

**EXPLANATION**

- Well field name
- Retention basin
- Line of equal difference between the 50th percentiles of all water levels for water-year periods 1990-99 and 2000-2009. Dashed where approximately located. Hatchures represent an enclosed downward slope in the contoured surface. Contour interval 0.5 foot
- Canal
  - Primary
  - Secondary
  - Other and streams
  - Levee
- Water-control structure and number
- Cities
- Groundwater site
  - < 80 percent complete
  - > 80 percent complete
- Surface-water site
  - < 80 percent complete
  - > 80 percent complete
- Index number refers to figure 8-1 and table 8-1

Base from Miami-Dade County and U.S. Geological Survey digital data, 1:100,000. North American Datum 1983 MARS State Plane Florida, East. North American Vertical Datum 1988.

**Difference Between the 50th Percentiles of all Water Levels for Water-year Periods 1990-99 and 2000-2009, Miami-Dade County, Florida**
