

**EXPLANATION**

- Well field and name
- Retention basin
- Line of equal difference in October mean water levels from the water-year periods 1990-99 and 2000-2009. Dashed where approximately located. Hatchures represent an enclosed downward slope in the contoured surface. Contour interval 0.5 foot
- Canal
  - Primary
  - Secondary
  - Other and streams
- Levee
- Water-control structure and number
- Cities
- Groundwater site
  - < 80 percent complete
  - > 80 percent complete
- Surface-water site
  - < 80 percent complete
  - > 80 percent complete
- Index number refers to figure 8-1 and table 8-1

Base from Miami-Dade County and U.S. Geological Survey digital data, 1:100,000, North American Datum 1983 MARS State Plane Florida, East, North American Vertical Datum 1986.
