Do you have cascading changes?

Most changes to mine and lease volumes (lease production, transfers, sales) in one month will cause volume changes (to sales, transfers, lease allocations) in subsequent months (cascading effect). Do any of the volume changes reported above cause changes in mine or lease-level inventories or lease-level allocation ratios for subsequent months? (Yes/No) _____

If the answer is "Yes," prepare another Volume and Value Adjustment page for each affected month. In all likelihood, you will need to submit volume adjustments for all months after the month you reported changes for (above) through the most recent month for which you submitted original data.
