physicians, dentists, optometrists, podiatrists, pharmacists, nurse practitioners, physician assistants, chiropractors, clinical psychologists, social workers, health administrators, and other allied health professionals. Projects supported under these grants must offer training involving four or more health professions, one of which must be allopathic or osteopathic medicine, and must address all of the following statutory purposes: (a) improve the training of health professionals in geriatrics; (b) develop and disseminate curricula relating to the treatment of the health problems of elderly individuals; (c) support training and retraining of faculty to provide instruction in geriatrics; (d) support continuing education of health professionals who provide geriatric care; and (e) provide students with clinical training in geriatrics in nursing homes, chronic and acute disease hospitals, ambulatory care centers, and senior centers.

In FY14 supplemental HRSA Funds grants were awarded to currently funded Geriatric Education Centers (GEC) Program grantees to provide interprofessional continuing education to healthcare providers, patients, families, and caregivers on Alzheimers disease and related dementias (AD). The goal of this training is to improve detection and early intervention of AD and ultimately improve care for patients and their families.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

GWEP: Projects must develop collaborations to ensure integrated delivery systems. Grantees must use funds for the following activities:

1. Develop and implement integrated geriatrics and primary care health care delivery systems to provide clinical experiences for trainees with the goal of improving comprehensive, coordinated care for older adults;
2. Partner with, or create as appropriate, community-based outreach resource centers to address the learning and support needs of older adults, their families and their caregivers. Such programs must address local needs, taking into account available care settings, social resources, and community culture. Topics in addressing psychosocial needs, disease self-management, patient engagement, and population health are encouraged;
3. Provide training to individuals who will provide care to older adults within the context of the above focus areas. Categories of individuals may include: patients, families, caregivers, direct care providers, primary care providers, students, residents, fellows, and faculty.
4. In addition, projects may include Alzheimers disease and related dementias education and training for patients, families, caregivers, direct care providers, and health professions students, faculty, and providers.

The final report includes an account of progress made toward achievement of the originally stated aims; a list of the significant results; and a list of publications and inventions resulting from the projects. All grantees should use the Research Performance Progress Reporting (RPPR) forms to submit the annual progress report. For the final projects report and the final FFR at the end of the project period, the RPPR format is highly recommended, but the older 2590 form may be used for all grants and cooperative agreements. Performance is monitored annually by the NIH/Fogarty Center program staff.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Records:

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a

period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FFR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FFR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FFR to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2015: In FY2015, one of Fogarty's significant accomplishments was to initiate the Research Training for Career Development of Junior Faculty in Medical Education Partnership Initiative (MEPI) institutions, which built off the achievements of the educational development Medical Education Partnership Initiative Program. The MEPI Junior Faculty awards provide support and protected time for junior faculty at African Medical Schools to incorporate research into their careers. FIC issued eleven awards to grantees in eight countries for five years to provide mentored research training for junior faculty as well as provide training more broadly in these institutions for research management, methodology, ethics, mentorship, preparation of scientific publications and grant writing. Fiscal Year 2016: Fogarty started a new career development program for low- and middle-income country (LMIC) scientists and issued its first grants this year. While FIC has a similar program for U.S. scientists, this is the first of its kind at NIH that is specifically for foreign investigators. The Emerging Global Leader Award provides research support and protected time to research scientists from low- and middle-income countries (LMICs) who hold an academic junior faculty position or research scientist appointment at an LMIC academic or research institution. The awards span a wide breadth of health disciplines and the proposed research projects are highly relevant to the health priorities of the LMIC scientists home countries.

Examples of two additional new programs launched this year include the Global Non-Communicable Diseases (NCD) and Injury Across the Lifespan: Exploratory Research Program (R21) and the Emerging Epidemic Virus Research Training for West African Countries with Widespread Transmission of Ebola (Guinea, Liberia, and Sierra Leone) Planning Grant (D71). The NCD and Injury Research Program supports exploratory research on locally relevant non-communicable diseases (NCDs) or injury in LMICs. The Emerging Epidemic Virus Research Training grant encourages collaborative applications from either U.S. or African research institution partners to plan research training and capacity building programs focused on emerging viral epidemics in these three countries. Awards for both programs will be made in

FY2016 with additional competition cycle in FY2017. Fiscal Year 2017: In FY2017, FIC expects to make awards for the Fogarty Global Health Training Program (D43). Built upon the successes of the historic Global Health Program for Fellows and Scholars, this new program will provide opportunities for up to five consortia to develop and support global health research training programs for pre-doctoral/pre-professional degree students and post-doctoral/post-professional degree students from the U.S. and LMICs.

Additionally, FIC will continue to develop innovative and timely global health research and research training programs that align with the following FIC strategic plan goals:

- 1.) Build research capacity through individuals, institutions, and networks to meet future and evolving global health challenges
- 2.) Stimulate innovation in the development and implementation of technologies and other locally relevant solutions to address global health problems
- 3.) Support research and research training in implementation science
- 4.) Advance research on prevention and control of the dual burden of communicable and non-communicable diseases and disabilities
- 5.) Build and strengthen partnerships to advance global health research and research capacity.

AmeriCorps VISTA, VISTA, or Volunteers In Service To America

FEDERAL AGENCY:

AUTHORIZATION:

Domestic Volunteer Service Act of 1973, as amended, Title I, Part A, Public

Law 93-113, 87 Stat. 394, 42 U.S.C 4951-49600.

OBJECTIVES:

AmeriCorps VISTA is the national service program of the Corporation for National and Community Service (CNCS) designed specifically to fight poverty. VISTA supports efforts to alleviate poverty by engaging individuals, 18 years and older, from all walks of life, in a year of full-time service with a sponsoring organization (sponsor) to create or expand programs designed to bring individuals and communities out of poverty.

TYPES OF ASSISTANCE:

Provision of Specialized Services

USES AND USE RESTRICTIONS:

See program's Notice of Funding Opportunity. This is not a grant-based program. Restrictions on use of funds are described in the programs Notice of Federal Funding. Use of funds must be consistent with the funded application, and are subject to CNCSs grants administration laws, regulations, and policies. All appropriated funds awarded under this program are discretionary.

Applicant Eligibility:

The proposed project must have a clear anti-poverty focus, include the involvement of the low-income community, and the activities must lead towards sustainability of the project. The activities of the VISTA members may not supplant staff or current volunteers. See program's Notice of Federal Funding for more information.

Beneficiary Eligibility:

VISTA activities must benefit low-income persons and communities by building the capacity of the sponsoring organization to find permanent solutions to poverty.

VISTAs live and serve in some of our nations poorest areas. They receive a modest living allowance and other benefits during their service. After successfully completing a term of service, VISTAs and Summer Associates may receive a Segal AmeriCorps Education Award, which can be used to pay for college or student loans, or an end-of-service cash stipend. Sponsors may contribute to the cost of a VISTA through "cost share," but are under no obligation to do so.

Credentials/Documentation:

Various records and forms required for first time applicants, as well as a copy of the applicant's last audit, may be requested. First time applicants must certify financial systems. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Appeals:

No formal appeals for denial of initial project application; however, regulations provide for hearings on terminations and suspensions, and opportunity to show

cause in cases of denial of refunding.

Renewals:

From 120 to 180 days. Renewal applications are required annually at least 120 days prior to the end of the project period. Renewals are subject to the same review procedures as new projects.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. The VISTA program does not provide primary assistance through cash grants, and, thus has no matching requirements. In the case of those projects that receive small grants to offset member support costs, there are no matching requirements. VISTA does operate a voluntary cost share program where sponsoring organizations can pay living allowance costs for one or more VISTA members, allowing the program to maximize its reach. Sponsors also provide equipment, work space and other in-kind support of the VISTA members assigned to ensure overall project success.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is awarded for approximately one year at a time, up to an average of 3-4 years total. Note that, with certain small exceptions, the VISTA program does not grant financial resources to organizations, but rather provides the resource through the placement of a VISTA member. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. In the case of VISTA projects that receive cash grants, cash management reports are required. CNCS uses the US HHS Payment Management System for payments and cash management reporting. Progress reporting requirements are described in the Memorandum of Agreement and reporting forms. In the case of VISTA projects that receive small cash grants, Federal Financial Reports are required as specified in the grant award provisions. CNCS and its VISTA sponsors are required to practice risk-based monitoring and routine field and desk-based oversight of all project/grant awards and expenditures.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audits are required only for those projects receiving cash grants. CNCS grants are subject to audit by CNCS employees, the CNCS Inspector General, the Government Accountability Office, and auditors contracted by CNCS.

Records:

Sponsors are expected to maintain records pertaining to volunteer assignments and training activities for 3 years after the end of the project year. Grant recipients must maintain all grant financial and program records for a period of three years from the date of submission of the final Federal Financial Report for the award. This includes but is not limited to all financial records including receipts, disbursements, and vouchers for federal and non-federal costs; time cards, copies of all contracts, personnel records, and job descriptions; program execution and performance records, criminal history checks, and similar records to reflect all activities and spending performed under the award.

Note that all individuals receiving a salary, living allowance, stipend, National Trust Education Award or similar compensation through a national service program funded by CNCS must first clear a National Service Criminal History Check and those check records must be maintained within grant records.

94.019 SOCIAL INNOVATION FUND

Social Innovation Fund (SIF)

FEDERAL AGENCY:

Corporation for National and Community Service

AUTHORIZATION:

National and Community Service Act of 1990, as amended, Public Law 101-610, 42 U.S.C 12653k; Federal Grant and Cooperative Agreement Act, 31 U.S.C 6301-6308.

OBJECTIVES:

To grow the impact of innovative community-based solutions that have compelling evidence of improving the lives of people in low-income communities throughout the United States. Direct resources toward increasing the evidence-base-capacity and scale of the organizations SIF funds in order to improve the lives of people served by those organizations.

The Corporation for National and Community Service (CNCS) defines social innovation as the development of a potentially transformative practice or approach to meeting critical social needs. By investing in social innovation as a driver of results and accountability, the federal government will play a central role in accelerating the spread of promising solutions to address our most pressing national and local challenges.

SIF awards are focused on improving measurable outcomes in the following priority areas:

- Economic Opportunity Increasing the economic opportunities and financial stability for economically disadvantaged individuals and families
- Youth Development Preparing Americas children and youth for success

in school, active citizenship, productive work, and healthy and safe lives, including crime reduction initiatives focused on juvenile delinquency and victimization prevention and response

Healthy Futures Improving health outcomes, promoting healthy lifestyles and decreasing health disparities that disproportionately affect low-income communities.

SIF competitively selects experienced grant-making institutions (recipients) to do the critical work of identifying promising solutions to community problems and selecting high-performing nonprofit community organizations (subrecipients) on a competitive basis. To be awarded funding, intermediaries must demonstrate:

they have advanced beyond the beginning stages, are showing signs of effectiveness and have the potential for greater scale (larger programmatic and scaling dollars are awarded to programs that show higher levels of evidence and have the potential for greater impact); also must have at least preliminary evidence of effectiveness and then undergo rigorous, independent, formal evaluations

a track record of using rigorous evidence to select, invest in, and monitor the growth and progression of their grantees expertise and demonstrated impact in the proposed issue area(s) of focus depth and breadth of relationships with stakeholders in the issue area or region of focus.

The SIF will also attract and leverage private donors to match federal dollars, bringing new resources to support promising organizations. The statute requires both the SIF intermediaries and their subgrantees to match their grants dollar-for-dollar, in cash, with non-federal funding.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

SIF funds are competitively awarded to existing intermediary organizations, grant-making institutions, or grant-making partnerships (recipients) to do the critical work of identifying promising solutions to community problems. Recipients will competitively select high-performing nonprofit community organizations (subrecipients) working to address priority issues in low-income communities across the nation. See program's Notice of Funding Opportunity.

Applicant Eligibility:

See program's Notice of Funding Opportunity.

Beneficiary Eligibility:

Credentials/Documentation:

SIF recipients are required to raise match funds equal to the grant they receive. The match must be in cash from non-federal sources. At the time of application, the SIF applicants must demonstrate the ability to meet 50 percent of their first year cash match requirement. Subrecipients also will be required to match 100 percent of the grant they receive from the recipient in cash from non-federal sources. A signed match documentation letter, either in digital or physical form, to be sent to the program on or before the application deadline. Please see the Notice of Funding Opportunity for more detailed information. 2 CFR 200, Subpart E - Cost Principles applies to this program.

This program does not have MOE requirements. Not Applicable.

Length and Time Phasing of Assistance:

The SIF awards are made to intermediaries for up to periods of 5 years, but funded annually. If a grantee is awarded \$5 million in an upcoming competition, then that amount will be awarded for the first year of the overall grant period. Grantees will be eligible for further annual funding contingent on the availability of appropriations, compliance with grant conditions (including having secured cash matching funds), and satisfactory performance. 97.007 HOMELAND SECURITY PREPAREDNESS TECHNICAL

ASSISTANCE PROGRAM

(HSPTAP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Department of Homeland Security Appropriations Act, 2016, Title V, Section 543, Public Law 114-113; Homeland Security Act of 2002, Section 503(b)(2)(G), Public Law 107-296, 6 U.S.C 313(b)(2)(G)).

OBJECTIVES:

The Homeland Security Technical Assistance Program (HSPTAP) is established to build State, local, tribal and territorial (SLTT) capabilities to prevent, protect against, respond to, and recover from major events, including threats or acts of terrorism.

This overarching programmatic goal of building state and local capabilities will be achieved through various means and methods, each one aimed at making achieving the National Preparedness Goal and furthering our collective efforts to remain a safe and secure nation.

Specific program activities anticipated for achieving this goal will include, but will not be limited to:

- production and dissemination of written products relating to emerging homeland security issues and established or model state homeland security efforts;

- providing educational seminars for apprising newly appointed Governors Homeland Security Advisors of federal homeland security doctrine, best-practices and established principles;

- facilitating calls, meetings, or discussions amongst representatives from key stakeholder groups on a regular basis which serve to share information, knowledge, experiences, and practices relating to current and emerging homeland security issues; and,

- convening trainings, workshops, and other meeting opportunities designed to bring together in a common forum nationwide HSAs, state, local and tribal Emergency Management Directors, as well as other professional organizations in the public and private sectors and to inform partners on the impacts of federal homeland security legislation, regulations and policies on the states.

Each recipient will conduct these specific activities to support either State Emergency Management Directors, Homeland Security Advisors to further build State, local, tribal and territorial (SLTT) capabilities.

An additional key purpose for the HSPTAP is that the program also furthers the building of a national system of emergency management capabilities that can effectively and efficiently utilize the full measure of the Nation's resources to respond to catastrophic incidents, including natural disasters, acts of terrorism, and other man-made emergencies or events. HSPTAP recipients will conduct activities that bring together the collective perspectives of state and local elected officials and the private sector to provide a broad-based sounding board on homeland security issues for all national stakeholders. The program will serve to establish, provide, and maintain a forum for organizations to exchange ideas, conduct targeted discussions, as well as to provide technical assistance to governors offices, associations and organizations on all relevant homeland security policy areas.

Finally, HSPTAP will engage the recipient organizations which can work closely with FEMA to develop, transfer, and institutionalize pertinent knowledge at the State and local level for addressing current public policy challenges facing State EM Directors, HSAs and other state and local emergency management officials. HSPTAP recipients, through collaboration with FEMA and other national, regional, state and local entities, will facilitate focused and enhanced communication and coordination among all disciplines and levels of government to address the complex challenges of developing and implementing homeland security policies and practices including: intelligence sharing; State homeland security organization, structure and governance; communications interoperability; critical infrastructure protection; and all hazards disaster prevention, protection, mitigation, preparedness, response and recovery to include areas of emergency management, homeland security, fire, law enforcement, Emergency Management Services (EMS), agriculture, National Guard, emergency communications, and public works.

In sum, in addition to building state and local capabilities, the activities conducted under the HSPTAP are structured to address the full spectrum of mission areas, national priorities, and core capabilities outlined in the National Preparedness System and are critical to achieving the National Preparedness Goal.

97.008 NON-PROFIT SECURITY PROGRAM

NSGP

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Section 2003 of the Homeland Security Act of 2002, Public Law 107-296, 6 U.S.C 604; Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53.

OBJECTIVES:

The NSGP provides funding support for target hardening and other physical security enhancements to nonprofit organizations that are at high risk of a terrorist attack and located within one of the urban areas receiving funding under the Fiscal Year (FY) 2016 Urban Area Security Initiative (UASI). The program seeks to integrate the preparedness activities of nonprofit organizations that are at high risk of a terrorist attack with broader state and local preparedness efforts. The NSGP also serves to promote emergency preparedness coordination and collaboration activities between public and private community representatives as well as state and local government agencies. The NSGP supports the Quadrennial Homeland Security Review Mission to Strengthen National Preparedness and Resilience.

Objectives

The FY 2016 NSGP objectives are to support efforts that:

- Build and sustain core capabilities
- Strengthen governance integration between private nonprofit entities and federal, state, and local governments
- Encourage a whole community approach to security and emergency management.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The FY 2016 NSGP provides funding support for target hardening and other physical security enhancements and activities to nonprofit organizations that are at high risk of terrorist attack and located within one of the specific UASI-eligible Urban Areas. The intent of the FY 2016 NSGP is to competitively award grant funding to assist nonprofit organizations in obtaining the resources required to support the NPG associated mission areas and core capabilities. While funding is provided specifically to high-risk nonprofit organizations, the program seeks to integrate nonprofit preparedness activities with broader State and local preparedness efforts. It is also designed to promote coordination and collaboration in emergency preparedness activities among public and private community representatives, as well as State and local government agencies. NSGP grant recipients and sub-recipients may only use NSGP grant funds for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity.

Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In FY 2016, the total amount of funds distributed under this grant program will be \$20,000,000. Each nonprofit organization must apply through their State Administrative Agency (SAA) for up to a \$75,000 grant award. The FY 2016 NSGP funds will be allocated to organizations characterized as Section 501(c)(3) organizations under the Internal Revenue Code of 1986 (26 U.S.C.) and deemed at high risk by the Secretary of the Department of Homeland Security. Such nonprofit organizations must be located within one of the designated FY 2016 UASI-eligible Urban Areas.

Applicant Eligibility:

The SAA is the only entity eligible to apply for FY 2016 NSGP funds on behalf

of eligible nonprofit organizations (as described under section 501(c)(3) of the Internal Revenue Code of 1986) determined to be at high risk of terrorist attack and are located within one of the designated FY 2016 UASI-eligible Urban Areas. Eligible nonprofit organizations must provide their applications to their respective SAA in order to be considered for FY 2016 NSGP funding. SAAs, in coordination with the Urban Area Working Groups (UAWGs), are encouraged to notify and actively inform eligible nonprofit organizations of the availability of the FY 2016 NSGP especially organizations that have not previously applied for or received NSGP funding. It is important to ensure that ALL eligible nonprofit organizations are afforded an opportunity to seek funding. Criteria for determining eligible applicants that are at high risk of terrorist attack include, but are not limited to:

Identification and substantiation (e.g., police reports or insurance claims) of prior threats or attacks against the nonprofit organization or closely related organizations (within or outside the U.S.) by a terrorist organization, network, or cell.

Symbolic value of the site(s) as a highly recognized national or historical institution that renders the site as possible target of terrorism.

Role of the applicant nonprofit organization in responding to or recovering from terrorist attacks.

Findings from previously conducted risk assessments including threat or vulnerability.

Beneficiary Eligibility:

Local governments and private nonprofit institutions/organizations.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For more information, refer to the FY 2016 NSGP Notice of Funding Opportunity (NOFO).

Award Procedure:

Applications will be reviewed in two phases to leverage local knowledge and understanding of the applicants risk of a terrorist attack, while also ensuring coordination and alignment with Federal, State, and local preparedness efforts. State Review: Applications must be submitted by the nonprofit organization to the SAA/UAWG (if they are separate entities), no later than 11:59 p.m. EDT April 25, 2016 to ensure adequate time for a State review of nonprofit applications. The SAA, in coordination with the UAWG, is encouraged to conduct an initial review of all submitted applications from nonprofit organizations to first determine eligibility based on the established criteria. Once eligibility has been determined, the SAA will review and score compliant IJs using the FY 2016 NSGP Scoring Worksheet (see Appendix D- Investment Justification Scoring Worksheet of the FY 2016 NSGP Full Notice of Funding Opportunity and FY 2016 Prioritization of Investment Justifications Template (Office of Management and Budget Number 1660-0110/FEMA Form 089-24). The SAA should provide the scores from the State Review along with a prioritized list of NSGP projects. Each application should receive a unique rank. Rankings should be developed based on these two factors:

Need The relative need for the nonprofit organization compared to the other applicants.

Impact The feasibility of the proposed project and how effectively the proposed project addresses the identified need.

The SAA should ensure that information noted in the Prioritization of Investment Justifications accurately reflects the data noted in each organizations IJ. While completing the Prioritization of Investment Justifications, the SAA should verify the Dun and Bradstreet Data Universal Numbering System (DUNS) Number, Central Contractor Registration (CRR),

501(c)(3) Number, and legal organization name. Tracker information submitted by the SAA pertaining to a nonprofit(s) Organization Type and Total Project Cost will be considered during FEMA's review and scoring process.

Federal Review:

The highest-scoring IJs from each submitting urban area are reviewed by a panel made up of DHS/FEMA Headquarters and Regional Program Analysts or Grants Management Specialists. Federal staff will verify that the nonprofit is located within a FY 2016 UASI designated urban area. Two federal reviewers will score each IJ using the NSGP Investment Justification Scoring Worksheet.

Determining the number of applications that will advance to the Federal Review:

1) DHS/FEMA will review highest scoring applications where the cumulative requested funding is equivalent to 150% of the available FY 2016 NSGP funding.

For example, if NSGP funding is \$20,000,000, then DHS/FEMA will multiply \$20,000,000 by 1.5 (150%), which equals \$30,000,000. In this scenario, DHS/FEMA will review the number of applications where the cumulative requested funding is equal to, at least, \$30,000,000.

2) In order to give applications from all UASI-designated urban areas an opportunity for Federal Review, DHS/FEMA will review the same percentage of applications from each urban area. The percentage is dependent on the number of submitting urban areas, the number of applications submitted by each urban area, and the Federal funding requested by each urban area. In instances when an urban area has submitted only one application, that one application will advance to Federal Review.

Deadlines:

Apr 25, 2016 to May 10, 2016 Application Start Date: 04/25/16

Application Submission Deadline Date: 05/10/2016 at 11:59:59 PM EDT9

Anticipated Funding Selection Date: 06/29/2016

Other Key Dates

Applying for FY 2016 NSGP funds requires a two-step process. Step 1: initial submission to determine eligibility and Step 2: full application. Applicants are encouraged to initiate Step 1 immediately after the Notice of Funding Opportunity, (NOFO) is published but no later than April 25, 2016. This involves submitting a complete Standard Form 424 to grants.gov Successful completion of this step is necessary for FEMA to determine eligibility of the applicant. Late submissions of Step 1 to grants.gov could result in applicants missing the application deadline in Step 2. Once FEMA has determined an applicant to be eligible, applicants can proceed to Step 2 which involves submitting the full application package via the Non Disaster (ND) Grants system. The submission deadline for the full application package is May 10, 2016. For additional details see Application and Submission Section D of the Full Notice of Funding Opportunity (NOFO).

Length and Time Phasing of Assistance:

Projected Award Start Date(s): 09/01/2016
Projected Award End Date(s): 08/31/2019
Period of Performance: 36 months

The periods of performance outlined above support the effort to expedite the outlay of grant funding and provide economic stimulus. Agencies should request waivers sparingly, and they will be granted only due to compelling legal, policy, or operational challenges. For example, SAAs may request waivers from the deadlines outlined above for discretionary grant funds where adjusting the timeline for spending will constitute a verifiable legal breach of contract by the grantee with vendors or sub-recipients, or where a specific statute or regulation mandates an environmental review that cannot be completed within this timeframe or where other exceptional circumstances warrant a discrete waiver. For more information, refer to the FY 2016 NSGP Notice of Funding Opportunity (NOFO).

See the following for information on how assistance is awarded/released: Based on program need. Grantees must accept their grant awards no later than 90 days from the award date. The grantee shall notify the awarding agency of its intent to accept and proceed with work under the award, or provide a written notice of intent to decline. Funds will remain on hold until the grantee accepts the award through official correspondence, e.g., written, electronic signature, signed letter or fax to GPD, and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds.

Reports:

All successful applicants for all DHS grant and cooperative agreements are required to comply with DHS Standard Administrative Terms and Conditions available within Section 6.1.1 of <http://www.dhs.gov/xlibrary/assets/cfo-financial-management-policy-manual.pdf>.

Upon approval of an application, the award will be made in the form of a grant. The date the approval of award is entered in the system is the award date. Notification of award approval is made through the ND Grants system through an automatic e-mail to the grantee point of contact listed in the initial application. Once an award has been approved and recorded in the system, a notice is sent to the authorized grant official. Follow the directions in the notification to accept your award documents. The authorized grant official should carefully read the award package for instructions on administering the grant and to learn more about the terms and conditions associated with responsibilities under Federal awards.

State Preparedness Report (SPR) Submittal. Section 652(c) of the Post-Katrina Emergency Management Reform Act of 2006 (Public Law 109-295), 6 U.S.C. 752(c), requires any State that receives Federal preparedness assistance to submit an SPR to FEMA. States submitted the most recent SPR in December 2011 thus satisfying this requirement in order to receive funding under the FY 2012 NSGP.

Biannual Strategy Implementation Reports (BSIR). Grantees are responsible for completing and submitting the BSIR reports, as a complement to the programmatic performance report/SF-PPR. The BSIR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Updated obligations and expenditure information must be provided within the BSIR to show progress made toward meeting strategic goals and objectives. The first BSIR is not due until at least six months after the award notice has been received by the grantee.

For more information, refer to the FY 2016 NSGP Notice of Funding Opportunity (NOFO). Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. Within 90 days after the end of the period of

performance, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. For more information, refer to the FY 2016 NSGP Notice of Funding Opportunity (NOFO). Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Grantees should submit the SF-PPR as an attachment to the ND Grants system. The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf.

For more information, refer to the FY 2016 NSGP Notice of Funding Opportunity (NOFO). Grantees are obligated to submit various financial and programmatic reports as a condition of their award acceptance. Please see below for a summary of financial and/or programmatic reports as required. Future awards and funds drawdown may be withheld if these reports are delinquent.

Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund drawdowns may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Monitoring. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

CRITERIA FOR SELECTING PROPOSALS:

National Incident Management System (NIMS) Implementation
Prior to allocation of any Federal preparedness awards in FY 2016, SAAs must ensure and maintain adoption and implementation of NIMS. Emergency management and incident response activities require carefully managed resources (personnel, teams, facilities, equipment and/or supplies) to meet incident needs. Utilization of the standardized resource management concepts such as typing, credentialing, and inventorying promote a strong national mutual aid capability needed to support delivery of core capabilities. Additional information on resource management and NIMS resource typing definitions and job titles/position qualifications is available on DHS/FEMAs website under NIMS Resource Management.

DHS/FEMA developed NIMS Guideline for Credentialing of Personnel to describe national credentialing standards and to provide written guidance regarding the use of those standards. This guideline describes credentialing and typing processes, and identifies tools which Federal Emergency Response Officials (FEROs) and emergency managers at all levels of government may use both routinely and to facilitate multijurisdictional coordinated responses.

Although state, local, tribal, and private sector partners, including nongovernmental organizations are not required to credential their personnel in accordance with these guidelines, DHS/FEMA strongly encourages them to do so in order to leverage the federal investment in the Federal Information Processing Standards (FIPS) 201 infrastructure and to facilitate interoperability for personnel deployed outside their home jurisdiction. Additional information is available from the NIMS Guideline for the Credentialing of Personnel.

Nonprofit subrecipients are not required to maintain adoption and implementation of NIMS.

97.022 FLOOD INSURANCE

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

The National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq. authorized the National Flood Insurance Program (NFIP), Title 13, Public Law 90-448, 44CFR U.S.C Subchapter B.

OBJECTIVES:

To enable personal and business property owners and renters to purchase flood

insurance coverage for buildings and/or contents in low-to-moderate flood risk areas, as well as in high-risk flood zones to reduce taxpayer provided federal disaster assistance and to promote wise floodplain management practices in the Nation's high-risk flood zones.

TYPES OF ASSISTANCE:

INSURANCE

USES AND USE RESTRICTIONS:

The maximum limits of flood insurance coverage for a building and/or personal property, eligible building types, and more detailed additional flood insurance information is contained in the Flood Insurance Manual available online at <http://www.fema.gov/business/nfip/manual.shtm>. In a Regular Program Community the residential building limit is \$250,000 and non-residential building limit is \$500,000. The residential contents limit is \$100,000 and the non-residential contents limit is \$500,000. Lower limits apply to a limited number of Emergency Program buildings and buildings in Alaska, Guam, Hawaii and U.S, Virgin Islands and are listed in the Flood Insurance Manual. The Flood Disaster Protection Act of 1973, as amended by the Flood Insurance Reform Act of 1994, requires flood insurance purchased as a condition of any form of Federal or federally-related financial assistance, including Federal grants, disaster assistance, SBA low-interest disaster assistance loans, and mortgage loans from federally regulated lending institutions and FHA, Farm Credit Administration, VA or guaranteed mortgages secured by buildings in high-risk flood zones, which are called the Special Flood Hazard Areas (SFHAs). Communities having one or more identified SFHAs must enter into the NFIP within 1 year of the official identification of the SFHAs or be denied Federal financial assistance for acquisition or construction purposes within those areas. Federally regulated conventional sources (i.e., banks, savings and loan associations, or similar lending institutions) are permitted to make conventional loans secured by improved real estate or Manufactured Housing located or to be located in SFHAs of a nonparticipating community which has been formally identified as flood-prone for more than 1 year, but Federal disaster assistance for acquisition or construction purposes will not be available in the event of flood or flood-related property damage. The conventional lender is statutorily required to notify the borrower, before making a loan in such an area, that Federal flood insurance and disaster assistance will not be available to the property. The Coastal Barrier Improvement Act of 1990 amended the Coastal Barrier Resources Act of 1982 by greatly enlarging the acreage included in the designated coastal barrier resources system unit. The 1990 Act also added "otherwise protected areas." "Otherwise protected areas" are defined as an undeveloped coastal barrier within the boundaries of an area established under Federal, State, or local law, or held by a qualified organization, primarily for wildlife refuge, sanctuary, recreational or natural resource conservation purposes. The 1982 Act prohibits the sale of new flood insurance on or after October 1, 1983 for new construction or substantial improvements of structures located on any coastal barrier with the Coastal Barrier Resources System designated by this Act. The 1990 Act prohibits the sale of new flood insurance on or after November 16, 1990 for new construction or substantial improvements of structures located on any new coastal barrier within the Coastal Barrier Resources System designated or modified by this Act. It also prohibits the sale of new flood insurance on or after November 16, 1991 for new construction or substantial improvements of structures located in an otherwise protected area that are not used in a manner consistent with the purpose of the otherwise protected area. Subsequent pieces of legislation have added or deleted areas. Also, the Secretary of the Interior is authorized to make technical revisions and modifications to the boundaries of such units as may be necessary.

Applicant Eligibility:

Federal flood insurance can be made available in any community (a State or political subdivision thereof with authority to adopt and enforce floodplain management measures for the areas within its jurisdiction) that adopts and enforces floodplain management measures consistent with the National Flood Insurance Program regulations.

Beneficiary Eligibility:

Residential and business property owners, renters and state owned property.

Credentials/Documentation:

Same as Applicant Eligibility. This program is excluded from coverage under 2

CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Community officials must submit an NFIP eligibility application form, which is available from the FEMA, together with: copies of adopted floodplain management measures meeting the minimum standards of 44 CFR Section 60.3(a), 60.3(b), 60.3(c), 60.3(d), and/or 60.3(e), as appropriate for the type of flood hazards identified; a list of any incorporated communities within the applicant's boundaries; and estimates of population and, by kind, of buildings situated in the known flood-prone areas of the community. Such Applications should be submitted to the Mitigation Directorate, FEMA, Washington, DC 20472.

Award Procedure:

FEMA reviews the application and if complete, designates the community as participating. The community is informed of its admission, and notice is published in the Federal Register. Residents and property owners may then purchase flood insurance through any property insurance agent or broker.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For complete applications, a maximum of 10 working days is allowed for review and notification.

Communities with one or more identified special flood hazard areas must enter the program within 1 year after the identification of those areas or else prohibitions against Federally related financial assistance for acquisition or construction purposes in identified special flood hazard areas take force. Once the community does qualify, after the prescribed date, these prohibitions are removed. Adequate floodplain management measures must be in effect within 6 months of the date that the special flood hazard area is identified and within 6 months of the date flood water surface elevations are provided.

Appeals:

Communities are allowed to appeal flood-prone identification and are also given an opportunity to appeal proposed flood elevation determinations for new construction and substantial improvement of existing structures in the special flood hazard areas. Notice of the proposed elevations is published in the Federal Register and is sent directly to the local governments. Following notification to the local government, the notice of proposed flood elevation determinations is published twice during a 10-day period in a prominent newspaper. The local community and its individual residents then have 90 days following the second newspaper notice to submit any scientific or technical data that tend to negate or contradict FEMA's findings. If a conflict in data exists and cannot be resolved at the community level, the community consolidates all individual appeals for review by FEMA. FEMA shall resolve the appeals by consultation with officials of the local government, or by submission of conflicting data to an independent scientific body, or by administrative hearings.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2015: Revised premium rate tables to comply with Section 5 of the Homeowner Flood Insurance Affordability Act of 2014 (HFIAA) Pub. Law No. 113-89 (March 21, 2014), which prohibits FEMA from increasing premiums more than 15 percent a year within a single risk class and not more than 18 percent for an individual policy.

Restored Pre-Flood Insurance Rate Map (FIRM) subsidized rates for:

- Pre-FIRM properties not insured when the Biggert-Waters Flood Insurance Reform Act of 2012 (Biggert-Waters) was enacted;
- Pre-FIRM properties sold after Biggert-Waters was enacted; and
- Policies for Pre-FIRM properties that were rated full-risk under Biggert-Waters due to a lapse in coverage, but only for policies where the lapse was due to a property owner no longer being required to purchase flood insurance

Refunded premiums collected in excess of the Pre-FIRM subsidized rate for properties covered by Section 3.

Implemented the first annual rate change that set rates using rate increase limitations set by HFIAA, for individual premiums and rate classes.

Repealed Section 207 of Biggert-Waters and restored grandfathering.

Developed a new procedure for Properties Newly Mapped into the Special Flood Hazard Area and existing Preferred Risk Policy Eligibility Extension (PRP EE) policies. The premiums are the same as the Preferred Risk Policy for the first year (calculated before fees and assessments) to comply with provisions of HFIAA. After the first year, the policy transitions to a full-risk rate in accordance with annual premium caps discussed above (assuming no change in coverage or Community Rating System status). New premium tables for Properties Newly Mapped into the SFHA included a 15-percent Reserve Fund Assessment.

Implemented annual HFIAA surcharges of \$25 for primary residence policies and \$250 for all other policies. Developed guidance for validation of primary residence eligibility. Revised the Application forms to reflect the newly required charges.

Increased the optional deductible to \$10,000 for residential properties to help make some policies more affordable. Established that the same deductible option must apply to both building and contents. Modified existing deductible factor tables to accommodate the \$10,000 deductible. Required that insurers inform applicants of the availability of this coverage option either on the Application Form or on a separate form, segregated from all unrelated information and other required disclosures. A statement must be included to

explain the effect of a loss-deductible and that, in the event of an insured loss, the insured is responsible out-of-pocket for losses to the extent of the deductible selected.

Substantially Damaged Substantially Improved Structures. Policies for Pre-FIRM properties with substantially damaged/substantially improved structures are subject to annual 25-percent premium rate increases until they reach full-risk premiums. This represented a change from the previous policy of reclassifying a substantially damaged/substantially improved building as Post-FIRM and immediately requiring full-risk rates. If the full-risk premium is lower than the subsidized premium, the full-risk rating should be used. Provided new rate tables for Substantially Damaged/Substantially Improved Pre-FIRM buildings.

Established new minimum deductibles for PRP and MPPP policies to comply with other policy minimum deductibles. New minimum deductibles for PRP and MPPP policies are \$1,000 for both building and contents if the building coverage is less than or equal to \$100,000 and \$1,250 if building coverage is over \$100,000, regardless of the insured buildings construction date compared to the initial FIRM date. PRP and MPPP contents-only policies have a \$1,000 minimum deductible.

Increased the Reserve Fund Assessment to 15 percent for all policies except PRPs, which was 10 percent.

Stood up Sandy Claims Task Force to provide exception process for Sandy affected claimants. Fiscal Year 2016: Effective November 1, 2015, FEMA revised the Non-Residential building occupancy category to identify Business properties in the existing rate structure. Section 100205 of BW-12 required FEMA to phase out Pre-FIRM subsidized rates for business properties.

The premium increases will be 25 percent per year. The first 25-percent annual premium increases for policies on Pre-FIRM subsidized business properties will be applied with the next set of Program changes in 2016.

HFIAA Sections 5 and 29 Changes to the Flood Insurance Underwriting Forms.

- o Revised the Application, Endorsement, and PRP Application forms to capture information required for implementation of certain provisions of BW-12 and HFIAA, including introduction of a Lender Indicator.

- o Added questions to the Application forms in anticipation of future implementation of the HFIAA Section 3 provision pertaining to lapsed and reinstated coverage. In addition to requesting the date of the rated map and the current map for the property, the new questions will capture the data:

Has the applicant had prior NFIP coverage for the same property indicated on this Application?

Was the prior NFIP policy required under the mandatory purchase provision of the law at the time of coverage termination?

At the time of the policy lapse, did the applicant have an insurable interest in the property for which flood insurance coverage is sought?

Was the lapse the result of a community suspension?

Will this policy be effective within 180 days of the community reinstatement after the suspension referred to in (4) above?

HFIAA Section 8 Required insurers to report a Primary Residence indicated for all of their Mortgage Portfolio Protection Program policies to ensure correct application of the HFIAA surcharge. When the residency status is unknown, or when primary residence is asserted by the insured, but not properly documented, the insurer must treat the MPPP as a non-primary residence. The status may be corrected with appropriate documentation submitted by the insured. Fiscal Year 2017: Revise and implement Appeals process to be more customer friendly

Simplify Underwriting and Claims Manuals

Improve Write-your-own (WYO) oversight processes and standards

Improve map change notifications to citizens

Increase and improve adjuster cadre

Secure new Direct Servicing Agent contract and Customer Communications contract.

97.023 COMMUNITY ASSISTANCE PROGRAM STATE SUPPORT SERVICES ELEMENT (CAP-SSSE)

(CAP-SSSE)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

The National Flood Insurance Act of 1968 , Public Law 90-448, 42 U.S.C 4001 et seq.

OBJECTIVES:

To provide, through a Cooperative Agreement , a means to ensure that communities participating in the National Flood Insurance Program (NFIP) are achieving flood loss reduction goals of the NFIP. CAP-SSSE funds are to be used by States to provide technical assistance to NFIP communities, to evaluate community implementation/performance of NFIP floodplain management activities, and to build State and community floodplain management expertise and capacity.

The CAP-SSSE program supports the Mitigation Mission Area Capabilities and Targets described in the National Preparedness Goal (NPG) under Planning and Risk and Disaster Resilience Assessment.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CAP-SSSE funds are used for activities that support the NFIP. Such activities include the fostering of effective floodplain management programs in participating communities and assisting non-participating communities in enrolling in the NFIP. CAP-SSSE funds cannot be used for conducting floodplain studies developing floodplain maps or supporting web-based digital mapping platforms. Further, if a State does not have the necessary expertise and capability to conduct CAP-SSSE activities, the Region and State must develop a remedial plan. If the necessary expertise and capability does not develop in accordance with the remedial plan, the following year's CAP-SSSE funding may be reduced or withheld. For complete information on Uses and Restrictions, refer to program guidance. Applicants must be a qualified State that intends to provide technical assistance to NFIP communities. Refer to program guidance for complete information on applicant eligibility.

Applicant Eligibility:

FEMA's ten Regional Offices will provide each State Governor's Office with the grant application package. The Cooperative Agreement is only available to

that state or territorial agency so designated by the Governor, as the state or territorial National Flood Insurance Program State Coordinating Agency. The CAP-SSSE is administered through the Mitigation Division of each FEMA Regional Office. FEMA's Regional Offices will contact eligible States to negotiate a mutually acceptable grant agreement. Funding is made available when the grant agreement is negotiated and agreed upon. Continued participation in the CAP-SSSE is dependent upon completing activities described in the grant agreement. The SSSE is designed to utilize the floodplain management capabilities of individual States in a cost effective cooperative agreement with FEMA. A State's participation in the SSSE is voluntary and is contingent upon need and skill level capability.

Beneficiary Eligibility:

The direct beneficiary of the CAP-SSSE is the individual State receiving financial assistance. In addition, participating NFIP communities and local governments which receive flood plain management and flood loss reduction assistance provided by the State are also (indirect) beneficiaries as a consequence of the services they receive.

Credentials/Documentation:

A State's participation in the CAP-SSSE is voluntary and is contingent upon need and skill level capability as determined by FEMA. In addition, applicant states are required to provide any relevant documentation contained in the grant agreement package provided by FEMA. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

FEMA's ten Regional Offices will provide each State Governor's Office with the grant application package. Award Procedure:

Applications are reviewed by FEMA Regional Office program and administrative staff. Any issues or concerns noted in the application will be negotiated with the successful applicant prior to the award being issued.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

30-60 days, Refer to Program Guidance.

Appeals:

Appeals can be made to the appropriate FEMA Regional Office.

Renewals:

Participation in the CAP-SSSE can be renewed each year contingent upon meeting requirements.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 25%. Funding is provided on a 75 percent maximum Federal, 25 percent minimum State cost-match basis. Both cash and in-kind resources may meet the 25 percent cost-match. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Awards are for 12 months with no cost extensions allowed. Refer to program guidance. See the following for information on how assistance is awarded/released: Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures.

Reports:

States must report at least semi-annually to the Regions to demonstrate progress in meeting agreed upon performance measures. Some Regions may require quarterly reporting to satisfy Regional grants management requirements. States are expected to cooperate with Regions by submitting documentation or other evidence that demonstrates completion of approved activities. Several key activities are required to be entered digitally into the NFIP Community Information System (CIS) as the tasks are completed. States must provide a final status report on meeting their performance measures to the Region by December 30th of each year in which the state was granted CAP-SSSE funds. 97.024 EMERGENCY FOOD AND SHELTER NATIONAL BOARD PROGRAM

(EFSP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Stewart B. McKinney Homeless Assistance Act of 1987, as amended, Title 3, Section 301, Public Law 100-77, 42 U.S.C 11331-11346.

OBJECTIVES:

Program funds support the National Preparedness Goal (NPG) by complementing actions undertaken to achieve an all-of-Nation preparedness approach that optimizes the use of available resources. When a disaster strikes, it is often the poor or those with economic vulnerabilities who suffer the most. By providing emergency economic assistance that keeps people off the streets, from being evicted from their homes, or with groceries to prevent hunger, the EFSP prepares a population that could otherwise be even more adversely impacted by a disaster situation and mitigates potential burdens imposed on recovery efforts to assist such people.

For additional details on the NPG, please refer to <http://www.fema.gov/pdf/prepared/ngp.pdf>.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Food and related expenses (such as transporting food/food preparation and serving equipment); mass shelter; other shelter (such as hotels and motels); and rent/mortgage and/or utility assistance limited to one month. For a complete listing on eligible and ineligible costs under this program, refer to the current Phase (fiscal year) Responsibilities and Requirements document, issued by the Emergency Food and Shelter Program National Board. Emergency Food and Shelter National Board Program (EFSP) funds cannot be used for: security deposits of any kind, cash payments of any kind, lobbying efforts, salaries (except as administrative allowance and limited to that total allowance of 2 percent of total award where provided by Local Boards), purchases or improvements of an individual's private property, telephone costs, repairs to government-owned or profit-making facilities and any payments for services not incurred. For a complete listing on eligible and ineligible costs under this program, refer to the Responsibilities and Requirements Manual of the current Phase (fiscal year) issued by the Emergency Food and Shelter Program National Board.

Applicant Eligibility:

Since funds are initially distributed to jurisdictions based on either a National Board formula or recommendations from State Set-Aside Committees, there is no application process for jurisdictions. All jurisdictions are considered within the National Board formula and all jurisdictions in an individual State may be considered by the State Set-Aside Committee for either initial or additional (if the jurisdiction had previously been selected by the National Board) funding.

At the local level, following award notification by the National Board to the jurisdiction, a Local Board is formed. The Local Board then advertises the availability of the funds to local nonprofit agencies and governments. The Local Board must conduct a local application process for agencies to apply for funding. The Local Board selects which local nonprofit and governmental organizations are to receive funding and submits their selections via a Local

Board Plan to the National Board.

Beneficiary Eligibility:

The law directs that the Local Boards, which manage the program at the local level, shall "determine which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers." The range of participant groups on the Local Boards include the affiliates of the National Board membership which consists of American Red Cross, Catholic Charities USA, The Jewish Federations of North America, National Council of Churches of Christ in the USA, The Salvation Army, and United Way Worldwide, with a local government representative replacing FEMA. Also participating are thousands of independent nonprofits (such as Community Action Agencies and Food Banks and food pantries) which provide food and/or shelter services. Due to the broad category of people in need of such emergency services, the providers can include specialized groups such as domestic violence shelters, Native American organizations, and organizations providing food or shelter to: AIDS patients, handicapped individuals, the elderly, homeless veterans, non-wards of the State teenage runaways, and many other groups with emergency food and shelter needs. As noted earlier, the decisions on selections are made through the consensus of the Local Board as they have assessed their community's most urgent needs. It is important that such agencies use these funds to supplement, not replace, their current efforts. This program is intended to supplement ongoing programs and allow them to extend and expand upon their existing services.

Credentials/Documentation:

The program employs a Local Recipient Organization Certification Form. This form certifies an applicant's status (i.e., that it is a nonprofit or government agency capable of delivering eligible services) and that it will abide by the program guidelines (both on eligible spending and reporting requests), and comply with other fiscal and program rules so stipulated. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. There is no application process for local jurisdictions since the award notification to local jurisdictions is based on either a National Board formula or recommendations from State Set-Aside Committees. The local jurisdiction (i.e., Local Board) must conduct a local application process for local agencies to apply for funding.

Award Procedure:

At the local level, following award notification by the National Board, a Local Board is formed. The Local Board then advertises the availability of the funds to local nonprofit agencies and governments. The Local Board must conduct a local application process for agencies to apply for funding. The Local Board selects which agencies are to receive funding and submits their selections via a Local Board Plan to the National Board. The National Board confirms all pertinent information has been submitted and disburses funds directly to the awarded local agencies.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Refer to announcement or application guidance for further information.

Appeals:

Refer to the Phase 30 (fiscal year 2012) Responsibilities and Requirements Manual issued by the Emergency Food and Shelter Program National Board for information on the appeal process. Those cases that cannot be handled locally should be referred to the National Board giving details on action that has been taken up to that point. Any allegations regarding fraud or the misuse of funds should be referred directly to the DHS Office of Inspector General.

Renewals:

Each phase (fiscal year) is a new program.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.
This program has no matching requirements.

97.045 COOPERATING TECHNICAL PARTNERS

(CTP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

National Flood Insurance Reform Act of 1994 ; Flood Disaster Protection Act of 1973 ; Flood Insurance Act of 1968 , 42 U.S.C 4101; Biggert-Waters Flood Insurance Reform Act of 2012.

OBJECTIVES:

The Cooperating Technical Partners (CTP) Program exists to strengthen and increase the effectiveness of the National Flood Insurance Program (NFIP) through fostering strong Federal, State, Tribal, regional and local partnerships to reduce flood losses and promote community resiliency. The CTP Program supports Strengthening National Preparedness and Resilience, one of five basic missions of the DHS2014 Quadrennial Homeland Security Review. Additionally, the program supports the National Mitigation Framework within the Presidential Policy Directive (PPD-8). The objectives of the CTP Program primarily support the mission and objectives of the NFIPs Flood Hazard Mapping Program through FEMA's flood hazard identification and assessment programs including the Risk MAP (Mapping, Assessment, and Planning) initiative. The vision for Risk MAP is to deliver quality data that increases public awareness of flood hazard risk and leads to action that reduces flood risk to life and property. Risk MAP develops flood hazard data and maps for communities that have never had identified risks as well as building on effective flood hazard data and flood insurance rate maps. FEMA collaborates with a variety of stakeholders to achieve the following goals under Risk MAP:

Flood Hazard Data- Address gaps in flood hazard data to form a solid foundation for risk assessment, floodplain management, and actuarial soundness of the NFIP.

Public Awareness/Outreach- Ensure that a measurable increase of the public awareness and understanding of risk results in a measurable reduction

of current and future vulnerability.

Hazard Mitigation Planning- Lead and support States, local, and Tribal communities to effectively engage in risk-based mitigation planning resulting in sustainable actions that reduce or eliminate risks to life and property from natural hazards.

Enhanced Digital Platform- Provide an enhanced digital platform that improves management of Risk MAP, steward of information produced by Risk MAP, and improves communication and sharing of risk data and related products to all levels of government and the public.

Alignment and Synergies- Align Risk Analysis programs and develop synergies to enhance decision-making capabilities through effective risk communication and management.

Information about Risk MAP (including goals, strategies, progress and success stories), can be found on FEMA's website at <http://www.fema.gov/risk-mapping-assessment-planning>.

FEMA through the CTP Program seeks to build upon and enhance the existing capabilities of CTPs to increase local involvement in, and ownership of flood hazard identification, flood map maintenance, risk assessment, and risk communication to encourage responsible floodplain management and support their jurisdictional responsibilities as participating members of the NFIP. They assist in the development and maintenance of flood risk data and Flood Insurance Rate Maps (FIRMs) and other risk related products, as well as other assistance in advancing their local and FEMA's goals and objectives of Risk MAP and the NFIP program. Partnerships developed through FEMA's CTP Program are in the best interest of State and local communities, the NFIP and the general public. FEMA is responsible for establishing and updating minimum Federal criteria and holds the final decision making responsibility for issuing the FIRMs and any revisions/updates, however, there are several mutually beneficial reasons for creating these partnerships to help produce risk identification and assessment data, and other products in support of the NFIP.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Assistance may be used for costs associated with Community Engagement and Risk Communication, Program Management, Technical Risk Analysis and Mapping, Letter of Map Revision (LOMR) Delegation and Special Project activities as delineated in the FY 5 Notice of Funding Opportunity. Allowable costs are determined by reference to the OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Use of funds must be consistent with the statutory authority for the award. Restrictions: The recipient must have in-house staff capabilities in the appropriate technical area for the activity approved in the award. If the work for any portion of a mapping activity is contracted, the recipient of the award must have in-house staff with the technical capability to monitor the contractor(s) and approve the product(s) developed by the contractor(s). Applicants must meet the eligibility criteria outlined in the FY 2015 Notice of Funding Opportunity. This criteria includes (but is not limited to) the requirement that potential partners have existing processes and/or systems in place to support mapping or data collection activities that contribute to flood hazard identification and that potential partners have the demonstrated capability and capacity to implement, or contract, the activities for which funding is being sought. Yes, all funds are discretionary.

Applicant Eligibility:

Only qualified CTPs are eligible for federal assistance awards through this program. Eligible recipients generally include entities who already perform certain functions in flood risk analysis, flood hazard identification, flood risk communication and mitigation processes in States and local communities to reduce flood losses and protect life and property from the risk of future flood damage. Specifically, eligible CTPs include three main groups: (1) NFIP-participating communities, as defined in 44 CFR 59 (typically this includes State, Tribal and local governments), who are in good standing with the NFIP (i.e., not on probation or suspended); (2) State, local and regional governmental agencies, such as water management districts, river authorities, municipal utility districts, State Universities, etc., whose activities support floodplain management and flood mitigation actions within the NFIP

communities they serve; and (3) non-profit organizations whose primary mission is to support the ability of NFIP communities to more effectively understand and manage their flood risk. In accordance with Section 1361 of the National Flood Insurance Act of 1968 (42 U.S.C. 4102), these entities and organizations must have existing facilities and services to carry out studies and investigations with respect to land management and use, flood control, flood zoning and flood damage prevention in flood-prone areas, floodways, building codes and permits, and associated laws, regulations and ordinances. For additional information, see the Eligibility Criteria in the Funding Opportunity Announcement.

Beneficiary Eligibility:

State, local, specialized group, small business, general public.

Credentials/Documentation:

Potential partners/applicants must meet the criteria outlined in the FY2015 Notice of Funding Opportunity, including (but not limited to): evidence that they have sufficient technical capability (including credentials or certifications) and capacity necessary to perform program activities, a signed Partnership Agreement with the appropriate FEMA office (Region or HQ), and meet the eligibility requirements. Applicants must be NFIP participating communities in good standing. Documentation: Allowable costs are determined by reference to OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. For complete information on credentials and documentation, please refer to program guidance. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

All applicants should consult with the appropriate FEMA awarding office (i.e., Regional office or HQ) for application information and technical assistance. Non-profits should also consult with FEMA HQ for pre-approval, application information and/or technical assistance. Environmental impact information is not required for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." Eligible applicants must apply through this portal, accessible on the Internet at <http://www.grants.gov>. For complete information on all required forms, attachments, submission instructions / requirements, deadlines, and other procedural information, please refer to program guidance.

Award Procedure:

Qualified FEMA programmatic staff (regional and/or Headquarters), with sufficient program knowledge and expertise in floodplain mapping, flood risk assessment, flood risk communication and floodplain management, review and select CTP projects for funding. Applications are reviewed to ensure compliance with the eligibility criteria and selected primarily on FEMA's priorities and the availability of FEMA funds (i.e., funding is not guaranteed to new or existing applicants). FEMA considers the following elements when prioritizing funding for and selecting CTPs for awards: program priorities, past performance, technical capability and capacity, and partner contribution. Applications are also reviewed by qualified FEMA grants management staff to ensure compliance with grants management principles, such as administrative requirements and cost principles. Applicants/applications that do not meet eligibility or submission requirements are removed from consideration. 97.046 FIRE MANAGEMENT ASSISTANCE GRANT

(FMAG)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Act, Section 420, Public Law 93-288, 42 U.S.C 5187.

OBJECTIVES:

The Fire Management Assistance Grant Program is authorized by the Stafford Act and amended by the Disaster Mitigation Act of 2000. Grants are provided to States, Indian tribal and local governments for the mitigation, management and control of any fire burning on publicly (non-federal) or privately owned forest or grassland that threatens such destruction as would constitute a major disaster. The funds are primarily used for fire suppression services (response) but also for essential assistance (emergency protective measures) as described in Section 403 (42 U.S.C 5170b) of the Stafford Act. This includes, but is not limited to evacuation and sheltering, police barricading, equipment and supplies, and other costs related to fire suppression operations and administration in support of these operations. Of the 31 core capabilities, this program fits into several including the Public Information and Warning, Infrastructure Systems, Environmental Response/Health and Safety, and Natural and Cultural Resources categories.

TYPES OF ASSISTANCE:

PROJECT GRANTS; PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

Fire Management Assistance Grants are made in the form of cost-sharing grants for the mitigation, management, and control of any fire on publicly (nonfederal) or privately owned forestland or grassland that threatens such destruction as would constitute a major disaster. The Fire Management Assistance Grant Program, authorized by the Stafford Act and amended by the Disaster Mitigation Act of 2000, provides for the mitigation, management and control of fires that threaten such destruction as would constitute a major disaster.

Applicant Eligibility:

State governments and Indian tribal governments are eligible for fire management assistance grants. The State or Indian tribal government may be

the Grantee. The Grantee is the government to which a grant is awarded, and is accountable for the use of funds provided.

Beneficiary Eligibility:

The State Government and/or Indian tribal government, acting as the Grantee, is the government to which the grant is awarded and which is accountable for the use of the funds provided. Other State entities, Indian tribal governments and local governments are eligible to apply for subgrants.

Credentials/Documentation:

Costs will be determined in accordance with FEMA Regulations, 44 CFR Part 204. Federal funds will be awarded to subgrantees in accordance with State law and procedure and in compliance with 44 CFR Part 13 and 204. Grant awards will be determined in accordance with OMB Circulars No. A-87 and No. A-102 for State and local governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

A FEMA-State Agreement and/or Indian tribal Agreement for the Fire Management Assistance Grant Program (the agreement) is signed by the Governor/Indian tribal government and the Regional Administrator at the beginning of the calendar year or after a State's first fire management assistance grant declaration in a calendar year. The agreement is amended for subsequent approvals of assistance for the remainder of the year. This agreement outlines the level of fire management assistance to be provided for all fires declared during the calendar year, and contains the necessary terms and conditions for requesting and receiving assistance. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A State Governor, or Governor's Authorized Representative, may request a fire management assistance declaration from the FEMA Regional Administrator. To expedite the request, the State may submit a telephone request to the Regional Administrator, promptly followed by a confirming message or letter. The FEMA Regional Administrator will render a decision on the State's request and notify the State and FEMA Headquarters of this decision. This decision may be relayed by telephone, to be followed by a written determination.

Award Procedure:

Requests for fire management assistance declarations must be submitted while a fire is burning uncontrolled and threatens such destruction as would constitute a major disaster. The State should submit its grant application within nine (9) months of the declaration. Upon receipt of a written request from the State, the Regional Administrator may grant an extension for up to three (3) months.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 1 hour to 72 hours.

Appeals:

States have the recourse to two types of appeals under the Fire Management Assistance Grant Program. Under the first type of appeal, a Governor, Governor's Authorized Representative, may appeal a denial of its request for a fire management assistance declaration. The State should submit this one-time request for reconsideration in writing, with additional information, to the Deputy Associate Administrator of the Response and Recovery Directorate through the Regional Administrator. The appeal must be submitted within 30 days of the date of the letter denying the State's request. The Deputy Associate Administrator will render the final determination on this type of appeal within 90 days of receipt of the appeal or receipt of the additional information requested. The Deputy Associate Administrator may extend the 30-day period provided that the Governor, or the Governor's Authorized Representative, submits a written request for a time extension within the 30-day period. The Deputy Associate Administrator will evaluate the need for an extension based on the reasons cited in the request and either approve or deny the request for an extension. Under the second type of appeal, an applicant or subgrantee may appeal any determination FEMA makes under an approved fire management

assistance declaration through a two level appeal process. Appellants must file appeals within 60 days after receipt of a notice of the action that is being appealed. The Grantee will review and forward appeals from an applicant or subgrantee, with a written recommendation, to the Regional Administrator within 60 days of receipt. The Regional Administrator will render a determination on first appeals for fire management assistance grant-related decisions within 90 days following receipt of the appeal or requested additional information. In the event the Regional Administrator denies the appeal, the applicant may submit a second-level appeal to the Deputy Associate Administrator of the Office of Response and Recovery (formerly the Assistant Administrator for the Recovery Directorate) at FEMA Headquarter Office (for second appeals). Within 90 days following receipt of a second appeal, the Deputy Associate Administrator, will notify the grantee in writing of the disposition of the appeal or of the need for additional information. If the decision is to grant the appeal, the Regional Administrator will take appropriate implementing action. The decision of the Deputy Associate Administrator at the second appeal level is the final administrative decision of FEMA.

Renewals:

None.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Fire Management Assistance Grants may be available to States on a 75 percent Federal/25 percent nonfederal cost-sharing basis when the State's application demonstrates either of the following: total eligible costs for the declared fire meet or exceed the individual fire cost threshold or total costs of all declared and non-declared fires in a given calendar year meet the cumulative fire cost threshold. The individual fire cost threshold for a State for FY 2013 is the greater of \$100,000 or five percent x \$1.37 x state population. The cumulative fire cost threshold for a State FY 2013 is the greater of \$500,000 or three times the five percent x \$1.37 x State population. Both formulas are adjusted annually for inflation using the Consumer Price Index for All Urban Consumers published annually by the Department of Labor. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The time interval during which a declared fire occurs is the incident period. Generally costs must be incurred during the incident period to be considered eligible. Pre-positioning of resources may be approved for Federal funding up to a maximum of 21 days before a declared fire. Mobilization and demobilization also occur outside the incident period and are eligible for Federal funding. Temporary repair work must be completed within 30 days of the close of the incident period for the declared fire. See the following for information on how assistance is awarded/released: Payment based on Project need.

Reports:

Within 90 days of the Performance Period expiration date, the State must submit a Financial Status Report (FEMA Form 425) which reports all costs incurred within the incident period and all administrative costs incurred within the performance period. The performance period, defined on the SF-424, may be 9 months from the close of the incident period and may be extended for an additional 3 months by the Regional Administrator. During the performance period the Grantee will submit the subgrants, which document eligible costs; FEMA will review the eligibility of costs, and process, obligate, and close-out the grant. Refer to program guidance. Refer to program guidance. Refer to program guidance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

Records:

Grant records must be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit,

or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. 97.056 PORT SECURITY GRANT PROGRAM

(PSGP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Maritime Transportation Security Act of 2002, Section 102, Public Law 107-295, 46 U.S.C 70107.

OBJECTIVES:

Recipients under the FY 2016 PSGP are encouraged to build and sustain core capabilities through activities such as:

- Strengthening governance integration;
- Enhancing Maritime Domain Awareness (MDA);
- Enhancing Improvised Explosive Device (IED) and Chemical, Biological, Radiological, Nuclear, Explosive (CBRNE) prevention, protection, response and supporting recovery capabilities within the maritime domain;
- Enhancing cybersecurity capabilities;
- Maritime security risk mitigation projects that support port resilience and recovery capabilities;
- Training and exercises; and
- Transportation Worker Identification Credential (TWIC) implementation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The FY 2016 PSGP is one of the Departments FY 2016 grant programs that directly support maritime transportation infrastructure security activities. PSGP is one tool in the comprehensive set of measures authorized by Congress and implemented by the Administration to strengthen the Nations critical infrastructure against risks associated with potential terrorist attacks.

The vast majority of U.S. maritime critical infrastructure is owned and/or

operated by State, local, and private sector maritime industry partners. PSGP funds available to these entities are intended to improve port-wide maritime security risk management; enhance maritime domain awareness; support maritime security training and exercises; and to maintain or reestablish maritime security mitigation protocols that support port recovery and resiliency capabilities. PSGP investments must address U.S. Coast Guard identified vulnerabilities in port security and support the prevention, detection, response, and/or recovery from attacks involving improvised explosive devices (IED) and other non-conventional weapons. PSGP grant recipients and sub-recipients may only use PSGP grant funds for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity.

Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement.

Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In FY 2016, the total amount of funds distributed under this grant program will be \$100,000,000. The FY 2016 PSGP funds will be allocated based on the funding priorities outlined in FY 2016 PSGP Notice of Funding Opportunity (NOFO).

Applicant Eligibility:

All entities subject to an Area Maritime Transportation Security Plan (AMSP), as defined by 46 U.S.C. 70103(b), may apply for PSGP funding. Eligible applicants include, but are not limited to: port authorities, facility operators, and state and local government agencies.

Pursuant to the Maritime Transportation Security Act of 2002, as amended (MTSA), DHS established a risk-based grant program to support maritime security risk management. Funding is directed towards the implementation of AMSPs and Facility Security Plans (FSP) among port authorities, facility operators, and state and local government agencies that are required to provide port security services. In administering the grant program, national, economic, energy, and strategic defense concerns based upon the most current risk assessments available will be considered.

A port area is a location on a coast, shore, or inland waterway containing one or more harbors where vessels can dock and transfer people or cargo to or from land. For the purpose of PSGP, the presence of Maritime Transportation Security Act (MTSA) regulated facilities are the primary consideration of harbors that defines the port area.

Applications for the purpose of providing a service, product, project, or investment justifications (IJ) on behalf of another entity such as sub-recipients or a consortia are ineligible for funding. Applications will only be accepted and considered for funding from direct recipients.

Only one (1) application per eligible entity within each Port Area is permitted. Each application may contain multiple IJs. An entity is a port authority, facility operator, state or local government agency required to provide port security services. An investment justification supports the funding of a proposed project. The location where the project is primarily implemented is considered the Port Area of the application. Applicants with facilities in multiple Port Areas may submit one (1) application per Port Area. Program funding is risk based by Port Area, no single application should include investment justifications for projects intended to be implemented in multiple Port Areas. For example, state entities that operate in multiple Port Areas within the state must submit separate applications to fund projects in each of these Port Areas. Applicants may submit up to five (5) investment justifications within the single application. Eligibility does not guarantee grant funding. As a condition of eligibility, all PSGP applicants are required to be fully compliant with relevant Maritime Security Regulations (33 C.F.R. Parts 101-106). Any applicant who, as of the grant application deadline, has an open or outstanding Notice of Violation (NOV), will not be considered for PSGP

funding if:

- 1) the applicant has failed to pay the NOV within 45 days of receipt; or
- 2) the applicant has failed to decline the NOV within 45 days of receipt resulting in the Coast Guard entering a finding of default in accordance with 33 C.F.R. 1.07-11[f][2]; or
- 3) the applicant has appealed the NOV pursuant to 33 C.F.R. 1.07-70 and has received a final appeal decision from the Commandant, U.S. Coast Guard, as described in 33 C.F.R. 1.07-75, and has failed to come into compliance with the terms of the final appeal decision within the timelines noted therein.

The local U.S. Coast Guard Captain of the Port (COTP) will verify security compliance eligibility during the field review process.

Ferry systems are eligible to apply for FY 2016 PSGP funds. However, any ferry system receiving funds under the FY 2016 PSGP will not be eligible to participate under the FY 2016 Transit Security Grant Program (TSGP). Likewise, any ferry system that participates in the TSGP will not be eligible for funding under the PSGP.

Beneficiary Eligibility:

Critical national seaports and terminals.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Award Procedure:

Initial Screening. FEMA will conduct an initial review of all FY 2015 PSGP applications to ensure each application is complete. All complete applications will be provided to the applicable COTP for further review.

Field Review. Field-level reviews will be managed by the applicable COTP in coordination with the Gateway Directors of the U.S. Department of Transportation (DOTs) Maritime Administration (MARAD) and appropriate personnel from the AMSC, to include owner/operators of MTSA regulated facilities and vessels, as well as Federal, State, and local agencies, as identified

by the COTP. To support coordination of and regionalization of maritime security grant application projects with State and Urban Area homeland security strategies, as well as other State and local security plans, AMSC members representing State and local agencies should coordinate the results with the applicable State administrative agency or agencies and State homeland security advisor(s).

Field reviews for all Groups occur immediately following the initial screening. Each specific project is scored for compliance with criteria enumerated in the previous section and the COTP/MARAD provides a prioritized list of eligible maritime security risk mitigation projects for funding within each port area. The COTP will use the COTP Field Review Form to review all projects.

After completing field reviews, COTPs will submit the field review project scores, any associated comments, and prioritized lists to FEMA who will begin coordination of the national review process.

Deadlines:

Apr 02, 2015 to May 19, 2015 Applying for FY 2015 PSGP funds requires a two-step process. Step One: initial submission to determine eligibility and Step Two: full application. The purpose of the National Review is to identify a final, prioritized list of eligible projects for funding. The NRP will conduct an initial review of the prioritized project listings for each port area submitted by the USCGs COTP to ensure that the proposed projects will accomplish intended risk mitigation goals. The NRP will validate and normalize the COTP Field Review Project Priority List and provide a master list of prioritized projects by port area.

The NRP will have the ability to recommend partial funding for individual projects and eliminate others that are determined to be duplicative or require a sustained Federal commitment to fully realize the intended risk mitigation. The NRP will also validate proposed project costs. Decisions to reduce requested funding amounts or eliminate requested items deemed inappropriate under the scope of the FY 2015 PSGP will take into consideration the ability of the revised project to address the intended national port security priorities and achieve the intended risk mitigation goal. Historically, PSGP has placed a high priority on providing full project funding rather than partial funding.

A risk-based analysis will then be applied to the NRPs prioritized list for each port area in all groups. This analysis considers the following factors to produce a comprehensive national priority ranking of port security proposals:

- Relationship of the project to one or more of the national port security priorities
- Relationship of the project to the local port security priorities
- COTP ranking (based on each COTPs prioritized list of projects)
- Risk level of the port area in which the project would be located (based on a comprehensive risk analysis performed by DHS)
- Effectiveness and feasibility of project to be completed in support of above priorities during the period of performance

The NRP will be asked to evaluate and validate the consolidated and ranked project list and submit their recommendations to FEMA. The NRP may request additional information or clarification from applicants. The Secretary of Homeland Security will have the final approval authority on all projects.

FEMA may place minimum project effectiveness limit on all projects submitted. Projects failing to meet the minimum level of effectiveness may not be considered for funding.

Funds will not be made available for obligation, expenditure, or drawdown until the applicants detailed budget and budget narrative have been approved by FEMA.

The applicant must provide a detailed budget for the funds requested. The detailed budget must be submitted with the grant application as a file attachment within ND Grants. The budget must be complete, reasonable, and cost-effective in relation to the proposed project. The budget must provide the basis of computation of all project-related costs, any appropriate narrative, and a detailed justification of M&A costs.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The following match requirements apply for the FY 2015 PSGP (including ferry systems):

Public Sector. Public sector applicants must provide a non-Federal match (cash or in-kind) supporting at least 25 percent (25%) of the total project cost for each proposed project.

Private Sector. Private sector applicants must provide a non-Federal match (cash or in-kind) supporting at least 50 percent (50%) of the total project cost for each proposed project.

Other Matching Requirements Information:

Exceptions. The following exceptions to the cost-match requirement may apply:

There is no matching requirement for grant awards where the total award is \$25,000 or less (with the exception of national and/or regional corporations submitting 11 or more projects throughout their system[s]).

There is no matching requirement for grants to train law enforcement agency personnel in the enforcement of security zones as defined by 46 U.S.C. 70132, 70107(c)(2)(C) or in assisting in the enforcement of such security zones.

If the Secretary of Homeland Security determines that a proposed project merits support and cannot be undertaken without a higher rate of Federal support, the Secretary may approve grants with a matching requirement other than that specified above in accordance with Title 46, Section 70107 of the United States Code of Federal Regulations (46 U.S.C. 70107(c)(2)(B)). Cost match waivers under 46 U.S.C. 70107(c)(2)(B) may be granted only if the Secretary of DHS determines that (1) a proposed project merits support in light of the overall grant purpose and mission goals; and (2) the Secretary of DHS determines that the meritorious project cannot be undertaken without a higher rate of Federal support. See FEMA Grant Programs Directorate (GPD) Information Bulletin (IB) 376, dated January 4, 2012 for further information on the PSGP cost match waiver process (<http://www.fema.gov/pdf/government/grant/bulletins/info376.pdf>).

Cash and in-kind matches must consist of eligible costs (i.e., purchase price of allowable contracts, equipment). A cash match includes cash spent for project-related costs while an in-kind match includes the valuation of in-kind services. The cost-match requirement for the PSGP award may not be met by costs borne by another Federal grant or assistance program. Likewise, in-kind matches used to meet the matching requirement for the PSGP award may not be used to meet matching requirements for any other Federal grant program (e.g., FY 2015 funds are used to purchase a mobile command center from a vendor, the vendor contributes or donates communications equipment associated with the mobile command center, the value of the donated equipment may be

considered as an in-kind match for the PSGP award only). Please see Title 44, Part 13, Section 24 of the Code of Federal Regulations (44 CFR 13.24) for further guidance regarding in-kind matches. (<http://ecfr.gpoaccess.gov/cgi/t/text/text-idx?type=simple;c=ecfr;cc=ecfr;sid=183d717ad04a78067db6a831421874ea;idno=44;region=DIV1;q1=13;rgn=div5;view=text;node=44%3A1.0.1.1.14>).

The cost match requirement must be included in the applicant's detailed budget. The applicant must demonstrate that sufficient funds are available for the recipients share of the project at the time of the application (46 U.S.C. 70107(e)(4)(B)). Projects without a detailed budget demonstrating the required cost match will not be considered for funding.

The non-Federal share can be cash or in-kind, with the exception of construction activities, which must be a cash-match (hard). This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The period of performance is 36 months. For more information, refer to the FY 2015 PSGP Notice of Funding Opportunity (NOFO). Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures. See the following for information on how assistance is awarded/released: Grantees must accept their grant awards no later than 90 days from the award date. The grantee shall notify the awarding agency of its intent to accept and proceed with work under the award, or provide a written notice of intent to decline. Funds will remain on hold until the grantee accepts the award through official correspondence (e.g., written, electronic signature, signed letter or fax to GPD) and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds.

Reports:

Exercise Evaluation and Improvement. Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Guidance related to exercise evaluation and the implementation of improvements is defined in the Homeland Security Exercise and Evaluation Program located at <https://hseep.dhs.gov>. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). 97.067 HOMELAND SECURITY GRANT PROGRAM (HSGP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Homeland Security Act of 2002, Public Law 107-296; Department of Homeland Security Appropriations Act of 2016, Public Law 114-4.

OBJECTIVES:

FY 2016 HSGP provides grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goals (NPGs) associated mission areas and core capabilities. FY 2016 HSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2016 HSGP is comprised of four interconnected grant programs:

- State Homeland Security Program (SHSP);
- Tribal Homeland Security Grant Program (THSGP);
- Urban Areas Security Initiative (UASI);
- Operation Stonegarden (OPSG);

State Homeland Security Program (SHSP): The SHSP assists state, Tribal and local preparedness activities that address high-priority preparedness gaps across all core capabilities where a nexus to terrorism exists. All supported investments are based on capability targets and gaps identified during the Threat and Hazard Identification and Risk Assessment (THIRA) process, and assessed in the State Preparedness Report (SPR).

Tribal Homeland Security Grant Program (THSGP): The Fiscal Year (FY) 2016 THSGP plays an important role in the implementation of the National Preparedness System by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (the Goal) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2016 THSGPs allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Urban Areas Security Initiative (UASI): The UASI Program assists high-threat, high-density Urban Areas in efforts to build and sustain the capabilities necessary to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.

Operation Stonegarden (OPSG): The OPSG Program supports enhanced cooperation and coordination among Customs and Border Protection (CBP), United States Border Patrol (USBP), and local, Tribal, territorial, state, and Federal law enforcement agencies. The OPSG Program funds investments in joint efforts to secure the United States borders along routes of ingress from international borders to include travel corridors in states bordering Mexico and Canada, as well as states and territories with international water borders.

All four programs are based on risk-driven, capabilities-based strategic plans that outline high-priority needs relating to terrorism preparedness. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels, while also addressing potential gaps.

The National Preparedness System is the instrument the Nation employs to build, sustain, and deliver core capabilities in order to achieve the Goal of a secure and resilient Nation. Complex and far-reaching threats and hazards require a collaborative and whole community approach to national preparedness that engages individuals, families, communities, private and nonprofit sectors, faith-based organizations, and all levels of government. The guidance, programs, processes, and systems that support each component of the National Preparedness System allows for the integration of preparedness efforts that build, sustain, and deliver core capabilities and achieve the desired outcomes identified in the Goal.

DHS/FEMA annually publishes the National Preparedness Report (NPR) to evaluate National progress in building, sustaining, and delivering the core capabilities outlined in the Goal. This analysis provides a National perspective on critical preparedness trends for whole community partners to use to inform program priorities, allocate resources, and communicate with stakeholders

about issues of shared concern.

Recipients are required to consider national areas for improvement identified in the 2015 NPR, which include the following core capabilities:

- Cybersecurity;
- Infrastructure Systems;
- Health and Social Services;
- Housing; and
- Long-term Vulnerability Reduction.

In addition, the Department of Homeland Security requires recipients to prioritize investments that address capability targets and gaps identified through the annual THIRA and SPR process. These assessments set capability targets and measure current ability to meet those targets.

Minimum funding amounts are not prescribed by the Department for these priorities; however, recipients must support state, local, regional, and national efforts in achieving the desired outcomes of these priorities.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Although no longer funded as discrete grant programs, all activities and costs allowed under the FY 2010 Buffer Zone Protection Program (BZPP), FY 2010 Interoperable Emergency Communications Grant Program (IECGP), FY 2011 Citizen Corps Program (CCP), FY 2011 Drivers License Security Grant Program (DLSGP), and FY 2011 Metropolitan Medical Response System (MMRS) grant program are allowable and encouraged activities and costs under the FY 2016 HSGP.

For additional information on allowable activities, please refer to <http://www.fema.gov/grants>.

Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. There may be limitations on the use of HSGP and THSGP funds for the following categories of costs:

- Management and Administration
- Planning
- Organization
- Equipment
- Training
- Exercises
- Maintenance and Sustainment
- Critical Emergency Supplies
- Construction and Renovation

For additional details on restrictions on the use of funds, please refer to the FY 2016 HSGP and THSGP Notice of Funding Opportunity. THSGP grantees may only fund investments that were included in the FY 2012 Investment Justifications (IJs) that were submitted to FEMA and evaluated through the peer review process. Funds Transfer Restriction: The recipient is prohibited from transferring funds between programs (includes SHSP, UASI, and OPSG). Recipients are allowed to submit an investment/project where funds come from multiple funding sources (i.e., SHSP/UASI); however, recipients are not allowed to divert funding from one program to another due to the risk-based funding allocations, which were made at the discretion of DHS/FEMA.

Awards made to the SAA for HSGP carry additional pass-through requirements. Pass through is defined as an obligation on the part of the SAA to make funds available to local units of government, combinations of local units, tribal governments, or other specific groups or organizations. The SAAs pass through requirement must be met within 45 days of the award date. Four requirements must be met to pass through grant funds:

There must be some action to establish a firm commitment on the part of the

SAA;

The action must be unconditional on the part of the awarding entity (i.e., no contingencies for availability of SAA funds);

There must be documentary evidence (i.e., award document, terms and conditions) of the commitment; and

The award terms must be communicated to the official recipient

The SAA must obligate at least 80 percent (80%) of the funds awarded under SHSP and UASI to local or Tribal units of government within 45 days of receipt of the funds. Receipt of funds occurs when the recipient accepts the award or 15 days after the recipient is notified of the award, whichever comes first. The signatory authority of the SAA must certify in writing to DHS/FEMA that pass-through requirements have been met. A letter of intent (or equivalent) to distribute funds is not considered sufficient. The pass through requirement does not apply to SHSP awards made to the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands. The Commonwealth of Puerto Rico is required to comply with the pass-through requirement and its SAA must also obligate at least 80 percent (80%) of the funds to local units of government within 45 days of receipt of the funds. Any UASI funds retained by the SAA must be used to directly support the designated Urban Areas in the state. The SAA must propose an investment describing how such UASI funds it retains will be used to directly support the Urban Area.

Under SHSP, the SAA may retain more than 20 percent (20%) of SHSP funding for expenditure made by the state on behalf of the local unit(s) of government. This may occur only with the written consent of the local unit of government, specifying the amount of funds to be retained and the intended use of funds. If a written consent agreement is already in place from previous fiscal years, DHS/FEMA will continue to recognize it for FY 2016. If modifications to the existing agreement are necessary, the SAA should contact their assigned Headquarters Program Analyst.

Per section 2006 of the Homeland Security Act of 2002, as amended, (6 U.S.C. 607), DHS/FEMA is required to ensure that at least 25 percent (25%) of grant funding appropriated for the Homeland Security Grant Program and Tribal Homeland Security Grant Program are used for law enforcement terrorism prevention activities. DHS/FEMA meets this requirement, in part, by requiring all SHSP and UASI recipients to ensure that at least 25 percent (25%) of the combined HSGP funds allocated under SHSP and UASI are dedicated towards law enforcement terrorism prevention activities, as defined in 6 U.S.C. 607. The LETPA allocation can be from SHSP, UASI or both. This requirement does not include award funds from OPSG. The 25% LETPA allocation is in addition to the 80% pass through requirement to local units of government and Tribes.

The recipient must pass through 100 percent (100%) of OPSG allocations to eligible jurisdictions. The recipient is prohibited from obligating or expending funds provided through this award until each unique and specific county-level or equivalent Operational Order/Fragmentary Operations Order budget has been reviewed and approved through an official electronic mail notice issued by DHS/FEMA removing this special programmatic condition. Eligible sub-recipients under the FY 2016 OPSG Program are local units of government at the county level and Federally-recognized Tribal governments in states bordering Canada, states bordering Mexico, and states and territories with international water borders. All applicants must have active ongoing USBP operations coordinated through a CBP sector office to be eligible for OPSG funding.

As part of the FY 2016 OPSG application process, each eligible local unit of government at the county or Federally-recognized Tribal government level must develop their Operations Order in coordination with state and Federal law enforcement agencies, to include, but not limited to CBP/USBP. Operations Orders that are developed at the county level should be inclusive of city, county, Tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities. The Operations Order should address this in the Executive Summary. Operations Order details should include the names of the agencies, points of contact, and individual funding requests. All applications must be developed in collaboration with the local USBP sector office, the SAA and the local unit of government. The sector office will then forward the application to the SAA for final review before submission to DHS/FEMA.

Applications will be reviewed by the SAA and USBP Sector Headquarters for completeness and adherence to programmatic guidelines and evaluated for anticipated feasibility, need, and impact of the Operations Orders.

DHS/FEMA will verify compliance with all administrative and eligibility criteria identified in the NOFO and required submission of Operations Orders and Inventory of Operations Orders by the established due dates. DHS/FEMA and USBP will use the results of both the risk analysis and the Federal review by DHS/FEMA to make recommendations for funding to the Secretary of Homeland Security.

FY 2016 OPSG funds will be allocated competitively based on risk-based prioritization using the USBP Sector-specific border risk methodology described above. Final funding allocations are determined by the Secretary, who may consider information and input from various law enforcement offices or subject matter experts within the Department. Factors considered include, but are not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence, as well as feasibility of FY 2016 Operation Orders to designated localities within the United States Border States and territories.

Applicant Eligibility:

All 56 States, which includes any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, are eligible to apply for SHSP funds. For those states that are eligible for UASI and OPSG funding, the State Administrative Agency (SAA) is the only entity eligible to submit applications to DHS/FEMA on behalf of UASI and OPSG applicants.

Beneficiary Eligibility:

THSGP: Native American Tribal Government (Federally recognized)

HSGP: States, territories and local governments

THSGP: In order to be eligible to receive THSGP funding, grantees must be considered directly eligible Tribes. Per the 9/11 Act, the term directly eligible Tribe means

(A) any Indian Tribe

(i) that is located in the continental United States;

(ii) that operates a law enforcement or emergency response agency with the capacity to respond to calls for law enforcement or emergency services;

(iii) a. that is located on or near (50 miles) an international border or a coastline bordering an ocean (including the Gulf of Mexico) or international waters (excluding shoreline border around the Great Lakes);

b. that is located within 10 miles of a system or asset included on the prioritized critical infrastructure list established under section 210E(a)(2) [please refer to section 1001 of the 9/11 Act] or has such a system or asset within its territory;

c. that is located within or contiguous to one of the 50 most populous metropolitan statistical areas in the United States; or

d. the jurisdiction of which includes not less than 1,000 square miles of Indian country, as that term is defined in section 1151 of title 18, United States Code; and

(iv) that certifies to the Secretary that a State has not provided funds under section 2003 [UASI] or 2004 [SHSP] to the Indian Tribe or consortium of Indian Tribes for the purpose for which direct funding is sought; and (B) a consortium of Indian Tribes, if each Tribe satisfies the requirements of subparagraph (A).

In summary, eligible Tribes must meet the requirements set forth in (A) (i), and (A) (ii), and (A) (iv). Tribes must also meet one of the requirements set forth in (A) (iii); either (A) (iii) (a), or (A) (iii) (b), or (A) (iii) (c), or (A) (iii) (d). Finally, (B) may also be satisfied, if each Tribe satisfies the requirements of subparagraph (A).

In FY 2012, applicants must self-certify as to whether they meet the eligibility requirements. Self-certification will be provided on the THSGP Eligibility Certification Form as part of Application Investment Justification. Any questions regarding an applicants proximity to a Critical Infrastructure and Key Structures (CI/KR) site, as described in the eligibility criteria, may be directed to the State Administrative Agency (SAA). Any additional questions regarding the overall self-certification of eligibility process may be directed to the Centralized Scheduling and Information Desk (CSID). CSID can be reached by phone at (800) 368-6498 or by e-mail at askcsid@dhs.gov, Monday through

Friday, 9:00 a.m. 5:30 p.m. EST.

Credentials/Documentation:

As part of the FY 2016 HSGP application process for SHSP and UASI funds, applicants must develop a formal IJ that addresses the proposed investments. Each IJ must demonstrate how proposed investments:

- Address capability gaps identified as State priorities in the most recent SPR;
- Align to Urban Area, state, and/or regional THIRAs and national priorities, as outlined in the NPR; and
- Engage and/or impact the whole community, including children, older adults, pregnant women, individuals with limited English proficiency, individuals with disabilities and others with access and functional needs.

Furthermore, the IJ must clearly identify and explain how the project will assist the applicant to achieve capability targets related to preventing, preparing for, protecting against, or responding to acts of terrorism.

Instructions for SHSP

Applicants must propose at least one and include up to 10 projects within each investment in their IJ to describe the activities they would plan to implement with SHSP funds.

Any projects not included in the application must be included in the first BSIR.

Of the proposed 10 investments, recipients using SHSP funds are required to propose at least one investment in support of a designated fusion center that will be funded by SHSP funds. Recipients must coordinate with the fusion center when developing a fusion center investment prior to submission.

Recipients investing in emergency communications must describe how activities align to their statewide Communication Interoperable Plan (SCIP). Recipients must coordinate with their statewide Interoperability Coordinator (SWIC) and/or statewide Interoperability Governance Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems.

Instructions for UASI

Urban Areas must propose at least one and up to 10 projects within each investment in their IJ to describe the activities they are planning to implement with UASI funds.

Any projects not included in the application must be included in the first BSIR.

If applicable, Urban Areas are required to propose at least one investment in support of a designated fusion center within the Urban Area. Recipients must coordinate with the fusion center when developing a fusion center investment prior to submission.

If UASI funds are used by the SAA in support of the Urban Area, the SAA must, as part of the up to 10 investments, propose an investment describing how UASI funds will be used by the SAA to directly support the Urban Area.

Recipients investing in emergency communications must describe how activities align to the SCIP. Recipients must coordinate with the statewide Interoperability Coordinator (SWIC) and/or statewide Interoperability Governance Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems.

Instructions for OPSG

As part of the FY 2016 OPSG application process, each eligible local unit of government at the county or Federally-recognized Tribal government level must develop their Operations Order in coordination with state and Federal law enforcement agencies, to include, but not limited to CBP/USBP. Operations Orders that are developed at the county level should be inclusive of city, county, Tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities. The Operations Order should address this in the Executive Summary. Operations Order details should include the names of the agencies, points of contact, and individual funding requests. All applications must be developed in collaboration with the local USBP sector office, the SAA and the local unit of government. The sector office will then forward the application to the SAA for final review before

submission to DHS/FEMA. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All applications must be received by the established deadline. The Non-Disaster (ND) Grants System has a date stamp that indicates when an application is submitted. Applicants will receive an electronic message confirming receipt of the full application. In general, DHS/FEMA will not review applications that are not received by the deadline or consider them for funding. DHS/FEMA may, however, extend the application deadline on request for any applicant who can demonstrate that good cause exists to justify extending the deadline. Good cause for an extension may include technical problems outside of the applicants control that prevent submission of the application by the deadline, or other exigent or emergency circumstances. If you experience technical issues, you must notify the respective Headquarters Program Analyst as soon as possible.

Application forms and instructions are available at Grants.gov. To access these materials, go to <http://www.grants.gov>, select Applicants then Apply for Grants, read the registration requirements and register if necessary (Allow up to 7-10 business days after you submit before your registration is active in SAM, then an additional 24 hours for Grants.gov to recognize your information). In order to obtain the application package select Download a Grant Application Package, enter the CFDA and/or the funding opportunity number located on the cover of this NOFO, select Download Package, and then follow the prompts to download the application package.

Award Procedure:

In FY 2016, the total amount of funds distributed under this grant program will be \$1,037,000,000. The specific information regarding funding allocations for the three HSGP programs are detailed below:

SHSP Allocations: FY 2016 SHSP funds will be allocated based on three factors: minimum amounts as legislatively mandated, DHS/FEMAs risk methodology, and anticipated effectiveness of proposed projects. Anticipated effectiveness is assessed based on the applicants description of how proposed projects, as outlined in the investment Justifications (IJs), align with state THIRA and SPR results.

Each state and territory will receive a minimum allocation under SHSP using thresholds established in the Homeland Security Act of 2002, as amended. All 50 States, the District of Columbia, and the Commonwealth of Puerto Rico will receive 0.35 percent of the total funds allocated for grants under Section 2003 and Section 2004 of the Homeland Security Act of 2002, as amended. Four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) will receive a minimum allocation of 0.08 percent of the total funds allocated for grants under Section 2003 and 2004 of the Homeland Security Act of 2002, as amended.

UASI Allocations: FY 2016 UASI funds will be allocated based on DHS/FEMAs risk methodology and anticipated effectiveness of proposed projects. Anticipated effectiveness is assessed based on the applicants description of how proposed projects, as outlined in the IJs, align with the Urban Area THIRA. Eligible candidates for the FY 2016 UASI program have been determined through an analysis of relative risk of terrorism faced by the 100 most populous Metropolitan Statistical Areas (MSAs) in the United States, in accordance with the Homeland Security Act of 2002, as amended. Detailed information on MSAs is publicly available from the United States Census Bureau at <http://www.census.gov/population/www/metroareas/metrodef.html>. OPSG Allocations: The FY 2016 OPSG Risk Assessment is designed to identify the risk to border security and to assist with the distribution of funds for the grant program. Funding under OPSG is distributed based on the risk to the

security of the border. Entities eligible for funding are the state, local and Tribal law enforcement agencies that are located along the border of the United States.

For the purposes of OPSG, risk is defined as the potential for an adverse outcome assessed as a function of threats, vulnerabilities, and consequences associated with an incident, event, or occurrence.

Based upon ongoing intelligence analysis and extensive security reviews, DHS/FEMA continues to focus the bulk of OPSG funds based upon risk analyses. The risk model used to allocate OPSG funds considers the potential risk that certain threats pose to border security and estimate the relative risk faced by a given area. In evaluating risk, DHS/FEMA considers the populations in a particular area that could be at risk, the concentration of people in the area, and specific characteristics of their location that might contribute to risk, such as Intelligence Community assessments of threat and the potential impacts that the threats pose to the security of the border area. For vulnerability and consequence, DHS/FEMA considers the expected impact and consequences of successful border events occurring in specific areas.

To determine the level of risk, two primary components are considered:

Threat: natural or man-made occurrence, individual, entity, or action that has or indicates the potential to harm life, information, operations, the environment, and/or property. OPSG uses the effect of the threat to the border to evaluate consequence.

Vulnerability: characteristic of design, location, security posture, operation, or any combination thereof, that renders an asset, system, network, or entity susceptible to disruption, destruction, or exploitation.

Threat and vulnerability are evaluated by assigning each factor a value based on specific operational data from CBP Components. Threat components present in each of the Sectors are used to determine the overall threat score.

These components are:

Terrorism Criminal Aliens

Drug Trafficking Organizations Alien Smuggling Organizations.

Deadlines:

Apr 25, 2016 to May 10, 2016 Application Start Date: 04/25/2016

Application Submission Deadline Date: 05/10/2016 at 11:59:59 PM EDT

Anticipated Funding Selection Date: 06/29/2016

Anticipated Award Date: 09/30/2016.

Range of Approval/Disapproval Time:

Refer to FY 2016 HSGP and THSGP Funding Opportunity Announcement Notice of Funding Opportunity. Anticipated Funding Selection Date is 06/29/2016. FY 2016 SHSP and UASI are non-competitive programs. Funds for FY 2016 OPSG will be allocated competitively. This includes the use of risk-based prioritization using CBP Sector-specific border risk to include, but not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence. Each applicants final funding allocation will be determined by using a combination of the results of the risk analysis and feasibility of the Operations Orders. The following process will be used to make awards under FY 2016 THSGP:

Applicants will self-certify as to tribal eligibility per the 9/11 Act; FEMA will verify compliance with all administrative and eligibility criteria identified in the application kit, to include the required submission of an IJ by the established due dates;

Eligible applications will be reviewed and scored through a peer review process to analyze the anticipated effectiveness of proposed Investments; and

FEMA will use the results of the peer review effectiveness scores to make recommendations for funding to the Secretary of Homeland Security.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The Period of Performance is 36 months. For more information, refer to the FY 2016 HSGP and THSGP Funding Opportunity Announcement Notice of Funding Opportunity. Awards are subject to the Cash Management Act for payment and/or reimbursement of expenditures.

The period of performance outlined above support the effort to expedite the outlay of grant funding and provide economic stimulus. Agencies should request waivers sparingly, and they will be granted only due to compelling legal, policy, or operational challenges. See the following for information on how assistance is awarded/released: Based on project need.

Reports:

All successful applicants for all DHS grant and cooperative agreements are required to comply with DHS Standard Administrative Terms and Conditions available within Section 6.1.1 of <http://www.dhs.gov/xlibrary/assets/cfo-financial-management-policy-manual.pdf>. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund drawdowns may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. DHS/FEMA will close out the grant award when it determines that all applicable administrative actions and all required work of the HSGP award have been completed by the recipient. This section summarizes the actions that the recipient must take to complete the closeout process in accordance with 2 C.F.R. 200.343 at the end of the grants period of performance or the issuance of a Grant Amendment Notice issued to close out the grant.

Within 90 days after the end of the period of performance, or after an amendment has been issued to close out a grant, whichever comes first, recipients must submit a final FFR and final progress report detailing all accomplishments and a qualitative summary of the impact of those accomplishments throughout the period of performance, as well as the following documentation:

Additionally, the recipient must liquidate all obligations incurred under the HSGP award no later than 90 calendar days after the end date of the period of performance or issuance of a Grant Amendment Notice that closes out the

award, whichever comes first. Recipients who do not liquidate their obligations within this time period may have the costs of their unliquidated obligations disallowed. Recipients are also responsible for promptly returning to DHS/FEMA the balance of any funds that have been drawn down, but remain unliquidated.

After these reports have been reviewed and approved by DHS/FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds the recipient has not drawn down that will be deobligated, and address requirements for record retention, and disposition and reporting requirements for any equipment or real property purchased using THSGP grant funding.

In addition, any HSGP recipient that issues subawards to any subrecipient is responsible for closing out those subawards as described in 2 C.F.R. 200.343. HSGP recipients must ensure that they complete the closeout of their subawards in time to submit all necessary documentation and information to DHS/FEMA during the closeout of their own grant award. Recipients are responsible for providing updated performance reports using the SF-PPR on a biannual basis. Recipients must submit the cover page of the SF-PPR as an attachment to the ND Grants system. The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf. As part of the SF-PPR, recipients will be required to report on progress towards implementing the following performance measures:

For fusion centers, the achievement of capabilities and compliance with measurement requirements within the Maturation and Enhancement of State and Major Urban Area Fusion Centers priority through the annual Fusion Center Assessment Program managed by the DHS Office of Intelligence and Analysis (I&A) and reported to DHS/FEMA State Preparedness Report (SPR) Submittal. The SPR is an annual capability assessment. The Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA) requires an SPR from any state/territory receiving Federal preparedness assistance administered by DHS/FEMA. Each state submits an annual SPR to DHS/FEMA. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. DHS/FEMA will close out the grant award when it determines that all applicable administrative actions and all required work of the HSGP award have been completed by the recipient. This section summarizes the actions that the recipient must take to complete the closeout process in accordance with 2 C.F.R. 200.343 at the end of the grants period of performance or the issuance of a Grant Amendment Notice issued to close out the grant.

Within 90 days after the end of the period of performance, or after an amendment has been issued to close out a grant, whichever comes first, recipients must submit a final FFR and final progress report detailing all accomplishments and a qualitative summary of the impact of those accomplishments throughout the period of performance, as well as the following documentation:

- 1) Final request for payment, if applicable;
- 2) SF-425 Final Federal Financial Report;
- 3) SF-PPR Final Performance Progress Report;
- 4) A qualitative narrative summary on the impact of those accomplishments throughout the entire period of performance submitted to the respective Grant Programs Directorate (GPD) HQ Program Analyst in a Word document;
- 5) SF-428 Tangible Personal Property Report Inventory of all tangible personal property acquired using funds from this award.
- 6) Other documents required by program guidance or terms and conditions of the award.

If applicable, an inventory of all construction projects that used funds from this program has to be reported using the Real Property Status Report (Standard

Form SF 429) available at http://www.whitehouse.gov/sites/default/files/omb/grants/approved_forms/sf-429.pdf.

Additionally, the recipient must liquidate all obligations incurred under the HSGP award no later than 90 calendar days after the end date of the period of performance or issuance of a Grant Amendment Notice that closes out the award, whichever comes first. Recipients who do not liquidate their obligations within this time period may have the costs of their unliquidated obligations disallowed. Recipients are also responsible for promptly returning to DHS/FEMA the balance of any funds that have been drawn down, but remain unliquidated.

After these reports have been reviewed and approved by DHS/FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds the recipient has not drawn down that will be deobligated, and address requirements for record retention, and disposition and reporting requirements for any equipment or real property purchased using THSGP grant funding.

In addition, any HSGP recipient that issues subawards to any subrecipient is responsible for closing out those subawards as described in 2 C.F.R. 200.343. HSGP recipients must ensure that they complete the closeout of their subawards in time to submit all necessary documentation and information to DHS/FEMA during the closeout of their own grant award. Recipients will be monitored on an annual and as needed basis by DHS/FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met.

Monitoring may be accomplished through desk-based reviews on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

CRITERIA FOR SELECTING PROPOSALS:

FY 2016 SHSP and UASI are non-competitive programs. For additional information on FY 2016 SHSP and UASI allocations, refer to the FY 2016 HSGP Notice of Funding Opportunity. Funds for FY 2016 OPSG will be allocated competitively. This includes the use of risk-based prioritization using CBP Sector-specific border risk to include, but not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence. Each applicants final funding allocation will be determined by using a combination of the results of the risk analysis and feasibility of the Operations Orders. In order to be eligible to receive THSGP funding, grantees must be considered directly eligible Tribes. Per the 9/11 Act, the term directly eligible Tribe means

(A) any Indian Tribe

- (i) that is located in the continental United States;
- (ii) that operates a law enforcement or emergency response agency with the capacity to respond to calls for law enforcement or emergency services;
- (iii)
 - a. that is located on or near (50 miles) an international border or a coastline bordering an ocean (including the Gulf of Mexico) or international waters (excluding shoreline border around the Great Lakes);
 - b. that is located within 10 miles of a system or asset included on the prioritized critical infrastructure list established under section 210E(a)(2) [please refer to section 1001 of the 9/11 Act] or has such a system or asset within its territory;
 - c. that is located within or contiguous to one of the 50 most populous metropolitan statistical areas in the United States; or
 - d. the jurisdiction of which includes not less than 1,000 square miles of Indian country, as that term is defined in section 1151 of title 18, United States Code; and
- (iv) that certifies to the Secretary that a State has not provided funds under section 2003 [UASI] or 2004 [SHSP] to the Indian Tribe or consortium of Indian Tribes for the purpose for which direct funding is sought; and

(B) a consortium of Indian Tribes, if each Tribe satisfies the requirements of subparagraph (A).

In summary, eligible Tribes must meet the requirements set forth in (A) (i), and (A) (ii), and (A) (iv). Tribes must also meet one of the requirements set forth in (A) (iii); either (A) (iii) (a), or (A) (iii) (b), or (A) (iii) (c), or (A) (iii) (d).

Finally, (B) may also be satisfied, if each Tribe satisfies the requirements of

subparagraph (A).

In FY 2016, applicants must self-certify as to whether they meet the eligibility requirements. Self-certification will be provided on the THSGP Eligibility Certification Form as part of Application Investment Justification. Any questions regarding an applicants proximity to a Critical Infrastructure and Key Structures (CI/KR) site, as described in the eligibility criteria, may be directed to the State Administrative Agency (SAA). Any additional questions regarding the overall self-certification of eligibility process may be directed to the CSID.

97.075 RAIL AND TRANSIT SECURITY GRANT PROGRAM

TSGP/IPR (AMTRAK)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Implementing Recommendations of the 9/11 Commission Act of 2007, Section 1406, Public Law 110-53, 6 U.S.C 1135.

OBJECTIVES:

The FY 2015 TSGP and IPR Program play an important role in the implementation of Presidential Policy Directive 8 (PPD-8) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (NPG). The development and sustainment of these core capabilities are not exclusive to any single level of government or organization, but rather require the combined effort of the whole community. The FY 2015 TSGP and IPR Program support all core capabilities in the Prevention, Protection, Mitigation, Response, and Recovery mission areas based on allowable costs. Examples of tangible outcomes from the TSGP and IPR Program include building and sustaining emergency management capabilities through operational activities, operational packages (OPacks), Top Transit Asset List (TTAL) remediation; protection of high risk/high consequence underwater and underground rail assets; planning; use of visible, unpredictable deterrence; emergency preparedness drills and exercises; public awareness and preparedness campaigns; and protection of other high risk, high consequences areas or systems that have been identified through system wide risk assessments.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The TSGP and IPR Program are two of the Department of Homeland Security's FY 2015 grant programs which directly support transportation infrastructure security activities. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by the Department of Homeland Security to strengthen the Nations critical infrastructure against risks associated with potential terrorist attacks. TSGP provides funds to the Nations High-Threat Urban Areas for enhancement of security measures at critical transit infrastructure including bus, ferry, and rail systems. The intent of the FY 2015 TSGP is to competitively award grant funding to assist transit systems in obtaining the resources required to support the NPGs associated mission areas and core capabilities. IPR Program provides funds to Amtrak to develop security enhancements for eligible intercity passenger rail operations. The intent of the FY 2015 IPR is to grant funding to assist the Amtrak rail system in obtaining the resources required to support the NPGs associated mission areas and core capabilities. DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the adoption of NIMS is a requirement to receive Federal preparedness assistance, through

grants, contracts, and other activities. Federal NIMS implementation must be considered prior to allocation of any Federal preparedness awards in FY 2015. The list of objectives against which progress and achievement are assessed and reported can be found at <http://www.fema.gov/emergency/nims/ImplementationGuidanceStakeholders.shtm#item2>. The primary grantee/administrator of FY 2015 TSGP award funds is responsible for determining if sub-awardees have demonstrated sufficient progress in NIMS implementation to disburse awards. Yes, in TSGP. Refer to the FY 2015 TSGP Notice of Funding Opportunity (NOFO) for more information.

Applicant Eligibility:

Agencies eligible for FY 2015 TSGP are determined based upon daily unlinked passenger trips (ridership) and transit systems that serve historically eligible Urban Area Security Initiative (UASI) jurisdictions. Certain ferry systems are eligible to participate in the FY 2015 TSGP and receive funds. However, any ferry system electing to participate and receive funds under the FY 2015 TSGP will not be eligible to participate under the FY 2015 Port Security Grant Program (PSGP) and will not be considered for funding under the FY 2015 PSGP. Likewise, any ferry system that participates in the PSGP will not be eligible for funding under the TSGP. The 9/11 Act requires that high risk public transportation agencies, including those that receive grant funding, must develop a security plan based on a security assessment. Additionally, the legislation directs that grant funds be used to address items in the security assessment or the security plan. In order to be eligible for the FY 2015 TSGP, transit agencies must have developed and/or updated their security plan, which must be based on a security assessment such as the Baseline Assessment and Security Enhancement (BASE) performed by Transportation Security Inspectors-Surface from the Transportation Security Administration (TSA), within the last three years. A copy of the Security Plan and security assessment must be available for DHS review upon request. Entities providing transit security (e.g., city/county police department, transit agency's own police department) for a transit agency must approve the security plan. The signature of a responsible official from the agency's transit security provider serves as this approval. If there is more than one provider in the core service area, all transit security providers must review and concur with the plan. Associated documentation of this approval must be provided to DHS upon request. In addition, the agency's transit security provider is encouraged to review the Investment Justifications (IJ) prior to submission. Each Regional Transit Security Working Group (RTSWG) is required to develop and update at least every three years a Regional Transit Security Strategy (RTSS). As the owners and/or operators of infrastructure that is vital to the well being of the States and Urban Areas they serve, it is imperative that transit systems be incorporated into regional preparedness planning efforts. A copy of the Security Plan or security assessment must be available for DHS review upon request. The National Passenger Railroad Corporation (Amtrak) is the only entity eligible to apply for funding under FY 2015 IPR Program. For more information, refer to the FY 2015 TSGP and IPR Program Notice of Funding Opportunity (NOFO) National Incident Management System (NIMS) Implementation. In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the adoption of NIMS is a requirement to receive Federal preparedness assistance, through grants, contracts, and other activities. Prior to allocation of any Federal preparedness awards in FY 2015, grantee must ensure compliance and/or alignment with the NIMS implementation plan. The list of objectives against which progress and achievement are assessed and reported can be found at

<http://www.fema.gov/emergency/nims/ImplementationGuidanceStakeholders.shtm#item2>. The primary grantee/administrator of FY 2015 TSGP and IPR Program award funds is responsible for determining if sub-awardees have demonstrated sufficient progress in NIMS implementation to disburse awards.

A

Length and Time Phasing of Assistance:

The period of performance for TSGP is 36 months. The period of performance for the IPR Program is 36 months. Refer to FY 2015 TSGP or IPR Program Notice of Funding Opportunity (NOFO) for more information. Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures.

Projected Award Start Date(s): 09/01/2015

Projected Award End Date(s): 08/31/2018

Period of Performance: 36 months

The periods of performance outlined above support the effort to expedite the outlay of grant funding and provide economic stimulus. The grantee should request waivers sparingly, and they will be granted only due to compelling legal, policy, or operational challenges. For example, the grantee may request waivers from the deadlines outlined above for discretionary grant funds where adjusting the timeline for spending will constitute a verifiable legal breach of contract by the grantee with vendors or sub-recipients, or where a specific statute or regulation mandates an environmental review that cannot be completed within this timeframe or where other exceptional circumstances warrant a discrete waiver. See the following for information on how assistance is awarded/released: TSGP

Notification of award approval is made through the ND Grants system through an automatic email to the awardee point of contact (the authorized official)

listed in the initial application. The award date for TSGP will be the date that FEMA approves the award. The awardee should follow the directions in the notification to confirm acceptance of the award.

Recipients must accept their awards no later than 90 days from the award date. The recipient shall notify the awarding agency of its intent to accept and proceed with work under the award through the ND Grants system. Instructions on accepting or declining an award in the ND Grants system, can be found in the ND Grants Grantee Training Manual.

Funds will remain on hold until the recipient accepts the award through the ND Grants system and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds.

IPR (Amtrak)

In accordance with the 9/11 Act, all funds awarded to Amtrak under this program are transferred to Department of Transportation Federal Railroad Administration (DOT/FRA) within five (5) business days of award for disbursement.

Grantees must accept their grant awards no later than 90 days from the award date. The grantee shall notify the awarding agency of its intent to accept and proceed with work under the award, or provide a written notice of intent to decline. Funds will remain on hold until the grantee accepts the award through official correspondence, e.g., written, electronic signature, signed letter or fax to GPD, and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds.

Reports:

Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Grantees should submit the SF-PPR as an attachment to the Non Disaster (ND) Grants system. The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf.

Exercise Evaluation and Improvement. Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Guidance related to exercise evaluation and the implementation of improvements is defined in the Homeland Security Exercise and Evaluation Program located at <https://hseep.dhs.gov>.

Monitoring. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met.

Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA,

a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. TSGP and IPR Program awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf. Federal Financial Report (FFR) required quarterly. CRITERIA FOR SELECTING PROPOSALS:

TSGP grantees must comply with all administrative requirements described herein ― including the submission of IJs, budgets, and other application materials as required. Having met all administrative requirements, the application will be scored based on a methodology that will ensure consistent and accurate evaluations of projects and proposals.

The following process will be used to make awards for the program:

DHS will verify compliance with each of the administrative and eligibility criteria identified in the application kit.

The Department will calculate a total score to aid with funding selections. The total score will consist of four individual parts: an agency-based risk score, a score associated with an applications alignment to the funding priority areas, a score based on project risk mitigation, and the degree of regional collaboration.

Eligible applications will be reviewed by a panel to determine the risk mitigation and regional collaboration scores. This panel will consist of Federal officials from multiple government agencies that will review each application and score it based on the following criteria: cost effectiveness, feasibility, timelines, and sustainability without additional Federal funds.

FEMA and TSA will make recommendations for funding to the Secretary of Homeland Security based on the funding priorities and scoring methodology.

For IPR Program, based on previously cited statutory authorities, DHS has elected to enter into a cooperative agreement with Amtrak. The nature of the Federal involvement in the execution of this program may include joint participation in a project. Other examples of prospective substantial Federal involvement include the following:

Collaboration, participation, and/or intervention in any activity covered by the cooperative agreement

Approval from DHS prior to the selection of a new project or commencement of the next phase of an approved project

Authority for DHS to halt an activity if detailed performance specifications are not met

Authority for DHS to direct or redirect the scope of work of a project based on new circumstances

Authority for DHS to create a working group of key Federal and private sector stakeholders to provide guidance and coordination for transit security activities

Funds for both programs will not be made available for obligation, expenditure, or drawdown until the applicants budget and budget narrative have been approved by FEMA. The applicant must provide a detailed budget for the funds requested. The detailed budget must be submitted with the grant application as a file attachment within <http://www.grants.gov>. The budget must be complete, reasonable, and cost-effective in relation to the proposed project. The budget should provide the basis of computation of all project-related costs, any appropriate narrative, and a detailed justification of Management and Administration (M&A) costs.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2015: The amount of reports that generated through the Cyber Tipline during 2015 nearly tripled from those received in 2014 and was nearly 800% more than in 2013. With that there was much more information provided to law enforcement in 2015 in the jurisdictions where the crimes occurred allowing law enforcement and prosecutors to investigate, locate and arrest more perpetrators, as well as prosecute and convict them and recover additional child victims. This continues to enable law enforcement to secure the internet, protect the homeland, the people, their security and way of life. Fiscal Year 2016: It is expected that the number of reports provided by the public, ESPs and companies such as Facebook, Twitter and Google regarding child exploitation will continue to increase during FY2016 as more people and companies become aware of this format to provide information regarding these crimes. We cant predict the percent of increase in the reports generated, but expect it will continue to be a significant increase. In turn the reports continue to facilitate the abilities and actions of law enforcement and prosecutors and the capability to continue to be more effective in securing the internet, the homeland, the people and their way of life. Fiscal Year 2017: It is expected that the number of reports provided by the public, ESPs and companies such as Facebook, Twitter and Google during FY2017 regarding child exploitation will also continue to increase. We would expect the percent of increase in the reports generated to continue to rise considerably which will continue to facilitate the abilities and actions of law enforcement and prosecutors and the capability to continue to be more effective in securing the internet, the homeland, the people and their way of life.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2015: During FY 2015 initial developmental prototype base uniform ensembles from two cooperative agreement recipients were produced to obtain input from first responders. These base ensembles offer increased levels of protection from threats when compared to responders existing uniforms. Input on several aspects of the ensemble, including form, fit, comfort, and professional appearance, was solicited. Input from responders assisted the cooperative agreement recipients in refining their base ensemble design features.

During FY 2015, a cooperative agreement was awarded for the development of a structural turnout ensemble with enhanced protection from smoke and soot infiltration at the site of Structural Firefighter personal protective equipment (PPE) interfaces (i.e. hood to coat, hood to face piece, collar, wristlet to glove, waist to pant, pant to boot, etc.). The World Health Organizations International Agency for Research on Cancer named the occupation of firefighting as possibly carcinogenic to humans. Due to their chronic exposure to toxic combustion products found in the fireground environment, firefighters experience an increased risk of several types of cancers and non-Hodgkin

lymphoma, compared to the general population. The goal of this effort is to develop structural fire suits that will decrease the risk of firefighter cancers from skin absorption of harmful toxins (e.g., smoke and combustion products). Fiscal Year 2016: Production prototype base ensemble garments will be delivered by both of the cooperative agreement recipients. These will be provided to agencies that represent the various first responder disciplines from geographical diverse regions of the country for extended wear testing. Fiscal Year 2017: The Smoke and Particulate Resistant structural firefighter turnout gear should be developed and commercialized.

97.114 EMERGENCY FOOD AND SHELTER NATIONAL BOARD PROGRAM (ARRA)

ARRA Emergency Food and Shelter National Board Program

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Stewart B. McKinney Homeless Assistance Act of 1987, as amended, Title III, Sections 301-316, Public Law 100-77, as amended, 42 U.S.C. 11331-11346; Public Law 111-5 American Recovery and Reinvestment Act of 2009.

OBJECTIVES:

To supplement and expand ongoing efforts to provide shelter, food, and

supportive services for needy families and individuals. To strengthen efforts to create more effective and innovative local programs by providing supplemental funding for them. To conduct minimum rehabilitation of existing mass shelter or mass feeding facilities, but only to the extent necessary to make facilities safe, sanitary and bring them into compliance with local building codes.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Food and related expenses (such as transporting food/food preparation and serving equipment); mass shelter; other shelter (such as hotels and motels); and rent/mortgage and/or utility assistance limited to one (1) month; and limited repairs to feeding and sheltering facilities. Emergency Food and Shelter National Board Program funds cannot be used for: rental security, deposits of any kind, cash payments of any kind, lobbying efforts, salaries (except as administrative allowance and limited to that total allowance of 2 percent of total award), purchases or improvements of an individual's private property, telephone costs, repairs to government-owned or profit-making facilities and any payments for services not incurred. For a complete listing on eligible and ineligible costs under this program, refer to the current Phase (fiscal year) manual: Responsibilities and Requirements, issued by the Emergency Food and Shelter Program National Board.

Applicant Eligibility:

Refer to program guidance.

Beneficiary Eligibility:

The law directs that the Local Boards, which manage the program at the local level, shall "determine which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers." The range of participant groups on the Local Boards include the affiliates of the National Board membership which consists of American Red Cross, Catholic Charities USA, National Council of Churches of Christ in the U.S.A., The Jewish Federations of North America, The Salvation Army, and United Way Worldwide, with a local government representative replacing FEMA. Also participating are independent nonprofits (such as Community Action Agencies and Food Banks and food pantries) which provide food and/or shelter services. Due to the broad category of people in need of such emergency services, the providers can include specialized groups such as domestic violence shelters, Native American organizations, and organizations providing food or shelter to: AIDS patients, handicapped individuals, the elderly, homeless veterans, non-wards of the State teenage runaways, and many other groups with emergency food and shelter needs. As noted earlier, the decisions on selections are made through the consensus of the Local Board as they have assessed their community's most urgent needs. It is important that such agencies use these funds to supplement, not replace, their current efforts. This program is intended to supplement ongoing programs and allow them to extend and expand upon their existing services.

Credentials/Documentation:

The program employs a Local Recipient Organization Certification Form. This form certifies an applicant's status (i.e., that it is a nonprofit or government agency capable of delivering eligible services) that it will abide by the program guidelines (both on eligible spending and reporting requests), and comply with other fiscal and program rules so stipulated. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. There is no application process for local jurisdictions since the award notifications to local jurisdictions are based on either a National Board formula or recommendations from State Set-Aside Committees.

Award Procedure:

Local Board plans are submitted to the National Board and reviewed by the National Board program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Refer to the Emergency Food and Shelter National Board Program, "Phase 27: Responsibilities and Requirements" document for information on the appeal process. Those cases that cannot be handled locally should be referred to the National Board giving details on action that has been taken up to that point. Any allegations regarding fraud or the misuse of funds should be referred directly to the DHS Office of Inspector General.

Renewals:

Each phase (fiscal year) is a new program.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Refer to program guidance. Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures. See the following for information on how assistance is awarded/released: Payment based on Project need. See the following for information on how assistance is awarded/released: No information provided.

Reports:

Local Boards are expected to monitor the expenditure of funds in their respective jurisdictions. It is for that reason that requests for second checks (all awards are divided into two payments) must be authorized by the Local Boards. Along with the request for the second payment, the National Board receives an interim report on eligible spending during that phase. A Final Report also must be filed by each LRO with its Local Board. The Local Board then compiles all the Final Reports within its jurisdiction and submits them (along with any requested documentation) to the National Board. Failure of an LRO to file a Final Report will result in its award being held in escrow the succeeding year. Recovery funding reports will be submitted in the prescribed format within 10 days after the end of each calendar quarter, beginning July 10, 2009. These reports will include the following data elements, as prescribed by the Public Law 111-5, Section 1512 and OMB Memorandum M-09-10: (1) The total amount of recovery funds received from that agency; (2) The amount of recovery funds received that were obligated and expended to projects or activities. This reporting will also include unobligated Allotment balances to facilitate reconciliations. (3) A detailed list of all projects or activities for which recovery funds were obligated and expended, including--(A) The name of the project or activity; (B) A description of the project or activity; (C) An evaluation of the completion status of the project or activity; (D) An estimate of the number of jobs created and the number of jobs retained by the project or activity (Not Applicable to Emergency Food and Shelter); and (E) For infrastructure investments made by State and local governments, the purpose, total cost, and rationale of the agency for funding the infrastructure investment with funds made available under this Act, and name of the person to contact at the agency if there are concerns with the infrastructure investment (Not Applicable to Emergency Food and Shelter). (4) Detailed information on any subcontracts or subgrants awarded by the recipient to include the data elements required to comply with the Federal Funding Accountability and Transparency Act of 2006 (Public Law 109-282), allowing aggregate reporting on awards below \$25,000 or to individuals, as prescribed by the Director of OMB. Records:

Local Boards are required to remain in operation until all program and audit requirements of the National Board have been satisfied. Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. These objectives are aligned with Presidential Policy Directive (PPD)-8, National Preparedness, in that the NNFEDP aims to supply the technical expertise critical to enabling the nuclear forensics mission. This mission involves strengthening the security and resilience of the United States through systematic preparation for the threat of nuclear terrorism. Terrorism is cited among a short list of major threats in PPD-8 as posing the greatest risk to the security of the Nation. These objectives are also aligned with the DHS Quadrennial Homeland Security Review (QHSR) Mission 1: Preventing

Implement a Nuclear Forensics Education Award Program to support universities interested in developing and maintaining academic programs in nuclear forensics-related disciplines.

Implement a Nuclear Forensics Junior Faculty Award Program to provide universities with an incentive to recruit, promote, and retain highly qualified personnel to teach within nuclear forensics-related degree programs and contribute to associated research projects at universities.

Implement a Nuclear Forensics Minority Serving Institution (MSI) Collaboration Award Program to support the enhancement of undergraduate and/or graduate Chemistry, Math, Physics, and Engineering programs located at MSIs and to establish formal linkages among the universities currently participating in the Nuclear Forensics Graduate Fellowship Program, the nations MSIs, and the national laboratories.

97.131 EMERGENCY MANAGEMENT BASELINE ASSESSMENTS GRANT (EMBAG)

EMBAG

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

The Department of Homeland Security Appropriations Act, 2016, Public Law 114-113, as amended by Homeland Security Act of 2002, as amended, 6 U.S.C. 313(b)(2)(G); 6 U.S.C. 313(b)(2)(B); 314(a)(10); and 314(a)(11), Section 503(b)(2)(G), 6 U.S.C. 313(b)(2)(G);.

OBJECTIVES:

The FY 2016 EMBAG Program will support the updating and enhancement of a set of American National Standards Institute (ANSI)-certified standards for emergency preparedness and response as well as a related assessment

methodology for the evaluation of state, local and territorial emergency management organizations. This assessment methodology should incorporate a peer review process that results in accreditation of the emergency management organization, regardless of size.

The assessment and accreditation of emergency management organizations against consensus-based and ANSI-certified national standards enables standardized benchmarking of critical functions necessary for an emergency management organization to build, sustain, and deliver the 31 core capabilities identified in the National Preparedness Goal. By advancing the National Preparedness Goal through ANSI-certified national standards, the EMBAG Program supports the Quadrennial Homeland Security Review Mission to Strengthen National Preparedness and Resilience.

Accreditation based on a national standard ensures critical emergency management functions such as planning, coordination, and communications, including benchmarks for comparative evaluation. The assessment and accreditation process empowers a jurisdiction to understand its emergency management organizations capacity and shortfalls as well as develop a path for improvement. Jurisdictions can then use the results of the assessment and accreditation process to build, sustain, and improve preparedness activities, as well as inform proposed Investment Justifications under the Homeland Security Grant Program. Tracking improvements to preparedness informs and guides development of State Preparedness Reports that serve as an essential source of information in the National Preparedness Report.

The assessment and accreditation process supported by the Emergency Management Accreditation Program (EMAP) will include review of the following areas within an emergency management organization:

- Emergency Management Program Administration, to include authorities, oversight, and strategic planning
- Emergency Management Finance
- Threat, Hazard, and Risk Identification and Assessment
- Consequence Analysis
- Hazard Mitigation
- Emergency Planning, to include mutual aid
- Incident Management
- Communications and Warning
- Operations and Procedures
- Training and Exercises
- Public Affairs

- Provide access to best practices and model plans;
- Provide webinars for training on standards;
- Provide training for assessors;
- Develop additional emergency preparedness and response standards and assessment and accreditation processes if directed; and
- Validate the EMAP process against exercises and real-world events.

CSG/EMAP will be responsible for the following outcomes:

- Maintaining and updating ANSI-certified emergency management organization standards that are consistent with consensus-based guidance aligned with the National Preparedness System;
- Presenting the EMAP process and the emergency management standards and accreditation guidelines at National Emergency Management Association and International Association of Emergency Managers annual conferences;
- Securing agreements to assess approximately 15 Emergency Management organizations against ANSI-approved national standards;

Appendix I: Programs Requiring Executive Order 12372 Review

This appendix lists programs requiring Executive Order 12372 review. Executive Order 12372 "Intergovernmental Review of Federal Programs," structures the Federal government's system of consultation with State and local governments on its decisions involving grants, other forms of financial assistance, and direct development. Under E.O. 12372, States, in consultation with their local governments, design their own review processes and select those Federal financial assistance and direct development activities they wish to review.

Since October 1, 1983 most States have acted to establish a review and comment system in response to E.O. 12372. In such cases, applicants for grants will need to meet the requirements of the intergovernmental consultation process established by a particular State and its local governments before Federal agencies take action on an application.

For more information on the process a particular State requires to be followed, an applicant should contact the office or official designated as the single point of contact in his or her State. Consult the individual program description in the Catalog to determine whether the programs under which he/she plans to apply is subject to E.O.12372. Consult the Federal agency's application package for instructions on State notification.

4. OTHER EXTENSION ACTIVITIES:

Appendix II: Authorization Appendix

(a) Renewable Resources Extension Act

The Renewable Resources Extension Act of 1978 (P.L. 95-306, 92 Stat. 349, 16 U.S.C. 1671 et seq.) provides for an expanded and comprehensive extension program for forest and rangeland renewable resources. The majority of the appropriated funds are distributed to eligible institutions based on a formula that considers the geographic extent, ecosystem productivity, economic contribution, and population for each state.

Since FY 2002, a small amount of these funds have been used to fund National Focus Fund Projects which have served to expand comprehensive extension programs for forest and rangeland renewable resources on a national, regional, or multi-institutional scale through better program coordination, innovative technologies, and extension models that can be easily duplicated.

(b) Rural Health and Safety

The authority for this program is under Section 502 (i) of Title V of the Rural Development Act of 1972, as amended (7 U.S.C. 2662). The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I. The Rural Health and Safety Education Competitive Program addresses the Individual and Family Health Education component of the authorization.

(c) Extension Services at the 1994 Institutions

This program is authorized under Section 534(b) of the Equity in Educational Land-Grant Status Act of 1994 (7 U.S.C. 201 note), as amended by the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) (7 U.S.C. 7601). This section amends Section 3 of the Act of May 8, 1914 (Smith-Lever Act) (7 U.S.C. 341 et seq.), as amended. Under this authority, appropriated funds are to be awarded to the 1994 Land-Grant Institutions (hereinafter referred to as 1994 institutions) for Extension work and funds are to be distributed on the basis of a competitive application process.

(d) Grants to Youth Serving Institutions

Title IV of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7630) authorized the Secretary of Agriculture to make grants to the Girl Scouts of the United States of America (GSUSA), the Boy Scouts of America (BSA), the National 4-H Council (4-H Council), and the National FFA Organization (FFA). Section 7309 of the Food, Conservation, and Energy Act (FCEA) of 2008 reauthorized 7 U.S.C. 7630, which was also amended to provide additional flexibility in content delivery to each organization receiving funds and to allow recipients to redistribute all or part of the funds to individual councils or local chapters without further need of approval from the Secretary. In FY 2009, Terms and Conditions of these awards should facilitate the redistribution without further need of approval. The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I for grants to youth organizations pursuant to 7 U.S.C. 7630.

(e) Food Animal Residue Avoidance Database Program (FARAD)

Title VI Section 604 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7642) states that -The Secretary of Agriculture shall continue operation of the Food Animal Residue Avoidance Database program (referred to in this section as the FARAD program) through contracts, grants, or cooperative agreements with appropriate colleges or universities.

Section 1115A of the Social Security Act (the Act), as added by 3021 of the Affordable Care Act, which authorizes the Center for Medicare & Medicaid Innovation (CMMI or the Innovation Center) to test innovative payment and service delivery models to reduce spending under Medicare, Medicaid, or CHIP, while preserving or enhancing the quality of care furnished to beneficiaries under those programs. The TCPI is a service delivery model that tests whether providing technical assistance in a specific complex adaptive manner will enable clinicians and their practices to rapidly transform the way they deliver care to patients, resulting in improved health outcomes and reduced costs.

Appendix III: Budget Functional Code Appendix

FINANCIAL INFORMATION

Account Identification - This 11-digit budget code identifies the account from which a program is funded as expressed in the Appendix to the Federal Budget. For identification code 75-0350-0-1-551, the first two digits represent the Federal agency code, and the third through sixth digits identify the appropriation (or fund) basic account symbol assigned by the Treasury Department. Where two or more accounts with different Treasury basic account symbols are included in a consolidated program, 99 will be the third and fourth digits, the fifth digit will be the fund type and the sixth digit will reflect the sequence of consolidated programs for that fund type within the agency. The seventh digit identifies the timing of transmittal of budget estimates:

- 0: Regular budget schedules
- 1: Supplemental appropriation
- 2: Legislative proposal, not subject to PAYGO
- 3: Appropriations language to be transmitted later
- 4: Legislative proposal, subject to PAYGO
- 5: Recession proposal
- 6: Adjustments to 1996 continuing resolution levels

The eighth digit identifies the type of government fund involved:

1: General fund - General Fund Appropriation Accounts - Accounts established to record amounts appropriated by law to be expended for the general support of the Government.

General Fund Receipt Accounts - Accounts credited with all receipts that are not earmarked by law for a specific purpose.

2: Special fund - Special Fund Appropriation Accounts - Accounts established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law. Special Fund Receipt Accounts - Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose.

3: Public Enterprise Fund Accounts - Funds authorized by Congress to be credited with receipts primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.

4: Intragovernmental Revolving or Management Fund Intragovernmental Fund Accounts - Accounts established to facilitate financing transactions within and between Federal agencies. These funds may be classified as intragovernmental revolving funds or management funds. Intragovernmental Revolving Fund Accounts - Funds authorized by law to carry out a cycle of intragovernmental business-type operations. These funds are credited with offsetting collections from other agencies and accounts.

7: Trust Fund (non-revolving) - Trust funds are established to account for the receipt and expenditure of monies by the Government for carrying out specific purposes and programs in accordance with the terms of a statute that designates the fund as a trust fund (such as the Highway Trust Fund) or for carrying out the stipulations of a trust agreement (such as any of several trust funds for gifts and donations for specific purposes). In a trust non-revolving fund, the receipts designated for the trust fund are in a separate account.

8: Trust Fund (revolving) - In a trust revolving fund, the fund is credited with collections earmarked by law to carry out a cycle of business-type operations.

9: For use when account consolidations cross fund types. The last three digits represent the functional classification (code) used in the latest Federal Budget document, unless noted otherwise by the Office of Management and Budget. In cases where a program is split between two or more subfunctions: (a) if all subfunctions are in the same major function, the code is the same as for the major function; or (b) if two or more major functions are involved the digits '999' are used. (Example: 75-1361-0-1-550)

Listed below are major functions and subfunctions as used in the budget document to show allocations of budget authority and outlays according to end purposes without regard to agency jurisdiction. The central nature of each major function is identified and defined. Catalog programs are listed following each applicable subfunction (or major function). Note that some subfunctions are not applicable to Catalog programs.

The alphabet(s) in parentheses following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows:

- A: Formula Grants
- B: Project Grants
- C: Direct Payments for Specified Use
- D: Direct Payments with Unrestricted Use
- E: Direct Loans
- F: Guaranteed/Insured Loans
- G: Insurance
- H: Sale, Exchange, or Donation of Property and Goods
- I: Use of Property, Facilities, and Equipment
- J: Provision of Specialized Services
- K: Advisory Services and Counseling
- L: Dissemination of Technical Information
- M: Training
- N: Investigation of Complaints
- O: Federal Employment

Also excluded from national defense is the peaceful conduct of foreign relations; foreign military, economic, and humanitarian assistance; subsidies to business by civilian agencies (such as maritime subsidies) that may be partially justified as promoting national security; and research and operations of agencies (such as space research) whose program mission is not directly designed to promote national defense but which could result in some significant benefits to our national security.
