

Native Fish in the Classroom

USFWS Southwest Region

The Native Fish in the Classroom program crosses all scholastic disciplines and results in stronger understanding of math, science and social studies. Raising fish in your classroom is a hands-activity that engages students and helps to connect them to real-life water quality, fish and wildlife issues and problems, and inspires them to seek solutions. NFIC provides standards based curriculum and fish native to local habitats.

ARIZONA

Humpback Chub
Apache Trout

For Arizona classrooms in the White Mountain area interested in participating, please contact Jennifer Johnson at jennifer_johnson@fws.gov
