Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Healthy Forest Restoration Act of 2003. Title V, Section 501, Public Law 108-148, 117 Stat. 1911, 16 U.S.C 6571-6578. , Title V, Section 501, Public Law 108-148, 117 Stat. 1911, 16 U.S.C 6571-6578.

OBJECTIVES:

To assist landowners in restoring and enhancing forest ecosystems to: promote the recovery of threatened and endangered species; improve biodiversity; and enhance carbon sequestration.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

HFRP restoration agreements and easements are designed for working Agricultural lands. HFRP is a voluntary program to assist landowners in restoring, enhancing and maintaining forest ecosystems on private lands through easements, contracts and restoration agreements. Easements, contracts, and restoration agreements shall be maintained in accordance with HFRP goals and objectives for the duration of the restoration agreement and easement including the restoration, protection, enhancement, maintenance, and management of habitat for listed species within a forest ecosystem's functions and values. For the duration of its term, the easement shall require, at a minimum, that the landowner, and the landowner's heirs, successors and assigns, shall cooperate in the restoration, protection, enhancement, maintenance, and management of the land in accordance with the easement and with the terms of the HFRP restoration plan. In addition, the easement shall grant to the United States, through the NRCS: a right of access to the easement area; the right to permit compatible uses of the easement area, if such use is consistent with the long-term protection and enhancement of the purposes for which the easement was established; the right to determine compatible uses on the easement area and specify the amount, method, timing, intensity and duration of the compatible use; the rights, title and interest to the easement area as specified in the conservation easement deed; and the right to perform restoration, protection, enhancement, maintenance, and management activities on the easement area. The landowner shall convey title to the easement which is acceptable to the NRCS. The landowner shall warrant that the easement granted to the United States is superior to the rights of all others, except for exceptions to the title which are deemed acceptable by the NRCS.

Applicant Eligibility:

To be eligible to enroll an easement or restoration agreement in the HFRP, a person must: be the landowner of eligible private land for which enrollment is sought; agree to provide such information to the Natural Resources Conservation Service (NRCS) as the Agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes. 2 CFR 200 applies only to the program

activities implemented through a Cooperative Agreement.

Beneficiary Eligibility:

Only landowners.

Credentials/Documentation:

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Any owner meeting eligibility criteria may submit an application for participation. Applications are accepted in local USDA Service Center Offices during announced enrollment sign-up periods. USDA will establish criteria to evaluate and rank applications for easement and restoration agreement enrollment, criteria will be detailed in the sign-up notice. NRCS will identify through a sign-up notice process the geographic scope and ranking priorities for that particular sign-up. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Applications can be obtained through local USDA Service Center.

Award Procedure:

NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment which is offered by NRCS. The easement payment may or may not equal the fair market value of the interests and rights to be conveyed by the landowner under the easement. By voluntarily participating in the program, a landowner waives any claim to additional compensation based on fair market value.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 September 30) based on funding availability.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

All EWP work must reduce threats to life and property and must be economically, environmentally, and socially defensible and sound from a technical standpoint. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. CRITERIA FOR SELECTING PROPOSALS:

EWP projects are eligible when it is determined that the current condition of the land or watershed impairment poses a threat to health, life, and property. Assistance includes EWP practices that provide runoff retardation and soil erosion prevention, safeguard lives and property, and relieve an imminent threat that is a result of a sudden impairment of a watershed due to a natural disaster.

10.924 CONSERVATION STEWARDSHIP PROGRAM

Conservation Stewardship Program (CSP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985
, Public Law 106-224, NA Stat. NA, 16 U.S.C 3838h.

OBJECTIVES:

Through CSP, NRCS will provide financial and technical assistance to eligible producers to conserve and enhance soil, water, air, and related natural resources

on their land. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest lands, agricultural land under the jurisdiction of an Indian tribe, and other private agricultural land (including cropped woodland, marshes, and agricultural land used for the production of livestock) on which resource concerns related to agricultural production could be addressed. Participation in the program is voluntary. CSP encourages land stewards to improve their conservation performance by installing and adopting additional activities, and improving, maintaining, and managing existing activities on agricultural land and nonindustrial private forest land. The NRCS will make CSP available nationwide on a continuous application basis.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CSP is available on Tribal and private agricultural lands, as well as nonindustrial private forest lands in all 50 States, the District of Columbia, and the Caribbean and Pacific Islands Areas. The entire operation must be enrolled and must include all eligible land that will be under the applicant's control for the term of the proposed contract that is operated substantially separate from other operations. Land enrolled in the Conservation Reserve Program (7 CFR part 1410), a Wetlands Reserve Easement through the Agricultural Conservation Easement Program, and the Conservation Security Program (CFR part 1469) are ineligible for CSP. Eligibility is limited to private agricultural land; as such, land that is owned by a Federal, State, or local unit of government, with the exception of agricultural land under the jurisdiction of an Indian Tribe, is ineligible, regardless of the status of the operator. Additionally, a participant may not receive payment for land used for crop production after February 7, 2014, 2008, that had not been planted, considered to be planted, or devoted to crop production for at least four of the six years preceding that date, unless the land was: previously enrolled in the Conservation Reserve Program; maintained using long-term rotations, such as hayland in rotation; or incidental to the operation but needed for the efficient management of the operation. An example of land considered incidental to the operation that may be eligible for payment is land that had once been used for buildings and is now being used for crop production to square up a cropland field.

Applicant Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe. As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold.

Beneficiary Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe. As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold.

Credentials/Documentation:

The participant must have control of the land offered for the length of the contract period. NRCS requires all program payments be made by direct deposit unless the participant requests a waiver as described in 31 CFR Part 208.4, paragraph (a). This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13). An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13).

Award Procedure:

Once applicant and land eligibility are determined, the NRCS field office will assist the producer with completing the resource inventory to determine if the stewardship threshold requirement is met, rank applications, and establish payments. Applicants will be ranked relative to other applicants who face similar resource challenges in State-established ranking pools using ranking scores. For approved applicants, NRCS will conduct on-site field verification to substantiate that conservation activity and production system information represented by the applicant was accurate. After the conservation system information is verified, NRCS and the applicant proceed to develop the conservation stewardship plan and contract. Upon approval, the contract will obligate the participant to achieve a higher level of conservation performance by installing additional activities scheduled in their conservation stewardship plan and to maintain the level of existing conservation performance identified at the time of application. The \$750,000 applies to ALL grants of a non-federal entity collectively which not exempt the CSP program. However, since the CSP do not make award to non-federal entities because they would not qualify, then the program would be exempted based on 2 CFR 200, 200.69.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

A participant may obtain administrative review in accordance with 7 CFR parts 11 and 614 for an adverse decision. Participants cannot appeal payment rates, payment limits, and cost-share percentages, eligible conservation practices, or other matters of general applicability. Before a participant can seek judicial review, the participant must exhaust all administrative appeal procedures.

Renewals:

At the end of an initial conservation stewardship contract, NRCS will allow a participant to renew the contract to receive payments for one additional five year period, subject to the availability of funds. To be considered for contract renewal, the participant must be in compliance with the terms of their initial contract as determined by NRCS; add any newly acquired eligible land that is part of the agricultural operation and meets minimum treatment criteria as established and determined by NRCS; meet stewardship thresholds for additional priority resource concerns as determined by NRCS; and agree to adopt conservation activities as determined by NRCS.

Formula and Matching Requirements:

Statutory Formula: Subject to the availability of funds, NRCS will offer participants two potential types of payment. As outlined in 1470.24 (a) , an annual payment will be made for installing and adopting additional conservation activities, and improving, maintaining, and managing existing activities. A supplemental payment can also be made to a participant receiving annual payments, who also agrees to adopt a resource-conserving crop rotation.

Matching requirements are not applicable to this program.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

NRCS will make payments as soon as practicable after October 1 of each fiscal year for activities carried out in the previous fiscal year. CSP payments to a person or legal entity may not exceed \$40,000 in any year and \$200,000 during any 5-year period. Each CSP contract will be limited to \$200,000 over the term of the initial contract period. The above limitations exclude funding arrangements with federally recognized Indian tribes or Alaska Native corporations. Method of awarding/releasing assistance: lump sum.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

Technical assistance is provided for conservation planning, design and implementation of conservation practices for eligible participants. Financial assistance is provided for implementation of structural, and land management practices. Cost-share payments may be made to implement one or more eligible structural or vegetative practices. Incentive payments can be made to implement one or more land management practices.

Applicant Eligibility:

Partners representing agricultural producers who face serious threats to soil, water, and related natural resources, or who need assistance with complying with Federal and State environment laws. A participant may be an owner, landlord, operator, or tenant of eligible agricultural lands or non-industrial forestlands. Limited resource producers, small-scale producers, social disadvantaged individuals, federally recognized Indian tribal governments, Alaska natives, and Pacific Islanders are encouraged to apply.

Eligible partners include: Federally recognized Indian Tribes, States, units of local government, agricultural or silvicultural associations or other groups of such producers, or other nongovernmental organization with experience working with agricultural producers.

Beneficiary Eligibility:

To be eligible the agricultural producers must be in compliance with highly erodible land and wetland conservation provisions and in compliance with the Adjusted Gross Income (AGI) payment limitations.

Credentials/Documentation:

Evidence that applicant has control over land to be entered into contract and submits an acceptable conservation plan for the farm or ranch unit of concern that incorporates needed natural resource conservation practices and provide either a social security number or individual tax identification number of all proposed beneficiaries. Applicants claiming either limited resource producer or

beginning farmer classification may be asked to provide documents to justify their claim. This program is excluded from coverage under OMB Circular No. A-87. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Under AWEP, the NRCS enters into partnership agreements with eligible entities and organizations that want to promote ground and surface water conservation or improve water quality on agricultural lands. After the Chief has announced approved AWEP project areas, eligible agricultural producers may submit a program application. Each fiscal year, NRCS may make AWEP financial and technical assistance available to eligible owners and operators of agricultural lands who participate in approved AWEP project areas.

Partners may assist NRCS by identifying producers in the project area. Partners may also assist producers in submitting applications for the program. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. For each program year the Natural Resources Conservation Service issues a request for proposals through the Federal Register. Application procedures are outlined in the request for proposals. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

An agricultural producer may apply directly to NRCS for financial or technical assistance to implement agricultural water enhancement activities. Producers who apply directly to NRCS must be eligible for EQIP and selected applications will be subject to applicable EQIP requirements. Eligible partners enter into multi-year agreements with NRCS to promote ground and surface water conservation, or improve water quality on eligible agricultural lands. AWEP is intended to leverage investment in natural resources conservation along with services and non-Federal resources of other eligible partners. Eligible partners include: Federally recognized Indian Tribes, States, units of local government, agricultural or silvicultural associations or other groups of such producers such as an irrigation association, an agricultural land trust, or other nongovernmental organization with experience working with agricultural

10.926 CHESAPEAKE BAY WATERSHED PROGRAM (CBWP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

The Food Security Act of 1985. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date. , Public Law 99-198.

OBJECTIVES:

The Chesapeake Bay Watershed Program (CBWP) helps agricultural producers improve water quality and quantity, and restore, enhance, and preserve soil, air, and related resources in the Chesapeake Bay Watershed through the implementation of conservation practices. These conservation practices reduce soil erosion and nutrient levels in ground and surface water; improve, restore, and enhance wildlife habitat; and help address air quality and related natural resource concerns. CBWP encompasses all tributaries, backwaters, and side channels, including their watersheds, draining into the Chesapeake Bay.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Natural Resources Conservation Service (NRCS), an agency of the United States Department of Agriculture, uses CBWP funds to enter into contracts with eligible producers to share the costs of the applicable conservation treatment on agricultural lands in the Chesapeake Bay Watershed. NRCS provides payments for approved conservation practices and systems and land use adjustments within a time schedule specified by the conservation plan. The CBWP contracts may be modified to increase funds provided the increased cost is the result of a valid contract modification within the original contract scope and intent. The modification must follow the rules of the conservation program used to apply the conservation treatment.

Applicant Eligibility:

Only agricultural producers owning or operating within the Chesapeake Bay Watershed are eligible to participate in CBWP. In addition, NRCS applies the eligibility requirements of the particular natural resource program used to implement CBWP (e.g., the Environmental Quality Incentives Program (EQIP) (16 U.S.C. 3839aa et seq.), the Wildlife Habitat Incentives Program (WHIP) (16 U.S.C. 3839bb-1)). Limited resource producers, small-scale producers, beginning farmers and ranchers, socially-disadvantaged producers, and federally recognized Indian tribes are encouraged to apply.

Beneficiary Eligibility:

To be eligible, the agricultural producers must be in compliance with highly erodible land and wetland conservation provisions at 7 CFR part 12, and in

compliance with the Adjusted Gross Income (AGI) payment limitations at 7 CFR part 1400.

Credentials/Documentation:

Evidence that applicant has control over land to be entered into contract and submits an acceptable conservation plan for the farm or ranch unit of concern that incorporates needed natural resource conservation practices and provide either a social security number or individual tax identification number of all proposed beneficiaries. Applicants claiming either limited resource producer or beginning farmer classification may be asked to provide documents to justify their claim. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Program participation is voluntary. The applicant applies to NRCS at the local USDA Service Center on Form NRCS-CPA-1200. Applications may be filed at any time during the year. The participant develops a CBWP plan of operations that identifies what conservation practices they are proposing to implement. Technical assistance and conservation payments may be provided to apply needed conservation practices and land use adjustments within a time schedule specified by the conservation CBWP plan of operations. A contract with a participant may apply one or more land management practices or one or more structural practices.

Award Procedure:

NRCS applies the ranking and selection requirements of the particular natural resource program used to implement CBWP (e.g., EQIP, WHIP). NRCS will give special consideration to applicants that address priority natural resource concerns designated. Applications will be periodically ranked and selected for funding based on locally developed ranking process. The ranking criteria of the various Farm Bill program can be found at <http://www.nrcs.usda.gov/programs>.

Limited resource producers, social disadvantaged producers and beginning farmers and ranchers may be eligible for payments up to 90 percent of the approved practice cost. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

CBWP contract lengths and implementation schedules will follow the rules for the particular natural resource program used to implement CBWP (e.g., EQIP, WHIP). Obligations for assistance are tied to the schedule for applying conservation practices included in the CBWP plan of operations conservation plan used as the basis for the contract. Payments are made when the participant and NRCS certify that conservation practice is completed in accordance with NRCS standards and specifications. Technical assistance may be provided by a certified Technical Service Provider (TSP) in accordance with 7 CFR part 652. The participant may not engage a TSP prior to contract approval. This assistance will be reimbursed based upon applicable TSP payment rates. These

10.928 EMERGENCY WATERSHED PROTECTION PROGRAM - FLOODPLAIN EASEMENTS DISASTER RELIEF APPROPRIATIONS ACT

EWP-FPE Hurricane Sandy

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 , Public Law 113-2, 127 Stat. 4.

OBJECTIVES:

The Emergency Watershed Protection - Floodplain Easement Program (EWP-FPE) provides an alternative measure to traditional EWP recovery where it is determined that acquiring an easement in lieu of recovery measures is the more economical and prudent approach to reducing a threat to life or property (see 7 CFR Part 624). The easement must be restored to the extent practicable to the natural environment and may include both structural and nonstructural practices to restore the flood storage and flow, erosion control, and improve the practical management of the easement. Structures, including buildings, within the floodplain easement must be demolished and removed, or relocated outside the 100-year floodplain or dam breach inundation area.

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

NRCS may bear up to 100 percent of costs related to easement acquisition and related acquisition costs. NRCS will determine easement compensation in accordance with applicable regulation and other law. NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment that is offered by NRCS. NRCS reserves the right not to purchase an easement if the easement compensation for a particular easement would be too expensive, as determined by NRCS. NRCS may provide up to 100 percent of the restoration and enhancement costs of the easement. NRCS may enter into an agreement with the landowner or another third party to ensure that identified practices are implemented. NRCS, the landowner, or other designee may implement identified practices. Restoration and enhancement efforts may include both structural and non-structural practices. An easement acquired under this EWP-Floodplain Easement regulations shall provide NRCS with the full authority to restore, protect, manage, maintain, and enhance the functions and values of the floodplain. EWP-FPE funds from this appropriation can only be spent on eligible Floodplain Easement projects that have suffered damage from Hurricane Sandy and are located within a Stafford ACT Designation. (This means that a certain geographical area was declared a major disaster as a result of a Presidential Declaration). FY 2014, 2015 & 2016 - 100% discretionary funding.

Applicant Eligibility:

For this appropriation, only applicants affected by Hurricane Sandy and only in those areas declared as a major disaster are eligible for assistance through the EWP-FPE program.

Pursuant to 7 CFR 624.10(b)(2), NRCS may determine land is eligible under for EWP-FPE if any of the following apply:

- 1) The floodplain lands were damaged by flooding at least once within the previous calendar year or have been subject to flood damage at least twice within the previous 10 years.
- 2) Other lands within the floodplain are eligible, provided the lands would contribute to the restoration of the flood storage and flow, provide for control of erosion, or that would improve the practical management of the floodplain easement.
- 3) Lands would be inundated or adversely impacted as a result of a dam breach.

NRCS may determine that land is ineligible under this section if any of the following apply:

- 1) Implementation of restoration practices would be futile due to onsite or offsite conditions.
- 2) The land is subject to an existing easement or deed restriction that provides sufficient protection or restoration, as determined by the Chief of NRCS, of the floodplains functions and values.
- 3) The purchase of an easement would not meet the purposes of this part.

Beneficiary Eligibility:

Private and non-federal landowners are eligible for EWP-FPE.

To be eligible for FPE, the NRCS will require participating landowners to

- 1) Comply with the terms of the easement.
- 2) Comply with all terms and conditions of any associated agreement.
- 3) Convey title to the easement that is acceptable to NRCS and warrant that the

easement is superior to the rights of all others, except for exceptions to the title that are deemed acceptable by NRCS.

For projects that include parcels with residential dwellings or other structures on nonagricultural lands (such as flood mitigation efforts intended to assist families in moving from flood-prone areas as part of EWP recovery efforts), a local sponsor will be identified and serve as the local cooperating entity for these efforts. A sponsor will be a local or State unit of government (city, county, conservation district, watershed conservancy district, or State agency) that has a local presence and staff available to assist in the implementation of the program.

Credentials/Documentation:

The landowner must provide a copy of the vesting deed to the land. If the landowner is an entity, the entity must provide a list of the individuals who comprise the entity, including the percent of ownership for each individual, to the Farm Service Agency (FSA). The entity must provide documents to FSA and NRCS that show the entity to be legal and valid in the State and which members have the authority to sign contractual documents on behalf of the entity. If funds are being requested for the purchase of easements on lands with residences or other nonagricultural structures, the State Conservationist (STC) must provide confirmation that the acquisition is part of a strategy that will facilitate the restoration of an entire reach of the floodplain. The relatively high cost of these transactions requires a greater level of documentation that the benefits to the floodplain outweigh the costs. In addition, the STC must provide confirmation that the project sponsor will acquire fee title to the easement area. This program is excluded from coverage under OMB Circular No. A-87. 2 CFR 200 applies only to the program activities implemented through a Cooperative Agreement. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

NRCS state offices in impacted states will submit an assessment of potential level of interest in areas with eligible lands. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Landowners may only enroll land in the Emergency Watershed Protection for Floodplain Easements (EWP-FPE) Program through a permanent easement. Landowners apply for the EWP-FPE using the Application for Long-Term Contracted Assistance.

Award Procedure:

- 1) States receive applications, gather landowner information, rank applications, conduct preliminary investigations, and determine land and landowner eligibility
- 2) The STC will list all applications received during the announced signup period in rank order, beginning with the highest-ranked easement first.
- 3) States will submit an Easement Request Package to NHQ that includes documentation of land eligibility, landowner eligibility, and evidence of damage related to Hurricane Sandy.
- 4) Easement Request Packages will be reviewed and project selection will be conducted by the Deputy Chief for Programs.
- 5) Selected applications will be notified, either through an intent to continue letter for projects that will be individually appraised or through the issuance of Option Agreement to Purchase for projects with easement compensation determined through the Area-wide Market Analysis and Geographic Area Rate Cap process.
- 6) When the OATP has been signed by the applicant and the STC, the acres are considered enrolled in the program. At this time, the funds are obligated to the landowner as the vendor for the easement purchase cost only. The landowner may choose to assign all or a portion of the easement acquisition payment to the closing agent through a properly executed assignment of payment provided to NRCS along with the signed OATP.
- 7) The effective period of the OATP may not exceed 12 months from the date of the STCs signature. The effective period may be extended when necessary using the Option Agreement to Purchase Amendment. The STC may delegate, in writing, the authority to sign the OATP (and amendments) to the State program manager. No further delegation of this authority is allowed.

1) In addition to the above described activities, for EWP-FPE applications on land with residences or other structures, NRCS will enter into a cooperative or project agreement with the project sponsors prior to the commencing of easement acquisition activities. The agreement must specify the reimbursable tasks to be carried out by the sponsor to expedite the easement acquisition process.

2) In order to reduce the administrative burden and easement management cost to NRCS, sponsors are required to purchase the fee simple title from the landowner and enroll properties in a strategic manner that increases the likelihood that the floodplain can be reconnected.

3) The FPE warranty easement deed is closed before the fee simple interest is conveyed to the sponsor, unless a different order of recordation is desired by NRCS and authorized by the Office of the General Counsel.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The FPE program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP-FPE Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Continues until all EWP-FPE Program measures are installed (relocation or demolition of structures and/or floodplain restoration practices). Maintenance and monitoring of floodplain easements continues in perpetuity. Method of awarding/releasing assistance: lump sum.

10.931 AGRICULTURAL CONSERVATION EASEMENT PROGRAM (ACEP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985, Title XII, Part Subtitle D, Section 1237, Public Law 99-198.

OBJECTIVES:

To establish an agricultural conservation easement program for the conservation of eligible land and natural resources through easements or other interests in the land. The Agricultural Conservation Easement Program (ACEP) is comprised of two components Agricultural Land Easements (ALE) and Wetland Reserve Easements (WRE). The ALE component provides funding to eligible entities to purchase conservation easements to protect the agricultural use and future viability, and related conservation values of eligible land by limiting nonagricultural uses of that land; and to protect grazing uses and related conservation values by restoring and conserving eligible land. The WRE component provides funding to eligible landowners to purchase easements to restore, protect, and enhance wetlands on eligible land.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under the ACEP Wetland Reserve Easements (ACEP-WRE) component eligible landowners may offer farmed wetlands, prior converted wetlands, wetlands farmed under natural condition, former or degraded wetlands on lands that have been used or are currently being used for the production of food and fiber, including cropland, rangeland and forest production land, lands substantially altered by flooding, certain riparian areas, along with certain adjacent areas. The goal of ACEP-WRE is to achieve the greatest wetlands functions and values, along with optimum wildlife habitat on every acre enrolled in the program. Enrollment options include permanent easements, 30-year easements, or easements for the maximum duration allowed under State law, and, for acreage owned by Indian Tribes, 30-year contracts. To be eligible for participation, land must be capable of being successfully and cost-effectively restored to wetlands and associated habitats. For easement projects, landowners shall ensure the easement is superior to the rights of all others and shall agree to implement a wetland restoration plan designed to restore and maintain the easement area. Landowners must agree to a permanent retirement of crop acreage bases, allotments, and quotas to the extent that the sum of the crop acreage bases and allotments will not exceed the remaining cropland on the farm.

Participating landowners receive financial assistance for the purchase of the easement and NRCS shall share the cost of carrying out the establishment conservation measures and practices, and the protection of wetland functions and values including necessary maintenance activities to the extent that the

Secretary determines that cost-sharing is appropriate and in the public interest. NRCS provides financial and technical assistance to the landowner or a third party as follows:

Permanent easements: Easement duration is in perpetuity; landowners receive up to 100 percent of the cost of the easement. NRCS provides up to 100 percent of the cost for establishment and maintenance of conservation measures and practices.

30-year easements or maximum duration allowed by State law: Easement duration is 30 years or maximum duration allowed by State law; landowners receive the equivalent of 75 percent of the value for a permanent easement and NRCS provides up to 75 percent of the eligible restoration costs.

30-year contracts: Acreage owned by Indian Tribes can be enrolled through the use of a 30-year contract which shall be equivalent in value to a 30-year easement. NRCS provides up to 75 percent of the eligible restoration costs.

States with an approved Exhibit E may enroll easements with reserved grazing rights. The applicable compensation provided to the landowner for these easements will be reduced by 25%.

For both permanent and 30-year easements, ACEP-WRE pays for all the related costs associated with acquiring and recording the easement including recording fees, charges for title abstracts, surveys, appraisal fees, records searches, and title insurance associated with acquiring an easement. These related costs are generally not paid to participants but are provided directly to the vendor performing the service. Therefore, payments appearing on USDA.spending.gov will be reflective of payments to participants and payments to vendors for services associated with restoration and management activities and administrative costs associated with acquiring and recording an easement.

The Agricultural Lands Easements (ALE) component provides funds to protect the agricultural use, including grazing, and related conservation values of eligible land through cost-share assistance to eligible entities for purchasing agricultural land easements.

The Federal share for ACEP-ALE acquisition is limited to a maximum of 50 of the appraised fair market value of the agricultural land easement. For ACEP-ALE projects of special significance, as determined by the Chief, NRCS may waive a portion of the eligible entity cash contribution requirement, subject to an increase in the private landowner donation that is equal to the amount of the waiver, if the landowner donation is voluntary and the property is in active agricultural production. The Chief can determine lands as Grasslands of Special Environmental Significance which authorizes a federal share of up to 75 percent of the fair market value of the agricultural land easement. An agricultural land easement plan is required for all ACEP-ALE easements and a Grasslands Management Plan must be included with all lands enrolled as Grasslands of Special Environmental Significance. ACEP Agricultural Land Easements are perpetual easements or maximum duration allowed by State law. A right of enforcement is incorporated in the conservation easement deed for the protection of the Federal investment. A failure of title would require the eligible entity to reimburse the United States for the Federal share of the easement value.

Applicant Eligibility:

For ACEP-ALE an eligible entity that is an Indian Tribe, State government, local government, or a nongovernmental organization which has a farmland or grassland protection program that purchases agricultural land easements for the purpose of protecting agriculture use and related conservation values, including grazing uses and related conservation values, by limiting conversion to nonagricultural uses of the land, and that has pending offers may apply for funds. This program is available in all 50 States, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Mariana Islands, and the Trust Territories of the Pacific Islands. Individual landowners must apply through the local agency or organization that handles the farmland or grassland protection program.

For ACEP-WRE, private landowners, including individual landowners, partnerships, associations, corporations, estates, trusts, and other business or legal entities, and Indian tribes are eligible to apply.

This program is excluded from coverage under E.O. 12372.

Beneficiary Eligibility:

All landowners applying for ACEP must be in compliance with the Wetland Compliance (WC) and Highly Erodible Land (HEL) provisions of the Farm Bill and, within the exception of FY2014, meet the Adjusted Gross Income (AGI) limitations in the Farm Bill.

For ACEP-ALE, applications are submitted by an eligible entity who will be the participant in the program.

For ACEP-WRE, only private landowners, partnerships, associations, corporations, estates, trusts, other business or legal entities and, Indian tribes may submit applications for easements.

Credentials/Documentation:

ACEP-WRE - Eligible applicants must be in compliance with the highly erodible land and wetland conservation provisions in 7 CFR part 12 and, except for FY 2014, the Adjusted Gross Income provisions in 7 CFR part 1400. They must be the landowner of the eligible land being offered for participation. For easement applications, the applicant must have owned the land for the 24 month period prior to the time the land is determined eligible for enrollment. Under limited circumstances a waiver of the 24 month ownership period may be granted from the Chief of NRCS.

ACEP-ALE - Eligible entities must provide documents indicating: 1) they have the relevant experience and resources to administer an ALE easement; 2) commitment to long-term conservation of agricultural lands, ranchlands or grassland for grazing or related conservation purposes through legal devices, such as right-to-farm laws, agricultural districts, zoning, or land use planning; 3) use of voluntary approaches to protect farmland from conversion to non-agricultural uses; and 4) their capability to acquire, manage, and enforce conservation easements. NRCS evaluates an entities capacity to acquire, manage and enforce easements; its staffing and the ability of an entity to provide matching funds before entering into a cooperative agreement. If the eligible entity is a nongovernmental organization, they must be: 1) organized for, and at all times since, the formation of the organization and has been operated principally for one or more of the conservation purposes specified in clause (i), (ii), (iii), or (iv) of section 170(h)(4)(A) of the Internal Revenue Code of 1986; 2) an organization described in section 501(c)(3) of that Code that is exempt from taxation under 501(a) of that Code; and 3) described (i) In section 509(a)(1) and (2) of that Code, or (ii) Is described in section 509(a)(3) of that Code and is controlled by an organization described in section 509(a)(2) of that Code. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

All ACEP applicants must submit required documentation as evidence of eligibility. The land itself is evaluated and ranked in accordance with eligibility requirements and ranking criteria developed by NRCS. A programmatic environmental analysis is completed. Individual project selection may be made primarily at the State level by responsible NRCS officials. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. ACEP-ALE - Applications are accepted on a continuous basis by the NRCS State Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of enrollment desired by the applicant (i.e. permanent easement, 30-year easement or maximum allowed by State law). Applications and supporting information requirements for the application can be obtained from the State Offices of the (NRCS) and USDA NRCS home page. See www.nrcs.usda.gov. Select Programs from the menu.

ACEP-WRE - Applications are accepted on a continuous basis by the NRCS State or local Field Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of

enrollment desired by the applicant.

Award Procedure:

NRCS will rank parcels individually and award funding to the highest-ranked parcels based on ranking criteria established by NRCS in consultation with the State Technical Committee. The ranking factors are developed based on national and state criteria and priorities. NRCS conducts preliminary due diligence activities on the projects tentatively selected for funding and applicants are provided an offer of enrollment. Projects are enrolled in ACEP through agreements signed by NRCS and the eligible entity under ACEP-ALE or the landowner under ACEP-WRE.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 - September 30), based on funding availability, States establish a single or multiple application batching periods for consideration of current year funding. Eligible entity or landowner applications may remain on sign-up list for subsequent funding consideration.

Appeals:

Applicants or participants may appeal certain determinations regarding this program in accordance with 7 CFR Part 614 and Parts 11 and 780.

Renewals:

The land offered may be re-offered in a future sign-up unless land or landowner is ineligible.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: ACEP-ALE NRCS may provide up to 50 percent of the fair market value of the agricultural land easement. An eligible entity will share in the cost of purchasing an agricultural land easement in an amount that is at least equivalent to the Federal share. An eligible entity may include as part of its share a charitable donation or qualified conservation contribution (as defined by section 170(h) of the Internal Revenue Code of 1986) from the landowner if the eligible entity contributes its own cash resources in an amount that is at least 50 percent of the amount of the Federal share. NRCS may authorize a waiver to increase the federal share to 75 percent for grasslands of special environmental significance with respective adjustments to the eligible entity contribution. NRCS may also authorize a waiver of the eligible entity cash contribution requirement for projects of special significance. Each eligible entity is required to fund its own administrative costs in acquiring easements, such as appraisals, surveys, title searches, and costs incurred in managing and enforcing the easements.

ACEP-WRE - Matching Requirements: Lump sum payments for easements valued at \$500,000 or less and the Secretary may provide payments in not more than 10 annual payments. Easements valued at more than \$500,000 the Secretary may provide payments in at least 5, but no more than 10 annual payments, except that, if the Secretary determines it would further the purposes of the program, the Secretary may make a lump-sum payment for such an easement. Payments of up to 100 percent of the easement acquisition cost and cost of implementing the Wetland Restoration Plan will be paid for a permanent easement with up to 75 percent of permanent easement amounts being paid for 30-year easements, less-than perpetual easements limited by State law, and 30-year contracts. NRCS pays up to 100 percent of all related acquisition costs for all enrollment types.

MOE requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

ACEP-ALE - Easements must be closed within 18 months of the end of the fiscal year in which the cooperative agreement is signed. Federal funds must be disbursed within 2 to 5 years after signing the cooperative agreement. Method of awarding/releasing assistance: lump sum. Easement duration is either perpetual, 30-year, or the maximum duration permitted by State law. Financial assistance for easement acquisition is provided at closing.

ACEP-WRE - Cash easement payments will be made in a lump sum amount, or

in annual installments beginning at closing. Payments for implementation of restoration practices will be made when a specific practice has been implemented by either the landowner or third party and certified by NRCS. See the following for information on how assistance is awarded/released: Cash easement payments will be made in a lump sum amount, or in annual installments beginning at closing. Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. An audit may be made in accordance with the Office of Management and Budget (OMB) Circular No. A-102 Uniform Administrative Requirements for Grants and Cooperative Agreements to State and local governments and other related Circulars. 2 CFR 200 applies only to the program activities implemented through a Cooperative Agreement.

CRITERIA FOR SELECTING PROPOSALS:

ACEP-ALE - Criteria used for selecting applications include: Percent of prime, unique, and other important farmland in the parcel to be protected; Percent of cropland, rangeland, grassland, historic grassland, pastureland, or nonindustrial private forest land in the parcel to be protected; Ratio of the total acres of land in the parcel to be protected to average farm size in the county; Decrease in the percentage of acreage of farm and ranch land in the county in which the parcel is located; Percent population growth and density in the county; Existence of a farm or ranch succession plan or similar plan established to address farm viability; Proximity of the parcel to other protected land and to other agricultural operations and agricultural infrastructure; Maximizing the protection of contiguous acres devoted to agricultural use; Zoning; Eligible entity's performance; Geographic regions help achieve national, State, and regional conservation goals and objectives; Diversity of natural resources to be protected; Score in the land evaluation and site assessment system or equivalent measure for grassland enrollments; the parcels support of grazing operations; protection of grassland, land that contains forbs, and shrubland at the greatest risk from the threat of conversion to uses other than grazing; and plant and animal biodiversity.

ACEP-WRE - All offers are screened at both the local and State level to determine the acceptability of the application. Offers will be evaluated based on the environmental benefits and government expenditures on restoration and easement purchase and the requirement that wetland and wildlife functions and values benefits be maximized. Criteria for selecting applications include: The conservation benefits of obtaining an easement or other interest in the land; The cost effectiveness of each easement so as to maximize the environmental benefits per dollar expended; Whether the landowner or another person is offering to contribute financially to leverage Federal funds; The extent to which the purposes of this part would be achieved on the land; The productivity of the land; The on-farm and off-farm environmental threats if the land is used for the production of agricultural commodities; Obtaining permanent easements over shorter term easements; and Acquiring easements based on the value of the easement for protecting and enhancing habitat for migratory birds and other wildlife, in consultation with USFWS. NRCS, in consultation with the State Technical Committee, may place higher priority on certain land types or geographic regions of the State where restoration of wetlands may better achieve State and regional goals and objectives. Priority may also be given to land that is currently enrolled in CRP in a contract that is set to expire within one year from the date of application and is farmed wetland and adjoining land that has the highest wetland functions and values and is likely to return to production after the land leaves CRP.

Wetlands that fall under jurisdiction of the Clean Water Act are not eligible for mitigation through this program.

Applicant Eligibility:

Eligible entities that may submit applications include Tribal Nations, State, and local units of government, and nongovernmental organizations (NGOs), including for profit NGOs. NRCS will accept proposals for the development

and establishment of mitigation banks submitted under this notice by eligible applicants from all 50 States, the District of Columbia, the Caribbean Area (Puerto Rico and the U.S. Virgin Islands), and the Pacific Islands Area (Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands). PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: NASS successfully released the final results of the 2012 Census of Agriculture (COA) in May 2014. NASS successfully rolled out a variety of other agricultural statistics products that are reformulations of data available from the complete 2012 COA. Some of these products include: Puerto Rico COA; State & County Profiles; Congressional District Profiles; Race, Ethnicity & Gender Profiles; American Indian Reservations; 2012 COA Web Mapping; and an Organic Production Tabulation. Fiscal Year 2015: NASS plans to begin three new surveys in 2015 to assess the status of pollinators by collecting colony loss data, stressor data, and cost data. Once the data are collected from these three new NASS surveys additional analyses are planned to examine causes and sequelae of Colony Collapse Disorder (CCD). These three new surveys will enable more analysis of the Colony Loss survey data; determine if a larger sample size is needed for the Colony Loss surveys, discover if and the extent to which pollination costs for any commodities have

increase in association with CDD; and enable more analysis of the pollination cost data. Fiscal Year 2016: NASS plans to restore fruit and vegetable surveys to the 2011 level as well as chemical use surveys. The vegetable, fruit and nut surveys support the chemical use program.

To address the growing problem antibiotic resistant bacteria (AMR), NASS plans to add survey questions about antibiotic use to two surveys: feed for cattle, and hogs and pigs. Additionally, NASS will develop a new poultry survey looking at AMR.

Fiscal Year 2014: IOOS executed Data Management and Communications (DMAC)s including functional and useful IOOS data catalog; critical mass of client software; QARTOD manuals published for temp/salinity and quality flags; engaged other Federal agencies and non-Federal partners in their adoption of IOOS recommended standards and protocols. These efforts are aligned with the three National Ocean Service (NOS) priorities: (a) Improve end-to-end Response, Recovery, Restoration and Resiliency; (b) Enhance Coastal Marine Resource Conservation; and (c) Enhance Visibility and Relevance of NOS to the Nation. Fiscal Year 2015: The U.S. IOOS Program Office began accepting applications from qualified organizations to become certified Regional Information Coordination Entities (RICEs) under the authority of the Integrated Coastal and Ocean Observation System Act of 2009 (ICOOs Act). Certification will demonstrate that entities integrated into the System are, for the purposes of determining liability arising from the dissemination and use of observation data, considered part of NOAA. IOOS continued to build on the Marine Sensor Innovation Program, expanding to a total of seven funded projects. Fiscal Year 2016: IOOS intends to complete a programmatic environmental assessment (PEA) of the observing activities regularly occurring in the environment as a direct result of cooperative agreements funded by this program. The PEA will demonstrate the programs commitment to fully consider the impacts of NOAAs proposed actions on the quality of the human environment. IOOS will issue cooperative agreements to continue with the development and operation of the regional component of the U.S. IOOS and a national sensor and evaluation program.

Marine Sensor Innovation projects include detection of ice frazils in the Arctic; utilization of environmental sensor processors to detect Harmful Algal Blooms in Juan de Fuca in near-real time; development of an integrated nutrient observatory in Northeastern U.S.; integration of the Imaging Flow CytoBot (IFCB) in the South San Francisco Bay to monitor HABS; and development and testing of new, low-cost ocean acidification sensors in the Pacific Northwest. Fiscal Year 2015: IOOS is working with federal and non-federal partners to launch demonstration projects for the U.S. Marine Biodiversity Observation Network (Marine BON), which is being designed to integrate across existing monitoring programs, fill biodiversity observing gaps, and make biodiversity data more accessible. Successful projects will be supported by NOAA, NASA, BOEM and possibly other partners. Fiscal Year 2016: IOOS expects to make eleven competitively selected awards to continue the implementation and development of regional coastal ocean observing systems. IOOS expects successful awardees to serve as a Regional Association responsible for operating the Regional Coastal Observing System. 5. The Flood Disaster Protection Act of 1973 (42 U.S.C. 4002 et seq.). Flood insurance, when available, is required for Federally-assisted construction or acquisition in flood-prone areas.

6. The Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.). Recipients must identify any impact or activities which may involve a threatened or endangered species. Federal agencies have the responsibility to ensure that no adverse effects to a protected species or habitat occur from actions under Federal assistance awards and conduct the required reviews under the Endangered Species Act, as applicable.

7. The Coastal Zone Management Act, as amended (16 U.S.C. 1451 et seq.). Funded projects must be consistent with a coastal States approved management program for the coastal zone.

8. The Coastal Barriers Resources Act (16 U.S.C. 3501 et seq.). Restrictions are placed on Federal funding for actions within a Coastal Barrier System.

9. The Wild and Scenic Rivers Act, as amended (16 U.S.C. 1271 et seq.). This Act applies to awards that may affect existing or proposed components of the National Wild and Scenic Rivers system.

10. The Safe Drinking Water Act of 1974, as amended (42 U.S.C. 300f-j). This Act precludes Federal assistance for any project that the EPA determines may contaminate a sole-source aquifer so as to threaten public health.

11. The Resource Conservation and Recovery Act of 1976, as amended (42 U.S.C. 6901 et seq.). This Act regulates the generation, transportation, treatment, and disposal of hazardous wastes. The Act also provides that recipients of Federal funds give preference in their procurement programs to the purchase of recycled products pursuant to EPA guidelines.

12. The Comprehensive Environmental Response, Compensation, and Liability Act (Superfund) (42 U.S.C. 9601 et seq.) and the Community Environmental Response Facilitation Act (41 U.S.C. 11001 et seq.). These requirements address responsibilities of hazardous substance releases, threatened releases, and environmental cleanup. There are also reporting and community involvement requirements designed to ensure disclosure of the release or disposal of regulated substances and cleanup of hazards to state and local emergency responders.

13. Executive Order 12898 (Environmental Justice in Minority Populations and Low Income Populations). Federal agencies are required to identify and address the disproportionately high and adverse human health or environmental effects of Federal programs, policies and activities on low income and minority populations. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

11.302 ECONOMIC DEVELOPMENT_SUPPORT FOR PLANNING ORGANIZATIONS

Planning Investments and Comprehensive Economic Development Strategies

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

Through the Planning program, EDA provides assistance to eligible recipients to create regional economic development plans in order to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which leverage the unique assets of their respective regions to help create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.

To facilitate CEDS, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts (EDDs) throughout the Nation. These planning organizations are typically recognized by the State in which they reside as multi-jurisdictional councils of governments, regional commissions, or planning and development centers. Partnership Planning grants enable planning organizations to manage and coordinate the development and implementation of CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help organize and assist with the implementation of economic development activities within their areas. The majority of funding under the Planning program is for Partnership Planning grants for Indian Tribes and EDA-designated EDDs.

The Planning program also helps support planning organizations and other eligible recipients, including District Organizations and Indian Tribes, with Short-Term and State Planning efforts in order to stimulate and guide the creation and/or retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. For example, EDA might provide Short-Term Planning funding to a coalition of Tribal and regional organizations to plan a coordinated response to the sudden loss of a major employer in the affected area(s).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

EDA Planning investments support the preparation of CEDS that guide EDAs Public Works and Economic Adjustment Assistance implementation investments, including Revolving Loan Funds. Sound local planning also attracts other Federal, state, and local funds plus private sector investments to implement long term development strategies. In this way, EDAs Planning program plays a foundational role in helping communities develop important strategies that inform future economic development decisions.

Comprehensive, market-based, local and regional planning is an essential component of successful economic development. Effective planning creates a road map for community growth and development with a focused approach towards creating higher-skill, higher-wage jobs. The Planning Program provides a foundation for EDAs infrastructure investments, which are designed to stimulate economic growth in distressed regions. The planning process supports an assessment of the regions economic conditions and the development of a CEDS to guide resource allocation and project development. The key value of this process is that it is locally determined and involves participation from all the diverse interests in the community. Planning activities supported by these Investments must be part of a continuous process involving the active participation of Private Sector Representatives, public officials and private citizens, and include:

- (a) Analyzing local economies;
- (b) Defining economic development goals;
- (c) Determining Project opportunities; and
- (d) Formulating and implementing an economic development program that includes systematic efforts to reduce unemployment and increase incomes. All

EDA grants are discretionary grants. EDA does not award any formula grants.

Applicant Eligibility:

Pursuant to PWEDA, eligible applicants for and recipients of EDA investment assistance include a(n): (a) District Organization (as defined in 13 CFR 304.2); (b) Indian Tribe or a consortium of Indian Tribes; (c) State, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions; (d) institution of higher education or a consortium of institutions of higher education; or (e) public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. 3122) and 13 CFR 300.3. As used in this paragraph, State includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau. See 13 CFR 300.3 and 301.2.

Beneficiary Eligibility:

EDA Planning investments provide support to Planning Organizations for the development, implementation, revision, or replacement of a CEDS. They also may provide support for related short-term planning investments and State plans designed to create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the nation's most economically distressed regions.

Credentials/Documentation:

To be considered for EDA assistance, applicants must first submit a complete EDA application package. The applicant must provide a list of its proposed Strategy Committee members. The Committee must represent the main economic interests of the Region and must include Private Sector Representatives as a majority of its membership. CRITERIA FOR SELECTING PROPOSALS:

In addition to evaluating applications based on EDA's mission, funding priorities, and the evaluation criteria laid out in the applicable FFO, EDA also considers:

- (1) The proposed scope of work for the development, implementation, revision or replacement of the CEDS, or the relation of the CEDS to the proposed short-term planning activities or the State plan;
- (2) The qualifications of the applicant to implement the goals and objectives resulting from the CEDS, short-term planning activities or the State plan;

In addition, for continuation awards, funded recipients are evaluated on the basis of the extent

For Planning Investment awards to a State, EDA will also consider the extent to which the State will integrate and coordinate its CEDS with local and Economic Development District plans.

11.303 ECONOMIC DEVELOPMENT TECHNICAL ASSISTANCE

National Technical Assistance; Local Technical Assistance; University Centers

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

EDA oversees three technical assistance programs (National, Local and University Center) that promote economic development and alleviate unemployment, underemployment, and out-migration in distressed regions. These programs provide grants or cooperative agreements to: (1) invest in institutions of higher education to establish and operate University Centers to support initiatives that are focused on advancing: regional commercialization efforts; entrepreneurship; and a high-skilled regional workforce. provide technical assistance to public and private sector organizations with the goal of enhancing local economic development; (2) support innovative approaches to stimulate economic development in distressed regions; (3) disseminate information and studies of economic development issues of national significance; and (4) finance feasibility studies and other projects leading to local economic development. These programs aid the long-range economic development of regions with severe unemployment and low per capita income.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Technical assistance is used to provide information, data, resources and toolkits which practitioners and policymakers can utilize when evaluating, shaping and implementing specific projects and programs to promote economic development efforts in their respective economically distressed regions. EDA announces opportunities to compete for funding to support University Centers through its annual Federal Funding Opportunity (FFO) on University Centers, and the intent to support local technical assistance through its annual FFO on planning and local technical assistance. EDA may identify specific training, research or technical assistance projects it will fund under National Technical Assistance, which will be subject to competition. Ordinarily, these projects are specified in a FFO, which will provide the specific requirements, timelines and

the appropriate points of contact and addresses. The EDA-supported University Center (UC) sub-program is specifically designed to marshal the resources located within colleges and universities to support job creation and economic growth in regions experiencing economic distress. UCs, which EDA considers long-term partners in economic development, are required to devote the majority of their funding to respond to technical assistance requests originating from organizations located in the economically distressed portions of their service regions. EDA-sponsored University Centers provide strategic technical assistance to regional partners; including, tribal entities, local governments, and public and private sector organizations; conduct economic impact assessments; support cluster development and conduct cluster studies; facilitate regional collaboration; support commercialization and technology transfer efforts; and undertake other activities with the goal of enhancing regional economic development by promoting a favorable business environment to attract private capital investment and higher-skill, higher-wage jobs. EDA University Center competitions are held once every five years in each EDA Region. The project must be consistent with the CEDS of the region in which it is located, if applicable. At least eighty (80) percent of EDA funding under a University Center Economic Development award must be allocated to direct costs of program delivery; unrecovered indirect costs are not chargeable to the award without EDAs express approval. All EDA grants are competitive: EDA does not award formula grants. The Local Technical Assistance (Local TA) sub-program, one of EDAs smallest programs in terms of funding, is an extremely flexible and useful economic development tool. The most common purpose of a Local TA project has been to analyze the feasibility of a potential economic development project, such as an industrial park or a high-technology business incubator, or to support other critical studies necessary for economic development professionals to make informed business decisions, including economic impact assessments. The National Technical Assistance sub-program is designed to provide economic development professionals with access to tools and resources on cutting edge economic development concepts that can inform their decision-making and help support good decision making which will lead to strong, vibrant economic development and regional prosperity. Through this program, EDA provides a wide array of resources, including a cluster mapping tool (<http://clustermapping.us>), a website to identify innovation index of self-selected communities and compare against other geographies (www.statsamerica.org/innovation/), and a resource to help support best practices among venture development organizations (VDOs) (<http://regionalinnovation.org/>). The project must be consistent with the CEDS of the region in which it is located, if applicable. All EDA grants are discretionary. EDA does not award formula grants.

Applicant Eligibility:

Most technical assistance recipients are private or public nonprofit organizations and educational institutions. As defined in 13 C.F.R. 300.3, 'eligible recipients' include a State, city, county, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of such political subdivision, an institution of higher education or a consortium of institutions of higher education, an Economic Development District organization, a private or public nonprofit organization or association, including a faith-based nonprofit organization, acting in cooperation with officials of a political subdivision of a State, or an Indian Tribe, or a consortium of Indian Tribes. Individuals, companies, corporations, and associations organized for profit are not eligible. As used in this paragraph, 'State' includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau. Program funds cannot be awarded to individuals and for profit organizations.

Beneficiary Eligibility:

Investments are intended to finance projects that would be useful in alleviating or preventing conditions of excessive unemployment or underemployment.

Credentials/Documentation:

To be considered for EDA investment assistance, applicants must first submit a complete EDA application package, as specified by the applicable Federal Funding Opportunity, which generally includes requirements for project narratives, budget narratives, and the resumes of key personnel. Non-profit

applicants applying for technical assistance may be asked to provide additional documentation, including documentation of Good Standing in the State in which they operate. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Except for applications that have a national or multi-regional focus, applications are subject to the requirements of E.O. 12372, Intergovernmental Review of Federal Programs and implementing regulations at 13 CFR 302.9.

Award Procedure:

EDA will award investment assistance in accord with the procedures set forth in the applicable announcement of federal funding opportunity (FFO).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For National Technical Assistance and University Center competitions, the deadlines are set forth in the applicable FFO. For Local Technical Assistance, regional offices accept applications on a rolling basis. Approval or disapproval of an application is generally made within 4 months; in many cases, the timeline for award announcement is set forth in the applicable FFO.

Appeals:

Not Applicable.

Renewals:

Each fiscal year, two EDA regional offices will provide a five-year project period for each University Center selected for funding under the requisite competition, with the initial award being made for the first year of the project period. Funding beyond the initial year is dependent upon the availability of funds and satisfactory performance, as determined by EDA and expressed in written notice. The servicing EDA regional office will contact current University Center operators regarding the procedures for applying for continuation funding. National and Local Technical Assistance projects are typically funded for a single project period without any pre-set expectation of renewal. Renewal of an award to increase funding or extend the period of performance is at EDA's sole discretion.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Generally, the amount of the EDA award may not exceed 50 percent of the total cost of the project. Projects may receive an additional amount that shall not exceed 30 percent, based on the relative needs of the region in which the project will be located, as determined by EDA. See section 204(a) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(1). The Assistant Secretary of Commerce for Economic Development has the discretion to establish a maximum EDA investment rate of up to one-hundred (100) percent where the project (i) merits and is not otherwise feasible without an increase to the EDA investment rate; or (ii) will be of no or only incidental benefit to the recipient. See section 204(c)(3) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(4). In-kind contributions, fairly evaluated by EDA, may provide the non-federal share of the total project cost. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally, the University Center Program funds applications on a five-year basis with continuation awards made for each of the three years within a project period. The length of the project period for National and Local Technical Assistance projects varies, but is usually for a period of one to two years. Funds are disbursed as required. See the following for information on how assistance

is awarded/released: In accordance with the grant terms and conditions.

Reports:

No program reports are required. No cash reports are required. Project progress and financial reports are required, generally on a quarterly basis, as required by the Special Terms and Conditions governing the award. EDA requires the submission of the SF-425 Federal Financial Report. EDA reviews progress and financial reports for compliance with all award terms and conditions, as well as EDA regulations. EDA reserves the right to conduct site visits on an as-needed basis.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The applicant is reminded that EDA or the Department of Commerce's Office of Inspector General also may conduct an audit of an award at any time.

11.313 TRADE ADJUSTMENT ASSISTANCE FOR FIRMS

Trade Adjustment Assistance for Firms

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.), Public Law 114-27.

OBJECTIVES:

The Trade Adjustment Assistance for Firms (TAAF) program helps economically distressed U.S. business in building strategies to increase exports and thereby create jobs. The program provides technical assistance to U.S. businesses that have lost sales and employment due to increased imports of similar goods and services. Technical assistance is provided through a nationwide network of eleven Economic Development Administration (EDA) funded Trade Adjustment Assistance Centers (TAACs).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under Chapters 3 and 5 of Title II of Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.), a firm may apply to the applicable TAAC supported by the Economic Development Administration (EDA) of the Department of Commerce for certification of eligibility to apply for trade adjustment assistance (TAA) related technical assistance. Interested firms that believe they meet the requirements set forth in 13 CFR part 315 may contact EDA or one of the EDA-funded TAACs. TAACs will assist firms, at no cost, in completing and submitting a petition (Form ED-840P or any successor form) to EDA. Before a firm receives technical assistance under the program, the firm must have an adjustment proposal approved by EDA. Usually the adjustment proposal, which includes an unbiased diagnostic of the firm's strengths, weaknesses, opportunities and threats, is prepared by the TAAC in cooperation with the certified firm. The adjustment proposal also identifies technical assistance tasks, which when implemented, will guide the firm toward economic recovery. The adjustment proposal must also demonstrate that the implementation of the technical assistance tasks has a reasonable chance helping the firm recover. The firm must pay at least 25 percent of the cost of preparing the adjustment proposal. After a firm's adjustment proposal is accepted by EDA, the firm is authorized to apply for technical assistance to implement the recovery strategy. The technical assistance is usually provided by a private consultant, who is jointly hired by the certified firm and the TAAC. The certified firm and the TAAC each typically pay one half of the consultant's fees. Actual provision of TAA will depend on the feasibility of the firm's adjustment proposal, compliance with the requirements of the Trade Act, EDA's regulations and guidelines, and the availability of funds. Organizations representing trade-injured industries are eligible under the Trade Act to apply to EDA for industry-wide assistance.

Applicant Eligibility:

Section 253 of the Trade Act (19 U.S.C. 2343(b)) provides that grants may be awarded to "intermediary organizations (including Trade Adjustment Assistance Centers)" to provide assistance to trade-injured firms. For an industry association or other organizations to be eligible for industry assistance under section 265 of the Trade Act (19 U.S.C. 2355(a)), the applicant must

submit evidence demonstrating that the industry faces import competition and includes a substantial number of Trade Act-certified firms or worker groups.

Beneficiary Eligibility:

Only firms certified by EDA on behalf of the Secretary of Commerce are eligible for assistance under the TAAF program. Industries that can demonstrate they have been injured by imports and have a substantial number of Trade Act certified firm or worker groups may also benefit. The principal benefit is cost-shared technical assistance: the TAA program pays up to one-half of the cost of assistance by private-sector consultants and contractors for operational improvements at certified firms.

Credentials/Documentation:

The TAACs act as intermediaries for this program between EDA and the firm. Entities seeking industry-wide assistance must contact EDA staff to discuss their needs, describe the import injury and determine if funding is available for industry-wide projects. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The nationwide network of TAACs apply to EDA each year for funding for the coming fiscal year. Industry associations or other organizations seeking industry assistance must submit adjustment proposals to the applicable TAAC center.

Award Procedure:

Awards to TAACs are made based upon submitted applications, previous performance under cooperative agreements with EDA, and the availability of funds. Acceptance of an application or amended application for a cooperative agreement does not ensure funding by EDA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

EDA is statutorily required to review petitions for certification of eligibility under the program within 40 days of petition acceptance; and has 60 days to make a final determination on an adjustment proposal.

Appeals:

Not Applicable.

No cash reports are required. TAACs are required to submit quarterly and annual reports on their progress. Other ad-hoc reports may be requested. EDA requires the submission a Form SF-425 Federal Financial Report. EDA reserves the right to conduct site visits.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds provided under this program may be used in the following areas: The Office for Coastal Managements (OCM) goal is to build leadership skills and capabilities to meet the changing needs within the coastal community. OCM manages the Regional Ocean Partnerships (ROP) funding program, which is designed to advance effective coastal and ocean management through regional ocean governance, including the goals for national ocean policy and comprehensive ocean planning set out in the presidents Final Recommendations of Interagency Ocean Policy Task Force, July 19, 2010 (the notice of availability of the Final Recommendations is published in the Federal Register at 75 FR 45606, August 3, 2010). The ROP program supports two categories of activities: 1) implementation of a spectrum of regional ocean partnership priorities, with a focus on marine planning activities and 2) support for development and operations for the ROP program.

With respect to regional ocean partnership priorities, the Office for Coastal Management manages the Gulf of Mexico Alliance (Alliance) grant program to

engage in cooperative agreements with entities from Gulf of Mexico States to implement Action Blueprint Steps identified in the Gulf of Mexico Alliance Governors Action Plan. These projects contribute to the beneficial public outcomes associated with the five priority issues including water quality for healthy beaches and shellfish beds; wetland and coastal conservation and restoration; environmental education; identification and characterization of Gulf habitats; and nutrient reduction as well as Coastal Community Resiliency, a priority issue elevated by the Alliance since release of the Plan. The Office for Coastal Management Pacific Islands, located in Honolulu, provides competitive grants through the Bay Watershed Education and Training (B-WET) Hawaii program to foster the development of innovative science programs, partnerships and products throughout the State of Hawaii, as well as support environmental education efforts that align with national and state education standards. B-WET Hawaii projects focus on providing meaningful outdoor experiences for students and professional development opportunities for teachers that target understanding earth system sciences, hazards, community resilience, and climate change. The Office for Coastal Management Pacific Islands manages the Coastal Resilience Networks grant program to implement activities that enhance resilience of coastal communities to natural hazard and climate risks through a regional or national network. Coastal Resilience Networks (CRest) proposals must leverage, enhance, or create a system in which one or more coastal hazard issues can be addressed through partnerships to improve coordination and collaboration throughout the region. Partnerships must include multiple institutions, disciplines, and sectors at the local, state, and federal levels.

Applicant Eligibility:

Institutions of higher educations, hospitals, other nonprofits, commercial organizations, foreign governments, organizations under the jurisdiction of foreign governments, international organizations, and state, local and Indian tribal governments.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." Extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extensions requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests should be received by the federal program office 45 days prior to the end date of the award. The federal program office will not recommend approval for any retroactive extension request (received after the end date of the award). Recipients should make every effort to submit one extension request for all projects needing an extension (when possible, multiple extension requests should be avoided). With sufficient justification, the federal program office will recommend approval of a six-month extension for the first extension request. First time or cumulative extension requests for more than six months but less than 12 months, will need more compelling justification as to why the project was not completed on time or could not be completed within the first six-month extension. Although the federal program office discourages extensions of more than 12 months, the federal program office will recommend approval in cases where the funds are already obligated. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department.

Applicants must contribute 50 percent or more of the proposed service's capital, annual operating and maintenance costs. At least 50 percent of the applicant's share must be as cash or full-time personnel. For extension service planning and pilot services agreements, eligible applicants shall be State governments and State affiliated nonprofit organizations. Credentials/Documentation:

An applicant for manufacturing extension centers must submit a proposal in accordance with 15 CFR 290, which provides assurances that they will contribute 50 percent or more of the proposed center's capital, annual operating and maintenance costs unless otherwise indicated in formal program announcements. Proposals also must contain sufficient information regarding management, technical, and technology strengths sufficient for a formal merit review of the proposal. Applicants must have and demonstrate competence in areas for which financial assistance is requested. Costs will be determined in accordance with applicable cost principles found in 2 CFR Part 225 for State and local governments, 2 CFR Part 220 for educational institutions, 2 CFR Part 230 for nonprofit organizations, 48 CFR 31 for commercial organizations, and 45 CFR 74, Appendix E for hospitals. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The extension service planning and pilot testing portion of this program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs". An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. For manufacturing extension centers, no formal preapplication is required, although applicants are advised to discuss their proposal during the early stages of development with NIST MEP regional managers. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All timely submitted and qualified proposals are reviewed by a NIST selection

panel. For proposals for manufacturing extension centers, the finalists' proposals are selected on the basis of NIST evaluations and judgments based on published evaluation criteria, and may undergo a site visit.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. Applicants should be notified within 60 to 90 days of the application deadline for extension service planning/pilot testing agreements, and 120 days for manufacturing extension centers.

Appeals:

Renewals:

Future or continued funding will be based on availability of funds, and will be based on satisfactory performance, and may be subject to competition.

Formula and Matching Requirements:

Statutory Formula: Chapter 15, Part 290. A State may be required to provide adequate assurances that it will increase its spending on technology extension by an amount at least equal to the amount of Federal assistance requested. For manufacturing extension centers, the program has no statutory formula.

OBJECTIVES:

To provide grants and cooperative agreements to help identify, determine sources of, assess, reduce, and prevent marine debris and its adverse impacts on the marine environment and navigation safety within the coastal United States and territories. Awards made under this program will remove marine debris from coastal habitats; explore non-regulatory incentives to reduce the quantity and impacts of derelict fishing gear; support regional coordination among marine debris practitioners, states, and tribes; conduct outreach and education activities aimed at preventing marine debris; develop interagency plans to respond to severe marine debris events; assess debris composition, volume, and trajectory in different marine and coastal ecosystems; conduct research and development on marine debris impacts and distribution; and estimate the potential impacts of marine debris on coastal resources, habitats and economies.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Financial assistance can be used to support the implementation of locally-driven marine debris projects that achieve the objectives of the program listed above. These generally include prevention, identification and assessment, research, and removal projects including reducing and preventing fishing gear loss that will benefit coastal habitat, waterways, and NOAA trust resources. Education and outreach projects directed at stakeholders and the general public are also high

priorities for this program. Funds must be spent to carry out the purpose of the program and the award in accordance with the Marine Debris Act.

Applicant Eligibility:

Eligible applicants for assistance include 1) state and local governments including public universities and colleges; 2) U.S. territorial agencies and organizations; 3) federally and State-recognized Indian Tribal governments; 4) private universities and colleges; 5) private / commercial for-profit organizations; and 6) nonprofit research and conservation organizations.

> 180 Days. Refer to the federal funding opportunities posted on www.grants.gov for specific submission and deadline information.

Appeals:

N/A.

Renewals:

From 60 to 90 days. Grants and cooperative agreements are approved on an annual basis. Financial assistance may be continued beyond the original project period, but cannot exceed 5 years. Reports:

No program reports are required. No cash reports are required. The terms and conditions of the financial assistance awarded through these grant programs require regular progress reporting and communication of project accomplishments to MDP. Progress reports contain information related to, among other things, the overall short and long-term goals of the project, project methods and monitoring techniques, actual accomplishments (such as tons of debris removed from an ecosystem, numbers of volunteers participating in a cleanup project, etc.), status of approved activities, challenges or potential roadblocks to future progress, and lessons learned. This information collection enables MDP to monitor and evaluate the activities supported by federal funds to ensure accountability to the public and to ensure that funds are used consistent with the purpose for which they were appropriated. It also ensures that reported information is standardized in such a way that allows for it to be meaningfully synthesized across a diverse set of projects and project types. MDP uses the information collected in a variety of ways to communicate with federal and non-federal partners and stakeholders on individual project and general program accomplishments. The terms and conditions of the financial assistance awarded through these grant programs require regular financial reporting via federal standard form SF-425. Performance monitoring is required as referenced in 2 CFR 200.328 and other associated terms and conditions applicable at the time of award.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: None. Fiscal Year 2015: None. Fiscal Year 2016: Derelict Crab Trap Removal Program in Barataria, Pontchartrain and Terrebonne Basins - The Louisiana Department of Wildlife and Fisheries proposes a large-scale multifaceted approach to marine debris removal and outreach in 3 basins that are the most heavily fished and also have the greatest need for a derelict trap removal program. The Barataria-Terrebonne Basins are part of the National Estuary Program (BTNEP) and are a high priority area for the NOAA Marine Debris Removal Grant. Innovative techniques for the removed traps will be implemented along with multiple opportunities for community involvement and education/outreach. This project incorporates multiple components into one large-scale year round debris clean-up event. Derelict traps will be identified both by sight and the use side scan sonar. LDWF will sponsor two large-scale Derelict Crab Trap Rodeos co-hosted by and BTNEP and LPBF in their respective basins. The Rodeos will occur during the closure period set forth by the Louisiana Wildlife and Fisheries Commission and will build upon protocols used in previous years. BTNEP and LPBF will assist LDWF in promoting the events and ensuring high levels of volunteer participation. Field staff will document the GPS coordinates, trap type, mesh size, trap condition (fishable/non-fishable), presence of trap tag and identification, as well as the presence or absence of bycatch. The presence or absence of escape rings and turtle excluder devices will also be documented. Traps containing bycatch will be analyzed for species composition and other characteristics. During derelict crab trap cleanups, gear license numbers will be documented from retrieved crab traps so that LDWF can evaluate the best way to deal with repeat offenders.

CRITERIA FOR SELECTING PROPOSALS:

Applications for marine debris removal projects are funded through competitive solicitations for proposals, non-competitive awards, or unsolicited applications for which no competition exists. Proposals are evaluated by at least three individual technical reviewers and scored according to the criteria and weights described in the specific funding opportunity description. These criteria are: Importance and Applicability; Technical/Scientific Merit; Overall Qualifications of Applicants; Project Costs; and Outreach and Education. Reviewer comments, composite project scores, and a rank order of reviewed proposals are presented to the NOAA Marine Debris Program Selecting Official. The Selecting Official, in consultation with NOAA Marine Debris Program staff, will identify the proposals to be recommended to the NOAA Grants Management Division for funding and will determine the amount of funds available for each approved proposal.

12.610 COMMUNITY ECONOMIC ADJUSTMENT ASSISTANCE FOR COMPATIBLE USE AND JOINT LAND USE STUDIES

FEDERAL AGENCY:

Office of Economic Adjustment, Department of Defense

AUTHORIZATION:

10 U.S.C. 2391.

OBJECTIVES:

Assist State and local governments to mitigate or prevent incompatible civilian land use/activity that is likely to impair the continued operational utility of a Department of Defense (DoD) military installation. Grantees and participating governments are expected to adopt and implement the study recommendations.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Respond to encroachment of the civilian community that is likely to impair the continued operational utility of the military installation through a Compatible Use or Joint Land Use Study. The State and/or local government partners with the military installation to plan and carry out strategies promoting compatible civilian development adjacent to installations, ranges, and military flight corridors. The study includes a strategic plan with specific implementation actions to ensure civilian growth and development are compatible with vital training, testing, and other military missions.

Applicant Eligibility:

Applicants for this assistance are to contact the Office of Economic Adjustment and a Project Manager will be assigned to work with the applicant to determine eligibility for assistance under this program. States, counties, municipalities, other political subdivisions of a State, and special purpose units of a State or local government are eligible for this assistance if the Director, Office of Economic Adjustment determines that the encroachment of the civilian community is likely to impair the continued operational utility of the military installation.

Beneficiary Eligibility:

States and communities, including local property owners, as well as the local military installation.

Credentials/Documentation:

Applicants will be required to provide documentation consistent with the authority under which the assistance is being sought. Applicants must document their intent to work with the Military Department, Federal, State, and local officials, residents, businesses, and landowners to cooperatively participate in the development and implementation of a strategic plan and specific implementation measures to ensure civilian growth and development are compatible with the continued operational utility of the military installation. Applicants also must show evidence that the proposed planning process and implementation measures will prevent further encroachment on the military installation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

When in receipt of a Military Department nomination, the Office of Economic Adjustment Director will notify the Installation Commander that an Office of Economic Adjustment Project Manager will schedule a visit to provide a program overview and confirm the Installation Commanders support to engage the affected local governments and/or State in a Joint Land Use Study. The Project Manager also will validate encroachment of the civilian community that is likely to impair the continued operational utility of the military installation. After confirming installation support for the Joint Land Use Study and validating civilian encroachment, the Project Manager then will proceed to engage the affected local governments and/or State to confirm their interest and support to undertake the study and carry out the study recommendations. Once support from the Installation Commander and affected local governments and/or State is confirmed, the Project Manager will work with the local governments and/or State to craft an effective and responsive program of assistance to ensure civilian growth and development are compatible with the continued operational utility of the military installation.

The Office of Economic Adjustment also may provide community planning assistance to help prevent the siting of energy projects from adversely affecting Department of Defense test, training, and military operations. The Office of Economic Adjustment will consider on a continuing basis, subject to available appropriations, proposals for grant assistance to support communities, regions, and states to assist in the siting of energy project investments so they do not impair the continued operational utility of a Department of Defense installation. Commercial development of energy projects may affect unique military activities and readiness, especially when located near installations, ranges, or on lands beneath designated military training routes or special use airspace. State and local governments can support effective collaboration, early engagement and dialog between the Department of Defense and energy developers to ensure proposed energy projects may proceed without compromising the military missions. A proposal must respond to the need to ensure proposed energy projects may proceed without compromising Department of Defense test, training, and military operations, to include radar interference from wind turbines; low-level flight obstructions associated with tall structures such as solar power towers and wind turbine projects; electromagnetic interference from high voltage electrical transmission lines; and glint and glare impacts to flight operations associated with solar photovoltaic arrays or power tower projects near military airfields. Applicants for this assistance are to contact the Office of Economic Adjustment and a Project Manager will be assigned to work with the applicant to determine eligibility for assistance under this program. States, counties, municipalities, other political subdivisions of a State, special purpose units of a State or local government, and tribal nations are eligible for this assistance if a substantial portion of the economic activity or population of the applicant's geographic area is dependent on defense expenditures. The Office of Economic Adjustment must determine, in consultation with the affected state or community, that a substantial portion of the economic activity or population of the geographic area subject to the planning under this program is dependent on Department of Defense (Defense) expenditures. For purposes of eligibility determination, an area is considered Defense-dependent if it can demonstrate: (1) Direct military and civilian employment totals at least one and a half times the national level of Defense employment as a percent of the total U.S. labor force or (2) Defense-related expenditures comprise at least one and a half times the Defense percent of gross domestic product. The National Defense Budget Estimates for FY2016 states that the 2014 Defense employment as a percent of total labor force is 1.4% and the 2014 Defense share of gross domestic product is 3.4%. One and half times the Defense employment as a percent of the total labor force is 2.1%, and one and half times the Defense percent of gross domestic product is 6.0%. Technical and financial assistance is structured through an assigned

Project Manager working with a defense-dependent State and/or local government.

14.218 COMMUNITY DEVELOPMENT BLOCK GRANTS/ENTITLEMENT GRANTS

Community Development Block Grant program for Entitlement Communities.

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Part 24, Section 570, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5321.

OBJECTIVES:

To develop viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low and moderate income.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipient communities may undertake a wide range of community-based activities directed toward neighborhood revitalization, economic development, and community services, facilities, and improvements. Entitlement communities develop their programs and set their funding priorities in conformance with the statutory standards, program regulations, and other federal requirements. Specific activities that can be carried out with Community Development Block Grant (CDBG) funds include acquisition of real property; relocation; clearance and demolition; rehabilitation of residential and nonresidential structures; provision of public facilities and improvements, such as water and sewer facilities (which require reviews by the State single point of contact or a Regional Planning Agency in accordance with Executive Order 12372), streets, and neighborhood centers. Within program limitations, CDBG funds can also pay for public services. Recipients may provide assistance to microenterprises or other for-profit entities when the recipient determines that such assistance is appropriate to carry out an economic development project. Community-based development organizations may carry out neighborhood revitalization, community economic development, or energy conservation activities. Each CDBG eligible activity must meet one of three national objectives: benefit low- and moderate-income persons, aid in the prevention or elimination of slums or blight, or meet other community

development needs having a particular urgency that the grantee is unable to finance on its own. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or the statute.

Applicant Eligibility:

Recipients are states; cities in Metropolitan Areas designated by OMB as a central city of the Metropolitan Area; other cities over 50,000 in Metropolitan Areas; and qualified urban counties of at least 200,000 (excluding the population in entitlement cities located within the boundaries of such counties) are eligible to receive CDBG entitlement grants determined by a statutory formula.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD). The recipient must certify that at least 70 percent of the grant funds received during a 1, 2, or 3-year period, that it designates, are expended for activities that will principally benefit low- and moderate-income persons.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Executive Order 12372 is applicable only where a recipient proposes to use funds for the planning or construction (reconstruction or installation) of water or sewer facilities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit a 5-year Consolidated Plan, an annual action plan, SF Form 424, and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD Community development programs, including CDBG. The annual action plan must include the local community development objectives and show the proposed use of the funds. If the grantee makes a complete submission within the established deadlines, the Department will make a grant award unless a determination is made by HUD that the grantee's performance is unsatisfactory. HUD will approve the submission generally within 45 days of receipt of the annual action plan and required certifications unless a determination has been made that the grantee has failed to carry out its CDBG program in a timely manner or has failed to conform to the requirements of the statute or other applicable laws. Under such circumstances, HUD may take appropriate actions, including a reduction in the amount of the original formula-allocated grant.

Award Procedure:

None.

Deadlines:

Nov 15, 2015 to Aug 15, 2016: See below. For formula grants, action plans associated with the Consolidated Plan must be submitted based on the grantee's program year, but no earlier than November 15 or no later than August 15 of the fiscal year for which the funds are allocated.

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

State CDBG

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Section 101-122, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5322.

OBJECTIVES:

The primary objective of this program is the development of viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low- and moderate-income. Each activity funded must meet one of the program's National Objectives by: Benefiting low- and moderate-income families; aiding in the prevention or elimination of slums or blight; or meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Thirty percent of funds available for distribution under each annual appropriation for the Community Development Block Grant (CDBG) program is allocated among the States and Puerto Rico (which is considered to be a state for the State CDBG program) for use in areas which are not a metropolitan city or part of an urban county (nonentitlement areas). All States except Hawaii have elected to administer these CDBG funds for areas that do not receive CDBG entitlement grants (14.218). HUD awards the formula grants to these States under the CDBG/State Program. In Hawaii, HUD awards the state's share of these funds to the three non-entitlement counties by formula. States must distribute CDBG funds to units of general local government (counties, towns, etc.) in nonentitlement areas. States develop their own programs and funding priorities. Units of general local government then carry out community development activities funded by the State. Eligible activities are directed toward neighborhood revitalization, economic development, or provision of improved community facilities and services. Specific activities that can be carried out with block grant funds include: Acquisition, rehabilitation or construction of certain public works facilities and improvements, such as streets, water and sewer facilities, neighborhood centers, recreation facilities, and other public works; demolition and clearance; rehabilitation of public and private buildings including housing; code enforcement; relocation payments and assistance; economic development; planning activities; certain public services with some restrictions; and administrative expenses. The projected use of funds must be developed to ensure that all activities will meet one of the three national objectives described under "OBJECTIVES". Communities receiving CDBG funds from a state may select subgrantees to carry out approved projects. Such subgrantees may include: Neighborhood-based nonprofit organizations; local development corporations; Small Business Investment Companies; or other nonprofit organizations serving the development needs of nonentitlement areas. Grant recipients may provide assistance to for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out an economic development project. Communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and from making housing allowances or other income maintenance-type payments. Each State may use a limited portion of its grant, subject to a matching requirement, to administer the program. Each State may also use a limited portion of its grant, with no matching requirement, to provide technical assistance to local governments and nonprofit program recipients. At least seventy percent of the funds received must benefit low and moderate income persons.

Applicant Eligibility:

Forty-nine State governments and the Commonwealth of Puerto Rico receive funds from HUD under this program. The state of Hawaii does not participate

and HUD allocates the state's share of funds to the three Hawaii non-entitled counties. Funds are allocated to each state based on a statutory formula. States must distribute the funds to units of general local government in nonentitlement areas.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate- income persons. For non-metropolitan areas, low- and moderate- income is generally defined as 80 percent of the median income for non-metropolitan areas of the State or of the county, whichever is higher, adjusted for family size. For eligible localities in metropolitan areas, low- and moderate-income is generally defined as 80 percent of the median income for the metropolitan area, adjusted for family size.

Credentials/Documentation:

Grantees must certify that they will comply with program requirements specified in 24 CFR Part 91. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR Part 215 applies as implemented at 24 CFR Part 84 for the non-entitled grants in Hawaii and 24 CFR Part 85 also applies to this program. The State program is excluded from coverage under 24 CFR 85, however, the provisions set-forth in the fiscal requirements contained in 24 CFR 570.489 does apply some of the elements of 2 CFR 215. Each state and non-entitled Hawaii county must submit a Consolidated Plan, an annual action plan and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD community development programs, including CDBG. The annual action plan must contain the method by which the State will distribute its CDBG funds.

Award Procedure:

HUD will provide funds after the State or non-entitled Hawaii county submits its Consolidated Plan, annual action plan and Certifications.

Deadlines:

Nov 15, 2014 to Aug 16, 2015 Consolidated Plans may be submitted between November 15 and August 16 of each fiscal year in which the grantee will administer funds.

Range of Approval/Disapproval Time:

HUD will review plan submissions for completeness and consistency with the purposes of the Act, within 45 days of receipt from a grantee.

Appeals:

The procedure is described in regulations (24 CFR Part 570 Subpart I for states and 24 CFR Part 570 Subpart O for non-entitlement counties in Hawaii).

Renewals:

Not Applicable.

AUTHORIZATION:

McKinney-Vento Homeless Assistance Act of 1987, Title IV, as amended, 42 U.S.C. 11371-78.

OBJECTIVES:

The ESG program provides funding to: (1) engage homeless individuals and families living on the street; (2) improve the number and quality of emergency shelters for homeless individuals and families; (3) help operate these shelters; (4) provide essential services to shelter residents, (5) rapidly re-house homeless individuals and families, and (6) prevent families and individuals from becoming homeless.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

ESG funds may be used for five program components: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and HMIS; as well as administrative activities (up to 7.5% of a recipient's allocation can be used for administrative activities). For specific uses and use restrictions, see 24 CFR part 576, subpart B.

Applicant Eligibility:

Eligible recipients generally consist of metropolitan cities, urban counties, territories, and states, as defined in 24 CFR 576.2. Metropolitan cities, urban counties and territories may subgrant ESG funds to private nonprofit organizations. States must subgrant all of their ESG funds (except for funds for administrative costs and, under certain conditions, HMIS costs) to units of general purpose local government and/or private nonprofit organizations. Each recipient must consult with the Continuum(s) of Care operating within the jurisdiction in determining how to allocate ESG funds.

Beneficiary Eligibility:

The minimum eligibility criteria for ESG beneficiaries are as follows: For essential services related to street outreach, beneficiaries must meet the criteria under paragraph (1)(i) of the homeless definition under 576.2. For emergency shelter, beneficiaries must meet the homeless definition in 24 CFR 576.2. For essential services related to emergency shelter, beneficiaries must be homeless and staying in an emergency shelter (which could include a day shelter). For homelessness prevention assistance, beneficiaries must meet the requirements described in 24 CFR 576.103. For rapid re-housing assistance, beneficiaries must meet requirements described in 24 CFR 576.104. Further eligibility criteria may be established at the local level in accordance with 24 CFR 576.400(e).

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. Government recipients and subrecipients must comply with OMB Circular No. A-87. Subrecipients that are private nonprofit organizations must comply with OMB Circular No. A-122. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. In addition to meeting the application submission requirements in 24 CFR part 5, subpart K, each State, urban county, or metropolitan city must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements in 24 CFR part 91, and each territory must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements that apply to local governments under 24 CFR part 91. The consolidated plan and annual action plan cover four major HUD formula programs, including ESG. The annual action plan must describe how the funds will be used. The uniform administrative requirements at 24 CFR parts 84 and 85 apply as specified in 24 CFR 576.407(c).

Award Procedure:

The HUD field office reviews the grantee's Consolidated Plan and, upon plan approval, notifies the applicant of the award and prepares the grant agreement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application

deadlines.

Range of Approval/Disapproval Time:

Each jurisdiction should submit its consolidated plan to HUD at least 45 days before the start of its program year. In no event will HUD accept a submission earlier than November 15 or later than August 16 of the federal fiscal year for which the grant funds are appropriated.

The plan will be deemed approved 45 days after HUD receives the plan, unless before that date HUD has notified the jurisdiction that the plan is disapproved. If the plan is disapproved, the jurisdiction may revise or resubmit a plan within 45 days after the first notification of disapproval. HUD must respond to approve or disapprove the plan within 30 days of receiving the revisions or resubmission.

Appeals:

Formula allocations may not be appealed. Disapproved plans may be resubmitted in accordance with 24 CFR 91.500.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: The formula for this program is part statutory and part regulatory (see section 414 of the McKinney-Vento Homeless Assistance Act and 24 CFR 576.3). HUD will set aside for allocation to the territories up to 0.2 percent, but not less than 0.1 percent, of the total amount of each appropriation in any fiscal year. The remainder will be allocated to States, metropolitan cities, and urban counties. The percentage allocated to each State, metropolitan city, and urban county will be equal to the percentage of the total amount available under section 106 of the Housing and Community Development Act of 1974 for the prior fiscal year that was allocated to the State, metropolitan city or urban county. If an allocation to a metropolitan city or urban county would be less than 0.05 percent of the total fiscal year appropriation for ESG, the amount is added to the allocation of the State in which the city or county is located. If the recipient or subrecipient is a unit of general purpose local government, its ESG funds cannot be used to replace funds the local government provided for street outreach and emergency shelter services during the immediately preceding 12-month period, unless HUD determines that the unit of general purpose local government is in a severe financial deficit in accordance with 24 CFR 576.101(c).

Matching Requirements: Metropolitan city and urban county recipients must match grant funds with an equal amount of funds from cash or the following in-kind sources: services contributed by volunteers, the donation of materials and buildings, or the value of any lease on a building. States must match all but \$100,000 of their awards, but must pass on the benefit of that \$100,000 exception to their sub-recipients that are least capable of providing matching amounts. Territories are exempt from the match requirement.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Metropolitan cities, urban counties and territories must obligate all funds, except for the amount for administrative costs, within 180 days after HUD signs the grant agreement. States must obligate all funds, except the amount for administrative costs, to subrecipients within 60 days after the date that HUD signs the grant agreement. Each subrecipient that is a unit of general purpose local government must obligate its grant funds within 120 days after the date the State obligates its funds. All grant funds must be expended within 24 months after HUD signs the grant agreement with the recipient. Method of awarding/releasing assistance: by letter of credit.

Reports:

Each recipient must report its program accomplishments for each program year in the Consolidated Annual Performance and Evaluation Report (CAPER). Each recipient's efficient expenditure of grant funds is evaluated through information provided in the program management's information system, known as the Integrated Disbursement and Information System (IDIS). Each recipient must also comply with the reporting requirements under the Federal Funding Accountability and Transparency Act of 2006, (31 U.S.C. 6101 note), which are set forth in appendix A to 2 CFR part 170. Monitoring is "risk-assessment based" with high-risked grantees receiving priority status for monitoring and review. The performance report shall be submitted to HUD within 90 days after

the close of the jurisdiction's program year. Recipients draw down ESG funds from the Integrated Disbursement and Information System (IDIS). This is HUD's primary method of capturing financial and expenditure data from the recipients. Progress reports are not applicable. Through the CAPER and IDIS draw down information, recipients provide reports on expenditures. In accordance with 24 CFR Part 85, recipients are required to monitor their subrecipients for compliance with the ESG requirements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Sufficient records must be established and maintained to enable the recipient and HUD to determine whether ESG requirements are being met. All records pertaining to each fiscal year of ESG funds must be retained for the greater of 5 years or the period specified under 24 CFR 576.500(y).

Each jurisdiction must make matching contributions for affordable housing throughout a fiscal year in an amount not less than 25 percent of the HOME funds drawn from the U.S. Treasury during the federal fiscal year for projects. 14.269 HURRICANE SANDY COMMUNITY DEVELOPMENT BLOCK GRANT DISASTER RECOVERY GRANTS (CDBG-DR)

Community Development Block Grant Disaster Recovery program for Hurricane Sandy and other qualifying disasters occurring in 2011, 2012 and 2013

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 Public Law 113-2, Public Law 113-2.

OBJECTIVES:

The overall CDBG program objective is to develop viable urban communities, by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate income. CDBG DR program funds appropriated by P.L. 113-2 are for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declaration due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipients may undertake a wide range of activities directed toward addressing unmet needs of disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization. However, CDBG DR funds may not be used for activities reimbursable by other sources of funds, such as those made available by the Federal Emergency Management Agency, the Army Corps of Engineers, or private insurance. Grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities and develop their own programs and funding priorities as long as programs/activities conform to the statutory standards and program regulations. Some of the specific activities that can be carried out with Community Development Block Grant Disaster recovery (CDBG DR) funds include buying damaged properties in a flood plain and relocating residents to safer areas; relocation payments for people and businesses displaced by the disaster; debris removal not covered by FEMA; rehabilitation of homes and buildings damaged by the disaster; buying, constructing, or rehabilitating public facilities such as streets, neighborhood

centers, and water, sewer and drainage systems; code enforcement; homeownership activities such as down payment assistance, interest rate subsidies and loan guarantees for disaster victims; public services (generally limited to no more than 15 percent of the grant); helping businesses retain or create jobs in disaster impacted areas; and planning and administration costs (limited to no more than 20 percent of the grant). Eligible activities must meet at least one of three program national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other urgent community development needs because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available. CDBG Disaster Recovery grants primarily benefit low-income residents in and around communities that have experienced a natural disaster. At least 50 percent of each grantee's CDBG-DR grant award must be used for activities that benefit low- and moderate-income (LMI) persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the population are of low- and moderate-income. Recipients may contract with other local agencies or nonprofit organizations to carry out components of their programs. Grantees must meet the 50 percent LMI expenditure requirement unless a waiver has been requested by the grantee and approved by HUD. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or for which a waiver or alternative requirement has been granted by the Secretary, based upon a determination that good cause exists and that the waiver or alternative requirement is not inconsistent with the overall purposes of Title I of the HCD Act.

Applicant Eligibility:

CDBG Disaster Recovery funds are made available to States and units of general local governments designated by the President of the United States as disaster areas. These communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program (usually these are governments that already receive HOME or Community Development Block Grant allocations). Grantees may use CDBG Disaster Recovery funds for recovery efforts involving housing, economic development, infrastructure and prevention of further damage to affected areas. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers.

Beneficiary Eligibility:

The principal beneficiaries of CDBG DR funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD) in communities that have experienced a disaster event. At least 50 percent of each grantee's CDBG-DR grant award must be used for activities that benefit low- and moderate-income (LMI) persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the population are of low- and moderate-income. Grantees must meet the 50 percent LMI expenditure requirement unless a waiver has been requested by the grantee and approved by HUD.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. 2 CFR 225, Cost Principles for State, Local, and Indian Tribal Governments (previously OMB Circular A-87) applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

As a condition of making any grant under this appropriation, the Secretary is required to certify in advance that grantees have in place proficient financial controls and procurement processes and have established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit an Action Plan for Disaster Recovery, SF Form 424, and certifications to HUD. In the Action Plan for Disaster Recovery, grantees must describe uses and activities that are authorized under Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) (HCD Act) or allowed by a waiver or alternative requirement published in the federal register notice covering the grant funds and also respond to a disaster-related impact. HUD reviews grantee Action Plans within 45 days of receipt and approves the Plan according to criteria identified in the federal register notice covering the grant funds.

Award Procedure:

P.L. 113-2 provides that funds shall be awarded directly to a State or unit of general local government (UGLG) at the discretion of the Secretary. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, the Department computed direct allocations to eligible grantees totaling \$14,181,892,000 based on the best available data that cover all the eligible affected areas. States and local governments receiving a CDBG DR allocation may carry out programs and/or activities directly or through subrecipients, including local governments, governmental agencies, and non-profit entities. The remaining \$999,108,000 appropriated under P.L. 113-2 will be awarded to eligible grantees based on a competition. These funds will be allocated under a separate CFDA number (14.272).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

After a grantee receives an allocation under a published Federal Register notice, it must submit an initial Action Plan for Disaster Recovery within a time frame specified in the specific applicable Federal Register Notice.

Appeals:

Administrative appeals process followed if grant funds are withheld or reduced, or repayment proposed for non-compliance or non-performance.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter 570. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, HUD computed allocations based on the best available data that cover all the eligible affected areas. P.L. 113-2 specifies that the CDBG DR funds be used for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster and further specifies that the funds are not to be used for activities reimbursable by other available forces of funds such as FEMA, the Corps of Engineers, or private insurance.

For this allocation, similar to prior CDBG DR allocations, the Department makes a determination of unmet needs by estimating unmet needs related to the main intended uses of the funds, including restoration of housing, economic revitalization, and restoration of infrastructure. These estimated needs are then summed together and an allocation is made among the grantee universe based on their proportional share of unmet needs.

This program has no matching requirements. This program has no matching requirements.

This program does not have MOE requirements. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

To ensure the timely expenditure of funds, section 904(c) under Title IX of P.L. 113-2 that all funds be expended within two years of the date HUD obligates funds to a grantee (funds are obligated to a grantee upon HUDs signing of the grantees CDBG DR grant agreement). Action Plans must demonstrate how funds will be fully expended within two years of obligation. For any funds that the grantee believes will not be expended by the deadline, it must submit a letter to HUD justifying why it is necessary to extend the deadline for a specific portion of funds. Additionally, P.L. 113-2 requires that HUD obligate all funds

provided under Chapter 9, Community Development Fund, not later than September 30, 2017. Method of awarding/releasing assistance: by letter of credit.

Reports:

HUD requires grantees to enter information in HUDs Disaster Recovery Grant Reporting (DRGR) system in sufficient detail to permit the Departments review of grantee performance. No cash reports are required. Each grantee must submit a Quarterly Performance Report (QPR) through the DRGR system not later than 30 days following the end of each calendar quarter. Quarterly reports include information on obligations, expenditures, drawdowns, and accomplishments for all grantee activities. HUD reviews these quarterly reports to assess grantee compliance and performance. The Quarterly Performance Report (QPR), submitted by grantees on a quarterly basis through HUD's Disaster Recovery Grant Reporting (DRGR) system includes information on expenditures for all their activities. The Department performs regular performance monitoring of grantees both remotely and through on-site reviews. The Department determines on-site monitoring priorities based on a risk-analysis of the grantees portfolio of activities or known high-risk areas. For all headquarter-held grants under this appropriation, HUD conducts at least two on-site monitoring reviews each year.

The Office of Community Planning and Developments CPD Notice CPD-12-02, Implementing risk Analysis for Monitoring Community Planning and Development Grant Programs describes the Departments risk analysis process. Monitoring exhibits can be found in Chapter 6 of HUDs Community Planning and Development (CPD) Grantee Monitoring Handbook.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The auditee may elect to have a program-specific audit conducted under certain limited circumstances. CDBG DR grantees shall make reviews and audits, including onsite reviews of any subrecipients, designated public agencies, and UGLGs, as may be necessary or appropriate to meet the requirements of 42 U.S.C. 5304(e)(2), as amended, and as modified by the federal notice covering grant funds. Additionally, grantees must have an internal audit function in place for the detection of fraud, waste, and abuse where the responsible audit staff report independently to the chief officer or board of the organization designated to administer the CDBG DR award.

Records:

Grantees must maintain records with regard to eligibility, national objectives, financial management, citizen participation, relocation, other resources, acquisition, housing assistance to dwelling units and households, equal opportunity, environmental impact, labor standards and other requirements set forth in the program regulations. Records shall be retained for a period of three years from closeout of the grant, except as otherwise prescribed in the regulations.

14.272 NATIONAL DISASTER RESILIENCE COMPETITION

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 Public Law 113-2., Public Law 113-2.

OBJECTIVES:

The overall CDBG program objective is to develop viable urban communities, by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate income. The National Resilient Disaster Competition program funds appropriated by P.L. 113-2 are available for resilient recovery projects and necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declared pursuant to the due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The competition will support innovative resilience projects at the local level while encouraging communities to adopt policy changes and activities that plan for the impacts of extreme weather and rebuild affected areas to be better prepared for the future. The competition underscores the ability communities have to not only recover from recent disasters but also rebuild better and stronger for the future. It will allow them to engage local stakeholders, nongovernmental organizations and the philanthropic sector to protect their own communities from the impacts of climate change by enhancing resilient infrastructure, building on sound science, and deploying innovative approaches to investments. These funds will enable eligible communities to access resources that help both recover from the previous disaster and make plans, decisions, and investments that make them more resilient to the next disaster. Recipients may undertake a wide range of activities directed toward disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers. Grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities and develop their own programs and funding priorities as long as programs/activities conform to the statutory standards and program regulations. Some of the specific activities that can be carried out with Community Development Block Grant Disaster recovery (CDBG DR) funds include buying damaged properties in a flood plain and relocating residents to safer areas; relocation payments for people and businesses displaced by the disaster; debris removal not covered by FEMA; rehabilitation of homes and buildings damaged by the disaster; buying, constructing, or rehabilitating public facilities such as streets, neighborhood centers, and water, sewer and drainage systems; code enforcement; homeownership activities such as down payment assistance, interest rate

subsidies and loan guarantees for disaster victims; public services (generally limited to no more than 15 percent of the grant); helping businesses retain or create jobs in disaster impacted areas; and planning and administration costs (limited to no more than 20 percent of the grant). Eligible activities must meet at least one of three program national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other urgent community development needs because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available. CDBG Disaster Recovery grants primarily benefit low-income residents in and around communities that have experienced a natural disaster. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low-and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the population are of low- and moderate-income. HUD can only waive this requirement on a showing of compelling need." Recipients may contract with other local agencies or nonprofit organizations to carry out components of their programs. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or for which a waiver or alternative requirement has been granted by the Secretary, based upon a determination that good cause exists and that the waiver or alternative requirement is not inconsistent with the overall purposes of Title I of the HCD Act.

Applicant Eligibility:

CDBG DR competitive funds are made available to States and units of general local governments designated by the President of the United States as disaster areas. These communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program (usually these are governments that already receive HOME or Community Development Block Grant allocations). Grantees may use CDBG Disaster Recovery funds for recovery efforts involving housing, economic development, infrastructure and prevention of further damage to affected areas. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers.

Beneficiary Eligibility:

The principal beneficiaries of CDBG DR funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD) in communities that have experienced a disaster event. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low-and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the population are of low- and moderate-income. HUD can only waive this requirement on a showing of compelling need."

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

As a condition of making any grant under this appropriation, the Secretary is required to certify in advance that grantees have in place proficient financial controls and procurement processes and have established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit a comprehensive application to be considered for funding, SF Form 424, and certifications to HUD. The Application must meet the criteria of the NOFA and

must identify the proposed use(s) of the grantees allocation, including criteria for eligibility, and how the uses address long-term recovery needs. Application for CDBG-RDR waiver and alternative requirement. The requirements for CDBG actions plans, located at 42 U.S.C. 12705(a)(2), 42 U.S.C. 5304(a)(1), 42 U.S.C. 5304(m), 42 U.S.C. 5306(d)(2)(C)(iii), 24 CFR 91.220, and 91.320 are waived for funds provided under the Appropriations Act. Instead, each grantee must submit to HUD an Application for CDBG-RDR. During the course of the grant, HUD will monitor the grantees actions and use of funds for consistency with the application, and meeting the performance and timeliness objectives therein and in this Attachment A. Per the Appropriations Act, and in addition to the requirements at 24 CFR 91.500, the Secretary may disapprove an amendment to an application if it is determined that the amended application does not satisfy all of the required elements identified in this NOFA.

Award Procedure:

See NOFA or contact the headquarters office.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. See NOFA or contact the headquarters office.

Appeals:

Renewals:

N/A.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter V, Part 570.

Matching requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

To ensure the timely expenditure of funds, section 904(c) under Title IX of P.L. 113-2 requires that all funds be expended within two years of the date HUD obligates funds to a grantee (funds are obligated to a grantee upon HUD's signing of the grantees CDBGDR grant agreement). Action Plans must demonstrate how funds will be fully expended within two years of obligation. For any funds that the grantee believes will not be expended by the deadline, it must submit a letter to HUD justifying why it is necessary to extend the deadline for a specific portion of funds. Additionally, P.L. 113-2 requires that HUD obligate all funds provided under Chapter 9, Community Development Fund, not later than September 30, 2017. USES AND USE RESTRICTIONS:

The Single Family Property Disposition Program is the marketing and sale of one to four unit properties acquired by HUD after foreclosure of an FHA-insured or Secretary-Held mortgage. These programs include Good Neighbor Next Door Sales program for law enforcement officers, teachers and firefighters/emergency medical technicians, Discount Sales to Nonprofits and Local Governments program and Dollar HOME Sales to Local Governments program. Information for each of these programs is covered separately. The majority of foreclosed one to four unit properties are sold through the general disposition program. HUD contracts with private companies to manage and market the properties. The listings provide the list price of the property, the property address, a brief description of the property and access to a Property Condition Report prepared by the contractor. Complete information explaining the sales process and earnest money requirements is also available. Bids must be submitted electronically by a real estate broker. An earnest money deposit is required with each bid submitted. Special opportunities are available for bidders who intend to occupy purchased properties as their principal residence. Properties not purchased during this Exclusive Listing Period are then available for the general public, including investors, during an Extended Listing Period. FHA financing may be available for purchasing many homes, including the FHA 203(k) program providing a loan to purchase a property and pay for repairs or improvements as permitted by FHA rules. Interested persons should contact their FHA approved lender. Refer to <http://www.hud.gov/ll/code/llplcrit.html> for assistance in locating a lender.

15.242 National Fire Plan - Rural Fire Assistance

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: (1) Long-term impacts of wildfire on fuel loads, vegetation composition, and potential fire behavior and management in sagebrush-dominated ecosystems. This project will quantify the long term influence of past fires (12-30 years) on fuel loads, vegetation composition, and subsequent wildfire behavior, effects, and management in the three dominant big sagebrush ecosystems of the Northern Great Basin and Columbia Plateau. (2) Programmatic Analysis of Fuel Treatments: from the landscape to the national level. This project will design and demonstrate a spatial planning system that generates cost effective fuel treatment (FT) programs at the landscape and national scales with regional extensions. We will demonstrate how FT programs can respond to changes in funding levels nationally and on a particular landscape. (3) Phase Dynamics of Wildland Fire Smoke Emissions and Their Secondary Organic Aerosols. This project is a detailed study examining the phase partitioning behavior of biomass burning emissions under scenarios applicable to both the laboratory and the field. Fiscal Year 2015: (1) Modeling long-term effects of fuel treatments on fuel loads and fire regimes in the Great Basin. The project will assess the efficacy of fuel management strategies at decadal time-scales by synthesizing existing data to develop inputs for a vegetation dynamics model, the Ecosystem Demography (ED) model. The purpose of using the process-based ED model is to provide alternative future scenarios of the sagebrush-steppe ecosystem of the Great Basin under changing climate and fire regimes. (2) Relations among cheatgrass-driven fire, climate, and sensitive-status birds across the Great Basin. This project will model current and future spatial interactions among cheatgrass cover and biomass, precipitation, and fire across the Great Basin and to model current and future cover of sagebrush and herbaceous vegetation. We further will examine how projected changes in fire regimes and fire and fuels treatments may affect habitat quality for and probability of occupancy of sensitive-status breeding birds. Additionally, we will use statistical change-point analyses⁹ to detect any abrupt, nonlinear temporal changes thresholds in projected vegetation cover, habitat quality, and occupancy¹⁰. Detection of ecological thresholds, if they exist, may suggest fuels treatments and restoration actions that will decrease the probability of entering into or remaining within undesirable ecological states. (3) Do perennial bunchgrasses competitively exclude *Bromus tectorum* in post-fire rehabilitation? This project will examine the distribution of *tectorum* and perennial bunchgrasses across plot, site, and landscapes scales on locations with and without post-fire rehabilitation using spatial analysis of photoquadrats. The spatial analyses will allow us to address the following research questions: a) Does seeding *Poa secunda*, *elymoides*, and *cristatum* after a fire reduce the dispersion of *tectorum* at the plot or site scale? b) Is the spatial distribution of grass species consistent among sites across landscapes?. Fiscal Year 2016: No current data available.

CRITERIA FOR SELECTING PROPOSALS:

Criteria used to select assistance proposals are based on their ability to reduce the risk of wildland fire to community values and to increase the capabilities of rural fire organizations, in the vicinity of Federal lands.

The BLM continues to partner with Trinity County Resource Conservation District on the Weaverville Community Forest Stewardship project. This project has treated over 1,000 acres of forest adjacent to the community of Weaverville, California. Project objectives have been to thin the forest in the wildland urban interface and improve forest resilience. Timber value from the thinning has been used to offset the thinning of precommercial trees as well as trail maintenance of local hiking and biking trails. One of the primary employers in Weaverville is a lumber mill which relies on timber supplied from project like this to continue operation. Fiscal Year 2015: No Current Data Available. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The Parks, Trails and Natural Areas category includes the following funded and in progress projects. The Camp Success Preservation and Enhancement Project in White Pine County, Nevada, in existence since the 1940s, will provide continued use of the Camp and enhance the recreational and environmental education opportunities for youth and families in eastern Nevada. The existing outhouses will be removed and replaced with vault toilets. Shower facilities and ADA accessible outdoor living area near the lodge will upgrade and preserve this partnership facility. The land is owned by the U.S. Forest Service with the Camp itself being owned by White Pine County, Nevada. With the recent 20-year permit renewal by U.S. Forest Service the camp will continue to enhance the areas comprehensive economic development strategy while providing recreational and outdoor opportunities. The Warm Springs Natural Area Project in Clark County, Nevada is regionally significant as it contains more than 20 perennial springs that form the headquarters of the Muddy River. The site contains numerous landscapes including Mojave desert, riparian forest, mesquite woodlands, and alkali meadows through which 3.8 miles of the Muddy River wanders. These resources provide ideal habitat for a number of listed, threatened and sensitive species, including the endangered Moapa dace and the Southwestern Willow Flycatcher. The Doolittle Park Family Area Renovation Project in Clark County, Nevada will reinvigorate this older park space, encouraging sustainable living in the city's core. Heavy use in West Las Vegas, Nevada has resulted in deterioration of this family park. More modern playground equipment and relocation of playground equipment for ages two to five years old will provide a safer play area for children. Increasing tree canopy, improving the park entry point, and adding a senior citizens activity area will improve the family environment of this heavily utilized local park. Horseshoe pits, new BBQs, new sidewalks, new grass and irrigation system, a medium ramada, and new lighting, will complete the much needed renovations. Fiscal Year 2015: No Current Data Available. Fiscal Year 2016: No Current Data Available.

RELATED PROGRAMS:

15.250 Regulation of Surface Coal Mining and Surface Effects of Underground Coal Mining; 15.252 Abandoned Mine Land Reclamation (AMLR) Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: In 2014, OSMRE awarded \$ 100,000 to Pathfinders Resource Conservation and Development Inc. (Pathfinders) for the Blizzard AML Reclamation Project. The Blizzard Reclamation Project is a 69.5-acre abandoned mine land (AML) site located in Mahaska County, Iowa. Pathfinders leveraged \$100,000 in OSMRE WCAP funding with \$1,004,144 in funding from project partners, Iowa Department of Agriculture and Land Stewardship, the Mahaska Soil and Water Conservation District, and Landowners. Pathfinders plan to grade acidic spoil piles with terraces, incorporate limestone and organic mulch to raise the soils pH, and establish permanent vegetation. These actions will neutralize the acidic spoil material and prevent acid mine drainage from polluting tributaries of Coal Creek.

After sixteen years, as a result of more than \$4 million in grants, nine mine drainage treatment systems and a land reclamation project, three miles of the once lifeless lower Kettle Creek watershed supports a healthy native brook trout population. This improved length of stream connects to 3 additional miles of headwater streams, for a total of six miles of native trout habitat. OSMRES support via the WCAP program allowed for \$ 462,524 of federal funding over several years to leverage partner funding of \$ 1,627,421 for a total \$ 2,089,945 toward this successful restoration effort. The provision of technical expertise, funding support and volunteer assistance came from OSMRE and many partners, including the Pennsylvania Department of Environmental Protection, the Pennsylvania Department of Conservation and Natural Resources, the National Fish and Wildlife Service, the Richard King Mellon Foundation, Hedin Environmental and the Kettle Creek Watershed Association. Fiscal Year 2015: Information not available. Fiscal Year 2016: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Section 404 of Public Law 95-87, State certification of eligibility is required. No opposition to the project from the State Abandoned Mine Land (AML) agency. All applicable Federal and State clearances and permits must be secured. The project should propose to use proven or innovative technology that has a high probability of success and produce tangible results, e.g., fishery restored, stream miles improved, educational and community benefits, pollutants removed from the streams. Funds must be used for the construction phase of a project and there must be demonstrated public support for the project. Also, there must be a plan to address any ongoing operation/maintenance considerations.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: While OSMRE does not directly fund "projects" the funding provided supports non-profit, voluntary, community watershed associations whose projects engage their communities in identifying AMD problems as well as potential solutions and address related watershed/community projects.

In an effort to seek ways to reignite and engage economic redevelopment in Wyoming County, WV, OSMRE/VISTA working at the Rural Appalachian Improvement League, Inc. (RAIL), and RAIL President Dewey Houck, gathered state and community leaders in Mullens, WV to discuss the future of agricultural education, farming, and land use in the county. The main focus of discussion was on the use of Abandoned Mine Lands (AML) and developing youth leadership opportunities in southern West Virginia. The idea is to convert AML areas to mass-yielding high-tunnel farms, which would provide food for local schools, revenue for local residents and opportunities for young farmers, an idea that met with resounding community support. Event participants heard from Agricultural Commissioner Walt Helmick (the first WV Agricultural Commissioner to visit Wyoming County), and a panel of state officials and community leaders. Community leaders and officials shared resources, program, knowledge, and possibilities for funding with local community members to drive this new initiative. With 22% of Wyoming County residents living at or below the poverty line, a program that utilizes Abandoned Mine Lands as important resources in creating community benefits can create sustainable enterprise in the county.

OSMRE/VISTA, serving with Friends of Deckers Creek (FODC) (Morgantown, WV) completed multiple projects focused on acid mine drainage (AMD), remediation, and public interpretation. Most notably, the VISTA completed the Richard Mine Community Report on the largest single source of contamination within the Deckers Creek watershed and the last serious AMD discharge to remain untreated. The report compiled the history of the mine, AMD chemistry and local geology, potential treatment methods and costs, and potential economic benefits. The report was funded through an EPA Urban Small Waters grant and serves as an important outreach tool for FODC in raising awareness of issues surrounding AMD discharge from the Richard Mine.

OSMRE/VISTA serving with the Schuylkill Headwaters Association (Pennsylvania), is continually finding ways to introduce new career opportunities to low-income students by partnering with local organizations. One major partnership is with The Blue Mountain School District. Students from the middle and high school spent the day at the Silver Creek abandoned

mine drainage (AMD) treatment system where they learned about the history of mining in the area, how AMD is formed, and how the Silver Creek system is working to clean the water. The students were split into two groups, half remaining at Silver Creek, where they participated in water quality testing activities including pH, iron content, dissolved oxygen, acidity, and alkalinity. The second group went to the main branch of the Schuylkill River to collect and identify macro invertebrates and learn how to take flow measurements on the stream. Fiscal Year 2015: Information not available. Fiscal Year 2016: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Each proposed watershed project must clearly enhance the sustainability of the watershed organization and must contribute directly to the remediation of acid mine drainage. Candidates must be able to organize their work, work well with community groups and on their own, have an understanding of acid mine drainage remediation and the national Clean Streams program, and write well.

OBJECTIVES:

Title XVI of Public Law 102-575, as amended (Title XVI), directs the Secretary of Interior, acting through the Commissioner, to undertake a program to identify and investigate opportunities to reclaim and reuse wastewaters and naturally impaired ground and surface water in the 17 Western States and Hawaii. Title XVI also provides authority for the Secretary to provide up to the lesser of 25 percent of, or the Federal appropriations ceiling (typically \$20 million), for the cost of planning, design, and construction of specific water recycling projects, as well as up to 50 percent of the cost of Title XVI feasibility studies.

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The Title XVI Program applies to reclamation, recycling, and reuse of municipal, industrial, domestic, and agricultural wastewater and to naturally impaired ground and surface waters. Through this program, Reclamation provides financial and technical assistance for feasibility studies, demonstration projects, and full-scale construction of facilities to deliver and/or treat wastewater for reuse applications. For purposes of the Title XVI Program, a water reuse project is a project (including the necessary facilities and features) that reclaims and reuses municipal, industrial, domestic, or agricultural wastewater or naturally impaired groundwater and/or surface waters.

Consistent with State law, reclaimed water can be used, for a variety of purposes including, but not limited to, environmental restoration, fish and wildlife, groundwater recharge, municipal, domestic, industrial, agricultural, power generation, or recreation. Funds can be used for water treatment features where the improvement of the water quality is necessary to allow for reuse. Reclamation has general authority to participate in planning, research and demonstration of water recycling projects. Specific project authority is required for Reclamation to participate in the construction of a project.

Applicant Eligibility:

Eligible recipients of Title XVI funding are identified under the 1902 Act and include a State, regional, or local authorities; Indian tribes or tribal organizations; or other entities such as a water conservation or conservancy district, wastewater district, rural water district, all located within the 17 Western States or Hawaii. To be eligible to receive funding for construction activities, a water reclamation and reuse project must be specifically authorized under Title XVI.

Beneficiary Eligibility:

Water users, including municipal, industrial, and agricultural, that benefit from the additional drought resistant water source created.

Credentials/Documentation:

To be eligible to receive funding for construction activities, a water reclamation and reuse project must be specifically authorized under Title XVI. Funds for construction activities associated with an individual project will not be disbursed until all Title XVI pre-construction requirements have been met for that project. These include: (1) a finding that the feasibility study meets the requirements of Title XVI; (2) complete compliance with the National Environmental Policy Act and other environmental clearances; (3) an approved determination of financial capability; and (4) an executed grant or cooperative agreement for financial assistance. 2 CFR 200, Subpart E - Cost Principles applies to this program.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Some of the Title XVI water reuse benefits include improving water-use efficiency, providing flexibility during water shortages,

and diversifying the water supply. In areas where municipalities and industry (M&I) are looking to agriculture as a water source, Title XVI projects reduce the need to transfer agricultural water to M&I uses.

Fifty-three projects are specifically authorized to receive funds for construction.

Two demonstration projects have also been undertaken through the general authority. Since the programs inception in 1992, more than \$613 million in Federal cost-share has been leveraged to design and construct water recycling projects.

In FY 2014, nine authorized Title XVI projects received \$19.9 million for planning, design, and construction, and more than \$1.3 million was awarded for nine new Title XVI feasibility studies. Fiscal Year 2015: Information not available. Fiscal Year 2016: Information not available.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The Long Beach Area Water Reclamation Project Alamitos Barrier Recycled Water Project Expansion, received \$1,034,968 in FY 2014 Title XVI funding to increase the effluent treatment capacity of the Leo J. Vander Lans Water Treatment Facility. The treated effluent is used to maintain the Alamitos Barrier, which is an engineered fresh water pressure ridge designed to protect the Central Groundwater Basin and Coastal Plains from seawater intrusion. This project will eliminate the need for potable water to be used in the Alamitos Barrier.

The City of San Jose, California San Jose Area Water Reclamation and Reuse Program received \$4,000,000 in FY 2014 Title XVI funding. This is a joint effort of local municipalities and water districts administered by the City of San Jose to serve recycled water throughout Santa Clara County. Recycled water is used for multiple purposes, including environmental restoration, urban agriculture, landscape and industry.

The Victor Valley Wastewater Reclamation Authority received \$3,000,000 in FY 2014 to construct two subregional water reclamation plants to serve water customers in the City of Hesperia and the Town of Apple Valley, California. The recycled water resulting from these plants will replace groundwater and water imported through the State Water Project from the Bay-Delta. Fiscal Year 2015: Information not available. Fiscal Year 2016: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Reclamation will place priority on funding projects that reduce existing water diversions or address specific water supply issues in a cost-effective manner, address environmental and water quality concerns, are economically justified, and meet other program goals.

Fiscal Year 2014: A number of projects will address the connection between water use and energy use. For example, The Richmond Irrigation District in Utah will pipe approximately eight miles of open canal, install nine meters, and construct two hydropower facilities with a combined 300 kilowatt capacity. The project is expected to result in annual water savings of 4,800 acre-feet.

Several projects will save energy through water conservation. For example, the Avra Valley Irrigation and Drainage District in Arizona will line 3.2 miles of open canal and will install flow meters and two new, more-efficient electric motors on irrigation pumps, expected to result in 525 acre-feet of water savings annually. The District estimates that completion of the project will decrease pumping needs and reduce energy consumption by approximately 2,635,918 kilowatt-hours per year.

Other projects are expected to make contributions to environmental restoration by conserving water or making other improvements that benefit endangered or threatened species. For example, in Oregon, the Central Oregon Irrigation District will undertake water management improvements with expected savings of 2,552 acre feet of water annually. Through a partnership with the Deschutes River Conservancy, 2,000 acre-feet of conserved water will be allocated as a permanent instream flow in a critical reach of the Crooked River.

Examples of all projects funded to date are available at <http://www.usbr.gov/WaterSMART/weeg/>. Fiscal Year 2015: Information not available. Fiscal Year 2016: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Projects should seek to conserve and use water more efficiently, increase the use of renewable energy and improve energy efficiency, protect endangered and threatened species, facilitate water markets, or carry out other activities to address climate-related impacts on water or prevent any water-related crisis or conflict.

OBJECTIVES:

Under this authority, Reclamation will fund various activities for the benefit of

at-risk terminal lakes to provide water and assistance to a terminal lake to carry out research, support, and conservation activities for associated fish, wildlife, plant, and habitat resources in Nevada and California.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements or Contracts)

USES AND USE RESTRICTIONS:

Funding is directed to be used for terminal lakes and associated watersheds in the State of Nevada and California. For further information please contact the regional office.

Applicant Eligibility:

State and local public agencies, Indian tribes, nonprofit organizations, educational institutions, and individuals may submit a proposal which will be considered by Reclamation. Foreign entities and Federal agencies are not eligible to apply.

Beneficiary Eligibility:

State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, individuals, small businesses, profit organizations, private organizations, quasi-public nonprofit organizations, other private institutions/organization, general public, native American organizations, higher education institutions, irrigation districts, municipal water authorities, farmers/ranchers/agriculture producers, and land/property owners.

Credentials/Documentation:

(1) A detailed written technical proposal including background data regarding the applicant, technical approach proposed to accomplish the work, a scope of work that separates the work into major tasks, type of personnel implementing the proposal, experience in performing this type of work, benefits to be received by implementation of the project(s), environmental impact(s), timeline(s), the level of cooperation with other parties involved in the proposal, and other information that may be useful for proposal evaluation. (2) A detailed cost proposal by project including a budget covering labor categories, salaries and wages with estimated hours, fringe benefits, travel, equipment, supplies, subcontracts, indirect cost rates, other funding sources and commitments, cost-sharing, value of in-kind contributions of good and services, and a narrative discussion. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Funding is allowed for work that will be for the benefit of at-risk terminal lakes and to carry out research, support, and conservation activities for associated fish, wildlife, plant, and habitat resources in Nevada and California. An environmental NEPA document may be required depending on the nature of the proposal and its impact on the environment. Compliance with National Historic Preservation Act and Endangered Species Act may also be required.

Pre-application Coordination: Although it is not mandatory, Reclamation strongly encourages offerors to submit a pre-proposal to eliminate the possibility of submitting a full proposal that would not be considered for award.

The pre-proposal should describe 1) how the proposal will provide benefits to a terminal lake or associated watershed, 2) the quantity of water anticipated to be provided if part of the proposal or benefit to the associated riparian and watershed resources, 3) the associated estimated cost, 4) potential environmental impacts, 5) state, local and other permits or approvals needed to implement the proposal. Pyramid Lake Pre-application Coordination: Initially pre-proposal solicitation announcement was issued by Reclamation; the initial solicitation occurred in FY05. No additional solicitation announcements have occurred.

This program is excluded from coverage under E.O. 12372. No additional solicitation is planned in FY14. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funding is allowed for work for the benefit of at-risk terminal lakes and to carry out research, support, and conservation activities for associated fish, wildlife, plant, and

habitat resources in Nevada and California. For Summit Lake, Reclamation will only accept proposals from the Summit Lake Paiute Tribe, since the lake is entirely within the reservation boundaries and any proposal affecting the lake would need the consent of the Tribe; the exception is if DTL funding is reprogrammed in another DTL grant for Summit Lake. For all other terminal lakes, Reclamation may accept applications after the applicant provides enough pre-application information to Reclamation to assure that the proposed work will be for the benefit of at-risk natural desert terminal lakes and associated riparian and watershed resources in Nevada and California or fund designated activities, the associated cost is reasonable, and it is likely Reclamation can satisfy its federal Indian trust, endangered species, environmental, and other responsibilities. Discretionary funding opportunities will be posted on Grants.gov. Submission of a complete technical proposal and a project budget proposal in accordance with the instructions in the FOA is mandatory. In addition, applicants must submit all applicable SF424 forms, which are referenced in the FOA. Reclamation does not anticipate accepting unsolicited applications in FY14.

Award Procedure:

Terminal Lakes Proposals will be evaluated using a merit-based review process. Some past Pyramid Lake proposals were also reviewed on the basis of a competitive, merit-based review process, and were rated in accordance with the evaluation criteria stated in the FOA. Reclamation made awards to the highest-rated proposals based on the amount of funding available at that time. Reclamation reserves the right to prioritize projects based on availability of funds and to ensure balance among the program objectives listed in the FOA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Contact Reclamation for the range of time when proposals are approved or disapproved.

Appeals:

Such programs shall consist of cost-effective measures and associated works to reduce salinity from saline springs, leaking wells, irrigation sources, industrial sources, erosion of public and private land, or other sources. For ARRA funded projects and in addition to the program objectives above, the section 3 of the ARRA states the following objectives:

- (1) To preserve and create jobs and promote economic recovery.
- (2) To assist those most impacted by the recession.
- (3) To provide investments needed to increase economic efficiency by spurring technological advances in science and health.
- (4) To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits.
- (5) To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Eligible owners or operators in approved project areas may receive assistance to treat salinity problems. For further information, please contact the regional office.

Applicant Eligibility:

Federal, Interstate, Intrastate, State, Local, Sponsored organizations, Public nonprofit institution/organizations, Federally Recognized Indian Tribal Government, Individual/Family, Minority Group, Specialized Group, Small Business, Profit Organization, Other private institution/organization, general public, and Native American Organizations.

Beneficiary Eligibility:

Any person in the Colorado River Basin will benefit who uses or reuses water for irrigation, domestic, municipal or industrial water supply, or for fish and wildlife habitat.

Credentials/Documentation:

Some projects may require compliance with the National Environmental Policy Act and Endangered Species Act. Information regarding whether these requirements must be met will be included in the funding opportunity announcement posted on www.grants.gov. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Funding opportunity announcements for this program, along with registration procedures, application packages and instructions, SF-424 forms and any other forms to be used to submit application information, points of contact, and procedures for submitting applications will be available on www.grants.gov.

Award Procedure:

Reclamation will solicit proposals and award funding through a Funding Opportunity Announcement (FOA) process. The FOA will request proposals from public and private sectors that would control salinity based on cost per ton. The proposals will be ranked based on their cost effectiveness for preventing salt from entering the Colorado River system. The ranking would consider risk factors that might affect the project's performance. Upon receipt of applications/proposals by the date identified in the announcement(s), the applications will be reviewed to determine if application/proposal(s) are consistent with requirements identified in the announcements. The application/proposal(s) are reviewed against identified criteria by a Federal technical team of experts, that may include representatives of states as advisors.

Based on the review, a ranking will be defined. Negotiations will be conducted and/or awards will be made based on recommendations from the technical experts. Award will be based on those applications best meeting the needs of the program, including cost and risk factors.

15.529 Upper Colorado and San Juan River Basins Endangered Fish Recovery Programs; 15.535 Upper Colorado River Basin Fish and Wildlife Mitigation Program.; 15.538 Lower Colorado River Multi-Species Conservation Program.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The Blue Cut/Mammoth Unit that was selected in the 2012 FOA. Reclamation has executed a cooperative agreement to provide \$5.5 million. This project will replace approximately 45.6 miles of earthen canals and laterals with a pressurized pipeline system resulting in the reduction of 3,789 tons of salt per year in the Colorado River at an anticipated cost of approximately \$67.57 per ton. The pressurized pipeline will serve 5,680 acres resulting in additional on-farm salt savings. Construction began in 2014 and is expected to be completed in 2016. Fiscal Year 2015: No information available. Fiscal Year 2016: No information available.

CRITERIA FOR SELECTING PROPOSALS:

In 1984, the Salinity Control Act was amended to direct the Secretary of the Interior to give preference to units which reduce salinity at the least cost per unit of salinity reduction (or cost-effectiveness). Cost-effectiveness is defined as the Salinity Program's annual cost per ton of salt prevented from entering the Colorado River system. Conceptually, cost-effectiveness is analogous to determining the cost per mile to own and operate a car. That computation combines the annual expenses (loan payments, gas, maintenance, etc.) and divides by the miles traveled each year. The key to understanding this approach is to appreciate that the government evaluates all projects as if the money is borrowed from a loan institution and repaid in annual installments over the life of the project. This economic evaluation principle is required by the "Economic and Environmental Principles Guidelines for Water and Related Land Resources Implementation Studies", March 1983. This method lends consistency in the comparison of non-federally financed alternatives (which must borrow funds) to Federally financed projects. Each proposal will be evaluated by a application review committee in accordance with the following criteria and corresponding percentage weights: (a) Technical merit - those passing will be evaluated further, (b) Cost effectiveness 70 percent of the annual cost for each ton of salt load reduction, expressed in dollars per ton, (c) Performance risk 30 percent of performance risk will evaluate the cost and effectiveness risks of the proposal. More detailed information will be included in each funding announcement or may be obtained from the Salinity Control Program contacts listed above. For Recovery Act projects: The purposes are among others, to quickly and prudently commence activities that preserve and create jobs and to promote economic recovery, and to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits. To meet these purposes, Reclamation will allocate funds based on the criteria set forth in the Recovery Act and the accompanying conference report, and will target activities that quickly infuse money into the economy.

Fiscal Year 2014: Cost-share cooperative agreements were awarded to a number of non-federal partners, such as states or counties, in an effort to facilitate planning and development of recreation and fish and wildlife facilities on various Bureau of Reclamation water project recreation areas. These projects were identified primarily through existing resource management plans (RMPs), budget availability, and in coordination with managing partners. Many of the projects funded promote active and health youth opportunities on public lands and waters through development and/or expansion of outdoor day-use and camping facilities, water access points to enjoy fisheries, etc. Provided below are just a few of the many examples of cost-share funded projects in Reclamation. Kansas Parks and Wildlife has embraced a vision to promote opportunities for youth/young adults. A multi-year cost-share project is focused on the development of a kids fishing pond to connect educational and recreational opportunities with kids and public lands. This project area is adjacent to day-use facilities for outdoor education programs, as well as near camping facilities to accommodate family outings. Reclamation partners in Nebraska and South Dakota are improving access and opportunities through the addition of fishing docks and piers, with one project addition for a kids-specific fishing dock to improve access to an existing fishing pond. North and South Dakota managing partners are providing shade shelters for visitors and planting vegetation/trees to improve habitat. Partners in Colorado are providing potable water and addressing critical improvements to camping restrooms and facilities.

Partner agencies with Oklahoma have provided critical support and project work to reduce hazardous fuels through prescriptive vegetation treatments, thereby promoting healthy successional and resilient vegetation layers and minimizing threat from wildland fire to facilities/infrastructure, public visitors and adjoining landowners. Oklahoma and Reclamation partnerships have also engaged youth organizations to build and maintain non-motorized nature trails/bike trails to accommodate increasing demand for diverse recreational opportunities on public lands.

These projects represent some of GP Regions key accomplishments through

the use of Title 28 Cost-Share dollars. These and aAll projects help meet Reclamation goals and objectives identified in resource management planning efforts, and are planned and implemented in cooperation with managing partners. Cost sharing many of these projects leverages federal funds, promotes shared stewardship responsibilities, advances the mission and goals of the agency, while promoting recreation opportunities and access to public lands. Local communities and partners benefit from the added investment in their local economies, and result in increased visitation and tourism dollars. Fiscal years 2013 and 2014 continued efforts throughout New Mexico, Colorado, and Utah to improve facilities and opportunities for the recreating public. Accomplishments include (1) Colorado (Rifle Gap Reservoir) Completion of accessibility improvements and park maintenance facilities, installation of shade shelters, and construction of additional campsites to accommodate increasing numbers of visitors, (2) New Mexico (Navajo Reservoir) Continued upgrades to aging and inadequate water and wastewater systems and electrical systems upgrades at Cottonwood and Pine sites, installation of accessible fishing piers at Cottonwood Campground, installation of a temporary AIS inspection station, and completion of accessibility improvements at Texas Hole. (3) Utah Completion of planning efforts and start of Phase I recreation rehabilitation program (Steinaker Reservoir), and completion of the redesign and construction of the entrance at Jordanelle Reservoir State Park to alleviate traffic congestion on Highway 40. This included the construction of a new entrance station, widening of entry road, addition of a second traffic lane, installation of accessible parking and a hardened walkway between features. Recreation rehabilitation at Starvation Lake State Park was completed with the entry station relocated closer to the park boundary to better accommodate traffic. The new entry station area includes both manned and self-service pay stations, parking lot and vault toilet.

As a result of a potential turnback at Grand Coulee North Dam Park, funds were utilized for O&M and repair public health and safety structures such as replace electrical systems and replace dilapidated wood and roof on structures. Howard Prairie Resort was a turn back from concession operations. Local partner faces major rehabilitation and repairs so funding was used to replace old restroom with accessible model, accessible parking and access routes; continued improvements to the water and wastewater systems at Pine, Sims, and Cottonwood recreation areas (Navajo Reservoir); construction of accessible fishing piers at Cottonwood Campground (San Juan River) improvements to the visitor center at Brantley Lake State Park, New Mexico (completed 2013); phase II rehabilitation of recreation facilities at Starvation Lake State Park in Utah, including expansion of Mountain View Campground to increase capacity to meet demand (completed 2013); activities to begin reconstruction of the entry area at Jordanelle Reservoir, Utah, including new entrance station, widening of road to add a second lane to accommodate traffic volume, accessible parking and hardened walkway between features (2013); There were continued cost-share arrangements with States of Colorado, New Mexico, and Utah to rehabilitate facilities and perform accessibility retrofits, including continued improvements to the water and wastewater systems at Pine, Sims, and Cottonwood recreation areas (Navajo Reservoir); construction of accessible fishing piers at Cottonwood Campground (San Juan River) improvements to the visitor center at Brantley Lake State Park, New Mexico (completed 2013); phase II rehabilitation of recreation facilities at Starvation Lake State Park in Utah, including expansion of Mountain View Campground to increase capacity to meet demand (completed 2013); activities to begin reconstruction of the entry area at Jordanelle Reservoir, Utah, including new entrance station, widening of road to add a second lane to accommodate traffic volume, accessible parking and hardened walkway between features (2013). environmental protection, and other infrastructure that will provide long-term economic benefits. To meet these purposes, Reclamation will allocate funds based on the criteria set forth in the Recovery Act and the accompanying conference report, and will target activities that quickly infuse money into the economy.

CRITERIA FOR SELECTING PROPOSALS:

The Las Vegas Wash Coordination Committee has decided that the SNWA will be the lead agency for receiving funding for this program due to the high costs and types of environmental improvement and enhancement, and ability to maintain restoration projects. The Las Vegas Wash Program plays an important role in environmental and water resource issues in Southern Nevada. Historically, the Las Vegas was an ephemeral stream carrying storm flows from the Las Vegas Valley to Lake Mead and the Colorado River. Urban development over the past 60 years has resulted in the formation of the wetlands that helped remove nutrients from these wastewater flows. As the rate of discharges increased, erosion also increased, gradually destroying the existing natural treatment systems and wildlife habitat and creating a large delta in the Las Vegas Bay of Lake Mead. Accelerating erosion, declining water quality, and loss habitat are some of the more pressing issues. Proposals submitted will be reviewed and awarded based on priority fulfillment of the 44 action items identified in the Plan and the availability of funding appropriations.
