SPECIAL NOTES:

(1) Numerous Programs are funded under CFDA 10.500.

Most of the Cooperative Extension Service (CES) grants were issued under the general authority of the Secretary of Agriculture, pursuant to 7 U.S.C. 343 (d)

(2) Listed below are several programs, which are indicative of the types of projects currently funded under CFDA 10.500. However, please be advised that the listing is NOT exhaustive.

1. SMITH-LEVER 3(b) & (c):

(a) Cooperative Extension Programs at 1862 Land-Grant Institutions (aka 3b & c Capacity Grants - formerly known as Formula Funds)

Sections 3(b) and 3(c) of the Smith-Lever Act provide funding for agricultural extension programs at 1862 Land-grant universities.

(b) Cooperative Extension Programs at 1862 Land-Grant Institutions (Special Needs)

Sections 3(b)(1) and 8 of the Smith-Lever Act provide the basis of funding special needs agricultural extension programs at 1862 Land-grant institutions.

(c) Smith-Lever Special Needs Program

Section 7129 of the Food, Conservation, and Energy Act of 2008 (FCEA), re-authorizes Section 3(b) & (c) of the Smith-Lever Act, allowing the Secretary of Agriculture, acting through the Director of the National Institute of Food and Agriculture (NIFA), to conduct competitive grant programs to State Extension Services at 1862 Land-Grant Institutions to support innovative, education-based approaches to addressing emergency preparedness and specific responses related to natural and man-made disasters.

(d) CSRS Retirement Contributions Program (aka ERET CSRS Retirement)

Funds available for distribution under the Smith-Lever Act, Section 3(b) and (c), statutory formula.

(e) FERS Retirement Contributions Program (aka ERET FERS Retirement)

Federal funds are available for distribution under the Smith-Lever Act, Section 3(b) and (c), statutory formula.

(f) District of Columbia Public Postsecondary Education Reorganization Act Program (Cooperative Extension Programs) aka EUDC

Sections 208 of the District of Columbia Public Postsecondary Education Reorganization Act provides, in pertinent part, that in the administration of the Act of August 30, 1890 (7 U.S.C. 321-326, 328) (known as the Second Morrill Act), the University [of the District of Columbia] shall be considered

to be a university established for the benefit of agriculture and the mechanic arts in accordance with the provisions of the Act of July 2, 1862 (7 U.S.C. 301-305, 307, 308) (known as the First Morrill Act); and the term "State", is used in the laws and provisions of law listed in the preceding paragraphs of this section shall include the District of Columbia. In the administration of the Act of May 8, 1914 (7 U.S.C. 341-346, 347a-349) (known as the Smith-Lever Act) the University [of the District of Columbia] shall be considered to be a university established for the benefit of agriculture and the mechanic arts in accordance with the provisions of the Act of July 2, 1862 (7 U.S.C. 301- 305, 307,308); and the term "State" as used in such Act of May 8, 1949, shall include the District of Columbia, except that the District of Columbia shall not be eligible to receive any sums appropriated under section 3 of such Act. In lieu of an authorization of appropriations for the District of Columbia under section 3 of such Act of May 8, 1914, there is authorized to be appropriated such sums as may be necessary to provide cooperative agricultural extension work in the District of Columbia under such Act. Any reference in such Act (other than section 3 thereof) to funds appropriated under such Act shall in the case of the District of Columbia be considered a reference to funds appropriated under this subsection.

Therefore, this grant funds the development of practical applications of research knowledge and giving of instruction and practical demonstrations of existing or improved practices or technologies in agriculture, uses of solar energy with respect to agriculture, home economics, and rural energy, and subjects relating thereto to persons not attending the University of the District of Columbia, and imparting information on those subjects through demonstrations, publications, and otherwise and for the necessary printing and distribution of information in connection with the subjects.

Section 7417 of the Food, Conservation, and Energy Act of 2008 (Public Law 110-234) amended section 208 of the District of Columbia Public Postsecondary Education Reorganization Act to eliminate any matching requirement for the extension formula funds provided to the University of the District of Columbia, effective October 1, 2008.

2. Agricultural Extension at 1890 Land-Grant Institutions, Including Tuskegee University, West Virginia State University and (newly designated) Central State University (Section 1444) (7 U.S.C. 3221)

Section 1444 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA), enacted as Title XIV of Public Law 95113 (The Food and Agriculture Act of 1977) on Sept. 29, 1977, is also known as the Section 1444 Program. This law provides the basis for Federal funding for agricultural extension activities at 1890 Land-Grant Institutions, including Tuskegee University, West Virginia State University and Central State University.

3. SMITH-LEVER 3(d):

(a) Expanded Food and Nutrition (EFNEP) (ENUT Nutrition Education)

Section 3(d) of the Smith-Lever Act provides that the Secretary of Agriculture may fund extension work in the several States, Territories, and possessions. Section 1425 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (as amended) (7 U.S.C. 3175) provides the statutory formula for the Expanded Food and Nutrition Education Program (EFNEP). This program supports Federal funding for extension activities associated with disseminating the results of food and nutrition research performed or funded by the U.S. Department of Agriculture to enable low-income individuals and families to engage in nutritionally sound food purchase and preparation practices. Funding extends to EFNEP at State land-grant colleges established under the Morrill Act of July 2, 1862, as amended, and the Morrill Act of August 30, 1890, as amended, including Tuskegee University and West Virginia State University. Section 7116 of the Food, Conservation, and Energy Act of 2008 (FCEA) amended Section 1425 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3175) to accomplish

4. OTHER EXTENSION ACTIVITIES:

(a) Renewable Resources Extension Act

The Renewable Resources Extension Act of 1978 (P.L. 95-306, 92 Stat. 349, 16 U.S.C. 1671 et seq.) provides for an expanded and comprehensive extension program for forest and rangeland renewable resources. The majority of the appropriated funds are distributed to eligible institutions based on a formula that considers the geographic extent, ecosystem productivity, economic contribution, and population for each state.

Since FY 2002, a small amount of these funds have been used to fund National Focus Fund Projects which have served to expand comprehensive extension programs for forest and rangeland renewable resources on a national, regional, or multi-institutional scale through better program coordination, innovative technologies, and extension models that can be easily duplicated.

(b) Rural Health and Safety

The authority for this program is under Section 502 (i) of Title V of the Rural Development Act of 1972, as amended (7 U.S.C. 2662). The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I. The Rural Health and Safety Education Competitive Program addresses the Individual and Family Health Education component of the authorization.

(c) Extension Services at the 1994 Institutions

This program is authorized under Section 534(b) of the Equity in Educational Land-Grant Status Act of 1994 (7 U.S.C. 201 note), as amended by the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) (7 U.S.C. 7601). This section amends Section 3 of the Act of May 8, 1914 (Smith-Lever Act) (7 U.S.C. 341 et seq.), as amended. Under this

authority, appropriated funds are to be awarded to the 1994 Land-Grant Institutions (hereinafter referred to as 1994 institutions) for Extension work and funds are to be distributed on the basis of a competitive application process.

(d) Grants to Youth Serving Institutions

Title IV of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7630) authorized the Secretary of Agriculture to make grants to the Girl Scouts of the United States of America (GSUSA), the Boy Scouts of America (BSA), the National 4-H Council (4-H Council), and the National FFA Organization (FFA). Section 7309 of the Food, Conservation, and Energy Act (FCEA) of 2008 reauthorized 7 U.S.C. 7630, which was also amended to provide additional flexibility in content delivery to each organization receiving funds and to allow recipients to redistribute all or part of the funds to individual councils or local chapters without further need of approval from the Secretary. In FY 2009, Terms and Conditions of these awards should facilitate the redistribution without further need of approval. The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I for grants to youth organizations pursuant to 7 U.S.C. 7630.

(e) Food Animal Residue Avoidance Database Program (FARAD)

Title VI Section 604 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7642) states that -The Secretary of Agriculture shall continue operation of the Food Animal Residue Avoidance Database program (referred to in this section as the FARAD program) through contracts, grants, or cooperative agreements with appropriate colleges or universities.

(f) Federal Administration

DIRECT APPROPRIATION

Pertinent details will be provided at a future date.

(g) 1890 Facilities (Section 1447)

Pursuant to the authority contained in Section 1447 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (NARETPA) [7 U.S.C. 3222b], and reauthorized by Section 7123 of the Food, Conservation, and Energy Act of 2008 (FCEA) (Pub. L. 110-246) grants will be awarded under the Facilities Grants Program to the 1890 land-grant institutions, including Tuskegee University and West Virginia State University. The Omnibus Appropriations Act, 2009 appropriates funds under Division A, Title I.

(h) Agriculture Risk Management Education Partnership Grants Program (aka ARPA and RME):

Section 133 of the Agricultural Risk Protection Act of 2000 (ARPA), (Pub. L. 106-224), amended the Federal Crop Insurance Act to add section 524(a)(3); [7 U.S.C. Section 1501 as amended by section 132(a) and section 524]; which requires the Secretary, acting through the National Institute of Food and Agriculture (NIFA), to establish a competitive grants program for the purpose of educating agricultural producers about the full range of risk management activities.

Section 524(a) of the Federal Crop Insurance Act, 7 U.S.C. 1524(a) was further amended by Section 12026 of the Food, Conservation, and Energy Act of 2008, (FCEA) (Pub. L. 110-246), which requires that the Secretary place special emphasis on risk management strategies, education, and specifically targeted outreach.-- 10.500

- Section 1115A of the Social Security Act (the Act), as added by 3021 of the Affordable Care Act, which authorizes the Center for Medicare & Medicaid Innovation (CMMI or the Innovation Center) to test innovative payment and service delivery models to reduce spending under Medicare, Medicaid, or CHIP, while preserving or enhancing the quality of care furnished to beneficiaries under those programs. The TCPI is a service delivery model that tests whether providing technical assistance in a specific complex adaptive manner will enable clinicians and their practices to rapidly transform the way they deliver care to patients, resulting in improved health outcomes and reduced costs. The authority for the TCPI model is section 1115A of the Social Security Act (the Act). Under section 1115A(d)(1) of the Act, the Secretary of Health and Human Services may waive such requirements of Titles XI and XVIII and of sections 1902(a)(1), 1902(a)(13), and 1903(m)(2)(A)(iii) as may be necessary solely for purposes of carrying out section 1115A with respect to testing models described in section 1115A(b). For this model and consistent with this standard, the Secretary may consider issuing waivers of certain fraud and abuse provisions in sections 1128A, 1128B, and 1877 of the Act. Waivers are not being issued in this document; waivers, if any, would be set forth in separately issued documentation. Thus, notwithstanding any other provision of this Funding Opportunity Announcement, awardees and subawardees must comply with all applicable laws and regulations, except as explicitly provided in any such separately documented waiver issued pursuant to section 1115A(d)(1) specifically for the TCPI model. Any such waiver would apply solely to the TCPI model and could differ in scope or design from waivers granted for other programs or models.-- 93.638, 93.639
- Section 1115a of the Social Security Act, as added by Section 3021 of the Patient Protection and Affordable Care Act (ACA), authorizes the Centers for Medicare and Medicaid Innovation (CMMI or the Innovation Center) to test innovative payment and service delivery models to reduce spending under Medicare, Medicaid, or CHIP, while preserving or enhancing the quality of care furnished to beneficiaries under those programs.-- 93.646

16 U.S.C. 1g provides that the National Park Service may enter into cooperative agreements that involve the transfer of National Park Service appropriated funds to State, local and tribal governments, other public entities, educational institutions, and private nonprofit organizations for the public purpose of carrying out National Park Service programs pursuant to 31 U.S.C. 6305 to carry out public purposes of National Park Service programs. The Outdoor Recreation Act, as amended, 16 U.S.C., 4601-1(f), (1988), states that the Secretary is authorized to sponsor, engage in, and assist in research, undertake studies through cooperative agreements, and cooperate with educational institutions in establishing educational programs and activities relating to outdoor recreation. The North Cascades Environmental Learning Center (NCELC) is a residential education facility located on the shore of Diablo Lake in North Cascades National Park. The Learning Center is one of the central elements of the 1995 federal relicensing of Seattle City Light's Skagit River dams. This project and others are designed to mitigate the impact of hydroelectric projects on the Skagit River environment. Seattle City Light, the National Park Service and North Cascades Institute each have unique responsibilities in this partnership:

- Seattle City Light funded the design and the construction of the facility, own the buildings, and are leasing them to North Cascades Institute.

- The National Park Service dedicated land for the Learning Center within the Ross Lake National Recreation Area of North Cascades National Park Service Complex. The National Park Service also provides services such as water, sewer, fire management and educational support.

- North Cascades Institute is a non-profit organization based in Sedro-Woolley, Washington. It operates the Learning Center and provide environmental education programs for all ages and backgrounds.-- 15.942

Appendix III: Budget Functional Code Appendix

FINANCIAL INFORMATION

Account Identification - This 11-digit budget code identifies the account from which a program is funded as expressed in the Appendix to the Federal Budget. For identification code 75-0350-0-1-551, the first two digits represent the Federal agency code, and the third through sixth digits identify the appropriation (or fund) basic account symbol assigned by the Treasury Department. Where two or more accounts with different Treasury basic account symbols are included in a consolidated program, 99 will be the third and fourth digits, the fifth digit will be the fund type and the sixth digit will reflect the sequence of consolidated programs for that fund type within the agency. The seventh digit identifies the timing of transmittal of budget estimates:

- 0: Regular budget schedules
- 1: Supplemental appropriation
- 2: Legislative proposal, not subject to PAYGO
- 3: Appropriations language to be transmitted later
- 4: Legislative proposal, subject to PAYGO
- 5: Recission proposal
- 6: Adjustments to 1996 continuing resolution levels

The eighth digit identifies the type of government fund involved:

1: General fund - General Fund Appropriation Accounts - Accounts established to record amounts appropriated by law to be expended for the general support of the Government.

General Fund Receipt Accounts - Accounts credited with all receipts that are not earmarked by law for a specific purpose.

2: Special fund - Special Fund Appropriation Accounts - Accounts established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law. Special Fund Receipt Accounts - Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose.

3: Public Enterprise Fund Accounts - Funds authorized by Congress to be credited with receipts primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.

4: Intragovernmental Revolving or Management Fund Intragovernmental Fund Accounts - Accounts established to facilitate financing transactions within and between Federal agencies. These funds may be classified as intragovernmental revolving funds or management funds. Intragovernmental Revolving Fund Accounts - Funds authorized by law to carry out a cycle of intragovernmental business-type operations. These funds are credited with offsetting collections from other agencies and accounts.

7: Trust Fund (non-revolving) - Trust funds are established to account for the receipt and expenditure of monies by the Government for carrying out specific purposes and programs in accordance with the terms of a statute that designates the fund as a trust fund (such as the Highway Trust Fund) or for carrying out the stipulations of a trust agreement (such as any of several trust funds for gifts and donations for specific purposes). In a trust non-revolving fund, the receipts designated for the trust fund are in a separate account.

8: Trust Fund (revolving) - In a trust revolving fund, the fund is credited with collections earmarked by law to carry out a cycle of business-type operations.

9: For use when account consolidations cross fund types. The last three digits represent the functional classification (code) used in the latest Federal Budget document, unless noted otherwise by the Office of Management and Budget. In cases where a program is split between two or more subfunctions: (a) if all subfunctions are in the same major function, the code is the same as for the major function; or (b) if two or more major functions are involved the digits '999' are used. (Example: 75-1361-0-1-550)

Listed below are major functions and subfunctions as used in the budget document to show allocations of budget authority and outlays according to end purposes without regard to agency jurisdiction. The central nature of each major function is identified and defined. Catalog programs are listed following each applicable subfunction (or major function). Note that some subfunctions are not applicable to Catalog programs.

The alphabet(s) in parentheses following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows:

- A: Formula Grants
- B: Project Grants
- C: Direct Payments for Specified Use
- D: Direct Payments with Unrestricted Use
- E: Direct Loans
- F: Guaranteed/Insured Loans
- G: Insurance
- H: Sale, Exchange, or Donation of Property and Goods
- I: Use of Property, Facilities, and Equipment
- J: Provision of Specialized Services
- K: Advisory Services and Counseling
- L: Dissemination of Technical Information
- M: Training
- N: Investigation of Complaints
- O: Federal Employment

Appendix III: Budget Functional Code Appendix

(050) NATIONAL DEFENSE

This function includes those programs directly related to the common defense and security of the United States. It includes the raising, equipping, and maintaining of armed forces (including civilian supporting activities), development and utilization of weapons systems (including nuclear weapons), and related programs. National defense includes direct compensation and benefits paid to active military and civilian personnel; contributions to their retirement, health, and life insurance funds; the conduct of defense research, development, testing, and evaluation; and procurement, construction, stockpiling, and other activities undertaken with the direct object of fostering our national security. Excluded from national defense are benefits or compensation to veterans and their dependents (veterans benefits are generally available to personnel who served the country in national emergencies; benefits for career military personnel are generally charged as a cost to the national defense function) and military retired pay, which is included in the income security function. Also excluded from national defense is the peaceful conduct of foreign relations; foreign military, economic, and humanitarian assistance; subsidies to business by civilian agencies (such as maritime subsidies) that may be partially justified as promoting national security; and research and operations of agencies (such as space research) whose program mission is not directly designed to promote national defense but which could result in some significant benefits to our national security.

81.123 National Nuclear Security Administration (NNSA) Minority Serving Institutions (MSI) Program (B)

(051) Department of Defense - Military

The entire agency is included in this subfunction. Because of the method of funding and accounting in the Defense Department no further subdivisions on a program basis are available in terms of outlays.

12.611 Community Economic Adjustment Assistance for Reductions in Defense Industry Employment (B)
12.614 Community Economic Adjustment Assistance for Advance Planning and Economic Diversification (B)
12.615 Research and Technical Assistance (B)
12.617 Economic Adjustment Assistance for State Governments (B)
12.902 Information Security Grants (B)

(053) Atomic Energy Defense Activities

Those programs of the Department of Energy devoted to national defense activities, such as naval ship reactors and nuclear weapons.

17.310 Energy Employees Occupational Illness Compensation (D)
81.104 Environmental Remediation and Waste Processing and Disposal (B)
81.106 Transport of Transuranic Wastes to the Waste Isolation Pilot Plant: States and Tribal Concerns, Proposed Solutions (B)

81.112 Stewardship Science Grant Program (B)
81.113 Defense Nuclear Nonproliferation Research (B)
81.124 Predictive Science Academic Alliance Program (B)

(054) Defense-Related Activities

Miscellaneous defense activities such as the expenses connected with selective service and civil defense activities in the Federal Emergency Management Agency.

12.369 Marine Corps Systems Command Federal Assistance Program (B)
20.813 Ship Operations Cooperative Program (C)
47.050 Geosciences (B)

(150) INTERNATIONAL AFFAIRS

This function is concerned with the maintenance of peaceful relations, commerce, and travel between the United States and the remainder of the world, and with the promotion of international security and economic development abroad. It includes the conduct of foreign affairs; cost of membership in international organizations; foreign information and exchange activities; foreign military, economic, and humanitarian assistance programs; and loan programs designed to foster U.S. exports. Excluded from international affairs are outlays from domestic programs that may tangentially affect foreign relations or citizens of other nations.

19.221 Iran Assistance Program (B)
19.500 Middle East Partnership Initiative (B)
93.832 Promoting the Cancer Surveillance Workforce, Education and Data Use (B)

(151) International Development and Humanitarian Assistance

This includes humanitarian assistance, development assistance, security supporting assistance, grants to and investments in international financial and development institutions, and the costs associated with concessionary agricultural exports.

10.608 Food for Education (C,H)

(152) International Security Assistance

This includes all of international security assistance. It involves the transfer of defense articles and services to foreign governments through grants, credit sales, and training.

(153) Conduct of Foreign Affairs

This includes the diplomatic and consular operations of the Department of State and closely-related activities in other agencies (such as the Arms Control and Disarmament Agency).

(154) Foreign Information and Exchange Activities

This includes student and cultural exchange programs and foreign library, radio, or other media information activities designed to promote mutual understanding between the people of the United States and other Nations.

19.009 Academic Exchange Programs - Undergraduate Programs (B)
19.010 Academic Exchange Programs - Hubert H. Humphrey Fellowship Program (B)
19.011 Academic Exchange Programs - Special Academic Exchange Programs (B)
19.012 Professional and Cultural Exchange Programs - Special Professional and Cultural Programs (B)
19.015 Cultural, Technical and Educational Centers (B)
19.022 Educational and Cultural Exchange Programs Appropriation Overseas Grants (B)
19.400 Academic Exchange Programs - Graduate Students (B)
19.401 Academic Exchange Programs - Scholars (B)
19.402 Professional and Cultural Exchange Programs - International Visitor Leadership Program (B)
19.408 Academic Exchange Programs - Teachers (B)

Appendix III: Budget Functional Code Appendix

- 19.415 Professional and Cultural Exchange Programs - Citizen Exchanges (B)
- 19.421 Academic Exchange Programs - English Language Programs (B)
- 19.432 Academic Exchange Programs - Educational Advising and Student Services (B)
- 19.440 IIP Individual Grants (B)
- 19.450 ECA Individual Grants (B)
- 19.451 Special International Exchange Grant Programs (B)
- 19.452 International Exchange Alumni Programs (B)

(155) International Financial Programs

This includes export credit, the military sales trust fund, international commodity agreements, international monetary programs, and other programs designed to improve the functioning of the international financial system.

(250) GENERAL SCIENCE, SPACE AND TECHNOLOGY

This function shows budget resources allocated to science and research activities of the Federal Government to meet the national need to advance knowledge in this area. In addition, research and technology programs that have diverse goals and cannot readily be classified into one specific function are also placed here to avoid detailed splitting of accounts. Included in this function are general scientific research and civilian space programs that are not an integral part of the programs conducted under any other function. This includes the research conducted by the National Aeronautics and Space Administration, and general science research supported by the Department of Energy. As is noted above, research programs that are an integral part of the achievement of other major functions _ e.g., health, national defense, energy _ are excluded from this function. Only if a research program cannot readily be included in other functions is it classified in this function.

- 81.105 National Industrial Competitiveness through Energy, Environment, and Economics (B)
- 81.139 Environmental Management R&D and Validation Testing on High Efficiency Particulate Air (HEPA) Filters (B)

(251) General Science and Basic Research

This includes the expenses of conducting the National Science Foundation programs and the general science activities of the Department of Energy.

- 47.041 Engineering Grants (B)
- 47.049 Mathematical and Physical Sciences (B)
- 47.050 Geosciences (B)
- 47.070 Computer and Information Science and Engineering (B)
- 47.074 Biological Sciences (B)
- 47.075 Social, Behavioral, and Economic Sciences (B)
- 47.076 Education and Human Resources (B)
- 47.079 Office of International Science and Engineering (B)
- 47.083 Office of Integrative Activities (B)
- 81.049 Office of Science Financial Assistance Program (B)
- 81.126 Federal Loan Guarantees for Innovative Energy Technologies (E,F)

(252) Space Flight, Research, and Supporting Activities

This subfunction is devoted to the development and operation of space transportation systems, basic scientific research connected with outer space, research and demonstrations designed to provide terrestrial applications of technology developed through space research, and development of new space technologies for future missions. Also included are the costs of tracking and data relay support for NASA space science and applications for flight missions.

- 43.001 Science (B,C,I,M)
- 43.003 Exploration (B,C,I,J,L,M)
- 43.005 Exploration, Recovery Act (B)
- 43.012 Space Technology (B,C,I,M)

(270) ENERGY

The energy function includes those programs designed to promote an adequate supply and appropriate use of energy to serve the needs of the economy. It

includes most of those programs operated by the Department of Energy and its predecessor agencies except for atomic energy defense activities and for general science research not closely related to energy.

- 81.036 Inventions and Innovations (B,K,L)
- 81.041 State Energy Program (A,L)
- 81.042 Weatherization Assistance for Low-Income Persons (A)
- 81.079 Regional Biomass Energy Programs (B)
- 81.086 Conservation Research and Development (B)
- 81.087 Renewable Energy Research and Development (B)
- 81.117 Energy Efficiency and Renewable Energy Information Dissemination, Outreach, Training and Technical Analysis/Assistance (B)
- 81.119 State Energy Program Special Projects (B)
- 81.129 Energy Efficiency and Renewable Energy Technology Deployment, Demonstration and Commercialization (B)
- 81.135 Advanced Research Projects Agency - Energy (B)

(271) Energy Supply

This includes those programs designed to increase the supply of energy through the development of domestic resources and systems capable of using them. Included in energy supply are the costs of research and demonstration of supply systems.

- 10.212 Small Business Innovation Research (B)
- 10.312 Biomass Research and Development Initiative Competitive Grants Program (BRDI) (B)
- 10.850 Rural Electrification Loans and Loan Guarantees (E,F)
- 10.851 Rural Telephone Loans and Loan Guarantees (E,F)
- 10.854 Rural Economic Development Loans and Grants (B,E)
- 81.057 University Coal Research (B)
- 81.089 Fossil Energy Research and Development (B)
- 81.108 Epidemiology and Other Health Studies Financial Assistance Program (B)
- 81.126 Federal Loan Guarantees for Innovative Energy Technologies (E,F)

(272) Energy Conservation

Programs in this subfunction are designed to encourage the prudent use of energy resources.

- 81.127 Energy Efficient Appliance Rebate Program (EEARP) (A)
- 81.128 Energy Efficiency and Conservation Block Grant Program (EECBG) (A,B)

(274) Emergency Energy Preparedness

This includes the programs associated with developing and maintaining a stockpile of energy resources (currently confined to petroleum) to meet emergency needs and associated contingency planning activities.

(276) Energy Information, Policy, and Regulation

This includes the unallocable overhead activities of the Department of Energy plus the costs of energy information and regulation activities.

- 77.006 U. S. Nuclear Regulatory Commission Nuclear Education Grant Program (B)
- 77.007 U.S. Nuclear Regulatory Commission Minority Serving Institutions Program (MSIP) (B)
- 77.008 U.S. Nuclear Regulatory Commission Scholarship and Fellowship Program (B)
- 77.009 U.S. Nuclear Regulatory Commission Office of Research Financial Assistance Program (B)
- 81.003 Granting of Patent Licenses (L)
- 81.138 State Heating Oil and Propane Program (B)

(300) NATURAL RESOURCES AND ENVIRONMENT

This function includes those programs whose primary purpose is to develop, manage, and maintain the Nation's natural resources and environment. It encompasses development and management of water resources; protection and

Appendix III: Budget Functional Code Appendix

enhancement of environmental quality; development and maintenance of recreational resources; promotion of the prudent use of forest and mineral resources; the fostering of conservation practices on both public and private lands; marine, earth, and atmospheric -related research, and the management of the public domain. Excluded from this function are the outlays for community water supply programs, basic sewer system, and waste treatment plants, which are part of a community or regional development (rather than an environmental enhancement) program or are part of the cost of operating a Federal facility (such as a military installation).

- 15.532 Central Valley Project, Trinity River Division, Trinity River Fish and Wildlife Management (B)
- 15.549 Integrated Regional Water Plan for the Central Valley of California (B)
- 15.550 Increasing Public Awareness of Recreational Opportunities at Reclamation Reservoirs for Physically Challenged and Disadvantaged Children (B)

(301) Water Resources

This includes water protection, conservation, irrigation, and related activities including the total costs of multipurpose water projects where it is not feasible to separate out the transportation (navigation) or energy (power) segments of these projects.

- 10.904 Watershed Protection and Flood Prevention (K)
- 10.916 Watershed Rehabilitation Program (K)
- 10.923 Emergency Watershed Protection Program (B)
- 10.927 Emergency Watershed Protection Program - Disaster Relief Appropriations Act (B)
- 10.928 Emergency Watershed Protection Program - Floodplain Easements Disaster Relief Appropriations Act (C)
- 12.010 Youth Conservation Services (B)
- 12.106 Flood Control Projects (J)
- 15.504 Title XVI Water Reclamation and Reuse Program (A)
- 15.506 Water Desalination Research and Development Program (B)
- 15.507 Water SMART (Sustaining and Manage America's Resources for Tomorrow) (B)
- 15.508 Providing Water to At-Risk Natural Desert Terminal Lakes (B)
- 15.509 Title II, Colorado River Basin Salinity Control Program (B)
- 15.510 Colorado Ute Indian Water Rights Settlement Act (B,C)
- 15.511 Cultural Resources Management (B)
- 15.512 Central Valley Project Improvement Act, Title XXXIV (B)
- 15.516 Fort Peck Reservation Rural Water System (B,C)
- 15.517 Fish and Wildlife Coordination Act (B)
- 15.518 Garrison Diversion Unit (B)
- 15.519 Indian Tribal Water Resources Development, Management, and Protection (B,C)

(350) AGRICULTURE

This function includes those programs that promote the economic stability of agriculture and the Nation's capability to maintain and increase agricultural production. These objectives are accomplished through farm income stabilization programs, research and educational activities, programs that maintain agricultural markets, regulation of agricultural markets and practices, and maintenance of an adequate stockpile of agricultural commodities. This function does not include programs which, though related to rural development, are not directly related to agriculture, such as rural environmental and conservation programs that are classified in the natural resources function. In addition, it excludes the costs connected with concessionary food export sales or food donations whether overseas or for domestic income support purposes.

Appendix III: Budget Functional Code Appendix

(351) Farm Income Stabilization

Loans, subsidies, and other payments for purposes of stabilizing agricultural prices at an equitable level. This includes the cost of acquisition and storage of agricultural commodity stockpiles but does not include the cost of foreign agricultural export losses (which are classified in the international affairs function) or domestic donations of food (which are part of an income support, rather than a farm price support, program).

(370) COMMERCE AND HOUSING CREDIT

This function includes the promotion and regulation of commerce and the housing and thrift insurance industries. Commerce includes the collection and dissemination of social and economic data unless they are an integral part of another function (such as health). This function includes general purpose loans and subsidies to business and to the housing industry. In general, credit and insurance programs are included in this function; however, if such programs are a means of achieving the basic objectives of another function and are an integral part of the programs of that function they are classified in the other function.

(371) Mortgage Credit

Includes homeownership and related loan and insurance programs.

(400) TRANSPORTATION

This function includes all programs with the primary aim of providing for the transportation of the general public and/or their property, regardless of whether local or national and regardless of the particular mode of transportation. It includes the construction of facilities; purchase of equipment; research, testing, and evaluation; provision of communications directly related to transportation (for example, air traffic control by the FAA); and operating subsidies for transportation facilities (such as mass transit) and industries (such as railroads). Transportation includes regulatory activities directed toward transportation. Excluded from this function are the costs of moving personnel or equipment as part of the operation of other government services; the provision of foreign economic assistance which may take the course of assisting transportation facilities or programs abroad; the construction of roads, trails, etc., as an integral part of the operation of public lands, parks, forests, or military reservations, unless they are specifically funded as a part of a broader transportation program; the construction of roads or other transportation facilities as an integral part of a broad community facility or regional development program where the clear intent of the program is regional development and the provisions of transportation facilities is only an incidental by-product or means to attain the objective of regional development. Also excluded from transportation are research and technology activities devoted to space research, except for aeronautical technology, even though this research may eventually redound to the advantage of general transportation.

(401) Ground Transportation

Outlays to aid and/or regulate the various modes of ground transportation, such as roads and highways, railroads, and urban mass transit.

(450) COMMUNITY AND REGIONAL DEVELOPMENT

This function consists of broad-based community, regional, urban and rural renewal and development programs. It includes grants and loans for water supply and sewer systems (except those specifically funded as environmental protection programs), urban community and economic development programs,

Appendix III: Budget Functional Code Appendix

regional economic development programs, broad-based public facility construction programs, and relief and rehabilitation of private and public facilities in the event of natural disasters. Aids to businesses such as loans, loan guarantees, and subsidies are not normally included in this function unless such aids are a means of economic development to aid restricted (generally depressed) areas and are not designed to promote particular lines of business for their own sake. Transportation facilities developed as an integral part of a community development (rather than transportation) program are also included in this function. As a normal rule, human development and services programs are excluded from this function (and included in the education, training, employment, and social services function). This function is confined to development of physical facilities or financial infrastructures designed to promote viable community economies.

(451) Community Development

This subfunction includes grants and related programs designed to aid community (largely urban) development. It includes community development block grants and predecessor activities such as the urban renewal and model cities programs. Community development programs are generally carried out by the Department of Housing and Urban Development.

- 10.868 Rural Energy for America Program (F)

(500) EDUCATION, TRAINING, EMPLOYMENT, AND SOCIAL SERVICES

This function includes those outlays designed to promote the general extension of knowledge and skills, to provide public services to needy individuals, and/or to assist individuals to become self-supporting members of society. It includes the provision of education or training child care services, employment counselling, vocational rehabilitation, and other social services provided to individuals and families. It also includes cash payments (scholarships, loans, or stipends) to persons when such payments are provided to enable a person to participate in education or training programs; it includes programs designed to provide services to the poor (such as community services) that are not an integral part of some other function, and also includes the costs of research directly related to the programs in this function. This function excludes education or training undertaken as an integral part of the achievement of another functional end (such as training of military personnel; veterans education, training, and rehabilitation; or training of health workers in a health program) and also excludes general purpose scientific research. Nutrition or food service programs that are funded separately from social services or education shall be included as income security rather than being included in this function.

(550) HEALTH

This function includes those programs that have as their basic purpose the promotion of the physical and mental health of the nation's population, including the prevention of illness and accidents. It includes planning, financing, and provision of medical care; research into the causes and cure of disease; the financing of specialized programs for training of health workers and researchers; and promotion of consumer and occupational health and safety. Excluded from the health function are Federal health care costs that are an integral part of another function, such as medicare and medical care for military personnel and for veterans. General scientific research that has medical applications (such as that conducted by the National Science Foundation) and health programs financed through foreign assistance programs are also excluded from the health function.

(570) MEDICARE

(571) Medicare

Medicare is composed of the Federal Hospital Insurance and Federal Supplementary Medical Insurance trust funds. This includes all off-setting collections to these two funds, except for employers share and employee retirement (subfunction_951) and net interest (interest received by on_budget trust funds_902). Also includes trust funds and general funds payments to those funds.

- 93.770 Medicare_Prescription Drug Coverage (C)
- 93.773 Medicare_Hospital Insurance (C)
- 93.774 Medicare_Supplementary Medical Insurance (C)

(600) INCOME SECURITY

This function includes payments for or to persons for which no current service is rendered. It includes military and civilian retirement, disability, unemployment, and welfare payments and the associated administrative costs. Also included in income security are the food stamp, special milk, and child nutrition programs (whether the benefits are in cash or kind); both Federal and trust fund unemployment compensation and workmen's compensation; public assistance cash payments; benefits to coal miners; and low and moderate-income housing aids. Excluded from this function are social security, financial assistance for educational purposes, provision or reimbursement for child care services and stipends, medical care (whether in cash or kind), and subsidies to businesses (such as farm price supports) even though they may end up as income to persons. Also excluded are income security programs restricted to veterans and their dependents.

(601) General Retirement and Disability Insurance (excluding Social Security)

This includes non-needs-tested retirement and disability programs except for those specifically restricted to Federal employees and social security. Most programs in this subfunction are financed through trust fund mechanisms but it includes some Federal funds programs such as payments to coal miners. The subfunction is composed mainly of the railroad retirement fund and special benefits for coal miners.

(602) Federal Employee Retirement and Disability

Includes all funded retirement and disability programs restricted to Federal employees. In those cases where there are no retirement funds (such as the Coast Guard retired pay) the case benefits are included in the function where the employees were employed (in this case transportation).

(603) Unemployment Compensation

Benefits for unemployed workers that are not conditioned by needs tests. This subfunction does not include other benefits (such as food stamps) that an unemployed person might be eligible for under any other program.

- 17.225 Unemployment Insurance (A,D)
- 57.001 Social Insurance for Railroad Workers (D)

(650) SOCIAL SECURITY

Social Security is composed of the Federal Old_Age and Survivors Insurance and Federal Disability Insurance trust funds and general funds payments to those funds, all offsetting receipts by those trust funds, except those classified in subfunction 903 - interest received by off-budget trust funds.

(651) Social Security

This includes the Old Age and Survivors Insurance (OASI) and Disability Insurance (DI) trust funds and related intergovernmental payments and off_setting collections.

(700) VETERANS BENEFITS AND SERVICES

This function consists of programs providing benefits and services, the eligibility for which is related to prior military service but the financing of which is not an integral part of the costs of national defense. It includes veterans service-connected compensation; veterans non-service connected pensions; and veterans readjustment benefits, housing, and medical care programs. As a normal rule, the outlays in this function are similar to those in the broader general purpose functions (such as income security or health) but are restricted to veterans, their dependents, and their survivors. Earned rights of career military personnel that are a cost of the defense budget (such as military retired pay or medical care) are excluded from this function. The subfunctions of this function are so structured that they are readily additive to analogous major functions for the general population.

(701) Income Security for Veterans

Includes veterans compensation, pensions, burial benefits and life insurance.

(702) Veterans Education, Training, and Rehabilitation

Composed primarily of the "GI bill" readjustment benefits.

- 17.801 Disabled Veterans' Outreach Program (DVOP) (A)
- 17.804 Local Veterans' Employment Representative Program (A)
- 17.805 Homeless Veterans Reintegration Project (B)
- 17.807 Transition Assistance Program (J)
- 64.051 Specially Adapted Housing Assistive Technology Grant Program (B)

(703) Hospital and Medical Care for Veterans

Composed of medical care and research financed by the Veterans Administration.

(704) Veterans Housing

Composed of housing loan and guarantee programs for, and restricted to, veterans and dependents.

(705) Other Veterans Benefits and Services

Mainly the administrative expenses of the Veterans Administration.

(750) ADMINISTRATION OF JUSTICE

This function includes those programs designed to provide judicial services, police protection, law enforcement (including civil rights), rehabilitation, and incarceration of criminals, and promotion of the general maintenance of domestic order. It includes the provision of court appointed counsel or other legal services to individuals. This function excludes the costs of the legislative branch, the narrow-purpose police or guard activities providing protection to Federal property, or activities which are an integral part of a broader function (such as postal inspectors, tax collection agents, and Park Service Rangers). The costs of National Guard personnel who are called upon occasionally to provide general public safety protection and military police costs are included under the national defense function rather than in this function.

(751) Federal Law Enforcement Activities

Includes Customs, the Immigration and Naturalization Service, the Drug Enforcement Administration, and police and crime prevention activities in other programs. This subfunction also includes the readily identifiable enforcement costs of civil rights activities.

APPENDIX V: SOURCES OF ADDITIONAL INFORMATION

Additional information concerning Federal programs and services is available from the sources listed below. The information in this Appendix is in addition to that supplied in Appendix IV (Regional and Local Office Addresses) however; they are not the offices to which an applicant applies for an assistance program. If a potential applicant or information seeker is not certain which agency to contact, there are two types of organizations set up to help: The Federal Information Center Program and the Federal Executive Boards.

FEDERAL CITIZEN INFORMATION CENTER PROGRAM

The Federal Citizen Information Center Program (FCIC) is a focal point for information about the Federal government. The FCIC assists people who have questions about Federal agencies, services, and programs, but do not know where to turn for an answer. FCIC information specialists either answer an inquirer's question directly, or perform the necessary research to locate and refer the inquirer to the expert best able to help. Telephone users may call the FCIC toll-free on (800) 688-9889 workdays between 9 a.m. and 8 p.m., Eastern Time. TTY users may call toll-free to the FCIC from anywhere in the U.S. by dialing (800) 326-2996.

FEDERAL EXECUTIVE BOARDS

Federal Executive Boards (FEBs) are composed of heads of Federal field offices in the metropolitan area. The FEBs were established to improve internal Federal management practices, provide a central focus for Federal participation in civic affairs in major metropolitan centers of Federal activity, serve as a means for disseminating information within the Federal government and for promoting discussion of Federal policies and activities of importance to all Federal executives in the field. The FEBs carry out their functions under the supervision of the Office of Personnel Management (OPM). Federal Executive Associations, and Councils, have been locally organized in over 80 other metropolitan areas to perform functions similar to the Federal Executive Boards but on a lesser scale of organization and activity. For further information, contact the Assistant for Field Operations, Office of Personnel Management, Room 5524, 1900 E Street, NW., Washington, DC 20415-0001. Telephone: (202) 6061001.

REFERENCE SOURCES

The Budget of the United States Government

The Budget of the United States Government sets forth the President's comprehensive financial plan and indicates the President's priorities for the Federal government.

Information on programs by function, agency, and account, and detailed budget estimates is located in the Budget. Federal programs listed in the Catalog may be identified by the 11-digit budget account identification code listed in the Budget. These codes also appear in the Financial Information section of each Catalog program. A complete explanation of the identification code is provided in Appendix III of the Catalog (the Budget Functional Code Appendix). The Budget may be purchased from the Government Printing Office in the Washington, DC area and the U.S. Government bookstores listed in this Appendix.

The Code of Federal Regulations

The Code of Federal Regulations (CFR) is a codification of the general and permanent rules published in the Federal Register by executive departments and agencies of the Federal government. It includes all statutory regulations of Federal agencies, and is divided into 50 titles, which represent broad subject areas of Federal regulations (e.g., Housing and Urban Development, Public Health, Public Welfare, or Transportation). Each title is divided into chapters, which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas. The number preceding the CFR citation is the title or volume number. The CFR is kept up-to-date by the individual issues of the Federal Register; these two publications must be used together to determine the latest version of any given rule. Individual volumes of the CFR are revised at least once each calendar year and issued on a staggered quarterly basis. The CFR thus serves as a convenient reference for the citizen desiring a comprehensive source for general and permanent Federal regulations.

A General index to the entire Code of Federal Regulations, the CFR Index, is revised as of July 1 each year. The numerical Finding Aids, a cumulative list of CFR Sections affected is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

The Code of Federal Regulations is available in Federal depository libraries and most major libraries or Federal bookstores. Individual copies may be purchased from the Government Printing Office.

The Federal Register

The Federal Register, published daily, is the medium for making available to the public Federal agency regulations and other legal documents of the Executive Branch. These documents cover a wide range of government activities. Here, government requirements are published which involve environmental protection, consumer product safety, food and drug standards, occupational health and safety, and many more areas of concern to the public.

The Federal Register includes proposed changes in regulated areas. Each proposed change published carries an invitation for any citizen or group to participate in the consideration of the proposed regulation through the submission of written data, views, or arguments, and sometimes by oral presentations. Through the publication of proposed rules and notices of public meetings, citizens are given the opportunity to be informed about and participate in the workings of their government.

The Federal Register is also a vehicle for the announcement of newly authorized and/or funded programs, notifications of funding availability, (NOFAs), program application deadlines, and other important program information. The Federal Register Index is based on a consolidation of entries appearing in the issues of the Federal Register together with broad references. It is published monthly and is cumulative for 12 months. The Federal Register and the Federal Register Index are available in Federal depository libraries and most major libraries or Federal bookstores. Additional Federal Register resources include, the Statistical Abstract of the United States; Weekly Compilation of Presidential Documents; The Federal Register: What It Is and How To Use It. All Federal Register publications may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

APPENDIX VI: DEVELOPING AND WRITING GRANT PROPOSALS

PART ONE: DEVELOPING A GRANT PROPOSAL

Preparation

A successful grant proposal is one that is well-prepared, thoughtfully planned, and concisely packaged. The potential applicant should become familiar with all of the pertinent program criteria related to the Catalog program from which assistance is sought. Refer to the information contact person listed in the Catalog program description before developing a proposal to obtain information such as whether funding is available, when applicable deadlines occur, and the process used by the grantor agency for accepting applications. Applicants should remember that the basic requirements, application forms, information and procedures vary with the Federal agency making the grant award. Individuals without prior grant proposal writing experience may find it useful to attend a grantsmanship workshop. A workshop can amplify the basic information presented here. Applicants interested in additional readings on grantsmanship and proposal development should consult the references listed at the end of this section and explore other library resources.

INITIAL PROPOSAL DEVELOPMENT

Developing Ideas for the Proposal

When developing an idea for a proposal it is important to determine if the idea has been considered in the applicant's locality or State. A careful check should be made with legislators and area government agencies and related public and private agencies which may currently have grant awards or contracts to do similar work. If a similar program already exists, the applicant may need to reconsider submitting the proposed project, particularly if duplication of effort is perceived. If significant differences or improvements in the proposed project's goals can be clearly established, it may be worthwhile to pursue Federal assistance.

Community Support

Community support for most proposals is essential. Once proposal summary is developed, look for individuals or groups representing academic, political, professional, and lay organizations which may be willing to support the proposal in writing. The type and caliber of community support is critical in the initial and subsequent review phases. Numerous letters of support can be persuasive to a grantor agency. Do not overlook support from local government agencies and public officials. Letters of endorsement detailing exact areas of project sanction and commitment are often requested as part of a proposal to a Federal agency. Several months may be required to develop letters of endorsement since something of value (e.g., buildings, staff, services) is sometimes negotiated between the parties involved.

Many agencies require, in writing, affiliation agreements (a mutual agreement to share services between agencies) and building space commitments prior to either grant approval or award. A useful method of generating community support may be to hold meetings with the top decision makers in the community who would be concerned with the subject matter of the proposal. The forum for discussion may include a query into the merits of the proposal, development of a contract of support for the proposal, to generate data in support of the proposal, or development of a strategy to create proposal support from a large number of community groups.

Identification of a Funding Resource

A review of the Objectives and Uses and Use Restrictions sections of the Catalog program description can point out which programs might provide funding for an idea. Do not overlook the related programs as potential resources. Both the applicant and the grantor agency should have the same interests, intentions, and needs if a proposal is to be considered an acceptable candidate for funding.

Once a potential grantor agency is identified, call the contact telephone number identified in Information Contacts and ask for a grant application kit. Later, get to know some of the grantor agency personnel. Ask for suggestions, criticisms, and advice about the proposed project. In many cases, the more agency personnel know about the proposal, the better the chance of support and of an eventual favorable decision. Sometimes it is useful to send the proposal summary to a specific agency official in a separate cover letter, and ask for review and comment at the earliest possible convenience. Always check with the Federal agency to determine its preference if this approach is under consideration. If the review is unfavorable and differences cannot be resolved, ask the examining agency (official) to suggest another department or agency which may be interested in the proposal. A personal visit to the agency's regional office or headquarters is also important. A visit not only establishes face-to-face contact, but also may bring out some essential details about the proposal or help secure literature and references from the agency's library.

Federal agencies are required to report funding information as funds are approved, increased or decreased among projects within a given State depending on the type of required reporting. Also, consider reviewing the Federal Budget for the current and budget fiscal years to determine proposed dollar amounts for particular budget functions.

The applicant should carefully study the eligibility requirements for each Federal program under consideration (see the Applicant Eligibility section of the Catalog program description). The applicant may learn that he or she is required to provide services otherwise unintended such as a service to particular client groups, or involvement of specific institutions. It may necessitate the modification of the original concept in order for the project to be eligible for funding. Questions about eligibility should be discussed with the appropriate program officer.

Deadlines for submitting applications are often not negotiable. They are usually associated with strict timetables for agency review. Some programs have more than one application deadline during the fiscal year. Applicants should plan proposal development around the established deadlines.

Getting Organized to Write the Proposal

Throughout the proposal writing stage keep a notebook handy to write down ideas. Periodically, try to connect ideas by reviewing the notebook. Never throw away written ideas during the grant writing stage. Maintain a file labeled "Ideas" or by some other convenient title and review the ideas from time to time. The file should be easily accessible. The gathering of documents such as articles of incorporation, tax exemption certificates, and bylaws should be completed, if possible, before the writing begins.

REVIEW

Criticism

At some point, perhaps after the first or second draft is completed, seek out a neutral third party to review the proposal working draft for continuity, clarity and reasoning. Ask for constructive criticism at this point, rather than wait for the Federal grantor agency to volunteer this information during the review cycle. For example, has the writer made unsupported assumptions or used jargon or excessive language in the proposal?

Signature

Most proposals are made to institutions rather than individuals. Often signatures of chief administrative officials are required. Check to make sure they are included in the proposal where appropriate.

Neatness

Proposals should be typed, collated, copied, and packaged correctly and neatly (according to agency instructions, if any). Each package should be inspected to ensure uniformity from cover to cover. Binding may require either clamps or

hard covers. Check with the Federal agency to determine its preference. A neat, organized, and attractive proposal package can leave a positive impression with the reader about the proposal contents.

Mailing

A cover letter should always accompany a proposal. Standard U.S. Postal Service requirements apply unless otherwise indicated by the Federal agency. Make sure there is enough time for the proposals to reach their destinations. Otherwise, special arrangements may be necessary. Always coordinate such arrangements with the Federal grantor agency project office (the agency which will ultimately have the responsibility for the project), the grant office (the agency which will coordinate the grant review), and the contract office (the agency responsible for disbursement and grant award notices), if necessary.

PART TWO: WRITING THE GRANT PROPOSAL

The Basic Components of a Proposal

There are eight basic components to creating a solid proposal package: (1) the proposal summary; (2) introduction of organization; (3) the problem statement (or needs assessment); (4) project objectives; (5) project methods or design; (6) project evaluation; (7) future funding; and (8) the project budget. The following will provide an overview of these components.

The Proposal Summary: Outline of Project Goals

The proposal summary outlines the proposed project and should appear at the beginning of the proposal. It could be in the form of a cover letter or a separate page, but should definitely be brief -- no longer than two or three paragraphs. The summary would be most useful if it were prepared after the proposal has been developed in order to encompass all the key summary points necessary to communicate the objectives of the project. It is this document that becomes the cornerstone of your proposal, and the initial impression it gives will be critical to the success of your venture. In many cases, the summary will be the first part of the proposal package seen by agency officials and very possibly could be the only part of the package that is carefully reviewed before the decision is made to consider the project any further.

The applicant must select a fundable project which can be supported in view of the local need. Alternatives, in the absence of Federal support, should be pointed out. The influence of the project both during and after the project period should be explained. The consequences of the project as a result of funding should be highlighted.

Introduction: Presenting a Credible Applicant or Organization

The applicant should gather data about its organization from all available sources. Most proposals require a description of an applicant's organization to describe its past and present operations. Some features to consider are:

- A brief biography of board members and key staff members.
- The organization's goals, philosophy, track record with other grantors, and any success stories.
- The data should be relevant to the goals of the Federal grantor agency and should establish the applicant's credibility.

The Problem Statement: Stating the Purpose at Hand

The problem statement (or needs assessment) is a key element of a proposal that makes a clear, concise, and well-supported statement of the problem to be addressed. The best way to collect information about the problem is to conduct and document both a formal and informal needs assessment for a program in the target or service area. The information provided should be both factual and directly related to the problem addressed by the proposal. Areas to document are:

- The purpose for developing the proposal.
- The beneficiaries -- who are they and how will they benefit.
- The social and economic costs to be affected.
- The nature of the problem (provide as much hard evidence as possible).

- How the applicant organization came to realize the problem exists, and what is currently being done about the problem.
- The remaining alternatives available when funding has been exhausted. Explain what will happen to the project and the impending implications.
- Most importantly, the specific manner through which problems might be solved. Review the resources needed, considering how they will be used and to what end.

There is a considerable body of literature on the exact assessment techniques to be used. Any local, regional, or State government planning office, or local university offering course work in planning and evaluation techniques should be able to provide excellent background references. Types of data that may be collected include: historical, geographic, quantitative, factual, statistical, and philosophical information, as well as studies completed by colleges, and literature searches from public or university libraries. Local colleges or universities which have a department or section related to the proposal topic may help determine if there is interest in developing a student or faculty project to conduct a needs assessment. It may be helpful to include examples of the findings for highlighting in the proposal.

Project Objectives: Goals and Desired Outcome

Program objectives refer to specific activities in a proposal. It is necessary to identify all objectives related to the goals to be reached, and the methods to be employed to achieve the stated objectives. Consider quantities or things measurable and refer to a problem statement and the outcome of proposed activities when developing a well-stated objective. The figures used should be verifiable. Remember, if the proposal is funded, the stated objectives will probably be used to evaluate program progress, so be realistic. There is literature available to help identify and write program objectives.

Program Methods and Program Design: A Plan of Action

The program design refers to how the project is expected to work and solve the stated problem. Sketch out the following:

- The activities to occur along with the related resources and staff needed to operate the project (inputs).
- A flow chart of the organizational features of the project. Describe how the parts interrelate, where personnel will be needed, and what they are expected to do. Identify the kinds of facilities, transportation, and support services required (throughputs).
- Explain what will be achieved through 1 and 2 above (outputs); i.e., plan for measurable results. Project staff may be required to produce evidence of program performance through an examination of stated objectives during either a site visit by the Federal grantor agency and or grant reviews which may involve peer review committees.
- It may be useful to devise a diagram of the program design. For example, draw a three column block. Each column is headed by one of the parts (inputs, throughputs and outputs), and on the left (next to the first column) specific program features should be identified (i.e., implementation, staffing, procurement, and systems development). In the grid, specify something about the program design, for example, assume the first column is labeled inputs and the first row is labeled staff. On the grid one might specify under inputs five nurses to operate a child care unit. The throughput might be to maintain charts, counsel the children, and set up a daily routine; outputs might be to discharge 25 healthy children per week. This type of procedure will help to conceptualize both the scope and detail of the project.
- Wherever possible, justify in the narrative the course of action taken. The most economical method should be used that does not compromise or sacrifice project quality. The financial expenses associated with performance of the project will later become points of negotiation with the Federal program staff. If everything is not carefully justified in writing in the proposal, after negotiation with the Federal grantor agencies, the approved project may resemble less of the original concept. Carefully consider the pressures of the proposed implementation, that is, the time and money needed to acquire each part of the plan. A Program Evaluation and Review Technique (PERT) chart could be useful and supportive in justifying some proposals.
- Highlight the innovative features of the proposal which could be considered distinct from other proposals under consideration.

- Whenever possible, use appendices to provide details, supplementary data, references, and information requiring in-depth analysis. These types of data, although supportive of the proposal, if included in the body of the design, could detract from its readability. Appendices provide the proposal reader with immediate access to details if and when clarification of an idea, sequence or conclusion is required. Time tables, work plans, schedules, activities, methodologies, legal papers, personal vitae, letters of support, and endorsements are examples of appendices.

Evaluation: Product and Process Analysis

The evaluation component is two-fold: (1) product evaluation; and (2) process evaluation. Product evaluation addresses results that can be attributed to the project, as well as the extent to which the project has satisfied its desired objectives. Process evaluation addresses how the project was conducted, in terms of consistency with the stated plan of action and the effectiveness of the various activities within the plan.

Most Federal agencies now require some form of program evaluation among grantees. The requirements of the proposed project should be explored carefully. Evaluations may be conducted by an internal staff member, an evaluation firm or both. The applicant should state the amount of time needed to evaluate, how the feedback will be distributed among the proposed staff, and a schedule for review and comment for this type of communication. Evaluation designs may start at the beginning, middle or end of a project, but the applicant should specify a start-up time. It is practical to submit an evaluation design at the start of a project for two reasons:

- Convincing evaluations require the collection of appropriate data before and during program operations; and,
- If the evaluation design cannot be prepared at the outset then a critical review of the program design may be advisable.

Even if the evaluation design has to be revised as the project progresses, it is much easier and cheaper to modify a good design. If the problem is not well defined and carefully analyzed for cause and effect relationships then a good evaluation design may be difficult to achieve. Sometimes a pilot study is needed to begin the identification of facts and relationships. Often a thorough literature search may be sufficient.

Evaluation requires both coordination and agreement among program decision makers (if known). Above all, the Federal grantor agency's requirements should be highlighted in the evaluation design. Also, Federal grantor agencies may require specific evaluation techniques such as designated data formats (an existing information collection system) or they may offer financial inducements for voluntary participation in a national evaluation study. The applicant should ask specifically about these points. Also, consult the Criteria For Selecting Proposals section of the Catalog program description to determine the exact evaluation methods to be required for the program if funded.

Future Funding: Long-Term Project Planning

Describe a plan for continuation beyond the grant period, and/or the availability of other resources necessary to implement the grant. Discuss maintenance and future program funding if program is for construction activity. Account for other needed expenditures if program includes purchase of equipment.

The Proposal Budget: Planning the Budget

Funding levels in Federal assistance programs change yearly. It is useful to review the appropriations over the past several years to try to project future funding levels (see Financial Information section of the Catalog program description).

However, it is safer to never anticipate that the income from the grant will be the sole support for the project. This consideration should be given to the overall budget requirements, and in particular, to budget line items most subject to inflationary pressures. Restraint is important in determining inflationary cost projections (avoid padding budget line items), but attempt to anticipate possible future increases.

Some vulnerable budget areas are: utilities, rental of buildings and equipment, salary increases, food, telephones, insurance, and transportation. Budget adjustments are sometimes made after the grant award, but this can be a lengthy process. Be certain that implementation, continuation and phase-down costs can be met. Consider costs associated with leases, evaluation systems, hard/soft match requirements, audits, development, implementation and maintenance of information and accounting systems, and other long-term financial commitments.

A well-prepared budget justifies all expenses and is consistent with the proposal narrative. Some areas in need of an evaluation for consistency are: (1) the salaries in the proposal in relation to those of the applicant organization should be similar; (2) if new staff persons are being hired, additional space and equipment should be considered, as necessary; (3) if the budget calls for an equipment purchase, it should be the type allowed by the grantor agency; (4) if additional space is rented, the increase in insurance should be supported; (5) if an indirect cost rate applies to the proposal, the division between direct and indirect costs should not be in conflict, and the aggregate budget totals should refer directly to the approved formula; and (6) if matching costs are required, the contributions to the matching fund should be taken out of the budget unless otherwise specified in the application instructions.

It is very important to become familiar with Government-wide circular requirements. The Catalog identifies in the program description section (as information is provided from the agencies) the particular circulars applicable to a Federal program, and summarizes coordination of Executive Order 12372, "Intergovernmental Review of Programs" requirements in Appendix I. The applicant should thoroughly review the appropriate circulars since they are essential in determining items such as cost principles and conforming with Government guidelines for Federal domestic assistance.

Appendix VII: Historical Profile of Catalog Programs

The following list shows all programs printed in the Catalog of Federal Domestic Assistance beginning with the 1965 edition and the subsequent action taken related to that program. For the years 1965, 1967, and 1969 the programs did not have numbers. They were identified only by their titles. Therefore, the first part of each agency listing shows programs by their title if they were in existence before 1970. The program numbering system was instituted in 1970. The first line shows the number and title of the program when it was added to the Catalog. The second and subsequent lines show the year the program was added and any additional transactions, e.g., title changes, transfers, deletes, consolidations, agency reorganizations, number changes, etc., that may have followed. The alphabet B or U that follows a given year, indicates the transaction was made either in the basic (B) or the update (U) publication of the Catalog. In some instances, there is also a U1 and U2 behind the year. The U1 and U2 are the first and second updates respectively, published that year.
