

DoD Employee Access to IEEE 15288.1 and 15288.2*

- **IEEE 15288.1 and 15288.2 are currently available at no charge to DoD military and civilian employees via ASSIST, the Defense Logistics Agency (DLA)-sponsored database for DoD specifications and standards.**
- **DoD military and civilian employees may view, download, and print these standards for personal use but may not further copy, prepare, or distribute copies of the standard, or significant portions of the standard, subject to the terms of use of the standard.**
- **Directions for accessing standards through ASSIST:**
 - Request an ASSIST Online account if you do not have one. It may take 5-8 business days to receive approval: <https://assist.dla.mil/online/start/>.
 - When your account is approved, log in to ASSIST using your CAC.
 - In the Doc ID box, enter “15288” to bring up the two 15288 records. Select the hyperlink to either record, 15288.1 or 15288.2.
 - In the Responsibilities block, click the hyperlink in the line “Available From: Click here for information on where to obtain this document.”
 - Below “DoD users may view/download this standard here,” click the hyperlink to the standard.

*These standards have been adopted for use by DoD. DoD adoption does not mean the standard is mandatory. Adoption is an expression of acceptance of a non-government standard (NGS) for repetitive use by those organizations shown as adopting activity, custodians, or review activities. Although adoption and use of the NGS are not mandatory, DoD encourages adoption to provide for document visibility and to identify a DoD technical focal point.
