Extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extensions requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests should be received by the federal program office 45 days prior to the end date of the award. The federal program office will not recommend approval for any retroactive extension request (received after the end date of the award). Recipients should make every effort to submit one extension request for all projects needing an extension (when possible, multiple extension requests should be avoided). With sufficient justification, the federal program office will recommend approval of a six-month extension for the first extension request. First time or cumulative extension requests for more than six months but less than 12 months, will need more compelling justification as to why the project was not completed on time or could not be completed within the first six-month extension. Although the federal program office discourages extensions of more than 12 months, the federal program office will recommend approval in cases where the funds are already obligated. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2012: Continued implementation and development of the regional coastal, ocean and Great Lakes component of U.S. IOOS under the 3 or 5 year cooperative agreements established in FY 2011. Fiscal Year 2013: FY2013 marked the first year that IOOS Regions received post-disaster supplemental

repair dollars for assets damaged during Hurricane Sandy. IOOS strengthened Data Management and Communication (DMAC), enhanced partnerships in the areas of biodiversity, biology and animal telemetry networking and with the NOAAs National Centers for Environmental Prediction (NCEP). IOOS maintained strong partnerships with NOAAs Coastal Storms program and Ocean Acidification program. IOOS initiated joint planning with the IOOS Regional Associations (RAs) to ensure alignment of annual planning and project execution strategies, and objectives. IOOS began the Marine Sensor Innovation projects in FY2013 including sensor verification & validation, the Coastal and Ocean Modeling Testbed, and projects to advance sensor technology transitions from research into operations. Fiscal Year 2014: IOOS intends to execute DMAC as defined in FY2013 and must engage other Federal agencies and non-Federal partners in their adoption of IOOS recommended standards and protocols. These efforts are aligned with the three National Ocean Service (NOS) priorities: (a) Improve end-to-end Response, Recovery, Restoration and Resiliency; (b) Enhance Coastal Marine Resource Conservation; and (c) Enhance Visibility and Relevance of NOS to the Nation.

REGULATIONS, GUIDELINES, AND LITERATURE:

Allowable costs will be determined in accordance with OMB Circular A-87 for State and local governments and Indian Tribes; OMB Circular A-122 for nonprofit and for-profit organizations; OMB Circular A-21 for institutions of higher education; and 48 CFR Part 31 for commercial organizations. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2012: Profiling gliders are rapidly becoming essential instruments for operational observing of the nations coastal oceans and Great Lakes. US IOOS regions and partners were heavily engaged in glider operations and in many instances leading the way on their uses and applications. As use and mission variety expand, there is an increasing need for a program-level dialog

on topics such as how gliders are deployed and operated, community standards for data access and organization, and what the candidate expansion paths might be towards a national capacity for gliders for observing and understanding better our coastal oceans and Great Lakes. Fiscal Year 2013: Strategic collaborations are being facilitated among experts from academia, federal operational centers and industry in order to guide the U.S. IOOS Coastal and Ocean Modeling Testbed (COMT) through its first highly productive phase. The mission of the COMT is to accelerate the transition of advances from the coastal ocean modeling research community to improved operational ocean products and services. The long-range vision of the program is to increase the accuracy, reliability, and scope of operational coastal and ocean forecasting products. Fiscal Year 2014: It is projected that IOOS will establish a research and development program to develop and improve marine sensors. The IOOS Marine Sensor Innovation Improvement Program will make competitive, extramural awards available. Resources will be targeted to sensor systems that are beyond their research phase, with specific emphasis on transitional and life cycle costs, including data management, overall operations, and maintenance expenses.

CRITERIA FOR SELECTING PROPOSALS:

Proposals are subject to office evaluations, technical reviews, administrative reviews, and externals reviews, if applicable, taking into consideration primarily scientific merit and application to the goals of NOAA and the relevant federal program office.

11.112 MARKET DEVELOPMENT COOPERATOR PROGRAM

MDCP

FEDERAL AGENCY:

International Trade Administration, Department of Commerce

AUTHORIZATION:

Omnibus Trade and Competitiveness Act of 1988, Public Law 100-418, Title II, Section 2303, 102 Stat. 1342, 15 U.S.C.4723.

OBJECTIVES:

Through the Market Development Cooperator Program (MDCP), the International Trade Administration (ITA) aims to develop, maintain and expand foreign markets for nonagricultural goods and services produced in the United States.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

A Federal Funding Opportunity (FFO) notice describing the program is available at grants.gov, at export.gov/mdcp, or from the contact listed in "Information Contacts" below. The most prominent uses and restrictions are summarized below. 1. Applicants should propose foreign market development activities that result in U.S. firms increasing exports that create or maintain U.S. jobs. 2. The primary beneficiaries of project activity should be small-and medium-sized enterprises. 3. No more than \$300,000 in federal funds is available for each project. 4. The federal funds are to last for the life of the project, not to exceed three years. 5. Applicant match is two to one: for each federal dollar received, applicant must match at least one dollar with cash and another dollar with cash or in-kind contribution. 6. Federal funds and the first dollar of applicant match can be used only on direct costs.

Applicant Eligibility:

Applicants are found to be eligible in one of three categories. 1. Nonprofit industry organizations (includes small business development centers, World Trade Centers, and 501(c)nonprofits such as chambers of commerce, international trade centers, port authorities, economic development organizations, and other business interest groups). 2. Trade associations. 3. State departments of trade and their regional associations. The Statute stipulates that private industry firms or groups of firms may be found eligible in cases where no entity described above represents that industry. However, since the program began operating in 1993, no private firm has been able to demonstrate that an organization in one of the first three categories did not represent its interests.

Beneficiary Eligibility:

U.S. firms that sell non-agricultural goods or services. (While private firms benefit from MDCP project activity, as noted above, they are generally not eligible to apply for MDCP funds.)

Credentials/Documentation:

In order to determine eligibility, applicants should consult www.export.gov/mdcp and request an eligibility determination in writing from the MDCP Director (see "Information Contacts"). The written request should

be accompanied by the most current version of all the following documents that apply: articles of incorporation; charter; bylaws; information on types of members and membership fees; Internal Revenue Service acknowledgment of non-profit status; annual report; audited financial statements; and documentation of ties to state trade departments or their regional associations. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Before applying an applicant should get a determination from ITA of its eligibility to be considered to be selected to receive an MDCP award.

MDCP awards are cooperative agreements, not grants. ITA will be substantially involved in helping an MDCP award winner to achieve project objectives. Accordingly, applicants are strongly encouraged to coordinate with the contact identified in this CFDA listing as well as other relevant ITA staff. Directories of ITA staff can be accessed via export.gov/mdcp. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Application packages are available at grants.gov and at export.gov/mdcp, which includes an example of a complete MDCP application. Applicants are strongly encouraged to submit applications via grants.gov. All forms can be downloaded from grants.gov. Completed forms and all other elements of the application are to be uploaded onto grants.gov. The application will be organized into four parts: forms, project, budget, and other.

1. Forms: a. SF-424; b. SF-424A; c. SF-424B; and d. CD-511.

2. Project narrative file (page limit: 20): a. One-page executive summary including target markets, projected exports to result, size of the market, and brief project description. b. Background including market research that makes clear why the project is needed and has a good chance to succeed. c. Description of the project. d. Description of estimate of exports to be generated and other performance measures. e. Description of partnership with ITA envisioned by applicant. f. Credentials of staff to work on the project. g. Evidence of support for the project from U.S. firms interested in participating. h. Description of how applicant proposes to use the ITA emblem to further project goals. i. Draft success agreement outlining benefits to participating firms and their duty to report exports.

3. Budget narrative attachment file (page limit: 20): a. Spreadsheet that breaks down the budget into the categories used on the SF-424A and apportions it over the award period. b. Supporting worksheets and explanations. c. Discussion of financial systems and projections that identify how, when, and from what sources the matching funds will be or have been raised. d. List of financial assistance awards of \$40,000 or more received over the last five years. e. Financial statements. f. Evidence of commitment of cash or in-kind support. g. Any additional evidence of financial responsibility.

4. Other attachment file (page limit: 10): This must not include any documents that should be classified as forms, project narrative, or budget narrative. Most MDCP applications do not include this other attachment because the other three parts of the application encompass all necessary elements.

Every page of the application must be easily legible. Textual documents generated by an applicant should have a one-inch margin on either side and top and bottom, and the typeface should be no smaller than 11-point. Headers and footers can lie outside the margins. Pages that are not easily legible may be ignored by reviewers.

Award Procedure:

A merit review panel of at least three senior ITA officials evaluates each MDCP application based on the following five criteria: potential to strengthen competitiveness; performance measurement; partnership potential with ITA and compatibility with ITA priorities; creativity and institutional capacity; and budget, cash match, and sustainability. Each application can receive up to 20 points in each of the five categories for a total possible score of 100. Once applications are received, applicants may not revise them. Unsuccessful

applicants will be notified within 10 days after award decisions have been announced. Since the program began in 1993, ITA has made, on average, 7 awards per year.

11.302 ECONOMIC DEVELOPMENT SUPPORT FOR PLANNING ORGANIZATIONS

Planning Investments and Comprehensive Economic Development Strategies

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

Through the Planning program, EDA provides assistance to eligible recipients to create regional economic development plans in order to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which leverage the unique assets of their respective regions to help create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.

To facilitate CEDS, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts (EDDs) throughout the Nation. These planning organizations are typically recognized by the State in which they reside as multi-jurisdictional councils of governments, regional commissions, or planning and development centers. Partnership Planning grants enable planning organizations to manage and coordinate the development and implementation of CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help organize and assist with the implementation of economic development activities within their areas. The majority of funding under the Planning program is for Partnership Planning grants for Indian Tribes and EDA-designated EDDs.

The Planning program also helps support planning organizations and other eligible recipients, including District Organizations and Indian Tribes, with Short-Term and State Planning efforts in order to stimulate and guide the creation and/or retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. For example, EDA might provide Short-Term Planning funding to a coalition of Tribal and regional organizations to plan a coordinated response to the sudden loss of a major employer in the affected area(s).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

EDA Planning investments support the preparation of CEDS that guide EDAs Public Works and Economic Adjustment Assistance implementation

investments, including Revolving Loan Funds. Sound local planning also attracts other Federal, state, and local funds plus private sector investments to implement long term development strategies. In this way, EDAs Planning program plays a foundational role in helping communities develop important strategies that inform future economic development decisions.

Comprehensive, market-based, local and regional planning is an essential component of successful economic development. Effective planning creates a road map for community growth and development with a focused approach towards creating higher-skill, higher-wage jobs. The Planning Program provides a foundation for EDAs infrastructure investments, which are designed to stimulate economic growth in distressed regions. The planning process supports an assessment of the regions economic conditions and the development of a CEDS to guide resource allocation and project development. The key value of this process is that it is locally determined and involves participation from all the diverse interests in the community. Planning activities supported by these Investments must be part of a continuous process involving the active participation of Private Sector Representatives, public officials and private citizens, and include:

- (a) Analyzing local economies;
- (b) Defining economic development goals;
- (c) Determining Project opportunities; and
- (d) Formulating and implementing an economic development program that includes systematic efforts to reduce unemployment and increase incomes. All EDA grants are discretionary grants. EDA does not award any formula grants.

Applicant Eligibility:

Pursuant to PWEDA, eligible applicants for and recipients of EDA investment assistance include a(n): (a) District Organization (as defined in 13 CFR 304.2); (b) Indian Tribe or a consortium of Indian Tribes; (c) State, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions; (d) institution of higher education or a consortium of institutions of higher education; or (e) public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. 3122) and 13 CFR 300.3. As used in this paragraph, State includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau. See 13 CFR 300.3 and 301.2.

Beneficiary Eligibility:

EDA Planning investments provide support to Planning Organizations for the development, implementation, revision, or replacement of a CEDS. They also may provide support for related short-term planning investments and State plans designed to create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the nation's most economically distressed regions.

Credentials/Documentation:

To be considered for EDA assistance, applicants must first submit a complete EDA application package. The applicant must provide a list of its proposed Strategy Committee members. The Committee must represent the main economic interests of the Region and must include Private Sector Representatives as a majority of its membership. The applicant should ensure that the Strategy Committee includes public officials, community leaders, representatives of workforce development boards, institutions of higher education, minority and labor groups, and private individuals. The Strategy Committee representing Indian Tribes or States may vary. Applicants must also submit documentation of matching fund availability. Finally, non-profit applicants will be asked to provide additional documentation. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not required, but EDA offers applicants assistance in developing applications through its network of field-based Economic Development Representatives (EDRs). Environmental impact information is not required for this program. This program is eligible for coverage under Executive Order (E.O.) 12372, Intergovernmental Review of Federal Programs. CRITERIA FOR SELECTING PROPOSALS:

In addition to evaluating applications based on EDA's mission, funding priorities, and the evaluation criteria laid out in the applicable FFO, EDA also considers:

- (1) The proposed scope of work for the development, implementation, revision or replacement of the CEDS, or the relation of the CEDS to the proposed short-term planning activities or the State plan;
- (2) The qualifications of the applicant to implement the goals and objectives resulting from the CEDS, short-term planning activities or the State plan;

- (5) The feasibility of the proposed scope of work to create and retain higher-skill, higher-wage jobs through implementation of the CEDS.

In addition, for continuation awards, funded recipients are evaluated on the basis of the extent of continuing economic distress within the Region, their past performance, and the overall effectiveness of their CEDS.

For Planning Investment awards to a State, EDA will also consider the extent to which the State will integrate and coordinate its CEDS with local and Economic Development District plans.

11.303 ECONOMIC DEVELOPMENT TECHNICAL ASSISTANCE

National Technical Assistance; Local Technical Assistance; University Centers
FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

EDA oversees three technical assistance programs (National, Local and University Center) that promote economic development and alleviate

unemployment, underemployment, and out-migration in distressed regions. These programs provide grants or cooperative agreements to: (1) invest in institutions of higher education to establish and operate University Centers to support initiatives that are focused on advancing: regional commercialization efforts; entrepreneurship; and a high-skilled regional workforce. provide technical assistance to public and private sector organizations with the goal of enhancing local economic development; (2) support innovative approaches to stimulate economic development in distressed regions; (3) disseminate information and studies of economic development issues of national significance; and (4) finance feasibility studies and other projects leading to local economic development. These programs aid the long-range economic development of regions with severe unemployment and low per capita income.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Technical assistance is used to provide information, data, resources and toolkits which practitioners and policymakers can utilize when evaluating, shaping and implementing specific projects and programs to promote economic development efforts in their respective economically distressed regions. EDA announces opportunities to compete for funding to support University Centers through its annual Federal Funding Opportunity (FFO) on University Centers, and the intent to support local technical assistance through its annual FFO on planning and local technical assistance. EDA may identify specific training, research or technical assistance projects it will fund under National Technical Assistance, which will be subject to competition. Ordinarily, these projects are specified in a FFO, which will provide the specific requirements, timelines and the appropriate points of contact and addresses. The EDA-supported University Center (UC) sub-program is specifically designed to marshal the resources located within colleges and universities to support job creation and economic growth in regions experiencing economic distress. UCs, which EDA considers long-term partners in economic development, are required to devote the majority of their funding to respond to technical assistance requests originating from organizations located in the economically distressed portions of their service regions. EDA-sponsored University Centers provide strategic technical assistance to regional partners; including, tribal entities, local governments, and public and private sector organizations; conduct economic impact assessments; support cluster development and conduct cluster studies; facilitate regional collaboration; support commercialization and technology transfer efforts; and undertake other activities with the goal of enhancing regional economic development by promoting a favorable business environment to attract private capital investment and higher-skill, higher-wage jobs.. EDA University Center competitions are held once every five years in each EDA Region. The project must be consistent with the CEDS of the region in which it is located, if applicable. At least eighty (80) percent of EDA funding under a University Center Economic Development award must be allocated to direct costs of program delivery; unrecovered indirect costs are not chargeable to the award without EDAs express approval. All EDA grants are competitive: EDA does not award formula grants. The Local Technical Assistance (Local TA) sub-program, one of EDAs smallest programs in terms of funding, is an extremely flexible and useful economic development tool. The most common purpose of a Local TA project has been to analyze the feasibility of a potential economic development project, such as an industrial park or a high-technology business incubator, or to support other critical studies necessary for economic development professionals to make informed business decisions, including economic impact assessments. The National Technical Assistance sub-program is designed to provide economic development professionals with access to tools and resources on cutting edge economic development concepts that can inform their decision-making and help support good decision making which will lead to strong, vibrant economic development and regional prosperity. Through this program, EDA provides a wide array of resources, including a cluster mapping tool (<http://clustermapping.us>), a website to identify innovation index of self-selected communities and compare against other geographies (www.statsamerica.org/innovation/), and a resource to help support best practices among venture development organizations (VDOs) (<http://regionalinnovation.org/>). The project must be consistent with the CEDS of the region in which it is located, if applicable. All EDA grants are discretionary. EDA does not award formula grants.

Applicant Eligibility:

Most technical assistance recipients are private or public nonprofit organizations and educational institutions. As defined in 13 C.F.R. 300.3, 'eligible recipients' include a State, city, county, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of such political subdivision, an institution of higher education or a consortium of institutions of higher education, an Economic Development District organization, a private or public nonprofit organization or association, including a faith-based nonprofit organization, acting in cooperation with officials of a political subdivision of a State, or an Indian Tribe, or a consortium of Indian Tribes. Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Except for applications that have a national or multi-regional focus, applications are subject to the requirements of E.O. 12372, Intergovernmental Review of Federal Programs and implementing regulations at 13 CFR 302.9.

Award Procedure:

EDA will award investment assistance in accord with the procedures set forth in the applicable announcement of federal funding opportunity (FFO).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For National Technical Assistance and University Center competitions, the deadlines are set forth in the applicable FFO. For Local Technical Assistance, regional offices accept applications on a rolling basis. Approval or disapproval of an application is generally made within 4 months; in many cases, the timeline for award announcement is set forth in the applicable FFO.

Appeals:

Not Applicable.

Renewals:

Each fiscal year, two EDA regional offices will provide a five-year project period for each University Center selected for funding under the requisite competition, with the initial award being made for the first year of the project

period. Funding beyond the initial year is dependent upon the availability of funds and satisfactory performance, as determined by EDA and expressed in written notice. The servicing EDA regional office will contact current University Center operators regarding the procedures for applying for continuation funding. National and Local Technical Assistance projects are typically funded for a single project period without any pre-set expectation of renewal. Renewal of an award to increase funding or extend the period of performance is at EDA's sole discretion.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Generally, the amount of the EDA award may not exceed 50 percent of the total cost of the project. Projects may receive an additional amount that shall not exceed 30 percent, based on the relative needs of the region in which the project will be located, as determined by EDA. See section 204(a) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(1). The Assistant Secretary of Commerce for Economic Development has the discretion to establish a maximum EDA investment rate of up to one-hundred (100) percent where the project (i) merits and is not otherwise feasible without an increase to the EDA investment rate; or (ii) will be of no or only incidental benefit to the recipient. See section 204(c)(3) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(4). In-kind contributions, fairly evaluated by EDA, may provide the non-federal share of the total project cost. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally, the University Center Program funds applications on a five-year basis with continuation awards made for each of the three years within a project period. The length of the project period for National and Local Technical Assistance projects varies, but is usually for a period of one to two years. Funds are disbursed as required. See the following for information on how assistance is awarded/released: In accordance with the grant terms and conditions.

Reports:

No program reports are required. No cash reports are required. Project progress and financial reports are required, generally on a quarterly basis, as required by the Special Terms and Conditions governing the award. EDA requires the submission of the SF-425 Federal Financial Report. EDA reviews progress and financial reports for compliance with all award terms and conditions, as well as EDA regulations. EDA reserves the right to conduct site visits on an as-needed basis.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. The applicant is reminded that EDA or the Department of Commerce's Office of Inspector General also may conduct an audit of an award at any time.

AUTHORIZATION:

Section 209 of the Public Works and Economic development Act of 1965, as amended (PWEDA), (42 U.S.C. 3149).

OBJECTIVES:

To address the needs of distressed communities experiencing adverse economic changes that may occur suddenly or over time, and generally result from industrial or corporate restructuring, new Federal laws or requirements, reduction in defense expenditures, depletion of natural resources, or natural disaster. Economic Adjustment Assistance grants are intended to enhance a distressed community's ability to compete economically by stimulating private investment in targeted areas. Current investment priorities include proposals that focus on (a) Collaborative Regional Innovation, (b) Public/Private Partnerships, (c) National Strategic Priorities, (d) Global Competitiveness, (e) Environmentally-Sustainable Development, (f) Economically Distressed and Underserved Communities. For more information on these investment priorities and current funding opportunities, go to <http://www.eda.gov>.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The Economic Adjustment Assistance Program provides a wide range of technical, planning and public works and infrastructure assistance in regions experiencing adverse economic changes that may occur suddenly or over time. This program is designed to respond flexibly to pressing economic recovery issues and is well suited to help address challenges faced by U.S. communities and regions. To be eligible, a project must be located in or benefit a region that, on the date EDA receives an application for investment assistance, satisfies one or more of the economic distress criteria set forth in 13 C.F.R. 301.3(a). All investments must be consistent with a current EDA- approved Comprehensive Economic Development Strategy (CEDS) or equivalent strategic economic development plan for the region in which the project will be located, and the applicant must have the required local share of funds committed, available, and unencumbered. Applicants must be able to start and complete proposed projects in a timely manner consistent with award terms and conditions. Recipients must award contracts in accordance with proper procurement procedures and ensure that contractors pay Davis-Bacon wage rates. Indirect costs are not allowed. All grants awarded are competitive in nature. EDA does not award formula grants.

Applicant Eligibility:

Projects eligible for Economic Adjustment investment assistance also include those located in regions meeting Special Need criteria as defined in 13 CFR 300.3. For-profit, private sector entities do not qualify for Economic Adjustment assistance under PWEDA. Therefore, EDA will not provide investments directly to individuals or for-profit entities. Applicants must provide a complete application that includes: a copy of the region's Comprehensive Economic Development Strategy (CEDS); letters of commitment to document matching funds; a USGS map of the site; letter of commitment from private beneficiaries of the project; comments from the metropolitan area review/clearinghouse agency; a legal opinion and other documentation, as necessary, verifying the applicant's answer to questions regarding project ownership, operation, maintenance, and management; an engineering report; an Environmental Assessment (and possibly an Environmental Impact Statement if deemed necessary); and documented approval from the State Historic Preservation Officer (SHPO). Non-profit applicants will be required to submit additional documentation, such as a Certificate of Good Standing, Articles of Incorporation, and other documents as applicable for the project. 11.313 TRADE ADJUSTMENT ASSISTANCE FOR FIRMS

Trade Adjustment Assistance for Firms

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.).

OBJECTIVES:

The Trade Adjustment Assistance for Firms (TAAF) program helps economically distressed U.S. business in building strategies to increase exports and thereby create jobs. The program provides technical assistance to U.S. businesses that have lost sales and employment due to increased imports of similar goods and services. Technical assistance is provided through a nationwide network of eleven Economic Development Administration (EDA) funded Trade Adjustment Assistance Centers (TAACs).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under Chapters 3 and 5 of Title II of Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.), a firm may apply to the applicable TAAC supported by the Economic Development Administration (EDA) of the Department of Commerce for certification of eligibility to apply for trade adjustment assistance (TAA) related technical assistance. Interested firms that believe they meet the requirements set forth in 13 CFR part 315 may contact EDA or one of the EDA-funded TAACs. TAACs will assist firms, at no cost, in completing and submitting a petition (Form ED-840P or any successor form) to EDA. Before a firm receives technical assistance under the program, the firm must have an adjustment proposal approved by EDA. Usually the adjustment proposal, which includes an unbiased diagnostic of the firm's strengths, weaknesses, opportunities and threats, is prepared by the TAAC in cooperation with the certified firm. The adjustment proposal also identifies technical assistance tasks, which when implemented, will guide the firm toward economic recovery. The adjustment proposal must also demonstrate that the implementation of the technical assistance tasks has a reasonable chance helping the firm recover. The firm must pay at least 25 percent of the cost of preparing the adjustment proposal. After a firm's adjustment proposal is accepted by EDA, the firm is authorized to apply for technical assistance to implement the recovery strategy. The technical assistance is usually provided by a private consultant, who is jointly hired by the certified firm and the TAAC. The certified firm and the TAAC each typically pay one half of the consultant's fees. Actual provision of TAA will depend on the feasibility of the firm's adjustment proposal, compliance with the requirements of the Trade Act, EDA's regulations and guidelines, and the availability of funds. Organizations representing trade-injured industries are eligible under the Trade Act to apply to EDA for industry-wide assistance.

Applicant Eligibility:

Section 253 of the Trade Act (19 U.S.C. 2343(b)) provides that grants may be awarded to "intermediary organizations (including Trade Adjustment Assistance Centers)" to provide assistance to trade-injured firms. For an industry association or other organizations to be eligible for industry assistance under section 265 of the Trade Act (19 U.S.C. 2355(a)), the applicant must submit evidence demonstrating that the industry faces import competition and includes a substantial number of Trade Act-certified firms or worker groups.

Beneficiary Eligibility:

Only firms certified by EDA on behalf of the Secretary of Commerce are eligible for assistance under the TAAF program. Industries that can demonstrate they have been injured by imports and have a substantial number of Trade Act certified firm or worker groups may also benefit. The principal benefit is cost-shared technical assistance: the TAA program pays up to one-half of the cost of assistance by private-sector consultants and contractors for operational improvements at certified firms.

Credentials/Documentation:

The TAACs act as intermediaries for this program between EDA and the firm. Entities seeking industry-wide assistance must contact EDA staff to discuss their needs, describe the import injury and determine if funding is available for industry-wide projects. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110

applies to this program. The nationwide network of 11 TAACs apply to EDA each year for funding for the coming fiscal year. Industry associations or other organizations seeking industry assistance must submit adjustment proposals to the applicable TAAC center.

Award Procedure:

Awards to TAACs are made based upon submitted applications, previous performance under cooperative agreements with EDA, and the availability of funds. Acceptance of an application or amended application for a cooperative agreement does not ensure funding by EDA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

EDA is statutorily required to review petitions for certification of eligibility under the program within 40 days of petition acceptance; and has 60 days to make a final determination on an adjustment proposal.

Appeals:

Not Applicable.

Renewals:

EDA Cooperative Agreements are renewed annually.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally, the cooperative agreement to the TAAC is to provide one year of services to import-impact firms. The TAA program is a nationwide federal program designed to help U.S. firms that have experienced business decline and loss of employment due to imports of like or directly competitive products. See the following for information on how assistance is awarded/released:
Generally, grants are awarded annually. Grantees receive awards either in advance or monthly reimbursement.

Reports:

Periodic reporting of operating results and progress, financial statements, and summary of funds spent, consistent with EDAs Government Performance Results Act (GPRA) reporting requirements. EDA reserves the right to conduct site visits.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Records are required to be maintained for at least three years. All financial and programmatic records, supporting documents, statistical reports, and other records of recipients or sub-recipients are required to be maintained by the terms of the agreement. The recipient must retain records for at least three years after submission of the final financial report, and have them readily available for inspection and audit.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Uses will be in the following federal program areas: The Coastal Services Center's (CSC) goal is to build leadership skills and capabilities to meet the changing needs within the coastal community. The Coastal Services Center jointly manages the Regional Ocean Partnerships (ROP) funding program with the NOAA, National Ocean Service, Office of Ocean and Coastal Resource Management Program. This grant program advances effective coastal and ocean management through regional ocean governance, including the goals for national ocean policy and comprehensive ocean planning set out in the presidents Final Recommendations of Interagency Ocean Policy Task Force, July 19, 2010. The ROPFP program supported two categories of activities: 1) implementation of a spectrum of regional ocean partnership priorities, with a focus on marine planning activities and 2) support for development and operations for Regional Ocean Partnerships (ROP). CSC manages the Gulf of Mexico Alliance grant program to engage in cooperative agreements with entities from Gulf of Mexico States to implement Action Blueprint Steps identified in the Gulf of Mexico Alliance Governors Action Plan. These projects contribute to the beneficial public outcomes associated with the five priority issues including water quality for healthy beaches and shellfish beds; wetland and coastal conservation and restoration; environmental education; identification and characterization of Gulf habitats; and nutrient reduction as well as Coastal Community Resiliency, a priority issue elevated by the Alliance since release of the Plan. The CSC Pacific Services Center (PSC), located in Honolulu, provides competitive grants through the Bay Watershed Education and Training (B-WET) Hawaii program to foster the development of innovative science programs, partnerships and products throughout the State of Hawaii, as well as support environmental education efforts that align with national and

state education standards. B-WET Hawaii projects focus on providing meaningful outdoor experiences for students and professional development opportunities for teachers that target understanding earth system sciences, hazards, community resilience, and climate change. PSC manages the Coastal Resilience Networks grant program to implement activities that enhance resilience of coastal communities to natural hazard and climate risks through a regional or national network. Coastal Resilience Networks (CRest) proposals must leverage, enhance, or create a system in which one or more coastal hazard issues can be addressed through partnerships to improve coordination and collaboration throughout the region. Partnerships must include multiple institutions, disciplines, and sectors at the local, state, and federal levels.

Renewals:

Extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extensions requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests should be received by the federal program office 45 days prior to the end date of the award. The federal program office will not recommend approval for any retroactive extension request (received after the end date of the award). Recipients should make every effort to submit one extension request for all projects needing an extension (when possible, multiple extension requests should be avoided). With sufficient justification, the federal program office will recommend approval of a six-month extension for the first extension request. First time or cumulative extension requests for more than six months but less than 12 months, will need more compelling justification as to why the project was not completed on time or could not be completed within the first six-month extension. Although the federal program office discourages extensions of more than 12 months, the federal program office will recommend approval in cases where the funds are already obligated. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department.

Fiscal Year 2012: The Regional Ocean Partnership team sponsored a FY 2012 project with the National Fish and Wildlife Federation to support and improve West Coast regional ocean governance efforts in the region by strengthening and sustaining implementation of the West Coast Governors' Agreement (WCGA) on Ocean Health. That project will further develop the administrative and operational capacities of WCGA and will advance the implementation of tasks in the WCGA's 2008 Action Plan and tasks identified in the WCGA 10 Action Coordination Team (ACT) implementation plans.

The Coastal Services Center sponsored a cooperative agreement with the Dauphin Island Sea Lab for Implementation of the Gulf of Mexico Alliance (GOMA) Environmental Education Priorities and Actions. This project continued and enhanced the activities of the Gulf of Mexico Alliance (GOMA) Environmental Education Priority Issue Team. The Dauphin Island Sea Lab (DISL) supported existing and future Gulf-wide GOMA educational programs in traditional K-12 and non-traditional outreach and communication activities.

The CSC Pacific Services Center, Bay Watershed and Education Program, sponsored a grant with the University of Hawaii for the capacity building for community resilience planning that promoted sustainable ecosystem and disaster resilient practices at the village level. Fiscal Year 2013: The Pacific Services Center, Coastal Resilience Networks program sponsored a project with the Olohana, Inc, to establish a formal network between the Gulf of Mexico Alliance (GOMA) Resilience Team partners and key industry leaders within the Gulf of Mexico states. Because of its relationship with local planners, GOMA intends to utilize existing partnerships with the Gulf Sea Grant programs to bridge gaps that currently exist between the business/industry sector and the local community when planning for resilience at the local level.

The Regional Ocean Partnership team sponsored a project with the University of Hawaii to support the administration and operations of the established Pacific Regional Ocean Partnership (PROP) so that it can better implement priorities of the Pacific region and the National Ocean Policy. The project will enhance the region's capacity to address important areas outlined in the PROP Action Plan. Fiscal Year 2014: The Coastal Services Center intends to continue

jointly managing the Regional Ocean Partnerships (ROP) funding program with the NOAA, National Ocean Service, Office of Ocean and Coastal Resource Management Program. This grant program will advance effective coastal and ocean management through regional ocean governance, including the goals for national ocean policy and comprehensive ocean planning set out in the presidents Final Recommendations of Interagency Ocean Policy Task Force, July 19, 2010.

The CSC Pacific Services Center (PSC), is planning to provide competitive grants through the Bay Watershed Education and Training (B-WET) Hawaii program to foster the development of innovative science programs, partnerships and products throughout the State of Hawaii, as well as support environmental education efforts that align with national and state education standards. PSC is planning to manage the Coastal Resilience Networks grant program to implement activities that enhance resilience of coastal communities to natural hazard and climate risks through a regional or national network.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2012: CSCOR harmful algal bloom (HAB) research addressed the growing national HAB threat by expanding the number of coastal regions benefiting from new technology in algal identification, detection, modeling, and prediction which is enabling coastal resource managers to make informed, proactive, and scientifically based decisions to protect human health, living resources and coastal economies. CSCOR hypoxia research provided results and predictive forecasting tools to understand the causes and living resource and ecosystem impacts of hypoxia in key coastal regions around the US. CSCOR research has also developed new approaches to analyze and manage the cumulative effects of climate change, land use, invasive species, and other environmental stressors on the Great Lakes. Through its regional ecosystem research programs in the Gulf of Mexico, Caribbean, and Pacific islands, CSCOR developed novel approaches to developing alternative management strategies and capacity building to protect and mitigate anthropogenic threats to shallow and deep water coral ecosystems and effects of shoreline modification in the mid-Atlantic region. Fiscal Year 2013: CSCORs harmful algal bloom (HAB) and hypoxia research is integrating ocean observing system data with modeling capabilities in order to provide research managers with seasonal HAB and hypoxia forecasts in numerous regions in the US including the Gulf of Mexico and the Gulf of Maine. CSCOR is also developing forecasts for ecosystem responses to sea level rise and storms, enabling coastal managers the ability to more effectively assess alternative management strategies for mitigating future impacts of sea level rise. CSCORs regional ecosystem research is identifying threats to the health of ecosystems in the Great Lakes, Mid-Atlantic, the Gulf of Mexico, and shallow and deep water coral environments in the Pacific and Caribbean. The resulting information is supporting the development of unique tools to improve ecosystem management capabilities and mitigate impacts on coastal ecosystems. Fiscal Year 2014: CSCORs harmful algal bloom (HAB) and hypoxia research is planning to continue integrating ocean observing system data with modeling capabilities in order to provide research managers with seasonal HAB and hypoxia forecasts in numerous regions in the US including the Gulf of Mexico and the Gulf of Maine. CSCOR plans to also continue the development of forecasts for ecosystem responses to sea level rise and storms, enabling coastal managers the ability to more effectively assess alternative management strategies for mitigating future impacts of sea level rise. CSCORs regional ecosystem research will continue to identify threats to the health of ecosystems in the Great Lakes, Mid-Atlantic, the Gulf of Mexico, and shallow and deep water coral environments in the Pacific and Caribbean. The resulting information will support the development of unique tools to improve ecosystem management capabilities and mitigate impacts on coastal ecosystems.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2012: The Center for Sponsored Coastal Ocean Research (CSCOR) supported research programs that provide the critical information and predictive capabilities required to manage the Nations coastal resources in an ecosystem context. CSCOR's stressor-related research was focused on the development of tools to predict, prevent and control Harmful Algal blooms, study the causes and predict the occurrence of hypoxia, and provide predictions of the effect of sea level rise on coastal ecosystems. Regional ecosystem research was focused on identifying the threats to the health of coastal ecosystems and the development of ecological forecasts. Research was focused in all major coastal ecosystems in the US including the Caribbean, Gulf of Mexico, Great Lakes, and the Northeast and Mid-Atlantic. Fiscal Year 2013: CSCOR continues to support research geared towards the development of predictive forecasts for Harmful Algal blooms, hypoxia, and sea level rise, as well as developing tools to mitigate the impacts of such stressors in major coastal ecosystems including the Gulf of Maine, Great Lakes, Mid-Atlantic and the Gulf of Mexico. CSCOR also is working toward synthesizing and transitioning the information from research conducted through its regional ecosystem research to the coastal resource managers in order to improve ecosystem management. Fiscal Year 2014: CSCOR plans to continue to take the lead in providing predictive tools to support ecosystem management in coastal regions such as the Great Lakes, Mid-Atlantic, Gulf of Maine, and the Gulf of Mexico.

12.614 COMMUNITY ECONOMIC ADJUSTMENT ASSISTANCE FOR ADVANCE PLANNING AND ECONOMIC DIVERSIFICATION FEDERAL AGENCY:

Office of Economic Adjustment, Department of Defense

AUTHORIZATION:

10 U.S.C. 2391.

OBJECTIVES:

Assist State and local governments to lessen an area's dependence on defense expenditures by preparing economic diversification strategies, and contingency strategies and schematic land use plans for the potential redevelopment of a military installation prior to closure or realignment decisions.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Develop economic diversification studies to lessen local economic dependency

on Department of Defense and/or military installation-related expenditures; prepare contingency plans for organizing a community in response to a possible base closure or realignment; and/or produce strategies and schematic plans for the potential civilian reuse of a military installation prior to closure or realignment decision. Funds provided under this program shall not be used to directly identify or assist a business, including a business expansion, in the relocation of a plant, facility, or operation from one Labor Market Area (LMA) to another if the relocation is likely to result in the loss of jobs in the LMA from which the relocation occurs. Funds shall not be used to directly or indirectly inform and/or influence deliberations under Public Law 101-510, as amended, or subsequent Base Closure and Realignment laws, of the Department of Defense (including any of its components). In considering military installations for closure or realignment, the Secretary of Defense may not take into account for any purpose any advance planning undertaken by an affected community with respect to the anticipated closure or realignment of a military installation.

Applicant Eligibility:

Applicants for this assistance are to contact the Office of Economic Adjustment and a Project Manager will be assigned to work with the applicant to determine eligibility for assistance under this program. States, counties, municipalities, other political subdivisions of a State, special purpose units of a State or local government, and tribal nations are eligible for this assistance if a substantial portion of the economic activity or population of the applicant's geographic area is dependent on defense expenditures. The Office of Economic Adjustment must determine, in consultation with the affected state or community, that a substantial portion of the economic activity or population of the geographic area subject to the planning under this program is dependent on Department of Defense (Defense) expenditures. For purposes of eligibility determination, an area is considered Defense-dependent if it can demonstrate: (1) Direct military and civilian employment totals at least one and a half times the national level of Defense employment as a percent of the total U.S. labor force or (2) Defense-related expenditures comprise at least one and a half times the Defense percent of gross domestic product. The National Defense Budget Estimates for FY2012 states that the 2010 Defense employment as a percent of total labor force is 1.4% and the 2012 Defense share of gross domestic product is 4.0%. One and half times the Defense employment as a percent of the total labor force is 2.1%, and one and half times the Defense percent of gross domestic product is 6.0%. Technical and financial assistance is structured through an assigned Project Manager working with a defense-dependent State and/or local government.

Beneficiary Eligibility:

States and communities, including workers, businesses, and other community interests, that could be affected by Defense budget reductions and base closures/realignments.

Credentials/Documentation:

Applicants will be required to provide documentation consistent with the authority under which the assistance is being sought, and must document that a substantial portion of the economic activity or employment of a local area is dependent on Defense and/or related military installation expenditures. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Specific activities that can be carried out with Community Development Block Grant (CDBG) funds include acquisition of real property; relocation; clearance and demolition; rehabilitation of residential and nonresidential structures; provision of public facilities and improvements, such as water and sewer facilities (which require reviews by the State single point of contact or a Regional Planning Agency in accordance with Executive Order 12372), streets, and neighborhood centers. Community-based development organizations may carry out neighborhood revitalization, community economic development, or energy conservation activities. Each CDBG eligible activity must meet one of three national objectives: benefit low- and moderate-income persons, aid in the prevention or elimination of slums or blight, or meet other community development needs having a particular urgency that the grantee is unable to finance on its own. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or the statute.

Applicant Eligibility:

Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Recipients submit a 5-year Consolidated Plan, an annual action plan, SF Form 424, and certifications to HUD. The annual action plan must include the local community development objectives and show the proposed use of the funds. If the grantee makes a complete submission within the established deadlines, the Department will make a grant award unless a determination is made by HUD that the grantee's performance is unsatisfactory. HUD will approve the submission generally within 45 days of receipt of the annual action plan and required certifications unless a determination has been made that the grantee has failed to carry out its CDBG program in a timely manner or has failed to conform to the requirements of the statute or other applicable laws. Under such circumstances, HUD may take appropriate actions, including a reduction in the amount of the original formula-allocated grant.

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

State CDBG

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and

Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Section 101-122, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5322.

OBJECTIVES:

The primary objective of this program is the development of viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low- and moderate-income. Each activity funded must meet one of the program's National Objectives by: Benefiting low- and moderate-income families; aiding in the prevention or elimination of slums or blight; or meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Thirty percent of funds available for distribution under each annual appropriation for the Community Development Block Grant (CDBG) program is allocated among the States and Puerto Rico (which is considered to be a state for the State CDBG program) for use in areas which are not a metropolitan city or part of an urban county (nonentitlement areas). All States except Hawaii have elected to administer these CDBG funds for areas that do not receive CDBG entitlement grants (14.218). HUD awards the formula grants to these States under the CDBG/State Program. In Hawaii, HUD awards the state's share of these funds to the three non-entitlement counties by formula. States must distribute CDBG funds to units of general local government (counties, towns, etc.) in nonentitlement areas. States develop their own programs and funding priorities. Units of general local government then carry out community development activities funded by the State. Eligible activities are directed toward neighborhood revitalization, economic development, or provision of improved community facilities and services. Specific activities that can be carried out with block grant funds include: Acquisition, rehabilitation or construction of certain public works facilities and improvements, such as streets, water and sewer facilities, neighborhood centers, recreation facilities, and other public works; demolition and clearance; rehabilitation of public and private buildings including housing; code enforcement; relocation payments and assistance; economic development; planning activities; certain public services with some restrictions; and administrative expenses. The projected use of funds must be developed to ensure that all activities will meet one of the three national objectives described under "OBJECTIVES". Communities receiving CDBG funds from a state may select subgrantees to carry out approved projects. Such subgrantees may include: Neighborhood-based nonprofit organizations; local development corporations; Small Business Investment Companies; or other nonprofit organizations serving the development needs of nonentitlement areas. Grant recipients may provide assistance to for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out an economic development project. Communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and from making housing allowances or other income maintenance-type payments. Each State may use a limited portion of its grant, subject to a matching requirement, to administer the program. Each State may also use a limited portion of its grant, with no matching requirement, to provide technical assistance to local governments and nonprofit program recipients. At least seventy percent of the funds received must benefit low and moderate income persons.

Applicant Eligibility:

Forty-nine State governments and the Commonwealth of Puerto Rico receive funds from HUD under this program. The state of Hawaii does not participate and HUD allocates the state's share of funds to the three Hawaii non-entitled counties. Funds are allocated to each state based on a statutory formula. States must distribute the funds to units of general local government in nonentitlement areas.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate- income persons. For non-metropolitan areas, low- and moderate- income is generally

defined as 80 percent of the median income for non-metropolitan areas of the State or of the county, whichever is higher, adjusted for family size. For eligible localities in metropolitan areas, low- and moderate-income is generally defined as 80 percent of the median income for the metropolitan area, adjusted for family size.

Credentials/Documentation:

Grantees must certify that they will comply with program requirements specified in 24 CFR Part 91. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. States must follow the fiscal requirements contained in 24 CFR 570.489. Each state and non-entitled Hawaii county must submit a Consolidated Plan, an annual action plan and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD community development programs, including CDBG. The annual action plan must contain the method by which the State will distribute its CDBG funds.

Award Procedure:

HUD will provide funds after the State or non-entitled Hawaii county submits its Consolidated Plan, annual action plan and Certifications.

Deadlines:

Nov 15, 2012 to Aug 16, 2013 Consolidated Plans may be submitted between November 15 and August 16 of each fiscal year in which the grantee will administer funds.

Range of Approval/Disapproval Time:

HUD will review plan submissions for completeness and consistency with the purposes of the Act, within 45 days of receipt from a grantee.

Appeals:

The procedure is described in regulations (24 CFR Part 570 Subpart I for states and 24 CFR Part 570 Subpart O for non-entitlement counties in Hawaii).

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter V, Part 570, Subpart A, Public Law 93-383.

Matching Requirements: For state administration of the program, after an initial allowance of \$100,000 with no match, states may take an additional allowance of up to 3% of the grant amount but must match such expenditures on a dollar for dollar basis. There is no matching requirement for the non-entitlement counties in Hawaii. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is provided to States and non-entitlement counties in Hawaii on an annual basis. Individual States may impose time limitations on the implementation of grants to recipients. Method of awarding/releasing assistance: by letter of credit.

Reports:

Annual performance report covering all programs included in the Consolidated Plan as prescribed at 24 CFR 91.520. For Hawaii counties, SF-425 Federal Cash Transactions Report is required. Annual Performance and Evaluation Report details the state's performance in completing activities undertaken with each allocation of funds. Disbursement reports are a standard feature of the Integrated Disbursement and Information System used to access the grantee's line of credit. Program performance monitoring is conducted by field office staff.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000

or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Records must demonstrate that the State or non-entitlement county in Hawaii has met the requirements of Title I of the Act.

Account Identification:

Obligations:

(Formula Grants) FY 12 \$1,006,966,251; FY 13 est \$921,358; and FY 14 est \$835,230,000

Range and Average of Financial Assistance:

State grant amounts are determined by formula. Of the 50 grants allocated to states under the State CDBG program in FY 2013, the average (mean) grant amount is \$18,328,133. Grant amounts range from \$2,005,029 to \$62,566,661. These totals do not include Hawaii's allocation awarded to its 3 non-entitled counties. Hawaii's share of the 2013 allocation is \$4,951,324.

McKinney-Vento Homeless Assistance Act of 1987, Title IV, as amended, 42 U.S.C. 11371-78.

OBJECTIVES:

The ESG program provides funding to: (1) engage homeless individuals and families living on the street; (2) improve the number and quality of emergency shelters for homeless individuals and families; (3) help operate these shelters; (4) provide essential services to shelter residents, (5) rapidly re-house homeless individuals and families, and (6) prevent families and individuals from becoming homeless.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

ESG funds may be used for five program components: street outreach,

emergency shelter, homelessness prevention, rapid re-housing assistance, and HMIS; as well as administrative activities (up to 7.5% of a recipient's allocation can be used for administrative activities). For specific uses and use restrictions, see 24 CFR part 576, subpart B. For specific uses and use restrictions, see 24 CFR part 576, subpart B.

Applicant Eligibility:

Eligible recipients generally consist of metropolitan cities, urban counties, territories, and states, as defined in 24 CFR 576.2. Metropolitan cities, urban counties and territories may subgrant ESG funds to private nonprofit organizations. States must subgrant all of their ESG funds (except for funds for administrative costs and, under certain conditions, HMIS costs) to units of general purpose local government and/or private nonprofit organizations. Each recipient must consult with the Continuum(s) of Care operating within the jurisdiction in determining how to allocate ESG funds.

Beneficiary Eligibility:

The minimum eligibility criteria for ESG beneficiaries are as follows: For essential services related to street outreach, beneficiaries must meet the criteria under paragraph (1)(i) of the homeless definition under 576.2. For emergency shelter, beneficiaries must meet the homeless definition in 24 CFR 576.2. For essential services related to emergency shelter, beneficiaries must be homeless and staying in an emergency shelter (which could include a day shelter). For homelessness prevention assistance, beneficiaries must meet the requirements described in 24 CFR 576.103. For rapid re-housing assistance, beneficiaries must meet requirements described in 24 CFR 576.104. Further eligibility criteria may be established at the local level in accordance with 24 CFR 576.400(e).

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. Government recipients and subrecipients must comply with OMB Circular No. A-87. Subrecipients that are private nonprofit organizations must comply with OMB Circular No. A-122. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

In addition to meeting the application submission requirements in 24 CFR part 5, subpart K, each State, urban county, or metropolitan city must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements in 24 CFR part 91, and each territory must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements that apply to local governments under 24 CFR part 91. The consolidated plan and annual action plan cover four major HUD formula programs, including ESG. The annual action plan must describe how the funds will be used. The uniform administrative requirements at 24 CFR parts 84 and 85 apply as specified in 24 CFR 576.407(c).

Award Procedure:

The HUD field office reviews the grantee's Consolidated Plan and, upon plan approval, notifies the applicant of the award and prepares the grant agreement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Each jurisdiction should submit its consolidated plan to HUD at least 45 days before the start of its program year. In no event will HUD accept a submission earlier than November 15 or later than August 16 of the federal fiscal year for which the grant funds are appropriated.

Appeals:

Formula allocations may not be appealed. Disapproved plans may be resubmitted in accordance with 24 CFR 91.500.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: The formula for this program is part statutory and part regulatory (see section 414 of the McKinney-Vento Homeless Assistance Act and 24 CFR 576.3). HUD will set aside for allocation to the territories up to 0.2 percent, but not less than 0.1 percent, of the total amount of each appropriation in any fiscal year. The remainder will be allocated to States, metropolitan cities, and urban counties. The percentage allocated to each State, metropolitan city, and urban county will be equal to the percentage of the total amount available under section 106 of the Housing and Community Development Act of 1974 for the prior fiscal year that was allocated to the State, metropolitan city or urban county. If an allocation to a metropolitan city or urban county would be less than 0.05 percent of the total fiscal year appropriation for ESG, the amount is added to the allocation of the State in which the city or county is located. Metropolitan city and urban county recipients must match grant funds with an equal amount of funds from cash or the following in-kind sources: services contributed by volunteers, the donation of materials and buildings, or the value of any lease on a building. States must match all but \$100,000 of their awards, but must pass on the benefit of that \$100,000 exception to their subrecipients that are least capable of providing matching amounts. Territories are exempt from the match requirement. If the recipient or subrecipient is a unit of general purpose local government, its ESG funds cannot be used to replace funds the local government provided for street outreach and emergency shelter services during the immediately preceding 12-month period, unless HUD determines that the unit of general purpose local government is in a severe financial deficit in accordance with 24 CFR 576.101(c).

Matching Requirements: Each grantee must certify that it will supplement the assistance provided under the program with an equal amount of funds from other sources, except for State grantees under \$100,000 exemption. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Metropolitan cities, urban counties and territories must obligate all funds, except for the amount for administrative costs, within 180 days after HUD signs the grant agreement. States must obligate all funds, except the amount for administrative costs, to subrecipients within 60 days after the date that HUD signs the grant agreement. Each subrecipient that is a unit of general purpose local government must obligate its grant funds within 120 days after the date the State obligates its funds. All grant funds must be expended within 24 months after HUD signs the grant agreement with the recipient. Method of awarding/releasing assistance: by letter of credit.

Reports:

Each recipient must report its program accomplishments for each program year in the Consolidated Annual Performance and Evaluation Report (CAPER). Each recipient's efficient expenditure of grant funds is evaluated through information provided in the program management's information system, known as the Integrated Disbursement and Information System (IDIS). Each recipient must also comply with the reporting requirements under the Federal Funding Accountability and Transparency Act of 2006, (31 U.S.C. 6101 note), which are set forth in appendix A to 2 CFR part 170. Monitoring is "risk-assessment based" with high-risked grantees receiving priority status for monitoring and review. The performance report shall be submitted to HUD within 90 days after the close of the jurisdiction's program year. Recipients draw down ESG funds from the Integrated Disbursement and Information System (IDIS). This is HUD's method of capturing financial and expenditure data from the recipients. Progress reports are not applicable. Through the CAPER and IDIS draw down information, recipients provide reports on expenditures. In accordance with 24 CFR Part 85, recipients are required to monitor their subrecipients for compliance with the ESG requirements.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Sufficient records must be established and maintained to enable the recipient and HUD to determine whether ESG requirements are being met. All records pertaining to each fiscal year of ESG funds must be retained for the greater of 5 years or the period specified under 24 CFR 576.500(y).

14.259 CPD'S TRANSFORMATION INITIATIVE TECHNICAL ASSISTANCE

OneCPD Plus Technical Assistance and Capacity Building (OneCPD+)

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

HUD's Transformation Initiative contained in the Full-year Continuing Appropriations Act, 2013, Public Law 113-6, approved March 26, 2013, Public Law 112-55.

OBJECTIVES:

OneCPD+ is intended as a collaborative effort among HUD, our customers state and local grantees, public housing agencies, owners and managers of HUD-assisted housing, Continuums of Care (CoCs), non-profit grantees, HUD-approved housing counseling agencies and counselors, and other stakeholders and successful applicants focused on building the kind of management systems and functional capacity necessary to successfully carry out comprehensive and sustainable place-based development and revitalization strategies. Just as importantly, OneCPD+ will allow customers to showcase accomplishments by measuring not only the outputs of this technical

and capacity building assistance but the outcomes and the impact on communities as well. Through OneCPD+, HUD can develop a new level of technical assistance and capacity building to meet the challenges facing its customers during the current nationwide economic retrenchment. Many of HUDs state and local government grantees, owners of assisted rental properties, and public housing agencies have lost some of the capacity, resources, and skills necessary to administer HUD programs within the contexts of their local markets. Additionally, many of HUDs customers are facing changing economic, demographic, and regulatory contexts in which they operate their programs, requiring them to learn new laws and rules, and to more effectively coordinate across sectors. HUDs role in administering grants is two-fold: (1) build the capacity of grantees to support local decision-making with federal grants, and (2) conduct monitoring and oversight to ensure compliance with applicable regulations and to ensure appropriate use of funding. To address both purposes, OneCPD+ will focus on skills, planning, and innovation to build the capacity of HUDs customers to successfully carry out HUD programs and policy objectives and comply with regulatory requirements.

TYPES OF ASSISTANCE:

OBJECTIVES:

The overall CDBG program objective is to develop viable urban communities, by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate income. CDBG DR program funds appropriated by P.L. 113-2 are for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declared pursuant to the due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipients may undertake a wide range of activities directed toward disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers. Grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities and develop their own programs and funding priorities as long as programs/activities conform to the statutory standards and program regulations. Some of the specific activities that can be carried out with Community Development Block Grant Disaster recovery (CDBG DR) funds include buying damaged properties in a flood plain and relocating residents to safer areas; relocation payments for people and businesses displaced by the disaster; debris removal not covered by FEMA; rehabilitation of homes and buildings damaged by the disaster; buying, constructing, or rehabilitating public facilities such as streets, neighborhood centers, and water, sewer and drainage systems; code enforcement; homeownership activities such as down payment assistance, interest rate subsidies and loan guarantees for disaster victims; public services (generally limited to no more than 15 percent of the grant); helping businesses retain or create jobs in disaster impacted areas; and planning and administration costs (limited to no more than 20 percent of the grant). Eligible activities must meet at least one of three program national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other urgent community development needs because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available. CDBG Disaster Recovery grants primarily benefit low-income residents in and around communities that have experienced a natural disaster. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low-and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the populous are of low- and moderate-income. Recipients may contract with other local agencies or nonprofit organizations to carry out components of their programs. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or for which a waiver or alternative requirement has been granted by the Secretary, based upon a determination that good cause exists and that the waiver or alternative requirement is not inconsistent with the overall purposes of Title I of the HCD Act.

Applicant Eligibility:

CDBG Disaster Recovery funds are made available to States and units of general local governments designated by the President of the United States as disaster areas. These communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program (usually these are governments that already receive HOME or Community Development Block Grant allocations). Grantees may use CDBG Disaster Recovery funds for recovery efforts involving housing, economic development, infrastructure and prevention of further damage to affected areas. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers.

Beneficiary Eligibility:

The principal beneficiaries of CDBG DR funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD) in communities that have experienced a disaster event. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low-and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the populous are of low- and moderate-income.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

As a condition of making any grant under this appropriation, the Secretary is required to certify in advance that grantees have in place proficient financial

controls and procurement processes and have established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Recipients submit an Action Plan for Disaster Recovery, SF Form 424, and certifications to HUD. In the Action Plan for Disaster Recovery, grantees must describe uses and activities that are authorized under Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) (HCD Act) or allowed by a waiver or alternative requirement published in the federal register notice covering the grant funds and also respond to a disaster-related impact. HUD reviews grantee Action Plans within 45 days of receipt and approves the Plan according to criteria identified in the federal register notice covering the grant funds.

Award Procedure:

P.L. 113-2 provides that funds shall be awarded directly to a State or unit of general local government (UGLG) at the discretion of the Secretary. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, the Department computed allocations based on the best available data that cover all the eligible affected areas. States and local governments receiving a CDBG DR allocation may carry out programs and/or activities directly or through subrecipients, including local governments, governmental agencies, and non-profit entities.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

After a grantee receives an allocation under a published Federal Register notice, it must submit an initial Action Plan for Disaster Recovery no later than 90 days after the effective date of the notice.

Appeals:

Administrative appeals process followed if grant funds are withheld or reduced, or repayment proposed for non-compliance or non-performance.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter 570. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, HUD computed allocations based on the best available data that cover all the eligible affected areas. P.L. 113-2 specifies that the CDBG DR funds be used for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster and further specifies that the funds are not to be used for activities reimbursable by FEMA or the Corps of Engineers. For this allocation, similar to prior CDBG DR allocations, the Department makes a determination of unmet needs by estimating unmet needs related to the main intended uses of the funds, including restoration of housing, economic revitalization, and restoration of infrastructure. These estimated needs are then summed together and an allocation is made among the grantee universe based on their proportional share of unmet needs..

This program has no matching requirements. This program has no matching requirements.

This program does not have MOE requirements. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

To ensure the timely expenditure of funds, section 904(c) under Title IX of P.L. 113-2 that all funds be expended within two years of the date HUD obligates funds to a grantee (funds are obligated to a grantee upon HUDs signing of the

grantees CDBG DR grant agreement). Action Plans must demonstrate how funds will be fully expended within two years of obligation. For any funds that the grantee believes will not be expended by the deadline, it must submit a letter to HUD justifying why it is necessary to extend the deadline for a specific portion of funds. Additionally, P.L. 113-2 requires that HUD obligate all funds provided under Chapter 9, Community Development Fund, not later than September 30, 2017. Method of awarding/releasing assistance: by letter of credit.

Reports:

HUD requires grantees to enter information in HUDs Disaster Recovery Grant Reporting (DRGR) system in sufficient detail to permit the Departments review of grantee performance on a quarterly basis through a Quarterly Performance Report (QPR). HUD reviews these quarterly reports to assess grantee compliance and performance. Quarterly reports include information on obligation, expenditures, drawdowns, and accomplishments for all grantee activities. Each grantee must submit a QPR through the DRGR system no later than 30 days following the end of each calendar quarter. No cash reports are required. No progress reports are required. The Quarterly Performance Report (QPR), submitted by grantees on a quarterly basis through HUD's Disaster Recovery Grant Reporting (DRGR) system includes information on expenditures for all their activities. The Department performs regular performance monitoring of grantees both remotely and through annual on-site reviews. The Department determines on-site monitoring priorities based on a risk-analysis of the grantees portfolio of activities or known high-risk areas. For all Headquarters-held grants under this appropriation, HUD staff will conduct at least one annual on-site monitoring review.

The Office of Community Planning and Development's CPD Notice CPD -12-02, 'Implementing Risk Analysis for Monitoring Community Planning and Development Grant Programs' describes the Department's risk analysis process. Monitoring exhibits can be found in Chapter 6 of HUD's Community Planning and Development (CPD) Grantee Monitoring Handbook.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. The auditee may elect to have a program-specific audit conducted under certain limited circumstances. CDBG DR grantees shall make reviews and audits, including onsite reviews of any subrecipients, designated public agencies, and UGLGs, as may be necessary or appropriate to meet the requirements of 42 U.S.C. 5304(e)(2), as amended, and as modified by the federal notice covering grant funds. Additionally, grantees must have an internal audit function in place for the detection of fraud, waste, and abuse where the responsible audit staff report independently to the chief officer or board of the organization designated to administer the CDBG DR award.

Records:

Grantees must maintain records with regard to eligibility, national objectives, financial management, citizen participation, relocation, other resources, acquisition, housing assistance to dwelling units and households, equal opportunity, environmental impact, labor standards and other requirements set forth in the program regulations. Records shall be retained for a period of four years after submission of the report in which the activity is reported as completed, except as otherwise prescribed in the regulations.

FEDERAL AGENCY:

Office of Public and Indian Housing, Department of Housing and Urban Development

AUTHORIZATION:

HUD regulations merged the former Section 8 Rental Voucher program (14.855) with the former Section 8 Certificate program (14.857). Section 502 of the Public Housing Reform Act states that a purpose of the legislation is "consolidating the voucher and certificate programs for rental assistance under Section 8 of the United States Housing Act of 1937 (the

"USHA") into a single market-driven program that will assist in making tenant-based rental assistance more successful at helping low-income families obtain affordable housing and will increase housing choice for low-income families".

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

Provides housing assistance payments to participating owners on behalf of eligible tenants to provide decent, safe, and sanitary housing for very low income families at rents they can afford. Housing assistance payments are generally the difference between the local payment standard and 30 percent of the family's adjusted income.

Applicant Eligibility:

Applicants are limited to public housing agencies. A public housing agency (PHA) is defined as any State, county, municipality or other governmental entity or public body (or agency or instrumentality thereof) which is authorized to engage in or assist in the development or operation of housing for very low income families; and, a consortium of PHAs; any other nonprofit entity that was administering a Section 8 tenant-based program on October 21, 1998; or, for an area outside the jurisdiction of a PHA administering a voucher program, a private nonprofit entity or a governmental entity or public body that would otherwise lack jurisdiction to administer the program in such area.

Beneficiary Eligibility:

Very low income families (whose income does not exceed 50 percent of the median income for the area as determined by the Secretary with adjustments for smaller and larger families) and, on an exception basis, lower income families (whose income does not exceed 80 percent of the median income for the area, adjusted for smaller and larger families). At least 75 percent of families admitted to the voucher program during the PHA fiscal year must be extremely low income families (whose income does not exceed 30 percent of the median income for the area).

Credentials/Documentation:

In the Housing Choice Voucher Program, the PHA must support its application by furnishing data that the program proposed is responsive to the condition of the housing stock in the community and the housing assistance needs of very low income families (including the elderly, handicapped and disabled, large families and those displaced) residing in the community. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2012: The Parks, Trails and Natural Areas category includes the following funded and in progress projects. The Camp Success Preservation and Enhancement Project in White Pine County, Nevada, in existence since the 1940s, will provide continued use of the Camp and enhance the recreational and environmental education opportunities for youth and families in eastern Nevada. The existing outhouses will be removed and replaced with vault toilets. Shower facilities and ADA accessible outdoor living area near the lodge will upgrade and preserve this partnership facility. The land is owned by the U.S. Forest Service with the Camp itself being owned by White Pine County, Nevada. With the recent 20-year permit renewal by U.S. Forest Service the camp will continue to enhance the areas comprehensive economic development strategy while providing recreational and outdoor opportunities. The Warm Springs Natural Area Project in Clark County, Nevada is regionally significant as it contains more than 20 perennial springs that form the headquarters of the Muddy River. The site contains numerous landscapes including Mojave desert, riparian forest, mesquite woodlands, and alkali meadows through which 3.8 miles of the Muddy River wanders. These resources provide ideal habitat for a number of listed, threatened and sensitive species, including the endangered Moapa dace and the Southwestern Willow Flycatcher. The Doolittle Park Family Area Renovation Project in Clark County, Nevada will reinvigorate this older park space, encouraging sustainable living in the city's core. Heavy use in West Las Vegas, Nevada has resulted in deterioration of this family park. More modern playground equipment and relocation of playground equipment for ages two to five years old will provide a safer play area for children. Increasing tree canopy, improving the park entry point, and adding a senior citizens activity area will improve the family environment of this heavily utilized local park. Horseshoe pits, new BBQs, new sidewalks, new grass and irrigation system, a medium ramada, and new lighting, will complete the much needed renovations. Fiscal Year 2013: No current data available. Fiscal Year 2014: No current data available.

15.252 Abandoned Mine Land Reclamation (AMLR) Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2012: Information not available. Fiscal Year 2013: In 2012, OSM awarded \$15,000 in Watershed Cooperative Agreement funds to Stream Restoration Inc., a 501(c)(3) non-profit organization, for the rehabilitation of a passive treatment system located at the Pennsylvania Jennings Environmental Education Center, which is operated by the Pennsylvania Department of Conservation and Natural Resources. This AMD treatment system was constructed in 1997, and successfully operated until 2011, when the treatment media finally became clogged with metals and lost permeability. The treatment system provides good quality water to the streams and wetlands at the Center, which are an integral part of the environmental program and visited by thousands of students and other interested people every year. An interpretive trail provides information about how the treatment system works. Other partners contributing funding to the project are the Foundation for Pennsylvania Watersheds ; The Pennsylvania DCNR ; and the Western PA Coalition for Abandoned Mine Reclamation for a total project cost of \$73,522. Various local companies are also donating materials, equipment use and labor. Fiscal Year 2014: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Section 404 of Public Law 95-87, State certification of eligibility is required. No opposition to the project from the State Abandoned Mine Land (AML) agency. All applicable Federal and State clearances and permits must be secured. Funds must be used for the construction phase of a project and there must be demonstrated public support for the project. Also, there must be a plan to address any ongoing

operation/maintenance considerations.

15.253 Not-for-Profit AMD Reclamation

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2012: Appalachian Coal Country Team

The OSM/VISTA with Crooked Creek/Evergreen Conservancy Mission in Indiana, Pennsylvania, successfully built a sustainable partnership between the Evergreen Conservancy and the local Girl Scouts organization that plans and promotes Girl Scouts events in the three-county area around Indiana, PA. Evergreen will now offer four programs (two in the fall, two in the spring) around wetland education at the Tanoma AMD Wetlands to all ages of Girl Scouts. These programs will be featured in the Girl Scout Program brochure that is distributed to over 100 Scout families. This partnership has great potential to reach a wide audience of people and to inform them of the Tanoma AMD Wetlands.

The OSM/VISTA with the Upper Tennessee River Roundtable (UTRR) in Abingdon, Virginia helped generate more than \$300,000 in grant funding for three separate grants. A \$2,500 grant from Outdoor Nation allows UTRR to host five canoe trips that will focus on engaging high school students and youth organizations through fun and educational experiences about conservation and the environment. A \$60,000 grant awarded by the Blue Moon Fund is for a partnership between Institute for Environmental Negotiation, Clinch River Planning Initiative and UTRR. The project focuses on "enhancing environmental protection, education, and collaboration on the Clinch River and helps to support the Clinch River Planning Initiative. UTRR and Lonesome Pine Soil & Water Conservation District have been conditionally approved for a \$250,000 grant from the Virginia Department of Conservation and Recreation that will focus on septic tank repairs/replacements/pump outs, pet waste education, and agricultural Best Management Practices.

Western Hardrock Watershed Team

In Carpenter, Colorado, an OSM/VISTA with the Greater Arkansas River Nature Association (GARNA) leveraged a partnership with the Salida Ranger District and Yampatika, a non-profit in Steamboat Springs, to receive a grant from the US Forest Service Childrens Forest program. GARNA received \$17,000 for summer youth and visitor programming. Funding will support a number of tasks for GARNA including: the hiring of two Summer AmeriCorps members through the Department of the Interior Environmental Stewards Program; hiring a summer seasonal to give nature walks; providing transportation costs for youth trips with the Boys and Girls Club and Chaffee County Mentors and funding the High School Apprenticeship which offers 10th graders scholarships upon completion. Together the partners have created a comprehensive, year-round programming connecting Chaffee Countys visitors and community members to their abundant public lands.

The OSM/VISTA with the Rio Puerco Alliance (RPA) in Santa Fe, New Mexico gave two presentations that helped push the idea to develop community gardens in regions considered to be food deserts on tribal lands. In February 2012, the OSM/VISTA successfully secured a resolution with the Torreon Chapter to collaborate on the implementation of a garden project. The Ojo Encino School Board provided the OSM/VISTA with a letter of support to build a community garden at the school. The RPA received \$10,000 through the New Mexico Centennial Foundation to support the new garden projects. The funding will be used to construct community garden plots in the Eastern Navajo Nation chapters of Torreon and Ojo Encino. The RPA hopes to use the community garden projects as a way of moving towards a larger goal of restoring food production capabilities within the tribal chapters. Fiscal Year 2013: Information not available. Fiscal Year 2014: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Each proposed watershed project must clearly enhance the sustainability of the watershed organization and must contribute directly to the remediation of acid

mine drainage. Candidates must be able to organize their work, work well with community groups and on their own, have an understanding of acid mine drainage remediation and the national Clean Streams program, and write well.

OBJECTIVES:

The Office of Surface Mining Reclamation and Enforcement (OSM) Science Technology Grants Program supports three separate but related efforts:

(1) projects that develop and demonstrate improved technologies to address public safety and environmental issues related to the mining of coal and reclamation of the lands affected after mining (applied science projects),

(2) projects that encourage efforts to collect, preserve and convert into digital format, maps of the underground mines and other relevant geologic, hydrologic and biologic data that provide valuable information regarding: miner safety; mine pool evaluation; mine subsidence investigation, and protection of the public and the environment from the adverse effects of underground coal mining (underground mine map projects); and,

(3) projects that convert into digital form, mine permit data and maps related to evaluating the impacts of coal mining so that the information may be used in a geographic information system (GIS) accessible by all Federal, state, and tribal agencies for assessing impacts of coal mining and reclamation on the environment (data conversion projects). Data conversion projects may also convert existing legacy databases to modern database software, and/or provide hardware and programming assistance for states to transition to managing and using this digital data.

Applied Science 2012 Projects: Range \$148,858 to \$200,000; Average \$191,323. The FY 2012 Underground Mine Mapping program received no funding. Data Conversion Projects: total of \$407,000.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2012: OSM Applied Science Projects completed in FY 2012 provided final reports on new science and technology related to: (1) stream restoration in Appalachia; (2) Hardwood Tree Growth Using the Forestry Reclamation Approach; (3) mitigation of blasting effects; (4) mitigation of acid mine drainage; and (5) investigation on alternatives for control of invasive species.

The Underground Mine Map program funded no projects in 2012. Projects funded in previous years have made thousands of previously unreachable mine maps available to the public in digital form, thereby increasing protection of the public and miner safety, environmental quality, and property from adverse effects of underground coal mines.

Data Conversion Projects were first funded under this program in FY 2012 in Kentucky, Virginia and West Virginia in support of the GeoMine Pilot Project. These pilot project States created additional geospatial site layers, map locations and attribution for use in GeoMine. These projects will result in high quality digital data sets related to coal mines permitted under SMCRA that Federal agencies, states and tribes may use for coordinated permitting and inspection activities. The digital data will be suitable for populating national geographic information systems like OSMs prototype GeoMine. Fiscal Year 2013: Information not available. 15.423 BUREAU OF OCEAN ENERGY MANAGEMENT (BOEM) ENVIRONMENTAL STUDIES PROGRAM (ESP)

(ESP)

FEDERAL AGENCY:

The Bureau of Ocean Energy Management, Regulation, and Enforcement , Department of the Interior

AUTHORIZATION:

43 U.S.C. 1345 (e); 43 U.S.C. 1346 Section 20.

OBJECTIVES:

The Bureau of Ocean Energy Management (BOEM) provides major economic and energy benefits on a national and local level to the taxpayers, states and the American Indian community. The BOEM oversees the exploration and development of oil, natural gas and other minerals and renewable energy alternatives on the nations outer continental shelf. BOEM continues to look for better ways to serve the American people and to ensure that the Nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of Interior, but also provides coastal States and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. The Outer Continental Shelf Lands Act (OCSLA) Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas or other mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The purpose of the Environmental Studies Program is to obtain the information needed for the assessment and the management of environmental impacts; to predict impacts on marine biota; and to monitor the human, marine, and coastal environments to provide time series and data trend information.

CRITERIA FOR SELECTING PROPOSALS:

Reclamation will place priority on funding projects that reduce existing water diversions or address specific water supply issues in a cost-effective manner, address environmental and water quality concerns, are economically justified, and meet other program goals. For ARRA funded projects: The purposes of the Recovery Act are, among others, to quickly and prudently commence activities that preserve and create jobs and to promote economic recovery, and to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits. To meet these purposes, Reclamation will allocate funds based on the criteria set forth in the Recovery Act and the accompanying conference report, and will target activities that quickly infuse money into the economy.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2012: A number of projects will address the connection between water use and energy use. For example, Three Sisters Irrigation District in Oregon will replace 20,000 of open canal with pipe expected to result in 750 acre-feet of water savings annually. The District also will install a 950-kilowatt capacity turbine generator as part of the project.

Several projects will save energy through water conservation. For example, the Sidney Water Users Irrigation District in Montana will replace 3.1 miles of open lateral canals with PVC pipeline and will install flow meters at turnouts to improve water efficiency, expected to result in 1,510 acre-feet of water savings annually. The District estimates that completion of the project will decrease pumping needs and reduce energy consumption by approximately 179,100 kilowatt-hours per year.

Other projects are expected to make contributions to environmental restoration by conserving water or making other improvements that benefit endangered or threatened species. For example, in Oregon the North Unit Irrigation District will undertake water management improvements with expected savings of 1,300 acre feet of water annually. Through a partnership with the Deschutes River Conservancy, conserved water will be marketed to restore instream flows in a critical reach of the Crooked River.

Examples of all projects funded to date are available at <http://www.usbr.gov/WaterSMART/weeg>. Fiscal Year 2013: Information not available. Fiscal Year 2014: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Projects should seek to conserve and use water more efficiently, increase the use of renewable energy and improve energy efficiency, protect endangered and threatened species, facilitate water markets, or carry out other activities to address climate-related impacts on water or prevent any water-related crisis or conflict.

California or fund designated activities. An environmental NEPA document may be required depending on the nature of the proposal and its impact on the environment. Compliance with National Historic Preservation Act and Endangered Species Act is also required. Summit and Walker Lakes Preapplication Coordination: Although it is not mandatory, Reclamation strongly encourages offerors to submit a pre-proposal to eliminate the possibility of submitting a full proposal that would not be considered for award.

The pre-proposal should describe 1) how the proposal will provide benefits to a terminal lake or associated watershed, 2) the quantity of water anticipated to be provided if part of the proposal, 3) the associated estimated cost, 4) potential environmental impacts, 5) state, local and other permits or approvals needed to implement the proposal. Pyramid Lake Pre-Application Coordination: Initially pre-proposal solicitation announcement was issued by Reclamation; the initial solicitation occurred in FY05. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Funding is allowed for work for the benefit of three specified at-risk natural desert terminal lakes and associated riparian and watershed resources in Nevada and California or fund designated activities. For Summit Lake, Reclamation will only accept proposals from the Summit Lake Paiute Tribe, since the lake is entirely within the reservation boundaries and any proposal affecting the lake would need the consent of the Tribe; the exception is if DTL funding is reprogrammed in another DTL grant for Summit Lake. For all three lakes, Reclamation, may accept applications after the applicant provides enough pre-application information to Reclamation to assure that the proposed work will be for the benefit of at-risk natural desert terminal lakes and associated riparian and watershed resources in Nevada and California or fund designated activities, the associated cost is reasonable, and it is likely Reclamation can satisfy its federal Indian trust, endangered species environmental, and other responsibilities. Discretionary funding opportunities will be posted on Grants.gov. Submission of a complete technical proposal and a project budget proposal in accordance with the instructions in the FOA is mandatory. In addition, applicants must submit all applicable SF-424 forms, which are referenced in the FOA. Reclamation does not anticipate accepting unsolicited applications in FY13 because all remaining funding has been obligated except that which will be used for program administration.

Award Procedure:

For Summit Lake, Walker Lake, and Pyramid Lake, proposals are evaluated using a merit-based review process. Some Pyramid Lake proposals were also reviewed on the basis of a competitive, merit-based review process, and were rated in accordance with the evaluation criteria stated in the FOA. Reclamation made awards to the highest-rated proposals based on the amount of available funding at that time. Reclamation reserves the right to prioritize projects based on availability of funds and to ensure balance among the program objectives listed in the FOA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Contact Reclamation for the range of time when proposals are approved or disapproved.

Appeals:

Reclamation will, however, provide all applicants with information on why their proposals were not selected.

Such programs shall consist of cost-effective measures and associated works to reduce salinity from saline springs, leaking wells, irrigation sources, industrial sources, erosion of public and private land, or other sources. For ARRA funded projects and in addition to the program objectives above, the section 3 of the ARRA states the following objectives:

- (1) To preserve and create jobs and promote economic recovery.
- (2) To assist those most impacted by the recession.
- (3) To provide investments needed to increase economic efficiency by spurring technological advances in science and health.

Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." Award Procedure:

Reclamation will solicit proposals and award funding through a Funding Opportunity Announcement (FOA) process. The FOA will request proposals from public and private sectors that would control salinity based on cost per ton. The proposals will be ranked based on their cost effectiveness for preventing salt from entering the Colorado River system. The ranking would consider risk factors that might affect the project's performance. Upon receipt of applications/proposals by the date identified in the announcement(s), the applications will be reviewed to determine if application/proposal(s) are consistent with requirements identified in the announcements. The application/proposal(s) are reviewed against identified criteria by a Federal technical team of experts, that may include representatives of states as advisors. Based on the review, a ranking will be defined. Negotiations will be conducted and/or awards will be made based on recommendations from the technical experts. Award will be based on those applications best meeting the needs of the program, including cost and risk factors.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2012: No Current Data Available Fiscal Year 2013: No Current Data Available Fiscal Year 2014: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

In 1984, the Salinity Control Act was amended to direct the Secretary of the Interior to give preference to units which reduce salinity at the least cost per unit of salinity reduction (or cost-effectiveness). Cost-effectiveness is defined as the Salinity Program's annual cost per ton of salt prevented from entering the Colorado River system. Conceptually, cost-effectiveness is analogous to determining the cost per mile to own and operate a car. That computation combines the annual expenses (loan payments, gas, maintenance, etc.) and divides by the miles traveled each year. The key to understanding this approach is to appreciate that the government evaluates all projects as if the money is borrowed from a loan institution and repaid in annual installments over the life of the project. This economic evaluation principle is required by the "Economic and Environmental Principles Guidelines for Water and Related Land Resources Implementation Studies", March 1983. This method lends consistency in the comparison of non-federally financed alternatives (which must borrow funds) to Federally financed projects. Each proposal will be evaluated by a technical review panel in accordance with the following criteria and corresponding percentage weights: (a) Technical merit - those passing will be evaluated further, (b) Cost effectiveness 70 percent of the annual cost for each ton of salt load reduction, expressed in dollars per ton, (c) Performance risk 30 percent of performance risk will evaluate the cost and effectiveness risks of the proposal. More detailed information will be included in each funding announcement or may be obtained from the Salinity Control Program contacts listed above. For Recovery Act projects: The purposes are among others, to quickly and prudently commence activities that preserve and create jobs and to promote economic recovery, and to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits. To meet these purposes, Reclamation will allocate funds based on the criteria set forth in the Recovery Act and the accompanying conference report, and will target activities that quickly infuse money into the economy.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2012: Cost-share cooperative agreements were awarded to non-Federal partners (e.g., state, county, local governmental entities, etc.) to facilitate planning, development, operation, and maintenance of recreation and fish and wildlife facilities on numerous Bureau of Reclamation water project recreation areas. Examples of funded projects include Oregon Parks and Recreation Department completed improvements for protection of public health and safety, managing service and law enforcement contracts and repairing vandalized structures around the reservoir. Washington County Parks and Recreation completed retrofits due to deteriorating structures to get sites back into Accessibility compliance. Town of Coulee City completed marina enhancement with new outer jetty, new moorage jetty, and aluminum piers for future installation of docks. City of American Falls completed trail improvements to meet accessibility compliance. Santa Barbara County Parks Department completed and designed a new treatment plant and a new roof was constructed over the facility. Lake Cachuma (Cachuma Project) was identified by the county and Reclamation to utilize funds for expansion of the marina boat launch. The launch expansion was needed to increase the number of lanes, parking and slope of the launch area to accommodate the aquatic invasive species inspection area and wash station. Funds were also used to complete the installation and service works for the recreation area potable water storage tank. Reclamation is providing cooperative reimbursements to Nevada State Parks for operations and maintenance to avoid a recreation area "turn back." There were continued cost-share arrangements with States of Colorado, New Mexico, and Utah to rehabilitate facilities and perform accessibility retrofits, including construction of new pay booth, entrance plaza, maintenance and administrative buildings at Elephant Butte Lake State Park, New Mexico (2011 and 2012); labor and supply costs for invasive species boat inspections at six state parks (excluding Navajo Lake SP) in New Mexico (2012); improvements to the visitor center at Brantley Lake State Park, New Mexico (2012); phase II rehabilitation of recreation facilities at Starvation Lake State Park Utah, including expansion of Mountain View Campground to increase capacity to meet demand (2012); activities begin reconstruction of the Rock Cliff Campground, Jordanelle Reservoir, Utah (2012); and accessibility improvements at Rifle Gap Reservoir, Colorado (2011). Funds are to be used for operations and maintenance of Rye Patch and Lahontan State Recreation Areas (Humboldt and Newland Projects). The Casitas Municipal Water District, which manages Lake Casitas (Ventura Project), utilized assistance funds to resurface the marina docks and water park features thereby improving visitor safety. Provided funds were also used to resurface a portion of the recreation area roads which have been damaged by tree roots and potholes. South Central California Area Office assisted in funding the replacement of a vault restroom and improvement of the condition of the community amphitheater at Millerton State Recreation Area (Friant Project, CVP). Reclamation is providing funding to the Salton Sea California State Park for Operations and Maintenance of the park. Fiscal Year 2013: Information not available. 15.533 CALIFORNIA WATER SECURITY AND ENVIRONMENTAL ENHANCEMENT

California Bay-Delta Authorization Act (CALFED)

FEDERAL AGENCY:

Bureau of Reclamation, Department of the Interior

AUTHORIZATION:

Water Supply, Reliability, and Environmental Improvement Act, Title I California Water Security and Environmental Enhancement, Public Law 108-361 and Public Law 111-11, Section 9504(a).

OBJECTIVES:

The purpose of the CALFED Bay-Delta Authorization Act authorizes the Secretary of the Interior and the heads of the other Federal implementing agencies to carry out specific activities identified in the Act in furtherance of the CALFED Bay-Delta Program as set forth in the CALFED Bay-Delta Program Record of Decision dated August 28, 2000. The financial assistance objectives of the Program are to provide assistance for outreach efforts to improve the public's awareness and understanding of the water supply and eco-system issues in California's Sacramento San Joaquin River Delta, and to expand water supplies to ensure efficient use through an array of projects and approaches, improve water quality from source to tap, improve the health of the Bay-Delta system through restoring and protecting habitats and native species, and improve the Bay-Delta levees to provide flood protection, ecosystem benefits, and protect water supplies.

The development of the BDCP is expected to result in a 50-year, ecosystem-based Habitat Conservation Plan designed to restore fish and wildlife species in the Delta in a way that also provides for the protection of reliable water supplies while minimizing impacts to Delta communities and farms. The San Joaquin River Salinity Management Project implements the stakeholder developed Westside Regional Drainage Plan (WRDP), which includes activities to manage, reduce, and eliminate agricultural drainage to the lower San Joaquin River and adjacent wetlands water supply channels. The WRDP is a key element of Reclamations Action Plan to Address the Lower San Joaquin River Salinity total maximum daily load and contributes to resolution of San Luis Unit drainage provision responsibilities.

The Science program provides for the collection and assembly of environmental data and information needed to help inform the biological requirements for threatened and endangered species that are affected by the Central Valley Project. The Bay Area Regional Water Recycling Program (BARWRP) is a partnership of federal, state, and local agencies focused on the feasible use of recycled water in the five-county San Francisco Bay Area. BARWRP will assist CALFED in meeting its objectives related to water supply, water quality, and ecosystem enhancement. By maximizing utilization of recycled water for its permitted demands, water agencies can reduce the demands on their current high-quality water supplies and limit the need for new, possibly lower-quality supplies in the future. Water conservation is designed to encourage cost shared water conservation projects that meet the objectives contained in the CALFED Water Use Efficiency Program. Benefits include increased water supply reliability, water quality improvements, and contributions to ecosystem restoration.

Criteria for funding projects have been established by Congress in the authorizing legislation (Public Law 102-575) at Section 314(c). Generally, these criteria require that projects restore damaged natural ecosystems on public lands and waterways affected by Federal Reclamation projects in the upper Colorado River basin. In addition, priority is given to projects that assist recovery of endangered or sensitive species or ecosystems, allow reintroduction of native flora and fauna, control or eliminate exotic pest species, or provide enhanced conservation value to state and local government lands. A complete list of program criteria is available at the address listed in Information Contacts (:151). Projects that leverage grant funds with applicant funds, or in-kind services, will receive bonus consideration, but not automatic preference. Specific evaluation criteria will be included in the annual funding opportunity announcement.

OBJECTIVES:

The Middle Rio Grande Endangered Species Collaborative Program (Program) is a collaborative effort consisting of 16 stakeholders including federal, state, and local governmental entities; Indian tribes and pueblos; and non-governmental organizations representing diverse interests working to support compliance with the Endangered Species Act (ESA). The Program is transitioning to a Recovery Implementation Program (RIP) through development of a new Program document, action plan, and cooperative agreement to formalize the RIP as the action agencies' conservation measure in new biological opinions (BOs). A new Long-Term Plan linked to Rio Grande silvery minnow (silvery minnow) and Southwestern willow flycatcher (flycatcher) endangered species recovery plans is also under development. The purpose of the Program RIP is to protect and improve the status of endangered listed species along the Middle Rio Grande (MRG) by implementing certain recovery activities to benefit those species and their associated habitats and, simultaneously, to protect existing and future water uses while complying with applicable state and federal laws, including Rio Grande compact delivery obligations, and to serve as the ESA coverage vehicle for water uses and management actions in the Program area. "Listed species" means federally listed species under the ESA, with special emphasis on the Rio Grande silvery minnow (silvery minnow) and the southwestern willow flycatcher (flycatcher).

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

The Program Area is defined as "the headwaters of the Rio Chama watershed and the Rio Grande, including tributaries, from the New Mexico-Colorado state line downstream to the

elevation of the spillway crest of the Elephant Butte Reservoir at 4,450 ft above mean sea level, excluding the land area reserved for the full pool of the Elephant Butte Reservoir. CRITERIA FOR SELECTING PROPOSALS:

The Las Vegas Wash Coordination Committee has decided that the SNWA will be the lead agency for receiving funding for this program due to the high costs and types of environmental improvement and enhancement, and ability to maintain restoration projects. The Las Vegas Wash Program plays an important role in environmental and water resource issues in Southern Nevada. Historically, the Las Vegas was an ephemeral stream carrying storm flows from the Las Vegas Valley to Lake Mead and the Colorado River. Urban development over the past 60 years has resulted in the formation of the wetlands that helped remove nutrients from these wastewater flows. As the rate of discharges increased, erosion also increased, gradually destroying the existing natural treatment systems and wildlife habitat and creating a large delta in the Las Vegas Bay of Lake Mead. Accelerating erosion, declining water quality, and loss habitat are some of the more pressing issues. Proposals submitted will be reviewed and awarded based on priority fulfillment of the 44 action items identified in the Plan and the availability of funding appropriations.

For example, once completed, the funded projects are expected to develop decision support tools and methodologies to address the effects of climate change; use Light Detecting and Ranging and multispectral imagery to analyze water and sedimentation dynamics; develop a decision support tool for incorporating ecological flows into water management models used for basin-wide water supply planning; digitize original National Wetland Inventory maps; develop new biological information about springs and seeps; examine climate change impacts on stream low flows and effects on riparian vegetation; and develop a soil vulnerability index. 15.507 Water 2025

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2012: Desert LLC: The Desert Botanical Garden and other partners will determine how the tamarisk leaf beetle combined with climate change will affect tamarisk populations throughout the DLCC region. The project will determine 1) if climate warming coupled with the tamarisk leaf beetle will reduce the negative impact of tamarisk on water resource management in western North America, 2) assess whether some tamarisk populations are more susceptible to the combination of climate change and tamarisk leaf beetle and 3) evaluate how genetic change in the tamarisk beetle species will enable beetle colonies to expand in the lower Colorado River Basin and extend the period of active feeding, thereby changing riparian vegetation in this region.

Southern Rockies: The New Mexico Office of the State Engineer is planning to improve crop coefficients for the Middle Rio Grande by assessing actual crop water use through the use of remote sensing technologies that estimate the evapotranspiration of individual crops within the basin. The results from this project will provide local state and federal water managers with a better estimate of future water manager with a better estimate of future water demand estimates from decision-making models based on climate change and other water limiting factors by improving the accuracy of the calculation of water used by crops. Fiscal Year 2013: Information not available. Fiscal Year 2014: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Specific evaluation criteria will be included in the funding announcements posted on www.grants.gov. All applications will be evaluated using criteria that give priority to a project's technical merit, the relevance to the LCC, dissemination of results to Reclamation and LCC partners, connections to Reclamation activities and exceed the minimum 50 percent non-Federal cost-share requirement.
