

United States Department of the Interior

MINERALS MANAGEMENT SERVICE Washington, DC 20240

CVD Mail Stop 3670

AUG 19 1900

Dear Operator/Payor:

We notified you by a letter dated July 7, 1998, that at least one of your Federal oil and gas leases was selected for possible inclusion in the royalty-in-kind pilot project that the Minerals Management Service (MMS) of the U.S. Department of the Interior is implementing in partnership with the State of Wyoming on October 1, 1998.

The competitive bidding process has been completed, and at least one of your properties was successfully bid. The attached list shows all properties included in the first 6-month term of the pilot and also the winning bidders. You can also find this list on the Royalty Management Program's Home Page (www.rmp.mms.gov) under "Our Future--Royalty In Kind Study Pilots."

The operator of each property listed in the attachment will be required to deliver crude oil royalty volumes equal to the volume of oil production times the lease royalty rate percentage applicable to each production month to the royalty oil purchaser at the applicable royalty meter or tank. Any plans you are currently making for crude oil production, storage, transportation, and sales should take into account that the royalty percentage of your production from the identified property(ies) will be delivered to our oil purchaser(s) beginning October 1, 1998.

We will hold a meeting in Casper, Wyoming on September 15, 1998, to discuss delivery, reporting, communication, and imbalance issues with interested operators, payors, and oil purchasers. You may check the Federal Register and the Royalty Management Program's Home Page after September 1, 1998, for the time and location of the meeting. In the meantime, if you have any questions about the pilot, please call Mr. Bonn Macy at 202-208-3827.

Sincerely,

Lucy Querques Denett Associate Director for

Royalty Management

Donald 2. Sant
