RELATED PROGRAMS:

15.605 Sport Fish Restoration Program; 15.611 Wildlife Restoration; 15.614 Coastal Wetlands Planning, Protection and Restoration Act; 15.635 Neotropical Migratory Bird Conservation

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: Southern San Joaquin Valley Wetland Habitat, California This project will re-establish habitats and increase resources for populations of priority bird species. The majority of the project sites currently provide low resource values on marginal habitats for waterbirds. The partners have developed strategies to create new habitats and improve existing ones by enhancing habitat diversity, increasing water supplies and creating infrastructure that will allow for intensified habitat management. All of these benefits will develop high quality habitats for migrating, wintering and breeding waterbirds. Funding the Kern National Wildlife Refuge, Mendota Wildlife Area and nine landowner projects will allow for broad landscape-based habitat improvements on 4,189 acres of habitat to benefit migratory waterbirds and other wetland-dependent wildlife.

San Luis Valley Rio Grande Initiative, Colorado - The San Luis Valley Rio Grande Initiative III will protect and conserve vital habitat at the headwaters of the Rio Grande river corridor in the San Luis Valley. Launched in 2007, the initiative is a collaborative, community-based effort to conserve the areas riparian corridor, associated wetlands and senior water rights. This project will expand permanent land protection around core wetland conservation areas through acquisition of four river corridor conservation easements. Partners will protect 1,875 acres of private land, including 844 wetland acres, four river miles of the Rio Grande, and associated senior water rights. It will also enhance 101 acres on the Alamosa National Wildlife Refuge. Project activities will benefit breeding, migrating and wintering waterfowl, shorebirds, waterbirds and other wetland-dependent species.

Vermilion Bay Coastal Wetlands Restoration, Louisiana - The purpose of this project is to restore 7,605 acres of fresh to intermediate estuarine intertidal wetlands on private lands in coastal Louisiana. The project area contains migration and wintering habitat for priority waterfowl species, including the northern pintail, lesser and greater scaup, mottled duck and mallard, and other

priority bird species. Fiscal Year 2012: Prairies Without Borders phase 3, South Dakota - The goal of Prairies Without Borders is to use multiple NAWCA grants to protect 26,000 acres of wetlands and grasslands in the eastern areas of the Prairie Pothole Region. The long-term benefits of these actions are primarily accomplished through perpetual conservation easements and the promotion of sustainable grassland ranching. The 3,217 acres of habitat preserved by this project will provide direct benefits not only to waterfowl, but also to numerous species of shorebirds, wading birds, marsh birds, and grassland songbirds and other grassland-dependent wildlife species.

Heads of the Estuaries Partnership phase 2, Maine - The Heads of the Estuaries Partnership, a consortium of government agencies, regional conservation organizations and local land trusts, is engaged in a five-year campaign to protect 25 miles of coastline, 5,000 acres of coastal uplands and 2,500 acres of coastal wetlands along the tidal embayments stretching from the Corea Peninsula to Machias Bay in coastal Downeast Maine a region of concentrated, high-value wetland habitat for waterfowl and shorebirds. This project will permanently protect 11 parcels totaling 1,217 acres. Surveys indicate that the wetlands targeted for permanent protection provide habitat for waterfowl, and the project region provides roosting and feeding areas for tens of thousands of migrating shorebirds of at least 36 species.

Ace Basin phase 6: Edisto River Corridor, South Carolina - The purpose of the ACE Basin: Edisto River Corridor initiative is to create the largest forested wetland preserve possible (20,000 acres or more) at the Audubon Center and Sanctuary at the Francis Beidler Forest (Beidler Forest) in Four Holes Swamp, and to add substantively to the matrix of protected lands within the riparian and coastal zone of the Edisto River and the ACE Basin. Beidler Forest in Four Holes Swamp of the Edisto River Corridor is on the Ramsar List of Wetlands of International Importance and is ACE a Registered National Natural Landmark. This proposal is the sixth phase of a multi-year project to protect strategic freshwater, forested and estuarine wetlands, and associated uplands in the ACE Basin and the Edisto River corridor, and will protect 13 new tracts, totaling 2,803 new acres, including 935 acres of wetlands and 1,868 acres of upland to benefit breeding, migrating, and wintering birds. Fiscal Year 2013: Program has not yet selected projects for funding. Program anticipates funding projects that will provide long-term conservation for wetlands-associated migratory birds and other wetlands-associated wildlife.

CRITERIA FOR SELECTING PROPOSALS:

The Council selects proposals based on factors given in Section 5 of the North American Wetlands Conservation Act, results of site visits, available funds and other factors deemed important to meeting Act objectives. U.S. standard and small grant proposals are additionally evaluated against answers to Technical Assessment Questions taken from Section 5 of the Act and annually published on the web site in application instructions.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: Between 2003 and 2011 the Illinois Department of Natural Resources purchased 102 acres at Hegewisch Marsh for conservation of critical habitat for species of concern. A conservation easement in the form of a Land & Water Reserve was granted to the Illinois Nature Preserves Commission. This site provides optimum nesting habitat for the State-listed little blue heron, yellow-headed blackbird, pied-billed grebe and common moorhen along with migrating waterfowl, shorebirds and neo-tropical migrants.

In New Mexico, funds supported design and construction of a wildlife education center that utilizes existing landscape attributes to enhance conservation education opportunities. The project resulted in improved coordination and implementation of wildlife conservation education programs currently conducted by staff and local volunteers. It also facilitated coordination with local school districts to integrate wildlife education activities into their science program.

In Minnesota, funds supported acquisition of 12 tracts of wild land valued at approximately \$4,000,000. Through this grant, additional wildlife production and habitat, public hunting and trapping and other recreational uses compatible with wildlife were established. These lands are also important for conserving water, protecting unique vegetation communities, buffering encroaching development, and preserving natural beauty and open space. Lands acquired for wildlife purposes ensure the future status of wildlife populations and quality outdoor experiences. Fiscal Year 2012: Massachusetts incorporated the property into the Wildlife Management Area system through the fee purchase of 106.95 acres of important habitat. The purchase permanently protects the parcel from development, provides critical habitat for species of greatest conservation need, and protects a clearly identified, vital natural resource area. The purchase also expands compatible recreational opportunities for hunters, fishermen, naturalists, birders and anyone with an interest in the outdoors.

In the District of Columbia, a project teaches citizens the importance of backyard habitats, how citizens can develop them and how these improved sites can help provide needed habitat for wildlife (especially birds and small mammals) while enhancing peoples' properties and environments. Participants increase their knowledge and understanding of local wildlife ecology while developing 200 active backyard habitat sites to increase wildlife habitat for urban species, increase citizen awareness and knowledge of the importance of habitat and how they can take action to help provide it, and reduce the amount of fertilizer and pesticides (nonpoint source pollution) used on District lands.

In Illinois, funds result in production of 27,000,000 fish at fish hatcheries each year, which are stocked in public waters throughout the State, promoting high quality fishing in Illinois. These efforts establish sport fisheries in new waters, restore and maintain sport fisheries in existing waters, and reduce the gap between supply and demand for quality angling days in Illinois. Fiscal Year 2013: New Hampshire plans for wildlife management on public lands, develops and maintains these lands for wildlife, and provides for consumptive and non-consumptive public use of these resources on 208,400 acres of owned or leased land at 326 sites statewide. The benefits from this work include more diverse and stable wildlife populations and more, better, and safer access to wildlife related recreation in New Hampshire.

In Minnesota, funds restore, conserve, manage and enhance approximately 70,000 acres of farmland, prairie, and grassland habitats on State Wildlife Management Areas (WMAs) annually, as well as 30,000 acres of forest habitats located on State WMAs. The project also restores wetlands habitats on 200,000 acres and 1,000 existing sites on State WMAs annually. The project results in increased wildlife-dependant recreation by providing hunting opportunities, and improved wildlife habitat.

In Rhode Island, funds support construction of a building to provide conservation development activities. This building replaces the obsolete structure at Round Top WMA which was destroyed by fire in March, 2009. This building provides improved facilities for housing and repairing maintenance equipment used on Fish and Wildlife public access facilities and management areas in Northern Rhode Island.

CRITERIA FOR SELECTING PROPOSALS:

The State, the District of Columbia, Commonwealth, or territorial agency having lead responsibility for the management of their wildlife resources must submit the projects. The State, the District of Columbia, Commonwealth, or territorial agency selects those projects submitted for funding under the program. If approved, projects must meet the basic criteria outlined in the regulations and the Fish and Wildlife Service Manual.

15.611 Wildlife Restoration

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: The Mississippi Department of Wildlife, Fisheries and Parks worked to complete and maintain the Turcotte Shooting Range and education facility in order to promote public shooting sports and introduce hunting among youth and physically impaired persons. Advanced and regular hunter education, instructor training and public programs will be held at the facility. This project will ensure that hunting in Mississippi remains a safe and responsible recreational activity.

The Kentucky Department of Fish and Wildlife Resources certified educators and others to teach archery shooting and safety skills to 350,000 Kentucky physical education students in grades 4 through 12. The Archery in the Schools program gives many young people exposure to a sport they otherwise would not have been introduced to. This also provides an avenue for introducing Hunter Education to a non-traditional audience through activities and clubs outside the school program thus enhancing Kentucky's Hunter Education Program.

The Colorado Department of Natural Resources continued to upgrade the indoor range facility at the Northwest Facility Center located in Grand Junction. Upgrades include the following: bullet traps range lane target retriever system, ventilation system, electrical, and steel wall plating protection. The indoor shooting range will allow hunters and the shooting sports enthusiast to practice and improve their shooting skills at a supervised and safe facility. This will help ensure an enjoyable experience for all individuals interested in shooting sports. Fiscal Year 2012: The Louisiana Department of Wildlife and Fisheries will continue work at the Bodcau Shooting Range and provide additional features to improve and enhance range. The Department will also: develop the Floy McElroy Wildlife Management Area to provide hunter education instruction for the general public; and provide for shotgun shooting opportunities at the Lafourche Parish Range for the public in an area of the state where few exist. Other planned activities include: the use of enhancement funding to maintain and upgrade various shooting ranges for public recreational shooting opportunities.

The North Carolina Wildlife Resources Commission will provide an enhanced level of support and service to volunteer instructors in the Hunter Education Program which will in turn improve instructor retention rates and increase the quality of student instruction. The Commission will also continue to develop and refine an Internet Hunter Education course. Archery education, including a pilot program for youth archery in schools will be developed. Muzzleloader education, advanced wing shooting education, and tree stand safety will be added to the overall program. All of these components will contribute to increased hunter education classes offered to the public via internet and traditional classes, educate archery and muzzleloader hunters about the use of their specialized equipment and safety, educate bird hunters on bird wounding loss and how to increase their hunting skills to reduce loss, and how to use fall restraint systems for various elevated tree stand types thus reducing tree stand accidents.

The Tennessee Wildlife Resources Agency will be working on educating the public regarding deer herd health, population dynamics, and safety. The agency will be increasing the number of public hunter education programs and further developing their Scholastic Clay Target Program to provide for a safe and convenient location for participants. Fiscal Year 2013: Program has not yet selected projects for funding. Program anticipates funding Section 10 Hunter Educational projects and activities that are eligible each year.

RELATED PROGRAMS:

15.605 Sport Fish Restoration Program; 15.611 Wildlife Restoration

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: Cornell University is working on a project to assess State agency capacities to manage fish and wildlife health. The goal is to identify the State agencies' primary fish and wildlife health management concerns; factors that can facilitate and inhibit the ability of agencies to address these concerns; determine which factors are currently most limiting the effectiveness of agencies at addressing fish and wildlife health concerns; and recommend strategies by which agencies can increase their capacity to address fish and wildlife health. The goal of the initiative is to enhance the capabilities of state fish and wildlife management agencies to prevent, detect, manage, research, and educate the public about disease issues.

AFWA is working on a project to: support and coordinate all the active National Fish Habitat Action Plan (NFHAP) Fish Habitat Partnerships recognized by the National Fish Habitat Board; support implementation of recommendations by the Board; support development of short and long-term strategies; support and sustain continuation of implementation of the NFHAP Science and Data Framework document; and support and increase public and stakeholder understanding and participation in NFHAP implementation. The benefits are the continued leadership and support by AFWA and state fish and wildlife agencies to successfully achieve objectives of NFHAP and the Board.

The U.S. Sportsmen's Alliance Foundation is working to address Outdoor Heritage activities. The objective is to stimulate new growth and enhance the quality in the Trailblazer Adventure Program, a nationwide outdoor education program designed to involve young people and their families, from non-traditional backgrounds, in the outdoor lifestyle of hunting, fishing and trapping. The program will occur in up to 40 states. Fiscal Year 2012: AFWA will work on a project to coordinate 2008 Farm Bill Program implementation with fish and wildlife resources needs. The objective is to optimize fish and wildlife resource benefits to the states and address issues in state, regional, and national wildlife conservation initiatives.

The American Sportfishing Association will be investigating factors related to hunting and fishing license sales to better understand the factors correlated with recent increases in hunting and fishing license sales. Increased State licenses sales provides a state and game agency with more working funds and allows the

agency to better match federal grant funds.

The National Wild Turkey Federation will continue to evaluate interest and participation in hunting, fishing, and sport shooting after participation in various recruitment and retention programs. The results will be used to determine the most effective recruitment and retention programs and programmatic elements based on participants continuing involvement. Fiscal Year 2013: Program has not yet selected projects for funding. Program anticipates funding projects that address species or habitat research activities, hunting and fishing recruitment and retention information collection, aquatic or hunter educational activities, conservation planning, outreach and coordination.

CRITERIA FOR SELECTING PROPOSALS:

Projects will be reviewed and evaluated for scope, significance, feasibility, and cost effectiveness. In addition, projects must address one or more focus areas as described in the National Conservation Needs established annually by the Association of Fish and Wildlife Agencies (AFWA).

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: Hawaii funded 15 separate projects involving fence construction and forest restoration, watershed protection/restoration through control of ungulates and exotic invasive species, dryland forest restoration, control of alien weeds, nene reintroduction, and rare plant reintroduction and management. The projects will benefit listed species and critical habitat, as well as proposed, candidate, and species of special concern that occur primarily on private lands, thereby significantly augmenting restoration and recovery activities being conducted on State lands.

In Oregon, a joint project involving the Oregon Department of Fish and Wildlife resulted in successful reintroduction and recovery of salmonids in the Malheur River and Logan Valley Wildlife Mitigation Projects. The project restored fish passage connectivity on the Malheur River through bypassing of an irrigation diversion dam. Other results included elimination of fish loss on 11.4 miles of irrigation ditches.

In Nevada, the Duckwater Shoshone Tribe implemented desert spring and stream habitat restoration to directly benefit the Railroad Valley springfish, endemic aquatic invertebrates, migratory waterfowl, and riparian bird species. Habitat restoration at Little Warm Spring accomplished the objective of recovering and restoring Railroad Valley springfish to historic habitat. The Tribe also educated tribal members and visitors about tribal culture and the threatened species found on tribal lands. Fiscal Year 2012: : Kansas Department of Wildlife and Parks used funds to restore, protect, and enhance 5000 acres of upland habitat, 500 acres of wetland, and 200 miles of stream/riparian habitat to benefit targeted at-risk species. Implementation of this objective will be based on issues and concerns identified in Kansas' Comprehensive Wildlife Conservation Strategy.

In Alabama, funds established the Middle Tennessee River Habitat Restoration Initiative to expand protection and restoration efforts on private lands with an emphasis on 48 species of special concern. The project improved approximately 14 miles of streamside habitat and 170 acres of streamside buffer. Gates and fences were installed on selected cave habitat for bat species of conservation concern. This effort continues the community-based approach to education of landowners and other stakeholders on land use practices that benefit protected species and their habitat.

North Carolina provided financial assistance to private landowners who are undertaking management actions to restore or enhance Red-cockaded woodpecker habitat under the Safe Harbor Program. This project also provides assistance for restoration or enhancement of longleaf pine ecosystem subtypes, or associated wetland communities, harboring other species at risk in addition to the targeted woodpeckers. Fiscal Year 2013: In New Hampshire, funds will help develop a program to assist private landowners in protecting and managing at-risk species and their habitats. The program will also identify quantifiable outcomes that can evaluate progress in restoring and conserving habitats and viable populations of species at risk on private lands. The expected benefits of this grant are improved conditions for at-risk species on private lands throughout state and expanded partnerships with private landowners in conserving these species.

In Virginia, program funds provide, via technical assistance, private landowners and partners with information and techniques necessary to restore, protect, enhance, and manage important habitats on their properties resulting in significant gains for species recovery and conservation. Virginia expects that implementing this grant will result in improved and protected habitat for at least 100 at-risk species and improved water quality in at least five of the major river systems (Upper Tennessee, New, Roanoke, James and Shenandoah) of Virginia.

In Utah, funds protect species of greatest conservation need in Cache, Juab, and Sanpete counties through acquisition of conservation easements including: Green Canyon (Cache County) - 434 acres for Bonneville cutthroat trout and sharp-tailed grouse; Crawford, Sanpete County - 75 acres for Columbia spotted frog and southern leatherside chub; Graham, Sanpete County - 20 acres for Columbia spotted frog and southern leatherside chub; Turpin, Sanpete County - 100 acres for Columbia spotted frog and southern leatherside chub; and Mills Valley, Juab County - 110 acres for least chub.

CRITERIA FOR SELECTING PROPOSALS:

The State, the District of Columbia, Commonwealth, or territorial agency having lead responsibility for the management of their fish and wildlife resources must submit the projects. The State, the District of Columbia, Commonwealth, or territorial agency selects those projects submitted for funding under the program. If approved, projects must meet the basic criteria outlined in the regulations and the Fish and Wildlife Service Manual.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: Developed a comprehensive western pond turtle conservation strategy for California. This strategy would be peer reviewed and issued as a USDA Forest Service Pacific Southwest research report to CDFG, and is intended to be published as a handbook and in a scientific journal. The conservation strategy will provide information on the distribution, status, ecology, and conservation/management needs for populations of this turtle. It will also identify issues and propose strategies to assist with decision-making by state and federal agencies. The project will identify conservation actions for public and private land owners, and provide standards and guidelines for conducting surveys and monitoring techniques. It will provide standards and guidelines for mitigation under California Environmental Quality Act, and will identify education needs. In Arkansas, the state fish and game agency assessed physical, chemical, and biological effects before, after, and during gas well construction in the main stem and tributaries of the South Fork of the Little Red River in Gulf Mountain Wildlife Management Area. This project helped establish a baseline for assessment of the impacts of gas exploration on Species of Greatest Conservation Need. In California, a project utilized funds to address observed decline in the California sooty grouse within the Sierra

Nevada Mountains. By gathering additional data on sooty grouse abundance in different habitats, the project produced a quantitative habitat model for this species. This model will help the state agency to streamline future sooty grouse inventories, pinpoint critical habitat, determine the impact of forest treatments on the species, and plan for future restoration of sooty grouse populations. Fiscal Year 2012: Wisconsin - Surveys and Monitoring of bat species of concern will generate critically needed baseline data that is incorporated in all White-Nose Syndrome (WNS) planning and priority work. Without information on numbers of bat populations and activity at key roosts, states will be unable to prioritize work for these species. Allocations of time and funding will not be made to protect vulnerable species or habitats if there is no documentation of the losses in a state. Project includes incorporation of technology to survey/monitor bat sites to allow more information to be obtained with less human involvement reducing disturbance and possible risk of transmission of WNS by repeat visits to priority sites to make counts and document activity. Project will document advances of the WNS outbreak allowing researchers to understand the extent of the damage and adjust sampling and other efforts accordingly. Evidence of WNS sites in a region can lead to cave closure decisions that may have immediate bearing on the protection of bat species in nearby sites.

In Florida, a multi-objective project was supported with SWG funds, focusing on helping to plan for and adapt to potential sea-level rise associated with climate change. The project includes research, species status, management, and restoration projects focusing on priorities identified in Florida's Wildlife Action Plan. Highlights of this project include: predicting and mitigating the effects of sea-level rise and land use changes on imperiled species and natural communities in Florida; designing, implementing, and managing freshwater restoration projects; and coral reef restoration and conservation efforts that enhance the health and resiliency of Florida's coral reef ecosystem. In the Northern Marianas Islands, a U.S. commonwealth in the north Pacific, the local wildlife agency is implementing a project focusing on fruit bat populations on the island of Rota, as well forest bird populations throughout the island chain. These bat and bird species will benefit through increased knowledge of the biology and abundance of these populations, providing crucial information the agency needs to implement future projects to protect and enhance populations of imperiled species in this remote island environment. Fiscal Year 2013: Program has not yet selected projects for funding. Program anticipates funding projects that benefit fish and wildlife and their habitats, including species that are not hunted or fished.

CRITERIA FOR SELECTING PROPOSALS:

Proposals must propose to implement projects or priority conservation actions that are included in the State, District, Commonwealth, or Territory Comprehensive Wildlife Conservation Strategy (also known as a State Wildlife Action Plan). For SWG-Competitive grants, the criteria are described in the Application Instructions, available at Grants.gov.

15.623 North American Wetlands Conservation Fund

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: Conservation, Sustainability and Adaptation to Climate Change of the Pine-oak Forests of Mesoamerica - The pine-oak and dry forests have been classified as the most important ecosystems for conservation in Central America. The threat of climate change means that species geographic distributions may be shifted, re-arranging plant and animal communities and ecosystems, and disrupting birds relationships with predators, competitors, prey and parasites. This project will evaluate the effects of climate change within the pine-oak and dry forests of the region using GIS analysis and identify potential adaptation measures. The project will also continue working toward conservation, sustainable forestry management, integrated fire management and the implementation of outreach activities in three countries. Partners also plan to publish guidelines for sustainable management of the pine-oak forest.

Conservation Action for Bicknells Thrush Across its Canadian Range - Project partners will work together across the Bicknell thrushes Canadian breeding range to mitigate threats in the short-term and set the stage for long term species recovery. Primary objectives are to partner with forestry companies and relevant agencies to develop and implement best management practices on industrial forest land; and develop specific habitat and population targets for individual management jurisdictions. Regional and range-wide monitoring programs will evaluate the success of these conservation actions.

Connecting Sites and People for Buff-breasted Sandpiper Conservation in Wintering Areas - Location: Uruguay; Brazil; Argentina - The main objective of this project is to develop partnerships and strengthen cooperation and communication to improve management of wintering habitat for buff-breasted sandpiper conservation at three key sites. Regional workshops and meetings involving landowners, authorities and technicians will help design a strategy and business plan for conserving these sites, as well as identify and share best management practices. Partners will initiate a regional species banding and monitoring program to evaluate population responses. Capacity building for management and monitoring will be provided to key stakeholders in all sites. Educational material and informative talks will be offered to local communities. Fiscal Year 2012: FY12 & FY13: Projects not yet selected. Program expects to fund 30-40 awards to support public-private partnerships carrying out projects in the United States, Canada, Latin America, and the Caribbean that promote the long-term conservation of Neotropical migratory birds and their habitats through 1) Protection and management of neotropical migratory bird populations; 2) Maintenance, management, protection, and restoration of neotropical migratory bird habitat; 3) Research and monitoring; 4) Law enforcement; and 5) Community outreach and education. Fiscal Year 2013: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Proposals will be screened and selected for funding primarily on the basis of criteria contained in 16 U.S.C. 6101. However, proposals will also be evaluated on: scope and significance of effort; importance of resource values; relationship of project to other efforts locally/regionally; and feasibility and cost-effectiveness.

15.636 ALASKA SUBSISTENCE MANAGEMENT

FEDERAL AGENCY:

Fish and Wildlife Service, Department of the Interior

AUTHORIZATION:

Alaska National Interest Lands Conservation Act (ANILCA) of 1980, Title VIII, Public Law 96-487, 16 U.S.C. 3101-3233, Section 809. Fish and Wildlife Coordination Act (16 U.S.C. 661 to 666).

OBJECTIVES:

To identify and provide information needed to sustain subsistence fisheries and wildlife management on Federal public lands, for rural Alaskans, through a multidisciplinary, collaborative program. Three programs are administered under ANILCA to fulfill this objective. The Fisheries Resource Monitoring Program (Monitoring Program) funds approximately 80 studies annually to provide information on stock status and trends, harvests, and traditional ecological knowledge to manage and regulate Federal subsistence fisheries. The Partners for Fisheries Monitoring Program (Partners Program) strengthens Alaska Native and rural involvement in subsistence fisheries management and research. The program provides funds directly to Alaska Native and rural organizations to hire fishery biologists, social scientists, and educators to implement fisheries monitoring projects and rural internship programs. The Liaison and Staff Support Grant to the State of Alaska is directed specifically to the Alaska Department of Fish and Game. The grant defrays salary and travel expenses that occur in support of the coordination between State and Federal subsistence fish and wildlife programs.

Award Procedure:

For the Monitoring Program, an inter-agency technical review committee evaluates proposals, and, for those selected for further consideration, subsequently the full investigation plans. The committee develops a draft monitoring program from the highest priority projects, based on their technical review and available funds. The draft monitoring plan is reviewed by ten regional advisory councils and the public. An inter-agency staff committee reviews all recommendations, and provides recommendations. The Federal Subsistence Board selects projects for the Monitoring Plan taking into account

all recommendations and comments. Funding of the Monitoring Plan is administered by the Office of Subsistence Management (OSM).

For the Partners Program, an internal review is conducted to evaluate proposals and make recommendations for funding. The evaluations are based on the criteria outlined in the request for federal assistance. The proposals are ranked and the OSM Assistant Regional Director selects proposals that best support the program within available funding. Once a Monitoring Program project or Partners Program position is selected for funding, a funding instrument, i.e., notice of award, between Fish and Wildlife Service and the recipient is drafted by the OSM. The award is processed by OSM through the contracting office and sent to the recipient for signature. The award is considered executed when signed copies of the agreement are received from the recipient and the contracting office has obligated funds to the agreement. The awards are administered by OSM. For the Liaison and Staff Support Grant, the Alaska Department of Fish and Game is the only non-Federal entity with management authority over fish and wildlife resources. This grant agreement is not open to competition outside the Alaska Department of Fish and Game.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: Harvest Monitoring and Traditional Ecological Knowledge project example: 10-151 Local Ecological Knowledge of Non-salmon Fish in the Bering Strait Region. This project addresses the Northern Regions Priority Information need regarding the Subsistence Harvest of Fish. The project will document current levels of subsistence use of non-salmon fishery resources by four Bering Strait region communities: Shishmaref, Wales, Stebbins, and Teller. Documentation of current harvest patterns and trends, as well as past harvest and use of non-salmon fish, current uses of the fish, and their importance in local subsistence economies will be examined. Additionally, the interview portion of this project will also address the Inter-Regional Priority Information need on the effects of climate change on subsistence fishery uses. Fiscal Year 2012: Program has not yet selected projects for funding. Program anticipates funding projects that are technically sound and gather information to manage and conserve subsistence fishery resources in Alaska. The program

also is directed at supporting meaningful involvement in fisheries management by Alaska Native and rural organizations and promoting collaboration among Federal, State, Alaska Native and local organizations. Fiscal Year 2013: Program has not yet selected projects for funding. Program anticipates funding projects that are technically sound and gather information to manage and conserve subsistence fishery resources in Alaska. The program also is directed at supporting meaningful involvement in fisheries management by Alaska Native and rural organizations and promoting collaboration among Federal, State, Alaska Native and local organizations.

CRITERIA FOR SELECTING PROPOSALS:

For the Monitoring Program, each proposal is evaluated using the following four criteria: (1) Strategic Priorities: Studies must be responsive to identified issues and information needs. All projects must have a direct association to a Federal subsistence fishery, and either the subsistence fishery or fish stocks in question must occur in waters within or adjacent to Federal public lands; (2) Technical and Scientific Merit: Technical quality of the study design must meet accepted standards for information and collection, compilation, analysis, and reporting. Studies must have clear objectives, appropriate sampling design, correct analytical procedures, and specified progress and final reports; (3) Investigators Ability and Resources: Investigators and their organizations should have demonstrated technical and administrative expertise to complete prior studies, or have co-investigators or appropriate partnerships with other organizations to meet all requirements of the study; (4) Partnership-Capacity Building: Studies must include appropriate partners and contribute to building capacities of rural organizations, local communities, and residents to participate in fisheries resource management. Investigators and their organizations should be able to demonstrate the ability to maintain effective local relationships and a commitment to capacity building. For the Partners Program, each proposal is evaluated using the following equally weighted criteria: (1) Each project must have direct linkage to Monitoring Program projects; (2) Ability to successfully implement program identified under section IV, ii, Content and Form of Application, Describe the Program; (3) Strategic priority and past performance of the Monitoring Program projects identified in the proposal; (4) Letters of support from tribal and rural organizations, government agencies, project investigators, and schools/ universities; (5) Annual and total cost of the proposal, including use of in-kind or matching contributions that either decrease cost or expand support for implementing the Partners Program; (6) Past performance on implementing Monitoring Program projects; (7) Past performance on current or past agreements with the Office of Subsistence Management; (7) Previous experience in mentoring, training, and supervising personnel; and (8) Past and current accounting practices to ensure deliverables and accountability.

Each of these items carries a "Go/No-Go" impact: direct linkage of a Monitoring Program project, enrollment in CCR; affirming in writing in your application that you have enrolled in CCR; providing your DUNS Number; submission of completed SF-424, SF-424A, and SF-424B package; and submission of approved Indirect Cost Negotiation Agreement if requesting reimbursement for indirect costs. For the Liaison and Staff Support Grant, the Alaska Department of Fish and Game is the only non-federal entity with management authority over fish and wildlife resources. This grant agreement is not open to competition outside the Alaska Department of Fish and Game.

15.608 Fish and Wildlife Management Assistance

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: : This program provided funding to 10 regional management bodies to facilitate and administer area sub-programs to involve subsistence hunters of migratory birds in the management and regulation of migratory birds. The funding meets three primary objectives: 1) Ensure an effective and meaningful role for indigenous inhabitants in the conservation of migratory birds; 2) Facilitate submission of migratory bird management proposals where spring migratory bird harvest is a customary and traditional practice; and 3) Facilitate the review of submitted migratory bird management proposals through meetings of the regional management bodies. Fiscal Year 2012: The work and objectives outlined for FY11 were continued specifically by providing travel, lodging and other associated expenses for elected representatives from the regional management bodies to attend all meetings of the Statewide Council and a separate representative to attend technical committee meetings associated with the Council. The regions will be taking up endangered species and seasonal regulatory issues with their area villages and

making recommendations to the Statewide Council. In addition, a Alaska Native Summit (by invitation only) will be held in April to discuss the progress and evolving objectives of the Co-Mgt Council and how the concept of co-management is being implemented. Fiscal Year 2013: The regions will continue to follow-up on new and ongoing endangered species and seasonal regulatory issues with their area villages and making recommendations to the Statewide Council.

CRITERIA FOR SELECTING PROPOSALS:

You must be a regional partner organization of the council to be selected. Criteria included, but is not limited to, past performance, ability to provide administrative support, and ability to send an elected representative from the regional management body to meetings.

15.647 MIGRATORY BIRD CONSERVATION**FEDERAL AGENCY:**

Fish and Wildlife Service, Department of the Interior

AUTHORIZATION:

Fish and Wildlife Act of 1956, as amended, 16 U.S.C. 742a-754; Fish and Wildlife Coordination Act of 1958, 16 U.S.C.661-667(e); Fish and Wildlife Conservation Act, 16 U.S.C. 2901-2911; and Migratory Bird Treaty Act, 16 U.S.C. 709a.

OBJECTIVES:

To maintain and enhance populations and habitats of migratory bird species found in the Upper Midwest (IL, IN, IA, MI, MN, MO, OH, WI).

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE; Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Grants and payments may be used for the conservation of any bird species protected by the Migratory Bird Treaty Act and occurring in U.S. Fish and Wildlife Service (USFWS) Region 3 (Upper Midwest, including IL, IN, IA, MI, MN, MO, OH, and WI). Special emphasis will be placed on Birds of Concern in the Midwest (see http://www.fws.gov/midwest/MidwestBird/birds_of_concern.htm) as these

species are experiencing known or suspected population declines, are recreationally important, or are causing biological or social conflicts. Implementing national, regional, and flyway bird conservation plans, including the Partners in Flight North American Landbird Conservation Plan (<http://www.partnersinflight.org>), U.S. Shorebird Conservation Plan (<http://shorebirdplan.fws.gov>), North American Waterbird Conservation Plan (<http://www.waterbirdconservation.org>), North American Waterfowl Management Plan (<http://www.fws.gov/birdhabitat/NAWMP/index.shtml>), and Mississippi Flyway bird management plans, is the USFWS's highest priority, and proposals related to the priorities identified in these plans and Bird Conservation Region and state-level bird conservation planning efforts will receive high funding consideration. The following activities are also of high interest to the USFWS: a) Population surveys, monitoring, and assessments to determine the status, trends, distribution, and demography of bird species and groups of concern. Emphasis will be placed on landscape-level applications of standardized inventory and monitoring protocols as identified through the Midwest Coordinated Bird Monitoring Partnership (<http://midwestbirdmonitoring.ning.com>). Local-scale bird monitoring (e.g., local land management units) will generally not be a focus of this grant program, nor will support for long-term operational bird monitoring efforts. Rather, the program seeks to address coordination of monitoring efforts and development and evaluation of new survey and monitoring techniques (both field and analytical); b) Conservation of focal species for which conservation plans and/or working groups have been developed and research, monitoring, and other priorities have been identified. Examples of focal species include: Golden-winged Warbler, Cerulean Warbler, Henslows Sparrow, other Midwestern grassland birds, American Woodcock, Wilsons Phalarope, Upland Sandpiper, Marbled Godwit, Common Tern, Black Tern, King Rail, and Lesser Scaup (for further information on focal species, contact Steve Lewis, USFWS, steve_j_lewis@fws.gov); c) Strategic Conservation, wherein the USFWS integrates biological planning, landscape design, conservation delivery, and monitoring and evaluation in a way that generates the adaptive feedback loops that enable sound decisions and constantly improve our efficiency and effectiveness in saving birds (<http://www.fws.gov/midwest/science/SHC/FAQ.htm>). Strategic conservation involves applied research, including studies of bird habitat requirements, threats, limiting factors, and population responses to habitat conservation activities; and use of Geographic Information Systems, modeling, and similar tools to identify bird habitat focus areas and further bird conservation planning efforts; d) Avian health and disease. Increasing expansion of human populations has led to habitat fragmentation, changes in land-use patterns, and increased pressure on wild bird populations, and globalization of marketing and distribution has increased avian zoonotic and emerging disease risks. Many of these emerging diseases involve avian reservoirs or susceptible hosts. Increasing the complexity of this picture are changes in climate; avian populations may need to alter site fidelity in response to weather patterns, and this will introduce new opportunities for transmission of avian diseases and place pressure on populations already stressed by anthropogenic factors. To address these issues, the USFWS has established the Avian Health and Disease Program to conduct work in avian health and disease surveillance, response, and management in wild bird populations. Among our areas of interest are: establishing avian health baselines; identifying existing and emerging avian health and disease risks, especially related to trematodiasis, Newcastle disease, avian influenza, and botulism; ensuring avian disease preparedness and prevention; and developing, guiding, and implementing appropriate and effective avian disease management actions. 100%.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2011: The program supported 1) Building a collaborative network of African researchers and resource managers who can work together to conserve West African manatees in every country in the species range (the African Atlantic coast from Mauritania to Angola, and the interior countries of Mali, Niger and Chad). Activities include training in manatee fieldwork techniques and provision of needed field equipment in the network members countries. Information on manatees will be disseminated to stakeholders to enable them to make informed decisions regarding the conservation of the West African manatee; 2) Organizing an African Vulture Summit to build a network of vulture specialists, researchers and fieldworkers across the continent who can work together to communicate, share information, build capacity, and transfer skills. The initiative will promote conservation interventions to address the growing threats leading to declines in vulture populations; 3) Providing three USFWS scholarships to West and Central African wildlife professionals who will benefit from contact with USFWS and partner organizations over the course of their careers. It also builds the capacity of Ecole de Faune de Garoua faculty to more effectively teach and conduct applied research on great apes and wildlife conservation. Grants and payments may be used for the conservation of any bird species protected by the Migratory Bird Treaty Act. Special emphasis will be placed on bird species listed in USFWS conservation and management priorities documents (e.g. USFWS Birds of Conservation Concern 2008, Focal Species list). Implementing national, regional, flyway Bird Conservation Region, and state-level bird conservation plans (e.g., Partners in Flight North American Landbird Conservation (<http://www.partnersinflight.org>), U.S. Shorebird Conservation Plan (<http://shorebirdplan.fws.gov>) North American Waterbird Conservation Plan (<http://birdhabitat.fws.gov/NAWMP/nawmphp.htm>) are among the Service's highest priorities. Projects should address one or more of the following activities: a) Population surveys and monitoring to determine the health, status, trends, and distribution of bird species and groups of concern. Emphasis will be placed on landscape-level applications of standardized inventory and monitoring protocols (e.g., Breeding Bird Atlases, national marshbird call playback surveys). Local-scale monitoring (e.g., local land management units) activities will generally not be a focus of this program; b) Applied research, including but not limited to, studies of habitat requirements, limiting factors, and population responses to habitat conservation activities; development of new monitoring techniques and programs for poorly-surveyed species; use of Geographic Information Systems, bird habitat modeling, and similar tools to identify bird habitat focus areas and further bird conservation planning efforts; and investigation of avian mortality events and monitoring of health and disease problems; c) Compilation of technical information, such as status reviews of bird species of concern, development of habitat management and restoration guidelines, disseminating updates and providing training about current and emerging diseases which impact migratory bird populations, and other outreach and education programs including programs structured towards youth and connecting people with

nature. Habitat management projects are generally not covered under this program. For further information, please contact the regional office. For further information, please contact the regional office.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2011: Research on avian collisions with communications towers, particularly during migration, research will build upon previous research and allow us to further quantify the avian fatalities under towers with different lighting systems and heights in different regions. Fiscal Year 2012: The program is working with partners to lead monitoring efforts that provide vital information to important continental landscape questions. For example secretive marshbirds, such as rails, and other diverse species that rely on emergent wetlands, are threatened by loss of their habitats across the U.S.. the Service and its partners are collaborating on a multi-faceted investigative program that will guide informed decision making to implement Biological Planning and Conservation delivery to benefit these and other birds. The data will help inform the regulation of harvest for hunted marshbirds, and the interventions and investments needed for some of these highly imperiled species. Fiscal Year 2013: The Program will continue to work with partners in

the development and implementation of conservation plans that contribute to improving the health of migratory birds species and their habitats.

The NCFSP continues to offer 4-year full scholarships to undergraduate students earning their Bachelor of Science degree in Fisheries Biology at UAPB. Because minorities interested in careers in natural resource management are rare, the NCFSP has continued to successfully recruit prospective students nationwide. Over the last several years, the NCFSP has developed contacts with vocational agricultural teachers, math and science instructors, and guidance counselors at high schools across the country. The program relies on these contacts to identify likely applicants for scholarships. The NCFSP also actively recruits among high school students that have participated in the American Fisheries Society's Hutton Junior Fisheries Biology Program. High school students who participate in the Hutton Program and still want to pursue a career in fisheries degree, and more likely to take advantage of the numerous professional development opportunities available while in school. These students also are more likely to pursue graduate degrees in fisheries or a related natural resource field. Several NCFSP participants have secured summer internships with USGS research facilities to enhance their education experience. Other graduates of the NCFSP at UAPB have gone on to be accepted to graduate school in one of the Cooperative Research Unit program host universities. Fiscal Year 2013: No Current Data Available

At the same time, the applicant is requested to observe certain simple preservation precepts with regard to the property. Should subsequent occurrences alter the historic qualities of the property, landmark status may be revoked and the plaque removed. Automatic listing of National Historic Landmark properties in the National Register of Historic Places affords a degree of Federal protection under Section 106 of the Historic Preservation Act of 1966, and fulfills one of the prerequisites for Federal assistance under the National Register grants- in-aid program (see 15.904). Certain landmarks are also made eligible for Federal tax benefits and protections and technical preservation assessment and assistance.

Applicant Eligibility:

Anyone may suggest that a property be considered for inclusion in an appropriate National Historic Landmark theme study, provided the property has a high degree of historic integrity and potential national significance with relation to some broad facet of American history. The owner of the property may be an individual, government, or corporate body. Properties of only State or local significance do not qualify.

Properties nominated to, or already listed in, the National Register of Historic Places at a national level of significance by the State Historic Preservation Officer may be reviewed by the National Historic Landmarks Survey staff.

Award Procedure:

When the property has been investigated, findings, in the form of a thorough NHL nomination form, are presented to the National Park System Advisory

Board which evaluates the property's national significance and high integrity and recommends a final action to the Secretary of the Interior. Owners of proposed landmarks are contacted prior to a landmark study, given an opportunity to comment on a final study, and then notified after designation of the landmark.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

15.914 NATIONAL REGISTER OF HISTORIC PLACES

(National Register)

FEDERAL AGENCY:

National Park Service, Department of the Interior

AUTHORIZATION:

National Historic Preservation Act of 1966, as amended, Public Law 89-665, 16 U.S.C. 470, 80 Stat. 915 et seq.; Executive Order 11593, May 13, 1971; Tax Reform Act of 1976, Public Law 94-455; Public Law 94-442; 90 Stat. 1519; Revenue Act of 1978; Public Law 95-600; National Historic Preservation Act Amendments of 1980; Public Law 96-515; Tax Treatment Extension Act of 1980; Public Law 96-541; Economic Recovery Tax Act of 1981, Public Law 97-340; Tax Reform Act of 1984, Public Law 98-369; Tax Reform Act of 1986, Public Law 99-514; National Historic Preservation Act Amendments of 1992, Public Law 102-575; Executive Order 13287, March 3, 2003.

OBJECTIVES:

To expand and maintain the National Register of Historic Places for planning, preservation, research, public education and tourism efforts; to make the information on districts, sites, buildings, structures and objects of historical, architectural, archeological, engineering and cultural significance more accessible to the public in order to increase and broaden the public's understanding of the information, foster a national preservation ethic, and to promote greater appreciation of America's heritage; to coordinate with Federal agencies, State and Tribal preservation offices, and the Advisory Council on Historic Preservation in the implementation of laws and policies pertaining to historic preservation; and to establish liaison with and give guidance to communities under Title I of the Housing and Community Development Act of 1974 (see 14.218).

TYPES OF ASSISTANCE:

ADVISORY SERVICES AND COUNSELING

USES AND USE RESTRICTIONS:

Professional advice is provided in determining whether a property qualifies for inclusion in the National Register according to the Criteria for Evaluation contained in 36 CFR Part 60. Listing does not affect the range of actions an owner may take, as long as Federal funding, licensing or assistance is not involved and no governmental unit receives any authority or control over the property, including its use and disposition. However, if a Federal project might have an effect on a property listed or eligible for listing, the agency involved must provide the Advisory Council on Historic Preservation a reasonable opportunity to comment pursuant to 36 CFR Part 800. Registered properties also become eligible to receive grants from the Historic Preservation grant-in-aid program of the Department of the Interior (see 15.904), when funding is available, to receive home improvement loans from the Department of Housing and Urban Development under Title I of the National Housing Act as amended on October 18, 1974, or to participate in the community grant program provided by the Housing and Community Development Act of 1974. Major Federal tax advantages can be received on certain rehabilitation expenditures for "certified historic structures" and for charitable contributions for conservation purposes of partial interests in historic properties.

Applicant Eligibility:

Eligible applicants are the States and territories as defined in the National Historic Preservation Act, operating under programs administered by State Historic Preservation Officers appointed by the Governors (listed in Appendix IV of the Catalog); or the Tribal Preservation Officers; Federal agencies required to nominate and consider historic properties within their jurisdiction or

as a result of the National Environmental Policy Act of 1969 and Executive Order 11593, and the National Historic Preservation Act operating under programs administered by representatives (listed in Appendix IV of the Catalog) appointed by the heads of the agencies; and, in States without approved State Historic Preservation Programs, persons and local governments. Applicants eligible for Federal Tax benefits include owners of individually listed properties and properties certified by the Secretary of Interior as being historic and in a district certified as historic.

Beneficiary Eligibility:

Public and private owners of historic properties listed in the National Register of Historic Places or of properties certified by the Secretary of Interior as being historic and in a district certified as historic.

Credentials/Documentation:

Nominations are submitted on standard nomination forms provided upon request to the State Historic Preservation Officers, Federal Preservation Officers, and Tribal Preservation Officers who must certify that each property was properly nominated. Procedures for National Register nominations are found in 36 CFR Part 60. Request for determinations of eligibility must be adequately documented as described in Appendix A of 36 CFR Part 63. Requests for certification of historic properties must be documented as described in Section 36 CFR Part 67 and requests for certification of State and local statutes and districts must be documented as described in Section 36 CFR Part 67. To participate in the program, each State must have an approved review board, an approved State staff, and an accepted State historic preservation plan. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

For National Register nominations the signature of the State Historic Preservation Officer on the nomination form certifies that the State review board has reviewed the nomination and that all applicable procedures, including notification to the property owner at least once during the nomination process, have been followed. The signature of the Federal Preservation Officer for Federal property or the Tribal Preservation Officer on Tribal lands on the nomination form certifies that the property has been nominated in compliance with the National Historic Preservation Act. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Anyone may prepare a National Register nomination. After the property is approved by the State Historic Preservation Officer, Tribal Preservation Officer, or Federal Preservation Officer, the nomination form or letter of request for a determination of eligibility should be forwarded to the Keeper of the National Register, National Park Service, Department of the Interior, 1849 C Street, NW, Mail Stop 2280, Washington, DC 20240. Nominations submitted for review are announced in the Federal Register to provide a period of comment. Documentation for certification for Federal tax benefits of historic buildings and structures, State and local statutes and districts should be forwarded to the appropriate State Historic Preservation Office, which sends it to the appropriate National Park Service Office.

Award Procedure:

The professional review staff of the National Register determines whether the properties meet the National Register criteria as contained in 36 CFR Part 60. Properties that meet the criteria are then officially listed in the National Register and become eligible for Federal tax benefits and Historic Preservation Fund grants when they are available.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

After nomination by State, 45 days at Federal level.

Appeals:

A nomination returned to the States, Tribes, or Federal agencies may be resubmitted, depending upon the reason for its rejection. Appeals for listing and removal may be made in accord with 36 CFR 60.

CRITERIA FOR SELECTING PROPOSALS:

Criteria for Evaluation: The following criteria are designed to guide the States and the Secretary of the Interior in evaluating potential entries (other than areas of the National Park System and National Historic Landmarks) to the National Register: The quality of significance in American history, architecture, archeology, engineering, and culture is present in districts, sites, building, structures, and objects that possess integrity of location, design, setting, materials, workmanship, feeling, and association, and; (A) that are associated with events that have made a significant contribution to the broad patterns of our history; or (B) that are associated with the lives of persons significant in our

past; or (C) that embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction; or (D) that have yielded, or may be likely to yield, information important in prehistory or history. Ordinarily cemeteries, birthplaces, or graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original locations, reconstructed historic buildings, properties primarily commemorative in nature, and properties that have achieved significance within the past 50 years shall not be considered eligible for the National Register. However, such properties will qualify if they are integral parts of districts that do meet the criteria or if they fall within the following categories. (A) a religious property deriving primary significance from architectural or artistic distinction or historical importance; or (B) a building or structure removed from its original location but which is significant primarily for architectural value, or which is the surviving structure most importantly associated with a historic person or event; or (C) a birthplace or grave of a historical figure of outstanding importance if there is no other appropriate site or building directly associated with his productive life; or (D) a cemetery which derives its primary significance from graves of persons of transcendent importance, from age, from distinctive design features, or from association with historic events; or (E) a reconstructed building when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and when no other building or structure with the same association has survived; or (F) a property primarily commemorative in intent if design, age, tradition, or symbolic value has invested it with its own historical significance, or (G) a property achieving significance within the past 50 years if it is of exceptional importance.

OBJECTIVES:

To provide financial assistance to the States and their political subdivisions for the preparation of Statewide Comprehensive Outdoor Recreation Plans (SCORPs) and acquisition and development of outdoor recreation areas and facilities for the general public, to meet current and future needs.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Land acquisition and development grants may be used for a wide range of outdoor recreation projects, such as picnic areas, inner city parks, campgrounds, tennis courts, boat launching ramps, bike trails, swimming pools, playing fields, and support facilities such as roads, water supply, etc. Facilities must be open to the general public and not limited to special groups. Every park or outdoor

recreation area acquired or developed with assistance under this program must remain available and accessible for public outdoor recreation use forever.

Development of basic rather than elaborate facilities is favored. Operation and maintenance of facilities are not eligible expenses for funding. States only are also eligible to apply for grants to revise and update existing SCORPs; prepare new SCORPs; conduct statewide surveys, technical studies, data collection and analysis; and for other planning purposes that are clearly related to SCORP refinement and improvement.

Applicant Eligibility:

For planning grants, only the State agency formally designated by the Governor or State law as responsible for the preparation and maintenance of the SCORP is eligible to apply. (Treated as States for this purpose are the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, the Northern Mariana Islands, and Guam.) For acquisition and development grants, the above designated agency may apply for assistance for itself, or on behalf of other State agencies or political subdivisions, such as cities, counties, and park districts. Additionally, Indian tribes that are organized to govern themselves and perform the functions of a general purpose unit of government qualify for assistance. Individuals, nonprofit organizations, and private organizations are not eligible.

Beneficiary Eligibility:

The general public. For planning grants, same as Applicant Eligibility.

Credentials/Documentation:

The State Liaison Officer (SLO), who is appointed by the Governor or designated in State legislation to administer the program in the State or Territory, must provide assurance that the project is consistent with the SCORP; i.e., that it meets high priority recreation needs shown in the action program portion of the Plan. The State must have a sufficient balance of LWCF funding and the required match available for the project. The sponsoring agency must permanently dedicate the project to public outdoor recreation and assume responsibility for its operation and maintenance. SCORPs must cite the State's legal authority to participate in the Land and Water Conservation Fund program. Eligibility of costs will be determined in accordance with OMB Circular A-102 (43 CFR Part 12, Subpart C), "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments" and OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

The SLO has the prerogative for initial determination of project eligibility, priority need, and order of fund assistance within the State. All project proposals are submitted to the National Park Service by the SLO. Environmental impact information is required for this program, a screening form is used to determine whether an EA or EIS is necessary. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. States and Territories must have a current SCORP approved by NPS to be eligible to submit grant applications. Proposals selected by the State to forward to NPS must be accompanied by the standard federal application forms required by 43 CFR Part 12, Subpart C, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments." Proposal budgets must comport with OMB Circulars A-87 and A-102. Basic environmental information or evaluation is required and will be assessed by the National Park Service to determine whether an environmental impact statement is needed. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." If the State has selected the program for review, the applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires when applying for federal assistance.

Award Procedure:

Proposals are reviewed by the NPS field office, where final action may be

taken. All grants are made to the State lead agency and if applicable passed through to the project sponsor, whether State or local government.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Approximately 30-60 days for acquisition and development projects; 60 days for planning projects.

Appeals:

State may appeal to the Secretary of the Interior.

Renewals:

Project agreements may be amended to change the scope, funding amount, or duration. Must be approved by the National Park Service.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Each year, States and Territories receive an overall allocation of funds based on a statutory formula. Depending on the amount appropriated by Congress, a certain percentage (forty percent of appropriations of up to \$225 million, thirty percent of the next \$275 million, and twenty percent of any additional appropriation) is split equally among the 51 States (for this purpose American Samoa, the District of Columbia, Guam, the Northern Mariana Islands, Puerto Rico, and the Virgin Islands are treated as one State and split an apportionment). The remaining percentage is apportioned on the basis of need.

Matching Requirements: The Land and Water Conservation Fund Act requires that the share of federal funds not exceed 50 percent of the total project cost. Generally, match must be derived from State, local, or private sources, but under certain conditions all or part of the project sponsor's matching share may be from other Federal assistance programs, such as Community Development Block Grants, when such use is allowable under the other programs sponsoring legislation. Otherwise, no other Federal funds may be applied to the project cost, even if all matching requirements are met. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Funds are available for obligation during the fiscal year in which they are appropriated and for the two following fiscal years. The assistance period for individual projects varies and may be extended but on average is three years. Complex projects may be broken down into stages, with one being initially approved and the remainder qualified for activation at a later date. Except for project preparation costs, all costs must be incurred within the project period to be eligible for reimbursement. Planning projects may not be phased. See the following for information on how assistance is awarded/released: On an average of three years.

Reports:

Program reports are not applicable. Cash reports are not applicable. All projects are monitored for progress through consolidated performance reports, which should be at least annually. State inspection reports are submitted every 5 years on completed projects stating whether the properties acquired and/or developed with fund assistance are still being used in accordance with the agreement. AUTHORIZATION:

Consolidated Appropriations Act, 2009, Public Law 111-8.

This program provides funds for projects that aid in the protection and location of missing persons living with Alzheimers disease and related dementias and other missing elderly individuals. PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

The Fair Housing Act, which is found in Title VIII of the Civil Rights Act of 1968, as amended by the Fair Housing Amendments Act of 1988, is designed to ensure freedom from discrimination in the sale, rental and financing of housing, and other related activities. The Act provides two major avenues of enforcement by the Department. First, the Attorney General has independent authority to bring civil actions in federal courts whenever he/she has reasonable cause to believe that any person or group of persons is engaged in a pattern or practice of discrimination or when he/she has reasonable cause to believe any group has been denied such rights in a case of general public importance. Under its pattern or practice authority, the Department may seek appropriate injunctive relief, actual and punitive damages for any persons injured by the discrimination, and civil penalties of up to \$55,000 against a defendant for the first violation and up to \$110,000 for subsequent violations of the Act. Second, the Department also has authority to seek relief on behalf of individuals in certain circumstances, as follows. The Department of Housing and Urban Development (HUD) is required to investigate and conciliate any complaint of housing discrimination filed with that agency. If it cannot be conciliated, HUD

is authorized to file an administrative charge if it determines there is reasonable cause to believe the Fair Housing Act has been violated. At that point, either party may elect to have such charge heard in federal court, and if such election is made, the Department of Justice brings suit in federal court on behalf of the complainant and may seek actual and punitive damages in such an action. Aside from enforcement by the federal government, private suits alleging illegal discrimination may be filed in the appropriate federal or state court within two years of alleged discrimination. The ECOA, as amended, is designed to prohibit certain types of discrimination in all aspects of credit transactions. Persons who believe that they are victims of such discrimination may file complaints with one of the appropriate Federal regulatory agencies or may bring the information to the attention of the Attorney General. The Department of Justice is authorized to institute litigation in Federal court when a matter is referred to the Attorney General by an agency responsible for administrative enforcement of the Act or when he/she has reasonable cause to believe that one or more creditors are engaged in a pattern or practice of discrimination in violation of the Act. The Act gives the United States authority to seek actual and punitive damages for any persons aggrieved by the discrimination. In addition, an aggrieved person may institute suit in a Federal court pursuant to the ECOA. Title II of the 1964 Civil Rights Act is designed to prohibit discrimination in certain kinds of public accommodations. It gives the Attorney General authority to bring a legal action when he/she determines that there is reasonable cause to believe that any person or group is engaged in a pattern or practice of discrimination which violates the provisions of Title II. Remedies available in such cases are limited to injunctive relief and the Department does not have authority to seek monetary relief. Private individuals also may bring legal action under Title II. In addition, there are other civil rights laws which give such individuals authority to take legal action against public accommodation discrimination not covered by Title II. Title III allows the Attorney General to file a civil action in federal district court after receiving a written complaint from an individual who alleges the denial of equal protection rights in a public facility, but is unable to initiate or maintain an independent action. 42 U.S.C. 2000b(a). The Religious Land Use and Institutionalized Persons Act, enacted in September 2000, prohibits state and local governments from using their authority to burden the exercise of religion, exclude religious assemblies from their jurisdictions, or discriminate against religious institutions. It gives the Attorney General the authority to seek injunctive or declaratory relief for violations of the Act. Private individuals may also bring actions under the statute. The Servicemembers Civil Relief Act provides for the temporary suspension of judicial and administrative proceedings and civil protections in areas such as housing and credit for military personnel while they are on active duty. It gives the Attorney General the authority to bring civil actions in federal courts whenever he/she has reasonable cause to believe that any person engaged in a pattern or practice of violating the Act or a violation of the Act that raises an issue of significant public importance. The Department may seek appropriate injunctive relief, monetary damages for any persons injured by the discrimination, and civil penalties of up to \$55,000 against a defendant for the first violation and up to \$110,000 for subsequent violations of the Act. Private individuals may also bring legal action under the statute.

USES AND USE RESTRICTIONS:

The VRA prohibits State and local governments from imposing or applying any voting standard, qualification, prerequisite, or procedure in a manner that results in a denial or abridgment of the right of any U.S. citizen to vote on account of race or color or because an individual is a member of a language minority group. The VRA bans the use of literacy and similar tests as a prerequisite to voter registration or voting, authorizes voters in need of assistance in voting (because of illiteracy or disability) to receive help from the person of their choice (other than their employer or union representative), and lets registered voters vote for president even if they change their residence shortly before a presidential election. Certain specially covered States and political subdivisions are required to submit any voting changes either to the District Court for the District of Columbia for a declaratory judgment that the changes do not have a discriminatory purpose or effect, or, in the alternative, to the Attorney General, who has 60 days in which to object to the proposed changes. Changes to which the Attorney General has objected are legally unenforceable unless a subsequent declaratory judgment is issued by the District Court for the District of Columbia. The VRA requires certain counties (under formulas in the act) to provide voting and election information bilingually. The VRA authorizes the Attorney General to send Federal voting observers to certain designated counties to monitor election day polling place activities to prevent discrimination. Under VAEHA, the States must provide accessible registration and voting facilities for federal elections. Under UOCAVA, States must provide voter registration and absentee balloting in federal elections to United States citizens who are in the uniformed services and who are living overseas. Under the NVRA, States must offer voter registration for federal elections by mail and through offices that provide driver licenses, public assistance and services to persons with disabilities, and must maintain voter registration lists in accord with federal standards. Under HAVA, States must administer federal elections in accord with minimal standards for voting systems, provisional voting, voting information postings, identification for voters who register by mail, and computerized statewide voter registration databases.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2011: The Special Litigation Sections very busy practice in FY 2012 has achieved important successes, enforcing existing matters and initiating new investigations and cases.

Americans with Disabilities Act (ADA): Implementing the promise of the Supreme Courts Olmstead decision to ensure that people with disabilities are supported in the most integrated community setting consistent with their needs has become an increasingly large part of the Sections practice. Frequently, ADA claims have supplanted CRIPA as a reform model for institutions for people with psychiatric and intellectual disabilities. Olmstead enforcement both promotes ADA compliance and fixes poor conditions by reducing institutional populations.

The Sections work includes efforts to enforce landmark settlements in Georgia and Delaware that remedy the unnecessary institutionalization of people with mental illness, and, in Georgia for people with intellectual disabilities as well. Both agreements create meaningful community services systems, including crisis services, case management, and housing supports, to buttress individuals full integration into daily life.

The Section has entered into a comprehensive agreement with the State of Virginia that builds on the agreement in Georgia. The Virginia agreement will, over a ten year period, provide high quality integrated services for Virginia residents with developmental disabilities and ensure that the State comes into compliance with the ADA. Approval of the agreement is pending before the United States District Court in Richmond.

The Section has entered into litigation with the State of New Hampshire regarding the unnecessary institutionalization of people with mental illness. Our claims have been joined with those of private litigants.

Police: Addressing unconstitutional and unlawful patterns and practices of police departments remains one of the Sections largest areas of practice. Among our most significant actions were releasing findings letters documenting the results of our investigations of the New Orleans Police Department, the Puerto Rico Police Department, and the Seattle Police Department. These letters provide a comprehensive assessment of patterns or practices of unconstitutional policing and serve as the basis for sustainable reform, including increased community trust. The Section filed litigation against the Maricopa County Sheriffs Office to address unconstitutional practices, including discriminatory policing and violations of the First Amendment. Investigations opened by the Section, including in Newark, NJ, Portland, OR, and Los Angeles County, CA, are evaluating alleged patterns of unconstitutional policing, including possible bias in policing and excessive force, and are being conducted jointly with United States Attorneys Offices. We also have ongoing police investigations in Suffolk County, NY, Miami, FL, East Haven, CT, and other jurisdictions. The Section settled its investigation of the Beacon, NY Police Department, and continued to monitor consent decrees in seven jurisdictions.

The Section participated heavily in the multi-Division response to immigration bills passed in South Carolina, Alabama, and Utah. We have increased our coordination with DOJ's Community Oriented Policing Services; the Office of Justice Programs, and the Federal Bureau of Investigation.

CRIPA: The Section litigated a CRIPA, ADA, and Individuals with Disabilities Education Act case involving the Conway Human Development Center in Conway, Arkansas. The Section also obtained a court-enforceable settlement of its litigation involving the Erie County Detention Center in Buffalo, NY. The Section filed the Divisions first CRIPA motion for receivership, to address 25 years of non-compliance with court orders regarding

conditions at the Golden Grove Adult Correctional and Detention Facility in St. Croix, U.S. Virgin Islands.

As part of its enforcement of a FY 2010 settlement regarding Chicagos Cook County Jail, the Section helped persuade a judicial panel to grant the Countys request for a prisoner release order, pursuant to the Prison Litigation Reform Act. This order will aid the County in keeping the jail population at a manageable level, and help to avoid crowded conditions that, as our investigation showed, contribute to unconstitutional conditions. Other ongoing compliance work involves seven psychiatric hospitals in Georgia, nursing homes in Alabama and St. Elizabeths Hospital in the District of Columbia. In FY 2012, the Section filed a motion to enforce its consent decree regarding the mental health system in California.

In addition, the Section issued findings letters regarding a juvenile facility, a nursing home and four jails. The Section initiated six new CRIPA investigations, examining alleged sexual abuse of women at the Topeka Correctional Facility in Kansas, the use of cages for suicidal prisoners and mental health services in St. Tammany Parish, LA and conditions of confinement in the Walnut Grove Youth Correctional Facility in Mississippi, the Piedmont Regional Jail in Virginia, and the Cresson and Pittsburgh Prisons in Pennsylvania.

Juvenile: Under 42 U.S.C. Section 14141, the Section has the authority to investigate and bring actions regarding juvenile justice and detention systems. In FY 2011 the Section issued findings letters regarding juvenile facilities in Terrebonne Parish, LA and LeFlore County, MS; in FY 2012, the Section settled the Terrebonne matter, and issued a findings letter regarding Floridas Dozier and Jackson juvenile justice facilities. The Section continued to enforce decrees in Oklahoma and Puerto Rico. In addition, the Section issues comprehensive findings regarding due process and equal protection violations in the Shelby County, Tennessee juvenile court.

Freedom of Access to Clinic Entrances Act (FACE): In the Sections growing FACE practice, The Section filed five cases regarding clinic obstructions, or the use of or threat of force at reproductive healthcare facilities, and reached settlement with two defendants. Several other matters are under investigation.

Religious Land Use and Institutionalized Persons Act (RLUIPA): The Sections RLUIPA practice expanded, including through filing the Departments first two RLUIPA cases and three statements of interest related to prisoner religious practices, and initiating three investigations. Issues in these cases include hair and beard length for Sikhs and Native Americans, access to religious texts, and religious diets. The Section also engaged in outreach to the religious community and is working with the Bureau of Prisons and others in the Department.

16.309 LAW ENFORCEMENT ASSISTANCE NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM

(NICS)

FEDERAL AGENCY:

Federal Bureau of Investigation, Department of Justice

AUTHORIZATION:

None.

OBJECTIVES:

To provide a system so that any Federal Firearm Licensee (FFL) could receive an immediate determination by telephone or by other electronic means, on whether receipt of a firearm and/or explosive by a prospective buyer would violate Federal or State laws.

TYPES OF ASSISTANCE:

PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

The NICS Operations Center conducts NICS background checks by analyzing and evaluating criminal history records to determine whether the transfer of a firearm to an individual may violate State or Federal law. The staff at the Operations Center provides technical and operational support to users, provides customer service to FFLs and State Point of Contacts (POCs), processes appeals of denied transactions, and prepares management and statistical reports on the operation of the NICS.

Applicant Eligibility:

All persons purchasing firearms.

Beneficiary Eligibility:

The Federal Firearm Licensees and American public.

Credentials/Documentation:

Initial request for services must be from a licensed and enrolled FFL. For checks performed by the FBI, FFLs may contact the NICS Section by telephone via a toll-free number or, electronically by the NICS E-Check via the Internet. The FFLs will provide the required descriptive information requested on the Bureau of Alcohol, Tobacco, Firearms and Explosives Form 4473 and each background check is assigned a unique NICS Transaction Number. If a NICS background check results in no matching records, the transfer will be a proceed.

If one or more matching records are found, a NICS Legal Instruments Examiner (Examiner) will review the record(s) to determine if the subject of the record may be identical with the prospective purchaser and to determine if the record contains state and/or federal firearm prohibitive criteria which may prohibit the transfer of the firearm. If it is determined that prohibitive criteria exists, the NICS Examiner will advise the FFL to deny the firearm transaction. If potentially prohibitive criteria exists and more information is required in order to make the determination, the NICS Examiner will advise the FFL to delay the firearm transaction. When a transaction is delayed, the NICS Examiner begins extensive research on the potential prohibitor. The NICS Examiner will contact local, state, and federal law enforcement agencies and courts to resolve questions about an individual who appears to be prohibited from purchasing or possessing a firearm, as well as to request clarification regarding information in a prior record or disposition. When the research is complete, the NICS Examiner calls the FFL and gives a decision on the firearm transaction. Individuals who are denied the purchase of a firearm will be advised by the FFL of the process for appealing the denial decision if he/she believes it is incorrect. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. AEAP: Whereas the previously submitted proposal letter, budget, and budget narrative were key factors in determining eligibility for funding, they were submitted prior to the posting of a solicitation. Application materials submitted electronically through GMS in response to either the assistance or compensation solicitation become permanent parts of the award file. Thus, it will be necessary to resubmit the proposal letter, budget, and budget narrative documents as part of the application package. Applications will be accepted following an incident of terrorism or mass violence in accordance with the timetable set forth in the AEAP Guidelines. There are two factors that determine the application submission requirements for the AEAP: (1) the applicant status, i.e., government agency (Federal, State, or local), non-governmental organization, or victim service organization; and (2) the type of support requested, i.e., crisis response, consequence management, criminal justice, victim compensation, technical assistance (nonmonetary assistance). Application requirements are listed below. Application requirements for State crime victim compensation programs - Funding will be made available to State crime victim compensation programs in response to an incident of terrorism or intentional mass criminal violence within the United States in the form of a grant. Requests for funding from State crime victim compensation programs may be made at any time in the aftermath of an incident and should include: (1) Responses to the questions or issues raised in the AEAP Compensation Solicitation ; (2) Proposal letter ; (3) Budget.; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms.. Application requirements for all other recipients of funds -All other applicants seeking Antiterrorism Emergency Reserve support are required to submit: (1) Responses to the questions or issues raised in the AEAP Assistance Solicitation; (2) Proposal letter; (3) Budget; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms. While no direct funding is available, OVC may provide its own consultants to meet the training and technical assistance needs of applicants.

Training and technical assistance may be requested by submitting a letter describing the nature of the problem; the type of expertise or assistance needed; the duration of assistance; and the projected outcomes of the technical assistance or training. See OVC guidelines published in the Federal Register (Vol. 67, No. 21, Thursday, January 31, 2002) for additional information on application requirements for the AEAP. ITVERP: Step 1: Identify the type of application you are applying for by marking the appropriate type at the top of the application form. In addition, a supplemental sheet must be filled out by applicants. Sections B, F and H should be answered by all applicants; section G should be answered by Itemized and Supplemental applicants only. Detailed instructions are included. Step 2: If you believe that you are an eligible victim of a "designated" international terrorism event, please use the following forms and information to prepare your application for reimbursement. Required Documentation: A victim is required to submit documentation that provides proof of identity, citizenship, employment, and damage/injury sustained during the international terrorism event. A victim's family member or representative is required to submit documentation of his/her relationship to the victim plus medical information or a death certificate as appropriate, in addition to the items named above. In all cases, receipts for expenses incurred in the recovery process will be required. If any of the required documents have been destroyed and are unavailable from any other source, you must provide and certify a list of destroyed documents and how each would apply to your ITVERP application.

Award Procedure:

AEAP: Upon receipt and internal review of a complete application, it is the intention of OVC to notify applicants of funding decision within 5 business days or as soon as practicable. The applicant may be notified by telephone, Internet or facsimile. ITVERP: After review of each application, the Director shall determine the eligibility of the victim or representative and the amount, if any, eligible for reimbursement, specifying the reasons for such determination and the findings of fact and conclusions of law supporting it. A copy of the determination shall be mailed to the claimant at his last known address.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

AEAP: It is OVC's intention to make a funding decision within 5 business days of receipt of a complete application or as soon as practicable. ITVERP: It is OVC's intention to review and process payments as soon as practicable. For itemized and supplemental claims, range of approval/disapproval is dependant upon receipt of an official determination of a reasonable indication of an act of international terrorism from the Assistant Attorney General of National Security for a particular event. Processing time is also dependant upon timely response by claimants of any outstanding documents or information required to process claim applications. Claimants may apply for an interim emergency payment, prior to a determination under Section 94.21(a). If the Director determines that such payment is necessary to avoid or mitigate substantial hardship that may result from delaying reimbursement until complete and final consideration of an application, such payment may be made to cover immediate expenses such as those of medical care, funeral and burial, short-term lodging, and emergency transportation.

Appeals:

For both programs, hearing by the Assistant Attorney General, Office of Justice Programs.

16.606 STATE CRIMINAL ALIEN ASSISTANCE PROGRAM SCAAP

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Omnibus Appropriations Act, Public Law 106-113, Division B, Section 1000(a); Immigration and Nationality Act, 8 U.S.C. 1252, Section 242 as Amended; Title II, subtitle C, Section 20301; Violent Crime Control and Law Enforcement Act of 1994, Public Law 103-322.

OBJECTIVES:

The State Criminal Alien Assistance Program (SCAAP) is a payment program designed to provide federal assistance to states and localities that incur costs for incarcerating undocumented criminal aliens who are being held as a result of state and/or local charges or convictions. The Bureau of Justice Assistance (BJA) administers this program in conjunction with the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services branches.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Department of Justice Reauthorization Act of 2005 (Public Law 109-162, Title XI) included the following requirement regarding the use of SCAAP funds: "Amounts appropriated pursuant to the authorization of appropriations in paragraph (5) that are distributed to a State or political subdivision of a State, including a municipality, may be used only for correctional purposes." All funds must be used for correctional purposes only. To be eligible for reporting, inmates must have been convicted of a felony or second misdemeanor for violations of state or local law, and housed in the applicant's state or local correctional facility for 4 or more consecutive days during the reporting period. Once a person meets these criteria, all pre-trial and post-conviction time served may be included in the application. Salary information reported in the SCAAP application must reflect the total salaries and wages paid to full and part-time correctional officers and others who meet the SCAAP definition. See the SCAAP Guidelines at <http://www.ojp.usdoj.gov/BJA/>. Funds may be used only for correctional purposes. BJA may further define the eligible uses of funds. For further information, see <http://www.ojp.usdoj.gov/BJA/grant/scaap.html>.

Applicant Eligibility:

Eligible applicants include States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions exercising authority with respect to the incarceration of an undocumented criminal alien. This covers state prison facilities (including those housing juveniles convicted as adults of felony offenses or two or more misdemeanors) and local jails, whether operated by counties or cities. Applicants are generally States and units of local government. Note: Only one application is accepted from each separate political division (i.e., State, county, city).

Beneficiary Eligibility:

States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions.

Credentials/Documentation:

Applicants who are seeking funding must complete an electronic application form via the Office of Justice Programs Grants Management System (GMS). Inmate data, including the proper inmate identifiers, will either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of the applicants inmate databases. The authorized official certifies compliance with all SCAAP requirements, including that the applicant has been authorized by the Chief Executive Officer of the applicable unit of government; the inmate identifiers required have been submitted to BJA in the proper format(s) for Immigration and Customs Enforcement (ICE) verification within the prescribed deadlines; all inmates counted by the applicant have been convicted of either a felony or two misdemeanor offenses under the applicant's law; and, only salary costs for

corrections officers were included in the Total Salary Costs. By certifying on-line, the authorizing signing official is also assuring that all federal certifications and assurances are being met. The certification and assurance forms (Assurances, OJP Form 4000/3 and Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements, OJP Form 4061/6) are provided on-line to allow applicants to review and accept them electronically. This program is excluded from coverage under OMB Circular No. A-87.

Inmate data, including the proper inmate identifiers, may either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of their inmate databases. Awards are announced after the ICE inmate verification process is done. Technical assistance is available to applicants for preparation of the on-line application process by calling the OJP Grants Management System Hotline at 1-888-549-9901.

Award Procedure:

The final payment process requires that all applications and all data be fully processed and verified before any payments are made. Inmate data will be verified by the ICE, who will attempt to match the inmate data records provided to records in its databases to obtain the maximum number of confirmed matches. These matches are expected to include three categories: 1) those positively identified (matched) as qualifying undocumented criminal aliens; 2) those unknowns and 3) those positively identified as non- criminal aliens. Applicants will be given credit for a percentage of inmates whose eligibility cannot be determined through positive identification or "match," but have valid foreign countries of birth. Payments will be based on the days of incarceration for the verified number of aliens incarcerated by each applicant. Payments are granted by the Director of the Bureau of Justice Assistance, Office of Justice Programs, Department of Justice. The payment must be accepted on-line and the acceptance will effect a simultaneous assurance of compliance with conditions. Acceptance of the payment on-line initiates the automatic electronic transfer of funds from OJP to the recipient.

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

Bulletproof Vest Partnership Grant Act of 1998, Public Law 105-181, June 16, 1998, and Bulletproof Vest Program Act of 2000, Public Law 106-517.

OBJECTIVES:

To protect the lives of law enforcement officers by helping State, local, and tribal law enforcement agencies provide officers with armored vests.

TYPES OF ASSISTANCE:**DIRECT PAYMENTS FOR A SPECIFIED USE****USES AND USE RESTRICTIONS:**

The program pays up to 50 percent of the total cost of each vest order. Total cost includes the cost of the vests, vest carriers, attachments, inserts, and covers considered integral or essential for its proper care, use, and wearability, shipping, handling, fitting charges, and applicable taxes. The total invoiced price, after all vendor and prompt payment discounts have been deducted, is what the Bureau of Justice Assistance (BJA) uses to determine the Federal match. This program only allows the purchase of body armor that has been tested and found to comply with applicable ballistic and stab standards promulgated by the National Institute of Justice's (NIJ) Standard 0101.06 Ballistic Resistance of Police Body Armor. In FY 2001, stab-resistant body armor was also included in the program as an allowable purchase.

Applicant Eligibility:

Only chief executives of jurisdictions (or their designees) may apply for funds. Jurisdictions are defined as general purpose units of local government (e.g., cities, towns, townships, boroughs, counties, etc.), Federally-recognized Indian tribes, the 50 State governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The chief executive of the jurisdiction registers on-line, submits the jurisdiction application, and requests payment for completed vest orders.

Beneficiary Eligibility:

Only law enforcement officers may receive vests through this program. According to the Act, "law enforcement officer" means any officer, agent, or employee of a State, unit of local government, or an Indian tribe authorized by law or by a government agency to engage in or supervise the prevention, detection, or investigation of any violation of criminal law, or authorized by law to supervise sentenced criminal offenders. Eligible officers may be full-time, part-time, paid or volunteer.

Credentials/Documentation:

Eligible jurisdictions must be general purpose units of local government, Federally-recognized Indian tribes, the 50 state governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The validity of the on-line registration process is verified through independent reviews which may include certification by the banking institutions serving the jurisdiction, the U.S. Census Bureau, and agencies within the U.S. Department of Justice. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

This is an Internet-based program. The jurisdiction is required to complete and submit an on-line registration form, providing information about the jurisdiction's chief executive officer, program contact person, and electronic banking information. The registration process is handled through the program's web site <http://vests.ojp.gov>. Only those jurisdictions with approved registrations are permitted to make application. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. The jurisdiction submits the application to BJA via the Internet web site <http://vests.ojp.gov>. On-line instructions guide the jurisdiction through the application process. Law enforcement agencies or agencies with law enforcement functions which meet the Act's definition, will assist in completing the jurisdiction's on-line application by indicating the types, numbers, and costs of vests they intend to order. Only those jurisdictions that complete and submit applications will be eligible for matching funds from BJA.

Award Procedure:

Applications received by BJA are reviewed for completeness, accuracy, and compliance with all program requirements. Each application is then checked against the availability of funds to cover up to 50 percent of the application's total cost, in keeping with established criteria for program fund allocation. When all checks are complete and the application approved, the jurisdiction is

notified through e-mail that the necessary funds have been obligated.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

A minimum of 15 working days may be required for complete registration validation, although jurisdictions and law enforcement agencies will have immediate access to certain program components during this validation process.

A minimum of 60 working days may be required after the program closes for approval of the jurisdiction's application for funding. A minimum of 25 working days may be required for the electronic transfer of funds from the U.S. Treasury to the jurisdiction's bank account, once the request for funds has been received, reviewed, and approved by the Office of Justice Programs.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Percent: 50%. The program requires that each applicant jurisdiction be responsible for providing at least 50 percent of the cost of each vest purchased. Tribal governments may use Federal funds to provide this match; all other jurisdictions must use nonfederal match funds. Nonfederal fund sources include State and/or local jurisdiction revenues, private or personal funds, and contributions from insurance or workman's compensation consortiums. Asset forfeiture funds may also be used to meet the jurisdiction's matching requirement. Beginning in FY 2002, changes (Bulletproof Vest Partnership Act of 2000; Public Law 106-517) gives preference to small jurisdictions (those populations below 100,000) guaranteeing them the full 50 percent match payment before payments are calculated and approved for larger jurisdictions. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Jurisdictions with approved applications must request the federal match no later than August 31st of the second federal fiscal year following the end of the federal fiscal year in which their application was approved. In other words, the jurisdiction has two years beyond the year of their application to request payments for vests contained in that application. Payments of the federal match will be made whenever the jurisdiction indicates that at least part of the approved vest order was received and invoiced. See the following for information on how assistance is awarded/released: See program office for more information.

No reports are required.

Audits:

This program is excluded from coverage under OMB Circular No. A-133. Payments and transactions are subject to audits by the General Accounting Office, Department of Justice's Office of the Inspector General, state or local government auditors, and auditors from independent public accounting firms. Jurisdictions must follow their local procurement policies and procedures, including maintenance of reliable and accurate accounting systems, record keeping, and systems of internal control.

Records:

Recipients of federal funds are expected to retain documentation supporting all program transactions for at least three years after the closure of audit reports related to such funding. If any litigation, claim, negotiation, audit, or other action involving records has been started before the expiration of the three-year period, the records must be retained until completion of the action and resolution of all related issues, or until the end of the regular three-year period, whichever is later.

Renewals:

Subject to annual appropriations.

Formula and Matching Requirements:

Statutory Formula: Title I, Chapter Subchapter V, Part A, Subpart 42 USC 3756. Statutory Formula: Once each fiscal year overall JAG Program funding level is determined, BJA partners with the Bureau of Justice Statistics (BJS) to begin a four-step grant award calculation process which consists of:

1. Computing an initial JAG allocation for each state and territory, based on their share of violent crime and population (weighted equally).
2. Reviewing the initial JAG allocation amount to determine if the state or territory allocation is less than the minimum (de minimus) award amount defined in the JAG legislation (0.25 percent of the total). If this is the case, the state or territory is funded at the minimum level, and the funds required for this are deducted from the overall pool of JAG funds. Each of the remaining states receives the minimum award plus an additional amount based on their share of violent crime and population.
3. Dividing each state's final award amount (except for the territories and District of Columbia) between state and local governments at a rate of 60 and 40 percent, respectively.
4. Determining local unit of government award allocations, which are based on their proportion of the state's three-year violent crime average. If a local eligible award amount is less than \$10,000, the funds are returned to the state to be awarded to these local units of government through the state agency. If the eligible award amount is \$10,000 or more, then the local government is eligible to apply for a JAG award directly from BJA. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

16.740 STATEWIDE AUTOMATED VICTIM INFORMATION NOTIFICATION (SAVIN) PROGRAM

SAVIN

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Pub. L. 110-5, emb. secs. 101-104; Pub. L. No. 109-108, 119 Stat. 2290, 2299; 28 U.S.C. 530C(a)(1).

OBJECTIVES:

The SAVIN Program, administered by the Bureau of Justice Assistance (BJA), helps protect victims and survivors of crime from further victimization and ensures their rights are secured by providing registered individuals with timely and accurate information about any important dates and developments relating

to the criminal proceedings at issue in their case (e.g., trial dates, times, or changes; probation hearings; inmate relocation; and offender release). This program allows victims and survivors to discretely receive information that can help them make informed decisions about their level of participation in the legal process. Effective SAVIN programs require broad multiagency support, increased victim safety, compliance with legislative requirements, and minimization of costs associated with keeping registered participants informed throughout the criminal justice process. SAVIN programs provide a single point of shared services for victims located anywhere in a state to learn about the status of their offenders case.

Key SAVIN components include:

Governance: An authorized statewide agency to oversee the planning and implementation of the SAVIN program. The administering agency should establish a governance process that includes representatives of criminal justice and law enforcement agencies, technology staff, and victim advocates, including direct participation of a cross-section of victims of crime to guide the development and delivery of SAVIN services. The governance committee or board should meet (in person or via conference call) on a regular basis to discuss help inform the progress of the grant goals and objectives and the overall SAVIN program.

Technology: The use of technology solutions designed to collect, manage, and share critical information to and from victims that provide these services in a timely, confidential, and cost-effective manner.

Program Management: An organizational structure that will execute the program as directed by the established governance process and will enable the state to establish or expand existing notification capabilities based upon measures of the effectiveness of the program by collecting data on victims and survivors served and cost effectiveness. For example, conducting surveys with victims and survivors to ensure that the system is meeting their needs.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Technology improvement programs. SAVIN grantees are required to use the National Information Exchange Model (NIEM) (www.niem.gov), follow associated SAVIN implementation guidelines, and adopt the guidelines as part of their SAVIN program planning. Applicant Eligibility:

Applicants are limited to state-approved agencies that are authorized to manage the SAVIN program. State-approved agencies must be authorized either through state legislation or identified through the Governors office to manage the planning and implementation of a SAVIN program. Federally recognized Indian tribes (as determined by the Secretary of the Interior) are also eligible to receive grant funding for the planning and implementation of an automated victim notification program.

In order to apply for SAVIN program funding, eligible applicant agencies must include the state legislation designating authority to manage the SAVIN program for their state. If there is no authorizing state legislation, a letter from the Governor must be attached as part of the application. The letter must designate the applicant as the approved SAVIN program manager on behalf of the state.

Beneficiary Eligibility:

States, Territories and Tribal governments.

Credentials/Documentation:

Each applicant must submit a completed application that meets the requirements specified in the program guidance. OMB Circular No. A-87 applies to this program.

Appeals:

Hearing and appeal procedures will follow 28 CFR Part 18, Code of Federal Regulations.

Renewals:

Renewals are subject to annual appropriations.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: It is not anticipated that a match will be required (depending upon final appropriation authority) but is recommended to promote program sustainability and partnerships across the state. Funds are subject to applicable restrictions on supplanting and may be used to retain full-time or part-time laboratory employees for the above purposes if there are no other funding sources allocated for the retention of such personnel (e.g., personnel acquired through previous Federal assistance). Matching funds are not required. Note: NIJ makes no assurance that funds will be available for this purpose in future award announcements. (2) Overtime for existing laboratory staff: Funds may be used to pay overtime for existing laboratory employees to directly process, record, screen, and/or analyze forensic DNA and/or DNA database samples. Funds may also be used to pay overtime for existing laboratory employees to directly perform capacity enhancement-specific activities such as validating new DNA analysis technologies for the forensic DNA or DNA database laboratory. Any payments for overtime must be in accordance with the applicable provisions of the OJP Financial Guide, available at www.ojp.usdoj.gov/financialguide/. (3) Training: Funds may be used for appropriate training of forensic DNA and DNA database laboratory personnel. Existing members of the DNA Unit: Appropriate training includes internal or external training, continuing education/training opportunities, and/or applicable graduate-level coursework that is directly related to the applicant's forensic DNA or DNA database laboratory operation and is for members of the DNA laboratory. Funds used towards travel and registration expenses for appropriate continuing education/training opportunities that are associated with professional meetings and conferences (including workshops provided at such meetings and conferences) are limited to no more than 5 percent of the total award. Funds used towards travel expenses, registration fees, and tuition and required learning aids (e.g., textbooks) for appropriate training and continuing education opportunities that are not associated with professional meetings and conferences are not subject to the 5-percent cap. In general, funds used for training are intended to aid existing members of the DNA laboratory to meet continuing education requirements mandated in the DNA Quality Assurance Standards established by the Director of the Federal Bureau of Investigation. New members of the DNA Unit: States and units of local government that wish to use funds to train new employees to process, record, screen, and/or analyze forensic DNA and/or DNA database samples should submit a detailed plan in their proposal. There is no fixed-percentage cap on use of funds for this purpose. (4) Travel (Limited): Funds may be used for travel to conduct required site visits to public or private accredited laboratories that will be conducting DNA analyses on behalf of the applicant agency to review procedures and practices prior to initial sample shipment; funds may also be used to make one additional unannounced site visit. Funds may be used for travel associated with DNA training, described in 3, above. Travel expenses must be reasonable and must comply with the applicable provisions of the OJP Financial Guide. Note that, absent prior express written approval from NIJ, rates for lodging charged to any award under this solicitation may not exceed the posted GSA rate for the location. If an award recipient opts to book lodging at a higher rate, the cost differential, including associated taxes, may not be charged to the award. (5) Equipment: Funds may be used to upgrade, replace, or purchase laboratory equipment, instrumentation, and computer hardware for the forensic DNA and/or the DNA database laboratory. (6) Laboratory supplies for validation: Allowable supply expenses include the purchase of laboratory supplies that can be directly attributed to the validation of new DNA analysis technologies. (7) Supplies for DNA database sample collection: Convicted offender and/or arrestee related sample collection kits may be purchased. (8) Laboratory supplies for in-house processing, recording, screening, and analysis of forensic DNA casework and/or DNA database samples. (9) Renovation: Funds may be used to renovate existing space within the crime laboratory, if it can be demonstrated that the renovation will directly and specifically improve the efficiency of the analysis of forensic DNA samples and/or DNA database samples. Expenses that may be allowable include the purchase or upgrade of benches, cabinets, interior dividing walls, plumbing, HVAC systems, electrical wiring, evidence examination and preparation rooms, evidence storage rooms, drying rooms, walk-in freezers, and extraction or amplification rooms. (10) Contracts for analysis of forensic DNA casework samples or DNA database samples by public or private accredited DNA laboratories: Funds may be used

to send forensic DNA and/or DNA database samples to fee-for-service laboratories to conduct DNA analyses. Funds may also be used to enter into agreements with government-owned laboratories to conduct forensic DNA and/or DNA database sample analyses, perform data review, enter eligible DNA profiles into CODIS and, where applicable, upload to NDIS. Every laboratory that is contracted to conduct forensic DNA or DNA database sample analyses under this program must undergo an external audit, not less than once every 2 years, in order to demonstrate compliance with the requirements of the Quality Assurance Standards for Forensic DNA Testing Laboratories and/or the Quality Assurance Standards for DNA Database Laboratories established by the Director of the Federal Bureau of Investigation, and must be accredited by a nonprofit professional organization actively involved in forensic science that is nationally recognized within the forensic science community. Note: All contracts and procurements made under this program are subject to the standards set forth in 28 C.F.R. section 66.36 and other applicable Federal law, including the provisions of 28 C.F.R. section 66.36 that relate to competition. Prior approval from OJP is required for all sole-source procurements in excess of \$100,000. Approval may be obtained in the form of a sole-source request with adequate justification submitted directly to GMS with the application for funding. (11) Contracts for DNA audits (after September 30, 2012): The DNA audit program that NIJ has offered through the Forensic Technology Center of Excellence is expected to end on September 30, 2012. After this date, DNA laboratories may establish contracts with vendors (individuals or entities) that can provide an external DNA audit once every 2 years, as required by the Quality Assurance Standards for Forensic DNA Testing and DNA Database Laboratories established by the Director of the Federal Bureau of Investigation. DNA Backlog Reduction Program funds may not be used to defray the cost of an external DNA audit that is part of an accreditation inspection/assessment, or of an internal DNA audit. As part of the decision as to whether to award a contract to a vendor for a DNA audit, an award recipient is expected to examine carefully any costs charged by the vendor, including auditor fees (not to exceed \$450 per auditor for each day on site) and auditor travel expenses, and to determine whether all such charges are reasonable and justified. All audit-related costs must be detailed in the budget. Note that NIJ will use the rates established by the GSA schedule (www.gsa.gov/portal/category/21287) as a benchmark in examining the reasonableness of audit-related travel expenses. Auditors must meet the requirements specified in the Quality Assurance Standards for Forensic DNA Testing and/or DNA Database Laboratories and, in addition, must reside outside the State where the laboratory to be audited operates. The same auditors cannot be used in consecutive audits, and all auditors must sign a conflict of interest and nondisclosure form prior to performing any work. (12) Additional contracts and contractor services: Contracts may be established to purchase and install Laboratory Information Management Systems (LIMS), to procure process mapping or process improving assistance, in-house training, or for validation testing. Funds may be used to hire contract staff to process, record, screen, and analyze forensic DNA casework; to process, record, and analyze DNA database samples; or to validate new DNA analysis technologies. Contracts may be established for data review in accordance with the Quality Assurance Standards for Forensic DNA Testing and DNA Database Laboratories. (13) Direct administrative expenses or indirect costs: Up to 3 percent of the Federal portion of an award under this program may be used for either: (1) direct administrative expenses specifically related to grant administration and management, or (2) indirect costs. Applicants may not request both direct administrative expenses and indirect costs. thinking this through.

OBJECTIVES:

Capital Case Litigation Program

In an effort to improve the quality of legal representation and to ensure reliable jury verdicts in state capital cases, the Capital Case Litigation Program seeks to improve the quality and effectiveness of representation in death penalty cases through training for both the prosecutors who represent the public and the defense attorneys who represent indigent defendants in state capital cases.

Wrongful Conviction Review Program

The objective of the Wrongful Conviction Review Program is to provide high quality and efficient representation for defendants in post-conviction claims of innocence. Post-conviction innocence claims are likely to include complex challenges to the reliability or accuracy of evidence presented at trial that fall mainly into three categories: 1) eyewitness identification evidence; 2) confession evidence; and 3) forensic evidence. In some cases, post-conviction DNA testing alone can establish innocence, but the majority of cases will rely on other forms of evidence, and many will involve DNA testing together with additional sources of proof and/or expert testimony, which may be extremely costly.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds are given to States that currently enforce their death penalty statutes.

For the state agency to be eligible, its state must have an effective system for providing competent legal representation for indigent defendants in capital cases. An effective system is defined in 42 U.S.C. 14163(e) as a system that invests the responsibility for appointing qualified attorneys to represent indigent defendants in capital cases either:

- (A) In a public defender program that relies on staff attorneys, members of the private bar, or both, to provide representation in capital cases;
- (B) In an entity established by statute or by the highest state court with jurisdiction in criminal cases, which is composed of individuals with demonstrated knowledge and expertise in capital cases, except for individuals employed as prosecutors; or
- (C) Pursuant to a statutory procedure enacted before the date of the enactment of the CCLI Act [October 30, 2002] under which the trial judge is required to appoint qualified attorneys from a roster maintained by a state or regional selection committee or similar entity.

Wrongful Conviction Review Program

16.813 NICS ACT RECORD IMPROVEMENT PROGRAM

NARIP

FEDERAL AGENCY:

Bureau of Justice Statistics, Department of Justice

AUTHORIZATION:

The NICS Improvement Amendments Act of 2007 , Public Law 110-180.

OBJECTIVES:

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers. The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 (the Brady Act) (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings. The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms. The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Acts record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence. The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Act outlines the allowable uses of grant funds:

Grants to States:

Section 103 of the NICS Improvement Act, regarding implementation assistance to the states, provides that the grants "shall be used by the States and Indian tribal governments, in conjunction with units of local government and State and local courts, to establish or upgrade information and identification technologies for firearms eligibility determinations." In accordance with the Act, a grant to a state, territory or Indian tribes may only be used to:

Create electronic systems, which provide accurate and up-to-date information which is directly related to checks under the NICS, including court disposition and corrections records;

Assist states in establishing or enhancing their own capacities to perform NICS background checks;

Supply accurate and timely information to the Attorney General concerning final dispositions of criminal records to databases accessed by NICS;

Supply accurate and timely information to the Attorney General concerning the identity of persons who have a federally prohibiting mental health adjudication or commitment;

Supply accurate and timely court orders and records of misdemeanor crimes of domestic violence for inclusion in federal and state law enforcement databases used to conduct NICS background checks;

Collect and analyze data needed to demonstrate levels of state compliance with the Act; and

Maintain the required relief from disabilities program in accordance with the Act however, not less than 3 percent and no more than 10 percent of each grant shall be used for this purpose.

State Court Grants

Section 301 of the Act provides that grants shall be made to each state and territory, consistent with the states plans for the integration, automation, and accessibility of criminal history records, for use by the court systems to improve automation and transmittal to federal and state repositories of: (1) criminal history dispositions; (2) records relevant to determining whether a person has been convicted of a misdemeanor crime of domestic violence or a prohibiting domestic violence protection order; and (3) prohibiting mental adjudications and commitments. Further, the law provides that the amounts granted shall be used by the state court system only to:

Carry out, as necessary, assessments of the capabilities of state courts to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories; and

Implement policies, systems, procedures to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories.

The certification form is available on the ATF website at www.atf.gov/forms/download/atf-f-3210-12.pdf. For further information, please visit NICS Improvement Act Questions and Answers on the BJS website.

Further, applications submitted on behalf of state court systems must specifically assure that: (1) the court system has the capability to contribute and will transmit pertinent information to the NICS established under section 103(b) of the Brady Handgun Violence Prevention Act (18 U.S.C. 922 note), and (2) that it will coordinate the programs proposed for NARIP funding with other federally funded information technology programs, including directly funded local programs.

16.820 POSTCONVICTION DNA TESTING PROGRAM

Kirk Bloodsworth Program

FEDERAL AGENCY:

National Institute of Justice, Department of Justice

AUTHORIZATION:

Department of Justice Appropriations Act, 2012, Public Law 112-55.

OBJECTIVES:

This program offers assistance to States to help defray the costs associated with postconviction DNA testing of cases of violent felony offenses where actual innocence might be demonstrated. Specifically, funding may be used to review postconviction cases of violent felony offenses (as defined by State law), and to locate and analyze biological evidence samples associated with these cases. Where a strong justification is provided, a small percentage of Federal award funds (not to exceed 15 percent) may be used for permissible case identification activities.

For the purposes of this program

Case identification means performing outreach and/or initial screening activities, other than case review as defined below, designed to identify postconviction cases of violent felony offenses (as defined by State law) where DNA analysis might demonstrate actual innocence. Permissible outreach and initial screening mechanisms are face-to-face meetings, closed-circuit television meetings, eligibility letters/questionnaires/applications, telephone calls, and computerized searches of state court records.

Case review means review of files or documentation of postconviction cases of violent felony offenses (as defined by State law) by appropriate persons (e.g., prosecutors, public defenders, law enforcement personnel, and medical examiners) to determine whether biological evidence exists that might, through DNA analysis, demonstrate the actual innocence of the person previously convicted.

Locate evidence means seeking to locate, following a case review, biological evidence that, through DNA analysis, might demonstrate actual innocence, through activities such as the searching of files, storage facilities, and evidence rooms.

DNA analysis of biological evidence includes the handling, screening, and DNA analysis of biological evidence located in connection with a case review.

States receiving Postconviction DNA Testing Assistance funds are expected to

1. Review appropriate postconviction cases to identify those in which DNA testing could prove the actual innocence of a person convicted of a violent felony offense(s) as defined by State law.
2. Locate biological evidence associated with such postconviction cases.
3. Perform DNA analysis of appropriate biological evidence.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Funds may be used to acquire laboratory supplies for DNA analysis of biological evidence; pay overtime for people directly engaged in case review, location of evidence, or DNA analysis of biological evidence; to hire consultants and/or temporary contract staff to conduct case reviews, locate evidence, or conduct DNA analysis of biological evidence; for contracts with accredited fee-for-service vendors to conduct DNA analysis of biological evidence; to upgrade, replace, lease, or purchase computer hardware or software that will be used exclusively for case review, location of evidence, or DNA analysis of biological evidence; for salaries and benefits of additional full- or part-time employees to the extent such employees are directly engaged in case review, location of evidence, or DNA analysis of biological evidence; and, in limited cases, for case identification activities. Funds may not be used for salaries and benefits for victim advocacy services; laboratory equipment; construction; renovation; and outreach and initial screening activities not included in case identification."

Applicant Eligibility:

Not applicable.

Beneficiary Eligibility:

Not applicable.

Credentials/Documentation:

To be eligible for an award, a State must submit an express certification from the chief legal officer of the State (typically the Attorney General) that the State

1. Provides postconviction DNA testing of specified biological evidence under a State statute, or under State rules, regulations, or practices, to persons convicted after trial and under a sentence of imprisonment or death for a State offense of murder or forcible rape, in a manner intended to ensure a reasonable process for resolving claims of actual innocence.
2. Preserves biological evidence secured in relation to the investigation or prosecution of a State offense of murder or forcible rape, under a State statute, local ordinances, or State or local rules, regulations, or practices, in a manner intended to ensure that reasonable measures are taken by all jurisdictions within the State to preserve such evidence. OMB Circular No. A-87 applies to this program.

16.922 EQUITABLE SHARING PROGRAM**FEDERAL AGENCY:**

Department of Justice

AUTHORIZATION:

The Controlled Substances Act, 21 U.S.C 881(e); Civil Asset Forfeiture Reform Act (CAFRA), 18 U.S.C 981(e).

OBJECTIVES:

The Department of Justice Asset Forfeiture Program (the Program) is a nationwide law enforcement initiative that removes the tools of crime from criminal organizations, deprives wrongdoers of the proceeds of their crimes, recovers property that may be used to compensate victims, and deters crime. The most important objective of the Program is law enforcement. Equitable sharing further enhances this law enforcement objective by fostering

cooperation among federal, state, and local law enforcement agencies. Federal law authorizes the Attorney General to share federally forfeited property with participating state and local law enforcement agencies. The exercise of this authority is discretionary and limited by statute. The Attorney General is not required to share property in any case. The U.S. Department of the Treasury administers its own Asset Forfeiture Program. For policies and program detail, please visit the Treasury Executive Office for Asset Forfeiture website www.treas.gov/offices/enforcement/teofa/.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The Comprehensive Crime Control Act of 1984 authorized federal officials to implement a national asset forfeiture program, asset forfeiture has become one of the most powerful tools for targeting criminals, including drug dealers and white collar criminals who prey on the vulnerable for financial gain. Forfeiture statutes are now prevalent throughout the federal legal code and their use, along with other important anti-crime measures, has had a significant impact on crime. One of the most important provisions of asset forfeiture is the authorization to share federal forfeiture proceeds with cooperating state and local law enforcement agencies. The Department of Justice Asset Forfeiture Program serves not only to deter crime but also to provide valuable additional resources to state and local law enforcement agencies. The Guide to Equitable Sharing for State and Local Law Enforcement Agencies Guide, as revised from time to time, serves to promote and maintain the integrity of the equitable sharing program so that it can continue to merit public confidence and support. The Guide is supplemented with the National Code of Professional Conduct for Asset Forfeiture (see Appendix B) and all seizing and prosecutorial agencies must ensure compliance with the Code. The Guide seeks to assist state and local law enforcement agencies participating in the program by clarifying the directives they must follow to obtain and use equitably shared funds. The goal is to make the process as clear as possible so that local communities and the nation can thrive from reduced crime and from quality law enforcement. Except as noted in the Guide, equitably shared funds must be used by law enforcement agencies for law enforcement purposes only. Subject to laws, rules, regulations, and orders of the state or local jurisdiction governing the use of public funds available for law enforcement purposes, specified expenses are pre-approved as permissible uses of shared funds and property. To avoid a conflict of interest or the appearance of a conflict of interest, any employee of any federal, state, or local governmental agency (or members of his or her immediate family or those residing in his or her household) who was involved in the investigation which led to the forfeiture of the property to be sold by the USMS contractor is prohibited from purchasing, either directly or indirectly, forfeited property. Additionally, Department of Justice employees and contractors may not, without prior written approval of a designated agency official, directly or indirectly purchase property that has been forfeited to the United States; or personally use such property that has been directly or indirectly purchased from the United States by a member of his or her immediate family. The fact that shared property was forfeited as a result of a particular federal violation does not limit its use. For example, when an agency receives a share of property that was forfeited for a federal drug violation, the recipient is not limited in its use of the property in the recipient agency's drug enforcement program. Among the permissible uses of equitable sharing funds, priority should be given to supporting community policing activities, training, and law enforcement operations. Except as noted in the Guide, equitably shared funds must be used by law enforcement agencies for law enforcement purposes only. Subject to laws, rules, regulations, and orders of the state or local jurisdiction governing the use of public funds available for law enforcement purposes, specified expenses are pre-approved as permissible uses of shared funds and property. The fact that shared property was forfeited as a result of a particular federal violation does not limit its use. For example, when an agency receives a share of property that was forfeited for a federal drug violation, the recipient is not limited in its use of the property in the recipient agency's drug enforcement program. Among the permissible uses of equitable sharing funds, priority should be given to supporting community policing activities, training, and law enforcement operations.

Applicant Eligibility:

A state or local law enforcement agency meeting eligibility requirements set

forth in the Guide and that directly participates in an investigation or prosecution that results in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture. For purposes of equitable sharing, the Department of Justice defines law enforcement agency as a state or local government organization authorized to engage in as its primary function the investigation and apprehension, or the prosecution of individuals suspected or convicted of offenses against the criminal laws of the United States or of any state, county, municipality, or territory of the United States. A state National Guard generally does not meet the law enforcement agency criteria for participation in the Department of Justice Equitable Sharing Program because its primary mission is a military or other non-law enforcement purpose. An individual National Guard unit, however, may qualify for sharing if: (1) It is a distinct unit of a state National Guard that has counterdrug activities as its primary mission and receives funding solely for this purpose; or (2) It is a military police or similar state National Guard unit that provides support to federal law enforcement agencies in counterdrug activities. No sharing request or recommendation, including shares negotiated in a task force or other agreement, is final until approved by the federal deciding authority. In accordance with the Crime Victims Rights Act and the Attorney Generals authority, the Department of Justice gives priority in the distribution of forfeited assets to valid owners, lien holders, federal financial regulatory agencies, and victims (in that order) through petitions for remission or mitigation or requests for restoration. After losses to the above parties have been satisfied, any remaining net proceeds can be shared with eligible state and local law enforcement agencies.

Beneficiary Eligibility:

A state or local law enforcement agency meeting eligibility requirements set forth in the Guide and that directly participates in an investigation or prosecution that results in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture.

Credentials/Documentation:

No sharing request or recommendation pertaining to an eligible equitable sharing participant, including shares negotiated in a task force or other agreement, is final until approved by the federal deciding authority as set forth in the Guide. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. After the seizure in a joint investigation or adoption in an adoptive case, a participating state or local agency meeting all requirements set forth in the Guide may request a share of the property by submitting a Form DAG-71, Application for Transfer of Federally Forfeited Property, to the federal seizing agency. A separate Form DAG-71 must be completed for each asset to be shared. An eligible state or local law enforcement agency requesting federal adoption of a state or local seizure must comply with all applicable state laws and regulations pertaining to the transfer of seized property to a federal law enforcement agency, including any requirement for a state judicial order or prosecutorial consent (e.g., declination letter) for such transfer.

Award Procedure:

Federal law authorizes the Attorney General to share federally forfeited property with participating state and local law enforcement agencies. The exercise of this authority is discretionary and limited by statute. The Attorney General is not required to share property in any case. No sharing request or recommendation is final until approved by the federal deciding authority. The equitable sharing deciding authority levels are specified in the Guide.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. Generally from 120 to 180 days after forfeiture, however

longer periods may be required in complex cases.

Appeals:

The exercise of this authority is discretionary and limited by statute. It is not subject to appeal or court review.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Equitable Sharing funds are eligible to cover the costs associated with paying a state or local law enforcement agency's matching contribution or share in a federal grant program, provided that the grant funds are used for a permissible law enforcement purpose in accordance with the Guide or where such use is authorized by federal law. Equitable Sharing awards have Non-supplanting requirements.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Not Applicable. See the following for information on how assistance is awarded/released: Funds are disbursed to participating agencies upon approval of individual asset sharing decisions.

Reports:

To ensure effective management, promote public confidence in the integrity of the Equitable Sharing Program, and protect the Program against potential waste, fraud, and abuse, the Department of Justice has established reporting requirements for participating law enforcement agencies that include the annual submission of the Equitable Sharing Agreement and Certification form and, if applicable, an audit report. A state or local law enforcement agency must be in compliance with the reporting requirements set forth in this Guide to receive any distribution of money or property under the Equitable Sharing Program. As a prerequisite to participating in the Department of Justice Equitable Sharing Program, a state or local law enforcement agency must annually submit to AMIL/S a signed Equitable Sharing Agreement and Certification form. The agreement must be signed by the head of the law enforcement agency and a designated official of the governing body. By signing the Affidavit, the signatories agree to be bound by the statutes and guidelines that regulate the equitable sharing program and certify that the law enforcement agency will comply with these guidelines and statutes. State and local law enforcement agencies must submit this form within 60 days after the end of an agency's fiscal year, regardless of whether funds were received or maintained during the fiscal year. The report must be completed electronically and emailed to aca.submit@usdoj.gov. Please see description under "Program Report". Please see description under "Program Report". PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2011: In FY 2011, EBSA closed 3,472 civil cases and obtained monetary results of nearly \$1,394,000,000. These monetary results were achieved through an aggressive enforcement program integrated with an effective participant assistance program. Participant assistance investigatory leads resulted in the opening of 900 enforcement cases with associated monetary results of over \$478,000,000 (a subset of the \$1,394,000,000). FY 2011 was an unprecedented year for participant assistance benefit recoveries. The rolling average for total benefit recoveries in the previous 5 fiscal years is \$132,500,000. EBSA secured two large recoveries that totaled \$275,800,000 in FY 2011 that, standing alone, exceeded total recovery results for participants for each of the previous 5 fiscal years. EBSA does not anticipate or estimate

that such anomalies will occur in future years. In partnership with other Departmental, federal, state, and local authorities, EBSA also closed 302 criminal cases in FY 2011 that resulted in 129 individuals being indicted and 75 cases being closed with guilty pleas and/or convictions. This demonstrates that EBSA's strategies for enforcement targeting and partnering with other law enforcement organizations is effective in finding the most egregious and persistent violators.

EBSA also actively involved the regulated community in efforts to identify and remedy violations with two highly successful self-correction programs designed to encourage voluntary compliance. The VFPC and the DFVCP encourage plan officials to identify and remedy certain ERISA violations. In FY 2011, EBSA verified \$8,985,000 in restored assets by closing 1,922 applications under the VFPC and 25,020 delinquent filers have come into compliance with ERISAs filing requirements under the DFVCP. 17.201 REGISTERED APPRENTICESHIP

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

National Apprenticeship Act of 1937 (Fitzgerald Act), Title 29, Part 29, Public Law 075-75-308, 50 Stat. 664, 29 U.S.C 50-50a-50b.

OBJECTIVES:

To promote, engage, and assist industry in the development, expansion, and improvement of Registered Apprenticeship. This program is designed to provide the skilled workers required by U.S. employers, ensure equal employment opportunities and the quality of all new and existing Registered Apprenticeship programs.

TYPES OF ASSISTANCE:

Information; Project Grants; Training

USES AND USE RESTRICTIONS:

Under the Office of Apprenticeship (OA), apprenticeship training programs and apprentices are registered in 25 States. OA also provides technical assistance and works closely with State Apprenticeship Agencies (SAAs) in the remaining 25 States, the District of Columbia, Guam, and two territories that register programs and apprentices in accordance with Federal standards. OA provides information on existing and recommended standards of training in Registered Apprenticeship. The wage rates of apprentices in registered programs (Federal and State) are exempt from the prevailing wage requirements of the

Davis-Bacon Act and the Service Contract Act.

Registered Apprenticeship combines job-related technical instruction with structured on-the-job learning experiences in a skilled occupation. Registered programs are driven directly by the demands of the labor market. The training is industry-recognized, voluntarily sponsored by an individual business or an employer association and may be partnered with a labor organization through a collective bargaining agreement. OA brings these entities together, as appropriate, to formulate Registered Apprenticeship training programs which meet the federal standards. Various educational institutions, including institutions employing distance and computer-based learning approaches, and sponsors provide related instruction, technical training, or other certified training. Registered Apprenticeship is highly active in traditional industries such as construction and manufacturing. With the goal to provide a pipeline of skilled workers, the program is also instrumental in providing skill occupational training in other sectors such as health care, energy, and homeland security.

The Advisory Committee on Apprenticeship (ACA) is an advisory board to the Secretary of Labor whose members represents employers, labor organizations, members of the public, as well as the education community, and others entities with an interest in skill training. The ACA provides advice and recommendations to the Secretary of Labor on apprenticeship and training issues. Special grants are provided to eligible organizations to assist employers and labor unions in placement and retention of women in apprenticeship and nontraditional occupations.

Applicant Eligibility:

for Registered Apprenticeship programs, employers, a group of employers, or an association of employers, or individual employers with or without in each case the participation of a labor union. For Women in Apprenticeship and Non-Traditional Occupations (WANTO) Act of 1992 grants: community-based organizations, which may be faith based - see announcement of solicitation for grant applications.

Beneficiary Eligibility:

Registered Apprenticeship program sponsors identify the minimum qualifications to apply into their apprenticeship programs. Individuals applying for acceptance into an apprenticeship program must be at least 16 years old. To be an apprentice in a hazardous occupation, the individual must usually be 18 years. Program sponsors may also identify additional minimum qualifications and credentials to apply, e.g., education, ability to physically perform the essential functions of the occupation, ability to complete the related technical instruction, proof of age.

Credentials/Documentation:

Along with the completed application form, each prospective apprentice may be required by the program sponsor to submit a transcript of school subjects and grades, proof of age, an honorable military discharge (if applicable), and a high-school diploma or equivalence certificate (if applicable). References from all previous employers may be required. This program is excluded from coverage under OMB Circular No. A-87.

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Prospective program sponsors must meet with an OA or SAA field representative, as appropriate, to develop a set of apprenticeship training program standards. These include the age and educational background of apprentices, and a schedule of the work processes and related technical instruction subjects to be covered during the training program. The program will be registered if it meets Federal requirements covering (a) the apprenticeability of the occupation(s) and (b) the suitability of the training standards for providing apprentices with sufficient knowledge to become skilled workers. Grants for projects are awarded on a competitive basis, announced in Solicitation for Grant Applications (SGAs) in the Federal Register and also on ETA's Internet website at <http://www.doleta.gov>. To

compete for a grant, organizations develop a proposal and budget that demonstrate how the organization will provide services to a targeted population. The SGA provides all of the necessary information for applying for federal assistance.

Award Procedure:

Not applicable for advisory services and counseling type of assistance. Procedures for grant projects are specified in the applicable request for proposals. Generally, the procedure is as follows: A technical review panel composed of staff from ETA program offices as well as peer reviewers evaluates eligible submitted applications. The panel prepares a report for the ETA Grant Officer identifying the strengths and weaknesses of the application and the cumulative rating. Once selections are made by the Grant Officer, an Award Notification is sent through the appropriate congressional channels for notification. After awardees are notified, the list of awardees is posted on the ETA website at www.doleta.gov. If an application is rejected, a letter is sent to the applicant as notification that they were not selected as a recipient of the grant.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Annual grants for base operation of programs are based on workload projections pursuant to economic assumptions and nationally developed workload estimates. Additional quarterly funding is based on actual workloads. Financing of administrative costs is accomplished through Letter of Credit drawdowns needed to meet immediate cash requirements. 17.245 TRADE ADJUSTMENT ASSISTANCE

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

Trade Act of 1974, as amended, Title II, Public Law 93-618, 88 Stat. 1979, 19 U.S.C 2271-2322.

OBJECTIVES:

To provide adjustment assistance to qualified workers adversely affected by foreign trade which will assist them to obtain suitable employment.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

State Workforce Agencies (SWAs) serve as agents of the United States for administering the worker adjustment assistance benefit provisions of the Trade Act. SWAs, through the local offices, provide testing, counseling, and job placement services; job search and relocation assistance; training; and payment of weekly trade readjustment allowances (TRA). State unemployment compensation and extended benefits must be exhausted before TRA is paid to eligible claimants. Trade impacted workers are eligible to receive job search and relocation allowances in addition to the costs of training. They may be paid subsistence and transportation allowances to attend approved training outside the normal commuting distance of a worker's regular place of residence.

Applicant Eligibility:

In FY 2012 ETA administered three separate TAA programs the program implemented by the Trade Adjustment Assistance Extension Act of 2011 (TAAEA) that is in effect for petitions filed on or after October 21, 2011; the

program implemented by the Trade and Globalization Adjustment Assistance Act of 2009 (TGAAA), that is in effect for petitions filed between May 18, 2009 and February 15, 2011; and the program administered under the Trade Act as amended by the TAA Reform Act of 2002, which existed before May 18, 2009, and resumed after February 15, 2011 as part of the Omnibus Trade Act of 2010. The TAAEA maintained the expansions to the program made by the TGAAA: expanded TAA coverage to more workers and firms, including workers and firms in the service sector; made benefits available to workers whose jobs have been off-shored to any country (as opposed to covering a more limited set of shifts in production), improved workers training options, and increased the affordability of health insurance coverage. The TAAEA maintained the TGAAA's expansion in the scope of the program to better assist adversely affected workers in finding new employment. It reauthorized funding for employment and case management services, and encouraged the type of long-term training necessary for jobs in the 21st century economy through an extension of income support, an increase in the cap for training funding, and access to training for adversely affected incumbent workers. The TAAEA differs slightly from the TGAAA in the amount and type of weekly income support, as well as the benefit level of the wage supplement program for older workers.

For a worker to be eligible to apply for TAA, the worker must be part of a group of workers that are the subject of a petition filed with the Department. Three workers of a company, a company official, a union or other duly authorized representative, or a One-Stop Career Center operator or One-Stop partner may file that petition with the Department. In response to the filing, the Department institutes an investigation to determine whether foreign trade was an important cause of the workers job loss or threat of job loss. If the Department determines that the workers meet the statutory criteria for group certification of eligibility for the workers in the group to apply for TAA, the Department grants the petition and issues a certification.

Once covered by a certification, individual workers apply for benefits and services through the One-Stop delivery system. Most benefits and services have specific individual eligibility criteria that must be met, such as previous work history, unemployment insurance eligibility, and individual skill levels.

Beneficiary Eligibility:

The TAA program currently offers the following services to eligible individuals: training, weekly income support, out-of-area job search and relocation allowances, case management and employment services, assistance with payments for health insurance coverage through the utilization of the Health Coverage Tax Credit (HCTC), and wage insurance for some older workers through ATAA or RTAA. ATAA is the wage insurance option available to reemployed older workers authorized by the TAA Reform Act of 2002. As a pilot project under this legislation, ATAA provides wage insurance to reemployed older workers for adversely affected workers covered by certifications of petitions filed before May 18, 2009 and after February 15, 2011 through October 21, 2011. Under the TGAAA, ATAA was replaced with RTAA, which is a wage insurance benefit for older workers that provided expanded eligibility options and benefits in comparison with the ATAA program. Under the TAAEA, RTAA was reauthorized, but at the 2002 benefit levels.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. To apply for TAA under the Trade Act of 1974, as amended, a "Petition for Trade Adjustment Assistance" must be filed directly with the Office of Trade Adjustment Assistance at the address listed below and with the State official or organization designated by the Governor of the State in which the workers' firm or subdivision is located. OTAA and State contact information, as well as

petition forms in English and Spanish, are available through the State Workforce Agencies or from the Office of Trade Adjustment Assistance listed below. The Petition forms may also be downloaded from our web-site, or filed online, at: <http://www.doleta.gov/tradeact>. Petitions must be filed with both the OTAA and the State agency in which the worker group's plant is located. Notice of such filing shall be promptly published in the Federal Register. Within 10 days after publication, the petitioner or any other person found by the Secretary to have a substantial interest may request a hearing and be afforded the opportunity to be present, to present evidence, and to be heard.

Award Procedure:

A Certification of Eligibility to apply for worker adjustment assistance may be issued by the Secretary of Labor to groups of workers who have been found by the Department of Labor to have met the requirements concerning foreign trade-affected separations from employment. Individual workers covered by the certification can apply to the local office of their State Workforce Agency for individual determinations of eligibility to receive benefits.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 30 to 60 days. For the TAA program, eligibility investigations begun by the receipt of a valid petition are completed, and a determination issued, within 40 calendar days of the receipt of the petition.

Appeals:

From 30 to 60 days. There are two courses of appeal, one administrative and the other judicial. Petitioners aggrieved by a final determination by the Secretary may, within 30 days after notice of such determination is published in the Federal Register, file an application for reconsideration with the Director of the Office of Trade Adjustment Assistance. If the determination following reconsideration is negative, they may, within 60 days after notice of the negative determination upon reconsideration, file a petition for review of such determination with the United States Court of International Trade in New York City. Aggrieved petitioners may request judicial appeal without first seeking administrative reconsideration, within 60 days after notice of such determination is published in the Federal Register.

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Cash trade readjustment allowances (TRA) generally becomes payable only after workers have exhausted their entitlement to State unemployment compensation including extended benefits. For TAA certifications on petitions filed between May 18, 2009 and February 15, 2011, the maximum number of weeks of State unemployment compensation, extended benefits and trade readjustment allowances cannot exceed 52 weeks except that up to 78 additional weeks may be paid to workers while participating in approved training and an additional 26 weeks for workers whose approved training program includes pre-requisite and/or remedial education. Participation in RTAA allows older workers, for whom retraining may not be appropriate, to accept reemployment at a lower wage and receive a wage subsidy instead of benefits under the regular TAA program. The RTAA allows for payments of 50 percent of the wage difference between old employment and new employment, not to exceed \$12,000 for up to two years. The individual must earn not more than \$55,000 a year in wages in reemployment, and must not return to employment from which the worker was separated. Base formula funding grants for training services are provided to States at the beginning of the year; additional funds may be requested by States based on additional needs above the base funding provided.

17.258 WIA ADULT PROGRAM

(WIA-Adult Program)

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

Workforce Investment Act of 1998, Title I, Part subtitle B, Section Chapter 5, Public Law 105-220, 20 U.S.C 9201.

OBJECTIVES:

To prepare workers -- particularly disadvantaged, low-skilled, and underemployed adults -- for good jobs by providing job search assistance and training. Program performance is measured by entry into unsubsidized employment, retention in unsubsidized employment, and earnings. The program serves individuals and helps employers meet their workforce needs. The employment goals will be measured using the Unemployment Insurance Wage Records Information System and customer satisfaction goals will be measured by sampling.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

The Act specifies that most services for adults will be provided through One Stop Career Centers. The Act authorizes three levels of service which are available to all jobseekers. "Core" services include outreach, job search, placement assistance, and labor market information, and are available to all jobseekers. "Intensive" services include more comprehensive assessments, development of "Individual Employment Plans" (IEP) and counseling, and career planning. Those customers who need additional services to find or retain employment may receive "training" services linked to job opportunities in their communities, including both occupational training and training in basic skills. To promote customer choice and involvement in career decisions, participants use an "Individual Training Account (ITA)" to select an appropriate training program from an eligible training provider. The Act also authorizes the provision of supportive services (e.g., transportation and child care assistance) to enable an individual to participate in the program. Consistent with the allowable activities in the statute.

Applicant Eligibility:

Under WIA, the organizations eligible to receive funding from the Department are the 50 States, Puerto Rico, the District of Columbia and the outlying areas. Funds are allotted based on a statutory formula. The states in turn allocate funds to local workforce investment boards (approximately 600), by formula.

Beneficiary Eligibility:

All adults 18 years and older are eligible for core services. Priority for intensive and training services must be given to public assistance recipients and low income populations when funds are limited. Priority of service is given to

veterans and other covered persons. States and local areas are responsible for establishing procedures for applying the priority requirements.

Credentials/Documentation:

Formula-funded programs are subject to Governor/Secretary Agreement and State Plan. States sign a grant document agreeing to comply with the Act and regulations for the formula-allotted program. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. The governor submits a single Strategic State Plan in accordance with one of the Planning Guidances, either Stand-Alone or Unified, issued through the Federal Register. The Planning Guidances provide detailed instruction on what must be included in the State Plan. The Unified Planning Guidance provides a framework for collaboration across programs and integration of services beyond WIA Title I programs and Wagner-Peyser Activities, including non-DOL programs and other ETA and non-ETA DOL programs. To promote customer choice and involvement in career decisions, participants use an "Individual Training Account (ITA)" to select an appropriate training program from an eligible training provider. The Act also authorizes the provision of supportive services (e.g., transportation and child care assistance) to enable an individual to participate in the program. Funds reserved by the Secretary are also used for technical assistance and training and demonstration programs. American Competitiveness and Workforce Improvement Act of 1998, Section 414(c), Public Law 105-227.

OBJECTIVES:

The H-1B Job Training Grant Program funds projects that provide training and related activities to workers to assist them in gaining the skills and competencies needed to obtain or upgrade employment in high-growth industries or economic sectors. A very small percentage of funds will be used by the Department of Labor for grants administration, technical assistance, and performance reporting.

Applicant Eligibility:

Grants may be awarded to a partnership of private and public sector entities as defined in the American Competitiveness and Workforce Improvement Act (ACWIA). Applicants may generally be public and non-profit organizations. See the Solicitation for Grant Applications (SGAs) for specific requirements.

The scope of potential trainees under these programs can be very broad. Please review the Solicitation for Grant Applications (SGAs) for specific requirements. Training may be targeted to a wide variety of populations including unemployed individuals and incumbent workers.

Credentials/Documentation:

Generally grantees must demonstrate an adequate organizational capacity, both fiscally and programmatically, including a project management structure. Additionally, grantees must provide evidence of the use of data systems to track outcomes in a timely and accurate manner. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Grants for projects are awarded on a competitive basis, announced in Solicitation for Grant Applications (SGAs) in the Federal Register and also on ETA's Internet Web site at <http://www.doleta.gov>. To compete for a grant, organizations develop a proposal and budget that demonstrate how the organization will provide services to a targeted population. The SGAs provide all of the necessary information for applying for federal assistance.

Award Procedure:

Procedures for each project are specified in the applicable request for proposals. Generally, the procedure is as follows: A technical review panel composed of staff from ETA program offices as well as peer reviewers evaluates eligible submitted applications. The panel prepares a report for the ETA Grant Officer

identifying the strengths and weaknesses of the application and the cumulative rating. Selections are made based on the best rated proposals, as well as other factors cited in the SGA. Once selections are made by the Grant Officer, an Award Notification is sent through the appropriate congressional channels for notification. After awardees are notified, the list of awardees is posted on the ETA website at www.doleta.gov. If an application is rejected, a letter is sent to the applicant as notification that they were not selected as a recipient of the grant.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. ETA announces grant recipients once the paneling process is complete, generally 90 to 120 days after the application deadline.

Appeals:

Procedures for each project are specified in the applicable Solicitation for Grant Application.

Renewals:

Renewals with funds are generally not available. However, with significant justification ETA may elect to exercise its option to award no-cost extensions to these grants for an additional period at its own discretion, based on the success of the program and other relevant factors.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The requirement for match is contingent on the activities proposed by the applicant. Applicants that propose incumbent worker training activities must provide resources as matching funds, if applicable. One hundred percent of these funds are set aside for discretionary activities to be distributed almost exclusively through competitive procurements.

Applicant Eligibility:

Eligible applicants for Reintegration of Ex-Offender-Adult (RExO) grants are

community-based organizations (CBOs) that are located in, or have a staff presence in the community being served. Eligible applicants for Youthful Offenders vary depending on the solicitation, but have included community-based organizations, school districts, and juvenile justice agencies.

Beneficiary Eligibility:

Reintegration of Ex-Offender-Adult grants serve individuals, 18 years old and older, who have been convicted as an adult and have been imprisoned for violating a state or federal law, and who have never been convicted of a sex-related offense. The Department of Labor issues labor certifications for temporary employment under several programs: H-1B Specialty (Professional) Worker Program, H-1B1 Specialty Worker Program (professionals from Chile or Singapore working in specialty occupations), E-3 Specialty Worker Program (professionals from Australia working in specialty occupations), H-2A Temporary Employment Certification (Agricultural), H-2B Temporary Employment Certification (Non-Agricultural), and D-1 Crewmember Program.

Applicant Eligibility:

H-2A Program: An agricultural employer who anticipates a shortage of U.S. workers needed to perform agricultural labor or services of a temporary or seasonal nature. The employer may be an individual proprietorship, a partnership or a corporation. An association of agricultural producers may file

as a sole employer, a joint employer with its members, or as an agent of its members. An authorized agent or attorney, whether an individual or an entity (e.g., an association), may file an application on behalf of an employer. Associations may file master applications on behalf of their members. H-2B Program: The job and the employer's need must be one time, seasonal, peak load or intermittent; the job must be for less than one year; and there must be no qualified and willing U.S. workers available for the job. An employer must file an application for employment certification with the Chicago National Processing Center of the Employment and Training Administration. State Workforce Agencies are federally funded to issue prevailing wage determinations for foreign labor certification programs.

These labor conditiona applications and foreign labor certification programs govern employers who have a need for workers in specialty occupations, or as fashion models of distinguished merit and ability, or in temporary agricultural or non-agricultural employment.

Credentials/Documentation:

In the major temporary employment certification programs, employers sponsoring foreign workers to fill a temporary need file the certification from the Department of Labor as documentation in support of their respective I-129 nonimmigrant worker petitions with the Department of Homeland Security, United States Citizenship and Immigration Services (USCIS). In the H-1B1 and E-3 programs, a USCIS petition is not needed for initial visa issuance, and the foreign national may use proof of labroconditiona application certification in support of the visa application. This program is excluded from coverage under OMB Circular No. A-87.

Employers who participate in foreign labor certification programs do not receive funding from these grants, but do benefit from the services offered by these state agencies to recruit U.S. workers for positions before they apply to hire a foreign worker. Employers contact the appropriate office of the Employment and Training Administration. Also see <http://www.doleta.gov/business/gw/guestwkr/> for additional details on specific programs.

Award Procedure:

State Workforce Agencies receive notification of grant award after federal approval of their workplans. Employers must prove they qualify for foreign labor certification before they can move to the next step of the employment-based immigration process. Certifications are sent to the employer in support of the petition to be filed with the U.S. Citizenship and Immigration Services which determines admissibility and Visa classification. The employer, via the ETA Form 9142, advises as to the type of visa which is supported by the application. Certified copies of accepted attestations for the D-1 Crewmember program are returned to the employer and the USCIS is notified of the filing in writing. TYPES OF ASSISTANCE:

The HCTC is equal to 72.5 percent of the amount paid by an eligible individual for qualified health coverage. Monthly payments are made directly to a health plan administrator on behalf of participants, allowing them to receive the benefit of the tax credit at the time of need. States may request HCTC NEG funds to cover up to three months of gap payments to support 72.5 percent of the qualified premium for eligible individuals. The gap period is defined as the period after the state determines a candidate's eligibility for HCTC until the IRS enrolls, processes, and pays a candidate's first payment under the HCTC program. This period is usually one month, but depending on the timing and other factors can take up to three months, and sometimes slightly longer in rare instances. 17.278 WIA DISLOCATED WORKER FORMULA GRANTS

(WIA Dislocated Workers)

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

Workforce Investment Act of 1998, Title I, Part Subtitle B, Section Chapter 5, Public Law 105-220, 20 U.S.C 9201.

OBJECTIVES:

The purpose of the WIA Dislocated Worker program is to help dislocated workers become reemployed through job search assistance and/or training that builds their occupational skills to meet labor market needs. This program's success is measured by participants' entry into unsubsidized employment, retention in unsubsidized employment, and average earnings.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

The Act authorizes three levels of service for dislocated workers. "Core" services include outreach, job search and placement assistance, and labor market information. "Intensive" services include more comprehensive assessments, development of individual employment plans and counseling, and career planning. Customers who cannot find employment with their current skills may receive "training" services linked to job opportunities in their communities, including both occupational training and training in basic skills. To promote customer choice and involvement in career decisions, participants use an "Individual Training Account" (ITA) to select an appropriate training program from an eligible training provider. The Act also authorizes the provision of supportive services (e.g., transportation and child care assistance) to enable an individual to participate in the program. Funds reserved by the Secretary are also used for technical assistance and training and demonstration programs.

Beginning in Program Year (PY) 2010 CFDA number 17.260 will no longer be used for any new funding. Funding previously covered under 17.260 which is allocated after June 30, 2010 will be referenced using several new CFDA numbers: 17.277 for National Emergency Grants (NEGs), 17.278 for WIA Dislocated Worker Formula Grants, 17.280 WIA Dislocated Worker National Reserve Demonstration Grants, and 17.281 WIA Dislocated Worker National Reserve Technical Assistance and Training Grants. All subsequent information listed here under 17.278 refers to WIA Dislocated Worker Formula Grants. Funds must be used in accordance with the statute and regulations.

Applicant Eligibility:

Under the Act, the organizations eligible to receive formula-based funding from the Department are the 50 states, Puerto Rico, the District of Columbia and the outlying areas. Funds are allotted based on a statutory formula and states, in turn, allocate funds to local workforce investment boards (approximately 600), by formula prescribed by the governor.

Beneficiary Eligibility:

Individuals eligible for assistance through the Act include workers who have lost their jobs, including those dislocated as a result of plant closings or mass layoffs, and are unlikely to return to their previous industry or occupation; formerly self-employed individuals; and displaced homemakers who depend on income of another family member, but are no longer supported by that income. Priority of Service is given to veterans and other covered persons.

Credentials/Documentation:

Formula-funded programs are subject to an agreement between the Governor and Secretary and an approved State Plan. States sign a grant document agreeing to comply with the Act and regulations for the formula-allotted program. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The governor submits a single Strategic State Plan in accordance with one of the Planning Guidance, either Stand-Alone or Unified, issued through the Federal Register. The planning guidance provides detailed instruction on what must be included in the State Plan. The plan is submitted to the Federal Coordinator for Plan Review and Approval, Office of Workforce Investment, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW, Room S-4231, Washington, DC 20210.

Award Procedure:

Those portions of the State Plan over which the Assistant Secretary for Employment and Training exercises authority are reviewed and approved by the Employment and Training Administration. Formula funds are awarded to the

states based on a statutory formula provided in the authorizing legislation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. State plans will be reviewed in accordance with 20 CFR 661.220(e), which provides that the Secretary must approve all state plans within 90 days of their submission, unless the Secretary determines in writing that: (1) the state plan is inconsistent with the provisions of Title I of WIA or the WIA regulations, including 29 CFR Part 37; or (2) the portion of the state plan impacting the Wagner-Peyser Act plan does not satisfy the criteria for approval in section 8(d) of the Wagner-Peyser Act or the Wagner-Peyser Act regulations at 20 CFR Part 652.

Fiscal Year 2011: TBD. Fiscal Year 2012: In FY 2012, the Womens Bureau continued to maintain and develop projects in its effort to promote an environment responsive to the demands and challenges of the 21st Century workforce. These targeted initiatives were designed to enhance opportunities for women under the Departments vision of Good Jobs for Everyone, and the Bureaus vision To empower all working women to achieve economic security. A publication outlining Departmental policies and programs titled

Working for Women -- Your Job Your Rights/Increasing Employment Opportunities and Improving Working Conditions for Women was developed to provide agency-related information targeted toward women workers.

In cooperation with numerous womens, Federal, state, community, and faith-based organizations, the Bureau worked to conduct research, projects, and outreach on issues of importance to working women, and provide information about women in the labor force to stakeholders and customers. Specifically, the Bureau focused on the economic and financial security of vulnerable working women through policies that improve services for women veterans, narrow the wage gap and ensure fair compensation; promote employment in the clean energy, STEM, and other emerging, higher-paying, high-demand job sectors; and quality work environments through workplace flexibility.

HIGHER-PAYING JOBS The Womens Bureau released Why Green is Your Color: A Womens Guide to a Sustainable Career, an on-line publication designed to aid in increasing womens access to high-growth and emerging industry occupations in the green jobs sector. The guide was created to help women at all stages of their careers whether they are newly entering the workforce, transitioning to new careers, or returning to the workforce identify and take advantage of opportunities in the clean energy economy. It will also help training providers, educators, counselors, and other workforce development professionals promote the recruitment and retention of women in green career paths. A web-based training module is also available via the Bureaus web site.

EQUAL PAY Two fact sheets on the issue of equal pay were released by the Womens Bureau during FY 2012. A Guide to Womens Equal Pay Rights and An Employers Guide to Equal Pay were developed to educate both women workers and employers on pay and compensation rights under federal law. The popular publications will be translated into Spanish, French, Vietnamese, and Chinese during FY 2013 and will be accessible via the Bureaus web site.

WOMEN VETERANS The Bureau continued its targeted outreach to women veterans, utilizing the publication Trauma-Informed Care for Women Veterans Experiencing Homelessness: A Guide for Service Providers, which was developed to identify the gender-specific needs of women veterans, issues regarding their reintegration into the workforce, and how to improve services and resources for this unique population.
