LEASE_EFF_DT	DateOccurred	LEASE_EXPIR_DT	OSM Notes				
19791001	20120810	20081228	Event is associated with a ROW platform located on GC 19 and previously under the authority of lease G04131.	ROW			
19550901	20130330	20111031	Incident occurred on a structure being decommissioned.	DECOM			
19840701	20130126	19891001	Incident occurred while plugging a well on the terminated lease.	DECOM			
20041101	20130117	20091030	Occurred during permanent abandonment operations of a well on a relinquished lease.	DECOM			
19710201	20120928	20090812	Occurred during decommissioning operations on a terminated lease.	DECOM			
19741201	20120905	20040510	Latest lease number is G27006, but this incident occurred during P&A operations on wells associated on G02832 and a structure that had been assigned to RUE G23635.	DECOM			
19830701	20120803	20091031	Event occurred during P&A of a well on terminated lease G05517.	DECOM			
19710101	20120721	20111027	Event occurred during P&A of a well on terminated lease G02091.	DECOM			
19741201	20120720	20120115	Occurred during well abandonment operations on a terminated lease.	DECOM			
19951101	20120515	20080404	Occurred during P&A activities on a terminated lease.	DECOM			
19940701	20120305	20110302	Occurred during P&A activities on a terminated lease.	DECOM			
20001201	20110613	20100216	Occurred during P&A activities on a terminated lease.	DECOM			
19730201	20110418	20100601	Occurred during well abandonment operations on a terminated lease.	DECOM			
19970201	20100929	20030805	Occurred during well abandonment operations on a terminated lease.	DECOM			
19740501	20100528	20080709	Occurred during permanent abandonment operations on a terminated lease.	DECOM			

19550101	20100417	20100308	Occurred during well abandonment operations on a terminated lease.	DECOM
19750701	20090826	20090430	Incident associated with the PA of a toppled platform on terminated lease.	DECOM
19830701	20090712	20081027	Occurred during permanent abandonment operations on a terminated lease.	DECOM
19811201	20090501	20070628	Occurred during permanent abandonment operations on a relinquished lease.	DECOM
19890501	20080713	20060731	Incident occurred during rig demobilization associated with abandonment work on a relinquished lease.	DECOM
20020701	20080610	20070911	Occurred during facility decommissioning on an expired lease.	DECOM
19801101	20080413	20060731	Occurred during facility decommissioning on a relinquished lease.	DECOM
19760401	20080106	20050713	Occurred during permanent abandonment operations on a terminated lease.	DECOM
19940101	20070211	20020727	Duplicate reports - abandonment operations on a terminated lease.	DECOM
19940101	20070210	20020727	Duplicate reports - abandonment operations on a terminated lease.	DECOM
19750901	20060220	20040717	Incident occurred in plug and abandonment work on a terminated lease	DECOM
19970801	20030705	20020731	Incident associated with a permanent plugg operation with a dive boat - well stub removal.	DECOM
19800101	19961207	19951004	Incident occurred in plug and abandonment work on a terminated lease.	DECOM
19450828	20110522	20070505	Incident occurred during decommissioning operations of RUE platforms previously associated with Lease OCS 0054.	DECOM-RUE

19810901	20000121	19921230	Transocean Rig 96 was being towed by 3 tugs in the Ship Shoal 332 area when a motor failed and dropped an anchor cable. The anchor dragged across a 24" Poseidon Pipeline. Approximately 1800 bbls of crude oil was release from the line.	INDEP
19960701	20091230	20070527	Pollution incident associated with an expired lease.	POLL
19860701	19970619	19910816	PA Well leaking - E1 well was bubbling and caused a sheen.	POLL
19880801	19960309	19940212	G09762 expired on 2/12/94. Pollution incident on expired lease.	POLL
20030701	20030529	20120601	Event occurred on a RUE platform with previous authority of lease G01014. The incident occurred on a jackup rig on site to sidetrack a well that surfaced on an RUE platform (previously associated with lease G22606) to a bottom hole location on a neighboring block.	PROD
20010701	20130531	20100707	Flowing pipeline assoicated with hurricane dame on an expired lease.	RUE
20020501	20090725	20070430	The incident occurred on a platform (pending RUE) which was being maintained to process production from a well on another lease.	POLL
19620501	20081130	20080511	Work associated with equipment repairs on an RUE platform formally associated with the terminated lease.	RUE
19541201	20080405	20031020	incident associated with a derrick barge under tow - barge made contact with a platform in the EI 43 field.	RUE
19970701	20080301	20050123		INDEP

19721001	20071115	20030220	Incident occurred on the deck of a motor vessel and wouldn't fall under our jurisdiction. IP was tying up to a Marathon platform according to report.	INDEP
19721101	20070823	19920205	OCS-G 02181 expired on 2/5/92; however, the lease OCS-G02940 is still a active primary lease on the same area/block. A mixture of diesel fuel and parafin wax spilled into the gulf from a valve on a storage tank on board the vessel (Q-4000). Incident associated with pipeline repairs - A coil tubing unit was rigged up to the pipeline at Green Canyon 177 to clean out a paraffin plug.	PROD
19960901	20070217	20050331	Platform on which this incident took place is associated with ROW G18794 which became effective 9/26/2007, albeit belatedly.	POLL
19910701	20070204	20060227	Platform on which this incident took place was associated with RUE G23645.	ROW
19830701	20050820	20001212	Platform on which incident took place was associated with RUE G30071.	RUE
19770801	20050624	20020618	Platform on which incident took place was associated with RUE G23672.	RUE
19680701	20040718	19980403	Platform on which incident took place was associated with ROW G15988.	RUE
19801101	20031128	19940409	The terminated lease expired on 11/1/2003. Incident occurred 3 weeks later. Classify as DECOM assuming incident occurred while maintaining facility until DECOM.	ROW
19620501	20031121	20031101	Helicopter crash - not under our jurisdiction. The lease at the time the accident occurred was OCS-G16502 that was effective on 7/1/96 and expired on 7/25/07. The platform that was involved was associated with ROW G22103.	DECOM
19760401	20030116	19960220		ROW

19811201	20011010	20000322	Platform on which this incident occurred was belatedly transferred to an RUE authority G23617 in order to produce 2 wells which bottom holed on neighboring leases.	RUE
19810901	20000816	19971110	The platform on which this incident occurred was associated with ROW G21469 which was active from 6/28/2000 through 3/27/2001. The platform authority has since been transferred to lease G19863.	ROW
19480717	20000815	19580715	ST 53 had a lease (OCS-G 04000) affiliated with the area/block at the time of the incident that was producing and is still active today. The lease was effective 3/1/79 and the platform was installed in 1980.	PROD
19810101	20000405	19950927	The platform on which this incident occurred had been transferred to ROW G15985. On 11/19/2003 the authority was again transferred to lease G17182.	ROW
19670601	19990907	19880731	This pollution incident occurred on a ROW platform, G04282. Platform authority transferred to ROW G14094 on 12/27/1993. This ROW was relinq on 2/25/2002. Incident occurred during this time.	POLL
19810901	19981022	19921230	While welding on a crane gas was expelled from a 2900 controller on a nearby test separator. The area/block had been releases as G13628 which was producing when the incident occurred. The platform authority history does not reflect the transfer of the platform to the new lease.	ROW
19750701	19980328	19910806	Incident associated with well PA operations following lease expiration.	PROD
19840601	19970821	19951204		DECOM
