**USES AND USE RESTRICTIONS:**

To provide support for NIH loan repayment initiatives funded under The American Recovery and Reinvestment Act of 2009 (ARRA). Initiatives will attract and retain health professionals performing research in fields required by the NIH to carry out its mission by providing educational loan repayment for participants with substantial amounts of educational debt relative to income, who agree by written contract to engage in biomedical, behavioral or clinical research in a qualifying nonprofit institution or as an employee of the NIH for 2 years for new intramural and extramural contracts. Recipients must have

qualified educational debt in excess of 20 percent of their annual salary, which is referred to as their "debt threshold." An amount equal to half of this "debt threshold" will not be repaid by NIH and must be paid by the program participants. Participants may apply for and the Secretary may grant extension contracts for one-year or two-year periods, as determined by the Secretary, if the individual continues to engage in qualifying research beyond their initial contracts. Renewal applications are competitively reviewed and the submission of a renewal application does not assure the award of benefits. Eligible renewal applications that score within the funding range will receive continuation contracts from non-ARRA funding sources. The maximum program benefit is \$35,000 per year in loan repayments and \$13,650 per year in Federal tax reimbursements, plus discretionary State and local tax reimbursements.

**93.710 ARRA - COMMUNITY SERVICES BLOCK GRANT**

CSBG, Recovery Act.

**FEDERAL AGENCY:**

Administration for Children and Families, Department of Health and Human Services

**AUTHORIZATION:**

Community Services Block Grant Act (CSBG Act), as amended by the Community Opportunities, Accountability, Training, and Educational Services Act of 1998, Public Law 105-285; American Recovery and Reinvestment Act of 2009, Public Law 111-5.

**OBJECTIVES:**

This funding will provide economic stimulus to the nation while furthering the ACF mission to promote the economic and social well-being of children, youth, families and communities. Objectives are to provide assistance to States and local communities, working through a network of community action agencies and other neighborhood-based organizations, for the reduction of poverty, revitalization of low-income communities, and empowerment of low-income families and individuals in rural and urban areas to become fully self-sufficient (particularly families who are attempting to transition off a State program carried out under part A of Title IV of the Social Security Act). Additional objectives are (1) to provide services and activities having a measurable and potential major impact on causes of poverty in the community or those areas of the community where poverty is a particularly acute problem; (2) to provide activities designed to assist low-income participants, including the elderly poor, to: (a) secure and retain meaningful employment; (b) attain an adequate education; (c) make better use of available income; (d) obtain and maintain adequate housing and a suitable living environment; (e) obtain emergency assistance through loans or grants to meet immediate and urgent individual and family needs, including health services, nutritious food, housing, and employment-related assistance; (f) remove obstacles and solve problems which block the achievement of self-sufficiency; (g) achieve greater participation in the affairs of the community; and (h) make more effective use of other related programs; (3) to provide on an emergency basis for the provision of such supplies and services, nutritious food, and related services, as may be necessary to counteract conditions of starvation and malnutrition among the poor; and (4) to coordinate and establish linkages between governmental and other social services programs to assure the effective delivery of such services to low-income individuals.

**TYPES OF ASSISTANCE:**

Formula Grants

**USES AND USE RESTRICTIONS:**

Uses and restrictions for CSBG Recovery Act funds differ from the uses and restrictions that apply to allotments to States from regular CSBG annual appropriations with regard to use and percentage of funds retained by the States. As with regular CSBG grants, States receive CSBG Recovery Act funds to ameliorate the causes of poverty in communities. The block grant approach gives the States flexibility to tailor their programs to the particular services needs in their communities. States are required to pass through 99 percent of their Recovery Act allocations for grants to eligible entities, as defined in the CSBG Act and use the remaining one percent of funds for benefits enrollment coordination activities relating to the identification and enrollment of eligible individuals and families. See Above.

**Applicant Eligibility:**

The Secretary is authorized to make grants to States. This includes each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Island, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Secretary also provides assistance directly to the governing body of an Indian Tribe or Tribal organization upon application by the tribe. Only State-recognized tribes, as evidenced by a statement to that effect by the Governor, or tribes formally recognized by the Secretary of the Interior, under the procedure for such recognition in 25 CFR 54, are eligible to receive direct grants.

**Beneficiary Eligibility:**

States make grants to qualified locally-based nonprofit community anti-poverty agencies and other eligible entities which provide services to low-income individuals and families. The official poverty line, as established by the

Secretary of Health and Human Services, is used as a criterion of eligibility in the Community Services Block Grant program. When a State determines that it serves the objectives of the block grant, it may revise the income limit, not to exceed 200 percent of the official poverty line.

**Credentials/Documentation:**

No Credentials or documentation are required. OMB Circular No. A-87 applies to this program.

**Preapplication Coordination:**

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Under the regularly-funded CSBG Program, each State desiring to receive an allotment for a fiscal year is required to submit an application to the Secretary of HHS. For Recovery Act funds, States will receive a separate allotment of funds based on the statutory formula. Within 30 days of receiving new grant allotments, each State must submit an application amendment outlining the intended use of Recovery Act funds, to include how the State will carry out the assurances in Section 676(b) of the CSBG Act. The application amendment must be a separate document from the original application and must contain assurances by the Chief Executive Officer of the State that the State will comply with the allowable uses of funds under Section 675C of the CSBG Act, with modifications to allowable uses specified in the Recovery Act. The application amendment must set forth the general purposes for which funds will be used, including a description of the State intended use for benefits enrollment coordination activities relating to the identification and enrollment of eligible individuals and families in Federal, State, and local benefit programs. The State also must describe how it will incorporate monitoring of Recovery Act funds into its regular monitoring of CSBG eligible entities. This includes descriptions of how the State will monitor restrictions on administrative expenses, eligible recipients, board requirements for community action agencies and other nonprofit organizations, fiscal control, monitoring, and Federal investigation provisions, coordination between antipoverty programs in each community and certain prohibitions on political activities. States also must include a description of how they plan to track CSBG funds from ARRA separately from CSBG funds provided through the regular FY 2009 and 2010 appropriations process. In addition, States must indicate how they plan to evaluate the effectiveness of ARRA CSBG funds, including tracking the number of jobs created. This program is excluded from coverage under 45 CFR Part 1050.

**Award Procedure:**

HHS determines the amount of funds to be allocated as block grants to each State in accordance with the formula set forth in the CSBG Act. The Office of Management and Budget (OMB) has the authority to apportion to HHS through the course of a year the Congressional appropriation for block grants. Consistent with OMB's apportionment of funds, HHS will assign allotments to the States through individual awards or a series of awards.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

Not Applicable.

**Appeals:**

Funds may be withheld from any State which does not utilize its allotment substantially in accordance with the provisions of the CSBG Act, the American Recovery and Reinvestment Act, and the assurances provided in its application. #### **OBJECTIVES:**

This funding will provide economic stimulus to the nation while furthering the ACF mission to promote the economic and social well-being of children, youth, families, and communities.

The objectives of the Strengthening Communities Fund (SCF) are to (1) fund entities to provide training, technical assistance, and financial assistance to local faith-based and community organizations enabling them to more fully participate in economic recovery and (2) build the capacity of State, Local, and Tribal governments to provide outreach to faith-based and community-based organizations. The funding is used to build capacity of government and nonprofit organizations to partner with local faith-based and community-based organizations, with a focus on expanding economic recovery efforts, increasing community access to public benefits (including ARRA benefits), and helping low- and moderate-income people secure and retain employment.

SCF is composed of two programs:

#### **(1) SCF Nonprofit Capacity Building Program**

The focus of the SCF Nonprofit Capacity Building Program is to fund organizations that provide training, technical assistance, and competitive financial assistance to faith-based and community-based nonprofit organizations to help them address the broad economic recovery issues present in their communities, including helping low-income individuals secure and retain employment, earn higher wages, obtain better-quality jobs, and increase access to State and Federal benefits and tax credits.

#### **(2) SCF Government Capacity Building Program**

The focus of the SCF State, Local, and Tribal Government Capacity Building Program is to build the sustainability and effectiveness of the government entities that provide outreach to faith-based and community-based organizations. Ultimately, these partnerships will enable local nonprofit organizations to better serve those in need and to increase nonprofit organizations' involvement in the economic recovery. Government entities or their designees will use program funds to develop their capacity to serve as a resource to nonprofit organizations and other government agencies regarding ARRA funding/benefits to ensure that disadvantaged and hard-to-serve populations are aware of and understand how to access the benefits and services described in the ARRA. Grantees also will use program funds to offer free capacity building services to nonprofit organizations to improve awareness of and access to ARRA efforts/benefits, improve nonprofits organizational capacities to be active participants in ARRA efforts, and facilitate partnerships between and among nonprofits and other government agencies. For example, grantees could establish a beneficiary benefits clearinghouse for individuals and a funding opportunities clearinghouse for nonprofit organizations, provide outreach and education, and deliver training and technical assistance.

#### **TYPES OF ASSISTANCE:**

Cooperative Agreements

#### **USES AND USE RESTRICTIONS:**

Under the SCF Nonprofit Capacity Building Program, lead organizations assist nonprofit project partners in distressed communities with capacity building activities in four critical areas: (1) organizational development, (2) program development, (3) collaboration and community engagement (4) leadership development and (5) evaluating their effectiveness. Capacity building activities are designed to increase an organization's sustainability and effectiveness, enhance its ability to provide social services, and create collaborations to better serve those in need. Lead organizations use the award funds to provide two services within their communities: (1) training and technical assistance to

nonprofit organizations; and (2) competitive financial assistance to some subset of the nonprofit organizations receiving training and technical assistance.

Training and technical assistance activities are conducted at no cost to interested nonprofit organizations. Each organization will also provide subawards to local non-profits to help these organizations build the capacity to expand and strengthen programs and services related to helping low-income individuals secure and retain employment, earn higher wages, and obtain better-quality jobs. Examples of these capacity building activities include staff training, technical assistance, and materials and equipment to enhance efficiency or enable the ability to provide a new service. Funds also help organizations build capacity to expand and strengthen programs aimed at increasing low- and moderate-income individuals access to the state and Federal benefits and tax credits for which individuals are eligible. Examples include developing organizational capacity to offer a counselor-assisted centralized electronic screening and application tool, establishing procedures to assess eligibility of prospective and current clients for benefits and tax credits, developing referral protocols with other local service providers, developing a guide/clearinghouse of benefits and tax credits, and developing the capacity to offer free tax preparation assistance.

Under the SCF State, Local, and Tribal Government Capacity Building Program, funds are awarded to State, city, county and tribal government offices (e.g., offices responsible for outreach to faith-based and community organizations or those offices interested in initiating such an effort) or their designees for the purpose of building the sustainability and effectiveness of the government entities, other government agencies and ultimately local nonprofits to better serve those in need. Specifically, funds are used to build the capacity of organizations that are contributing to the economic recovery and help Federal, State, and local governments ensure that the information and services described in the ARRA reach disadvantaged and hard-to-serve populations. Grantees use program funds to provide free capacity building services to nonprofit organizations, such as developing a funding opportunities clearinghouse and/or training and technical assistance to improve access to ARRA funding/benefits and to improve organizational capacity to be competitive applicants for ARRA funding/benefits. Grantees also will use program funds to build their own capacity to provide these services to nonprofits. Priority for awards will be given to State and Indian/Native American Tribal governments and such governments designees. Grantees must also use funds to measure their own effectiveness and help non-profit organizations develop ways to measure their effectiveness. Costs of organized fund raising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions, are unallowable under this program. Awards will not allow reimbursement of pre-award costs. Construction is not an allowable activity or expenditure under this program. Purchase of real property is not an allowable activity or expenditure under this program. The SCF grantees and project partners (including subawardees) may not use funds for direct social service provisions. Funds are intended to help grantees and their partners build and strengthen their capacity to provide services. The cost of the augmentation or supplanting of direct services is unallowable. Direct Federal grants, financial assistance funds, or contracts under the Department of Health and Human Services shall not be used to support inherently religious activities such as religious instruction, worship, or proselytization. Organizations that receive HHS funds may not engage in inherently religious activities, such as worship, religious instruction, or proselytization, as part of the programs or services funded with HHS funds. An organization receiving a SCF award shall not, in providing Federally-funded services, discriminate against a program beneficiary or prospective program beneficiary on the basis of religion or religious belief. SCF program funding may not pay for capacity building activities that support medical and/or health care related activities or items such as medical equipment or supplies or medically-oriented trainings, certifications, or licensures. SCF Nonprofit Capacity Building Program lead organizations may not provide competitive financial assistance to a health care organization. A grantee is not to use award funds to provide a contract to organizations that provide the grantee with a cost share match..

**Beneficiary Eligibility:**

Funds are used to build the capacity of organizations that are contributing to the economic recovery and help Federal, State, and local governments ensure that the information and services described in the ARRA reach disadvantaged and hard-to-serve populations. Funds help organizations build the capacity to expand and strengthen programs and services related to helping low-income individuals secure and retain employment, earn higher wages, and obtain better-quality jobs. Funds also help organizations build the capacity to expand and strengthen programs that increase low- and moderate-income individuals access to the state and federal benefits and tax credits for which individuals are eligible, such as by offering counselor-assisted use of a centralized electronic eligibility screening tool that simplifies the benefit application process. A nonprofit organization receiving training, technical or financial assistance under this program could operate a one-stop center where individuals can obtain free, customized benefits information, tax information, information on ARRA, and/or apply for benefits and file tax returns.

**Credentials/Documentation:**

The ARRA SCF Funding Opportunity Announcements will specify the required documentation that must be submitted with the applications and by time of the award. This program is excluded from coverage under OMB Circular No. A-87.

**Preapplication Coordination:**

An applicant should consult the office or official designated as the single point of contact in his or her state for more information on the process the state requires to be followed in applying for assistance, if the state has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." Prepare and submit applications according to the instructions provided in the applicable ARRA SCF Funding Opportunity Announcement which can be found online at Grants.gov or on the ACF website: <http://www.acf.hhs.gov/grants/>.

**Award Procedure:**

Applications received by the due date will be reviewed and scored competitively. Experts in the field, generally persons from outside the Federal government, will use the evaluation criteria listed in Part V of the Program Announcement to review and score the applications. The results of the review will be a primary factor in making funding decisions. ACF also may solicit comments from Regional Office staff and other Federal agencies. ACF may consider a variety of factors in addition to the review criteria identified above, including geographic diversity/coverage and types of applicant organizations, in order to ensure that the interests of the federal government are met in making the final selections. Furthermore, ACF may limit the number of awards made to the same or affiliated organizations although they would service different geographic areas. The successful applicants will be notified through issuance of a Financial Assistance Award document which sets forth the amount of funds granted, the terms and conditions of the grant, the budget period for which initial support will be given, the non-Federal share to be provided, and the total project period for which support is contemplated. The Financial Assistance

Award will be signed by the Grants Officer.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

This program has no statutory formula.

Matching Requirements: Percent: 20%. Awardees must provide at least 20percent of the total approved cost of the project. The total approved cost of the project is the sum of the ACF (Federal) share and the non-Federal share. The non-Federal share may be met by cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. Awardees will be held accountable for commitments of non-Federal resources even if they exceed the amount of the required match. Failure to provide the required amount will result in the disallowance of federal funds. A lack of supporting documentation at the time of application will not exclude the application from competitive review. This program does not have MOE requirements.

**PROGRAM ACCOMPLISHMENTS:**

Fiscal Year 2008: No Current Data Available Fiscal Year 2009: The Section 317 Program remains a significant source of federal funding for most jurisdictional vaccine program operations. During Fiscal Year 2008, CDC awarded 64 grants through the Section 317 Program, which supported vaccine distribution/administration, the integration of new vaccines into routine medical care, front-line public health professionals, immunization information systems, disease surveillance systems, education and outreach activities, and post-licensure vaccine safety surveillance and research activities.

Because of this program and its sister program, The Vaccines for Children Program, the nation's childhood immunization coverage rates are at record high levels for most vaccines and for all the vaccination series measures. While the VFC program provides vaccine to uninsured children, underinsured children are not covered nor is there sufficient infrastructure to launch adult activities. Section 317 funds target this gap and for the past five years, our 90 percent coverage target has been exceeded for four of the seven routinely recommended childhood vaccine (Hib, MMR, hepatitis B, and polio) and has almost reached the 90 percent target for varicella (currently at 89 percent). Another program accomplishment is the increased proportion of adults who are vaccinated

annually against influenza and ever vaccinated against pneumococcal disease among persons 65 years of age and older. Influenza vaccination coverage levels among the elderly have increased from 30 percent in 1989 to 64 percent. Pneumococcal vaccination levels have increased from 15 percent in 1989 to 57 percent in 2006.

The estimated 16,000 serious pneumococcal infections from resistant strains that have been prevented among older adults since childhood immunization with PCV was initiated in 2000 is another program accomplishment. New adolescent and adult vaccines can prevent individuals from suffering or dying from vaccine-preventable diseases, and Section 317 funds not only the vaccines but the crucial infrastructure needed to deliver them.

Lastly, various highly focused health services projects have been implemented using 317 funds. One of these projects was a joint collaboration with CMS that evaluated and then assisted in moving forward standing orders vaccination programs for influenza in long term care facility residents. Other projects supported included working traditional and nontraditional partners, including national minority organizations, universities, and health officials of various political subdivisions. Also included are cooperative agreements to States for the Behavioral Risk Factor Surveillance system.

Other activities supported non-competitively and competitively under the existing Section 317 program include projects to implement and evaluate school based vaccination programs, enhanced surveillance of vaccine-preventable diseases, development and implementation of specific plans to raise immunization levels across the age spectrum, initiatives for improving reimbursement for vaccination services, programs to monitor the effectiveness, safety and impact of vaccines; and public information and education programs. This supplemental FY 2009 CCDBG funding was appropriated under the American Recovery and Reinvestment Act of 2009 (Public Law 111-5). This funding will provide economic stimulus to the nation while furthering the ACF mission to promote the economic and social well being of children, youth, families, and communities. Objectives under the CCDBG Act are: To make grants to States, Territories, Tribes, and tribal organizations for child care assistance for low-income families and to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations.

#### **TYPES OF ASSISTANCE:**

Formula Grants

#### **USES AND USE RESTRICTIONS:**

Congress directs that Recovery Act funds appropriated for the CCDBG must be used to supplement, not supplant, State general revenue funds for child care assistance for low-income families. Lead Agencies must use CCDBG Recovery Act Funds for child care services on a sliding fee scale basis, activities that improve the quality or availability of such services, and other activities that realize the goals of the CCDBG Act. Not more than 5 percent of the aggregate amount of CCDF Funds, including CCDBG Recovery Act Funds, expended by the State or Territory (15 percent for Tribes or tribal organizations) may be expended for administrative costs incurred by the State or Territory to carryout all of its functions and duties. The term "administrative costs" does not include the costs of providing direct services. A State or Territory shall use not less than 4 percent of the aggregate CCDF Funds, including CCDBG Recovery Act Funds, to improve child care quality and availability including comprehensive consumer education, activities to increase parental choice, and other activities such as resource and referral services, provider grants and loans, monitoring and enforcement of requirements, training and technical assistance, and improved compensation for child care staff. In addition to the minimum four percent quality expenditures, \$255,186,000 of the CCDBG Recovery Act Funds shall be reserved by the States for quality improvement activities, of which \$93,587,000 shall be for activities that improve the quality of infant and toddler care. Except for approved construction of child care facilities by Tribal Grantees, no CCDBG Recovery Act Funds may be used for the purchase or improvement of land, or for the purchase, construction, or permanent improvement of any building or facility (other than for minor remodeling and for upgrading facilities to meet State and local child care standards). No CCDBG Recovery Act Funds provided directly to child care providers through grants or contracts may be expended for any sectarian purpose or activity, including sectarian worship or instruction; however, Grantees must give parents the option of receiving vouchers or certificates to allow parents the choice of

faith-based or community child care providers. No CCDBG Recovery Act Funds may be provided for any services provided to students enrolled in grades 1 through 12 during the regular school day; for any services for which such students receive academic credit toward graduation; or for any instructional services which supplant or duplicate the academic program of any public or private school. Lead Agencies shall assure that a substantial portion of the total CCDBG (CCDF Discretionary) Funds will be used to provide assistance to low-income working families who are not receiving assistance under the Temporary Assistance for Needy Families program, attempting through work activities to transition off of temporary assistance programs, nor at risk of becoming dependent on temporary assistance programs.

**Applicant Eligibility:**

Eligibility: All 50 States, the District of Columbia, the Virgin Islands, Puerto Rico, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and Federally recognized Tribal Governments, including Alaskan Native Corporations.

**Beneficiary Eligibility:**

None.

**Credentials/Documentation:**

Grantees must operate under a CCDF plan approved by the Administration for Children and Families (ACF), and must provide assurances that the Grantee will comply with the requirements of the CCDBG and the Recovery Act and all applicable Federal law. This program is excluded from coverage under OMB Circular No. A-87.

**Preapplication Coordination:**

State, Tribal, and Territorial Lead Agencies already receiving FY2009 funds under the CCDBG program (i.e., Discretionary Funds) have received CCDBG Recovery Act Funds. Separate applications for the CCDBG Recovery Act Funds are not required. To receive funds under the CCDBG Act (CFDA number 93.575), each Grantee must designate a Lead Agency to which grants are awarded and that is accountable for the use of the Discretionary Funds provided, the duties of which shall include developing a CCDF plan. In conjunction with the development of the CCDF plan, the Lead Agency must hold at least one public hearing no earlier than nine months before the CCDF plan becomes effective and after at least 20 days of statewide public notice, to provide the public an opportunity to comment on the provision of child care services under the plan. In advance of the hearing, the Lead Agency must make the content of the plan available to the public. The Lead Agency must also coordinate the provision of services under the program with other Federal, State, and local child care and early childhood development programs. Also, the Lead Agency must consult with appropriate representatives of local governments. Tribal Lead Agencies submitting applications for construction must submit an environmental impact assessment. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. State, Tribal, and Territorial Lead Agencies already receiving FY 2009 funds under the CCDBG Act (i.e., Discretionary Funds) will receive CCDBG Recovery Act Funds. Separate applications for the CCDBG Recovery Act Funds are not required. However, should a Grantee decide to make a substantial change to its approved CCDF plan in FY 2009 as a result of the availability of CCDBG Recovery Act Funds, the Lead Agency must submit an amendment to its existing approved FY 2008-2009 CCDF plan within 60 days of making the change. A decision on the approval of the amendment will be made by ACF within 90 days from the date the amendment is received. (An extension of the time period may be made by a written agreement.)

To receive funds under the CCDBG Act, a Lead Agency desiring to receive an allotment for a fiscal year is required to submit a two-year CCDF plan to ACF, as well as, financial and other information necessary for the grants process. Each plan must contain certifications and assurances by the Lead Agency that it will comply with the requirements of the CCDBG Act. The plan must also include: the designation of a Lead Agency; the provision of assurances regarding policies and procedures as stated in Section 658E(c)(2) of the

CCDBG Act; an outline of the intended use of block grant funds in compliance with Section 658E(c)(3) of the CCDBG Act; the provision of certification regarding payment rates as stated in Section 658E(c)(4) of the CCDBG Act; and the establishment of a sliding fee scale. Additional requirements are specified by 45 CFR Parts 98 and 99.

**93.714 ARRA EMERGENCY CONTINGENCY FUND FOR TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF) STATE PROGRAM**

TANF Emergency Fund, Recovery Act

**FEDERAL AGENCY:**

Administration for Children and Families, Department of Health and Human Services

**AUTHORIZATION:**

TANF Emergency Fund, Recovery Act, Title IV, Part A, Section 2101, Public Law 111-5, 42 U.S.C 603(c).

**OBJECTIVES:**

This funding will provide economic stimulus to the nation while furthering the ACF mission to promote the economic and social well being of children, youth,

families, and communities. The objective of the program is to provide up to \$5 billion for jurisdictions (States, Territories, and Tribes) in fiscal year (FY) 2009 and FY 2010 that have an increase in assistance caseloads and/or certain types of expenditures. This Emergency Fund is in addition to the TANF Contingency Fund in section 403(b) of the Act that currently gives money to qualifying States (but not Territories or Tribes) during an economic downturn.

**TYPES OF ASSISTANCE:**

Formula Grants

**USES AND USE RESTRICTIONS:**

Emergency Fund grants are Federal TANF funds. Jurisdictions must use these funds in accordance with section 404 of the Act. This does not include authority to transfer emergency funds to either the Social Services Block Grant (SSBG) or the Child Care and Development Block Grant (CCDBG) because that transfer authority is limited to grants made under section 403(a) of the Act. Emergency funds are available until expended.

Jurisdictions may carry over emergency funds for use in a succeeding fiscal year as authorized under section 404(e) of the Act. Section 403(c)(5) of the Act imposes a cumulative cap on the amount of emergency funding that a jurisdiction can receive for the two-year period. The capped amount consists of the cumulative combined grants from the existing Contingency Fund (section 403(b)) and the Emergency Fund (section 403(c)) and the total of the two cannot exceed 50 percent of the jurisdictions annual Federal TANF family assistance grant.

The same financial and programmatic rules pertaining to the appropriate use of the jurisdictions Federal TANF block grant funds also apply when using the emergency funds. This also means that all TANF requirements, including work participation requirements and time limits, apply to families receiving assistance with emergency funds exactly as they do to families receiving other Federal TANF-funded assistance. See above.

This includes consideration of the qualifications of the principal investigator and staff to conduct the research using appropriate methodology and budget. Applications may be reviewed for program relevance by the National Advisory Council for Healthcare Research and Quality. Those recommended proposals which are most relevant to comparative effectiveness and promote the goals of the ARRA will be funded to the extent that funds are available.

**93.716 ARRA TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF) SUPPLEMENTAL GRANTS**

Supplemental Grants for Population Increases in Certain States, Recovery Act  
**FEDERAL AGENCY:**

Administration for Children and Families, Department of Health and Human Services

**AUTHORIZATION:**

Supplemental Grants for Population Increases in Certain States, Recovery Act, Title IV, Part A, Section 2102, Public Law 111-5, 42 U.S.C 603(a)(3).

**OBJECTIVES:**

These funds will help promote the economic and social well being of children, youth, families, and communities. The objective of the program is to provide supplemental TANF funds for States with exceptionally high population growth in the early 1990s, historic (1994) welfare grants per poor person lower than 35 percent of the national average, or a combination of above average population growth and below average historic welfare grants per poor person.

**TYPES OF ASSISTANCE:**

Formula Grants

**USES AND USE RESTRICTIONS:**

The Federal TANF Supplemental Grants are in addition to the States annual Federal TANF block fund. Thus, these funds are subject to the same uses and restrictions as the States annual Federal TANF block grant (see CFDA 93.558 Temporary Assistance for Needy Families), and repeated below.

Each State designs and operates its own TANF program, and establishes the specific eligibility criteria that must be met to receive financial assistance

payments or other types of benefits and services. Each State has broad flexibility to use the grant funds in any manner that is reasonably calculated to accomplish a purpose of the TANF program (including providing low-income households with assistance in meeting home heating and cooling costs). The purposes of the TANF program are to assist needy families to care for their children in their own homes; reduce dependency of needy parents by promoting job preparation, work and marriage; prevent and reduce the incidence of out-of-wedlock pregnancies; and encourage the formation and maintenance of two-parent families. A State may also use the funds in ways that had been authorized and allowable under its former approved Aid to Families with Dependent Children (AFDC), Job Opportunities and Basic Skills Training (JOBS), and Emergency Assistance (EA) plans. A State may also transfer a limited portion of its Federal TANF funds to the Child Care and Development Block Grant (CCDBG) and Social Services Block Grant (SSBG) Programs. No State may spend more than 15 percent of its Federal TANF funds on administrative costs, exclusive of certain computerization and information technology expenses. See above.

**Applicant Eligibility:**

None.

**Beneficiary Eligibility:**

None.

**Credentials/Documentation:**

Federal funds go to the State (the grantee). States decide the objective eligibility criteria and verification required to determine eligibility and payment of TANF benefits. This program is excluded from coverage under OMB Circular No. A-87.

**Preapplication Coordination:**

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110.

**Award Procedure:**

Supplemental Grants, like the annual Federal TANF block grant, are awarded in quarterly payments.

**Deadlines:**

Not Applicable.

**Range of Approval/Disapproval Time:**

Varies by State (usually within 45 days).

**Appeals:**

States must provide opportunities for recipients who have been adversely affected to be heard in a State administrative or appeal process.

**Renewals:**

Not Applicable.

**Formula and Matching Requirements:**

This program has no statutory formula.  
Matching Requirements: Percent: 75.%. The TANF program, which includes the standard TANF block grant and the additional Supplemental Grants for 17 States, has an annual cost-sharing requirement known as maintenance-of-effort (MOE). This means that every fiscal year, each State receiving Federal TANF funds must spend an applicable percentage of its own money to help eligible families in ways that are consistent with the purposes of the TANF program. The applicable percentage depends on whether the State meets the minimum work participation rate requirements for that fiscal year. If the State does not meet the work participation rates, then it must spend 80 percent of the amount it spent for fiscal year 1994 on AFDC and AFDC-related programs. If the State meets the work participation rates, then the applicable percentage is 75 percent of the amount it spent for fiscal year 1994 on AFDC and AFDC-related programs.

This program does not have MOE requirements.

**Length and Time Phasing of Assistance:**

States are awarded Supplemental Grants in quarterly payments. Once awarded,

the funds are available to the State until expended. See the following for information on how assistance is awarded/released: No information provided.

#### **Reports:**

States receiving the TANF block grant and Supplemental Grants must submit quarterly data reports on families receiving assistance. States must also report expenditures of grant funds on a quarterly basis. Expenditure data related to Supplemental Grants will be reported in a separate category on the quarterly TANF expenditure report for FY 2010. Funded grantees must submit reports as required by Section 1512 of the Recovery Act. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

#### **Audits:**

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. The TANF program (including the additional TANF supplemental grants) is subject to the Single Audit Act under Chapter 75 of Title 31, United States Code.

#### **Records:**

States are subject to the uniform administrative requirements in 45 CFR Part 92. In particular, the regulations at 45 CFR 92.20 require that all grantees have a financial management system that can adequately trace expenditures to ensure that the funds have been used appropriately, and not in violation of any programmatic restrictions and prohibitions; and require that accounting records are supported by source documentation to support all expenditures. Also, the regulations at 45 CFR 92.42 and TANF Program Instruction TANF-ACF-PI-2003-1, dated January 28, 2003 (<http://www.acf.hhs.gov/programs/ofa/policy/pi-ofa/2003/pi2003-1.PDF>), address record retention and access requirements applicable to all financial and programmatic records, supporting documents, statistical records, and other records of grantees or subgrantees.

#### **Range and Average of Financial Assistance:**

State Supplemental Grants are from \$1,132,701 to \$60,405,668.

#### **PROGRAM ACCOMPLISHMENTS:**

Fiscal Year 2008: Grants were authorized at \$800 million over FY 1998 through FY 2001, and annual grants grew from \$79 million in FY 1998 to \$319 million in FY 2001. Congress froze supplemental funds at the \$319 million annual level when it extended them for FY 2002 and subsequent years. The Deficit Reduction Act of 2005 (P.L. 109-171), which extended most TANF grants through FY 2010, continued supplemental funds only through FY 2008. However, the Medicare Improvements for Patients and Providers Act of 2008, P.L. 110-275 extended supplemental funds through FY 2009. The American Recovery and Reinvestment Act (ARRA) of 2009 extends supplemental funding through FY 2010. The 17 States that qualify for supplemental funds are: Alabama (\$11,093,254), Alaska (\$6,887,803), Arizona (\$23,924,877), Arkansas (\$6,218,375), Colorado (\$13,569,691), Florida (\$60,405,668), Georgia (\$37,283,228), Idaho (\$3,498,046), Louisiana (\$17,027,012), Mississippi (\$9,035,674), Montana (\$1,132,701), Nevada (\$3,733,534), New Mexico (\$6,553,104), North Carolina (\$36,109,948), Tennessee (\$21,565,141), Texas (\$52,707,774), Utah (\$8,704,396). Services

**AUTHORIZATION:**

Health Service Act Sections 301(a)[42 U.S.C. 241(a)] American Recovery and  
Reinvestment Act of 2009, Public Law 111-5, Public Law 111-5, 42 U.S.C  
241(a).

**OBJECTIVES:**

This funding was appropriated under the American Recovery and Reinvestment  
Act of 2009 (Public Law 111-5). The ARRA funds are intended to reduce  
preventable healthcare-associated infections through State health department  
efforts to prevent HAIs including leveraging the National Health Care Safety  
Network to support the dissemination of HHS evidence-based practices within  
hospitals (\$40 million). Specific goals include: (1) progress towards prevention  
targets (e.g., 50-70% reduction in bloodstream infections); (2) use of the  
metrics and supporting systems to assess progress towards meeting the targets;  
(3) broad implementation of current evidence-based prevention guideline  
recommendations; (4) develop and implement state public health-healthcare  
HAI prevention collaboratives to implement prioritized HAI prevention  
recommendations using CDC's NHSN as the measurement system; (5) enhance  
and expand participation by hospitals and other healthcare facilities in the  
NHSN to facilitate reporting of appropriate HAI metrics and progress toward  
five-year prevention targets to state health departments and CDC, HHS, and  
other HHS OPDIVs; (6) build a public health workforce in health departments  
who can coordinate state-wide initiatives to ensure progress towards five-year  
national prevention targets; (7) assist States in the development and submission  
of state HAI prevention plans; (8) quickly expand its infrastructure to address a  
broader array of HAI epidemiology; (9) provide additional training for EIP state  
staff on HAI epidemiology and surveillance; (10) develop and implement  
enhanced surveillance tools and methods, and add staff for targeted two year  
projects.

CDC will provide 99.5% of the funds to eligible states using the following  
existing Cooperative Agreements: the Epidemiology and Laboratory Capacity  
for Infectious Disease program, and the Emerging Infections Program. Project  
funds may be used for costs associated with planning, organizing, conducting  
and supporting programs directed toward preventing healthcare associated  
infections, and for the implementation of other program elements as described  
in Section :050: above. These funds may be used for the preservation of jobs  
necessary to build capacity in state and local health departments related to  
healthcare associated infection prevention. See above.

**PROGRAM ACCOMPLISHMENTS:**

Fiscal Year 2008: The Epidemiology and Laboratory Capacity (ELC) for Infectious Disease program plays a critical role in strengthening our nations infrastructure for preventing and controlling infectious diseases. The program builds epidemiology, laboratory, and information systems capacity in all 50 states to assist frontline state programs respond to infectious disease outbreaks, address the increasing threat of antimicrobial resistance, and detect and respond to new and emerging infectious diseases. As states are in different stages of implementing HAI monitoring and prevention programs, ELC funding would be flexible in its applications; however monies would be directed specifically toward the goals of preventing healthcare associated infections.

The Emerging Infections Programs (EIPs) are a critical part of our nations infrastructure for public health work in infectious diseases. Established in 1995, the EIPs consist of 10 centers of excellence across the US that are collaborations among state health agencies, academic institutions, CDC, and other federal agencies. Collectively, they form a specialized network of research centers for infectious disease work that goes beyond the routine functions of health departments. The EIP networks unique strength and contribution lies in its ability to quickly translate surveillance and research activities into informed policy and public health practice.

CDC has supported and been an active participant in the collaborative effort led by HHS to develop the HHS Action Plan to Prevent Healthcare Associated Infections. The HHS Action Plan sets specific targets for monitoring and preventing HAIs nationally and represents a national blueprint for prevention. CDC has played an integral role in the development and implementation of the HHS Action Plan, including chairing the Prevention and Implementation working group and co-chairing the Information Systems and Technology working group, while actively participating in the three other workgroups. In September 2008, CDC hosted a meeting of experts to help define prevention targets and metrics for the Action Plan. CDC continues to work closely with HHS and the other agencies to implement the plan. CDC has a broad range of activities that are crucial to successfully implement the HHS plan. These activities can be categorized as: 1) tracking and monitoring HAIs; 2) developing guidelines for prevention; 3) implementation of prevention strategies; 4) developing new strategies for prevention; 5) identifying and responding to new and emerging threats.

CDCs NHSN is a tool for tracking and prevention of HAIs that incorporates HICPAC practice guidelines, uses validated standardized definitions and protocols, and allows facilities to analyze, share, and compare their data with that of others. NHSN is used by over 2000 healthcare facilities in all 50 states, and continues to expand. Since 1990, facilities reporting to NHSN have seen significant reductions of up to 70% in rates of catheter associated urinary tract infections (CAUTI) in ICUs. From 1997 to 2007, hospitals participating in CDCs NHSN have decreased bloodstream infections by up to 50%. A total of 10,600 device-associated infections are estimated to have been prevented, and at least 1,300 lives are estimated to have been saved.

CDC has demonstrated dramatic success in preventing and reducing HAIs through implementation of CDC guidelines. Through CDC supported efforts in Southwestern Pennsylvania, local hospitals have successfully reduced bloodstream infections by as much as 70 percent by fully implementing CDC prevention recommendations. Similar success was observed when Michigan fully implemented CDC guidelines in more than 100 ICUs. CDC funded and collaborated with the Pittsburgh VA Medical Center to prevent MRSA infections using CDC recommendations. These efforts led to greater than 60%

reductions in MRSA rates, and to collaboration among healthcare facilities in southwestern Pennsylvania on a regional MRSA initiative. The Veterans Health Administration launched a national MRSA prevention initiative involving every Veterans Health Administration hospital in the country modeled after Pennsylvanias success. These and other prevention implementation examples demonstrate the savings in lives and healthcare costs that can result from national implementation of evidence-based HAI prevention programs. #### **CRITERIA FOR SELECTING PROPOSALS:**

Funding would be specifically directed to state health departments for HAI activities and would not be available for other non-related infectious disease activities. For state applicants to be eligible they will have to outline a plan for reporting progress toward HHS Action Plan Prevention Targets using specified metrics, either by participating in NHSN or by using NHSN definitions and surveillance methods in systems compatible with NHSN.

CDC will require state applicants to specifically address in their applications state plans for sustaining the impact of ARRA investments beyond the federal funding provided in the next two years. Specifically, states will need to demonstrate a continued plan for progress toward meeting HHS Action Plan prevention targets as demonstrated through reporting metrics outlined in the Plan. Other criteria will be listed in individual funding opportunity announcements.

**93.722 ARRA - IHS TRIBAL AGREEMENTS**

ARRA IHS Tribal Agreements

**FEDERAL AGENCY:**

Indian Health Service, Department of Health and Human Services

**AUTHORIZATION:**

American Recovery and Reinvestment Act of 2009 (ARRA), Public Law 111-5; Indian Self-Determination and Education Assistance Act, Title 1, Section 102, Public Law 93-638, Title 1, Section 102, Public Law 93-638.

**OBJECTIVES:**

\$500 Million in Recovery Act Funds to Improve Health Care and Boost Economy in Indian Country. These funds will be obligated both through tribal agreements and under contracts subject to the Federal Acquisition Regulation, as summarized in the Agency implementation plans.

The Recovery Act health facility construction funds will be used to complete the construction of the new IHS Eagle Butte Health Center in Eagle Butte, South Dakota and the Norton Sound Regional Hospital in Nome, Alaska. The

Eagle Butte Health Center will serve approximately 9,300 American Indians residing on the Cheyenne River Reservation. The facility will replace the existing Eagle Butte IHS Hospital which, at approximately one-third the size of the new facility, is stressed to meet the needs of the entire service population. The new Norton Sound facility replaces a 61-year-old hospital that is stretched to serve an estimated 10,000 users. The project will create a substantial number of new jobs in construction, transportation, and other professions and help fight unemployment in Nome.

Sanitation facilities funds will be used to complete 169 sanitation facilities projects constructed in 24 states. These projects will provide potable water, wastewater disposal and solid waste systems to American Indian and Alaska Native homes and communities. An estimated 16,000 homes will be served by these projects, which will also help foster economic growth and create jobs.

The ARRA will also fund 302 maintenance and improvement projects. Many IHS and tribal facilities require structural renovations, additional space, and design updates to accommodate modern health care delivery practices. These projects will help maintain and improve facilities, which will improve patient care. These projects will also result in enhanced energy conservation and provide local jobs and economic stimulus.

Finally, Recovery Act funds will be used to purchase over 200 pieces of medical equipment, including 35 ambulances and 10 Computed Tomography (CT) scanners, all of which will contribute substantially to patient care. Other equipment to be purchased includes cardiac monitoring equipment, equipment for integration of electronic patient records, blood chemistry analyzers, dental equipment, emergency defibrillators, x-ray systems, among other items. The equipment will be distributed across 24 states.

**AUTHORIZATION:**

This program is authorized under sections 301(a), 307, 310, 3111 and 317(k) (2) American Recovery and Reinvestment Act of 2009 (ARRA) [Public Law 111.5], Public Health Service Act, 42 U.S. Code 241(a) and 247b (k) 2, and the Comprehensive Smoking Education Act of 1984, Comprehensive Smokeless Tobacco Health Education Act of 1986.

**OBJECTIVES:**

This funding was appropriated under the American Recovery and Reinvestment Act of 2009 (Public Health Service Act, 42 U.S. Code 241(a) and 247b (k) 2). The ARRA funds are intended to reduce Chronic Disease risk factors, prevent and delay chronic disease, promote wellness, and better manage chronic conditions. There will be two program components included in the supplemental award announcement; Nutrition, Physical Activity, and Tobacco Control (component 1) and National Network of Tobacco Quitlines (component 2). This initiative will address the following areas in component 1: Increased levels of physical activity Improved nutrition (e.g. increased fruit/vegetable consumption, reduced salt and trans fats); decreased smoking prevalence and decreased teen smoking initiation; and Decreased exposure to secondhand smoke. and Component 2 Expand National Network of Tobacco Quitlines. States, Territories, Pacific Islands and the District of Columbia funded under this announcement will accomplish this by planning and implementing interventions and establishing evidence-based policies to support and institutionalize healthy behaviors related to nutrition, physical activity and tobacco prevention among state/territory residents. These strategies will ultimately help change social norms and make healthier choices easier and

more affordable to residents. Programs will focus on policy and environmental changes that both improve state- and territory-wide policies and support community efforts for chronic disease prevention and control.

**TYPES OF ASSISTANCE:**

Cooperative Agreements

**USES AND USE RESTRICTIONS:**

Of the \$650 million, \$128.1 million will support States and Territories in promoting wellness and preventing chronic disease through state-wide and local policy and environmental change for chronic disease prevention and to expand tobacco quit lines and tobacco counter advertising. This program will support evidence-based policies and interventions at the state and local levels which ultimately help change social norms and make healthier choices easier and more affordable. Programs will focus on policy and environmental changes that both improve statewide policies and support community efforts for chronic disease prevention and control described in Section 0.50 above. The use of and use restrictions are as follows: Recipients may only expend funds for reasonable program purposes, including personnel, travel, supplies, and services, such as contractual to support policy and system changes to reduce chronic disease risk factors, prevent and delay chronic disease, promote wellness, and better manage chronic conditions in the following areas; to increased levels of physical activity, improved nutrition (e.g. increased fruit/vegetable consumption, reduced salt and trans fats); decreased smoking prevalence and decreased teen smoking initiation; and to decreased exposure to secondhand smoke. To support a core infrastructure for the delivery of quitline services which include proactive counseling and promotion/outreach. Proactive quitlines exist when a trained counselor telephones the smokers to provide support in initiating a quit attempt and maintaining prolonged abstinence. Funds may be used to expand and promote proactive counseling capacity, enhance and expand integration of online and other electronic information support technologies, expand media and marketing efforts, extend hours of service, expand outreach to specific populations, provide multiple language services, increase collaborations with healthcare systems and providers, and for evaluation. Purchase of Nicotine Replacement Therapy medications is authorized with these funds. FDA-approved Nicotine Replacement Therapy (e.g., nicotine patch, gum, nasal spray, inhaler, and lozenge) is proven effective in helping people quit smoking. Recipients may not use funds for research. Recipients may not use funds for clinical care. Recipients may not generally use HHS/CDC/ATSDR funding for the purchase of furniture or equipment. Any such proposed spending must be identified in the budget. The recipient must perform a substantial role in carrying out project objectives and not merely serve as a conduit for an award to another party or provider who is ineligible. Recipients may not spend more than 10 percent of the total award on nicotine replacement therapy.

**93.725 ARRA - COMMUNITIES PUTTING PREVENTION TO WORK: CHRONIC DISEASE SELF-MANAGEMENT PROGRAM**

CDSMP

**FEDERAL AGENCY:**

Administration on Aging, Department of Health and Human Services

**AUTHORIZATION:**

The statutory authority for cooperative agreements under this program announcement is contained in Division A, Title VIII of the American Recovery and Reinvestment Act (Recovery Act) of 2009 (Public Law 111.5). , Title VIII, Public Law 111-5.

**OBJECTIVES:**

The American Recovery and Reinvestment Act of 2009 (Recovery Act), signed into law February 17, 2009, is designed to stimulate economic recovery in various ways: to preserve and create jobs; to promote economic recovery; to assist those most impacted by the recession, to stabilize state, territorial and local government budgets to minimize and avoid reductions in essential services and counterproductive state, territorial, and local tax increases; to strengthen the Nations healthcare infrastructure; and to reduce healthcare costs through prevention activities. The Recovery Act includes \$650 million for evidence-based clinical and community-based prevention and wellness strategies that deliver specific, measurable health outcomes. The legislation provides an important opportunity for communities, States, territories, cities, rural areas, and tribes to advance public health across the lifespan and to eliminate health disparities. Of the \$650 million appropriated for this initiative (Communities Putting Prevention to Work), \$32.5 million will support States and territories in promoting wellness by deploying evidence-based chronic

disease self-management programs targeted at older adults with chronic conditions. AoA, in collaboration with CDC, is providing Recovery Act funding under this announcement to support state efforts to deploy evidence-based chronic disease self-management (CDSMP) programs that empower older people with chronic diseases to maintain and improve their health status. The community-based collaborative networks setup through these efforts will provide the foundation for an infrastructure and statewide distribution system that States can use for delivering CDSMP and other evidence-based prevention programs to older adults. These statewide distribution systems will include a quality assurance component to ensure the evidence-based prevention programs are being delivered with fidelity and achieving results comparable to those produced in the original research. The ultimate goal is to have States and communities embed these structures into their statewide systems that provide community-based services and supports to older adults to help them maintain their health and independence in the community.

**TYPES OF ASSISTANCE:**

Cooperative Agreements (Discretionary Grants)

**USES AND USE RESTRICTIONS:**

In general, the use of these funds is to support state efforts to deploy evidence-based chronic disease self-management (CDSMP) programs that empower older people with chronic diseases to maintain and improve their health status. These funds are not to be used for free standing CDSMP programs that are not part of a states larger systems development effort to delivery community-based evidence-based prevention programs to older adults. In using funds for this award for infrastructure investment, recipients shall give preference to activities that can be started and completed expeditiously, including a goal of using at least 50 percent of the funds for activities that can be initiated not later than 120 days after the date of the enactment of Recovery Act. Recipients shall also use grant funds in a manner that maximizes job creation and economic benefit (Recovery Act Sec. 1602). The following activities are not fundable: construction and/or major rehabilitation of buildings; basic research (e.g. scientific or medical experiments); and, continuation of existing projects without expansion. Furthermore, none of the funds appropriated or otherwise made available in the Recovery Act may be used by any State or local government, or any private entity, for any casino or other gambling establishment, aquarium, zoo, golf course, or swimming pool. (Recovery Act Sec. 1604). **Applicant Eligibility:**

Eligible applicants include all 56 States and territories as follows: in the 24 States with existing AoA Evidence-Based Disease Prevention cooperative agreements, eligibility is limited to the recipient State agency of those existing cooperative agreements; in the 32 States and territories that do not have existing AoA Evidence-Based Disease Prevention cooperative agreements, only State units on aging and State health departments are eligible to apply. Regardless of which agency applies, both the State unit on aging and State health department must be full partners in the development and implementation of the proposed program. The State Medicaid Agency must also be involved in the development and implementation of the program. Only one application will be permitted for each State or territory.

**Beneficiary Eligibility:**

In general, older adults with chronic diseases. Within this population grantees will be asked to define how they will specifically target low-income, minority, and limited English speaking older adults with chronic diseases.

**Credentials/Documentation:**

The application must include a letter of support from the states Governor in support of the appointed lead agency (i.e. the State unit on aging or the State

health department). OMB Circular No. A-87 applies to this program.

**Preapplication Coordination:**

Only one application will be accepted from each State or territory, and a letter of support from the Governor must be included with the States application. States are expected to coordinate with tribal entities in their jurisdiction, and give special attention to serving low-income, minority and limited English speaking seniors. States are encouraged to link with other community-based efforts with special attention to leveraging other public and private sector resources, including federally funded (including Recovery Act, Older Americans Act, Public Health Services Act, Medicare, and Medicaid funded) activities, State revenue programs, and private philanthropy. This funding opportunity is an opportunity for State units on aging and State health departments to collaborate on the development of distribution and delivery systems for CDSMP and eventually other evidence-based prevention programs that have the potential to improve the quality of life for millions of seniors and reduce health care costs. A State governments State unit on aging or health department will be the lead agency for this cooperative agreement. Regardless of which agency is the lead, the entire grant application, including the work plan, should reflect substantial mutual effort, cooperation, and substantive contributions by both agencies throughout the grant period as well as a significant role for the State Medicaid agency. **93.728 ARRA - STRATEGIC HEALTH IT ADVANCED RESEARCH PROJECTS (SHARP)**

SHARP

**FEDERAL AGENCY:**

Office of the Secretary, Department of Health and Human Services

**AUTHORIZATION:**

American Recovery and Reinvestment Act of 2009 (Public Law 111-5) (Recovery Act), Title XIII, Part A, Section 3011.

**OBJECTIVES:**

This Funding Opportunity Announcement (FOA) will result in new competitively-awarded cooperative agreements to establish Strategic Health IT Advanced Research Projects (SHARP). The awardees will conduct research focusing on where breakthrough advances are needed to address well-documented problems that have impeded adoption of health IT and to accelerate progress towards achieving nationwide meaningful use of health IT in support of a high-performing, learning health care system.

**TYPES OF ASSISTANCE:**

Cooperative Agreements

**USES AND USE RESTRICTIONS:**

ONC expects to award four cooperative agreements to support establishment of Strategic Health IT Advanced Research Projects (SHARP) sites for a project period of four years. Each such research site will have a two-part mission:

- (1) to implement a collaborative, interdisciplinary program of research addressing a specific focus area from the list provided below, addressing short-term as well as long-term challenges; and
- (2) to develop and implement a cooperative program between researchers, patient groups, health care providers, and other health IT sector stakeholders to transition the results of research into practice.

Each site will focus on areas where breakthrough improvements are needed to address well-documented problems that have impeded adoption of health IT and thereby accelerate progress on the pathway towards achieving the goals outlined in the strategic plan for health IT developed by the National Coordinator pursuant to PHSA Section 3001(c)(3) as added by the Recovery Act, specifically including the nationwide achievement of meaningful use of health IT to achieve transformational improvement of the health care system.

Each site will implement a collaborative, inter-disciplinary research program addressing one of the specific focus area(s) listed below. An eligible entity may, apply for funding in separate applications to establish more than one site, and thus it is possible a single eligible entity (institution) may receive more than one award under this program. Regardless of the total number of institutions funded to establish sites under this program, it is expected that the all of the awardees will collaborate with each other, as there will be numerous points of intersection among the sites' agendas.

Within its focus (listed below) area, each site will carry out at least the following set of activities:

Initially define and subsequently update or redefine on a yearly basis, the key issues and research challenges within their respective area(s) of focus. The research areas identified will be those that significantly address barriers and solutions to achieving widespread adoption and meaningful use of health IT. Projects to address the identified issues will be mapped to either a short-term (< 2 years) or long-term (4 years) timeframe. Because this is a cooperative agreement, recipients shall plan and allow for collaboration with ONC and other federal staff with relevant expertise as identified or approved by ONC in establishing and updating the definition of key issues and research challenges in the sites focus area;

Conduct ambitious research addressing these key issues and challenges. This work will draw on the scientific methods and expertise of researchers and practitioners in diverse fields;

Collect specific, uniform data about the research activities and track progress toward milestones;

Facilitate practical and efficient processes that enable translation of research into health care and public health innovations, facilitating the transition of multidisciplinary research outcomes into new healthcare products and services both the short- and long-term;

Partner with industry to rapidly transfer short term results of this research into health IT products;

Publish and otherwise disseminate these research findings, preferably in open source journals that maximize the accessibility of this knowledge to the entire

## health IT community

Participate in an external evaluation; and

Select desired, measurable outcomes specific to the chosen research issue and methods for attaining results.

## Research focus areas

In no particular order, the four foci for research identified below will be addressed by this program. The areas have been assigned numbers for ease of reference. Appendix B provides further detail about each of these areas.

1. **Security of Health Information Technology** This research area addresses the challenges of developing security and risk mitigation policies and the technologies necessary to build and preserve the public trust as health IT systems become ubiquitous.

This research area is responsive to paragraphs (1), (4), (5), and (6) of the PHSA 3011(a), as added by the Recovery Act, through the following activities:

Promoting the development and implementation of health information technology solutions that will support the electronic exchange and use of health information in a secure, private manner;

Promoting the development and implementation of technologies and best practices that enhance the protection of health information by all holders of individually identifiable health information;

Enhancing the capabilities and functionalities of tools to support privacy and security of individually identifiable health information as it is exchanged and used; and,

Supporting and enhancing the assurance of privacy needed providers and patients widespread acceptance of telemedicine and robust participation in clinical data repositories and registries.

2. **Patient-Centered Cognitive Support** This research area addresses the challenge of harnessing the power of health IT so that it integrates with, enhances and supports clinicians reasoning and decision making, rather than forcing them into a mode of thinking that is natural to machines but not to people.

PHSA 3011(a), as added by the Recovery Act, directs the support of health IT architecture that will support the use of health information in an accurate manner. Additionally, paragraphs (3) and (5) of the same subsection of the statute authorize use of funding appropriated under PHSA Section 3018, as added by the Recovery Act, to disseminate training and information on best practices to integrate health IT into a providers delivery of care, and to promote the use of clinical data repositories and registries. All of these paragraphs ((1), (3), and (5) of PHSA 3011(a) as added by the Recovery Act) point to longstanding challenges that require new and creative research related to the accurate and effective use of electronic health information to enhance the safety, quality, efficacy, and thus the overall value of care.

3. **Healthcare Application and Network Platform Architectures** This research area focuses on the development of architectures that are necessary to achieve electronic exchange and use of health information in a secure, private and accurate manner.

PHSA 3011(a)(1), as added by the Recovery Act, authorizes support of health IT architecture that will support the nationwide electronic exchange and use of health information in a secure, private, and accurate manner. This research focus specifically supports the development of new and improved architectures and technology infrastructure needed to achieve the goals outlined in the plan for health IT by the National Coordinator in support of PHSA 3001(c)(3), as added by the Recovery Act, and to support measures for determination of meaningful use of health IT by providers over time (required by Social Security Act (SSA) Sections 1848(o) and 1866(n), as added by Title IV in Division B of the Recovery Act).

4. **Secondary Use of EHR Data** This research area focuses on strategies to enhance the use of health IT in improving the overall quality of health care.

PHSA 3011(a), as added by the Recovery Act, states that the Secretary shall invest in the infrastructure necessary to allow for and promote the electronic exchange and use of health information for each individual in the United States consistent with the goals outlined in the strategic plan developed by the National Coordinator. PHSA 3001(c)(3), as added by the Recovery Act, directs

that the National Coordinator shall, in consultation with other appropriate Federal agencies (including the National Institute of Standards and Technology), update the Federal Health IT Strategic Plan (developed as of June 3, 2008) to include specific objectives, milestones, and metrics with respect to a specific set of topic areas. The current Federal Health IT Strategic Plan (developed as of June 3, 2008), as referenced in the statute, advances secondary use as a key mode of information technology use to transform health care. This is consistent with, and will be updated and expanded upon pursuant to the direction of PHSA 3001(c)(3)(i), (vii) and (vii), as added by the Recovery Act, to add to the updated strategic plan such objectives, milestones, and metrics with respect to:

(Reference: PHSA 3001(c)(3)(i)) the electronic exchange and use of health information and the enterprise integration of such information.

(Reference: PHSA 3001(c)(3)(vii)) strategies to enhance the use of health IT in improving the quality of health care, reducing medical errors, reducing health disparities improving public health, increasing prevention and coordination with community resources, and improving the continuity of care among health care settings.

(Reference: PHSA 3001(c)(3)(viii)) the specific plans for ensuring that populations with unique needs, such as children, are appropriately addressed in the technology design, as appropriate.

**93.767 CHILDREN'S HEALTH INSURANCE PROGRAM**

(CHIP; SCHIP)

**FEDERAL AGENCY:**

Centers for Medicare and Medicaid Services, Department of Health and Human Services

**AUTHORIZATION:**

Children's Health Insurance Program Reauthorization Act of 2009.

**OBJECTIVES:**

1. To provide funds to States to enable them to maintain and expand child health assistance to uninsured, low-income children, and at a state option, low-income pregnant women and legal immigrants, primarily by three methods: (1) obtain health insurance coverage that meets the requirements in Section 2103 relating to the amount, duration, and scope of benefits; (2) expand eligibility for children under the State's Medicaid program; or 3) a combination of the two.
2. To provide funds to Indian health programs operated by Indian Health Service, urban Indian organizations operating a health program under the IHCA (P.L. 94-437, as amended) and tribes or tribal organizations operating a health program under the ISDEAA (P.L. 93-638, as amended) to find eligible, not enrolled Indian children, ensure they are enrolled in Medicaid and CHIP programs and ensure they retain coverage as long as they remain eligible..

**TYPES OF ASSISTANCE:**

FORMULA GRANTS

**USES AND USE RESTRICTIONS:**

No State is eligible for payments for child health assistance for coverage provided prior to October 1, 1997. Standards used to determine eligibility may include those related to geographic areas to be served by the plan. Age, income and resources, residency, disability status (as long as the standard does not restrict eligibility), access to or coverage under other health coverage, and duration of eligibility are factors. Standards may not discriminate on the basis of diagnosis. Eligibility standards must not cover higher-income children without covering lower-income children, and must not deny eligibility based on a child having a preexisting medical condition. The State must ensure that only targeted low-income children are furnished child health assistance under the plan. Children found through screening to be eligible for Medicaid are to be enrolled in Medicaid. The insurance provided under the State plan does not substitute for coverage under group health plans. Coordination with other public and private programs providing creditable coverage for low-income children should occur. Child Health Assistance (other than Medicaid), must consist of any of the following: Benchmark coverage; benchmark equivalent coverage (which can be FEHBP-equivalent coverage); State employee coverage or coverage offered through the HMO with the largest insured commercial non-Medicaid enrollment in the State; existing comprehensive State-based coverage; or Secretary-approved coverage. A State child health plan must include a description of the amount (if any) of cost-sharing and must be in accordance with a public schedule. Cost-sharing may be varied in a way that

does not favor higher-income children over lower-income children. No cost-sharing is permitted for well-baby and well-child care, including age-appropriate immunizations. Cost-sharing for children at 150 percent of poverty must be consistent with Medicaid; Cost-sharing for children at 150 percent of poverty and above must be based on an income-related sliding scale.

The aggregate for all children in a family cannot exceed 5 percent of the family's income. The State child health plan may not impose pre-existing condition exclusions for covered benefits. States that provide for benefits through a group health plan or group health insurance coverage may permit pre-existing condition exclusions as allowed under the applicable Section of the Employee Retirement Income Security Act (ERISA) and the Health Insurance Portability and Accountability Act (HIPAA). Funds provided to a State under this Title may only be used to carry out the purposes of this Title. Health insurance coverage provided may include coverage of abortion only if necessary to save the life of the mother or if the pregnancy is the result of an act of rape or incest. States may spend up to 10 percent of their total CHIP expenditures (Federal and State) on non-benefit activities, including: outreach conducted to identify and enroll eligible children in CHIP; administration costs; health services initiatives; and other child health assistance. These expenditures are matched at the enhanced CHIP matching rate and counted against both the 10 percent limit and the allotment. Monetary amounts provided by the Federal government or services assisted or subsidized to any significant extent by the Federal government, may not be included in determining the amount of nonfederal contributions required for State matching purposes.

Indian health programs eligible under this title must use funds to provide outreach, enrollment and retention for targeted, low-income children who are Indian. The funds may not be used to provide direct benefits of the CHIP program or to supplant existing activities funded under federal programs.

**Applicant Eligibility:**

All States and Territories may apply.

Indian health programs operated by Indian Health Service, urban Indian organizations operating a health program under the IHCA (P.L. 94-437, as amended) and tribes or tribal organizations operating a health program under the ISDEAA (P.L. 93-638, as amended) may apply.

**Beneficiary Eligibility:**

Targeted low-income children will benefit. These children are defined (for the purposes of Title XXI) as children who have been determined eligible by the State for child health assistance under their State plan; are low-income children; or are children whose family income exceeds the Medicaid applicable income level but does not exceed 50 percentage points above the Medicaid applicable income level; and are not found to be eligible for medical assistance under Title XIX or covered under a group health plan or under health insurance coverage. This term does not include a child that is a member of a family that is eligible for health benefits coverage under a State health benefits plan on the basis of a family member's employment with a public agency in the State.

Indian children who are targeted, low-income children will benefit. **Credentials/Documentation:**

States and Territories must submit and have approved by the Secretary of DHHS, a State Child Health Plan. Individuals must meet State requirements. Indian health programs selected under this solicitation must be operated by Indian Health Service, urban Indian organizations operating a health program under the IHCA ((Public Law 94-437, as amended) and tribes or tribal

organizations operating a health program under the ISDEAA (Public Law 93-638, as amended) may apply. OMB Circular No. A-87 applies to this program.

**Preapplication Coordination:**

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Title XXI plans and amendments are submitted by the State Governor, or designee, to the CMS Center for Medicaid and State Operations; Families and Children Health Program Group (CMSO/FCHPG). The Title XXI plan should be a stand alone document that fully addresses each relevant Section of the statutory requirements.

Eligible Indian health program grantees will submit applications through grants.gov website prior to the closing date, January 15, 2010, of the solicitation. Applications will be reviewed and awarded to eligible grantees on a competitive basis by April 15, 2010.

Award Procedure (093):

**Award Procedure:**

The CMS Administrator exercises delegated authority to approve Title XXI plans and amendments. Letters of approval will be signed by the CMS Administrator.

Grants to Indian health programs will be awarded on a competitive basis utilizing impartial panels and facilitators on April 15, 2010.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

Section 2106 of the Law, specifies that a State plan is considered approved unless the Secretary notifies the State in writing, within 90 days after receipt of the plan, that the plan is disapproved (and the reasons for disapproval) or that specific additional information is needed. Informal clarification and discussion between the State and the DHHS review team is permitted and encouraged during the review period. This does not stop the "90-day clock." The 90-day review period may be stopped by formal written requests for additional information and clarification. The 90-day review period may be stopped as many times as necessary to obtain completed information necessary to disapprove or approve the plan. The 90-day period will resume when the finalized additional information is received by CMS.

Grants to Indian health programs will be 3 year grants from April 15, 2010 through April 14, 2013.

**Appeals:**

If a State wishes to appeal a disapproval, it may petition for a reconsideration of this decision within 60 days after the date of receipt of the disapproval letter, by submitting a written request for reconsideration to the project officer and the regional office. States also have the option to submit a new application following the disapproval, starting a new 90-day review clock.

**Renewals:**

An approved State child health plan shall continue in effect unless the State amends that plan or the Secretary finds substantial noncompliance of the plan in accordance with the requirements of Title XXI.

The Indian health program grants are one-time grants for a period of three (3) years.

**Formula and Matching Requirements:**

Statutory Formula:

Matching Requirements: Section 2105(b), Title XXI, provides for an "enhanced Federal Matching Assistance Percentage (FMAP)" for child health assistance provided under Title XXI that is equal to the current FMAP for the fiscal year in the Medicaid Title XIX program, increased by 30 percent of the

difference between 100 and the current FMAP for that fiscal year. The enhanced FMAP may not exceed 85 percent. CHIPRA implemented a limitation on matching rates for states that propose to cover children with effective family income that exceeds 300 percent of the poverty line to FMAP rather than EMAP, unless a waiver or State Plan Amendment or state law was in place to cover this population before the enactment of CHIPRA. The formula for determining the final allotment includes: determining the number of States with approved State Plans as the end of the fiscal year. In order for a State to receive a final allotment for a fiscal year, CMS must approve the CHIP State Plan for that State by the end of the fiscal year. Only States with approved State Plans by the end of the fiscal year will be included in the final allotment calculation. The Childrens Health Insurance Program Reauthorization Act of 2009 (CHIPRA) was enacted on February 4, 2009 and provided appropriations through FY 2013.

The States' FY 2009 final allotments are calculated as 110 percent of the highest of the following three amounts:

- Total Federal payments under title XXI to the State for FY 2008, multiplied by an allotment increase factor for FY 2009;
- FY 2008 CHIP allotment multiplied by the allotment increase factor for FY 2009; or
- The projected Federal payments under title XXI for FY& 2009 as determined on the basis of the February 2009 estimates submitted and certified by the States no later than March 31, 2009.

The State FY 2010 allotment will be calculated as the sum of the following four amounts, multiplied by the applicable growth factor for the year.

- the FY 2009 CHIP allotments;
- FY 2006 unspent allotments redistributed to and spent by shortfall states in FY 2009;
- spending of funds provided to shortfall sates in the first half of FY2009; and
- spending of Contingency Fund payments in FY2009, although there may be none.

For FY 2011 and FY 2013 the allotments will be rebased , on prior year spending. This will be done by multiplying the states growth factor for the year by the new base, which will be the prior years federal CHIP spending. For FY 2012, the allotment for a state will be calculated as the FY 2011 allotment and any FY 2011 contingency fund spending, multiplied by the states growth factor for the year. The amount of the state allotment for previous fiscal year and the amount of any payments made to the State under subsection (k), (l), or (n) for the previous fiscal year multiplied by the allotment increase factor for the current year.

This program has MOE requirements, see funding agency for further details.

**Length and Time Phasing of Assistance:**

Enrolled children receive medical services as necessary. Federal funds are obligated to the States by issuing Title XXI grant awards. To ensure that all of the appropriated funds are available to States, CMS will issue grant awards to all States with Title XXI State plans approved by the end of the fiscal year equaling the national amount available for allotment to the 50 States, the District of Columbia, and the Commonwealths and Territories for that fiscal year. Grant awards must be issued by the time the CMS/HHS accounting system closes with respect to that fiscal year. Method of awarding/releasing assistance: lump sum.

**Reports:**

No program reports are required. No cash reports are required. Section 2108 of the Law specifies that States must develop annual reports assessing the operation of their State Plan for each fiscal year, including the progress made in reducing the number of uncovered low-income children and report to the Secretary by January 1, of the following year the results of the assessment. By March 31, 2000, each State with a child health plan must submit to the Secretary an evaluation that includes an assessment of the effectiveness of the State Plan in increasing the number of children with creditable health coverage, in increasing the availability of affordable quality individual and family health insurance for children, and in coordinating recommendations for improving the program under this Title. By December 31, 2001, the Secretary must submit to

Congress and make available to the public, a report based on the evaluations submitted by the States recommendations and conclusions. No expenditure reports are required. No performance monitoring is required.

**Audits:**

This program is excluded from coverage under OMB Circular No. A-133. A State child health plan under Title XXI must include an assurance that the State will afford the Secretary access to any records or information relating to the plan for the purposes of review or audit.

**Records:**

A State child health plan must include an assurance that the State will collect the data, maintain the records, and furnish the report to the Secretary at the times and in standardized format (as the Secretary requires), in order to enable the Secretary to monitor State program administration and compliance and to evaluate and compare the effectiveness of State Plans under this Title.

**AUTHORIZATION:**

Ticket to Work and Work Incentives Improvement Act of 1999, Section 203, Public Law 106-170.

**OBJECTIVES:**

To support State efforts to enhance employment options for people with disabilities by building Medicaid infrastructure. Funding may be used to develop a Medicaid buy-in, increase availability of Personal Assistance Services, or for State-to-State technical assistance. In addition, States may use funding to develop a comprehensive approach to bridge Medicaid services with other key supports and programs used by employed people with disabilities.

**TYPES OF ASSISTANCE:**

**PROJECT GRANTS**

**USES AND USE RESTRICTIONS:**

While the proposals submitted by the States may vary, States participating in this grant program will use the funds to remove the barriers to employment of persons with disabilities, by creating health systems change through the Medicaid program. The development or enhancement of certain core Medicaid components in each State would enable people with disabilities not only to work, but to sustain adequate health coverage if they find they need to relocate to another State for employment purposes. An adequate personal assistance services benefit and a Medicaid buy-in for employed people with disabilities are significant components of the Ticket to Work and Work Incentives Improvement Act. The infrastructure grants program provides money to the States to develop these core elements. In addition, States may use funding to develop a comprehensive approach to bridge Medicaid services with other key supports and programs used by employed people with disabilities. Funds may not be used for the direct provision of services to people with disabilities except on a one-time, last resort, emergency basis for the purpose of sustaining the individual's competitive employment.

**Applicant Eligibility:**

**Beneficiary Eligibility:**

There are two groups of potentially eligible beneficiaries, as defined by the Ticket to Work and Work Incentives Improvement Act of 1999. The second group of potential beneficiaries consists of persons between the ages of 16 and 65 years old, employed, and who cease to be eligible for Medical Assistance because of medical improvements determined at the time of a regularly scheduled disability review, but who also continue to have a severe medically determinable impairment.

**PROGRAM ACCOMPLISHMENTS:**

Fiscal Year 2008: Through FY 2007, a total of 50 entities (49 States and the District of Columbia) have been approved for funding from the Infrastructure Grant Program section 203 since its inception. There are 33 States with Medicaid buy-ins and one additional State has a plan amendment under review. As of September 30, 2006, there were just over 78,402 workers receiving Medicaid benefits under the buy-in options. A total of 26 States and the District of Columbia have applied for and will receive continuation grant awards in FY 2007. Nine States received new competitive grant awards in FY 2006. In addition, five States, South Carolina, Missouri, Iowa, Indiana and Arkansas will continue to carry out employment goals for the working disabled population by spending previous grant awards in FY 2007 through a no-cost extension of funding. Of the \$42.8 million (FY 2007) that has been appropriated for the upcoming grant year, \$34.7 million was granted to the States. The reason for the large discrepancy in the FY 2007 appropriation, and the funding amount is that States are enrolling fewer participants in Medicaid buy-in programs than Congress originally anticipated. Higher levels of funding are legislatively related to the yearly amount of Medicaid buy-in service costs expended by a State. State and local government employees not already in Social Security-covered positions and hired on or after April 1, 1986 also contribute toward Medicare hospital insurance coverage. Although States may request agreements to cover individuals employed prior to April 1, 1986, no credit is given toward establishing Medicare entitlement for prior employment. **AUTHORIZATION:**

Social Security Act, Title XI, Sections 1110 and 1115; 42 U.S.C. 1310 and 1315(a); Title XVIII, Section 1875; 42 U.S.C. 1395 and 42 U.S.C. 1881 (f); Section 402, Public Law 90-248, as amended; Section 222, Public Law 92-603; Small Business Innovation Development Act of 1982; Public Law 97-219, as amended; Small Business Innovation Research Program Extension, Public Law 99-443.

**OBJECTIVES:**

To support analyses, experiments, demonstrations and pilot projects in efforts to resolve major health care financing issues and to develop innovative methods for the administration of Medicare and Medicaid. These grants are awarded are in the form of research grants and cooperative agreements; Hispanic health services grants; historically black colleges and university grants. For fiscal years 2008 and 2009, the Centers for Medicare & Medicaid Services (CMS) has identified a number of areas where specific information or experience is necessary to improve program effectiveness or guide decisions anticipated in the near future. These priority areas for CMS' discretionary contracts, cooperative agreements and grants include: (1) protecting and empowering specific populations; (2) pay for performance for multiple provider settings; (3) understanding health differences and disparities--closing the gaps; (4) preventing disease, illness, and injury; (5) agency-specific priorities.

**TYPES OF ASSISTANCE:**

PROJECT GRANTS

**USES AND USE RESTRICTIONS:**

Under all authorizations, all applications must meet standards of excellence in research or evaluation design. Funds may not be used for construction or renovation of buildings. Funds authorized by Section 1115 of the Social Security Act are limited to State agencies administering the Medicaid program.

The research issues and/or hypotheses identified by a project should be clearly stated and realistic and should reflect the issues of interest to CMS and, where appropriate, HHS, Federal Government, and the broader health services research community.

The research design should clearly identify the measures that will be collected and analyzed to address the issues and/or hypotheses. These proposed measures should reflect concepts and variables that are consistent with the stated issues and hypotheses.

The research design should also address the reliability of measures i.e., a measurement should not change when the concept being measured remains constant in value. A common reliability concern is the level of inter-rater reliability of an instrument, determined by the extent to which two or more persons measuring the same characteristic would assign the same score.

The research design should address the validity of proposed measures i.e., the extent to which differences in scores on variable or the measuring instrument represent true differences in the characteristic we are trying to measure, rather than constant or random errors or the influence of other factors.

**Applicant Eligibility:**

**93.789 ALTERNATIVES TO PSYCHIATRIC RESIDENTIAL TREATMENT FACILITIES FOR CHILDREN**

(Demonstration Projects Regarding Home and Community-Based Alternatives to Psychiatric Residential Treatment Facilities for Children)

**FEDERAL AGENCY:**

Centers for Medicare and Medicaid Services, Department of Health and Human Services

**AUTHORIZATION:**

Section 6063, Deficit Reduction Act of 2005, Public Law 109-171.

**OBJECTIVES:**

Over the last decade, Psychiatric Residential Treatment Facilities (PRTFs) have become the primary provider for youth with serious emotional disturbances requiring an institutional level of care. However, since they are not recognized as hospitals, nursing facilities or intermediate care facilities for the mentally retarded, many States have been unable to use the 1915(c) waiver authority to provide home and community-based alternatives to care, which would keep the youth in their homes and with their families. Section 6063 of the Deficit Reduction Act of 2005 addresses this issue by providing up to \$218 million to up to 10 States to develop demonstration programs that provide home and community-based services to youth as alternatives to PRTFs. CMS anticipates awarding each successful applicant between \$5 and \$60 million. The PRTF Demonstration is authorized for up to 5 years. Payments may not be made to States after fiscal year 2011. CMS will review and approve each State's Implementation Plan prior to allowing States to access funds for Federal reimbursement of services under this grant. Section 6063 also provides \$1 million for a National Demonstration Evaluation.

**TYPES OF ASSISTANCE:**

PROJECT GRANTS

**USES AND USE RESTRICTIONS:**

**Budget Neutrality:** In conducting these demonstration projects, The Secretary of Health and Human Services shall ensure that the aggregate payments made by the Secretary under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) do not exceed the amount which the Secretary estimates would have been paid under the title, if the demonstration projects under Section 6063 had not been implemented. Any funding allocated for the Federal match for home and community-based services provided under the demonstration for the first year of this grant that remain unspent will be carried over to the next year of the Grant. **Indirect Costs:** The provisions of the OMB Circular A-87 govern reimbursement of indirect costs under this solicitation. A copy of OMB Circular A-87 is available online at: <http://www.whitehouse.gov/omb/circulars/a087/a087.html>.

**Applicant Eligibility:**

Any single State Medicaid Agency, State Mental Health Agency, or instrumentality of the State may apply for this Demonstration Grant. Only one application can be submitted for a given State. By "State" we refer to the definition provided under 45 CFR 74.2 as "any of the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State exclusive of local governments." By "territory or possession" we mean Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.

**Beneficiary Eligibility:**

The level of care for Medicaid eligible individuals for this demonstration at a minimum must be under the age of 21 and require the need for a PRTF as defined in the State's Medicaid State Plan. For the purposes of this demonstration, youth are defined as "any child, adolescent or young adult under the age of 21". States shall ensure that each participant under the demonstration meets this level of care criterion to participate in the demonstration. Further, States may elect to add additional criteria to carve out or target a specific sub-population to receive home and community-based services under this demonstration. As a part of the application process, States shall submit a copy of the level of care assessment used to assess eligibility for participation in this demonstration. PRTFs are defined as any non-hospital facility with a provider agreement with a State Medicaid Agency to provide the inpatient services benefit to Medicaid-eligible individuals under the age of 21 (CFR 42 441.150 - 441.182). The facility must be accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) or any other accrediting organization with comparable standards recognized by the State. Additionally PRTFs must comply with Conditions of Participation on the use of restraint and seclusion (CFR 483.350 - 483.376).

Applications that are received late or fail to meet the eligibility requirements as detailed in the "Applicant Eligibility" section of this solicitation will not be reviewed." Applications will be objectively reviewed by a panel of experts, the exact number and composition of which will be determined by CMS at its discretion, but may include private sector subject matter experts, beneficiaries of Medicaid supports, and Federal and Applicant policy staff. The review panels will utilize the objective criteria described in the "Application Review Criteria Information" section of the solicitation to establish an overall numeric score for each application. The results of the objective review of applications will be used to advise the approving CMS official. Additionally, CMS staff will make final recommendations to the approving official after ranking applications using the scores and comments from the review panel and weighing other factors as described below. **Factors Other than Merit that May be Used in Selecting Applications for Award:** CMS may assure reasonable balance among the grants to be awarded in terms of key factors such as geographic distribution and broad target group representation. CMS may redistribute grant funds (as detailed in the "Award Information" section of the solicitation) based upon the number and quality of applications received. (e.g., to adjust the minimum or maximum awards permitted or adjust the aggregate amount of Federal funds allotted to a particular category of grants).

**93.791 MONEY FOLLOWS THE PERSON REBALANCING DEMONSTRATION**

(Money Follows the Person Demonstration)

**FEDERAL AGENCY:**

Centers for Medicare and Medicaid Services, Department of Health and Human Services

**AUTHORIZATION:**

Section 6071, Public Law Deficit Reduction Act of 2005, Public Law 109-171.

**OBJECTIVES:**

For more than a decade, States have been asking for the tools to modernize their Medicaid programs. With the enactment of the Deficit Reduction Act (DRA) of 2005, States now have new options to rebalance their long-term support programs to allow their Medicaid programs to be more sustainable while helping individuals achieve independence. The Money Follows the Person (MFP) Rebalancing Demonstration (MFP Demo), created by section 6071 of the Deficit Reduction Act of 2005 (P.L. 109-171), supports State efforts to "rebalance" their long-term support systems by offering \$1.75 billion over 5 years in competitive grants to States. Specifically, the demonstration will support State efforts to: "Rebalance their long-term support system so that individuals have a choice of where they live and receive services." Transition individuals from institutions who want to live in the community. Promote a strategic approach to implement a system that provides person centered services and a quality management strategy that ensures the provision of, and improvement of such services in both home and community-based settings and institutions. The demonstration provides for enhanced federal medical assistance percentage (FMAP) for 12 months for qualified home and community-based services for each person transitioned from an institution to the community during the demonstration period. Eligibility for transition is dependent upon residence in a qualified institution. The State may establish the minimum timeframe for residence between 6 months and two years as required by Section 6071(b)(2)(A) of the DRA. The State must continue to provide community-based services after the 12 month period for as long as the person needs community services and is Medicaid eligible. Demonstration grants will be awarded to States from January 1, 2007 through September 30, 2011. CMS will accept one proposal from each State interested in participating in the demonstration program. The State Medicaid Agency must be the lead applicant. States must propose a demonstration period of no less than two consecutive fiscal years but no greater than five years. The State will indicate in its application the targeted group(s) and number of individuals it intends to transition. In making awards, CMS will give preference to States if they include multiple target groups including older individuals, and if they propose to deliver self-directed services. The number of demonstration projects approved by CMS depends largely on the scope (i.e., proposed enrollment and breadth of services) and quality of the proposed projects. Under the demonstration project, the State must propose a system of Medicaid home and community-based care that will be sustained after the demonstration period and is deemed qualified by the Secretary. Specifically, the program must be conducted in conjunction with a "qualified HCBS program" which is a program that is in operation (or approved) in the State for such individuals in a manner that assures continuity of Medicaid coverage of services in the qualified HCBS program for eligible individuals. States may also propose to enhance the services they will provide

during the demonstration period to achieve greater success with transition. States will be required to participate in a national qualitative and quantitative evaluation conducted by CMS. Data collected on a national level will help evaluate the core objectives of the statute that are listed below.

**Formula and Matching Requirements:**

Statutory formulas are not applicable to this program.  
Matching Requirements: A State receiving an award under this solicitation will receive reimbursement for home and community-based services provided under the demonstration on a quarterly basis at the following Federal Medical Assistance Percentage (FMAP) rates: The FMAP rate will be adjusted to reflect the increased FMAP available to States through the Recovery Act of 2009 each quarter from October 1, 2008 through December 31, 2011 (increased rate). The assistance consideration for the increased FMAP will be provided from Money Follows the Person grant demonstration funding and not through funding from the Recovery Act of 2009. The enhanced FMAP provided by the DRA of 2005 (Enhanced Rate up to 50% of the State Match capped at 90%) will be applied to the increased FMAP that results from the formula available to States under the Recovery Act. Service Category Match rate for a 12-month demonstration period for "Qualified HCB program" services and HCB Demonstration services are at the Increased and Enhanced Match Rate. Supplemental Demonstration services will be provided at the Increased Rate only for the Recovery Act period. Administrative costs will be reimbursed according to the requirements of CFR 42, 433.15. At the end of the Recovery Act period, the yearly published FMAP Rate in the Federal Register will be used to determine the Enhanced Rate and the State match requirements for the prior quarters to the Recovery Act period and subsequent quarters until the end of the demonstration. This program has MOE requirements, see funding agency for further details. Total expenditures under the State Medicaid program for home and community-based long-term care services will not be less for any fiscal year during the MFP demonstration project than for the greater of such expenditures for fiscal year 2005 or any succeeding fiscal year before the first of the year of the MFP demonstration project.

**Length and Time Phasing of Assistance:**

The demonstration period is five years. The project period is from January 1, 2007 through September 30, 2011. The budget period is from January 1, 2007 through September 30, 2011. Method of awarding/releasing assistance: lump sum.

**Reports:**

No program reports are required. No cash reports are required. No progress reports are required. Financial Status Report, form (SF-269), will be required to be submitted semi-annually. At the end of each demonstration grant year, States will be required to produce documentation that they have not exceeded the determined budget ceiling and meet all CMS financial requirements. The format of this financial report will be determined during the IP phase of the Demonstration Semi-Annual Progress Reports: Web-based reports in a pre-determined format will be required to be submitted semi-annually. ### **FEDERAL AGENCY:**

Health Resources and Services Administration, Department of Health and Human Services

### **AUTHORIZATION:**

Public Health Service Act, Title VII, Section 751(a)(1), as amended; Health Professions Education Partnerships Act of 1998, Public Law 105-392.

### **OBJECTIVES:**

The Basic/Core Area Health Education Centers (BAHEC) Program and Model State Supported Area Health Education Centers (MAHEC) Program goals are to assist schools to improve the distribution, diversity, supply, and quality of health personnel in the health services delivery system, and to attract and retain health personnel in underserved areas. The AHEC Program awardees link the academic resources of medical schools and participating health professions schools with local educational and clinical sites, and thereby establish a network of community-based training sites to provide educational services to health professions students, faculty-preceptors and health care providers in

underserved areas, and ultimately, to improve the delivery of health care in an underserved region or in an entire state. Emphasis is placed on community-based training of health professions students, primary care-oriented medical residents, local providers, and also 9-12 grade students. The BAHEC program assists schools in the initial planning, development and implementation of community-based Area Health Education Centers (AHECs) which assist schools and organize the training of at least three health professions disciplines at training-service delivery sites in rural and underserved areas, of a region or an entire state. Schools which complete Basic AHEC Program development, then compete for Model AHEC Program awards in partnership with affiliated (contracted) AHEC Centers to maintain and enhance/expand training programs and training sites responsive to local, State and Federal needs and priorities. The BAHEC and MAHEC programs embrace the goal of increasing the number of health professions graduates who ultimately practice in underserved areas. Both AHEC programs carry out health careers recruitment and enhancement activities to attract high school students from underserved areas into health careers.

#### **TYPES OF ASSISTANCE:**

##### **PROJECT GRANTS**

#### **USES AND USE RESTRICTIONS:**

Grants may support salaries, equipment, supplies, travel, and patient hospitalization as required to perform the research effort. Restrictions or limitations are imposed against the use of funds for entertainment, foreign travel, general-purpose equipment, alterations and renovations, and other items not regularly required for the performance of research. Individual Predoctoral and Postdoctoral National Research Service Awards (NRSAs) are made directly to individuals for research training in specified biomedical shortage areas. Institutional NRSA awards may be made to eligible institutions to enable them to appoint individuals selected by the institution. Certain service and payback provisions may apply to postdoctoral individuals upon termination of the award or termination of the appointment. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of research initiated in Phase I that is likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. Some Phase II awardees may be eligible to apply for funds to continue research for up to three years beyond the original Phase II award. Eligible projects involve assessment and improvement of drugs or devices or propose to conduct preclinical studies of drugs or devices that ultimately require: 1) clinical evaluation and/or 2) approval of a Federal regulatory agency. The product being developed must be one for which Federal regulatory approval (e.g., FDA) is a required step toward commercialization. Prospective applicants are strongly encouraged to contact NIH staff to determine eligibility. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of Phase II application.

#### **Applicant Eligibility:**

To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. Any nonprofit organization engaged in biomedical research and institutions or companies organized for profit may apply for almost any kind of grant. Only domestic, non-profit, private or public institutions may apply for NRSA Institutional Research Training Grants. An individual may apply for an NRSA or, in some cases, for a research grant if adequate facilities to perform the research are available. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is being proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500

employees) that formally collaborate with a university or other non-profit research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions.

#### **Beneficiary Eligibility:**

Research project grants and cooperative agreements, training and career development grants, and SBIR and STTR grants.

#### **Credentials/Documentation:**

Individual NRSAs and Institutional NRSA trainees must be citizens of the United States or have been admitted for permanent residency; must hold a doctoral degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree); and must possess a desire for training in one of the health or health-related areas specified by the National Institutes of Health. Each applicant must be sponsored by an accredited public or private nonprofit institution engaged in such training. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organization costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with DHHS Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, the applicant organization (small business concern) must present, in a research plan, an idea that has potential for commercialization and must furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. The grant application form SF424 (R&R) is used to apply for all SBIR and STTR grants. OMB Circular No. A-87 applies to this program.

**Audits:**

This program is excluded from coverage under OMB Circular No. A-133. In accordance with OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend \$500,000 or more in a year in Federal awards shall have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO).

In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement:

1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or
2. an audit that meets the requirements of OMB Circular No. A-133.

In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

**Records:**

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

#### **Audits:**

This program is excluded from coverage under OMB Circular No. A-133. In accordance with OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend \$500,000 or more in a year in Federal awards shall have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO).

In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. #### **Records:**

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS

Funding encompasses a broad spectrum of hematologic inquiry, ranging from stem cell biology to medical management of blood diseases and to assuring the adequacy and safety of the nation's blood supply. Programs also support the development of novel cell-based therapies to bring the expertise of transfusion medicine and stem cell technology to the repair and regeneration of human tissues and

organs. Small Business Innovation Research (SBIR) program: To stimulate technological innovation; to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Small Business Technology Transfer (STTR) program: To stimulate and foster scientific and technological innovation through cooperative research development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

**TYPES OF ASSISTANCE:**

PROJECT GRANTS

**USES AND USE RESTRICTIONS:**

Grants may support salaries, equipment, supplies, travel, and patient hospitalization as required to perform the research effort. Restrictions or limitations are imposed against the use of funds for entertainment, foreign travel, general-purpose equipment, alterations and renovations, and other items not regularly required for the performance of research. National Research Service Awards (NRSAs) are made directly to individuals for research training. Grants may be made to institutions to enable them to make NRSAs to individuals selected by them. Certain service and payback provisions apply to individuals upon termination of the award. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. These awards are made to small businesses working in collaboration with academic institutions. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application. While the intent of the SBIR/STTR programs is commercialization (Phase III), no SBIR/STTR funds are allowed for commercialization activities such as patents; market and sales; market research; business development/product development/market plans; legal fees, travel and other costs including labor relating to license agreements and partnerships.

**Applicant Eligibility:**

Any nonprofit organization engaged in biomedical research and institutions (or companies) organized for profit may apply for grants, with the exception of NRSAs. An individual may apply for a NRSA or, in some cases, may qualify for a research grant if adequate facilities in which to perform the research are available. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, or owned by another small business that itself is independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees including affiliates). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. SBIR projects must be performed at least 67% by the applicant small business in Phase I and at least 50% of the project in Phase II. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be

eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

**Beneficiary Eligibility:**

Any nonprofit or for-profit organization, company or institution engaged in biomedical research. Only domestic for-profit small business firms may apply for SBIR and STTR programs.

**Credentials/Documentation:**

Applicants for individual National Research Service Awards must be citizens of the United States or have been admitted for permanent residency; must hold a doctoral degree (M.D., Ph.D, D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree); and must designate a desire for training in one of the health or health-related areas specified by the National Institutes of Health. Each applicant must be sponsored by an accredited public or private nonprofit institution engaged in such training. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments.

For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, Part 74, Subpart Q. For SBIR and STTR grants, applicant organization (small business concern) must present a research plan that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. SBIR and STTR applicants must use the SF424 Research and Related (R&R) application for electronic submission through Grants.gov. Electronic submission of SNAP Progress Reports (eSNAP) apply for non-competing continuations (e.g., second year of Phase II). OMB Circular No. A-87 applies to this program.

Public Health Service Act, Section 301, 437, 487, Public Law 78-410, 42 U.S.C 241, as amended by Public Health Service Act, Section 301, 437, 487, Public Law 99-158, 42 U.S.C 285d-2.

**OBJECTIVES:**

To support research relevant to arthritis, musculoskeletal and skin diseases, the National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS) supports research training and basic and clinical investigations including epidemiology and clinical trials in the areas of skin and rheumatic diseases and musculoskeletal diseases. The Division of Skin and Rheumatic Diseases promotes and supports basic, epidemiological, and clinical studies of skin and rheumatic and related diseases. Studies range from determining the underlying basis and mechanisms of disease (including large genetic studies), to translational and clinical research aimed at the diagnosis, treatment, prediction, and/or prevention of disease. The skin program supports research in normal and diseased skin including keratinocyte biology and wound healing, and disorders such as psoriasis, atopic dermatitis and other chronic inflammatory skin disorders; the vesiculobullous diseases such as pemphigus, bullous pemphigoid, and epidermolysis bullosa; acne, alopecia areata, vitiligo, and skin neoplasia. The rheumatic disease program supports research in the systemic autoimmune diseases and arthritides, including systemic lupus erythematosus (SLE), systemic scleroderma, autoimmune myositis, rheumatoid arthritis, juvenile idiopathic arthritis, spondyloarthropathies, vasculitis, gout, Sjogren's syndrome, and fibromyalgia syndrome. In addition, the Division supports studies on the extracellular matrix, including research on Marfan syndrome, keloid formation, and pseudoxanthoma elasticum. The Division also supports biophysosocial research related to rheumatic, musculoskeletal, or skin diseases. Topics include behavioral interventions, pain mechanisms, neuroendocrine and neuroimmune mechanisms, behavioral and social research, and epidemiology. The Division of Musculoskeletal Diseases supports studies of the skeleton and associated connective tissues. Broad areas of interest include skeletal development, metabolism, mechanical properties, and responses to injury. Among these diseases and skeletal disorders are osteoporosis; osteogenesis imperfecta; Page's disease of bone; vitamin D refractory diseases; and rickets and osteochondrodysplasias. Other areas of interest include treatment of acute and chronic injuries, including carpal tunnel syndrome, repetitive stress injury, low back pain and clinical and epidemiological studies of osteoarthritis. The Division supports development of new technologies with the potential to improve treatment of skeletal disorders and facilitate the repair of trauma in the normal skeleton. These include drugs and nutritional interventions, joint replacement, bone and cartilage transplantation, biomarkers and gene therapy. In addition, bioengineering, sports medicine and musculoskeletal fitness are areas of special research emphasis. This Division also encourages and supports research on skeletal muscle, its diseases and disorders, and its central role in human physiology and exercise. Topics include the molecular structure of muscle and the molecular mechanisms that produce force and motion. Muscle biophysics, cell biology, muscle biology, muscle disorders and therapies, musculoskeletal development, tissue reengineering, and regenerative medicine are encompassed in this area as well. The Division also supports research into the biology of cartilage, tendons, ligaments, menisci, and intervertebral discs, including pre-clinical studies on injury and disease conditions affecting these tissues. NIAMS participates in the Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs. The SBIR program is intended to increase private sector commercialization of innovations derived from Federal research and

development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The STTR program is intended to stimulate and foster scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation.

**TYPES OF ASSISTANCE:**

PROJECT GRANTS

**USES AND USE RESTRICTIONS:**

Research Grants provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation relevant to program objectives. Individual National Research Service Awards (NRSAs) are made to individuals for research training in specified biomedical shortage areas. In addition, grants may be made to institutions to enable them to make NRSAs to individuals selected by them. Each individual who receives a NRSA is obligated upon termination of the award to comply with certain service and payback provisions. Small Business Innovation Research Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application.

**Applicant Eligibility:**

Research Grants: Individuals and public and private institutions, both nonprofit and for-profit, who propose to establish, expand, and improve research activities in health sciences and related fields. National Research Service Awards: Individuals must be nominated and sponsored by a public or private, for-profit or nonprofit institution having staff and facilities appropriate to the proposed research training program. All awardees must be citizens or have been admitted to the United States for permanent residence. **Reports:**

**Audits:**

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

**Records:**

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

#### **TYPES OF ASSISTANCE:**

##### **PROJECT GRANTS**

##### **USES AND USE RESTRICTIONS:**

Project Grants provide funds for salaries, equipment, supplies, travel, and other expenses associated with scientific investigation relevant to program objectives. NRSA's are made directly to individuals for research training in specified biomedical shortage areas, or, to institutions to enable them to make NRSA's to individuals selected by them. Each individual who receives a NRSA is obligated upon termination of the award to comply with certain service and payback provisions. SBIR Phase I grants (of approximately 6-months duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to

determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of the Phase II application.

#### **Applicant Eligibility:**

**Audits:**

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

**Records:**

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the

3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents.

This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

The NINDS also participates in the Academic Research Enhancement Award (AREA) Program, which is intended to provide research support to institutions currently having little support from the National Institutes of Health (NIH) support.

**TYPES OF ASSISTANCE:**

PROJECT GRANTS

**USES AND USE RESTRICTIONS:**

Research grants may be used to provide salaries, equipment, supplies, travel and other expenses for research. The grantee institution is obliged to expend grant funds prudently for the purposes stated in the application and award document. National Research Service Awards (NRSA) are made directly to individuals for research training in specified biomedical shortage areas, or to institutions, to enable them to make NRSA to individuals selected by them. Each individual who receives a NRSA is obligated upon termination of the award to comply with service and payback provisions. Career Development Awards such as the Independent Scientist Awards provide support for newly independent scientists with health related degrees who can demonstrate the need for a period of intensive research focus as a means of enhancing their research careers. Mentored Clinical Research Scientist Development Awards

provide support for clinically trained health professionals who need an additional period of sponsored research experience as a way to gain expertise in a research area new to the candidate or in an area that would demonstrably enhance the candidate's scientific career. The Mentored Research Scientist Development Award are of three types: Re-Entry into the Neurological Sciences (RENS) which are made to women and men who have been out of neuroscience research for at least 3 years to give them an opportunity to re-establish their skills as independent neuroscientists, the Career Development Award to promote diversity in neuroscience research support, an intensive, supervised research career development experience for underrepresented career neuroscientists, and Mentored Research Scientist Development Awards in Translational Research to support new investigators to build a program of translational research in neurological disorders. The Mentored Patient-Oriented Research Career Development Award provide support for a period of supervised study and research for clinically trained professionals who have the potential to develop into productive clinical investigators. The Mid-career Investigator Award in Patient-Oriented Research provide support for clinicians to allow them protected time to devote to patient-oriented research and to act as mentors for beginning clinical investigators. The Collaborative Neurological Sciences Award is to develop and promote competitive neurological science research programs at predominantly minority institutions through collaborations with grantees from research intensive institutions who have NIH grant support to conduct neurological science research. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research efforts initiated in Phase I that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of Phase II application. Grant funds may be expended only for the purpose stated in the application and award document. The NINDS participates in the NIH SBIR/STTR "fast track" initiative.

#### **Applicant Eligibility:**

Research Grants: Any public, private, nonprofit, or for-profit institution is eligible to apply. For-profit institutions are not eligible for Institutional National Research Service Awards but are eligible for Individual NRSA. All proposals are reviewed for scientific merit, for evaluation of the qualifications of the investigators, for adequacy of the research environment, and for significance of the problem. Approved proposals compete for available funds. All Career Development Program awardees, with the exception of awardees of the Pathway to Independence Award, must be citizens or have been admitted to the United States for permanent residence. Candidates must be nominated for the program by a nonfederal public or private nonprofit institution located in the United States, its possessions or territories. Awardees for RENS must have been accepted by a sponsoring institution, had previous training and experience in neurological science, an interruption in their careers for a period of at least three years and not more than 8 years, and be citizens or non-citizen nationals of the United States. Awardees for the Collaborative Neurological Sciences Award must be from a predominantly minority institution and must have a doctoral degree in a basic or clinical science area. To be eligible, postdoctoral NRSA trainees or fellows must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D. Eng., or equivalent domestic or foreign degree). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the entire research must be performed in the United States. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development.

At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

#### **Beneficiary Eligibility:**

Health professionals, graduate students, health professional students, scientists, and researchers.

#### **Credentials/Documentation:**

Research grants are awarded to an institution in the name of an individual investigator. Persons qualified to carry out research related to the extramural programs described above may apply for funds to support their investigations. Mentored Career Program training must be conducted under the direction of a competent sponsor. National Research Service Awards: Individual NRSA Fellowships for postdoctoral training: the candidate's academic record, research experience, citizenship, institutional sponsorship, and the proposed area and plan of training must be included in the application. Institutional Training Grants for predoctoral and postdoctoral training: The applicant institution must show the objectives, methodology and resources for the research training program; the qualifications and experience of directing staff; the criteria to be used in selecting individuals for stipend support; and a detailed budget and justification for the amount of grant funds requested. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined in accordance with HHS Regulations 45 CFR, Part 74 and 92, Subpart Q. For SBIR and STTR grants, the applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Grant forms PHS 6246-1 and PHS 6246-2 are used to apply for SBIR Phase I and Phase II, respectively. Grant forms PHS 6246-3 and PHS 6246-4 are used to apply for STTR Phase I and Phase II, respectively. OMB Circular No. A-87 applies to this program.

#### **Preapplication Coordination:**

Research grant applications exceeding \$500,000 direct costs in any yearly budget period will not be accepted unless the NINDS has agreed to accept the application prior to submission (see <http://grants.nih.gov/grants/guide/notice-files/NOT-OD-02-004.html>). Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

#### **Application Procedures:**

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. NIH has transitioned to the SF424 family of forms and electronic submission through Grants.gov by research program or funding mechanism. See <http://era.nih.gov/ElectronicReceipt/> for a list of grant mechanisms that have already transitioned to electronic submission. For applications to be submitted electronically, see <http://era.nih.gov/ElectronicReceipt/>. Effective with the August 8, 2009 submission date, all grant applications for the Individual National Research Service Award (NRSA) Fellowships (F-series) will require electronic submission through Grants.gov to eRA Commons. Paper applications will not be accepted for submissions on or after the August 8 transition. The change from paper submission to electronic applications for grant programs that includes Career Development (K12 and K30) and Training & Development (T&D) has been rescheduled to begin with electronic submission on/after January 25, 2010. The complex mechanisms (P, U) has been delayed until further notice. See <http://grants1.nih.gov/grants/forms.htm> to determine the appropriate paper application package (PHS 398 or PHS 416) to be used.

#### **Award Procedure:**

Research Grant and Training Program applications are reviewed initially by technical panels, composed of scientific authorities, and by the National Advisory Neurological Disorders and Stroke Council composed of 18 leaders in medical science, education, and public affairs. Approved applications will

compete on a merit basis for available funds. Formal award notices are transmitted to the grantee or awardee. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**EXAMPLES OF FUNDED PROJECTS:**

Fiscal Year 2008: Grants support research on neurological disorders such as: (1) Cerebral palsy; (2) disorders of aging including Parkinson's, Huntington's, and Alzheimer's diseases and the dementias; (3) muscular, neuromuscular and demyelinating disorders; (4) neuroendocrine studies; neural aspect of learning and behavior; (5) nervous system tumors, and infectious diseases of the central nervous system. Recently funded applications include studies designed to result in advances for a group of useful glycosidases, as well as mechanistic information for the activator protein that is required for lysosomal degradation of GM2, a glycosphingolipid involved in Tay-Sachs disease. Another study focuses on mechanisms of synapse assembly, specifically the role of membrane associated quanylate kinases in the clustering and targeting of ion channels and receptors at the synapse. One example of the long range goal of a successful competing renewal application is to provide a better understanding of the mechanisms of movement of intracellular organelles along microtubules. Such movement plays a role in the process of fast axonal transport in nerve cells. The specific aims of another funded application are to assess environmental and genetic factors as determinants of hand preference, to determine whether measures of developmental stability can explain individual differences in phenotypic expressions of hand preference and to determine whether handedness is predictive of compromised immunological functioning and/or reproductive biology. A new project is aimed at addressing a series of fundamental issues regarding the mechanisms underlying the spread of synaptic modifications in neural networks. Another series of studies will take advantage of newly developed behavioral procedures and selective ibotenic acid lesions to compare the effects of lesioning hippocampus, subiculum, entorhinal cortex, and perirhinal cortex on learning and memory. Included in this effort are multi-disciplinary clinical research centers on Parkinson's disease, stroke, head and spinal cord injury, epilepsy, and demyelinating disorders, as well as program projects and a large number of individual grants. In head and spinal cord injury research studies, particular emphasis is given to the biomedical events and metabolism following injuries, with a view toward both salvaging

damaged tissue and also creating conditions in which regeneration of injured nerve cells can take place. The clinical research program sponsors clinical trials to evaluate various therapeutic approaches to head and spinal cord injury, epilepsy, multiple sclerosis and other neurologic and neuromuscular disorders. The effects of systemic cancer on the central nervous system are studied, as part of the brain and spinal cord tumor research effort. ### **93.855 ALLERGY, IMMUNOLOGY AND TRANSPLANTATION RESEARCH**

#### **FEDERAL AGENCY:**

National Institutes of Health, Department of Health and Human Services

#### **AUTHORIZATION:**

Small Business Research and Development Enhancement Act of 1992, 42 U.S.C 241; Public Health Service Act, Title IV, Section 301.

#### **OBJECTIVES:**

To assist public and private nonprofit institutions and individuals to establish, expand, and improve biomedical research and research training in allergic and immunologic diseases and related areas to assist public, private, and commercial institutions to conduct developmental research; to produce and test research materials; and to provide research services as required by the agency for research progress in allergic and immunologic diseases. NIAID's Allergy, Immunology and Transplantation Research concerns the immune system as it functions in the maintenance of health and as it malfunctions in the production of diseases. Because of this dual focus, the program encompasses both basic research and clinical research. Small Business Innovation Research (SBIR) program expands and improves private sector participation in biomedical research. The SBIR Program intends to increase and facilitate private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. The Small Business Technology

Transfer (STTR) program stimulates and fosters scientific and technological innovation through cooperative research and development carried out between small business concerns and research institutions; to foster technology transfer between small business concerns and research institutions; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. Research Career Development Awards support the development of scientists during the formative stages of their careers. Individual National Research Service Awards (NRSAs) are made directly to approved applicants for research training in specified biomedical shortage areas. In addition, Institutional National Research Service Awards are made to enable institutions to select and make awards to individuals to receive training under the aegis of their institutional program.

#### **TYPES OF ASSISTANCE:**

##### **PROJECT GRANTS**

#### **USES AND USE RESTRICTIONS:**

Beginning with fiscal year 1998, the direct costs awarded in the first year to a research project grant resulting from a competing renewal application will be limited to no more than a 20 percent increase over the direct costs awarded in the last non-competing year of that grant. Research grants provide funds for salaries, equipment, supplies, and travel. They also afford the collateral benefits of enriching the training experience of research workers. Grantees are expected to be judicious in using these funds. The application for a research grant sets forth specific terms and conditions and requires the signatures of the principal investigator and an official authorized to sign for the institution. Scientists and institutions are under an obligation to expend grant funds prudently for the purposes stated in the application and award document. For Research Career Development Awards (RCDAs) the scientists must demonstrate an outstanding research potential for independent research in the sciences related to transplantation, immunology, allergies, and immunological diseases. For National Research Service Awards (NRSAs), each individual who receives NRSA support is obligated upon termination of the award to comply with certain service and payback provisions. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential of the Phase II application.

#### **Applicant Eligibility:**

Universities, colleges, hospitals, laboratories, and other public or private nonprofit domestic institutions, including State and local units of government, and individuals are eligible to make application for grant support of research by a named principal investigator or a research career development candidate. For-profit organizations are also eligible, with the exception of NRSA. Individual NRSA awardees must be nominated and sponsored by a public or nonprofit private institution having staff and facilities appropriate to the proposed research training program. All NRSA awardees must be citizens or have been admitted to the United States for permanent residence. To be eligible, predoctoral candidates must have completed the baccalaureate degree, and postdoctoral awardees must have a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is being proposed and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which researches proposed and have no more than 500 employees) which "partner" with a research

institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council.

**Beneficiary Eligibility:**

Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

**Credentials/Documentation:**

Research grant applicants must define the objectives, methodology, and facilities for the program, and must present the program director's competence and scientific interest. For SBIR and STTR grants, applicant organization (small business concern) must present in a research plan an idea that has potential for commercialization and furnish evidence that scientific competence, experimental methods, facilities, equipment, and funds requested are appropriate to carry out the plan. Grant forms PHS 6246-1 and PHS 6246-2 are used to apply for SBIR Phase I and Phase II, respectively. Grant forms PHS 6246-3 and PHS 6246-4 are used to apply for STTR Phase I and Phase II, respectively. Applicants for individual NRSA's must include their academic record, research experience, citizenship, institute sponsorship, and the proposed area and plan of training in their applications. The applicant for an institution must specify the objectives, methodology, and resources for the research training program, the qualifications experience of directing staff, the criteria to be used in selecting individuals for award, and a detailed budget justification for the amount of grant funds requested. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. For-profit organizations' costs are determined in accordance with Subpart 31.2 of the Federal Acquisition Regulations. For other grantees, costs will be determined by HHS Regulations 45 CFR, Part 74, Subpart Q. OMB Circular No. A-87 applies to this program.

**TYPES OF ASSISTANCE:**

PROJECT GRANTS

**USES AND USE RESTRICTIONS:**

Grantee agrees to administer the grant in accordance with the regulations and policies governing the research grant programs of the Public Health Service as stated in the terms and conditions on the application for the grant. National Research Service Awards: Awarded to individuals for full-time research training in specified behavioral and biomedical shortage areas. Awardees may utilize some of their time in academic and clinical duties if such work is closely related to their research training. Awards may be made to institutions to enable them to make NRS awards to individuals selected by them. Each individual awardee is obligated upon termination of the award to comply with certain service and payback provisions. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and which are likely to result in commercial products or processes. Only Phase I

awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1- year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application.

**Applicant Eligibility:**

Universities, colleges, medical, dental and nursing schools, schools of public health, laboratories, hospitals, State and local health departments, other public or private institutions, both nonprofit and for-profit, and individuals. National Research Service Award: Support is provided for academic and research training only, in health and health-related areas that are periodically specified by the National Institutes of Health. Individuals with a professional or scientific degree are eligible (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree). Predoctoral research training grants to institutions are also supported. Proposed study must result in biomedical or behavioral research training in a specified shortage area and which may offer opportunity to research health scientists, research clinicians, etc., to broaden their scientific background or to extend their potential for research in health-related areas. Applicants must be citizens of the United States or be admitted to the United States for permanent residency; they also must be nominated and sponsored by a public or private institution having staff and facilities suitable to the proposed research training. Domestic nonprofit organizations may apply for the institutional NRS grant. SBIR: SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. To be eligible for funding, a grant application must be approved for scientific merit and program relevance by a scientific review group and a national advisory council. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To encourage biomedical, social, and behavioral research and research training directed toward greater understanding of the aging process and the diseases, special problems, and needs of people as they age. The National Institute on Aging has established programs to pursue these goals. The Division of Aging Biology emphasizes understanding the basic biological processes of aging. The Division of Geriatrics and Clinical Gerontology supports research to improve the abilities of health care practitioners to respond to the diseases and other clinical problems of older people. The Division of Behavioral and Social Research supports research that will lead to greater understanding of the social, cultural, economic and psychological factors that affect both the process of growing old and the place of older people in society. The Division of Neuroscience fosters research concerned with the age-related changes in the nervous system as well as the related sensory, perceptual, and cognitive processes associated with aging and has a special emphasis on Alzheimer's disease. Small Business Innovation Research (SBIR) program: To expand and improve the SBIR program; to increase private sector commercialization of innovations derived from Federal research and development; to increase small business participation in Federal research and development; and to foster and encourage participation of socially and economically disadvantaged small business concerns and women-owned small business concerns in technological innovation. **TYPES OF ASSISTANCE:**

PROJECT GRANTS

**USES AND USE RESTRICTIONS:**

Research grants are intended to support the direct costs of a project in accordance with an approved budget, plus an appropriate amount for facilities and administrative costs. Grantees must agree to administer the grant in accordance with the regulations and policies governing the research grants program of the Public Health Service. National Research Service Awards (NRSA) (Individual) are made directly to approved applicants for research training in specified biomedical shortage areas. In addition, National Research Service Awards (Institutional) may be made to institutions to enable them to make NRSA to individuals selected by them. Each individual who receives a postdoctoral NRSA is obligated, upon termination of the award, to comply with certain service and payback provisions. Regulations are published in the Code of Federal Regulations and 42 CFR, Part 66. SBIR Phase I grants (of approximately 6 months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. SBIR Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to apply for Phase II support. STTR Phase I grants (normally of 1- year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application.

**Applicant Eligibility:**

Grants: Universities, colleges, medical, dental and nursing schools, schools of

public health, laboratories, hospitals, State and local health departments, other public or private institutions (both for-profit and nonprofit), and individuals.

**National Research Service Award:** Individual NRSAs may be made for postdoctoral training to applicants who hold a professional or scientific degree (M.D., Ph.D., D.D.S., D.O., D.V.M., Sc.D., D.Eng., or equivalent domestic or foreign degree) or for predoctoral training to applicants registered for doctoral research training. Institutional NRSAs may be made for both predoctoral and postdoctoral research training. Predoctoral awardees must have a baccalaureate degree. Applicants must be citizens of the United States or admitted for permanent residency. Individual NRSA awardees must be nominated and sponsored by a public or private nonprofit institution having staff and facilities suitable to the proposed research training. Nonprofit domestic organizations may apply for the Institutional NRSA. SBIR grants can be awarded only to domestic small businesses (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed, and have no more than 500 employees). Primary employment (more than one-half time) of the principal investigator must be with the small business at the time of award and during the conduct of the proposed project. In both Phase I and Phase II, the research must be performed in the U.S. or its possessions. STTR grants can be awarded only to domestic small business concerns (entities that are independently owned and operated for profit, are not dominant in the field in which research is proposed and have no more than 500 employees) which "partner" with a research institution in cooperative research and development. At least 40 percent of the project is to be performed by the small business concern and at least 30 percent by the research institution. In both Phase I and Phase II, the research must be performed in the U.S. and its possessions. To be eligible for funding, a grant application other than a fellowship must be assessed for scientific merit by a scientific review group and receive approval from a national advisory council.

**Beneficiary Eligibility:**

Any nonprofit or for-profit organization, company, or institution engaged in biomedical research.

**Credentials/Documentation:**

The grants application submission process is currently in transition from a paper-based to an electronic format. A current transition-to-electronic-submission timeline for all grant mechanisms in the National Institutes of Health (NIH) Extramural Research Program timeline can be obtained from this site:

**Preapplication Coordination:**

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. For grant programs still requiring submission of paper applications, the standard application forms, as furnished by the Public Health Service (PHS) and required by 45 CFR Part 92 for State and local governments, must be used. Consultation from institute staff is available for all grant programs. Applicants are encouraged to visit the Internet Web sites of the 27 institutes and centers at the NIH to obtain contact information for program staff. Applicants for multi-project awards are strongly encouraged to consult program staff before applying. Applicants may obtain forms and instructions for application preparation and submission at the following Internet Web site: <http://grants.nih.gov/grants/forms.htm> When completed these applications should be submitted to the Center for Scientific Review, National Institutes of Health, Bethesda, MD. Applications are reviewed for scientific merit, evaluation of applicant qualifications, adequacy of the research environment, and significance of the proposed problem to be studied. The application form and instructions for the preparation and submission of applications to the National Research Service Awards Research Training Grants and Fellowships (NRSA) Program, PHS Form 416-1, can be obtained from the following URL (<http://grants.nih.gov/grants/funding/416/phs416.htm>). Prior to making formal application to the NRSA programs, individual NRSA applicants must be nominated and sponsored by a Federal, public or nonprofit institution having

staff and facilities appropriate to the proposed research training program. Information concerning current areas of science being supported by those institutes participating in the NRSA Program at the NIH is available on the individual institute Web sites. A complete list of institutes at NIH is available at: <http://www.nih.gov/icd>. In addition, information about each institute's NRSA research topics and information about the NRSA Program can be obtained from the Division of Extramural Outreach and Information Resources, (see address above). The solicitations include application preparation and submission guidelines and instructions, information about review considerations, and Internet hyperlinks to the SBIR-STTR application and/or contract proposal forms. Applications to NIH's SBIR-STTR Programs must be submitted electronically through the U.S. Federal Government's Internet Web site, Grants.gov: [www.grants.gov](http://www.grants.gov). Submission of SBIR-STTR applications through Grants.gov requires pre-registration, which typically takes 2-4 weeks to complete. Information about registration to submit applications through Grants.gov can be found at: <http://era.nih.gov/ElectronicReceipt/preparing.htm>. Applicants are encouraged to read and refer to the extensive information on electronic submission of grant applications on the NIH Electronic Submission of Grants Applications Internet Web site at: <http://era.nih.gov/ElectronicReceipt>.

**Award Procedure:**

Grants and Institutional NRSAs: Each application receives an initial scientific review by non-NIH scientists and a secondary review by the National Advisory Council on Aging. Individual NRSAs do not receive a secondary review by the National Advisory Council on Aging. Awards are issued by the NIA to the grantee institution. All accepted SBIR/STTR applications are evaluated for scientific and technical merit by an appropriate scientific peer review panel and by a national advisory council or board. All applications receiving a priority score compete for available SBIR/STTR set-aside funds on the basis of scientific and technical merit and commercial potential of the proposed research, program relevance, and program balance among the areas of research.

**Deadlines:**

Individual awards require reports upon award expiration to determine compliance with the service and payback provisions. No performance monitoring is required.

**Audits:**

This program is excluded from coverage under OMB Circular No. A-133. In accordance with OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend \$500,000 or more in a year in Federal awards shall have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

**Records:**

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents.

This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

#### **USES AND USE RESTRICTIONS:**

Research grants and cooperative agreements provide funds for salaries, consultant costs, equipment, supplies, travel, patient costs, alterations and renovations, other expenses, and consortium/contractual costs. The scientists and institutions are under an obligation to expend grant funds prudently for the purposes as stated in the application and award document. The Conference Cooperative Agreement supports scientific meetings and workshops in high priority research areas to encourage exchange of information among scientists. The Center Core Grant is intended to enhance an institution's environment and capability to conduct vision research, to facilitate collaborative studies of the visual system and its disorders, and to attract scientists of diverse disciplines to research on the visual system. Career development awards include the Mentored Clinical Scientist Development Award, Mentored Patient-Oriented Research Career Development Award, Institutional Clinical Scientist Development Program, and the Mid-career Investigator Award in Patient-Oriented Research. The Clinical Study Planning Grant is designed to support the development of an applied clinical research plan. NEI Research Grants for Secondary Data Analysis provide limited support for meritorious research projects that involve secondary analysis of research data generated from clinical trials, population research and other applied clinical vision research projects supported by the Institute. Bioengineering Research Grants (BRG) support basic bioengineering research whose outcomes are likely to advance health or health-related vision research. BRGs may propose to apply basic bioengineering design-directed or hypothesis-drive research to an important vision research area. Bioengineering Research Partnership grants support multidisciplinary research teams applying an integrative, systems approach to develop knowledge and/or methods to prevent, detect, diagnose, or treat diseases of the eye and visual system. NEI Translational Research Program on Therapy for Visual Disorders grants provide support to collaborative, multidisciplinary research focused on the development of novel therapies to restore or prevent the loss of function due to visual diseases and disorders. #### **TYPES OF ASSISTANCE:**

##### **PROJECT GRANTS**

#### **USES AND USE RESTRICTIONS:**

**RESEARCH GRANT PROGRAMS:** Research Grants are available for fundamental and applied research in biomedical informatics and bioinformatics. Areas of research interest include: representation, organization and retrieval of biomedical and biological knowledge, data and images; enhancement of human intellectual capacities through virtual reality, dynamic modeling, artificial intelligence, and machine learning; medical decision-making; linguistic analyses for natural language processing and understanding; informatics topics relevant to public health and informatics for disaster management. Research Project Grants (R01) are available for rigorous scientific research studies and experiments. Exploratory/Developmental Grants (R21) support early, conceptual work and feasibility tests. Other research grants include Informatics Conference Grants and a number of NIH-wide grant programs on high priority

topics such as health literacy. Further information on research grants is available at <http://www.nlm.nih.gov/ep/Grants.html#research>. **TRAINING PROGRAMS:** NLM's University Biomedical Informatics Research Training Programs promote the career training of talented persons who seek research careers in biomedical informatics, bioinformatics, clinical translational informatics, and public health informatics. A competition for these institution-based training grants is announced every five years. University-based training support may be at the pre- or post-doctoral level. Training sites recruit and choose their trainees, and are expected to have well established computer facilities, strong informatics research and education programs, experienced faculty and staff committed to research in the field of biomedical computing and/or bioinformatics, and available courses or experience in computer science, information science, and cognitive sciences. Institutional training grants provide trainee stipends, tuition and fees, travel, and certain institutional support costs. Further information on training grants and fellowships grants is available at <http://www.nlm.nih.gov/ep/Grants.html#training>. **CAREER DEVELOPMENT PROGRAMS:** NLM offers an early career development award to help informatics trainees make the transition to a successful independent research career. NIH Pathway to Independence Career Development awards are for investigators who are making the transition to their first research positions. These grants can last up to 5 years. They include a mentored period, followed by an unmentored period, and provide both salary and a research fund. Research supplement awards are also offered to promote diversity in health-related informatics research, and to promote re-entry into informatics careers. Diversity and re-entry awards are issued as supplements to existing research grants funded by NLM. NLM also participates in the NIH Loan Repayment Award (LRP) program. The LRP awards are available to those who qualify and will commit to two years of clinical informatics research. Further information on career development grants is available at <http://www.nlm.nih.gov/ep/Grants.html#career>. **RESOURCE GRANT PROGRAMS:** Applied Informatics grants (G08) support the development and deployment of knowledge management tools, resources, and services that address identified, unmet needs for a broad audience. In addition, NLM offers Grants for Scholarly Works to support preparation of books in the history and philosophy of biomedicine, bioethics, and public policy areas of importance to health professionals and biomedical scientists. The purpose, restrictions, funding periods and award limits vary for these grant programs. Applied Informatics grants provide support for direct costs only. Knowledge grants provide \$150,000 per year for up to 3 years. Scholarly Works grants are typically up to \$50,000 annually for one, two or three years. Further information on resource grants is available at <http://www.nlm.nih.gov/ep/Grants.html#resource>. **SMALL BUSINESS RESEARCH & DEVELOPMENT PROGRAMS:** Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) grants are made to U.S. small businesses that seek to undertake informatics research and development leading to commercialization. The STTR program requires a small business applicant organization to formally collaborate with a research institution in Phase I and Phase II. SBIR Phase I grants (of approximately 6-months' duration) are to establish the technical merit and feasibility of a proposed research effort that may lead to a commercial product or process. Phase II grants are for the continuation of the research initiated in Phase I and that are likely to result in commercial products or processes. Only Phase I awardees are eligible to receive Phase II support. STTR Phase I grants (normally of 1-year duration) are to determine the scientific, technical, and commercial merit and feasibility of the proposed cooperative effort that has potential for commercial application. Phase II funding is based on results of research initiated in Phase I and scientific and technical merit and commercial potential on Phase II application. Further information on SBIR/STTR grants is available at <http://www.nlm.nih.gov/ep/Grants.html#small>.

#### **Applicant Eligibility:**

Any individual(s) with the skills, knowledge, and resources necessary to carry out the proposed research as the project director/principal investigator (PD/PI) is invited to work with his/her organization to develop an application for support. Individuals from underrepresented racial and ethnic groups as well as individuals with disabilities are always encouraged to apply for NIH support. See Beneficiary Eligibility below for further details.

In addition to teaching, acquiring administrative skills and conducting research, the fellow must also provide health care services, especially as a means of meeting community needs for reducing barriers to health care services to rural or under-served populations. The application should also include a discussion of how the development of underrepresented minority faculty, through use of the fellowship program, will enhance the participant's academic career potential and community service abilities.

Review Criteria are used to review and rank applications. The Minority Faculty Fellowship Program has 6 review criteria:

Need: This includes the extent to which the application describes the problem (e.g., lack of Minority Faculty) and associated factors contributing to this problem.

Faculty Recruitment: This includes the extent to which the school demonstrates that it has the commitment and ability to identify, recruit, and select underrepresented minority individuals who have the potential for teaching, administration, and/or conducting research at a health professions institution.

Faculty Development: This includes the extent to which the schools faculty training program will provide the fellow with the preparation, training, and skills needed to secure a tenured faculty position. The Faculty Development Plan should include the provision of counselors and protected time for research and faculty development. Training may include: pedagogical skills, including teaching experience; program administration; grant writing; research methods and design; and preparation of articles suitable for publication in peer reviewed journals.

Impact: Faculty Training in Providing Health Service: This includes the extent to which the Fellow is available to provide health services to rural or medically underserved populations.

Resources/Capabilities: This includes the extent to which project personnel are qualified by training and/or experience to implement and carry out projects. This includes the capabilities of the applicant organization; and the quality and availability of facilities and personnel to fulfill the needs and requirements of the proposed project.

Support Requested: This includes the extent to which the overall budget, including non-trainee expenses, is cost effective, reasonable, and consistent with the stated objectives and proposed activities. Expenditures are well justified and in-kind contributions are documented.

Evaluative Measures: Describe the methodology that will be used to monitor and evaluate the project results. Evaluative measures must be able to assess the extent to which the program objectives have been met.

93.917 HIV Care Formula Grants; 93.918 Grants to Provide Outpatient Early Intervention Services with Respect to HIV Disease

**EXAMPLES OF FUNDED PROJECTS:**

Fiscal Year 2008: Prevention with HIV Infected Persons seen in Primary Care Settings:

This initiative was designed to address the need for interventions targeting HIV-positive individuals in clinical care, to prevent transmission to uninfected individuals and to prevent re-infection among people who are already infected with the virus. The Special Projects of National Significance (SPNS) program awarded grants to one evaluation center and 15 demonstration sites. The evaluation center provided leadership in the design and evaluation of interventions that will have maximum impact on the theory, practice and policy of HIV prevention in primary health care settings. The 15 clinical demonstration sites were funded to implement and evaluate prevention interventions with HIV-infected individuals seen in primary care settings.

An Evaluation of Innovative Methods for Integrating Buprenorphine Opioid Abuse Treatment in HIV Primary Care:

This initiative began in September 2004 and is comprised of 10 demonstration sites coordinated by a technical assistance/evaluation center. The initiative is directed towards persons with HIV in the primary care setting who also have substance abuse issues. As a demonstration project, this initiative seeks to determine the feasibility and/or effectiveness of integrating buprenorphine opioid abuse treatment into HIV primary care settings. The ultimate goal is to improve the health of HIV substance abusers.

Innovations in Oral Health Care Initiative:

The SPNS Innovations in Oral Health Care Initiative started in September 2006 and funds 15 demonstration sites for up to five years to support organizations using innovative models of care to provide oral health care to HIV-positive, underserved populations in both urban and non-urban settings. Despite the importance of access to quality oral health care, large numbers of people with

HIV reportedly have unmet needs for oral health care. Demonstration sites provide comprehensive oral health care services to HIV-positive clients and develop individualized treatment plans for each patient receiving service. Sites also participate in a multisite evaluation conducted by the Evaluation and Support Center at Boston University.

Information Technology Capacity Building Grants

This initiative promotes the development of standard electronic client information data systems to improve the ability of grantees to report client level data to the Department of Health and Human Services (DHHS). Seventeen Part A and Part B organization received funding in FY08 for the implementation of hardware and software components, including stand alone, network, and other management health information systems that will facilitate the reporting of client level data. In FY09 approximately sixty Part C organizations will receive funds as part of SPNS endeavor in assisting grantees in need of developing adequate information technology infrastructure for purposes of client level data reporting. Fiscal Year 2009: No Current Data Available Fiscal Year 2010: No Current Data Available

**93.938 COOPERATIVE AGREEMENTS TO SUPPORT COMPREHENSIVE SCHOOL HEALTH PROGRAMS TO PREVENT THE SPREAD OF HIV AND OTHER IMPORTANT HEALTH PROBLEMS**

(SHEPSA)

**FEDERAL AGENCY:**

Centers for Disease Control and Prevention, Department of Health and Human Services

**AUTHORIZATION:**

**OBJECTIVES:**

To improve the health and well-being of youth and prepare them to be healthy adults.

**TYPES OF ASSISTANCE:**

PROJECT GRANTS

**USES AND USE RESTRICTIONS:**

Cooperative Agreement funds may be used to support personnel, purchase equipment, supplies, services, and travel directly related to the program activities and consistent with the scope of this program. Cooperative agreement funds are used to help schools prevent sexual risk behaviors that result in HIV infection, especially among youth who are at highest risk. For example, cooperative agreement recipients implement and integrate effective policies and educational strategies to reduce risk behaviors that lead to HIV infection among youth; implement strategies to reduce disparities among sub-populations of youth disproportionately affected by HIV infection and other health problems related to sexual risk behaviors; evaluate the implementation and effectiveness of strategies to reduce risks for HIV infection among youth in schools for the purposes of programmatic improvement and long-range planning. CDC believes that the specific scope and content of HIV education programs in schools should be locally determined and should be consistent with parental and community values. CDC supports local decision-making by providing sound scientific information to grantees who work directly with schools, communities,

and parents. Funds may be expended for written materials, pictorials, audiovisuals, questionnaires or survey instruments, and educational group sessions related to HIV education for youth, school, and college populations if approved in accordance with the document "Content of AIDS-Related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions in Centers for Disease Control Assistance Programs." Cooperative agreement funds are also used to build state education and state health agency partnership and capacity to implement and coordinate school health programs across agencies and within schools. The expected outcome of this effort is to help schools reduce chronic disease risk factors, including tobacco use, poor nutrition, and physical inactivity. For example, cooperative agreement recipients implement and integrate effective policies, environmental changes, and educational strategies to reduce unhealthy behaviors; leverage resources to avoid duplication at the state and local levels; evaluate school health capacity-building efforts while implementing effective strategies to reduce priority health risks. Funds may not be used to conduct research projects, provide direct delivery of patient care or treatment services, and purchase or disseminate condoms. Although public health may have an assurance role in clinical testing and screening, funds are not to be used to provide clinical testing or screening services. Funds may not be used for purchasing computer equipment, office equipment or furnishing, renting or leasing office space, or to support construction or renovation unless specifically approved.

**Audits:**

This program is excluded from coverage under OMB Circular No. A-133. In accordance with OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend \$500,000 or more in a year in Federal awards shall have a single or a program-specific audit conducted for that year. In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement:

1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or

2. an audit that meets the requirements of OMB Circular No. A-133.

In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

**Records:**

Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants.

This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

### EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2008: Given the interdisciplinary nature of global health challenges, the FIC systematically seeks alliances with other Federal agencies, international organizations, development agencies, and non-government organizations. The AIDS International Training and Research Program (AITRP), led by FIC and in partnership with nine NIH institutes, supports research training that is critical to advancing the AIDS research agenda abroad. For example, with FIC support, investigators at the University of Nairobi and University of Washington have evaluated the rates of HIV transmission to infants through breastfeeding. In the new study, pregnant HIV-infected women joined groups that would either breastfeed or formula feed their infants. Among infants born to mothers in the breast-feeding group the risk of becoming HIV-infected increased by 76% in contrast to the formula fed group. Overall, 44 % of the HIV infections in infants born to mothers in the breastfeeding group were due to breast milk. This study clearly shows the need to prevent breast milk transmission and has major implications for development and deployment of public health interventions in resource-poor settings. Additional studies are now underway to address the related and complex social and economic implications on infant feeding. The International Cooperative Biodiversity Groups (ICBG) program is a unique effort, administered by the FIC, to integrate improvement of human health through drug discovery, incentives for ecological conservation, and new models of sustainable economic activity that focus on the environment, health, and equity. This program is based on the belief that the discovery and development of pharmaceutical and other useful agents from natural products can, under appropriate circumstances, promote sustained economic growth in developing countries while conserving the biological habitats from which these products are derived. The ICBG program is a partnership amongst nine Institutes and Centers of the National Institutes of Health (NIH), as well as the National Science Foundation (NSF) and the U.S. Department of Agriculture (USDA). Seven ICBGs are currently working in nine countries across Latin America, Africa and Asia, building research capacity in more than 16 different institutions and training hundreds of individuals. To date, over 5,000 species of plants, animals and microorganisms have been examined for biological activity in more than 22 different therapeutic areas. Numerous publications in chemistry, biodiversity policy, conservation and ethnobiology have emerged from the funded ICBG groups. An example of such accomplishment includes efforts by researchers at Walter Reed Army Institute of Research to characterize a new mode of action for treatments against leishmaniasis and related parasitic diseases, and isolate promising lead compounds for this and other areas from traditional plant use in West Africa. Another example can be found in the stimulus and coordination of efforts for a new marine and terrestrial national park in Panama to protect 2600 square kilometers containing high biodiversity and many endemic species that will preserve the habitat for research projects like the ICBG, as well as other non-destructive activities. ICBG research and conservation initiatives are partially credited for this government's decision to establish Coiba National Park. In 2005, this park was designated a UNESCO

World Heritage Site. FIC established an interagency, interdisciplinary research program in FY 2000 on ecology and infectious diseases. The first 12 projects supported by this interdisciplinary program will assess how large-scale man-made environmental events, such as habitat destruction, urban sprawl, water pollution, introduced species and agricultural intensification, all contribute to the emergence and spread of emerging infectious diseases in animals and humans. With FIC support, scientists at Case Western Reserve University and the Institute of Medical Research in Papua New Guinea have discovered a new mutation in a gene for the Duffy blood group that reduces susceptibility of red blood cells to malaria caused by *Plasmodium vivax* (P.vivax). This parasite must interact with the Duffy blood group factor on cells in order to infect them. Genetic epidemiologists have demonstrated that individuals with two copies of the mutant gene are resistant to P.vivax infection. Targeting the parasite's Duffy-binding protein and its interaction with the Duffy blood group may be a productive strategy for developing a vaccine for vivax malaria. The insights from this study not only suggest that it is feasible, but represent a conceptual model for addressing the more virulent malaria parasite, *Plasmodium falciparum*. Fiscal Year 2009: Funded projects for FY 2009 provided important support to the following goals in the Fogarty International Center's Strategic Plan for 2008-2012. " Goal I: Mobilize the scientific community to address the shifting global burden of disease and disability. Goal II: Bridge the training gap in implementation research. Goal III: Develop human capital to meet global health challenges. Goal IV: Foster a sustainable research environment in low- and middle-income countries. and Goal V: Build strategic alliances and partnerships in global health research and training.. Fiscal Year 2010: Examples of funded projects for FY 2010 will focus on projects which provides important support to the following goals in the Fogarty International Center's Strategic Plan for 2008-2012. " Goal I: Mobilize the scientific community to address the shifting global burden of disease and disability. Goal II: Bridge the training gap in implementation research. Goal III: Develop human capital to meet global health challenges. Goal IV: Foster a sustainable research environment in low- and middle-income countries. and Goal V: Build strategic alliances and partnerships in global health research and training..

**PROGRAM ACCOMPLISHMENTS:**

Fiscal Year 2008: In Indiana, PHHSBG funds were used to support the School Physical Activity and Nutrition Survey to obtain baseline data on nutrition and physical activity habits of children. In Illinois, PHHSBG funds are supporting a new program called HI TRACK to screen all newborns for congenital hearing loss before they leave the hospital. In Kansas, the Center for Health and Wellness in northeast Wichita used PHHSBG funds to provide 9,649 blood pressure checks and referred 1,328 people for follow-up. In New York, PHHSBG funds support the Childhood Lead Poisoning Program, which found 2,568 children to have elevated blood lead levels. In Iowa, PHHSBG funds helped develop Lighten Up Iowa to encourage people to adopt better nutrition and physical activity habits. In Texas, PHHSBG funds were used to establish a Hearne Community Garden in Robertson County to increase awareness of the importance of eating fruits and vegetables. In Wisconsin, PHHSBG funds are helping rural health departments develop multiconditional environmental coalitions to eliminate food and water contamination, radon, asbestos, and other human health hazards. In Nebraska, only 22 (24%) of the 93 counties have a local health department. PHHSBG funds were used to develop a strategic plan to increase awareness of the benefits of a strong public health system. As a result, the state legislature allocated funding to establish district health departments to provide services to the 71 counties that did not have a health department. In Ohio, PHHSBG funds launched 21 cardiovascular health projects to increase the number of heart-healthy communities in areas of Ohio at high risk for heart disease. In California, PHHSBG funds helped to create The California Asthma Among School-Aged Children Project. In Florida, the PHHSBG funds the Pasco Community Intervention Program, which provides health screenings to migrant farm workers of Mexican descent and promotes physical activity through programs such as Folklórico, an intergenerational dance program. In Minnesota, PHHSBG funds were used to develop teaching modules called the Core Essentials of Public Health: Applications for Public Health Nursing. CDC and PHHS Block Grantees worked cooperatively to develop the Grant Application and Reporting System (GARS). GARS is a dynamic accountability tool that formats basic PHHSBG information to identify the role that block grant dollars play in addressing health problems at state and local levels. GARS helps grantees establish health priorities and tie essential program activities to PHHSBG dollars that are spent on public health programs. The GARS applications and reports are submitted electronically to CDC via E-mail or a direct Internet connection. Fiscal Year 2009: Texas  
Williamson County, Texas, faces a sizeable health crisis that puts a large portion of its residents at risk for developing life threatening diseases such as diabetes and heart disease. Community nutrition surveys show that residents of Williamson County are eating foods that are low in nutrition and high in calories. In addition to a higher risk of premature death, an unhealthy diet is also associated with the burden of high costs on the medical care system.

To promote a healthy diet, PHHS Block Grant funds were used to develop and implement the Community Garden and Nutrition Program, which encourages participants to grow and eat their own fresh seasonal fruits and vegetables. Williamson County and Cities Health District (WCCHD) formed partnerships with local volunteer organizations, cities, and school districts to establish the gardening program. Using PHHS Block Grant funds, WCCHD hired a horticulturalist to lead the Community Garden and Nutrition Program. Since 2005, the horticulturalist has designed the first Expert Gardener Certification course, created a gardening education curriculum, and developed and taught, From the Garden to the Table/Del Jard a la Mesa cooking and nutrition classes for both English- and Spanish-speaking participants. Participants are also benefiting from low impact physical activity through their gardening activities.

The Community Garden and Nutrition Program has been successful in raising awareness among county residents about community gardening, improving nutrition, and increasing physical activity. Additionally, the program has Certified 165 Expert Gardener volunteer; Provided gardening, cooking, and nutrition classes to more than 400 participants; Donated more than 5,000 pounds of fresh, organic produce to local food pantries, Meals on Wheels, nursing homes, retirement facilities, and free lunch programs at the senior center; and, Hosted fieldtrips for about 1,700 preschool children and 650 older children.

**Virginia**

Chronic diseases are the leading causes of death for Virginians. It is estimated that 2.2 million Virginians live with one or more of the following chronic diseases: heart disease, stroke, cancer, asthma, diabetes, and arthritis. In addition, chronic diseases account for approximately 75% of the nation's \$1.4 trillion health care costs each year; which is approximately \$24.6 billion for Virginia.

Virginia is proactive about chronic disease prevention and control. Programs such as the Chronic Disease Self-Management Program (CDSMP) are devoted to providing the information and resources needed to develop skills that reduce risks and promote healthier lifestyles. Since 2005, PHHS Block Grant funds have supported the delivery of this program to areas of the state that have a higher prevalence of heart disease, stroke, high blood pressure, and diabetes. In multiple health districts, the CDSMP coordinator recruits adults living with chronic diseases as well as persons caring for an adult who has a chronic disease. Program participants complete a six week course that teaches them self-management strategies such as medication management, pain management, and relaxation techniques.

Because the program offers strategies that promote self-management techniques, participants are reporting an increase in their skills and ability to manage their chronic diseases, utilization of self-management strategies, healthy lifestyle behaviors (e.g., more walking, better diet, and proper use of medications). Furthermore, participants are reporting a decrease in hospital visits, which could potentially save Virginia thousands of dollars in healthcare costs.

In 2006, CDSMP completed three leader trainings that resulted in 25 new leaders who are teaching CDSMP in two health districts. Some program participants have become leaders. With continued support, CDSMP will help Virginians spend less time in the hospital and more time practicing self-management strategies to improve their health.

**Kansas**

Lawrence and Douglas County in Kansas are working to reduce the number of overweight and inactive children and adolescents. In 2001, Wakarusa Valley Elementary school in Lawrence became the first Douglas County school to launch the Get Moving! Program. With PHHS Block Grant funds, the Get Moving! Program encourages additional exercise outside of the regular physical education program in schools, encourages families to exercise together, especially during the winter months, and increases the percentage of children and families who participate in regular physical activity. The program elements include

A supply of Get Moving! Cards. Participants use the cards to detail up to 12.5 hours of physical activity recorded in 30-minute increments.

Any type of physical activity done outside of school time may be recorded on the card.

Participants receive extra points for involving a buddy (family or friend) in the activity.

Participants record the days they consumed at least five fruits and vegetables.

Prizes are awarded for the first three cards returned during the year. A pool pass to the Indoor or Outdoor Lawrence Aquatic Center is awarded when the fourth card is turned in.

The class with the highest participation percentage wins a pool party.

Over the past five years, the Get Moving! Program has grown to include all 26 schools and educational service centers in Lawrence and 20 additional elementary schools in surrounding communities. Between the 2004 and 2005 school year, a number of successes were noted: the number of students completing at least four cards jumped from 256 to 753; there was an increase in over 6,000 hours of physical activity, recorded in 30-minute increments, among participants in 1st-6th grades; and the number of cards turned in increased by 2,312 in just one year..

What began as an idea in one Douglas county school has become an effective and fun way to combat the growing epidemic of childhood obesity and the chronic health issues attributable to this condition. To save lives and health care dollars, prevention needs to start early and Get Moving! is a step in the right direction. Fiscal Year 2010: No Current Data Available

**97.022 FLOOD INSURANCE**

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq.

**OBJECTIVES:**

To enable persons to purchase insurance against physical damage to or loss of buildings and/or contents therein caused by floods, mudslide (i.e., mudflow), or flood-related erosion, thereby reducing Federal disaster assistance payments, and to promote wise floodplain management practices in the Nation's flood-prone and mudflow-prone areas.

**TYPES OF ASSISTANCE:**

INSURANCE

**USES AND USE RESTRICTIONS:**

Under the Emergency Program of the National Flood Insurance Program (NFIP), property owners may buy flood insurance at a chargeable premium rate that is generally lower than a normal actuarial rate. Maximum amounts of such

coverage available under the Emergency Program of the NFIP are: \$35,000 for a single-family home (higher limits are available in Hawaii, Alaska, Guam and the U.S. Virgin Islands), \$100,000 for all other residential structures, plus \$10,000 per dwelling unit for any contents; for nonresidential structures, an aggregate liability for any single structure of \$100,000 and for contents, \$100,000 per unit. Once a detailed flood insurance risk study has been completed and the community enters the Regular Program, additional coverage on existing properties may be purchased at actuarial rates. As of March 1, 1995, the maximum coverage available under the Regular Program is: \$250,000 for single-family residential structures; 250,000 times this number of condominium units for a residential condominium building, \$250,000 for all other residential structures; \$100,000 for contents per dwelling unit; \$500,000 for non-residential structures; \$500,000 for contents of non-residential structures. Effective October 1, 1983, coverage is no longer available for finished portions of basements with the exception of equipment necessary to make the building habitable, (e.g., furnaces). Properties built within identified special flood hazard areas after the effective date of the Flood Insurance Rate Map are eligible for flood insurance only at actuarial rates. Under the Flood Disaster Protection Act of 1973, effective March 2, 1974, flood insurance must be purchased as a condition of any form of Federal or federally-related financial assistance, including Federal grants, disaster assistance, and mortgage loans from federally regulated lending institutions and FHA, Farmers Home Administration, VA or guaranteed mortgages when the improved real property to which the transaction applies is located within identified special flood hazard areas where flood insurance is available. Communities having one or more identified special flood hazard areas must enter into the National Flood Insurance Program within 1 year of the official identification of their special flood hazard areas or be denied Federal financial assistance for acquisition or construction purposes within those areas. Federally regulated conventional sources (i.e., banks, savings and loan associations, or similar lending institutions) are permitted to make loans secured by improved real estate or Manufactured Housing located or to be located in the identified special flood hazard area of a nonparticipating community which has been formally identified as flood-prone for more than 1 year, but Federal disaster assistance for acquisition or construction purposes will not be available in the event of flood or flood-related property damage. The conventional lender is statutorily required to notify the borrower, before making a loan in such an area, whether Federal disaster assistance will be available to the property. The Coastal Barrier Improvement Act of 1990 amended the Coastal Barrier Resources Act of 1982 by greatly enlarging the acreage included in the designated coastal barrier resources system unit. The 1990 Act also added "otherwise protected areas." "Otherwise protected areas" are defined as an undeveloped coastal barrier within the boundaries of an area established under Federal, State, or local law, or held by a qualified organization, primarily for wildlife refuge, sanctuary, recreational or natural resource conservation purposes. The 1982 Act prohibits the sale of new flood insurance on or after October 1, 1983 for new construction or substantial improvements of structures located on any coastal barrier with the Coastal Barrier Resources System designated by this Act. The 1990 Act prohibits the sale of new flood insurance on or after November 16, 1990 for new construction or substantial improvements of structures located on any new coastal barrier within the Coastal Barrier Resources System designated or modified by this Act. It also prohibits the sale of new flood insurance on or after November 16, 1991 for new construction or substantial improvements of structures located in an otherwise protected area that are not used in a manner consistent with the purpose of the otherwise protected area. Subsequent pieces of legislation have added or deleted areas. Also, the Secretary of the Interior is authorized to make technical revisions and modifications to the boundaries of such units as may be necessary.

**Applicant Eligibility:**

Flood insurance can be made available in any community (a State or political subdivision thereof with authority to adopt and enforce floodplain management measures for the areas within its jurisdiction) that submits a properly completed application to FEMA including copies of enacted floodplain management measures consistent with the National Flood Insurance Program regulations.

**Beneficiary Eligibility:**

Residents, business, and property owners in applicant community, in which like States can insure municipal structures.

**Credentials/Documentation:**

Same as Applicant Eligibility. This program is excluded from coverage under OMB Circular No. A-87.

**Preapplication Coordination:**

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Community officials must submit an NFIP eligibility application form, which is available from the FEMA, together with: copies of adopted floodplain management measures meeting the minimum standards of 44 CFR Section 60.3(a), 60.3(b), 60.3(c), 60.3(d), and/or 60.3(e), as appropriate for the type of flood hazards identified; a list of any incorporated communities within the applicant's boundaries; and estimates of population and, by kind, of buildings situated in the known flood-prone areas of the community. Such Applications should be submitted to the Mitigation Directorate, FEMA, Washington, DC 20472. This program is excluded from coverage under OMB Circular No. A-110.

**Award Procedure:**

FEMA reviews the application and if complete, designates the community as participating. The community is informed of its admission, and notice is published in the Federal Register. Residents and property owners may then purchase flood insurance through any property insurance agent or broker.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

For complete applications, a maximum of 10 working days is allowed for review and notification.

Communities with one or more identified special flood hazard areas must enter the program within 1 year after the identification of those areas or else prohibitions against Federally related financial assistance for acquisition or construction purposes in identified special flood hazard areas take force. Once the community does qualify, after the prescribed date, these prohibitions are removed. Adequate floodplain management measures must be in effect within 6 months of the date that the special flood hazard area is identified and within 6 months of the date flood water surface elevations are provided.

**Appeals:**

Communities are allowed to appeal flood-prone identification and are also given an opportunity to appeal proposed flood elevation determinations for new construction and substantial improvement of existing structures in the special flood hazard areas. Notice of the proposed elevations is published in the Federal Register and is sent directly to the local governments. Following notification to the local government, the notice of proposed flood elevation determinations is published twice during a 10-day period in a prominent newspaper. The local community and its individual residents then have 90 days following the second newspaper notice to submit any scientific or technical data that tend to negate or contradict FEMA's findings. If a conflict in data exists and cannot be resolved at the community level, the community consolidates all individual appeals for review by FEMA. FEMA shall resolve the appeals by consultation with officials of the local government, or by submission of conflicting data to an independent scientific body, or by administrative hearings.

**97.023 COMMUNITY ASSISTANCE PROGRAM STATE SUPPORT SERVICES ELEMENT (CAP-SSSE)**

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

Flood Disaster Protection Act of 1973, as amended, 42 U.S.C 4002 et seq; National Flood Insurance Act of 1968, as amended and 44 CFR Parts 59 and 60, 42 U.S.C 4001 et seq.

**OBJECTIVES:**

The purpose of this program is to provide, through a State grant mechanism, a means to ensure that communities participating in the National Flood Insurance Program (NFIP) are achieving flood loss reduction goals of the NFIP. CAP-SSSE funds are to be used by States to provide technical assistance to NFIP communities, to evaluate community implementation/performance of NFIP floodplain management activities, and to build State and community floodplain management expertise and capacity.

**TYPES OF ASSISTANCE:**

Cooperative Agreements

**USES AND USE RESTRICTIONS:**

Uses: CAP-SSSE funds are used for activities that support the NFIP. Such activities include the fostering of effective floodplain management programs in participating communities and assisting non-participating communities in enrolling in the NFIP. Restrictions: CAP-SSSE funds cannot be used for conducting floodplain studies or developing floodplain maps. Further, if a State does not have the necessary expertise and capability to conduct CAP-SSSE activities, the Region and State must develop a remedial plan. If the necessary expertise and capability does not develop in accordance with the remedial plan, the following year's CAP-SSSE funding may be reduced or withheld. For complete information on Uses and Restrictions, refer to program guidance. Applicants must be a qualified State that intends to provide technical assistance to NFIP communities. Refer to program guidance for complete information on applicant eligibility.

**Applicant Eligibility:**

FEMA's ten Regional Offices will provide each State Governor's Office with the grant application package. The CAP-SSSE is administered through the Mitigation Division of each FEMA Regional Office. FEMA's Regional Offices will contact eligible States to negotiate a mutually acceptable grant agreement. Funding is made available when the grant agreement is negotiated and agreed upon. Continued participation in the CAP-SSSE is dependent upon completing activities described in the grant agreement. The SSSE is designed to utilize the floodplain management capabilities of individual States in a cost effective cooperative agreement with FEMA. A State's participation in the SSSE is voluntary and is contingent upon need and skill level capability.

**Beneficiary Eligibility:**

The direct beneficiary of the CAP-SSSE is the individual State receiving financial assistance. In addition, participating NFIP communities and local governments which receive flood plain management and flood loss reduction assistance provided by the State are also (indirect) beneficiaries as a consequence of the services they receive.

**Credentials/Documentation:**

A State's participation in the CAP-SSSE is voluntary and is contingent upon need and skill level capability as determined by FEMA. In addition, applicant states are required to provide any relevant documentation contained in the grant agreement package provided by FEMA. OMB Circular No. A-87 applies to this program.

**Preapplication Coordination:**

FEMA's ten Regional Offices will provide each State Governor's Office with the grant application package. The CAP-SSSE is administered through the Mitigation Division of each FEMA Regional Office. **97.024 EMERGENCY FOOD AND SHELTER NATIONAL BOARD PROGRAM**

(Emergency Food and Shelter)

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

Stewart B. McKinney Homeless Assistance Act of 1987, as amended, Title 3, Section 301, Public Law 100-77, 42 U.S.C 11331-11346.

**OBJECTIVES:**

To supplement and expand ongoing efforts to provide shelter, food, and supportive services for needy families and individuals. To strengthen efforts to create more effective and innovative local programs by providing supplemental funding for them. To conduct minimum rehabilitation of existing mass shelter or mass feeding facilities, but only to the extent necessary to make facilities safe, sanitary and bring them into compliance with local building codes.

**TYPES OF ASSISTANCE:**

Project Grants

**USES AND USE RESTRICTIONS:**

Food and related expenses (such as transporting food/food preparation and serving equipment); mass shelter; other shelter (such as hotels and motels); and rent/mortgage and/or utility assistance limited to one month; and limited repairs to feeding and sheltering facilities. Emergency Food and Shelter (EFS) National Board Program (EFSP) funds cannot be used for: rental security, deposits of any kind, cash payments of any kind, lobbying efforts, salaries (except as administrative allowance and limited to that total allowance of 2 percent of total award), purchases or improvements of an individual's private property, telephone costs, repairs to government-owned or profit-making facilities and any payments for services not incurred. For a complete listing on eligible and ineligible costs under this program, refer to the current Phase (fiscal year): Responsibilities and Requirements, issued by the Emergency Food and Shelter

Program National Board.

**Applicant Eligibility:**

Since funds are initially distributed to jurisdictions based on either a National Board formula or recommendations from State Set-Aside Committees, there is no application process for jurisdictions. All jurisdictions are considered within the National Board formula and all jurisdictions in an individual State may be considered by the State Set-Aside Committee for either initial or additional (if the jurisdiction had previously been selected by the National Board) funding.

**Beneficiary Eligibility:**

The law directs that the Local Boards, which manage the program at the local level, shall "determine which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers." The range of local participant groups includes the affiliates of the National Board membership which consists of the American Red Cross, Catholic Charities, USA, United Jewish Communities, National Council of Churches of Christ in the USA, The Salvation Army and United Way of America, with a local government representative replacing FEMA. Also participating are thousands of independent nonprofits (such as Community Action Agencies and Food Banks and food pantries) which provide food and/or shelter services. Due to the broad category of people in need of such emergency services, the providers can include specialized groups such as domestic violence shelters, Native American organizations, organizations providing food or shelter to: AIDS patients, handicapped individuals, the elderly, homeless veterans, non-wards of the State teenage runaways, and many other groups with emergency food and shelter needs. As noted earlier, the decisions on selections are made through the consensus of the Local Board as they have assessed their community's most urgent needs. It is important that such agencies use these funds to supplement, not replace, their current efforts. This program is intended to supplement ongoing programs and allow them to extend and expand upon their existing services.

**Credentials/Documentation:**

The program employs a Local Recipient Organization Certification Form. This form certifies an applicant's status (i.e., that it is a nonprofit or government agency capable of delivering eligible services) and that it will abide by the program guidelines (both on eligible spending and reporting requests), and comply with other fiscal and program rules so stipulated. This program is excluded from coverage under OMB Circular No. A-87.

**Preapplication Coordination:**

At the local level, following award notification, a Local Board is formed. That board then advertises the availability of the funds to local nonprofit agencies and governments. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. There is no application process for local jurisdictions since the award notification to local jurisdictions is based on either a National Board formula or recommendations from State Set-Aside Committees.

**Award Procedure:**

Applications or plans are submitted to the National Board and reviewed by the National Board program.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

Refer to announcement or application guidance for further information.

**Appeals:**

Refer to the Emergency Food and Shelter National Board Program, "Phase 27: Responsibilities and Requirements" document for information on the appeal process. Those cases that cannot be handled locally should be referred to the National Board giving details on action that has been taken up to that point. Any allegations regarding fraud or the misuse of funds should be referred directly to the DHS Office of Inspector General.

Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. FMAG

**FEDERAL AGENCY:**

Department of Homeland Security

**AUTHORIZATION:**

Robert T. Stafford Disaster Relief and Emergency Act, Section 420, Public Law 93-288, 42 U.S.C 5187, as amended by disaster Mitigation Act of 2000. On October 30, 2001, the Fire Management Assistance Grant Program replaced the Fire Suppression Assistance Program.

**OBJECTIVES:**

To provide grants to States, Indian tribal governments and local governments for the mitigation, management and control of any fire burning on publicly (nonfederal) or privately owned forest or grassland that threatens such destruction as would constitute a major disaster.

**TYPES OF ASSISTANCE:**

PROJECT GRANTS; PROVISION OF SPECIALIZED SERVICES

**USES AND USE RESTRICTIONS:**

Fire Management Assistance Grants are made in the form of cost-sharing grants for the mitigation, management, and control of any fire on publicly (nonfederal) or privately owned forestland or grassland that threatens such destruction as would constitute a major disaster. The Fire Management Assistance Grant Program, authorized by the Stafford Act and amended by the Disaster Mitigation Act of 2000, provides for the mitigation, management and control of fires that threaten such destruction as would constitute a major disaster.

**Applicant Eligibility:**

State governments and Indian tribal governments are eligible for fire management assistance grants. The State or Indian tribal government may be the Grantee. The Grantee is the government to which a grant is awarded, and is accountable for the use of funds provided.

**Beneficiary Eligibility:**

The State Government and/or Indian tribal government, acting as the Grantee, is the government to which the grant is awarded and which is accountable for the use of the funds provided. Other State entities, Indian tribal governments and local governments are eligible to apply for subgrants.

**Credentials/Documentation:**

Costs will be determined in accordance with FEMA Regulations, 44 CFR Part 204. Federal funds will be awarded to subgrantees in accordance with State law and procedure and in compliance with 44 CFR Part 13 and 204. Grant awards will be determined in accordance with OMB Circulars No. A-87 and No. A-102 for State and local governments. OMB Circular No. A-87 applies to this program.

**Preapplication Coordination:**

A FEMA-State Agreement and/or Indian tribal Agreement for the Fire Management Assistance Grant Program (the agreement) is signed by the Governor/Indian tribal government and the Regional Administrator at the beginning of the calendar year or after a State's first fire management assistance grant declaration in a calendar year. The agreement is amended for subsequent approvals of assistance for the remainder of the year. This agreement outlines the level of fire management assistance to be provided for all fires declared during the calendar year, and contains the necessary terms and conditions for requesting and receiving assistance. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

**Application Procedures:**

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. The Governor, Governor's Authorized Representative, or Indian tribal government may request a fire management assistance declaration through the FEMA Regional Administrator. To expedite the request, the State or Indian tribal government may submit a telephone request to the Regional Administrator, promptly followed by a confirming message or letter. The Assistant Administrator of the Disaster Assistance Directorate, shall render a decision on the State's request and notify the Regional Administrator of this decision. This decision may be relayed by telephone, to be followed by a written determination.

**Award Procedure:**

Requests for fire management assistance declarations must be submitted while a fire is burning uncontrolled and threatens such destruction as would constitute a major disaster. The State should submit its grant application within nine (9) months of the declaration. Upon receipt of a written request from the State, the Regional Administrator may grant an extension for up to three (3) months.

**Deadlines:**

Contact the headquarters or regional office, as appropriate, for application deadlines.

**Range of Approval/Disapproval Time:**

From 1 hour to 72 hours.

**Appeals:**

States have the recourse to two types of appeals under the Fire Management Assistance Grant Program. Under the first type of appeal, a Governor, Governor's Authorized Representative, or Indian tribal government may appeal a denial of its request for a fire management assistance declaration. The State/Indian tribal government should submit this one-time request for reconsideration in writing, with additional information, to the Assistant Administrator of the Disaster Assistance Directorate through the Regional Administrator. The appeal must be submitted within 30 days of the date of the letter denying the State's/Indian tribal government's request. The Assistant Administrator will render the final determination on this type of appeal within 90 days of receipt of the appeal or receipt of the additional information requested. The Assistant Administrator may extend the 30-day period provided that the Governor, the Governor's Authorized Representative, or Indian tribal government submits a written request for a time extension within the 30-day period. The Assistant Administrator will evaluate the need for an extension based on the reasons cited in the request and either approve or deny the request for an extension. Under the second type of appeal, an applicant or subgrantee may appeal any determination FEMA makes under an approved fire management assistance declaration through a two level appeal process. Appellants must file appeals within 60 days after receipt of a notice of the action that is being appealed. The Grantee will review and forward appeals from an applicant or subgrantee, with a written recommendation, to the Regional Administrator within 60 days of receipt. The Regional Administrator will render a determination on first appeals for fire management assistance grant-related decisions within 90 days following receipt of the appeal or requested additional information. In the event the Regional Administrator denies the appeal, the applicant may submit a second-level appeal to the Assistant Administrator of the Disaster Assistance Directorate. Within 90 days following receipt of a second appeal, the Assistant Administrator, will notify the grantee in writing of the disposition of the appeal or of the need for additional information. If the decision is to grant the appeal, the Regional Administrator will take appropriate implementing action. The decision of the Assistant Administrator at the second appeal level shall be the final administrative decision of FEMA.

**Renewals:**

None.

**Formula and Matching Requirements:**

Statutory formulas are not applicable to this program.

Matching Requirements: Fire Management Assistance Grants may be available to States on a 75 percent Federal/25 percent nonfederal cost-sharing basis when we determine that the State's application demonstrates either of the following: total eligible costs for the declared fire meet or exceed the individual fire cost threshold or total costs of all declared and non-declared fires in a given

calendar year meet the cumulative fire cost threshold. The individual fire cost threshold for a State for FY 2009 is the greater of \$100,000 or five percent x \$1.31 x state population. The cumulative fire cost threshold for a State FY 2009 is the greater of \$500,000 or three times the five percent x \$1.31 x State population. Both formulas are adjusted annually for inflation using the Consumer Price Index for All Urban Consumers published annually by the Department of Labor.

MOE requirements are not applicable to this program.

**Length and Time Phasing of Assistance:**

The time interval during which a declared fire occurs is the incident period. Generally costs must be incurred during the incident period to be considered eligible. Pre-positioning of resources may be approved for Federal funding up to a maximum of 21 days before a declared fire. Mobilization and demobilization also occur outside the incident period and are eligible for Federal funding. Temporary repair work must be completed within 30 days of the close of the incident period for the declared fire. See the following for information on how assistance is awarded/released: Payment based on Project need.

**Reports:**

Within 90 days of the Performance Period expiration date, the State must submit a Financial Status Report (FEMA Form 20-10) which reports all costs incurred within the incident period and all administrative costs incurred within the performance period. The performance period, defined on the SF-424, may be 9 months from the close of the incident period and may be extended for an additional 3 months by the Regional Administrator. During the performance period the Grantee will submit the subgrants, which document eligible costs; FEMA will review the eligibility of costs, and process, obligate, and close-out the grant. See program guidance. See program guidance. See program guidance. See program guidance.

**Audits:**

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.
