## 1. Introduction

Prioritized Examination for newly filed applications (Track I) and for requests for continued examination (PE-RCE) provides applicants with greater control over when their applications are examined and promotes greater efficiency in the patent examination process. Prioritized Examination allows applicants who submit a request and pay an additional fee to have their application accorded special status during prosecution before the patent examiner.

The resource page for Prioritized Examination can be located at:

[http://www.uspto.gov/patents/init\\_events/Track\\_One.jsp](http://www.uspto.gov/patents/init_events/Track_One.jsp)

## 2. Basic Guidelines for Filing a Request for Prioritized Examination:

- User must be able to access EFS-Web.
- User must be a registered eFiler, except that an unregistered eFiler may file a new application which includes a request for Track I prioritized application.
- Applicants are strongly advised to transmit their electronic filings sufficiently early in the day to allow time for alternative filing such as EFS-Web Contingency when transmission cannot be initiated or correctly completed.
  - It is strongly recommended that applicants use the Office's certification and request form PTO/SB/424 to request prioritized examination, but the form is not required. The form is available on the Office's Internet Web site at <http://www.uspto.gov/forms/index.jsp>. Failure to use form PTO/SB/424 could result in the Office not recognizing the request or delays in processing the request. If applicant decides to use an applicant-created form for requesting prioritized examination (Track I or PE-RCE), applicant's form should be an equivalent to the Office's form. See the Federal Register Notice titled "Changes to Implement the Prioritized Examination Track (Track I) of the Enhanced Examination Timing Control Procedures under the Leahy-Smith America Invents Act" available at [http://www.uspto.gov/patents/init\\_events/Track\\_One.jsp](http://www.uspto.gov/patents/init_events/Track_One.jsp)
- Consult the current fee schedule available at <http://www.uspto.gov/about/offices/cfo/finance/fees.jsp> for the correct fee amounts. The fees required to be paid on a utility patent application upon filing a request for prioritized examination of that application are:
  - Basic filing fee, as set forth in 37 CFR 1.16(a).
  - Search fee, as set forth in 37 CFR 1.16(k).
  - Examination fee, as set forth in 37 CFR 1.16(o).
  - Publication fee, as set forth in 37 CFR 1.18(d).
  - Prioritized examination processing fee, as set forth in 37 CFR 1.17(i).
  - Prioritized examination fee, as set forth in 37 CFR 1.17(c).

- If applicable, any application size fee, due because the specification and drawings exceed 100 sheets of paper, as set forth in 37 CFR 1.16(s).
- If applicable, any excess independent claim fee, due because the number of independent claims exceeds three, as set forth in 37 CFR 1.16(h).
- If applicable, any excess claim fee, due because the number of claims exceeds twenty, as set forth in 37 CFR 1.16(i).
- If requesting prioritized examination for an RCE , RCE fee, as set for in 37 CFR 1.17(e).

Prioritized Examination requests via EFS-Web are accepted only for nonprovisional utility applications. Requests for prioritized examination for plant applications must be filed by paper.

- If a Prioritized Examination request has been submitted but a necessary component has been omitted, the omitted component must be submitted as a follow-on paper on the same day as the original submission. Prioritized Examination requests that are not complete on the day they are submitted will be dismissed.
- For more information on submitting applications electronically via EFS-Web please review the EFS-Web Guidance and Resources page located at <http://www.uspto.gov/patents/process/file/efs/guidance/index.jsp>. A link to the Federal Register notice entitled “Changes to Implement the Prioritized Examination Track (Track I) of the Enhanced Examination Timing Control Procedures under the Leahy-Smith America Invents Act” is available at [http://www.uspto.gov/patents/init\\_events/Track\\_One.jsp](http://www.uspto.gov/patents/init_events/Track_One.jsp).

**Warning:** For your protection, your EFS-Web sessions will time-out after one hour of inactivity. A Prioritized Examination request that has not been submitted or saved after one hour of inactivity will be lost. You will need to login to EFS-Web again and re-enter the Prioritized Examination from the start.

### 3. Filing a Request for Prioritized Examination of a Newly Filed Application (Track I):
