GIFTING

LIVING

SHARING

LEARNING

Holidays are the time of year for goodwill and cheer. Enjoy the happy side of giving.

It's also a great opportunity to add to your gifting a few books and publications that will open a window to a better understanding of the world around your family. And, think about loved ones who enjoy global news and military history.

This federal set of titles are authored by professional world-class thinkers now sharing their experiences with the American people.

Take a look for yourself.

ART & TRAVEL

A Photographers Path: Images of National Parks Near the Nation's Capital

A collection of color photographic images highlighting nature

and history in the Greater Washington DC area. The photos, taken by Thomas Paradis of the National Park Service, highlight the beautiful (a royal red cardinal flower with ascending blooms of scarlet, shot in DC's own Rock Creek Park), the bizarre (a leopard/tiger-patterned stalk of the grimly named American cancer-root, taken along the George Washington Memorial Parkway), the glitzy (neon lights illuminating the restored amusement park arcade facade at Maryland's Glen Echo Park), and many more.

A Magnificent Showcase: History, Heritage, and Art: The United States Air Force and the Air Force Art Program

This illustrated, large-format book presents the U.S. Air Force Art Program's depiction of the Air

Force across the service's history, starting with the birth of U.S. military aviation under the auspices of the Army. It interweaves the story of the Art Program, including features on artists and their thoughts on significant works, with the history of the birth and growth of the Air Force itself.

In the Line of Duty: Army Art, 1965-2014

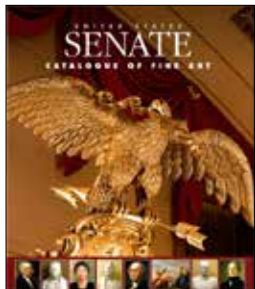

In the Line of Duty: Army Art, 1965-2014, presents art from the Vietnam War through the late twentieth to

early twenty-first century, to more recent operations in Iraq and Afghanistan. It depicts the U.S. Army in all its aspects. The soldier-artists represented here are from the Regular Army, Army Reserves, and National Guard. They continue a rich tradition of documenting the lives of American soldiers at war, in training, and in a variety of humanitarian missions. Artists' statements enhance some of the paintings and describe the thoughts and feelings associated with the artists' mission. The works included are a small sampling of the approximately sixteen thousand pieces of art that constitute the Army Art Collection at the U.S. Army Center of Military History.

ART & TRAVEL

United States Senate Catalogue of Fine Art

The United States Capitol is recognized around the world both as a symbol of our country and for the momentous events that have taken place there. However, the building's

interior is far less well known. Visitors are often surprised by the Capitol's stunning architectural details and the impressive art complementing the interior spaces. Now, those works of art—ranging from portraits of prominent senators to depictions of significant events in U.S. history—are accessible to everyone through the publication of the United States Senate Catalogue of Fine Art. Prepared by the Office of Senate Curator, the catalogue represents the first comprehensive effort to illustrate and interpret this rich collection of paintings and sculpture.

The United States Senate Catalogue of Fine Art highlights 160 works of art, including 82 sculptures, 75 paintings, 2 enameled mosaics, and 1 stained glass window. Each work is illustrated with a color photograph and accompanied by essays and secondary images that place the work in historical and aesthetic context.

Underground Railroad: Official Map and Guide (Folder)

Provides a brief history of slavery in America from 1450-1865. Also describes how slaves were brought to freedom through the Underground Railroad (UGRR) with a map of the escape routes.

The Underground Railroad was a network of secret routes and safe houses used by 19th-century black slaves in the United States to escape to free states and Canada with the aid of abolitionists and allies who were sympathetic to their cause. The term "Underground Railroad" is often used to apply to the abolitionists themselves, both black and white, free and enslaved, who aided the fugitives.

Christmas Tree Pest Manual

The manual is written in everyday language so that anyone with an interest in Christmas trees can read and understand it. This resource is meant to be a tool and not a textbook. Therefore, it provides only the basic

information that you need to know to diagnose and manage pest problems in your plantations.

In addition to the illustrated pest profiles, you will find practical advice on:

- How to look for and recognize potential pests
- How to select, plant, and care for trees so they are less likely to be damaged by pests
- How to keep pests at low levels to prevent tree damage

From Cooperation to Competition: The Future of U.S. - Russian Relations

Russian aggression in 2014 caught U.S. policy and strategy off guard, forcing reactive measures and reevaluation of the U.S. approach toward Russia. Moscow employed nonlinear methodologies and operated just beneath traditional thresholds of conflict to take full advantage of U.S. and NATO policy and process limitations. In light of this strategic problem, the U.S. Army War College (USAWC), conducted a wargame that revealed four key considerations for future policy and strategy.

- The U.S. must shift from a mostly cooperative approach towards Russia to one that recognizes the competitive nature of Moscow strategy.

- U.S. policy must clearly articulate its position toward Russia, Eastern Europe, and Ukraine
- U.S. policy must challenge Russia in the competition of ideas and influence
- U.S. policy must account for the two national election cycles in 2016 and 2018

New! Cyberspace Malevolent Actors, Criminals Opportunities. And Strategic Competition

The emergence and evolution of cyberspace have been an enormously positive force, contributing to globalization, the creation of a new global

commons, the rapid spread of knowledge and ideas, the development of global markets for local products, and the empowerment of individuals and small groups. Yet, cyberspace also facilitates intensified government surveillance of its citizens, creates new opportunities for criminality, provides new avenues for terrorist recruitment, and adds a new playing field within which geopolitical rivalry among great and not-so great powers plays itself out. Dependence of societies on cyberspace also creates new vulnerabilities, which can be exploited by those with few scruples to inhibit their behavior.

Cyber Defense: An International View

A British cyber policy researcher and German computer security specialist provides an overview of four different national approaches to cyber defense: Norway, Estonia, Germany, and Sweden. While

providing a useful guide for engagement with the relevant governmental and other organizations in each of these countries, and, also compares and contrasts the advantages and drawbacks of each national approach.

The wide range of organizational approaches to reaching a “best fit” template for successful cyber defense raises the possibility that other nations may have developed approaches that could be usefully adopted in a U.S. context.

Using Target Audience Analysis to Aid Strategic Level Decision-making

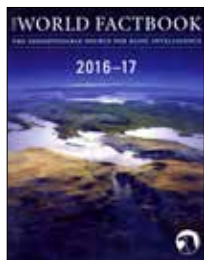

In this monograph, one of the world’s leading experts in Information Operations explains the science behind what he calls population intelligence (POPINT).

He explains how sophisticated social science research and behavioral profiling can be used to warn us of impending issues, and how that information might be used by senior strategy makers as a tool for testing

GLOBAL AFFAIRS

and refining strategy. This is not some ethereal dream; Dr. Tatham shows us that these techniques have been used already to great success. Yet he argues, forcefully, that we are collectively still caught up in old ideas and thinking. He makes a compelling case that the science of Target Audience Analysis (TAA) is now so well advanced that it must become a key component of future strategic decision-making.

The New Arab Regional Order: Opportunities and Challenges for U.S. Policy

This monograph examines the new Arab regional order that has emerged over the past few years and analyzes opportunities and challenges for U.S.

strategic interests. The regional order encompasses: 1) an anti-Islamist grouping of countries that came about largely in reaction to Muslim Brotherhood rule in Egypt in 2012-2013; and, 2) an anti-Shia grouping which solidified in the aftermath of the Houthi takeover over much of Yemen, but which includes other areas of Sunni-Shia conflict in the region. Saudi Arabia is a leader in both orders and has important allies in them, like Egypt.

 Paperback; 57 p.; Price: \$11.00

New! An Arab NATO in the Making? Middle Eastern Military Cooperation Since 2011

The Middle East and North Africa region has been one of the world's most unstable areas since World War II, and

yet, the nations of the region have failed to develop any form of security architecture. The Arab Spring and its aftermath seemed to have opened a window of opportunity for certain Arab states to cooperate more—but how and to what extent remain to be seen. This Letort Paper explains why the region has

struggled so far to establish cooperative security, and what obstacles need to be overcome on the way to a system akin to the North Atlantic Treaty Organization (NATO). This publication makes the case that unless they are addressed, every new announcement of an alliance -be it of Arab, Islamic, Gulf, will remain a pie in the sky. Just as the international community is yet again considering such an architecture - perhaps even including Iran—this idea and its implementation are more important than ever.

Unlocking India's Strategic Potential in Central Asia

India's impressive economic growth over the last two and a half decades has brought India's role and interests to the forefront of global politics and statecraft. Importantly, it has put India into a comparative perspective with

China, another aspiring Asian great power poised to stiffen competition for resources and influence worldwide. Both are resource-hungry and rapidly emerging powers seeking a new place and role in the global and regional orders. Both are also strategic rivals and consider their immediate neighborhood of Central Asia of growing strategic importance to their grand strategies.

Project 1704: A U.S. Army War College Analysis of Russian Strategy in Eastern Europe, an Appropriate U.S. Response, and the Implications for U.S. Land Power

In the summer of 2014, Russia forcibly annexed Crimea from

Ukraine and then actively supported ethnic Russian separatists in an on-going irredentist bid in Eastern Ukraine. This aggressive policy threatens to challenge NATO and the United States in its support of Ukraine and other nations of Eastern Europe. From this changing strategic environment, three central questions emerge: (1) What is the Russian strategy in their periphery? (2) What is the appropriate U.S. response? (3) What are the implications for U.S. land power? The Russian Strategic Environment: Vladimir Putin's grand strategy relies on a complex mix of diplomatic, informational, military, and economic factors to preserve and expand Russian global power.

Paperback; 168 p.; Price: \$21.00

Democratization and Instability in Ukraine, Georgia, and Belarus

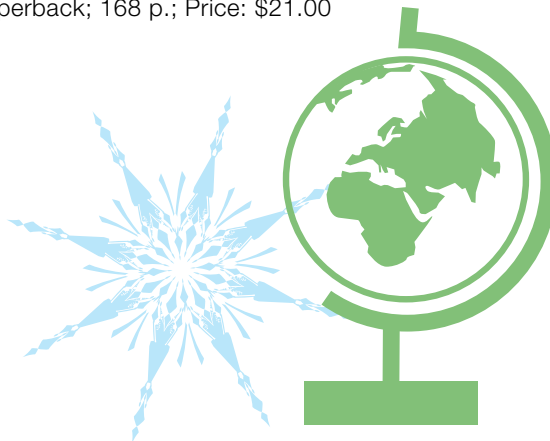

This manuscript analyzes the interconnections between the democratic institutionalization of the newly independent states using the examples of Ukraine, Georgia, and Belarus, their

political (in) stability, and economic development and prosperity. By introducing the concept of regime mimicry into the field of public administration, the author expands the epistemological frameworks of the democratization school to the phenomenon of political culture. Successes and failures of the democratic institutionalization processes in these countries largely depend on the ways their institutional actors reacted to internal and external disturbances of their domestic political, economic, and cultural environments. While Georgia's political culture revealed the highest degree of flexibility in accepting the externally proposed institutional frameworks and practices, the bifurcate political culture in Ukraine impeded its democratic institutionalization, while the rigid political culture in Belarus completely stalled the process of institutional transformations.

Fundamentals of War Gaming

This book presents a comprehensive treatment of the various forms of war gaming, from manual games to computer-assisted games; from one-sided to multi-sided games; and from free-play games to rigid style games.

The author addresses every aspect of gaming imaginable, including data requirements, design, execution, and analysis. Even the use of probability tables to emulate stochastic processing, and the use of flow diagrams for decisions are provided.

It describes the fundamentals of war gaming, its history, and some of the techniques employed in war games.

U.S. Army Campaigns of the Civil War: The Army and Reconstruction, 1865-1877

Within two months of Confederate General Robert E. Lee's surrender at Appomattox Court House on 9 April 1865, the Confederacy had collapsed, and its armed forces had ceased to exist.

In the spring of 1865, the U.S. Army faced the unprecedented task of occupying eleven conquered Southern states and administering "Reconstruction"—the process by which the former rebellious states would be restored to the Union. But a rapid demobilization of the Army placed the remaining occupation troops at a disadvantage almost from the start. This booklet traces the Army's law enforcement, stability, and peacekeeping roles in the South from May 1865 to the end of Reconstruction in 1877, marking a unique period in American history.

MILITARY & HISTORY

The Strategic Lessons Unlearned From Vietnam, Iraq, and Afghanistan: Why the Afghan National Security Forces Will Not Hold, and the Implications for the U.S. Army in Afghanistan

This monograph examines the Afghan National Security Forces in historical and political contexts; explains why they will fail at the tactical, operational, and strategic levels of war; why they cannot and will not succeed in holding the southern half of the country; and what will happen in Afghanistan year-by-year from 2015 to 2019. Finally, it examines what the critical lessons unlearned of these conflicts are for U.S. military leaders, why these fundamental political lessons seem to remain unlearned, and how the strategic mistakes of the past can be avoided in the future.

When the Akimotos Went to War: An Untold Story Of Family, Patriotism and Sacrifice During World War II

The newly released non-fiction book, When the Akimotos Went to War: An untold story of family, patriotism and sacrifice during World War II, captures the story of three Japanese American brothers—Victor, Johnny, and Ted Akimoto—who volunteered for military service while their family members were forced into an internment camp. Despite the nation-wide fear of the Nisei—the first generation of Japanese children born in the United States who were American citizens—the Akimoto brothers pledged their loyalty and bravery to the U.S. military, wanting to prove that being an American ran deeper than race.

New! Keeping America Informed: The U.S. Government Publishing Office, A Legacy of Service to the Nation, 1861-2016

Keeping America Informed: the U.S. Government Publishing Office 1861-2016, is a freshly updated version of the 150 year Anniversary Book about this unique organization.

The book describes GPO's transition from traditional monotype and linotype printing to the digital technology of the 21st Century. Highlights include the role the agency has played in the production and dissemination of federal Government information, from the Emancipation Proclamation, to the Warren Commission and 9/11 Commission Reports, to the latest in secure passport and smart card technologies. Much of the information in Keeping America Informed 1861-2016 is updated with new images depicting GPO's history through 2016. Its authoritative text and engaging images depict the dedication of its employees, past and present, GPO's critical contribution to all federal organizations, Congress, and to the well-being of the American people.

Principles of Community Engagement

This primer can serve as a guide for understanding the principles of community engagement for those who are developing or implementing a community engagement plan, or it can be a

resource for students or faculty. Leaders everywhere are struggling with how to make the right choices as they try to improve health care services and promote individual and population health. Readers of this primer may find that a fuller understanding of community engagement will facilitate and promote its use and thus advance the health of all of our communities.

We have great gift ideas for everyone on your list, for her and him, kids and colleagues, faculty and friends, military and more!

SCIENCE & TECHNOLOGY

Spinoff, 2016

The 2016 Spinoff volume features 52 technologies. Each year, Spinoff features dozens of commercial products derived

from NASA technology that are improving everything from medical care and software tools to agricultural production and vehicle efficiency. The companies featured in this year's publication span a broad range of industries and geographic locations, showing the diverse benefits our Nation enjoys from its investment in aeronautics and space missions.

ISBN: 9780160930355

Paperback; 240 p.; ill.; Price: \$42.00

NASA Journey to Mars: Pioneering Next Steps in Space Exploration

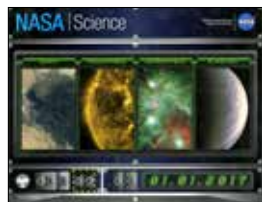

This document communicates NASA's strategy and progress to learn about the Red Planet, to inform us more about our Earth's past and future, and may help

answer whether life exists beyond our home planet. Together with NASA's partners in academia and commercial enterprises, NASA's vision is to pioneer Mars and answer some of humanity's fundamental questions.

ISBN: 9780160931130

Paperback; 34 p.; ill.; Price: \$10.00

New!

NASA 2017 Calendar

Another Out of this World Calendar from NASA 2017.

S/N: 033-000-01380-9

ISBN: 9780160935732

Paperback Calendar; 27 p.; ill.; Price: \$11.00

New! Tour of the Electromagnetic Spectrum

NASA Presents a Dynamic Visual Portrait of a Relatively Unknown Force of Energy

A highly graphic and visually arresting publication featuring a

pictorial depiction of the electromagnetic spectrum. When you tune your radio, watch TV, send a text message, or pop popcorn in a microwave oven, you are using electromagnetic energy. You depend on this energy every hour of every day. Without it, the world you know could not exist. Electromagnetic energy travels in waves and spans a broad spectrum from very long radio waves to very short gamma rays. The human eye can only detect only a small portion of this spectrum called visible light. A radio detects a different portion of the spectrum, and an x ray machine uses yet another portion. NASA scientific instruments use the full range of the electromagnetic spectrum to study the Earth, the solar system, and the universe.

S/N: 033-000-01378-7

ISBN: 9780996778022

Paperback; 34 p.; ill.; Price: \$9.00

The Sun, the Earth, and Near-Earth Space: A Guide to the Sun-Earth System

This colorful book provides concise explanations and descriptions-easily read and readily understood-of what is now known of the chain of events

and processes that connect the Sun to the Earth, with special emphasis on space weather and sun-climate.

S/N: 033-000-01328-1

ISBN: 9780160838071

Paperback; 311 p.; ill.; Price: \$63.00

Sale Price: \$31.50
