Report Drill Down capabilities include MACOM, SUBCOM and Functional Dimensions as selection criteria and are relevant to DOD data only.

The Federal Procurement Data System - Next Generation (FFDS-NG) is a dynamic, real-time database. Updates to data, including new actions, modifications, and corrections are made on a regular basis. Such updates could read such changes for the PFDS-NG data used to compile reports on actions for current analyzer (or print final views. Accordingly, all reports need to be viewed with this in mind. It should also be noted that availability of Dol data entered into PFDS-NG is subject to a 90-day delay for non Dol users.
