

Prohibited Application Content

Applications submitted under this announcement will be stored in controlled-access systems, but they will be made available to merit reviewers and they may be made publicly available if an allocation is made. As such, it is critical that applicants follow these guidelines:

- **Do not include information subject to any legal restriction on its open distribution, whether classified, export control, or unclassified controlled nuclear information.**
- **Do not include personally identifiable information, including social security numbers, birthdates, citizenship, marital status, or home addresses. Pay particular attention to the content of biographical sketches and curriculum vitae.**
- Do not include letters of support from Federal officials.
- Do not include letters of support on Federal letterhead. Letters that are not letters of support (such as letters confirming access to sites, facilities, equipment, or data; or letters from cognizant contracting officers) may be on Federal letterhead.
- Clearly mark all proprietary or trade-secret information.

The Office of Science customarily provides awardees an opportunity to review proposals before releasing them under the Freedom of Information Act.

Application Content Agreement

I agree that I am not submitting any prohibited information subject to legal restriction (classified, export control, naval nuclear propulsion information, unclassified sensitive information, or unclassified controlled nuclear information) or personally identifiable information (SSN, birthdate, citizenship, marital status, or home address). If my submission includes proprietary information, I acknowledge that this information will be available and accessible by individuals involved in the review process. (If you do not agree, your Proposal will not be accepted.)
