Addendum #1-Questions

1. What is the thickness of Powder Free Nitrile Gloves being requested?
 - a. 4ML Thickness
2. What is the size of the first line of Yellow Isolation Gowns?
 - a. XL-May occasionally order size Large
3. What is the desired quantity of isolation gowns, bouffant caps, respirator masks, and shoe covers to be in each box?
 - a. Quantity per box can differ
 - b. Below are the current quantities being received
 - Isolation gowns-10 boxes of 50 per case
 - Bouffant Caps-1000 per box
 - Respirator Masks-12 boxes of 20 per case
 - Shoe Covers-200 per box
4. Regarding the Nitrile Gloves are there any other specifications such as color, thickness, texture etc.?
 - a. Color does not matter; thickness is most important with textured fingers for grip
5. Are there any estimates yearly quantities for each PPE item?
 - a. Estimated quantities are difficult because it varies greatly based on census population, contract, current studies, and staffing. It is a substantial amount as PPE is required every time a person (even a visitor) enters any animal facility.
6. Are there any specs or minimum requirements for the PPE?
 - a. Gloves-must be Nitrile, at least 4ML thick with textured fingers
 - b. Shoe Covers-must be waterproof
 - c. Isolation Gowns-no specific criteria other than gowns must be long sleeve
 - d. Bouffant Caps-21” preferred
 - e. Respirator Masks-flat based masks
