

UNT College of Business

MBA Energy

The MBA in Energy provides students with a breadth of knowledge in various business disciplines while developing a critical understanding of upstream energy fundamentals, accounting, federal tax, financial reporting, economics, and finance. The UNT Energy MBA combines the integrated, managerial business perspective of an MBA degree with specific practices and tools for the energy industry.

Graduates from the program will have a well-rounded business education, equipped with management tools needed to compete in the domestic and global markets. The core and required courses emphasize skills and values essential to successful leadership: ethics, communication, team-work, global perspectives, use of technology, problem recognition and problem solving. Students will also be acquainted with the legal, regulatory, and environmental issues encountered in the exploration, development, and production of oil and gas.

CAREER POSSIBILITIES Business/Industry Analyst | Chief Financial Officer | Commercial Lender | Controller | Treasurer | Energy Consultant | Project Manager | Financial Planning Analyst | Commodities Trader | Investment Banker | Director of

BACKGROUND COURSES/CONTENT

The College of Business Graduate Programs Office works with students to determine if background deficiency courses will be necessary. Background content might include Financial and Managerial Accounting, Business Information Systems, Statistics, Business Law, Finance, Marketing, Micro and Macro Economics, Operations Management and Calculus. Deficiencies can be completed via traditional academic coursework or through Ivy Software and Responsive.net. Ivy Software and Responsive.net deliver self-paced online learning modules that provide the needed background content without the need to formally enrolling in courses at UNT. For more information go to cob.unt.edu/background.
