NOTICE OF TECHNICAL CONFERENCE

(March 8, 2013)

Take notice that on April 16, 2013, the staff of the Federal Energy Regulatory Commission (Commission) will hold a technical conference on changes to the company registration process applicable to filers of electronic tariffs (eTariff) and other filings, such as Electric Quarterly Reports (EQRs), requiring the use of a company registration account, as directed by the Commission in its February 7, 2013 order.¹ The conference will take place from 10:00 a.m. to 1:00 p.m. (EST), in a Commission Meeting Room at 888 First Street, NE, Washington, DC 20426. The public may attend.

The Company registration system applies only to certain specified filings that require the use of a company identification number and does not apply to, or change the procedures relating to, other filings made through the Commission's eFiling system. At the conference, Commission staff will demonstrate the new company registration system and address questions. As described in the February 7, 2013 order, the new system adopts a revised method of authenticating filings requiring the use of a company registration number. Under this system, the filer will maintain a list of eRegistered agents which it has authorized to submit filings on its behalf. Each agent will use its eRegistration account to log onto FERC Online, where the agent will choose the type of filing (e.g., eTariff), and then will be presented with a list of all the filing companies for which they are registered to make that type of filing.²
