

EXPLANATION

- Well field and name
- Retention basin
- Line of equal difference between the 25th percentiles of all water levels for water-year periods 1990-99 and 2000-2009. Dashed where approximately located. Hashures represent an enclosed downward slope in the contoured surface. Contour interval 0.5 foot
- Canal
 - Primary
 - Secondary
 - Other and streams
 - Levee
- Water-control structure and number
- Cities
- Groundwater site
 - < 80 percent complete
 - > 80 percent complete
- Surface-water site
 - < 80 percent complete
 - > 80 percent complete
- Index number refers to figure 8-1 and table 8-1

Base from Miami-Dade County and U.S. Geological Survey digital data, 1:100,000, North American Datum 1983 HARN State Plane Florida, East, North American Vertical Datum 1988.

Difference Between the 25th Percentiles of all Water Levels for Water-year Periods 1990-99 and 2000-2009, Miami-Dade County, Florida
