

Planning List for SMD Solicitations

Last updated February 11, 2013

The following list is the NASA Science Mission Directorate (SMD) planning list for solicitations issued as Broad Agency Announcements (including NASA Research Announcements (NRAs), Announcements of Opportunity (AOs), and Cooperative Agreement Notices (CANs)). This list represents a snapshot of SMD's plans as of the revision date. It is important to note that these are projected solicitations and planning dates only. NASA cannot guarantee that the final solicitations will be released, or that they will be released by the planning date.

The release of any of these planned solicitations has not been formally approved by NASA. By offering this information to prospective investigators at this time (prior to formal approval and release by NASA), NASA is under no obligation to issue the solicitation and solicit proposals. Any costs incurred by prospective investigators in preparing submissions in response to this information are incurred completely at the submitter's own risk. The ability of the Government to issue any of these planned solicitations is contingent upon the expectation of sufficient appropriated funds and the ability of the Government to make awards is contingent upon the availability of sufficient appropriated funds. **If you have questions, please contact Marc Allen at 202 358-0733 or email at marc.allen@nasa.gov.**

FY 2013 Planned

NRA, Research Opportunities in Space and Earth Sciences 2013 (ROSES-13), Q2

Pre-Aerosol, Clouds, and ocean Ecosystem (PACE), Q3

AO, Earth Venture I-2 (EVI-2; formerly EV Instruments), Q4

NRA, Earth Venture S-2 (EVS-2; formerly EV Suborbital), Q4

FY 2014 Planned

NRA, Research Opportunities in Space and Earth Sciences 2014 (ROSES-14), Q2

AO, Astrophysics Explorer SMEX, Q1/2

AO, Next Generation SOFIA Instruments, Q2/3

AO, EVI-3, Q4

KEY: Q1 (Fall) = Oct-Dec, Q2 (Winter) = Jan-Mar, Q3 (Spring) = Apr-Jun, Q4 (Summer) = Jul-Sep
