Create a Self-Enrollment Group

Create formal groups of Students to collaborate on work. Groups can be created one at a time or in sets. Self-enrollment allows Students to add themselves to a Group using a sign-up sheet. Make sign-up sheets available to Students on the Groups listing page or by adding a link to a course area, such as a Content Area, folder, Learning Module, or Lesson Plan. When creating a Group using sign-up sheets, the Group can be immediately available to use or made available after all members have signed up.

Each Group has its own space, or homepage, with links to tools to help Students collaborate. Only the Instructor and the Group members can access the Group tools.

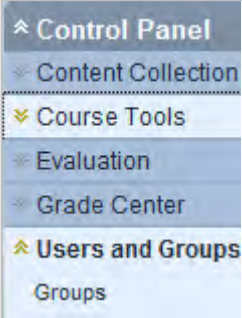

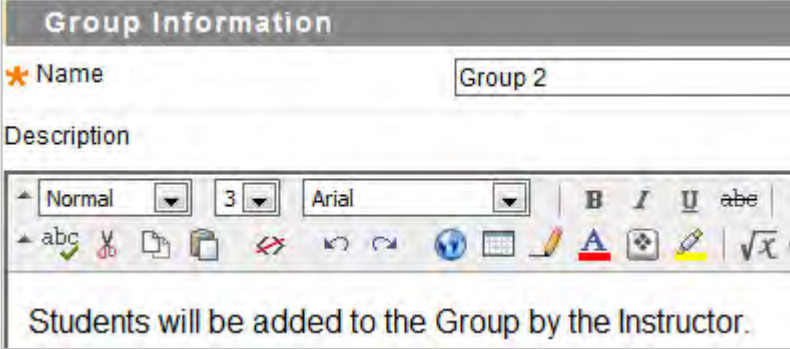

Step 1	Make sure Edit Mode is ON .	
Step 2	On the Control Panel , select Groups in the Users and Groups section.	
Step 3	On the Groups listing page, point to Create Single Group on the Action Bar to access the drop-down list. Select Self-Enroll .	
Step 4	On the Create Group page, type a Name and optional Description .	
Step 5	Select Yes to make the Group Available or select Sign-up Sheet Only .
