

FY16 Secretary's Minority AIDS Initiative Fund List of Awards

| HHS Agency/Office | Project Title | Purpose | Primary Racial/Ethnic Minority Groups Served | FY16 Awarded Total |
|-------------------|--|---|--|--------------------|
| CDC | THRIVE (demonstration project) | To support state and local health departments in collaborating with community-based organizations, health care clinics and providers, behavioral health providers, and social services providers to develop comprehensive models of prevention, care, behavioral health, and social service for gay men of color who are at risk for or living with HIV. Health departments in seven jurisdictions are involved in this efforts: Alabama, Baltimore, District of Columbia, Louisiana, New York City, Philadelphia, and Virginia, as well as HealthHIV, a national nonprofit providing culturally competent technical assistance, training, and capacity building services to health departments and their partners. | American Indians, Alaska Natives, Blacks/African Americans, Hispanics/Latinos | \$ 16,500,000 |
| CDC | Partnerships for Care (P4C) (demonstration project) | To build sustainable partnerships among CDC-funded state health departments and HRSA-funded health centers to support expanded HIV service delivery in communities highly affected by HIV, especially racial/ethnic minorities. Under P4C, health departments and health centers are working together to increase the identification of undiagnosed HIV infection, integrate HIV services into primary care, and enhance the use of surveillance and electronic health record data to improve linkage to and retention in care and improve HIV outcomes along the continuum of care for disproportionately impacted racial and ethnic minority populations living with HIV. Health departments and health centers in four states are participating in this demonstration project: Florida, Maryland, Massachusetts, and New York. | Blacks/African Americans, Hispanics/Latinos | \$ 2,600,000 |
| CDC | Project PRIDE (demonstration project) | To provide support to 12 health departments to implement two public health strategies – PrEP and Data to Care – to reduce new HIV infections in communities of color among gay, bisexual, and other men who have sex with men and transgender persons. | American Indians, Alaska Natives, Asians, Blacks/African Americans, Hispanics/Latinos, Native Hawaiians, Pacific Islanders | \$ 932,430 |
| CDC | Development of Tools to Engage Adolescent MSM in HIV Prevention Efforts | To support the development of tools and other resources to better engage racial/ethnic minority adolescent gay males in HIV prevention efforts through the use of formative research. | Blacks/African Americans, Hispanics/Latinos | \$ 900,000 |
| CDC | Strategic Partnerships & Health Marketing Services for the Act Against AIDS Campaigns | To provide communication tools for clinical and community-based providers serving racial/ethnic minority transgender populations that will assist with HIV prevention for those at high risk, linkage and retention to care for those living with HIV, and stigma-reduction efforts. | Blacks/African Americans, Hispanics/Latinos | \$ 851,494 |
| CDC | Evaluation of a Model to Deploy Disease Intervention Specialists (DIS) to Improve HIV Outcomes | To evaluate the integration of activities that support various parts of the HIV prevention and care cascade into the routine STD prevention work of Disease Intervention Specialists in four sites to improve HIV outcomes among racial/ethnic minority people living with HIV. | Blacks/African Americans, Hispanics/Latinos | \$ 742,426 |
| CDC | Increase Access to Care for Black MSM | To provide in-person assistance following HIV testing to help black men who have sex with men to enroll in health insurance. | Blacks/African Americans | \$ 400,000 |

| | | | | |
|------|--|---|--|--------------|
| HRSA | Partnerships for Care (P4C) (demonstration project) | To build sustainable partnerships among CDC-funded state health departments and HRSA-funded health centers to support expanded HIV service delivery in communities highly affected by HIV, especially racial/ethnic minorities. Under P4C, health departments and health centers are working together to increase the identification of undiagnosed HIV infection, integrate HIV services into primary care, and enhance the use of surveillance and electronic health record data to improve linkage to and retention in care and improve HIV outcomes along the continuum of care for disproportionately impacted racial and ethnic minority populations living with HIV. Health departments and health centers in four states are participating in this demonstration project: Florida, Maryland, Massachusetts, and New York. | Blacks/African Americans, Hispanics/Latinos | \$ 7,000,000 |
| HRSA | Implementing a Jurisdictional Public Health Approach to HCV Diagnosis and Treatment of Co-Infected Individuals | To enhance the infrastructure and capacity of Ryan White HIV/AIDS Program Part A and/or B recipients to rapidly expand HCV testing and treatment through provider and patient education, technical assistance, and structural improvements to increase access to care and adherence for racial/ethnic minority populations. | American Indians, Alaska Natives, Asians, Blacks/African Americans, Hispanics/Latinos, Native Hawaiians, Pacific Islanders | \$ 3,800,000 |
| HRSA | Improving Access to Care: Using Community Health Workers to Improve Linkage/Retention in Care | To increase the utilization of community health workers to improve access to health care and health outcomes for people of color living with HIV. | Blacks/African Americans, Hispanics/Latinos | \$ 2,000,000 |
| HRSA | Addressing HIV & Housing through Data Integration to Improve Health Outcomes | To support the integration of housing and HIV health care data systems to facilitate a coordinated and comprehensive approach to HIV/AIDS housing, care, and support services for homeless and unstably housed people of color living with HIV. | Blacks/African Americans, Hispanics/Latinos | \$ 1,200,000 |
| HRSA | Building Care and Prevention Capacity: Addressing the HIV Care Continuum in Southern Metropolitan Areas and States | To provide technical assistance and capacity building/service delivery resources to improve HIV prevention and care services among newly screened, newly identified, and previously identified but out-of-care minority people living with HIV in southern metropolitan areas and states. | American Indians, Alaska Natives, Blacks/African Americans, Hispanics/Latinos | \$ 1,000,000 |
| HRSA | People Living with HIV (PLWH) Leadership and Training | To support leadership training for people of color living with HIV, including women and transgender women of color, by developing digital tools to enable people living with HIV to participate on planning bodies, on care teams, in organizations, on boards of directors, and in other leadership positions. | American Indians, Alaska Natives, Asians, Blacks/African Americans, Hispanics/Latinos, Native Hawaiians, Pacific Islanders | \$ 854,000 |
| IHS | Retention and Re-Engagement in Care | To improve entry and/or re-engagement into care, and improve quality of HIV care for American Indian and Alaska Native people living with HIV using medical informatics tools and adherence support. | American Indians, Alaska Natives | \$ 1,135,000 |
| IHS | National Screening Implementation | To expand the capacity of providers to diagnose and treat American Indians and Alaska Natives with HIV/AIDS and/or HCV through HIV program indicators monitoring and technical assistance. | American Indians, Alaska Natives | \$ 600,000 |
| IHS | Expansion of HIV/HCV Treatment (Regional Model) | To increase clinical capacity for screening, linkage to care, and treatment for American Indian and Alaska Native people with HIV and HIV/HCV co-infection in the Great Plains Area and Oklahoma Area. | American Indians, Alaska Natives | \$ 400,000 |
| IHS | Integrating Mental Health Services with HIV Care | To provide new services to American Indians and Alaska Natives living with HIV who have co-occurring substance abuse service needs to prevent HIV transmission and increase continuity of and quality of care. | American Indians, Alaska Natives | \$ 300,000 |
| IHS | Improving Patient Care and Outcomes | To promote a combination of prevention intervention strategies (outreach and clinical level) in American Indian and Alaska Native communities, with a focus on high-risk persons who inject drugs. | American Indians, Alaska Natives | \$ 300,000 |

| | | | | |
|---------------|--|---|--|--------------|
| IHS | Outreach/Education Activities for Youth | To reduce new HIV infections among American Indian and Alaska Native youth using social marketing and social media. | American Indians, Alaska Natives | \$ 200,000 |
| IHS | Alaska Native Prevention Outreach & Testing Services | To increase the capacity for HIV/STD education, outreach, and testing for American Indians and Alaska Natives living in Alaska including high-risk gay men. | American Indians, Alaska Natives | \$ 200,000 |
| IHS | Disseminating Effective Adolescent Health Interventions in AI/AN Communities | To promote the use of HIV prevention behavioral interventions within existing systems of care to reach at-risk American Indian and Alaska Native youth. | American Indians, Alaska Natives | \$ 200,000 |
| IHS | Clinical Capacity Enhancements | To provide technical assistance to expand Urban Indian Health Program (UIHP) capacity to meet the clinical needs of American Indian and Alaska Natives living with HIV/AIDS. | American Indians, Alaska Natives | \$ 150,000 |
| IHS | Primary Care Management Extension | To increase access to care for American Indian and Alaska Native patients with HIV by increasing clinical capacity of non-specialist Indian Health Services providers to manage HIV/AIDS. | American Indians, Alaska Natives | \$ 125,000 |
| OAH | National Resource Center for HIV Prevention among Adolescents | To provide access to practical tools and resources for service providers, community-based organizations, and professionals who serve racial/ethnic minority adolescents who reside in communities with high HIV prevalence and are at-risk for HIV based on a variety of issues including behavioral risk factors. | Blacks/African Americans, Hispanics/Latinos | \$ 350,000 |
| OHAIDP | AIDS.gov | To build capacity, increase awareness, provide access to Federal resources, and reduce health disparities among racial/ethnic minorities by promoting and implementing the National HIV/AIDS Strategy; using and providing technical assistance on emerging digital technologies to highlight innovative programs serving racial/ethnic minorities; promoting comprehensive prevention strategies such as PrEP, HIV testing, treatment adherence to achieve and maintain viral suppression, retention or re-engagement in HIV care and treatment, and strategies to address and reduce HIV-related stigma, homophobia, transphobia, and discrimination; and coordinating across MAI partners. | American Indians, Alaska Natives, Asians, Blacks/African Americans, Hispanics/Latinos, Native Hawaiians, Pacific Islanders | \$ 2,800,000 |
| OHAIDP | SMAIF Special Projects, Oversight and Administration | To provide staffing support for the development, management, and evaluation of SMAIF-funded projects and other activities that support coordination and improvement of HIV and viral hepatitis prevention and care in communities of color. | American Indians, Alaska Natives, Asians, Blacks/African Americans, Hispanics/Latinos, Native Hawaiians, Pacific Islanders | \$ 567,336 |
| OHAIDP | Addressing HIV/HCV Coinfection | To develop strategies for implementing the diagnosis, ability to access treatment, and successful treatment completion among racial and ethnic minority persons who are coinfecting with HIV and viral hepatitis. | American Indians, Alaska Natives, Asians, Blacks/African Americans, Hispanics/Latinos, Native Hawaiians, Pacific Islanders | \$ 30,000 |
| OMH | Asian American, Native Hawaiian and Pacific Islander Project | To increase the utilization of HIV testing and linkage services among Asian Americans, Native Hawaiians, and Pacific Islanders through coordinated media and community events that promote HIV/AIDS awareness in online settings. | Asians, Native Hawaiians, Pacific Islanders | \$ 630,000 |
| OMH | Awareness, Screening, & Referral in Racial & Ethnic Minority Populations | To increase opportunities for HIV and early hepatitis diagnosis, linkage to care, and improved health outcomes for underserved indigenous and immigrant populations of color. | American Indians, Alaska Natives, Asians, Blacks/African Americans, Hispanics/Latinos, Native Hawaiians, Pacific Islanders | \$ 501,000 |
| OPA | OPA Prevention Project: Evidence-based Promotion of Access to PrEP within Title X Funded Family Planning Services Projects | To develop and disseminate an evidence-based algorithm to provide PrEP services to racial/ethnic minority persons at risk of HIV within Title X funded family planning services projects. | Blacks/African Americans, Hispanics/Latinos | \$ 300,000 |

| | | | | |
|---------------|---|--|--|--------------|
| RHA | Regional Resource Network Project (RRNP) | To provide technical assistance to various stakeholders and to promote and facilitate HIV, STI, hepatitis C prevention, and linkage to care opportunities for racial/ethnic minorities. | American Indians/Alaska Natives, Asians, Blacks/African Americans, Hispanics/Latinos, Native Hawaiians, Pacific Islanders | \$ 1,736,795 |
| SAMHSA | Advancing Prevention and Care Services in At-Risk Urban Communities | To improve health outcomes for people of color at risk of HIV infection through drug treatment, HIV and viral hepatitis screening, and access to PrEP services in conjunction with syringe service programs. | American Indians, Alaska Natives, Asians, Blacks/African Americans, Hispanics/Latinos, Native Hawaiians, Pacific Islanders | \$ 757,570 |
| SAMHSA | Violence Intervention to Enhance Lives (VITEL) | To reduce Intimate Partner Violence (IPV) and HIV-related health disparities experienced by racial/ethnic minority individuals through screening and referrals and reduce risky behaviors that lead to new HIV infections and substance use disorders. | Blacks/African Americans, Hispanics/Latinos | \$ 700,000 |

GRAND TOTAL \$ 50,763,051
