

GEOTHERMAL TECHNOLOGIES

Legacy Collection

Easy access to current and legacy documents sponsored by DOE

Search more than 19,000 items in this 1970s-forward collection

- Quickly retrieve citations and reports using Basic Search
- Refine searches using Advanced Search
- Sort and organize for more meaningful search results

A valuable source of DOE-sponsored geothermal information at your fingertips!

Find important historical and current citations and reports from:

- DOE and its national laboratories
- U.S. industry
- International sources

***Stay better informed of developments in geothermal technology...
gain insights from studies in the field since the 1970s***

Get printable full-text documents of different types including:

- Technical and programmatic reports
- Geothermal resource maps
- International journal citations

Serving the needs of the scientific researcher and casual browser alike at:

www.osti.gov/geothermal

The Geothermal Technologies Subject Portal founding sponsorship by the
Geothermal Technologies Program, DOE Energy Efficiency and Renewable Energy (EERE),
and developed and maintained by
the DOE Office of Scientific and Technical Information (OSTI).
